

Chapter: 4014

“Also, what exactly are the Dragon Gate ruins?”

“Old Sect Master, so persistent?”

“For this, you actually go to the hot summer?”

For a long time, the Trumen people just believed that the reason why Trumen wanted to unify the global martial arts was just to satisfy the power desire of the Trumen master.

Merge the world, don't decide on black and white!

Let the martial arts in this world listen to the orders of Chumen.

But now it seems that Truman's purpose of unifying the world is not the case.

It seems that there are other pursuits.

If it is said that it monopolizes the talents of all countries in the world, it can be understood.

But about the Longmen Ruins, even they, the Trumen elders, didn't know anything about it.

Facing the confusion of his colleagues, Tang Xian frowned immediately: “Don't ask any extra questions, just follow the orders.”

Tang Xian's words scared these people to shut up.

“By the way, how is the investigation of the fifth elder?”

“Any clues?”

These days, the Trumen army has conquered the world, fighting and victorious, as if entering a land of no one.

However, under this overwhelming success, there was only one thing that always kept Great Elder Tang Xian in awe.

That is the death of the fifth elder!

And before he died, he left that line of mysterious text.

“Returning to the elders, we are still investigating.”

“However, I'm afraid it will be difficult to get results.”

“According to the existing information, all the senior members of the Meng family died!”

“Even if there is a living person, it is only a small person in the Meng family, and it is impossible to know any useful information.” The subordinate replied.

When the elder heard this, his brows furrowed even deeper.

“Is there no clue at all?”

“It looks like it was erased by someone.”

“The other party is so clean and neat, he must not be an ordinary person.”

Tang Xian slowly analyzed.

Some things, done too cleanly, are suspicious.

Just like now, the senior members of the Meng family were killed, but they did not find any information about the murderer.

This means that the other party is in Jiangbei, has extremely strong energy, and can cover the sky with only one hand!

“In this way, send a few more strong men over to arrest the head of the largest family in Jiangbei.”

“He must know something.”

Tang Xian arranged it again.

But even so, Tang Xian was still worried.

He began to recall the message sent back at the risk of death on the day the fifth elder fell.

....

He is back

that man is back

...

At the beginning, the Chumen guessed that it was Chu Zhenghong.

After all, Chu Zhenghong has been missing for many years and has not heard from him.

It seems that Chu Zhenghong is the only man who can kill the fifth elder and has a relationship with Chumen.

But think about it carefully, it can't be Chu Zhenghong.

After all, Chu Zhenghong was born in the Chumen and was once the head of the Chu family.

At most, he has some disagreements with the upper management of the Chu family, but it is far from the point where the swords face each other.

As for Chumen, Chu Zhenghong had no grudges.

He had no reason to deal with Elder Truman.

Even if the five elders provoked Chu Zhenghong, in the face of Tang Yun's sect master, Chu Zhenghong would never kill him.

Tang Xian is also from the Tang family, and even Chu Zhenghong has a lot of entanglement with the Tang family.

At that time, the eldest lady of the Tang family, Tang Yun's sister, was lost by Chu Zhenghong for her whole life.

Therefore, for the Tang family, Chu Zhenghong has always been guilty of making up for it.

In addition to the original Chumen clan master, everyone's original ideal candidate was Chu Zhenghong.

But he declined, and tried to ensure that Tang Yun was the leader.

In this, there is the meaning of making up for it.

Therefore, under various considerations, Tang Xian believes that that person is definitely not Chu Zhenghong!

But if it wasn't Chu Zhenghong, who would it be?

If you can kill the five elders and let the other party risk their lives to send a message, the other party is at least a titled master!

still a man...

Saying he is back means he has been to Truman once...

The man who has been to Truman is still a title, and he is still an enemy with Truman...

Based on these conditions, Tang Xian quickly screened in his mind.

In the end, a figure suddenly appeared in Tang Xian's mind!

It's him!!

Tang Xian was shocked, his pupils shrank suddenly.
