

### **Campus Master Chapter 3041**

The killing of Liu Gang's two powerful men had a great impact on the Dao in Southern Guangdong, and many people were shaken by it.

It was because Liu Gang's influence in the Southern Guangdong Province was so great that his every move was of great concern to the rest of the people in the province. Now that his residence was attacked and his right-hand man was killed, the news spread extremely quickly.

Shao Jie had also heard about it, and the first thing he did was to call Liu Gang.

"Old Liu, what's going on? I heard that something happened on your side?" Shao Jie asked.

"Young Master Jie, this is someone trying to move me." Liu Gang said in a deep voice.

Shao Jie immediately asked, "You went back in a hurry last night because of this?"

Liu Gang nodded and said, "Yes, yesterday I received a phone call and heard the sound of gunshots, so I knew that something had happened at home."

At once, Shao Jie asked, "Do you know who did it?"

"I don't know." Liu Gang shook his head and said, "However, I suspect it was Ji Feng!"

"Who? Ji Feng?" Shao Jie said, "Impossible, right? Those two men of yours are first class, and I received information that Ji Feng only brought one bodyguard over, so how could he have done away with both of your men?"

Liu Gang gritted his teeth and said, "I can't think of anyone else other than Ji Feng. It's true that I have offended many people in the Dao over the years, and there are also many people who want me dead, but the only one who could do away with two of my men so easily and without leaving any traces at the scene is Ji Feng!"

After seeing the scene and learning the information from the police, Liu Gang immediately suspected that Ji Feng had done it. The reason was that this time the other party had done it too neatly, the scene had been cleaned up wherever there were traces left, and there was no trace of it at all.

Liu Gang could not think of anyone other than Ji Feng who could do this.

Even if it was one of the top international assassins, at least several of them would have to be deployed at once in order to do so, but Liu Gang had not received any news in this regard, and he had ordered a strict investigation immediately after the incident, but there was no sign of an expert entering Yuezhou.

"Can you be sure? Maybe it could be some outside assassin hired by some people?" Shao Jie asked.

"An outside assassin would definitely need information and a guide, and as long as they move, there will definitely be wind of them, but I haven't heard any movement."

Liu Gang said in a deep voice, "That's why I suspect that Ji Feng did it!"

Shao Jie was silent.

“Young Jie, didn’t you say before that it wouldn’t take much time for Ji Feng to leave Southern Guangdong in disgrace? What kind of backhand do you have? Now Ji Feng has already put a knife on my neck!” Liu Gang couldn’t help but say.

“What’s your hurry! There has to be a process for everything, doesn’t there!”

Liu Gang’s words made Shao Jie’s face a little hot, he had just said before that he didn’t need to put Ji Feng in his eyes at all, but in the turn of his face, such a thing happened, this was like giving him a loud slap in the face. From Liu Gang’s words, Shao Jie was able to hear a sense of dissatisfaction.

“Young Jie, I have to do something on my side, I can’t just sit around and wait for death!” Liu Gang said.

“How are you going to act?” Shao Jie asked.

“Either seek peace, or ..... the fish will die!” Liu Gang said in a deep voice.

“Seek peace?”

Shao Jie immediately frowned, “Old Liu, you plan to beg for mercy with Ji Feng? You’ve moved this idea?”

Liu Gang said in a deep voice: “If Ji Feng wants to play head-on, I’ll play along with him any way he wants, but now that he’s playing dirty, I can’t afford to play along!”

Ji Feng’s identity was not something that Liu Gang could move at all. In his heart, Liu Gang had already decided that this matter was done by Ji Feng, but the problem was, Ji Feng was able to move him like this, but he didn’t dare to move Ji Feng in this way, if once Ji Feng was attacked and killed, something really happened, when the time came, the Ji family was furious, he, a small godfather of the Black`Dao, even if there was someone above him to protect him, he would definitely not be able to withstand the Ji family’s anger!

The reason is that at that time the Ji family would represent not just a family, but a faction, a powerful force that makes one’s scalp tingle just thinking about it.

The identity and status of the two were themselves unequal, which made it impossible for Liu Gang to fight against them!

Shao Jie said, “Old Liu, you must not think like that, you should understand what kind of situation you are in, if you beg for forgiveness from Ji Feng, do you think, if you don’t show some sincerity, Ji Feng will forgive you?”

“I know that .....”

“Since you know that, what are you going to use to show your sincerity?” Shao Jie asked, “Are you planning to hand over the person in charge of the casino? Or is it some other way? Money? All your businesses put together may not be as much as the assets of the Tengfei Group, women? Do you think Ji Feng is short of women?”

Liu Gang didn’t say anything.

Shao Jie said, "Old Liu, you have to look at the situation clearly, Ji Feng's eyes are higher than the top, if you don't show some real material he won't see you, but what real material can you show? But what can you do? Do you want the whole of Southern Guangdong to be your stepping stone?"

Liu Gang was shocked and said in a hurry, "Of course not! That's not what I meant ....."

"Then what do you mean?" Shao Jie's tone became stern.

"Don't be angry, Young Master Jie, I just said it so casually, I was furious by Ji Feng." Liu Gang scrambled to explain.

"Old Liu, I treat you as a friend, so what about it, there are some things I need to make clear to you."

The first thing you need to do is to look at the situation clearly, this time you have provoked Ji Feng is purely an unwarranted disaster, no one would have thought that Ji Feng would have a relationship with a gambling ghost, but since it has come to this point, you absolutely cannot retreat, otherwise, what awaits you will be Ji Feng's already sharpened knife, he will cut off your flesh piece by piece ....."

"But if you want to beg for mercy, do you think Ji Feng looks at you? When the time comes, you'll be like washing your neck clean and sending yourself to the door to wait for your head to be chopped off!"

Shao Jie sneered, "I know you are afraid of Ji Feng, but if you really want to go and defect, what do you think, the person you are using as a stepping stone, will do to you?"

Liu Gang smiled, and cold sweat immediately broke out on his back.

He understood Shao Jie's meaning, if he went to defect to Ji Feng, then naturally he had to show his sincerity, but if the sincerity was too light, Ji Feng would not even look at it.

But what Liu Gang can hold in his hands, I'm afraid, is the network behind him, as well as involving the things that this circle has mastered.

But if Liu Gang really intends to hand over these things, as long as he dares to think about it, those people will definitely not let him go.

Those evil officials, those black hands, their coldness would definitely be a hundred times better than Ji Feng's a thousand times, and not everyone was as lucky as Rong Peng, who could not only walk away in one piece, but also get back the money that belonged to him.

"Young Jie, I understand what you mean, I know what to do!" Liu Gang gritted his teeth and said.

"It's good that you understand!" Shao Jie snorted coldly, then eased his tone again and said, "Old Liu, in fact, you don't need to be so nervous at all, it hasn't been determined yet whether it was Ji Feng or not, even if it really was him, is it possible that you, Liu Gang, are just at the mercy of others?"

"Of course not!"

Liu Gang gritted his teeth, knowing full well that Shao Jie was teaching him to do it tit-for-tat with Ji Feng by saying that, but he couldn't help but respond.

Shao Jie laughed, "So yeah, what do you have to be afraid of?"

Liu Gang was silent for a while before he said, "I am worried that if things get too big, it will have an impact on our business, and when the time comes, the top ....."

"Do you think it's not big enough now?" Shao Jie laughed, "Don't worry, if you are really in a critical situation, we will certainly not sit back and do nothing, I am a person who has always given my heart and soul to my friends, you know this very well, if you can't stay in South Guangdong, foreign countries are also very good places to go. The Chinese colony in California, Rice, that you have quite a few are our friends, there are also officials who went out from the mainland, are there, the youth gang also has power there, you old Liu is still afraid that there is no place to go?"

"....."

Liu Gang did not say anything. But from these words of Shao Jie, he understood that this should be the final decision, he, there was no way back.

"Alright, Old Liu, just put your heart back into your stomach and investigate who actually did it first!" Shao Jie laughed, "This matter, I will pass it on for you!"

"..... Thank you, Shao Jie! If there's nothing else, then I'll hang up first!"

"Wait!"

Shao Jie suddenly asked, "Old Liu, yesterday your villa was attacked and entered, nothing was lost, right?"

The corners of Liu Gang's eyes jumped wildly a few times and he asked, "What kind of things? Just the safe at home was lost, there was cash and gold bars inside ....."

Shao Jie laughed, "What era is it now, still saving gold?"

Liu Gang laughed dryly, "I can't help it, I'm good at this."

"Apart from these, there's nothing else, right?" Shao Jie asked, his tone casual.

"No more." Liu Gang said.

"Well, I'm just asking casually, so you should hurry up and check!" After saying that, Shao Jie's side hung up the phone.

Listening to the busy tone coming from the phone, Liu Gang's face was gloomy.

"Son of a bitch! Not a thing!"

Liu Gang couldn't help but scold angrily, "You were the one who told me not to dump Ji Feng in the first place, and now that things have gone too far, you don't dare to touch Ji Feng yourself, but you're forcing me to die! Black-hearted, rotten-hearted thing!"

Liu Gang roared in anger, but after his angry curses, he was still frowning, anger and cursing could not solve the problem.

And Liu Gang knew better than anyone that he was now faced with two tricky problems – whether the attack was done by Ji Feng or not, and whose hands the contents of the safe had fallen into!

The latter problem in particular was a deadly one for him!

.....

The attack on Liu Gang's villa had caused a great impact in both the black and white channels in Yuezhou, while just like Liu Gang, there were quite a few people who suspected Ji Feng.

Even Zheng Yuanshan, had come specifically to find Ji Feng.

### **Campus Master Chapter 3042**

"Little Feng, one of Liu Gang's residences was suddenly attacked last night and two of his powerful men were killed, have you heard the news?"

In the hotel, Zheng Yuanshan asked with a smile.

Ji Feng nodded and said, "I heard about it, but it's just that, the police got involved?"

Zheng Yuanshan said, "Intervened."

Ji Feng shook his head and laughed, "That's really interesting. Liu Gang, as the most powerful godfather of the Dao in Southern Guangdong, actually asked the police to intervene in the investigation after something happened, this is really black and white!"

"What are you talking about!"

Zheng Yuanshan couldn't help but say, "There was a gun battle at the scene and someone was killed, this is already a very serious and vicious case, of course the police should intervene in the investigation. It cannot be said that the police's handling of the case is affected because of what identity Liu Gang is. No matter whether Liu Gang is a great good man or an evil-free hooligan, as long as it is a case, the police should investigate it!"

"That's also right."

Ji Feng nodded with a smile, handed Zheng Yuanshan a cigarette, and casually asked, "Then how did the police deal with Liu Gang?"

Zheng Yuanshan frowned, "Deal with Liu Gang?"

Ji Feng laughed, "Yes, didn't you just say that there was a gun battle at the scene, so doesn't that mean that Liu Gang was also armed?"

Zheng Yuanshan did not expect Ji Feng to fix his eyes on this issue, which really surprised him a bit, "Liu Gang was not at the scene when the case happened, only two of his men and his lover were involved in this shootout, strictly speaking, only two of his men were involved."

"Then there wasn't still a gun?" Ji Feng asked.

"Yes, there were guns."

Zheng Yuanshan said, "But Liu Gang had already put it all on those two men of his, and no evidence directly related to Liu Gang was found at the scene. But now that those two men are dead, there is no way to testify against Liu Gang since there is no evidence against them."

Ji Feng said, "So, in this case, Liu Gang is out of the picture, right?"

Zheng Yuansan nodded and said, "You can say that."

Ji Feng smiled, "I'm afraid that won't be the case anytime soon."

Zheng Yuansan frowned, "What do you mean? Little Feng, this case is related to you ....."

