

## Campus Master Chapter 2981

The reaction of Xiang Yongzhan was a little surprising to Ji Feng, he found that Xiang Yongzhan was not very surprised, he couldn't help but mutter secretly, could it be that the country was not opposed to this kind of purchase or construction of island bases overseas now?

But Ji Feng didn't care too much, he was actually sort of testing the waters, if the top agreed, maybe he would consider it, but if the top didn't agree, then he would just pretend that it was never mentioned. After all, with the current situation of the Tengfei Group, it was not quite suitable to set up a base overseas.

At the very least, there would be no way to be guaranteed in terms of security.

If one wanted to defend the security of a base just by relying on those few guns from the battle group, that was obviously unrealistic. The last time he went to the southern waters to rescue the special operations brigade, he had shown Ji Feng how powerful the military was, and even an army that didn't seem very powerful now, or even ranked at all in the world, was definitely not something that a company could fight against!

At least, if a country just excluded a warplane, it would be enough to create a huge threat to the whole base!

So Ji Feng only thought about it for the time being, it could only be considered an immature idea. In fact, he was also stimulated by Zhang Lei, when Zhang Lei whimsically proposed this idea, although it was only a fantasy, this idea left some impression and influence in Ji Feng's heart.

When he returned home in the evening, Zhang Lei was also there, so Ji Feng told him about the signing of the contract during the day.

Zhang Lei immediately grinned and said, "The military has really picked up a big bargain this time! However, to be able to make the military owe you a favor, this is barely a bargain!" The laser gun, how advanced the weapon was, was self-evident, but the parts had to be produced by other companies.

If it was placed in the Tengfei Group, then how big would the Tengfei Group be?

However, compared to a favor from the military, this is also a good opportunity, maybe when something happens in the future, the full support of the military will save the day!

Ji Feng said, "Actually, I'm a bit heartbroken too!"

A laser gun is enough to make a large industrial group long ago, from metallurgy, to the production of energy sources, to triggers and converters and other parts that are rich in high technology, if all these are put into the production of the Tengfei Group, it will definitely make the Tengfei Group into a large group!

"What you're considering isn't unreasonable!"

Although Zhang Lei was also heartbroken, he was an understanding person and agreed with Ji Feng's approach, "It would indeed be very eye-catching to have such a big piece of fat meat and not share it out at all, but of course this is not the main point, the key is that it may not be good for the Tengfei Group to spread its stall so big at once!"

The other components are still in the hands of the core technology, so it's not a big deal to give them to someone else, but it's also a burden to be removed!

"Just afraid that when the time comes, some people are not satisfied!" Zhang Lei said, those corpses are in the end what kind of virtue, he knows very well, even if Ji Feng's identity is there, but secretly there is no guarantee that some people will have crooked thoughts.

The company's main business is to provide a wide range of products and services to the public.

The first thing that I can do is to make my own death, no one can save him!"

This is a chilling statement, Zhang Lei immediately slapped his thigh: "That's right! You have to let them know that giving them these parts is giving them a chance! Don't let them think that they are relieving the Tengfei Group!"

The production of laser gun parts, which required a large number of workers, and also skilled workers, according to Ji Feng even needed workers with a certain level of education and professional training, Tengfei Group could not actually do it in a short period of time, nor did it have that many people to produce it.

This is a fact!

However, the fact is a fact, but it does not mean that those companies can be given an inch or think that they are relieving the Tengfei Group, the initiative is in the hands of the Tengfei Group, to whom these parts are given to produce, for which is an astronomical order, this is giving them benefits!

If not for the sake of the military, why do they have to take care of the military industry? Wouldn't it be better to go directly to the foundry?

"Crazy, when the time comes, you can't be polite with those people, whoever dares to bare their flowers directly give them a hard blow, if you don't hurt one or two, the others won't be afraid!"

Zhang Lei reminded, "If you feed the appetite of those people, it will be really troublesome!"

Ji Feng faintly nodded and said, "Don't worry, I have it in my heart!"

"That's good!" Zhang Lei said.

When one is busy, time passes extraordinarily fast, in the blink of an eye, two days have passed, Tengfei Group's workshop has been renovated and the production line has been assembled as fast as possible, today is the day of the trial run!

Ji Feng, Zhang Lei and the others all came to the Tengfei Group, at this time the wide site behind the Tengfei Group was still undergoing feverish construction, thinking that the military's demand for laser guns, you can imagine how big the production volume of the alloy had to be to meet the production of laser guns!

"The site here is still too small!"

Looking at the feverish construction scene, Ji Feng mused, "If we rely on this place alone, the production will definitely not be able to keep up."

Xiao Yuxuan nodded and said, "I was just about to tell you, now that the sales of 3d TV sets are skyrocketing, the workshop also needs to be expanded, so if we add in the alloy production workshop, the premises here are indeed not enough! Unless we continue to buy land and expand the area!"

Ji Feng, however, was silent.

He felt that it was more or less not good to put all the production workshops in Jiangzhou, and he was considering whether to build a few more production bases in other cities or other places!

"Let's wait a bit longer, the military can't purchase too much at once now, there's still a buffer time!" Ji Feng said. Even if the military was to carry out the changeover, it would still take time, on the one hand, production might not be able to keep up, on the other hand, it also involved military expenses and many other factors.

But even so, it was clear to Ji Feng that actually additionally finding a production base was already something that had to be on the agenda!

"Ji Feng, I actually think that it is more or less inappropriate to put the alloy production line here, I think it is better to use this side of the headquarters only as a production base for 3d TV sets."

Xiao Yuxuan said from the perspective of enterprise management, "Next month, is the day when 3d TV sets officially enter the international market, by then the production will definitely increase greatly, the workshop set aside now, I'm afraid it won't last much longer."

Ji Feng nodded thoughtfully.

At this time, Han Zhong came over, he had gone to handle some business and had only just returned, along with his girlfriend, Wang Jun.

Several people smiled and greeted each other, and when greeting Wang Jun, Ji Feng smiled and nodded, Wang Jun looked very quiet.

Zhang Lei, however, looked at her a few more times, with an odd smile at the corner of his mouth, and when Ji Feng saw and glared at him, the guy immediately became a serious one.

“Boss, is this additional workshop going to be managed separately, or is it going to come under the unified management of the headquarters?” Han Zhong asked.

“Manage it separately!” Ji Feng said, “I’ve talked to Yu Xuan, she’ll arrange it.”

“That’s fine, I’m relieved that you’ve made the arrangements.” Han Zhong laughed.

“It’s starting!”

An executive came over to remind, “Mr. Xiao, Mr. Han, it’s time to go in and take a look!”

Xiao Yuxuan nodded and said, “Go!”

A group of people immediately walked towards the workshop, at this time Ji Feng gave Zhang Lei a wink and pulled some distance away from the others, he lowered his voice and said, “Lei Zi, what happened to you kid just now?”

Ji Feng was a bit puzzled, what was the meaning of Zhang Lei’s look at Wang Jun? This guy is not a particularly flirtatious person, ah, although Wang Jun is also very beautiful, but with Shen Jingyi than more or less worse, right?

The first time I saw her, I wanted to laugh.”

Ji Feng was speechless: “What kind of logic is that? Why are you laughing when she’s pure?”

Zhang Lei grinned, “Crazy, don’t bully me for not reading much, are any girls her age that pure? Haven’t you heard the saying, a pure face and a dusty body, I say, does Han Zhong like this tone?”

“.....”

Ji Feng was speechless at once.

Yet he hadn’t thought that this guy Zhang Lei’s vision was so poisonous.

“You kid don’t talk nonsense and stop looking at people like that, it’s too obvious too!” Ji Feng said helplessly.

“No problem, just now that phrase suddenly came to mind, so I couldn’t hold back my laughter a bit.” Zhang Lei laughed heatedly, “Don’t worry, I’ll definitely not look away next!”

“..... That’s even more obvious!”

Entering the workshop, Han Zhong and the others were already waiting, at this time all the equipment was ready, after Xiao Yuxuan nodded, as the technician who came with the manufacturer pressed the button, the machine roared into action.

The temporary trained workers immediately started to work, and Ji Feng stood on the first floor aisle of the steel structure plant and watched carefully.

Because he knew that this meant that the Tengfei Group had officially crossed over into the industrial field, and the next stage would be the Tengfei Group’s rapid development!

“Oh~~”

“Good!”

Han Zhong and the others also applauded happily in celebration, the development and growth of the Tengfei Group was something to be happy about for any of them.

The first thing that happened was that Ji Feng was already thinking about finding another base, but he didn't know that a hurricane was blowing outside at this time, and the publicity of Tengfei Group's 3d TV sets hitting the international market had already exploded!

Campus Master Chapter 2982

After several rounds of negotiations, the contract was finally signed between the Tengfei Group and the Westgate Group of Germany.

Of course, despite the great importance attached to this cooperation, Xiao Yuxuan and Han Zhong did not both attend the signing ceremony, as it was necessary to maintain the necessary reserve.

Moreover, during the negotiation process, the German's arrogance, if any, was firmly rebuffed by the Tengfei Group's negotiating team!

In the end, the Germans gave in.

Because everyone knew that China was not the same as before, not the backward country that had just opened up and could only stumble along with foreign technology and capital, and that the Tengfei Group was not a backward company that was useless, and that it was even the Tengfei Group that took the initiative in the negotiations.

Who they choose and who they don't, the initiative is safely in the hands of the Tengfei Group, especially when the Germans learn that the Tengfei Group is also in contact with Kerry's Four Star Group and an electronics company in Rice, they are forced to go soft!

Perhaps their channels in the international market are what the Tengfei Group needs, but they are not the only option for the Tengfei Group, while the 3d TV project in the hands of the Tengfei Group is the only one, at least for the time being, that is still unique in the world!

..... Even though 3D technology has now been applied outside of movies, the kind of clear 3D images that can be seen with the naked eye, and the kind of shock that the characters in the TV seem to be close to the eyes, are far beyond the reach of other TVs and instruments!

This is the biggest advantage of the Tengfei Group, and what the international giants want the most!

In the end, however, the Tengfei Group did not transfer the technology to the other side, but only cooperated with the Germans in terms of international sales representation and production.

But even so, after the contract was signed, the German Westgate Group immediately began to promote it.

And so, when the news of the imminent entry of 3D TV sets into the international market spread, it immediately exploded like a storm, exploding the international market as quickly as possible!

“Thanks to the explosion of the electronics market in recent years, it makes it easy for any technical and creative electronic product to attract the attention of the majority of consumers, especially since this is already a product that has long been proven in China and is extremely popular!”

At this point, the media in many countries caught wind of the news and reported on it.

The press conference jointly held by the Tengfei Group and the Deutsche Siemens Group had only just ended, and the news had spread around the world as fast as possible.

The world’s sharpest nose has always been the news media, and the hype for electronic products in recent years has undoubtedly led to a higher level of interest in Tengfei’s 3D TV sets.

Many people have left comments on the internet, and are extraordinarily excited about Tengfei’s 3d TV sets.

“Chinese people’s 3d TV sets are going to be officially sold, I hope there is a size I need, I plan to buy one!”

