

## Campus Master Chapter 3051

“Clang!”

Ji Feng flew backwards, his body hitting the chair with a loud sound.

A sniper!

There was actually a sniper upstairs across the street!

A sharp pain swept through his body, but it made Ji Feng’s mind extraordinarily clear, and he finally understood exactly where that strong sense of crisis had come from just now. This sense of crisis was not brought about by Luo Gnarly and a few other transformers, even if they were hiding behind the window and suddenly launched an attack, it did not pose much threat to Ji Feng.

The real danger came from the sniper hiding on the opposite floor!

Ji Feng swept a glance across the opposite building while flying out backwards, and in a flash of lightning, he had already judged the sniper’s position.

“Good!”

Seeing that Ji Feng was shot and flew backwards, Luo Qiu could not help but shout out, extremely excited, “Ji Feng! Today is your time to die!”

In a flash, he lunged towards Ji Feng, intending to add another kick before Ji Feng could stand up and completely stomp Ji Feng to death!

Luo Qiu was incredibly fast despite being seriously injured, and in his haste, Ji Feng could only block with his other hand, which was not injured, and he only felt a strong force coming from it.

“Boom!”

Ji Feng was kicked straight away by Luo Qiu and fell to the ground again.

The success of this blow gave Luo Qiu huge confidence, and for the first time he felt that he could do away with Ji Feng, and that success was within his reach!

The last time he fought with Ji Feng, it was really a huge blow to Luo Qiu, originally he was so proud of his strong skills in front of Ji Feng was so unbearable, even being chased by Ji Feng all the way, terrified like a dog in a lost home.

He was even chased all the way by Ji Feng and was as scared as a dog in a house. So when he ambushed Ji Feng today, he didn’t even have the confidence to do it alone, but brought a lot of reformers with him to do it at the same time.

The first thing that happened was that when Ji Feng was slaughtering the armed men in the corridor outside, Luo Qiu didn’t dare to bring his men out to help, but instead hid behind the window and took cover.

But the result ..... was just as ridiculous!

He brought three reformers to ambush Ji Feng, but in the end, he didn't even touch Ji Feng's hair, and he even ended up with a serious injury himself!

Now it's finally good!

The sniper set up outside finally worked, a shot hit Ji Feng, although it didn't kill him with a single shot, or a shot to the head as vicious as Ji Feng's previous shot, but it was still enough!

"Ji Feng, suffer death!"

Luo Qiu laughed loudly and attacked towards Ji Feng again, this time, his attack was aimed at the vital parts of Ji Feng's head or throat, incomparably vicious!

Faced with Luo Qiu's attack, Ji Feng immediately felt the pressure.

This Luo Qiu was originally a master of ancient martial arts, and he attacked with a routine, one move after another in an almost continuous chain, and each move attacked a vital part, which made Ji Feng's pressure increase!

"Boom!"

Ji Feng took two steps back after another move with Luo Qiu, but couldn't retreat any further because behind him, there was already a wall!

There was no way to retreat!

Seeing this, Luo Qiu became even more smug and laughed loudly, "Ji Feng, today I will let you see with your own eyes how you were abused, and in the future you will also see how you turned into a super warrior little by little, but a super warrior that belongs to me, haha!"

Ji Feng's eyes cold, so this Luo gnarled actually played this idea, super warrior ..... really will glorify themselves, clearly is a human being is not a ghost of the transformation of people.

"Want to catch me? Just see if you have the ability!" Ji Feng said coldly.

"You're still talking tough even at this point, I think you really don't see the coffin!" Luo Qiu shouted, and suddenly attacked before the words left his mouth.

"Pah!"

Ji Feng's injured arm was hit by Luo Qiu's whip leg, and he couldn't help but let out a stifled cry. Luo Qiu even laughed out loud with glee, originally he had been attacking Ji Feng's vitals just to paralyse him, in fact his real target of attack was this injured arm of Ji Feng.

The reason was that he had made up his mind that even if he could catch Ji Feng 100% tonight, he would still want to ruin his arm before he caught him, so that he would have no way to heal it in the future.

At this moment, the pain in Ji Feng's arm was so severe that half of his body was numb!

But he didn't take half a step back, he just stared coldly at Luo Qiu and said in a deep voice: "Is this what you're capable of? Your strength is less than a woman's, and it's a good thing you're an ancient martial artist! Is it possible that after being transformed into a monster, you're even worse than a woman!"

Luo Qiu heard that and instantly his anger shot straight to his head, he roared and his voice tone changed, “Ji Feng, you will regret your words, for sure!”

Ji Feng sneered, “Then come on!”

Luo Qiu roared and attacked furiously towards Ji Feng, at this moment, his attack was no longer on Ji Feng’s injured arm, but directly on Ji Feng’s throat, Ji Feng’s humiliating words made him about to go mad.

“Hoo~”

Luo Qiu was incredibly fast, especially when he was driven by his anger he used his strength to the limit, in the blink of an eye he reached Ji Feng, his right hand was in the shape of a claw, as if he wanted to directly crush Ji Feng’s throat.

However, just at this time, Luo Qiu seemed to hear a cold laugh, and when he looked at Ji Feng again, he found that his entire person had actually moved sideways while making a jerking motion.

“Bang!”

A strange and piercing sound rang out as Luo Qiu received a heavy blow to his body, and in the next moment, in Luo Qiu’s eyes, which were terrified to the extreme, he was directly smacked on the ground on the spot.

This moment Luo Qiu’s heart is terrified to the extreme, just that moment, he is simply like a big mountain instantly smashed on his head, that kind of feeling like a titanic mountain crushing the top, simply like the extinction of the disaster, so that he does not have half the ability to resist, instantly fell to the ground, clean, sharp!

“You, you .....” Luo Qiu opened his mouth wide and looked at Ji Feng in horror, but in the darkness was unable to see the expression on Ji Feng’s face, but could hear his cold voice.

“Idiot! You think that just because I’ve ruined an arm, my whole body is ruined?! Thanks to you, you’re still an ancient martial artist!”

Luo Qiu’s heart was terrified, he didn’t expect Ji Feng to still be so strong after taking a shot and receiving consecutive heavy blows from him!

What made Luo Qiu feel even more frantic was that what Ji Feng had attacked him with just now was clearly that invisible and colourless thing from before again, almost like a special ability!

But Luo Qiu, who was an ancient martial artist, understood that it was definitely not a supernatural ability, but a powerful means that could only be used if one reached the Xiantian realm – the outward release of true qi!

Compared to the last encounter, the current Ji Feng was surprisingly even more terrifying. After being so badly injured, he was still able to have such strength, and Luo Qiu’s heart was cold.

But that was the end of Luo Qiu’s horror as Ji Feng struck him on the back of the head with a palm, knocking him unconscious. In the moment of unconsciousness, he vaguely heard Ji Feng’s cold voice.

“Today, none of them will get away!”

Immediately, Luo Qiu’s eyes went black and he lost consciousness.

Ji Feng activated the bio-current and injected neurotoxin into Luo Qiu’s body, then tied him up and stuffed him under the bed in the room, then he quickly went out, the sniper on the opposite building had given him this shot, he wanted to return it.

Return it now!

About ten minutes later, Ji Feng arrived at the building across the street, it was an office building, it was already off duty and the security guard at the entrance was in the security booth not knowing what he was doing, which was just convenient for Ji Feng to act.

The sniper was a very good man, but he had to get to the sniper now.

However, Ji Feng was just about to hide when he suddenly took a step and instead walked straight towards the security guard.

The two were getting closer and closer, but that security guard gradually slowed down. Just then, Ji Feng suddenly accelerated and suddenly rushed in front of that security guard, ignoring his dodging and blocking moves, and directly snapped his throat with one hand.

“Uh .....

The tremendous force in Ji Feng’s hand made that security guard couldn’t help but make an odd sound in his throat, his eyes were about to protrude, and his face was even redder and choked.

Ji Feng’s expression was cold: “Your marksmanship is still close to fire!”

A look of amazement and horror flashed in that security guard’s eyes, and then he was dragged away by Ji Feng like a dead dog.

Ji Feng shook his head, if he hadn’t paid attention just now he really almost would have been fooled by this guy, to think of disguising himself as a security guard, which was really a good idea of disguise at this time of the day.

It’s a pity that no security guard would have such a heavy murderous aura and such a stern look in his eyes!

When Ji Feng returned to the hotel room, he casually threw that killer on the ground, but couldn’t help but take a few deep breaths, his injuries were indeed not light, especially the arm that had been hit by the sniper rifle earlier, it was completely out of strength, using his perspective eyes, he found that the bones in his arm were almost shattered, caused by Luo Qiu’s later bruising attack!

Luo Qiu’s attempt to waste his arm had indeed done him no small amount of damage!

But now, it was all over.

Ji Feng first swallowed two special effects currents to keep himself full of energy, then dragged Luo Qiu out from under the bed and started interrogating him.

“Luo Qiu, who shot you here?”

“The organisation.”

“Who told you to come and kill me?”

“The organisation.”

Ji Feng frowned and asked in a deep voice, “How long have you been in Yuezhou, who received you here, who did you meet with over here, where did you get your information from?!”

He asked a lot of questions quickly in one breath. If it was anyone else he would definitely not have interrogated him like this, but Luo Qiu was different, this man was an ancient martial artist, his physical quality far exceeded that of normal people, even after being hit with neurotoxin, he was still much stronger than the average person.

“No. 1 asked the organization for help, I came to Yuezhou ..... No. 1 sent someone to receive me, contacted through the mobile phone ..... intelligence was provided by the person sent by No. 1!”

### **Campus Master Chapter 3052**

“Number one?”

Ji Feng frowned and asked in a deep voice, “Isn’t No. 1 the king’s master?”

According to his understanding, the king was the head of the dynasty in China, so it shouldn’t be too much to say that it was number one.

“No.”

Who knew that Luo Qiu gave an answer that took Ji Feng by surprise, “Number one is not the king.”

A cold light flashed in Ji Feng’s eyes at once, and he immediately asked, “Not the king? Then who is number one?”

When did No.1 appear again?

Luo Qiu said, “I don’t know. No. 1’s identity is top secret, grade A!”

Ji Feng asked, “What about the king?”

“It’s also top secret!”

After pondering for a moment, Ji Feng couldn’t help but say to himself, “In that case, the king and No. 1 should be at the same level .....”

As a result, this self-talk of his was taken as a question by Luo Qiu, saying, “No. 1’s secrecy level is higher than that of the king.”

Ji Feng was once again surprised and hurriedly asked, “Then who is in charge in China?”

“The King and Number One.” Luo Qiu said.

“Two people are jointly in charge?” Ji Feng asked.

“Yes.”

“What? Isn’t the king in charge of Huaxia?” Ji Feng asked. All along, the information that the outside world had indicated that the king was the head of the dynasty in China, but Luo Qiu actually said that the head of the dynasty in China was actually two people, the king and No. 1!

This made Ji Feng extremely surprised.

Luo Qiu said, “The king is mainly responsible for operations, No.1 is mainly responsible for infiltration, and the economic aspect is jointly handled by the king and No.1 .....

Ji Feng was silent, the information Luo Qiu explained was really too important, the king was surprisingly not the only person in charge in China, that was just as well, the most crucial thing was that the division of labour between the king and No.1 was so clear.

One was in charge of operations, the other was in charge of infiltration, and they were both in charge of the economy at the same time .....

Wouldn’t this mean that in terms of force the King was in charge, while Number One was in charge of running the force and infiltrating China, and the two were working together to use each other’s influence to raid money... ..

This is simply two great generals, one civil and one military!

The kingdom had such a meticulous layout in China!

At this moment, Ji Feng suddenly had the feeling that he had underestimated the dynasty, and even more underestimated the king of the dynasty, the person behind this code name was really too powerful, just this means of being able to infiltrate under the noses of various countries and develop their own power, made people shudder!