Ji Feng shook his head and said, "Uncle Zheng, I think you'd better not ask, even if you did I wouldn't tell. Let's talk about something else."

Zheng Yuanshan was immediately stunned, and then nodded silently. The meaning of Ji Feng's words was clear enough, this matter, it was really Ji Feng's doing!

Originally when the case first happened, Zheng Yuanshan suspected that it was done by Ji Feng, because the meaning of Ji Feng's words before that indicated that he might take action, only Zheng Yuanshan did not expect that Ji Feng's reaction would be so fierce and so ..... harsh!

The fact that he came up and did away with two of Liu Gang's eight villains is almost like directly breaking Liu Gang's arm.

But more importantly, according to Zheng Yuanshan's understanding of Ji Feng, Ji Feng would never stop there! The fact that Ji Feng was personally dealing with a big rascal on the road was already a bit of an anti-aircraft gun hitting a mosquito, and the fact that he had struck so hard right away was enough to show that Ji Feng was obviously on fire.

So, if Liu Gang is not done away with, how can Ji Feng stop there?

That's why Zheng Yuanshan made the trip over, on the one hand, he wanted to confirm from Ji Feng that it was Ji Feng who did it or not, and on the other hand, he wanted to know Ji Feng's next move.

Did Ji Feng just want to take revenge for the girl called Yang Xiaoyi, or was he going to have a bigger fight?

After deliberating his words for a moment, Zheng Yuanshan asked, "Little Feng, what's next ....."

As soon as Zheng Yuanshan opened his mouth Ji Feng knew what he wanted to ask and couldn't help but smile, "Uncle Zheng, I have a measure."

"That's good." Zheng Yuanshan then breathed a sigh of relief, he was really afraid that Ji Feng would set off a massive fight in a fit of anger, their power in Southern Guangdong was very weak, I was afraid that they would not be able to play the other side.

"Uncle Zheng, has it ever occurred to you to burn another fire?" Ji Feng suddenly asked.

Zheng Yuanshan was stunned: "What do you mean?"

Ji Feng said, "If you have enough evidence in your hand, can you move some people?"

Zheng Yuanshan immediately came back to his senses and he hurriedly asked, "Little Feng, you have evidence in your hand? What kind of people are involved?"

Ji Feng shook his head and laughed: "Not yet, I am assuming that if the evidence is in hand ....."

“Then it also depends on what exactly the evidence is.” Zheng Yuanshan said, “You also know that some people cannot be moved easily, and even if they have to be moved, they have to be strategic.”

“That’s also true.” Ji Feng nodded his head and smiled.

Sending Zheng Yuanshan away, Ji Feng couldn’t help but shake his head, Zheng Yuanshan was still a bit too weak as a hand of the provincial department.

Taking out a USB stick from his pocket and playing with it in his hand for a moment, Ji Feng had a decision in his heart.

Two days had passed in a flash, and the attack on Liu Gang’s residence had become a big deal, but there was no progress in the investigation, which made Liu Gang extremely angry, and his heart was even more anxious. But he couldn’t care less about who had the flash drive in the lost safe.

That was a matter of life and death for him!

If that USB drive fell into Ji Feng’s hands, I’m afraid that the only thing waiting for him was death.

“We can’t wait any longer!”

Liu Gang decided to take action, he couldn’t just sit around and wait for death, otherwise he would only end up in one place.

A few moments later, Liu Gang picked up his mobile phone and dialed a number.

.....

“High official, you’re looking for me?”

Zheng Yuanshan stood in front of his desk with a smile on his face, looking at this old man behind his desk, his heart was a little surprised, wondering what was the matter with him being called here specifically today.

“Yuanshan is here, sit down.” The old man pointed to the seat opposite, and only after Zheng Yuanshan had taken his seat did he ask, “Yuanshan, the work of your police department has been doing very well recently.

“You are too kind, we have not done enough, there are still a lot of things we have not done.” Zheng Yuanshan said humbly, he could not figure out whether the senior official’s words were positive or negative, as one of the most powerful generals of the Wu family, the old man in front of him was absolutely inscrutable and very clever, otherwise he would not have cooperated with Wu Zhengmin to run Southern Guangdong like an iron plate.

The old man said, “If you make achievements, you should be praised, this is our fine tradition all along!”

Zheng Yuanshan just smiled, but did not say anything.

“Of course, it is normal to have oversights in work.” The old man said again.

“Here it comes!”

Zheng Yuansan said secretly at once. He knew that the old man could not have called him over for no reason, knowing that ever since he had come to Southern Guangdong, he had been on the defensive by this circle, and there had been quite a lot of explicit or implicit targeting, and although he was able to get by on the surface at work, what was actually going on was unspoken by everyone.

In the traditional territory of the Wu family, it is almost impossible for Zheng Yuanshan to make a move.

And all of Southern Guangdong from top to bottom had also made it clear that they were not welcoming to him, and now, as expected, the old man had called him here, or had something to say.

And, it had been made clear that it was a workplace oversight!

"There are indeed many shortcomings in our work, please criticise the high official!" Zheng Yuansan said.

"There is nothing to criticise either, you have done a good job already." The old man said, "It's just that the incidence of some vicious cases should be controlled a bit more, in addition, for some dangerous people, we also need to be prepared in advance, as the saying goes, there is no harm in being prepared!"

Zheng Yuansan said, "Finally, we are getting to the point. Malignant cases, dangerous people .....

The actual fact is that you can find a lot of people who are not able to get a lot of information from the mouths of these big leaders, I'm afraid it is very difficult, especially if you are not in the same camp.

However, Zheng Yuanshan did figure out some flavors.

"I heard that Ji Feng has come to Southern Guangdong?" The old man suddenly turned his words around and mentioned Ji Feng.

"It seems so." Zheng Yuansan said.

"Then you must do a good job of security and make people feel at home!" The old man admonished.

Zheng Yuansan smiled and said, "I understand."

Leaving the senior official's office, Zheng Yuansan's mood became a little heavy, he did not expect this matter to alert the senior official so quickly.

On the way back, Zheng Yuansan called Ji Feng at the first opportunity.

"Little Feng, just now the senior official called me over and brought up the recent vicious case and also asked about your situation." Zheng Yuansan said.

"Oh? The senior officials have come forward?" Ji Feng asked with a smile.

"I just came out of his office! Little Feng, there seems to be something wrong with this matter, it's a bit strange for a senior official to come forward so quickly!" Zheng Yuansan said. He knew that Ji Feng's arrival would definitely attract a lot of attention, and the senior official must have received the news early on.

However, the fact that such a significant figure had come out so quickly was still out of Zheng Yuansan's expectation.

This indicated that the seriousness of the matter was beyond his expectation.

“Humph! Some people are caught in a painful situation, so of course they have to jump over the wall in a hurry!” Ji Feng, however, was not too surprised, instead, he said with a cold smile.

“What, you really got it?” As soon as Zheng Yuanshan heard that, he immediately realized that Ji Feng’s previous statement about getting the evidence was not necessarily nonsense. Perhaps, Ji Feng really had some tangible evidence in his hand.

“Uncle Zheng, let’s meet tonight, I happen to have something to discuss with you.” Ji Feng said.

“Good! Then I’ll go over to you in the evening!” Zheng Yuanshan also knew that there were some things that were not convenient to say over the phone, so he agreed to it very quickly.

After hanging up the phone, Zheng Yuanshan couldn’t help but fall into a deep thought, it seemed that this Southern Guangdong was going to be in chaos!

### **Campus Master Chapter 3043**

In the evening, Zheng Yuanshan arrived at the hotel where Ji Feng was staying.

“Someone above Southern Guangdong can’t sit still!” Zheng Yuanshan said as soon as he sat down.

“How?” Ji Feng asked.

“Today the high official suddenly called me to his office to talk about the situation regarding law and order, this is a drunken man’s intention.” Zheng Yuanshan said.

Ji Feng smiled at his words, this matter Zheng Yuanshan had already told him over the phone, “Uncle Zheng, what does that one mean?”

Zheng Yuanshan said, “He didn’t say it explicitly, but the meaning in those words was clear enough, he said he hoped this kind of vicious case wouldn’t happen again, that there was a lot of work done in terms of law and order that wasn’t in place ..... Liu Gang’s matter, which made some people dissatisfied.”

Ji Feng smiled and snorted, shaking his head with a hint of disdain on his face, “Vicious cases ..... randomly chopping someone’s hand off, is that considered a vicious case? Forcing women to engage in sex’s work, how much better is that? Also, the sea of car smuggling, and the case of the white flour child, is this not a vicious case?”

Zheng Yuanshan shook his head and said, “But there is no evidence for any of these.”

Ji Feng said, “No evidence doesn’t mean these things don’t exist. Uncle Zheng, the one you talked to, he didn’t play any honorable role in this, right? I heard that his daughter is greedy when it comes to raking in money!”

Zheng Yuanshan was slightly stunned, “You’ve heard about it too?” He didn’t expect Ji Feng to really know a lot about Nan Yue, but on second thought he was relieved, since Ji Feng had come to Nan Yue and moved Liu Gang, he must have prepared for it.

The company's main business is to provide a wide range of products and services to the public. I'm curious, when that person was talking to you, he spoke so righteously, didn't he blush at all?"

Zheng Yuanshan couldn't help but shake his head and smile bitterly at his words, this was something that only Ji Feng dared to say, I'm afraid not many people dared to say that in the face of such a feudal official. Even, except for the time when General Manager Zhu once angrily denounced a heavyweight official as a shameless asshat, even those in high and powerful positions would not be so direct for the sake of face.

However, Ji Feng's words did not make people feel a bit arrogant.

It was as if Zheng Yuanshan had the illusion that Ji Feng had grown to a certain height that he even had to look up to?

"Then ....." Zheng Yuanshan was just about to speak when Ji Feng spoke up.

"Uncle Zheng, you stay out of this matter first, and I'll bother you if I need to!" Ji Feng said, "In addition, you help me to convey to that, so old, can climb to the current position is not easy, do not get old old to the end and still late."

"That ....." Zheng Yuanshan laughed bitterly.

"In addition, you can also tell him that at first I just wanted to do my friend a favor, it was they who went too far, so I want to help my friend get justice!" Ji Feng said in a deep voice, "And now ....." hum!"

Zheng Yuanshan was instantly shaken.

A moment later, Zheng Yuanshan slowly nodded, "Okay, I'll help you pass on the message!"

When he said this, his expression was somewhat grave, because he was very clear about the importance of Liu Gang over there, or more accurately, how deeply entangled Liu Gang was with that side, if this was relayed, it would be like officially tearing his face off and having to fight another battle!

"Is there anything else you need help with on your side?" Zheng Wonsan asked again.

"Not for now. However, when the time comes, you might need it and I will tell you in advance!" Ji Feng said.

Early the next morning, Zheng Yuanshan arrived at the South Guangdong Administrative Compound.

Looking at the expressionless face of the old man in front of him, Zheng Yuanshan's mood was a little heavy, and he knew that the old man must be extraordinarily annoyed in his heart at this moment. After all, those words of Ji Feng would be unbearable to anyone, let alone someone who had reigned in the power arena for so many years.

"A young man can be feared!"

It was only after a while that the old man slowly said.

Zheng Yuanshan then couldn't help but feel a sense of awe in his heart, he knew that the old man's words were definitely not a compliment, even though he had put it as euphemistically as possible and didn't relay it as Ji Feng's original words, but the meaning of it had been expressed very clearly.

“High official, do you have any other orders?” Zheng Yuansan asked.

“No more.” The old man waved his hand.

“Then I will go back first.” Zheng Yuansan nodded and got up to leave the office, but just as he stepped out of the door, he heard the sound of a broken tea cup from inside, and it was obvious that the words he relayed had made the old man angry.

