

Campus Master Chapter 3021

In an upscale flat in Jiangzhou, the curtains were half-covered, and in the soft bed of the bedroom, a man and woman were making the most intimate contact.

Xu Yuan's beautiful eyes were dazed, her teeth clenched on her rosy lips, trying hard not to make a sound, but the impact of the man on top of her was too strong, the waves of pleasurable pleasure were like waves, constantly pushing her to the very peak.

Every time Ji Feng pounded, it gave Xu Yuan a soul-crushing feeling of relief, and she felt that her body was almost melting, which made her involuntarily coil her legs around Ji Feng's waist, and her jade arms were tightly grasping Ji Feng's broad back, almost wanting to melt herself into Ji Feng's body completely.

"Oooh...!"

With a high, delicate cry, Xu Yuan's snow-white body stiffened abruptly before slumping onto the bed, her red lips slightly open, exhaling like an orchid.

A strand of hair was stained on her forehead, making Xu Yuan look a little dishevelled at the moment, but with a different kind of charm.

Between the opening and closing of her eyes, she was seductive and amazing.

Ji Feng embraced her tightly, feeling Xu Yuan's rich and delicate body, snow-white and full of elasticity, slippery and lovable, it was simply a superb speciality.

"Hoo~~"

It was only after a long while that Xu Yuan could not help but exhale a long breath, her whole body limp on the bed, without a bit of strength, just nestled in Ji Feng's arms, quietly feeling that wonderful feeling of being at the peak.

It was really a great feeling!

Xu Yuan inwardly could not help but feel a sigh of relief, the longing and need brought about by a long absence had been completely filled at this moment

The first thing you need to do is to get a good idea of what you are doing.

Ji Feng pulled over the quilt to cover himself and Xu Yuan, Xu Yuan saw his scowl with a bad smile, and her flirtatious pretty face, which originally still had a tinge of flush, became even redder, looking even more amazingly charming, but her hands did not stop, sliding down along Ji Feng's chest, the bad guy that she loved and hated at the same time

"Big young man, can you sleep?" Xu Yuan suddenly asked.

"What do you mean?" Ji Feng asked with a smile.

Xu Yuan's lips were tinged with a smile as she said, "You're so persistent, you must not have had your fill of it by now, right? Can you sleep at night?"

Only then did Ji Feng understand what she was talking about, within these women of his, only Xu Yuan would be so bold, daring to say anything in front of him, and even more meat and vegetables when talking to him in private, if it was any other woman, even Qin Shujie who had already had a child, she would not have said so.

However, Qin Shujie has a taste of a mature woman, the kind of lustful, reserved with a slight sense of debauchery, just the right amount to give her an amazing charm, in bed is also wonderful.

But compared to Xu Yuan, they were a different style.

“Pop!”

A fierce smack on that plump, upturned buttocks caused Xu Yuan to pout, before Ji Feng hummed, “Can’t sleep, then continue again!”

Xu Yuan instantly shouted, “Ah! I’m just asking, no, I’m all weak now”

However, the resistance was so feeble that after only a few moments, the resistance gradually turned into blushing moans

The actual fact is that you will be able to get a lot more than just a few of these. The actual fact is that you’ll be able to get a lot more than just a few of these.

So now that he had some free time, Ji Feng came over.

Between Qin Shujie and Xu Yuan, he chose to come to see Xu Yuan first, not because of favoritism, but because Qin Shujie still has Yao Yao, her daughter, with her, and is not so lonely and isolated, while Xu Yuan is all alone, living alone in Jiangzhou.

Although she also has a father and is also in Jiangzhou, Xu Yuan has completely let go of her father since they broke up.

What’s more, with her father’s malevolence, Xu Yuan would have a chill from her bones when she came into contact with him.

So Ji Feng can fully imagine how Xu Yuan will spend this Spring Festival, she will definitely use work to paralyze herself, now the number of workers who do not go home for the Spring Festival is increasing year by year.

As expected!

When Ji Feng arrived at Xiao’s pharmaceutical factory without even saying hello, he saw Xu Yuan busy working, and according to Xu Yuan’s assistant, she hadn’t gone back for several days in a row.

So, without saying a word, Ji Feng picked Xu Yuan up and headed out. Xu Yuan was so frightened that she struggled, but her strength was no match for Ji Feng’s, so she couldn’t break free.

The first time I saw her, I was able to get away.

“Do you choose to go home with me now, or do you want me to carry you out like this now, your choice!” Ji Feng said.

Xu Yuan made her choice very wisely!

She knew very well that if she dared to refuse, the youngest would definitely dare to carry her out like this, and when the company's employees saw it, she should not be the general manager anymore, and she would lose all her face.

Moreover, if she dares to resist, then there will definitely be family law after she returns.

When she thought of Ji Feng's so-called family law, Xu Yuan's body couldn't help but feel a little strange deep inside, and there was even a hidden hint of excitement in her heart.

The scene in the bedroom would make people blush with shame when they looked at it.

.....

The next morning, Ji Feng prepared breakfast for Xu Yuan and pulled Xu Yuan, who was still sleeping, out of bed and ate breakfast, before Xu Yuan regained her strength.

The strange thing is, when Xu Yuan looked in the mirror in the morning she found that even though she slept so late last night and also tossed and burned a lot of energy, she now looked extraordinarily refreshed, her skin was even whiter and redder, the whole person seemed to have returned to the days of a young girl.

This made Xu Yuan secretly happy, thinking that people say that men are really the best cosmetics for women.

The nourished Xu Yuan was so gorgeous that she could be described as unbelievably gorgeous, and as a result, many people could not help but look back as she walked along the road.

This made Ji Feng, who was walking next to her, couldn't help but shake his head and laugh. It was lucky that it was only Xu Yuan who had come out, if Xiao Yuxuan and the others had all come out together, it would have caused a traffic accident.

Although Xu Yuan had been in society, she had become more and more competent since she became the general manager of Xiao's Pharmaceutical Factory, and she was also becoming more and more fashionable, with that moving style that was more prevalent than before.

"Young master, what are you thinking about?" Xu Yuan asked.

"Not thinking about anything, just thinking, my family's Yuan Yuan is more beautiful than before." Ji Feng laughed heatedly.

"Nasty!"

As soon as Xu Yuan saw Ji Feng's bad smile, she immediately knew that he must have thought about last night, thinking about her 'slutty' look, Xu Yuan herself couldn't help but blush a little, if those employees knew that their general manager would actually be that bah bah bah, no one else would know about it, no one!

"Ee, Eldest, there seems to be someone following us behind!" Xu Yuan suddenly said.

"It's one of our own!"

Ji Feng said, "His name is Yang Bin, Bai Zhu is still resting from his injury, he's temporarily being my personal bodyguard, just like Li Ting is."

Xu Yuan was then relieved.

Ji Feng asked, "By the way, Li Ting has been following you for a while, how is she doing?"

"Very good, she doesn't talk much, but she does things very honestly, and her personality is quite good, we get along very well." Xu Yuan said.

"Then how do you feel about her emergency ability to deal with emergencies?" Ji Feng asked again.

"Emergency?"

Xu Yuan gave him a blank look and said, "Nothing like that has ever happened, how would I know!"

Ji Feng nodded and laughed, "That's true."

However, for Li Ting Ji Feng was still relieved, only, only Li Ting alone beside Xu Yuan Ji Feng felt that the power was still a bit weak, he also considered whether to teach Li Ting bodybuilding gymnastics, but thinking about Li Ting's arrival was not yet long, he also shelved this intention for the time being.

"Ding"

Just as the two of them were taking a walk, Ji Feng's mobile phone suddenly rang, and it was a call from Xiang Yongzhan.

Ji Feng immediately picked up the phone, "Old Xiang, what's up?"

Xiang Yongzhan smiled, "In Jiangzhou, right?"

Ji Feng said, "Yes, you're back from your mission?"

"I've been back for a few days!" Xiang Yongzhan said, "The mission went pretty well, thanks to your blessing."

"Heh!"

Ji Feng shook his head and smiled, knowing that Xiang Yongzhan was joking, "Then when do you have time, I'll find you for a drink!"

Xiang Yongzhan said, "I'm calling you just to talk about this, when I was in Yanjing two days ago, I mentioned what you said last time, when will we meet up and talk."

"The thing from last time?"

Ji Feng smiled but couldn't help but stare, it took him a while to remember, "You're talking about buying the island?"

Xiang Yongzhan said, "That's right."

Only then did Ji Feng remember that previously Zhang Lei had mentioned a proposal to him to buy an island overseas and move the Tengfei Group there, but at that time he only listened to it as a joke, but then he thought about it and was a bit moved, so he mentioned it to Xiang Yongzhan.

I didn't expect Xiang Yongzhan would still remember this!

"I can't do it today, let's do it tomorrow." Ji Feng said, it was hard to spend a day with Xu Yuan today, he definitely couldn't just leave, "I'll buy you a drink tomorrow night."

"It's better for me to treat you, I'll let you know when I've booked the place." Xiang Yongzhan laughed, "Speaking of which, the few times I said I'd invite you, I didn't have the time, I'll be the host this time."

"Okay, then we'll be in touch tomorrow." Ji Feng said.

"You're in such a hurry to hang up the phone, are you doing something bad?" Xiang Yongzhan asked with a smile.

"Staying with my wife!" Ji Feng said without good humour, "Hang up!"

When Ji Feng hung up the phone, he turned his head and saw Xu Yuan looking at himself with a smirk, he couldn't help but ask, "What's wrong? Something on my face again?"

"No!"

Xu Yuan held his arm, a smile on her charming pretty face, "I'm just happy."

Campus Master Chapter 3022

The two of them were like a couple in the neighborhood, extraordinarily sweet. Xu Yuan also felt an unprecedented happiness and had a smile on her face all day.

Ji Feng did not leave that night, but stayed to keep Xu Yuan company, which also made Xu Yuan even happier.

It was not until the next day that Ji Feng left.

Feeling that there was still Ji Feng's temperature in the blanket, Xu Yuan's face wore a happy smile as she took out her mobile phone and called her assistant: "Ask for leave for me, I have something to do today, I'm not going to work."

In fact, it wasn't that she didn't want to go to work, nor did she want to be lazy, but because she was a bit tired, yesterday Ji Feng was too fierce, her bones were about to be tossed apart.

However, that soul-crushing feeling made her want to stop, and her whole body seemed to be melting.

She was still blushing when she thought about it!

Thinking about the madness of last night, Xu Yuan couldn't help but blush, pulling the covers over herself and hiding under the covers to continue to reminisce.

Meanwhile, Ji Feng drove to the Jiangzhou military compound to see Xiang Yongzhan.

Because Ji Feng did not take Yang Bin with him when he went to accompany Xu Yuan yesterday, he was now going alone.

On the way, Ji Feng simply ate a little breakfast, and when he arrived at the military district, the troops were still training. Amidst the loud and clear trumpets of the soldiers, Ji Feng arrived at Xiang

Yongzhan's office, and from afar, he could still hear the unison roar of the soldiers faintly coming from outside.

"Here you are, sit down!"

Xiang Yongzhan did not overly polite with Ji Feng, pointed to the sofa and said, "You're here so early? Didn't sleep well all night, did you?"

Ji Feng was stunned, "Why didn't you sleep well?"

Xiang Yongzhan laughed: "Is it hard to understand? This matter of buying the island should be quite important to your company, right? Now that there's news, you're not excited?"

"Bullshit!"

