

Campus Master Chapter 3091

The interrogation of Wang Wengao continued, but the problems he had explained were reported in the first instance, and a storm was then kicked up nationwide.

An unknown number of people were arrested, and although it was all done in secret, it caused quite a shock.

This was because many of those people that Wang Wengao gave an account of were entrepreneurs, or figures with a certain degree of influence in society. Among them, there was even the richest man in a certain city.

However, after the surprise interrogation and the collection of evidence, it was proved that the vast majority of them were not wrongly accused, they were all related to Dynasty.

This also reassured Ji Feng and Xiang Yongzhan a lot, which showed that Ji Feng's interrogation techniques on Wang Wengao were still useful.

However, what Ji Feng wanted to know most was the identity of Number One.

But less than half a day after Ji Feng left, just in the afternoon, Ji Feng suddenly received a call from Xiang Yongzhan, in which Xiang Yongzhan said in a low tone, "Ji Feng, something has happened."

Ji Feng's heart stuttered: "What happened?"

Xiang Yongzhan said in a deep voice: "What that guy said came true."

Ji Feng's first thought when he heard this was that Wang Wengao had been silenced, but this kind of question could not be asked over the phone, so he immediately said, "Where are you, I'm coming over to you."

"Don't come over now, the place is blocked off, you can't get out or in." Xiang Yongzhan said, "I'm calling you this number so that you have something in mind, someone might even go to you later to investigate."

"Do you know who did it?" Ji Feng immediately asked. He realized that his guess had come true, Wang Wengao might really have been silenced, otherwise, the military camp wouldn't have been locked down, and how could Xiang Yongzhan, as the brigade leader of the special operations brigade, not be able to get out?

"I don't know."

Xiang Yongzhan's voice carried a hint of depression as he said helplessly.

Ji Feng nodded and said, "That's fine, take your time."

Not long after receiving Xiang Yongzhan's call, Ji Feng received a call from his younger uncle, Ji Zhenping, in which Ji Zhenping didn't say much, but only asked Ji Feng to go to his office.

When Ji Feng arrived at Ji Zhenping's office, he saw several people in military uniforms waiting for him in the office, and when he saw him enter, Ji Zhenping said, "These comrades from the investigation team have something to ask you, you have to cooperate honestly."

Immediately, Ji Feng realised that this should be what Xiang Yongzhan had said, that someone would come to investigate him, and that it must be about Wang Wengao's silencing.

He nodded, "No problem."

"Mr. Ji Feng, is it alright if we talk alone?" The person who spoke was a middle-aged man around forty years old, this person was a bit slim and had a stern look in his eyes.

"No problem!" Ji Feng nodded his head.

"Good then, please come with us." The middle-aged soldier said, "Don't worry, it's in this building."

Ji Feng smiled, "There's nothing I don't worry about!"

Since the other party came to him through his younger uncle Ji Zhenping, he naturally wouldn't have anything to worry about, it would only be troublesome if someone suddenly came to take him away and didn't inform anyone.

The room was simply furnished with a few chairs and a table, with a water dispenser at the back. One of the soldiers poured a glass of water for Ji Feng, but Ji Feng waved his hand to indicate that it was not necessary.

Seeing that Ji Feng refused the water, the middle-aged soldier gave him a thoughtful look, "Ji Feng, we called you here to ask you about the trajectory of your activities from yesterday to today, and what happened."

Ji Feng asked, "Which aspect?"

Although he knew full well that Wang Wengao had been silenced but could not say so, the matter of Xiang Yongzhan calling him might not be concealed from people, but it could not come out of his mouth voluntarily.

"Yesterday you assisted the special operations brigade and captured Wang Wengao because you suspected him of being the king in charge of the dynasty in China, right?" The middle-aged soldier did not beat around the bush, but went straight to the point.

"That's right."

Ji Feng nodded, "Not only did we capture Wang Wengao, we also interrogated him, is there any problem with that?"

The middle-aged soldier said, "The problem is that just today, Wang Wengao was silenced. Do you have anything to say about that?"

"Silenced?"

Ji Feng couldn't help but shake his head, although he had already guessed it in his heart, but now that he got the confirmation from this middle-aged soldier's mouth, he still couldn't help but sigh, a thousand precautions, but he still failed to prevent it.

He thought of Xiang Yongzhan's depression again, and his heart could not help but feel the power of the dynasty and the depth of its infiltration of China.

“How was Wang Wengao silenced?” Ji Feng asked.

“We can’t answer you.”

The middle-aged soldier shook his head, “In the course of your contact with Wang Wengao, did you find anything suspicious?”

Ji Feng thought about it and said, “To say that there was, it was that Wang Wengao had mentioned at the beginning that his capture was someone throwing his car to protect his marshal and that he might be silenced.”

The middle-aged soldier nodded and asked again, “Then, after you left the barracks, did you have any contact with other people?”

Ji Feng shook his head, “Apart from my family, I didn’t have any contact with anyone. You can rest assured that the news was not passed on by me.”

The middle-aged soldier said, “We are also just routinely investigating all those who are in the know about this incident.”

Ji Feng nodded and said, “Understood.”

The investigation team didn’t ask Ji Feng too many questions and quickly left.

Ji Feng knew that there was not much suspicion on him, otherwise the investigation would not have been so easy, there was video evidence of the situation at that time and I believe that the top must have known about it, it was just a procedure to rule out all suspicions, which was the procedure of the investigation.

In fact, Ji Feng was equally curious, Wang Wengao was actually silenced in what way, in the heavily guarded military area, who had the opportunity to do so?

Ji Feng was regretful in his heart that Wang Wengao had really been silenced, the identity of No. 1, and the trail was broken.

Who is this No.1, so powerful?

In fact, from the time Wang Wengao was arrested until now, Ji Feng has been thinking about a phrase Wang Wengao once said, throw the car to protect the marshal!

The meaning of this statement was that Wang Wengao was actually the car that was thrown out in order to protect that handsome.

This made Ji Feng a little puzzled as to why throwing Wang Wengao out would protect Shuai.

Who was Shuai?

Originally, if Wang Wengao was not thrown out, they were all in two minds about the dynasty and could not threaten Shuai at all!

Thinking of this Ji Feng suddenly had a movement in his heart, unless the state is doing something that has threatened that marshal, so forced to have no choice but to throw out Wang Wengao, the king, so that he can act as the car that is sacrificed!

So, what is the state doing?

The investigation about Wang Wengao being silenced lasted for a long time, but only the next day Xiang Yongzhan came out, and after receiving his call, Ji Feng immediately went to the military camp and met Xiang Yongzhan.

“The investigation into me is over, the suspicion is lifted!” Xiang Yongzhan showed his hands to Ji Feng, his tone full of helplessness, “But Wang Wengao was silenced!”

“How exactly was Wang Wengao silenced? Didn’t I remind you before that you should strengthen your protection and make sure that Wang Wengao is safe!” Ji Feng frowned, this was also a question he had been unable to figure out.

Xiang Yongzhan said helplessly, “If only I could know how Wang Wengao was silenced! The interrogation experts from the intelligence department and I are taking turns interrogating Wang Wengao, and to keep him safe, we haven’t even eaten, we’ve just injected him with nutritional fluid.”

Ji Feng asked in disbelief, “Then how did Wang Wengao die?”

Xiang Yongzhan said, “That’s what I can’t figure out, I was in the middle of interrogating Wang Wengao when that son of a bitch suddenly lost his voice, and then I found him dead. But how he died, I really don’t know the reason, there was no sign at all

Ji Feng interrupted him and immediately asked, “Did Wang Wengao have any wounds on his body?”

The actual fact is that you can find out what the reason is. Poisoning, trauma and so on all kinds of possible causes we have thought of, but none of them have been found out.”

Ji Feng frowned, “You can’t even find out the cause of death?”

Xiang Yongzhan shook his head with a bitter smile.

“Wang Wengao was really accurate when he said he was going to be silenced, and indeed he was really silenced.” Ji Feng shook his head, “What is the reaction of the authorities to this?”

“What can be the reaction? Only to continue the investigation!” Xiang Yongzhan shook his head, “Only when we find out the cause of Wang Wengao’s death can we follow the line of inquiry, either that or continue to trace the dynasty on the outside!”

Ji Feng asked, “No clues about No. 1 either?”

Xiang Yongzhan shook his head, “No. I understand what you mean, Wang Wengao is obviously talking nonsense, that one is already dead, it’s not easy to say whether the top will investigate someone who is already deceased because of Wang Wengao’s words.”

He knew that Ji Feng was asking a question about Wu Zhengmin, but Wang Wengao was obviously talking nonsense at that time, at that time if Ji Feng had not recognized that Wang Wengao was already

sober, perhaps the question could still be investigated, but since Wang Wengao was already sober at that time, it was hard to say whether what he said was true or not.

The fact that Wang Wengao's words were not true, whether or not the top would investigate Wu Zhengmin is still up in the air, after all, although the Wu family has fallen, but the influence is still there.

Ji Feng frowned and asked, "So, this is the end of the matter?"

Xiang Yongzhan nodded helplessly, "This seems to be the case now, unless new clues can be found. There are only two paths now, one is to break through from Wang Wengao's death, and the other is to continue the investigation from the clues held by the outside."

Ji Feng was disappointed in his heart, China had not been investigating Dynasty for a day or two, if it was that easy to trace, how could Dynasty still penetrate so deep in China?

"The immediate priority now is to find the young male Qiao Gakai as soon as possible." Ji Feng shook his head, "I will return to Jiangzhou tomorrow, tell me in time if you have any news."

Campus Master Chapter 3092

Wang Wengao was silenced so that Ji Feng once again learned the extent of the dynasty's infiltration in China, and what puzzled him most was the way Wang Wengao was silenced.

There were no wounds, no poisoning, so how did Wang Wengao die?

Ji Feng felt sorry that he could not be involved in the investigation, despite his status as a military advisor, he could not actually be involved in such work, as he himself had only just been cleared of suspicion.

Back home in Jiangzhou, Ji Feng looked at the empty villa and couldn't help but feel a little emotional.

It's only when you have people that you call home!

What kind of home is it when there is no one in it?

During the move, almost everything in the Jiangzhou villa was left untouched, except for some important things that were moved away, all the furnishings were left intact, but Ji Feng felt no meaning at all when he lived here.

"Eldest young man?!"

Seeing Ji Feng, Xu Yuan's charming pretty face was instantly filled with joy, because of her excited mood, it made a flush appear on her already moving face, making it even more heart-thumping, "Big young man, why are you here all of a sudden?"

Ji Feng heatedly laughed as he picked Xu Yuan up in a horizontal hug, causing the beautiful woman to let out a soft cry and hurriedly look at the office door to make sure it was closed, and only then did she let out a sigh of relief.

The two of them had no more words to say, and they lingered on the sofa.

The clouds closed and the rain stopped.

The intense exercise made Xu Yuan's body drenched in sweat, and a few strands of her hair were stained on her forehead, making her even more charming.

With her lily-white fingers drawing circles on Ji Feng's chest, Xu Yuan nestled in Ji Feng's arms, feeling the manly scent that made her heart flutter, and was in an extraordinarily good mood, "Big young man, why did you suddenly come to my place?"

Ji Feng laughed, "Aren't you happy that I came?"

"Yes!"

Xu Yuan bit her lip, "I've gotten used to being alone, you suddenly coming over makes me uncomfortable!"

Ji Feng felt guilty at his words, although Xu Yuan was pampering him, he understood that the time he spent with Xu Yuan was still too little, especially in the last half year, he stayed on island number one most of the time, although he came to Jiangzhou occasionally, the number of times he came to Xu Yuan's place was also very limited.

Although the two of them were constantly on the phone, Ji Feng was now no longer a first-time brother, so he naturally knew that women needed company, and he couldn't pull in his feelings just by phone.

