

Chapter 3261

For a time, in her heart, Nanako also felt a strong inferiority complex.

Originally, like Warnia, she had a small sense of superiority from her family background deep inside.

She always felt that she might not be able to compare with Charlie in many aspects, but at least, she was still a big girl from a big family.

But now it seems that he is not only in this point, not inferior to her, on the contrary, but he is also still a young master from a large family.

The only advantage they had was crushed.

For a while, the two girls on the phone coincidentally silent.

After a long time, it was Nanako who took the lead in breaking the silence and spoke: "Sister Warnia, I have briefly investigated some of these two families when the Su family and the Wade family wanted to cooperate with our family."

"It seems that among the middle-aged sons of the Wade family in this generation, there is indeed one person who was lost a long time ago, if he is really the young master of the Wade family, it is most likely that he is the son of this person!"

Warnia actually knew very little about the Wade family.

These large families are particularly concerned about protecting their privacy, so, in addition to the local families in Eastcliff, more or less understand their situation, the non-local families only vaguely have a general idea, deeper details simply they do not know.

Moreover, Changying died in that era, information dissemination was still very backward, ordinary people understand the news in only two ways, one is the television, one is the newspaper.

And the television at that time, almost rarely reruns the news, not to mention the Internet video platform to help them keep the video files, so this means that if news just began to expose out when you missed it, you will probably never have the opportunity to see.

Because of this, Warnia had no idea how many members of the Wade family there were, what each one's name was, let alone that any of these had disappeared twenty years earlier.

So she said to Nanako, "I've never heard of the Wade family's internal situation, so I'm not sure who of their middle-aged sons and daughters have disappeared.

Nanako said, "No need, sister Warnia!"

Warnia asked in confusion, "Don't you want to know more details?"

Nanako smiled faintly and said seriously, "Since Charlie has not said these things, it proves that he does not want us or others to know this, we are all people who have received favors from him, we can't just pry into his secrets just because we want to satisfy our own curiosity."

Warnia froze, then sighed and said quietly, "You're right this matter we really shouldn't dig too deep"

Saying that, Warnia reluctantly lamented: "Hey, I actually think, although we have so many clues to echo on, but have not found a conclusive evidence to prove that our speculation is true, nine, eight out of ten, but there is always that one or two percent other possibilities, I want, in fact, is the nail on the coffin."

Nanako felt empathetic and said: "I understand what you mean right sister Warnia, I heard someone say that the Wade family will hold a very grand ancestral ceremony at Qingming festival this year."

"When you can pay attention to see if Charlie went to Eastcliff, if he also happens to be in Eastcliff at that time, then this matter will be completely nailed down."

"Ancestor Ritual Ceremony?" Warnia was surprised and asked, "How do you know?"

Nanako said, "People from the Wade family came to see my father and talked about these things. It is said that they bought a mountain for their own feng shui and built it as the ancestral tomb of the Wade family, and the ancestral ceremony of the Wade family is held only once every twelve years, so it is very grand."

"I understand." Warnia was busy saying, "Then I will keep an eye on Master Wade's trajectory at that time to see if he will leave Aurous Hill and go to Eastcliff."

.....

Chapter 3262

The ancestral ceremony scheduled to be held by the Wade family in twenty days had indeed touched many people.

Not only the Wade family in Eastcliff, but also the branches of the family all over the country and even the world began to prepare for this ancestor worship ceremony early.

Even in Charlie's heart, he was vaguely looking forward to this ceremony, because he had long decided to get Zynn back from Syria at this ancestral ceremony, so that he could personally kneel in front of his parents' graves and repent, in order to console the spirits of his parents in heaven.

Although Zynn is not the murderer who directly killed his parents, but this is a very important start for Charlie.

From Zynn onwards, he will start with those who were once enemies of his parents, one by one, to uncover, so that they pay the price for their actions!

And in addition to Charlie, there is another person who has been thinking about this ancestral ceremony, that person is in Syria, Zynn.

During this period of time, Zynn has been counting the days, because he knows that the time to Qingming is getting closer and closer, which means that the day to return to his country is getting closer and closer.

