However, when Xiang Yongzhan received another phone call on the plane, his face instantly became even more gloomy.

“Ji Feng, to tell you a not so good news, just received news that Professor Yu’s wife called the police, Professor Yu can’t be reached!”

Xiang Yongzhan said, “This is the news just received, it has been confirmed by the Jiangzhou Municipal Bureau!”

Ji Feng’s face changed abruptly at his words, “What? What happened? Professor Yu can’t be reached?”

This news really took him by surprise, originally the sudden accident of Professor Tong and the group of technicians had already made him secretly surprised in his heart, he did not expect that there would be armed men suddenly attacking and robbing Professor Tong and the others when there were military soldiers on duty to defend them.

This was already a bit of a surprise, but he didn’t expect that Xiang Yongzhan would bring such news that Professor Yu could not be contacted.

How could Professor Yu not be contacted?

What’s more, Professor Yu is the main force responsible for the research and development of the new chrome alloy and the development and reuse of various follow-up developments.

Professor Yu is a real authority in his field!

But now he couldn’t even be contacted, which suddenly gave Ji Feng a bad feeling.

If you can make Professor Yu’s wife rush to the police, you can imagine that this is not just a simple matter of not being able to contact him, Professor Yu’s wife must have realized something, or know something.

“That’s right, according to what I know, early this morning Professor Yu’s wife reported to the police, claiming that her husband, Professor Yu, had not returned overnight, the phone could not be reached, and called the unit to the results of the unit people said that Professor Yu had long since gone home!”

Xiang Yongzhan said in a deep voice: “So Professor Yu’s wife immediately reported to the police.”

Ji Feng’s face instantly became extremely gloomy as he asked, “Can we now be sure that something has really happened to Professor Yu?”

It was just that he couldn’t be contacted, so perhaps there were other possibilities, not necessarily that something had really happened. But Ji Feng was actually clear in his heart that this kind of fluke mentality was actually not to be allowed, and the possibility was also really small and slim.

If Professor Tong hadn’t had an accident, Ji Feng might have only suspected this, but now that there have been successive accidents, and even bandits who had the audacity to attack Professor Tong’s compound and even kill the soldiers in charge of security, Ji Feng had to think more.

Xiang Yongzhan shook his head and said, "Right now, we can only be sure that we can't get in touch, but everything else is still not very clear." He had only received a report, but I'm afraid the people below hadn't even investigated the situation yet!

Ji Feng's brain spun rapidly and said, "Then, I'll go with you to see where Professor Tong had his accident and check the situation on the spot, then I'm going back!"

Xiang Yongzhan nodded his head and said, "No problem!"

Seeing that Ji Feng's face looked a bit bad, Xiang Yongzhan couldn't help but ask: "This is located in Professor Tong, does he have a lot of important information?"

Ji Feng nodded and said, "Professor Yu is different from Professor Tong, he is a partner of the Tengfei Group, specialising in the further research and refinement of the new chrome alloy, and is an authoritative expert in this field. If something really happened to him, then"

He shook his head and did not say any more.

Xiang Yongzhan then understood the importance of Professor Yu and asked with a frown, "In that case, if something really happened to Professor Yu, then wouldn't that new chrome alloy in your hands be greatly affected?"

Ji Feng shook his head and said, "That's not quite the case Let's not talk about that first, it's better to find Professor Yu as soon as possible!"

Speaking of this he suddenly had a movement in his heart and couldn't help but ask: "Eh? The actual fact is that you can't get in touch with the actual people who are in the area. How come you were able to receive the news in the first place when he couldn't be reached?"

Could it be that Professor Yu still had some kind of cooperation with the military?

Xiang Yongzhan explained, "Because Professor Yu has something to do with chrome alloy!"

Ji Feng raised his eyebrows at his words, "What does that mean?"

Xiang Yongzhan said, "Don't think too much, it's because the new chrome alloy is too important, so the country attaches great importance to it, and some experts involved in this project are also listed as key protection objects, Professor Yu is one of them, and his developments will be known above at the first time. Not just this project of yours, but other important projects as well."

Ji Feng looked at him suspiciously and asked, "That's all?!"

He was a little unconvinced, not that he didn't trust Xiang Yongzhan, but that the state would really just go ahead and focus on protecting Professor Yu for no reason at all.

Even if there really was, this protection would have to be discounted, I'm afraid that surveillance or some other meaning would be more?

Xiang Yongzhan nodded and said, "Of course! What else do you think?" He seemed to know what Ji Feng was thinking and couldn't help but say, "I know what you're thinking, and it's inevitable, in this world no

matter which country it is, but whenever it involves the national security aspect, it will absolutely do so. But it's definitely just protection from above, nothing more!"

"So that's how you guys protect?!"

Ji Feng gave him a look, "Waiting until people can't even be contacted before you guys receive the news? Then this protection of yours is really timely!"

Xiang Yongzhan couldn't help but blush at his comment and said, "This is not my responsibility and it's not close protection either, I'm just keeping a close eye on Professor Yu's dynamic."

Ji Feng shook his head and did not continue this topic. He believed in Xiang Yongzhan's words, but he didn't know if the top would have given any orders in secret, and God knows whether it was more protection or more surveillance!

However, these are not important now, the most crucial thing is to contact Professor Yu as soon as possible, or rather, to find him as soon as possible!

Suddenly Ji Feng's heart moved and said, "Old Xiang, since the above is protecting Professor Yu, did they not find anything unusual? You still have to have someone's wife call the police before you know about it?"

Xiang Yongzhan also paused, apparently also aware of the situation, but it was not his responsibility, and he did not know too much about the situation, so he had to say, "I will follow up!"

Ji Feng nodded: "If there's any news keep me informed!"

"Don't worry, I might even need your help!" Xiang Yongzhan said, he knew about the strength of that battle team under Ji Feng.

Ji Feng then fell silent, this sudden chain of events, as if someone had designed it a long time ago, gave him quite a feeling of a mountain rain coming!

Since it was still early and not yet the rush hour for work, the road appeared to be clear, so it didn't take long for them to reach Professor Tong and his family's landing place.

Professor Tong and the others were not staying in the guest house of the military district, but in the guest house of the military factory they had borrowed earlier, which was not very far from the factory.

At this moment, a cordon had been drawn around the guest house and everyone inside was forbidden to go out unless there were special circumstances before they would be let in.

A man in military uniform came over, looking like the person in charge of the scene. After greeting each other, they heard him introduce himself, "It happened at 3.40am. There were seven enemies in total, all armed."

Xiang Yongzhan asked, "Seven men? Seven people could take away dozens of technicians?"

The man in charge shook his head and said, "Because they brought a bus with guns to escort those people and pulled them away in one load!"

"A bus?!"

Xiang Yongzhan couldn't believe his ears, "Then have you found out?"

Ji Feng was also stunned, this group of bandits were not sick in the head, right? They were using a bus to kidnap people and pull them away? Wasn't this looking for death?

The bus was such an obvious target, where could it run to?

And with so many people, the target was even bigger, so it was no wonder that Xiang Yongzhan asked directly if they had found it. If they couldn't find out about a bus, then they were just people who ate for nothing!

The man in charge nodded and said, "We've already caught up with them."

"Tracked it down?"

Xiang Yongzhan immediately asked, "Where is it? Are Professor Tong and the others still safe?"

The person in charge was a little hesitant: "Captain Xiang, we only caught up to the bus, there were only about twenty technicians on board, but the rest of the technicians and Professor Tong were all gone!"

Xiang Yongzhan frowned: "What did you say?!"

There were only more than twenty technicians, but there was no sign of Professor Tong and the rest of those people?

Ji Feng listened next to him without saying anything, he didn't know the situation well enough to make a judgment right now.

"At that time, we mobilised all the surveillance, including the police's skynet, and quickly traced it back to the bus, but when we arrived we found that the bus was parked by the roadside with quite a few technicians on board, but all of them were unconscious!"

The man in charge elaborated, "While we continued to trace the bus, we first rescued all the technicians and checked the bus at the same time. However, when we woke those technicians up, they didn't know what was going on, they just knew that after being escorted to the bus, they passed out in a daze and didn't know why they had fainted on the bus, let alone where Professor Tong and the rest of the people had gone"

Xiang Yongzhan and Ji Feng looked at each other and both felt a little strange, since the other side was able to take away the remaining twenty or so people and Professor Tong, then why couldn't they take these people along with them, instead they still left them on the bus?

"Where are those technicians who woke up now?" Xiang Yongzhan asked.

"Right here in the guest house, but they've been given new rooms, their original rooms have all become the scene to be protected!" The man in charge said.

Xiang Yongzhan immediately said, "Take me to meet them!"

Ji Feng, however, stopped him with one hand and said, "Old Xiang, watch the surveillance first!"

Campus Master Chapter 2942

However, Ji Feng stopped him and said, "Old Xiang, watch the surveillance first!"

Xiang Yongzhan immediately understood Ji Feng's meaning after just a moment's thought and nodded, "Watch the surveillance first!"

However, the person in charge had a difficult look on his face and hesitantly said, "Captain Xiang, it may be a bit difficult for you to look at the surveillance!"

Xiang Yongzhan frowned abruptly, "What?"

The person in charge said, "You'll know if you come and take a look. Please follow me!" He turned around and walked towards the inside of the reception.

The reception's surveillance room was located at the front desk of the hotel, and at this time, the leaders of the reception had been controlled, and the waiters inside, especially those who were on duty that night, had also been controlled, and the surveillance video at the front desk was being carefully and repeatedly reviewed.

Xiang Yongzhan they came in, the person in charge said: "This group of people's movements are quite swift, and they seem to be extremely familiar with the layout of the interior of the guest house, came to go straight to Professor Tong's room, for the other rooms are simply ignored"

said, he had the surveillance tuned to the very beginning of last night.

The picture is very dim, vaguely, there seems to be a human figure swaying, look at the angle of this shot, this is a camera placed in the lobby of the guest house, someone walked in, from the picture this is probably a young man, because the surveillance camera is somewhat distorted, so can not see this person's head, only from the walking posture can be seen at this time should not be too old, because his movements and walking speed are fast!

This man seemed to say something to the people at the front desk, and then without any warning, he saw the two people at the front desk suddenly slumped down on the desk.

Xiang Yongzhan frowned, "Fainted?"

The man in charge nodded and said; "Yes, I have already asked these two people, he said that the customer who came in at that time had a small bottle in his hand and the smell emitted was a bit pungent, but they didn't care at first as they thought it was just a drink, then the next thing they didn't know."

Xiang Yongzhan nodded and said, "It seems that the so-called drink that that person was holding should be some kind of drug that can make people unconscious!"

Xiang Yongzhan was no stranger to similar drugs, the military had many of them, and there were also many in the black market, so it was easy to get them if one wanted.

What interested Xiang Yongzhan, however, was the actions of the gang of bandits.

As the scene continued to advance, the man was seen looking around after the man at the front desk had passed out, and then he walked in towards the inside.

Xiang Yongzhan immediately asked, "What is this place inside?"

The man in charge said, "It's a place for the waiters to rest, a miscellaneous room, a warehouse, and a power distribution room!"

A power distribution room?

Suddenly, the screen went dark!

