

Chapter 3508

"Huh?" George Han was still immersed in the narration just now, and he did not reflect it at all.

He would be staring at the stone pillar in a daze, and he began to understand why the stone pillar had water constantly flowing out of the exterior.

The purpose of the water is to keep the water column cold enough so that the body can be stored longer.

"Me?" When George Han reacted, he was more dumbfounded, and then smiled bitterly: "What are you kidding me? You show it to me, and I'll just bring one to see. You can't touch a body that smells like salted fish."

"If it really doesn't work, I think it's better to bury it."

"After all, people were imprisoned before they died, and their bodies were tossed for so long after they died, so why continue to torture them. The

Mercury Man shook his head, patted George Han on the shoulder lightly, and smiled: "How can you know the truth without trying? The birth of the monkey was originally meant to bring

back the power of the seventh generation and the supreme body." Returning to the human world, such a huge fruit of reincarnation, if you don't eat it, then discard it, isn't it a waste, it will be punished."

George Han waved his hand: "I don't think so, I haven't tried it before, you and I are actually both I can't see it, but I can't touch it."

"Besides, as I said earlier, the Seventh Monkeys are always the treasures of the monkey tribe, and they don't belong to us humans at all. Naturally, as humans, we also I can't get my hands on it."

"Everything in the world has its own rules."

Hearing George Han's words, the Mercury people frowned: "Good boy, your eloquence is really good. Well, since that's the case, I don't want to ask more, just be It's my wishful thinking to do all this."

"It is also considered that the fourteen people think too much, you can leave."

When the words fell, the Mercury Man turned his back and ignored George Han, as if seeing off a guest.

George Han was a little helpless. This does not mean that he is a virgin, but that this monkey is really pitiful. The most important thing is that George Han has indeed tried it, and the facts have proved that he is actually with them. There is no difference.

Seeing that the Mercury people were a little unhappy, George Han was a little helpless, hesitating to say anything, he really didn't know what to say.

After thinking about it, he shook his head, and finally planned to turn around and leave.

The Mercury man was so angry that he was about to blow his beard. Although he didn't have a beard and told him to go, he really went. You said he was angry or not.

"Go, go, go back where you come from." The mercury man drank dissatisfied.

Hearing this, George Han suddenly stopped, frowned, looked back at the Mercurial Man in confusion, and asked in confusion, "What does this mean?"

"What else does it mean, is it very complicated?"

Han

George Han didn't understand, his so-called walking was to leave here and go to Suntan, but the meaning of the Mercury Man was obviously to let himself go back to the starting point.

"The Moon God Palace is built on the yin barrier. If you can't destroy the Moon God Palace, then it will always be stuck on the barrier, and the road to Suntan is still stuck there. Naturally, shouldn't you go back to where you came from?"

Hearing these words, George Han frowned.

He has indeed seen a huge barrier over there, which is enough to show that what the mercury man said should be true.

"Why, why don't you go?" Seeing George Han turn around, the Mercury man snorted and said contemptuously.

George Han nodded, still puzzled: "But what does this have to do with this monkey?"

"Haha, of course it has nothing to do with the monkey, but if you don't try it, I will be very upset. I am very upset and naturally won't tell me. where are you from

Playing in the Moon God Palace can easily make this place explode. "

Of course, if you feel that you are capable, then you can also find a way to blow up this place by yourself, but don't blame me for not reminding you, you have seen the material of the Moon Palace before, the hardness, hum "... " Speaking of this, the Mercury man sneered.

"Yes, I admit that you are indeed very talented, but so what? Maybe you're really strong enough to destroy this place, but I'm absolutely sure that at least you're going to be peeled off here. "

Think about it, if you leave here, you will enter the area of Suntan. Those people are not on the same level as us. If you want to waste a lot of energy here, you might as well go back as soon as possible, am I right?" "

George Han rolled his eyes after hearing this. He had seen strong buys and strong sells, but never had such strong giveaways: "I'll take it, I'll try it, I'll try the head office, right?" "

Chapter 3509

George Han is really convinced this time, completely convinced from heart to body.

He's never seen such a shameless request in his life, it's like... as if someone begged you to beat him, and it's the kind that doesn't want money if you beat him, if you don't beat him, he'll even cry Kneeling like...

is there something wrong?

If it wasn't for getting along for some time, George Han would really be like the glutton of evil, thinking that this guy has done a lot, is it just for the sake of yin himself.

"Look at you, it has to be like this." Seeing George Han agree, the Mercury people finally lost the unpleasantness and coldness they had before.

"I really don't know why you are so happy, and I don't know why you insist on letting me try." George Han reached out his hand helplessly.

The Mercury Man smiled softly without refuting, and moved slightly, signaling George Han to walk over again.

"Remember, when you want to reach out and try to catch the seventh-generation spirit monkey, you must have no distractions and let go of everything. Of course, it is best for you to communicate with it." Mercury said humanely.

George Han was puzzled: "You want me to communicate with a dead corpse? Or a monkey?"

George Han was very depressed, let's not talk about how absurd this is, even if it can be tolerated, George Han really to communicate with it, but can a monkey understand what it is saying?

Isn't this totally outrageous. Open the door to outrageous, outrageous home?

But just when George Han thought so, when he looked back at the Mercury Man, there was a trace of displeasure on his face, and George Han could only helplessly nodded: "Okay, I will communicate with him well. Don't worry, then I will not only say hello to him, but also talk to him by the way.

He is homely. The

Mercury man glared at him, with a look of hating iron but not steel: "Hey, you bastard, sincerity is spirit, and sincerity is spirit. "

George Han nodded helplessly. Forget it. Anyway, this Mercury man only needs to be happy. His mission is to make him happy. As for the seventh-generation monkey, he really has no interest.

Thinking of this, George Han's right hand slightly He lifted it up, then came to the wooden box, and slowly put his

hand in. After the hand entered, George Han touched it, but it was still the same as before, without any touch.

Just when George Han was about to reach out his hand At the same time, on the side, the voice of the mercury man rang again: "Heart..."

"Okay, okay, I understand, sincerity is spiritual. "

He rolled his eyes helplessly. It seemed that he wanted to fool around and it would not work.

In this case, Han

George Han had no other choice but to close his eyes, and then out of a state of complete emptiness, he stretched out. The hand in the viscous liquid no longer moved, but moved at will with the consciousness.

One second, two seconds, ten seconds passed.

George Han still didn't have any other feeling. The

only thing he could feel Yes, the Mercury Man was staring at him closely at this time.

Just do the whole set.

With a sigh in his heart, George Han entered the empty state again. In

a blink of an eye, another ten seconds passed.

Twenty seconds passed.

Thirty seconds passed.

One minute passed... At ten minutes

, George Han's fingers suddenly moved slightly.

The Mercury Man looked at George Han nervously. He didn't know if George Han had noticed something and reacted, or if George Han didn't feel anything, he was already

planning to stop at this time.

But obviously, what disappointed him was that it should be the latter.

This is indeed the case. After a full minute of completely emptying, George Han almost fell asleep because of it.

It was so boring, just so boring, he still didn't feel anything, still didn't touch anything.

If you have to say what George Han feels at this moment, it is not for nothing.

He has!

He felt that if he soaked in this viscous liquid for a while longer, then his hands might be no different from the dead monkeys inside.

With a helpless sigh in his heart, George Han also felt that the time was almost there, and it was enough to make a deal, so he planned to stop.

But just when George Han was about to return to normal and was about to reach it, bursts of noise suddenly entered his ears...