"Yuan Yuan, do you want to go to Island No. 1?" Ji Feng asked.

Feeling the man hugging her tighter, Xu Yuan knew that Ji Feng was feeling sorry for herself, she smiled sweetly and shook her head, "Forget it, I'd rather stay in Jiangzhou."

Ji Feng asked, "Why don't you want to go to No. 1 Island?"

At that time when the Tengfei Group moved to Island No. 1, Ji Feng wanted Xu Yuan to go there with him, but then Xu Yuan changed her mind and did not go to Island No. 1.

Although Xu Yuan's reason was that she was used to staying in Jiangzhou and didn't want to go elsewhere, Ji Feng knew that this was definitely not her true intention.

Xu Yuan said, "Eldest young man, I'm fine in Jiangzhou, really."

Ji Feng asked, "You're worried that Yu Xuan and Lei Lei are angry, aren't you?"

Xu Yuan pursed her lips and didn't say anything, obviously acquiescing.

Ji Feng sighed lightly and just wanted to speak but was interrupted by Xu Yuan, "Eldest young man, you should stop persuading me, I'm really fine here. My heart can only hold you alone, whenever you miss me, just come over and find me"

Ji Feng did not speak again, in fact he knew in his heart that Xu Yuan was indeed worried that Xiao Yuxuan and Tong Lei would be angry after she went to Island No. 1, but more than that, Xu Yuan's heart had some inferiority complex.

The reason is that Xu Yuan's origin, and her previous sales and inevitably have to deal with a lot of men, although not being taken advantage of, but the body of the kind of dusty atmosphere and Xiao Yuxuan and Tong Lei's kind of temperament a comparison, more or less still some gap.

In fact, Ji Feng himself is clear that Xu Yuan's current temperament is already very good, long-term insistence on continuous practice of body-building exercises, so that Xu Yuan now no matter whether it is the figure or appearance, are extraordinarily moving.

The fact that Xu Yuan has a glowing appearance after practicing gymnastics makes her no worse than any of the stars on TV, but Xu Yuan can't get over that hurdle in her own heart.

So Ji Feng did not persuade her again, he could not stay in Jiangzhou for a few days, so he might as well spend time with Xu Yuan to make her happier.

Ji Feng stayed in Jiangzhou for a total of five days. During this period, apart from visiting Ji Zhenguo and his wife at his second uncle's home and having a good drink with his second brother, Ji Shaolei, he kept Xu Yuan company all the time, so that Xu Yuan's pretty face never broke into a smile.

Because the man was with her, Xu Yuan also came to be excited, and went out with Ji Feng just like an ordinary couple, watching movies, without even letting her bodyguard follow.

When they traveled they also did the underground or bus, and sometimes when they got on a familiar underground, Xu Yuan would tell Ji Feng about which hospital she used to run to when she took this underground or which bus she took.

Ji Feng took Xu Yuan's hand, "Go!"

Xu Yuan said, "Why are you going?"

Ji Feng laughed, "Take the route you ran back then, and we'll run it again!"

Xu Yuan laughed, "You're out of your mind, I've run all over Jiangzhou at that time, are we going to run it all over again now?"

Ji Feng said, "Of course! Let's go beautiful, you don't have a choice!"

Xu Yuan helplessly said: "You really want one thing, can't stand you" Although the words were said, but Xu Yuan's face was full of smiles and her grip on Ji Feng's hand tightened.

.....

The number one island happens to be at the forefront of the conflict, so Ji Feng naturally cannot always stay in Jiangzhou.

Before he left, Ji Feng went to the Rong family.

"Boss"

Rong Peng was full of smiles as soon as he opened his mouth, only to be interrupted by Ji Feng.

Ji Feng said, "Uncle Rong, if you call me that, then I'll turn around and leave!"

Rong Peng laughed harshly, "Good! Little Feng, please come in."

"That's more like it!"

Ji Feng smiled and followed Rong Peng into the small courtyard of the Rong family villa, but saw a cream coloured BMW x5 parked in the courtyard, he smiled and asked, "Uncle Rong, bought a new car again?"

Rong Peng smiled, "This is Suyan's car, the original one is broken"

Ji Feng nodded and laughed: "It seems that this rice country-made car is just too rough and has too many problems!" He remembered that the original Rong Suyan had a rice country jeep Grand Cherokee, he had always heard that this car had a lot of problems, this is only less than a year Rong Suyan changed her car, it seems that she should also be unable to stand it.

Rong Peng snorted and said, "Little Feng, go to the living room, it just so happens that your aunt is preparing to cook dinner, we must have a few drinks today."

Ji Feng smiled and said, "Good!"

Walking into the living room and taking his seat, Ji Feng asked, "Uncle Rong, are things still going well with the company?"

Tengfei Group moved out, but Rongpeng Company stayed behind, because Rongpeng Company was specialized in the production of new chrome alloys, which had been classified as strategic materials by the state, so in order to avoid suspicion, it was not moved out. This was also one of the military's conditions at the beginning.

The company's name is a reference to the company, Rong Peng came to the spirit, roughly introduced the situation once, Ji Feng listened can not help but secretly nod, it seems that Rong Peng really used the heart, many data Rong Peng completely open mouth, not at all with a joke, see usually these data Rong Peng has long been rotten to the heart.

"Little Feng, I, Old Rong, really have to thank you for your trust, before giving me such a chance to start over!" Rong Peng couldn't help but lament, if it wasn't for Ji Feng, he would definitely still be idle at home now, where would he have the opportunity to be so full of energy now?

It was as if Rong Peng had returned to the time when he first founded the Rong Peng Group, so he was ambitious!

After the two of them chatted for a while, Ji Feng casually asked, "Where is Suyan? Her car is at home, why haven't you seen anyone?"

He had already greeted Madam Rong, but he hadn't seen Rong Suyan, which made him a bit strange.

Mrs. Rong was just about to say something when Rong Peng laughed, "Oh, Suyan's a bit unwell and is resting upstairs. It's alright, let's talk about us."

Ji Feng asked, "Not feeling well? It's nothing serious, right?"

Rong Peng shook his head and said, "It's nothing, it's just an ordinary cold and flu, rest for two days and you'll be fine."

Only then did Ji Feng nodded with slight relief and said, "That's good. By the way, Uncle Rong, I think you can discuss with Su Yan, let her take a break from Rong's venture capital, better go to the company

to help you as well, otherwise it's really too tiring to rely on you alone, you are a valuable asset to our group, you can't be exhausted!"

Rong Peng laughed: "I'm not a fortune, I'm an old man!"

Ji Feng laughed and said, "There is an old saying that says, "An old man is like a treasure in a family!"

Rong Peng laughed at this remark.

After having dinner at Rong Peng's house, Ji Feng sat for a while longer and then got up to say goodbye. Rong Peng was in a happy mood and had two more drinks and had gone upstairs early to rest, so it was Mrs. Rong who came out to see him off.

"Auntie, stay here, I'm fine!" Ji Feng said with a smile.

"That"

Mrs. Rong, however, was a little hesitant, seemingly wanting to say something but then stopping.

Seeing this, Ji Feng couldn't help but ask: "Auntie, do you want to say something? If you have something, just say it directly, it's fine."

Mrs. Rong said, "Actually, it's nothing, it's just Su Yan"

"What's wrong with Su Yan?" Ji Feng asked.

"Suyan she is not suffering from a cold, she is injured." Mrs. Rong said.

Ji Feng was stunned and immediately asked, "Injured? Auntie, how did Suyan get injured?"

Mrs. Rong said, "She met a bad person and was almost kidnapped, fortunately someone passed by and saved her, but she was also frightened and got hurt a bit!"

Ji Feng was instantly shocked, "Kidnapped?!"

Campus Master Chapter 3093

Madam Rong's words took Ji Feng by surprise, Rong Suyan had almost been kidnapped? And she had been injured because of that?

Ji Feng immediately asked, "Auntie, can I go see Suyan now?"

Mrs. Rong shook her head with some difficulty and said, "After Su Yan was injured, her heart is rather fragile, it's better to forget about it!"

Ji Feng nodded, since Madam Rong had said so, he couldn't insist, "Auntie, how is Suyan's injury?"

Although Mrs. Rong said that Rong Suyan had only suffered some minor injuries, Ji Feng was a little worried.

Mrs. Rong said, "It's no big deal, it's just that the injury is not in the right place"

Seeing Madam Rong shaking her head and sighing, Ji Feng was stunned, hurt not in the right place? The meaning of this statement is

“Auntie, what kind of person wants to kidnap Suyan?” Ji Feng was not good enough to pursue the place where Rong Suyan was injured, so the conversation turned and asked about what had happened.

“It was a week ago, that day Su Yan was returning home from work, on the road she suddenly met with a traffic accident, she was attacked by bad people when she got out of the car, fortunately a police officer passed by at that time and saved her.” Speaking of this matter Mrs. Rong’s face still had a worried look on it, obviously still a bit scared.

Ji Feng asked carefully again, but Mrs. Rong didn’t say anything either, so he had to let it go.

He guessed that it was because Rong Suyan was afraid that Mrs. Rong would worry, so she didn’t say much. Since Mrs. Rong didn’t know the details, Ji Feng planned to ask Rong Peng again, but Rong Peng was drunk, so Ji Feng didn’t bother him again.

On the way back, the more Ji Feng thought about it, the more he felt that something was wrong, Rong Suyan was almost kidnapped and Rong Peng didn’t even mention a word about it to himself.

But after thinking about it, Ji Feng didn’t come up with a reason, so he put the matter behind him for the time being.

In the evening, Ji Feng stayed at Xu Yuan’s place. Because she knew Ji Feng was staying here, Xu Yuan came back from work early and waited at home.

The place where Xu Yuan lived was a small house of only eighty square feet, and it was not crowded for her to live here alone, but rather looked very cozy.

These were undoubtedly Xu Yuan’s happiest days, she and Ji Feng were like a real couple, during the day Ji Feng went to work on his business, Xu Yuan had to go to work at the pharmaceutical factory, in the evening they returned to this nest, Xu Yuan happily cooked dinner and enjoyed the food together with Ji Feng.

The next morning, after Xu Yuan left for work, Ji Feng looked at the time, took out his mobile phone and called Rong Peng’s number.

But the person who answered the phone was a young man, and only then did Ji Feng know that Rong Peng was having a morning meeting. After waiting for another half an hour or so, Ji Feng dialed Rong Peng again and finally got through.

“Uncle Rong, I heard that Su Yan was almost kidnapped, right?” Ji Feng asked as he got straight to the point.

“Who told you that?” Rong Peng blurted out, and then laughed bitterly, “You heard it from your friends at the police station, right? Actually, I didn’t want to hide it from you, with your energy, it would be easy to know about this matter.”

Ji Feng was a little ashamed in his heart, if he wanted to investigate anyone in Jiangzhou then there was certainly no difficulty, however, this time he really didn’t hear it from someone at the police station, nor did he think about going to the police station to investigate about Rong Suyan’s almost kidnapping.

“Uncle Rong, I don’t know exactly what’s going on yet, can you tell me about it?” Ji Feng asked.

“Actually, this matter alas! It’s all a debt from the past!” Rong Peng sighed and said, “Little Feng, when Su Yan was kidnapped, it wasn’t actually an ordinary kidnapping, the kidnappers told her that someone wanted to see her, but Su Yan didn’t comply at the time and that’s why she was injured when she resisted.”

Ji Feng immediately asked, “Uncle Rong, who did it?”

Since Rong Peng said it was a previous debt, Ji Feng knew that Rong Peng must be clear about what was going on, and even knew who wanted to kidnap Rong Suyan.

Rong Peng sighed, “I’m just guessing, it could be the Wu family.”