Ji Feng said, "It's true, the other party went in to cut off the power, but the good thing is that although the power was cut off, the picture was still going on, it seems that the surveillance should have a backup power supply, and it also has infrared function.

Xiang Yongzhan said, "Immediately calculate how long it took from the time that man went in to the time that the power was cut.

The person in charge immediately responded, "Yes."

Ji Feng, however, could not help but narrow his eyes, only to see seven bright spots suddenly appearing in the screen wavering, and then quickly disappearing.

After comparing the situation inside this guest house, Ji Feng immediately concluded that those seven bright spots just now had gone upstairs!

"Those are the seven bandits!"

That person in charge said, "Because of the huge contrast in light, the infrared camera didn't shoot too well, but if you identify them carefully you can still see seven figures!"

As he said that, he immediately called up the upstairs surveillance, and this time, the picture became clearer, because the upstairs had a suspended ceiling and the floor was much shorter, so the camera was shooting closer, and the picture was clearer than the surveillance in the hall. Through the screen, seven figures could indeed be seen moving rapidly.

Xiang Yongzhan asked, "When the power suddenly went out, didn't it attract anyone's attention? Was everyone asleep at the time?"

The man in charge nodded with a bitter smile and said, "That's right! Everyone was already asleep at that time of day."

The bandits had really chosen the right time, that was the time when people were at their deepest sleep, whether the power had suddenly gone off or not would not be noticed in their sleep for a short time.

Afterwards, we saw that the figures in the picture kept swaying, and there were more and more figures, only that we could not hear the sound, but we were able to deduce that it was the bandits who had made their move and started to kidnap people!

Ji Feng looked back outside and asked, "Is there a camera outside the guest house?"

The cameras inside were dark no matter how you looked at them at all, so it was better to look for clues from outside, but on second thought, since the military had caught up with the bus, it meant that they had also taken this into consideration and must have looked at the cameras outside as well.

As expected, the man in charge nodded and said, "Yes. We've already checked, the other side drove over in a total of four cars, including a bus, two commercial vehicles and an off-road vehicle, we've checked, the cars are all registered, and the bus was parked at an angle that blocked one of the cameras outside, so we couldn't see the seven bandits."

"It's a master!"

Xiang Yongzhan blurted out, "These people are definitely experts, otherwise with just seven of them trying to kidnap so many people, even if they were armed, they couldn't have done it so quickly!"

Ji Feng said, "They're also old hands!"

He had calculated the time these people took to act, it was very swift and they were definitely veterans.

"Check for me!"

Xiang Yongzhan said in a cold voice with a sullen face, "Since these people know the interior of the guest house so well, it means that they have come to the guest house more than once, and with such a clear target, they must have come after they learned that Professor Tong was staying at the guest house. Get Professor Tong and the others out safely!"

The person in charge immediately said, "Yes!"

Xiang Yongzhan looked at the surveillance again before he stood up and said, "Ji Feng, let's go up and take a look!"

Ji Feng nodded, he also had this intention, to see the scene with his own eyes, maybe he could find something.

Not enough to disappoint them, the room of Professor Tong and the others was not a trace of anything other than a bit messy, and neither of them were criminal investigation experts, so they did not intend to go in and add to the mess of the detection experts.

"Wait a minute!"

Ji Feng suddenly asked, "Did Professor Tong and the others lose their luggage?"

Xiang Yongzhan's face also changed at his words, this was a very important question, and he looked at the person in charge. The latter shook his head and said, "Their luggage is all there."

"All there?!"

Ji Feng raised his eyebrows, Xiang Yongzhan was also a bit surprised, this was strange, did the group not come for the laser guns?

"No!" Ji Feng shook his head and said, "Old Xiang, you'd better arrange for someone to question those abandoned technicians carefully again, there's no way these people kidnapped Professor Tong and the others without any intention at all!"

He said he was asking Xiang Yongzhan to arrange for someone to investigate, but in fact this was said to the person in charge, but after all, he was not a member of the military, and it was not good enough to directly order the other party, and it would be better to convey it through Xiang Yongzhan.

The person in charge was also very sensible, and when he saw Xiang Yongzhan nodding, he immediately said, "I'm going to check it out!"

"Wait a moment!" Ji Feng suddenly remembered something else and said, "If I remember correctly, I remember that Professor Tong had a black suitcase, not very big, almost 40 or 50 centimeters high, but he didn't use this to carry luggage, but to carry some information, please send someone to check and see if Professor Tong still has that suitcase in his room!"

When he said that, both Xiang Yongzhan and that person in charge couldn't help but have their faces change slightly, the latter panicked and sent someone to check, but not a moment later, he came back with a slightly unpleasant look on his face.

"It's gone?!"

Xiang Yongzhan's brow furrowed as he asked.

The man in charge nodded and said, "I asked the experts who were inside detecting, they didn't find such a suitcase, and everyone else, too, didn't see it. But there is a technician who remembers that Professor Tong brought this suitcase back from the factory last night"

Ji Feng and Xiang Yongzhan looked at each other twice and both understood what the other meant.

Having said that, things were already very clear.

Although we didn't know who did it yet, there was no doubt that the gang of bandits must have come for the laser gun!

"Keep checking!" Xiang Yongzhan gritted his teeth, his face grim as he said in a deep voice, "With so many people, they can't get far, even if we have to dig up the ground, we have to find out that gang of bastards for me!"

"Yes!"

The man in charge shouted.

Seeing this, there was not much need for Ji Feng to stay here, detection was different from interrogation, if interrogation, he naturally had many ways, but in terms of detection, although he could not say he was an amateur, he might not be able to compare to those experts.

Now that he was sure that Professor Tong had been kidnapped and that the other party had come for the laser gun, he had a good idea of what was going on, so he left the matter of rescuing and tracing to the military, he had more important things to do.

"Old Xiang, I have to go back."

Ji Feng said, "I have to go to Professor Yu's place to check it out!"

Xiang Yongzhan also knew the importance of Professor Yu, and he immediately nodded and said, "I'll see you out!"

Ji Feng didn't refuse and went out of the guest house with Xiang Yongzhan. Only at the roadside did Xiang Yongzhan suddenly ask in a low voice, "Ji Feng, did you see anything?"

Ji Feng shook his head, what he saw out, Xiang Yongzhan also saw out, there was too little information now, didn't know what the gang of bandits looked like, didn't know where they came from, didn't know too much, the only thing he could see was the first one who came in and cut the power.

"We can only be sure that those guys are masters!" Ji Feng said.

"Do you have any object of suspicion in your mind?" Xiang Yongzhan asked.

Ji Feng nodded: "There is, but I'm afraid that preconceptions will mislead the investigators!"

Xiang Yongzhan immediately asked, "Who do you suspect of doing this?"

Ji Feng was silent for a moment before he said, "I suspect it was someone from Dynasty, but am not sure!"

Campus Master Chapter 2943

Ji Feng was silent for a moment before saying, "I suspect it was someone from the dynasty, but am not sure!"

Xiang Yongzhan didn't show too much surprise at this, but frowned and asked, "Tell us your reasoning as to why you suspect Dynasty!"

"It seems that you also have this thought in your mind right?" Ji Feng shook his head and said, "Actually there isn't much reason, it's just suspicion."

"What kind of reason is that for you!" Xiang Yongzheng said.

Ji Feng deliberated for a moment before saying, "Actually, to say that there are not no reasons, first of all one, according to my understanding, Dynasty often kidnapped some scientists or authoritative experts in certain fields to serve them in the past, this I learned from Dynasty's transformation population, from this point of view, it can be justified for them to kidnap Professor Tong! "

Xiang Yongzhan nodded, that was true, "What else?"

Ji Feng said, "Secondly, although the radium gun is listed as top secret, but in fact, in my opinion the level of secrecy is simply not enough, not to mention the others, just those technicians alone may not really be able to keep it absolutely secret, those people have a problem with their mentality. The Dynasty should have been the first to develop the laser gun, and with their infiltration in China, God knows if they have already learned the secrets, in that case, it would be logical for them to send someone to snatch the information!"

His words made Xiang Yongzhan's frown tighten, because from Ji Feng's words Xiang Yongzhan suddenly discovered a problem that had previously been overlooked by him, or rather by the security department, the secrecy of the technicians!

After a moment of contemplation, Xiang Yongzhan said, "You go on!"

Ji Feng said, "Another thing is, in my perception, Dynasty is definitely capable of this to kidnap Professor Tong and the others unnoticed, seven experts came down in one go, when did experts become so worthless in this world?"

Xiang Yongzhan blurted out, "You mean transformers?!"

Ji Feng shook his head and said, "It's not easy to say, but we can't rule out this possibility. As I said just now, this is just a suspicion of mine, but I'm not sure myself!"

Of course, Xiang Yongzhan knew that this was only Ji Feng's guess, Ji Feng had the same information as he did, or even not as much as he did, and he didn't even know, so how could Ji Feng come up and deduce who did it?

But Ji Feng's words were able to give him a hint, a direction for reconnaissance of sorts!

"Don't let my words mislead you!"

Seeing that Xiang Yongzhan was pensive, Ji Feng then said, "Just now I didn't say anything because I was actually afraid that my suspicions were wrong and might mislead the investigators, and so are you, you can use my words as a reference, just listen to them, but when investigating you have to put them aside and detect them based on what you have learned!"

After all, speculation can't be taken seriously, as long as there's no conclusive evidence or seeing with your own eyes that it was Dynasty's transformers who kidnapped Professor Tong and the others, then you can't say with certainty that it was Dynasty who did it!

Because Ji Feng also suspected that it might be other forces as well.

For example, certain countries had hidden forces lurking in China, as if China likewise had hidden forces in other countries, and Ji Feng had once heard that there were Chinese agents abroad either bribing with money or stealing secretly, getting a lot of confidential information from abroad anyway.

Otherwise, why would China's technology have developed so rapidly within these decades?

This kind of argument was still very marketable, but exactly how, Ji Feng wasn't too sure, this kind of thing couldn't be figured out by anyone other than the person who was really in charge.

"But there's one thing I find interesting."

Ji Feng suddenly said, "Why are those people so familiar with Professor Tong and the others, and so familiar with this guest house? I'm afraid this wasn't done just by stepping on the spot beforehand, right?"

A cold light flashed in Xiang Yongzhan's eyes as he asked, "You mean has a mole?"

Ji Feng said, "This is not a small possibility!"

Xiang Yongzhan nodded silently, in fact he also had this suspicion, but they had only just returned after all, many situations were still unknown, it was too early to jump to conclusions, this still needed to be investigated!

But it was foreseeable that a covert investigation would definitely follow while tracking down Professor Tong and the others.

“Alright, you hurry up and go investigate, I’m going to Professor Yu’s place!” Ji Feng said.

“I’ll arrange for a car to take you!”

Xiang Yongzhan arranged a less conspicuous sedan, although it had military plates, it was just a Volkswagen Passat, very ordinary, in a place like Jiangzhou even if it was seen by people I’m afraid they would only think it was someone’s official car for private use or something like that.

This is exactly what Ji Feng wanted. He took Bai Zhu and rushed directly to Professor Yu’s house, and at the same time called Xiao Yuxuan and Han Zhong to tell them to be prepared and to be on guard.