“Tic tac, tic tac .....

Suddenly, a ringing sound came from Luo Qiu’s body, this sudden ringing sound made Luo Qiu’s expression stiffen as if he was struggling a bit, Ji Feng couldn’t help but frown and strike out to directly knock Luo Qiu out, he was secretly shocked, just now when injecting neurotoxin into Luo Qiu’s body, he had already increased the dose, but it was unexpected that Luo Qiu was still able to make some resistance, once disturbed by the outside world, his Once he was disturbed by the outside world, his self-consciousness would even resist.

It seems that ancient martial artists are really something else.

Their physical qualities make them no match for ordinary people even though they have been transformed.

In the future, if you encounter ancient martial artists who have been transformed, you must kill them on the spot, otherwise, these ancient martial artists will be a far greater threat than those ordinary transformers after they have been transformed!

“Tic, tic, tic!”

There was still something ringing on Luo Qiu's body, and when Ji Feng lifted his clothes, he saw that he had what looked like a walkie-talkie hanging from his waist, but with an earpiece and a microphone, not a simple walkie-talkie. It seemed that it should be one of the dynasty's communication tools.

After staring and observing it for a moment, Ji Feng pressed a button on it, only to hear a beeping sound, and a man's voice came out of it.

"Luo Qiu, your operation has timed out, what is the result of the operation now?"

Ji Feng immediately frowned at his words, he had heard this voice before, it was a dry and harsh voice, like a duck.

"Why don't you say anything? Luo Qiu, how did the operation turn out?" Ji Feng didn't answer, so the other side asked again.

"The result of the operation was very bad, at the very least, definitely not the result you wanted!" Ji Feng suddenly said with a cold smile.

"..... You are Ji Feng?!"

A startled cry came from the communication device, but the next moment, the other party could not help but sneer, "So, Luo Gnarly's operation failed? Hmph! Ji Feng, this time you are lucky, wait for the next time ....."

Ji Feng said, "Next time, you will still fail. Because you are simply a coward, you don't even have the courage to face me directly, you will only hide behind just like a rat pathetic and dirty!"

"Ji Feng, you'd better not provoke me, or else ....."

"Or else what, the big deal is to come and assassinate me, it's not like you haven't done this kind of thing, isn't this the best example now?" Ji Feng sneered.

"You ....."

The other party was extremely angry and just wanted to sneer back, but suddenly snapped out of it and said angrily, "You're setting me up?"

Ji Feng snickered, "Idiot! Do I need to set you up? You've already sold yourself out, and seeing how smoothly you call me by my name, I think you must be someone who has dealt with me, do you think, I can find out?"

"....."

There was no sound in the communication device, Ji Feng waited for a long time and didn't hear anything back, he was about to turn it off when he heard the words suddenly coming from inside: "We'll see, you'll definitely die by my hand!"

Then there was a popping sound from inside, obviously the other party cut the connection.

Ji Feng sneered, but he couldn't help but shake his head, quite regretful, just now he was indeed setting up the other party's words, but seeing that the other party found out, he only deliberately said that he could find out through the other party's name for him, but in reality, he knew that this possibility was

very small, because although there were not many people who knew him, there were definitely quite a few, moreover, those who knew his name, that was even more.

The range was huge, and it would be completely impossible to check from there!

So, the moment the other side cut off contact, he lost the trail. The only thing he could hope for now was Luo Qiu, and he hoped that Luo Qiu would spill some more fierce information next, otherwise, it would not be that easy to trace it again.

“Stomp stomp stomp .....

Just at this time, there was a light footstep from the corridor outside, the sound was very soft and far away.

Ji Feng immediately arrived at the door silently.

“This ..... this .....

At the door of a room at the end of the corridor, Liu Gang and a man both stared blankly at the scene in the corridor, both of them were dumbfounded, with a look of disbelief on their faces.

There were corpses and blood all over the floor, as well as all kinds of weapons scattered on the ground, it was like a purgatory-like battlefield!

Especially the man beside Liu Gang, he was even more shocked!

This scene, even Liu Gang, who was used to seeing blood, couldn't help but feel his stomach churning, and he felt like throwing up.

It was too bloody!

None of them had ever seen so many people die at once!

The corpses and blood all over the ground made their scalps tingle and their hands and feet go cold!

However, Liu Gang recovered a little faster than the man, and when he saw out of the corner of his eye that the man's hand holding the gun was trembling, he immediately seized the moment and suddenly snatched the gun from the man's hand and pointed it violently at the man.

“Is this the good show you told me to watch?!”

Liu Gang gritted his teeth and said, “Idiot, these are all your people, right? Look, how miserable they died!”

The man panicked and was just about to say something when he heard Liu Gang say, “What I hate most is when people threaten me, so you go down with them too!”

“Humph!”

Just then, a cold snort suddenly came out.

Liu Gang was so frightened that all his sweat hairs stood up, there were corpses everywhere in this corridor, where did the cold humming come from? He turned around in horror and saw a man standing

behind him, with blood on his face and blood all over his body, as if he had crawled out of a pile of dead people!

“Ah!”

Liu Gang shouted in terror, forgetting that he still had a gun in his hand, and felt his legs go weak, almost sitting on the ground.

“Pop!”

Liu Gang only felt a void in his hand, and then the gun he was holding went into the hands of that ‘corpse’.

“Heh! Liu Gang, you’ve got a lot of guts, you actually haven’t run away by now?”

Liu Gang’s body suddenly shook, he suddenly reacted and asked in shock, “You, you are ..... Ji Feng?”

Ji Feng wasn’t even interested in answering his words and directly knocked him unconscious, at this time the other man suddenly turned around and was about to run away, Ji Feng shouted behind him, the man slammed into the wall and passed out cleanly.

Ji Feng froze and couldn’t help but say, “..... idiot!”

This guy actually slammed into the wall, too long to live? He did not know that the corpses on the ground and his sudden appearance had scared the man out of his wits, forgetting that this was the end of the corridor and that the wall was behind him, so he panicked and tried to escape before he hit the wall.

“Well!”

Ji Feng reached out to lift Liu Gang and the two of them, but he could not help but muffle a sound as he stirred his injuries, he could not help but grit his teeth, the injuries he received this time were really not light!

Especially his wounded arm, not only had a gunshot wound, but also Luo Qiu had seized the opportunity to hit it hard a few times, and now it was almost ruined!

There was no telling if he would still be able to recover.

But now Ji Feng couldn’t think about this, he gritted his teeth and threw Liu Gang and that man into the room one after another, and just as he took out his mobile phone, he heard the sound of whirring and whirring coming from outside.

It was a helicopter!

Ji Feng immediately jumped to the window and hid under the edge of the window, stretched his head to see a helicopter hovering in the air, the huge searchlight on the plane shone directly at the window of the room he was in, and there were people coming down from the helicopter along the rope.

Seeing that these people were all wearing military uniforms, Ji Feng guessed that they should be the ones that Little Uncle had arranged to pick him up, but he hid, now that he was seriously injured, he had to identify these people first.

A few men came down from the helicopter and entered the room along the downpipe, then a loud cry of alarm was heard from the room.

“Battalion Commander, it’s bad, we’re too late!”

### **Campus Master Chapter 3053**

The man known as the battalion commander was also stunned when he saw the scene in the room, the huge searchlight from the helicopter outside illuminated the entire room with unparalleled clarity and made the stunned face of the battalion commander extremely clear.

“Search immediately, we must find the rescue target, this is a dead order!” The battalion commander bellowed.

“Yes!”

Several warriors immediately conducted a search, and only the battalion commander was left alone in the room, just then, Ji Feng, who had heard their conversation clearly, suddenly leapt up and entered the room and snapped his neck before that battalion commander could react.

“Hoo~!”

However, who knew that the battalion commander, after a shock, was simply ignoring Ji Feng’s hand that was stuck on his neck and raised his hand to shoot towards Ji Feng.

Ji Feng jerked sideways and his hand exerted so much force that the battalion commander’s face turned red and the hand holding the gun went limp and dropped down.

“Take it easy, who are you looking for?” Ji Feng asked in a deep voice.

“Let go!”

The battalion commander said with difficulty.

Ji Feng asked, “Are you guys here to find Ji Feng?”

The battalion commander froze for a moment, but did not answer.

But Ji Feng already had an idea in his mind, and he said in a deep voice, “I am Ji Feng!”

“Ah?!” That battalion commander let out an ah, seemingly a little surprised and a little suspicious.

“Who sent you here?” Ji Feng asked again.

That battalion commander, however, asked in return, “Are you really Ji Feng?”

Ji Feng didn’t answer, but asked, “Tell me who sent you and what you’re doing here!”

The battalion commander hesitated for a moment before saying a name, “We were ordered to rescue Ji Feng, if you are Ji Feng, please hurry up and come with us, if not, then you are committing a felony by doing so, you could have killed me, but you definitely can’t escape, no one can save you!”

Ji Feng smiled, as soon as he heard that name he could be sure that these people were here for him, that person was arranged by his little uncle, he then let go of his hand and said, “I am Ji Feng!”

That battalion commander, however, looked at Ji Feng suspiciously and with some caution, “How do you prove that you are Ji Feng?”

“What, don’t you believe it? If I’m not Ji Feng, would I dare to go with you guys?” Ji Feng asked.

How dare you not!

That battalion commander said secretly in his heart, this man’s kung fu was so powerful that he had subdued him in a single glance, so if it wasn’t Ji Feng, there might be an accident.

After a moment of hesitation, that battalion commander stared at Ji Feng and said, “Wipe the blood off your face!”

Ji Feng said, “It’s already congealed, it can’t be wiped clean!”

The battalion commander took out a mobile phone and stared at it for a long time before confirming that the person in front of him was Ji Feng, he immediately said, “Mr. Ji, we have been ordered to protect you and pick you up to take you to the military compound, please come with us!”

Now that he had confirmed his identity, Ji Feng naturally had to follow, now that he had taken out all those armed men and reformers, but he himself was already badly injured, if someone attacked him again, he might not be able to stop them.

“Get on the roof, the helicopter will be parked up there!” The battalion commander said.

“I’ll take a few more men with me!”

“Be quick!”

Then, with the help of those few soldiers, all of Luo Qiu and the others were brought up to the helicopter, fortunately there were not many fighters coming and the helicopter was barely able to fit.

After a loud roar, the helicopter, known as an air tractor, quickly left, leaving only the corpses all over the hotel.

But as soon as the helicopter lifted off, the battalion commander immediately reported the situation to the top, and Ji Feng also made a phone call to both his brother-in-law and father separately to report his safety.

After doing this, he called Yang Bin again and learned that Yang Bin had arrived at the hospital at this moment and had fed the special effects current to Zheng Yuanshan, who was now being resuscitated and had not yet come out with the final result.

Hearing this, Ji Feng could not help but feel a little more at ease. As long as Zheng Yuanshan was still alive, taking the special effect current would hang on to his life.

The special effect current was different from the kind of life hanging with hundred year old mountain ginseng, the special effect current was to stimulate the potential of the whole body and to keep the energy in the body at a very high level in a short period of time, the reliability was definitely more than hundred year old mountain ginseng!

Along the way, the warriors inside the helicopter all looked at Ji Feng from time to time, with admiration in their eyes.

Ji Feng was covered in blood, and one arm kept drooping, his abdomen and shoulder were wounded, and it was also a gunshot wound, which if it were anyone else, even if they had ten lives, they would have lost them, and even if they could have saved their lives, that kind of pain was not something that ordinary people could bear.

However, not only did they not hear any screams of pain from Ji Feng, but even walking from the room to the roof and then to the helicopter was all done by Ji Feng alone, which made people admire him.