Although he also knew that the so-called return to China was actually being escorted by Charlie to the ancestral grave of the Wade family and kowtowing to Changying to confess his sins, which was essentially an outright insult to him.

But even so, he is very much looking forward to this day.

Because, in his heart, he knew one thing very well, that is: "If I stay in this sh!tty place in Syria, in Hamid's base, then my whereabouts will never be known by my family!"

"But if Charlie can let me return to my country, even if it means that I have to go to the ancestral grave of the Wade family to kowtow and admit my mistake, I have a certain chance to let the Su family know my specific situation!"

"It's not good to say that my father can still have a way to get me out."

"Really can't, he can still go to negotiate with Charlie, the big deal is to give up some benefits and exchange me back."

"So, even if there is only one percent chance, it is better than no chance at all!"

During this period of time, Zynn's life in Syria was not good.

Hard conditions, at first he was not adaptable, but after some days he slowly was able to accept.

However, the most depressing thing about this recent period is that Hamid does not know which tendon is not right, and began to build infrastructure in this mountain nest!

In the surrounding mountains, twenty-four hours a day, he can hear the deafening sound of construction, the sound of all kinds of machinery roar is surrounding him.

According to his observation, now the base, built more than one concrete mixing plant, 24 hours a day non-stop production of concrete, and then by high-pressure concrete pump, one station to the surrounding hillside, and in the surrounding hillside, explosives to open the movement of the mountain is also happening from time to time.

It is not easy to say when the gun will be released, and sometimes even in the early hours of the morning disturbing his sleep.

Each time the cannon fire, accompanied by a burst of ground shaking.

This is just one aspect, more annoying is, each time after the use of explosives to open the mountain, there will be heavy machine guns bursts, roaring up the sky non-stop.

At this time in the Middle East, the sky has just dawned, but Zynn woke up two hours ago, by the machine roar of the night and it is hard to sleep.

After just two hours of sleep, he listened to the sound of several explosions rumbling outside, the vibration of the explosion almost collapsed his roof, so he was awakened from sleep, thought the war, pulling his legs to run outside.

He was immediately spotted by a soldier standing guard on the opposite roof, who immediately pointed his gun at him and shouted angrily: "What are you doing? If you try to run out again, I'll shoot you!"

Zynn was so angry that he cursed and blurted out, "What the hell are you staring at me for? The enemy's shells are coming, why don't you hurry up and go to the front line position to support them!"

The man heard this, put down his gun, waved his hand, and said, "Do not be afraid, there is no war, that is our engineering battalion opening the mountain, just a breath detonated six working surfaces of the explosive point, so the noise is a little bit loud."

"Fcuk!"

Zynn jumped up and cursed: "Are you people sick? Day and night non-stop shelling to open the mountain, after the shelling, it is more than a dozen air compressors on work.

That sh!t suddenly starts rumbling loudly when it doesn't move, just like having a fcuking Parkinson's seizure, how to fcuking live here!"

Chapter 3263

The soldier saw Zynn jumping with his head swaying in a hurry and immediately said with a serious face: "Hey! Are you tired of living? Watch your words! Otherwise, I will not be polite to you!"

Zynn said angrily: "Nonchalant to me? Let's be reasonable, any construction site, there must be time and date, there is no such thing as you work blindly 24 hours a day, regardless of day and night?"

"In our country, only during the daytime it is allowed to do these big movements, and when the end of the day, all construction sites have to stop working and rest."

"But you guys are good, you work endlessly, if you continue to do this, I will have a nervous breakdown!"

"You go get your Commander Hamid, I want to question him face to face!"

The soldier said in a cold voice: "I tell you, these permanent fortifications and counter-slope fortifications that we are building now are ordered by Commander Hamid himself, asking us to finish them as soon as possible."

"This matter is now the top priority of our entire base, everything must give way to it, not to mention you, even our deputy commanders, are not qualified to question!"

After hearing this, Zynn's entire face was dumbfounded.

"What are you saying? You are constructing permanent fortifications and counter-slope fortifications?!"

"That's right!" The soldier said proudly, "We are now building a powerful set of offensive and defensive fortifications, and we also have to prepare a large number of strategic reserves in advance."