When he arrived at Professor Yu’s house, Ji Feng first saw two police cars on the roadside downstairs. He looked up and thought that perhaps the police had come to Professor Yu’s house to understand the situation.

The first thing you need to do is to get to know Professor Yu’s house and see his wife. In fact, even Professor Yu’s address is something he got from Xiang Yongzhan, so Ji Feng is on high alert.

When he arrived outside Professor Yu’s house and found the door closed, Ji Feng didn’t knock on the door in a hurry, but stood outside and listened carefully, he could vaguely hear some sounds inside, obviously someone was home.

“Knock knock knock!” Ji Feng knocked on the door.

“Who is it?!”

A man’s voice came from inside at once, and then another woman’s voice was heard, “Open the door, see if it’s your father who’s back!” This voice was a little old.

Subsequently, the door was opened and a middle-aged man, probably in his forties or fifties, was seen on the face, once Ji Feng took a look at his looks, he instantly had a good idea, needless to say, this must be Professor Yu’s son, they really looked too much alike, father and son.

“Who are you looking for?!” The middle-aged man asked somewhat warily when he saw the duo of Ji Feng and Bai Zhu standing at the door.

“Hello, we are employees of the Tengfei Group, we heard that Professor Yu could not be contacted, so we came here to take a look on behalf of the company!” Ji Feng smiled and said.

“Tengfei Group?!”

When the middle-aged man heard about the Tengfei Group, his face more or less eased and his wary look dissipated somewhat, he was aware that his father was working with the Tengfei Group and had also developed a new alloy that had caused a stir in the industry and even in the world.

“Please come in, you two!” The middle-aged man said.

After taking a look at the shoe cover machine at the door, Ji Feng went in and put on his shoe covers and entered the living room.

Then he saw an old lady sitting on the sofa and was wiping her tears.

“Mom, it’s someone from the Tengfei Group!” The middle-aged man made a gesture of invitation to Ji Feng.

“Hou Sheng, pour water for the guest!” The old lady commanded.

Ji Feng hurriedly said, “No, no, you’re too polite, old lady.” From this, it could be seen that Madam Yu was a very cultivated person, she would still pay attention to these manners in this situation, obviously this was a habit developed over the years.

Yu Hou Sheng still poured a glass of water for each of them, and Ji Feng politely said a few words before asking, “Madam Yu, it’s like this, we heard that Professor Yu couldn’t be contacted, and we were also very concerned, so we came over to find out the situation, and also wanted to know what you needed, our company will definitely try to help!”

“Thank you for your kindness, I don’t need anything!” The old lady shook her head, “I just hope that my family Old Yu can hurry back!”

Ji Feng couldn’t help but be silent, he really didn’t know how to answer this question, he could only console, “Mrs. Yu, don’t worry too much, Professor Yu is a good man, fortune has its own destiny, besides it might just be a coincidence, don’t think too much about it!”

But Mrs. Yu just shook her head and let out a long sigh. She had lived her whole life and how could she not understand that Ji Feng was just comforting her.

The first thing you need to do is to think carefully about whether Professor Yu has shown any unusual behavior in the past few days. Or is there anything different about him than usual?”

Mrs. Yu shook her head, “The police have asked all these questions, and there are really no signs at all.”

Ji Feng asked with deliberation, “Really no signs at all? You

“Sorry, my mother is not in a very good mood right now, you see” Yu Hou Sheng interrupted Ji Feng, not wanting him to ask further questions.

“I’m sorry.”

Ji Feng nodded apologetically, he also knew that the old lady must be in a very low mood now, and it was not good to ask further questions, but in his heart it was strange, Professor Yu suddenly lost contact without any abnormality at all, could it be that he did not notice the danger approaching at all?

In fact, now Ji Feng’s heart is already inclined to be something wrong, but now is a momentary clueless.

“How about this, now the police comrade happens to be in, if you want to understand this aspect of the situation, you can find out with the police.” Yu Hou Sheng said.

Ji Feng was stunned, “The police are here?”

Yu Housheng nodded and said, “That’s right. Right now, the police comrade is in the study, you can go there if you want to understand the situation!”

Ji Feng immediately felt a little strange, what were the police doing in someone's study?

"Snap!"

Just as he was saying that, the sound of the door lock turning came and he saw the door of a room being opened, four policemen came out one after another, two of them still had bags in their hands, and the last one to come out was a middle-aged woman.

Yu Hou Sheng said, "They're coming out."

Ji Feng asked with some confusion, "They are"

Yu Hou Sheng explained, "The police comrades, in order to look for my father, wanted to check if my father had been involved in any recent incidents, or if there was something that was coveted, thinking that only the projects my father was involved in might be coveted, so the police comrades went to the study to check."

"Old lady, Mr. Yu, we found some information in the study that might have something to do with Professor Yu's disappearance, and we're going to take it back for a closer examination, about which we've already explained to the lady." A policeman said.

Both the old lady and Yu Hou Sheng nodded their heads and had no comments.

But Ji Feng couldn't help but frown, bringing the information back?

He immediately said, "Wait a minute!"

Campus Master Chapter 2944

But Ji Feng couldn't help but frown, bringing the information back?

He immediately said, "Wait a minute!"

A few police officers did not seem to hear, one of them said to Hou Sheng: "Mr. Yu, this is my number, during our investigation, if you have any news or clues about Professor Yu, you must call me at the first time, this may be very helpful for us to find Professor Yu as soon as possible!"

It was a matter of his father's safety. Yu Housheng, of course, did not dare to be the slightest bit negligent and nodded, "Yes, if there is any news, I will definitely tell you in time!"

The policeman nodded and said, "Alright then, that's all for now, we have to go back and investigate as soon as possible!"

With that, those four policemen were ready to head out.

"Swish!"

They were just about to leave when they were stopped in their tracks, Bai Zhu stood in the doorway and stopped them with her hands, saying in a cold voice, "A few of you please stay!"

Although she spoke politely, those four policemen couldn't help but stare, because they didn't see the slightest bit of politeness on Bai Zhu's face, and, moreover, the chill in Bai Zhu's words made them flinch, and then they became wary.

“Who are you? What are you stopping us for?!” A policeman asked in a deep voice.

“A few of you take it easy!”

Ji Feng stood up and asked, “We are also concerned about Professor Yu, so we just want to ask, how far have you gotten in your investigation?”

The policeman immediately said, “What step has the investigation reached? It’s still under investigation, so we can’t reveal it to the public yet!”

Ji Feng nodded and said, “Understandable! So I would also like to ask you all to understand that you can’t take away Professor Yu’s things!”

“Why can’t you take it away? This information will probably have something to do with Professor Yu’s disappearance, so why do you want to stop it?” The policeman’s face instantly sank, “You’re interfering with the normal handling of the case, do you know that?!”

“I don’t mean that, however, a lot of Professor Yu’s information is related to our company’s internal secrets, which is something that cannot be known to outsiders, so you can’t take his information away!”

Ji Feng said as he glanced at the policemen, “In addition, I would like to see a few of your documents!”

The policeman’s face instantly sank as he turned his head to look at Yu Hou Sheng and the old lady and asked, “Is he from your family?”

Yu Housheng and the old lady were both a bit confused by this scene in front of them, these police officers came to investigate, why did Ji Feng stop them? Was it just because the information might really involve the Tengfei Group that they were stopping it?

This made Yu Hou Sheng and the old lady’s hearts a little unhappy, I really don’t know what kind of company this is, now that their family members are missing and the police are coming to investigate, they are actually worried about leaking secrets first, this is simply not putting Professor Yu’s life or death at heart!

“No!”

Yu Hou Sheng shook his head decisively.

The policeman’s look at Ji Feng became somewhat vicious as he drank, “Who are you to come here to cause trouble for no reason? Interfering with the police case, I think you have evil intentions!”

Ji Feng narrowed his eyes and stared at him, saying, “Even if I have malicious intentions, or even mischievous intentions, you can totally arrest me, but, before arresting me, I want to see your papers!”

“Step aside!”

The policeman shouted with a sullen face, “What is the situation now, and you dare to play tricky here? Get out of the way! Or else I’ll bring you along to the police station for a chat too!”

Ji Feng said in a deep voice: “No problem at all! As I said, you can arrest me as long as you let me confirm your identities! Now, please show your documents!”

The policeman's expression became several fierce and vicious as he stared at Ji Feng, saying viciously, "Kid, if you delay by causing such trouble, you will probably delay the precious time to rescue Professor Yu, are you trying to help Professor Yu or harm him?!"

Yu Hou Sheng and the old lady's face changed at the same time, Yu Hou Sheng hurriedly said, "That police investigation is normal, you should not stop it, right?"

The old lady also hurriedly said, "Young man, is our family old Yu offended you ah, have come to this point, you will be merciful!"

Ji Feng was unmoved, but he just stared at the policemen and said in a cold voice: "Show your IDs, or else I'll assume you're fake policemen, and you'll suffer the consequences!"

Fake police officers!

Yu Hou Sheng and the others couldn't help but change colour again, "This, this can't be possible, right? I've seen their papers before, no, there's nothing wrong"

"Kid, who are you, what are you doing here!" A policeman bellowed.

"Who are you calling a fake cop, do you know what you're talking about?"

A few other policemen immediately got angry upon hearing this and drank, looking extremely angry, one of them even pointed at Ji Feng with great arrogance and shouted coldly.

"Ka ka ka!"

"If you dare move your hand back one more time, I'll shoot you right now!" When Bai Zhu pointed her pistol at one of the policemen, her pretty face was frosty, and those cold words instantly silenced all the voices, including Yu Hou Sheng and the others, who also looked at Bai Zhu with extreme shock.

No one expected that such a beautiful woman would suddenly draw her gun How could she have a gun?

Those few policemen likewise changed their faces, all looking extremely stunned, obviously also not expecting Bai Zhu to have a gun, but immediately, the policeman standing in front of Ji Feng shouted, "What are you trying to do! Put the gun down!"

Bai Zhu said in a cold voice, "Show your papers!"

"Do you know what kind of behavior you're doing? You're breaking the law!" The policeman bellowed.

"Don't worry, it's 100 percent legal for her to have a gun, now, you are needed to prove that you are really police officers first!" Ji Feng said in a cold voice, "Show me your papers!"

The policeman said in a cold voice, "How dare you hold a policeman hostage in broad daylight, how dare you! Don't think you can escape, let me tell you, Professor Yu had an accident, this has become a key monitoring area for our police, we"

"Shut up!"

Before that policeman could finish his words, Ji Feng snapped the man's neck with one hand and said coldly, "Where are the documents?! I don't have that much patience!"

However, that policeman was held by Ji Feng's neck, yet he was still extremely tough and said through clenched teeth, "Kid, you better not scare me, what haven't I seen in all my years as a policeman"

"Take them down!"

Ji Feng is too lazy to talk nonsense with them, no matter whether these are real police or fake, now since it has come to this step they must be taken down, if they are real police, then explain afterwards, but if they are fake police no matter what, no one can take away Professor Yu's information!

The tacit understanding between Bai Zhu and Ji Feng is naturally needless to say, when Ji Feng just said the word take down, Bai Zhu suddenly moved, lightning attacked the two police officers closest to her.

The police officer then let out a scream and felt half of his body tremble in pain, he couldn't even stand up and fell to the ground.