Zheng Yuanshan’s footsteps paused slightly, but then he quickened his pace and left the administrative compound.

.....

“Sir, I feel that something is not right.”

“How so?” Ji Feng, who was sitting on the sofa drinking tea, couldn’t help but ask.

“Look down there.” Yang Bin said.

Ji Feng stood up and went to the floor-to-ceiling window and looked in the direction Yang Bin pointed, he saw a few cars parked across the road from the hotel, Yang Bin said, “I was observing outside just now and I overheard a reflection in that white car, I wonder if someone is spying on us.”

“I’ll take a look.”

Ji Feng squinted his eyes and stared down for a while. Even though the floor they were on was very high, plus it was across the road and not very close, but if you looked carefully you could still see that there were faint shadows of people behind the dark window glass of the white car.

There was someone inside the car!

However, it was not clear whether the person inside the car was spying on them, even if the perspective function was turned on, it was too far away after all.

“Sir, should I go down and take a look?” Yang Bin asked.

“No, don’t care about them.” Ji Feng waved his hand.

“But what if it’s really spying on us?” Yang Bin asked.

Ji Feng sneered, “Then let them spy!”

Yang Bin was a little surprised, just let them spy?

Ji Feng didn’t explain much, but he was almost certain that the people in the white car were spying on them, and he hadn’t gone anywhere in the hotel for the past two days, just to give the other party the opportunity to spy on him.

Because, even if they were spying on him, it would be useless!

Night.

In an ordinary neighbourhood, four figures gathered together. These four people were all wearing duck-tongue hats, the long brims of which covered their faces, making it impossible to see what they looked like.

“Have you scouted clearly?” A voice asked.

“Checked out, thirteenth floor, no one home.”

“Damn, I thought I could warm up, no one ..... is in charge and ready to strike!”

At the same time, in a farmhouse in the combination of urban and rural areas in Yuezhou, with a barking sound, a car stopped at the entrance of the village, from which several people got down, carrying bags quickly into a small road and disappeared.

A similar scene took place on this night in several places in Yuezhou, and even in the cities of Shenzhen and Zhu.

What happened that night, no one knew. However, by the time Liu Gang received the news the next morning, the whole person was stepped on like a tail, and instantly burst into flames!

“What?!”

He didn't even have the strength to confirm what was said on the phone again, his mind only echoed with the news reported by his men just now – in the night yesterday, six of his residences were attacked, and where there were minions responsible for guarding, all of them were killed, and where there were no minions guarding, it was even more Needless to say.

How ruthless!

Liu Gang's heart shuddered, this strike was really too ruthless, even for him, a big brother who had been fighting and killing in the jianghu for so many years, he could not help but feel shocked.

But what chilled Liu Gang's heart even more was what was behind the simultaneous attacks on his six residences in one night – someone had checked out his background and details, and he was as transparent as if he was in front of the other party.

Moreover, the other side was able to deploy so many people at once, attacking six residences almost simultaneously.

One can only imagine how strong the other party was!

Powerful intelligence capabilities, numerous experts, and that overwhelming action, how much energy must this be?!

“..... Ji Feng!”

After a long time, Liu Gang gritted his teeth and finally slowly said these two words, this must be Ji Feng's doing, no one other than him had such powerful energy or such strong intelligence ability.

Liu Gang felt chills all over his body, how could he have not expected that Ji Feng would be so stern, which made him involuntarily recall the calm look on Ji Feng's face when he left that day in the Four Dimensions Hotel.

Liu Gang suddenly had some regrets.

“Shao Jie ..... regrets it!” Liu Gang gritted his teeth and stifled his words.

A moment later, Liu Gang took a deep breath, then hurriedly and quickly went upstairs and retrieved a worn looking mobile phone from the corner of a cupboard.

First, he wiped the dust off the phone, installed the battery, switched it on, and then pulled up the phone book, on which there was only one contact. Liu Gang’s finger paused for a moment before it darkened, but the look on his face was one of immense nervousness, but more than that, it was one of anticipation.

He was calling one of his lovers and his last place of residence, a place that no one would ever know about.

As a man of the jungle, Liu Gang knew only too well how important it was to leave himself a way out. Now that all six residences had been attacked at the same time overnight, and all his minions had been killed, it made Liu Gang a little scared in his mind.

He wanted to make sure that there was nothing wrong with this back road of his, and at the same time, he had to prepare a back road.

“Sorry, the number you have called is switched off .....”

Boom!

When he heard this tone, Liu Gang’s face turned white and he stood there like a thunderstorm!

I can’t get through! I can’t even reach him!

Liu Gang knew better than anyone else what this meant, because he had agreed with his lover a long time ago that this phone would be kept open at all times, and normally Liu Gang would never call this number, nor would his lover use it, but he would carry it with him because it was his last resort.

### **Campus Master Chapter 3044**

When this last retreat was all but hopeless, Liu Gang was desperate in his heart.

“Lao San, Lao San!” Liu Gang suddenly shouted.

“Big brother, what is it?” A long-haired man walked over quickly, “Big brother, what’s wrong, is something wrong?”

Looking at this right-hand man of his, Liu Gang said with a sullen face, “Lao San, all my residences have been attacked, including those in Zhu City and Shen City, we are being watched!”

When the long-haired man heard this, a cold light flashed in his eyes, “Brother, is it the same group of people as last time?”

Liu Gang shook his head and said, “We don’t know yet, but there is no doubt that we are in trouble now. Lao San, they are only attacking my place now, but next time, I am afraid they will come for me personally.

“What are you talking about? We are brothers who have lived and died together, how could I not help you!” The long-haired man immediately patted his chest and said, “Brother, tell me, what do you need me to do?”

“Good! Good brothers! Old Two and Old Four are dead, but if this makes anyone think that I, Liu Gang, can be at their mercy from now on, then he is very wrong!” Liu Gang said loudly, “Lao San, send your best men to a place right now to investigate a person, to make sure she is still around!”

“Brother, don’t worry, I’ll arrange someone to do it right now!” The long-haired man immediately nodded his head.

“Wait.”

Liu Gang called out to the long-haired man and paused for a moment before saying, “Old Third, I’m afraid that this time is a lot of trouble, perhaps, our brothers may have to go abroad, but, we are not that easy to bully, before we go, we must let certain people know that I, Liu Gang, can also kill!”

The long-haired man suddenly had a fierce look in his eyes and said through clenched teeth, “Brother, you command!”

“Good!”

Liu Gang said, “Go and inform the other brothers, tell them not to tell anyone, bring their weapons, we’ll meet at the usual place, tonight, we’ll go and do a big job! After this job, we will leave the country immediately!”

The long-haired man immediately nodded his head and said, “Yes, I’ll go and tell a few of them right now.”

“To tell them that they don’t have to worry about their families, when we get a firm foothold after we go out, we will immediately bring our families over, then we brothers will make a world abroad again, and save ourselves from the anger of some people here!” Liu Gang said in a deep voice.

“Understood!”

After the long-haired man went out, Liu Gang put his hands behind his back and his face was extremely cold, “Whoever wants me, Liu Gang, to die, he must have made a mistake!”

The fact that several of Liu Gang’s residences were attacked at the same time overnight still got out, which shocked everyone on the Southern Guangdong Road. Combined with the previous attack on Liu Gang’s villa, everyone knew that this was someone who was targeting Liu Gang, and moreover, it was a ruthless person.

Many people couldn’t help but wonder what kind of a person would dare to touch Liu Gang in this part of Southern Guangdong. Isn’t this moving the earth on the head of a taiyoung man?

When he got this news, even Shao Jie couldn’t sit still.

He immediately approached Liu Gang and asked whether the news was true or not: “Old Liu, is this true?”

Liu Gang nodded and said, “Young Master Jie, it’s true!”

Shao Jie was instantly shocked, “How is this possible? Who has such great power? Some of those residences of yours are not even known to me, how ……” Liu Gang’s residences were not known to everyone, in fact, apart from two open residences, all his other residences were hidden and few people knew about them.

Not to mention the residences in Zhu City and Shen City, which are even less known. But even so, he was attacked. The attacker’s energy was too powerful!

Liu Gang gritted his teeth and said, “It must be Ji Feng’s doing!”

Shao Jie said with a sullen face, “Now it seems that it can only be him.”

Liu Gang said in a hateful voice, “He’s coming for me, he clearly wants my life!”

Shao Jie said, “Old Liu, I know you are angry in your heart, but you have no evidence now. Although everyone knows that no one else but Ji Feng could have such great power in such matters, we can only eat this dumb loss even if we know it, and there is nothing we can do about Ji Feng!”

Liu Gang said, “Am I just going to let it go? If I still put up with it, then it won’t be my place that will be attacked next, but me!”

Shao Jie said, “Then you have to be on guard, I heard that Ji Feng has a war team under him, all of them are experts, and they have weapons, if he really wants to play dirty with you, you will definitely be very dangerous! Old Liu, you must be careful!”

Liu Gang gritted his teeth and didn’t say a word.

How could he not know how terrifying Ji Feng was? From the very beginning, he knew that Ji Feng was not to be messed with, so when he knew that his men had arrested the father of Ji Feng’s friend, he wanted to have the man released as soon as possible, and he also planned to host a banquet as a reparation.

But Shao Jie stopped him and told him to carry on with Ji Feng to the end, saying that this was Southern Guangdong, that Ji Feng could not get up here, and that he would soon be out of Southern Guangdong in disgrace.

He didn’t want to do that, but because of Shao Jie’s face, he could only do it with a stiff upper lip. Not only did he cut that guy’s hand, but also, he topped Zheng Yuanshan, and even when Ji Feng himself came to the Four Dimensions Hotel, he didn’t give much face.

Now well, Ji Feng directly laid a deadly hand on him!

Liu Gang immediately knew how powerful Ji Feng was and had some regrets in his heart, but he knew better, even if he regretted it, it was useless, it was impossible to surrender now!

Because, from Shao Jie’s previous attitude, he could tell that certain people on this side would never tolerate him surrendering to Ji Feng, and if he dared to do so, there would only be one way for him – death!

Liu Gang could only take it hard to the end!

“Take care of yourself, you can tell me if you need any help, and even, I can ask for police connections to protect you twenty-four hours a day.” Shao Jie said.

“No need!”

Liu Gang shook his head, “I can handle it myself .....”

Boom!

Before Liu Gang could finish his words, there was a sudden loud bang from outside, and they all felt a violent tremor under their feet as they stood in the room.

Everyone turned pale, Liu Gang and Shao Jie even rushed to the window to look, but they saw that outside the villa a car was blazing and people around them were exclaiming in shock.

“Is this a ..... bomb?” Shao Jie turned pale.

“Shit!”

Liu Gang’s face turned red and he yelled, “Someone, what the hell is going on?”

One of his men hurried over and said, “Prince, just now Huang Mao was going to park his car in the garage, but as soon as he got in the car exploded, Huang Mao was killed, and we don’t know what happened .....”

Liu Gang was silent at once.

“Old Liu, you hurry up and hide, I’ll contact the police to send someone to protect you!” Shao Jie said offhandedly, “This is clearly trying to get you killed, and people must have infiltrated your side, you must let the police intervene to protect you, otherwise, I’m afraid I won’t even see you tomorrow!”

Liu Gang’s face was white, no one is afraid of death, even the lords of the road are also afraid of death, Liu Gang is no exception. This scene in front of him really made Liu Gang feel cold in his bones!

“Old Liu, what do you mean?” Shao Jie asked from the side.

“No!”

Liu Gang shook his head and said, “No need for police protection, I can do it myself!”