"Now our permanent fortifications on the four sides of the mountain, as well as the anti-slope fortifications have taken shape."

"If there is a little more time, these mountains will be dug with dense pits inside, by then, no one in the whole of Syria will be able to come in and fight!"

Zynn heard, the whole person dumbfounded.

No wonder the rumbling and grumbling all day long, so it is the construction of permanent fortifications!

No wonder there are truck convoys outside these days to bring things inside, it turns out that Hamid is engaging in permanent fortifications, while making strategic reserves.

This made Zynn puzzled and thought, "This guy Hamid, wherein did he learn such a set of the strategic theory of digging deep and accumulating food?"

"The key is that he is a Middle Eastern man who can dig deep and accumulate grain, but why is he playing with counter-slope fortifications?"

"This is our military's mastery from centuries ago! Why did he learn it too?"

"The enemy's artillery bombardment from the outside of the mountain made it difficult to hit the anti-slope fortifications on the inside of the mountain. Now this man Hamid has learned it! What an outrage!"

"Moreover, the overall level of development of Syria is quite low, both the government forces and the anti-government forces are still stuck in the firepower level of the World War II era."

"In addition Syria is originally more mountainous and dotted with hills, doing this set, I have to say, it is really suitable for a mess!"

Zynn so thought, and suddenly flashed a figure in his head.

"Charlie! It must be Charlie! It must be this man who quietly taught the gems of our army back then to this guy Hamid!"

"If this was put aside decades ago, this son of a b!tch Charlie can be shot dead!"

Chapter 3264

Once he thought that Hamid attached so much importance to this matter, Zynn also knew that Hamid was now transformed into the Syrian version of the infrastructure maniac, and this kind of protest by him would be useless.

So, he said to the soldier resentfully, "Young man, can I discuss something with you?"

The soldier looked at him warily and questioned, "What do you want?"

Zynn said, "I want a pair of earplugs, to isolate the noise, so that when you turn around and open the mountain again, I can also be less affected!"

"No!" The soldier gave him a blank look and took out a ball of crumpled toilet paper from his pocket and threw it at Zynn's feet from the wall, saying, "You can make do with this!"

"Fcuk." Zynn said with a depressed face: "To solve this fcuking matter, what the fcuk am I supposed to do with the toilet paper? How so disgusting? It's not like you're done with what you're doing, and you're carrying it in your pocket, right?"

“You bull5hit!” The young soldier’s face was red with anger and he blurted out, “I pulled off a piece of it when I came to change my post and put it in my pocket with my hand, you don’t need it, don’t talk nonsense there!”

Zynn listened, convinced to bend down, extremely carefully he pinched an edge of the ball of the toilet paper, spread it a little bit, and found that indeed it was not used before, sighing with relief, he put the toilet paper in his pocket.

Not afraid to say it, since he came to Syria, he has not used such soft toilet paper.

The soldier saw him put his toilet paper into his pocket and said with a contemptuous face: “All right, I’m not going to bother with your nonsense, hurry back to your room!”

Zynn is also full of displeasure, turning his head to go back, suddenly the entire base sounded with ear-piercing air defense sirens.

Although he had never experienced war, Eastcliff had often conducted air defense drills before, so as soon as the noise came out, he asked the soldier nervously,

“What’s going on? What’s going on? The enemy is coming to attack?”

The soldier was also very nervous and blurted out,

“The air defense siren is not necessarily an air raid, our commander has stipulated that the air defense siren will be sounded as long as the enemy is found within a 30-kilometer radius in the vicinity!”

“Fcuk

Zynn panicked, he could not remember how many dirty words he said today, he only knew that once Hamid’s base is attacked, then his own life would be in danger, bullets and shells are not long-eyed.

In case a shell blasted down If a shell comes down and kills him, who would he talk to?

At that moment, a voice suddenly came from the soldier’s intercom, the soldier immediately picked it up and listened for a while.

Then he immediately jumped down from the wall, pulled Zynn’s collar, and dragged him out, saying as he walked:

“A large number of government troops are found 30 kilometers south of the base, it is estimated that the war will start! You quickly follow me to the mountain!”

