

Campus Master Chapter 3151

“Innate expert, true qi out!”

Liu Yonghui was still a little incredulous when he sat down, despite being reprimanded by his father.

In fact, he was only half a martial artist, but he knew a lot about the martial world. As far as he knew, in the entire martial world, there were very few experts who could reach the Ascended Realm, only those martial families and sects with deep heritage or several generations of inheritance, where the head of the family or the main figure could reach the Ascended Realm.

Even for those who are amazing geniuses, it is already astonishing that they can reach the Xiantian realm at the age of 30 or 40.

As for those who have reached the Xiantian realm at the age of 20, I am afraid that there are at most three or five people in the entire martial arts world, and that is already the highest.

And when it comes to the outward release of true qi and being able to control the force to such an exquisite level, Liu Yonghui had never heard of it and had never seen it before!

But Ji Feng looked like he was only in his twenties, and although his aura appeared mature, he was definitely less than thirty. At such an age, he was actually able to reach such a state, and Liu Yonghui no longer knew what to say.

Liu Chaoyang naturally would not lose his temper like Liu Yonghui, but was equally incomparably stunned in his heart.

He took a deep breath: “Mr Ji, impressive! I just realized that I was blinded by the eyes of a high ranking person!”

Ji Feng waved his hand and smiled, “I am not a high ranking person, I am just a junior who came to ask for advice. Elder Liu, now you can believe that I have come with sincerity, right?”

Of course Liu Chaoyang believed it, an innate expert who could exude his true qi could not have come to play with them because he had had enough, right?

“Of course I believe it. However, since Mr. Ji is already an innate expert and has such a high cultivation level, why does he still need my help?” Liu Chaoyang asked suspiciously, “To be honest, my cultivation level is far inferior to Mr. Ji’s. Fortunately, Mr. Ji is not here to kick the school, otherwise, I am afraid that this Chaoyang Martial School of mine will cease to exist from today.”

Ji Feng smiled, “Even if Elder Liu didn’t ask, I would definitely explain. It’s like this, as I said before, I cultivate a set of cultivation method that can reach the innate sky, how to say, it’s a bit special compared to the traditional martial arts. Now there are some problems with the cultivation and it is difficult to go further, so I want to refer to the traditional martial arts cultivation method in the hope that I can be inspired.”

Liu Chaoyang was solemnly surprised, “A special cultivation method?”

He suddenly thought of a possibility, what Ji Feng was cultivating, could it be those evil martial arts in the legends? Otherwise, why could Ji Feng reach such a high level at such a young age?

Liu Chaoyang's heart was very puzzled, those evil martial arts were only in legends, they were almost non-existent in reality, at least he had only heard about them and had never encountered them, but thinking about Ji Feng's cultivation level being so high, he was a bit suspicious, could the legends be true?

"It's a special cultivation method that progresses quickly and has no side effects, however, this method is incomplete and the cultivation can only reach my current realm at the end, that's why I wanted to borrow from traditional martial arts."

Ji Feng nodded and said, "If it is possible, I would like to exchange with Elder Liu, I wonder what Elder Liu's opinion is?"

Liu Yonghui's eyes lit up, if Ji Feng was really willing to exchange, wouldn't that mean that they could also have this direct approach to reach the Ascendant?

Liu Chaoyang, however, was a little hesitant: "Mr. Ji, I'm touched by your sincerity, but this exchange matter"

"Elder Liu has any concerns, you can just bring them up." Ji Feng said.

"It's not that I have any concerns, it's just that this matter is too sudden, I need to think about it properly, I also ask Mr. Ji to understand." Liu Chaoyang said.

"It's alright, of course I understand."

Ji Feng nodded with a smile and said, "Elder Liu can think about it properly, I will still be in Yanjing for a few days, if you have thought about it, you can contact me!"

Said Ji Feng, a business card, placed it on the table.

"I'll leave Elder Liu alone for now." Ji Feng said with a smile. Afterwards, he nodded his head to Liu Chaoyang, father and son, before getting up and leaving.

"I'll see you off." Liu Chaoyang also stood up, glancing over at the corner of his eyes to see his son desperately winking at him, but he acted as if he didn't see it.

He kept sending Ji Feng and the three of them to the gate, before Liu Chaoyang turned around and went back to the courtyard.

"Dad, why don't you say yes?"

As soon as he entered the courtyard, Liu Yonghui couldn't help but ask, "A cultivation method that leads straight to the Ascended Sky, that's something that can't be bought with any amount of money!"

Liu Chaoyang said, "You also know that it can't be bought with any amount of money, so why did they just send it to you?"

Liu Yonghui said, "Didn't that Ji Feng guy say that he wanted to draw on traditional martial arts techniques"

"Confused!"

Liu Yonghui was interrupted before he could finish his words, "Does a master with such a high cultivation level need to borrow our mind techniques? I see that your brain is all muddled!"

"This"

Liu Yonghui shut up resentfully, but still couldn't help but mutter again, "Maybe people are really sincere in coming to ask for help?"

Liu Chaoyang shook his head and said, "You, I originally thought that the martial arts school is now handed over to you already, but now it seems that your brainless nature cannot be changed until the end of time, there are no good things falling from the sky, even if there are, they will not fall on our heads, and they are still sent to our doorstep by others. So, there is no need to mention this matter!"

"Then if the other party insists, what should we do?" Liu Yonghui asked. Although he was hot-tempered, but once he remembered Ji Feng's amazing tactics, any temper he had immediately disappeared without a trace.

"Wait until tomorrow you contact him and send him the phase-free gong that you have at home." Liu Chaoyang said.

"Phaseless Kung Fu?"

Liu Yonghui was stunned, "Isn't that the Daoist one's mind technique? That's useless at all!"

Liu Chaoyang said, "It's useless to us, but maybe it's useful to others? Didn't he say that he's just going to borrow from traditional martial arts, it's not like he's majoring in it."

"Trading that broken mind technique for someone else's mind technique that goes straight to the Ascended Masters, you're really good at counting!" Liu Yonghui bristled.

"What are you talking about!"

Liu Chaoyang glared, "When did I say I wanted to exchange his heart technique?"

Liu Yonghui froze for a moment, "But didn't you ask me to send it to him"

"I did ask you to send it to him, but we don't want his heart technique." Liu Chaoyang said, "This person's origins are unknown, we can't just give him the family's heart technique, and it's useless to have the Phaseless Technique here with us, since we have Xiang Yongzhan in the middle, for his sake, let's give Ji Feng the Phaseless Technique."

"This is fine." Liu Yonghui nodded his head, but in his heart he couldn't help but mutter, that broken heart method of the Phaseless Kung Fu, can people look at it?

On the road.

"Ji Shao, how come that old man surnamed Liu's attitude changes three times a day, originally he was still very enthusiastic, why is he suddenly reserved?" Bai Zhu couldn't help but ask.

"Maybe it was what I said that scared him!"

Ji Feng shook his head and laughed bitterly, "At that time, I was just trying to show my sincerity and didn't think that thoroughly, now that I think about it, I really shouldn't have said at that time that I could go straight to the Ascendant and just said that I was exchanging heart techniques for heart techniques, if I added Xiang Yongzhan's face, I might have succeeded."

Yang Bin said, "But what you said, sir, is true!"

Ji Feng shook his head, "It's precisely because it's true that people don't believe it, or they're intimidated."

A lot of things are like this, sometimes people tend to rush to the truth when it is clearly said to be false, but no one believes it when it is clearly true.

"So this trip is yellow again?" Bai Zhu asked.

"Pretty much."

Ji Feng shook his head, "Don't report any hopes, go back."

He realised that he had been too reckless, and it was mainly because of the environment he was usually in, which made him overlook something.

It was true that this cultivation method of body-building gymnastics was unique, but he had passed it on to many people, and although it was unlikely for others to reach innate without his personal guidance, there were many people who knew it after all.

For example, the warriors of the Special Combat Brigade, such as Li Ruonan, and the members of the company's battle team, and so on.

Since he had already taught so many people, he didn't care about passing on a few more, not to mention that since he wanted people's inherited heart method, he would naturally have to pay some price, which is why Ji Feng was considering using body-building exercises in exchange.

However, Liu Chaoyang's attitude reaction was beyond Ji Feng's expectation, and he almost reacted when he sat in the car, maybe his statement, scared Liu Chaoyang.

But now since this is already the case, Ji Feng also does not report any hope, in Liu Chaoyang can not get martial arts heart method, then think of another way.

.....

The development of things was beyond Ji Feng's expectations.

"Phaseless Kung Fu? You don't want my heart method?"

Seeing Liu Yonghui in front of him, Ji Feng was a bit surprised, he was originally planning to give up, but what he didn't expect was that Liu Yonghui suddenly called him and sent him a heart technique called No Phase Kung Fu!

The most crucial thing was that Liu Yonghui said that they did not want to exchange it, and that this No Phase Kung Fu was a gift to him.

“My father said that it was mainly because of Mr. Ji’s sincerity, not to mention that Mr. Ji is also a friend of Captain Xiang, so this Phaseless Kung Fu is even a small token of our appreciation, please don’t mind it.” Liu Yonghui said.

“How can I!”

Ji Feng smiled and shook his head, “Thank you, Liu curator. I’ll take down this favor.”

Liu Yonghui didn’t stay much and quickly left.

Looking at the thread-bound book called Wushang Gong in his hand, Ji Feng couldn’t help but shake his head, after all was said and done, it was surprisingly Xiang Yongzhan’s face that worked, even more so than his heart method that went straight to the innate.

Of course, perhaps it was because people simply didn’t believe it.

But no matter what, Ji Feng had taken note of this favour from the Liu family’s father and son, and he would definitely have to find an opportunity to return it in the future.

Now, he couldn’t wait to see what kind of mind technique this Phase-less Gong was.

Campus Master Chapter 3152

There is not much in the way of phantomless gong, and the whole threadbare book is probably only a dozen or twenty pages, except that the paper is obviously not very good, rough, and quite a bit thicker than the popular paper nowadays.

So the dozen or so pages together were in turn about as thick as a small booklet.

Ji Feng was a bit surprised by this, this kind of paper, could it be that this thread-bound book still had some history?

Soon Ji Feng put these thoughts behind him, what he wanted to know now was the content of this book.

When he opened the first page, he saw that there were three big words written on it, but they were written in traditional Chinese characters, which made Ji Feng freeze for a moment, and he immediately realised that this book seemed to have some history.

Because the characters were handwritten at first glance, not that kind of machine-printed product, and the handwritten ones were also written in traditional Chinese characters, which made it likely that they were written before the simplification of Chinese characters.

With these thoughts flashing through his mind, Ji Feng turned to the second page.

The second page was also in traditional Chinese characters, but the font was much smaller and dense, and the following pages were filled with such small characters in succession. He looked carefully and found that these characters were in a description of this WuXiang Gong, which could also be described as the general outline of WuXiang Gong.

Flipping further back, behind them were the methods of cultivation, and among them were several diagrams, on which were drawn people, some sitting with their legs crossed, while others were bowed and standing on their toes

Ji Feng looked at it very quickly, and in less than half an hour, he had finished reading the entire Phaseless Kung Fu.

“This Phaseless Kung Fu is a bit strange.” Ji Feng couldn’t help but shake his head, he found that this Phaseless Gong actually didn’t tell too much about the cultivation, especially in the general outline, it was more about the Way of Nature, and the Way of Heaven and Earth.

The cultivation methods at the back were only the most basic, and there was no strict hierarchy, just three stages.

The first step is to perceive oneself.

