

Campus Master Chapter 2991

The negotiations with Rongpeng on cooperation went very well.

In fact there is no reason for it not to go well.

What Rong Peng had said yesterday was not wine talk, and to Ji Feng's surprise, when he arrived Rong Peng had even made preparations to pool all the family's assets together!

This means that Rong Peng must have made preparations immediately after he left yesterday afternoon, which is enough to show Rong Peng's sincerity.

For Rong Peng's attitude and mind, Ji Feng naturally had nothing to be uneasy about, but this preparation of Rong Peng still made Ji Feng very satisfied and appreciated, this is a person with great determination, it is no wonder that Rong Peng can become the giant of private enterprises in Southern Guangdong.

It's not just the support of the Wu family behind this, I'm afraid a big part of the reason is still in Rong Peng's body, if another person were to take the helm, eight out of ten '9 would not develop that well!

"Little Feng, what is the account number of the subsidiary company, I will directly call the money over!" Rong Peng asked with a smile.

"Not yet!"

Ji Feng said, "Uncle Rong, there is no need to be in such a hurry, the subsidiary is still being planned and prepared, and there is still a key person missing!"

Rong Peng asked, "Who?"

Ji Feng looked at him with a smile, and Rong Peng then understood that this important task Ji Feng was talking about was him.

“Little Feng, thank you for still thinking so highly of this old bone of mine!” Rong Peng was very emotional, no matter whether Ji Feng was praising him or truly felt that way, just this attitude of Ji Feng made him feel very comfortable in his heart.

Although he was sincerely attached to Ji Feng, he didn’t want Ji Feng to treat him as a tool or a dog, he was not willing to be a dog, otherwise, why would he betray the Wu family?

Now Ji Feng’s attitude made Rong Peng’s original only so-so worry in his heart completely dropped.

Ji Feng smiled and said, “Uncle Rong, if you say so, I don’t agree and I don’t think it’s appropriate!”

Rong Peng couldn’t help but stare at his words, “Where is it inappropriate?”

Ji Feng laughed: “You always say that you are not useful anymore, just an old bone, not to mention that this is not true in itself, just by saying so, you are denying my vision! What, is the person I value so useless? Is my vision that bad?”

Rong Peng was stunned, and then laughed out loud. How could he not hear Ji Feng’s disguised praise for him?

“Uncle Rong, seriously, the preparation of the subsidiary is indeed waiting for you!”

After joking, Ji Feng’s expression became serious and said, “Right now the subsidiary has no one, no funds, no personnel, not even a license yet, all of this, you need to do it yourself, there is no one on my side for personnel, funds”

The first thing you need to do is to get your own personal information. Tengfei Group technology into the stock, it is enough!”

For Rong Peng's these words Ji Feng did not argue with him again, what should be said had been said yesterday, since Rong Peng valued the subsidiary so high, Ji Feng also went with him, because Ji Feng had this confidence, the future value of the subsidiary was definitely only higher than Rong Peng's valuation, not lower!

"As for the license and personnel, there are some problems with that!"

Rong Peng said, "What exactly is the business involved in this subsidiary, this aspect I need to know in detail so that I can know what I should do and what materials I should prepare when I apply for the license. The personnel well"

Ji Feng said, "Uncle Rong, if you have any questions, you can just say, are there any difficulties with the personnel?"

Rong Peng nodded and said, "To say it's difficult, it's not really, it's just a little bit of my personal thoughts. Little Feng, you also know that I brought out a group of people from the original Rongpeng Group, but not all of them are industrial-related talents, there are also talents from other fields, and the newly formed subsidiary can't absorb them all!"

Ji Feng probably understood what Rong Peng was going to say, but he did not rush to speak, but waited for Rong Peng to finish his words.

He heard Rong Peng continue, "To say that white collar, sales staff and other people can be recruited directly from headhunters or the job market, but after all, those who have just been recruited still have a familiarization process, and those I brought are all experienced, so I have an ungrateful request!"

Ji Feng nodded and said, "Uncle Rong, you say."

Rong Peng said, "I hope you can properly place the people that the subsidiaries can't use for the time being, I believe they will also be very happy to work for the Tengfei Group, and they can definitely contribute to the company! Look at"

"No problem!"

Rong Peng just finished speaking Ji Feng immediately nodded his head in agreement and said, "Uncle Rong, I promise."

Those people who came out from the original Rong Peng Group, Ji Feng had understood, those were indeed talents, with Rong Peng's vision naturally would not bring some mediocre talents over.

Now that Tengfei Group is in the stage of rapid expansion, the demand for talents is quite large, just by headhunting companies and counterpart training with the United University, the gap is still very large, otherwise it would not be so that Zhao Kai's intelligence department has to do the work of five people alone!

So when Rong Peng recommended those talents to Ji Feng, he was in turn doing him a favour, and he had no reason not to say yes!

"Little Feng, thank you!"

Rong Peng said from the bottom of his heart. The fact that Ji Feng had agreed so readily made Rong Peng feel respected once again.

Ji Feng waved his hand and said, "Uncle Rong, there's no need to be so polite between us. Let me state one thing first, in the matter of the subsidiary company, apart from the general direction, we have to follow the command of the headquarters, and the headquarters will send someone to supervise the financial and technical matters, anything else is up to you, and this will never change as long as you are still willing to work with me, Uncle Rong!"

Rong Peng couldn't help but be moved, "Thank you!"

When it comes to alloy projects, the core technology will definitely not be easily grasped by outsiders, this is something Rong Peng knows very well, so it is only natural for the headquarters to send someone to supervise it. As for the finances, the subsidiaries were financially independent, but the necessary supervision was still definitely needed.

As for the general direction to follow the command of the headquarters, this is even more of a problem at all!

“Then, when do you think you can start working, Uncle Rong?” Ji Feng asked.

“What do you mean, Little Feng?” Rong Peng asked.

“Of course, the sooner the better!”

Ji Feng said, “Uncle Rong, to be honest, this alloy project of the subsidiary company is first and foremost a cooperation with the military, and the demand for the alloy can be imagined, so I am eager for you to get to work as soon as possible!”

Rong Peng nodded with a smile and said, “Then tomorrow?!”

Ji Feng was stunned, “So soon?!”

“Too soon?” Rong Peng asked.

“No no, I certainly hope the sooner the better, but, Uncle Rong don’t you have anything to prepare?” Ji Feng asked.

“There is no need to prepare, just give me the requirements and information!” Rong Peng said, his words revealing an extremely strong confidence.

Ji Feng smiled and nodded, “Good! Then I’ll take care of everything, Uncle Rong!”

The contract was actually very simple, for Ji Feng and Rong Peng, this could almost be said to be just a formality, just going through the motions, Rong Peng dared to put his entire fortune into it, he must have envisaged the end of losing all his money, he could bear the consequences.

And Ji Feng dared to let Rong Peng join, naturally he would also consider all kinds of risks and would definitely take them!

So, a cooperation project involving billions of dollars was settled in just a few words, and I'm afraid it's unbelievable to say it out loud!

After the contract was signed, there was nothing more to do on Ji Feng's side, as he had always focused on the general direction, leaving the specific matters to Rong Peng.

He agreed with Rong Peng that he would go to the headquarters of the Tengfei Group early tomorrow morning to get the information, and at the same time start the preparation of the Tengfei Group's subsidiary.

After leaving Rong's house, Ji Feng raised his hand to look at the time and found that it was not yet ten o'clock. After thinking about it, he said to Bai Zhu, "Bai Zhu, go to the military hospital!"

Bai Zhu nodded slightly and didn't ask why, and drove the car.

Ji Feng was going to see Professor Yu.

He had been there once before when Professor Yu had just been rescued, but at that time, Professor Yu was still relatively weak, after all, he was older and had been nestled in a place like the basement for a few days and had also received a shock, his weak body had fallen ill and he had been recuperating in the military hospital.

For reasons of reason and sense Ji Feng should go to see him again.

When he saw Professor Yu, Ji Feng didn't say much, he just said some words of comfort, after all, he didn't actually know Professor Yu very well, the good thing was that Professor Yu's body was recovering well, now he was all red and ready to be discharged.

When Ji Feng looked at Professor Yu, he suddenly had a thought in his mind.

After leaving the military hospital and returning to the Tengfei Group, Ji Feng immediately came to Xiao Yuxuan's office and first told him about the contract he had signed with Rong Peng, then said: "Yuxuan, I

think you can send someone to talk to Professor Yu, you can let him hang a position in a subsidiary company, you can even directly send people from the security department to protect him and his family, when the subsidiary company is built, you can let his whole family to move to the family compound! What do you think?"

Xiao Yuxuan immediately understood Ji Feng's meaning and asked, "Are you afraid that something will happen to him again?"

Ji Feng nodded and said, "Of course, this is also temporary, the new chrome alloy project cannot be kept so strictly confidential all the time, the outside world will definitely crack it, it's just a matter of time, when this new chrome alloy is not so rare anymore, Professor Yu will be completely safe."

Xiao Yuxuan nodded and said, "Okay, I'll make a note of it."

Ji Feng was about to say something when the phone suddenly rang, "Ding"

The phone was from Wang Xin, he immediately picked up the phone, "Wang Xin, it's me, what's wrong?"

Wang Xin said, "Boss, the situation you mentioned, I can crack it, I've looked at it, the signal is not complicated, it can be tracked completely!"

Ji Feng smiled and came to life: "Is it possible to crack it normally, or only when you are on a call?"

Campus Master Chapter 2992

Ji Feng instantly came to life when he heard this, "Is it possible to crack it normally, or only when you are on a call?"

If it could still be cracked without talking on the phone, then it meant that it would soon be possible to track down this person who was talking to Rong Suyan.

Wang Xin said, "There is no problem cracking it, it can be cracked right now. However, even after it's cracked, it can only be tracked when the other party is on a call, normally if the other party stays silent, it can't be tracked!"

Only when she said this did it dawn on Ji Feng that what Wang Xin wanted to crack turned out to be only the encryption program when the other party was on a call, but in order to track the other party in real time, it would require that phone to send out another signal.

"Since that's the case, then you should crack the signal first!" Ji Feng said.

"Yes!"

Wang Xin answered.

Ji Feng asked about the operation of Tengfei Network again before hanging up the phone. And then, he couldn't help but ponder, this person who was talking to Rong Suyan was even using an encrypted signal, it was really mysterious!

In fact, the easiest way is to ask Rong Suyan directly, but Ji Feng could see that Rong Suyan seemed reluctant to talk about this matter, so he could not pursue the question. The reason for this is that he thought Rong Suyan was in some kind of trouble and he wanted to help her solve it secretly.

So, naturally, it is not a crime to make things difficult for Rong Suyan because of this matter.

So Ji Feng quickly put this matter behind him and took Bai Zhu straight to the school, of course, he was not going to the United University now, but the school that Tong Lei was about to open.

"Ji Feng, why are you here?"

When Tong Lei saw that Ji Feng had arrived, a light-hearted smile could not help but appear on her pretty face.

Ji Feng smiled and said, "Came to see you."

Tong Lei laughed lightly, "Didn't we just see it this morning! Ji Feng, is there something wrong?" She knew Ji Feng best and naturally knew that Ji Feng must not simply come to see her, there must be something else.