Ji Feng shook his head and laughed, he then understood what was going on, "I just casually mentioned that, not that I necessarily wanted to buy the island out there, it was actually just a thought, besides, even if it was really important, I wouldn't be so excited that I couldn't sleep all night, right? I actually slept better than anyone else last night!"

He had indeed who slept very well last night, with a beautiful woman in his arms and a warm fragrance, there was really nothing better than that.

Xiang Yongzheng laughed: "So I'm still taking one of your thoughts as a matter of business?"

The first thing you need to do is to take a look at the situation and tell us what you think about it."

Xiang Yongzhan laughed: "The above said, this is the enterprise's independent behavior, it is not convenient for the above to interfere too much, however, when it comes to confidential matters, it is necessary to be cautious."

Ji Feng pondered for a moment before asking, "Then in that case, what the above means is that they don't want me to go out and buy the island?"

"You've misunderstood!"

Xiang Yongzhan shook his head and said, "What the above means is that if you go out to buy the island in a pure way, then there is definitely nothing wrong with it, but it is better not to bring out those confidential things. It doesn't matter!"

When Ji Feng heard this, he understood that what the top side meant was to keep the confidential stuff in the country. So, what was the classified stuff?

Obviously, they were laser guns, special effects and the authorization to the military to use the illusory three-dimensional light screen technology, etc. These things could not be brought out.

Ji Feng could understand this, however, he had a different view: "I can understand this kind of thinking from the top, that is, they want to have absolute control over these secrets, right?"

Seeing Xiang Yongzhan nodding, Ji Feng could not help but say, "In fact, I think this worry of the upper side is completely unnecessary, because if these things are placed in the country, perhaps the security aspect will be weaker, we have a lot of people in China, and Jiangzhou is an international metropolis,

there are three religions and nine streams here, all kinds of people, mixed with fish and dragons, you have to tighten your nerves here to play We have to be very vigilant here to ensure that everything is safe.”

“And then what?” Xiang Yongzhan asked.

“But if it is placed overseas, it is completely different. Simply put, if the Tengfei Group really acquires an island overseas, then the island must be under closed management, that is to say, there can be no one else on it except people from the Tengfei Company, which ensures that it is closed to the outside world.”

Ji Feng said, “Then the risk will be much lower when it comes to leaking secrets.”

Xiang Yongzhan pondered for a moment, nodded and said, “What you said is not entirely unreasonable, however, the worry from above is also very necessary. Because the top is a bit more comprehensive in its considerations.”

Ji Feng asked, “Like what?”

“For example, in terms of security!” Xiang Yongzhan said, “By security, I don’t mean leaks, but threats from outside. If the Tengfei Group had been in the country, then the most those who coveted it could do was to send spies to infiltrate the Tengfei Group, but if the Tengfei Group really relocated to an overseas island, then it would be alone overseas, and by then, you would be fish on the chopping block!”

“Are you saying that certain forces might take advantage of the opportunity to turn on us?” Ji Feng asked.

“But it’s not just that, and it’s not impossible that they might find some random excuse to exterminate you guys!” Xiang Yongzhan said, “If you were closer to the mainland, it would be better, but if you were farther away, then even if the top wanted to rescue you, it would be too long to do so, after all, our navy is still too weak!”

The first thing you need to do is to buy a small island, but the hard part is how to hold it.

“If you think about it again, the last time I went abroad on a mission, on the way back wasn’t I ambushed by soldiers from certain countries posing as pirates?” Xiang Yongzhan said, “People simply do not give you a bright play, let the regular military people posing as pirates, at that time even if you catch all those people, people have an excuse not to admit.”

Seeing Ji Feng’s thoughtful look, Xiang Yongzhan continued, “What’s more, can you catch all of those people? I think it’s difficult, unless you can build that island like a fortress, but the cost of construction alone, as well as the infrastructure and so on, would be an astronomical amount!”

Ji Feng nodded and said, “It does cost quite a lot of money.”

“So ah!”

Xiang Yongzhan stretched his hands and said, “With that money you expand the scale of the enterprise or invest more in technological research and development, wouldn’t that be better?”

Ji Feng smiled and nodded, saying, "That's right, what you said makes sense."

Xiang Yongzhan was a bit helpless, "I'm talking to you seriously, can you be more serious!"

Ji Feng laughed: "I'm serious and I know what you said makes sense."

"You kid"

The first time I saw Ji Feng's expression, I knew that he hadn't heard much of what he said, and even if he had, it was very limited. "Let me tell you, no one is against you going out to buy islands, but there are some problems you must consider beforehand. In order to contain China, how despicable the methods of some countries really are is simply something you can't appreciate."

"But once you get out, it's too late even if you do realise, you'll have invested everything you need to and spent everything you need to, only to end up with a basket full of money.

"In that case, it's really something to think about." Ji Feng nodded his head.

"From a friend's point of view, I advise you to indeed think it over, unless you can run the island into a fortress or a fortress." Xiang Yongzhan said.

"And what if you really can?" Ji Feng blurted out.

"What do you mean?" Xiang Yongzhan was stunned.

Ji Feng shook his head and laughed, "It's nothing, just a hypothesis. Suppose that the fortress cannon and electromagnetic rail gun were placed on the island first, and then there were various other defence systems, and then construction would start, that should be a bit safer, right?"

Even the most technologically advanced country, Rice, has only a plan for an electromagnetic rail gun, and it's still being worked on in the research lab.

Ji Feng said, "But I have a laser gun!"

Xiang Yongzhan asked, "Can that stop other people's steel ships? Can it stop other people's missiles?"

"What about if you set up a laser gun?" Ji Feng asked.

"You manufactured it?" Xiang Yongzhan immediately asked.

"No, just thinking about it." Ji Feng laughed, "Didn't I just say it, hypothetically."

"Then what did you say!"

Xiang Yongzhan was a little disappointed, he really thought that Ji Feng had developed a laser cannon, just think of the power of a laser gun, you can see how huge the laser cannon is in the imagination.

"Let me tell you, I think the OP's idea is right, if you just want to set up a production base, it's feasible to go overseas and buy islands, but for that you also have to solve the problem of workers, and transportation and all sorts of other problems, not to mention going for a headquarters."

Xiang Yongzhan said, "Older brother, it is better to honestly develop the Tengfei Group and strive to develop into a unique international giant group as soon as possible!"

Ji Feng smiled, "That's right."

The company's main business is to develop the company into an international giant. Let's go, there's something I need your help with."

Ji Feng immediately asked, "What is it? You're not going to ask me to work for you as free labor again, are you?"

Xiang Yongzhan laughed: "This time it's definitely not free, but those kids have been a bit slow in their progress lately, so they really need you to give them some guidance.

Campus Master Chapter 3023

"Ahhh...!"

A harsh, miserable scream hissed out from a middle-aged man's mouth, the immense pain in his body causing his entire body to tremble.

Zhang Lei stared at him, his face not changing in the slightest, "Say it, who ordered you guys to do this!"

The man roared through clenched teeth, "I don't know what you're talking about, you're breaking the law!"

"Breaking the law?"

Zhang Lei instantly sneered, "Kidnapping people isn't breaking the law? Huh? Killing someone isn't against the law?"

The man was in extreme pain and shouted in agony, "You are inhumane, simply heartless!"

Zhang Lei said in a cold voice: "We are heartless? Are we the ones who killed the old people and children, kidnapped them, killed them, did we do these things? You are the ones who are really heartless! To deal with people like you, lynching you would be considered light!"

The middle-aged man was speechless.

Zhang Lei shouted, "Say! Who ordered you to do this?"

However, he received no response.

"Not willing to say?"

Zhang Lei nodded and said, "Very well, it seems that you haven't had enough, or, are you really hard-headed?"

The middle-aged man roared, "If you have the guts to kill me, kill me, then the police will be able to find you and you won't be able to escape!"

"You still know the police can find you?" Zhang Lei sneered, "You should have thought of this when you poisoned the old man and the child!"

“Since this man is unwilling to talk, then don’t be polite, I heard that there is a more poisonous way to put a person into the mixed cement, and then sink him into the bottom of the sea after it has solidified, so that he will not know it, and the ghost will not notice it. All right, send this man on his way!”

The two young men who were beating up the middle-aged man immediately replied, “Yes!”

With that, they set up the middle-aged man and walked out.

At this moment, the middle-aged man was scared, he finally realized that these three young men who had suddenly grabbed him were definitely not playing a game with him, they would really kill him!

“No! No! I’ll tell, I’ll tell you all!” The middle-aged man broke down.

“Toast the wine, say!” Zhang Lei bellowed coldly.

When Zhang Lei walked out with the two young men, a smile finally appeared on his face, after all this time of searching and tracing, he had finally made a certain breakthrough!

Behind them was an abandoned chemical plant, hesitantly in recent years the public’s awareness of environmental protection had become increasingly strong, causing some of the more polluting enterprises to be forced to relocate or close down, and the plant had been abandoned down quite a bit, and this plant behind them was such.

“Lieutenant, should we move again next?” A young man asked.

“Not for now, go back to Jiangzhou first!” Zhang Lei shook his head, and then added a warning, “You two will strike again, right?”

“Don’t worry Lieutenant, that guy won’t die, he will definitely be able to hold on until the police arrive!” One of them said.

“Very well! Let’s go back!” Zhang Lei nodded in satisfaction and with a wave of his hand, the three of them left by car.

Back in Jiangzhou, Zhang Lei went straight to Ji Feng.

“Checked it out?” Ji Feng asked in surprise.

“Sort of checked it out.” Zhang Lei said, “We started our investigation directly from the fugitive’s murdered family, spilling a large amount of money out, found the few guys who kidnapped his family, caught them all one by one, and after interrogation, found the mastermind behind it.”

Ji Feng smiled and asked, “Where are the people?”

Zhang Lei said, “Don’t worry, they can’t die, they’ve all been handed over to the local police. I believe there will be news coming soon.”

“Beautiful!”

Ji Feng punched Zhang Lei’s chest and said, “You kid did a great job, not bad!”

There were only three people, even if they were well-funded, but going to a place that was unfamiliar to them to track down clues, the difficulty involved could be imagined.

However, after only such a short time, Zhang Lei had not only caught the gangster who kidnapped the fugitive's family, but also interrogated him, so Ji Feng naturally understood how much effort Zhang Lei and the three of them had actually put into this.

"That's not much, the key is that when it comes to tracking it down, it's not a little difficult." Zhang Lei said, "After arriving in the area, I went to visit the right people in the local Dao first, but the other side didn't know either, they hadn't received any news at all, and only after inquiring did I learn that those few people responsible for the kidnapping, although some people had seen them, weren't from the local Dao at all."

Ji Feng asked, "Then how did you catch them?"

Zhang Lei laughed: "Spending money to buy clues, I had people put out the word in the Dao that they would be paid for any clues, spreading money out in large sums, doing what I said I would do, and also making contact with the police, we used the name of the military, plus gave the local police a sponsorship fee, things went much better."

Ji Feng couldn't help but smile and nod at his words, money is good for things, this saying is universal whether in ancient or modern times.

"What's the result of the investigation?" Ji Feng asked.

"The person responsible for the kidnapping is also from the Dao, from another city, they haven't seen the real face of the mastermind behind the kidnapping, the other party is wearing a mask, however, from the other party's accent, they were able to hear Yanjing's accent." Zhang Lei said.

"Never seen the real face? Wearing a mask?" Ji Feng couldn't help but frown at his words, "And a Yanjing accent?"