“Great, I already have the best smartphone in the world, a tablet, and if I can buy another super cool 3d TV set, this will be the start of a great life!”

.....

The buzz on the internet shows how much many people are looking forward to 3d TV sets.

However, apart from that there are some people with different arguments.

“Hell, the Chinese can make technologically advanced electronic products? This must be a scam, the Westgate Group must have been tricked by the Chinese!”

There is however a certain market for such comments, and many people are leaving messages of support.

However, this is mostly the opinion of foreign netizens who don't know much about China or even have never known it at all, while those who know relatively more about China are able to look at the launch of Tengfei Electric's 3d TV sets from a more objective perspective.

“My sister who married into Texas has a 3d TV set made by the Chinese at her house, I spent some time there and god it was awesome, cool!”

“The once lagging Chinese are already catching up and the Chinese technology has taken on a mesmerising appeal!”

The internet was abuzz with talk of the launch of Tengfei Electric's 3d TV sets after the press conference, and although there were mixed reviews, with some expecting and others abusing, and even some people who hated or despised China cursing on the internet, there was no doubt that the news that 3d TV sets were about to enter the international market was spreading rapidly.

This is not good news for many foreign manufacturers of home appliances, but it is also not good news for some media who are biased against China.

A typical example of this is a Rice newspaper, which wrote in a sour tone: “..... The Chinese have always been a catch-up in the field of technology, but unfortunately the gap with Rice is getting bigger and bigger ..... Seeing that Rice has fruit phones and the world’s most advanced computers, China develops 3d TV sets without realising that this 3d technology has long been used in all walks of life in Rice .....”

“This sounds ridiculous that the Chinese can develop a technologically advanced product? God, when I first heard this I thought something was wrong with my ears, it almost made me pick up the phone and contact my personal doctor, but I soon found out that it wasn’t my ears that were wrong, it really was a ridiculous move by the Chinese!”

“..... This is a farce played by the stubbornly stereotypical Germans in conjunction with the Chinese! Damn, our life is full of spam, I don’t know what the government is doing, this kind of market-disturbing spam can be found in the country!”

“Just wait and see, I bet that this time the Chinese people’s attempt to open up the market in Rice with their rubbish products will only end up as a farce and the Chinese will become the biggest joke of this century!”

.....

For the outside world’s buzz, Ji Feng was not aware of it at this time, what he was most concerned about at this time was the issue of choosing the site for the new production base.

If we talk about geographical advantages, Jiangzhou is undoubtedly the most suitable.

The headquarters of the Tengfei Group is here, and most importantly, Jiangzhou has a very obvious advantage in terms of raw materials and transportation.

However, Ji Feng did not intend to put all his industries in Jiangzhou, so he had to choose a new place.

“Ding .....”

The phone suddenly rang, Ji Feng picked it up and couldn't help but smile faintly, the call was from He Hongwei.

He immediately picked up the phone, "What instructions do you have, Younger He?"

"How dare I instruct you!" He Hongwei said with a smile, "Ji Feng, you're not slow in your movements, you've entered the international market so quickly?"

"This is still fast? How long has it been!"

As soon as Ji Feng heard it, he knew he was talking about the 3d TV set, because Kang Yuan slimming powder had already entered the international market long ago, "On the contrary, you, young master He, have long since been crisscrossing the international market, right?"

He Hongwei laughed, "Okay, no more bullshit with you, it's like this, I saw a news item, I think you need to read it!"

Ji Feng was slightly stunned, He Hongwei called all the way over just to talk about a piece of news?

"How about this, I'll send it directly to your email, it's about your 3d TV set, the rice people are singing the praises of your product and insulting the Chinese people too!" He Hongwei said, "Take a look."

"You send it over!" Ji Feng said immediately.

He Hongwei was right next to the computer and quickly sent the email. Ji Feng opened it and found that it was a news item on the official website of a rice country's news media, and after reading only a short paragraph, he couldn't help but frown.

This newspaper was really nonchalant, but that was nothing, the key was the insult to the Chinese people between the lines, but it made Ji Feng frown a little.

He Hongwei said, "This newspaper has always had a hateful attitude towards Chinese, and there are many black Chinese news, but it has a great influence, I think you need to pay attention to it, otherwise, it may have a certain impact on your product sales!"

He often flies around the world, so he knows a lot about some of the international developments.

The news media can be quite influential, especially in foreign countries where the internet is extremely developed but newspapers still have huge sales, and the impact this can have can be quite bad.

"Humph! It's not just a day or two since the negative rhetoric against China, but it has never stopped the rise of China!" Ji Feng coldly snorted, "Brother Hongwei, thank you."

"Don't be careless, I think you'd better have the need for public relations, spend some money, and better shut up those news media!" He Hongwei said, "You can learn from Brother Group in this regard, back then they also had this kind of crisis once, and in the end, they also carried out news PR to solve it."

Ji Feng nodded thoughtfully, he knew the example of Brother Group that He Hongwei was talking about, which was also very famous back then. When Brother Group first started to enter the international market, the news media in Rice had been singing badly about it, which had a great impact at that time and made Brother Group slow to open up.

The Brother Group carried out public relations work on this, and at the same time carried out several marketing cases that are extremely well known in the field of marketing, and finally entered the Rice market with a small personal refrigerator, which was welcomed by Rice university students.

The rapid growth of the Brother Group later even made the German one, which also translates as Brother Group in China, unable to resist exclaiming that the wolf had come, calling it China had raised a wolf! Raising a formidable competitor for themselves!

"I'll think about it!"

Ji Feng nodded slightly, "Brother Hongwei, thanks."

He Hongwei said, "Just have it in your heart. All right, without further ado, I'm going to Jiangzhou in a few days, let's meet then."

Ji Feng smiled, "I'll be the host then!"

After hanging up the phone, he couldn't help but coldly snort, want to rely on this method to stop the Tengfei Group's products from entering the rice market? I'm afraid you can't stop it!

Campus Master Chapter 2983

The news that He Hongwei called about, Ji Feng didn't pay too much attention to, in fact Xiao Yuxuan and Han Zhong and others had already had expectations about this situation when the 3d TV sets were pushed to the international market.

China's status in the international arena is still not as high as the news propaganda, while foreigners are not as good as the news says!

In the eyes of many foreigners, Chinese people are still somewhat inferior, and the idea of white supremacy has never been diminished even a little bit, and there are many people who say on the surface that everyone is equal, that there is no discrimination, etc., but in reality, in private, they are completely full of discrimination!

However, the newspaper was so blunt that Ji Feng was a bit surprised.

He thought about it and felt the need to call his sister, who had some influence in the business world, especially in the Chinese business world, but on second thought, Ji Feng was hesitant.

Although he had helped his sister solve the threat from the black `doors, which had shaken the underground world of Rice, under such circumstances, it would be better not to let the people of Rice think that his sister's Weida Group had too close a connection with the country.

Then, without looking for Little Aunt, the only thing he can say in Rice is the number one Chinese `gang` in Rice, the Green Gang!

However, Ji Feng did not rush to do so, but went to the Tengfei Group, looking for Han Zhong and Xiao Yuxuan to discuss, but Han Zhong immediately said, "It's best not to do that!"

Ji Feng was surprised and asked, "Why?!"

Han Zhong said, "If we let the Qing Gang do public relations, will it give people the impression that we have something to do with the black `dao, and if it is reported by the media then, it won't be good for us! It might even cause consumers in Rice to boycott us, or if it's more serious, it might cause some of those legislators and some influential people in Rice who already hate China to openly criticise us!"

Ji Feng smiled and couldn't help but nod slightly. In fact, he had also considered that it might be a bit inappropriate to do so, which was why he had come to Xiao Yuxuan and Han Zhong to discuss it.

"What Han Zhong said is right!"

Xiao Yuxuan said, "In business, it's best not to get involved in these things!"

Ji Feng mused, "But that's all the people I know in Rice, otherwise, I'd have to look for my little aunt ....."

"Actually, we don't need to worry about this matter at all!"

Han Zhong said, "Our task is to do a good job with our hearts and rely on our products to speak, what should really be anxious is the German Simon Group is right!"

Ji Feng frowned and said, "Rely on the Siemens Group alone?"

Han Zhong said, "This kind of problem is actually not only encountered by us, those large domestic enterprises want to go international in the process, almost all encountered a similar problem, we can refer to their practice, on the one hand, with the cooperation of the enterprise common public relations, on the other hand, increase the publicity, the key depends on, whether to shed the investment! "

“How do you say?!” Ji Feng immediately asked.

“What do the rice people value most?” Han Zhong held up a finger, “Money! As long as we surrender our investment and get most people to say yes, then, in time, even if a small number of people say no, it doesn’t matter, the key is that our product quality is excellent, and consumers will buy it!”

Xiao Yuxuan also nodded her head and said, “Han Zhong is right, publicity is important.”

Han Zhong looked at Ji Feng and said, “The key is, if we want to create an overwhelming publicity campaign, the money to be spent is not a small amount.”

“What should be spent must be spent!”

Ji Feng smiled and immediately clapped his hands, “Don’t forget, the most important thing is to push the 3d TV set to the international market is to put the awareness out and establish the brand image, don’t be afraid to spend money, even if it’s not profitable, as long as we can establish the brand image, it’s all worth it for us!”

“With this word from you, that’s good.” Han Zhong laughed, “I’ll immediately contact the German Westgate Group to discuss a way of public relations!”

Ji Feng nodded and said, “Good!”

“Actually, apart from that, there is another way, which is to sue that newspaper and create a news event out of this matter as much as possible to draw more people’s attention.”

Han Zhong said, “Actually, to put it bluntly, this is a kind of hype!”

Ji Feng said, “You just look at it, you’re a connoisseur in business, if you think it’s feasible, then let it go, I fully support you!”

Han Zhong slapped his thigh, “Good! With your words, that’s fine!”

Since Han Zhong had a solution, Ji Feng gave him full authority to do the matter. However, this matter also gave him a wake-up call that foreigners were still very wary and deeply wary of China, and could even be described as hateful!

This woke Ji Feng up to the fact that he should never believe in the news or the words of some experts, and that these things must be taken into account if Chinese companies want to really go out.

However, despite the fact that a solution was found for the business matter and it didn’t seem to be too difficult to solve, the insults that that newspaper was hurling at the Chinese people between the lines made Ji Feng a little uncomfortable, one might even say annoyed!

“Strength is still not strong enough, and neither is the country!”

Ji Feng said secretly in his heart, “One day, this situation will definitely be changed!”

Han Zhong’s action was quick, and on just the next day, a legal team consisting of several well-known barristers and a dozen ordinary lawyers filed a lawsuit in the local court in Rice. They demanded a public apology from the newspaper, a retraction of the insulting remarks about the Chinese people and the Tengfei Group, and compensation.

The vast majority of these lawyers were from Rice, which made Ji Feng once again recognise the role that money can play in Rice.

And this lawsuit, too, caused a lot of repercussions in Rice, and many people were paying attention to it, so Tengfei Electric’s name became even louder than before!