Ji Feng felt a little strange and asked, “The Wu family? But who else in the Wu family would do that now?”

Although Ji Feng did not know the situation of the Wu family very well, he could also analyze it, now the Wu family was far from the Wu family of the past, Wu Zhengmin had died, the third generation Wu Zhengxin was still in prison, and now only Wu Zhengxiang was struggling to hold on.

As for the third generation of the Wu family, the most threatening Wu Zhiyong has disappeared at this time Thinking of this Ji Feng suddenly had a movement in his heart, Wu Zhiyong is missing not dead, could it be that he is going to make a move on Rong Suyan?

“I also just guess, can not be sure.” Rong Peng said.

Ji Feng mused, “Uncle Rong, I think it’s better to hire two bodyguards for Suyan, even if it’s not done by the Wu family, now that someone is watching her, there might still be danger in the future.”

Rong Peng said, “I also have this plan, these days let Suyan recuperate at home, at the same time, I am also thinking of finding suitable bodyguards for her, but it’s not easy to find trustworthy bodyguards now.”

Ji Feng thought about it and said, “Uncle Rong, how about this, I’ll find two bodyguards for Suyan.”

“Really?”

Rong Peng was surprised to hear that, with Ji Feng’s energy the bodyguards he found would definitely not be bad, “Little Feng, then thank you.”

Ji Feng smiled, “You don’t have to be polite with me, Uncle Rong, you should also be more careful these days, I’ll see if I can find you a reliable bodyguard as well, just wait for my news, you should have news soon.”

After hanging up the phone, Ji Feng couldn’t help but frown, he decided to go to the Jiangzhou police station to find out the details of the situation, anything involving the Wu family was not a trivial matter, Ji Feng had to pay attention to it.

On the way to the police station, Ji Feng called Ji Shaolei and asked him to help find two reliable bodyguards.

In fact, it is not difficult to find bodyguards, there are many veterans, even those in the special forces can be found as long as they are willing to spend money, but if they do not know their roots, they will still have reservations in terms of reliability.

The actual fact is that you will not want to leave two time bombs around Rong Suyan and Rong Peng, or else you will not be looking for a bodyguard, you will be drawing wolves into your home.

.....

Once again arriving at the Jiangzhou Police Station, Ji Feng looked at the large police badge on the office building and was somewhat lost in thought.

He thought of Li RuoNan.

The relationship between him and Li Ruo Nan has become increasingly faint, the last half year has not even contacted once, also hardly heard of Li Ruo Nan news.

The two of them seem to have no more friends now.

This is also a sigh of relief, some regret in the heart, but there is no sadness, because to be friends also depends on fate and chance, get along is a friend, can not get along then can only be acquaintances.

The company's main business is to provide a wide range of products and services to the public.

Ji Feng was about to ask at the window first, when a rush of footsteps suddenly came from across the street, followed by a figure walking over, none other than Li Ruo Nan.

Ji Feng secretly shook his head, not expecting such a coincidence.

Li Ruo Nan also didn't expect to run into Ji Feng here, she had just taken a case and was about to go out to investigate, she didn't expect to run into Ji Feng before she even went out.

"Why are you here?" Li Ruonan asked strangely.

Ji Feng smiled, since he ran into her he naturally couldn't pretend he didn't see her, they weren't enemies after all: "I came to inquire about a friend's case."

Li Ruonan asked, "What case? Do you need my help?"

Ji Feng immediately wanted to refuse, but he stopped at the edge of his mouth, he didn't want to make it too awkward, so he said, "A friend of mine was almost kidnapped, I heard that the police saved her, but I want to know who did it, and I also want to know the progress of the case, so I came to ask!"

Li Ruonan immediately blurted out, "You're talking about the case of the boss of Rong's venture capital?"

Ji Feng was stunned, "You know?"

Li Ruonan nodded and said, "I'm in charge of this case now, I was just about to go out to investigate this case, I didn't expect to run into you here before I got out."

Ji Feng did not expect that Rong Suyan's case was actually Li Ruo Nan's responsibility, he asked, "Then do you have time now? I want to understand the situation."

Li Ruonan said, "Or else let's talk about it in the car, a civilian police officer has found the bandit's hiding place, I have to rush over there right now."

"Good!" Ji Feng immediately nodded his head.

Li Ruonan was riding in a Land Cruiser SUV, and the one responsible for driving was a young male police officer. For this kind of multi-million dollar luxury car as a police car Ji Feng had seen it all, even the Land Rover as a police car had been reported by the media for an unknown number of times, Ji Feng had seen many of them on the highway, one of the Land Rover police cars even cost more than two million!

Ji Feng didn't think it was strange, but Li Ruonan suddenly explained, "This car was confiscated and went through the formal procedure."

Ji Feng smiled: "No need to explain to me, it's a good idea to get the moon first near the water."

Before Li Ruo Nan could explain Ji Feng turned to ask about Li Ruo Nan's case: "By the way, what is the status of my friend's case? Are we going to catch the bandits now?"

"I'll tell you the details of the case slowly, at that time it was two police officers who met, because they saw that the situation was not right they went up to ask questions, as a result the bandits turned and fled, the police officers realized that something was wrong, but it was too late to catch up, they could only take your friend to the hospital first."

Li Ruonan explained, "According to our investigation, from the tools left in the other party's car and the photos taken and so on, this is an organized and premeditated kidnapping case, the target is your friend, and they have been watching your friend's tails for more than a day or two."

Ji Feng asked, "Do you know who did it?"

Li Ruonan shook his head and said, "We don't know yet, we can only investigate step by step, we can't reveal exactly how far we have gone for now, we have to keep it confidential, please understand."

Ji Feng nodded thoughtfully.

Campus Master Chapter 3094

Ji Feng rode in Li Ruonan's car and arrived at the outskirts of a residential area located in the combination of the city and the countryside.

It was an area of residential houses that hadn't been demolished yet, built in a very crowded way, with big red demolition letters on those fences along the road, explaining why the place was built in such a crowded way.

"Such places are inhabited by a mix of fish and dragons, most of them are migrant workers, many of them work double or even triple shifts, and usually even if they live across the street they don't see each other once in a few days." Li Ruonan got out of the car when they parked a few hundred meters away from this residential area, this was to prevent alerting the bandits.

Ji Feng nodded slightly and said, "In that case, this place is really quite suitable for hiding!"

Li Ruonan said, "In fact, this kind of place was originally all the best to deal with, because before when there was no demolition to this place, most of the landlords here were from the same village and were familiar with each other, so they couldn't hide any problems. But now it's different, almost none of the landlords live here, it's almost all rentals."

She paused here before continuing, "The target we are looking for this time is located in the middle of this village, no one has been found to have left yet, so we might have to do it later, or you can wait outside the village?"

Ji Feng asked, "Can't I go in and help?"

Li Ruonan said, "This is our own police matter, and the case hasn't been solved yet, so"

Ji Feng nodded and smiled, "Understood. Then I'll wait outside."

Li Ruonan said, "Thank you for your understanding."

Ji Feng smiled and waved his hand, "It's already enough for you to bring me here, where do I need you to say thank you to me, strictly speaking I should say thank you to you."

"Then I'll go over first." Seeing that Ji Feng understood her, Li Ruonan smiled and said.

"Good!"

Ji Feng nodded and smiled.

Seeing Li Ruonan quietly enter the village with a few policemen, Ji Feng couldn't help but shake his head and smile, the relationship between him and Li Ruonan had finally eased up a bit, however, it was impossible for them to return to their previous relationship.

In the past, every time they saw Li Ruo Nan, they would always fight a few words, but now they were polite, as if they had turned from friends to acquaintances.

It's also barely a friend!

Ji Feng said in his heart, this is also good, we no longer have any knots in our hearts, and it will not be too awkward when we meet in the future.

However, Ji Feng knows very well in his heart, I'm afraid that there will hardly be many meetings in the future. The reason for this is that if you say you don't have any bumps in your heart, you actually still have a little bit of everything, so if you can stop seeing each other, you should try not to.

The company's main business is to provide a wide range of products and services to the public.

The lead from the king was interrupted when Wang Wengao was silenced, and it was impossible to find out who the number one was from Wang Wengao.

In fact, Wang Wengao's death has already made Ji Feng's heart heavy.

The fact that Wang Wengao was in such a heavily guarded place and had warned Xiang Yongzhan, but he was still silenced, gave Ji Feng a shivering feeling. I really don't know how far the dynasty has

penetrated in China, even the military barracks can strike at will, just like no one's land, what about other places?

If the dynasty were to make a move on an important person

Ji Feng really didn't dare to think any deeper, so his thoughts still returned to Wang Wengao, thinking about what Wang Wengao said, of which the most shocking thing to him was undoubtedly the identity of No. 1.

Wu Zhengmin!

According to Wang Wengao's account, No. 1 was actually Wu Zhengmin.

But whether this was true or not, Ji Feng was both shocked and doubtful in his heart.

Because according to the information he got from catching Luo Qiu, there was no mention that No. 1 had died, but Wu Zhengmin had died long before he caught Luo Qiu, so in that case, Wu Zhengmin should not be No. 1.

But now that Wang Wengao was dead, it was no longer possible to get confirmation from him as to whether what he said was true or not.

Ji Feng couldn't help but shake his head and smile bitterly, although Wang Wengao was dead, he still made people hurt their heads for him, and he had to admit that Wang Wengao was really a difficult person to deal with.

"Boom! Bang Bang!"

Just when Ji Feng was deep in thought, a few abrupt gunshots suddenly came from the village in front of him, he stood up straight with a jolt and looked in the direction of the village, but he didn't see any situation in the village, but he didn't have time to think about it and immediately ran towards the village with quick steps.

He could be sure that the gunshot was undoubtedly a gunshot, and Ji Feng immediately thought in his head that it should be Li Ruonan who led the men to start arresting the bandits, but was met with resistance from the bandits so that's why he fired.

Ji Feng rushed into the village as fast as he could, thinking that Li Ruo Nan had said that the bandits were located in the middle of the village, and he was just about to head down the main road in the middle of the village when he suddenly heard another gunshot: "Boom!"

Ji Feng abruptly changed colour, this was the sound of a sniper rifle!

There was a sniper!

But the houses on either side blocked his view, so he could only rely on the sound to determine the sniper's position. Ji Feng had no time to think whether the sniper was from the bandits' gang or the police's side, he could only rush to the middle of the village as fast as he could.

He soon saw that in front of a kiosk, Li Ruonan and a few policemen were taking cover, while on the road, two people were lying motionless on the ground, blood was flowing all over the ground beside

them, looking at the two people who were completely motionless, Ji Feng couldn't help but feel his heart sink.

He just wanted to rush over but was stopped by Li Ruonan waving his hand, "Ji Feng, don't come over, there's a sniper!"

Ji Feng immediately understood that the sniper was not one of the police, but at the moment he did not feel in danger, so he still rushed over and then quickly leapt up the wall to look around, but there was no sign of the sniper either.

"The man is gone!" Ji Feng jumped off the wall and shook his head.

Li Ruonan and the others' faces were ugly, and a policeman was on fire, "Captain, inform the bureau immediately, there's actually a sniper, this is definitely not a small case, it's best to be able to stop and check at the nearby intersection, and try to stop that sniper!"

Li Ruonan nodded and said to the policeman, "You report to the bureau immediately!"

After saying that, she said to Ji Feng, "Today is not a good day, Ji Feng, you go back first, it seems that I have a busy day today, I may not have time to accompany you."

Ji Feng waved his hand and said, "It's alright, I'm just looking too, these two are the bandits?"

Li Ruonan nodded as she arranged for people to be on guard all around, "Yes. When we came, we found one of the bandits was buying something at the kiosk, and as soon as we arrived he spotted us and pulled out his weapon and tried to resist, so we had no choice but to open fire.