And at this time, Ji Feng had already smashed his fist into the chest of the other policeman with a bang.

"Uh uh"

That policeman's hands desperately covered his chest, his face was red and flushed, his mouth was wide open, his eyes were wide, he tried to breathe hard, but all he could do was make this painful sound in his throat, and he fell straight to the ground.

By this time, Bai Zhu's side had also finished, and the two policemen were similarly taken down by her. The only thing was that the two policemen who were attacked by Bai Zhu had already passed out, so obviously there was still some distance and gap between Bai Zhu and Ji Feng in terms of controlling the force!

This process may sound complicated, but in reality it was only a blink of an eye, otherwise how could the policemen have been taken down without any reaction at all?

And that was even faster for Professor Yu and the others, so fast that they hadn't even reacted after Ji Feng and Bai Zhu had taken down those four policemen.

"This, this"

Yu Hou Sheng's family was stunned, how could they have not expected that these two young men would attack the policemen, and that the policemen would be knocked down in an instant, without the ability to resist at all!

Ji Feng explained, "Mr. Yu, old lady you don't have to be afraid, we are not bad people, I just suspect that these few policemen are fake, they came perhaps possibly to steal some of Professor Yu's scientific research results, don't worry, I will check their documents now white beads and call the police! "

Bai Zhu nodded and immediately took out the phone and called directly to the Jiangzhou Municipal Bureau office, claiming that there were people pretending to be police officers at Professor Yu's house who wanted to steal confidential information.

And at the same time, Ji Feng was from those several police officers were searched out guns, he looked at, are the police with guns, the system weapon, but there is nothing suspicious!

The police had no suspicions about them.

Ji Feng's brow couldn't help but frown twice, could it be that these were all real police officers?

The weapons and documents were real, and more importantly, the attitude of these few policemen were arrogant and fierce, well, that's the characteristic of a policeman

However, when Ji Feng saw the police number on this policeman's clothes, he couldn't help but frown a bit, picked up his mobile phone and called directly to Xiang Yongzhan, saying, "Old Xiang, check a police number for me!"

Xiang Yongzhan was stunned: "Checking the police number?"

"That's right, we'll talk about what's going on later, let's get it done first!" Ji Feng said, he quickly told Xiang Yongzhan all the police numbers of these police officers, but at this moment, Ji Feng suddenly realized that in Jiangzhou's police system, he didn't even have any competent manpower left!

After Zheng Yuanshan's transfer, with the rift in his relationship with Li Ruonan, he had no one he could trust within the police system!

Campus Master Chapter 2945

Without someone to trust within the police system, this means that many things are not very convenient to do, especially when it comes to matters involving the police.

For example, right now, just to check a police number, it takes so much trouble!

Ji Feng secretly said in his heart, it seems that there are some places that he had overlooked in the past.

In the phone, Xiang Yongzhan said, "Ji Feng, the four police numbers you provided are all true!"

"Really?!"

Ji Feng was stunned, could it be that these four were all real police officers, if so, perhaps he really was overthinking it?

Xiang Yongzhan said, "That's right, they're all real! It has been confirmed by the police!"

Ji Feng's brow couldn't help but frown, this result was really a bit out of his expectation, these four policemen were actually real! Originally, he had thought that these policemen were probably fake when he saw that they were suspicious, but now it was confirmed through Xiang Yongzhan that they were all real, which made Ji Feng's previous judgment erroneous.

Was it because there were too many things happening in this succession that made his own judgment all wrong? Ji Feng secretly said.

"By the way, what are you doing checking police numbers for no reason?!" Xiang Yongzhan asked.

"I ran into four policemen at Professor Yu's house, they claimed to be investigating the case of Professor Yu's disappearance and wanted to take some information from Professor Yu's study, I suspected that the information might involve secrets, so I stopped them!" Ji Feng said in general terms.

When Xiang Yongzhan heard this, he said, "Surprisingly?! Where are those four policemen now?"

Ji Feng said, "They were all subdued by me, I just couldn't confirm whether their identities were real or not, that's why I asked you to check the police numbers for me!"

"....."

Xiang Yongzhan couldn't help but freeze, he didn't expect Ji Feng to be so fierce, he had already subdued the people, but now that he had confirmed that those people were real, this was a bit hilarious

But suddenly, Xiang Yongzhan seemed to remember something and said in a hurry: "Ji Feng, what did you just say? Those four policemen went to Professor Yu's place to investigate?"

Ji Feng nodded his head and said, "That's right, why?"

Xiang Yongzhan said, "That's not right, what I found out here is that two of them are both internal officers!"

"What?!" Ji Feng asked at once, "Tell me clearly!"

"The four police numbers you asked me to check just now, two of them are internal staff, and they are all still in charge of civilian duties, how come they went out in the field?" Xiang Yongzhan said.

Ji Feng instantly said, "You send all four of those people's photos to my phone!"

Finally, we found something wrong!

This made Ji Feng realise that his speculation was probably not wrong, not that he was wrong, but that these few people had done it perfectly!

Xiang Yongzhan said goodbye and then hung up, just under half a minute later, Ji Feng's phone rang, and when he clicked on it, he couldn't help but grunt coldly!

"Sure enough!"

Ji Feng coldly looked at the four policemen, the photos on the phone were completely different from the four of them, but the names on these four people's IDs and their police numbers were surprisingly all completely correct, but only the photos had changed

Finally reveal the fox's tail!

Ji Feng sneered and directly fished out the handcuffs from the four fake policemen, handcuffed the four men, turned his head to the still somewhat stunned Yu Hou Sheng family and said: "Old lady, Mr. Yu, don't be afraid, I have found out clearly, these four men are fake policemen, they must have wanted to steal Professor Yu's technical data! "

"Ah?!"

The old lady was startled and said in a panic, "Old Yu is missing, could it be related to them?"

Ji Feng said, "We can't be sure yet, but from the current situation there should be a 10`9 connection! But we have to wait for the police to come and interrogate these four fake policemen before we can know!"

"Ugh...!"

Yu's family naturally understood this, but now that they couldn't find Professor Yu, they were really anxious in their hearts and could only sigh long and hard.

Ji Feng couldn't say anything either, it was useless to say more comforting words, getting the person found was the best way.

But the problem is, now for a while really do not know where to look for people, fortunately recognized the four fake police, right now the most promising is to pry open the mouth of these four fake police, and then follow the vine, this is the most likely way to find Professor Yu.

Ji Feng frowned and deliberated for a while, he wondered if he should send these four fake policemen to the military station and have them interrogated by himself, but thought that he was not an expert in detection, and if these four people did not know the whereabouts of Professor Yu, or if there were any other changes in the middle, it would not be good to communicate with the police at that time.

"Bai Zhu!"

Ji Feng suddenly said, "Let's escort the people downstairs first, so we don't keep bothering Madam Yu and the others here!"

Bai Zhu was stunned in her heart, but on the surface she nodded without moving her head, very tacitly.

Ji Feng carried the four policemen downstairs one by one, Bai Zhu wanted to help, but was stopped by Ji Feng, who told Bai Zhu to stay at the Yu house for the time being.

He carried the two fake cops downstairs, knocked them out and put them in the car, then turned back upstairs and was about to carry the remaining two downstairs when he found that the real cops had arrived.

But what Ji Feng didn't expect was that Bai Zhu had called the police, and the one sent by the city bureau was no other than Li Ruo Nan! In addition, there were three other police officers following Li RuoNan.

The first time I saw Ji Feng, Li Ruo Nan was surprised to see him present. She looked at him with surprise and asked, "Why are you here?"

Ji Feng said, "If I wasn't here, you wouldn't have come here!"

Li Ruonan then glared at him. Ji Feng knew at a glance that she had misunderstood, and when he thought about what he had just said, there was something wrong with his words.

But now was not the time to explain, so Ji Feng had to be vague.

The two of them have had a rift since the last time, and Ji Feng has never contacted her again.

Anyway, Li Ruonan felt that if she were in her shoes, it was hard to say that she wouldn't really mind at all when she encountered something like that!

"I'm Li Ruo Nan, deputy chief of the city bureau's criminal police team, these are my colleagues!" Li Ruonan took a deep breath, put these thoughts aside and took out her documents to show to the Yu family.

But the Yu family seemed to have been affected by the fake police officers, and looked somewhat skeptical. After understanding what was going on, Li Ruonan took out the documents and explained to Professor Yu's family the characteristics of the national emblem on the documents, as well as the position of the steel seal on the documents in relation to the photo, and so on.

Professor Yu's family was also skeptical, because the fake police documents were so realistic, but at least Li Ruo Nan was more credible.

The company's main business is to provide a wide range of products and services to the public.

"Ji Feng, give me those two suspects as well!" Li Ruonan said, "I'm really thankful to you today, if it wasn't for you, I might have let these guys get away with it!"

"Don't be in a hurry to thank me first!" Ji Feng waved his hand and said, "I didn't plan to hand these two guys over to you, I planned to send them to the military zone."

"But they"

"The military district side will give you an explanation when the time comes!" Ji Feng interrupted Li Ruonan's words.

Li Ruonan said, "This case is under the responsibility of our city bureau, when did the military district intervene? Why don't we know?!"

Ji Feng said, "These guys posed as police officers, and they posed so much, and they knew so quickly that Professor Yu was missing and came to search for his information, didn't you also not know about this?"

Li Ruonan's eyebrows knitted: "What do you mean? You're saying that our police department is internally"

"I didn't say that!"

Ji Feng waved his hand and said, "You can find out for yourself exactly what's going on, but I would like to see the level of your police!"

When Li Ruonan heard this guy trolling the police so much, she couldn't help but glare at him in anger and said, "How can we investigate when you've taken people away?"

Ji Feng laughed, "Aren't there two more on your side? I'm sure all four of them know pretty much the same thing, so if you want to know anything later, you can communicate with the military! Let's go!"

"Hey!"

Li Ruonan shouted at him in anger, but Ji Feng just waved his hand, "Wait for your good news!" Then he got into the car with Bai Zhu, and as for the two fake policemen, they were stuffed into the back seat like miscellaneous items.

Buzz~!

The car circled around and stopped in front of Li Ruo Nan again, the window glass lowered to reveal Ji Feng's face, he looked at Li Ruo Nan and said, "By the way, to remind you, this time the matter is likely not simple, if you can, you should not interfere, leave it to your leaders, it is best to let your Director Chen personally take charge!"

Li Ruonan said, "What do you mean?"

Is this guy looking down on himself or something?

Ji Feng said, "I'm doing this for your own good, if you want to listen, listen, if you don't want to listen, just pretend I didn't say anything, but if you really want to investigate on your own, you have to be mentally prepared, there will probably be great danger in the middle!"

Li Ruonan looked at him, as if she wanted to see his true thoughts from his face, but unfortunately, Ji Feng just had a smile on his face, making it impossible for her to see through.

However, when he was about to leave, Ji Feng's expression suddenly became serious and lowered his voice, "Ruo Nan, remember my words, try to push this case away if possible, or try to put the case in the hands of your Chen Bureau, remember!"

And then, in Li Ruo Nan's astonished gaze, Bai Zhu drove away from the district!