"I interrogated them many times, and their answers were all the same, among them there was only one person who was really responsible for contacting the mastermind, and although it took some effort to interrogate that guy, in the end I was able to pry open that guy's mouth, but that's all he explained." Zhang Lei said.

Ji Feng slowly nodded his head.

Zhang Lei said, "I can be sure that what that guy said is true, and in the end, in order to confirm the result, I also used drugs on him."

Ji Feng nodded and said, "The results of your interrogation should be fine."

The person responsible for the kidnapping was actually just the executor, the real mastermind behind the kidnapping would not let his identity be known so easily if he was shrewd enough, which was understandable, otherwise, if he dared to assassinate him, then he must know his power, and unless he wanted to die, he would certainly not reveal his identity so easily.

However, what Ji Feng was most concerned about was still the few pieces of information that Zhang Lei said, wearing a mask and Yanjing accent, these two details were very important.

Ji Feng was probably able to think of something from this.

“Actually, I wanted to call you at that time, those guys should all be brought to Jiangzhou, handing them over to the local police is not that safe.” Zhang Lei said.

“There’s no need for that, they’re just in charge of the execution, they’re just little people, what can they do even if they’re arrested in Jiangzhou?” Ji Feng shook his head and said, “The most crucial thing is the people behind them.”

“Could it be someone from Dynasty?” Zhang Lei asked, “Wearing masks, you once said that the king and the young duke of the dynasty both wear masks, could there be any connection between them?”

“It’s hard to say.”

Ji Feng shook his head, the mask alone could not tell us anything, “Actually, what I noticed most instead was this Yanjing accent.”

Zhang Lei immediately asked, “Have you guessed who it is?”

Ji Feng shook his head and laughed, “How can I guess this! However, at least there is a general direction.”

Zhang Lei gritted his teeth and said, “Don’t let me catch it, or else, no matter who it is, I’ll definitely demolish this bastard!”

Ji Feng laughed, “If we do catch it, we will definitely hand it over to you for disposal. All right, you should go back and rest first, after running around for such a long time, go back early to keep Jing Yi company as well.”

“OK, I’ll go then.” Zhang Lei said, “I’ll drive the car away.”

“Drive away, I still have a car on my side!” Ji Feng nodded and smiled.

Since the last car accident, the BMW x6 that Ji Shaolei gave to Ji Feng had been completely scrapped, so during this period of time when Zhang Lei happened to go out, Ji Feng had been driving his Audi a6.

After Zhang Lei left, Ji Feng couldn’t help but fall into contemplation.

A few moments later, he took Yang Bin to the Tengfei Group again and went directly to the security department and asked Yi Xingchen to bring the two war team members who had followed Zhang Lei out on his mission.

When the two young men saw Ji Feng, there was a hint of excitement on their faces. In the battle team, to say who had the highest prestige, it was none other than Ji Feng, whether it was Ji Feng’s strong strength or his unstinting teaching of body building exercises to them, which made them actually feel the rapid progress of their strength, all of which made Ji Feng have a high prestige in the hearts of the members of the battle team.

“You all have worked hard this time going out for so long.” Ji Feng smiled, “Although this is just my personal business, I can’t let you guys work hard for nothing, there will be a hard work fee for you guys from the finance side later, it’s also a little treat for you guys.”

The two young men hastily refused, saying that this was what they should do. Even if they found a good job, it was definitely not as good as the one offered by the Tengfei Group. Not only did they receive a large settlement fee, but their monthly salary was even higher than that of a gold collar.

The most important thing is that the physical exercise they learn in the battle team is something that cannot be bought with any amount of money spent outside.

Ji Feng waved his hand and said, "One size fits all, do what you need to do, you guys don't need to push back."

The members of the war team, although they were usually well treated and spent most of their time just training, patrolling and ensuring the safety of the company, once it came to combat, they were playing with their heads on their shoulders, so Ji Feng had never been very generous to them.

"I'm looking for you guys today, mainly because I want to ask you how your vice captain Zhang Lei performed this time when you went out on a mission, for example, what you think he did well and what he didn't do well, and if there's anything that needs to be improved, I want to know all of these."

Ji Feng looked at them and said with a smile, "Don't have any worries, our place is different from the outside world, no one can do anything to you if you tell the truth!"

Campus Master Chapter 3024

The two team members looked at each other and both nodded slightly, the Tengfei Group was indeed not quite the same as outside, the atmosphere here was very nice and completely free from the kind of bureaucracy outside, which was very much to their liking.

Coming from a military camp, they were already not used to the kind of hook and line in society, so they were very comfortable with this clean atmosphere of the Tengfei Group.

"Vice Captain Zhang has done very well, his skills are very impressive, we are very impressed!" One team member said.

Another team member followed suit and nodded in agreement, Zhang Lei's skills were really quite impressive, definitely one of the best in the battle group.

Ji Feng smiled and asked, "So, what do you guys think of Zhang Lei's performance in other aspects?"

"Other aspects of performance?" The two team members froze, and one of them hesitated for a moment and said, "Captain Zhang seems to have some more in command."

"Some what?" Ji Feng asked.

"Some are not professional enough." Another team member said, "He doesn't seem to be particularly proficient in military matters, however, his methods are quite effective."

Ji Feng heard and understood, "That means that Zhang Lei's methods are all wild, without the kind of strict deployment you had in the army before, right?"

The two team members nodded their heads at the same time, "Yes."

"Well, I'll make a note of that, so are there any others?" Ji Feng asked.

“No more.”

The two team members shook their heads at the same time.

Ji Feng smiled and asked, “Then, if you were to give Zhang Lei a score for his performance in this operation, how many points can you give?”

“Ninety points!”

A team member blurted out.

Ji Feng raised his eyebrows, “Oh? Such a high score?”

That team member nodded and said, “Yes, Vice Captain Zhang’s performance is very good, when we follow him, we don’t need to worry about anything, he’s already arranged it in advance, and before every operation, he asks for our opinions so that they can point out the loopholes in the action plan, and if he points them out he immediately changes them.”

“He’s great!” Another team member added.

“Really?!” Ji Feng asked with a smile.

The two team members nodded at the same time, “It’s true!”

Ji Feng then smiled, “Very good, I heard about you two’s performance, it was very good, you all worked hard.”

“No hard work, this is what we should do!” The two team members shook their heads repeatedly.

“Alright, you guys go back and rest, if you feel tired, you can skip the training for the next two days.” Ji Feng smiled.

“We won’t fall behind!”

“That would be best!”

Watching the two team members leave, Ji Feng couldn’t help but turn his head and smile, “Old Yi, you asked them before, right?”

Yi Xingchen nodded and said, “I’ve asked them, all three of them are doing very well.”

Ji Feng said, “But just now you also heard, Zhang Lei’s method is wild, after all, he has no formal military training

“Actually, I don’t think so!”

Yi Xingchen shook his head and said, “On the contrary, I think that this wild way of Zhang Lei’s is actually more suitable for the current battle team.”

Ji Feng was a little curious and asked, “Oh? How so?”

Yi Xingchen said, “Because it’s no longer in the army, but because many of the team members came out of the army, they are used to that kind of military action in general, but, after all, we are now a company, not an army, the number of people is small, at most, we can only ask the team members to

the standard of the special forces, but trying to take the standard of military action of the regular field army That is almost impossible!"

Ji Feng slowly nodded his head, pondering.

What Xiang Yongzhan said was very reasonable. In fact, the reason why Ji Feng came to ask these two team members about Zhang Lei's performance in the operation today was mainly because he wanted to learn something about Zhang Lei, he knew that Zhang Lei was a halfway house, and although he was very strong, a commander could not just rely on the strength of his hands.

Combat literacy and command level, this is the most important thing.

But what Yi Xingchen said also had a point, the battle team was small in number now after all, and they could only be held to the standards of the special forces, but it was hard to have the kind of standards and military literacy for large-scale operations.

"Perhaps, there will be a chance later!" Ji Feng muttered.

"What?" Yi Xingchen asked.

"Oh, nothing." Ji Feng laughed, "I just said it off the top of my head myself."

When he returned from Tengfei Group, Ji Feng didn't rush to give the results back to Zhang Lei, after all, he had been out for such a long time and always needed a good rest.

Ji Feng chose to go to Tong Lei's school.

Seeing Ji Feng, Tong Lei looked very happy, but with her nature, even if she was happy, she only had some smile on her pretty face, and would not show too much excitement.

"Now the school has been renovated, but because it is newly renovated, the content of pollutants in it must exceed the standard, so I asked Sister Yu Xuan to help me check out one of the largest indoor cleaning companies in Jiangzhou, they will then come over to carry out the work of removing formaldehyde, and also the purification of indoor air"

Looking at Tong Lei as she introduced everything about this school, Ji Feng smiled and listened, but in his heart, he understood that Tong Lei really liked this work, otherwise, she would definitely not have touched such a tedious thing.

"Wife, don't worry about these things, some of the subsequent work, I've already arranged it for you." Ji Feng smiled, "But since you've hired the cleaning company, forget it, but, like the later greening and other things, I've arranged it all for you, you don't have to worry about any of these anymore."

Tong Lei's pair of beautiful eyes curved into a pair of crescent teeth: "When did you arrange this?"

Ji Feng laughed: "I arranged it a long time ago, but I just never told you. And ah, during the early stage I didn't know what you wanted to build the school into, so I never asked about it, but now the main construction has been built and the decoration has been done, so you don't have to worry about the rest."

Tong Lei pursed her lips and smiled, nodding her head gently.

“Is the admission work ready?” Ji Feng asked.

“It’s all ready, just waiting for the school construction to be completed.” Tong Lei said.

“That’s good.”

Ji Feng smiled, “Actually, I’ve been having an idea of running a school for a while now.”

Tong Lei asked in surprise, “You also want to run a school?”

Ji Feng nodded and said, “Yes, there is a huge shortage of technicians in the group now, although recruiting from the society can also solve part of it, but there is still a gap after all, moreover, many people’s thinking has been stereotyped and some of them don’t quite meet my requirements.”

In Ji Feng’s heart, he had always wanted to train his counterpart, but he knew that now was not the right time because some of the knowledge in his head was really too astounding, and it would be difficult not to draw attention to it if he took it out.

It was still only possible to take it one step at a time now.

“Then how about you cooperate with the official to run the school?” Tong Lei said, “Now the state encourages private schooling, I think it should be no problem!”

“The school I want to run is not quite the same as any of the current schools.” Ji Feng shook his head and said, “Forget it, let’s talk about this later when we have the chance.”

The Tengfei Group couldn’t just be used to make money, to grow into a giant, it wasn’t enough to just have money, it had to have a heritage, enough influence, and at the same time, an unshakeable foundation.

However, these are not things that can be possessed overnight, so for the time being, we can only take our time.

For the next few days, Ji Feng stayed at home and didn’t go anywhere. He sat in front of his computer in his study on the third floor and started drumming things up.

It was time to develop the laser cannon!

In terms of materials, there was now a new chrome alloy, and in terms of weapons, there was also a laser gun, so the next step would be the launch of the laser cannon.

However, Ji Feng did not intend to let the military know so soon, so he was just working on it secretly at home by himself.

Laser gun, electromagnetic rail gun, fortress cannon

Space fighters, energy ships, shuttles, and cosmic mother ships

The future of high-tech weapons and equipment is really too much, which, some of these things are Ji Feng can now produce, some can not produce, but know the principle, such as the universe mother ship, this thing is not an agent can create, even in the gamma system, this is also a convergence of many

scientists to create, even if the countries have since become popular, but a super agent but also only knows how to drive and operate in various positions, as well as some principles, but not how to make it.