The soldiers admire hardened men the most, and even though Ji Feng didn't have many words, he made these soldiers stand in awe just by his endurance!

The Guangdong military district compound was divided into several blocks, and now Ji Feng and the others went to a compound located in downtown Guangdong, because the injuries on Ji Feng's body were too frightening, so that battalion commander had to take him to the hospital as fast as possible.

But along the way Ji Feng remained alert and refused to lie down, even though he seemed safe now, the dynasty's infiltration of China was alarming to him.

It was surprising that Dynasty had a person in charge in China, and from the code name, it could be seen that this No. 1 was certainly not low in status, even within Dynasty, I'm afraid he had a certain status.

In particular, the information revealed in Luo Qiu's words made Ji Feng even more wary.

No. 1 was responsible for infiltration, which meant that No. 1 must have a very large power in China, and even, this person's explicit identity, I'm afraid, had considerable influence in China.

Maybe it was a big shot!

Luckily, the helicopter arrived at the military compound without any problems, and the medical staff who had already received the news immediately operated on Ji Feng, but when they saw Ji Feng's injured arm, even the experienced experts were dumbfounded.

"You guys prepare for the operation first, I'll be right there!"

The expert couldn't think too much and hurriedly operated on Ji Feng to save his life first, and as for that arm ..... he could only try his best!

But this is something he can't do, he has to report to the chief!

When the head of the military district got this news, he couldn't help but stutter in his heart at once.

There was a possibility that Ji Feng's one arm could not be saved?

"No, no matter what method is used, he must be cured, I want to see a living and breathing person, not someone with a missing arm!"

"Chief, his arm is too badly injured, a section of the bone is almost shattered, and the muscle damage is even worse, even if it can barely be saved, it's almost impossible to return it to normal!" The specialist patiently explained, "So my advice is to amputate the arm and then fit it with a prosthetic ....."

“Nonsense!”

The head of the military district said in a deep voice, “I only have one request, to cure him! If your western doctors can’t do it, then go and hire a Chinese doctor, no matter what you use anyway, he must be cured!”

“This .....

The specialist was in a difficult position.

Just then, Ji Feng, who was preparing to undergo anesthesia surgery, but suddenly spoke up, “Doctor, let’s treat it conservatively, let’s leave it up to God as to how far my arm can recover!”

“Ji Feng, you ..... how do you want me to explain this to my old comrades? How can I explain this to your father?” The head of the military district couldn’t help but say.

“It’s okay, it’s my own decision!” Ji Feng said in a deep voice, “The doctors will definitely do their best, I only have one request, no amputation!”

“..... Okay!” Seeing that Ji Feng had decided on his own, the head of the military district could only nod in agreement, “Then you will receive the surgery first, I will go and explain the situation to your uncle.”

Ji Feng slowly nodded and closed his eyes, the injuries he had sustained were really not light, and now, he was also very tired, and in order to ensure that he recovered as soon as possible after the surgery, he had to conserve as much physical strength as possible, because once the effects of the special effects current had worn off, his body would be extremely weak, so he could stimulate as little physical potential as possible.

Just as Ji Feng was undergoing the operation, the outside world had exploded.

Ji Zhenping, who got the news first, was incomparably shocked, he didn’t dare to delay and hurriedly told his elder brother Ji Zhenhua the news, and then, he gave an order.

“The entire Red Arrow Brigade is mobilised, the special operations team of the Yuezhou Military Region is on emergency war alert, and the entire city is under martial law!”

Ji Zhenping gave all the orders that his status could issue, mobilising all the troops that he could.

Although the head of the Yuezhou Military Region had already sent troops to cordon off the hotel where Ji Feng was staying as quickly as possible, the news still got out before that, after all, the corpses all over the ground were just too conspicuous, and the hotel was a place where people came and went, and the previous commotion was so loud that there were even helicopters out, which had long alerted many people.

So, by the time the troops arrived, the news had already spread.

The top brass in Yuezhou were shocked, and when the news reached Yanjing, even the head of the centre was alarmed!

There was even news that Ji Zhenhua had gone to the Red Wall Compound, where the hub was located, overnight, and that the lights in the chief’s office had been on all night.

No one knew exactly what was talked about, but early the next morning an emergency investigation team rushed to Yuezhou, and at the same time the military issued an even higher directive that the Yuezhou military zone was on war footing and the whole city was under armed lockdown!

And at this time, after nearly half the night's hustle and bustle, Ji Feng's surgery, too, was over.

Originally, the expert said that it would take about a day for Ji Feng to recover from the anaesthesia, but it was not certain when he would wake up, but in reality, Ji Feng was never unconscious at all, because, the anaesthesia hardly worked for him, the anaesthetic entered his body and was quickly broken down.

The anaesthetist had anaesthetized him several times in a row and finally used a dose close to three times that of a normal person but to no avail. In the end, it was Ji Feng who did not want to make any more trouble, so he simply entered the training space of his intelligent brain to practice, which made the anaesthetist mistakenly think that the anaesthesia was successful before the operation started.

When the operation was over, Ji Feng slowly opened his eyes.

### **Campus Master Chapter 3054**

"Hiss..."

After slightly moving his body, Ji Feng couldn't help but suck in a breath of cold air, the gunshot wound on his body wasn't too much of a problem, but the injury on his arm was much more serious.

The pain of broken bones was really not something that ordinary people could endure, and even Ji Feng felt extremely painful. However, he gritted his teeth and endured it.

The pain that he endured when he was undergoing the devil's training in the training space of the intelligent brain was even worse than this, especially for the anti-interrogation grind, that was almost a nightmare to mention.

So although it was extremely painful, Ji Feng was able to endure it.

However, after the surgery, Ji Feng was not happy at all. The bones in his arm were all put back together for the time being, and he could see with his translucent eyes that they were okay, but there was no way for the broken bones to be restored to the same extent as before.

Even with the current level of medical treatment, there was no way to restore it to its original state.

"It seems that this arm is really ruined!" Ji Feng said in his heart, if it was just that medical treatment could not restore it, then it was not a big deal, many injuries that could not be done at the modern level of medicine, he was able to do it through cultivation.

For example, the last time he was injured in Southern Guangdong, he relied on cultivation and recovered in just a few days, and also saved Bai Zhu's life.

However, this time he was at his wits' end.

The reason was that cultivation could speed up recovery, but it could not regenerate the bones.

Perhaps because there was pressure from the military chief, the specialist who operated on him had tried to splice his bones as much as possible and did not take out those broken bones directly, but

because some of the bones were so badly broken that those fragments had to be taken out, so in fact the bones in Ji Feng's arm were now incomplete.

It was also unknown what kind of material the doctor used to fill in those shattered bone fragments of his instead, so from the outside it looked like his bones were intact, but in reality Ji Feng knew very well that his arm was now so fragile that he absolutely could not exert himself even after his injury was healed.

"Luo Qiu ....."

Ji Feng gritted his teeth, he had been extremely wary of Luo Qiu's move to join the dynasty before, and now the ill effects were finally showing up. After receiving the transformation, Luo Qiu's strength was much stronger than before, and his physique had even increased exponentially.

If it was in the past, even if he had been hit by a sniper rifle, with Luo Qiu's physique, he would not have been able to injure his arm like this, but after Luo Qiu had received the transformation, his physique was ridiculously strong, and with the internal power, he had actually ruined one of his arms!

This also made Ji Feng feel the fear of the dynasty once again!

The terribleness of the dynasty was not only in the level of technology, but also in the vision of the dynasty's leaders.

The idea of combining the internal power of ancient martial artists with transforming people could really be described as whimsical, but one had to admit that Dynasty had succeeded, and the power was quite amazing!

This vision alone was extremely frightening!

Just as Ji Feng was contemplating, the door of the ward was suddenly pushed open, and then Ji Feng saw Ji Zhenping walking in.

"Little Feng!"

Seeing Ji Feng with bandages on his body, Ji Zhenping's face was extraordinarily gloomy, his eyes were filled with bearish anger, and his body carried a hostile aura, as if he was a fierce beast that chose to devour people.

"Little Uncle, why are you here!" Ji Feng opened his mouth and asked.

"How are you?" Ji Zhenping didn't answer him, but asked in a deep voice.

"Not bad, I feel okay." Ji Feng grinned, "It won't take much time to recover."

"Still trying to be brave!"

Ji Zhenping said with a sullen face, "I've asked the experts, your arm ....."

Ji Feng said, "It's fine, when the injury heals, the arm will still be able to move, at the very least it won't affect life."

He said this Ji Zhenping naturally did not believe it, according to the experts, even if Ji Feng's injury was healed, his arm could only do some of the most basic movements, and even a slightly larger amplitude would risk a fracture.

This was tantamount to having a ruined arm!

"Little Uncle, don't tell my parents about this yet." Ji Feng said.

"Can you do it without saying anything?" Ji Zhenping said, "Your dad already knows about it and is making arrangements now."

Ji Feng then felt a bit helpless, he really didn't want his parents to know that he had been injured, moreover he didn't want them to know that his arm was ruined, it would definitely be a big blow to them.

"You take care of your injuries first, don't worry about anything, with your little uncle around, I will help you settle this score!" Ji Zhenping said in a deep voice, his words full of killing intent.

"Then you'd better find the dynasty's lair first, or capture both the king and number one, otherwise, I won't be able to settle this score." Ji Feng laughed.

"You still have the heart to laugh ....., " Ji Zhenping glared at him and suddenly asked, "You also know about Number One?"

"In that case, little uncle, you already knew about it?" Ji Feng asked as he smiled and couldn't help but feel a stir in his heart.

"Received the news, all right, don't worry about these things, recuperate your injuries at ease!" Ji Zhenping said.

Ji Feng hurriedly said, "Little Uncle, I'm fine, tell me about the matter about No. 1."

He didn't expect that Little Uncle actually knew about No. 1, he had never heard Little Uncle mention it before this, originally he thought it was because Dynasty's secrecy was quite well done, but now it seemed that the country's intelligence department wasn't just eating rice.

Ji Zhenping hummed, "You're all wounded like this now, and you still have the heart to care about this?!"

Ji Feng laughed: "This little injury can't defeat me, Little Uncle, tell me quickly, how much do you know about Number One!"

"You!"

Seeing Ji Feng's insistence, Ji Zhenping could only shake his head helplessly and said, "Wait for me for a while, I still have some things to arrange, I will see you later."

Ji Feng nodded, seeing Ji Zhenping leave, he couldn't help but secretly ponder in his heart, it looked like he still didn't know as much about the dynasty as the country did, perhaps, he would be able to get some different news from Little Uncle later.

About ten minutes later, Ji Zhenping came in again and said, "Little Feng, your father is on his way here."

“My father is coming?” Ji Feng immediately asked, “Then my mother .....

“Your mother doesn’t know about this yet, but I don’t think you can hide it for long.” Ji Zhenping shook his head and said.

Ji Feng smiled bitterly and said, “It can be concealed for a while.”

Now that things were already like this, Ji Feng had no ability to change it, so he could only try to delay it. It was best to be able to delay until he recovered from his injuries, and by then, even if his arm was a bit abnormal, at the very least, he wouldn’t have to let his mother see him in this state now and feel sad.

“Little Uncle, you talk about number one.” Ji Feng said.

“Actually, this was not supposed to be told to you because it is classified.” Ji Zhenping said, “However, since you mentioned it, it means that you have some understanding of it, so there is no harm in telling you about it now.”

“Well, you say.” Ji Feng nodded his head.

“This No. 1, in fact, also received the news at the end of last year, in fact, all along the top has been suspecting that the dynasty still has infiltration in China, because the king is too high profile, especially in recent years, the king has attracted a lot of attention, in this situation the dynasty is still able to be reckless in China, this means that they must still have power in the shadows.”