Campus Master Chapter 2946

Whether Li Ruonan would follow his suggestion or not, Ji Feng was not sure, and he did not have the heart to care about that now, the most important thing was to find Professor Yu, whether it was for Professor Yu's personal safety or the information in his hands, he had to be found as soon as possible.

If the other party is really after the new chrome alloy, then it is actually his own fault!

At that time when the new chrome alloy was launched, in order to cover people's ears and make themselves less conspicuous, so this is why Ji Feng asked the Tengfei Group to cooperate with Professor Yu, in fact, this is just to borrow the hands of Professor Yu and some experts from the Tengfei Group to launch the new chrome alloy.

If Professor Yu had not been approached, but rather Professor Ma, Professor Wang or others, then Professor Yu might not have disappeared now.

If Professor Yu hadn't been harmed, that would be fine, but if he had really been irreparably harmed, then Ji Feng would really feel guilty.

Therefore, the most urgent task now is to find Professor Yu as soon as possible!

And to find Professor Yu, the clue falls on these two arrested fake policemen, if we can get a clue from them, then maybe we can follow the vine and find Professor Yu, but if these two policemen don't cooperate

The two of them are not cooperating, so don't blame him for being ruthless!

In the car, Ji Feng gave a call to Xiang Yongzhan, told him about this side of things, and asked him to cooperate and make some arrangements. At least, the Jiangzhou Municipal Bureau side can't let people gossip, after all, on the surface he is also just a special advisor of the military, but not the police system, taking these two fake police officers away, some villains might talk behind their backs!

Xiang Yongzhan naturally agreed to do so, and when he learned of Ji Feng's idea to bring the people to the military compound for interrogation, he immediately informed the military compound, and since he himself was still investigating Professor Tong's kidnapping case and could not go away, he arranged for someone to wait for Ji Feng at the entrance of the military compound.

—Even though Ji Feng had a military identity, he had to go through registration checks to enter and leave the military area, the military is not like other places!

Especially, the place that Ji Feng was going to enter was also the interrogation room of the Special Operations Brigade, so it was even more necessary to register. Ji Feng was already used to this, so he cooperated with the registration procedure and brought the two fake policemen into the interrogation room.

The two fake policemen had already woken up, but they were handcuffed and could not move, but they already understood what they had fallen into. Especially when they saw that they had entered the barracks and saw the soldiers who were training and the loaded soldiers they had just seen, they were so nervous that their faces turned white.

Naturally, they did not know that the soldiers they had just encountered outside were all special soldiers of the Special Warfare Brigade, and that normally other soldiers were not allowed to carry loaded weapons all day long.

But precisely because the ones they encountered were special warriors of the Special Warfare Brigade, the result instead made these two guys even more scared.

Ji Feng said to one of the warriors who came to help him, "Little brother, please take this guy to the interrogation room next door, if he is the slightest bit dishonest, shoot him directly!"

The warriors of the Special Combat Brigade were not very old, they were all in their proper years, this little warrior in front of him looked younger than Ji Feng, that's why Ji Feng called him a little brother.

The young soldier knew Ji Feng, and he had also practiced body-building exercises by referring to the CD Ji Feng had given to Xiang Yongzhan, so he immediately answered yes to his words and took the other fake policeman away.

With only one fake cop left in the interrogation room, his expression became even more nervous, his throat knot moved twice and he swallowed hard, not even daring to look up at Ji Feng.

"Sit down!"

Ji Feng pointed to a chair opposite, although this was said to be an interrogation room, but the furnishings inside were not quite the same as in the police station, there was no table here, only two chairs, the room was idle and empty, but it made people's hearts even more bottomless.

The fake police officer swallowed his saliva and was nervous, "So, that"

"Boom!"

A soldier slammed the butt of his rifle into the back of the fake cop, causing him to scream and stumble, almost falling to the ground, but before he could fall, the soldier grabbed his collar and pinned him to a chair, shouting, "Sit down! If you don't behave yourself again, you'll be shot on the spot!"

These soldiers were all experienced in the battlefield, and their fierce and murderous aura was definitely not comparable to that of ordinary policemen.

"Why you were brought here, I think you must know very well, right?!" Ji Feng didn't talk nonsense to him, but said straight to the point, "In a word, I want to get some answers from you, if you cooperate, maybe you won't end up too badly, but if you don't cooperate, then I can guarantee that you won't end up well!"

Ji Feng lit up a cigarette and didn't look too serious, but rather looked casual and said, "Before we talk, I need to tell you about this place, and the current situation!"

Although he looked casual, his gaze was actually keeping an eye on the change in the fake policeman's expression, but when he finished those few words without seeing much change on the fake policeman's face, he had a good idea.

"I'm not afraid to tell you that Professor Yu is very important, both for us and for the country. His hands hold information on scientific and technological products that the country values very much, and both Professor Yu and his family are protected by the state!"

Ji Feng said, "You can imagine what would happen to you if you impersonated a police officer and ran to Professor Yu's family to steal confidential information, and on the basis of this charge alone, what would happen to you if you fell into the hands of the military! This, I don't have to say you must understand!"

That policeman's face changed slightly and he lowered his head.

Ji Feng said, "In addition, let me introduce you to the situation here again, perhaps you still don't know, this is not an ordinary military barracks, but the station of one of the country's several special forces, the Special Warfare Brigade, and right here in this interrogation room, there have been interrogations of foreign spies, agents of certain organizations and forces who were caught, and some special people!"

He smiled slightly: "At first those people all resisted to the death, but in the end, they all gave an honest account, and exactly why, I don't need to tell you again, do I?!"

"....."

The fake policeman's mouth was tightly closed and he didn't say a word.

Ji Feng looked at him indifferently and said, "Now, we can talk, tell us, why did you impersonate a police officer to steal information from Professor Yu's house, who sent you there, and which organization you belong to, tell me all these clearly, I guarantee you won't suffer too much!"

"Big brother, I just want to make some extra money, I don't know anything about secrets and armies!" The fake policeman said in a panic.

"Earn some extra money?!" Ji Feng sneered, "Impersonating a police officer to steal information from someone's home, what kind of extra money can you make? Answer my question honestly!"

"It's true!"

The fake policeman said in a panic: "Someone gave us a sum of money to impersonate a policeman to go to that Professor Yu's house and collect some information in his study!"

Ji Feng sneered, "Do you take me for a fool?! Your clothes fit so well, it looks like you have been prepared for a long time, and on top of that there are fake documents as well as a systemic weapon, this is just your impromptu intention?!"

The fake police officer said in a panic: "No, no, it was a few days ago Oh, like three days, no, four days ago, it was four days ago that someone found us and asked us to do this, and that person provided all those things to us... .."

Ji Feng asked again, "Who was that person? And why did he ask you guys to do that?"

"That person we just know is called Old Li, but we don't know the rest" the policeman said in a panic. According to him, the four of them were just rogue gangsters, and a few days ago an old journeyman, Old Li, suddenly found them and asked them to pose as policemen and gave them a sum of money.

But it didn't occur to them that they had only just arrived at Professor Yu's house for a short while before they were recognized by Ji Feng!

Ji Feng frowned and gave a wink to a soldier next to him.

At once, that soldier came over with a plate, only to see that in the plate was a syringe which was already filled with a rust-coloured liquid.

Seeing this scene that fake policeman was instantly terrified, and a look of fear appeared on his face.

Ji Feng said coldly, "This is a special potion to aid in interrogation, once you inject it, you are guaranteed to tell the truth, if I find out that you have lied to me, you'll be in for a treat!"

The fake policeman's face changed dramatically and he was about to struggle, but by the way, he was smashed on the head with a gun butt by a soldier, which instantly made his eyes blink and the sky spin, then he just felt as if he had been stung by a mosquito on his neck, gradually, he just felt his eyelids getting heavier and heavier, and he couldn't even open his eyes

Ji Feng raised his hand to look at the time, then looked at the man's reaction, and seeing that the medicine had taken effect, he asked again.

“A boss took a fancy to us and took us in as minions, and Old Li is responsible for taking us”

This time, there was something different about this fake cop’s statement, it originally said that a man called Lao Li had found them, but now it was Lao Li who was in charge of taking them.

The organisation they had joined had given them a considerable amount of money when they first joined, a sort of settlement fee, and they had seen with their own eyes that there were many very powerful people in the organisation, and Old Li had promised that if they obeyed orders and were loyal to the organisation, they would be as powerful as them in the future!

The fake policeman continued, “Old Li said that if we wanted to join them, we had to complete a task to pass the test! If we fail to complete it, not only will we have to take back our settlement money, but we will also have to be expelled from the”

Campus Master Chapter 2947

“The police uniforms and guns were given to us by Old Li, who said he wanted us to pose as policemen and go to Professor Yu’s house to find information about alloys, especially the new chrome alloy.” The fake policeman said in a muddled voice.

“Sure enough!”

Ji Feng secretly said, the other party really did go for the new chrome alloy!

However, the fact that the other party was able to know so accurately that Professor Yu had disappeared and was able to exploit this loophole to go to Professor Yu’s house showed that the other party was very clever, or, that Professor Yu’s disappearance itself was related to them!

“When did Old Li ask you to steal information from Professor Yu’s house?!” Ji Feng asked.

“Last night.” The fake policeman said.

“Then why did you guys go there only this morning?!” Ji Feng immediately asked.

“It was Old Li’s order!”

The fake policeman said, “Old Li told us to go this morning!”

Ji Feng immediately frowned at his words, Old Li told them to go this morning? What does this mean? Could it be that Old Li already knew that Professor Yu’s wife would call the police this morning? Or was it that this Old Li had already grasped something?

He immediately pursued the question, but the fake policeman was at a loss, in fact he himself did not know.

Ji Feng hurriedly returned the question in a way: “When did Old Li inform you guys this morning? Did he say anything else besides informing you guys?!”

The fake policeman said, “It was this morning when it was still light.”

Ji Feng’s heart twitched at his words and he immediately asked, “Then why did you guys go so late?!”

Since Old Li had informed them to steal the information when it was still light, but by the time he arrived at Professor Yu's house it was already morning, how could the four fake policemen have gone so late?

The fake policeman said, "It was Old Li's order, he said that there were people at home at that time, their family was only back when we went!"

Ji Feng's face changed when he heard that and secretly said, "No!"

The information revealed in this fake policeman's words was too much, Old Li ordered them to go at that time, saying that there was someone at home at that time How did Old Li know that there was someone at Professor Yu's home only at that time?

You know, if it was before dawn, people should still be sleeping at home, there must be someone at home at that time, but the meaning of Old Li's words was clearly saying that maybe there was no one at Professor Yu's home at that time!

—The fact is that there was really no one at Professor Yu's house because Mrs. Yu and the others had gone to the police station to report the incident, so of course there was no one at home!

What caught Ji Feng's attention even more was the last sentence of the fake policeman, he just said that the family was only back when they arrived!

This means that when the four fake policemen arrived at Professor Yu's house, only then did Professor Yu's family return from outside, in fact, according to the time they should have just returned from calling the police!

"How could it be that coincidental?!"

Ji Feng slowly shook his head, no, it's very wrong he suddenly slapped his thigh, a mistake!

That's right!

He realized his blunder!

The reason why that Old Li was able to grasp the trajectory of Professor Yu's family's activities so easily, would likely mean that Old Li had been watching Professor Yu's family's every move! At the very least, Old Li had a spy!