But that’s not all, after the lawsuit, a batch of advertisements, which had already been in production for a long time, began to be released in large quantities by the Tengfei Group and the Westgate Group.

Han Zhong even laughed and said that he had learnt from some companies in China, using a bombardment of advertisements to get the name of the 3D TV set to as many people as possible in the shortest possible time!

At least, the message boards on the website of the Westgate Group were already full of messages from netizens, not only from the country, but also from people all over the world who had read the news and were looking forward to it.

The news about the Tengfei Group and Tengfei Electric was so widespread that even some of the world's biggest home appliance companies could not help but look askance!

Except for the Chinese, of course.

Because ordinary Chinese people can't even get on the websites out there, not to mention, 3d TV sets have already been sold in China and are in short supply!

But this is not all, in addition to this hard advertising, Tengfei Group and Simon Group also put a kind of soft advertising in all the major media in the world, they have produced a lot of videos on the performance test of Tengfei 3d TV sets, a lot of them are put in the major portals and those TV programs.

And the demonstration caused a great deal of excitement and astonishment!

Although the extreme effects could not be fully demonstrated through ordinary television sets, the effect of ordinary television alone was absolutely astonishing.

This overwhelming advertisement exploded in the international market in a very short time.

In no time at all, the brands and products represented by the two Tengfei acronym logos made an impression on many people!

But what neither Tengfei Group nor Ji Feng expected was that the people who showed the most enthusiasm were the people of Kepong!

In addition to the comments left by netizens on some of the Kepong websites, after Zhao Kai's investigation, there was also a phenomenon – quite a number of Kepongese working in China were buying Tengfei 3D TV sets and bringing them back to China through various means!

This really surprised Ji Feng, he didn't think that the people of the country would be so supportive of the Tengfei 3D TV!

However, when you think about how crazy the people of Kepong are about certain internationally renowned mobile phone brands, and their love for electronic technology products, it is not hard to understand.

And this phenomenon has given everyone at Tengfei Group even more confidence!

Of course, while the situation is great, there are also different voices, those who originally loathed or hated China are still sparing no effort to blacken the Tengfei 3d TV set, and of course there are some media who are equally unmoved and desperate to discredit it.

This is not because the Tengfei Group and the Ximen Group have not done a good job of public relations, but because even the largest groups cannot take care of all the media, not to mention that there are some die-hard elements who are not moved – perhaps also because the money is not enough!

But in the face of the overwhelming advertising, these voices can no longer make much noise, and can only stick to their little turf and sing.

Neither the Tengfei Group nor the Ximen Group cared about this, because it is impossible for any product to be liked by every consumer, and as long as it is liked by the majority, it is a success!

So, everything is going on step by step.

However, from the time the advertisement was launched to the time the product was actually on the market, there was still time in between, and Ji Feng couldn't be concerned all the time, so after letting go of this matter to Han Zhong and Xiao Yuxuan, he still turned his attention to the laser gun and alloy project!

But at this time, Ji Feng unexpectedly received a phone call

Campus Master Chapter 2984

The call was from Xiang Yongzhan.

He opened the door and said, "Ji Feng, I found something on my side, do you want to come over?"

Ji Feng asked, "What is it?!" Xiang Yongzhan's words were so clueless that he couldn't help but feel a little strange.

Xiang Yongzhan said, "It's the stuff that was found in the western suburban villa area during the search for Old Li last time, it should belong to Shao Jie and Zhai Yadong. But there's not much stuff and it's not very important, how about this, why don't I just send you a few photos, come and get them if you see if they're useful, forget it if they're not!"

"Good!"

Ji Feng nodded, retrieved from Shao Jie and Zhai Yadong's villa? That would be something to take a look at.

He opened his computer and Xiang Yongzhan quickly sent the pictures.

Ji Feng couldn't help but be slightly stunned when he saw the pictures, which showed some miscellaneous things, among which there seemed to be a few black plastic boxes, but they were all small and looked like some kind of electronic equipment.

"See the one on the second picture that looks like a black thing?" Xiang Yongzheng asked.

"I see it!"

The second picture was of something about the size of a bp machine, and it looked pretty much like that too, "What is this thing?"

Xiang Yongzhan said, "This is actually just a package, look at the third picture, that's a picture of this thing after it's opened, is there a small chip inside, after expert testing, it was found to be a voice changer."

Ji Feng could not help but be slightly stunned at his words, "A voice changer?"

Xiang Yongzhan said, "That's right. It's similar to many voice changers on the market, only made a bit more elaborate, this kind of thing can make a person's voice turn into other voices at will, for example, being able to turn a man's voice into a woman's voice, or turn a car's voice into other voices after processing, etc."

Ji Feng couldn't help but be a little surprised: "This is something from Shao Jie and Zhai Yadong?!"

Xiang Yongzhan said, "I don't know about that, but this was indeed recovered from their villa, but now that the people have been released, it's impossible to know if it's their stuff or not!"

"What do they need this voice changer for?!" Ji Feng was a little surprised.

"That would be something to ask them!"

Xiang Yongzhan said, "In the information given to you before, there was no information on these exhibits, I only found it today when I was organizing the case and preparing the summary, I think this thing might be useful to you."

Ji Feng nodded slightly and said, "Thanks."

Whether this thing was useful to him or not, Xiang Yongzhan had a heart.

Xiang Yongzhan laughed, "Alright, don't pretend to be polite with me! By the way, there will be a person in charge from above looking for you later, that thing needs to be on the agenda!"

Ji Feng then smiled and nodded, "Got it." Xiang Yongzhan was talking about the laser gun, it seemed that the top was quite anxious, it was going to be on the agenda so soon?

However, Ji Feng did not want to interfere with the military's affairs, in fact, he did not have the qualification to interfere, anyway, now that he had made all the preparations, when the military said production, then his side would immediately start.

Afterwards, Xiang Yongzhan explained the other items on the pictures to Ji Feng one by one, and which items had Shao Jie's or Zhai Yadong's fingerprints on them, etc., all of which were explained, and Ji Feng took it all to heart.

After ending the call with Xiang Yongzhan, Ji Feng's gaze fell on the pictures again, especially the picture of the voice changer, which made his gaze linger on it for a long time.

For the voice changer, actually Ji Feng had heard of it before, even in some of the more thunderous anti-war dramas spy dramas, he was able to see such episodes, where certain underground workers, when designing a trap of some kind, actually used a voice changer to change into someone else's voice ..... at the time he directly changed to another station!

But the development of modern technology has made such devices no longer a rare thing, and downloading a voice changing software on a mobile phone is enough.

If so, then why did Shao Jie get a voice changer specifically?

Or Zhai Yadong!

Could it be that they were enthusiasts of some electronic product? Ji Feng shook his head, this kind of speculation was very far-fetched! He was also a bit puzzled!

But since this thing involved Shao Jie or Zhai Yadong, Ji Feng couldn't help but think that they must not just feel novel or just want to play with it with the voice changer, nor were they any kind of enthusiasts, so there was only one possibility.

— They must have some other purpose, and it was still unseen!

However, thinking carefully about the process of dealing with Shao Jie, Ji Feng didn't notice anything unusual, and as the lapdogs of the Wu family, it was only natural that they were hostile to themselves.

.....

“Chief Rong, Chief Rong.”

A careful voice made Rong Suyan snap back to her senses, only to find her assistant standing next to her, looking at her strangely, “Chief Rong, are you alright?”

Rong Suyan immediately shook her head and said, “Nothing, why did you come in, is there something wrong?”

The assistant was a bit strange but didn't ask much and said, “Chief Rong, there is a gentleman surnamed Ji outside who claims to be your friend and says he wants to see you.”

“Surnamed Ji?!”

Rong Suyan's mind instantly conjured up that masculine face with a bright smile, and without even thinking, she immediately said, “Where is he, invite him in!”

The assistant hurriedly said, “That gentleman is waiting at the front desk, I'll invite him in!”

With that, the assistant hurriedly went out.

However, when she brought the door to Rong Suyan's office, she was surprised to find that Mr. Rong had taken out his make-up box and was looking at his dressing in the mirror. Could it be that that gentleman was Mr. Rong's boyfriend? But she hadn't heard that Mr. Rong had a boyfriend!

With a strong sense of surprise, the assistant left.

A few moments later, the assistant knocked on the door and came in again, "Mr. Rong, Mr. Ji has arrived."

"Su Yan, it's been a long time!" Ji Feng smiled as he walked in.

"Young Ji? How did you remember to come to my place?!" Rong Suyan looked surprised and had a smile on her pretty face, "Please have a seat!"

With that, she hurriedly arranged for her assistant to pour water while saying, "This Mr. Ji is a good friend of mine, bring him in directly when he comes in the future."

The assistant nodded in a hurry.

Ji Feng looked at Rong Suyan's assistant and found that it was not the one he knew before, so he smiled and asked.

Rong Suyan said, "Recently the company has discovered another new project, so I let her go on a field trip, Little Red only followed me recently!"

Ji Feng couldn't help but laugh: "You're doing really well, the company is not developing slowly, there's another new project?!"

Rong Suyan angrily said, "Ji Shao, don't bring you to bully people like this, yo!"

Ji Feng waved his hand with a smile and said, "I'm telling the truth, how can I be slandering you? I admire your business talent, it may be false to say that I admire you, but it's true that I am convinced!"

Rong Suyan looked at Ji Feng with good temper and amusement, that charming and beautiful face with rage, and said, "Young Ji, you came here specifically to bully me, right?"

"No no!"

Ji Feng hurriedly shook his head and laughed, "I came here today mainly to see you, it's been a long time since I've seen you."

Rong Suyan was happy and angry, but her beautiful eyes looked at him suspiciously and asked, "Really?"

"Of course it's true!" Ji Feng said.

"That's more like it! Alright, count you as having passed!" Rong Suyan blinked, and then giggled.

Ji Feng also couldn't help but smile, he didn't have many friends, and naturally there were even fewer female friends, there were only about a few of them, Ji YuYi and RongSuyan, but these few people wouldn't be so restrained in front of him, or really just treated him as some kind of Ji Shao, but rather treated him as a friend, which made him feel very comfortable.

In fact, Ji Feng never thought that just because he was a Ji youngster that he was somehow, because he always knew that in fact the main reason for his achievement was not the Ji family, but the wise brain, and his mother's teachings from childhood and all those difficult experiences!

The two of them were laughing and joking, Rong Suyan was very cheerful, whenever she spread her smile, it seemed like the whole office was much brighter.

In particular, Rong Suyan was very pretty and dressed appropriately, despite her professional attire, the flattering beige skirt outlined her hot figure, without too much jewellery, only simple earrings and pendants, but her beauty was beautifully embellished!

When a woman reaches Rong Suyan's age, it can be said that she is already ripe for the picking. The moving style between her eyebrows and smile, as well as the unintentional charm that flows out between her hands and feet, would make any normal man's heart flutter.

Just looking at such a beautiful beauty, Ji Feng felt quite enjoyable.

"Hey, just now you said you were mainly here to visit me, what about that time to?" Rong Suyan's charming pretty face with a light-hearted smile, asked casually.