Zynn slapped his head and said in a depressed voice: “Fcuk I’m not going! I don’t know how to fight, why do you want me to go up the mountain?”

“The bullets don’t have eyes, in case one takes me out, how will your commander explain to Charlie?”

The soldier blurted out, “Who asked you to go to war? I am taking you up the mountain, of course, to take you to hide in the anti-slope pit!”

“The commander has just given an order for everyone to enter the designated backslope pit within 30 minutes, if you want to stay here and take the shells, then you can stay!”

After saying that, the soldier let go of him, turned his head, and walked out.

Only then did Zynn remember that the backslope pit itself was not a fortification?

The shells are difficult to hit the backslope, and even if they do, they can't blow up the pit dug into the mountain and reinforced with concrete.

Therefore, if the army really attacked, it is definitely safest to hide in the anti-slope pit!

Thinking of this, he hurried to catch up with the soldier and said with a quiet face: "Brother, brother, don't be angry, I'll come with you, alright?"

Chapter 3265

At this moment, Hamid, wearing a camouflage uniform, is standing in the southernmost highland fortification of the base, using tripod-type high-powered binoculars to look south.

Thirty kilometers away has actually been very far, so ordinary binoculars simply can not see, these high-power binoculars can only show a general view, and the distance is too far, the lens distortion is great, thus seeing things is very difficult.

However. He still saw the large army that was advancing toward him in the distance from the field of view of the binoculars.

He was a little confused, the government forces have recently been fighting those few larger resistance forces? How come they have freed up their hands to come towards their side so quickly?

So. He immediately instructed his adjutant: "Go, hurry up and contact the hidden sentry in front, prepare to release the drone immediately, and within five minutes, tell me their numbers as well as their equipment!"

"Yes, Commander!"

Hamid's adjutant immediately turned around and left, running inside to contact the concealed sentry at the front by radio.

Soon. The concealed sentry immediately released several civilian aerial drones bought from China.

These kinds of ordinary drones are sold in China for only a few thousand dollars, in the country is nothing more than a toy for photography enthusiasts, aerial photography enthusiasts, but in the Middle East, the strategic role of this thing is very powerful.

First of all, it flies high, after a slight modification, it can fly to a height of one or two kilometers, the map can reach nearly ten kilometers in the open, the flight speed can reach sixty to seventy kilometers per hour, the key is the original fuselage as long as the palm of the hand.

When it flies up in the sky at hundreds of thousands of meters in height, to the naked eye it is simply invisible, and one cannot hear its flight noise, thus it is suitable for use in battlefield reconnaissance.

If it is faced with advanced modern equipment, this thing is certainly useless, before going up it can be found and beaten down.

But if the front is ordinary motorized troops, the other side is really defensible.

So, this kind of drone is used a lot in the military field in the Middle East.

Once several drones took to the air, the size of the enemy force was quickly scouted out.

The adjutant reported to Hamid, "Commander. The size of the opposing army is about eight thousand men, with ten armored vehicles, thirty-six towed howitzers, plus about sixty transport trucks of various kinds, and the scouts in front said that it looks like it should be Russian-made 152mm towed howitzers."

"Damn it!" Hamid cursed, "That's the firepower of two fucking artillery battalions! What do they want? What are they trying to do, blow us up?"

As he was talking, the deputy commander hurried in, panting, "Commander, I just got word that the government army has hired 10,000 mercenaries from an overseas mercenary group called the Cataclysmic Front."

"It is said that these 10,000 mercenaries are extremely powerful and have already conquered several anti-government forces one after another! Including the Hafiz, who used to have a good relationship with us, two nights ago even he was nested!"

Hamid was dumbfounded: "What? Hafez got killed? How come I've never heard of this?"

The vice commander said awkwardly: "Everyone is scattered in the ravine, there is no information, and we are recently working hard on infrastructure, we have no time to care about the outside"

Hamid hurriedly asked again, "What is the origin of that what the Cataclysmic Front?"