The other one heard the gunshots and rushed out from that house at the back and tried to escape, we were just about to make an arrest when this bandit was killed by a sniper!"

Ji Feng couldn't help but stare at his words, "Killed by a sniper? So the sniper and the two bandits were not in cahoots?"

Li Ruonan nodded and said, "That's right, we were also surprised, we didn't expect there would be a sniper to deal with them, it looks like they should have killed to silence them, only now we don't know if that sniper came long ago or just arrived here and found out we were going to arrest them, so they shot to silence them in a hurry."

Ji Feng shook his head, when exactly did that sniper come in was no longer important to him, the most important thing was that the act of him coming to kill and silence people was enough to show that this case was not that simple.

The most important thing is the fact that he came to kill people, which means that the case is not that simple.

Ji Feng did not say a word, immediately turned around and rushed in a direction, that is the direction from which the sniper gun came just now.

"Hey"

Li Ruonan wanted to call out to Ji Feng, but before the words could be shouted out Ji Feng had already rushed out a long way.

Ji Feng jumped and pranced directly on the roof, and he saw from afar that a black car was going far away on a road outside the village.

.....

Before Li Ruonan and the others could secure the scene, Ji Feng had already returned.

“Black Duke sedan, too much smoke and dust, the number plate number only remembered a few numbers” With Ji Feng’s description, Li Ruonan’s heart was astonished beyond measure, Ji Feng had actually seen clearly the model and number plate of the sedan the sniper was in in such a short time?

“I’ll send out a concordance here!” Li Ruonan said immediately.

Ji Feng didn’t stay at the scene much, he wasn’t a police officer and had no direct relationship with the case, so he left while Li Ruo’nan dealt with the scene.

He stayed in Jiangzhou for two more days, and it was only on the afternoon of the third day when he went back to the police station to find out more about the case that he learned that the sniper had not been caught.

Although there were police officers rushing to nearby intersections after Li Ruonan had issued a concordance that day, they hadn’t been able to wait for the black Duke to appear either.

Ji Feng was not surprised by this, if it was so easy to catch that sniper, then he wouldn’t have needed to come and silence himself first.

The case of Rong Suyan could not be investigated, which made Ji Feng somewhat helpless and more or less annoyed, recently everything was really not going well, as if all roads had come to a dead end.

The good news is that Ji Shaolei’s side has given him good news, suitable bodyguards have been found, two men and two women.

The two women were responsible for taking turns to protect Rong Suyan closely, while the two men were responsible for Rong Peng’s safety.

Unfortunately, however, Ji Feng did not see Rong Suyan until he left Jiangzhou, and did not know where she was injured and how she was actually injured.

After staying in Jiangzhou for a few consecutive days, Ji Feng returned to Island No. 1.

Campus Master Chapter 3095

The island is no longer the same as it was when it was first defeated by the Vietcong. It now has all kinds of facilities, with military and civilian docks and military and civilian airports already in operation.

The only thing is that there are not many inhabitants on Island No. 1 today, and it is not even close to keeping up with the pace of land creation around the sea.

But even so this is a significant market, which in turn has attracted many fishermen from the southern coast, and some have even simply applied to live on Island No. 1, so that fishing can directly supply the consumption on Island No. 1.

Many people have also started to run transport between Island One and the interior, and the consumption of the Tengfei Group staff canteen on Island One alone is enough to allow many people to make a fairly good living.

With the inland at its back, Island No. 1 grew more and more prosperous.

But in contrast to this prosperity, the situation in the southern waters has become increasingly tense, especially in recent times, when fishermen going out to sea to fish are often driven away by fishing boats and even warships from countries such as Vietnam and the Philippines, but there are few vicious incidents of expulsion by force.

The last time a small-scale war between the two countries was triggered by a vicious incident in which the Vietnamese expelled Chinese fishermen by force, it had already hurt the Vietnamese and alarmed countries like the Philippines and Kepong.

These people have learnt their lesson and dare not act too easily until they are sure of a formal war with China.

But in reality, everyone knows that a major war is inevitable, and that the present is just a short calm before the storm.

Therefore, no matter whether it was the Vietcong or the Philippines, they did not want to take No. 1 Island at all times.

The same day Ji Feng returned to No. 1 Zhang Lei came over, "Crazy, we have to be prepared, it seems that this battle is about to be fought."

Ji Feng asked, "Is something wrong?"

He knew that if Zhang Lei could say something like that, it must not be for no reason, something must have happened.

Zhang Lei said, "Recently, some fishermen have encountered armed ships from Vietnam at sea again, and according to our reconnaissance, several surrounding countries are now dumb and dumber, this is something they are about to resist."

Ji Feng sneered, "Let them do it if they can't help it!"

The first thing is that the world can't detect the first island, but after all, the first island was in the hands of the Vietnamese, and I believe that every country knows the coordinates of the first island. If they strike, they can still hit the island?"

Ji Feng laughed: "I understand what you mean, island number one will not run away, where it was is still where it is, although the other side can't see it anymore, but as long as the original location is hit, it will definitely be able to hit, right?"

Seeing Zhang Lei nodding, Ji Feng smiled, "You're right. However, the magnetic field jammer was not originally used to intercept people's missiles or change the position of Island No. 1, the magnetic field jammer was only built to prevent someone from using reconnaissance planes or using satellites in space to detect the situation on Island No. 1, so as not to reveal the development of Island No. 1.

The facilities that really prevent the outside world from striking at Island One are those weapons facilities that are placed around the island, and that is the basic guarantee for the security of Island One."

It was because of this consideration, in order to prevent the strikes that would be suffered after the outbreak of war, Ji Feng had arranged a large number of weapons on Island No. 1, and each of them was epoch-making, which included a large number of anti-aircraft weapons.

Seeing Zhang Lei's dazed look, Ji Feng continued, "In fact, the magnetic field jammers are not without any defensive capability at all, but any long-range weapon that can strike with precision will be interfered with as long as it enters the range of the magnetic field jammers.

In addition to the magnetic field jammers, there are also weather controllers, and lightning tractors, any of these devices can interfere with the other side's weapons, even if we don't use the island's weapons system and just stand here and let the other side bombard us, we may not be able to hit them.

Think about it, when these things are combined together, given the military level of the Vietcong and the Philippines, do you think it's possible for them to strike Island One from a distance?"

Zhang Lei asked in surprise, "These devices you are talking about actually have so many functions? It can also jam long-range weapons?"

Ji Feng asked with a smile, "What else do you think? Spending so much money to manufacture the devices just to be shrinking violets?"

In fact, to manufacture devices like magnetic field jammers and weather controllers, it was not rare in terms of materials, the key was still technology, followed by experimentation and calculation.

However, in order to manufacture them more accurately, it was indeed time-consuming and labor-intensive, and even the key core researchers of the entire research centre were involved in the checks and calculations, plus repeated experiments, which cost a lot of money indeed.

Zhang Lei asked, "Then what if the other side uses artillery?"

Ji Feng spread his hands, "Then there's no way, the artillery might be affected by the magnetic field disruptor, but the effect won't be great!"

The magnetic field jammer uses the magnetic field of the earth to operate, but the magnetic field of the earth is not very influential to the artillery shells, "However, if the opponent's artillery are hitting the No. 1 island, then it means that the Chinese navy is definitely defeated."

Zhang Lei was stunned, and then slowly nodded his head in silence.

The range of the artillery had a certain limit, if even the artillery could hit No. 1 Island, that was enough to show how close they were pushing, almost to the doorstep, the Chinese navy must have already lost, otherwise they definitely would not have let others push them to the doorstep and press them.

“Besides, even if the Chinese navy was defeated, do you think that with the weaponry on island number one, they would give the other side this opportunity?” Ji Feng asked with a smile.

“That’s true!”

Zhang Lei hemmed and hawed when he thought of those military facilities and weaponry on the island.

He was originally worried about countries like Vietnam and the Philippines, including Jie Peng, striking Island No. 1 with long-range weapons, but now since long-range weapons were useless against Island No. 1, he was instead somewhat looking forward to the big battle coming.

There were too many advanced weapons of all kinds arranged on Island One, the vast majority of which Zhang Lei had never seen their power, and he was eager to see them.

Before Zhang Lei left, Ji Feng said, “Since you have all these doubts, the others must have them too, and I’m afraid they are even more anxious in their hearts, otherwise, you should take the time to tell them all about the current situation, so that they can all rest assured that Island No. 1 is absolutely safe.”

Zhang Lei nodded and smiled; “Okay!”

“Wait a minute.”

Ji Feng called out to Zhang Lei, “Remember ah, don’t say everything outwardly, about the detailed role of the weapons and such, remember to keep it a secret, and say it tactfully.”

Zhang Lei laughed, “I still don’t know this? Let’s go!”

After Zhang Lei left, Ji Feng went to the headquarters of the Tengfei Group. Nowadays, the new headquarters building of the Tengfei Group had already been put into use and had long been on the right track, and Xiao Yuxuan was still in charge of the whole situation.

Moreover, now on the newly expanded land, the factories of the Tengfei Group were under intense construction, one of which was the most special because it was manufacturing not something else but the mother of all machines – machine tools!

Only on Island No. 1 did Ji Feng dare to take out all the technology one after another. To be on top of the world, apart from being made into a giant economically, one must absolutely excel in basic industry as well.

So Ji Feng wanted to fundamentally improve the level of industry, starting with machine tools.

The technology is not much advanced technology, but the materials are definitely the first-class materials in the world, and coupled with the concept of the Gamma Galaxy, this is destined to make the machine tools made on Island One surpass those of any other country in the world.

The machine tools produced in the factory today have long since been put into use, and the production of new chrome alloys and other new materials of all kinds cannot be achieved without such machines.

In fact, without these machines, the anti-gravity system could not have been manufactured.

Even if the technology was available, there was nothing that could be done if the parts were not up to scratch.

The reason why the Tengfei Group has the courage to boast and promise a lifetime guarantee on any anti-gravity system is that it is backed by advanced industrial technology.

Industrial, electronic, optical, etc. etc.

A series of new technologies that are beyond this era were born on Island One and are being developed rapidly.

It's not that Ji Feng doesn't want to contribute to the country, but he doesn't want the technology to appear in another country just after he has brought it out.

However, Ji Feng still felt that time was running out, so he dove into the laboratory whenever he had time and buried his head in research, he hoped that he could turn all those technologies in his head into physical objects in the shortest possible time.

Wang Wengao's silencing, Dynasty's divine appearance, and the tense situation in the outside world today left Ji Feng with no extra time to waste.

However, just as Ji Feng was diving into his research, he suddenly received a phone call, and a somewhat unexpected guest came from Island No. 1.

"Miss Yao, you're a rare guest, why did you suddenly think of coming to Island No. 1?"

When a plane slowly landed at the civilian airport of Island No. 1, Yao Yue Ran, who was wearing a waistcoat and camouflage trousers, a pair of leather boots on her feet, dark sunglasses covering her pretty face, and her whole body looking cool, walked down from the gangway.

Campus Master Chapter 3096

Yao Yue Ran gathered her long hair, her snow white neck flashed, a smile on her pretty face, "What, you're not welcome?"

"Of course you're welcome, see I've come all this way to pick you up?" Ji Feng laughed.

Yao Yue Ran suddenly laughed delicately, "Didn't make things difficult for you, did you?"

Ji Feng laughed: "What's so difficult about it?"

Yao Yue Ran laughed: "For example, Madam Zun was not fuming when she found out that you actually came over to pick up my machine?"

She laughed first at herself when she said this.

Ji Feng laughed: "Let's go, I'll show you around island number one."

Yao Yue Ran laughed, "You're considered the island master now, right? This reminds me of those high ranking hermits in martial arts novels, you're kind of free and easy now!"