This is also the reason why Ji Feng hopes to run a school and train counterparts, what he wants to train is not only the technical talents of the Tengfei Group, which also includes the talents who can later eat all these technologies and slowly turn the technology of the Gamma Galaxy into the technology of Huaxia.

However, this still requires time and opportunity.

So Ji Feng could only make some small weapons for now.

He could, however, make 'breakthroughs' in materials and other aspects, but again, this would require opportunities.

Three months later, everything was ready for Tong Lei's school and the enrolment process officially started.

At the same time, the Tengfei Group also announced that it would establish a full-time school in China for counterpart training. The plan caused a stir as soon as it was announced, as the Tengfei Group's plan was so big that it went from primary school all the way to university, in fact, strictly speaking, it was definitely not just a school, but simply a series of schooling plans.

Even so, in Jiangzhou, where land is more expensive than gold, the cost of running a school of this scale would be astronomical!

However, this is not a big problem for the Tengfei Group, even for outsiders who do not know how much profit the Group makes every year, they know that the Group can certainly afford to pay for it.

But some people questioned what kind of students the Tengfei Group would be able to teach if it ran a school, and a counterpart school at that.

Campus Master Chapter 3025

Faced with questions from the outside world, the Tengfei Group did not have any response, but simply went ahead with its plans to start the school.

The first to be built was the university – Future University!

Originally, the outside world thought that if Tengfei Group funded the university, it would definitely be named after Tengfei Group, but Ji Feng insisted on naming it Future University, which the outside world understood to be a kind of hope for Tengfei Group, and this university was the future hope of Tengfei Group.

But only Ji Feng knew that his intention was that the university would become the cradle of future technological knowledge, and that from a certain date in the future, the students of the university would be educated in the future of technological knowledge.

Then, the Tengfei Group started to build on a large scale, at the same time spending a huge amount of money to buy a large area of land, which made the outside world very surprised, just looking at the scale of the land bought by the Tengfei Group, even if it is enough to build ten universities.

There was a lot of speculation in the world that the Tengfei Group was going to enter the real estate industry. The land acquisition in the name of running a school is just a front, the real purpose is to do real estate?

For those who know the background of the Tengfei Group, this is definitely a possible speculation, as you don't know how many such second-generation people are now making a fortune in the property market under various pretexts?

Even some newspapers and magazines have started to openly question this.

However, in the face of such questions, the Tengfei Group only gave a painless explanation: apart from staff welfare housing, the Tengfei Group would never get involved in the real estate industry!

After that, there was no more explanation.

This attitude made the outside world even more skeptical, but the Tengfei Group continued to act as it should, without any cover-up or any other excuses.

Just as the outside world was in an uproar, the Tengfei Group suddenly made a new move.

Tengfei Group suddenly announced that its subsidiary, Rong's Company, had officially started production and was accepting orders from all over the world, a news that immediately exploded in the news media of the entire world.

It was all because of the product that Rong's company was producing – a new chrome alloy!

In almost no time at all, business groups from almost all over the world and representatives from various countries began to gather in Jiangzhou.

New chrome alloy, these words have a total allure for any country in the world. What is so good about this material, just what the Tengfei Group and the United University said at the press conference, is already enough to move people, but everyone knows that this is definitely not all, because all countries have already inquired that this material has been ordered by the Chinese military in a single breath, there is definitely a reason that can make the Chinese military look at it!

Even from a military perspective alone, this material, which can disable radar, is far too significant.

Otherwise, why would the Chinese military be interested?

However, Rong's company was calm enough, because Rong Peng knew very well in his heart that the so-called accepting orders from everyone was just a pretext, because if the sales were released, Rong's company would not be able to keep up with the production even if it expanded its current scale a hundred times.

The manufacture of the new chrome alloy is not just a simple matter of processing it, where will the raw materials come from? Where to recruit skilled workers? These are all problems.

Especially raw materials, which is a big problem.

The majority of the world's mining industry is now monopolised by foreigners, and this can be seen by looking at how much China loses in iron ore every year.

The clever and early-developing Kepong people occupy a large part of the world's iron ore, and the rest is divided up between mining companies in some countries such as Europe and Rice, and what China occupies is really too little, too little. Even if there are occasional reports in the news of domestic companies buying some minerals abroad, in fact the vast majority of them are just losing money, and the real core is not in hand.

Although what is used to make the new chrome alloy is not a special ore, but the more so, the less the source, if outsiders want to jam the main Tengfei Group's neck, it is not difficult.

The reason why Rong is the company wants to open up the order market actually has the intention of relieving the pressure in this regard.

Of course there is a more important point, this new chrome alloy can almost be said to be a strategic material for the country to a certain extent, how could this alloy be sold to foreigners in large quantities?

Even if it were sold, it would have to wait until some time later, or until the world's weapons technology level was close to overcoming some of the properties of the new chrome alloy.

For example, if reliable information is obtained that certain countries have developed more advanced radar systems that can scan the weapons made from the new chrome alloy, then at this time, it will be almost ready to be sold to the outside world.

For these things, Ji Feng only grasps the general direction, the specific things he all handed over to Rong Peng, he believes that with Rong Peng's experience will be able to handle properly.

This is also the reason why Ji Feng always hoped that Rong Peng could come out of the mountain, Rong Peng's ability and skill in business has been proven enough, and the most valuable thing is his life experience and business experience, these are what Ji Feng values most.

Now Ji Feng is focusing his efforts on enrolling in Tong Lei's school, as well as the development of new weapons.

The purpose of Tong Lei's school was simple: she wanted to teach the children of foreigners who came to China to speak Chinese, and now, this wish of hers was almost fulfilled.

However, the progress at the beginning was not very smooth.

This is because there are actually not many schools like this in Jiangzhou. Whether it is an international school or some private educational institutions, there are tutorials on the Mandarin language.

In particular, some international schools are all-round teaching, and the teachers' strength is not at all comparable to that of Tong Lei's school, just the teaching experience of other people's teachers cannot be compared.

Therefore, for a period of time from the time the enrollment advertisement went out, there were not many students enrolled.

Ji Feng was afraid that Tong Lei would feel hard and wanted to comfort her, but it turned out that Tong Lei looked at it in a very open manner.

“It’s okay, you can start with the most basic education now, think of it as giving free classes to those children in the orphanage, you’re a big wealthy man anyway, you can still afford to pay this amount!” Tong Lei laughed lightly.

“.....”

Ji Feng was crying and laughing.

But he was relieved that Tong Lei was able to think this way, what he was most afraid of before was that Tong Lei originally had high expectations and it turned out that the gap between her expectations and the truth was too big and would be too much for her to bear.

Now, it seemed that this worry of his was completely superfluous.

“Then let’s start with a basic education class first!” Ji Feng laughed, “If it’s not possible, then we can recruit more children from the orphanage, or children of migrant workers, it’s hard for them to go to school normally, so it’s a good deed to give them a chance to go to school.”

Tong Lei nodded gently, “Originally I had plans for this.”

Ji Feng then smiled, “That’s good.”

Tong Lei said, “Actually, I originally wanted to donate some hope schools, but I was afraid that the money donated would be spent indiscriminately, and I didn’t like seeing that, so I planned to run my own school, and I also like teaching children, so it’s better for you guys to do the charity thing.”

Ji Feng smiled and nodded, saying, “It’s already being done, the Tengfei Group has been donating for a long time, they just haven’t been building schools separately.”

Tong Lei nodded gently, “Mm.”

In fact, Xiao Yuxuan would talk to her about some of the Tengfei Group’s actions after she returned, Xiao Yuxuan had great respect for Tong Lei and would sometimes deliberately talk about some things, through casual conversation, Tong Lei knew a lot about the Tengfei Group’s strategies.

It took a full month for Tong Lei’s school to recruit eight foreign children of different ages, but the good thing was that there were people, so Tong Lei taught them the Chinese language herself.

Everything was going according to schedule, and everything seemed to be going smoothly, but Ji Feng had never let down his guard in his heart.

The missing Professor Tong and the twenty or so technicians had not been found so far, and since Xiang Yongzhan seemed to have become very busy recently, Ji Feng realised that there was obviously going to be another operation!

But Ji Feng was not at liberty to ask about it, even though he was still holding the status of an advisor, he was not at liberty to ask about such military operations.

However, he was able to guess that because the situation in the southern sea was particularly tense recently, Rice and Vietnam and the Philippines were holding joint military exercises, and even the scope delineated therein even included the disputed areas with China.

There is no doubt that this is to put pressure on China.

The audience, of course, is China, an ancient country that is rapidly rising and already makes some countries feel threatened.

This time, Ji Feng has probably guessed what kind of mission the special operations brigade is going to carry out, but Ji Feng can't help but sneer in his heart, this time, Xiang Yongzhan and the others will definitely not be in as much trouble as last time, if the Filipino and Vietnamese people treat the special operations brigade, which is already equipped with laser guns, as ordinary special forces, the result will definitely leave them cold through the heart!

What was the final result of this operation, Ji Feng didn't bother to ask, but when he saw Xiang Yongzhan again more than half a month later and found this guy with a red face, Ji Feng already knew the result.

"Let's go, I'll buy you a drink!"

When Xiang Yongzhan saw Ji Feng, he pulled him out without saying a word, "I can't even bring myself to drink the aged wine I got from the old man by the way, so I'll make an exception by treating you today!"

Ji Feng laughed, "The mission went well?"

Xiang Yongzhan laughed heatedly, "What do you think? Just look at the news later and you'll know!"

Ji Feng was a little surprised, "This can still be reported on the news?"

This kind of covert military action often happens and is not reported in the news, and even the general public never even knows that there is a military action right next to them.

However, when a few days later, the news reported that the joint exercises in the southern waters had entered a new phase and shifted to the deep sea, Ji Feng understood what was going on.

Campus Master Chapter 3026

This time, Xiang Yongzhan could be considered to have put down his blood money. Once Ji Feng took a look at the two bottles of wine laid out on the table, he knew that they were definitely treasured by Chief Xiang, as he had once seen them at his grandfather's place and at that time, his grandfather was also very precious, and it was said that the wine seemed to be related to the old man.

The fact that Xiang Yongzhan was able to bring these two bottles of wine along from Chief Xiang and was willing to take them out in one go, showed how happy he was in his heart.

However, Ji Feng was frowning slightly and lowered his voice to ask: "Did you use a laser gun when carrying out the mission?"

Xiang Yongzhan nodded and said, "Used it."

Ji Feng then frowned.

"What's wrong? What's the problem?" Xiang Yongzhan asked.

“It’s not easy to say, but I think it’s still a bit early to use a laser gun, right?” Ji Feng said with deliberation.

“I understand what you mean!”

Xiang Yongzhan nodded and said, “You are worried that if you use the laser gun this early, will it leak secrets?”

Ji Feng shook his head and said, “It’s not just a matter of leaking secrets, if you use a laser gun this early, then everything is no longer a secret.”

The main reason why some secret weapons are called secrets is actually the word secret, if there are no more secrets, then even the most powerful weapons won’t be of much use.

Even if it was a nuclear bomb, if everyone had it, it would be a decoration.

Xiang Yongzheng glanced at Ji Feng and said, “Do you really think there are still secrets to be kept now?”

Ji Feng was stunned, “What do you mean?”

Xiang Yongzhan said, “According to the intelligence received, foreign countries have actually started developing laser guns, and, it seems that they started earlier than us! Let me put it this way, do you understand?”