Chapter 3266

The vice commander explained:

"Cataclysmic Front is a non-governmental mercenary organization that has risen in the past few years, they have a number of mercenary training bases around the world, the Middle East countries, Africa, South America, these more troubled place have traces of them."

"These years they are developing rapidly, under the command, the registered mercenaries have 50,000 to 60,000 people, comprehensive strength has now been among the top five global mercenary organizations!"

In this world, not every country or region is as peaceful and prosperous as China. Many regions are in constant war, so mercenaries are simply everywhere in such places.

Most mercenaries are a bunch of desperadoes, they do not have any sense of justice, only serve for money, ready to sell their lives for whoever pays, and some mercenaries are dependent on the survival of certain countries, such as the famous American Blackwater."

"They train a large number of mercenaries, specifically for the U.S. government services."

"The U.S. military operations in the Middle East, almost can not be separated from the participation of Blackwater mercenaries, and some of the areas, the government forces feel inconvenient to step in and such mercenaries act on their behalf.

And this Cataclysmic Front belongs to the first kind.

Hamid listened to the introduction of the Cataclysmic Front after a burst of the head, asked off the cuff: "Hiring the Cataclysmic Front 10,000 mercenaries. At least a few million dollars a day, right?"

The deputy commander said: "Commander, the price of the Cataclysmic Front is extremely high, even the ordinary mercenaries under their command ask for one or two thousand dollars a day."

"The price of officers is even higher, some ask more than ten thousand dollars a day, it is said that they have four war wings under their command, if anyone is out, the cost of a day will be hundreds of thousands of dollars

Hamid dumbfounded asked, "Really? Why is it so expensive?!"

The vice commander explained: "The reason why the Cataclysmic Front has been able to rise in these years, relying on the superb combat power, their mercenaries are well-trained, especially the core cadre members."

"The only problem is the high price, the average person really can not afford to hire."

Hamid frowned and said, "According to this calculation. The 10,000 mercenaries would cost more than \$20 million a day?"

"Right." The vice commander wiped his sweat and said somewhat nervously,

"I also received news that this time one of the four commanders of the Cataclysmic Front has come! It is said that this person is able to defeat a hundred with one in battle!"

Hamid couldn't help but shiver and said offhandedly, "I don't fcuk!ng understands, where the hell did the government army get the money to hire so many mercenaries?"

The deputy commander explained, "The government army doesn't have so much money, but they are willing to allocate a piece of land in Syria to the Cataclysmic Front to prepare a base after eliminating the anti-government forces, that's why the Cataclysmic Front is so active."

"Sh!t" is finished" Hamid's heart was dead, completely panicked.

He thought to himself, "If this information is true, then I'm afraid there must be several thousand mercenaries from the Cataclysmic Front in that unit 30 kilometers away"

"Now I have a total of a few thousand people, and the level of training is far from the top of the mercenaries, and the other side almost 8,000 people, and so many armored vehicles and tractor artillery."

"Whether the number of soldiers, the level of training and weaponry, I do not have any advantage of this team, if we really fight this time, basically no chance of winning ah"

The extremely nervous Hamid, suddenly remembered Charlie, so he immediately took out his satellite phone, called him!

And at this time, Charlie just picked up Claire who came out of Song's group, on the way to send her to the company.

When he suddenly received a call from Hamid, he was also very surprised, so he opened his mouth and asked, "Brother, why are you calling me all of a sudden?"

Hamid's voice tremblingly said, "Brother Wade, your brother... my life is not long, if Zynn dies here, you must not blame me ah!"

Charlie heart stuttered, hurriedly asked: "What happened?"

Hamid let out a long sigh:

"Government forces have hired a group of well-trained overseas mercenaries, in a short period of time they have destroyed a lot of troops more than I armed."

"Now there is a force of more than 8,000 people only less than 30 kilometers away from me, I am afraid that this time I will not be able to carry over!"

Chapter 3267

Once Charlie heard this, the whole person immediately felt a jolt, hurriedly first pull over and park, off the record, said, "Brother, you do not panic, I ask you, how is the overall level of government troops?"