Shao Jie hurriedly said, “How can you do it on your own? Don’t you see? Now Ji Feng is going to start moving you, this time your men helped you with the mine, but what about the next time? If the bomb doesn’t work, what if they send snipers then? You can’t really go and fight him to the death, can you? He dares to send someone to kill you, but you don’t dare to send someone to kill him, do you understand?!”

Liu Gang was silent for a while before he gritted his teeth and said, “Then I’ll let him never have the chance to kill me again!”

Shao Jie was startled: “Old Liu, what do you ..... mean?”

A fierce light flashed in Liu Gang's eyes, "Why should he be able to send someone to kill me, but I can't go and fuck him?" Looking at Shao Jie's stunned expression, Liu Gang gave a fierce smile; "Young Jie, after today, I'm going to leave the country, so you thank those people up there for me for taking care of me all these years!"

"Old Liu, you've decided?" Shao Jie lowered his voice and said, "You must think it over, this is not a small matter, once you do it, there will be no turning back, this is a very wide implication!"

"Don't worry, it's my business, I'll do it alone, I won't drag anyone else into it!" Liu Gang said in a deep voice.

"Have you thought it over?" Shao Jie asked.

"I've thought it over!" Liu Gang nodded, with a fierce light in his eyes, "If he doesn't die, I will die, if people don't do it for themselves, they will be killed, between me and him, of course I will choose his death!"

This piece by piece, Liu Gang's heart was chilled, but this tragic scene in front of him also inspired the hostility in Liu Gang's heart!

Isn't it just killing?

How many more have been killed over the years? There is no shortage of one or two!

"Then, you take care of yourself!" Shao Jie said, "Since you have already made up your mind, I won't say anything more, you can go and do your work without worry, I will take care of your family for you!"

"Thank you, Shao Jie!" Liu Gang nodded his head heavily.

After sending Shao Jie away, Liu Gang's face gradually became cold, "Ji Feng, either you die or I die today!"

"What? The car exploded?"

When Ji Feng received Zheng Yuanshan's call, he couldn't help but be a little surprised, but then he smiled, "Uncle Zheng, this is good news, more deeds will kill you, this is what the heavens will take him for!"

Zheng Yuanshan said, "It wasn't a car explosion, but a bomb was planted in his car, and one of his men was killed on the spot!"

"Eh?"

Ji Feng was stunned and then reacted, "Uncle Zheng, you're calling me on this number ..... you think it's me?"

Without waiting for Zheng Yuanshan to speak, Ji Feng immediately said, "Uncle Zheng, something is not right, this has nothing to do with me, this seems to be ..... someone trying to fish in troubled waters?"

### **Campus Master Chapter 3045**

Zheng Yuanshan immediately asked, "Muddy waters? Little Feng, what you mean is ....."

Ji Feng said, "I didn't do this!"

He was planning to move Liu Gang, however, he did not plan to use such a simple and brutal way. Originally, Ji Feng had intended to clean up Liu Gang directly, but since he got that USB stick in the safe, he changed his mind and had already made arrangements.

However, the planting of the bomb on the car was definitely not his doing.

Zheng Yuanshan immediately reacted: "So, there is another force targeting Liu Gang as well? Want to take advantage of the opportunity to take his life?"

Ji Feng said, "From the looks of things, this is indeed the case. Uncle Zheng, I think the situation is not quite right, I think it is necessary to put Liu Gang under 24/7 surveillance."

"I've already set this up and used the most trusted people." Zheng Yuanshan said, "However, that's all I can do."

Zheng Yuanshan had been in Yuezhou for so long, but it had been difficult to carry out his work, and there were not many people he could really trust, because this was the traditional territory of the Wu family, and it was really too difficult to find a trustworthy person here.

The surveillance of Liu Gang required absolute secrecy, and Zheng Yuanshan could only find the person he trusted the most, and after sending him out, he now had no one to use.

Otherwise, he would have had to transfer special police from elsewhere.

"That's enough." Ji Feng said, "Since someone is also targeting Liu Gang, then we'll wait a bit longer."

"You're right in this line of thinking, you can't let people use you as a gun, hold steady and don't let anyone exploit the situation." Zheng Yuanshan said in a deep voice.

Ji Feng nodded his head, that was what he meant.

Zheng Yuanshan said, "It seems that Liu Gang really has quite a few enemies, someone installed a bomb in his car, while someone took out several of his secret residences in one pot overnight, I'm afraid Liu Gang will be out of luck this time."

"All in one pot?"

Ji Feng was stunned again at his words, "Uncle Zheng, when did this happen?"

Zheng Yuanshan asked, "You don't know?"

Ji Feng shook his head and laughed bitterly, "I was in the hotel all day, how could I know! Uncle Zheng, tell me in detail, what is going on?"

Zheng Yuanshan said, "Just last night, there were cases in Yuezhou, Zhu and Shen cities, and the modus operandi was exactly the same. After investigation, it was found that the residences that were attacked all belonged to Liu Gang, some were properties directly under his name, some belonged to his lover, and one was a house purchased in his father's name, but without exception, all of these places were attacked, so you didn't know, I thought ....."

Thought I had done it?

Zheng Yuanshan didn't say it, but Ji Feng understood what he meant beyond his words, "Uncle Zheng, again, this has nothing to do with me!"

These things, really, were not done by Ji Feng, although he had arrangements, but not in this way.

The USB drive found in the safe alone was enough, there was no need for him to take other ways and actions, doing this kind of thing once was enough, after all, he was not a Taoist.

But gradually, Ji Feng's brow furrowed slightly, he felt that something was not quite right.

"Uncle Zheng, how is Liu Gang himself doing now?" Ji Feng suddenly asked.

"He is currently still at one of his residences, probably because he is in shock, he has mobilized a large number of his men to scatter around his residence, some simply live in the car ..... just a short while ago, Shao Jie went to his residence, what the two talked about is unknown." Zheng Yuanshan said.

Ji Feng asked, "So, Liu Gang himself was not actually harmed?"

Zheng Yuanshan nodded and said, "No. Including that car bomb, it only shattered the glass of his villa, but according to the information my people fed back, Liu Gang wasn't injured."

"That's really strange!"

Ji Feng mused, "To be able to strike in several cities at the same time in one night, this force must not be weak, and even to be able to plant a bomb on Liu Gang's car unnoticed, that means that there are eight or nine out of ten undercover agents of other people around Liu Gang, otherwise ordinary people would not be able to get close to Liu Gang's car."

Zheng Yuanshan nodded and said, "You are right, now both the Daoists and the officials are very confused as to where this force has emerged from!"

Ji Feng shook his head and said, "That's not the point, Uncle Zheng, what I'm puzzled about now is that since the other party's people have already reached Liu Gang, then why didn't they just make a move to do away with Liu Gang?"

Zheng Yuanshan was stunned, yes, from the power shown by the other side, it was absolutely capable of taking Liu Gang out, especially since Liu Gang was probably surrounded by the other side's people, then why ..... did they not move Liu Gang?

"Could it be because Liu Gang has too many guards around him?" Zheng Yuanshan analyzed, "Ever since the last attack on the villa, Liu Gang has become extra careful and has deployed a large number of his minions to protect himself, three or four of the eight great vajra under him are following him around, although that force of the other side is very strong, I'm afraid it's not easy to finish off Liu Gang, right?"

"No!"

Ji Feng shook his head and said, "I don't think that's the case, the other party is definitely capable of doing away with Liu Gang."

Zheng Yuanshan asked, "How are you so sure?"

“Feelings.”

Ji Feng said, “Anyway, I think that the other party is able to do away with Liu Gang.”

Zheng Yuanshan smiled at that, “Feelings can’t be accurate, I think it’s still because Liu Gang has too many people around him, maybe, putting a bomb on the car, this itself is a move to take out Liu Gang, just Liu Gang was lucky to escape a disaster, and one of his men became a scapegoat.”

“Perhaps.” Ji Feng nodded thoughtfully and said, “Uncle Zheng, no matter what, it looks like the situation has changed, let’s keep in touch.”

“Good. I’ll notify you first if there’s anything.” Zheng Yuanshan said.

After hanging up the phone, Ji Feng couldn’t help but ponder, was Zheng Yuanshan’s analysis correct? Could it be that putting a bomb on the car was actually the other party’s plan to take out Liu Gang?

How Ji Feng thought about it, he felt something was not quite right, since he was able to put a bomb on the car, why ..... couldn’t he just do it at home? If you can install a bomb in Liu Gang’s bedroom or bathroom and other places where Liu Gang must go, even if the timing of the explosion is not right, Liu Gang will most likely be killed.

Nowadays, the power of a bomb can be absolutely extraordinary!

So Ji Feng always felt that this practice of planting a bomb on a car was a bit stupid.

“Or ..... is that undercover agent beside Liu Gang not enough to get into Liu Gang’s villa?” Ji Feng secretly said, but immediately he ruled out this guess, if the identity is not enough also can not access Liu Gang’s car, let alone still in front of Liu Gang’s house.

Ji Feng mused, “Exactly, why is it .....”

.....

The day passed in a flash.

When night fell, Liu Gang, who had been hiding in the villa, his eyes revealed a grim look as he took out his mobile phone and dialed a number: “Lao San, is everything ready?”

“All ready.”

“Good then, tell them that we will meet up at the usual place!” A stern look flashed across Liu Gang’s face as he said in a deep voice.

Zheng Yuanshan drove his car and left the unit.

If one had to say who had the best understanding of the situation in Southern Guangdong, Qian Hongda was definitely one of them. Realising that the situation was now complex and had become somewhat difficult for him to see, Zheng Yuanshan intended to pay a visit to this ‘comrade in arms’ in Southern Guangdong.

The series of actions that Ji Feng has taken in South Guangdong have also made Zheng Yuanshan somewhat confused, and in Zheng Yuanshan’s opinion, Ji Feng has grown up and has his own ideas, and

there are many things he is not comfortable asking, so going to Qian Hongda to discuss is undoubtedly the best way to go.

“Tick tock .....”

The urgent sound of a horn came, the road was extremely crowded with cars, the speed of the car was slow, obviously the car behind him was waiting impatiently and was urging him on.

Zheng Yuanshan frowned, with the rapid development of the economy, and the existence of phenomena such as demolition and relocation, making some people get rich quickly, but the quality has not kept up, some people are extraordinarily open and arrogant.

Zheng Yuanshan naturally would not be ordinary with such people, and just followed the car in front of him slowly, but at this moment, he suddenly felt a dark shadow outside his car window, and he immediately turned his head to look, and saw a motorbike appeared next to his car at some point, right next to his car.

The motorbike rider was wearing a helmet and was dressed in black, and his face could not be seen; motorcycles are banned in the city, and this person obviously did not comply with the rules.

However, before Zheng Yuanshan could react, he saw the man suddenly take out a mobile phone sized object and slap it on Zheng Yuanshan’s passenger window.

Zheng Yuanshan’s face instantly sank and he was just about to lower the window to reprimand the man, but he saw the man suddenly accelerated and scampered away, disappearing in a flash in the rolling traffic.

“Humph!”

Zheng Yuanshan grunted coldly and did not intend to pursue the matter any further, but only wanted to lower the window to get rid of that thing stuck on the glass, then his hand just touched the switch of the glass lifter, and his face suddenly changed!

A bomb!

Zheng Yuanshan’s face changed instantly, the object stuck to his window was a bomb!

The next moment, Zheng Yuanshan pushed open the car door and rolled to the ground, while shouting, “Get out of the way, there’s a bomb!”

However, in this noisy environment where horns were blaring all over the road, his voice was no help, as Zheng Yuanshan rushed towards the road while shouting sharply, “There’s a bomb .....”

Boom~!

The next moment, an earth-shattering explosion boomed out, and Zheng Yuanshan’s car instantly turned into a fireball, flaming into the sky!