Ji Feng said, "It's something, but mainly I want to see you."

Since Tong Lei had set out to open this school, Ji Feng had only come a few times in total, and it was heartbreaking to see that the otherwise quiet Tong Lei had to be so busy, and he even found a photo of her with a helmet on an unfinished construction site in Tong Lei's mobile phone, which was taken by Han Zhen for her.

"What is it?" Tong Lei asked.

"You!"

Ji Feng helplessly pinched her nose, this girl had directly ignored his words about coming to see her, which made him smile bitterly, Tong Lei's nature was like this, and he had gotten used to it long ago.

"I happened to finish my business today, and since I'm rarely free, I thought, I'd pay a visit to my aunt and uncle." Ji Feng said, "After all, it's been a while since I've been there. The other thing is, I plan to let Lei Zi come to the Tengfei Group, but we can't make the decision in private on this matter, and I want to hear uncle's idea."

Tong Lei was a little surprised at his words, "Let him come to the Tengfei Group?"

Ji Feng nodded and said, "That's right. I think he's particularly suitable for a position, but I'm afraid your father won't agree, so we're planning to ask him. It's just as well that you haven't been home for a while, so go back together to have a look too."

Since the last time he had gone to Jiangzhe, Tong Lei had not been back either, although every few days Tong Lei would call back, but after all, a phone call was no substitute for a visit.

After thinking about it, Tong Lei quickly nodded and said, "Okay. When do you plan to leave?"

Ji Feng said, "It just so happens that I'm free in the afternoon, so we'll leave in the afternoon!"

"Okay."

Tong Lei nodded and said, "I'll go and make the arrangements." Now that the school had all been built, but some of the interior decoration inside, as well as other finishing work was still going on, and there were still workers working here at the moment, Tong Lei had to go and talk to the contractor, so she couldn't just leave.

The good thing is that Jiangzhou is very close to Hangzhou, so if you go there in the afternoon, you can arrive very quickly, so you don't have to wait until the evening.

After arranging for the contractor, only then did Tong Lei follow Ji Feng and leave. Zhang Lei's side was already waiting at home, however, to Ji Feng's surprise, Shen Jingyi had come too!

"You guys this is?" Ji Feng was a little surprised and a little puzzled.

"Hello."

Shen Jingyi's pretty face was slightly red and more or less unnatural, "It's been a long time."

Ji Feng laughed, "Has it been a long time? Not much time, right?" Since Zhang Lei had returned from the Northeast, they had gotten together a few times, of which Shen Jingyi had come twice, so naturally it hadn't been much longer.

"Crazy person, just don't squeeze my daughter-in-law!"

Zhang Lei came out to fight, he put an arm around Shen Jingyi's waist and said, "That's what, this time I plan to bring Jingyi along with me."

Ji Feng immediately asked, "Lei Zi, Jing Yi hasn't been to your house yet, right? Is this the first time?"

Zhang Lei nodded his head and said, "That's right, the first time."

"You bastard!"

Ji Feng immediately understood why Zhang Lei had brought Shen Jingyi along, this guy was afraid that going home to discuss his future was only one of his purposes, I'm afraid that the main thing was to introduce Shen Jingyi to his parents, that is, as the saying goes, the ugly daughter-in-law meets her father-in-law!

Zhang Lei laughed and said, "OK, let's not talk about that, Lei Lei, you go upstairs and clean up first, we'll have a cigarette outside."

"Smoke less!" Tong Lei said.

"Even if you care about Ji Feng, you still care about me!" Zhang Lei said, "Your sister-in-law hasn't even spoken yet!"

"What nonsense!" Shen Jingyi lightly smacked Zhang Lei, "Never forget to joke around at all times!"

Everyone had gotten to know each other very well, so it was natural to joke about nothing.

As Tong Lei went upstairs to pack up her things, and Shen Jingyi also offered to go over to help, Ji Feng was left outside, and he couldn't help but ask, "Lei Zi, what are you up to! Now all of a sudden you're taking Shen Jingyi home, have you greeted your family in advance?"

Zhang Lei said, "It's not that you suddenly proposed to go to my home! How could I have time to greet my family in such a hurry?"

Ji Feng was speechless and scolded, "How dare you take a backhanded swipe? Don't you know what we're going to Hangzhou for? We are going to discuss with your parents about your future stay, and you actually brought Shen Jingyi along with you, which made them not prepared at all, and I'm afraid that if there are any complications then, not a single thing will be done!"

Zhang Lei hadn't mentioned this to his family, and it was not certain whether Mr. and Mrs. Tong Kai De would agree to it, because for such a wealthy family like theirs, they might not be able to make their own decisions on marriage matters. Now Zhang Lei is going to take Shen Jingyi home so suddenly, and make such a surprise attack, in case Mr. and Mrs. Tong Kai De don't agree, then it will definitely be unhappy when the time comes.

As for the matter of allowing Zhang Lei to work at the Tengfei Group, there is no need to mention that!

Zhang Lei couldn't help but heave a smile at his words, "That's why I looked for this opportunity!"

Ji Feng was stunned, "What do you mean?"

Zhang Lei said, "With you guys around, isn't it better to talk about this! If the old man gets angry, when the time comes, Lei Lei can also say something for me!"

Ji Feng: "....."

So this guy was playing with this idea, he could really think.

"If your dad really disagrees, can we stop it?!" Ji Feng asked.

"At the very least, there's a buffer!" Zhang Lei said.

"..... Okay!"

Ji Feng shook his head and laughed: "If it really works naturally it's best, but I think, we can't actually help much if we go!"

How could the thoughts of Tong Kai De be swayed by them, the juniors?

The heir of the Tong family, Zhang Lei's future path is related to what kind of strategy the Tong family will adopt in the future.

It is precisely because of this that Ji Feng made the trip to find Tong Kai De, hoping to listen to his thoughts and see what he meant.

Otherwise, wouldn't they just make their own decision in private?

Soon, Tong Lei packed up, Ji Feng gave a greeting to Xiao Yuxuan, and then the group set off. This time, Ji Feng did not bring Bai Zhu with him.

It wasn't very far from Jiangzhou to Hangzhou, as they had been informed in advance, and Tong's mother had been waiting for them for a long time. When they arrived at Tong Kai De's house, Tong's mother and the nanny had already prepared all the dishes and were waiting for them to fire them up when they arrived.

The children's arrival made Mr. and Mrs. Tong Kai De very happy. Tong Kai De even got excited and asked Ji Feng to play chess with him, but the final result was that Ji Feng slightly beat him by a few moves.

As for Shen Jingyi and Tong Lei, they went to help in the kitchen and also chatted with Tong's mother to get acquainted in advance.

While eating, Tong Kai De asked the nanny to bring a cup for Zhang Lei, which made Zhang Lei very excited, as the old man's move meant that he was no longer treated as a child, and was now qualified to be at the table and drink with him.

Of course, although Zhang Lei was pleased but not overjoyed, so the meal was eaten quickly, Shen Jingyi because of shyness and restraint, not much to say, and Tong Kai De only simply asked her how she was doing, apparently did not want to make things difficult for her.

When Ji Feng looked at it, he said that maybe there was a chance. When he looked at Zhang Lei again, he found that this guy was smiling at the corners of his mouth and giving him a secret thumbs up.

“You two, come with me to the study!”

After eating, Tong Kai De said to Zhang Lei and Ji Feng, then turned around and went to the study.

Ji Feng and Zhang Lei looked at each other, they realised that the next step might be the real thing, but now they had no good way to deal with it, they could only follow them first.

When they arrived at the study, Tong Kai De pointed to the sofa, “Sit down!”

Ji Feng and Zhang Lei both sat down, and after settling down, Zhang Lei said, “Dad

“You guys didn’t just come back to visit this time, right?” Tong Kade interrupted Zhang Lei’s words and asked.

Campus Master Chapter 2993

“Yes

Zhang Lei nodded honestly, which made Ji Feng look really extraordinarily astonished, with Zhang Lei’s jumpy character there were actually times when he was honest?

Child Cade said, “Since there is something, let’s talk about it.”

Zhang Lei didn’t look at Ji Feng anymore at this time and said directly, “Dad, I brought Jing Yi here today, you and my mother have seen it, the two of us have been talking for a long time, so I brought her here today to get your approval!”

Tong Kai De asked, "You think, she suits you well?!"

At Zhang Lei's words Tong Kai De was not the slightest bit surprised, Zhang Lei was able to bring Shen Jingyi back which obviously spoke for itself, however, this question of his was what made Zhang Lei froze.

Immediately, Zhang Lei nodded heavily and said, "Yes, I think she suits me, we have been rubbing shoulders together for a long time, I think her and I can complement each other's personalities, and she is really good to me"

"And what if I don't agree,!" Child Cade asked.

"....."

Zhang Lei then couldn't help but choke for a moment.

Ji Feng was just about to speak when Tong Kade raised his hand and interrupted him, signaling him not to speak.

"What, no more words?!" Tong Kai De looked at his son and asked.

"I brought her here this time to ask you and my mother for permission!" Zhang Lei said.

Tong Kai De nodded and said, "That you have just said, what I am asking is, if I don't agree, what do you think?"

Zhang Lei was a little lost in his heart, he couldn't imagine that his father really did not agree.

He couldn't help but say, "Dad, she and I are really"

"I don't agree!"

Tong Kai De said, "I'll tell you my answer now!"

Zhang Lei then froze. He hadn't expected his father to be so straightforward and dry, not waiting for him to explain at all and just saying no.

"Alright, let's not talk about this issue!"

Tong Kai De waved his hand and said, "Little Feng, you're here for something too?"

Ji Feng was just about to nod and speak when he was interrupted by Zhang Lei: "Dad, why do you disagree?"

"I said, let's not talk about this issue!" Tong Kai De's face sank, and although his voice was not high, the reprimand was clear enough.

"That's not fair!"

Zhang Lei said, "If you don't agree, you have to tell me the reason, right? What is so unsuitable about Jing Yi that you and my mother are not satisfied?"

Tong Kai De said, "Why don't you know?"

Zhang Lei was silent. How could he not know? Shen Jingyi's origins did not meet his father's requirements.

From a long time ago, Zhang Lei knew that his family would definitely want to find him a girl who was a good match for him as a wife, which was in the family's interest and would also be beneficial to his future development.

However, Zhang Lei did not want the kind of marriage without any emotional foundation, and it was even more reluctant for him to give up the woman he had refined.

“Does it have to depend on any kind of birth or discipline?” Zhang Lei tried to fight for himself, “Dad, what age is it now that we are still talking about these

“If you don’t care about birth and gentry, do you think it will work in society? If I was just a poor household at the bottom of society, do you think you would still have the life you have today and the future you have afterwards?” Child Cade asked.

“.....”

Zhang Lei was speechless at the comment.

Tong Kai De said, “All right, don’t say anything, I will talk to that little girl later, you should leave this matter alone.”

“How can I not care?”

Zhang Lei was immediately anxious, “Dad, I understand your thoughts very well, you don’t agree for my sake and for the sake of the family, but are my interests and my future really that important?”

Tong Kai De’s face sank, “Say it again!”

“Lei Zi!”