“So the top conducted a secret investigation into the matter, the intelligence department also set up a special agency against the dynasty, it’s not convenient to elaborate on what exactly it is, however, their investigation is with remarkable results, a code name was found out, it’s this number one.”

Ji Zhenping said, “According to the information we have so far, this No. 1 has a lot of influence, and his own status should not be low, in fact, he is the general director of the dynasty in China, the king may be his subordinate, or a blindfold thrown out. The investigation is still ongoing right now, so that’s all I can tell you for now.”

Ji Feng immediately asked, “So, is there a suspected target yet?”

Ji Zhenping shook his head and said, “This is a matter for the intelligence department, and it’s not convenient for me to ask in detail if it’s not a special case.”

Ji Feng nodded slowly, then said, “Little Uncle, the few people I captured, theirs should have a certain status in the dynasty, perhaps they can dig out something useful from their mouths, the code number one I learned from Luo Qiu’s mouth.”

Ji Zhenping immediately took it seriously, nodded and said, “I will arrange it!”

“There’s more.”

Ji Feng said, “Earlier I got a USB stick which recorded the details of the secret dealings between Liu Gang, the godfather of the Dao in Southern Guangdong, and certain leaders, as well as some other information, originally I had already told my father and was going to set it up before making a move, but I didn’t expect Dynasty to launch a surprise attack, now I can’t get out in this condition, so you can handle it.”

Ji Zhenping smiled and immediately said, "Good! If it's true, then this is tangible evidence, you recuperate your injuries."

Ji Feng nodded and whispered the location of the u disk to Ji Zhenping, now he could only lie here in peace to recuperate, although the gunshot wound in his abdomen was not very serious, the wound on his shoulder was a bit heavy.

He was glad that the sniper had used a normal bullet, but he knew that there was a type of bullet that would enter a person's body at a terrifying rotational speed, and the huge impact of the high-speed rotation would instantly shatter the person's body when it passed through it. If you hit the right one, you can even be cut off at the waist!

However –

Ji Feng's mood was more or less low, an arm had been ruined, which had reduced his strength by a large margin, and there was no hope of recovery in sight.

But the dynasty's techniques were progressing, and were developing and improving at an alarmingly fast rate.

"It seems that it's time to speed up the pace of the Tengfei Group, and there are some technologies that it's time to take out!"

Just as Ji Feng was lying in the ward recovering from his injuries, the outside world was stirring up a storm.

### **Campus Master Chapter 3055**

The attack on Ji Feng and Zheng Yuanshan has created a big ripple in Southern Guangdong.

Because his identity was so sensitive, many people were already paying attention when Ji Feng arrived in Southern Guangdong. Especially when Ji Feng personally went to the Guangdong Municipal Bureau to report the case, his arrival instantly became known to many people, which also sent a shock through the hearts of many people, because Ji Feng personally came to report the case, which in itself was very unusual.

And it goes without saying that Zheng Yuanshan, the boss of the Southern Guangdong police system, carries absolutely no less weight.

Now that two people were attacked like this, it would be difficult not to attract attention.

What's more, whether it was the explosion that Zheng Yuanshan encountered when he was attacked, or the corpses all over the hotel where Ji Feng was attacked, or the fierce gun battle, the commotion was not small, which made people alarmed.

What kind of person was so bold as to dare to attack Zheng Yuanshan and Ji Feng?

No!

Strictly speaking this was no longer considered an attack, it could be completely described as a long-planned murder!

This made the whole of Southern Guangdong stare sideways, murdering Ji Feng and Zheng Yuansan, this was a man who had eaten his heart and leopard's guts!

While the outside world was talking, the top echelons of Southern Guangdong were making noises, with a certain leader saying during his speech at the police station that the case must be thoroughly investigated and the murderer severely punished.

This was interpreted by the outside world as the Wu family wanting to clear their name. The speech was clearly saying that it had nothing to do with the Wu family, and that the Wu family was making such noises in order to prove their innocence.

The case was not done by us and has nothing to do with us, so we will investigate thoroughly.

What was surprising however was that the Ji family didn't seem to appreciate this at all, first the Southern Guangdong Military Region sent a garrison of armed troops to blockade the whole city, and then the investigation team from the centre came straight down, apparently to target the case.

But what was even more unexpected was that as soon as the investigation team arrived, they directly took away several senior officials from Southern Guangdong, which even included the second-in-command who had been sunken in Southern Guangdong for dozens of years!

It was a shock to see the glasses shattered!

No one could have imagined that the first person to be moved by the investigation team as soon as it arrived in South Guangdong would be this old man who was known as the god of the sea in the officialdom of South Guangdong, an old man who had been immersed in the officialdom for dozens of years, floating and sinking many times, but never completely collapsed, some people called him the god of the sea, and some people called him the officialdom of South Guangdong.

Unexpectedly, the first knife of the Ji family was cut towards this old man.

This made people look sideways, and even had many speculations.

Could it be that the Ji family is actually doing this because it is not just for the case of Ji Feng and Zheng Yuanshan, but they want to target the officialdom of Southern Guangdong, and furthermore, the Wu family's power in Southern Guangdong?

Maybe that was a real possibility!

However, before anyone outside had a prepared judgement on this, the Central Investigation Team made a second move – taking out the head of the Guangdong City Bureau and the second in command of the Southern Guangdong Provincial Department!

Two bigwigs in the police system were taken down in quick succession, and together with the old man who was taken down before, three heavyweights were taken down in one go, just like a depth charge thrown into a calm lake, instantly stirring up a million waves!

Everyone was dumbfounded, was this an attempt to uproot the entire Southern Guangdong system?

The Central Investigation Team's action really stunned many people.

Even certain bigwigs who were far away in Yanjing could not sit still, and some even could not help but slap the table on certain semi-public occasions, questioning the investigation team across the air.

“This is nonsense, is this the investigation team, or a circus? Is investigating a case a child’s game? The investigation team is a public official of the state, not some people’s private army!”

Although these words did not name names, the meaning of these words was in fact no different from naming names.

Obviously, the spearhead of these words was directed at the Ji family.

However, the Ji family did not give any explanation, and the investigation team continued to do what it was supposed to do, which made the outside world even more alarmed and suspicious. However, as some gossip trickled out, some things gradually became clear.

Some people said that when the investigation team went to the Yuezhou City Bureau to get the people, they were surprisingly intercepted, and even some police officers were instigated to arrest the investigation team, while taking the other two, even the special police had some dissenting movements.

But in the end, these people did not jump up, because when the investigation team met with resistance, the military garrison of the Yuezhou Military Region directly mobilized.

The gossip was that some people had witnessed the confrontation between the two sides, and that the military had brought in machine guns and field units to forcefully suppress the police, which eventually led to the investigation team taking the man away.

This kind of gossip is often the most marketable and has been supported and endorsed by some people, as someone actually took photos of a large number of soldiers running towards the police station with their mobile phones and posted them on the internet, only for the photos to be deleted after a short time, but it certainly served as proof.

However, this is after all gossip, three people of such importance, even the central investigation team, can not be arrested at will, those who really know the rules of this circle, although believe that there may be resistance when taking people, but, what is the real reason for this, but no one knows.

The outside world, however, does not believe that the investigation team came down to really take the opportunity to make waves and target the Wu family.

Even if the Ji family was more powerful, the top would never agree to it, and now is not the time for any one family to be in charge.

The reaction of the Wu family to this was equally fierce, and a certain member of the Wu family lineage proposed at the meeting that a joint investigation team be formed instead of a unilateral one.

However, this proposal was firmly toppled.

In the blink of an eye, three days had passed, and by this time, the conflict between both sides had reached its most intense point, and the bickering above had reached the point of being red in the face.

It was at this time that the Central Investigation Team suddenly released the news that the results of the initial stage of the investigation were to be made public.

It was only at this time that people realised that the fundamental reason for moving these people was their own misconduct, and that they were the backstage of the godfather of the Southern Guangdong Road, Prince Kong!

Car smuggling, oil smuggling, drugs and electronic products ..... and even, white flour!

This is a big tumour!

Only then did people suddenly realize that there was such a major case on their side, and that it involved these three big names!

When the news was announced, all those doubts vanished without a trace!

The people of the Wu family lineage also shut their mouths at once!

The storm had begun!

Many people couldn't help but say in their hearts that such a series of evidence laid out by the investigation team was enough to silence any doubters, but this was definitely not all the evidence that the investigation team had, and I was afraid that there were still many things that the investigation team had not released.

For a while, the wind in Southern Guangdong was in a frenzy.

And the Ji family's fierce counterattack has officially begun!

.....

"Phew~"

Ji Feng took a deep breath and sat up from the bed, then steadily got out of bed and stood on the ground.

After four days, all his wounds had almost recovered, he was now able to walk, and his body, which was originally a bit weak from taking the special effects current, had also recovered in the past few days under his persistent and continuous cultivation.

However, Ji Feng could feel that his strength had decreased, and his body seemed to be weaker compared to his peak period.

Although this gap was not very obvious, Ji Feng could feel it, but this was not what concerned him the most. What really made Ji Feng frown was that his injured arm was still in a cast and he could not move it at all.

And in the cast he felt as if his arm was not obedient, and now he could only move his fingers gently, and could barely clench his fist, but he could not clench it tightly.

The arm was really ruined!

Ji Feng was silent for a long time, although the bones had not yet healed, he knew that even after the bones had healed, this arm would no longer be able to bear gravity.

Perhaps his basic life would not be affected, but if compared to before, his arm was really ruined!

What's more, during the past few days when he was recovering from the injury, Ji Feng found that because of the seriousness of his arm, even his cultivation was not as smooth as it used to be, as the bio-currents rotated through his limbs and bones, but when it came to his arm, there was a feeling of blockage.

When he thought that the technology of the dynasty was advancing by leaps and bounds, and that even the research on combining the internal energy of reformed humans and ancient martial artists had been largely successful, his heart was a little heavy.

However, Ji Feng's attention was soon diverted by a matter.

This day Ji Zhenping came over and told him the news: "Little Feng, this matter involves the Martial Family!"

Ji Feng nodded his head and said, "I know."

The three heavyweights that were taken down before were all from the Wu family's lineage, so Ji Feng was not much surprised to hear this news.

Ji Zhenping shook his head and said, "I'm talking about the attack on you, when Liu Gang was captured by you, was there another person by his side?"

Seeing Ji Feng nod, Ji Zhenping said, "You know what? That person was not Liu Gang's accomplice, but someone who was sent to silence Liu Gang, guess who sent him?"

Ji Feng immediately asked, "Who is it?"

He had been in the hospital for the past few days and didn't know much about the news from the outside world, so he wasn't too sure about the progress of the case right now.

"Shao Jie!"

Ji Zhenping said, "According to that person's explanation, it was Shao Jie who sent him here."

Ji Feng was stunned, "Shao Jie?"

"That's right."

Ji Zhenping said, "According to the orders he received, he was to wait until you were killed and then he would kill Liu Gang to make the illusion that both of you would eventually die together in a firefight, but it didn't occur to him that you would capture him before he could do it!"

### **Campus Master Chapter 3056**

Ji Feng was stunned, "Shao Jie?"

"That's right."

Ji Zhenping said, "According to the orders he received, he was to wait until you were killed and then he would kill Liu Gang, making it look like you both ended up in a firefight together, but he didn't think he would be caught by you before he could do it!"

Ji Feng's face instantly sank, "Shao Jie!"

He had always known that this person Shao Jie was bouncing around a lot, and this person's identity was suspicious, so he never thought that he was also involved in this attack and killing incident.

"In addition, according to Liu Gang's explanation, at the beginning he actually didn't want to fight you to the end, although he was in the way, he was trying to concede to you through other means, only that when he voiced out this idea, he was stopped by Shao Jie."

