

Chapter 3950

which was originally very powerful, even in the face of the impact of George Han's sophisticated arrangements, the Pei family's army can still be stable, but at this time, with another round of enemy forces, they were completely panicked.

The golden cavalry is invincible like a flood bursting its banks.

The Troll Palace also matched the Yutu people in terms of body shape, and they were dizzy and chaotic when they were on the rampage.

Amelia Su cooperated with Ziqing, and it was almost a merger of two highs. Although Pei Gu's followers were indeed extraordinary followers, it was obviously difficult to meet the two perverted women.

The entire army of 100,000 people has an outrageous tendency to be defeated at this time.

"Stabilize, hold on for me, the Tau Clan, never allow defeat!" Pei Gu, who was in the lake, said anxiously when he saw that his team was about to collapse.

He had serious internal injuries at this time, but even so, he endured the severe pain and stood up slowly.

He understands that if he can't stand up at this time, then this army will kneel down with him forever.

Therefore, no matter how difficult or painful it is, he must stand up with gritted teeth.

Sure enough, with Pei Gu getting up, the entire Pei family army suffered losses by fighting alone, but relying on the huge numerical advantage, the Pei family army finally stabilized the situation again, and the big defeat was finally away from them.

"George Han, do you really think you will win?" Pei Gu looked at George Han angrily and said coldly.

George Han smiled lightly: "Then continue?"

Pei Gu glanced coldly and did not speak. He is seriously injured now, how can he continue? However, he also believed that even if George Han suddenly won a small victory in the match against him just now, he would definitely be seriously injured.

Therefore, he is also watching George Han's performance to see if he is holding on.

"Continue?" Pei Gu suddenly smiled: "Okay, George Han, I want to see, you really are not so indifferent."

"Master Leopard, give it to me!" As soon as he finished speaking

, Pei Gu waved his hand. Behind him, a man in black with more than 100 people rushed directly to George Han.

With just a glance, George Han could see that although these men in black were relatively tall, their speed was like a phantom.

“Leopard, the speed really should be fast, but I overlooked this point.” George Han sneered.

Unfortunately, however, he used the wrong person.

If you want to suppress George Han in speed, at least for now, there is absolutely no second person to be found.

As soon as the Taixu God stepped forward, his true qi moved, and George Han’s figure was so fast that only a phantom was left.

Facing the attack of the hundred leopard divisions, George Han charged at a faster speed like a ghost in the next second.

“Shu Shu Shu!” The

seventy-two-way Divine Sword moves lethally, coupled with George Han’s extremely fast speed, his whole person is like a carp crossing the river, and he can’t see his body.

Only the countless fallen men in black are proving the “atrocities committed by George Han.”

Pei Gu did not panic. Although Leopard Master was fierce, he never thought that this group of people could stop George Han.

“Four Heavenly Kings, what are you waiting for?” he shouted anxiously.

In the next second, four figures suddenly flew out from the back of the crowd. These four people were very big and strange in appearance. They each had four weapons: knives, swords, axes, and halberds. .

With the help of these four people, George Han’s offensive really began to drop sharply, giving the Leopard divisions a chance to breathe again.

Seeing this, Pei Gu sneered, took advantage of the situation to quickly retreat, and then hid in the crowd.

The four heavenly kings are indeed difficult to deal with. The four of them have different styles, but they cooperate as one person. Even if they are as strong as George Han, they can’t help frowning for a while under their heavy siege, not to mention that there is still a leopard teacher at all times. harassment.

Seeing that Pei Gu had already taken advantage of the situation to leave, George Han could only see it in his eyes, anxious in his heart.

Sometimes, flies are definitely not a big thing, but they can give you a headache.

Right now, that is the case.

George Han was very angry, forced his breath to open, and tried to break up the group of bastards, but after several attempts, the effect was terrible.

Just when George Han was annoyed, suddenly, he clearly felt that a very strong murderous aura was rushing towards him at a high speed, and this murderous aura was obviously so strong that it made people feel outrageous, and the power was so real... A

real god?

George Han suddenly looked at...

Chapter 3951

Not far away, a crimson light is rapidly approaching itself.

It is extremely fast and powerful, and even the air is madly burned wherever it passes.

“Damn, what is that?” There are very

few guys who are so fast that even George Han can't see clearly, George Han's brows are wrinkled with the eyes wide open.

“What the hell? Is it Pei Gu?”

How could it be him?

It was hard for George Han to understand, and the whole person was very stunned. After all, Pei Gu had just been seriously injured by himself. Even if this guy has super defensive ability, it is impossible for him to recover in such a short period of time. You can also use all your strength to attack yourself.

“George Han, you can't think of it, your kid's death is coming.”

Pei Gu smiled grimly, his eyes ruthless.

George Han was shocked for a few seconds before he recovered.

With the movement of Emperor You in his hand, Fen Ji opened wide, his left hand was the leader, his right was attacking, and he joined forces to fight.

boom!

The two confronted each other immediately, but it was obvious that at the moment of contact, George Han suddenly retreated a few steps away, and blood flowed from the corners of his mouth.

Even if it was barely blocked, the price George Han paid was extremely high.

“You...how could you...” George Han looked at Pei Gu in surprise and was a little confused for a while.

“The blood of the scorpion, never die, never retreat, never retreat. With the protection of its ancestors, we will never die.” Pei Gu sneered.

Immortal? !

“Death to me.” Pei Gu roared coldly, and suddenly countless long hairs grew out of his body, and his entire face turned into a terrifying human-tiger face with fangs, which made people daunting.

At the same time,

an incomparably terrifying huge force directly shook George Han like a kite with a broken string and crashed to the ground.

“Three thousand.”

Amelia Su was so anxious that he pushed back the minions beside him with one hand, and then flew to George Han to follow him.

But even so, the speed at which George Han's body fell still made her stagger several times in the air.

"Protect the leader!" Ningyue shouted, and led a group of disciples to rush over.

A group of people quickly formed a circle with George Han as the center.

"Pfft!"

As soon as George Han landed, he spurted out blood, and the huge impact almost broke his liver and intestines and damaged his five internal organs.

"That guy..." He looked up at Pei Gu in the air with difficulty. He really didn't understand that Pei Gu had already been beaten down by himself, but why

suddenly attacked him like a nobody.

Even a perverted self, a self with a lot of exercises, is absolutely impossible to be completely damaged in such a short period of time.

"Three thousand, are you alright?" Amelia Su said anxiously, her eyes full of worry.

"George Han, talk to me, don't scare me." Seeing that George Han just stared blankly at George Han in the sky, he became even more anxious.

She knew that Pei Gu's sudden attack was no small matter, and she naturally knew what kind of damage it would cause to George Han.

So, she was almost on the verge of crying.

Hearing Amelia Su's crying voice, George Han recovered, shook his head, and comforted: "Don't worry, your man is a cat, with nine lives, he can't die."

"

I'm just wondering... How could this old boy suddenly reply so fast, shit, even if I'm so young, I don't have the ability to recover." George Han wondered, "What trick did he play with me?"

"It doesn't seem like he pretended to be injured just now, so he shouldn't lie to you on purpose to lower your vigilance," Amelia Su said.

George Han nodded, what Amelia Su said made sense, and even if he wanted to play himself, it was absolutely impossible for him to joke with the morale of the whole army.

So what the hell did he do?

George Han diligently flipped through the memory just now, trying to analyze every movement of Pei Gu, so that he could find the real reason.

Suddenly, George Han seemed to think of something. With his eyes wide open, he suddenly returned to his senses: "I see."