Ji Feng touched Zhang Lei next to him and said hurriedly, “Uncle, don’t be angry, Lei Zi’s temper is too impulsive, he

“Don’t you say anything, let him speak for himself!”

Tong Kai De waved his hand, looked at Zhang Lei and asked, “Repeat what you just said again, I’ll see how you have the good sense to say it!”

Zhang Lei's mouth moved and he did not speak.

Tong Kai De snorted coldly, "I think you're simply anti-Tian! Originally, I was planning to have a good talk with that little girl and explain to her about your plight, but now that I've seen your performance, I realize that you've already got your feet in the mud, and it looks like I should change my ways!"

"What do you want to do?!" Zhang Lei asked hurriedly.

"You don't have to worry about that!" Tong Kai De said, "All right, you guys go out!"

Seeing that Tong Kai De waved his hand to kick them out, Zhang Lei immediately became anxious, "Dad, you can't do this! Jing Yi and I really have feelings for each other!"

Tong Kai De said with a sullen face, "Can feelings be everything?"

"Affection can't be everything, but it is sad if there is no affection!" Zhang Lei looked at Tong Kai De, "Dad"

"There's no need to say anything!"

Tong Kai De waved his hand, giving the matter a sexual nature and ending the topic.

Zhang Lei, however, stood up violently, threw himself on his knees in front of Tong Kai De and said, "Dad, since I was young I have done everything you asked me to do, but this time I hope you can let me make my own decision for once, I know that you may not believe whatever feelings I say now, but this is my choice!"

Ji Feng took a look and suddenly his heart thumped, bad!

He knew Zhang Lei's temper too well, this guy was obviously guilty of stubbornness at this point, this was a hard-on with Tong Kai De. The more hard-headed Tong Kai De was at this time, the more Zhang Lei would not give in.

But the question is, will Tong Kai De be soft with Zhang Lei? Obviously not!

With a sullen face, Tong Kai De rebuked, "Childish! You've only just entered society now, what do you know about the viciousness of the human heart? Do you know how important your future path will be to you?"

Zhang Lei nodded his head and said, "I know!"

Tong Kai De asked in a deep voice: "Then you are still doing this now?!"

Zhang Lei was silent for a moment and said, "It's my choice, I don't want to regret it later!"

"If you don't listen to me you'll only have more regrets later!" Tong Kai De reprimanded, "There is no need to talk about this matter anymore, you get up!"

"I won't get up!"

Zhang Lei said, "Dad, if you don't agree, then this kneeling will be considered as my farewell to you!"

Tong Kai De instantly said angrily, "What did you say?"

Zhang Lei gritted his teeth, then raised his head and said loudly, "I said, if you don't agree, then I'll take Jing Yi and leave!"

"How dare you!"

Tong Kai De was furious when he heard this and reprimanded, "Zhang Lei! Do you know what you are saying? Hmm? Is this the kind of thing a man should do? As a man, you're not even willing to take on the responsibilities you should take on yourself, and you're leaving for a woman?"

Ji Feng even grabbed Zhang Lei's shoulder and said in a deep voice, "Zhang Lei, don't be stupid, apologize quickly! Let's talk about what's going on later!"

Now that Zhang Lei and Tong Kai De were on top of each other, one of them had to give in first, otherwise, there would be no way to end this matter.

But obviously Tong Kai De would definitely not give in to Zhang Lei, so Ji Feng had to make Zhang Lei give in first.

However, Zhang Lei was stiff-necked and just wouldn't give in and apologize, just looking at Tong Kai De.

"Dad, precisely because I am a man, I will stick to my own choice!" Zhang Lei took a deep breath and said firmly, "I don't believe that if Jing Yi follows me, it will leave me without a future, even if my future is really ruined, I'll admit it! If a man doesn't even have this kind of commitment, then I don't deserve to be a man!"

Tong Kai De said angrily, "What a load of nonsense!"

He stared at Zhang Lei and said angrily, "You can enter into a man's responsibility to that girl, but I ask you, what about to this family? The family raised you hard, what responsibility do you want to do? You don't even have a future, what responsibility can you take?"

Zhang Lei gritted his teeth and said, "I will definitely do my duty to this family, I may not be able to make this family stronger, but I will do my best!"

Tong Kai De said in a cold voice, "You are going to take that girl and leave, what responsibility do you still want to do to this family?"

Zhang Lei shook his head slowly and said, "I just don't want her to get hurt here, but that doesn't mean I'm leaving this family!"

Tong Kai De said, "You've let me down too much!"

Zhang Lei gritted his teeth and did not say a word.

Tong Kai De looked at him with a look of disappointment in his eyes and said, "I'm asking you one last time, are you sure you want to do this?"

This was the last option!

Ji Feng gave Zhang Lei a series of glances, hoping that he would be polite and slow down a bit first.

However, Zhang Lei stiffened his neck, nodded heavily and said, "Yes!"

"Huh!"

Tong Kai De shook his head and laughed, "You are really stubborn!"

Zhang Lei didn't say anything and just knelt there, but this action of his had actually shown what he meant.

"Get up!" Tong Kai De said.

"Dad, I'm sorry for making you angry!" Zhang Lei gave a kowtow to Tong Kai De, stood up and was about to go out, but was pulled by Ji Feng, "Lei Zi, where are you going?"

"I'm sending Jing Yi away!"

Zhang Lei said, "I will marry him next and also take responsibility for this family" He didn't want Shen Jingyi to suffer here, but he knew that his father was also right, he was actually sorry for this family if he left so soon, because all he has today Everything that he has today is from this family.

He had to do his duty!

Ji Feng, however, laughed, "Why are you a stickler when it matters! Uncle Tong has already promised!"

This was such a big turn of events that Zhang Lei was hard pressed to react for a moment, just looking at Ji Feng in astonishment, and then turning his head sharply to look at Tong Kai De, only to find that at this moment, Tong Kai De's face had somehow lost the kind of anger he had before, and instead had a faint smile on it, although it was faint, it could be seen!

"This"

Zhang Lei's brain was almost on the spot for a moment, wasn't it just a moment ago how did this change so drastically in the blink of an eye?!

Campus Master Chapter 2994

Zhang Lei was a bit dumbfounded for a moment, just now his father had rejected him very sternly and even reprimanded him, how could he now agree?

How could he say yes now? This was too fast a change!

Looking at his son's stunned look, Tong Kai De said, "Kid, you've grown up, you actually dare to elope?"

With a rare blush, Zhang Lei couldn't help but say, "If you had agreed, why would I have"

But then again, Zhang Lei also knew that his move to take Shen Jingyi away was no different from elopement, and even a little more serious than elopement.

Tong Kai De let out a light sigh and said, "Kid, you've grown up!"

He had already said this once just now, and now he was saying it again, but with a completely different meaning. In these words, he carried a hint of relief, and a little bit of emotion.

Zhang Lei was dumbfounded and did not know what to say, except that he had never seen such an attitude from his father before.

In the past, he had the impression that his father always had a serious face, and he would clean him up without mercy when he was misbehaving, and he was extra strict with him, and that was why he was hanging around, which was actually just a kind of rebellious mentality of teenagers.

Of course, when he achieved something, his father would smile and praise him gently, but then he would make a mistake and get a good beating.

Today, however, Zhang Lei could not help but be a little stunned.

"Dad, then you are in agreement!?" Zhang Lei was still a bit unsure and couldn't help but want to confirm it once again.

"You know how to take charge and understand your responsibilities, that means you have grown up!" Tong Kai De said, "Since you have grown up, you can make your own decisions on many things."

After saying that, he gave his son a glance and then walked out.

However, as he was about to leave the study, Tong Kai De did say, "Turn around and talk to your mother more, she misses you guys a lot when you're not around!"

And then, he left the study.

But at this moment, Zhang Lei's heart suddenly flooded with a warm current, and his nose was even a little sour. The glance that his father had just given him had made him understand something.

In his father's eyes, Zhang Lei saw relief and pride, just like the way other strict fathers looked at their children. This made him understand that his father's harshness towards him was actually for his own good. And at that moment just now, his father was very much like a loving father, completely devoid of the kind of severity he used to have!

"Crazy, hit me and see if I'm dreaming!" Zhang Lei snapped his head around and said to Ji Feng.

"Good!"

Ji Feng nodded his head and kicked Zhang Lei on the buttocks, the guy banged and flew out, landing on the living room floor with a thud.

"What's wrong?"

Tong Kai De turned around and asked. But instead, he saw that his son had stood in front of him at some point and was looking at him with a heated look, "Brat!"

For the first time in Zhang Lei's memory, Tong Kai De scolded him like this, but it was actually more of a kind of love.

"Dad, you are so great, a wise father!" Zhang Lei gave a thumbs up, the expression on that face was no different from Erguzi's.

"Bastard, less of this, if you mess up in the future I will definitely not spare you!" Tong Kai De cursed with a laugh. He, however, did not see that at this moment, there was a clear footprint on his son's buttocks.

Ji Feng also walked out of the study with a smile at this moment, and even took the door with him by the way. He hesitated for a moment, and still didn't mention Zhang Lei's work for the time being, but he still admired Tong Kai De for his open-mindedness.

There are many enlightened parents, but in such a wealthy family, even if there are enlightened parents, I'm afraid it's hard to give up the family's interests. In front of the family's interests, the affairs of their children can only be put in a secondary position, and it's really quite good that Tong Kai De can do this!

Zhang Lei made an 'ok' gesture with Ji Feng, then hurriedly went to the kitchen, not long after, there was a suppressed exclaiming sound from the kitchen, which contained a strong surprise, it was Shen Jingyi's voice.

Obviously Zhang Lei had told Shen Jingyi that Tong Kai De had promised them, and Shen Jingyi, who had already been somewhat restrained since she walked into this compound, was afraid that she did not hold much hope for this outcome, which is why she was so surprised at this moment.

"This guy"

The first thing you need to do is to have a good time.

The first thing you can do is to sit down on the single sofa beside Tong Kai De, and start weighing your words in your mind.

Don't ever think that just because Tong Kai De had promised Zhang Lei and Shen Jingyi, he would promise everything, or at least, Ji Feng would not have such a stupid idea.

In fact, precisely because Tong Kai De promised Zhang Lei something, instead Ji Feng's heart felt more than a little bad!

Tong Kade praised Zhang Lei for his sense of responsibility and commitment. But this was based on the fact that Zhang Lei still had a great future ahead of him now. Although he did not marry someone who was a good match for him, but was with Shen Jingyi, Zhang Lei could still go on a career path after all, and could likewise contribute to the family, and even make the Tong family stronger.

However, if Tong Kai De knew that Zhang Lei did not intend to pursue a career path in the future, but instead just enter the Tengfei Group or even join the war team, whether he would still be so open-minded then, it was really hard to say!

“Little Feng, something’s wrong?!”

Although Ji Feng did not show it on his face, but what kind of person is Tong Kai De, immersed in the officialdom for so many years, what kind of people has he not seen? How could he not see that Ji Feng had something to say?

Seeing that Tong Kaide had asked, Ji Feng also nodded frankly and said, “Uncle Tong, in fact, this time, I came here specifically to ask you for instructions!”

“It seems that things are not small, huh?”

As soon as he heard Ji Feng’s words, Tong Kai De understood and smiled, “Say, what is it!”

