

Chapter 3356

George Han's smile remains the same, but in fact, he has already secretly had luck in his hand, and his breath expands in his body at any time. Be prepared to cope.

"Playing." George Han replied indifferently.

"Then you can stand firm." As the

words fell, Ye Shijun's body was suddenly enveloped by black qi, and even George Han, who was separated by some distance, suddenly felt a lot of pressure.

What a powerful force!

"What?!"

Suddenly, just as George Han secretly sighed about the strength of his demonic energy, he suddenly felt two extremely powerful demonic energy attacking him directly on the left and right beside him.

"Brush!"

Almost as soon as George Han withdrew, two demonic qi attacked directly from the left and right like two missiles, and then exploded in front of George Han.

Even though George Han had used extremely fast reflection and speed to dodge, the impact of the explosion

still made George Han retreat several meters, and then he barely stabilized his body.

This guy is so fast!

Even George Han himself almost followed his words.

"Hehe, it seems that your standing is not too stable." Ye Shijun sneered when he succeeded.

George Han patted the dust on his body and smiled contemptuously: "As you get older, you need to move your muscles and bones."

"Hmph, let's see how long you can be tough." Ye Shijun's body suddenly disappeared in place.

You must know that no matter how fast the speed is, it will always be caught by the naked eye, unless the speed of this guy is so fast that others cannot be identified with the naked eye, at least at this time, even George Han is also in the field. At that moment, it was as if he was not here at all under the anti-Buddha moment.

However, how could George Han be paralyzed? How can you panic and be overwhelmed.

Since you are so fast that I can't see clearly

, then I simply don't see it.

The consciousness was scattered, and any suspicious aura was directly caught everywhere. After that, when Taixu moved, George Han's figure disappeared instantly.

“Wow!”

The people present were suddenly shocked, and the two opponents disappeared completely in an instant.

“Bang!”

Suddenly, in the center of the field, a faint explosion sounded, as if the two were initially fighting.

“Bang!”

Immediately afterwards, there was another explosion ten meters above the explosion site. Although the explosion was small, ripples spread from it.

And the ripples that look like water waves, once spread, the surrounding is the same height, and even the high-rise buildings hundreds of meters apart are instantly cut off by the ripples and collapsed.

“Damn it!”

Several masters, including Zhu Yanshuo and Qing Ji, muttered to themselves in shock.

Although it seems that the explosion is extremely small, the aftermath of the spread can actually have such a terrifying power, and it really deserves to be

a battle between top masters.

“This is too strong, isn’t it?”

“The tip of the needle is against Maimang. It seems that the battle between the two is light and clear. Even if you look closely, you don’t even think that something happened, but in fact it is hidden and turbulent. Really It’s an eye-opener for me.”

After being slightly shocked, there were only bursts of exclamations left.

At this time, George Han and Ye Shijun had already flown all the way from the ground to mid-air in their respective confrontations.

Following the last palms of the two, there was another explosion between the two. After that, they each retreated a few meters, showing their own shapes and looking at each other from a distance.

“Not bad. I haven’t seen you for a long time, you are quite fierce.” George Han looked at Ye Shijun and said indifferently.

Ye Shijun smiled lightly: “You’re not bad, you can fight me for 30 moves without defeat. Although you’re disgusting, I have to praise you.”

“However, it’s a pity, George Han. “

Oh?” George Han looked at him in confusion.

“It’s a pity that you have provoked someone you shouldn’t, so it is doomed that you have a good cultivation, but you will die in the end.” Ye Shijun sighed.

George Han smiled slightly: "Aren't you afraid of smashing your tongue when you say it? It's like you won."

"Haha, I dare to say such a thing, do you think it's a casual slap haha? I'm not afraid to tell you, George Han, although I have fought dozens of tricks with you just now, for me, it is just a small test."

"Fang Cai, I only used 50% of my strength." After the

words were finished, Ye Shijun sneered evilly, and the whole person also appears very proud.

George Han smiled slightly: "It looks like you are winning, but, do you know how much effort I used just now?"

