

# Noble Husband At the Door Chapter 384

After looking at Samuel with melting eyes, Jiang Wan looked to take a look at Yvonne once again, as if she was going to tear the tendons and skin off her.

" Yvonne, did you deliberately humiliate us?" Jiang Wan was so upset that her body was trembling. She had shed so much face in the shopping mall that it took her a while to recoup, and now she was even angrier.

Originally, she thought that after driving them out of the house, Yvonne would recognize the lesson enough, yet she really did not expect that it was not enough in all. Yvonne was still making points difficult for her in the resort.

" I did it deliberately? Jiang Wan, make it clear. Why did I intentionally make points difficult for you? You made use of Grandfather's number to blacken my mom's number, really did not you?" Yvonne stated.

" So suppose it's me? What right do you have to attend the family event?" asked Jiang Wan.

Yvonne's personality was not that conceited and also proud, however every person had a lower line. Jiang Wan had undoubtedly violated her bottom line, so that was why she said something like that.

Think it or not, I'll charge this matter to the Sue family and also make you go to jail," Jiang Wan said angrily. She had actually invested millions of yuan in the shopping mall before, as well as at that time, she started to figure out where Yvonne got cash from.

After Liu Zhijie's guidance, she presumed that Yvonne needs to have made use of the public funds to make face for herself, so she had actually already prepared to report it to the Sue family members.

Even if Yvonne was put in jail, she would not pity her at all.

Her face had been absolutely destroyed by Yvonne. If she didn't violate Yvonne, just how could she let it go?

" Jiang Wan, you can't understand the world of the abundant, I can comprehend you. As for you claiming that I can move the general public funds, you can sue me. To tell you the reality, I do not operate in the Sue household any longer," Yvonne stated.

Not operating in the Sue family members?

If she didn't depend on the Sue household, just how could she have so much money?

From the starting to the end, Jiang Wan had never believed that the cash had anything to do with Samuel, due to the fact that in her opinion, it was impossible.

" Do not attempt to exist to me. As soon as I tell the Sue family members concerning this, you'll recognize what will happen to you," Jiang Wan stated coldly.

" If there's absolutely nothing else, do not interrupt my meal," Yvonne claimed emphatically. She really did not want to fall out with Jiang Wan, but Jiang Wan was aggressive. If she really did not lose her temper, she would really be harassed like a soft persimmon.

Samuel was actually fairly pleased Yvonne had actually acted this. She had remained in the Sue family for numerous years. Whatever kind of grievance she had actually experienced, she would be silent and birth it calmly.

This type of personality, from a certain viewpoint, did have some advantages. If she allowed others to suppress her, it would certainly not be good, since some individuals would certainly take it for approved.

As an example, the Jiang family turned nose up at him as well as they assumed it was a matter of program. He just didn't care. If he took it seriously, an average household like the Jiang family was unworthy among his finger.

" Lydia, what's going on? Aren't you coming back?" Currently, Jiang Hong walked to the front of the vehicle and asked Lydia.

Jiang Bo and also Ferdinand both decreased their heads at the same time, since the two families had purposely hidden this matter from Jiang Hong.

Now that Jiang Hong was mosting likely to seek this issue, they most definitely had something to do with it.

"Dad, I've been here for a couple of days. Who told you that I wouldn't come? I'm remaining at my brother's residence. He drove me out." Lydia sneered.

"Jiang Bo, what's going on?" Jiang Hong asked.

Jiang Bo sneaked a peek at Xu Fang, and Xu Fang said, "Dad, now their family is abundant. They don't take us seriously as well as have actually done a lot of unkind points to humiliate us. Of course, I have to drive them away. You've seen what happened today. They did it purposefully."

"Lydia, I really did not anticipate you to become like this since you have money. Have you forgotten how we treated you in the past?" Afterwards, Xu Fang still slammed Lydia.

Currently, Plants did not risk to talk. If it remained in the past, she would most definitely have actually scolded her. Currently, she had actually borrowed 200,000 yuan from Lydia. If she remained to add insult to injury at this time, Lydia would not be able to have her anger when she mentioned this issue.

"Xu Fang, you have to feel your principles when you speak. Do not you know who makes trouble first? Do you want me to tell Dad the whole point?" Lydia said.