Ji Feng deliberated for a moment before saying, “It’s like this, I just want to ask, do you have any plans for Zhang Lei’s future development?”

“Hmm?!”

When Tong Kai De heard that, he immediately sat up straight, “What, do you have any good suggestions?”

Ji Feng smiled, “Suggestions are not really there, however, I am trying to ask your permission to let Zhang Lei come over to help me, my side is now understaffed and a bit too busy

“How can I help?” Child Cade asked.

“It’s that I have a security team in the Tengfei Group, and I’ve never had the right person to lead it, so I want Zhang Lei to go over and take charge.” Ji Feng said while carefully looking at Tong Kai De’s face, wanting to see what change in his expression as a way to judge his attitude, but, after listening to it, Tong Kai De had no reaction, which made him a little disappointed.

“Uncle Tong, Zhang Lei’s ability is very strong, this you must know, if he goes into the career or develops in other areas, he will definitely have some achievements, just my side”

“You want Zhang Lei to enter the Tengfei Group?” Tong Kai De asked.

“Yes!”

Ji Feng nodded his head honestly.

Tong Kade asked, “What about you?”

“Me?!”

Ji Feng couldn’t help but be stunned at his words.

Tong Kai De said, “Tengfei Group is important, but do you plan to focus on Tengfei Group all the time in the future?”

Ji Feng then understood that Tong Kai De was asking what path he intended to take in the future.

“Uncle Tong, you know my character, those things in the career are not suitable for me, moreover, I have no intention of going down the career path, so in the future, the Tengfei Group should be my focus.” Ji Feng mused.

What path to take in the future, Ji Feng had actually thought about it more than once, and he had thought about it even before he graduated. There was no doubt that his family definitely wanted him to follow the career path, and his younger uncle Ji Zhenping certainly preferred him to join the army and enter the military, but he also knew that his development would definitely be limited if he entered the military, so he was still advised to follow the career path.

Because for a person of his origin, as long as he was willing to take the career path, there was a path to the sky waiting for him, a path that led to the sky!

But Ji Feng repeatedly thought about it, and still decided to develop the Tengfei Group single-mindedly.

Only when he had run the Tengfei Group well could he gradually bring out all those technologies, and once he had brought out all those technologies, it didn't really matter whether he took the career path or not!

Those technologies are epoch-making!

If the Tengfei Group had so many epoch-making technologies, it would be far more useful than his career!

However, there was no way to say these words to his family, and fortunately, his elder brother Ji Shaodong was extremely outstanding, and even without him, Ji Shaodong could completely support the whole family, so his family had never pressed him.

But for Zhang Lei

The Tong family can be the most outstanding on him!

"Have you said these words to your father?" Tong Kai De asked.

"No!"

Ji Feng shook his head and said frankly, "Didn't say it so positively, only expressed it indirectly."

Tong Kai De asked, "Then what was your father's attitude?"

Ji Feng said, "He didn't take a position, he just told me to get the matter at hand done first."

Tong Kai De nodded slowly, but didn't rush to make a statement, but pondered for a moment before saying, "Little Feng, your Tengfei Group is very well run, and that security team in your company, I've also heard about it, just do you think that Zhang Lei can adapt to this job?"

What do you mean?

Ji Feng smiled and couldn't help but feel a twitch in his heart, did this father-in-law say yes, or no?

He was a bit puzzled.

It was too late to think about it, but Tong Kai De was still waiting for him to answer, "Definitely he can adapt! Whether it was his ability or his personality, there was certainly nothing wrong with helping the security team, it was completely more than enough!"

Because the expression war team was too sensitive, so when talking to Tong Kai De, Ji Feng deliberately referred to the war team as the security team!

Campus Master Chapter 2995

Because the expression war team was too sensitive, so when talking to Tong Kai De, Ji Feng deliberately referred to the war team as the security team!

Although this security team sounded a little too corny, at least the killing atmosphere was not so heavy, making it easier for Tong Kai De to accept.

Of course, the most important thing was Tong Kai De's attitude.

If he didn't insist on letting Zhang Lei take the career path, not to mention the battle team, even the name Death Squad definitely wouldn't scare him, but if he wasn't willing to let Zhang Lei take another path, saying anything would be a lie!

"You think so highly of him?!" Tong Kai De asked.

“It’s not that I’m bullish, but he has the ability to do it himself.” Ji Feng said, “I know that it’s definitely a bit too big for Zhang Lei to head up the security team now, but that certainly won’t be the case in the future!”

The Tengfei Group, can’t always be confined to the country, and the battle team can’t always be such a small number of people.

Ji Feng has never forgotten the promise he made to his grandfather – within ten years, the top of the world!

But to get to the top of the world, technology alone will only become an object of covetousness, but we must also rely on the battle team!

This is the reason why Ji Feng wanted to give the Battle Team to Zhang Lei to take charge! This is the reason why Ji Feng wanted to hand over the Battle Team to Zhang Lei! In the future, the Battle Team would definitely develop and grow, and by then, Zhang Lei would be the true leader of the Battle Team!

Only, these words could not be declared and there was no way to explain them.

Tong Kade glanced at Ji Feng and seemed to understand what Ji Feng meant beyond his words, he frowned and asked, “So, you have a long term plan?!”

Ji Feng nodded his head and said, “People without long term worries will have short term worries, I had to think long term!”

“Well! You’re right to think like that!” Tong Kai De nodded his head.

“Then what do you think about Lei Zi’s matter?”

“Right now he’s not mature enough, he still needs to be honed!” Tong Kai De said, “I also don’t want him to start on his career path now, since you have the intention, then bring him up properly and let him hone his skills for a few more years!”

Ji Feng smiled and was immediately overjoyed, “Uncle Tong, you’re agreeing to this?!”

Tong Kai De said, “Let him follow you for a few years and see how it goes!”

“Thank you, Uncle Tong! Thank you!”

Ji Feng was really overjoyed and thanked him repeatedly. Tong Kai De really agreed, which made Ji Feng couldn’t help but be a little surprised, but more than that, he was still surprised, he didn’t expect Tong Kai De to be so open-minded!

Although, he heard the implication from Tong Kai De’s words – follow him for a few years first!

It was clear that Zhang Lei could follow him within a few years, depending on the development within those years! If Zhang Lei’s future is not so bright within these few years, then we may have to let Zhang Lei come back to take the career path!

Ji Feng understands how Tong Kai De thinks, if it were him, he wouldn’t easily let his son take his future and spoil it! The fact that Tong Kai De was able to make it to such a point was actually really quite good, and really did take care of him quite well!

“Young man, it’s not a bad thing to go out and make a go of it!” Tong Kai De said, “Since you think so highly of him, then in the future when you two brothers are working together, you have to bring him up more and teach him more!”

“We will definitely make progress together!” Ji Feng said immediately.

“Good!”

Tong Kai De nodded, seemingly satisfied with Ji Feng’s answer, “Speaking of which, you two little brothers are doing well together, especially you, you’re doing very well, I hope you can continue to do the same in the future!”

Ji Feng nodded heavily, seeing that touch of compassion in Tong Kai De's eyes, he couldn't help but be moved in his heart. Tong Kai De was not just looking at him as the first grandson of the Ji family, but more so as his own son-in-law, a sort of half-son!

"Now that you have time, tell us about your Tengfei Group. I heard that you have cooperated with the Germans and have already entered the international market with your television sets? And as a result, you've alerted all those international home appliance giants?!" Tong Kai De suddenly changed the subject and asked with a smile.

Ji Feng froze, then shook his head and said, "I'm afraid those international giants don't see the Tengfei Group as a real threat yet, they just want to destroy the momentum of Tengfei Electric!"

In fact, in the last two days, although he was talking to Rong Peng about cooperation, he also heard Xiao Yuxuan say that there are some foreign news media reporting that the 3d TV sets produced by Tengfei Electric may not be up to par in quality, and, there are also rumors that some countries are preparing to test the 3d TV sets and so on and so forth.

Although these have not been confirmed, but those news media reports are undermining the recent momentum of 3d TV sets, according to private investigations, it seems that this is some international giants out to make a move. Among them are the shadows of some large multinational companies such as the Four Star Group.

Tong Cade said, "It's good to have confidence!"

Not long after, Tong Lei came out, then sat down beside Tong Kai De, and Ji Feng asked, "Where is Lei Zi?"

Tong Lei pointed to the kitchen and said, "He's still inside and beautiful!"

"That brat!" Tong Cade shook his head.

Ji Feng couldn't help but smirk.

When Zhang Lei came out of the kitchen, his mouth was still grinning like a lady's fork, and when he saw both Ji Feng and Tong Kai De sitting on the sofa chatting, he also walked over with a cheeky heave smile, followed by Shen Jingyi, who was also coming over at this time with a red face, and came to Tong Kai De and called out all over again.

"Uncle."

"Good!" Tong Kai De had a smile on his face and nodded slightly, "Have a seat!"

"Mm." Shen Jingyi was still a little restrained, but the smile on her face was obvious, apparently Zhang Lei had already told her about Tong Kai De's approval of them.

After dinner, Tong Kai De didn't sit in the living room for too long before going into his study, as the second in command of Hangzhou, he really had too many things to keep him busy, in fact, when he reached his position he no longer had time for himself.

It's no wonder that there is a saying going around: it's not good to be an errand boy, it's not good to be a big leader, and the most comfortable ones are those small leaders who are not in high positions but have real power in their hands.

This is really true!

As soon as Tong Kai De left, Zhang Lei immediately became active, he grabbed Ji Feng's collar and said, "Holy shit, you're so bad, I just let you hit me, who let you kick me!"

Ji Feng held back his laughter, "I saw that you were so happy that you were almost stupid, so I thought it was better to stimulate you a bit!"

Zhang Lei: "....."

Ji Feng slapped his hand away and said, "There's good news and bad news, which do you want to hear?"

Zhang Lei was a bit suspicious: "Could there be something better than this?" He suddenly remembered something and immediately asked, "Is it that my dad is planning to give me and Jingyi a wedding?"

Shen Jingyi's pretty face turned red when she heard that and hurriedly said, "Zhang Lei, what are you talking about!"

Ji Feng looked at him speechlessly.

"Alright, then I choose to hear the good news!" Zhang Lei laughed heatedly.

"Just now I mentioned to your father about you entering the Tengfei Group to work, and he agreed." Ji Feng smiled, "Is this considered good news?"

Zhang Lei's eyes lit up at once, "Are you sure?"

Ji Feng laughed, "Do I need to lie to you? Just ten minutes ago, your father promised it himself! But"

"Wait a minute!"

Zhang Lei hurriedly interrupted him and asked, "The next thing is bad news, right?"

"Yes"

"Then there's no need to say it! I don't like to hear bad news!"

Ji Feng: "....."

This guy was obviously overexcited, Ji Feng decided not to talk to him about business first today, he was already jumpy in character, and I was afraid that Tong Kai De's nod would make him excited for a while, so Ji Feng planned to wait until tomorrow.

But who knows, the next day Zhang Lei was still in the excitement, early in the morning he got up and was excited to take Shen Jingyi to the West Lake to play, Ji Feng thought about it is also rarely take Tong Lei out to play, so also put the words down for the time being, a group of people set off to the West Lake.