The second step is to perceive all things in heaven and earth.

The third step is to merge oneself with heaven and earth.

These are the three stages of the cultivation of the Phaseless Technique. As for the cultivation methods that follow, they are more like an aid.

At first glance, the aim of the final cultivation of the Phase-less Gong is not about how high the cultivation level is, but about becoming one with heaven and earth, seemingly in pursuit of spiritual transcendence.

“This is quite similar to some of the Daoist teachings.” Ji Feng secretly said.

However, Ji Feng was not dissatisfied, although the statement of merging oneself with heaven and earth seemed a bit nebulous, but there was a method of cultivation on this Wushangong, and he did not intend to completely abandon body-building exercises, and he was only borrowing from traditional martial arts, and this Wushangong also had some reference value.

Because home was not the place to practice, so Ji Feng put it down for the time being, intending to wait until he returned to Island No. 1, then dive into cultivation.

“Ding”

Just when Ji Feng had put away his Phaseless Kung Fu and was thinking about how he should return this favor from Liu Chaoyang, his mobile phone suddenly rang. The call was from Ji Shaojun.

Ji Feng immediately picked up the phone, and then came Ji Shaojun’s voice: “Little Feng, things have come to a head.”

“Oh?”

Ji Feng immediately knew that he was talking about that hutong.

“I’ll have someone”

“Wait.”

Ji Shaojun was just about to speak when Ji Feng interrupted him, “It’s better not to talk about it over the phone, this way, let’s have a couple of drinks together tonight and we’ll talk about it then.”

Ji Shaojun laughed, “That’s great. By the way, should we call Taro and the others?”

Ji Feng said, "There's no need to call them today, we'll talk about it later when we have time."

"Alright then."

Ji Shaojun nodded his head.

The two agreed on a time and place, and then ended the call.

Ji Feng couldn't help but shake his head, Ji Shaojun was still a bit unreliable in his work, how could he call other people at this time!

It's not that Ji Feng didn't trust Yu Hui and the others, but because the matter he was investigating, once it was confirmed, the consequences were not generally serious.

So of course the less people know about this kind of thing the better, but Ji Shaojun didn't seem to realize this, which made Ji Feng couldn't help but worry a little, could it be that he had alerted the snake in the process of his investigation?

Thinking of this, Ji Feng regretted a little, if he had known, he wouldn't have asked Ji Shaojun to investigate, but it was too late to regret now, besides, Ji Feng really didn't have such a wide network of people in Yanjing, he could reach out to all three religions and nine classes, otherwise, he wouldn't have asked Ji Shaojun to do this.

"I just hope this guy isn't that loud-mouthed, otherwise, I'm afraid this one will be troublesome." Ji Feng couldn't help but shake his head.

But on second thought, a smile appeared on Ji Feng's face: "If Ji Shaojun really said it, it wouldn't be a bad thing, it's always good to have a snake to be startled when you hit the grass. If someone is really startled, then it means that my investigation is going in the right direction. The more poisonous this snake is, the better!"

Evening.

Ji Feng brought Bai Zhu and Yang Bin with him and arrived at Ji Shaojun's flat.

"Shaojun, what's the situation?" Ji Feng asked as soon as he sat down and opened the door.

"Someone from the other side's backstage has spoken." Ji Shaojun laughed heatedly, "After you told me, I left this to Yu Hui, just last night, the few shops you highlighted, someone went to pick a fight, but don't worry, it's definitely not that obvious, they all found the opportunity to cause trouble."

Ji Feng nodded and said, "You go on."

Ji Shaojun said, "The ones that Yu Hui found were not the kind of small-time punks, but some small guys, all with a little background in their families, so when they were asked to pick a fight, those bosses wouldn't dare to do anything. Yu Hui told me that a few of the shop owners wanted to settle things down, but the little guys didn't agree and even threatened to smash the shop, so those owners had no choice but to call the police."

"What happened after the police were called? Ji Feng asked.

“After that it was interesting, the police could only deal with the obvious, those little guys smashed people’s things, of course they had to compensate, but the things destroyed were not much, so it was not enough for public security punishment, they could only be persuaded and educated then the police let them go.” Ji Shaojun said, “But after leaving the police station, those little guys put out the word, both sides this beam took, those bosses naturally understand what it means.”

Ji Feng nodded, and shook his head and smiled.

Of course those bosses understood what it meant, but which one of those who could open a shop and do business in such a place was not nimble-minded? What’s more, it was a place like Yanjing, that was a place where the second generation ran rampant, they naturally knew what kind of trouble was waiting for them if they provoked this group of mixed-up devils.

Since this was the case, there was nothing more to say. Either they could find a way to bow down and admit their mistakes and show ‘sincerity’, or they could wait to be cleaned up.

That group of bastards could not do anything else, but they had a ridiculous number of tricks to clean up after people.

After all, he didn’t know whether there was a problem in that alley or not, he just guessed.

Even if there is a problem, it may only be one of the shops, or a certain person in one of the shops, just to find out this person, to find out the backstage, so use this method to make the other shops in chaos, he can fully imagine, those shop owners to do business, how suffocating it is in their hearts.

And he could only say sorry in his heart first!

Ji Feng secretly said, “No matter what, we have to find out about that incident first before we can compensate those shop owners.”

“..... Just before I called you, Yu Hui just told me that someone has already found his head, it’s a deputy director of Dongcheng’s industry and commerce, in addition to a few others, the list is here.”

Ji Shaojun said, “I’ll forward the text message to you, look at it, how do you want to investigate below!”

Ji Feng said, “It’s still early, even if there’s movement, it’s only insignificant people, continue! Also, you can ask Yu Hui to investigate the background of those bosses, anyway, things have already made a mess, then keep making a mess, the bigger the better!”

“Good! I understand what you mean, I’ll talk to Yu Hui later.” Ji Shaojun nodded his head.

“There’s one point.”

Ji Feng said, “No matter how much trouble you make, you absolutely cannot do anything else.”

Ji Shaojun froze for a moment, “Other things?”

Ji Feng said, “For example, don’t hurt anyone, don’t do those things that make people angry in heaven, otherwise, whoever dares to mess around, you will chop his paws off!”

Ji Feng knew about the virtues of those second generation people, when facing the common people, they had a natural sense of superiority, and it was not uncommon for them to beat people up, or even to have sex with someone by force if they had a crush on a woman.

As for forcible seizure, that was even more of a specialty of these gentry.

Ji Feng would definitely not allow such a thing to happen in his investigation, or else he would not be able to pass this hurdle in his heart.

“Don’t worry, if there’s such a thing, I’ll be the first to say no!” Ji Shaojun said immediately. Although he wasn’t smart enough, he probably knew Ji Feng’s temper.

“That’s good!”

Ji Feng nodded and stressed once more, “Call Yu Hui later and tell him what this means, absolutely, absolutely nothing like this can happen!”

Ji Shaojun successively agreed.

Only after the admonition did Ji Feng say, “It’s only the beginning, take your time, now not only do we have to be unforgiving, but we also have to keep a close eye on the movements of everyone in that alleyway, even a waiter in the shop. My phone is on twenty-four hours a day, so let me know if there is any news.”

Ji Shaojun nodded and said, “Good! Don’t worry, I’ll make sure it’s done.”

Ji Feng stayed in Yanjing for two more days, a few more people had jumped out in the past two days, but they were all people with some connections or some positions, but with no problems in their backgrounds, Ji Feng knew that the real big fish, might not jump out so soon.

But he didn’t have time to stay in Yanjing, and after another day, he returned to Island No. 1. Then he found Shen Jingyi and asked him about the matter of the Phase-less Kung Fu.

“Phase-free kung fu? How come you want to practise this mind technique?” Shen Jingyi’s face was strange when she heard about the Phaseless Technique.

Campus Master Chapter 3153

Although Ji Feng had some knowledge of traditional martial arts, it was limited to the skinny, the ones he usually discussed with Yang Bin, other than that, he did not have much exposure.

In particular, it was only through Shen Jingyi that he learned about some of the realms of martial arts.

Therefore, after he got the Wushanggong, he could not find anyone else to ask for advice, and only Shen Jingyi was an authentic martial arts family, so it was most appropriate to ask Shen Jingyi to help him look at the Wushanggong.

However, what Ji Feng didn’t expect was that Shen Jingyi had a strange look on her face after seeing the Phase-less Kung Fu, and listening to her tone, it seemed like there was something special about this Phase-less Kung Fu?

“What’s wrong? Is there something wrong with this Phase-less Kung Fu?” Ji Feng asked.

“Have you read the contents of the Phaseless Kung Fu?” Shen Jingyi asked.

Ji Feng nodded: “I read it, it’s just a set of basic cultivation techniques, but the general outline says something different, I read the meaning of the general outline, it talks about integrating oneself into the outside world, and advocates the idea of following nature, which is very similar to Taoism, but other than that, I didn’t find anything, why, is there any problem?”

Shen Jingyi shook her head and said, “It’s not that there’s any problem, in fact, you just said that Wushangong is about revering nature, this is actually a set of Taoist heart techniques.”

“Then

Ji Feng was a bit puzzled, since there was no problem, how could Shen Jingyi react in this way?

Seeing Ji Feng’s expression, Shen Jingyi couldn’t help but explain, “There’s nothing wrong with the Phaseless Technique, except that this set of cultivation techniques is too ethereal, and to put it bluntly, it’s too esoteric.”

After a pause, Shen Jingyi added, “Let me tell you this, the set of Heart Technique, the No Phase Technique, actually has a great reputation in the martial world, many martial arts sects and martial arts families have this set of Heart Technique, to say that it is unknown to everyone may be a bit exaggerated, but to say that the popularity of this set of Heart Technique is indeed very high.”

“So high in popularity?”

Ji Feng couldn’t help but be a little surprised, “What’s going on here?”

Shen Jingyi said, “Actually, this set of mind techniques has been circulating in the martial arts world for many years, some people even say that it was already widely circulated during the Qing Dynasty, but the problem is that over all these years, there’s hardly ever heard of anyone being able to practice this set of mind techniques to achieve anything!”

“No way?”

Zhang Lei was astonished, “Since it’s been circulated for so many years and yet no one has been able to practice it, but then you say that there’s nothing wrong with this mind technique, isn’t that inconsistent?”

Ji Feng also had the same thought, Shen Jingyi’s statement was somewhat contradictory. There was no problem with the Heart Method, but no one had practiced it for so many years?

Shen Jingyi explained carefully, “Didn’t I just say that this set of techniques is too mysterious, saying that it is a martial arts technique, but there is only a simple cultivation method, and the vast majority of people who have practiced this set of techniques, not to mention reaching the Innate, can only be considered medium or even lower than medium in the Houtian level. Some people even speculate that this set of Wushangong might not be a martial arts technique at all, but a technique created by someone who wanted to practice monasticism in the past.”

“Monasticism?”

Zhang Lei was instantly amused, “It means cultivating to become a god?”

Shen Jingyi said, "Yes. But everyone knows that cultivating to become an immortal is a myth and legend, there is no such thing as becoming an immortal in reality, but it was this kind of claim that caused a craze in the martial arts world to cultivate WuXiangGong, and as you can imagine, those who cultivated WuXiangGong ended up in the dust, so WuXiangGong went unnoticed."

"Then it's not useless for Ji Feng to get such a set of mind techniques?" Zhang Lei asked.

"It can't be said that it's useless at all, at least there are still cultivation techniques in it, it's just too simple, even if you learn them all, your cultivation won't be able to improve anywhere." Shen Jingyi said, "I have this set of phaseless kung fu at home, only no one is practicing it at all, so it might as well be"

When she said this she suddenly paused and just shook her head, not saying anything further.