And this spy, most likely, was near Professor Yu's family.

Ji Feng couldn't help but feel some remorse in his heart!

At that time, when he went to Professor Yu's house, he was in a bit of a hurry, so he didn't observe the surroundings too carefully, otherwise, if someone was watching the Yu family, he would have been able to detect it.

But now, the other party had probably withdrawn!

After all, when he had arrested those four fake policemen at that time, he was afraid that he had seen quite a few people, and if Old Li or Old Li's people had seen it, the other party would definitely have withdrawn.

“Grass!”

Ji Feng couldn't help but burst out a foul mouth, a very likely lead had passed him by because of his mistake and carelessness, which made him angry.

But no matter how angry he was, what had to be done still had to be done. Without saying a word, Ji Feng hurriedly picked up his phone and dialed Xiang Yongzhan.

As soon as the phone was connected, Ji Feng said in a hurry, “Old Xiang, didn't you say that Professor Yu was listed as a protected person?”

Xiang Yongzhan did not expect Ji Feng to suddenly ask this question and froze for a moment before saying, “That's right. But after all, it's not a military project, so even the protection is limited, which is why people have exploited the loopholes... What, did you find something?”

The first thing I did was to find out if there were any other people near Professor Yu's house, so if the people in charge of the military's protection are near the scene, it would be best to investigate. ”

Xiang Yongzhan also realized the urgency of the matter, and he immediately said, “Good! I'll arrange it now!”

“Thanks!”

Ji Feng nodded and said.

Xiang Yongzhan said, “What are you thanking me for, it's my job! But Ji Feng, I have to remind you, so much time has passed now, the other party has probably run away, so you shouldn't get your hopes up!”

Ji Feng said, “I know, anyway, treat a dead horse as a living one, you try your best!”

“Sure you will!” Xiang Yongzhan said.

After ending the call with Xiang Yongzhan, Ji Feng thought about it and still pulled out Li Ruonan's number from his address book and dialed it.

“Ji Feng?!”

When the call was answered, Li Ruo Nan's voice seemed a little surprised.

Ji Feng opened the door and asked, “Ruo Nan, where are you now?!”

Li Ruonan said, “I've returned to the police station and am preparing to interrogate those two fake policemen, what's wrong?”

Ji Feng immediately said, “Someone is watching near Professor Yu's house, you'd better send someone to check it out, maybe you'll be able to get something.”

“Really?!” Li Ruonan couldn't help but ask in shock.

“Do I have to lie to you?” Ji Feng shook his head and said, “However, the people from the military might have already passed by, so you should not get confused with them!”

Li Ruonan said, "I'm not that stupid! I'll let someone go over there!"

Ji Feng couldn't help but frown at his words, letting people go over? He said to himself, "With the ability of you cops? Even if you go there personally, I'm afraid you may not be able to find the person you're watching, let alone if you send someone there

The actual fact is that you can find a lot of people who have been in the business for a long time.

The actual fact is that you can find a lot of people who have been in the business for a long time.

Right now, the most crucial thing was to continue interrogating this fake cop.

"How did you contact Old Li? What is the name of that organisation you joined and who is the boss?" Ji Feng asked several questions in a row.

The fake policeman answered them all.

But to Ji Feng's disappointment, the organization this person said was just a gang's faction, not some mysterious organization as he imagined. Yet, Ji Feng also suspected that if these four guys were just minions, they hadn't even passed the test yet, so perhaps they didn't even know what kind of organisation they had joined.

It said that it was a gang, but maybe it was secretly some kind of organisation!

This question still needed to be checked.

Ji Feng asked again, "Where can I find your boss?"

The policeman was a bit confused and said, "I don't know. I haven't seen the boss either"

Ji Feng said in his heart that it was really similar to what he guessed, "Then where can I find Old Li?!"

The fake policeman gave an address, the name of a bar, according to this fake policeman, this bar was the venue in their turf, and the four of them were arranged by Old Li to watch the venue in this bar.

Ji Feng asked some other questions, but the fake policeman's answers were all minor details, and when it came to the main point, this guy just didn't know anything.

"Little minion!"

Ji Feng could not help but helplessly shake his head, did not expect this guy is only a small minion, a little confidential things do not know, really do not understand how Old Li would send such a person to steal information, I am afraid this guy may not even know what the new chrome alloy is, let alone read and understand the information and ready to take away!

After asking this guy, Ji Feng went to another interrogation room and started interrogating another fake police officer. But in the end, the answers he got were the same as the first guy's, basically not much different.

Ji Feng then stopped delaying and took Bai Zhu with him and left the military compound, heading straight for the bar that the guy had given an account of. If Old Li had received the news by now, then he would definitely be thinking of escaping, so he had to hurry up now.

At the same time, Ji Feng made a phone call on the way, "Silly Biao, this is Ji Feng, help me check out a gang and see what the other side is"

And then he called Xiang Yongzhan again and said, "Old Xiang, have your men check out a bar, I just found out a lead"

One after another, Ji Feng put down the phone and said, "Bai Zhu, hurry up again!"

Now it can be said to be a race against time, even though it is broad daylight and the bar is definitely not open, but regardless of whether Old Li is in the bar or not, at this time it is necessary to go over there and take a look, now this is considered the only clue, if this clue is also broken, then if you want to find Professor Yu next, you will have to start from scratch.

The bar that the fake policeman explained is called October Bar, which is located in a very busy street in Jiangzhou, but a bit far from the military camp.

He stood at the entrance of the October Bar and looked at the bar door, which was locked with a long lock, and he couldn't help but frown.

"Young Ji, there's no one there!" Bai Zhu whispered, the bar wouldn't open until half an afternoon at the earliest, so there was definitely no one there now.

"Don't be in a hurry!" Ji Feng waved his hand and stared at the bar carefully.

Campus Master Chapter 2948

Although it was already mid-morning and the busy street was already crowded with people and the shops on both sides were already full of people, the October Bar was locked up and looked a bit out of place with the shops on both sides.

But the people in the area seemed to be used to it, because the bar itself was open at night, so it would be strange if there were still people coming to the bar to drink in the middle of the day.

Ji Feng was standing at the door of the October bar, and although the door was locked, he did not rush to leave, but stood at the door and watched carefully.

After a moment, he suddenly took two steps forward to the front door of the bar and put his ear to the door and listened.

"Young Ji!"

Bai Zhu said in a low voice, "Is there something odd?!"

She saw that Ji Feng had refused to leave and instead stood at the door to observe, so she couldn't help but ask in a low voice.

Ji Feng faintly shook his head and said, "I don't know yet, but there's someone inside this bar!"

"Someone?!"

Bai Zhu was stunned, the door of this bar was locked, how come there was still someone inside?

Ji Feng nodded and didn't say anything else, in fact, there was indeed someone inside the bar, he just stood at the entrance and didn't move to carefully observe the October bar, not to survey the bar's decoration style and door, but to activate the bio-current on his eyes and use his penetrating eyes to observe the situation inside.

However, perhaps because of the distance, Ji Feng did not see anyone in the bar, but, just as he hesitated, he vaguely heard some sounds coming from inside the bar.

It was like a purring sound!

Ji Feng immediately listened more carefully and indeed heard the sound of someone snoring inside, there was no doubt that there was someone inside and was sleeping.

He couldn't help but frown slightly, thinking that the person inside wasn't sure if it was Lao Li, but whether it was or not, this person had a lot of guts, out of such a thing, the person inside could actually still sleep?

If the person inside was really Old Li, then Ji Feng would really have to admire Old Li's guts!

"Young Ji, I'll go to the back?!" Bai Zhu asked in a low voice.

"Mm."

Ji Feng faintly nodded his head.

Bai Zhu immediately understood and whispered, "Then I'll give you the weapon!"

Ji Feng waved his hand and said, "No, you take the weapon, remember, later you will attack from the back, if the other party resists, you can shoot if necessary!"

"Understood."

Bai Zhu nodded, understanding what Ji Feng meant, he could shoot if necessary, that meant if it wasn't necessary, it would be better to capture them alive!

After that, Bai Zhu turned around and left, she had to find her way into the back of the bar, and Ji Feng was the only one left in front of the door.

Looking at the long lock on the bar door the corners of Ji Feng's mouth couldn't help but smile coldly, the lock was just for bluffing, to him it made no difference if it was locked or not!

Ji Feng took off a finger ring from the pinky finger of his hand, if you look carefully you will find that he just flicked it with his hand and the ring separated and turned into a metal wire.

He then just saw him take this metal wire and drum it on the lock a few times, and then with a 'pop' sound, the lock was opened!

Ji Feng calmly took the lock off, pushed the door open and walked into the bar.

As soon as he entered, Ji Feng smelled a strange smell, somewhat pungent, he immediately became alert and immediately held his breath, then casually tore off a piece of his shirt, first found water to soak it and then covered his nose.

Then he immediately took out his phone to send a message to Bai Zhu, telling her that there was probably something odd in here, and that no matter what the pungent smell was, it was best to at least be careful.

“Hullo~~Hullo~~”

When he entered the bar, the purring sound became even more obvious. Ji Feng immediately identified the source of the sound, which was on the first floor of the bar, but he did not rush up there, instead, he first scanned the ground floor of the bar, and only after confirming that there was no problem, he came to the stairs and steadily went upstairs.

The first floor of the bar was also a place of business, only the decoration was a little better than the ground floor, and there were also card seats. Ji Feng followed the direction where the voice came from and came to a room outside the door, and he saw a sign carried on the door, which read Manager’s Office.

Could it be that the person inside was the manager of the bar?

Ji Feng secretly said, immediately using his Perspective Eye to watch the situation inside, he found that there was another small room inside this manager’s office with a bed and some simple household items, and a person was lying on the bed and breathing heavily.

Ji Feng squinted his eyes, the pungent smell became even stronger here, he held his breath, pushed the door open and walked in. All he could see was an obese man who was snoring loudly.

“Boom!”

Ji Feng kicked the leg of the bed.

The snoring stopped, but the man hadn’t woken up yet, but just reached out and scratched an itch, turned over and went back to sleep.

Seeing this scene, Ji Feng was so angry with him that he kicked the leg of the bed again and the snoring stopped again.

After a few moments, the fat man in the bed seemed to realize something and opened his eyes suddenly, seeing that there was a person standing next to the bed, he sat up at once and looked at Ji Feng in shock, “You, who are you? What am I in for?!”

Ji Feng snapped, “Old Li?!”

That fatty sniffed and immediately cursed, “Fuck, I thought I was inviting a thief, but it turns out I was looking for Old Li’s”

Ji Feng smiled and immediately asked, “You’re not Old Li?!”

The fat man cursed, “I am Master Fat, you hear me? I’m Master Fat, not Old Li” ha~~” He yawned.

Ji Feng asked, “Then where is Old Li?”

Fatty said, “How the fuck should I know where Old Li is? I said, “Who are you? Why are you bothering me by coming here to look for Old Li?”

“Then who are you?” Ji Feng asked.

“I’m your fat master, didn’t you hear me?!” The fat man was a bit annoyed by Ji Feng’s question, he cursed and said, “I really don’t know what kind of minions Old Li has brought with him, what kind of fucking people are they really!”