Ji Zhenping said, "If Liu Gang's story is to be believed, then this person Shao Jie must have played some kind of dishonourable role in this matter."

"That's for sure!"

Ji Feng nodded and said, since Shao Jie could send people to silence Liu Gang, it means that he is involved in this matter, but the question is, how deep is Shao Jie's involvement in this matter.

And most importantly, what is the identity of this Shao Jie!

"Little Uncle, Shao Jie sent people to silence him, is there any evidence?" Ji Feng suddenly asked.

"For the time being, there are only oral confessions, there is no tangible physical evidence yet." Ji Zhenping said, "However, I plan to arrest and interrogate him first, even if there is no physical evidence, but with the existing chain of evidence, it can already point to him. If we just look at Liu Gang and the others' statements, everything makes sense."

Ji Feng frowned, "Arresting Shao Jie now? Does it make sense?"

Ji Zhenping said in a deep voice; "There is nothing inappropriate!"

This sentence fully showed Ji Zhenping's dominance and the bottom line of the Ji family.

"That side of the Wu family ....."

"Humph! This time you suffered an assassination, to say that it has nothing at all to do with the Wu family, I'll pull my head off and give them a ball to kick!" Ji Zhenping said in a deep voice, "Now let the Wu family wipe the shit out of their own asses first!"

"Then arrest!"

Ji Feng nodded his head. Little Uncle's words gave him plenty of courage, and he wanted to see just what kind of divinity this Shao Jie was!

Ji Zhenping said, "Also, Liu Gang mentioned a piece of information that I find a bit interesting. He said that Shao Jie had told him more than once that in less than half a month's time, he would make you leave Southern Guangdong in disgrace, and Shao Jie seemed extremely confident when he said this, as if he had a clear plan!"

"Heh!"

Ji Feng grinned and said, "He almost succeeded!"

Ji Zhenping said with a cold face, "I'd rather know what makes him so confident! This person must be caught, perhaps we can dig out quite a lot from his mouth!"

Nodding thoughtfully, Ji Feng said, "Hmm. This person, indeed, is a bit odd, his status and position are not equal, but he is bouncing around a lot!"

"He won't be able to bounce around for much longer!" Ji Zhenping sneered.

Ji Feng knew that since both his younger uncle and father had intervened in this matter, no matter what identity this Shao Jie actually had, he absolutely couldn't hide it!

Individuals can never compete with the state machinery, even dynasties have to hide in the shadows, not daring to openly show themselves, let alone a mere Shao Jie?

Afterwards, Ji Feng chatted with Ji Zhenping for a while and learned quite a lot of useful information.

He roughly summarised the situation and found out something.

There was a trap, or to be precise, a bureau, that had been set up when he first arrived in Southern Guangdong, and it was specifically aimed at him!

Firstly, Yang Xiaoyai's father was detained at the casino, and for the time being there was no evidence that it was a set-up from this point onwards. However, when the news of his arrival in Southern Guangdong got out later, the set-up began for sure.

Then there was the person who set it up, and according to Luo Qiu's account, that person would have been Number One, who was probably above the King in status and position!

The No.1 set up the game to use those armed men and reformers to kill him, and Liu Gang was the scapegoat, which is why Shao Jie sent someone to kill Liu Gang to silence him.

"Shao Jie ....."

Ji Feng sneered twice, now who the number one really is is still unknown, the identity of the king is also unknown, but Shao Jie is exposed, there is no doubt that he is definitely related to the dynasty even if he is not a member of the dynasty.

.....

"Shao Jie, why are you fidgeting?"

Inside the Brilliant Group, Zhai Yadong looked at Shao Jie who was walking back and forth and couldn't help but ask.

Shao Jie's face carried an impatient look, obviously restless, hearing Zhai Yadong's words he couldn't help but say in an annoyed manner, "Old Zhai you should stop nagging, I'm annoyed!"

Zhai Yadong could not help but choke, shook his head and said nothing more.

Shao Jie was afraid.

He had seen a series of changes in Southern Guangdong in the past two days, especially the fall of those three heavyweights, which made him realise that something big was not good!

"Rubbish!"

When he thought that the person he had sent to silence Liu Gang had missed, Shao Jie could not help but gnash his teeth in hatred. He heard that the man had captured Liu Gang, but failed to finish him off, instead he was caught by mistake, which made Shao Jie even more annoyed and irritated, if he had shot Liu Gang at that time, wouldn't everything have been fine?

Shao Jie had not thought about the fact that it was he who had arranged for his men to take Liu Gang to watch the show, but now that something had happened, he was putting all the blame on others.

However, even if he wanted to put the blame off, it was still impossible.

That henchman and Liu Gang had been arrested at the same time, and eight out of ten would give him up. Although nothing had come from him yet, Shao Jie's heart was lifting.

What bothered him even more was that he had not received any calls that could help him.

The battery level was full, the signal was full, and the phone was unlikely to be in arrears, but no calls were coming in.

After going back and forth a few times, Shao Jie gritted his teeth, turned around and went to the lounge inside and dialed a number.

"Hello ....."

"What's wrong with you! Didn't I tell you not to call me? Why are you still calling at this juncture?" As soon as the phone was connected, before Shao Jie could say anything, an exasperated voice came from the phone.

"I might be in trouble on my side, Liu Gang was arrested and will probably give me up ....." Shao Jie explained carefully.

"So what if you give it up? Do they have any evidence? Does Liu Gang have something on you in his hands?" The person on the other end of the phone snorted coldly, "You are not a state public official, and you are not directly involved, so what if you are investigated?"

"But ..... this time it was someone from the Ji family who came down to investigate directly!" Shao Jie said.

The person on the other end of the phone said in a deep voice: "You don't care who he is investigating, do your job without fear, as long as there is no overwhelming evidence then firmly deny, they can still eat you up?"

Shao Jie pursed his lips and said, "Then ..... what should I do?"

The other party said, "Just do your job!"

After saying that, the phone was hung up.

The first time I heard the busy tone coming from the phone, Shao Jie had some peace of mind, yes, he is not a state official, even if he has a relationship with Liu Gang, but he is not involved in any of his criminal activities, so what are you afraid of?

At this moment, Shao Jie heard the sound of talking and some noises outside, he listened carefully but could not hear clearly through the door, he opened the door and went out, then he saw several people in uniform standing in the office, Zhai Yadong was talking to them.

“Old Zhai, what’s wrong?” Shao Jie asked.

“Nothing, so what, you go to the marketing department and see how their work is done, I’ll look for you later!” Zhai Yadong said immediately.

“The marketing department?”

Shao Jie was stunned, why did he ask himself to go to the marketing department for no reason? He was not in charge of that piece of ..... Seeing those soldiers, Shao Jie immediately reacted, this soldier would not be looking for himself, right?

He immediately nodded and said, “Yes, I’m going over there!”

“Wait!”

Shao Jie was just about to leave, but a soldier reached out to stop him, looked him up and down a few times and asked, “Are you Shao Jie?”

“He’s not!”

Zhai Yadong immediately said, “He is that who .....”

“I didn’t ask you!” The soldier glared at him, then turned his head to look at Shao Jie and asked, “You are Shao Jie, right? We have a picture of you, it doesn’t matter if you don’t admit it!”

“I’m Shao Jie, what’s wrong?”

As soon as Shao Jie heard that the other party had a photo, he knew that he couldn’t hide it, and he wasn’t going to hide it either, that phone call just now had made him figure out that as long as he didn’t admit it, no one could do anything to him without hard evidence!

The soldier gave him a look and saluted, “Hello, we are from the Yuezhou Military Region, we need your cooperation in the investigation, please come with us!”

Shao Jie smiled at that, “Come with you? Are you from the investigation team? Or are you the police?”

The soldier said, “Neither, we are from the Yuezhou Military Region and have been ordered to carry out our mission, please cooperate!”

“What if I don’t cooperate?” Shao Jie asked, “As far as I know, the only people who have the power to arrest people are the police, right? If you were some kind of investigation team, I could reluctantly cooperate with you, but you are soldiers, and it is your duty to fight the war, right? Asking me to cooperate with an investigation? I’m sorry, I won’t cooperate!”

The soldier gave him a cold look and said, “The military still has a court martial!”

Shao Jie waved his hand, “That’s for trying your soldiers, it has nothing to do with me!”

“But if it’s a special incident, it’s got something to do with you!” The soldier said and waved his hand, “Please come with us!”

“Joke, I’ll go when you say go .....

“Please!”

The two soldiers were about to come up and pull Shao Jie, but Shao Jie immediately struggled and roared, “I’ll see if any of you dare .....

“Boom!”

The warrior in the lead smashed Shao Jie to the ground with a single punch, the intense pain caused Shao Jie’s eyes to instantly widen and his face to turn red .....

“Take it away!”

### **Campus Master Chapter 3057**

“This .....

how can you guys just hit people?!” Seeing that the soldier had actually smashed Shao Jie to the ground with one punch, and then two more soldiers came up and directly grabbed Shao Jie’s arms and dragged him away like a dead dog, Zhai Yadong was immediately anxious.

As a result, the lead soldier just gave him a cold look and said, “The order we received is to take Shao Jie away today!”

The subtext in these words was that they would take Shao Jie away no matter what, no matter how, and it was still polite to smash his fist!

Zhai Yadong could not help but choke, he then realized that these people were soldiers, not police! On weekdays, this big brand of the Brilliant Group was useful when facing the police, but when facing these warriors, it would be of no use at all.

“Take them away!”

The soldier in the lead waved his hand, and two soldiers directly dragged Shao Jie away, Zhai Yadong could only watch, unable to stop him at all.

Seeing the unkind eyes of the soldiers, Zhai Yadong’s throat was a little dry, he knew that if he dared to stop, these soldiers would definitely not be polite to him, especially when he saw that the soldier in the lead had a bulge in the hem of his coat, obviously he was carrying a weapon, this means that people were prepared and even had the intention to use force!

This meant that they were prepared to use force.

He hurriedly walked two steps to his desk and picked up his mobile phone and dialed a number, as soon as the call was answered, he hurriedly said, “Sir, Shao Jie has been taken away .....

The news that Shao Jie, the assistant general manager of the Brilliant Group, had been taken away by a few soldiers spread as quickly as a gust of wind throughout the top echelons of Southern Guangdong, which made many people unable to help but be astonished.

No one had expected the Ji family to be so aggressive and move so quickly, taking Shao Jie away before the outside world had received any news.

Moreover, the Ji family did not use the police at all, but the military directly took him away, which made the entire top echelons of Southern Guangdong lose their voices collectively and raised a sense of powerlessness.

The military is not even close to the local authorities in South Guangdong, and they don't give a damn about you. This made some people who wanted to save Shao Jie not even dare to make a move.

The more people are scared, because Shao Jie is inextricably linked to them, and now that Shao Jie has been arrested, God knows if he will give up some inside information.

The most important thing is that Shao Jie's identity is so sensitive that certain key figures can't help but tense up their nerves.

Could it be that the Ji family got hold of something, why did they move Shao Jie as soon as he came up?

For a while, the whole of Southern Guangdong was undercurrents.

At this time, Ji Feng did not have the time to pay attention to all this, because Xiao Yuxuan and Tong Lei and the others knew the news of his injury and had already arrived in Nan Yue.

The moment Xiao Yuxuan and Tong Lei saw Ji Feng's arm, which was still bandaged, the two women's eyes turned red, and Tong Lei's beautiful eyes glittered with crystals, biting her lips and saying nothing, but only gently stroking Ji Feng's injured arm.

Yang Bin stood by the side with his head lowered and his face red, not daring to look at Xiao Yuxuan and Tong Lei, he felt ashamed to see them, if he hadn't left alone at that moment, he wouldn't have been so badly injured!

"Does it hurt?"