In fact, she wanted to say that this Phase-less Kung Fu was not as useful as those basic martial arts her father had given Ji Feng, but that incident itself had already caused everyone to make a bit of a mess, and she also felt a bit ashamed of Ji Feng, so naturally she was too embarrassed to mention it.

"After half a day, it's all for nothing again!"

Zhang Lei couldn't help but shake his head and said, "Crazy, it seems like you're happy for nothing, I see, ah, that old man called Liu Chaoyang is clearly just perfunctory."

Ji Feng couldn't help but shake his head and laugh bitterly when he heard this. Originally, he thought that Liu Chaoyang had given him a set of martial arts techniques for nothing and that he owed him a big favor, but only now did he realize that the favor was indeed a favor, but it was only a favor that could be found everywhere

The actual fact is that you can find a lot of people who are not familiar with you, and you may not believe in your cultivation method of reaching the innate world, and you can give him such a set of martial arts heart method, which is already very dignified.

One should not be too greedy and learn to be grateful!

So even if the original big favour turned out to be a smooth favour now, Ji Feng intended to find an opportunity to return the favour. As for the intention to use the body building exercises to exchange for the phase free gong, it was put off.

This kind of smooth favor was not worth using bodybuilding gymnastics to exchange.

"It's not right."

Zhang Lei's voice suddenly wanted Ji Feng to pull back his thoughts, and he heard him say, "Crazy, didn't you let Bai Zhu and Yang Bin follow at that time? Even if you don't know about things in the martial arts, Yang Bin comes from a martial arts sect, doesn't he know about it?"

Ji Feng shook his head, "Yang Bin didn't say, I guess he didn't know."

Shen Jingyi said, "It's true that he might not know, because I only heard my grandfather talk about it by chance, this phase free kung fu was indeed a big name a few decades ago, but now it's long gone, it's been swept away to a corner to gather dust. Yang Bin doesn't know about it and that's normal."

“Ugh!”

Zhang Lei shook his head: “What is all this, twice in a row ran empty, wasted effort Otherwise, next time you go looking for martial arts heart methods, simply call me and Jingyi, we go over together, at least Jingyi can also help you keep an eye on things, if you have to grab it with your hands, I can also give a hand”

“Grab your head!”

The first thing you need to do is to get a good idea of what you want to do. I’ll definitely call you guys when the time comes. But right now, I still need to practice this Phase-less Kung Fu first.”

“You still want to practice?”

Zhang Lei said, “You didn’t understand what Jing Yi said just now?”

Ji Feng smiled, “I did, but no matter what, there is a cultivation method on this Phase-less Kung Fu, even though it’s a basic mind method, it’s better than nothing. I’m just borrowing from it, it’s not like I’m going to start cultivating it from scratch.”

“Suit yourself!”

Zhang Lei said, “Anyway, it’s best if you take it easy on yourself, this gong method is so mysterious, it might really turn you into a god, then I’ll have to go to heaven if I want to drink with you, how troublesome would that be!”

Ji Feng: “.....”

Back at the villa, Ji Feng’s mindset had completely adjusted.

No matter if this Phase-less Kung Fu was mysterious or not, but at least since someone had practiced it and had a certain level of cultivation, although it was not high, it proved that this Phase-less Kung Fu was not a fake.

Since it wasn’t a fake, it was good!

Ji Feng just wanted to draw on it, hoping to be inspired, rather than having to have a profound heart technique to do so.

Of course, it wouldn’t do to be like Shen Jiucheng, Shen Jingyi’s father, who was fooling him with the most basic entry-level mind techniques.

Looking at the time, there were still two hours before Tong Lei and Xiao Yuxuan got off work, so Ji Feng simply came to the study and started to try to practice this Phaseless Technique.

Before practicing, Ji Feng had already read it over and over again, and with his memory, he remembered the contents of these thin dozen pages word for word.

However, there were still some obscure points in the understanding of the general outline.

Ji Feng knew that this was normal, since it could be used as the general outline of a heart method, although the number of words was small, it contained complex information, and even if one sentence was not understood correctly, the direction of cultivation would end up going in the opposite direction.

In order to make sure that he understood it correctly, Ji Feng recalled the general outline of the Wushang Gong once more in his head, carefully chewing on the meaning of every word.

However, what surprised Ji Feng was that every time he recalled it, his understanding of the general outline of the Phase-Free Kung Fu was different, as if it had deepened, but with a sense of clarity.

Sitting like this for more than half an hour, Ji Feng began to cultivate.

The first step was to sense oneself.

According to Ji Feng's understanding, this was actually to sense that one's own existence in heaven and earth. He knew that this understanding was somewhat esoteric, but according to his understanding of the general outline, this was probably what it meant.

"Its own existence in heaven and earth is a known fact, how else can this be sensed?" Ji Feng frowned and pondered, but had no clue, so he decided to first try to follow the cultivation method behind.

"Self, Heaven and Earth"

Ji Feng tried hard to exclude all distracting thoughts and began to cultivate.

However, just at this moment, the voice of the intelligent brain suddenly sounded in his mind, "Master! Master!"

The Wisdom Brain's voice was very urgent and seemed incredibly anxious.

Ji Feng was originally immersed in cultivation, and when he 'heard' the voice of Wisdom Brain his body shook and he snapped open his eyes, and then immediately concentrated on entering the Wisdom Brain space, he saw that Wisdom Brain's round body was swaying.

"Wise Brain, what's wrong?" Ji Feng frowned and asked, his heart couldn't help but feel a little heavy when he thought of the rapid voice of the Wise Brain, which was practically no different from even a real human.

"Master, a peculiar energy has suddenly been created in your body, this energy will destroy the bio-current in your body." The intelligent brain said in an urgent voice.

"What?!" Ji Feng was stunned, "Peculiar energy?"

"Yes master, just before I woke you up, your body was generating a peculiar energy that was far stronger than the bio-current and was devouring it"

Campus Master Chapter 3154

"Yes Master, just before I woke you up, your body was generating a strange energy, far stronger than the bio-current, and was devouring it"

"Devouring?"

Ji Feng was once again taken aback at his words. This statement from the intelligent brain made him very stunned, when did the strange energy arise in his body? How come he didn't know about it?

"Wise Brain, what is this strange energy you speak of?" Ji Feng asked.

"It's a new type of energy." The intelligent brain said.

Ji Feng couldn't help but frown a little, this statement from the Wisdom Brain was the same as not saying anything, he asked again, "How was this energy generated?"

The intelligent brain said, "I don't know, it was suddenly created."

Ji Feng asked, "When exactly was it?"

The intelligent brain said, "Five minutes ago."

Ji Feng froze, five minutes ago? Wasn't that when he first started cultivating the Phaseless Technique?

Suddenly his heart moved, could it be that the strange energy that Wisdom Brain was talking about referred to the energy that was generated when he was practicing the Phase-less Kung Fu?

Not true!

Ji Feng immediately shook his head, because he had only just started to cultivate the Phaseless Gong and did not feel any energy being generated in his body at all. But if it wasn't the energy brought about by the cultivation of the Phase-less Kung Fu, then what was it?

Thinking of this possibility, Ji Feng immediately said, "Wise Brain, I am cultivating a martial arts heart technique, perhaps the strange energy you mentioned was generated because of the cultivation of this martial arts heart technique. In that case, I will immediately start cultivating now, and if any more strange energy appears, you will tell me immediately."

"Master, this kind of strange energy is extremely dangerous, master must not cultivate it." The intelligent brain immediately said, "This kind of energy will swallow up the bio-current in the master's body, if there is too much of this strange energy, the bio-current in the master's body will be completely swallowed up, by then the master will completely lose his combat power"

"That serious?"

Ji Feng smiled, his expression couldn't help but be a bit grave, the bio-current in his body was actually a kind of energy, although it was different from the traditional internal energy, but in essence, both of them belonged to the category of energy.

If the bio-current is swallowed up, then

"Intelligent brain, just now you said that the strange energy would swallow up the bio-current in my body, so let me ask you, after the bio-current is swallowed up, is that strange energy still there?" Ji Feng suddenly thought of something and couldn't help but ask.

"It still exists."

The intelligent brain said, "However, this strange energy is different from the bio-current, which will put the master in danger."

Ji Feng nodded thoughtfully, it seemed that his guess was correct, since that strange energy was devouring the bio-current instead of the two repelling each other, that meant that by the time that strange energy had devoured the bio-current, either, that strange energy would grow stronger as a result, or, it would be converted into another kind of energy after devouring the bio-current!

However, since it was all energy, how serious could the consequences be?

In the end, all the bio-currents in the body would turn into that strange energy!

Moreover, Ji Feng also thought of one thing: since this strange energy could devour the bio-current, it meant that the strength of this strange energy was definitely higher than that of the bio-current, otherwise, it should be the bio-current that devoured the strange energy in turn.

This is like a comparison between bio-current and the internal energy of other martial artists, where bio-current is more pure and has a higher intensity of energy than internal energy.

By analogy, this strange energy that suddenly appeared should obviously be more pure than bio-current, well, that should be it.

Ji Feng's mind turned rapidly and made such an analysis in his heart.

However, this was only a speculation and analysis, after all, the intelligent brain had said that it was so dangerous, and Ji Feng couldn't tell if this strange energy that had suddenly appeared was from practicing the Phaseless Gong or not, and he couldn't tell even more, once the bio-current was completely swallowed up, what kind of energy it would transform into, and whether he would be able to harness it.

He had heard that the vast majority of reasons for practicing kung fu to go off the rails were actually because the true qi in the body clashed with each other

"Wise Brain, I've decided to try it again." Ji Feng finally made up his mind, he first had to find out if the strange energy that Wisdom Brain was talking about was related to the Phaseless Gong or not.

"Master, this kind of attempt is extremely dangerous, it is not recommended." Wisdom Brain said.

Ji Feng froze when he saw that his decision had caused the Wisdom Brain to strongly oppose it, he didn't expect that the Wisdom Brain had grown to this point, not only did it have the initial self-awareness, but it even started to be able to make judgments and would stop him!

He looked at Wise Brain in a daze for a moment and said, "It doesn't matter, it's always worth a try when you're rich, otherwise I won't be willing."

Wisdom Brain said sharply, "Master, this strange energy will devour the bio-current, once the bio-current in master's body is devoured, I won't be able to exist either."

Ji Feng was startled violently, "What?"

He blurted out, "Wise Brain, you exist by bio-current?"

Without waiting for the Wise Brain to answer, he actually knew the answer already. That's right, Homo sapiens existed only by bio-current.

When he had first encountered Homo sapiens, he had been asked to practice aerobics, and once he had started, he would be punished by bio-current stimulation if he did not pass the moves.

At that time, Homo sapiens was the one with bio-currents, only later his own body also produced bio-currents, so he didn't think about it in that way.

But now, after hearing the wise brain say this, Ji Feng immediately reacted to it.

Understanding this, Ji Feng could not be so reckless.

He pondered for a moment before saying, "Wisdom Brain, how about this, I'm just verifying whether that strange energy is generated by practicing the Phaseless Energy or not, and since you said that this strange energy is so dangerous, you always need to find out the cause of its generation. Besides, I will soon proceed to create a body for you, and by then even if all the bio-currents in my body are swallowed up, it won't threaten you."

The wise brain said, "But this attempt is too dangerous"

"It's fine!"

Ji Feng said, "It's only right to take some risks. It's settled, I'll start here."