"Not good." Hamid said, "But the mercenaries they hired this time are very powerful. It is one of the world's top Cataclysmic Front, it is said that it has sent 10,000 soldiers over to help the government army."

Charlie frowned and asked, "Cataclysmic Front, what's the origin?"

"I'm not really sure." Hamid replied, "It is said to be a Chinese-founded mercenary organization, which has seen rapid development in recent times."

"The scale and strength are very strong! The quality of their single soldier is much higher than the government army! Basically, they are developed countries special forces kind of level!"

Charlie said with surprise: "I have never heard of this organization, I know the United States Blackwater, Russia's Cossacks, this Cataclysmic Front, I have heard for the first time."

Hamid sighed: "You usually have little opportunity to deal with mercenaries, this group of people certainly you not understand, they are, frankly speaking, commercially operated professional soldiers, paid to do things."

"In our kind of more war-torn places they are most active, this Cataclysmic Front is said to have the command of tens of thousands of people, including the top expert level nearly a hundred people."

"These are very strong, their war gods put the strongest four under the command of one of the leaders, and also sent to Syria"

Charlie asked him:

"Don't be nervous, first whatever the level of special forces, they will die when hit by the bullet, your single soldier quality is not as good as his, but you occupy the time and place, as long as you can play to your advantage, the real fight you may not lose."

Saying that, Charlie asked again, "How is the repair of your permanent fortifications and anti-slope pit?"

Hamid said, "I have been asking them to work overtime recently! But the workload is really too big, and it's really hard to implement the whole plan completely in such a short period of time"

Charlie calmly said, "I understand, you just tell me, your frontal defense of permanent fortifications as well as the reverse ramp pit, whether it can be put into use?"

"Can." Hamid said: "My frontal fortification at the entrance of the base has almost been built, after all, this is the top priority of my entire defense."

"As for the backslope tunnel, I have dug on all sides, but now the inside is not yet open, not formed inside the network of pits, but I have stockpiled a large number of supplies inside, enough to hold for a year or two, not a problem."

"Good!" Charlie said off the record, "Then I ask you, do you know the other side of the 8,000 troops, how exactly is the firepower distribution?"

Hamid said, "10 armored vehicles, more than 30 towed artillery, and 50 or 60 trucks, pulling supplies and ammunition."

Charlie thought about it and asked, "Do you know the specifications and models of the 30-odd towed artillery pieces?"

Hamid said, "The scouts said visually that they should be Russian 152mm artillery."

Charlie's father, Changyang, was a standard military fan, and there used to be a whole room at home full of models of various weapons and equipment, and there were countless books, magazines, and materials on various weapons and equipment.

Chapter 3268

Charlie as a child, had very much understanding of various weapons and equipment.

Therefore, he said almost without thinking,

"There are many models of Russian 152mm artillery, but I presume that the ones that can reach Syria should all be produced in the 1970s and 1980s, or even older, so the effective range should be around twenty kilometers."

Hamid asked in surprise, "Brother, you know all this?"

Charlie gave a hmp and asked again, "Does the other side have any air firepower?"

"No." Hamid said, "The government forces have a total of a dozen broke Su 24, a large part lying in the hangar and cannot fly, can fly up to defend the capital, and occasionally fight the terrorists, simply can not spare energy to fight me, and the Su 24 also has little meaning, just to drop some bombs."

He further said: "As for the helicopter gunships, I am not afraid of him to come, anyway, their helicopter gunships performance is not too good, I have a lot of shoulder-fired missiles here, to fight helicopters easily, I guess they do not want to take helicopters over."

Charlie slightly relieved, said: "So it seems that the probability is purely ground war, then you do not need to rush for the time being."

Saying that, he added: "I suggest you can first observe the other side's intention, because the other side has a great advantage in numbers itself."

"If they want to attack strongly, they will not bring so much artillery, so their strategic intention, should be the same as the ground war model between countries decades ago, want to play with you infantry artillery synergy!"

Hamid asked, "What is infantry and artillery synergy?"

Charlie said:

"The infantry and artillery synergy, to put it bluntly, is the artillery bombardment after the infantry rush, infantry rush without artillery bombardment, used in your current situation."