Tong Lei looked at Ji Feng and asked in a soft voice.

Ji Feng smiled and said, "It's fine, a little injury, look I can get out of bed and walk now, can't I."

Tong Lei bit her lips and shook her head gently, Xiao Yuxuan glared at him, "Still trying to be a hero by now!"

"It's really fine, it's just a little trauma." Ji Feng smiled and comforted them.

"When your injuries get better, we'll go back to Jiangzhou, okay?" Tong Lei asked in a soft voice.

Seeing the look of anticipation carried in Tong Lei's clear eyes, Ji Feng's heart instantly melted, he knew that Tong Lei was thinking that Nan Yue was a dangerous place and only wanted him to leave this dangerous zone and go home!

Even though Tong Lei didn't have any extra words, her soft voice made even the hardest heart turn into a soft one.

"Good! Let's go home!" Ji Feng nodded and smiled.

"Don't go back now, we'll go back when you've recovered some more from your injuries!" Tong Lei said, "These few days, I'll stay here with you."

Ji Feng nodded and said, "Good! You don't go anywhere, just stay here with me!"

Tong Lei gave a soft mmm.

It was hard to pacify Xiao Yuxuan and Tong Lei, but it turned out that Zhang Lei came again, and along with him were Guo Tao and Yao Zhijian from the battle team.

"..... Shit!"

Seeing Ji Feng's bandaged appearance in a hospital gown, Zhang Lei only felt a surge of anger rushing to his head, but with Xiao Yuxuan and Tong Lei present, he had to hold back the angry yell that was on his lips, but he still couldn't help but curse angrily.

Yao Zhijian and the two of them also looked very bad, Ji Feng, as their boss, was now attacked and injured like this, this made them lose face too, they wanted to arrest the attacker and kill him ten times!

"Lei Zi, have you gone to see your uncle?" Ji Feng asked.

"Seen him, he's already woken up, but his injuries are too severe and he can't talk yet." With anger in his eyes, Zhang Lei said in a deep voice, "Crazy man, do you know who did it?"

Ji Feng nodded and said, "Generally, I know, but the details are still under investigation! What can be determined now is that those who attacked are from the dynasty, but there are also ties to certain people in Southern Guangdong."

"Who is it?"

Zhang Lei had been in Yuezhou for two days, but because Zheng Yuanshan had been in danger, he could only contact Ji Feng on the phone while waiting for news from Zheng Yuanshan at the hospital, so he didn't know anything about the specific situation.

At this moment, as soon as he heard that there was a connection with someone from Southern Guangdong, he immediately pursued the matter.

Wang Chao didn't know where he was hiding, but the people from Southern Guangdong were close at hand, and now he had nowhere to vent his anger, and his teeth were itching with hatred.

Ji Feng laughed: "The man has been taken away by the military! Alright, let's not talk about that now."

With Tong Lei and the girls around, Ji Feng didn't want them to follow and be annoyed.

Zhang Lei nodded and said, "Then you guys talk first, I'll go out for a walk."

In reality, he was thinking of going to inquire about the news.

“Knock, knock, knock!”

Just then, there was a sudden knock on the door of the ward, several people turned around to look, but they saw a beautiful girl pushing the door in, seeing so many people in the ward, this girl’s face turned red.

Ji Feng was stunned: “Xiao Ai? Why are you here?”

This girl was no other than Yang Xiaoyi.

“I, I heard that you were injured, so I came over to see if it was ..... not too convenient for you? Then I’ll come back another day!” Yang Xiaoyi said with a red face.

“There’s nothing inconvenient, hurry up and come in.” Ji Feng waved his hand and laughed, then introduced Tong Lei and the others.

“.....”

When Yang Xiao Ai heard that both Tong Lei and Xiao Yuxuan were actually Ji Feng’s girlfriends, she couldn’t help but open her mouth wide and look shocked.

“Ji Feng, are you injured because of what happened to me?” After a few people talked for a while, Yang Xiaoyi suddenly asked.

“Of course not, it’s because some people have long seen me in a bad light and wanted to get rid of me, it has nothing to do with you.” Ji Feng shook his head and smiled.

“But .....”

Yang Xiaoyi opened her mouth, but eventually the words came to her lips but she just said, “Ji Feng, thank you for everything you’ve done for me, thank you. You guys talk first, I’m leaving.” After saying that, without waiting for Ji Feng to say anything, she turned around and walked out quickly in small steps.

Looking at the odd looks from Tong Lei and the others, Ji Feng cried and laughed, “Why are you all looking at me like that?”

Xiao Yuxuan said, “What do you think!”

“Got it!”

Ji Feng laughed bitterly, “I knew you guys were definitely going to misunderstand, I used to owe Yang Xiaoyi a favor, so this time she called me for help, so I came to help her with this favor, but I didn’t expect someone with a heart to seize the opportunity.”

“Alright, hurry up and rest.”

Xiao Yuxuan gave him a blank look and didn’t pursue the matter any further.

Ji Feng couldn’t help but be surprised, how did this goblin change her nature? If it was in normal times it would be strange if he didn’t flirt with him a few times when he encountered this kind of situation, but now he actually let it go so lightly?

But seeing the concerned look in Tong Lei and Xiao Yuxuan's eyes, Ji Feng couldn't help but feel warm in his heart, it seems they were worried about his injury, so they didn't make such small talk.

Afterwards, Tong Lei and Xiao Yuxuan stayed in the hospital to take care of Ji Feng. Looking at the two girls like two little wives taking care of them, Ji Feng's heart was really filled with emotion.

However, this peace was broken that afternoon when Ji Feng received a phone call from his younger uncle, Ji Zhenping.

"Little Feng, Shao Jie's identity is confirmed, it's really unexpected ....." Ji Zhenping's first words made Ji Feng come to his senses.

"Little uncle, listening to you, Shao Jie really has other identities?" Ji Feng immediately asked.

However, Ji Zhenping's next sentence even more shocked Ji Feng, "He is the illegitimate son of Wu Zhengxiang, the second oldest member of the Wu family!"

Ji Feng almost jumped at the sound of this, "What?"

Shao Jie could be Wu Zhengxiang's illegitimate son?

Ji Feng really didn't expect that Shao Jie's true identity would be this no matter what!

"This has been confirmed, it was said by Shao Jie himself, and from other information, it is true!" Ji Zhenping said.

"This is really ....." Ji Feng didn't even know what to say. He didn't doubt the authenticity of this news, his little uncle had been in Yanjing and was watching every move of the Wu family, he must have a lot of information in his hands, now Shao Jie had admitted it himself, and combining the information from other aspects, it should be confirmed.

If this is the case, then a lot of things that I couldn't figure out before will logically be able to be straightened out.

### **Campus Master Chapter 3058**

Shao Jie was the illegitimate son of Wu Zhengxiang, the second son of the Wu family!

This news really surprised Ji Feng to the extreme, he originally had guessed about Shao Jie's identity, because Shao Jie's performance was really incompatible with his identity.

But it never occurred to Ji Feng that Shao Jie was this identity.

"That's no wonder."

Ji Feng said in a deep voice: "..... It turns out to be like this."

From the first time I met Shao Jie in South Guangdong, this person acted extremely arrogant, with Zhai Yadong present, Shao Jie also dared to speak recklessly, even sometimes directly snatched the words of Zhai Yadong, there was no assistant to the old boss of that respect.

Later, Shao Jie's performance was even more needless to say, time and time again very out of the ordinary.

It was precisely for this reason that Ji Feng had doubts about his identity, but never thought in this direction.

“In that case, this time I was attacked by the dynasty’s people, it has something to do with the Wu Clan?!” Ji Feng asked.

“It’s hard to say for now.”

Ji Zhenping said, “It’s true that Shao Jie is Wu Zhengxiang’s illegitimate son, but, whether this matter is involved with the Wu family or not, there’s no evidence yet.”

Ji Feng frowned and said, “Since Shao Jie has confessed, then this matter .....

“Shao Jie only admitted that he was Wu Zhengxiang’s illegitimate son, but denied everything else!” The first thing that I did was to leave him out there after I caught him, intending to wait for him to panic before interrogating him, but I didn’t expect that as soon as he was interrogated, he would admit that he was Wu Zhengxiang’s illegitimate son, and this time, it wasn’t good enough to use tactics on him again!”

Ji Feng was silent, I didn’t expect this Shao Jie really had some brains!

This is also a means of interrogation, if a person really has a ghost in his heart, then, if he is put in a room alone, his heart will naturally panic, and at this time in the dark observation, looking for the time to interrogate.

But Shao Jie unexpectedly admitted right away that he was Wu Zhengxiang’s illegitimate son, which undoubtedly gave him just one more layer of shield.

No matter if what he said was true or not, he couldn’t be subjected to tactics now. Although the Wu family was going downhill now, it wasn’t a decline, the old man of the Wu family was still around, and that was the lynchpin of the sea!

“So, if we can’t find tangible evidence now, we can’t do anything to Shao Jie yet?” Ji Feng frowned and asked.

“The confessions of Liu Gang and the others alone can only be considered as supporting evidence.” Ji Zhenping said.

Ji Feng couldn’t help but sneer, “It seems that Shao Jie has thought out his back way a long time ago, I’m afraid that he had already thought of how to respond when he was arrested.”

Ji Zhenping said, “Perhaps, there is a high level person guiding him behind the scenes, too.”

Nodding slightly, Ji Feng said, “That’s normal, since he is Wu Zhengxiang’s son, there must be someone behind him to guide him, or even, perhaps, his old man himself.”

“This is the reason why I didn’t move him easily!” Ji Zhenping said.

Ji Feng nodded silently, Shao Jie really couldn’t be moved easily ah, even though an illegitimate son wasn’t something honorable, and publicizing it would be considered a scandal for the Wu family, but, in

fact, this kind of thing really wasn't that uncommon inside the big families, it wouldn't have a big impact on the Wu family, at most it would have a certain impact on Wu Zhengxiang's reputation.

Even if it was more serious, it would have a certain hindering effect on Wu Zhengxiang's promotion, but no matter what it would not erase the fact that Shao Jie is Wu Zhengxiang's son.

"I now regret going through the normal procedure!" Ji Zhenping said.

Ji Feng heard a strong murderous intent in his little uncle's words and knew that he had a murderous intent towards Shao Jie, so he couldn't help but smile and said, "Little uncle, actually being able to force Shao Jie to admit his identity is no small gain."

Ji Zhenping said in a deep voice, "I'm going back to Yanjing in a couple of days, so you wait for my news again!"

"Little Uncle!"

Ji Feng hurriedly said, "Just leave this matter to me!"

Ji Zhenping said, "That's it."

The fact that Ji Feng had suffered an attack and was seriously injured had made Ji Zhenping extraordinarily annoyed, one could even say that he was shaken with rage. And this Shao Jie was obviously a key figure, and in Ji Zhenping's heart, he was already a dead man.

Even Ji Zhenping regretted that if he hadn't taken Shao Jie away through formal procedures and instead used extraordinary means, Shao Jie would have lost half his life by now, and even if he had admitted his identity again, he would never have escaped death!

But now, something had to be considered.

After all, the Wu family was not a sheep to be slaughtered!

No wonder Shao Jie was so arrogant, even more so than the original Wu Zhihe, it turned out that he had such an identity!

The first thing that happened to me was that I had to go to the hospital and I had to go to the hospital. He was still in prison.

The key issue is that since Shao Jie was involved in the attack on him, the relationship between him and Dynasty is worth talking about.

What about the ..... Wu family?

The first thing that came to mind was the face of Wu Zhengxiang, the second member of the Wu family. The middle-aged man, who was meticulously dressed and had shiny hair, looked like a serious man, but what kind of dirty side did he have in private?

Shao Jie is involved with the dynasty, but is Wu Zhengxiang staying out of it?