After saying that, he exited the intelligent brain space, looked at the Phaseless Gong in front of him, took a deep breath, closed his eyes and started trying to cultivate it again.

This time, not only did Ji Feng have to cultivate the Phaseless Gong, he also had to pay attention to whether or not a strange energy was created by cultivating the Phaseless Gong.

However, what made him helpless was that once he had to be distracted to pay attention to that strange energy, he couldn't fully immerse himself in that sense of himself, in which case even with the cultivation method of the Phaseless Gong, he couldn't enter the state at all.

Ji Feng decided to leave the task of paying attention to that strange energy to the intelligent brain, which would tell him as soon as that energy was generated anyway.

Once he focused his mind, Ji Feng began to completely relax himself and carry out his cultivation.

In fact, the cultivation method of the Phaseless Gong was very simple, but the conditions were very demanding if one wanted to truly enter a perfect state of cultivation.

The mere fact of a completely emptying oneself and sensing oneself required one to be free of distractions.

But how many people can really think of nothing and completely blank their minds? Moreover, it was not enough to just have a blank mind, one also had to sense one's 'existence'.

It was fortunate that Ji Feng had the ability to never forget, and had very carefully memorized the Phaseless Technique countless times and carefully pondered and understood it, so he was able to do so without any distractions.

Ji Feng entered a state of cultivation that was perfect.

“Master! Master!”

Suddenly, the voice of the intelligent brain once again rang out in Ji Feng’s mind, “That strange energy has appeared again!”

Ji Feng snapped open his eyes and his heart shook, sure enough! The kind of strange energy that the wise brain said was really produced only by the cultivation of the Phaseless Gong!

He entered the Wisdom Brain space and asked, “Wisdom Brain, is it still the same kind of strange energy from last time?”

“Yes master, this kind of energy is very dangerous!” The Wise Brain emphasized it again.

Ji Feng nodded his head, he guessed that was the case, otherwise how could it produce strange energy for no reason?

At the same time, he realised that this Phase-less Kung Fu did not seem to be as ordinary as Shen Jingyi had said!

The energy generated from practising the Phase-less Technique could even be devoured by biological currents, so how could it be an esoteric mind technique that no one wanted on the rotten street?

He didn’t know why other people’s cultivation would be useless, but there was no doubt that there were clearly strange phenomena occurring when he cultivated the Phase-less Kung Fu!

“Master, you can’t try any more!” Wisdom Brain anxiously reminded.

“I know.” Ji Feng nodded, “You don’t need to worry, I have it in mind.”

“Yes, master.” Wisdom Brain said.

Ji Feng then retreated from the Wisdom Brain space, but in his heart he was incomparably curious, he was curious to know what kind of energy was that strange energy produced by the cultivation of the Phaseless Gong, what kind of energy was it that even biological currents could be swallowed up.

“This might be a kind of internal energy produced after practicing the Phaseless Gong, since I don’t know the name, let’s call it Phaseless Energy for now!”

Ji Feng pondered in his heart, but did not know if this phase-free energy was still in his body, and even if it was, I’m afraid there was only a trace of it, after all, he had only just started to cultivate it, and every time it was interrupted by the intelligent brain just as soon as the phase-free energy was generated.

“How about trying it out?”

Ji Feng suddenly had an idea, and he immediately urged the bio-current to swim through his whole body, wanting to feel the phase-free energy.

“Ee?!”

Suddenly, Ji Feng opened his eyes, and to his surprise, he found that when he urged the bio-current through his left arm, it seemed to be smoother than before!

His left arm had almost ruined its meridians since he had been seriously injured, usually when the bio-current passed through his left arm, it was extremely difficult and couldn't go at all, but now, the meridians of his left arm seemed to be warmer.

"Could it be an illusion?!" Ji Feng muttered darkly, that feeling was very inconspicuous, and his left arm didn't seem to have changed much, so perhaps, it really was an illusion.

Campus Master Chapter 3155

Island No. 1, laboratory.

Ji Feng opened the boxes stacked in the laboratory one by one and took out those metal blocks of different colours inside.

These metal blocks were a little smaller than bricks, but they were different in weight. Like the metal block Ji Feng was holding now, it weighed almost twenty pounds, heavier than an iron block, while the metal block he took out of another box before was as light as if it was made of plastic.

These materials were the special materials that Ji Feng had asked Zhao Kai to buy back from various places.

A small half of them were bought back from the black market, and the other large half, sent over by the Chinese military, were military high-tech materials.

These materials bought from the black market were also incredibly expensive, just the materials in these boxes alone cost nearly three million, and this, was not even the price of all the materials.

However, regarding the quality of these materials, Ji Feng was very satisfied.

He didn't even need to test them, just by touching them with his hands, he knew that the purity of these materials was very high and there were no fakes in between. In this age of counterfeit goods, it really took some luck to buy such high purity materials.

A bank in a southern city once broke a scandal in which the gold offered for sale by the bank had a large amount of lead, with only a thin layer of gold on the outside, and it was plated. The scandal was a sensation at the time, but in the end only a few small fish were dealt with, and then it was over.

This is not an uncommon phenomenon abroad, and it is even more so on the black market, which is also flooded with counterfeit goods. How can they have so much surplus material to sell?

They could only use counterfeit goods to mix it up!

"This guy Zhao Kai is really nimble." Ji Feng smiled, he was right to leave this matter to Zhao Kai. Ever since Zhao Kai had organized the information group, his abilities had been fully displayed and had developed to the point where Zhao Kai was able to have a certain amount of energy in the international arena.

Thinking of Zhao Kai, Ji Feng suddenly remembered what Zhang Lei had once told him about the information team's people secretly spying on the executives of the Tengfei Group.

He frowned, then shook his head again, and stopped thinking about this.

The most important thing at the moment was to try to create a body for the Smart Brain and have it transferred into this body.

As the intelligent brain became more and more human, not only did it become self-aware, but it could also make judgments and could distinguish what was beneficial and what was harmful and dangerous.

And most importantly, now Ji Feng found that more and more often, the wise brain could actually call on him without his consent, even when he was cultivating, the wise brain could easily influence him.

Especially

Ji Feng pursed his lips, and his mind could not help but flash back to the weird feeling he had last time in the Tengfei Network Company when he fought with that mysterious hacker 'Emperor', when the wise brain controlled his body instead of him.

So Ji Feng was even a bit impatient to have the body of the wise brain made before because he didn't have the materials, but now since all the materials other than the nuclear materials had arrived, he didn't want to wait any longer.

"Since the materials are there, we can now proceed with it." Ji Feng categorized all the materials while recalling in his head the steps he had pushed over and over before, "Ultra-high strength soft metal, bionic colloid, nano silk"

"Wise Brain!"

Suddenly, Ji Feng entered the wise brain space and asked, "It's easy to inject bio-current into the manufactured body, however, how is the bio-current going to be stored?"

He had discussed the matter of creating the body with the wise brain countless times. How to create the skeleton, how to arrange the meridians inside, and so on, they had discussed all these details together, and the information that was in the database of the intelligent brain, all of it was told to Ji Feng, and he also based on this information, then designed it.

However, from the beginning to the end they did not discuss how to store the bio-current for the wise brain to exist in the new body, it must have bio-current as energy, but this body is only artificially made, it cannot cultivate like normal humans and so on, it simply cannot provide bio-current on its own, that's why Ji Feng asked this question.

"As long as there is an energy source, I can manipulate the body to simulate bio-current." The intelligent brain said.

"Simulated bio-current? Can that be the same as the real one?" Ji Feng asked with a frown.

"There is a certain difference, but it can be used." The intelligent brain said.

Ji Feng nodded slightly, that made sense, when he used the bio-current to simulate neurotoxin, he could also achieve 60% or 70% of the effect of the real neurotoxin, in the words of the intelligent brain, there was a difference, but it could be used.

However, Ji Feng still had some doubts: "You can manipulate your body to simulate bio-currents? Why haven't I heard you say that before?"

The intelligent brain said, "Master, you didn't ask."

"....."

Ji Feng shook his head and smiled, "Alright. Then I'll start creating your body here, this definitely can't be done in a day or two, it needs enough time, just wait patiently."

The intelligent brain said, "Yes, master, thank you."

Ji Feng froze for a moment, "You still know to be thankful?"

Wisdom Brain said, "Gathering enough information will allow me to conduct a more adequate analysis and imitation."

"Alright."

Ji Feng was not even surprised anymore, the Wisdom Brain could call itself 'I' a long time ago and was able to detect danger and alert him when he was practicing his Phaseless Kung Fu, so what was so unusual about knowing to be thankful now?

After exiting the intelligent brain space, Ji Feng got down to work.

He first had to process the materials as needed, melting what he needed to melt and cutting what he needed to cut.

And this was only the first step, next, the work he needed to do was simply massive, to create a body was definitely not that simple, even if the knowledge in his head was as rich as it was, it was definitely very difficult to rely on him alone.

Making a body for an intelligent brain is not making an inflatable doll Ji Feng muttered darkly.

.....

Just as Ji Feng was carefully handling the materials, a group of guests were welcomed on Island One.

The first time she set foot on Island No. 1, warmth just got off the boat and couldn't help but be stunned for a moment, her eyes, hidden behind sunglasses, were filled with astonishment.

Equally astonished as she was were the dozens of other people who had gotten off the boat. Although they were now standing on the wide pier, which did not look very prosperous, the buildings in the distance, as well as the various facilities and wide roads that were filled with the atmosphere of a modern city, all amazed them. If they did not know that this was Island No. 1, they would have thought that they were in some city inland!

"Young Ji is really amazing, to build a desolate island so beautifully and modernly in such a short period of time!"

Wen Xin couldn't help but marvel.

The people next to them all nodded in agreement, most of them were stepping onto Island No. 1 for the first time. Originally, in their imagination, even though there was the Tengfei Group situated here, it was after all an isolated island hanging overseas, so how could it be prosperous?

But what they saw now surprised them.

“Everyone, welcome to Island No. 1, please take your luggage with you, we are going to take a bus to the car park at the front and then to the hotel.” A few people in professional attire came to these people, one of them, a man around his thirties, smiled and said, “Our General Manager Han and General Manager Xiao have already booked rooms for you all, because they are too busy with work, they can’t come to greet you personally, let me say sorry to you all!”

“Nowhere, nowhere, we all understand.” These people said one after another.

“Well then, please follow me, by the way, let me introduce myself, I am the manager of the public relations department of the Tengfei Group, my name is Huang Cheng.” The young man said with a smile.

The others greeted him, but these people did not notice that just not far from Huang Cheng and a few other staff members of the Tengfei Group, there were several other people dressed in casual clothes, some of these people were idly skulking around, some seemed to be in love with their girlfriends looking at the scenery, however, their eyes were all sharp and swept over these people who had come to Island One from time to time.

After the group of people left, peace returned to the pier, and just after these guests left, the few people in casual attire, all left one after another as well.

.....

The entire day was busy, not even eating lunch, and throughout the process, Ji Feng was preoccupied with the work at hand, dealing with these materials, there was no room for half-heartedness, let alone distraction, so in order to keep himself from being disturbed, he locked the door of the laboratory and turned off his mobile phone.

When Ji Feng came from the work room to the room outside and changed the clothes on the hanger, he realised that there were six missed calls on his mobile phone, two of which were from Xiao Yuxuan, Zhao Kai had called him three times and Zhang Lei had called him once.

He immediately straightened his clothes and headed out, and just as he got downstairs, he saw a young man rush to greet him, “Mr. Ji, two hours ago Captain Zhang came to look for you and asked you to call him back immediately when you received the message.”