“Poof!” Zheng Yuanshan, who was running wildly, was directly shaken down by the huge explosion, especially the huge shockwave, which made his body shake, his eyes blackened and he directly fainted, his body was thrown away in the green belt by the roadside.

“Killer! Attack!”

This was Zheng Wonsan’s last thought before he fainted and died.

### **Campus Master Chapter 3046**

The violent explosion left dozens of metres in the vicinity in shambles, especially near Zheng Yuanshan’s vehicle, which was even more tragic. I don’t know how many cars had their windows shattered and the people inside injured with them, and people walking on the roadside were also affected, with fragments of the explosion flying everywhere and countless people crying and screaming in misery as they ran around.

The whole street came to a standstill!

As a cosmopolitan city, Yuezhou is often the scene of street fights and even gun battles, but only in small areas, and usually at night. But something like this, where a violent explosion occurred during the off-duty rush hour, had rarely happened.

As a result, the people around were completely unprepared and inexperienced, and there was a stampede of panicked people.

However, it was Zheng Yuanshan, who bore the brunt of the injuries, who was the most seriously injured.

“Ding ……”

Ji Feng looked at the caller ID on his mobile phone and couldn’t help a look of surprise flashing in his eyes, the call was from Qian Hongda, he had been in Yuezhou for several days and it was the first time he received a call from Qian Hongda.

In fact, apart from the conflict he had with Qian Hongda’s son, there was little contact between Ji Feng and Qian Hongda, and even if there was contact, it was Qian Hongda who contacted his second uncle, Ji Zhenguo, and Ji Feng did not ask about it.

While his mind was racing, Ji Feng picked up the phone, “Hello, Secretary Qian, this is Ji Feng.”

“Ji Feng, Director Zheng’s car was attacked by a bomb and was seriously injured.” Qian Hongda didn’t have the slightest courtesy and said straight to the point. And with these words, he instantly surprised Ji Feng.

“What? A bomb attack?”

Ji Feng was stunned by his words and immediately asked in an urgent voice, “Secretary Qian, how is Uncle Zheng doing with his injuries?”

Qian Hongda said, “We don’t know yet, the first responders and the police were the first to arrive at the scene, and now Director Zheng has been taken to the hospital for resuscitation.”

Ji Feng immediately asked, “Which hospital?”

Qian Hongda said, “The city hospital.”

“Good! I’ll go there now!” Ji Feng said in a deep voice.

“Wait!”

Qian Hongda interrupted Ji Feng and said, “You’d better not go there now, I’m only telling you this news so that you can be prepared.”

Ji Feng frowned and said, “Why can’t you go? Secretary Qian, Uncle Zheng is injured, I should go and take a look, and I also have first-aid special medicine here, which should help with Uncle Zheng’s injury!”

Qian Hongda said, “That’s exactly what I was worried about. Ji Feng, you are the son of Minister Zhenhua, I believe you must have the fine quality of composure and calmness, now at this time you need to be even more calm, the sudden attack on Director Zheng is enough to show how arrogant and unscrupulous the criminals are, and if this is a big conspiracy, then the attack on Director Zheng is definitely not the whim of the criminals, I am afraid it will be even more dangerous for you to step in!”

Ji Feng instantly understood what Qian Hongda meant, it was obvious that Qian Hongda was thinking far ahead and was worried that Zheng Yuanshan’s attack was not a single incident, but probably a conspiracy. If that was the case, then he might also be in danger if he went over there now.

Besides .....

Now no one knew exactly who this bomb attack was aimed at, and Qian Hongda was obviously considering the possibility that this was a step against Ji Feng.

“Secretary Qian, I understand what you mean and I appreciate your concern, but now that Uncle Zheng is seriously injured, I have to go over there no matter what, I might be able to help!” Ji Feng insisted.

If Zheng Yuanshan was not seriously injured, he could have waited a bit before going. But from Qian Hongda’s tone, Ji Feng sensed that Zheng Yuanshan’s injuries did not seem to be serious, otherwise, Qian Hongda would not have used the word salvage. Under such circumstances, Ji Feng definitely had to go, or at least, he had to go to deliver the special effects current to Zheng Yuanshan, as it would probably be directly related to the success or failure of the resuscitation.

The most crucial thing was that Ji Feng did not know whether Zheng Yuanshan’s attack was related to himself, and if he was really attacked by his involvement and turned out to be ineffective in rescuing him, then Ji Feng would never be able to pass this hurdle in his heart.

Moreover, he wouldn’t be able to face Zhang Lei in the future.

So Ji Feng had to go no matter what.

“Ji Feng, do you have anyone else with you?” Qian Hongda asked.

“Yes, what does Secretary Qian mean .....” Ji Feng asked.

“Let someone else go on your behalf.” Qian Hongda said, “If you really have emergency medicine, it’s the same to have someone else send it, the wind is not right lately.”

“The wind is not right?”

Ji Feng's heart flinched and asked, "Secretary Qian, are you saying that ..... someone is interested in me?"

Qian Hongda said, "No matter when, it is always right to be cautious and careful, I have heard about some of the things after you came to South Guangdong and I am also paying attention, the most urgent task now is that you yourself do not mess up your position."

Ji Feng smiled and suddenly the whole person was stunned.

Qian Hongda's words suddenly made him calm down, he realised that the atmosphere outside seemed a bit weird, Qian Hongda had obviously heard something, or sensed something, but thought there was no evidence, or there was not too clear information, that's why he said it so vaguely.

"I've been working in Southern Guangdong for many years, and I know a lot about how some people act, and some people are ruthless in ways that are far beyond your expectations. Moreover, the risks in a big storm are also great, and the slightest mistake can lead to death, understand?" Qian Hongda nodded.

"..... I understand."

Ji Feng nodded slowly, as if thinking, "Secretary Qian, thank you for the reminder, I will pay attention."

When Qian Hongda heard that Ji Feng understood what he meant, he nodded and said, "When there is news, I will inform you first, you take care of yourself."

After that, Qian Hongda hung up the phone, but his words echoed in Ji Feng's mind.

Ji Feng once again saw Qian Hongda's sophistication and composure, no wonder second uncle attached such importance to Qian Hongda, this was definitely a great general.

"Yang Bin!" Ji Feng bellowed.

"Sir, I'm here." Yang Bin walked over quickly, "What are your orders?"

"Take this bottle of medicine to the city hospital immediately, make sure you feed it to Director Zheng yourself, and if anyone stands in the way, you can say I said so! You can also state that this bottle of medicine is a special effect current supplied by the military, and it is miraculously effective for resuscitation!" Ji Feng instructed Yang Bin.

At this moment, his brain was spinning rapidly, taking many possible scenarios into consideration, such as someone blocking it, such as the doctor not agreeing, and many other situations.

Yang Bin was just about to nod his head in agreement when he heard Ji Feng say again, "Remember, I don't care what method you use, make sure you get to feed Director Zheng as fast as you can, saving people is like putting out a fire, if you save Director Zheng, you're saving me!"

"Yes!"

Yang Bin stood up straight.

"Wait." Ji Feng called out to him again and said in a deep voice, "Yang Bin, on this journey, or when you get near the hospital, there may be danger, you have to be careful. If necessary, you can use weapons, and I will bear the consequences!"

“Please don’t worry, sir. As long as I am still alive, I will definitely complete the mission you have given me!” Yang Bin said loudly.

“Good for you! Go on.”

“Take care of yourself sir, I’ll be back as soon as I can!” Yang Bin said.

Ji Feng patted his shoulder and didn’t say anything else, what should be said had been said, the rest, Yang Bin himself would do it.

After Yang Bin left, Ji Feng raised his hand and looked at the time, ten minutes short of eight o’clock. He squinted his eyes and said secretly, “It seems that this is an uneventful night!”

A moment later, Ji Feng took out his mobile phone and dialed his father, Ji Zhenhua, “Dad, it’s me, the previous plan may have to be changed, Uncle Zheng was attacked by a bomb on his way from work, now the person is being resuscitated, the specific news of Yuezhou Qian Secretary is clearer than me .....

“Lawlessness! I know!”

Ji Zhenhua only said these two words and then hung up the phone, but Ji Feng heard a hint of anger in his father’s low voice.

Subsequently, Ji Feng dialed several more numbers in succession to make changes to his original arrangements. Zheng Yuanshan’s attack had disrupted his plans, but what Ji Feng valued most was Zheng Yuanshan’s situation.

After considering for a moment, Ji Feng still called Zhang Lei and talked about the situation.

“I’m going to Yuezhou!” Zhang Lei’s voice almost burst out from between his teeth, his voice full of coldness and ruthlessness, “Crazy, don’t stop me!”

“If I were to stop you, I wouldn’t have called you.” Ji Feng said, “You go directly to my second brother and ask him to arrange a helicopter for you, and you come straight over!”

“That’s what brothers are for!”

Zhang Lei said, “That’s it, I’ll leave now!”

Hanging up the phone, Ji Feng sank his face and slowly walked to the floor-to-ceiling window, looking at the bustling traffic on the road below, a cold light flashed across his eyes.

“Ding .....

Suddenly, Ji Feng’s phone rang again, it was from his younger uncle Ji Zhenping.

Ji Feng picked up the phone, “Little Uncle .....

As soon as he spoke, Ji Zhenping interrupted him and said, “Little Feng, enough of the small talk, I have contacted my comrade in the Yuezhou military district, he will send someone to pick you up, you follow him to the military district first, we will talk about the rest later.”

Ji Feng couldn't help but feel warm in his heart when he heard this, his little uncle had called this number over, obviously his father had told him about the situation on this side of Southern Guangdong, although his father hadn't said anything over the phone, he was still very mindful of his safety.

"No, we still don't know exactly what the attack on Uncle Zheng was because of ....."

"Cut the crap and do as I say!" Ji Zhenping said in a deep voice.

"Okay, then I'll wait in the hotel ..... eh?" Before Ji Feng's words fell, his eyes suddenly narrowed and he was a little surprised.

"What's wrong?" Ji Zhenping asked.

Ji Feng stood in front of the floor-to-ceiling window and saw two cars stop by the road below, right behind the white sedan that had been parked opposite the hotel before, and then, people came down from all three cars.

One of the people who got out of the last car was someone Ji Feng recognised at a glance.

Liu Gang!

They all had long-shaped bags on their backs or in their hands.

"Little Uncle, I'm afraid it's too late!" Ji Feng grinned, "Looks like someone doesn't want me to leave!"

### **Campus Master Chapter 3047**

Looking from the floor-to-ceiling window of Ji Feng's room, he could clearly see several people below him walking quickly towards the hotel. Even from a long distance away, Ji Feng could clearly see that the first person was none other than Liu Gang!

A total of eight people!

With a quick glance, Ji Feng could see that these eight people were all carrying bags, some in their hands, some on their backs, but without exception, these bags were all long and stripy.

If at this time Ji Feng still could not see that these people's bags contained weapons, then he really did not need to mix.

Liu Gang came to the hotel at this time, and all of them were armed and had a murderous look, so he knew with his toes what they were going to do.

Ji Feng did not believe that Liu Gang did not know that he was staying in this hotel.

Moreover, that white car had been parked across the road for quite some time, even Yang Bin could see that there was something wrong with this car!

"Little Feng, what do you mean?" Ji Zhenping asked in a deep voice over the phone, Ji Feng's words made him feel bad.

"Someone has come over now!"

Ji Feng's face wore a broad smile, "There are eight people in total, all armed, and it looks like some of them have more than one weapon, this is going to be a big job!"

"Unbridled!"

Ji Zhenping snorted coldly and said angrily, "They simply don't know how to live! Little Feng, you immediately find a safe place to hide now, I'll urge my comrades in the Yuezhou Military Region to rush over as fast as possible ....."

"No need, Little Uncle."