Of course, Zhang Lei did not forget to take his mother with him, after all, this time back can not only come to do their own business, often away, rare to come back to see his mother, Zhang Lei is naturally not the kind of person who has a daughter-in-law forget his mother.

During this period, Ji Feng never found a suitable opportunity to talk to Zhang Lei, but thinking that there would be plenty of time in the future, he did not mention it again.

Several people stayed in Hangzhou for three days, and after they had returned to Jiangzhou, Xiao Yuxuan told him the news that 3d TV sets were going on sale in Europe and countries like Rice and Boundary Pont!

"The goods have already arrived, now we are waiting for the official opening of the sale!"

Xiao Yuxuan was somewhat looking forward to it, the fire of 3d TV sets in China was almost unbelievable, but what exactly will the sales be like in foreign countries, her heart was somewhat unsure.

Because now there are quite a few media and some rumors that are directed at Tengfei Electric's 3d TV sets, although what should be done has been done, but, who knows how much it will be affected.

Ji Feng patted her hand and said, "Don't worry, what is the quality of our products, consumers will know after using it, time will prove everything!"

"This is our first step to break through to the international market, if"

“Even if it fails, it’s okay!”

Ji Feng smiled and reassured her, saying, “Even if the 3d TV set fails, there will be better products that will appear in the future and will definitely be able to break through to the international market, it’s just a matter of time.”

Xiao Yuxuan pursed her lips, still a little nervous.

This was the first step for the Tengfei Group to step out of the country, if it failed, not only would the image of the Tengfei Group be hit, the motivation and confidence of the staff would definitely be affected too! It might even affect the domestic sales!

“Relax, there’s nothing that can’t be solved!” Ji Feng said.

Ji Feng’s confidence infected Xiao Yuxuan, and her nervous mood relaxed somewhat, just expecting the 3d TV set to sell more, and even if it failed, it shouldn’t be a fiasco!

After all, so many people in the company had worked for a long time for this, and the negotiation team alone had almost drained their mouths in the negotiations with the Germans!

Campus Master Chapter 2996

The upcoming launch of Tengfei Group’s 3D TV set is not only a concern for the people of Tengfei Group, but also for many domestic companies.

It is also extremely important for them to see whether the products of the Tengfei Group can successfully go abroad. If they can open up abroad, this means that foreign consumers will not resist just because it is a Chinese product, which is crucial to successfully building up the image of Chinese products!

Everyone knows that the Chinese can only produce gadgets and light industrial products, such as clothing and small electronic products, or OEMs, but it is almost impossible to independently design and

manufacture a product with high technological content that is groundbreaking, it is like the sun coming out of the west!

This is a consensus abroad!

There is a joke about a few Chinese people who went abroad for a trip, knowing that China charges a lot of taxes on imported goods and the prices are very high, so they wanted to buy more things to bring back after they left the country. However, those few Chinese tourists were not good at foreign languages and did not know how to express themselves more accurately.

They then asked a local where we should go to buy things for the cheapest price.

The local foreigner replied: "Go to China, many things here are made in China, of course it's the cheapest place to buy!"

This joke was widely circulated, but in a way it showed that in the minds of foreigners, everything made in China is cheap!

"We ship everything out of China by the boatload, dozens of containers of clothes, electronic components, but we can only get back chips the size of a fingernail cap when we ship them abroad, this huge difference is heartbreaking to watch!"

A well-known entrepreneur in the coastal region who specialises in overseas trade once expressed such a sentiment! However, this is something that can't be helped, because technically they can't compete with others, so they can only do dozens or even hundreds of people toiling hard to be worth the flick of a switch of a machine by a worker!

The image of China's products has formed a consensus abroad!

So, whether or not the Tengfei Group could go out this time and really open up the market, this would not only mean whether or not the Tengfei Group could make money from abroad, but more importantly, it would mean whether or not foreigners would accept the high-tech products made by the Chinese!

“Go to sleep! Waiting like this is not an option!” Ji Feng comforted Xiao Yuxuan, at this moment it was already night in China, however, in foreign countries, especially in areas such as Rice, it was the early morning when the sun was rising.

The arrival of daylight meant that the time had come for the 3d TV sets to go on sale precisely.

“I can’t sleep!” Xiao Yuxuan shook her head and looked at the clock on the wall, “The official sale is about to start, I want to wait for the news

“No way!”

Ji Feng pulled Xiao Yuxuan’s hand and walked upstairs, “I have to sleep even if I can’t, even if the sale starts the sales volume is not something that can be counted in this instant!”

Xiao Yuxuan was pulled by him and snapped, “But I can’t get the sales figures, I’m uneasy in my heart!”

Ji Feng laughed, “So you can’t sit still? Don’t be afraid, even if it fails, it’s okay, in the future, Tengfei Group will definitely launch more and more high-tech products, sooner or later, it will make those foreigners proud of buying these electronic products, just like the fruit phones!”

Xiao Yuxuan hummed, “You’re so open-minded!”

Ji Feng laughed: “Have this confidence! You’re still far from being able to raise your Qi!”

Xiao Yuxuan was pulled upstairs by him, and Tong Lei pursed her lips and smiled lightly as she also got up and went upstairs, knowing that Xiao Yuxuan’s heart must be in a flurry right now, so she planned to go upstairs to chat with Xiao Yuxuan.

Under Ji Feng’s supervision, Xiao Yuxuan washed up and helplessly went into her room, Tong Lei and the other women all went in to chat with her, but ended up driving Ji Feng out, this was Lei Lei’s idea, with Ji Feng away, Xiao Yuxuan’s pressure would be less instead.

“Crazy, the news is reporting!”

However, Ji Feng had just gone downstairs when Han Zhong suddenly called and said, “Quickly open the news channel, it’s reporting on our products!”

Ji Feng was a little surprised and immediately turned on the TV and tuned to the news channel, and sure enough, he saw that it was reporting on the overseas sale of Tengfei Electric’s 3d TV sets.

“Even the news is concerned?” Ji Feng suddenly realized that the sale of 3d TV sets really wasn’t just a matter for Tengfei Electric anymore.

Just after hanging up Han Zhong’s call, He Hongwei’s call came again.

“Ji Feng, 3d TV sets are about to be sold abroad, what are your thoughts?” He Hongwei asked with a smile.

“Since when did you become a journalist?” Ji Feng laughed, “Not here to interview me on behalf of the TV station, right?”

“If you want to interview then it’s also to interview Mr. Xiao!”

He Hongwei laughed and said, “Xiao Yuxuan is the boss of the Tengfei Group, in the eyes of the outside world, there is no such person as Ji Feng, “Ji Feng, I am not the only one who is concerned, many friends in the business sector are concerned about this matter, even the leaders of the Ministry of Commerce are also concerned! Tengfei Group is showing its face this time!”

Ji Feng didn’t expect the public sale abroad to attract so much attention, he realised that I’m afraid the Chinese people had been holding back for too long, that situation of being restricted in technology, being restricted in branding, and only being able to act as cheap labour, I’m afraid it had made many people extremely stifled.

So, now that Tengfei Group’s 3d TV set is going to the world, whether it will be successful or not, it does touch the nerves of many people!

“I hope it’s really showing its face only!” Ji Feng shook his head and said, “Don’t show your face without becoming a success, but end up showing your ass, that would really be a disgrace!”

“Haha

He Hongwei burst out laughing: “You’re still in the mood for jokes, it seems you’re not that nervous! Not bad!”

Ji Feng laughed: “What’s the use of being nervous? Foreigners won’t buy your stuff just because you’re pathetic, and those media won’t give up their attacks on you just because you’re pathetic.”

“It’s good that you can see this point, old brother, in fact, one success or failure is nothing, if you can succeed, it’s naturally better, even if it fails, you can still take your time!”

He Hongwei said, “In fact, if I were to say so, you should not have only negotiated with the German Simon Group, the safest way is to find a general agent in each country. ...”

“It’s because of that that I didn’t do that!”

Ji Feng said, “Anyway, things are already like this, so there’s no point in saying if anymore.”

He Hongwei nodded: “Also, then you

“Wait for the news.” Ji Feng said, “Whether it is successful or not, things still have to be done in order.”

In fact, Ji Feng does not know, the most secure way is to find a general agent everywhere, in China is how to do, and this is also the practice in the shopping malls, this approach has proved to be quite correct, whether it is Kang Yuan slimming powder or 3d TV sets, sales are extremely hot, even 3d TV sets in the first launched not long ago, there were also out of stock situation.

However, in foreign countries Ji Feng did not do so, after he and Xiao Yuxuan and Han Zhong had carefully discussed the matter, decided not to look for an agent, but to directly cultivate their own sales channels.

On the one hand, he was borrowing their sales channels, but on the other hand, he also hoped to open up the product's popularity and establish a brand image, and then, according to Xiao Yuxuan's and Han Zhong's suggestions, what he wanted to do was to operate directly, as well as cooperate with local electrical appliances sales and large supermarkets.

Only in this way can a solid and unobstructed sales channel be finally established.

This night, Ji Feng received several phone calls, after He Hongwei, Rong Suyan and Ji YuYing actually called separately, this is really a bit out of Ji Feng's expectation, he did not think that just the sales of the Tengfei Group's 3d TV set would make so many people concerned.

But now we can only wait, if we want to know the sales, we have to wait until at least early tomorrow morning.

Before going to bed, Ji Feng browsed some more news, and also read some emails sent by Han Zhong, in which he did not say anything else, but only sent links or screenshots of some domestic and international news.

For example, a Kerry news website wrote a report about Tengfei Electric's 3D TV set, which first said that the Kerry people were developing a new generation of 3D TV sets, and also said that the Kerry people had actually developed 3D TV sets a long time ago, and that the Chinese Tengfei Group was just picking up the pieces.

Ji Feng just laughed when he read it, this report by Kerry is obviously a deliberate confusion of concepts between the kind of so-called TV sets that are now on the market that have to have 3d glasses and also have to be in 3d format, and the Tengfei Group's 3d TV sets, completely ignoring the fact that Tengfei Electric's 3d TV sets do not need any external aids like glasses at all.

This is a complete mentality of saying grapes are sour if you can't eat them!

What's more, in the last paragraph of this report, it actually said how China's electronic products are inaccessible abroad, and predicted that Tengfei's 3d TV sets would definitely go unnoticed overseas.

The company's main business is to provide a wide range of products and services to the public.

The sales in the end, whether the product is good or not, this is not those media can say a few words to qualify, must be the consumer said to count!

The first day's sales will come out before we can know the result!

t

Campus Master Chapter 2997

The night passed quickly.

Ji Feng woke up early out of habit and opened his eyes only to find that Xiao Yuxuan and Tong Lei were not beside him, he then remembered that they had slept together yesterday.

"She must be too worried to sleep!"

Ji Feng shook his head and quickly dressed and went to Tong Lei's bedroom door, when he heard the sound of even breathing coming from inside, obviously not yet up. He shook his head and smiled, washed up and went downstairs to the kitchen and made breakfast with his own hands.

Not long after, Xiao Yuxuan and the others all got up one after another, and when he came downstairs, Ji Feng saw that Xiao Yuxuan was looking at something with her mobile phone, he said, "Don't look at it yet, look at it after eating breakfast."