"The other side should intend to first use artillery to cover with artillery shelling, after bombing a mess, personnel cut in half, combat power waste, then use armored vehicles to cover the infantry rushed."

Hamid said approvingly, "You're right, I think they must want to give me an intensive bombardment first!"

Charlie then said:

"Bombing you should not be afraid, because you already have a counter-slope pit, now hurry first, take your most valuable personnel and supplies and equipment and transport them to the counter-slope pit, and then hurry to have your valuable helicopter gunships to fly away."

"The other side is in a large number, you can not play a big game with these helicopters, or first take them hundreds of kilometers away, find an unoccupied valley or hilltop flat ground to park, if later the other side shelling a start, your helicopters are estimated to be all kneeling."

"Yes, yes, yes!" Hamid came back to his senses and immediately ordered his adjutant, "Tell the helicopter pilots to get ready, fly north and find a place to hide a hundred kilometers away!"

It was no wonder Hamid panicked, although he had been tangled with the government forces for a long time, there had never been a large-scale conflict.

So, his sense of the big picture is not that strong, at best, it is a small guerrilla leader level.

Now the government forces suddenly assembled such a powerful armed force to attack him, he was immediately a little overwhelmed, completely at a loss as to how to respond.

On the contrary, Charlie, who has never fought in a war but is more comprehensive in his considerations, can remain 100% calm at such times and carefully analyze the situation and give more reasonable advice.

Charlie said to him at this time:

“You have a certain impression of the landscape, I probably have a certain impression, surrounded by hilly mountain roads, winding and rugged, so the other side of the advance you will not be too fast, and you should not be too anxious to let the helicopter leave immediately.”

Saying this he also suggested: “You can now first let the helicopter help lift some precious heavy equipment to your counter-slope pit, at the same time you also have to let your front-line scouts pay close attention to the other side’s movements.”

“When the other side stops marching and began to deploy artillery, it is even not too late to let the helicopter leave.”

“The other side has 30 or 40 towed artillery pieces, from the state of towing to a complete stop, and then fully deploying and calculating the coordinates, adjusting the angle, readying for the artillery fire, this all needs a long time, you have enough time to react, don’t need to panic!”

Chapter 3269

“That’s true.”

Hearing Charlie’s words, Hamid calmed down a little and said awkwardly, “Brother, I’m not afraid of what you say, the thing is, since I joined the revolution, I have never seen such a big battle, I’m indeed a little nervous

“Never mind.” Charlie comforted: “This kind of thing, the turn of anyone’s head will be nervous, what you have to do now is not to mess up.”

Saying that he added: “I guess the other party’s strategic intent is very simple, they know the location of your base, know that you are not going to run away.”

“So they will certainly come up to you and there will be full-frontal shelling, and what you have to do in this time is to endure!”

“If the other side fires at you, you must not return fire with artillery, let alone send your helicopter gunships, or your elite troops to try to fight a counterattack or a sneak attack!”

“Huh? Why?” Hamid blurted out, “I was just about to tell you that I was going to hurry up and send an elite force of three to five hundred men to sneak over and ambush them right now, waiting to catch them off guard!”

“How can the other side let you get your way so easily?” Charlie said off the cuff: “No need to think, the other side must be preventing you from this hand!”

“Don’t forget, they have 8,000 people, just 2,000 people in ambush around the artillery position, you send 3,500 people over, the other side can easily cover you! When the time comes, your men will definitely have no return!”

Hamid was stunned and said offhandedly, “Brother you are right

At this point, Charlie continued to instruct: “You have to remember one thing, the other side’s commander since he can command 8,000 troops, it is absolutely impossible to be stupid, he will at most only make the mistake of rash and adventure.”

“But will not make mistakes of principle, protect the artillery, protect the supply wagons, it is the basic principle that all commanders understand, he will definitely not leave you the opportunity for a sneak attack.”

“Right!” Hamid said seriously: “If I have dozens of artillery, I will also focus on artillery defense, it is impossible to focus only on the front line of battle and leave the rear unattended, after all, this is the key to firepower suppression.”

Charlie hummed, and said: “If he wants to blow up, you let him blow up, anyway he can!”