“Earlier than us?!” Ji Feng was a little surprised, but then he understood, “Did Dynasty leak the technology?”

“Dynasty’s hands are stretched out even longer than we thought!” Xiang Yongzhan said, “Moreover, even if we don’t use it, once the weapon is equipped on a large scale, there will be no more secrets.”

Ji Feng nodded slowly, it was difficult to keep any thing absolutely secret. Especially for this kind of weapon that was to be equipped on a large scale, there would be no possibility of 100% secrecy.

Xiang Yongzhan said, “This thing of weapons, there is no absolute secrecy, there is only the constant updating of technology, as long as we can maintain the leading edge, the leading combat power is the focus.”

Ji Feng asked, “Then what is the plan from above?”

Xiang Yongzhan said, “Now the top is already organizing research, hoping to break through the limitations of the technology as soon as possible, the laser gun you developed is too far ahead in technology, many key technologies have not broken through yet.”

Ji Feng then smiled, he didn’t have much of a surprised reaction to the top organizing experts to work on the technology of the laser gun, it would be strange if the top didn’t do so.

Xiang Yongzhan said, “In fact, you also have to understand the difficulties of the top, just you alone have this technology, which does not work, and you do not release it to the outside, if in case one day”

Ji Feng nodded and smiled, “I understand.”

The laser gun is not really too profound technology for him, but for the current level of technology, it is already a big step ahead. If he had waited until he had created the laser cannon, and more powerful weapons, the technology of the laser gun would have become commonplace as well.

This was a development process, just as many military technologies would slowly be converted to civilian use.

“Ding

“Buzz~~”

Just as Ji Feng and Xiang Yongzhan were getting excited about their drinks, both of their mobile phones rang almost simultaneously.

The two took out their phones separately and looked at them, and each got up and went to the side to answer the phone.

Ji Feng’s call was from his younger uncle, Ji Zhenping, and as soon as he picked up the phone, he heard Ji Zhenping say, “Little Feng, I just received news that the boss over there is critically ill.”

The boss over there?

Ji Feng immediately reacted to the fact that his younger uncle was talking about the Wu family’s boss, Wu Zhengmin!

So, Wu Zhengmin was critically ill?

He immediately asked, “Little Uncle, are you sure?”

Ji Zhenping said, “It should be basically certain. Little Feng, there might be some strife in the next period of time, don’t make any mess on your side, be more careful and beware of the evil beast’s recoil before it dies!”

Ji Feng understood it by heart.

Little Uncle meant that before he died, Wu Zhengmin might do something.

In fact, if one thought about it, if Wu Zhengmin knew that he was about to die, he might really do something apart from arranging the aftermath, after all, he was about to die, even if it was found out later, no one would have the means to pursue a dead person, and the Wu family would not suffer too much loss as long as they had the old man.

It was a good deal!

“Little Uncle, I understand, I’ll pay attention from my side!” Ji Feng nodded his head and said solemnly. He also realised the seriousness of the matter, “How is his situation now? Is there still the ability to

“We don’t know this yet, the news is very tightly blocked over there, so we can’t inquire too much about it for now.” Ji Zhenping said, “Anyway, you be careful is it, now in the capital is already a dark current, you also do not come back, come back also can not help, you stabilize yourself on the line!”

Ji Feng nodded thoughtfully, “I understand.”

He had wanted to ask Wu Zhengmin what exactly his current situation was and whether he was still capable of setting up a backhand, but now it seemed that the Wu family was equally aware of this, which was why they had blocked the news so strictly.

I believe this is what the outside world wants to know the most, what exactly is Wu Zhengmin's situation today?

The first thing you need to do is to get back to the table and find that Xiang Yongzhan has also finished his phone call, but looking at Xiang Yongzhan's gloomy look, Ji Feng's heart moved, this kind of thing he received the news, then Xiang Yongzhan must have also received the news, right?

Then, that phone call just now

"Older brother, received the news, right?" Xiang Yongzhan asked.

"Received!"

When Xiang Yongzhan asked this, Ji Feng immediately understood that his guess was right, what he had just received from Xiang Yongzhan was also about the call from the Wu family.

"It seems that there might be some ripples over in Yanjing." Xiang Yongzhan said.

"It doesn't have much to do with us, as long as we do our own thing." Ji Feng laughed, "No matter so much, drink!"

"That's right, it's still most important to drink, don't waste such a good wine!" Xiang Yongzhan harrumphed. He was in the military, so naturally he didn't need to have too many worries.

.....

Yanjing, military hospital, inside the intensive care ward.

The corridor outside was filled with heavily armed guards, doctors and nurses not associated with this ward were not allowed to pass through here, and it was even more impossible for others to do so.

Wu Zhengxiang stood in the corridor, his gaze falling on the door of the ward, his expression slightly ice-cold.

He had rushed over immediately after receiving the news, but when he arrived here, he found that there were so many guards at the door, even blocking the guards he had brought with him, and most importantly, now that Wu Zhiyong was inside and alone, even his sister-in-law had been kicked out.

The one who gave the order was the oldest, Wu Zhengmin.

Wu Zhengxiang's face was expressionless, and he frowned slightly as he glanced at his sister-in-law who was sitting on the chair next to him, wiping her tears.

Inside the sickroom.

Wu Zhiyong sat at the heel of the bed, looking at his father who was already as thin as wood, his face was as hard as it could be.

Although the doctor had told him long ago, he still had a deep sense of trepidation when this day was to come.

Because he knew very well that once his father was gone, then in this family, he would probably never have any hope of turning over a new leaf, unless the old man could live longer than his second uncle.

At this point in time, Wu Zhengmin had already reached the point of exhaustion, with an oxygen tube in his nose and an IV drip in his hand.

According to the doctor, he was only occasionally awake for a while, but would soon fall back into a coma and talk nonsense.

When Wu Zhiyong arrived, Wu Zhengmin happened to be in a coma, so he waited.

“Uh

A purring sound came from Wu Zhengmin’s throat, it was not snoring, but breathing had reached a point of extreme difficulty, but perhaps because it was too suffocating, Wu Zhengmin opened his eyes slowly instead, and his fingers moved slightly.

Wu Zhiyong hurriedly asked, “Dad, you’re awake? How do you feel?”

Wu Zhengmin did not answer him, but looked with that already cloudy gaze, and his eyes rolled before he said with difficulty, “They

Wu Zhiyong nodded and said, “None of them are here, my mother and the others are outside, my second uncle is also outside, you were the one who let them out earlier, do you remember?”

“Remember

Wu Zhengmin responded vaguely, but it showed that his consciousness was clear and he remembered. Wu Zhiyong’s heart was somewhat relieved and he hurriedly asked again, “Dad, is there anything else you want to do?”

Wu Zhengmin said, “All

Wu Zhiyong immediately asked, “What have you done?”

“After

“Back roads, looking for Xiao Lin?” Wu Zhiyong repeated, seeing his father’s confirming look, he nodded and wrote down all his father’s words, it was obvious that his father had arranged something and his personal guard Xiao Lin should know the inside story, or be the executor.

“Everyone

Wu Zhiyong hesitated for a moment, but finally got up and went out of the ward, calling in all the family members outside.

“Big brother, how are you doing? Is it hard to feel well?” Wu Zhengxiang walked forward with concern and grabbed Wu Zhengmin’s hand, with a worried and anxious face.

“Old Lao Er you are fine” “The corners of Wu Zhengmin’s mouth twitched slightly and his eyes stared deadly at Wu Zhengxiang.

“Big brother you don’t say so much, it’s better to get some rest.” Wu Zhengxiang was uncomfortable by Wu Zhengmin’s stare, but he was very deep in the city and said in a hurry, but as he said that, he found that Wu Zhengmin had not moved a muscle, “Big brother? Big brother!”

Wu Zhiyong’s face instantly went white.

Campus Master Chapter 3027

“Tick tock”

The instruments set up in the ward emitted an ear-piercing sound, and everyone present understood that Wu Zhengmin was dead.

Wu Zhengmin’s wife lost her voice and cried out in pain, and Wu Zhiyong’s face was pale.

Only Wuzhengxiang, standing there in a daze, looked into Wuzhengmin’s eyes and quickly averted his gaze, but he could not forget the last look Wuzhengmin gave him, and to this day, Wuzhengmin still stares at him with his eyes just like that.

Wuzhengxiang turned around and walked out of the ward.

Wu Zhiyong was awakened by the sound of Wuzhengxiang’s walking and came back to his senses for a moment, he looked back deeply at Wuzhengxiang’s back.

A moment later, Wu Zhengxiang walked back in and said, “Sister-in-law, I’ll go and make some arrangements first, don’t be too sad when big brother goes.”

After saying that he hurriedly left.

Then Wu Zhiyong immediately stood up and left the ward with quick steps, he went to the corridor and found Xiao Lin, his father’s personal guard, from a group of guards, only to see that Xiao Lin was also looking at him.

Wu Zhiyong winked at Xiao Lin and then walked towards the end of the corridor, who complied and immediately followed.

The two of them arrived at the public toilet at the end of the corridor. Wu Zhiyong looked around and frowned slightly. Xiao Lin was just about to speak when Wu Zhiyong suddenly raised his finger in a gesture of silence, then turned around and walked away.

Xiao Lin was stunned and hurried to follow him, but he saw Wu Zhiyong arrive outside a ward, push open the door and walk in. Xiao Lin immediately followed him in, and Wu Zhiyong said, “Close the door!”

“Young master, this is what the minister told me to give you!” Xiao Lin took out a black object from the slit in his belt buckle and handed it to Wu Zhiyong.

Wu Zhiyong took it and looked at it, but found that it was a memory card, he asked, “This is”

Xiao Lin said, "The minister said that you will understand after reading this."

Wu Zhiyong nodded and asked again, "What else did my father say?"

Kobayashi shook his head and said, "Nothing."

Wu Zhiyong asked, "Then has anyone come to see my father in the past few days?" He had been in Northern Shaanxi all this time, and if he had not received the call that his father was critically ill, he would not have come back because his current status was so awkward that it would have been better to come back than to stay in Northern Shaanxi.

However, when he knew that his father had also left something for him, he immediately thought of a lot.

Kobayashi nodded and said, "A few people have come to visit the minister." He said a few names.

Wu Zhiyong's eyes narrowed slightly.

Xiao Lin said, "Eldest young master, if there is nothing else, then I will go back first."

Wu Zhiyong nodded, and when Xiao Lin had just taken a few steps away, Wu Zhiyong suddenly said, "Xiao Lin, you take care of yourself."

Looking at the memory card in his hand, Wu Zhiyong's expression was extraordinarily grave and nervous. He took off his shoes and put the memory card in his socks and hid it, before he walked out of the ward.

After going out, he found that no one was paying attention to the place, and he was then slightly relieved. He couldn't help but be a little thankful that this was an intensive care ward, and that it was specially prepared for big leaders, so basically no one would suddenly come over, even if the ward was empty.

.....

Two days later, the news of Wu Zhengmin's illness and death was officially announced.

In fact, by this time the entire circle basically knew about it, including places outside of Yanjing. But to many people's surprise, Wu Zhengmin's death did not stir up much of a ripple, which had to do with the fact that he had retired to the second line a long time ago.

Nowadays, the pillar of the Wu family is the oldest one, Wu Zhengxiang.

To put it bluntly, in the eyes of many people, Wu Zhengmin was originally a man who wore the blame, especially for those in the Wu family lineage. Certain mistakes made by Wu Zhengmin had caused the Wu family lineage to lose a lot of money at one time, and this could not help but make some people have grievances.