Ji Feng laughed, "The Yuezhou Military Region compound is still a long way from the hotel I'm in now, even if they flew a helicopter directly over now, it would still take a while."

Ji Zhenping said loudly, "That's why I told you to hide now!"

"Where to hide?"

Ji Feng shook his head and smiled, "The hotel is only this big, as long as they really want to find it, I definitely won't be able to hide. Moreover, I didn't think of hiding either!"

Upon hearing this, Ji Zhenping said, "Little Feng, don't try to be a hero! Even if you are good at kung fu, you are no match for guns and bullets, listen to me, now you think of every way to hide!"

"No need!" Ji Feng said, "Little Uncle, I can handle it myself. You can just tell that comrade of yours directly and ask him to come and help with the aftermath."

"Brat you ..... feed, feed feed?"

Ji Zhenping still wanted to say something, but the phone was already busy, and Ji Feng hung up the phone.

Putting the phone into silent mode and putting it away, Ji Feng looked down towards the outside, but could no longer see Liu Gang and the others, apparently they had already entered the hotel. Judging from this, in a few minutes' time at most, they would appear at the door.

Ji Feng smiled, not only did he not feel the slightest anxiety or worry, let alone any nervousness, but instead he very calmly packed his valuables and put them on his body, other than that he did not bring any weapons, put on his jacket, opened the door to his room and walked out.

However, Ji Feng did not go far, but came to the door of the next room.

The metal wire was inserted into the locking eye, and with just a crunching sound, the room door was opened and Ji Feng walked in calmly.

At the same time, in the lift Liu Gang and the others were poised with serious expressions. Liu Gang was standing in the middle, and beside him were several men with fierce eyes, all of these men had their faces covered with black hoods, showing only one pair of eyes on the outside.

"All hurry up!"

Liu Gang lowered his voice and said coldly, "I'll wait for you at the entrance of the lift, remember, make sure you do it cleanly, absolutely no procrastination, or else we might all be in danger."

Several other people nodded, "Don't worry Prince, it's all a piece of cake for us, a breeze!"

Liu Gang exhorted in a deep voice, "Don't be careless, the target is very good, don't take it lightly, go up and greet him with a spray, don't talk nonsense, kill him directly, then you will retreat back immediately, do you all remember?"

The other few people immediately nodded their heads.

"Have you all memorised the layout and furnishings of the room?" Liu Gang asked again.

"All remembered."

"Good!"

Liu Gang was very satisfied and waved his hand, "Go on, do a good job! Today, we brothers will join forces again to finish this job and go far away!"

Several of his men nodded their heads, and as the lift beeped with a ding-dong, the doors slowly opened.

"Swish!"

Liu Gang's eyes flashed with a fierce light as he slashed his right hand across his neck in a decapitation gesture, and several of his men came out in response.

Subsequently, Liu Gang also exited the lift and came to the fire staircase entrance next to the lift, he looked hideous and said to himself, "Ji Feng, you broke my foundation, killed my woman and my men, step by step, you forced me to this point, today, I'm going to cut you into pieces!"

Has decided to leave the country Liu Gang, once again resumed the ruthlessness and ..... ferocity when he first started out!

Once step by step from the bottom to now, Liu Gang has a keener sense of danger than anyone else, his men were killed, his residence was attacked, and his lover was brutally raped` killed, which made Liu Gang feel a strong crisis!

Especially Shao Jie's advice made Liu Gang realise that the top brass of Southern Guangdong could not protect him, so Liu Gang revealed his lordly nature, he wanted to let go and slaughter this dude who had forced him to go nowhere but far away from home, ten times over!

Inside the corridor, several figures quickly arrived at the door of a room, looked up at the door number, and one of them gestured, indicating to the others that this was the room.

Then, without the skillful lock picking, without the gimmick of posing as waiters and other identities to trick the people in the room, one of them simply took out a pistol and aimed it at the room's door lock and pulled the trigger straight away!

"Poof! Pfft!"

The pistol with the silencer didn't have the same ear-piercing sound, but its power didn't diminish at all, the lock of the room door was instantly broken and the door was easily opened.

The door was opened with ease.

Several people entered the room in a single file, there was no light in the room, but by the light coming from the window, several people saw a man sitting on the sofa in the room, without saying a word they raised their hands and pulled the trigger.

"Pfffffffff ....."

In the darkness, the figure was beaten and trembled, but those few people's faces turned pale.

"Nope!"

"There's no scream!"

Several people exclaimed, and one of them immediately went to turn on the light, and only then did they realize that the one sitting on the couch was not a person at all, but a stack of two cushions.

Foiled!

Several people immediately reacted and turned around violently to leave, but just then, all they heard was a 'pop' and the lights went out!

"Shoot!"

"Poof, poof, poof!"

With a yell, several people simultaneously fired in the direction of the doorway, but, plunged suddenly into the darkness of the room, their eyes could not see anything and they had no idea whether they had hit or not.

"Whew!"

A gust of wind blew by, and one man suddenly realised that he had a tall figure beside him, and he was extremely familiar with the figures of his companions, so he couldn't help but sweat, this was not his companion!

He subconsciously wanted to shoot, but the next moment, he only felt a white light flash before his eyes, and in a flash, a sharp pain spread from his throat and instantly swept through his whole body.

"Uh ..... uh ....."

The man subconsciously covered his throat, only to feel that his whole body was rapidly losing strength, as if his life had been taken away from him at once.

With a thud, the man fell to the ground uncontrollably.

Only then did the others realise, and at once quickly fired in the direction of their companion's fall.

"Boom!"

There was a muffled sound.

Then only a 'click' was heard, the sound of bones breaking, and a man went flying, hitting the coffee table hard and shattering the glass on it with a clatter, so harsh in this dark room.

The fact that two people were taken out in a row filled the others with extreme panic, even though their eyes had all adapted to the darkness by now, and they could even vaguely see the room by the light shining from outside, but that panic made them not as calm as they used to be, and they fired frantically without even seeing anyone.

"Pffffff!!!"

"Ahhh...!" A harsh scream caused the gunfire to stop abruptly for a moment as a man fell again, and the few remaining men didn't even know how he had fallen.

Instinctively, they slumped to the ground looking for an object to cover themselves with, but didn't dare stray too far for fear of being taken out if they were left alone!

"Come out! Come out if you dare!"

"What kind of man plays God ....."

Panic was spreading, in just a few breaths three men had fallen and four remained, such was the fear that they were cold and the hands holding their guns were trembling.

"Don't be afraid, the other side is just one person ..... BOOM!"

The voice ended abruptly, and immediately there was a gunshot, and by the faint light, the other three could even see the blood rising from the man's head!

One shot, head shot!

But to their horror, they had not seen which direction the shooter was in, and because they were so close, they didn't even know where the shot came from, only that the man ..... was right next to them!

"Go!"

"Move!"

The three remaining men were scared, a fear so intense that it burrowed into their bones, four of the seven men had been taken out in just a split second, which made the remaining men lose their courage and want to run out the door.

But as soon as they moved, there was a sudden flash of fire and bang!

One man fell down again, hitting a chair with a loud clang.

"Ahh...!"

"Pffffff ....." There were only two people left, they were almost going crazy, the room was so big, if it was in normal times they could almost see the far-sized place in one glance, but now, it was as if they were in hell, their whole body was surrounded by a thick fear.

"Gunshots?!"

Liu Gang, who was waiting at the entrance of the stairs, suddenly turned pale, he heard the sound of gunshots, and it was obviously the sound of a pistol, "No! How can there be such a loud gunshot, their pistols are all fitted with silencers ..... bad!"

Years of licking blood from the knife's mouth made Liu Gang's sense of danger very keen, and he smelled danger.

Go!

Liu Gang didn't even think about it, turned around and was about to leave, at this moment, what brotherly love, what revenge, all of them were left behind by him.

"Ka ka ka!"

But at this moment, the sound of a bullet being loaded suddenly came from behind him, Liu Gang's body stiffened, his steps stopped hard, he turned around with difficulty, looking clearly behind him, his face could not help but change once again.

"Prince, someone doesn't want you to leave!"

### **Campus Master Chapter 3048**

In front of Liu Gang, a pistol was pointing at his head, and the black muzzle of the gun made Liu Gang feel a bone chilling feeling.

Liu Gang looked at the strange man in front of him and his heart kept sinking: "Who are you .....?"

"I'm just an errand boy, just a small person, of course the Prince doesn't remember me!" The man said with a heated smile.

"Why?" Liu Gang gritted his teeth and asked in a deep voice.

"Because someone doesn't want you to leave Southern Guangdong!" The man said, "So, please also cooperate and don't let me get rough, after all, you were also once the godfather of the Southern Guangdong Road, once a big man that I looked up to, I still admire you, a lot!"

Liu Gang asked angrily, "Who is it? Who doesn't want me to leave Southern Guangdong?!"

This man's mouth said that he worshipped him, that he looked up to him, but now, looking at the cold killing intent in this man's eyes, where could one see any semblance of admiration?

But Liu Gang didn't care anymore, if he could he would like no one to look up to him, because, that would mean standing on the cusp of the storm, which would mean extreme danger, like now.

So now what Liu Gang wanted to know most was who the person was who didn't want him to leave Southern Guangdong!

However, the man on the opposite side just gave a mocking smile and asked derisively, "What, the Crown Prince doesn't know? That's a real pity, it seems you can only go down there to be a ghost of injustice!"

Liu Gang's heart suddenly flinched, but his many years of licking blood at the mouth of the sword still allowed him to maintain as much composure as possible at this moment, he took a deep breath and asked in a deep voice, "In that case, now that I've fallen into your hands, what are you going to do with me?"

The man said, "You don't need to know that, now you just need to cooperate and I guarantee that you won't suffer!"

Liu Gang's heart kept sinking.

"Please!"

The man made an inviting gesture, signalling for Liu Gang to follow him.

Liu Gang gritted his teeth, but there was nothing he could do. He knew that he had no room to resist at all now, and if he dared to make the slightest move, then the man would definitely not hesitate to pull the trigger and blow his head off!

From the man's cold eyes Liu Gang could tell that this was definitely a ruthless man who had seen blood!

Therefore, Liu Gang could only bow his head. The only thing he could hope for now was that a few of his brothers, who were able to finish off Ji Feng, would come over and save him. Or, simply not to move Ji Feng and just retreat back .....

"Bang Bang!"

Just as Liu Gang was about to lift his feet and follow the man, two gunshots suddenly came, Liu Gang couldn't help but blush and his heart couldn't help but thud.

He knew, "Oh no!

Those few brothers, it was probably over!

The reason was that his brothers' pistols were all fitted with silencers, but the gunshots that came in quick succession were too clear, and they were definitely not his brothers' weapons.

Obviously, someone else was shooting!

Then, the fate of his brothers could be imagined!

What really made him desperate was the man who was pointing a gun at him, and from the cold eyes of this man, Liu Gang could smell the scent of death!

Especially .....

He vaguely sensed from this man's words where this man was coming from!

Someone did not want him to leave Southern Guangdong!

So, who is this person?

In Liu Gang's heart, he had about a little guess. Liu Gang felt that his mind was clearer than ever at this moment, and many things that he could not figure out before probably had a vague outline now.

Why had the people who had attacked his residence not attacked the place where he was now living!

Why, when they could have planted a bomb in his car, did they not attack him!

And why ..... would he bring his brothers over to do away with Ji Feng?!

It all seemed so unreasonable!

But Liu Gang seemed to have somewhat figured it out, but after he figured it out, he was white as a sheet!

“Crown Prince, please!”

Seeing Liu Gang’s footsteps stop, the man said in a deep voice.

Liu Gang slowly lifted his head to look at him and asked, “Where to?”