Ji Feng laughed bitterly, "Is there anyone who is free and easy under the cannons of others? If war breaks out, I'll be at the forefront of the battlefield here, maybe a few missiles will sink the whole island!"

Yao Yue Ran was happy, "Then you are also the island master, at least for now."

Ji Feng laughed, "If you're not tired now, then we'll go around the island and go back for dinner?"

Yao Yue Ran said, "I ate on the flight here, it's better to go around first, I'm also curious how you're doing as the island master, I heard that this place was just a semi-military island, it's only been a year, I wonder how much it has changed."

"Please!"

Ji Feng smiled and pointed to an SUV next to him, "Get in, I'll show you around."

Yao Yue Ran smiled sweetly, "Thank you!"

Naturally, there was no need to worry about assassination on No. 1 Island, so Ji Feng didn't ask Bai Zhu to follow him when he came to pick up the plane, he drove the car himself and took Yao Yuran around No. 1 Island. In his heart, he was pondering whether there was something wrong with Yao Yueyan's sudden visit to No. 1 Island.

Yao Yueyan originally thought that Island No. 1 had been occupied by the Vietnamese before, and in order to prevent the Chinese navy from landing, there must be military facilities all over it, and the island should not be too big, but when she got in the car and Ji Feng took her to look around along the island's highway, her face changed slightly.

Unbelievable!

This was the only thought that came to Yao Yue Ran's mind.

The situation on Island No. 1 was completely beyond Yao Yue Ran's imagination. There was actually greenery everywhere on this island, and there was even a large area of primitive jungle.

On top of that, there were all kinds of modern facilities on those open spaces. If Yao Yue Ran did not know that this was Island No. 1, he would have thought that he was in some modern city on the mainland!

Of course, it was still much inferior to the cities in China, at least in terms of scale. There was no underground or train here, and Yao Yue Ran only saw a few shuttle buses passing along the way.

But I'm afraid no one would believe it if they said it was a semi-military island a year ago.

"That's over there," Yao Yue Ran suddenly exclaimed, "enclosing the sea and making land?"

Looking far away, Yao Yue Ran saw several huge offshore platforms standing on the distant sea, simply as huge as a few aircraft carriers fixed on the sea, and there were rumbling sounds above, showing that the huge offshore platforms were working.

At the edge of the coast, there was also a large amount of construction machinery at work.

A word immediately came to Yao Yue Ran's mind – the construction of land around the sea.

Ji Feng nodded and said: "That's right, it's land enclosure. Although Island No. 1 is the largest island in this island group, it is still a bit small, so land enclosure is bound to take place."

Yao Yue Ran was surprised, "The open space over there, it's all artificially created?"

Ji Feng nodded and said, "Almost all of it."

Yao Yue Ran didn't know what to say anymore, she had roughly understood the situation of Island No. 1 before coming here, including the area, location and the environment of the nearby sea, etc. But now it seemed that the land created by the land surrounding the sea was close to catching up with the area of Island No. 1, right?

By the time she reached the next place, Yao Yue Ran was already numb with shock when she saw the huge factories, the highly mechanised and elaborate factories and the various scenes of construction in full swing.

After going around, even if it was just a walk around, Yao Yue Ran's heart was still full of shock.

"This is simply"

Yao Yue Ran said with emotion, "This is simply a high-tech new city!"

Ji Feng laughed: "The place is too small, it can only be done like this, look at Kepong isn't it too."

Yao Yue Ran shook her head in awe.

Although she had already extremely overestimated Ji Feng's ability in her heart, it now seemed that she had still underestimated him. If this trend continued, I was afraid that this No. 1 Island would grow even bigger than Treasure Island!

"Yue Ran, you're hungry, right? The canteen food in this factory tastes okay, let's go eat some?" Ji Feng looked at the time, it was almost noon already, so he couldn't help but smile and invite.

"Good!"

Yao Yue Ran nodded her head.

Although there were already quite a lot of people on island number one, the business was not that developed yet, it was not convenient to eat and talk in the restaurants outside, instead it was a little better in this canteen.

The two just ate normally and after lunch, Ji Feng invited Yao Yuran to his home again.

After having dinner at home in the evening, Ji Feng sent Yao Yue Ran out to the place he had arranged for her. On the way, Yao Yue Ran couldn't help but ask, "Ji Feng, why didn't you ask me what I was doing here?"

Ji Feng laughed: "If you don't want to talk about it, it's useless for me to ask, you will naturally talk about it when you want to. Besides, we're friends, I'm happy even if you're simply here as a guest."

These words were particularly pleasing to Yao Yue Ran's ears, and she said with a smile, "Actually, I came to the island this time, on the one hand, to visit and tour, on the other hand, I want to join you, I just don't know if you'll take me in?"

Ji Feng was stunned, "Surrender to me?"

Yao Yue Ran laughed: "Well, no kidding, it was my family that asked me to come over, I was on holiday at the beach in the southern province and received a call from my family wanting to participate in the construction of Island No. 1, so I came over to ask you what you meant."

Ji Feng asked, "Is this your father's intention?"

Seeing Yao Yue Ran nodding, Ji Feng said doubtfully, "Isn't your family developing very well in the Northeast? Why do you need to come over here and stick your nose in?"

Yao Yue Ran said, "Actually my father wants to get involved in the anti-gravity system of the Tengfei Group."

Ji Feng immediately understood, no wonder Yao Yue Ran made a special trip over here, it turned out that the Yao family had their eyes on the anti-gravity system.

In fact, with the launch of the anti-gravity system, the cooperation between the Tengfei Group and several major domestic car manufacturers had led to a surge in sales of domestic cars, while the Tengfei Group itself had also entered the automobile industry, and the cars it launched were even more warmly welcomed by the public.

Even though foreign countries are now almost unanimously boycotting the anti-gravity system, good things are good things and cannot be stopped. According to the information obtained by Ji Feng, a large number of Tengfei cars are now being smuggled abroad, only that when they arrive, the logo of Tengfei cars is gone and replaced by any other logo, but everyone knows that it is a Tengfei car.

This has even caused panic among car manufacturers in many countries, as it means that it is not long before the Tengfei Group's cars enter the market of their countries.

Now there is no telling how many people want to work with the Tengfei Group, and although the Tengfei Group has placed its main factories on the mainland, its headquarters is on Island One, and just contacting them by phone and email is obviously not enough to show their sincerity, so coming to Island One becomes a necessity.

But now Island No. 1 is almost closed to the outside world, except for those who live and work on Island No. 1, others have to undergo identity checks if they want to enter Island No. 1, a matter that doesn't even require Ji Feng to worry about, the military will do it on its own initiative.

Because Island One has now become the most frontline position after the possible outbreak of war, so in order to prevent theft of information, the military has blocked Island One, except for normal transportation and construction, anyone who wants to enter Island One is very troublesome.

Of course, those invited by the Tengfei Group on their own initiative were not included.

Yao Yue Ran was seizing this opportunity to contact Ji Feng directly, which was much better than contacting the outreach department of the Tengfei Group or sending emails to Xiao Yuxuan and Han Zhong. As long as Ji Feng nodded, then this matter would be a done deal, and even if Ji Feng didn't nod, then at least she would have one more chance than others to meet Xiao Yuxuan directly.

"You can directly ask your father to contact the Tengfei Group about this matter, I usually don't ask"

Before Ji Feng finished his words, he saw Yao Yue Ran staring at him with a fierce face, "Eldest young man, you just perfume me like that?!"

Ji Feng smiled and waved his hand, "No, no, mainly because Yu Xuan is in charge of all the anti-gravity system matters, I would disrupt her work if I rashly interfered in it. But I can tell her that you should ask your father to come directly to Island No. 1 to negotiate."

Yao Yue Ran was instantly delighted, "Really? You can't lie to me, Big Shao!"

Ji Feng smiled and nodded, "No, no!"

For this way of Yao Yue Ran getting along with him, Ji Feng felt very comfortable. What he was most afraid of was people treating him respectfully, in that case he could only cooperate at most, not be friends.

The most important thing is that you can't be a friend. Yao Yue Ran is obviously not like this, and when you see that she is obviously relieved and relaxed, Ji Feng can't help but shake his head and laugh.

The fact is that Ji Feng appreciates Yao Yuran's personality. She is unconventional, lives the life she wants, and is not as pretentious as some rich girls.

Yao Yue Ran first told her father the news, while at this time Ji Feng couldn't care about these things, because he received a message.

"Lao-san, earlier you asked me to find a good forensic doctor to go to Treasure Island, do you still remember?" Ji Feng received a call from Ji Shaojun.

"Remember, what's wrong?"

Ji Feng asked.

Ji Shaojun said, "Something happened to that forensic scientist!"

Campus Master Chapter 3097

Ji Feng asked, "What happened to the forensic scientist?"

He was a bit surprised, it had been more than a year since then and he hadn't heard of anything, apart from occasionally thinking of Ji Yuhui in Treasure Island and the smiling fox-like Bamboo Alliance Gang's helper Ji Lihai, most of the time Ji Feng hadn't bothered to pay attention to what was going on in Treasure Island.

However, not long after the forensic doctor went to Treasure Island, he spoke to Ji Yujie on the phone. At that time, Ji Yujie said that the forensic doctor confirmed that her mother did not die a normal death, and Ji Feng did not ask much about how it was handled.

So at this moment, he was surprised to hear Ji Shaojun say that something had happened to the forensic pathologist.

Ji Shaojun's voice came over the phone, "Just now I received a call from the Western District Police Station, saying that they received a call from that forensic doctor yesterday asking for help, but that

forensic doctor said he wasn't sure where he was, and since the leader of that forensic doctor knew that I had found him before, the police asked me for information about him... .."

"You wait first."

Ji Feng hurriedly interrupted Ji Shaojun, "You said that forensic doctor asked for help, under what circumstances did he ask for help?"

Ji Shaojun said, "Blame me for not being clear, after that forensic doctor went to Treasure Island, he came back in the middle, then went to Treasure Island again and never came back Originally his family reported the case, but they didn't find out anything, and now he suddenly called for help. "

Ji Feng couldn't help but frown: "Went to Treasure Island again? Or is it because of that incident?"

Ji Shaojun said, "I don't know about that, according to his family, he received a call from Treasure Island and then packed his bags and went the next day. I'm just guessing if his never coming back is related to that incident."

This statement made Ji Feng puzzled, during which that forensic doctor had come back, then received a call and went to Treasure Island again, he immediately asked, "Do you know who that forensic doctor received the call from?"

Ji Shaojun said, "That's not known, according to what I know, the police investigated it, but it showed only a public phone number in Treasure Island."

"That's interesting!"

As soon as Ji Feng heard that he had actually checked into a public phone on Treasure Island, he immediately realized that this was not a simple matter, because no matter who called that forensic scientist, the most convenient thing to do was to use a mobile phone, using a public phone would not be able to call this way, and would have to be transferred

This was obviously someone who did not want to reveal his identity, but that forensic scientist must have known who had contacted him.

"Since that forensic scientist called the police station, couldn't he locate his position by virtue of the phone?" Ji Feng asked.

"He called home, and by the time the police people get to his home, they can't contact him anymore." Ji Shaojun said, "So I'm asking you about the situation."

Ji Feng pondered slightly for a moment and said, "I know, I'll check it out."

After hanging up the phone, Ji Feng pulled out Ji Yuhui's number from his contact list and dialed it.

The call was quickly answered and Ji Yuhui's voice came through, "Ji Feng, why are you suddenly calling at this time?"

Ji Feng asked straight away, "YuYi, the forensic scientist you asked me to find last time, do you know his whereabouts?"

"Whereabouts?"

Ji YuYi immediately realised that something was wrong, “Didn’t he go back? What, did something happen?”