Dare I say, he thought of Ji Feng as a little brother brought by Old Li.

“Hey! Get out and close the door for me!” Fatty pointed at the door and said, “Let Old Li come to me later, I’ll ask him what kind of junior brothers he’s brought!”

“Do you have a picture of Old Li here?!” Ji Feng asked.

“I said you kid didn’t hear what I said, did you? I told you to get lost, didn’t I hear you!” The fatty was on fire, “If you dare to disturb Laozi’s sleep again, I’ll kill you ah!”

His cursing and swearing stopped abruptly before he finished his sentence, and then he couldn’t help but cry out in pain, but he was pointing at Ji Feng and cursing when Ji Feng clutched his finger and bent it so violently that his finger was almost broken!

The fatty cursed in pain: “Fuck! How dare you fucking treat me like this, even Old Li wouldn’t dare to make a move with me ah”

Ji Feng increased the strength of his hand little by little and said coldly: “Fatty, listen to me carefully, I am not Lao Li’s little brother, I am here to find Lao Li, I am here to ask him for money, if you dare to say half a word to me, I will destroy you now!”

The fatty was stunned and his screams stopped for a moment, “You’re looking for Old Li for money? How dare you loan shark! You loan sharks dare to blackmail us, you want to die, don’t you?”

Ji Feng sneered and directly broke the fatty’s finger.

“Ah...!”

The fatty screamed miserably, shuddered violently in pain, then fell straight off the bed, rolling on the ground in pain and wailing.

Ji Feng said, “I’ll ask again, where is Old Li?”

The fatty was only concerned about the pain and ignored Ji Feng’s question.

Just then, light footsteps came, and Ji Feng immediately dodged behind the door, swept a glance and found that it was Bai Zhu, and only then did he come out again.

“Eldest young man!”

Bai Zhu hurriedly came over, but he was changing his address, this was to be on the safe side not calling Ji Feng by his name.

Ji Feng reached out his hand, Bai Zhu immediately understood and directly handed him the pistol.

“Ka ka ka~!”

Ji Feng loaded the bullet, and the black muzzle of the gun directly pressed against the fatty's head.

The fatty's voice, which was screaming miserably, stopped abruptly, only to see his mouth open wide, veins rising high on his forehead, and his eyes staring deadly, as if he was a dead fish thrown onto the shore.

Ji Feng said; "Speak, or die, your choice!"

Fatty was scared, he could tell from the look in Ji Feng's eyes that Ji Feng was not telling him a joke or scaring him, but was going to play with him for real!

If he didn't give an explanation, Ji Feng would really shoot him down!

The fatty immediately gave in and no longer had the arrogance he had just now, fearing that he would be too late to answer he said busily, "I say, I say, there's something to discuss, brother, let's have something to discuss!"

Ji Feng said, "Say it!"

Just a simple word, but the fatty's body couldn't help but shiver, because the thick chill in Ji Feng's words, the fatty clearly felt it.

"I, I know Old Li, he's from our gang, it's none of my business, brother, don't you guys want to find him? I have his phone number here, I can give you his phone number and I can also give you his home address, you go and find him, please let me go!"

While saying that, the fat man also hurriedly looked around, "Where's my phone, my phone"

"It's pressed under your pillow!" Ji Feng said in a cold voice.

"....."

The fatty froze, lifted the pillow and really found the phone, he couldn't help but be slightly stunned again, how did this person know that his phone was pressed under the pillow?

But there was no time to think more, the fat man hurried one hand on top of the phone and pressed desperately, "Brother, don't worry, I'll find Old Li's phone for you"

"Found it!"

Fatty said happily, handing the phone to Ji Feng, "This is Old Li's phone number, and I can tell you his home address too!"

Ji Feng took the phone with no expression and saw a mobile number, he silently wrote it down, then asked, "Where can I find Old Li?"

Campus Master Chapter 2949

Fatty shook his head and said, "I don't know!"

Fearing that Ji Feng would misunderstand and get angry and implicate him, he hurriedly explained as soon as he spoke, "Don't worry, I really don't know, Old Li and I are of similar status, usually we don't care about anyone unless the boss calls us to meet."

Ji Feng's face was cold: "How dare you lie to me? I clearly saw Old Li in this bar not long ago!"

The fatty said in a panic: "I don't know! Brother, that might be because I wasn't there that day, I really haven't seen Old Li for a long time!"

Because he was extremely nervous and scared, the pistol in Ji Feng's hand really gave him too much pressure, so much so that he didn't even notice the loophole in Ji Feng's words, when he first arrived, Ji Feng had mistaken him for Old Li!

This also meant that Ji Feng had never met Old Li at all, and how could he have met Old Li not long ago?

But at this moment, the fatty could not care about that much, the only thing he was thinking about was not to let Ji Feng shoot himself in anger!

Ji Feng stared at this fatty, and what he saw in his eyes was just panic, it didn't look like he was lying, but Ji Feng didn't let down his guard in the slightest, if it was really like what the fatty said that he and Old Li were people of similar status, then it meant that this guy must also be a journeyman.

If it's true that he and Old Li are of similar status, then it means that this guy must also be a journeyman. If this kind of person's words can be believed in two or three out of ten, it is already considered good.

So Ji Feng still planned to interrogate him again. But at this moment, Bai Zhu suddenly touched Ji Feng behind his back, he immediately understood and raised his hand to knock the fatty out, then turned his head and asked, "Bai Zhu, what's wrong?"

However, with this turn of his head, he saw that Bai Zhu's face was a little white and looked as if he was very nervous.

"What's happened?!" Ji Feng immediately asked.

"This smells"

Bai Zhu said, "Young Ji, I'll go out quickly, this smell is very odd."

Ji Feng nodded and said, "That's right, it smells weird!" He smelled it when he first came in, and at the time he thought it was some kind of harmful gas, but up to now he hadn't noticed anything unusual.

Bai Zhu, however, said, "Young Ji, I've smelled this smell before, this could be a bomb!"

Ji Feng's face instantly changed: "What?!"

Bai Zhu pulled Ji Feng and said in an urgent voice, "Young Ji, let's go out and talk about it, it's very much like a bomb!"

Although Ji Feng was extremely surprised to hear this, he didn't hesitate in the slightest, he knew that Bai Zhu definitely wouldn't lie to him, so he lifted that fatty as soon as he could, and then as soon as he pulled Bai Zhu, he was about to go outside!

Then just at that moment, he suddenly felt the floor beneath his feet vibrate.

"It's a bomb!"

Bai Zhu shrieked.

Ji Feng's face suddenly changed and as he grabbed Bai Zhu, he yelled, "Go!"

In the next moment, Ji Feng instantly exerted all his strength to activate the bio-current, causing his entire body to explode with a tremendous force, taking Bai Zhu and directly reversing his direction towards the room's window and going through it.

"Wow!" A sound.

Ji Feng viciously kicked the window plus the security window outside together and then jumped out directly towards the outside with Bai Zhu.

The moment they had just jumped out of the window, an earth-shattering explosion exploded!

Boom~~!

In an instant, a huge shockwave swept through the entire shop, and even Ji Feng, who had already jumped out of the window, could clearly feel as if his back had been violently and viciously pushed by a pair of huge hands, and he and Bai Zhu both flew straight out.

"Boom! Boom boom~!"

The shocking explosion shook the nearby streets as if an earthquake had occurred, and Ji Feng and Bai Zhu were even like two leaves in a tornado, they were directly thrown away.

"Young Ji!"

Bai Zhu shrieked.

Ji Feng held onto Bai Zhu with both hands and did not let go. The two of them were pushed out by the huge shockwave before they fell heavily on the ground, but the huge inertia still made them tumble on the ground like rolling gourds for many times before they managed to stop!

"Poof~!"

Before Ji Feng could get up from his fall, he opened his mouth and spurted out a mouthful of fresh blood!

Bai Zhu was dizzy from the fall, but when she got a good look at Ji Feng, she couldn't help but scream in shock, "Young Ji! Young Ji!"

At this moment, Ji Feng's entire body was in an incomparable state of disarray, and his clothes were in tatters, which had been torn by the huge shockwave, and what made Bai Zhu most distraught was the mouthful of blood that Ji Feng spurted out.

The moment she jumped out of the window just now, she clearly felt Ji Feng put her in his arms and then shielded him from the blast as much as possible.

And as soon as he landed, Ji Feng was using his body to roll over on the first to remove that huge inertia and impulse for the two of them!

If it wasn't for Ji Feng, I'm afraid she would have been blown to death by now!

Even if she hadn't been killed by the explosion, she would have been killed by the fall on the ground.

So at this moment, seeing Ji Feng's wretched appearance, Bai Zhu's whole heart really lifted up, horrified!

Ji Feng squinted his eyes and opened his mouth, breathing hard. At this moment, his face was pale and his body was in excruciating pain, especially inside his body, it was as if his internal organs had been displaced by the huge shockwave, the pain was so excruciating that he couldn't speak at all.

The explosion just now was too powerful, even the one he experienced in Southern Guangdong at that time was not as powerful as this one!

In an emergency, the habit he had developed in the training space of the intelligent brain for a long time made Ji Feng immediately start to activate the bio-current to recover his body. Although this body could not recover from the injury in a short time, the bio-current could also make him a little more energetic, at least, he would not just pass out.

"Ji Shao~ Ji Shao~"

At this moment, Bai Zhu, who once had the title of Black Widow, was completely devoid of her previous coldness and ruthlessness, seeing Ji Feng's seriously injured appearance was simply heartbreaking, she hugged Ji Feng's head and leaned on her arms, tears were coming down her eyes.

Ji Feng's finger moved and extended his left index finger.

Bai Zhu suddenly woke up with a start, "Yes, yes, yes, special effects current!"

It was a gesture between them that signified the need for urgent help, and what Ji Feng needed now was obviously the special effects current that would allow him to recover his energy quickly!

Bai Zhu hurriedly fished out a small bottle of special effects current from his body, fed Ji Feng two capsules, and then kissed Ji Feng directly on his mouth to help him gauge his Qi so that he could swallow the special effects current smoothly.

"Boom~!"

Another loud sound came, Bai Zhu was abruptly startled and looked up, but was shocked to find that the original October Bar had now become a sea of fire, and what was even more outrageous was that the original venue, which was a total of two storeys high, was now in ruins, as if the entire bar had been blown away.

Even the next door to the October Bar was affected, the walls collapsed and the people inside ran out screaming but in terror.

Looking at the October Bar, it was a sea of fire, and there was a lot of broken glass splashed out from that explosion just now, obviously the alcohol inside had burnt and exploded!

As for the fat man in the bar, you can imagine what happened to him!

This bomb was so terrifying that even though Bai Zhu was used to seeing all kinds of big scenes, she couldn't help but turn pale at this moment.

"Well~"

Ji Feng took a few slow breaths, the special effects current had worked, he gritted his teeth and said, "Bai Zhu, help me up!"

Bai Zhu panicked, "Young Ji, you can't get up now"

"Hurry up, help me up!"

Ji Feng gritted his teeth and shouted in a low voice.

Bai Zhu was afraid that his anxiety and anger would touch his injury and hurriedly said, "Okay, I'll help you up, don't get angry!"