The man smiled heatedly, “Don’t be afraid, don’t worry, you won’t be taken too far, there’s a good show to watch tonight.”

Liu Gang shook inwardly and secretly said, “Sure enough! One’s guesses ..... are true!”

“Let’s go!”

To Liu Gang’s slight surprise, the man did not take him much farther, but went straight to the door of a room at the end of the corridor, then took out his room card and handed it to Liu Gang, saying, “Prince, open the door! This is a room opened with your name!”

“My name?” Liu Gang’s heart sank as his gaze fell on the other party’s gloves, and the feeling of bad luck in his heart intensified.

“When did I get a room? How come I don’t know?” Liu Gang asked.

“Your prince is a big shot, he’s in charge of everything day to day, of course he doesn’t care about such small things.” The man said, “Open the door!”

Liu Gang still wanted to ask something else, but the other party raised his gun, “Crown Prince, if you want to use this little trick to stall for time, I advise you not to have this thought, it will only hasten your death and will not help you in the slightest.”

Liu Gang was speechless.

In his heart, for the first time, an emotion called remorse rose up!

When he opened the door with his room card, the light in the room turned on automatically, and when Liu Gang saw everything in the room, he couldn’t help but pause once again!

Clothes!

There were a lot of clothes on the bed in the room, and they all looked so familiar ..... It was his clothes!

There were socks thrown everywhere on the floor, and shoes, and quite a few clothes on the table, Liu Gang’s eyes fell on one of the clothes, it was Lao San’s leather jacket, although Lao San rarely wore it, but he had seen it before!

Apart from that, there were surprisingly quite a few weapons, as well as scattered bullets and even ..... white flour!

Tin foil, smoking gun .....

Liu Gang looked and his scalp exploded!

The other side had actually prepared everything for him, even though he had never taken `drugs', but this was what alarmed him the most, because the room was furnished with things that anyone who saw it would think he must have been living here for some time.

"You guys, what the hell do you want?!" Liu Gang asked in an angry voice. But he himself did not even notice that his voice was already faintly trembling.

"Of course I want to ask the Prince to stay here for a while, look, the clothes and things are all ready for you." The man said, at the same time he took out a pair of handcuffs from his pocket, "Prince, shall I put them on you, or will you do it yourself?"

Liu Gang stared at him, and he stared at Liu Gang with the same cold expression.

In the end, Liu Gang chose to put them on himself.

"Put it on tighter, and one last word of advice, don't play tricks, or else you will know the consequences!" The man said in a deep voice.

"....."

Liu Gang didn't say anything more, he just put the handcuffs on himself, now he had realized what exactly was waiting for him, if he still had some doubts just now at the stairway, now, he had almost figured it out!

So after putting on the handcuffs, Liu Gang sat down directly on the sofa, and when the man saw how cooperative he was, he couldn't help but smile, "That's right, those who know the time are the best, the prince surely understands this better than I do."

"My family, can they live?" Liu Gang ignored the man's teasing, but asked in a deep voice, "I am willing to trade my life for theirs, is that alright?"

"The prince is referring to your wife and children back home, and your parents?" The man asked.

"Yes."

Liu Gang's heart went cold as he listened.

The man laughed, "Prince please rest assured, they are all living very well and are completely unaware that there are actually sniper rifles aimed at their heads all the time in their vicinity, your daughter is still going to school in peace, and at this point in time ..... well, she should have gone home to bed by now, quite well! "

Liu Gang can no longer say the words!

.....

Picking up the pistol on the ground, Ji Feng expressionlessly came to the last guy who was still twitching slightly, this is a long-haired man, Ji Feng had read his information, this person is the oldest of the eight vajra under Liu Gang, originally a musician, later after following Liu Gang, specializing in the fighters under Liu Gang, to be precise, this person should be considered Liu Gang's armed chief.

"Spare, spare me ....."

"When you guys came in, did you think about sparing me?" Ji Feng asked.

"....."

Ji Feng squatted down and directly injected the bio-current simulated as neurotoxin into this person's body .....

A moment later, Ji Feng casually stood up with the pistol in his hand and walked directly towards the door.

Liu Gang was waiting for them at the stairway outside, and this news interested Ji Feng, who was going to meet this Prince Gang once again!

The lock on the room door had been broken, so Ji Feng didn't even close the door and walked straight towards the stairway with quick steps.

The fire stairs of this hotel and the lift were very close, and to get to the fire stairs you had to go through the lift. Ji Feng came to the corridor and looked around, but found that there was not a single person.

It was too late to think about it, and Ji Feng walked straight to the stairway.

"Dingdong!"

Just then, the lift light suddenly came on and the lift ran to this floor, then, the lift door slowly opened and a group of people walked out and immediately saw Ji Feng who was walking over.

Ji Feng also looked at them, and immediately his pupils contracted violently, the killing aura on these people was so heavy!

These were not ordinary people!

At the same time, the other side also saw the pistol in Ji Feng's hand, and both sides froze, no one expected to meet in this situation.

However, the next moment, Ji Feng suddenly raised his hand and pulled the trigger at those few people.

"Bang Bang Bang Bang Bang!!!"

Almost in the blink of an eye, Ji Feng emptied a clip, and the five people who were at the front of the group that came out of the lift were instantly shot in the head.

Five shots, five people got their heads blown off!

This terrifying shot caused the group of people to be horrified beyond belief and to panic and dodge to the sides.

And at this time, Ji Feng likewise backed up abruptly, rolled on the ground and rushed towards the room.

Transformer!

### **Campus Master Chapter 3049**

Reformers!

The group of people who came out of the lift were all transformers!

This discovery took Ji Feng by surprise!

As soon as this group of people came out of the lift, he sensed that something was wrong, because these people were not ordinary people in terms of their walking stance or their aura, and the other party did not have a panicked expression when they saw the pistol in his hand.

Ji Feng instantly urged the bio-current to act on his eyes and opened the perspective eye function, and this time, Ji Feng clearly saw that the bodies of this group of people were actually all metal bones!

The dynasty's reformers!

Ji Feng was really too familiar with reformers, but he never expected to encounter Dynasty's reformers here, in this situation, and a group of them at once!

What were the reformers doing here?

Ji Feng no longer had time to think more, because he found that the other party was also ready to make a move, so Ji Feng brought his strong to almost perverted speed to the extreme, and instantly took out five reformers, each one with a single shot to the head.

After emptying his clip, Ji Feng didn't say a word, he didn't even move to change the clip, and instantly retreated backwards.

Because, although he had taken out five people from the other side, there were at least a dozen people coming out of the lift this time, and the rest of them would definitely not give him time to change their magazines, even if it was only in the blink of an eye.

The corridor was too empty, and apart from the rubbish bin by the wall, which only reached his thighs, there was no more cover to take!

Retreating back into the room was the best option!

As expected!

At the very moment when Ji Feng's body surged backwards, those transformers who had come out of the lift and were dodging towards the sides, all took out their weapons and pulled the triggers right at Ji Feng.

"Bang Bang ....."

"Burst burst burst ....."

In a flash, Ji Feng's front was completely covered by a rain of bullets, but at this time Ji Feng was already narrowly retreating to the lift entrance, turning around violently at the corner of the corridor and losing his figure.

"Chase!"

"That's the man!"

"Kill him!"

These reformers frantically chased after him, but Ji Feng was incredibly fast and sped towards the room after arriving in the corridor.

"Clang!"

However, what Ji Feng never expected was that at this very moment, the sound of a room door slamming came from the corridor, and the next moment, he saw that many people suddenly rushed out from different rooms in front of him, and in the hands of these people, they were all holding guns!

When these people saw Ji Feng speeding towards them, they just froze for a moment, then they lifted the guns in their hands and pulled the trigger at Ji Feng!

"Shit!"

Ji Feng cursed angrily in his heart, his body accelerated again and arrived at the door of the room in the blink of an eye, and at the moment those men fired he directly rolled into the room on the ground.

This series of actions were so fluid that they were almost beyond the observation of the eyes.

"Bustle ....."

Gunshots rang out at the same time, and the door to the room was hit with a splintering sound!

At this moment, Ji Feng was incomparably glad that the lock on the room's door had been broken by Liu Gang's men earlier, so much so that it had left the door open when he went out, otherwise, he wouldn't have had time to bang open the door before he would have been sieved by this dense stream of bullets!

But Ji Feng then put these distracting thoughts out of his mind, because the current situation had left him too late to have any distractions at all. The large number of armed men that suddenly appeared outside made his nerves tense.

He then realised why he had taken out all of Liu Gang's men in the room earlier, with so much gunfire, but none of them had come out to see what was going on, which was so unusual for the curious and fun-loving Chinese people.

It turned out that the rooms on this whole floor had been occupied by those armed men at some point. Ji Feng's mind turned rapidly and he realised that these people should have come in when he left the hotel, otherwise, he could not have failed to notice.

But all this was no longer important now, what mattered most was why Dynasty's reformers had appeared here, along with such a large number of armed men!

First Liu Gang and his men came to attack, and now there were Dynasty men, could it be that Liu Gang and Dynasty men were in collusion?

Or was it a case of the mantis catching the cicada and the sparrow in the back?

Whichever it is, this is undoubtedly a trap!

A sure-fire way to kill!

“Stomp stomp stomp .....” footsteps came, becoming clearer and clearer.

The cold light in Ji Feng’s eyes flashed, who is the mantis and who is the yellow bird, we will only know after we have done it!

Thanks to Liu Gang!

Ji Feng sneered in his heart, Liu Gang’s men had sent him a large number of weapons, both spray guns and pistols, this was a big help to him!

“Hoo~!”

There was a flash of silhouettes at the door, Ji Feng directly hid behind the wall at the door, the next moment, sudden gunshots could be heard as the people outside started shooting towards the room!

Ji Feng coldly snorted in his heart, his body hid outside, and he directly reached out towards the door and pulled the trigger.

“Bang Bang!”

In the next moment, the sound of gunfire at the doorway stopped abruptly for a moment, and two figures instantly fell to the ground.

At this very moment, Ji Feng suddenly rolled on the ground, the spray gun in his hand swept wildly towards the doorway, “burst burst burst .....”

Even in the darkness, the poofing sound of bullets hitting into the body could be heard, making one’s scalp tingle, but what came from outside was a scream.

“Ta-da!”

The sound of a firing pin hitting empty space rang out, which meant that the shuttle of bullets didn’t hold back in the slightest, all of them hit out in the shortest possible time, the dense bullets beat the doorway with blood and flesh, screams of misery, roars of anger were mixed in, making this small area at the doorway a virtual hell!

But Ji Feng didn’t get attached to the fight, let alone ride the wave of victory, but after the shot, his body twisted and he slapped his palm on the ground, his whole body suddenly catapulted up from the ground and instantly shot towards the direction of the window.

The next moment, the people outside, after hearing the sound of the firing pin hitting empty, instantly pounced and fired wildly towards the room.

The whole room was almost in shambles!

In a full minute's time, four or five spray guns at the door swept wildly into the room. After all the bullets in the magazine had been fired, the men outside immediately swooped in, rolling on the floor and quickly entering the room, while someone turned on a torch and quickly swept through the room.

No one was there!

The room was empty!

"Stand back!" Someone shouted, and when they saw that the room was empty they knew they had been fooled by coming in. Everyone quickly exited the room back into the corridor, some on the ground with their guns pointed at the door of the room, while others were half on their knees on guard.

Only a few of the reformers entered the room, one on guard, two searching the room, the other coming straight to the window and slowly looking towards the wall outside the window with his pistol.

"Snap!"

In the corridor, the door of a room was opened and Ji Feng came out with a spray gun, looking at those who were still standing at attention in the corridor, he bent down and pulled the trigger.

"Ta-da-da ....."