“I got it, thanks.” Ji Feng nodded, and while walking outside, he took out his mobile phone and dialed Zhang Lei.

“Crazy, you’re finally on, you’ve been in the lab all day then?” As soon as the phone was connected, Zhang Lei’s voice immediately came through.

Ji Feng laughed: “I forgot the time when I got busy, what’s the matter with calling me?”

Zhang Lei said, “The guests have arrived, and I received a report from below that one of the people who came is an acquaintance of yours, so I just told you.”

“An acquaintance? Who is it?” Ji Feng asked, he knew that the guest Zhang Lei was talking about should be a guest of the Tengfei Group, but he didn’t know which acquaintance it was.

Campus Master Chapter 3156

“Warmth?”

From Zhang Lei’s mouth, he learned that warmth had come to Island No. 1, which made Ji Feng couldn’t help but be surprised, “Why is she here?”

A long time had passed since the last time he saw Cozy, and Ji Feng only knew that Cozy had studied abroad after quitting the entertainment industry, and the last time they met was in Jiangzhou after Cozy returned from her studies.

Although at that time Ji Feng found that warmth seemed to have changed a lot, not as snobbish and not as mean as before, and the whole person was a lot more inward-looking, but in Ji Feng’s heart he still classified her as an acquaintance, not even a friend.

This is because the impression that warmth gave him in the past was too bad. The former warmth, scheming and knowing more about using her looks and certain advantages that women are born with, was too utilitarian.

Ji Feng does not think that a person can be transformed from inside to outside just by studying abroad for a year or two, a foreign country is not a paradise, let alone a holy land, a foreign country is also a big dye bath, even more unpleasant in some aspects than at home.

Therefore, after meeting once in Jiangzhou, Ji Feng did not take the initiative to contact warmth again, we can just be acquaintances, there is no need for any further development. He kept a respectful and distant attitude towards warmth, but he was still able to save face.

Since then warmth has contacted him several times, sometimes inviting some excuses to ask him out, but Ji Feng has politely declined, warmth may also realize that she is not welcome here in Ji Feng, so also did not come to bother Ji Feng again.

But unexpectedly, now she suddenly came to Island No. 1.

“I’ve checked, this time, warmth is here on behalf of the Eastern Group, she is the vice president of the Eastern Group.” Zhang Lei said.

“What?!”

Ji Feng was surprised, “Vice president? Wen Xin?”

Zhang Lei said, “That’s right, the list is marked as such, the PR department has also checked with their respective units, and the information is all correct.”

Ji Feng frowned and said, “In that case, Wenxin is really the vice president of the Oriental Group I know, I’ll go there now.”

After hanging up the phone, Ji Feng couldn’t help but shake his head and smile, this warmth is really shifted from the original youthful jade girl to become the vice president of the Oriental Group.

This Oriental Group Ji Feng knows, this is a large group of companies in Huanghai City, this company and the Tengfei Group also have cooperation.

In fact, the guests who came this time were all companies that had cooperation with the Tengfei Group, and they were also companies that had close business dealings, including two big industries, namely medicine and automobile, and they came to No.1 Island at the invitation of the Tengfei Group, mainly for business negotiations.

Ji Feng did not expect that Warmth would actually be among them.

By the time Ji Feng met Zhang Lei, this group of guests had already been picked up by people from the public relations department of the Tengfei Group and checked into one of the hotels owned by the Tengfei Group, one of the few luxury hotels on Island One.

“When these people first boarded the ship, our people were already secretly verifying their identities, all of these people’s identities are genuine, and the assistants and other people around them have also been verified, all are fine!” The two of them walked towards the hotel, while Zhang Lei described the situation.

Ji Feng nodded and said, “It’s good that there are no problems.”

Zhang Lei grinned, “In fact, even if there are problems, it’s nothing, all the military arrangements on the island are hidden, what can be put out in the open for them to see, that’s what we want to show them, what we don’t want to show them, they can’t even see a screw. Besides

He laughed heatedly, “I really hope a few problematic ones will come, just so I can move my muscles, staying on the island all day, my body is about to get rusty.”

Ji Feng laughed: “Don’t be careless, if someone with bad intentions really comes to the island, since they dare to come, they must have all the preparations, you don’t want to wait until they have gathered all the information away and you haven’t reacted to what is going on, that would be a joke.”

Zhang Lei laughed, “Then they’d have to have that chance! Although we can’t say that this Island No. 1 is an iron barrel, at least it’s not something that anyone can come to whenever they want. Which person who comes to the island doesn’t have their identity verified before they can board the island?”

“Anyway, it’s good for you to be more careful.” Ji Feng laughed, he knew Zhang Lei’s ability, so he still did not continue the topic after a slight reminder.

“Just rest assured, even if there are really people among them with bad intentions who want to spy on the situation, they won’t see anything!” Zhang Lei was still very confident about his setup.

Soon.

The duo arrived at the hotel’s surveillance room, where they could clearly see that a dozen people appeared on one of the surveillance screens.

“I’ve already spoken to Han Zhong, let’s gather them in the meeting room first, and you can see if there’s anything wrong.” Zhang Lei said.

“Since the identities have been verified, there shouldn’t be any problems.” Ji Feng casually pulled over a chair and sat down, asking, “What is the itinerary for these few days?”

“First, we will visit Island No. 1, as a few of them want to inspect our production workshops, and Han Zhong has already made the arrangements. Other than that, it’s just to have business talks and such, I’m not too sure about these, I still have to contact Han Zhong.” Zhang Lei said.

Ji Feng nodded and looked at it for a while longer before he stood up, “Can’t see any problems, just follow the normal process.”

Island No. 1 was not like any other place, this was not only where the headquarters of the Tengfei Group was located, it was also the forefront of China’s military arrangement. Once war broke out, this would definitely become an important supply location for the Chinese Navy. In addition, there are too many fortifications and technologies on Island One, all of which are top secret, so strangers are generally not allowed to board the island at will, let alone open it to the public.

Most of the people who come to Island No. 1 are engineering and construction workers, or employees and family members of the Tengfei Group, or seafarers, and these people are all registered, so nothing should happen.

So for these people who originally did not belong to Island No. 1, Ji Feng would focus on observing them.

But now, it seemed that there should be no problem with these people.

In the surveillance, Ji Feng also saw warmth, this originally very beautiful woman, at this moment is an extremely introverted dress, looks very intellectual, at this time she is talking and laughing with someone to exchange something, Ji Feng looked at her for a moment, then moved away from his gaze.

For this woman, Ji Feng always had a sense of distance in his heart, and judging from warmth’s previous performance, this was definitely not a friend to be associated with.

Island No. 1, Pier No. 2 on the north side.

This was the exact place where warmth and others disembarked and boarded the island. At this moment, there were many ships moored here, among which was the passenger ship warmth and others were on.

In the cockpit of the passenger ship, there were a few people smoking, all of whom were dressed as crew members.

“Island One

An odd smile flashed in the eyes of one of the crew members, flickering away as his mouth whispered to himself, “Quite a place!”

He couldn’t help but smile slightly as he saw the people near the dock leave one after another. And then, he returned to the lounge of his cabin, changed into a casual outfit and stepped out onto the dock with ease.

“What a war party, what a security, it’s nothing more than that.”

.....

“Young Ji, we meet again.”

Wen Xin smiled like a flower and looked at Ji Feng, "It's really hard to meet you, it seems that young Ji really doesn't treat me as a friend!"

Ji Feng smiled and waved his hand, "I'm mainly busy, I usually stay on the island and rarely go back."

Wen Xin angrily said, "Young Ji, you're bullying people! It's all an excuse!"

Ji Feng asked, somewhat puzzled, "How so?"

"For such a long time, you've never invited me to visit Island No. 1, I see, there's no place for me in your Ji Shao's heart." Wen Xin angrily said.

Ji Feng laughed, "This is my fault, so what, I now sincerely invite you to come over and play anytime."

"I want to come too, but now I'm working for someone else, how can I have so much time!" Wen Xin sighed somewhat helplessly and said, "You refuse to take me in again, Ji Shao"

"I definitely welcome you with both hands if you can come to work for the Tengfei Group, but I'm afraid that your fans will sink this island number one if they know about it!" Ji Feng laughed.

"I knew you didn't really invite me!" Wen Xin snapped.

"Hehe"

Ji Feng laughed twice and said, "Please do, I'll treat you to dinner as my way of making amends."

Wen Xin laughed delicately, "That's more like it!"

Ji Feng smiled and made a please gesture, "Get in the car."

Wen Xin smiled and nodded, and at the moment she turned around, her eyebrows knitted slightly, a look of disappointment flashing across her eyes.

This was the same night that the guest arrived at Island No. 1, and since Wenxin had come, Ji Feng had to come out to see her for the sake of face, but that was all he did, he easily declined or turned down all of Wenxin's other requests.

Wen Xin also seemed to have sensed Ji Feng's attitude, so after dinner, she did not make any other requests and returned to the hotel.

Standing in front of the huge floor-to-ceiling window of the hotel room, through the slit in the curtain, Wenxin looked downstairs at Ji Feng leaving in his car with her left arm around her right arm, an extremely complicated look on her face.

"I know, you can't look at me, but I didn't expect that by now you were even more condescending than before!" Wen Xin's pair of eyes narrowed slightly, "But who can guarantee that you will be so scenic for the rest of your life?"

Swish!

She heavily pulled the curtains tightly, "I hate being looked at in a condescending manner! Always have!"

Night.

In the factory district, most of the workers who had been busy all day had gone back to their dormitories to sleep, and in the silence of the night, the sound of the waves could be faintly heard in the distance.

Whoosh~!

A black shadow suddenly crossed the dormitory wall and flashed past.

A moment later, the electronic security door of one of the dormitory buildings was brushed open and a man hummed a little tune as he walked into the dormitory

Campus Master Chapter 3157

Island No. 1.

“Jamin, working late again, huh?”

“Yes.”

“It’s not often you see a young man as hardworking as you are, my grandson is in the same factory as you, but he’s never back an hour or two earlier than you, and he doesn’t listen even when you say so, it’s really

The young man called Jia Ming smiled, said nothing more, and walked straight into the dormitory building.

The old man who was in charge of the dormitory building looked at Jia Ming’s back and could not help but shake his head, saying that people are really more angry than others, Jia Ming, a young man who looks only about 30 years old, but is very serious about his work and does not spend so much time drinking, unlike other workers who, as soon as they are paid, come back that night smelling of alcohol, and needless to say, must have gone to a restaurant or a bar. It goes without saying that he must have gone to a restaurant or a bar to spend his time.

Not only that, this Jia Ming is also very polite, and at first glance, he is a loyal and honest person.

Thinking about his grandson and comparing him to Jia Ming, the old man could only sigh in dismay.

When he entered the dormitory building, the faint smile on Jia Ming’s face immediately disappeared without a trace, and was replaced by an expressionless face. He breezed to his dormitory door and took out his key, just as he was about to open the door, his brow could not help but frown a little.

Then, he opened the door anyway.

The dormitory was dark, but Jia Ming did not turn on the light, but first closed the door and locked it again, and then walked straight to the middle of the dormitory, before stopping.

“When did you get here?”

Jia Ming suddenly asked.

With that, just before the table in front of Jia Ming, a voice suddenly sounded out, “Arrived almost ten minutes ago.”

Reflecting the faint light coming from the window, one could vaguely see a person sitting in front of the table, and from the voice, one could tell that it was a man's voice.

"Did anyone notice on the way here?" Jamin asked.