To find out, it depends on the results of Shao Jie's interrogation by the investigation team and the military, as well as the investigation of the surrounding area.

However –

The investigation team did not progress well.

After the investigation team had taken down three powerful figures directly by thunderous means, the information in that USB stick of Liu Gang's involved a large group of people, and many of them were figures with a certain amount of power, some of whom were to be looked up to by ordinary people in Southern Guangdong, even though they could not talk about calling the shots.

All of these people were taken down, and none escaped.

But when the investigation proceeded to this point, the storm, with Liu Gang at its centre, had come to an end, because those involved further down the line were only small fry, and the whole storm swept through only those involved with Liu Gang, and those related to the dynasty, almost none.

At this time, the contradictions were all focused on Shao Jie's body!

However, Ji Feng received a call from his younger uncle Ji Zhenping, a certain bigwig from the centre publicly named the investigation team's behavior in Southern Guangdong in an internal meeting, mainly blaming the investigation team for causing too bad an impact and spreading too widely, even using words like stirring up the wind and stirring up the rain.

And it also named the taboo of the military meddling in local affairs!

Ji Feng knew then that the Wu family was about to strike back, or rather, this was directly aimed at the military's detention of Shao Jie!

This big man's speech had attracted a lot of attention, yet at this time news was leaking out that another big man, known for his rigidity and integrity, was said to have made a speech during one of his inspections, and when talking about crime, he said that he would dare to take a stand, and that no matter who it was, as long as they broke the law, they would be investigated to the end and would never be tolerated!

Everyone knows that this big man has a clear brand of the Ji Department, from the grassroots, step by step into the central discipline inspection department, over the hard style by many bigwigs praise.

The fact that this big shot was making a speech at this time made many people shudder.

And on the same day, the Jiangzhou News Channel broadcasted a speech by senior city official Ji Zhenguo, in which he severely refuted various undesirable phenomena such as certain leading cadres reaching out indiscriminately and interfering with justice indiscriminately.

A blatant slap in the face!

This was no longer a tit-for-tat, but a blatant slap in the face of that big shot, given Ji Zhenguo's status!

Ji Zhenguo's speech caused a stir, and the strong reaction from the Ji family made people realise that this time when Ji Feng was attacked in Southern Guangdong, it had really stirred up the Ji family's anger, and no matter who it was, they would have to retreat in front of this huge and breathtaking force!

As expected, with Ji Zhenguo's speech, those who were originally pointing fingers or even talking about the investigation team's big move in Nan Yue, immediately shut up, and those whispers seemed to disappear without a trace overnight.

Then, an even more explosive news came out, one of the giants, Ji Zhenhua, raised an issue at the meeting, that the situation in South Guangdong had been rotten, which was directly related to the weak control of the hand in South Guangdong, and proposed to remove the top person in South Guangdong from his post and replace him with a more powerful person to take charge!

Astonishing!

The hand in charge of Southern Guangdong, that was a zzzj member, could already be called a head, and was still the benchmark figure of the Wu family. Now Ji Zhenhua is actually the head of South Guangdong, which is tantamount to declaring war on the Wu family!

Although no decision was made at the meeting that day, but rather the old man put the subject down for the time being and shelved it, this move by Ji Zhenhua was like a thunderclap that shook everyone's head and made them dizzy!

The Martial Family was suddenly thrown into an extremely passive situation!

Some thought that the matter involved the illegitimate son of the current head of the Wu family, Wu Zhengxiang, and that the Ji family was furious and had thrown out such a choice to the Wu family, whether to protect one of its own generals or to protect Shao Jie!

But some people think that the Ji family is not giving the Wu family a choice at all, but a direct action. The fact that Ji Zhenhua has stepped forward means that the entire faction is ready to attack the Wu family with this desperately powerful force.

But it was at this time that Ji Feng received a call from his father, in the phone call Ji Zhenhua just said, "Little Feng, go back to Jiangzhou to recuperate, your little uncle will send you back!"

### **Campus Master Chapter 3059**

But it was at this time that Ji Feng received a phone call from his father, in which Ji Zhenhua simply said, "Little Feng, go back to Jiangzhou to recuperate, your little uncle will send you back!"

Ji Feng then immediately understood, it seemed that the matter above was negotiated.

So Ji Feng started to pack up and leave the hospital. In fact, he had already spent enough time in the hospital, but because both Tong Lei and Xiao Yuxuan insisted that he continue to recuperate, that's why he didn't leave the hospital in the past few days.

As for the matters on the South Guangdong side, Ji Feng is still keeping a close eye on it, but right now, apart from the storm that has swept through South Guangdong, there is not much of a breakthrough in Shao Jie's case, and what relationship this person has with Dynasty is still unknown.

Liu Gang is purely a hit man. Although he is a big man in the road who calls the shots in Southern Guangdong and is the godfather, he is actually nothing in the eyes of the bigwigs, if anything, he is just a tool to make money, that's all.

The only reason Ji Feng paid attention to Liu Gang was because he owed Yang Xiaoyi a favor, and now he can think of what will happen to Liu Gang with his toes.

As for the official matters in Southern Guangdong, it is no longer Ji Feng's turn to care.

Before leaving Nan Yue, Ji Feng made a special trip to visit Zheng Yuanshan.

"Little Feng, it's really thanks to you this time!" Seeing Ji Feng coming over, Zheng Yuanshan took his hand and was overwhelmed with emotions. If Ji Feng hadn't sent Yang Bin the special effects current in time, it was still not clear whether he could have been rescued or not.

But Ji Feng shook his head and said, "Uncle Zheng, I'm ashamed to say that strictly speaking this time it was me who dragged you into this."

Why Zheng Yuanshan had been attacked, in fact, he was almost able to figure it out now. Because Zheng Yuanshan was the head of the police system in Southern Guangdong, when Ji Feng was attacked, the one who was most capable of quickly rescuing him was Zheng Yuanshan, even if the people underneath him did not listen to orders, the grassroots police still did not dare to disobey Zheng Yuanshan's orders.

The fact that he has come to South Guangdong for so long is not without gain, at least he has his own cronies and people, and his identity alone makes it absolutely impossible for some people to openly listen to the tone but not to the pronouncement.

So before attacking Ji Feng, take out Zheng Yuanshan first, so that Ji Feng loses his only arm, so that even if Ji Feng asks for help from outside, he will have enough time to take him out before the reinforcements arrive!

"I'm ashamed, I've been the head of the provincial department for a long time, but I'm still not in control of the whole situation!" Zheng Yuanshan shook his head slightly.

"Let's not talk about that, Uncle Zheng, take care of your injuries first, there are still a lot of things waiting for you to do next!" Ji Feng said with a smile, "Since certain people didn't take us down this time, it's time for them to go down!"

"That's right!"

A cold light flashed in Zheng Yuanshan's eyes, this attack was no less than a walk on the doorstep of a ghost for him, instead of scaring him, it gave him a glimpse of enlightenment, he was too forward looking in the past, which led to some people not putting him in their eyes at all, and even dared to lay their hands on him.

Zheng Yuanshan's injuries were not minor, and not just external, the impact of the explosion had left him with a slight concussion and his internal organs had been shaken, the doctor had instructed not to visit for too long, so Ji Feng just stood in the ward for a while and then left.

At the same time, an explosive piece of news circulated in Southern Guangdong.

The central government made a decision and issued a notice that senior officials in Southern Guangdong Province had been removed!

This news turned what had been some rumours of gossip into reality and caused a great shock in Southern Guangdong. As the head of Southern Guangdong, he was actually removed from office in this shakeup, which was practically the same as saying that it was a direct plucking of a banner of the Wu family in Southern Guangdong!

Although, in the notice, it was euphemistically stated that Comrade xx would no longer serve as a senior official in South Guangdong Province, pending a new appointment, in reality, anyone with a discerning eye could see that this was the most powerful and heavy-handed move by the Ji family, directly knocking out the iconic figure of the Wu family in South Guangdong!

No matter where this big shot will hold office in the future, at least, from today onwards, Southern Guangdong will no longer be the Wu family's backyard!

The Ji family's heavy-handed attack was so severe that it made people dizzy.

To the outside world, this news was a stone-cold shock that shook the four directions.

This means that the Martial Family's sphere of influence has been significantly weakened, and now I am afraid that only the north-western part of the country is still open to the Martial Family.

If the Martial Family is not able to turn around, then I am afraid that this is the beginning of a steep decline for the Martial Family, which has been on a downward spiral in recent years!

How can they stand firm when they don't even have a foundation?

This is tantamount to having a leg broken!

Southern Guangdong was shocked, Yanjing was shaken, and all the major factions couldn't help but look sideways!

And this also made people realise what the consequences would be if they really angered this behemoth of the Ji family.

Under this shocking news, the news of Shao Jie's release went unnoticed, just like a small stone thrown into the sea, the waves were not shocking!

When Ji Feng received this news, he couldn't help but be stunned!

The Wu family had chosen to protect Shao Jie and abandoned the top official of Southern Guangdong Province!

How could Shao Jie be so important to the Wu family? To be precise, was it so important to Wu Zhengxiang?

Even if Shao Jie was involved in the attack, there was no clear evidence that he had colluded with the dynasty, even though everyone knew that there must be a relationship between them, but nothing could be done to him because there was no evidence, at most, Shao Jie would be given a light sentence for other crimes, or maybe even just detention!

But even so, the Wu family was not even willing to do so, instead, they insisted on taking a high official position in South Guangdong Province in exchange for Shao Jie's safety, which was really a bit out of Ji Feng's expectation.

However, when Zhang Lei heard this news, he was immediately on fire.

"Grass!"

Zhang Lei couldn't help but curse angrily and turned to Guo Tao and Yao Zhijian and said, "Come with me to meet that son of a bitch, bring guys!"

Yao Zhijian immediately nodded excitedly, "Yes!"

Guo Tao was a bit hesitant, "Isn't it a good idea for us to go on our own?"

Zhang Lei waved his hand, "This isn't an operation, I'm just going to see how arrogant this son of a bitch really is!"

The attack on Ji Feng and Zheng Yuanshan were both related to this Shao Jie, and now this son of a bitch had actually been released, and although the Wu family had paid an extremely heavy price for this, Shao Jie was unharmed, which was something Zhang Lei would not allow no matter what.

If Shao Jie was let off so lightly, Zhang Lei could not swallow this anger.

"Go!"

Zhang Lei said in a deep voice.

Yao Zhijian suddenly said, "But we don't know where Shao Jie is!"

Zhang Lei said, "I'll ask around, he can't run anywhere!"

.....

"Shao Jie, you've finally come out, I've been worried these days!"

At the gate of the military compound, seeing Shao Jie coming, Zhai Yadong who had been waiting at the gate couldn't help but say.

Shao Jie held his head high and hummed, "What else do they dare to do to me?"

Zhai Yadong couldn't help but shake his head and laugh bitterly, "They didn't do anything to you, but that's not because of your status? Moreover, just because they didn't touch you, doesn't mean they didn't touch the Wu family, the current Wu family is almost like having a broken leg!"

"Hurry up and get in the car, go take a bath first to get rid of the bad luck ....." Zhai Yadong had not finished his words when he suddenly heard the roar of the engine come steeply, he turned his head to look and immediately saw a car was speeding up, without the slightest intention of slowing down.

"Shao Jie, get out of the way!" Zhai Yadong shouted.

Shao Jie was also startled and hastily turned around to dodge behind Zhai Yadong's car, but the speeding car made a sudden turn and crashed directly towards Zhai Yadong's car.

“Boom!”

Zhai Yadong’s car was instantly hit and slid back a few meters, right into Shao Jie’s body.

“Ah...!” Shao Jie shouted miserably, and his whole body tumbled out at once.

Dust flew from the scene, and Zhai Yadong, who looked shocked, shouted out, “Shao Jie!”