So after Wu Zhengmin retired to the second line, not too many people came to his place to walk around.

Now that he had died, at most they would only come over to offer their condolences out of face or for the sake of Wu Zhengxiang and the old man of the Wu family.

What was notable, however, was that the old man of the Wu family did not appear at Wu Zhengmin's funeral.

Some people said that the old man of the Wu family had suffered a great blow because of Wu Zhengmin's death and his body had collapsed and he feared that he would not live long.

But others say that in fact, the old man of the Wu family's health had already failed a long time ago, which is why he did not attend his eldest son's funeral.

There were also rumours that the old man had secretly expelled Wu Zhengmin from the family because he was angry with him and did not even attend his funeral.

All kinds of rumours were going around, and even Ji Feng, who was far away in Jiangzhou, had heard many of them, but he was inclined to the idea that the Wu family's old man had failed in health early on.

On the one hand, it was because the old man of the Wu family was already very old and it was time for him to reach his station. On the other hand, it was because of the death of Wuzhengmin. As the eldest son, it would be false to say that the death of Wu Zhengmin did not have a blow to the old man of the Wu family, and in Ji Feng's opinion, it was certainly not a small blow.

This is because from some of the rumors he heard, it was said that although Wu Zhengxiang was also extremely shrewd, he did not have Wu Zhengmin's atmosphere and was not a perfect candidate for the head of the family. Perhaps, if it wasn't for the fact that he had no choice, the Wu family's senior would never have allowed Wu Zhengxiang to sit on the head of the family!

However, these were only Ji Feng's guesses, what exactly was the inside story, he wasn't too sure.

Rather, it was the second brother, Ji Shaolei, who said excitedly during a meal, "Third son, have you heard, the old man of the Wu family is not going to make it."

Before Ji Feng could come to speak, Ji Zhenguó's face sank: "Can't you still block your mouth at dinner? Is everything something that you can comment on?"

Ji Shaolei then wilted.

Ji Shadong, who had just returned from the Golden Collar, laughed, "Shaolei, you should worry less about these matters! It's not something we should worry about!"

And when Ji Feng found that his second uncle had no intention to explain, Ji Feng did not ask more questions.

The change in the Wu family, from a subjective point of view, it was good for him, otherwise with the relationship between the Wu family and him, or rather with the Ji family, something might have happened, but now, I'm afraid the Wu family is going to be in chaos for a while.

Although Wu Zhengmin made a lot of mistakes when he was in charge of the faction, he did not have no followers, and he still had a lot of people around him.

However, it was rare for a family to get together, so naturally they would not talk too much about the affairs of other families.

Ji Shaodong asked, "Dad, there are still two years to go before the change of government, can eldest uncle still make a move?"

Ji Zhenguo shook his head and said, "These things will naturally be considered."

Ji Shaodong stopped asking, he knew that when he reached his father's level, he respected the law and the system more and more, because only when he reached their level could he understand how important these things really were.

Ji Shaodong, however, also had his own analysis, and he knew that it was precisely because he had to have more of this analysis that he would progress.

So after they had eaten, the three brothers got together again and Ji Shaolei asked first, "Big brother, did you just say that Eldest Uncle can still move a bit?"

Ji Shaodong said, "I think there is this possibility, last time when there was a change of government, although eldest uncle didn't move in his current position, he was the headmaster at the same time, next time when there is a change of government, the general situation will not change, neither will the general framework, however, eldest uncle may go up to the deputy."

Ji Shaolei's eyes lit up at that, "On the deputy? Then isn't this preparation for five years from now?"

Ji Shaodong nodded and said, "This is also just my analysis, however, to be precise, it is seven years later, but seven years is too long, no one knows what will happen at that time."

"Big brother is right, seven years is too long, it's better to focus on the immediate future first." Ji Feng laughed.

"Last time when there was a change of government, the Wu family boss was sniped, the eldest uncle actually considered a small step forward and took the position of headmaster, this time the Wu family boss is already gone, I heard that the Wu family's old man's health is also failing, so I guess it's soon, then the next target should be a safe bet!" Ji Shaolei laughed.

Ji Shaodong shook his head and said, "This analysis of yours is too optimistic."

Ji Feng also smiled and nodded, not taking this guess and analysis of Ji Shaolei's seriously, after all, seven years was too long, and many, many things could happen in between.

And the most important thing was that it was said that the old man of the Wu family was not going to make it, yet, up to now, no one had still confirmed it.

As long as the old man is still alive, there are still variables in everything.

In fact even if the old man of the Wu family is no longer alive, but if Wu Zhengxiang has a very clever wrist, he is still able to form a great resistance to sniping.

There are a lot of variables in between!

Afterwards, Ji Feng carefully asked Li Yantong's mother and daughter about their situation and chatted for a while about other topics before returning home in the evening.

It was impossible for Ji Shaodong to stay in Jiangzhou for a long time, after all, as his position got higher and higher now, his work became busier and busier, and he had even less time to himself.

“By the way Lao San, it’s time for you to get married, right?” Ji Shaolei suddenly asked.

“Well! Shao Lei’s question is on point, Lao San, since you’ve already graduated, it’s time to think about getting married.” Ji Shaodong said, “After all, your situation is a bit special.”

Ji Feng nodded and said, “I’m thinking about it.”

Marriage

Ji Feng fell into deep thought.

For the following period of time, the outside world was still buzzing with activity, while Ji Feng remained buried in researching his weapons, meanwhile, Ji Shaodong and Ji Shaolei’s words made him realise that it was time to take some responsibility and not put it off any further.

This night, Ji Feng’s consciousness entered the intelligent brain space.

“Good day, master.” The wise brain floated in shakily, “May I ask what the master has ordered?”

“You this is also programmed?” This way and tone of greeting from the Wisdom Brain, which was almost like a greeting between a person and a human, made Ji Feng quite surprised.

“No, I think the master should like this way of greeting.” The intelligent brain said.

“You think?”

Ji Feng was instantly amused, “So, you can think?”

Campus Master Chapter 3028

“You think?”

Ji Feng was instantly amused, “So, you can think?”

This way of greeting from the Wise Brain really made Ji Feng quite surprised, although the Wise Brain would also behave in a way that was out of his expectation in the past, it was basically still within the framework.

This framework was the program setting that Wisdom Brain had mentioned repeatedly.

In fact, it was the same program that was set up in advance when the Gamma Galaxy was manufacturing the Smart Brain – what the AI should do, what it should do in what situations, what it should say, all of these had strict procedures, otherwise, at the beginning, Ji Feng would not have often encountered the situation of insufficient authority.

Although that was because his physique was too poor and he hadn’t met the requirements yet, it could also be seen from this that the Gamma Galaxy already had strict rules in place when they made the Smart Brain.

But now, the Smart Brain had become able to think independently, which was no different from a human being!

The intelligent brain replied, "Master, I don't know, my thoughts are a bit confused, I can't tell if it will think independently!"

Ji Feng then froze.

He immediately realized that Wisdom Brain could really think independently.

This was because nothing in what Wisdom Brain said was an indication that it had its own independent thoughts.

"I don't know."

"My thoughts are a little confused"

"Can't tell"

These were words that Homo sapiens had never said before, or even that it would even appear to speak in this tone or manner at all, which in itself was subversive!

The most common things that the Brain used to say were 'according to the data', 'it doesn't fit the program' and so on and so forth!

And now, the first thing the intelligent brain would say with its open mouth was 'how am I'

Ji Feng was really surprised.

Although, the intelligent brain may not be aware of this now, or rather, it does not know what independent thinking is really about, which is why it says its thoughts are a bit confused or something like that, but this gives Ji Feng an inexplicable complex feeling.

He would like to see the intelligent brain think independently, because then the intelligent brain would be able to help him out with many things, such as how to exploit loopholes in the program, how to be able to optimize some of the gamma system's technology and turn it into something that the current level of technology on Earth can accept and utilize, etc.

But

A consciousness that can think independently but is not controllable appears in his own mind, which makes Ji Feng always feel a kind of uncomfortable, and can even be said to be a bit awkward.

Even, Ji Feng vaguely even had a little chill at his back.

"Master, may I ask if you have any orders?" Seeing that Ji Feng had remained silent, the intelligent brain asked again.

Ji Feng's gaze flickered and asked, "Do you have, here, the fourth stage of bodybuilding exercises?"

The intelligent brain said, "Master, no."

Ji Feng asked again, "Then what stage do you have again?"

The intelligent brain said, "According to the information, the current bodybuilding gymnastics is only up to the third stage. According to the database memory, the intelligent brain has had similar conversations with the master more than ten times, is there anything else the master needs help with?"

"No more!"

Ji Feng shook his head and smiled, while in his heart he was secretly thinking, it looked like the Wisdom Brain had reverted back to the same programmed way of speaking as before, no different from before, it seemed that the kind of emotional, or independent thinking just now, should be like that only after a certain period of time.

Perhaps this independent thinking did not last too long, or perhaps there were other possibilities.

"Wise Brain, have you ever thought about a change of environment?" Ji Feng suddenly asked.

"Master, please speak." The intelligent brain said.

Ji Feng deliberated for a while before asking, "What I mean is that there is a way to allow you, or on to allow the entire Wisdom Brain AI system to move from my mind to the outside, for example, into the computer and become a piece of programming? Or is there some other similar possibility"

The wise brain asked, "Master means, to find a new carrier for the wise brain?"

Ji Feng thought about it and nodded his head, "You could say that. However, even if we are looking for a new carrier, it will be secret and only you and I will know about it!"

However, he didn't realise that he had subconsciously treated the Wisdom Brain as a person when he was talking to it.

The intelligent brain replied after a while, "Master, according to the information, it requires powerful energy."

Ji Feng immediately asked, "How strong of an energy is needed?"

The intelligent brain said, "Ten million units"

As soon as it said that Ji Feng froze, Ji Feng said ten million units, this is the way the Gamma Galaxy calculates energy, this is an astronomical number! Ji Feng did not expect that it would take so much energy to get the wise brain to come out of his own mind and move outside.

Ji Feng couldn't help but ask, "Then how did you get into our minds at that time? Did you also use the same amount of energy?"

The intelligent brain said, "No. According to the data base data, there was probability at that time, while the particles went through the universe and absorbed enough energy."

This means that at that time he was chosen by the Homo Sapiens, which was actually a matter of probability, and if it was not him but someone else who appeared in that place at that time, then it would not be him who got the Homo Sapiens, but someone else.

The carrier of the wise brain – that beam of light absorbed a certain amount of energy when it went through the universe, so it could easily get into his mind, but now to get out, it needed him to provide enough energy, but so much energy, even if he burned himself up, he didn't have that much!

Ji Feng frowned tightly, he came in originally to ask the wise brain about cultivation and weapons, but the change in the wise brain made him extremely surprised in his heart, and even vaguely now he was completely out of mind to ask about anything else, just thinking about so much energy, what exactly should he do to collect it.

"In what way can energy be collected?" Ji Feng asked.

The intelligent brain said, "There are many ways, heat, bio-current and energy absorbed from the outside world can all be"

Ji Feng smiled and immediately asked, "What did you say? Heat and bio-current?"

The intelligent brain said, "Yes!"

Ji Feng's originally tightly frowned frown was instantly relaxed, heat, bio-current So this is the kind of energy that the intelligent brain needs, then this is good!