"No. But you were right in your prediction, there are people watching there every day on the docks, so I never had time to come over, and it's a good thing that a group of people caught the watchers' eyes today and lured them all away, so I had a chance to come over." The man in the dark shadow said.

Jia Ming asked, "Then how did you get in?"

The other person said, "I tumbled in over the wall, but don't worry, I definitely didn't leave any traces."

Immediately, Jia Ming said in a deep voice, "Confused! How can you be 100 per cent sure that no one saw you?"

The man in the dark shadows gave an erroneous start.

Jia Ming said in a deep voice, "Next time if you make such a mistake, you know the consequences!"

"Yes! I know I'm wrong, I won't do it next time." The man in the dark shadow said in a hurry.

"Alright, next time take your work tag and come straight in now get down to business." Jia Ming's voice softened a bit, "Have you done all those things you were explained to do?"

"All done, there is only one thing now the wind outside is very tight, the old mansion is always closely guarded, I can't get close." The person in the dark shadow said, "So I have not been able to see the old man."

"Humph!"

When Jia Ming heard this, he couldn't help but snort coldly.

The person in the dark shadow hurriedly said, "Don't worry, I will get it done as soon as possible."

Jia Ming said, "It's better to be careful, I don't have many people available in my hands now, so I can't lose any more men. Also, if you are caught outside"

The man in the dark shadow immediately said, "I will never let anyone catch me, the most they can get is my corpse."

Jia Ming said, "I know you must be trustworthy, don't worry, these days won't last long, it won't take long for me to go back, by then"

.....

Three days later, this group of arriving guests were about to depart.

Before leaving, warmth deliberately found Ji Feng.

"Young Ji, after I go back this time, I'm afraid it will take a long time before I want to come again." Wen Xin said.

“No. 1 Island is not a dragon’s den, if you want to come, you can come over anytime, I’m always welcome.” Ji Feng smiled and said.

A complex look flashed in Wen Xin’s eyes and she smiled, “Then what if I’m willing to come to Island No. 1 as a small worker?”

Ji Feng harrumphed, “Didn’t I say before that I was afraid that your fans would sink Island No. 1!”

Wen Xin smiled somewhat unnaturally and nodded gently, “Since that’s the case, then I won’t give you any trouble. Young Ji, if you go back someday, you are also welcome to visit my place as a guest, maybe, there will be unexpected surprises waiting for you oh!”

Saying that, she even winked.

Ji Feng smiled and nodded, “No problem!”

Wen Xin said, “Then it’s a deal.”

A few hours later, Wen Wen and the others stepped onto the passenger ship heading for land, and along with the low whistle, the passenger ship slowly sailed away from Pier 2 on Island 1.

“What, you can’t let go? Your eyes are looking straight!” In her ears, Xiao Yuxuan’s flirtatious voice was heard.

“It’s not that I can’t let go, it’s just a bit strange.” Ji Feng shook his head and smiled.

Xiao Yuxuan asked, “Strange? What’s strange?”

Ji Feng pointed at the passenger ship that was already far away and said, “This woman, Wenxin, from what I know about her, this is a very ambitious person, I never thought that such a person would take up a position at the Eastern Group.”

This person, Wen Xin, gave Ji Feng the impression from the beginning that she was utilitarian and ambitious.

The most important thing was that Wen Xin did not lack a background, although it was not too strong a background, but with her sleight of hand and connections, it would be really easy to make money.

But what is unexpected is that at the peak of her career, she suddenly retired and not only went to study abroad, but also transformed herself into the vice president of the Oriental Group.

If Cozy had opened a company of her own, Ji Feng wouldn’t even be that strange, but for her to run to the Oriental Group as vice president really made Ji Feng feel a bit strange.

What’s more, this group of people came to No. 1 Island to have business negotiations with the Tengfei Group. I’m afraid it’s not even a year since she returned from her studies, and she’s already in charge of such a big mess on her own?

“What’s wrong with working in the Eastern Group?” Xiao Yuxuan did not think so much about it, she was not familiar with warmth, she only knew that this person was a star before, and knew Ji Feng before, “Oriental Group is also a large group, strong, she as the vice president, I’m afraid she also has shares, right?”

Ji Feng shook his head, that wasn't the case at all.

Since the Oriental Group had grown to such a large size, it meant that this group company must have a certain background, there was no need to take shares to flatter warmth.

Moreover, according to his understanding, after she arrived, she did not finalize any specific cooperation projects with the Tengfei Group, but only renewed the previous cooperation contract and drafted a letter of intent for future cooperation, but that was all.

It can be said that, from the perspective of the Eastern Group, warmth this time is at most to play a role in maintaining customers, in fact, it is similar to the role of a salesman, of course, since it is company to company, it is at least the business manager who can handle it.

"Perhaps, it's because the Oriental Group wants to train her, so this time it's just like letting her exercise." Ji Feng shook his head, although he couldn't figure it out a bit, but since he had made up his mind not to have anything to do with warmth, he didn't think much more about it.

Anyway, nothing should have gone wrong in terms of security, and even if there was really something wrong with Cozy, it would definitely not escape Zhang Lei's eyes.

As for the security inside Island No. 1, while the battle team was in charge, Zhao Kai's intelligence team was also secretly in charge, and under this double insurance, Ji Feng was still very much at ease.

After this group of guests left, Ji Feng's life returned to peace.

During the day, he dove into the laboratory and processed the materials, while at night, he coached Xiao Yuxuan and Tong Lei to practise aerobics. Although he had now reached a bottleneck, both Tong Lei and Xiao Yuxuan still had huge room for improvement.

In addition, he also finds time to go to the school to give lessons to the students, simplifying the technological knowledge in his head as much as possible and then teaching it to them in the most common language.

His focus, however, is still on creating bodies for the intelligent brain. Now in Jiangzhou, the schools founded by the Tengfei Group, from primary school to university, were a complete one-stop training model, while education was something that took the most time, and it was almost difficult to see any results in a short period of time.

If it was possible, Ji Feng would actually hate to teach his students all the knowledge he could get out of his head, but after giving a few classes to the university students he found that the foundation of these students was too poor, and their direction of learning had deviated since they were children, and now even if he used the duck-fill method to teach them all the knowledge, they wouldn't be able to learn.

So Ji Feng could only try to simplify the knowledge as much as possible, focusing his training on the primary and secondary aspects. But after all, he was only one person, so he wrote some teaching materials and let those teachers teach them to the students.

The only way to usher in the true era of take-off is to wait until the current group of primary school students have grown up into adults, the Tengfei Group, because this group of people will be the ones who have truly grown up under the advanced knowledge of the Gamma Galaxy.

At that time, I believe that many people around will be affected, and I am afraid that the level of technology in the whole society will come to a big explosion.

Ji Feng was looking forward to that moment.

But for now, it was most important to create the body of the intelligent brain first.

With the nuclear materials delivered, it meant that all the materials were ready, and the work of creating the body for the wise brain, officially began.

Half a month later.

A skeleton in the shape of a human body appeared on the test bench. The skeleton was about the height of a normal adult, but it was heavier and had some odd joints and other connections.

“The skeleton is there, the next step is the most important one, filling it with flesh and blood!”

Campus Master Chapter 3158

Creating the bones is, I’m afraid, relatively the easiest step in the whole process. From the point of filling it with flesh and blood, it becomes extremely difficult.

Creating a body for the brain is not a matter of building blocks, just installing layers and layers, but at most it can be used as a temporary ‘landing place’ for the brain to store, but it is too difficult for the brain to command the body.

The only thing that would really allow the intellect to command this body is the tendons and veins in the flesh and blood.

That is the key!

According to the previous design, the tendons and veins in the body should be able to smoothly flow bio-currents, and the intelligent brain would control the expansion and contraction of the tendons and veins through the bio-currents, thus controlling the whole body.

Therefore, the first thing Ji Feng had to do was to create tendons and veins that could allow the smooth flow of bio-current.

“It’s also time for the wise brain to move.” This thought had long been in Ji Feng’s mind.

When he first obtained the Wisdom Brain, Ji Feng had never even thought about the possibility of letting the Wisdom Brain leave his mind, he had never even entertained the thought at all.

However, as the intelligent brain gradually became self-aware, Ji Feng became somewhat uncomfortable.

In particular, when he was engaged in an encounter with that mysterious emperor at the cyber company, the wise brain manipulated his body even though that was with his consent, but that feeling of his body being completely out of his control was definitely not something that ordinary people could accept, and Ji Feng was equally unable to.

Therefore, it was already imperative to create a body for the intelligent brain.

Even, Ji Feng vaguely felt an oddity, as if the current intelligent brain was no longer just an artificial intelligence, it was more like a life instead.

Under such circumstances, Ji Feng would have to seize the time and create this body with the fastest speed.

.....

Yanjing.

He Hongwei frowned as he looked at the stack of information in his hand.

“Young master, this is the latest information we got.” Opposite He Hongwei sat a young man in a black suit, a young man whose appearance was so unimpressive that he could barely be found when thrown into a crowd, but the cold aura that flickered in his eyes was enough to show that he was no ordinary person.

He Hongwei didn't say anything, just flipped through the information for a while before he asked, “It looks like Dynasty is going to play dark?”

The young man in the suit nodded and said, “From the information we have received so far, it should be like this. Since Dynasty has been hit hard one after another in China these past few years, they have hidden even deeper.”

He Hongwei asked, “Can you confirm the authenticity of this information?”

The young man in the suit said, “Yes! This is what we have investigated in secret, without alerting anyone.”

“Humph! The Wu Family has a crooked upper beam and a crooked lower beam!”

He Hongwei sneered twice in disdain, “I thought that the Wu family should have a sensible person no matter what, but now it seems”

He shook his head, a look of disdain flashing across his eyes.

What was shown on this information was the information of some people who were involved with the Wu family, but these information were all about some people in a certain hutong in Yanjing.

“It seems that Ji Feng has also noticed this place for a long time!” He Hongwei mused, “In that case, then we'll stay out of it for now, since we've been targeted by Ji Feng, then trouble is coming for the Wu family.”

“Yes!”

The young man in the suit nodded, “Then the people we've arranged there”

He Hongwei said, “Withdraw them all back, leave none behind! Also, remember not to leave any traces, especially not to alert these people. Since Ji Feng didn't even come out, but had people investigate secretly, we should be even more careful and not spoil his business!”

The young man in the suit immediately answered yes.

He Hongwei smiled, "To actually play this trick, to have some dude go after these people and in turn force the people behind them to jump out, thanks to him for thinking of that!"

"Young master, even if this is found out, it can't do anything to the Wu family, right?" The young man in the suit asked with some doubt, "It's just selling some wild game, moreover, it's only related to an insignificant person from the Wu family, even if Ji Feng is powerful, he can't bring much trouble to the Wu family, right?"

After their investigation, there was a private restaurant in that hutong that was not open to the public and was related to the Wu family. This restaurant, on the surface, appeared to be just a private restaurant, but in reality, in secret this restaurant was serving monkey brains, pangolin and even Grade 1 protected animals as its main dishes at shockingly high prices.

This is obviously a serious offence.

However, the backstage of this restaurant was just a dude from the Wu family, and not even a direct descendant. Even if the investigation ended up sentencing this person, it would not hurt the Wu family.

Could it be that Ji Feng is trying to hit the Wu family in the face and make the Wu family lose face?

He Hongwei shook his head and said, "Selling wild game? Do you really think such a little thing can make Ji Feng make a big deal out of it?"