Xiao Yuxuan nodded, but still took out her phone from time to time to look at it while she was eating breakfast.

"Let's see, you're about to have a hallucination!" Ji Feng said helplessly, "Don't worry so much, didn't I tell you, it's okay to fail, who can have such smooth sailing?!"

“If only it were as light as you say!” Xiao Yuxuan gave him a blank look, “You think everyone’s heart is as big as yours, huh?!”

Ji Feng smiled and poured her another cup of soy milk, and stopped bothering her, knowing that she had put in a lot of effort to get the 3d TV set to the international market, otherwise, with the launch of the Tengfei TV set for such a long time, wouldn’t it have gone international only now?

So Ji Feng will no longer persuade her, this is also a good way to sharpen the mind, wait for more experience in the future, and then slowly get used to it.

After eating breakfast, Xiao Yuxuan hurriedly took Xiao Ying to the company, she was already a bit impatient to know the sales of the first day of the 3d TV set.

In fact, at this time, because of the time difference, there are still some countries that have not started the sale, to know that the current 3d TV set is not the kind of electronic product that will be sold out like crazy as soon as it comes out, so there is absolutely no need for a global simultaneous sale.

Now the sale is completed, there are only a few regions such as Europe and rice, but these are the main markets, and then there is the upcoming sale in countries such as Kepong and Kerry during the day today.

“Ji Feng, why don’t you go and take a look too, I can see that Sister Yu Xuan is distracted, it’s better for you to follow.” Tong Lei said.

“Fine.”

Ji Feng nodded, Yu Xuan was a bit disoriented, it would be better for him to be with him.

So he also then took Bai Zhu with him to the company.

When he came to the company, Ji Feng realized that it was not just Xiao Yuxuan who was expecting, it was not yet time to go to work, but surprisingly almost everyone in the company had arrived, Han Zhong had also arrived early and was talking about something in Xiao Yuxuan's office.

When he saw Ji Feng arrive, Han Zhong immediately said, "You're here too? Worried, right?"

Ji Feng laughed: "What's there to worry about? I came to tell you that it doesn't matter whether the sales are high or low, you can't rush everything, take one step at a time and sooner or later you will open up the market!"

Han Zhong couldn't help but smile bitterly: "This is the most important strategic deployment of the group this year, do you think we can't worry about it!"

Ji Feng laughed: "You guys are at least the ones who single-handedly created the Tengfei Group, so you are so unsure of yourselves? When we first launched Kang Yuan Slim Powder, didn't we also have uncertain prospects? At that time, the health product market was almost rotten, right? The first few days of sales were mediocre, too. You weren't worried when you started with nothing, but now you're sitting on your hands?"

Han Zhong froze, "That's right, I wasn't really as worried as I am now, at that time I just wanted to open up the market and racked my brains to think of ways, instead I didn't have time to worry."

In fact, he and Xiao Yuxuan joined the Tengfei Group are already behind, at the very beginning, the Tengfei Group was built on the foundation of Xiao's pharmaceutical factory, at that time the foundation was not good, although there was Ji Feng's financial support, but they both had no experience in making health care products, so at that time, although they were also a little apprehensive, but more energy was still spent on developing the market.

Now that I think about it, they were so concerned about the sales of 3d TV sets that they were so nonchalant about it.

"You two, ah, this is carelessness!"

Ji Feng said, "I think now you guys should not focus on other things, first do the things at hand, Yu Xuan, Rong Peng has come to sign the contract, right?"

Xiao Yuxuan nodded, "It has been signed, now he has entered the substantial stage, and the company is already choosing a location."

When Ji Feng said this, she also realized that she really had messed up a bit, and since she had discovered the problem, she gradually shifted and began to move her attention to other work.

"The most important thing now is not the 3d TV set, but the alloy project, this project was not taken over by Han Zhong before, we will discuss it later, Yu Xuan, you have to keep a good eye on this project, for both the financial and technical aspects, you must keep a good eye on it!" Ji Feng admonished.

Xiao Yuxuan nodded: "I know."

Ji Feng said, "Especially in terms of finance, there must be no mess. Rong Peng has put out his entire fortune this time, he believes in us, then we must do a better job, we can't let people think that this desperate bet is a wrong choice, that will chill their hearts!"

"Financial issues, the branch is still mainly responsible for it, right?" Xiao Yuxuan said, "Our side just needs to send someone over to supervise it, after all, the finance a pen, certainly still their side is responsible, this is not better?"

"..... is fine!"

A brother has to be clear in his accounts, and this is even more true when running a company!

It's not that I don't trust Rong Peng, on the contrary, it's precisely because I trust him that I have to send someone over to supervise him.

As for the technology, it goes without saying that this must be grasped in hand, the technology is the shares of the headquarters of the Tengfei Group into the shares, but also a company based on the fundamental, the importance can be imagined.

“We don’t even have to worry about personnel, Rongpeng has people of his own, and I promised him before that he is fully responsible for personnel issues.” Ji Feng added.

“I know what to do!” Xiao Yuxuan said.

“Knock, knock, knock!”

As he was talking, there was a sudden knock on the office door, and Xiao Yuxuan immediately said, “Please come in.”

The door was pushed open, and Wang Jun walked in with a pile of information, smiling sweetly when she saw them and said, “Mr. Xiao, Mr. Han, the emails from Rice and Europe have arrived, and I have printed them out.”

Han Zhong immediately said, “Quickly bring it over and I’ll take a look!”

He took the information from Wang Jun’s hand, then handed a copy to Xiao Yuxuan, and immediately looked down at it.

It was a graphical statement, with textual descriptions and tabular data.

However, after just a moment, Han Zhong’s face revealed an uncontrollable joy, and just for a moment, a smile covered his face.

“Hula~!”

Han Zhong, who looked a little excited, was turning the pages with extreme force, almost not tearing the bound information, but this kind of action said something.

Ji Feng asked, "Success?!"

Han Zhong did not even lift his head: "Wait a minute, I'll look at the European ones again!"

On this side, however, Xiao Yuxuan was already with a smile on her pretty face as she looked up and said, "Ji Feng, we've succeeded!"

"Mr. Xiao is right! We've succeeded!" Han Zhong also couldn't help but say excitedly, "Twenty thousand units, just in the past day, twenty thousand units were sold in Rice!"

"You explain it to me?" Ji Feng asked with a smile, he was a little unclear about what this 20,000 units concept was.

"It's definitely a success!"

Han Zhong excitedly stretched out a finger and said, "The sales volume of TV sets in Rice is almost forty million units a year, on average, it's almost a hundred thousand a day, and we sold twenty thousand units just this past day!"

Ji Feng suddenly said, "In that case, in this one day, we have taken up nearly one-fifth of the market?"

Han Zhong immediately nodded and said, "That's right! If we calculate according to the sales of TV sets in Rice last year, it's less than one fifth, but it's not that far off!"

Ji Feng couldn't help but smile, it seemed that it had really worked!

Although Ji Feng was only roughly estimating, whether it was one-fifth or one-sixth, to occupy such an important position in the mainstream home appliance market was already a great success!

One fifth of it!

But let's not forget how many kinds of home appliance brands there are in the world, and how many of them are influential!

As a latecomer, Tengfei Appliances has almost no influence abroad, but it has managed to sell more than 20,000 units a day, which is definitely a great success!

"It's not too early to be happy!"

Xiao Yuxuan, who had been worried before, was the first to calm down after seeing the results, while she was full of joy, "This is only a rough statistic, how exactly did we get this sales data, what age group are the customers buying our products, are there centralised purchases or individual sales, which region are they mainly concentrated in, we don't know all this information yet. We don't know."

When she said this, Han Zhong also gradually calmed down, "You are right. However, no matter what, at least in terms of sales, we've succeeded! Back to the follow-up details, I'll contact the Ximen Group directly and ask them to send back the information as soon as possible!"

Xiao Yuxuan nodded: "Go for it!"

Although she was splashing cold water, the smile on Xiao Yuxuan's face was extremely bright.

The pressure that had been weighing on her heart for the past few days also disappeared without a trace the moment she saw the sales results.

"If if everything is the result of normal sales, then I'm afraid that the sales on this first day will increase in the next few days!"

Han Zhong was at this moment but his eyes were already glowing: "The next three to five days will be the peak of sales, it seems I have to inform the workshop side to work extra hours!"

As he spoke, Han Zhong was excited, they had succeeded!

Campus Master Chapter 2998

One fifth!

This figure, if placed elsewhere might be unremarkable and count for nothing. However, to the people of the Tengfei Group, it was a great success.

One fifth of the TV market in the country, that's amazing news!

And that's just the sales in Rice. In Europe, too, the sales are significant, although not as much as a fifth of the market, they are still a huge part of the market.

The whole Tengfei Group was overjoyed!

Before the official start of sales, some foreign media had been so vocal and disparaging that they had even said that China could not produce high-tech products and that they would meet with a Waterloo after the public launch and would be defeated!

But now, the shocking sales were enough to explain everything, and even more so to bet the mouths of all those negative media!

"Guys, we did it!"

Han Zhong opened his arms wide and laughed, "Let all those people who were bad-mouthing us before slap their own mouths! Haha!"

Xiao Yuxuan's face was also full of smiles, after working so hard for so long and spending so much effort, now we finally have a bumper harvest, how could one not be excited?

Ji Feng said; "This is all thanks to you guys, hard work!"

Han Zhong laughed and grinned, this moment was really extraordinarily happy, even when the 3d TV set was so hot in the country, he did not lose his temper so much, because they can easily establish sales channels in the country, the goods are fully spread, with the 3d TV set's super shocking effect, can trigger the market that is completely expected.

Now, Tengfei Group is pushing the 3D TV set to the market under the sound of doubt, although the sales channel is borrowed from the German Simon Group, but Tengfei Group has also spent a lot of efforts, more importantly, this is in the technology-oriented foreign countries, but also in Europe and Rice, which represents the world's most advanced technology, and achieved great success!

Xiao Yuxuan's charming pretty face was covered with a smile as she said, "Everyone has worked hard, although this is only the first day, I believe that the next few days sales will definitely be better and will reach new highs, this is all the result of everyone's efforts, so I have decided that I will give everyone a reward!"

Han Zhong asked, "What kind of reward?!"

Xiao Yuxuan said, "The entire staff of Tengfei Electric, from General Manager Li to the workers in the workshops below, the group is going to take out a month's salary as a bonus and give it to them in recognition of their efforts!"

"A month's salary?!"

Han Zhong couldn't help but be shocked at his words, and the smile on his face tightened a bit as he said, "Mr. Xiao, isn't that too much of a reward?"

Tengfei Electric had nearly ten workshops alone, and the workers worked in three shifts, so one could imagine how many workers there were. So don't look at the wages that the frontline workers receive as not so high as the management, but with this large number of people, it adds up to a huge amount of money!

If you add in management, who are themselves highly paid, that's a lot of money.

“The value they create is far from being rewarded with a month’s salary, moreover, they will continue to create more profits for the company in the future, this is what they deserve!”

This time, Xiao Yuxuan didn’t seek advice again, and didn’t even ask Ji Feng what he thought, and made the decision straight away. She had never been stingy with the workers and the people under her, and the salary and welfare levels of the staff of the entire Tengfei Group were all quite high then.