"Secondary well, it's also to see you!" Ji Feng smiled and said.

"Young Ji, don't treat me like a little girl, yo!" Rong Suyan gave him a blank look.

"It's really to visit you, but it's to visit you at home!" Ji Feng laughed.

When Rong Suyan heard this, her pretty face heated up and a style flashed in her beautiful eyes, but she snapped, "Ji Shao, bullying me again!"

Ji Feng also felt that these words were somewhat ambiguous, and seeing Rong Suyan's moving appearance, he coughed lightly and said, "Well, actually I was planning to visit you and then also visit uncle!"

"My dad?!"

Rong Suyan was slightly stunned, and then said, "If he knows you're going to visit him, he'll definitely be happy, he's been staying at home all this time and is bored with idleness!"

Ji Feng smiled, "Then at noon today, do you want to go back together?"

"Sure." Rong Suyan happily agreed.

“Dangling .....

Suddenly, the mobile phone placed on the table rang, she casually picked it up and suddenly her face changed slightly and subconsciously glanced at Ji Feng.

Campus Master Chapter 2985

“Dangling .....

Suddenly, the mobile phone placed on the table rang, she casually picked it up and took a look, suddenly her face changed slightly and she subconsciously glanced at Ji Feng.

Ji Feng took in Rong Suyan’s reaction and said very sensibly, “So what, I’m going out for a smoke, we’ll go to your house together later!”

Rong Suyan didn’t nod either, she just gave Ji Feng a complicated look, her expression was a bit flustered.

Ji Feng thought to himself that it might be her personal matter that was inconvenient for him to hear, so he pulled open the office door and walked out, closing the door behind him, but he had just taken two steps when he heard Rong Suyan’s voice faintly coming from inside, “What are you calling for again .....

When he said he was going for a smoke, Ji Feng was actually just strolling around Rong Suyan’s company, but when he found that the employees were working, it was not a good idea to go in and disturb them, so he stood in the corridor for a while.

A few minutes later, Ji Feng returned to Rong Suyan’s office, came to the office door and listened, finding that there was no sound inside, he then knocked on the door with confidence.

“Please come in!”

Rong Suyan’s voice came out.

Ji Feng pushed the door and walked in, and found that Rong Suyan had already finished her phone call, he smiled slightly, raised his hand to look at his watch and said, "Suyan, it's almost the end of the day, do you need to leave a little earlier?"

It was already eleven o'clock, if we waited until after work to go to Rong's house, I was afraid that Rong Peng would already be eating when we got there, so it was not appropriate to rush over at mealtime.

"Yes, fine." Rong Suyan nodded her head.

"Suyan, why do you look so pale? Did you encounter something?!" Ji Feng asked with a frown. In fact, from the time he came back he saw that Rong Suyan's face was not very good, and there was even a bit of a trance when he was talking, which made him wonder if it was related to that phone call just now.

Rong Suyan forced a smile and shook her head, "It's nothing, it's just some things in the company, it will be resolved soon."

"That's good."

Ji Feng nodded, he could naturally see that Rong Suyan was a bit tongue-tied, after all, what could put her in a trance was not a little thing, perhaps it was no small trouble, but since Rong Suyan was not willing to talk about it, he could not ask more.

However, Ji Feng still said, "Suyan, we are friends, if you need help with anything, just ask, don't be polite."

Rong Suyan raised her head and saw the look of concern in Ji Feng's eyes, she suddenly felt a warmth in her heart, and a warm current flowed through her chest.

"Mm."

Rong Suyan gently nodded her head and answered.

Ji Feng's eyebrows frowned imperceptibly, he suddenly found that Rong Suyan seemed a bit soft at this moment, his heart was even more certain that Rong Suyan must have encountered something, and he thought that the phone call just now should be the main reason.

He hesitated for a moment and still did not open his mouth to ask.

"Phew~!"

Rong Suyan took two deep breaths, as if she was using this method to calm herself down, and then she spread her face and smiled, "Wait for me to pack my things, we'll go back here."

Afterwards, Rong Suyan took some documents from the drawer and put them in her briefcase, then took her own handbag and packed them haphazardly, then said, "I'm packed, let's go!"

Ji Feng looked at her with some suspicion and nodded his head.

When they came out, Bai Zhu, who had been waiting outside at the reception, stood up and Ji Feng said, "Let's go to Suyan's house. You drive the car and follow Su Yan."

Bai Zhu nodded.

When they went back, Bai Zhu drove the car and followed behind Rong Suyan's car.

Rong Suyan's car was a jeep commander, Ji Feng had seen this car at her home before, it was her father Rong Peng's car.

A fashionable girl driving a jeep commander could not help but look a bit wild, which made Ji Feng look a bit surprised, Rong Suyan still had this side?

He felt that he didn't know enough about Rong Suyan. Perhaps, in life, Rong Suyan, like others, also has many sides.

At this time, Ji Feng suddenly found that Rong Suyan's car was accelerating and driving faster and faster, and he couldn't help but frown as he followed behind.

The car's speed was not too fast because there were too many cars in the city, but when it got to the elevated area, Rong Suyan's car speed went up.

Ji Feng immediately took out his mobile phone to dial Rong Suyan's phone, but found that it was on hold, apparently Rong Suyan was talking to someone else.

"Bai Zhu, overtake her and bring down her speed!" Ji Feng suddenly said.

"Yes!"

Bai Zhu was slightly stunned, then immediately nodded his head.

Ji Feng looked at the car in front of him thoughtfully, Rong Suyan didn't want to die? She was talking to someone on the phone and still drove the car so fast, not afraid of an accident!

The company's car is already quite skilled, the engine's powerful power burst out instantly, and soon overtook Rong Suyan's car, and then opened the double flash, began to slow down, to press Rong Suyan's car speed down.

However, just now, when overtaking, the BMW x6 and Rong Suyan's side by side for those few seconds, Ji Feng found that Rong Suyan, who was sitting on the driver's seat of the finger jeep, was actually gripping the steering wheel with one hand, the other hand was scratching, and her expression also looked very excited.

Ji Feng guessed that she should be using the Bluetooth headset to talk to someone, but such an excited look made him look and couldn't help but frown, who was Rong Suyan talking to in the end, how could she react so strongly?

"Beep beep beep ....."

Bai Zhu honked his horn and put on his double flashes while reducing the speed of the car. Meanwhile, Ji Feng, who was sitting in the back seat, turned around and waved his hand straight at Rong Suyan from the back window.

Rong Suyan finally noticed and hurriedly reduced her speed while turning on her turn signals to bring the car to a slow stop on the right.

Bai Zhu also stopped the car, Ji Feng opened the car door and walked down, walked a few steps quickly to Rong Suyan's car, found that she just happened to take off the headphones on her ears, "Ji Shao, what's wrong?"

Ji Feng frowned and said, "Suyan, are you alright?"

"No, it's fine!" Rong Suyan shook her head and said, "I thought something was wrong with you, why did you suddenly stop?!"

"You drove the car so fast, you were still so agitated when you were talking on the phone inside the car, and you said you were fine?!" Ji Feng frowned and asked, "Su Yan, you don't want to die driving like that?"

At such a high speed, he was still distracted like this, a small car accident will be injured in 8`9 out of 10, and if it was a big car accident, if he went down from the elevated, the consequences would be unthinkable.

The face of Rong Suyan was a bit unnatural, but she still smiled and said, "Oh, I forgot about it for a while when I was on the phone just now, let's go, you guys are in front this time, I will definitely pay attention!"

Although she said this, she seemed to be as if nothing was wrong, but Ji Feng was able to see from her hand that was gripping the steering wheel tightly because of excessive force and a little white, Rong Suyan's heart must be very unsettled at this moment.

Ji Feng was sure that Rong Suyan must have encountered something, he asked, "Suyan, we are friends, if you really encounter any trouble, you must tell me, as long as I can help, I will definitely help, don't carry it alone, understand?"

Ji Feng's concern made Rong Suyan's heart extraordinarily warm, after seeing Ji Feng's concerned and nervous eyes, Rong Suyan almost blurted out with an impulse in her heart, but the words came to her lips but she swallowed them back and just said, "Well, I can drive since I graduated from high school, and I'm afraid my driving skills are better than yours, so don't worry about it."

I've already told my dad, he's waiting for us for dinner!"

"No way!"

Ji Feng shook his head, he noticed that Rong Suyan's state was not right, he pulled open the commander's driver's door and said, "I'm not sure, I'll drive, you go sit on the passenger side!"

Rong Suyan wanted to say something else, but Ji Feng took her hand and pulled her down. Originally, Rong Suyan, who wanted to refuse, was suddenly grabbed by Ji Feng's hand, and her delicate body stiffened, but then she softened and did not say anything to resist, allowing Ji Feng to help her down.

Although the body of the jeep commander was very high, but with Rong Suyan's size and her long and slender legs, she could actually get down with just a little sideways, but she seemed to be extremely soft at the moment, allowing Ji Feng to hold her up, until Ji Feng let go of her hand and gestured for her to sit in the passenger seat, then she came back to her senses, with a complex and somewhat flustered look in her beautiful eyes.

"Hmm."

Rong Suyan softly mumbled and nodded, then walked around from the front of the car and sat down on the passenger seat.

Ji Feng gave Bai Zhu a gesture from the back and then got into the commander's driver's seat, he decided it was better for him to drive, Rong Suyan was a bit distracted anyhow, this was no joke on the elevated road, the car was going too fast, a slight accident was worse than a cold and fever!

The car's steering wheel is a little heavy, but Ji Feng's operation is as if it is flowing.

Rong Suyan looked a little dumbfounded, her beautiful eyes looking at Ji Feng, a little out of breath.

"You're really bold, not only speeding on top of this elevated, but also daring to wander off, you're one of those who have never been in an accident and don't know how to be afraid!"

Ji Feng said while driving and shaking his head.

Only then did Rong Suyan come back to her senses and smiled, "Ji Shao, don't count me out!" Somehow, Ji Feng lectured her but instead made her feel extremely warm and not the least bit disgusted.

"It's good that you can grow a memory!"

Ji Feng said, he also did not continue this topic, the words point to the line, "Su Yan, tell me, what problems you encountered?!"

Campus Master Chapter 2986

"It's good that you can grow a memory!"

Ji Feng said, he also did not continue this topic, the words point to the line, "Suyan, talk about it, what problems you encountered?"

Rong Suyan said, "Nothing, didn't I tell you before, it's just some things in the company."

Ji Feng knew she wasn't telling the truth, but he had already asked twice, and since Rong Suyan didn't want to talk about it, he couldn't continue to ask, guessing that maybe it was Rong Suyan's personal matters that she didn't want outsiders to know.

He guessed that perhaps Rong Suyan did not want outsiders to know about her personal affairs. However, he noticed that Rong Suyan was leaning back in her seat and looking out of the window, seemingly thinking about something on her mind.

It was obvious that Rong Suyan must have encountered something, so Ji Feng suddenly asked, "Suyan, do you have a best friend?"

"What?"

Rong Suyan didn't respond for a moment.

Ji Feng asked, "Just a good friend, do you have the kind of friend who is more close to your heart?"