Hearing this, Ye Shijun suddenly looked cold and stared at George Han, waiting for his answer...

Chapter 3357

George Han smiled: "Three percent force."

Three percent force? !

Hearing this, Ye Shijun suddenly had a startled face, and the next second he suddenly roared at George Han: "George Han, are you fucking bragging with me here? Sanchengli?"

"You are me Are you a fool?"

George Han smiled indifferently: "Believe it or not, why don't you try it?"

"Just try it, I'm afraid you won't succeed?" Ye Shijun roared angrily, and then the space between his body suddenly black air condensed.

Suddenly, the color of the sky changed, the galaxy was hidden, and layers of black clouds came directly from all directions. The sky that had just broken dawn was about to usher in the dawn, but it was already covered by black clouds. The darkest hour in the middle of the night.

Roar!

With a thick roar resounding through the world, Ye Shijun's whole body

became thicker and thicker, and in the thick black gas, a huge head suddenly jumped out, and his mouth opened and roared behind him.

The momentum is great, as steep as the devil of Mount Tai!

"Come on, George Han!" Ye Shijun's whole person also became extremely ferocious, and the blood-red eyes were full of bloodthirsty and rage.

George Han's eyes shrank, and the black and gold energy on his body was also surging wildly.

He didn't dare to be careless at all, because he knew very well that at this time, Ye Shijun had obviously used all his strength and made a killing move!

"The demons dance!"

Roar!

At the same time that the huge human head roared with Ye Shijun's anger, it also suddenly opened its mouth and screamed wildly. The black clouds in the sky suddenly pressed down from all sides, and were directly connected to the black air surging on the ground, forming a huge black pillar connecting countless anti-Buddha heaven and earth.

Immediately afterwards, those black pillars quickly attacked George Han, their speed and momentum were as fierce as a hundred tornado pillars.

Above the ground, everywhere the black pillar passes, everything is missing. Houses, streets, and even everything, are completely turned into powder under the black pillar.

"This... this is simply too terrifying." In the

old temple, the people present all tried their best to support the huge barrier, but this is the case, the huge wind and waves still made the place a mess, and the soldiers with lower cultivation bases They were blown away, and those with higher cultivation had to rely on some buildings to barely stand up.

And this is still based on the fact that the black pillar never attacked this side from beginning to end, but just passed by a few meters away.

"The power of the Demon Sage is really extraordinary. In the past, I always felt that there was not much difference between myself and the Demon Sage level, and it would take another hundred years to cultivate him, but now it seems that I am just

sitting on the well and watching the sky. Young Master Ye is so mighty, he directly made me see the gap between me and the Demon Sage, the big one is not a little bit." Venerable Bigfoot shook his head helplessly.

Looking at Ye Shijun, who was wrapped in black air in the sky, his eyes were full of mixed feelings.

"It's really going to destroy the land. With such a blow, let alone one me, even ten me will surely be wiped out in this move. I have lived for a thousand years, and today is the first time I have seen it in my life. Such a wonderful and terrifying stunt."

"The group of demons dances wildly, it's really appropriate, it really is like a group of demons dancing in a flurry, such a ferocious killer move, I have never heard of it."

Venerable Bigfoot said, the other three masters All of a sudden, one by one nodded like pounding garlic, and they all sighed.

Qing Ji frowned and stared at the battle situation above without moving. Although she had a calm face,

But in fact, he was anxious for George Han.

She is also a super expert. Naturally, like the four masters, she can see much more from a distance than others. She also knows how terrifying and powerful this Ye Shijun's ultimate move that destroys the world is. Precisely because she knew how powerful this move was, deep down in her heart, she also understood how dangerous George Han's situation was.

Although she had already experienced the power of George Han just now, Qing Ji would never have imagined that Ye Shijun, who looked equally young, would suddenly become like this.

At this time, George Han, facing the black tornado attacking from all directions, his entire brows have been wrinkled to the extreme, and his eyes are also staring...

Boom!

Suddenly, the energy of George Han's side also exploded..