He didn't have anything else, but he still had some bio-current, and as his cultivation deepened, the bio-current in his body became thicker and thicker, although he didn't know exactly how many units there were yet, but, at least that meant there was hope.

If only there was a solution! What was most feared was not even finding a solution, which would be troublesome!

Ji Feng hurriedly asked, "Then, how many units of energy is the bio-current of my physical strength considered in total now?"

The intelligent brain said, "About one and a half million units"

"How much?"

Ji Feng asked in astonishment.

The intelligent brain immediately repeated, "Master, about one and a half million units."

The corners of Ji Feng's mouth couldn't help but twitch slightly, the expression on his face was extremely wonderful, he had worked so hard for so long to cultivate and was currently at the third stage of body building exercises, but he only had one and a half million units, didn't that mean that there was still a big gap from ten million units?

And the most important thing is that he is now at the late stage of the third stage of bodybuilding, before he finds the doorway to the fourth stage, it can be said that he has already reached the limit of bodybuilding, at this rate, how long will it take for him to accumulate enough energy?

Unless can break into Stage 4!

But up to now, for the fourth stage of bodybuilding gymnastics Ji Feng has not felt the doorway at all, it seems that it is not very likely to accumulate enough energy in a short time!

“Is there any other method?”

Ji Feng asked again, “For example, is it possible to obtain energy from the outside world?”

The intelligent brain said, “According to the information, there are no other methods for the time being.”

Ji Feng nodded silently.

The conversation with the wise brain left Ji Feng with no interest in cultivating and gave up his intention to discuss weapons with the wise brain, retreating from the wise brain’s training space.

Sitting on the sofa, Ji Feng frowned and pondered.

Apparently, the Wise Brain could think independently now, which was a good sign, but on the other hand, it made Ji Feng a little worried.

What exactly was he worried about, Ji Feng couldn’t say.

However, he just felt that this was very wrong, to let an AI with independent consciousness stay in his body, this is really some unspeakable feeling!

Must find a way to break into the fourth stage!

.....

“Young Ji!”

Looking at warmth’s face full of smiles, Ji Feng frowned imperceptibly.

Since warmth came to Jiangzhou, this was already the third time she came to find Ji Feng, however, every time warmth came to find Ji Feng, yet she had a good reason, for example, this time, she said she had a good project and wanted to ask Ji Feng if he was interested, Ji Feng asked what the project was, but she said it was better to meet and talk about it, and she could also talk about it clearly.

Ji Feng wanted to excuse himself as being busy and unable to leave, but before she could refuse, warmth asked him where he was and came directly to him.

This time, Ji Feng couldn’t refuse anymore.

Today’s warmth was beautifully dressed, fashionable with some sexiness, completely a mature girl image, a big contrast to her previous youthful jade girl image.

However, one has to admit that she is still very attractive to men with this kind of dress.

When talking, warmth would also if anything show off her arrogant figure, and every move carried a certain charm, and occasionally joked about it.

Ji Feng responded politely.

After warmth left, Ji Feng immediately took out his mobile phone and called Zhao Kai, asking, “Kai Zi, have you found out what you were told to check?”

Zhao Kai said, “Checked it out, so far, no problems seen”

Ji Feng could not help but frown, warmth still really went abroad to study for a year, and also achieved good results?

Campus Master Chapter 3029

A year of not seeing warmth, not even heard of warmth, the result of warmth suddenly came to the door itself, which made Ji Feng feel very surprised, too sudden.

But at that time, Ji Feng didn't put too much thought into it and believed what warmth said about going abroad to study for a year.

However, a few days ago when chatting with Ji Shaodong and Ji Shaolei, Ji Feng inadvertently talked about this matter, only to have Ji Shaolei say that this woman was a bit scheming and told Ji Feng to beware of what purpose warmth might have in mind when she approached him.

At that time, Ji Feng couldn't help but feel a twitch in his heart when he heard this, because he also felt that the appearance of warmth was too sudden.

After experiencing so many things, Ji Feng couldn't help but keep an eye out, and he asked Zhao Kai to secretly find someone to find out the details of warmth, especially if warmth had studied abroad in the past year or not.

In fact, Ji Feng knew that although the intelligence department that Zhao Kai was in charge of was developing rapidly, it wasn't that powerful yet, and it wasn't an easy thing to find out what was going on abroad.

The reason for giving this matter to Zhao Kai was just to exercise Zhao Kai's ability as well as to test the effectiveness of the intelligence department's construction.

The answer given by Zhao Kai was very much out of Ji Feng's expectation. Zhao Kai not only found out the detailed record of warmth's study abroad for a year, but also a more careful whereabouts, although there were many unclear places in it, it was already very good to be able to find out this far.

The result of Zhao Kai's investigation was that warmth had indeed studied abroad for a year, and even the places where she lived, to the places she usually frequented, had all been found.

This really surprised Ji Feng a little, he didn't expect Zhao Kai to develop the intelligence department so well and efficiently.

Although he hadn't gotten the detailed report from the intelligence department yet, since Zhao Kai said so on the phone, it meant that he must have already checked it out and confirmed the results.

So it didn't matter now whether he read the report or not.

It's just that warmth was actually really going abroad to study, which really made Ji Feng a little surprised. In his heart before, warmth was just a woman who loved vanity and was even a little snobbish, but he never thought that she could really put down her stature and study quietly for a year!

"What a difference between a scholar and a woman!" Ji Feng shook his head. He said in his heart that it looked like the matter of asking Little Aunt to investigate Warmth could be stopped.

In addition to asking Zhao Kai to investigate, Ji Feng also asked his little aunt Ji Nan Yue to investigate the details of Cozy's situation abroad, because her little aunt had lived in Rice for many years, so of course she had to be more familiar with the situation abroad than Zhao Kai's intelligence department, and then it would be more convenient to investigate.

But now it seemed that this was redundant.

Ji Feng was about to take out his mobile phone to call his sister-in-law when his phone suddenly rang, and he received the call first, but it was an unfamiliar number.

"Nan Yue?"

Seeing the place where the caller belonged displayed on the phone, Ji Feng faintly froze before he picked up the phone, "Hello? Who is it?"

A very urgent voice suddenly came from the phone, "Sir, are you Ji Feng?"

Ji Feng sniffed and froze again, the voice coming from this phone was a girl's voice, from the sound of her voice she shouldn't be very old, but it was very urgent, as if she was in a hurry, however, this voice sounded somewhat familiar.

"May I ask if you are" Ji Feng searched his mind for a moment and could not recall where he had heard this voice before, but soon he snapped to attention, "Are you... ..Yang Xiaoyi? That little nurse?"

Ji Feng's memory was extremely superior, as long as he wanted to remember things, he could not forget them at all, but just now, because he had not heard this voice for too long, so he was really a bit baffled for a moment. But soon he remembered, no wonder he felt that this voice was so familiar, it turned out that the owner of this voice was the little nurse he had met in Southern Guangdong, Yang Xiao Ai!

"You still remember me?"

That voice had some surprise, then hurriedly said, "Mr. Ji, I'm Yang Xiaoyi."

Sure enough, it was her!

Ji Feng couldn't help but smile, in fact, he didn't know this little nurse particularly well, except that back in Southern Guangdong when he was chasing after the dynasty's people, he encountered an explosion, at that time both he and Bai Zhu were seriously injured, and Bai Zhu's life was in danger because she pushed him out of the way and stood in front of him.

The little nurse who was responsible for taking care of Ji Feng at that time was Yang Xiaoyi.

However, at that time, Ji Feng did not have the heart to pay attention to a little nurse, because at that time, Bai Zhu's life was in danger and all he could think about was how to save Bai Zhu.

However, Ji Feng was impressed by the persistence and perseverance of Yang Xiaoyi, a young nurse, because at that time the doctor did not allow him to leave the ward and he scared Yang Xiaoyi into complaining if he did not listen to him. As a result, the first time Yang Xiaoyi was frightened and pushed him in a wheelchair to Bai Zhu's ward, he used bio-current to save Bai Zhu but he himself fainted due to overexertion.

Yang Xiaoyai was severely reprimanded by the leader for this, and as a result, the second time he wanted to go see Bai Zhu, Yang Xiaoyai said nothing and was scared and cried by him.

When I think about this now, Ji Feng also feels quite embarrassed, people are dedicated to taking care of him, but he ended up scaring them into tears, maybe at that time in Yang Xiaoyi's heart, he was an abominable dude and evil young man, right?

But if that was the case, why was Yang Xiaoyai calling him now?

"Yang Xiaoyai, are you calling me?"

"Mr. Ji, I want to beg you to help me!" Yang Xiaoyai's voice was anxious, but there was also a minute of hesitation.

"Help you?"

Ji Feng was a little surprised and asked, "Help you with what? Are you in some kind of trouble?"

Yang Xiaoyi said, "I, my dad has been kidnapped, I beg you to save him"

Ji Feng was surprised and asked, "Kidnapped? Did you call the police then? What did the police say?"

Yang Xiaoyi said, "The police were called, but the police just made a case, but nothing was done. Because they are in cahoots with the people who kidnapped my dad, Mr. Ji, the only person I can beg is you, please help me, otherwise, I really don't know what to do"

Her voice was urgent and anxious, and there was even some desperation.

Nevertheless, Ji Feng heard a lot of information, firstly, Yang Xiaoyi's father was kidnapped by someone, secondly, Yang Xiaoyi knew who the person who kidnapped her father was, this person or this group of people should have some background and be able to get connections in the police, Yang Xiaoyi was desperate and that's why she called him for help.

"Yang Xiaoyai, don't rush, I'm in Jiangzhou now, it will take time to get there, but distant water can't quench your thirst, now I'll give you a number, this is the phone number of the head of your Southern Guangdong Police Department, Zheng, you can call him directly, just say I told you to look for him, he will help you with any situation!" Ji Feng said.

From Yang Xiao Ai's anxious tone, Ji Feng heard that she was very anxious, it seemed that things should be on fire, in this situation, if he waited for him to rush over from here it might be too late.

So Ji Feng planned to let Zheng Yuanshan intervene first. Didn't Yang Xiaoyi say that the gang was in cahoots with the police? Then Zheng Yuanshan wouldn't be with them!

However, Yang Xiaoyi's heart was half cold when she heard this. The meaning of Ji Feng's words was really too obvious, directly pushing her to Zheng Director's side, but she was only a small nurse, how could Zheng Director put her in his eyes?

What's more, thinking about the so much power of those people and the attitude of those police officers, Yang Xiaoyi really didn't dare to trust anyone anymore.

"Mr. Ji, please help me", Yang Xiaoyi said in a low voice.

“I will definitely help you!”

Ji Feng did not hesitate in the slightest and said in a decisive manner, “I had told you at that time in the hospital that you had helped me, and whenever you encounter any trouble or difficulty, I will definitely help you to the best of my ability. However, as I said just now, it will still take me time to get there from this side, so you should first look for Director Zheng”

Yang Xiaoyi said, “I don’t trust them! Mr. Ji, please!”

Ji Feng then couldn’t say any more, Yang Xiaoyi was obviously terrified, since this was the case, if he insisted on letting Yang Xiaoyi go to Zheng Yuanshan, he would be making it difficult for her.

“Good! I’ll leave now and try to get there in the fastest time possible, but you have to keep your phone open so I can contact you when I arrive!” Ji Feng said immediately.

“Thank you, Mr. Ji, thank you,” Yang Xiaoyi’s voice was full of gratitude.

“Without further ado, I’ll be right over!” Ji Feng admonished again, “Remember to keep your phone open!”