"That"

"I'm sure that there are people in this hutong that Ji Feng is interested in." He Hongwei's index finger tapped on the arm of his chair, "Although I don't know what Ji Feng is planning to do yet, but it's definitely going to be a good show! We'll just wait and watch the show."

"Yes."

"By the way, is there any news from the Rice side?" He Hongwei asked again.

"Not yet, but according to the latest news, the target's trail has been traced, and I believe it won't take long to block him!" The young man in the suit said, "Because it is still uncertain whether the target is the person we are looking for or not, our forces in Rice have not been fully mobilised for the time being."

He Hongwei said, "We need to move them all, don't wait any longer, and try to find the person as fast as possible."

"But if it turns out that the target is not the person we are looking for, won't that expose our people for nothing?" The young man in the suit was a little hesitant.

"What if? So what if it is the man? In case we let him get away due to lack of manpower, it will be difficult to find him again." He Hongwei said, "We have to find him at any cost and with the fastest speed!"

"Yes, I'll be there tomorrow"

The young man in suit was just about to speak when his mobile phone suddenly dinged, he casually tried to turn it off, He Hongwei waved his hand, "Answer the phone first, don't delay things."

Only then did the young man in suit pick up his mobile phone, and just after scanning it, he immediately said, "It's a call from the Rice country." And then immediately picked up.

A moment later, the phone hung up.

He looked at He Hongwei and hesitated for a moment before saying, "Young master, we've found someone."

Swish!

He Hongwei, who had been calm, abruptly changed his face, stood up in a flash and asked, "Can you be sure? What's the result?"

The young man in the suit said, "The person was found in a farm, and when our men arrived, the person was already dead, according to our comparison"

"What was the result of the comparison?" He Hongwei asked sharply, "Was it him?"

"No!"

The young man in the suit shook his head and said, "According to the information our people fed back, it was just someone who looked like the target, but it wasn't him, and according to the man's fingerprints, no comparison was found in the fingerprint database either."

He Hongwei's eyebrows tightened instantly and an unspeakable disappointment flashed in his eyes, "Dead, it's not him"

A long moment later, he could not help but let out a long sigh, "I knew that Wu Zhiyong, the third grandson, would not have been found so easily, otherwise, he would not have been Wu Zhiyong"

He Hongwei was very disappointed in his heart, although he had long known that although Wu Zhiyong was now down and out, this person was definitely not useless, he was carrying a huge amount of money, and he didn't know how long he had been operating in the shadows before he disappeared, if he really wanted to hide, it would really be too hard and too difficult to find him.

Knowing all this, He Hongwei still tried to hold on to a sliver of hope, but now

"Give me the details." He Hongwei said.

"From what we can see at the scene, the person committed suicide." The young man in the suit said, "When we found the trail, we have been tracking it, and finally found out that he should have landed at this farm, probably our pursuit alerted him, and when our men arrived, he killed the farm owner's family and swallowed the bullet himself."

"Can you be sure it was suicide?" He Hongwei asked.

"We can't be sure yet, but our men reported that from the circumstances at the scene, it should be a suicide."

"Well!"

He Hongwei nodded and slowly sat down for a while before saying, "It seems that Wu Zhiyong was prepared for this, and this person, should be his double, or even, possibly, a dead soldier!"

The fact that no information could be found from the fingerprint database, and that there was no match, meant that this person was definitely not a guard of the Wu family, and should be a double secretly trained by Wu Zhiyong.

This means that I'm afraid that Wu Zhiyong was ready to disappear a long time ago!

"No wonder, his whereabouts would be leaked so easily, and he was actually seen so coincidentally"
He Hongwei shook his head and smiled to himself, "I still underestimated him too much and was too confident. Wu Zhiyong is not falling away, he is afraid that this is a strategic retreat!"

"I'm afraid that the real Wu Zhiyong didn't go to Rice at all!"

"Then since Wu Zhiyong didn't go to Rice, where did he go?" He Hongwei narrowed his eyes, "Wu Zhiyong, we, will not die!"

.....

Island No. 1.

Late afternoon.

Han Zhong raised his hand to look at his watch, moved his body slightly, and stood up from his chair, ready to leave work.

"Knock, knock, knock!"

Suddenly, there was a knock on the office door, and just as he was about to speak, the door was pushed open from outside at once, "Mr. Han, still busy, huh?"

Han Zhong froze for a moment, "Zhao Kai?"

He then laughed, "Why do you have time to come to my place? Want some funding?"

Zhao Kai laughed, "What, I can't come to your place except for asking for money, huh?"

"Cut the crap, there's no money if you want it, there's enough wine if you want it!" Han Zhong laughed, "Let's go, it's been a long time since we've had a drink together, we have time today, let's go to my place and have a drink!"

"Sure." Zhao Kai said with a smile.

Campus Master Chapter 3159

"Kaiji, it's been a few months since the two of us brothers have sat down together and had a chat, hasn't it?" Han Zhong smiled as he poured wine for the two of them.

"Over four months." Zhao Kai said.

"Time goes by really fast!" Han Zhong lamented, "Don't look at us all on the island, but it's really not easy to get together, not to mention Shao Feng, that guy has been in Jiangzhou, guarding a beautiful old

boss life doesn't know how happy, just say the three of us, Ji Feng every day busy feet hit the back of the head, you guys often can't see people for a long time, really miss you guys. "

Zhao Kai said, "I can't help it, it's not because I'm busy!"

Han Zhong said, "All right, let's not talk about that, since we are together, let's drink well."

The two of them clinked glasses, and Han Zhong couldn't help but feel some emotions.

As he grew older, especially after experiencing so many things, he found that his mentality seemed too mature, even a little old.

Now he valued his friends very highly, especially since he and Zhao Kai were still classmates and were brothers in the same dormitory.

In fact, even if they were high school classmates, Han Zhong now had a few who played well together, only because as his identity was exposed and he had more and more opportunities to appear in newspapers or on TV and magazines, those who used to be good friends, however, were gradually distancing themselves.

Luckily, there were still Zhao Kai and Ji Feng and the others now.

Although some time before, Han Zhong felt that Zhao Kai had also changed a bit, and usually almost rarely took the initiative to chat and drink with him, unless he was looking for Zhao Kai.

Moreover, during the past few chats, he could also feel that Zhao Kai always had reservations when talking and seemed to be less sociable than before, which made him a little uncomfortable in his heart, but now that the two of them were sitting and drinking together again, that feeling of being old friends came back at once, which made Han Zhong very happy.

Han Zhong smiled and said, "Have some food and taste how my cooking is!"

"Mmm, not to mention, it tastes quite okay!" Zhao Kai took a bite and laughed, "If you don't become the boss one day, you can definitely make a good living even if you go and become a cook."

"Bullshit!"

Han Zhong laughed, "I'm just not used to eating canteen food, as you know, I don't have any other hobbies, I just like to eat, but there's no one to cook for me, so I have no choice but to do it myself, and I've developed my skills over time."

Zhao Kai said, "Your Wang Jun doesn't cook for you?"

Han Zhong said, "I cook for her, but I don't really expect her to. But she is good at doing other household chores, look at my nest, it's not bad, right?"

Zhao Kai laughed, "It's much better than my pigsty anyway."

The two of them burst into laughter.

After laughing, Zhao Kai suddenly said, "Han Zhong, why don't you and Wang Jun live together yet? Since the whole group knows about your relationship, there's no need to avoid anything, right?"

Han Zhong shook his head and laughed: "The time is not right yet, when it is, we will live together."

Zhao Kai said, "Not the right time?"

Han Zhong said, "You know, although the two of us have been together for such a long time, she has never made love to me"

"It's about her identity, isn't it?" Zhao Kai picked up the conversation.

"Yeah." Han Zhong nodded his head. It wasn't surprising that Zhao Kai knew about Wang Jun's identity, and in fact, Han Zhong had exchanged information with Zhao Kai a few times regarding this.

Zhao Kai said, "But it's not a solution for you to keep dragging it out like this, have you thought about a different approach?"

Han Zhong froze for a moment at his words and asked, "A different way? Change what?"

Zhao Kai said, "For example, since she hasn't made love to you so far, have you ever thought that maybe she didn't have true feelings for you in the first place, but only had other intentions?"

Han Zhong was slightly stunned for a moment and did not say anything.

Seeing this, Zhao Kai added, "Perhaps, you can think about having a showdown with her, telling her the truth face to face, and then see how she reacts."

"A showdown?"

Han Zhong pondered for a moment before saying, "I've thought about it, but it's not the right time yet."

Zhao Kai asked, "Then when do you think it would be appropriate to have a showdown? When she has revealed her true colours, or after she has already caused immeasurable damage to the company?"

Hearing this, Han Zhong instantly said, "You kid are talking too much, what immeasurable damage"

He shook his head and smiled.

Zhao Kai said, "This is not an exaggeration at all, you are the general manager of the Tengfei Group, you hold almost all of the core secrets of the Tengfei Group, if she makes a breakthrough from you, the loss will definitely not be a little bit!"

"Bullshit!"

Han Zhong said, "What kind of breakthrough could she make from me?"

Zhao Kai said, "Anyway, I think it's better to show your hand to her as soon as possible."

Han Zhong shook his head and said, "What if she doesn't admit it after the showdown? After all, it's only a suspicion now, but there isn't any direct evidence"

"If there really is evidence, then I'll just arrest the person!" Zhao Kai said.

"....."

Han Zhong was instantly choked.

Zhao Kai added, "It's because there's no direct evidence that you're looking for a showdown with her."

Han Zhong's brow furrowed, "Then after the showdown, what if she doesn't admit it?"

"Then drive her out of Island One, either that, or hand her over to me, or just hand her over to the Special Operations Brigade!" Zhao Kai said, "There are plenty of ways to pry her mouth open"

"Kai!"

Han Zhong steeply raised his voice, his face sinking as he interrupted Zhao Kai, "You're going a bit too far!"

He originally thought that Zhao Kai was just discussing with him about Wang Jun, but to his surprise, Zhao Kai was so aggressive and spoke so nonchalantly, even having already envisioned what to do with Wang Jun after his showdown with her and surprisingly, without even discussing half a word with him, he had already made the decision for him!

"Han Zhong, I see that you are now enchanted by her!" Zhao Kai said, "You should know very well that this woman is quite dangerous, if I were you, I would definitely not keep such a woman around for so long, as a friend, I advise you that it is better to deal with her as soon as possible!"

His words caused Han Zhong to frown even more, "I know all this in my heart, all right, let's not continue this topic, change the subject!"

Zhao Kai shook his head, "You're running away! Han Zhong, have you found that you have changed, become indecisive, and five confused, I know you have suffered losses in women before, want to find one that can hold a family for life, but the more this is the more you should give up Wang Jun"

"Zhao Kai!"

Han Zhong's face sank, "You didn't come here today to find me for a drink, you came specifically to talk to me about this matter, right?"

Zhao Kai nodded his head, "Sort of."

When these words came out, Han Zhong's face became even more ugly, he took a deep breath and said, "Don't worry about this matter, I have it in my heart and know how to handle it."

Zhao Kai said, "If you knew what was in your heart then I wouldn't have to make this trip! Han Zhong, I think you're the one in authority, you've kept that woman around for so long, what do you think Ji Feng will think? What do you think Xiao Yuxuan will think? Hmm?"

Han Zhong was stunned for a moment.

Zhao Kai said, "So, take my advice and hurry up and get rid of her, or just show your hand to her."

Han Zhong was silent for a long time before asking, "So, it was Ji Feng who told you to come?"

Zhao Kai said, "What else do you think? What kind of relationship are we? It's brothers! Why would I come and upset you?!"