"Ah...!"

"Look out!"

This sudden attack made all the armed men in the corridor scared out of their wits, Ji Feng had appeared in the corridor, this was unbelievable to them, knowing that a moment before he was still in the room fuming!

The sudden attack by Ji Feng made them panic and subconsciously try to dodge towards the rooms on either side, but it was in vain, Ji Feng's attack was too severe and his speed was even faster.

For some of the armed men, this moment was a lucky one, because they were standing at the back, the width of the corridor was limited, and the men in front of them all blocked the bullets, which gave them not only time to dodge, but also time to launch a counter-attack.

"Whew!"

But just as those men were about to fire back, Ji Feng was leaping to grab a handful of the chandelier on the ceiling, while continuing to fire with his gun in one hand.

"Ta-da-da ....."

This time, another tongue of fire spurted out, causing the corridor to be filled with shouts of terror and screams once again.

If anyone had seen this scene, they would have realized that at this moment this place was not much better than the tragic battlefields in those movies, and it was even better than that, with flesh and blood flying everywhere, making people's scalps numb and their bodies cold!

When Ji Feng had finished shooting several magazines, there was no one left standing in the corridor, and the corridor was full of corpses and blood.

But Ji Feng was not half pleased, he landed steadily on the ground with a loose hand, and immediately entered a room.

“There are still reformers left, as well as a few leaking fish!”

Despite the extremely intense attack just now, Ji Feng was able to clearly see that several people had taken advantage of the chaos to hide in the rooms on either side of the corridor.

These people, none of them would get away!

At this very moment, an extremely bizarre scene appeared at the scene – apart from the painful moans of those who were injured but not yet dead, there was no more sound at the scene.

Whether it was the reformers who had escaped in the room, or the armed men who had managed to escape to other rooms, none of them dared to make a single sound, and the silence now seemed particularly eerie compared to the raging momentum before!

Even the armed men who had managed to escape were all sweating coldly and turning pale!

It was terrifying!

Ji Feng’s attack was really too sudden and too harsh, the crazy kill that sent chills straight to their hearts and a chill down the back of their spines.

But for Ji Feng, the attack wasn’t over!

The action, once again, began!

Ji Feng easily leapt out of the window of the room, grabbed the downpipe on the wall with his hand, stepped on the edge of the window and jumped onto the windowsill of another room with unparalleled ease!

“Boom!”

An armed man hiding in the room was shot in the head by Ji Feng, who suddenly came in through the window, and his weapon, too, fell into Ji Feng’s hands!

Next target, start!

### **Campus Master Chapter 3050**

“Bang Bang!”

The two gunshots rang out abruptly, seemingly extraordinarily harsh, especially in this silent hotel.

The sound of the gunshots was no different from a death trumpet to the ears of the armed men and reformers! It was almost like a life charm, and every time the gunshots rang out accompanied by screams, it made their hearts tremble and their faces turn white.

Ji Feng was too powerful!

Also ..... too terrifying!

So many people, and people who were heavily armed and had combat experience, or so many against one, only to be killed by Ji Feng with blood and injuries!

This was simply not human!

At this moment, a trace of fear rose in everyone's heart, and some of them even vaguely regretted it!

How could they have come across such a god of killing!

If they had the choice, they would not have chosen to come on this mission. This was not a mission, but a death sentence. And they had washed their necks and came here to die!

Some of them were even regretful.

However, no matter how much they regretted, none of them dared to leave.

It wasn't that they didn't want to leave, but that they didn't dare to leave at all!

Because the corridor was empty except for the corpses and blood on the ground, and in some unknown corner, the god of murder was waiting for them like a ruthless and experienced hunter.

No one dared to venture forth!

One man, and they could not lift their heads!

But even hiding in the room was not safe, the constant sound of gunshots and screams was like the roar of Hades, making everyone's heart sink lower and lower.

"Bang!"

Another shot, then silence returned once more.

It made the hearts of those lucky enough not to die sink, being pressed down to the point where they could hardly breathe, it was almost always one shot, two at most, which showed that the shooter had extreme confidence in his own marksmanship, and those screams were enough to show how terrifying that person's marksmanship was!

After only a few moments, the gunfire stopped, and by this time, all the armed men who had managed to hide in the room had been killed!

Not a single one of them was left alive!

Ji Feng stood behind the door of a room, his expression cold, he was holding a pistol in his hand, the spray had been dropped by him, with the strong ability of his penetrating eyes he was able to clearly see the situation in the next two rooms, he had killed all the way here, all the armed men had been done away with, including two reformers!

Now, there were only four reformers left, against these people, there was no longer any difference between a spray gun and a pistol, when there were less people, Ji Feng was more used to using a pistol, or even his bare hands!

Looking down at his abdomen, there was a crimson rainbow of liquid oozing out there.

He had been wounded!

Earlier, when he had assaulted those armed men in the corridor, even though his assault was extraordinarily severe and he had leapt up and grabbed the chandelier on the ceiling, causing all those armed men who were originally aiming at him to hit him empty, one bullet still hit him.

Thinking about it he even felt lucky that he had only been shot once in that heavy rain of bullets.

Originally, in his vision, he should have been seriously wounded and might even only be left with his last bit of strength, he had even prepared for the special effects current.

This made Ji Feng secretly thankful that during this period of time, in order to find a way to break into the fourth stage of cultivation, he had been cultivating frantically whenever he had time, making his own strength improve again, if he had been a little slower just now, the only way to face these heavily armed combatants would have been to die!

After a moment's pause, he calmly walked out of the room, towards his room, where the four transformers, were hiding!

There was no doubt that these four reformers should have the strongest battle sense among these people, because from the beginning to the end these four people had never come out, if it was anyone else after knowing his location, they would have rushed out to attack him.

This made Ji Feng even more alert, these four transformers were obviously more powerful than the transformers he had seen in the past, the previous transformers were like mindless monsters who would only rush forward with the idea that they could not be beaten, but now these four transformers obviously possessed a higher sense of combat.

Despite his eyes sweeping all the time, Ji Feng could smoothly walk through the corpses, stepping on the gaps in the corpses with every foot, but there were simply too many corpses in the corridor, and in the places where the corpses were dense Ji Feng could only step directly over them.

Soon, when he was still a few meters away from the door of his room, he stopped.

Those four reformers, they were inside his room.

But Ji Feng was not the least bit careless, instead he stared and held his breath, listening carefully to the movement inside the room.

The room was silent and no movement could be heard. Ji Feng frowned and swept through his penetrating eyes, but found the room empty, behind the sofa, under the bed, and even behind the curtains ..... without half a person in sight.

Surprisingly, no one was there?

Ji Feng could not help but be slightly stunned, he could see clearly, those four reformers rushed into his room, and never came out during the fierce battle just now ..... He suddenly had a movement in his heart, could it be that, just now, when he was cleaning up those armed men hiding in the room, these four reformers took the opportunity to come out of the room?

Ji Feng's vigilance was instantly raised to the highest level, and he slowly entered the room, which was indeed empty!

However, just then, a strong sense of crisis suddenly rose from his heart, a cold light flashed in Ji Feng's eyes, and he rolled violently on the ground.

"Bang Bang Bang!"

The sound of gunfire was loud, surprisingly coming from outside the window, at the same time, several figures suddenly leapt in from outside the window, firing wildly at Ji Feng.

These four reformers were, surprisingly, hiding outside the window.

Ji Feng didn't even have time to think about it, rolling violently on the ground while pulling the trigger.

"Boom!"

A reformer was shot in the head.

However, the remaining three had already taken this opportunity to pounce on him, and Ji Feng's limbs erupted with terrifying strength as his entire body instantly sprang up high and grabbed one of them by the neck.

"Crunch!"

The sound of bones breaking rang out, and the man's body jerked violently and fell down.

But by this time the remaining two had already attacked, and Ji Feng swung out with a fierce punch.

"Boom!"

He exchanged a punch with one of them, the other one's body shook and stomped back a few steps, but Ji Feng's eyes narrowed, internal power! This reformer actually had internal power! And it was not weak at all!

Is this still a reformer?

"Hoo~!"

At this time, the last person also attacked madly, this person's speed was extremely fast, and the punching style was extremely harsh, what surprised Ji Feng even more was that at this time, there was quite a method in the attack, not at all the kind of punching and kicking style of the other reformers, what this person was fighting, was actually a set of ancient martial arts!

And the attack was quite strong!

"Boom!" As the two exchanged blows, Ji Feng's speed took advantage and suddenly a knee strike hit the man's thigh hard, instantly causing the man to stumble and his whole body almost flew sideways.

"What are you?!" Ji Feng asked in a cold voice. He felt that this person was somewhat familiar, but this person's appearance was not something he had seen before.

"I'll tell you when you're dead!" The man shouted and pounced again.

“Then you can go to hell!”

Ji Feng’s bio-current erupted out from his body, and an invisible bio-current whip appeared silently in his hand and struck the other person in a lightning-like manner.

“Ah!”

The man screamed miserably and his whole body was struck by lightning, instantly flying out sideways and hitting the wall heavily, falling to the ground again, suffering heavy injuries.

Ji Feng ignored him and directly attacked the previous person.

This person was obviously weaker than the one just now, but he was already quite strong, however, he was obviously not an opponent on the same level as Ji Feng, after just a few breaths, this person was smashed away by Ji Feng’s fist, the fist that contained a powerful bio-current, directly smashing this reformer to fainting death.

“Actually fainted? Looks like it’s not quite a monster, it’s not out of the human category yet!” Ji Feng sneered and approached towards the other one.

He stared at this Transformer, narrowing his eyes as the man watched him approach and struggled desperately, a beastly low growl escaping from his throat.

“Luo Qiu!”

Ji Feng suddenly shouted, and the other person’s body immediately shook.

“It’s really you!” A cold look appeared on Ji Feng’s face, this person was actually really Luo Qiu! This guy, was the instructor of the dynasty that Ji Feng had met at the border between China and Vietnam at that time, there were two of them, he only caught Kage, but this Luo Qiu ran away, in the end the military used helicopters but failed to find this person.

At that time, the one Ji Feng wanted to catch and even get rid of the most was this Luo Qiu. Because, this man was originally a Chinese, and a member of an ancient Chinese martial arts sect, but he joined the Dynasty and became an instructor for the armed members of the Dynasty, and he also undertook a very important task – he was responsible for helping the Dynasty research a project combining the internal power of ancient martial artists with the transformation of human beings!

If the research was successful, one could imagine how great a threat these transformers would pose to China, and even he had to feel tricky because if the project was successful, it would mean that the transformers would no longer be afraid of biological currents in the future, which would be a much greater threat to him!

For such a person, Ji Feng even wanted to finish this person at all costs. He regretted for a long time after Luo Qiu ran away at that time, but he didn’t expect that today Luo Qiu actually sent him to his door!

But at first Ji Feng didn’t recognize him, because now Luo Qiu’s appearance was completely different from before, and, surprisingly, he had been transformed too!

This made Ji Feng even more disgusted, a promising ancient martial artist who was willing to undergo transformation and become a monster that was inhuman, simply sick!

“You really make me sick!” Ji Feng said coldly.

“I became like this all because of you!” Ji Feng’s words seemed to have irritated Luo Qiu, and he shouted madly.

“Then I’ll make you change again!”

Ji Feng laughed coldly and reached out to grab Luo Qiu, but he didn’t let his guard down, even though Luo Qiu was already injured, the sense of crisis in his heart hadn’t disappeared, which meant that Luo Qiu must still have a backhand.

However, just as he grabbed Luo Qiu, his body suddenly shook, a sharp pain swept through his body from his shoulder, and a huge impact made him fall backwards.

It was only at this point that a loud bang came from the distance: “Bang!”

A sniper!