After hanging up the phone, Ji Feng thought for a moment, then picked up his phone and called out Zheng Yuanshan’s number: “Uncle Zheng, this is Xiao Feng, too late to say much, I have an urgent matter to ask you now, a friend of mine in Southern Guangdong is in trouble, his father has been kidnapped, and it seems that some police officers are involved in it I hope you can protect my friend first and try to help rescue her father if possible”

“..... I’ll send you her phone number and her identity information, by the way, she is the little nurse who was responsible for taking care of me when I was hospitalized last time, at that time people did their best to take care of me, they are my benefactors!” Ji Feng emphasized emphatically.

“I know, leave this matter to me!” When Zheng Yuanshan heard this, he agreed without saying a word, Ji Feng was able to tell him directly that that little nurse was a benefactor, in fact, this was telling him the importance of this matter.

Even if it was just two people arguing and tussling, but since Ji Feng had said so, Zheng Yuanshan had to be cautious about it.

After hanging up the phone, Ji Feng immediately instructed Yang Bin to book the fastest departure ticket, and he simply packed up and hurried towards the airport.

The company has already been discharged from the hospital, but this time Ji Feng did not take Bai Zhu, which is not a dangerous thing, Bai Zhu has just been discharged from the hospital not long ago, there is no need to let her follow the toss again.

But Ji Feng could not have imagined that what seemed to him to be just some minor trouble was a prelude to a storm!

Campus Master Chapter 3030

After receiving Yang Xiaoyi’s call, Ji Feng didn’t make the slightest stop, he first called Zheng Yuanshan to inform him, then took Yang Bin straight to the airport and flew to Yuezhou, South Guangdong.

In fact, if you want to help Yang Xiaoyi, then the best way is to call Qian Hongda. As a senior official of Yuezhou City and also a member of the Standing Committee of South Guangdong Province, Qian Hongda is definitely a very important person in South Guangdong, and if he wants to help someone, it is really a matter of raising his hand.

However, Ji Feng did not inform Qian Hongda.

However, Ji Feng did not inform Qian Hongda because in this matter, it was probably more appropriate for Zheng Yuanshan to take action than Qian Hongda. Because from Yang Xiaoyi's words, Ji Feng could hear that this matter seemed to involve the police system of Southern Guangdong. The company's main business is to provide a wide range of products and services to the public.

After all, a county official was not as good as the current administrator, and as the direct leader of the entire police system, Zheng Yuanshan's strength was definitely a bit greater than Qian Hongda's.

"Sir, this time we went over, but we didn't bring any weapons!" Sitting on the plane, Yang Bin said in a low voice.

"Let's not talk about that first!"

Ji Feng, however, waved his hand, because the booking was rather urgent, so the two of them only got economy class tickets, now that there were so many people sitting around, it was better not to talk about weapons, after all, there were quite a few flights that had gone wrong in recent times, people were becoming more sensitive now.

However, Yang Bin did not have much experience in this area yet, as a personal guard he also still needed to learn, after hearing Ji Feng's words, it dawned on him and he nodded his head and stopped talking.

When he arrived in Southern Guangdong, Ji Feng just opened his mobile phone and saw that there were several missed calls, all from Zheng Yuanshan, in addition to a text message, also from Zheng Yuanshan: "Little Feng, call me back immediately after turning on the phone!"

Ji Feng frowned, looking at the tone of this text message, Zheng Yuanshan seemed to be more anxious, did he still encounter any trouble in handling Yang Xiaoyi's matter?

He immediately called Zheng Yuanshan.

"Little Feng, you've arrived?" Zheng Yuanshan's voice came through as soon as the phone was connected.

"Just got off the plane, Uncle Zheng, what's wrong?" Ji Feng asked, "I see you've called me several times, is there something urgent?"

"There is indeed some problem, the matter of the girl you mentioned, it's not too good!" Zheng Yuanshan said.

"Not too good to solve?"

Ji Feng raised his eyebrows at that and said in surprise, "What's going on?"

Even Zheng Yuanshan said that this matter was not easy to solve, could it really be something big?

Zheng Yuanshan said, "The girl you mentioned, her father was detained because of a gambling debt, I inquired about it, but the feedback I got revealed that the other party's background was not ordinary."

"What background?" Ji Feng asked in a deep voice.

"You're at the airport now are you? I'll send someone to pick you up and we'll talk more about it when we meet." Zheng Yuanshan didn't answer immediately, as if it was not a good idea to elaborate on this matter over the phone.

Ji Feng said, "You don't have to pick up, just tell me the address, I'll go there directly."

Zheng Yuanshan nodded and said, "Okay then, come directly to a 3-D cafe near the police department, I'll wait for you there, call me directly when you arrive."

"Good!"

Ji Feng nodded his head.

After hanging up the phone, Ji Feng squinted his eyes, the corners of his mouth spread a cold smile, this is really interesting, the head of the police system in Southern Guangdong actually said that it is not very good to solve, Ji Feng could not help but be interested, he would like to know what the background of the other party is!

He wanted to know what the background of the other party was. After hailing a taxi, Ji Feng and Yang Bin went straight to the address Zheng Yuanshan said.

In the car, Ji Feng made a phone call to Yang Xiaoyi.

"Mr. Ji!" Yang Xiaoyi looked excited to receive Ji Feng's call, "You've come to Southern Guangdong?"

"That's right, I've arrived in Nan Yue now." Ji Feng said, "But I'm not very familiar with this side of Southern Guangdong, so I have to find someone who is familiar with the environment first, and I'll come to you as soon as my side is arranged."

Yang Xiaoyi answered repeatedly, "Mr. Ji, thank you!"

It had only been a few hours since she called Ji Feng for help, and Ji Feng had already arrived in Southern Guangdong from Jiangzhou, and had already started actively looking for helpers. It was obvious that Ji Feng was not perfunctory, but really took her request to heart, which made Yang Xiaoyi very grateful.

Ji Feng smiled and said, "Alright, there's no need to say polite words to me, you protect yourself." Saying that, he hung up the phone.

The roads in Yuezhou were no better than those in Jiangzhou in terms of congestion, and it took about forty minutes before Ji Feng arrived at the cafe Zheng Yuanshan had mentioned.

When he saw Zheng Yuanshan, Ji Feng smiled and said, "Uncle Zheng, I have to trouble you again this time."

Zheng Yuanshan laughed, "If you kid were so polite, you shouldn't have called me!"

Ji Feng instantly laughed.

After taking his seat, Ji Feng immediately asked, "Uncle Zheng, tell us the situation, what is going on?"

Zheng Yuanshan couldn't help but look at Ji Feng with some surprise when he heard that and asked, "Little Feng, what's going on between you and that girl?" In his impression Ji Feng was also a thunderous person, but not much of an impatient nature, but now Ji Feng's performance seemed a bit anxious.

This made Zheng Yuanshan curious about the relationship between Ji Feng and that girl, and he guessed if something had happened between Ji Feng and that little nurse during those few days when he was hospitalised in Nan Yue, so that immediately after knowing that that little nurse was in trouble he was so anxious in white tender.

Otherwise, given Ji Feng's status and the fact that he was so pressed for time, how could he have taken the time to make a special trip over?

Ji Feng laughed: "Uncle Zheng, where are you thinking of. As I said before, Yang Xiaoyi took great care of me during my hospitalization, and I owe her a favor, so now that he's begging me, I definitely have to help her!"

Zheng Yuanshan drifted off, "So that's how it is."

Ji Feng nodded with a smile and said, "That's right, that's it."

Although Zheng Yuanshan approved of Ji Feng's statement, however, he still had some doubts in his heart, Ji Feng said that he owed that Yang Xiaoyi a favor, but judging from Ji Feng's actions, I'm afraid that this favor was not a small one, right?

In fact, Ji Feng himself did not tell the truth.

He did owe Yang Xiaoyi a favor, but it wasn't all because of this, otherwise he could have called Zheng Yuanshan and let him, the head of the police system in Southern Guangdong, solve it.

How big a matter could it be that Zheng Yuanshan, the head of the police department, could not solve?

This is not very likely!

The reason why Ji Feng was in such a hurry to come over was because from Yang Xiaoyi's anxious voice, he heard desperation and helplessness, which suddenly gave him a feeling of empathy.

This feeling Zheng Yuanshan wouldn't have, and those police officers probably wouldn't have either, but Ji Feng, who came from a poor background, could relate to this feeling very well, it was a feeling of desperation and helplessness, a feeling that no one would help him, a feeling of being powerless.

So, Ji Feng came as fast as he could, on the one hand to help Yang Xiaoyi, but on the other hand, to help himself.

"Uncle Zheng, tell us about the situation." Ji Feng said.

"The girl called Yang Xiaoyi is in trouble, a gang of organised social gangs!" Zheng Yuanshan opened his mouth and said.

“A black`gang?!” Ji Feng blurted out. What was the so-called organised gang? That would only be a black`gang!

Zheng Yuansan nodded and said, “You can say that.”

Ji Feng frowned and said, “In that case, it was someone from the Dao who detained Yang Xiaoyi’s father? In that case, wouldn’t a phone call from you have solved it?”

Zheng Yuanshan shook his head and said, “If it was really just a simple detainment, then naturally it would be good to solve, but the problem is that the background of that gang is not small either!”

“How big can it be?”

Ji Feng asked, but then he thought of something and frowned, “Is it someone from over there?”

Zheng Yuansan said, “It’s related to that side!”

Ji Feng’s expression then gloomed and asked, “Uncle Zheng, tell us the details.”

Zheng Yuanshan said, “Even if you don’t ask I am going to tell you, that girl called Yang Xiaoyi, his father is trapped in the Four Dimensions Hotel, this hotel is a normal business hotel on the surface, but in the underground several floors, it is a casino and other places that are operating illegally, the amount of money involved every day is quite large, this is almost not even a secret in Yuezhou anymore.”

Ji Feng listened quietly, not answering, waiting for Zheng Yuanshan’s next words.

Zheng Yuanshan continued, “The owner of this hotel is called Liu Gang, known as Prince Gang in Yuezhou, this person is forty years old and has many industries under his name, including hotels, construction companies, logistics companies, and a large supermarket chain, as well as being a member of the Political Consultative Conference of Yuezhou.”

Ji Feng asked, “What about his background?”

Zheng Yuansan said, “This is exactly where I want to remind you, this Liu Gang’s background is very complicated, he has a very close relationship with my deputy Zhang Xin Tong, at the same time, it is said that he has a nepotistic relationship with a heavyweight leader in the province.”

After listening to Zheng Yuansan’s introduction, Ji Feng had a general pulse in his heart.

It seemed that this Liu Gang was a very powerful big man in Southern Guangdong. With such a heavyweight leader backing him up on the official side and someone on the road, it would not be too much to say that he was calling the shots in Southern Guangdong.

“Uncle Zheng, what’s your opinion then?” Ji Feng deliberated for a while before asking.

“It depends on how far you want to handle it.” Zheng Yuansan said, this was the real reason he was looking for Ji Feng, originally this was just a small matter, however, when Liu Gang was involved, it was not a simple matter.

Ji Feng thought about it and said, “My initial purpose of coming to Yuezhou was to save Yang Xiaoyi’s father, and that’s still the case now, so let’s save him first and talk about the rest later.”

Zheng Yuanshan said, "Well then, in that case, I'll make the arrangements."

"No!"

Ji Feng shook his head and said, "Uncle Zheng, you don't have to arrange it first, I want to go and meet this Prince Kong first!"

Zheng Yuansan immediately frowned.