Rong Suyan didn't answer but asked, "Why are you asking this?"

Ji Feng said, "If you have a friend who is close to you, you can talk to her if you encounter anything, don't keep everything inside you, that's not good."

Rong Suyan was stunned, then sighed softly and said, "There are some things that others can't help."

Ji Feng laughed: "Many times telling your friends what's on your mind doesn't necessarily mean that you want people to help, confiding in them is also a way of letting off steam to relieve stress, if you keep everything bottled up, people will easily go wrong, but if you can get it out, it will be much better."

"That seems to make sense, you're very experienced?!" Rong Suyan asked.

"Of course!"

Ji Feng laughed, "This is all from my own experience!"

Rong Suyan asked, "You also have times when you're troubled and have to find someone to talk to? I understand, this is the so-called high places, to your current status, it's actually hard to find someone to talk to, and you must have a lot of things pressed on your heart, right?"

"Not really! You're only right about a small part."

Ji Feng shook his head and said, "Right now I do have a lot of things in my heart that I can't tell others, but right now those problems aren't even problems for me, and the personal experience I'm talking about is from the past."

Seeing Rong Suyan's somewhat puzzled gaze, Ji Feng said, "You shouldn't think that just because I'm often called Ji Shao Ji Shao now, that I'm very prosperous, in fact, in my opinion these are really nothing, moreover, I've never seen status and position as something of much importance since I was a child."

"Then how did you get to experience it first hand?" Rong Suyan asked curiously.

"You believe what I'm saying?" Ji Feng asked with a smile as he glanced at her.

Rong Suyan said, "If someone else had said that to me, I would have thought he was being pretentious, but this came out of your mouth, I believe it!"

If someone else had said that, Rong Suyan wouldn't have believed it and would have thought it was a sickness. However, as far as she knew Ji Feng, he really wasn't that kind of pretentious person, so she chose to believe Ji Feng.

Ji Feng laughed: "So in your mind I'm still considered a more pragmatic person? I'm really honoured!"

Rong Suyan pursed her lips and smiled lightly.

Ji Feng laughed: "Actually, you may have heard about my past, I lived in a small county in the north from the time I was born until I went to university, at that time I didn't know I had a father and my family was very poor, so you should be able to imagine that I must have been bullied a lot as a child!"

Rong Suyan was stunned, and then nodded slightly.

She had once heard about Ji Feng's origins from Wu Zhihe. It was said that Ji Feng used to live in the private sector and had only returned to his family in recent years, but at that time, Rong Suyan was only at a level of hearing about Ji Feng's origins and his previous life, but she did not have a clear idea of what kind of life Ji Feng was living.

However, now that she saw Ji Feng talking so lightly about his past, Rong Suyan suddenly felt that Ji Feng might not have been so happy in the past.

At that time, Ji Feng said, "In fact, it's not a big deal that my family is poor, because my mother is especially good at taking care of me and loves me, so at that time, although my family was very bitter, but the life was also very happy, after all, at that time I was still a child, no heart and no lungs, how to play or how to play."

Rong Suyan heard his self-deprecating amusement and suddenly wanted to laugh.

Ji Feng shook his head and laughed: "So, at that time, the saddest thing was being bullied and looked down upon, think about it, the conditions of children in the city were quite good, of course, it was not at all comparable to the living standards of people in big cities now, but at least at that time in our small county, it was already considered good, but my family's life was very hard, my mother sold vegetables, and it was just enough to ensure the family. But my family's life was very hard, and my mother sold vegetables to ensure that the family could eat and that I could go to school.

Rong Suyan listened quietly, the curiosity in her heart was gradually hooked up: "And then?"

Ji Feng smiled mockingly: "At that time, I was looked down upon and bullied, at that time I was small and not very strong, I usually couldn't beat people, so I was very bitter in my heart and had low self-esteem, so I hardly talked to my classmates, you may not even believe it when I said it, when I was in junior high school I even once didn't say a word for up to a week. "

A stunned look appeared on Rong Suyan's pretty face, she had never thought that Ji Feng had such an experience, she suddenly felt some pain in her heart and felt that little Ji Feng at that time was really pitiful!

“This situation lasted until high school, at that time I even grew up, then I met a good brother, I would talk to him about anything, my bitterness got confided in me, and my mood naturally got better.”

The reason is that although I had low self-esteem in junior high school, I was just a kid at that time and didn't know much about it, so I wasn't depressed or autistic. Maybe I would have taken a different path by now!”

Rong Suyan bit her lips for a while before she said, “I really can't imagine that you had this kind of experience before!”

Ji Feng laughed: “It's not that I had this kind of experience, but this kind of experience has been with me throughout my childhood and even my teenage years, so I have a very deep experience, this is also a kind of advice to you from someone who has come here, don't always keep your problems inside, sometimes it's better to find someone to talk to than to keep it to yourself!”

Rong Suyan only felt that the softest part of her heart was touched, she bit her lips and nodded gently, “Thank you.”

“What's polite, it's just a little suggestion from me!” Ji Feng laughed, “As a friend, it's the right thing to do!”

“I know, but I still want to thank you!”

Rong Suyan said in a soft voice, her eyes carrying a hint of a complicated look. As the eldest grandson of the Ji family, Ji Feng was able to speak openly about these things in the past, which on the one hand showed that he was open-minded, and this kind of self-deprecation and self-revelation was not something that anyone was able to do.

But on the other hand, Rong Suyan also understands that this kind of experience is not something that Ji Feng can just tell anyone he catches!

It seems that she was touched by Ji Feng's recounting of her own experience, and Rong Suyan fell into deep thought, but her expression was obviously more relaxed than before, and she did not wander off as much as before, but would talk to Ji Feng from time to time.

When he got to Rong Suyan's house, Rong Peng shook hands with Ji Feng very warmly and said, "It's a great honor to have you here, Ji Shao!"

Ji Feng said with a smile, "Uncle Rong, you're killing me! Didn't we say last time that you could just call me Ji Feng or Xiao Feng directly?"

For this still maintaining modesty of Ji Feng, Rong Peng was very comfortable and nodded, "Then, I'll trust you, Little Feng, have a seat!"

Ji Feng first greeted Rong's mother before sitting down.

"Little Feng, it's great to have you here Uncle Rong, let's have a couple of drinks at noon!" Rong Peng said smilingly, then took out a bottle of white wine without saying a word and was about to pour it for Ji Feng.

"I'll do it, I'll do it!"

Ji Feng hurriedly grabbed the bottle of wine and poured it for Rong Peng before pouring it for himself.

Originally, he had asked Rong Suyan to leave work early because he didn't want to eat as soon as he arrived at the Rong family's house, which was a bit impolite, but after some delay on the way, he ended up here just in time for dinner.

But since he was here, Ji Feng clinked two glasses with Rong Peng, but Rong Peng didn't drink much and seemed to be in a good mood.

"Ji Feng, he's overjoyed that you came to drink with my dad." Rong Suyan said next to him, "You don't know, my dad has been suffocating at home this time."

"You girl, how can you reveal your dad's shortcomings like that?!" Rong Peng scolded with a laugh.

Ji Feng laughed, "This shows that I am still popular with Uncle Rong, and that makes me happy."

Rong Peng laughed at his words, "Little Feng, I'm happy whenever you come."

"Then I'll come and bother you a lot from now on." Ji Feng said jokingly, "Auntie's cooking is really good, I'm getting addicted to it!"

"Then you should eat more and come often in the future!" Rong Peng said with a smile.

The meal was a great success, but Rong Peng didn't drink much, he restrained himself and only drank a few glasses before stopping. This is exactly what Ji Feng wanted, he came to see Rong Peng for something today, naturally he did not want Rong Peng to drink too much, then how can we talk?

After finishing the meal, several people came to the living room, Rong's mother made tea and then left.

At this time, Ji Feng took the initiative to speak up and said, "Uncle Rong, in fact, this time I came to see you because I have something to ask for your help."

Campus Master Chapter 2987

At this time, Ji Feng took the initiative to speak up and said, "Uncle Rong, in fact, this time when I come to see you, I have something to ask for your help."

Rong Peng asked, "Oh? What is it?"

Ji Feng smiled faintly, this attitude of Rong Peng was the right one, if as soon as he said he had something for Rong Peng to help, Rong Peng immediately patted his chest and promised without even listening to what it was, Ji Feng would be uneasy instead.

"It's like this, it's the same old story, I'm here this time, I want to ask Uncle Rong to come back out!" Ji Feng said, "I wonder if Uncle Rong has this intention?"

“Come out of the mountain?!”

Rong Peng was a bit surprised, some time ago Ji Feng had once come to him and also asked him to come out of the mountain, but at that time he had refused, unexpectedly now Ji Feng had raised this matter again.

Ji Feng nodded and said, “That’s right, come out of the mountain! Seriously Uncle Rong, it would really be a pity if this talent and ability of yours were to be delayed like this! And, there are also those talents under you, it would be too much of a pity if they were to be delayed like this as well.”

Speaking here, Ji Feng watched the change in Rong Peng’s expression and found that he still had a smile on his face after hearing these words, but there was no obvious change, which made Ji Feng secretly feel that he was really an old man, just this qi nurturing effort alone was not something that ordinary people could achieve.

But Ji Feng was not discouraged, he felt that the conditions he proposed would definitely make Rong Peng’s heart move.

“Of course, this is only one reason, in fact, there is another reason why I came to ask you to come out this time, Uncle Rong!” Ji Feng said very sincerely, “Because I need help and I’m too busy on my side, so I can only ask Uncle Rong for help!”

“Little Feng, you also know that I haven’t been involved in shopping malls for a long time, and as I’m getting older, it’s likely that I can’t keep up with my thinking and energy, and I’m even less flexible than you youngsters, so perhaps, I’m not fit to do my job again!”

Rong Peng said.

Ji Feng immediately shook his head and said, “I don’t think so. Uncle Rong, you have a very broad network of people and a very deep background. The most important thing is that you have very rich business experience, which cannot be bought with any amount of money and is the most valuable asset! Uncle Rong, Li Superman in Hong Kong is still at the helm at such an old age, compared to him, you are still in your prime!”

Rong Peng smiled and waved his hand, "You're flattering me, I'm no match for Superman Li."

Ji Feng smiled and said, "I don't think it's much different, it's just different circumstances and opportunities. Uncle Rong, how about it, what do you think, can you give me a glimpse?"

Rong Peng had a smile on his face but did not answer in a hurry, instead he was silent for a moment, seemingly contemplating this proposal of Ji Feng's.

Only after a moment did he open his mouth and asked, "Little Feng, it seems like you've really developed well this time, you asked so many people to go over there just before, and now you're too busy to do it again?"

Ji Feng shook his head and laughed bitterly, "It's mainly because I was too greedy, so the spread was too big and there was a serious shortage of manpower."

"Oh?"

Rong Peng asked with some surprise, "Opening another new project?"

Ji Feng immediately understood that Rong Peng was trying to find out from himself what his terms were for asking him to come out, and I was afraid that this was also the key to whether he could talk Rong Peng into it.