"Three, two, one, up!" Bai Zhu supported Ji Feng and listened to Ji Feng's password and lifted him up in one go. She wanted to slowly lift Ji Feng up, but she knew Ji Feng's temper, so she could only comply with him.

"Bai Zhu, you stay close to me, but don't act like I'm badly injured and unbearable! Especially don't let outsiders see it, understand!" Ji Feng said in a deep voice.

"..... I understand!" Bai Zhu was a little puzzled, but then she whirled around and understood, and her heart couldn't help but be shocked. Only then did she understand that it wasn't that Ji Feng was being too brave, but that he was worried that someone was going to take advantage of this time to attack him!

In fact, once Ji Feng had slightly recovered his energy, his mind cleared up. The first thing that came to his mind at this time was that there were probably people around watching this side, and if he showed that he was unbearable, then I was afraid that the other party would strike and he might have to hand over here today.

If someone had the courage to use a bomb, what else would they not dare to do?

Even if it was broad daylight and there were still so many people watching, but in such a chaotic situation, who could see clearly what was going on? It's not unusual for a few people to die at this time!

The huge power of the bomb, including the fact that someone had used it, made Ji Feng's heart palpitate, and he knew that he had been too careless this time, and that was why he had made such a mistake. If Bai Zhu hadn't known that it was a bomb, I'm afraid he would have been a corpse by now!

No, not even a corpse, but would have been blown to pieces long ago!

"Bai Zhu, is the pistol still there?!" Ji Feng asked in a low voice.

"It's not there anymore!" Bai Zhu quickly scanned the week and said, "There's none around either!"

"Then we have to be more careful!" Ji Feng said in a low voice, "Be especially careful of the people around, and let's evacuate slowly!"

Bai Zhu nodded imperceptibly and said, "Understood. Young Ji, hold on a little longer, I'll send you to the hospital now!"

Ji Feng did not object, but in fact, he knew his body best, and he was afraid that there was no better way to go to the hospital, he was likely to have been shaken internally, and the best way to treat him was to

use bio-current to treat him as well, which was what the martial arts masters called true qi, internal energy.

However, the most important thing now is to be able to retreat safely first!

Campus Master Chapter 2950

The streets were filled with chaos and cries.

The sudden and massive security had terrified the surrounding population, and even quite a few people next to them were affected, but of course, because they didn't explode head-on, they suffered very minor injuries, or just got their skin cut by the flying debris, or just fell as a result of panicking and running away in a panic!

All in all, most of them were shocked.

After all, such huge explosions are not something too common for the people of Jiangzhou, which makes people think of terrorist attacks at first.

How many of the people present were calm when they thought of those genocidal people who had spared even the elderly and children?

Looking at the people who were crying and running everywhere, Bai Zhu's eyes flashed with surprise.

An opportunity!

Taking advantage of this chaos, it was definitely a good opportunity to escape!

Thinking of the word escape, Bai Zhu couldn't help but grit her silver teeth, when did she and Ji Shao actually have to escape? However, now was not the time to play the hero, Ji Feng was injured, no one knew how many people were ambushed nearby, or what follow-up methods the other side had, if they stayed here at this time, they might be attacked by the enemy again!

Bai Zhu, who is a killer, is extremely calm and is also very good at recognising gains and losses, so she helped Ji Feng, bowed her back and took advantage of the confusion to go outside!

Thanks to the violent explosion, if Ji Feng had been shot cold, it would have been absolutely impossible to cause such a huge chaos, and then it would have been absolutely difficult for Ji Feng to escape.

But now, the horrific explosion had directly destroyed the October Bar, turning it into a ruin, making the surrounding area all filled with smoke and dust, plus the crowd running and crying around them, which gave them the perfect cover.

"Bai Zhu, don't panic!"

Ji Feng could sense that Bai Zhu was trying to leave the scene as quickly as possible, but he spoke out to stop it, "You can panic in your movements, but don't panic in your heart!"

At this time, if he pretended to run around like the rest of the people, of course, he wouldn't draw attention to himself, but if Bai Zhu panicked, then he would probably make a faint move and it might backfire!

Ji Feng's words made Bai Zhu's originally somewhat panicked heart gradually calm down, she took a few deep breaths, the puff of smoke and dust made her face red but she couldn't stop breathing, the feeling was unbearable and it made Bai Zhu hate the person who planted the bomb in the dark even more!

As they headed out, Bai Zhu discerned the direction, following the direction with the most people.

"Do you still have your dagger on you?!" Ji Feng asked.

"Yes!"

Bai Zhu immediately said, despite the fact that her head was a little dizzy from the previous blast, the dagger was kept close to Bai Zhu's body, many times, the gun may not be the most useful, often the simplest weapon is the one that can save lives at critical moments!

.....

Meanwhile, in a building not very far from the October Bar, the outside is all shiny glass walls, the dark blue glass makes it impossible to see the outside at all, while the people inside can clearly see the outside.

In one of the rooms of the building, behind a huge floor-to-ceiling window, two men were watching the explosion not far away through the glass wall, the smoke rising from the ground, but at the moment it seemed like an entertainment.

"Ho-ho!"

One of them laughed oddly twice and said, "Those two people who went in just now, the man is Ji Feng, right?!"

This person's voice was very dry, as if it was like a male duck's voice, very harsh.

Another person said, "It's him!"

The male duck voice instantly laughed in triumph, "Haha! I didn't expect it, I didn't expect it, we only wanted to surprise the Jiangzhou police, but we didn't expect that the person who came was actually Ji Feng, this is really an unexpected gain, not bad, not bad!"

Another person said, "Don't be too happy yet, you and I both know very well what kind of person Ji Feng is, now that something has happened to him, do you think the Ji family and the Jiangzhou officials will rest in peace next?"

"Something happened?!"

The male duck voice waved a finger and said, "You're wrong, Ji Feng is not in trouble. To be precise, he must have been blown to pieces and shattered to pieces! I really didn't expect it, the always arrogant and cocky Ji Feng would play out in this form, I originally wanted to wait until later to give him a big gift, it's so disappointing!"

Another person frowned, "Now that he's dead, to avoid being suspected, I think it's better for us to leave as soon as possible now! Ji Feng's death will definitely cause a certain degree of furore in Jiangzhou and even in the top echelons of China, by then Jiangzhou will definitely be in a state of flux,

we must send the man away as soon as possible, if it's any later we might not be able to send him away if we wanted to!"

"Don't worry, I've already made arrangements in this regard, so you don't have to worry about it!" The male duck said, "Instead, you, do you want to go with me to meet Ji Feng?"

"You don't want to cause any trouble, if Ji Feng sees the end, you won't be able to cry then!" Another person said in a deep voice.

"Boring!"

The male duck voice bristled, "A dead man is just a dead man, what clues can he see? He can still go to the King of Hell to sue me, right? I think you're really scared out of your wits by Ji Feng, you and I both watched Ji Feng get blown up, what's so scary about a man who's already dead?!"

The other man was silent for a moment before saying, "Let me correct one thing, your words are not strict, both of us who saw Ji Feng being blown up, yet, none of us saw Ji Feng being blown up to death! Even, I doubt if Ji Feng died or not"

"Okay okay! You're worrying about nothing or watching the sky to say so!" The male duck voice oohed and aahed twice, "Let me open a bottle of good wine, let's celebrate with a couple of drinks!"

"Young Ji, we can't find our car!" Bai Zhu said. It was too chaotic at this moment because of the explosion, their car was originally parked in front of the October bar, it was still a military car provided by Xiang Yongzhan, but after this violent explosion, where else could they find it at this moment?

"Get a random car and go!" Ji Feng said.

Bai Zhu nodded, this is not the time to count, let's get out of here first!

They took advantage of the confusion and found an off-road vehicle on the roadside. After opening the door and starting it, Bai Zhu stepped on the accelerator and the car sped away.

"Young Ji, hold on a little longer, we'll be at the hospital soon!" Bai Zhu said.

"We're not going to the hospital!"

Ji Feng suddenly said, "Bai Zhu, let's go straight to the company!"

Bai Zhu immediately said anxiously, "Young Ji, how can you not go to the hospital, your injuries"

"My injury is fine!" Ji Feng said, "Listen to me and go to the company!"

"..... Yes!"

What is the condition of his own body, Ji Feng naturally knows best, going to the hospital is at most those treatments, far from the speed and quality of using bio-currents to repair the body.

So going to the hospital is also a waste of time, it is better to recover by yourself, faster than the speed of hospital treatment!

Go to the company, go directly to the security department, with Yi Xingchen and Guo Tao and a few of them around, then Ji Feng's side is absolutely safe, especially when they are all unarmed now, since the other side has even used bombs, could there be no other weapons?!

This was obvious!

After taking the special effects current, Ji Feng's energy was already much better, and he sat motionless in the car, already starting to push the bio-current to run through his whole body and start repairing his body, especially his wounded internal organs.

This made him wake up again, he was not invulnerable to swords and spears, he was not invincible!

A bullet to the head, or a bomb blast, he would die!

This also made Ji Feng realise that he had been a lot lazier in his cultivation recently, today this was a lesson, this was to tell him that he had to be diligent and diligent again on the path of cultivation, if he didn't reach a higher level sooner, maybe one day he might be given a bullet to the head by someone putting a cold shot in the back, or just be blown to dust by a bomb!

"Boss!"

"Boss, are you alright?!"

From the moment they received the call from Bai Zhu, Yi Xingchen and the others' hearts instantly lifted, Ji Feng had actually been injured by the bomb and his injuries were not light, Yi Xingchen and the others were instantly on fire and very worried.

It can be said that no matter for the Tengfei Group or for the Security Department Yi Xingchen and others, Ji Feng is the backbone. Although Ji Feng did not come often, as long as he was there, everyone had a bottom in their hearts.

This was equally true for everyone, including Yi Xingchen!

If Ji Feng wasn't here, then this great situation now would definitely not last too long, and this was something that Yi Xingchen could see very clearly.

Ji Feng waved his hand and said, "Don't worry, I'm not much of a big deal."

When Yi Xingchen saw that Ji Feng could actually stand alone and was able to get off the car, seeing that the pace was still quite steady, the heart he was carrying was finally put down.

"Boss, quickly go inside and rest!" Yao Zhijian hurriedly said, he was the closest in age to Ji Feng, so the relationship between the two was quite good, especially when he fought side by side with Ji Feng several times, it made his blood boil, so he was the one who admired Ji Feng the most.

"There's no notice from Mr. Xiao's side, right?!" Ji Feng asked as he walked inside.

"No."

Yi Xingchen said, "No one knows about you coming to the company."

Ji Feng nodded and said, "That's good. You guys should still do what you need to do, just let Guo Tao and Old Liu stay!"

He deliberately asked Bai Zhu to instruct Yi Xingchen that he must not tell Xiao Yuxuan and the others about his coming to the company to recuperate from his injuries, nor could anyone else in the company.

Bai Zhu drove the car into the company directly from the main gate, Liu Zejun greeted him at the entrance, and the door guards naturally trusted Liu Zejun, so Ji Feng did not get out of the car until he reached the entrance of the Security Department's training ground.

Once Yi Xingchen and the others had left, Ji Feng immediately entered a lounge in the Security Department's training ground and began to recover.