However, Xiao Yuxuan still felt that it was not enough, she said, “In addition, I have another idea, if the sales can continue to grow in the next few days, then, regardless of the sales in Asian countries such as KAI Peng and Kerry, the salary of all the employees of Tengfei Electric will be adjusted upwards by ten percent!”

Hearing these words, the smile on Han Zhong’s face had turned into a bitter one, “Mr. Xiao, if we do this, it will be another big expense, moreover, it will be long-term!”

A month’s salary alone is a large sum of money, but it is a one-off payment, so if it is paid out, it will be an extra expense.

But if everyone’s salary is adjusted upwards by ten percent, this is long-term, and if the benefits are also adjusted upwards, then almost half a year is equivalent to another month’s salary, and a year down the line, this is a lot of money!

Xiao Yuxuan said: “It’s settled! If it wasn’t for them, the 3D TVs wouldn’t have been such a success! Moreover, they have all worked hard for the preparation of the goods some time ago!”

Because they knew that sooner or later the 3d TV sets would have to be sold all over the world, Tengfei Electric had the idea of stocking up from a very early stage, that is, stocking up.

However, the sales of Tengfei’s 3D TV sets in the Chinese market were so overwhelming that the demand simply exceeded the supply, and Tengfei’s production capacity alone could not keep up with the newly opened production line and newly recruited workers, who were still lacking in proficiency, and more importantly, because of the lack of proficiency, the yield rate of the produced TV sets was very low!

This is one of the reasons why Tengfei Electrical Appliances has not been launched to the world.

It's not that we didn't want to launch them, it's because we couldn't even supply them domestically, so how could we have any spare goods to supply abroad?

Well, after two years of trials and tribulations, and the continuous expansion of Tengfei Electric, it was finally possible to meet the needs of the domestic market and to look abroad.

So after discussing with Han Zhong and Xiao Yuxuan, Li Xin, the boss of Tengfei Electric, decided to increase the production line again, recruit workers and start stocking up at the same time.

Because of this, this time they were able to have the ability to spread the goods all over the world!

“Speaking of which, those workers are really working hard!”

Han Zhong deliberated for a moment and finally nodded in agreement with Xiao Yuxuan's opinion: “When I talked to Li Xin some time ago, he also complained to me, saying that in order to prepare the goods, the entire staff of Tengfei Electric was working almost continuously, and the workers were working in three shifts, especially the newly recruited workers, in order to train their skills and make the yield rate rise as soon as possible, they were even more demanding. The management's nerves are even tighter!”

Ji Feng listened next to him and did not interrupt, he knew he was not good at practical management at all, Xiao Yuxuan and Han Zhong were both insiders, he, an amateur, just needed to listen.

Xiao Yuxuan nodded slightly and said, “But looking at the current sales, I'm afraid that the production line of Tengfei Electric will have to be increased, let's ask Li Xin to make a detailed report later and we'll study it.”

Han Zhong said, “The production line definitely needs to be increased, I roughly calculated, with the current sales in Europe and Rice, the next few days will definitely be the peak sales period, after these days, there will be a drop, but the quality of our products is over the top, so the next drop will not be too big, but with such a peak period, Tengfei Electric's warehouse I'm afraid it's going to be empty.”

“But it’s still prudent to be cautious when it comes to increasing production lines, with the current production capacity, if say the markets in countries like Kerry and Boundary Pont fail, supplying Europe and Rice is about right! And if it is equally successful in Asia, then at least four to five more production lines will have to be added!”

“I’m afraid these aren’t enough!”

Xiao Yuxuan shook her head and said, “But expansion does need to be cautious, there’s nothing you can do about the lack of capacity, first you have to be stable, then you can win in a stable way.”

This point, she and Han Zhong had the same view.

At this point, Ji Feng smiled and said, “We’ll talk about production later, for now, I think you two should first inform about the rewards, or get the workers more motivated!”

Not surprisingly, when the announcement of the reward was made to Tengfei Electric, the whole company cheered, especially the frontline workers, who were extremely happy. The third shift was very hard, especially in terms of sleep, with one shift every ten days, and those who worked the night shift had the hardest time.

However, getting an extra month’s pay straight away is quite a surprise given the already high wages at Tengfei Electric itself.

What’s more, on top of this, the salary has been increased by ten per cent, so that some of the faster workers will be earning up to the 20,000 mark next month!

Not only the workers, but also the management were in a state of joy.

Li Xin even made a personal trip to the head office to express his gratitude to Xiao Yuxuan and Han Zhong on behalf of the staff of Tengfei Electric!

At the same time, the outside world was in an uproar!

The sales results of the 3D TV sets produced by Tengfei Electric in Europe and Rice were really shocking to many people.

Whether it was people at home who were concerned about the matter, or abroad, there was an uproar!

In particular, those news media with the best noses were reporting on it, and the most aggressive of these was the pivotal station known as the mouthpiece of China!

The pride of the Chinese people – tf dominates Europe and Rice!

“Tengfei Electric, an irresistible dark horse, is a great success in foreign markets!

The future leader in the television industry!

A brand that belongs to China!

.....

The entire Chinese press has been abuzz with almost all the media reporting on the matter, although the vast majority of the media did not know the details of Tengfei Electric’s sales, but with the reports sent back directly from the pivotal station’s reporters abroad, it was a spectacle for all to see!

“..... viewers, I am now in a large electrical shopping mall in Rice, you can see the long line of people behind me, these are customers waiting to buy Tengfei brand 3d TV sets ”

“The 3D TV sets launched by the Tengfei Group in China have exploded in the market almost as soon as they were launched in Rice, and the crowd of people coming to buy them are not lacking in age, this scene reminds one of the craze of customers queuing up overnight when fruit phones are sold

Campus Master Chapter 2999

The blazing sales results of Tengfei Electric's 3D TV sets in Rice and Europe spread throughout China, and even those people who don't usually pay much attention to business felt proud and honoured at this moment.

Apart from the television media, the internet was also abuzz with excitement.

"Good job, Tengfei Group! We've done a great job for the Chinese people, kudos!"

"I told you, 3-D TV sets look so cool that foreigners won't like them? Now it turns out that foreigners also like our stuff!"

"Upstairs is right, 3d TV is so popular in our country, foreigners also eat the fire and smoke, they will also be conquered!"

"1"

"119"

.....

The internet has seen a surge in posts about Tengfei Electric, with major forums and those portals all having posts about Tengfei Electric's 3d TV sets selling like hot cakes in Europe and Rice.

Nowadays, the people of China are no longer in a closed state, they no longer feel mysterious when they see foreigners, and they no longer feel that foreign countries are so unattainable, nowadays it is very convenient to go abroad, so many people have easy access to foreign news and information.

In particular, some foreign media also reported on the hot sales of Tengfei's 3D TV sets in Europe and Rice, which soon spread back to China, making the Chinese people even more proud!

When the 3d TV sets were first launched, the market in China was so hot, yet there were some people who had some resistance in their hearts to China's own produced appliances, in the inherent concept

that the quality of China's products are still not as good as foreign imports, and that domestically produced things can never be related to quality, which for many people is already a deep-rooted relationship.

However, the effect of 3D TV sets is really great, the kind of scenes that can be seen in a three-dimensional way without any auxiliary equipment, really gives people a great shock, when using 3D TV sets to watch some programs, the kind of realism is simply beyond words to describe.

So those consumers who, despite their prejudice against domestic products in their hearts, have paid for them despite the market being so hot.

Only, some were following the psychology of the trend when buying, others were trying to get a novelty, only a small percentage of those with traditional inherent ideas didn't buy, but their impact on the huge Chinese market was really minimal!

As a result, those who did buy a TV set were immediately blown away when they went home and used it.

So very quickly, those who had a slight resistance to it, turned into fans of Tengfei's 3D TV sets in a very short time!

Now that foreigners are also buying them in a frenzy, it gives them a sense of pride.

See, what the foreigners are still grabbing like crazy now, my buddy has already used it long ago.

And it shows that their choice was not wrong.

So an unexpected phenomenon emerged – just as the 3d TV sets were selling well in Europe and Rice, the next two days surprisingly caused a new round of rush in the Chinese market as well.

This left Han Zhong and others stunned.

“I have to admit, in fact, very often the people of the country still have a mentality of looking up to foreign countries and foreigners, even though China has developed very quickly now and is rising fast, but for some people, the moon in foreign countries is still rounder than the one at home!”

Xiao Yuxuan couldn't help but feel: “These people also started to follow the trend when they saw that foreigners were actually so crazy about 3d TV sets as well. Because in their perception, even foreigners think it's a good thing, so it must be very good!”

Ji Feng shook his head and laughed: “This kind of concept will certainly be there no matter what time it is, some experts and scholars have said that this is the problem of national self-confidence of the Chinese people, unless one day, China can become the most powerful country in the world, just like in ancient times, the four directions are barbarians, by then, I'm afraid this phenomenon will be much less!”

“No matter what, we are in business anyway, it's good that more products are sold!” Xiao Yuxuan's head shook lightly.

“Xiao is right, now the products are selling like hotcakes this is a good thing for us to ask for, no matter what those consumers are paying for, as long as they pay for it!”

Han Zhong laughed, “But then, I'm afraid that Tengfei's warehouse will be completely emptied, and the workers will have to work overtime again.”

Xiao Yuxuan said, “There is no other way, now the production capacity is limited, so we have to work overtime, but in terms of welfare, we have to raise some more during this period, we can't treat those workers poorly, it's not easy for them either!”

Han Zhong nodded and said, “Okay, I'll look into it later and try to come up with a charter in the next two days. You can see how it goes then!”

Han Zhong was basically in charge of the welfare of the staff, like Xiao Yuxuan's decision to give the staff salary and welfare directly, it was not in accordance with the rules and regulations, so it was naturally impossible for such things to happen one after another.

“Then it will be hard for you!” Xiao Yuxuan nodded her head.

“It’s the right thing to do!” Han Zhong laughed.

“Ding

Suddenly, Ji Feng’s phone rang, he took it out and found that it was unexpectedly his big brother Ji Shaodong calling, so he immediately picked up the phone, “Hey, big brother, how come you have time to call me?”

Ji Shaodong said smilingly, “I think it’s because you’re not free, right? How is it? Have you been busy these days? I want to congratulate you, the market for 3d TV sets has opened up in Europe and Rice, congratulations!”

Ji Feng was not surprised that his elder brother had received the news, he laughed: “It should be congratulations to us.”

“Lao San, this time you did a really nice job, smashing open their market with a heavy punch, not just a matter of getting a breath of air, the economic benefits and political implications of this are deep, you’re awesome!” Ji Shaodong laughed.

Hearing that Ji Feng was talking to his big brother, Xiao Yuxuan and Han Zhong both took a few steps away, leaving him room to talk.

Ji Feng laughed, “Big brother, this is just the beginning, there will definitely be more products launched by the Tengfei Group in the future, and by then the European and Rice markets will no longer be unattainable for us!”

Ji Shaodong said, “It’s not unattainable in the first place! It’s just that in the past, our technology was too poor and we were at a disadvantage when we used light industry to compare with the import of high-tech products, but this time, it’s different, you did a good job!”

Ji Feng laughed: “It will be even more beautiful in the future!”