“Ah!”

Shao Jie was screaming and rolling on the ground, obviously hurt quite badly.

The two soldiers standing guard at the entrance of the military district saw this and rushed over, asking loudly, “What happened? Is anyone hurt?”

“Shit! Are you blind, can’t you see that I’m dying?” Shao Jie cursed as he screamed in pain, “Pull the bastard off that car and arrest him!”

The two soldiers looked at each other, but none of them moved.

“Sorry, we are not the police, we don’t have the authority to arrest people!” A soldier said, “We can call an ambulance for you!”

“.....”

Shao Jie really wanted to swear, “You don’t have the authority to arrest people? Who the hell brought me here? Huh?”

But the pain in his leg was so severe that he could only scream with a red face, so he had no time to curse.

Zhai Yadong hurriedly called for an ambulance, while angrily yelling, “Whoever is in the car, get down! Can’t you see that you’ve hit someone?”

“I can see!”

At that moment, a cold laugh came, “He’s the one I hit!”

Zhai Yadong froze at the sound of his voice, then he saw three young men get out of the car, all three with bad looks on their faces, and the one in the lead had an icy look on his face.

“You were the one who said that just now? What do you mean by that?” Zhai Yadong said angrily.

“What do you mean?”

The young man sneered, “That’s what it means! Shao Jie, come here today, we have some scores to settle!”

This was not a good thing!

As soon as those words came out, Zhai Yadong and Shao Jie both instantly reacted, these three young men were coming for Shao Jie, no wonder they didn’t slow down at all and just rammed into him, they clearly wanted Shao Jie’s life!

“Shit!”

When did Shao Jie ever suffer such anger, he immediately said angrily: “Who are you to settle accounts with me? If I don’t kill you, I’ll write my name upside down!”

### **Campus Master Chapter 3060**

“Shit!”

When did Shao Jie ever suffer such anger, he instantly said angrily, “Who are you to settle accounts with me? If I don’t kill you, I’ll write my fucking name backwards!”

The young man snickered, “Or you can just turn it upside down!”

The next moment, he took two steps forward and headed straight for Shao Jie, Zhai Yadong was startled and hurriedly blocked Shao Jie’s way: “What are you doing?”

“Get lost!”

The young man kicked Zhai Yadong in the stomach, knocking him to the ground, and then without even looking at him, he went straight forward and grabbed Shao Jie with a fierce smile on his face, “Shao Jie, young master of the Wu family, today I want to settle accounts with you!”

“You .....

“Slap!”

A loud slap ruthlessly smacked Shao Jie’s face, knocking his words back raw, “This slap, it’s for Director Zheng, you simply have the audacity to touch anyone!”

Shao Jie’s eyes widened abruptly as he stared at the other party, as if he couldn’t believe that the other party dared to treat him like this.

“Slap!”

Another slap, instantly reddening the other side of Shao Jie’s face, “This slap, it’s for Ji Feng, you fucking think that because you’re Wu Lao Er’s seed, no one dares to treat you? No one can cure you? Idiot!”

“Slap!”

Shao Jie was simply going crazy, after being slapped three times in a row, Shao Jie was simply going crazy with hatred, he struggled desperately, “Ah... ah... I’ll kill you, I’ll kill you! ”

The young man sneered, “Kill me? No problem, I’m waiting for you to kill! But for now, it’s better for me to teach you a lesson first!”

The next moment, he lifted Shao Jie up hard and smashed him on the ground fiercely.

“Boom!”

Shao Jie was simply dying from the fall, he felt that all his bones were about to break, but what made him suffer even more was being humiliated in such a way, he roared in agony, “You, you are Zhang Lei .....

“Heh! So you know me! Looks like you’ve been premeditating for more than a day or two!” Zhang Lei laughed coldly, and the murderous intent in his eyes intensified. He hadn’t introduced himself since he came over, but this Shao Jie actually knew him, there was no doubt that Shao Jie must have read his information before, which meant that Shao Jie had premeditated.

The look in Shao Jie’s eyes was full of resentment and he looked at Zhang Lei in a way that he could not wait to tear him apart.

Zhang Lei’s face sank and he kicked over, “I’ll let you read it!”

Boom!

Shao Jie’s eyes were blackened by the kick and he almost fainted, his internal organs seemed to have shifted, and his mouth let out a miserable scream, “Ah...”

Zhang Lei tidied up his clothes, coldly looked at Shao Jie who was screaming in pain on the ground, and said disdainfully, “I thought I was some kind of three-headed, six-armed figure, but it turns out to be just such a piece of shit, what a thing!”

“.....”

Shao Jie hated it so much, but that fall just now was so hard that he couldn’t speak at all because of the pain.

Zhang Lei sneered, “If you want to take revenge, I’ll be ready to accompany you! But next time if it falls into my hands, I guarantee that I will make you more comfortable than this time, humph!”

After saying that, he turned around and left to get into the car whose front end had been battered beyond recognition. Guo Tao and Yao Zhijian slowly backed up and got into the car as well after making sure no one else attacked.

As he watched Zhang Lei drive away in a huff, Shao Jie, angry and in pain, roared frantically, “Ahhhhhh-”

“Shao Jie, are you alright?” Zhai Yadong rushed over to pull him, but as soon as he pulled Shao Jie screamed even louder, “Don’t move ah—”

“Zhang Lei, I won’t let you go!”

Shao Jie roared in pain.

After lying on the ground for a while, Shao Jie more or less slowed down, gritting his teeth and taking out his mobile phone, while saying to himself, “I won’t let you go, I’ll make you walk out of South Guangdong .....”

“Shao Jie!”

Zhai Yadong was so frightened that he hurriedly pressed his hand and said, “Don’t you mess around!”

“I messed up?”

Shao Jie said angrily, “I’ve been beaten like this, and I don’t retaliate back?”

Zhai Yadong hurriedly said, “You can’t retaliate now, Shao Jie, this is not the time!”

“What time is it? Old Zhai, you’d better stop nagging, or else don’t blame me for turning my back on you!” Shao Jie said angrily.

“The Wu family’s roots in Southern Guangdong have been cut off!” Zhai Yadong drank.

“..... what?” Shao Jie did not react for a moment.

Zhai Yadong had to tell all the things that had happened in Southern Guangdong in the past few days, “Now the whole of Southern Guangdong is on edge, the influence of the Wu family in Southern Guangdong has dropped to a freezing point, now there won’t be anyone to listen to you at all, if you make this call, it will be difficult to end it!”

Shao Jie was dumbfounded after hearing this, and froze in place.

Only after a long time did he say, “How is this ..... possible?”

Zhai Yadong laughed bitterly, “The Ji family is really too powerful, I also received a call from your father before I came to pick you up, he told you to go back to Yanjing immediately after coming out and not to stay in Southern Guangdong anymore, but I didn’t expect .....”

Shao Jie was frozen.

.....

“You went to teach Shao Jie a lesson?” When Ji Feng learned the news, Zhang Lei had already returned to the hospital.

“I couldn’t swallow my anger if I didn’t teach him a lesson!” Zhang Lei said, “I thought this son of a bitch was capable of something, but it turns out he’s just a goon, far worse than Wu Zhiyong, I really don’t know why the Wu family’s oldest brother is so precious to such a waste of a son!”

Ji Feng couldn’t help but shake his head at his words, “You think he’s a loser, but Wu Zhengxiang may not think so. However, you kid is a bit impulsive this time.”

Zhang Lei hummed, “It’s good that I didn’t beat him to death.”

Ji Feng smiled and shook his head, Zhang Lei’s temper was like this, he knew it too well, so he didn’t say anything more, he just said, “I think you’d better not stay in South Guangdong, we’ll go back to Jiangzhou together, as for Shao Jie’s place, if you beat him up, you can just push it on me if there’s any problem, let him come to me!”

Zhang Lei said, “What words! I beat up the man, I’ll say that to anyone who comes.”

Ji Feng patted his shoulder and didn’t insist any more, they didn’t need so much courtesy between the two brothers, but there was no doubt that if Shao Jie wanted to find trouble with Zhang Lei, he would first have to go through him.

Afterwards, after visiting Zheng Yuanshan again, the group headed for the airport. As they were leaving, Ji Feng sent a text message to Yang Xiaoyi.

“Xiao Ai, I’m going back to Jiangzhou, your father’s matter has been resolved, the culprit will have a miserable end, you don’t have to worry that there will be trouble haunting you in the future. These days

in Southern Guangdong might have caused you some inconvenience and trouble, I hope you understand, and I hope you will be happy in the future!”

Ji Feng knew that after the investigation team came, they had approached Yang Xiaoyai several times to understand the situation because of the assault and murder, which might have caused some impact on Yang Xiaoyai’s life.

However, Yang Xiaoyai’s future path would definitely go smoothly because Zheng Yuanshan still remained in Southern Guangdong and knew that Yang Xiaoyai was his friend and would definitely take care of her.

As for whether Zheng Yuanshan would misunderstand the relationship between Yang Xiaoyai and him, Ji Feng did not explain because there was no need to do so, and it would probably be better for Yang Xiaoyai not to explain.

At this time, in the inpatient department of Yuezhou City Hospital, Yang Xiaoyai, who was wearing a snow-white nurse’s uniform, finished reading this text message, squeezed her phone tightly and looked in the direction of the airport.

She bit her lips and stood quietly in front of the window, as if she was obsessed.

When he returned to Jiangzhou, Ji Feng was immediately ordered to stay at home and rest. Xu Yuan and Qin Shujie both got the news and rushed over to see him, and Bai Zhu even followed Ji Feng with a taut face, which made Ji Feng happy and helpless.

However, so that he had more free time, he decided to start researching new weapons.

The rapid development of the dynasty’s technology level shocked Ji Feng, Luo Qiu was a typical example, he was originally an ancient martial arts expert after being transformed by the dynasty, he would be so powerful, Ji Feng believed that even Zhang Lei would not be a match if he faced Luo Qiu.

An ancient martial arts master was not easy to cultivate, however, transforming people seemed too easy for Dynasty, now that there was another example of successful combination, perhaps in the future Dynasty could manufacture new types of transformers in bulk, if that was the case, it would be a terrifying scene!

So, Ji Feng felt a lot of pressure to make all those weapons in his mind one by one as soon as possible.

Now that the Tengfei Group was already rising rapidly and had gained a firm foothold in the international arena, the explosion of the Kang Yuan slimming powder and the 3d TV set had already doomed the Tengfei Group to never fall down so easily, solving down as long as it kept introducing new technologies and ensuring a leading position, no one could overtake it.

And at home, Ji Feng also no longer has too many worries, the big deal is to cooperate with the military, at the very least to make the weapons first.

Just when Ji Feng was diving into the technology, the storm in the outside world was also gradually calming down, because the strong counterattack of the Ji family lineage made the Wu family in Southern Guangdong directly broken spine, the provincial senior officials were directly transferred away, and the senior officials were even directly taken down.

And after a series of fierce collisions and compromises between the major factions, a senior provincial official was finally parachuted in, not belonging to the Wu family's line, nor the Ji family's line, but in many cases, the faction that that person was in had worked with the Ji family quite a few times.

Taking advantage of this opportunity, Qian Hongda took a step further and sat on the throne of a high official, successfully taking a big leap forward.

As for the other positions, they were clutched in the hands of the major factions through various means, but there is no doubt that the biggest winner this time is the Ji family. At least, the defeat of its arch-rival, the Wu family, in Southern Guangdong is a big victory for the Ji family, not to mention that the Ji family has taken advantage of the victory to take over half of the country in Southern Guangdong.

Together with the central and northern parts of the country, the Ji Clan has become a colossal force to be reckoned with, and a force to be reckoned with!

The Wu family has taken a sharp turn for the worse!