Ji Feng couldn’t help but sink in his heart at his words and asked, “He did come back, but then he received a call from Treasure Island and went to Treasure Island again, and never came back, and now he called for help, saying that something had happened in Treasure Island

“What?”

Ji Yueting was surprised, “He came to Treasure Island again? Who did he get the call from?”

Ji Feng said, “I just don’t know who he received the call from, that’s why I can’t find him now, can you help check and see where he is?”

Ji YuYi said, “I’ll try my best, as long as this person is still on Treasure Island, I’ll definitely find a way to find him out.”

Ji Feng said, “It’s best to also check who he contacted when he last went to Treasure Island, he wouldn’t receive a call from Treasure Island for no reason, someone must have been in contact with him before.”

“Chen Wan!”

Ji Yuhui blurted out, “It must be Chen Wan’s doing!”

Ji Feng asked, “What, Chen Wan had contact with him when he was on Treasure Island?”

Ji Yuhui said, “I don’t know if there was any contact, but the people around me knew when he came to Treasure Island, if the news had leaked out, then Chen Wan would have been the first to know, and only she had the motive to do it to that forensic scientist, yes, she must have done it!”

Ji Feng was just about to speak when Ji Yuhui said in a hateful voice, “This woman is as poisonous as a snake, she did this to make my investigation dead and buried, so she did it to that forensic scientist, this must be the case

Ji Feng, don’t worry, I will definitely find out even if I turn Treasure Island upside down! ”

Ji Feng immediately said: “You do not impulsive, is not Chen Wan did it now is not easy to say, if it is really her, then if you make a move instead will stimulate her, which is even more detrimental to that forensic

He pondered for a moment before saying, “How about this, I will go to Treasure Island today, I will personally investigate this matter!”

Ji YuYi said, “Good! Ji Feng, please convey my apologies to that forensic scientist’s family for putting that forensic scientist in danger because of what happened to me.”

Ji Feng said, “Let’s not talk about that now, let’s wait until I arrive.”

When they learned that Ji Feng was going to Treasure Island, Xiao Yuxuan and Tong Lei were both a little worried. The last time Ji Feng went to Treasure Island, he made such a big fuss and was chased in the street, although in the end Ji Feng came back safe and sound, but bullets don’t have eyes, who knows if Ji Feng will be that lucky every time?

Even if Ji Feng was powerful, what if a stray bullet hit him?

“That forensic scientist went to Treasure Island because of me, and now that something has happened to him, I can’t just sit back and do nothing.” Ji Feng said, “Don’t worry guys, you don’t need to fight anyone this time, those troublemakers were pretty much dead last time!”

Despite what Ji Feng said, Xiao Yuxuan and Tong Lei were still uneasy.

Tong Lei said, “Then let Bai Zhu and Yang Bin go with you, and also let those friends of yours follow too!” When she said those friends, she was referring to the people from the battle team.

“Yes, Ji Feng, your arm” Xiao Yuxuan was full of worry, only those of them who were closest to Ji Feng knew that Ji Feng’s arm had actually never healed, it just didn’t affect their lives, but usually they all noticed that Ji Feng was trying to avoid his The left arm is not heavy.

Ji Feng smiled and said, “Don’t worry, I will definitely bring someone over, it will be fine.”

After kissing Xiao Yuxuan and Tong Lei separately, Ji Feng went to the battle group and called up Yao Zhijian and Liu Zejun, and prepared to go to the airport with Bai Zhu and Yang Bin.

But at this time Yao Yue Ran followed him, “Young Ji, you’re going to Treasure Island? Can you take me with you?”

Ji Feng was puzzled and asked, “What are you going to Treasure Island for?”

“To play, I’ve played all over the country, I’ve heard that the scenery of Treasure Island is very nice, I want to go and see it.” Yao Yue Ran said, she couldn’t see her eyes with her sunglasses on, but Ji Feng knew she was smiling at the moment.

“I’m not going for fun this time, but I have things to do, and it might even be dangerous.” Ji Feng smiled and waved his hand to reject Yao Yue Ran.

“But I’ve just been here for only one day and you’re leaving, isn’t that too much to ask?” Yao Yue Ran said.

“Something came up at the last minute, I couldn’t help it.”

Ji Feng laughed, “This time, I owe you one, when I have time next time, I will definitely keep you company for two days.”

Yao Yue Ran laughed, “Then we can make a deal!”

Ji Feng smiled and nodded, but he was a bit strange in his heart, how it seemed that Yao Yue Ran wanted to go to Treasure Island with him was fake, waiting for him to say this was the real thing.

It was possible to fly directly to Treasure Island from the airport on Island No. 1, and the distance was relatively closer than from the mainland, however, how to land was a problem, so Ji Feng chose a helicopter.

Ji Feng arrived on Treasure Island that evening, and according to the location provided by Ji YuYi, Ji Feng found that the helicopter had landed directly at Ji Lihai’s estate.

When he got off the plane with his men, he saw that Ji YuYi was sitting on the electric tour bus next to him waiting.

“YuYi, is it appropriate for us to come here directly?” Ji Feng walked up and asked.

He knew that the relationship between Ji Yuqing and her father, Ji Lihai, was very bad, and Ji Yuqing would not come here easily, so it was more or less rude for them to land the helicopter directly here now.

Ji Yuhui said, “There’s nothing inappropriate, it just so happens that people are home today, so it’s convenient to check.”

Only when Ji Feng and the others arrived at the villa in the middle of the manor in the electric tour bus did Ji Feng realise what Ji YuYi meant by saying that everyone was at home.

As soon as he walked into the villa he found that Ji Lihai and Chen Wan were both in the living room, and there were seven or eight bodyguards walking back and forth near the entrance, as for the rest of the manor there were also quite a few bodyguards, and Ji Feng could see at a glance that these bodyguards were all carrying weapons.

Seeing Ji Feng and the others approaching, Ji Lihai and Chen Wan both stood up. At this moment, Ji Lihai was still dressed as that gentleman with a smiling expression on his face, and Chen Wan also had a faint smile on her face, but Ji YuYi was the only one with a cold face.

“Swish!”

Bai Zhu and the others were just about to follow them in when they were stopped by the bodyguard at the entrance with his hand outstretched, “Mr Ji has only invited him in.”

Ji YuYi’s face sank and she was about to lash out, but was stopped by Ji Feng, “YuYi, it’s alright.”

He instructed Yang Bin and the others to wait at the door, and he followed Ji Yuhui in alone.

“Little Mr. Ji, we meet again.” Ji Lihai said indifferently, his hand still holding the civilised stick.

“I’m sorry for coming unexpectedly this time.” Ji Feng said, “I came this time because I wanted to ask Yu Ying for help, I didn’t think Yu Ying would let me come here.”

“This child has always been stubborn, and I can’t do anything about her.” Ji Lihai said, his implication was that this was the result of Ji YuYi’s insistence, otherwise, Ji Feng would not have been able to enter this manor.

Campus Master Chapter 3098

“This child has always been stubborn, and I can’t do anything about her.” Ji Lihai said, his implication was that this was the result of Ji YuYing’s insistence, otherwise, Ji Feng would not have been able to enter this manor.

He did not intend to fight with Ji Lihai on this matter, because he did not come here to fight with Ji Lihai, but to find the whereabouts of the forensic scientist was the most important thing.

So Ji Feng just smiled and said, "I came to Treasure Island this time because I actually have something to trouble Mr. Ji, and Mrs. Ji. Originally, I just wanted to come to seek help from Yu Ying, but I didn't expect to alert you all."

Ji YuYi immediately said, "Ji Feng, the person you are looking for is missing, and the one most suspected is sitting right in front of you, I told you to come here is the right place, you can ask in person."

Ji Lihai's face sank, "YuYi, the more you say, the less you speak, what do you mean by the most suspected person? All here are members of my Ji family, who is the most suspicious?"

"Of course it's"

Before Ji Yuqing could finish her sentence, she was interrupted by Ji Lihai, "Nothing! Since Little Mr Ji is here, he is a guest, someone, prepare dinner for Mr Ji"

"Dinner won't be necessary!"

Ji Feng smiled indifferently, he had long since learned about Ji Lihai's attitude, "Mr. Ji, originally I didn't want to disturb you and your esteemed wife, but since I'm here, then I'll ask a couple of questions, I'll leave afterwards, and I hope Mr. Ji can be frank."

Ji Lihai frowned and said, "Mr. Ji, I'm afraid I'll have to disappoint you then, I'm on the Treasure Island and you're on the mainland, there doesn't seem to be much crossover between us, I'm afraid I can't answer your question either!"

"That's not necessarily true!"

Ji Feng said, "Everyone knows Mr. Ji's energy on Treasure Island, even your wife, that's also a person of nine words, it shouldn't be difficult to answer my two questions, right?"

"Little Mr. Ji!"

Chen Wan, who had not spoken, suddenly spoke up when she heard Ji Feng's words, she looked at Ji Feng and said; "I don't understand some of your words!"

Ji YuYi immediately revealed a mocking look.

Ji Feng smiled, he knew that his words might have touched Chen Wan's sensitive nerves, however, this was exactly the result he wanted, if not, this old fox Ji Lihai would not answer his question easily.

As expected, after listening, Ji Lihai glanced at Ji Feng and asked, "What do you want to ask?"

Ji Feng said, "Previously, I had a forensic friend who came to Treasure Island, but he disappeared, what I want to ask is, does Mr. Ji know his whereabouts?"

"Joke! Your friend, how could our master know his whereabouts" Chen Wan smiled coldly at his words.

"Mr. Ji, I don't want to beat around the bush with you, I just want to find my friend as soon as possible and bring him back, that's all." Ji Feng didn't even look at Chen Wan, he just said to Ji Lihai.

Ji Lihai frowned and said, "Little Mr. Ji, although Treasure Island is not very big, but the population is quite large, how can I know where a big living person has gone casually?"

Ji Feng said, "Then can you please check, with Mr. Ji's energy in Treasure Island"

"I'm sorry, I can't help you with this favor." Before Ji Feng could finish his sentence, he was interrupted by Ji Lihai.

"Well then, since the first question can't be answered by Mr. Ji, then I'll ask another question." Ji Feng said, "Does this matter have anything to do with Mr. Ji?"

Ji Lihai's face sank, "Little Mr. Ji, although I respect you as a guest, you can't be too reckless, this is Treasure Island!"

Ji Feng smiled faintly, "It seems that Mr. Ji knows about this matter?"

Ji Lihai said, "Just now you have already said that one of your forensic friends has gone missing, I am not deaf, of course I know."

Ji Feng stared at Ji Lihai for a moment, and Ji Lihai frowned slightly, "What, Mr. Ji still has a different opinion?"

"See, I do have a word of advice to leave with Mr. Ji!"

Ji Feng said, "Although this is Treasure Island, no matter who it is, if they hurt my friends, I won't stop there!"

Ji Lihai said, "Little Mr. Ji wants to vote, you can go and say it to your friends, I know nothing about this matter and can't understand what you are saying."

"Fine!"

Ji Feng nodded and said, "In that case, then I won't bother."

After saying that, he was ready to leave.

Ji YuYi hurriedly said, "Ji Feng you wait first"

Then she looked at Ji Lihai and said, "Mr. Ji, Ji Feng is my friend, and I hired that forensic scientist, so I will definitely find him, it's okay if you don't want to help, it's about my mother's death, I don't think you want to know, but if something happens to the gang, don't blame me for not greeting you beforehand."

Ji Lihai's face sank, "What do you want to do?"

Ji Yuhui said, "If you don't find out, I will find out myself, if I know that this matter has something to do with you"

"Ridiculous!"

Ji Lihai waved his hand, "It's simply not like that, get out of my house!"

Ji Yuhui said coldly, "You will be responsible for the consequences!"