So he said without hiding anything: "Yes. I think Uncle Rong should have heard that the Tengfei Group has recently developed a new alloy and is now planning to put it into production, but there is no experienced person to take charge of this project, so I thought of Uncle Rong."

Rong Peng's face revealed a surprised look for the first time, "Little Feng, you mean ..... let me be in charge of the Tengfei Group's new alloy project?"

"That's right! Of course this is not accurate!"

Ji Feng said, "Strictly speaking, it's the Tengfei Group's intention to set up another subsidiary company, this company I want you to be in charge of, so this is why I came to ask you to come out and sit there!"

After receiving an affirmative answer from Ji Feng's mouth, Rong Peng's expression couldn't help but be a little surprised, and Rong Suyan, who was sitting next to him, couldn't help but show her surprise, she also didn't expect that Ji Feng would ask her father to come out on this condition!

I'm afraid no one is unaware of what kind of project the new chrome alloy of the Tengfei Group is, but anyone with business vision will be able to see how much value this project will create in the future, and at the same time, what important strategic significance this project contains.

It can be said that if the Tengfei Group were to set up a subsidiary company to take charge of this new chrome alloy project, it would definitely be a hen that would lay golden eggs!

And now Ji Feng was actually going to give this hen to Rong Peng to raise?

If Ji Feng hadn't repeated it again, Rong Peng wouldn't even have believed it, he knew it too well, this alloy project was too good, no matter who was in charge, as long as he wasn't a stupid egg, there was absolutely no reason for it to fail, it could almost be said that it would be a 100% success, and a great success at that!

Yet Ji Feng came to ask him to take charge of this company?

"Ji Feng, you're planning to let my dad manage that sub company?" Rong Suyan asked in surprise, "So, what position is my dad going to be in there? Or is it ....."

"The hand of the subsidiary company!"

Ji Feng said without hesitation, "Actually, what you said, Suyan, is not comprehensive, I asked Uncle Rong to come out, but not just to manage that subsidiary company."

Under the somewhat puzzled eyes of Rong Peng and Rong Suyan, Ji Feng smiled and said, "I want to ask Uncle Rong to join the Tengfei Group!"

“What?!”

“Join?!”

As soon as Ji Feng’s words were spoken, Rong Suyan and Rong Peng were stunned beyond belief.

Rong Suyan even said, “Ji Feng, are you sure you’re not here to tease my dad? Joining the Tengfei Group? Are you sure that’s what you mean?”

Joining the Tengfei Group, in fact, there were several interpretations of this statement, one was for Rong Peng to take up a position in the Tengfei Group, which was considered joining.

And another meaning is to let Rong Peng become a member of the top management of the Tengfei Group, or even further, to let the Tengfei Group have a part of Rong Peng as well, which is also joining!

But from the tone of Ji Feng’s voice and the words before and after, it was clear that he didn’t just want Rong Peng to take up a position, otherwise wouldn’t managing a subsidiary company be enough?

“That’s right!”

Ji Feng nodded and said very seriously, “Su Yan, you heard me right, I do want to ask Uncle Rong to join the Tengfei Group, hold a part of the shares of the Tengfei Group and become a part of the Tengfei Group! Uncle Rong, I wonder if you would be willing to condescend to give us youngsters a lift?”

This time, it was Rong Peng’s turn to be surprised!

He looked at Ji Feng, his face somewhat grave, and even frowned slightly, “Little Feng, are you sure? Is this what you think?”

Ji Feng nodded, “I’m sure! This is what I really think!”

When he came to see Rong Peng, Ji Feng had actually been thinking about it for a long time, and the idea had been deliberated over and over in his head, and it was finally confirmed to be feasible before he came.

Now, it was up to Rong Peng to decide what he wanted to do.

And at this time, when Rong Peng heard such an affirmative answer from Ji Feng, he was silent in turn.

He did not expect that this was what Ji Feng meant when he came to him this time, that he wanted him to join the Tengfei Group, and no longer simply wanted to ask him to come out and fight against the Wu Family together, as he had done the previous two times.

This really surprised Rong Peng too much!

When he first heard Ji Feng's words, Rong Peng admitted that he was really moved at that moment.

In particular, Ji Feng also specified that he would be in charge of the subsidiary for the alloy project, which meant that he was completely in charge of the new chrome alloy project!

The temptation was really too great!

The potential of the Tengfei Group was so huge that Rong Peng could see it very clearly, whether it was the 3-D TV set or the Kang Yuan slimming powder, all of them were selling like hot cakes.

Then even the company went bankrupt!

So in fact the whole market ever Kang Yuan slimming powder should be the hottest product, and the most important thing is that even now, it seems that Kang Yuan slimming powder has no trend of declining sales!

This product has an amazing vitality and the Tengfei Group is still launching new packaging and products for niche markets from time to time!

For example, a slimming powder for obesity, for example, for different age groups of consumers, etc.

How lucrative this is, one can only imagine!

As for the 3-D TV sets and the rumour that the Tengfei Group is also working with the military to produce a drug, this goes without saying.

It can be said that the Tengfei Group will be an excellent enterprise that will rise quickly and has unlimited potential, and will grow by leaps and bounds.

I don't know how many people are jealous of the speed at which Tengfei Group can make money, it is simply faster than robbing money!

But now Ji Feng invited him to join, even Rong Peng, who had experienced a lot of hardship, couldn't help but have his heart pounding a few times and was a bit moved.

"Little Feng, you're giving me benefits for nothing!" It was a while before Rong Peng slowly spoke.

"It's not right for Uncle Rong to say that!"

Ji Feng waved his hand, "I have just said that you also have many advantages, Uncle Rong, and those are the ones I value more and the ones that the Tengfei Group lacks!"

Rong Peng shook his head and said, "Little Feng, although I'm old, I'm not confused yet, what I have can compare to joining the Tengfei Group and getting shares?"

Although he hadn't done any careful research, Rong Peng was able to figure out through his estimates that with the profits from Kang Yuan's slimming powder and the 3D TV, the annual profit of the Tengfei Group would be at least ten billion, and that was just a very conservative estimate!

Rong Peng didn't think that with his current capital, he was qualified to get shares in the Tengfei Group!

Ji Feng smiled and said: "It depends on how one looks at it. Uncle Rong, I am very sincere in inviting you to join

Campus Master Chapter 2988

Ji Feng was interrupted by Rong Peng before he could finish his words, "Little Feng, I know you are sincere, but I really can't agree to this proposal of yours."

"Why?" Ji Feng couldn't help but ask.

"Because it's not reciprocal!" Rong Peng shook his head, the conditions Ji Feng gave were really too generous, even, it had completely exceeded Rong Peng's existing capital, it was not suitable.

Ji Feng, however, frowned and said, "Uncle Rong, what you mean is ....."

Rong Peng pondered slightly for a moment and said, "Little Feng, the fact that you can come to invite me, a bad old man, three times shows that you look up to me, which I appreciate ..... you don't say anything first, listen to me finish my words."

Rong Peng interrupted Ji Feng, who was just about to speak, and continued, "Although I am old, I am not yet at the age of confusion, it is not realistic or appropriate for me to join the Tengfei Group. Although I don't know what the capital cost of your product is, the profit will definitely exceed my expectation, so you are generous, but I can't be brazen enough to take advantage of you!"

Ji Feng shook his head, "Uncle Rong, this is not a matter of being cheeky or not, and you are not taking advantage, if you join the Tengfei Group, then you will have your work cut out for you in the future!"

"Come out and do the job, if you want to not work hard then simply don't come out!" Rong Peng said, after half a lifetime of experiencing storms, he had seen a lot of things openly and understood some

truths better than many people, “To be honest, I was actually planning to wait two years before I started working, but you really talked me into it!”

Ji Feng immediately asked, “Then you .....

“But those conditions you promised, I can’t agree!” Rong Peng said, “I can help you to manage the newly established subsidiary, or of course, I can join, but instead of joining the Tengfei Group, I can join the newly established subsidiary!”

“Uncle Rong, do you mean that you agree to come out?!” Ji Feng immediately asked with joy.

“If I don’t agree anymore, I won’t be able to live up to your sincerity!” Rong Peng smiled and said. With Ji Feng’s status, being able to come and persuade him three times, his sincerity was already enough.

Rong Peng had deep feelings about this.

He knew very well that although he now had billions of dollars, but in today’s China, this money is really not much, especially now that he still only has money but no foundation, the once Rong Peng Group has now become the Brilliant Group, he has lost most of his capital.

Under such circumstances, even the son of a director can make things difficult for him and for Rong Suyan’s venture capital company.

If it was Wu Zhihe who was still alive, Rong Peng definitely did not believe that Wu Zhihe would use such a gentle way to ask him to come out, the tactics must not be very nice!

Compared to them, Ji Feng had really done quite well, giving him full respect and autonomy!

Full sincerity!

Ji Feng was very happy that Rong Peng had finally nodded his head and agreed to come out of the mountain, and was willing to join, which meant that the Tengfei Group would have another experienced and capable general to join!

“But I have a precondition!” Rong Peng said.

“Please speak!” Ji Feng said immediately.

Rong Peng said, “I don’t want the shares of the Tengfei Group, I am willing to use my entire fortune to take a stake in the new subsidiary of the Tengfei Group, but this matter has nothing to do with Su Yan.”

Ji Feng immediately understood that Rong Peng’s implication was that he was willing to join the Tengfei Group, but it was only him personally, Rong Suyan was still an independent individual.

In fact, to put it plainly, Rong Peng was hoping that he would not force Rong Suyan to do anything.

To this, of course, Ji Feng nodded very readily, he guessed that Rong Peng was probably intimidated by the Wu family’s previous practices, “Don’t worry Uncle Rong, it’s just normal cooperation between us, perhaps our contact time is still short, later you will know that I, Ji Feng, will never do those underhanded things!”

Rong Peng nodded and said, “That’s good, I still have less than six billion dollars in assets now, excluding the funds to feed those talents, I can still take out five billion dollars, of course, if you need those talents, then I can take out all of my funds.”

How could Ji Feng not want those talents!

He immediately nodded his head and said, “Yes! Of course I want them! I’m just afraid that you won’t be willing to let them go, Uncle Rong!”

Rong Peng laughed, “Now that even I’m going to become a member of the Tengfei Group, what do I have to give up? Since you want those talents, then I’ll put my entire fortune into it, I just want five percent of the shares .....

“Five percent?!”

Ji Feng was stunned at his words, and immediately shook his head, “No no! Uncle Rong, this share is too little, absolutely not!”

Rong Peng’s words really surprised Ji Feng a little.

Six billion dollars and only asking for five percent of the shares? Rong Peng was valuing the subsidiary at hundreds of billions!

“Little Feng, don’t rush to reject it first, listen to me finish my words!” Rong Peng waved his hand and said, “I understand in my heart what kind of potential the new alloy project of the Tengfei Group has. Perhaps I am losing out now, but I am afraid that in a few years, the development of the subsidiary will definitely rise to a height that no one would have expected.

Ji Feng shook his head, “That’s something for later, Su Yan runs a venture capital company, she should know very well that even if a project has more potential, it won’t be worth that much money at the beginning!”