After a pause, he continued, “Didn’t he just drive 50 or 60 trucks? Even if he has thirty truckloads of shells, even if he finishes all thirty truckloads of shells, it will not be possible to blow down your rocky mountain by tens of centimeters, so you don’t have to be afraid at all.”

“If he only shells, you will all hide in the reverse ramp trench, so basically there will be no attrition because of the shelling.”

“After all the shells are fired, they will only have infantry left, then 8,000 infantry will attack your hill, you will be able to defend it with 800 men, then you will win and never lose!”

“Okay!” Hamid heavily agreed and said, “I know! Will definitely follow my brother’s suggestion!”

Charlie added: “In addition, you must keep an eye on when his armored vehicles start to cover the infantry and charge your base, and are almost at your base’s heels, then you can have your elite troops leave the anti-slope pit and head to the frontal permanent fortifications to counterattack.”

“And this time to counterattack, you must also remember, absolutely no early fire, must wait for the other side to enter into your effective range!”

“Close range before firing, not only can effectively kill the enemy, but also make the other side’s artillery dare not casually give support, because your soldiers in the permanent fortifications, can withstand the vast majority of artillery attacks, while their soldiers have nothing but helmets on their heads.”

“In case they also enter the killing range of artillery, there will certainly be a large number of dead and wounded.”

Chapter 3270

Saying that, Charlie continued to analyze: “In fact, if the other side of 8,000 ground troops all launched a strong attack, for you it is nothing, your place is high and dangerous.”

“The standard is easy to defend and difficult to attack, absolutely counted as a man in the gate, ten thousand men can not open, plus your new permanent fortifications, defensive strength will be greatly enhanced, and, even if the other side attacked in you do not have to be afraid.”

“When the time comes they just attacked in, your counter-slope of the pit will become your dumping position, then still occupy the high ground and the advantage of the pit, and the enemy who came in is miserable, surrounded from the inside by you, there is no place to retreat for them!”

“Holy sh!t!” Hamid suddenly got excited and blurted out, “Brother! Great! It’s really great! I was a little nervous, but after hearing you say that, I can’t wait for them to come in!”

Charlie said: "You can have this mentality, which is the best, seize the time, arrange the troops, make the final pre-battle preparations, remember my words, do not be anxious, do not be dry, must be a good shrinking turtle! Also be prepared for the worst, if the situation really can't be carried, go for the best plan."

"Got it!" Hamid said excitedly, "I'll arrange it! brother, I will communicate with you in time, you must ensure that the phone is open, your brother can survive this wave, it all depends on you!"

Charlie solemnly said: "Do not worry, my phone must be on 24 hours a day, as long as you call, I must answer in seconds!"

"Okay brother, with your words I am relieved! You wait for my good news!"

"Good, I wish you a great victory!"

Charlie finished speaking, and only then hung up the phone.

Just after hanging up the phone, Claire on the passenger side asked with a shocked face: "Honey, who called you? How come there's a war going on?"

Charlie said: "Hmm, wife, you misunderstood, not what the war matter, it is the game!"

"A buddy of mine recently got hooked on a military game, and someone is going to attack his base with troops. He didn't know how to arrange his troops, so he called me to ask."

When Claire heard this explanation from him, she didn't have any doubts.

After all, she grew up living in a peaceful era, and such things as fighting a war were really too far away from her.

If Charlie really told her the truth and told her that he was actually helping a friend in Syria fight a war, she would instead think that Charlie was making fun of her.

So, she smiled and said, "So your friend is really into playing games, just a little thing, and called you for advice."

Charlie nodded and said, "Wife you do not know, the game is set to be particularly cruel, no matter how long you spent in the game before buried in development, once you fail, there is nothing, so every war you must try to win, otherwise you have to start all over again."

Claire laughed, "I understand! No one wants to put their energy into the water, just like the old days of playing the jumping game, no matter how far you jump, once you fail you have to start all over again"

"Right." Charlie looked at the time, drove the car onto the main road, and said, "Wife, I'll send you to the company first."

Claire answered and smiled, "Okay!"