Her gaze swept Chen Wan, who acted as if she didn't see it.

Ji Feng and Ji YuYi walked out of the villa, and Ji YuYi gritted her silver teeth and said, "She must have done it!"

"There's proof?"

Ji Feng knew she was talking about Chen Wan, "Or have you found out something?"

Ji YuYi said, "Did you see, usually she is the one who talks a lot, but today she sat here and hardly spoke, which is not in line with her character, and she was not the least bit surprised about this matter, even when I mentioned my mother's death, she did not react much, on the contrary, my father's reaction was very intense.

By these I can conclude that the two of them must know about Chen Yang's disappearance, and even if they didn't do it, they must be the ones who know."

Chen Yang, that was the name of the forensic scientist.

Ji Feng nodded and said, "Even if she really did it, but now she bites the bullet and won't admit it we can't do anything about it, and the priority now is not to find evidence, but to find out where Chen Yang is and get him out first."

Ji YuYi said, "I have already sent someone to check, but there is no news yet, don't worry yet, Treasure Island is just this big, it's not too hard to find someone."

Ji Feng shook his head and said, "What I am most worried about now is not that I can't find anyone, but that even if I find someone, they are already dead."

Ji YuYi said in a hateful voice, "If that's the case, then I definitely won't let her go! From now on, I will send people to watch her to death, including her men!"

Ji Feng nodded and did not say anything else, but he was not optimistic in his heart.

"Pull the helicopter over to my place." Ji Yuhui said, "This is not my place."

"Fine!"

Ji Feng nodded and they parked the helicopter in a vacant lot outside Ji Yuhui's villa. Ji Yuhui was arranging a place for them to stay when she suddenly received a phone call.

"Ji Feng, one of my hands has received news that it seems someone has seen Chen Yang in the Nanpu area, but they are not sure yet, and are now checking." Ji YuYi immediately told Ji Feng the news.

"Where is Nanpu?" Ji Feng asked.

"It's the name of a pier, it's about an hour's drive from here." Ji Yuhui said, "Should we go there now?"

"It's useless to go now."

Ji Feng said, "It's better to wait a bit longer, but this information must be kept strictly confidential, it must not leak out."

Ji YuYi naturally understood the importance of secrecy, "I suspect that it must be because Chen Wan was worried about my mother's death being exposed, so she went after Chen Yang, but I'm afraid she didn't expect Chen Yang to be able to escape"

Ji Feng nodded thoughtfully.

.....

In the blink of an eye, a day had passed.

This day, from time to time, news came from Ji YuYing's men, although they had not found Chen Yang yet, they had all inquired about Chen Yang in the area of Nanpu, and the news was getting closer and closer, some said they had seen him more than a week ago, others said they had seen him four or five days ago, and the most recent had even seen this man three days ago.

The news was getting closer and closer, seemingly signalling that Chen Yang was not far away from being found.

But as time passed, another day had passed and Ji Yu-yi's men had even taken to dragging a net around Nanpu, but still no Chen Yang could be found.

"Could it be that he has moved to another place?" Ji Yuet said with a frown.

"Under his fear, he may not stay in one place for so many days, the possibility of moving is high." Ji Feng said.

"Then I will immediately ask them to expand the search area!" Just as Ji YuYi finished speaking her mobile phone suddenly rang, she immediately picked it up, a moment later, she hung up the phone and said to Ji Feng, "We found someone, it's in a bamboo room not very far from Nanpu, but it seems like someone is besieging him!"

"Can you be sure it's Chen Yang?" Ji Feng asked.

"It should be him, but my men can't get close, so I can't be 100 per cent sure it's him." Ji Yuhui said.

"Let's go, let's go take a look together!"

Ji Feng immediately put on his jacket and took a big step outside.

By now it was already dark, the street lights were on and it was peak traffic time, so Ji Feng and the others flew directly in a helicopter in the direction of Nanpu.

It only took about half an hour for them to arrive at Nanpu.

Following the address provided by their men, they parked the helicopter in the open space at the pier and left two men to guard it, while Ji YuYing took the rest of the men and went straight to Chen Yang's place together with Ji Feng.

The place where Chen Yang was located was a water swamp with a bamboo house on the water, and according to the information passed by Ji Yujie's men, Chen Yang was hiding there.

"Bang Bang!"

They had just arrived near the bamboo room when they suddenly heard two gunshots, everyone immediately became alert, but Ji Feng instead quickened his pace, "Hurry up and go over!"

If they were a step late making Chen Yang get killed, it would be troublesome.

They soon saw that outside a bamboo house, two men were shooting at the door, Yang Bin and Liu Zejun immediately quietly felt their way over to knock them both out and drag them to the side.

Just then, a scream suddenly came from the bamboo room, "Ah-!"

Campus Master Chapter 3099

As soon as they heard the scream, before Ji Feng could say anything, Yang Bin and Liu Zejun rushed towards the bamboo house at the same time, Yang Bin was even about to kick the door, but he was pulled back by Liu Zejun.

The screams coming from the bamboo house might not be Chen Yang's. If this was a trap set by the enemy, then they would be fooled immediately if they rushed in now regardless.

At Liu Zejun's gesture, Yang Bin immediately understood, and he kicked open the door with a fierce kick, but instead of rushing forward to enter, he rolled to the ground to the side as he kicked the door open.

"Bang Bang Bang!"

At the very moment when Yang Bin rolled to the ground, a gunshot suddenly sounded from the bamboo house. Liu Zejun reacted very quickly and bent down to dodge, while grabbing Yang Bin, the two of them tried their best to lower their bodies and retreat quickly.

Foiled!

As soon as Ji Feng heard the gunshots from the bamboo house, his face sank and he immediately grabbed Ji Yuhui's arm and crouched down, while at this time, several people had rushed out of the bamboo house and were lying on the ground at the entrance, firing wildly towards this side.

Ji Feng quickly moved behind the sedan with Ji Yuhui to take cover, "Yuhui, give me weapons!"

Ji YuYi hurriedly signaled her bodyguard to bring her pistol, however at this moment, Ji Feng suddenly turned back, "There are enemies behind us too, we've been ambushed and are surrounded!"

"What?!"

Ji YuYi's face instantly changed drastically.

Ji Feng didn't have time to explain more to her, he quickly loaded the bullets of his pistol and raised his hand to the direction of the bamboo house and pulled the trigger continuously.

"Bang Bang Bang!"

Several people at the entrance of the bamboo house were instantly shot in the head, this scene stunned Ji YuYi, although she already knew that Ji Feng was very powerful, she was still surprised to see how severe Ji Feng's shooting skills were now.

Quickly finishing off the few people at the entrance of the bamboo house, and with only one bullet left in his pistol, Ji Feng grabbed Ji Yuhui's arm and let out a low shout, "Follow me!"

He took Ji Yuhui and ran towards the Bamboo House. Ji Yuhui's bodyguard just wanted to stop him, but Ji Feng directly put his gun to his head, "Kid, I'm saving your Missy, don't get in the way!"

Ji Yuhui hurriedly said, "Everything is at Mr. Ji's command!"

"Go!"

Ji Feng pulled Ji Yuhui and ran.

They quickly arrived at the entrance of the bamboo house, Liu Zejun and Yang Bin had already entered the bamboo house and soon came out, Liu Zejun said, "Boss, there's no one in the house."

Ji Feng said in a deep voice, "Gather all their weapons, there are still enemies on the periphery, prepare for battle!"

They didn't come to Treasure Island with weapons, in fact, it was already quite good to be able to fly straight to Treasure Island, if they brought weapons, they definitely wouldn't be able to get through.

The rise of China had now made Treasure Island quite uneasy, although Ji Feng was now on Island No. 1, his identity represented the mainland of China, so Ji Feng could be considered empty-handed when he came to Treasure Island.

Liu Zejun and Yang Bin acted quickly, they not only collected the weapons of the few people who were killed, but even the magazines on those people, they also searched them all out.

Seeing these magazines, Liu Zejun couldn't help but frown, "Boss, the situation seems to be a bit bad, there are too many magazines!"

More magazines meant that the other side was well prepared and had strong firepower. It was obvious that this was specifically waiting for them here, and that they had prepared for it.

Ji Feng nodded and said, "As usual, follow the old rules and take your respective positions!"

The so-called old rules were that Yao Zhijian was in charge of sniping, Liu Zejun was in charge of secretly attacking and killing, Ji Feng was in command, and Yang Bin was improvising. As for Bai Zhu, he naturally stayed by Ji Feng's side.

As for Ji YuYi's bodyguards, Ji Feng didn't even count on them. It wasn't that Ji Yuhui's bodyguards couldn't fight, but in this situation, he didn't know Ji Yuhui's bodyguards, so if he commanded them in a chaotic manner, it would actually be better not to command them at all.

Ji YuHui looked back and could already see shadows of people, she hurriedly said, "Ji Feng, I didn't expect it to be like this, let's back up and swim through the river"

When things came to this point, Ji YuYing had understood what was going on, no wonder why it was so easy to find out where Chen Yang was, no wonder they came just as Chen Yang was being besieged, this was clearly a trap!

Obviously the messages she had received before were all fake, Chen Yang had not appeared, and all those messages her little brother had received were meant to lure her here step by step.

Perhaps, it was also to lure Ji Feng here!

So when they arrived here, they stepped into the encirclement that others had prepared long ago.

“It’s impossible to swim through!”

Ji Feng shook his head and said in a deep voice, “I bet there are still ambushes on the other side of the river, and as you can see, there are no boats around here at all, even if we could swim across, but when we reach the other side of the river, it will be the time of exhaustion, and if we encounter an ambush at this time, then we really won’t be able to fight back at all.”

Ji Yueting asked, “Then what should we do?”

“Call the police and then stand guard here!”

Ji Feng said, “Wait for the others to attack!”

Ji Yuhui was stunned, “Guard here? With just these people of ours, we can hold it?”

As for the matter of calling the police, Ji Yuhui didn’t even mention it because she knew it would be useless to call the police. How big was Treasure Island? There were at least dozens of people across the street, so many people, so many weapons, had they not received any news of their ambush here?

The police are not involved in this, but they are not involved in this.

Ji Feng said, “As of now it may not hold, but who will die before the end is anyone’s guess! However, it’s not that easy for them to kill me!”

Inspired by the bravado in Ji Feng’s words, Ji Yuqing nodded and said, “Good! In that case, then we’ll fight these bastards right here!”

Ji Feng, however, shook his head and said, “It’s me, not us. Yu Ying, later on, if there’s a chance, I’ll send you out first

“What kind of words are you saying, am I, Ji Yuhui, the kind of person who leaves her friends and runs away on her own?” Ji Yuhui said, “There is no need to say anything, if we want to go out today, we will go out together, if we want to fight, we will fight together!”

Looking at Ji YuYi’s determined expression, Ji Feng smiled and nodded, “Good!”

At this moment, Yao Zhijian had already sent a mock bird call from a large tree nearby, signalling that he was ready, and both Liu Zejun and Yang Bin were also ready.

The only thing that made Yao Zhijian feel helpless was that he only had a semi-automatic rifle in his hand, and although the rate of fire was barely adequate for a sniper rifle, it was much less accurate than a real sniper rifle, but he had to make do with it for now.

But this put a lot of pressure on Yao Zhijian. If he had his usual sniper rifle at hand, he would not have had the slightest worry if there were dozens of people on the other side, not to mention dozens more,

and he believed that with just one sniper rifle he would be able to crush the other side, but now he could only do his best.

In the distance, dozens of people were already approaching, and seven or eight cars at the front were rushing over quickly, covering for the people behind them in front.

“Bang!”

A shot rang out.

A hole was punched through the windscreen of the driver’s seat position of one of the cars, and the car jerked sideways and clanged into the car next to it.