“You’re right!”

Rong Peng nodded and said, “But that’s just good projects, but, the new alloy project, do you have to find another person to take a stake in it?”

Ji Feng was suddenly dumbfounded.

Rong Peng said, “I think, if you put the news out to find a partner, I’m afraid I don’t know how many people will break their heads to get involved, right? But you looked up to your Uncle Rong and gave me this opportunity, isn’t this opportunity worth all this money?”

Ji Feng said, “But .....

“There’s no buts! Little Feng, I only have these two requests, if you agree, then from now on this old bone of mine will be sold to you, if you don’t agree, then I’ll pretend you didn’t say anything!” Rong Peng said firmly.

“Uncle Rong!”

Ji Feng was a little helpless, even though he knew that it wasn’t impossible for the new chrome alloy project to be worth over a hundred billion, but it would take time and a process of development! It was definitely not worth that much money now!

However, seeing Rong Peng’s determined look, Ji Feng knew that he had made up his mind and it should be difficult to make him change his mind. Ji Feng couldn’t help but secretly feel that, as expected of someone who was able to create a giant private enterprise from nothing, Rong Peng really had a great drive that most people didn’t have!

He invested his entire fortune in one go, but he only needed a few shares, which is a desperate bet, right?

However, it must be said that the strong trust represented by Rong Peng’s action made Ji Feng feel in his heart. Even if he was the eldest grandson of the Ji family, how many people would be willing to put out six billion dollars, and all of their assets, on him?

There were more than just the Ji family in China’s powerful families, and no one would do that!

“Good! Uncle Rong, I promise you!” Ji Feng nodded, a smile couldn’t help but appear on his face as he extended his hand, “Happy cooperation!”

“Happy cooperation!”

Rong Peng also laughed, “From now on, this old bone of mine will follow you!”

Ji Feng said, “I hope I won’t let you down, otherwise, you’ll be left with no money!”

Rong Peng laughed, "It's hard to fight for a few times in life!"

Good courage!

Ji Feng also had to praise him, he nodded his head and said, "That's right! It's hard to fight for a few times in life! Uncle Rong, that's a good point!"

This was the situation she wanted to see the most, the cooperation between her father and Ji Feng, in fact, she had been looking forward to it all along, and now it was finally achieved.

As for the fact that Rong Peng used his entire fortune but only exchanged it for so few shares, she didn't have any problem with that either, because she knew that it was actually a very wise choice on her father's part!

Bai Zhu was also very happy for Ji Feng, although she did not know much about business matters, she remembered that Ji Feng once said that Rong Peng was very powerful and Rong Suyan seemed to be even more powerful, now that he had convinced Rong Peng, she was afraid that Rong Suyan joining was not far away.

Bai Zhu looked at Ji Feng and then at Rong Suyan, and suddenly pursed her lips imperceptibly, with a little quirk in her eyes.

"Uncle Rong, after drinking today, you should rest first, tomorrow we will officially sign the contract!" Ji Feng said.

"In fact, it's okay to sign now, you should not think that what I said after drinking is all alcoholic talk, Little Feng, I remember all the kindness you have shown to our whole family ....."

"Uncle Rong, it's meaningless to talk about this!"

Ji Feng waved his hand and stood up, "Rest first, I'll take my leave!"

Rong Peng also did not stop and said, "Suyan, you see off Little Feng and Miss Bai for me."

Rong Suyan had also stood up by now and nodded.

After greeting Rong's mother, Ji Feng and Bai Zhu walked out of the living room, and Rong Suyan saw them out and said, "Young Ji, I've never seen my father so happy, thank you!"

Ji Feng smiled, "We're all going to be a family now, so don't be so polite."

Rong Suyan's pretty face heated up.

Ji Feng instantly realized that this was a bit ambiguous, so he coughed lightly and hurriedly changed the subject, saying, "Su Yan, what about that, you don't have to give it away, or the same thing, if you have any problems, don't carry it alone, find a friend to talk to. If there is anything you need to help, just tell me, I will be obliged to do so!"

Rong Suyan's originally slightly shy pretty face couldn't help but change slightly, she bit her lips and nodded somewhat unnaturally, "Thank you, I will!"

However, Ji Feng saw a lingering worry in the depths of her eyes, which made Ji Feng want to ask her what kind of trouble she had encountered, but he swallowed the words back several times when he opened his mouth.

Ji Feng felt that it was better to check it out secretly by himself!

Campus Master Chapter 2989

"Bai Zhu, just go ahead and put me on the side of the road, I'll take a taxi back myself later!"

On the way back, Ji Feng suddenly said.

Bai Zhu couldn't help but stare, "You're taking a taxi back by yourself? What about ..... me?"

Ji Feng said, "You go and help me investigate something, you have to go personally! By the way, do you have your documents with you?!"

Bai Zhu immediately nodded and said, "I have them with me!"

She knew that Ji Feng was asking about the Special Combat Brigade's documents, which, along with her weapons, she always carried with her, because usually Ji Feng only had an official identity as an advisor, and if something happened others might not recognize this identity, so Bai Zhu always carried her documents with her.

Even though she was no longer in the Special Combat Brigade long ago, this document was still very useful. At least with the police, they were still able to understand what this document represented!

"This way, when we were going to Rong Suyan's house today, she took a phone call on the way!" Ji Feng said, "Now go and find out who was on that phone call she took at that time, and find out how many times that number spoke to her!"

Bai Zhu immediately understood: "Yes!"

"If possible, it would be best to find out the identity of the person who came to the phone!" Ji Feng suddenly paused here, "Of course, this phone call could also be from Rong Suyan to the other party, you just follow this line of thought to check!"

"I understand!" Bai Zhu nodded her head and said.

"Don't let anyone know!" Ji Feng admonished.

"Understood!"

Afterwards, Bai Zhu pulled over and put Ji Feng down, and then drove away.

Ji Feng wasn't worried that Bai Zhu was clueless, Bai Zhu's ability didn't need to be doubted at all, right now his mind was on Rong Peng's joining.

The ability of Rong Peng is naturally needless to say, he can develop a large Rong Peng Group from nothing, even if it is dependent on the Wu family, but some of the business management methods and his business vision, that is undoubtedly.

Many of the core technical staff and some of the senior executives of the Rong Peng Group were brought to Jiangzhou by him, and even their families were brought along and properly placed.

The Rongpeng Group has been involved in the industrial field before, so it is most appropriate for Rongpeng to take over the alloy project now.

Among all the people Ji Feng knew, Rong Peng was the only one who was reliable and knew how to operate in the industrial field!

The fact that Rong Peng had taken out his entire family fortune was a desperate move, and Ji Feng understood that on the one hand, Rong Peng wanted to make a comeback, and on the other hand, it was also a way to reassure him.

The most important thing is to deal with smart people, and Rong Peng is undoubtedly a very smart person, so Ji Feng is not worried about the follow-up of the alloy project.

All he had to do now was to plan well and come up with some technology as soon as possible, so that Rongpeng could have the potential to follow up beyond the alloy!

And technology would be really too easy for Ji Feng, even though the database of the intelligent brain is full of complete sets of information, but it's only a matter of time before you want to strip out separate technologies!

.....

At this time, the Rong family was equally unsettled.

“Old Rong, wasn’t your decision just now a little too reckless?!”

Although she was not involved in the conversation just now, she was not far away, so she could hear the conversation between Rong Peng and Ji Feng clearly.

Rong Suyan was also a little less understanding and asked, “Dad, weren’t you always reluctant to work with Ji Feng before? How come now .....

In response to the lady and daughter’s lack of understanding, Rong Peng, however, only smiled slightly and asked, “Girl, do you think it’s wrong for dad to do this?”

Rong Suyan immediately shook her head, “That’s not true, I just think ..... you’re changing too fast!”

Previously, Ji Feng could have come to Rong Peng more than once and was sincere, but Rong Peng never agreed, fortunately, Ji Feng did not force, originally, Rong Suyan still felt that if her father did not agree again, she would privately cooperate with Ji Feng first, so that she could slowly make her father dispel his doubts.

But I didn’t expect that before she could cooperate with Ji Feng, her father would suddenly be so desperate, taking out the entire family fortune and giving it to Ji Feng all at once, not leaving herself a bit of a way out at all. This back and forth shift was really too big and too fast, making Rong Suyan a bit incomprehensible for a while.

“Oh .....

Rong Peng smiled, looked at his wife and daughter and said, “I know what you guys are worried about, thinking that it’s a bit too impulsive for me to take out the entire family fortune and give it to Ji Feng all at once, right?”

Rong's mother nodded and Rong Suyan said, "Mom and I are also just afraid that you haven't thought it through ....."

"You were afraid that I would do this in a fit of anger because of Wu Zhiyong's pressure, right?" Rong Peng asked smilingly, knowing his daughter like a father, Rong Peng could naturally see what was on his daughter's mind.

"Mm."

Rong Suyan nodded her head and said, "Dad, is that so?"

Rong Peng, however, smiled and asked, "What do you think then?"

Rong Suyan said, "I'm just a little worried ....." about how much pressure Wu Zhiyong brings, people who don't understand these top luxury families can't appreciate it, the kind of family whose power overshadows the sky, the magnitude of their energy, how terrifying their power is, outsiders are really it's hard to understand!

On the surface, they obey the law and talk about the rule of law, but in private, they are ruthless and terrifying!

In secret, it is as easy to make someone disappear or shut up forever as it is to beat them up if they don't like it, but that is just child's play.

The real kind can use all sorts of power, in the name of all sorts of names, to send people into the abyss, even those who are rich and powerful, without the slightest ability to resist!

This is the most terrifying thing about those powerful families!

Because they control the rules!

Although Wu Zhiyong could not fully represent the Wu family, it was definitely not something that the Rong family, which had lost its roots, could resist, and if Rong Peng fought against the Wu family, it could only be described as an ant to shake a tree!

If Rong Peng fought against the Wu family, it could only be described as an ant to shake a tree!

So if Rong Peng really could not bear the pressure, it would not be a surprise. Even Rong Suyan's own heart was trembling a little and palpitating.

"Yatou, you guys don't have to worry at all!"

In response, Rong Peng was very frank and said, "Back then, I started with nothing and was very ambitious, but then after I boarded the Wu family's ship I suddenly understood that I could never go back to the past, once I got on the ship, it would be too difficult to get down, unless, there could be a bigger ship than this one!"

Rong Suyan asked, "You mean the ..... Ji family?!"

Rong Peng did not answer and continued, "If our family were just ordinary little folk, tolerating when we were bullied, we could live happily for the rest of our lives, but since we are on this boat, it means that we can no longer live the kind of peaceful life on land, we can only go to meet the storm!"

"Old Rong, don't say it, at that time you also wanted to let your family live a better ..... life," Rong's mother saw Rong Peng was very emotional, and there seemed to be some hidden remorse between her eyebrows, her heart could not bear it.

"That said, but I also only later understood that it is easy to get ahead, but it is too difficult to call the shots ..... and the price to pay is too great!"