In response to this boast of confidence from Ji Feng, Ji Shaodong did not feel that he was boasting in the slightest, but rather a sign of having strong self confidence.

“Then, I’ll be waiting for your good news!” Ji Shaodong laughed.

“I won’t make you wait too long!” Ji Feng laughed.

After finishing the call with his big brother Ji Shaodong, he hadn’t had time to explain anything to Xiao Yuxuan and Han Zhong, but as a result, He Hongwei called with the purpose of congratulating Ji Feng, the sales that the Tengfei Group had achieved in Rice and Europe were really quite amazing, and being a Chinese company, it was even more amazing.

After He Hongwei, Xiang Yongzhan, Ji Yujie, Rong Suyan and Rong Peng, father and daughter, even Ji Shaojun, who has never cared about these things, also called!

Of course, as for the phone calls from younger uncle Ji Zhenping and father Ji Zhenhua, they had also called a long time ago, but Ji Zhenhua didn’t say much on the phone, he just said, “Little Feng, well done!”

Even Ji Feng did not expect that it was only a matter of entering the rice enough and European markets, and it was understandable that it would cause a sensation, but even his father and his father attached such importance to it, which made Ji Feng a bit surprised.

However, the sensational effect caused by the high sales volume was quickly apparent.

Before Ji Feng left Xiao Yuxuan’s office, he saw that Han Zhong had also received several phone calls, and he addressed the other party as so-and-so boss, which meant that the person who called must be the head of a certain company.

After hanging up the phone, Han Zhong’s face could not help but reveal a look of excitement as he said, “Good news, just now I received calls from several large electronics factories, saying that they want to be able to OEM our 3d TV sets, and the price is negotiable!”

He named several group companies in a row, all of them were large group companies that were famous in China, including the Deep City Red Sea Group!

“OEM?”

Xiao Yuxuan couldn't help but show a happy expression on her face when she heard this, “It seems that Tengfei Electric has finally started to cross over into the ranks of large group companies!”

With just one product, the 3D TV set, Tengfei Electric, a subsidiary of the Tengfei Group, could already be called a large group company.

If it could sell well in countries like Kepong and Kerry, then Tengfei Appliances would really be on the rise. As long as there were no problems with strategy and product quality, it would be difficult for Tengfei Appliances to go out of business!

Han Zhong said: “It's time to consider the issue of OEM. Now that sales are surging, Tengfei's production line alone can no longer meet the market demand, so OEM is a must. Of course, we can hold the core technology in our hands, and other components can be handed over to those OEM factories for production.”

Xiao Yuxuan nodded, it was indeed time to consider the issue of OEM.

However, this was not something that could be decided overnight, the first thing to consider now was the issue of offering in KAI Peng and Kerry.

In fact, the sales rights for Kerry and KAI Peng have not been handed over to the German Westgate Group for the whole of Asia, but are in the hands of the Tengfei Group itself.

On the one hand because of the proximity and the fact that there are many people in the company who are familiar with the Asian market, on the other hand, giving the sales to the Germans was originally intended to impact the market, but the sales channels in Asia, the Tengfei Group wanted to develop on its own.

Meanwhile, the sales of 3d TV sets in Europe and Rice can only be described as hot

Campus Master Chapter 3000

“Another epochal change in the home appliance industry – tf!

A very influential newspaper in Rice had written this line of headlines in the most prominent place!

When two days had passed, the sales of 3d TV sets in Rice had exploded beyond description, although compared to mobile phones and other electronic products, the sales of just a few tens of thousands of units were certainly far from comparable, and perhaps even some people couldn't help but snicker when they heard this figure!

However, no one could ignore this figure if they knew the percentage of the total sales of the entire Rice market!

For this reason, the entire home appliance industry in Rice, and even the press in Rice, were stunned by this sales figure, one might even say they were in awe!

But just how hot the sales of 3d televisions are in Rice, perhaps, this article in this newspaper, will tell us something.

“..... The Chinese are coming! With their supposedly high-tech 3d TV sets! When I first heard the news, I was unconcerned, it was just a joke to me because since I knew there was such a country as China, I couldn't think of anything else about this country that could move me apart from tea!”

“Even porcelain and antiques, of which the Chinese are very proud, are nothing – in fact, the porcelain fired by the Kepong people is now so extraordinarily fine that it has even surpassed the Chinese who invented it – although, I heard that that Kepongese still bought back the technology for firing porcelain from China!”

“So when I heard that the Chinese had started making TV sets and were going to sell them to Rice, I knew that a joke had been created. But it wasn’t funny to me, so I went to work as normal because the stern editor-in-chief would dock my pay if I was late, and in fact this has happened more than once!”

“However, the day passed and when I got home in the evening and turned on the TV, I was surprised to see that almost all the free-to-air channels and news sections were reporting news about TV sets made by the Chinese, and here I have to say that I like the free-to-air channels because I don’t like the fact that I can still see commercials on the TV shows I watch after paying for them! However, when you tune in to the free channels, you can’t help but watch the news but today’s news surprised me a little.”

“A Chinese made TV set has become so popular in Rice that even my six year old daughter came home from school and mentioned the damn set to me and said cool a few times! And, she looked at me with expectant eyes, which, I knew, meant I might have to pay another fortune on the TV!”

“But I decided to do it anyway for the sake of my lovely daughter, so I went to buy the TV the next day, but it made me queue for two hours, I hated the efficiency of it, I hated that it wasn’t actually available in the online shop, but good thing I got it in the end.”

“When I got home I immediately installed it and started setting it up, I wanted to surprise my daughter so she could see it when she came back from school. But when I turned on the TV, I was blown away. The exquisite three-dimensional picture seemed to be right in front of my eyes and God, I can’t find more words to describe it, it really was stunning.”

“When I saw that three-dimensional image right in front of me, I even had the urge to order into the ‘Man Show’ – because it was so realistic and three-dimensional!”

“Of course, I didn’t forget that it was a surprise for my daughter and it didn’t disappoint me. When my daughter came home, she couldn’t help but let out a cry of surprise when she saw the new 3-D TV set and then, for the next two hours of family entertainment, she hogged the TV, which made him realise that there must be many other families in Rice that are the same. ”

“A Chinese TV set that conquered Rice! This TV set made me understand that while we still always thought that Rice was the most powerful and technologically advanced country in the world, the Chinese had surprisingly caught up and even, was surpassing Rice without even knowing it.”

“..... but I have to say, I love this TV, it’s fantastic, really fantastic!”

“I think if I have the budget, if it comes out with a new model I will definitely buy it again too, and then I can give this one at home to my parents in California I’m willing to spend the money!”

I’m willing to spend the money!

This statement speaks to the hearts of the people of Rice.

As Rice people who have always admired technology and electronics and smart technology, the 3D TV set from Tengfei Electric has completely charmed them, leaving them in awe and willing to spend money to buy it!

This report also illustrates how hot the sales of 3d TV sets are in Rice, and in Europe, it’s not too far off!

There have been analyses of this boom by foreign industry insiders.

Some people said that the technology content of this TV set launched by the Chinese is of course needless to say, and the super dazzling appearance and picture have conquered the Miamians. However, what really made consumers fall for it was the very good entry point of Tengfei Electric.

In the small screen, there are two major smartphones, Fruit and Android, which are the two most influential and widely available smart system phones, allowing consumers to feel the arrival of the smart era and the unparalleled enjoyment.

In the medium screen, there are a variety of stylish and high-end computers with a dazzling array of electronic products.

However, in the large screen sector, that is, in the television industry, apart from the types of television sets such as plasma and HD, there are only those that require glasses to be able to watch 3D programmes, but such television sets cannot be called 3D TVs because, apart from the need for glasses, they also require a specific signal for 3D programmes to be available.

This kind of cumbersome operation makes the increasingly lazy people nowadays simply do not want to and can not afford to be interested in watching the pitiful number of 3d TV programmes on their TV sets!

So, Tengfei's 3d TV sets, seized this entry point, immediately filled the world in the field of large screen no dazzling technology gap, this completely does not need any auxiliary tools can watch 3d programs, and whether it is a subscription program or free programs, whether or not the 3d signal source, look at the eyes are completely 3d visual effect, this product still can not make consumers What product can capture the hearts of consumers?

So, this is a TV set that is ahead of its time, in a completely blank market, with heart-thumping technology and a price that is not too high, this kind of temptation is really hard to resist!

Someone once said that people are really only after one thing in life – enjoyment!

Whether it's on a spiritual or material level, it's all about enjoyment!

And Tengfei Electric's 3d TV sets are such a huge enjoyment that it would be hard not to have a hit!

The letters "tf" gradually began to take root in people's hearts!

Tengfei Electric's 3d TV sets are selling so well abroad and are getting so much attention, yet they are making many people sit up and take notice.

"The wolf is coming!"

One European media outlet, for one, blatantly typed out such a comment.

The sales of 3D TV sets were a source of pride for the Chinese people, but for the European and Miamian manufacturers, it was no less than a blow to the head, or even a disaster!

In particular, the local TV industry was already overcapacity, coupled with the impact of computers and mobile terminals, making the sales of TV sets decline year after year, but as a result, Tengfei's 3D TV sets were like a tiger entering a herd of sheep, rampaging through, causing the sales of other TV brands to drop to almost freezing point!

For a while, rumours were flying, and many tabloids and some media were attacking 3d TV sets.

Xiao Yuxuan and others knew that this was those home appliance giants stepping in, and there were shades of them in these rumours and attacks. But there was no better way to face these, but to organise public relations.

However, the Tengfei Group is not particularly worried, the quality of the 3d TV set is actually how, they naturally know in their hearts, because from the beginning Ji Feng once said, either not to do, to do it is to do fine, absolutely will not be shoddy, Xiao Yuxuan and Han Zhong has been adhering to this concept, so the quality of the 3d TV set absolutely pass!

If the market had not been opened before, then perhaps there would be some concern, but since the market has been opened, with the quality of the 3d TV set and that amazing effect, few people can refuse it!

So, while organising PR, Xiao Yuxuan and Han Zhong turned more energy to Asian countries such as Kepong and Kerry, where the public sale had only just begun and where users had not yet experienced the cool effects of 3d TV sets, and where they were afraid they would meet their Waterloo if the negative impact was great enough!

Therefore, Xiao Yuxuan and Han Zhong have shifted their PR focus to here, leaving areas such as Europe and Rice to the German Westgate Group.

Forty-eight hours after the launch in Europe and Rice, the 3D TV set went on sale in Asia. Of course, it is said to be on sale in the entire Asian region, but in fact some countries are temporarily inaccessible, such as North Kerry, etc., but in fact the main attention of the Tengfei Group is also placed on a few large regions.

Kerry, Kepong, the South Seas, and the Arsenal, and of course, there's Tsarist Russia, the largest country in the world in terms of territory, which is also one of the key marketing areas!

“I’ve decided to make a trip to Kepong myself!”

Han Zhong suddenly came to Xiao Yuxuan, “I’m worried that the rumours and negative news over in Europe and Rice will affect the Asian region, and I’m not at ease if I don’t go there personally to take a look.”

Xiao Yuxuan frowned and said, “If the negative news really affects areas like Kepong, it won’t help even if you go there in person, it’s best to conduct public relations in the name of the group.