Yao Zhijian, who was sitting on a big tree, sneered, “Bad gun, still finish you off!”

This shot from Yao Zhijian was like a signal, and the sound of dense gunfire immediately rang out, including many spray guns, micro-charges and other weapons.

The dense rain of bullets instantly sent wood chips flying from the large trees where Ji Feng and the others were hiding, but fortunately the trees here were all quite large, so the bullets could not penetrate, but under such dense bullets, Ji Feng and the others were almost crushed and could not lift their heads up.

“Young Ji, this won’t work, why don’t I see if I can get around to their backs?” Bai Zhu said.

“No way!”

Ji Feng shook his head and said, “Since the other side has prepared for this, they will definitely guard against you for this, wait a little longer.”

Ji YuYi said, “Or else, I’ll call my father!”

If she could, she really didn’t want to make this call, but it was already critical now and she couldn’t not do it.

Ji Feng shook his head, “No need!”

Bai Zhu gave her even more of a look, in Bai Zhu’s opinion, it was possible that these people might have been sent by Ji Lihai, so she had some distrust of Ji Yuhui, if Ji Feng didn’t still trust Ji Yuhui, Bai Zhu would have controlled Ji Yuhui first.

“Two days is enough time for them to prepare thoroughly!” Ji Feng mused, the intense gunfire from across the street did not affect him in the slightest, “It seems that the other side knew about it from the moment I first arrived on Treasure Island, and I’m afraid these two days were spent planning how to ambush and leave me behind.”

He suddenly smiled, “But if the other side doesn’t have heavy weapons, I’m afraid they’re going to be disappointed.”

With that, he raised his pistol and jerked the trigger.

“Boom!”

A man on the other side was put down on his back.

Ji Feng, however, shook his head, the distance was still a bit far, their side was all pistols except for Yao Zhijian, so they could only wait a little longer.

Ji YuYi was so anxious that she wanted to call Ji Lihai several times but was stopped by Ji Feng. Bai Zhu knew Ji Feng's strength, so she was waiting patiently despite her anxiety.

The other side got a little closer, Ji Feng squinted his eyes and took aim, nodding his head, "You can start now!"

"Boom!"

He pulled the trigger.

At the same time, Bai Zhu and Yang Bin both opened fire as well.

"Bang bang bang"

Although the firepower on their side was too weak compared to the dense gunfire from the opposite side, once they opened fire, seven or eight of them instantly fell down on the opposite side.

Campus Master Chapter 3100

The enemy on the other side simply could not have imagined that Ji Feng and the others would be so accurate with their shots.

After just one wave of attack, the other side fell down seven or eight people, and the ones who rushed in front of them directly fell to the ground, just like a wave crashing onto a rock, instantly smashing into pieces.

The opponent's attack was immediately stopped!

At this time, Ji Feng also slightly waved his hand, and Bai Zhu and the others immediately stopped firing.

They did not have many weapons and their bullets were also limited, so they could not waste them like this. Although they had retrieved quite a few magazines from those few people's gods earlier, looking at so many people on the other side, one bullet per person was not enough.

So now they had to save it!

"These cops!"

Ji YuYi couldn't help but grit her teeth, she realised that what Ji Feng said was right, the police would definitely not arrive so soon, this attack was obviously premeditated long ago, it wasn't even impossible that someone within the police force was involved in this attack.

She wanted to call Ji Lihai, but was stopped by Ji Feng.

"Ji Feng, do you think that all these people were sent by my father?" Ji Yuhui asked.

“Everything is still hard to say right now.” Ji Feng shook his head and said, “However, I don’t think it’s very likely that these people should not be your father’s men. I can tell that although you two are not on good terms, your father still cares a lot about you!”

Ji YuYi shook her head with a bitter smile, although in her heart she did not want to believe that this matter was related to her father, Ji Lihai, but not many people knew about Ji Feng’s arrival on Treasure Island, not to mention that even fewer people knew about their search for Chen Yang.

Since the other side had led them step by step into a trap two days ago, it was obvious that someone knew the purpose of Ji Feng’s visit just after he arrived on Treasure Island, and then was already designing the trap.

The only people Ji Yuqing could think of were her father, Ji Lihai, and that bitch Chen Wan!

However, when she thought of how much Ji Lihai doted on Chen Wan, if she said that Ji Lihai was completely unaware of this matter, Ji Yuqing felt that it did not make sense.

As the leader of the Chuk Yuen Gang, would Ji Lihai really not know anything about this?

This kind of speculation sent chills down Ji Yuet’s spine.

“What should we do now?” With a soft sigh to put all these thoughts aside, Ji Yuethai turned her head and asked.

“Don’t be in a hurry, take your time!”

Ji Feng said in a deep voice, “There are too many people on the other side now, let’s consume some of them first.”

Of course he couldn’t just stand here and be passive, but even if he had to make a move, he had to take out some people first, there were too many people on the other side, so it was all a bit troublesome once he made a move.

“Young Ji, what if the other side has heavy weapons?” Bai Zhu asked, “Or should I go around first”

“You can’t go around!”

Ji Feng shook his head, “Did you see, these people are not just blocking the road, there are also their people in the woods, it’s just that the people in the woods didn’t make a move just now, they should be waiting for their chance, there must be their people in other places too, once you move alone, you will probably fall into their trap.”

“So we’ll just wait here to die?” One of Ji YuYi’s personal bodyguards couldn’t help but ask.

However, Ji Feng ignored him and simply sat down, leaning his back against the tree and resting his eyes.

Ji YuYi glared at the bodyguard, who immediately lowered his head.

“Call the police again! In my name!” Ji Yueting said in a deep voice.

“Yes!”

The bodyguard immediately took out his mobile phone to call the police.

Ji Feng didn't bother with him, there was no point in calling the police now, Ji Yuhui had already asked someone to call the police just now, Ji Feng had never thought of relying on the police to save his life, whether it was in the Mainland or on Treasure Island.

He whispered, "What's the situation?"

Immediately after that, Yao Zhijian's voice came from the headset, "There are leaves blocking the view, it's not clear, so far there are at least fifty people on the other side, no heavy weapons found for the time being, there are spray guns, just now I also heard the sound of automatic rifles"

Although there is no way to carry weapons, communication devices are always available in the battle group, and they come in handy at the moment.

Hearing the situation introduced by Yao Zhijian, Ji Feng nodded slightly, it was similar to what he had judged, but it was certain that the other side definitely had more than fifty people, there must be more.

"It's moving!"

Yao Zhijian's voice came over the headset, and Ji Feng immediately stood up, clinging to the big tree, looking slightly sideways, and found that the people on the other side were indeed slowly approaching.

Ji YuYi's voice was a little tense: "Ji Feng, fighting?"

Ji Feng shook his head and said, "There's no rush, put it a little closer."

Ji Yuhui then immediately understood that Ji Feng was planning to let the other side see hope so that they would keep attacking and also keep being consumed, "But if it's too close, the other side has so many people, in case"

Before she could finish her words she was cut off by Bai Zhu, "There is no eventuality! We fall into the other side's ambush circle, that's the eventuality!"

Ji Yuhui was immediately choked and did not speak again.

She knew that Bai Zhu suspected her and was hostile towards her. In fact, if she hadn't known in her own heart that she hadn't betrayed Ji Feng, she would have thought the same if she were Bai Zhu.

"Give me a gun!"

Ji YuYi didn't argue, she just asked Ji Feng for a weapon.

Bai Zhu immediately said, "Ji Shao"

"It's alright."

Ji Feng smiled and handed Ji Yuhui a pistol and a magazine, saying, "There are twelve bullets in total, if you run out, you can go to the other side and grab it!"

Ji Yuhui nodded and said, "At least I won't be a liability!"

Ji Feng smiled and nodded his head.

Perhaps because they were a little scared from being taken down by seven or eight people at once before, this time the other party's attack was obviously much more careful, but extremely determined.

Watching the other side getting closer and closer, Ji YuYing felt her palms were sweating, "Ji Feng, fighting?"

"Wait a little longer." Ji Feng said in a deep voice.

"It's already very close."

"There's no rush!"

Ji YuYi looked at Ji Feng and found that he was surprisingly not nervous at all, his expression was calm and even a little chilled, which made her realise that Ji Feng's ability to achieve what he had achieved now was definitely not luck, this calmness and strong confidence of his alone was not something that ordinary people could possess.

"Fight!"

Ji Feng suddenly shouted coldly, causing Ji YuYi to snap back to attention, at which time Ji Feng and the others had already pulled the trigger, the gunshots rang out, and immediately six or seven more people fell down in front of them.

And at this time, Ji Feng did not stop again, but quickly pulled the trigger, bang bang bang

At the same time, Yao Zhijian in the tree also started shooting point blank.

Although Ji YuYi was nervous, she also gritted her teeth and fired at the group.

At this time no one noticed that a dark figure in the water quietly approached the group. A man near the water's edge was grabbed by his calf and dragged into the water, struggling only slightly for two seconds, and soon he was motionless.

Ten minutes later, Liu Zejun, who was still dripping water from his body, returned and handed Ji Feng a rifle, "Boss, this will work, right?"

Ji Feng pulled the bolt twice and nodded, "It works, that's it!"

Liu Zejun immediately handed over two magazines, "Are there enough bullets?"

"Enough!" Ji Feng smiled coldly.

In the next moment, Ji Feng turned around violently, knelt on one knee, set his left hand on the rifle and pulled the trigger.

"Boom!"

A man's head was instantly blown off, as the distance wasn't very far, and the man's skull was lifted off!

This scene made Ji Yuet's bodyguard's face turn pale.

But Ji Feng did not stop, with his rifle in hand, it was not much different from a sniper rifle at such a close distance, wherever Ji Feng's gun pointed, someone would be shot, even if it was not a head shot, it was still a shot in a vital part.

Foreheads, faces, even throats and chests, were all Ji Feng's targets.

The group was almost sharply reduced, and in just a few moments the middle was almost empty of a large chunk, even those hiding behind the big tree, but any little part of their body that was exposed would be shot by Ji Feng, and then the moment the person fell down and left the cover of the big tree, the vital parts were hit.

While Ji Feng was shooting, no one else was idle, and Liu Zejun even left again as early as after Ji Feng had shot him, burrowing away to who knows where.

Because this was a bamboo room on the water, it looked like they were blocked with nowhere to go, but in fact it gave them room to move around. With Ji Feng and Bai Zhu, as well as Ji Yu Yue and her bodyguard in front of them, the large area of water behind them became a complete passage for Liu Zejun and Yang Bin to go back and forth.

This was something that those who had set up the ambush had not thought of.

Under the fierce gunfire, the attackers kept falling down, and Ji Feng's harsh shooting finally chilled some people and made them want to retreat.

Just at this time, the voice of Liu Zejun came over Ji Feng's earpiece, "I've gone around behind them!"

"YuYi, take your men and dive over, block them from behind with Liu Zejun!" Ji Feng immediately said in a deep voice, "If you can, you should leave first, we can take care of this side!"

"I won't escape alone!" Ji YuYi said immediately.

"Then I'll wait for your good news!" Ji Feng didn't have time to say more to her, now the other side had stalled, all of them were hiding behind big trees and some were already quietly retreating backwards, obviously wanting to retreat and escape.

Naturally, Ji Feng could not let them escape, before it was these people who ambushed him here to surround him, but now, he was going to block these people to death here.

However, Ji Yuhui's bodyguards were too far behind Liu Zejun, and they were discovered as they dived past. Luckily, Ji Feng informed Liu Zejun and attacked from behind to suppress those people, saving Ji Yuhui's group in time.

When Ji Yuhui led the men around, Bai Zhu and Yao Zhijian blocked the left and right sides respectively.

This time, those people were completely blocked in the middle.
