

Chapter 3996

Sanmen commanders are stupid, they think about it, and they will never think that George Han's mouth will come out Such a word from the great wilderness of the world.

Back off... because he's going to pretend to be X!

However, in the end, it was still the order of the leader of the alliance. Even though the three of them were incomprehensible, they still obeyed obediently.

After the three led the troops withdrew more than fifty meters, they gave George Han enough space.

Although the soldiers of the Mingyu Division had the upper hand right now, when they saw all the soldiers of the George Hanbu retreat and only George Han was left, they also had an ominous premonition in their hearts.

The group of Mingyu soldiers who were close to him involuntarily stepped back, forcibly leaving a larger open space for George Han.

George Han smiled lightly, and the energy in his hands began to flow steadily.

His brothers all gave their lives to charge, and now he is in such a predicament, in fact, he doesn't have much choice.

If this beast died, he had to jump

twice, not to mention that George Han was still a man, a man who led tens of thousands of brothers.

"George Han, what is this for?" In the

middle, Ming Yu and Pei Gu, who had been watching the battle, obviously found clues on the battlefield at this moment.

Pei Gu's old eyebrows were also furrowed, and he didn't quite understand: "It looks like he intends to fight our army by himself. Is he at the end of the road and has no choice?"

If there is a choice, he George Han Nor should it be so.

Fighting with force seems to be the best explanation.

Ming Yu shook his head: "If it were an ordinary person, if Patriarch Pei said so, Ming Yu would agree to it. But George Han has so many unexpected things."

"So, I really don't know if he is fighting again. What the hell."

Pei Gu nodded and thought for a moment: "He has suffered a serious loss of troops, and he is afraid of losing his morale, or he ca

n't bear , he should be holding back. " I'll be

recalcitrant."

"How about, send some experts over?"

Ming Yu heard the words and knew that Pei Gu's words were not bad, so he glanced at the entourage beside him: "Go and send some experts over for reinforcements."

"Yes ." !" The follower responded. "Remember to remind the masters to stay away

, and don't attack rashly. George Han is a dangerous person and must not be underestimated."

"This subordinate understands." In less than a minute, the hundreds of masters in the formation quickly attacked the battlefield ahead. However, this group of people stopped almost a few hundred meters away from George Han's side. Instead of attacking, they secretly transported energy and were ready to defend at any time. "What? Are you afraid?" George Han laughed coldly. "A bunch of rubbish!" With a cold voice, George Han's Heavenly Fire Moon Wheel rose directly, and with a flick smashed out. And almost the second after he made such a noise, his body suddenly flew, and the next second, he flew directly into the sky, seemingly invisible. "Fuck!? What does this mean?" "What the hell is George Han?"

A group of masters, one second was still cautious because of the sudden attack of the Skyfire Moon Wheel, but the next second saw George Hanyi flying into the sky, and then they disappeared and cursed again.

Is this running away?

Otherwise, where have people gone? !

Not to mention them, even George Han himself was completely dumbfounded.

You look at me, I look at you, commander of the three gates. The two monks are completely at a loss.

Didn't this alliance leader say he wanted to pretend? Why did he just hit it once, and suddenly he disappeared in the sky? !

"Meng... the leader of the alliance didn't run away?" Ximen commander Nuonuo said.

He didn't want to believe this kind of shit, but judging from the current situation, it

was the best possibility.

They had almost been defeated. Although George Han's strategy was right again and again, under absolute strength, these were nothing.

Moreover, the casualties of the troops are now extremely serious, and the next outcome can almost be seen with the naked eye.

It is not impossible for George Han to escape at this time.

"Hugh is talking nonsense, the leader of the alliance will never abandon us and run away." The North Gate commander shouted coldly.

Although he couldn't say what the basis for his words was, the commander of the North Gate was still willing to believe George Han.

"I also think that the leader of the alliance is definitely not someone who is greedy for life and fear of death." Nanmen commanded.

Commander Ximen didn't know what to say either. Seeing the firm attitude of the two, he stopped uttering a word.