Han Zhong was silent.

Zhao Kai stood up and patted him on the shoulder, “Han Zhong, think about it, that’s all I can say as a brother, what to do, you can definitely think clearly. I have to go to Kerry tomorrow, by the time I come back, I believe you should have finished dealing with it!”

With that, he turned around and left.

Han Zhong sat in his chair, looking at the table full of wine and food, with a gloomy face, not saying a word.

A moment later, he stood up violently, snapped at the table and with a ‘whoop’, overturned the entire table, and all the dishes on it crackled and fell to the ground

In the silence of the night, the sound of plates breaking was so piercing.

After venting, Han Zhong sat down again on his buttocks, his body leaning limply against the backrest, but his face showed a complex look of bitterness, mixed with disappointment.

The words that Zhao Kai had said seemed to be still echoing in his ears.

“What else do you think? We’re brothers, why would I come and upset you?”

Why?

Naturally, it was because Ji Feng had spoken!

And most importantly, Ji Feng didn’t come to him directly and talk to him, but asked Zhao Kai to relay the message to him.

“Hehe

On Han Zhong’s face, there was a bitter smile, thanks to that, he thought that Zhao Kai had come to him this suddenly, because he wanted to drink with him, and that he missed him.

And he, in addition, had dug in and prepared a table of good dishes, wanting to have a good drink with this brother who hadn’t been drinking together for months.

That’s ironic!

.....

In the blink of an eye, two days had passed.

Early this morning, Han Zhong came to Xiao Yuxuan’s office. When Xiao Yuxuan’s assistant saw Han Zhong coming, he immediately greeted him and invited him in, but unexpectedly found that his face looked a bit ugly.

“Mr. Han, are you alright?”

“I’m fine, thanks.” Han Zhong shook his head and pushed the door into Xiao Yuxuan’s office, “Mr. Xiao.”

“Mr. Han, have a seat.” Xiao Yuxuan smiled and then looked at him in surprise, “Ee? Why does your face look so ugly? Didn’t you have a good rest last night?”

Han Zhong shook his head, “No, just a bit unwell, nothing serious Mr. Xiao, how come I haven’t seen Ji Feng for the past two days? Has he gone out again?”

Xiao Yuxuan shook her head: “No, he’s been in that lab for the past few days, I don’t know what he’s up to, I haven’t seen him for a few days Han Zhong, are you really okay? Do you want to go to the hospital?”

Campus Master Chapter 3160

I’m sorry, but I’ve revised the previous chapter, which appeared as Han Zhong’s girlfriend Wang Jun, because my memory was a bit confused and I wrote it as Wang Yue.

.....

Xiao Yuxuan shook her head and said, “Did not go out, these days he has been in that laboratory, I do not know what kind of name he is making, I have not seen him for a few days Han Zhong, are you really okay? Do you want to go to the hospital?”

“I’m fine, a little problem, not that delicate.” Han Zhong shook his head.

“Don’t be careless, if you’re not feeling well, it’s better to go to the hospital as soon as possible.” Xiao Yuxuan reminded again, “By the way, if you want to find Ji Feng, just call his mobile phone directly, although he is in the lab, but his mobile phone is always on.”

Han Zhong nodded, “Okay, I know.”

The two of them chatted for a while about their work, and after a short while, Han Zhong left.

Xiao Yuxuan looked at his back and couldn’t help but shake her head, “Why does he feel so godlike”

The first thing you need to do is to get to know the people you’re working with.

And usually if Han Zhong wanted to find Ji Feng, he would go directly to him, rarely coming to ask her first.

“Han Zhong wouldn’t have something bad to ask, would he?” Xiao Yuxuan secretly said.

But Xiao Yuxuan didn’t think much about it, just pondered for a moment, without any clue and then put the matter aside, nowadays the Tengfei Group was developing very fast and was getting bigger and bigger, especially, Ji Feng handed her a lot of new technologies, but she couldn’t give them all to the R&D department at once, it needed to be done slowly, so Xiao Yuxuan had a lot of work to do, and she didn’t have time to think about other things.

Han Zhong returned to his office and pulled out his chair and sat down, with a complicated expression on his face.

“Knock knock!”

The office door was knocked twice and a wonderful figure walked in, “Mr. Han, I’ve finished all the work you arranged yesterday, today ee? What’s wrong with you, aren’t you feeling well?”

Han Zhong shook his head and smiled, patting his leg, “Jun Jun, come here!”

This wonderful figure was no other than Han Zhong's current girlfriend and his personal assistant, Wang Jun.

Seeing Han Zhong's action, Wang Jun couldn't help but blush slightly and gave him a white look, "Full of thoughts of making bad moves, you are the general manager, it's not good for people to see."

Han Zhong hummed, "What's wrong with that? I'm making out with my girlfriend, who else can say anything? Besides, who would dare to come in here except you? Come and sit down, let me take a good look at you."

Wang Jun's pretty face heated up, "What's there to see, you see it every day, haven't you had enough?"

"If I could, I'd like to see you every day, for the rest of my life!" Han Zhong looked at Wang Jun and said with a smile.

"Virtuous!"

Wang Jun laughed delicately, but still walked up to Han Zhong, and just as she wanted to speak, she was pulled into Han Zhong's arms by the hand.

"Ah!"

Wang Jun let out a low cry of surprise, before she could say anything, she suddenly felt a pair of large hands climbing onto ***** soft flesh, and once the large hands kneaded, Wang Jun immediately felt as if she had been electrocuted, only to feel a numbness all over her body, her body strength was instantly drained away, and she went limp in Han Zhong's arms.

Han Zhong rubbed the elastic peak with abandon, nibbling on Wang Jun's earlobe as he did so, causing Wang Jun's breath to catch.

But Han Zhong wasn't satisfied with scratching the itch, he lifted up Wang Jun's shirt and pushed his hand inside.

Wang Jun subconsciously bit her lips and breathed heavily, but her eyes were already dazed by Han Zhong's rubbing. At that moment, she suddenly heard the sound of talking from the corridor outside.

She immediately stiffened and hurriedly sat up straight, pulling Han Zhong's hand out of her clothes with a red face, her beautiful eyes carrying a few moments of shyness and a few moments of exasperation.

"Hehehe!"

Being given a blank look by Wang Jun, but Han Zhong just hemmed and hawed.

Wang Jun snapped, "Still laughing, how dangerous it was just now, in case someone comes in, do I still want to stay here?"

Han Zhong said, "Why can't you stay? It's only natural, it's nobody's business."

"Bah!"

Wang Jun spat, "I'm not as cheeky as you are! If people see me, the whole company will know about it within a day, and then I won't have the face to stay on the island, so I'll have to go back to the mainland."

Han Zhong laughed, "It's not that serious, whoever dares to gossip about us, I think he doesn't want to hang around here anymore. Even if someone saw it just now, they definitely wouldn't dare to say anything."

"You're that confident, huh?" Wang Jun straightened his clothes and hummed.

"Of course!"

Han Zhong said, "I'm at least the general manager, whoever dares to spread rumours about us is designated as not wanting to get along."

Wang Jun said helplessly, "You are I don't know what to say about you, you are the general manager is good, but is there still Mr. Xiao above you? And Ji Feng? The most you can do is to manage the group's affairs, but beyond that, you can't even manage the security department, and even within the group, there are still people who are submissive to you, so don't be so confident!"

When Han Zhong heard that, he couldn't help but freeze for a moment: "Conformity? Jun Jun, what do you mean?"

"What else does it mean you still want to hide this matter from me?" Wang Jun said helplessly, "I know you are afraid of me worrying, that's why you don't tell me. However, the more you don't tell me, the more worried I am, so why do you need to hide it from me?"

"No, how come the more you talk the more confused I get, what's going on?" Han Zhong was really confused, it seemed like he and Wang Jun were not talking about the same thing ah.

What Yang Feng Yin Yin, what even the security department can not control these words how to sound so wrong?

Wang Jun said: "I know all about it, so don't pretend! Now there are already people secretly watching you, so you're not worried at all, huh?"

"What do you mean?"

Han Zhong immediately frowned, "You said, someone is secretly spying on me?"

Wang Jun nodded, "Yes, why don't you know that?"

Han Zhong's eyebrows slowly furrowed as he said in a deep voice, "Tell me in detail, what's going on, how did you know that someone was spying on me, and also, when did you find out, who was spying on me?"

"You really don't know?" Wang Jun looked at him in surprise, "I thought you already knew, your vigilance is so poor, huh?"

"Let's not talk about vigilance first, tell me about the spying on me, what's going on?" Han Zhong said with a frown.

Seeing this, Wang Jun couldn't help but say, "It seems like you really don't know, so don't be anxious first, listen to me slowly. A few days ago I went to your place to help you clean up your room, but I inadvertently saw two people downstairs who were a bit off, as if they were sneaking around, I thought they were thieves at the time, so I secretly kept an eye on them."

Han Zhong did not interrupt, just quietly listened.

Wang Jun added, "But the strange thing is, after these two people went upstairs, not only did they not steal anything, but they also took out the key and opened the door to the room and walked in."

Han Zhong pondered, "Is it near my place?"

Jun Wang said, "It was the building across the street, also on the fifteenth floor, directly opposite to your room! If your house doesn't have curtains drawn, then every move you make in your house, they only need a telescope and they can see it clearly."

"Just because of that, you think they're spying on me?" Han Zhong asked.

"Of course not."

Wang Jun said, "I was a little suspicious when I found their room directly opposite yours, and then I went back to where I ran into them before, and I thought, since they were in that building across the street, what were they doing downstairs from you? When I went back, I did find something, I found two privately installed surveillance cameras that were transmitting wirelessly, think about it, who else could it be but them?"

Han Zhong's brow furrowed, "In that case, these two people are indeed spying, but, it's not certain that they are spying on me!"

Wang Jun said, "Isn't that obvious enough? What kind of place do you live in? That's an apartment building where only company executives can live. Those two people looked very strange to me and were sneaky, how could such people be company executives? Even if they were, then why would they need two people to share a room if they were qualified to live in the executive dormitory building? They are fully qualified to share a separate suite!"

Han Zhong mused, not speaking.

Wang Jun said, "If you don't believe me, keep an eye out for yourself, and then you'll be able to tell if someone is spying on you."

Han Zhong said, "But they are spying on me, why? I never bring important documents and information back to my residence, so what could they get even if they were spying on me?"

Wang Jun immediately said, "What else could it be? Of course they're not sure about you!"

When Han Zhong heard that, his face changed abruptly, "Junjun, you said that"

Wang Jun nodded and lowered his voice, "Do you really think that this person who is spying on you is sent by an external power? You are the general manager, then you must be clear about how powerful the group's security department really is, it's not unusual for an outsider to infiltrate in, but isn't it a bit

too much of a coincidence that the person who infiltrated in could live in the executive building and still so happen to be directly opposite your house?"

"So"

Looking at Han Zhong's slightly changed expression, Wang Jun said in a low voice; "The person who is spying on you is someone from within the Tengfei Group! Either it's someone from the Security Department, or, it's"

"The intelligence team!"

Han Zhong slowly spat out three words.

Wang Jun nodded, "There are only these two possibilities, other than that, there is no third."

Han Zhong said, "Is this what you meant when you said just now that there were people within who were being submissive to me?"

Wang Jun lightly sighed, took Han Zhong's hand and said in a soft voice: "I know you are angry in your heart, in fact originally I was not going to tell you, just afraid that you could not bear to hear it, just now if you had not made bad, I no matter what, you should not be too angry, angry with your body is not still your own? "