I had no intention of getting off that ship, whether they treated me as a sailor or as hard labour, it was my own choice, and since there was no turning back, I had to grit my teeth and go all the way. But if they take my daughter for their own, I will never agree!"

“Old Rong!”

“Mom, just let Dad finish his words.” Rong Suyan knew that these words had been bottled up in her father’s heart for a long time, and it would be easier to say them instead, rather than bad if they were held in for a long time.

The first thing that I did was to get the job done.

Rong Suyan silently nodded her head, she understood her father very well, just contacting Ji Feng alone, the Ji family did not make any statement at all, it really made people’s heart bottomless.

“Originally, I was still lucky, I thought that we don’t care anymore, just be a little old man in Jiangzhou peacefully, as time passes, those talents that I brought, will also slowly all leave to run their better future, at that time, maybe in the Wu family’s view, I’ll just be an insignificant pawn, maybe they won’t care about me!”

“Old Rong, so that’s what you’re planning?!” Rong’s mother was surprised, this idea Rong Peng had never told him before, “If that’s the case, then why did you bring those people along? Wouldn’t it be good for our family to settle down in Jiangzhou and live in peace?”

“Do you think that some people will let you get what you want?!” Rong Peng asked.

“That .....

“Bring those people, I don’t really want to rise again, but to make all those people leave one after another, this will give people an impression that I, Rong Peng, am not useful anymore, I am not in power on the side of the Ji family, and will become more and more mediocre, this feeling of watching the people you hate fall into the abyss step by step, I think it should still be very good, and is what some people would like to see. ”

Rong Peng said, “So, I’ll create an abyss for myself, which is better than being literally kicked down into the abyss!”

Rong Suyan immediately understood, so, her father actually had this intention, she couldn't help but rise up in her heart with a feeling of admiration, when she thought about it, this move of her father's was really brilliant!

Campus Master Chapter 2990

"So ..... when Suyan went to do the company, why didn't you stop her?" Rong's mother asked.

"Suyan's company is just a small hit!" Rong Peng shook his head and said.

"Then the few times Ji Feng came to ask you to go out to work and you refused, was it also because of this reason?" Rong Suyan asked.

Rong Peng nodded his head and said, "Yes. He invited me to go out to work and join forces against the Wu family, how could I say yes. The Wu family, how could they be that easy to deal with? He can afford to play, but I can't afford to play!"

"So why did you say yes now, and ....."

"And take out all the family fortune?" Rong Peng took over his wife's words, sighed and said, "Because I found out that I was wrong again, I still underestimated, the vindictiveness of the Wu family, Su Yan just opened a small venture capital company, but Wu Zhiyong still refused to let go."

When Rong Peng knew that Wu Zhiyong had suddenly come looking for his daughter, he realised that the matter was not actually finished, he wanted to end it, but the Wu family was unwilling.

It was impossible to hide after all!

Rong Suyan said, "Then this is still not due to the pressure from Wu Zhiyong? Just now you said it wasn't!"

"No!"

Rong Peng shook his head and said, "Girl, you're wrong about that. I am not pressured by Wu Zhiyong, but from the matter of Wu Zhiyong coming to you, I see a crisis. It is no longer easy to say whether Wu Zhiyong can represent the Wu family, I have never stopped following the movements of the Wu family, and even though I have come down from the ship, I was still able to learn some news."

Seeing his daughter's puzzled look, Rong Peng said, "As you know, the Wu family has changed its ruling family, so whether or not Wu Zhiyong can still represent the Wu family is something else to say."

"Then ....."

"Wu Zhiyong may not be able to fully represent the Wu family, but his actions mean that this matter is not over, and I'm afraid that the Wu family has the same attitude as Wu Zhiyong when it comes to treating us!"

Rong Peng's face turned serious, "Our actions are betrayal to them, and they have no intention of stopping there! It's not the pressure brought on by Wu Zhiyong, but the crisis brought on by that huge family and that huge force attached to that family's surroundings!"

"Since we can't hide from it, we have to let it go!"

Rong Peng said, "We are lucky because Ji Feng still values my old bones, this is also our family's chance, whether we can get through this crisis depends on this one!"

Mother Rong said, "Do you know that young man from the Ji family? He is so young, could he be the same as that little brat from before, is he looking at our girl and our family's money?"

"Mom~!"

Rong Suyan's pretty face heated up at the comment.

Rong Peng, however, shook his head and said, "No! You have such worries, that's because you don't understand Ji Feng's situation! Suyan should know that Ji Feng is not short of money, and it can even be said that he is afraid that he doesn't even see this bit of our family fortune!"

Rong Suyan couldn't help but nod her head, her father was right, although several billion was indeed an astronomical amount of money for most people, but I'm afraid that Ji Feng really didn't see it.

Only when one is in the business world can one understand how huge the potential of the Tengfei Group is and how astonishing the annual profits really are.

In just a few years, how far has the Tengfei Group grown?

It's not big, but the profits are huge!

I'm afraid that there are not many companies in the whole of China that are so healthy and have such amazing potential!

"What about our girl?" Mother Rong was still a little worried, "That little brat in the past, but he just took a fancy to Yatou and only ended up ....."

"Mom! Ji Feng already has a girlfriend!" Rong Suyan said hurriedly.

"So what if you have a girlfriend!"

Mother Rong said, "Which young man like him is not flirtatious? What's so rare about having a few outside?"

Rong Suyan was speechless!

She knew that her mother was right, this kind of thing was too normal in the society, and it could even be said that many people were used to it.

“Girl, you have to be careful, although this young man Ji Feng is much better than that little brat, but, what kind of person he really is, we don’t even know, you don’t want to make any mistakes in your line, understand?” Mother Rong admonished.

“I know!”

Rong Suyan said helplessly, afraid that her mother would continue this topic, she hurriedly said, “Dad, then you want to borrow Ji Feng’s strength and avoid the Wu family?”

But Rong Peng shook his head and said, “No! There is no way to avoid it! I just want to use my efforts and abilities in exchange for the Ji family’s support, and now, I’m sort of in the Ji family’s boat.”

Rong Suyan then understood that her father was really planning to go with Ji Feng.

“Girl, don’t worry, my old bones can still hold up for a while!” Rong Peng said, “Since the Wu family won’t give us a way out alive, then I have nothing to fear! You guys don’t need to be afraid either!”

“Dad, I’m not afraid.”

Rong Suyan said, “I don’t have anything to fear either!”

Rong Peng nodded his head in satisfaction, “Good!”

Rong Suyan raised her hand to look at her watch and said, “There are still some things going on at the company, I’ll leave first. Dad you had a drink at noon, take a rest!”

Watching his daughter drive away, Rong Peng stood on the balcony of the first floor and couldn’t help but shake his head.

“Old Rong, do you have something you can’t say in front of your daughter?” Seeing this, Rong’s mother couldn’t help but ask.

“This girl is not willing to talk deeply on the issue of the Wu family, I’m afraid, she still can’t get over that hurdle in her heart!” Rong Peng shook his head and said.

Mother Rong said, “What I’m most afraid of is that she might have already taken a fancy to that Ji Feng! This girl has already suffered once before, we can’t let her step into the fire a second time!”

Rong Peng shook his head and laughed, “Children and grandchildren have their own blessings, it’s useless for us to worry even if we do.

Mother Rong nodded her head and said, “Yes, don’t let anything bad happen again! This girl’s relationship, it’s not going well either!”

The last time she had a relationship with Wu Zhihe, Rong Suyan was depressed for a while, and during that time Rong’s mother was really worried badly because she could see the sadness in her daughter’s eyes.

Let’s hope it won’t be like that this time!

“Tick tock .....

As Rong Suyan drove down the congested road, a sharp honking sound came from behind her, and her brows knitted slightly, more or less annoyed.

The sudden decision of her father made Rong Suyan a little surprised, but more than that, she was still relieved and happy, she knew that the former Rong Peng who reigned over the mall was back, and this time although her father’s voice was calm when he spoke, the fighting spirit in his eyes was undisguised.

It seemed that since her father had made the decision, he was going to let go of the fight!

However, Rong Suyan was vaguely worried because, perhaps, things were not as simple as father thought, and there were things that father did not know.

That, was what was most frightening!

“Ding Dong!”

A crisp and pleasant text message rang, Rong Suyan just swept a glance at it, her expression could not help but change slightly, she bit her lips, a touch of determination gradually emerged in her eyes.

.....

“Young Ji, we found it!”

That evening, Bai Zhu came back from outside and brought the results of her investigation.

Ji Feng immediately asked, “What are the results?”

Bai Zhu said, “I found a number, during that time period, there were a total of two numbers that called Rong Suyan’s mobile phone, one of them was from an employee in her company, and the other one, was a foreign number.”

Ji Feng listened quietly.

Bai Zhu continued, “What’s noteworthy is that this out-of-town number dialed Rong Suyan’s phone a total of six times on a recent Monday, and when I looked at the call times, one was longer than the other.”

“Where is this number from?” Ji Feng asked.

“The number shows a location in Yanjing, however, I found that the signal tower used by this number is from Jiangzhou.” Bai Zhu said.

Ji Feng immediately said, “This means that the user of this number is in Jiangzhou right now.”

Bai Zhu nodded, "That should be the case!"

"Then have you found out the owner of this number?" Ji Feng asked.

Bai Zhu shook his head, "Can't find out!"

Ji Feng asked, "What's going on? If you can find out where the number belongs to, how come you can't find out the person?"

Bai Zhu said, "My guess is that this is a small trick done by the owner of the number, or the current user of the number, probably to cover up the identity, the person doesn't want to expose himself."

"There is this possibility!"

Ji Feng nodded thoughtfully.

Bai Zhu suddenly added: "If Rong Suyan cooperates, or if we can listen to her phone calls, perhaps there are technical means to trace that call!"

Ji Feng was stunned at his words, "Bai Zhu, you also know the technology in this area?"

Bai Zhu's pretty face heated up slightly, "I like to read some information and books in this area when I have nothing to do, and there are also many introductions to this area on the internet."

In fact, she was not hoping to be a woman who only fought and killed, but hoped to be able to help Ji Feng more by his side, otherwise, it would just be a violent maniac, but of no other use.

"This method you mentioned is indeed technically feasible, however, it's a bit troublesome!" Ji Feng shook his head, if he wanted to trace it, Wang Xin and Yang Yu could do it, but the problem was that he had hidden it from Rong Suyan when he was investigating this number, so naturally there was no way to get her to cooperate, and there was no way to trace it.

As for listening to her phone calls .....

Ji Feng didn't intend to do that, it wasn't quite appropriate.

"I'll think about it again." Ji Feng mused, "You've also been tired all day, take a rest first."

Bai Zhu nodded her head.

Ji Feng leaned back on the sofa and secretly mused, "A phone call that you don't want people to know your identity makes Rong Suyan react that fiercely? It's really a bit interesting!"

The next morning, after having breakfast with Tong Lei and Xiao Yuxuan, Ji Feng took Bai Zhu straight to Rong Peng's house, today, to discuss how to formally cooperate.

Rong Peng, a great general, would officially join the Tengfei Group!