Ming Yu and Pei Gu were also a little dumbfounded, but their vigilance still prevented them from moving away from the sky.

Of course, at this moment, the sky mutation appeared...

Chapter 3997

"That is..."

"What is that?"

When everyone looked at the sky, they suddenly found the sky colorful mottled above.

The red ones are like a raging fire, burning their sides.

Those who are golden are like gold, and even more like a blazing sun, they wear themselves alone.

Those who are green are like spring coming, and they are bound and entangled like ten thousand trees.

The white ones are filled with milky milk, leisurely and pure.

The black ones are like a solid land, and like a boundless devil breath, they are silently covered.

Each of the five colors has its own state, and each has its own shape, but when viewed comprehensively, it seems to be tightly solidified and integrated into one another.

Looking at it as a whole, the five colors are condensed, and it seems to be one body, and it is just each body.

The surrounding land, in the five lights, also changes colors, both like wonders and dreams.

"It's so strange, what's going on?"

"The so-called image of the sky must have something. Is it possible that something is about to come to the world?"

"But we are attacking the city at this time, and it should be like this. It doesn't look like anything can come."

"Right, just now... just now George Han flew up, shouldn't... Could it be George Han doing something?"

How could it be possible that such a huge heavenly phenomenon could be accomplished by a human race or a mere demon? This thing...this thing is absolutely extraordinary."

"Yes, it must be an ancient divine beast or a congenital one." Bao has such power."

Many people stopped one after another, looked at the sky and murmured, and they even forgot that they were fighting for life and death on the battlefield.

"Is this the alliance leader's big move?" Commander Ximen couldn't help but whisper.

The commander of the North Gate shook his head: "From what he just said about the situation and time, it is correct, but from a rational analysis,

it is not correct. This kind of celestial phenomenon does not seem to be something that someone can do."

In the dark rain, Pei Gu is also a well-informed person, but looking at the appearance in the sky at this time, he also fell into a burst of doubts for a while.

It seems that George Han came up with it, because he really just flew into the sky.

But like what others have said, basic common sense and theories are constantly telling anyone present that it is absolutely impossible for a person to have the ability to trigger it.

"Elder Shenlong, what do you think of this matter?" Pei Gu asked.

Ming Yu recovered and glanced at Pei Gu: "What does Patriarch Pei want me to think?"

"The truth." Pei Gu said.

"It should have been made by George Han." Ming Yu said.

Hearing this, Pei Gu was suddenly shocked: "George Han? Elder Shenlong really thinks that this scene and this phenomenon are caused by human beings?"

Ming Yu smiled bitterly

: "I also know that Patriarch Pei should believe such a thing. , it is indeed difficult for a strong man. But the problem is that I have been in contact with George Han for a while, and this son has done many times to make people stunned.

"When dozens of people are besieged and do not fight back, not only will they not be hurt, but they will be able to fight back instantly. You must know that those who besiege others are masters. How many people in the world can do it?"

"After that, I will wait. The demon Buddha was sent to refine him in a large formation for a few days, and this person could even rise into the sky in such a large formation, not only directly destroying our formation, but at the same time, even our ** was also killed by him. ."

"There is nothing in this world that he, George Han, can't do. Therefore, it is very likely that George Han has done what he is doing. Don't forget, Patriarch Pei

, he just made his soldiers. He stepped back. With his George Han's character, he may indeed be teasing me, making me think that he is trying to escape, but he is actually pretending to be coercive!"

Pei Gu heard the words and frowned. Big wrinkle: "This child is really so powerful? Seriously, if others say it, Pei Gu will not believe it, but Pei Gu has to believe the words of the elder Shenlong. But..."

"It's always hard to believe, right? ?" Ming Yu said.

Pei Gu nodded, this is basic common sense telling him that it is impossible.

"I can understand." Ming Yu smiled bitterly and nodded: "Some things that go against common sense are indeed unacceptable for a while, but when you have been in contact with him for a long time, you will gradually get used to them, and you can even say that you I have to get used to it."

"Patriarch Pei, there is a golden light in the center of the vision, and it seems that we are about to find out."
