

Chapter 4015

Chu Tianfan!

It is Chu Tianfan who is back!

When the name sounded from Tang Xian's mind, an unprecedented fear swept over the Great Elder's heart like a sea of deep seas.

The old face was pale, and his expression changed greatly.

"Elder, you... what's the matter with you?"

"Don't scare me?"

Seeing Tang Xian's sudden change in expression, the second elder on the side was undoubtedly a little shocked.

"what!"

"Kill me, kill me..."

It was also at this time that Chu Zhengliang, who was sealed on the top of Chumen Mountain, heard a shrill roar.

The cold night wind blows into the lobby.

The sudden shout made the two elders tremble, and the first elder jumped up, picking up the knife in front of the table and about to slash.

But soon, they realized that they were overthinking.

"Big... Great Elder, it's the head of the Chu family who is calling..." The second elder explained.

The Great Elder's face looked a little better now, but the panic in his heart was still difficult to calm down.

"I thought it was him who arrived." Great Elder Tang Xian said with lingering fears.

"Who are you talking about?" The second elder wondered.

The first elder looked at him and said, "Chu Tianfan!"

Bang!

The second elder immediately rolled off the sofa.

Some people, even after many years of death, are still horrified when their name appears in their ears again!

The two elders in front of them were both people who had experienced the war a few years ago.

Ye Fan fought against Truman with his own strength.

Sweeping the title of the Chu family, breaking the Chumen guardian formation.

If it wasn't for the last Chu Yuan's old sect master to leave the customs, they, an ancient force that has been passed down for hundreds of years, would have been directly handed over by that man named Chu Tianfan!

"Elder, you... are you afraid that you are confused?"

"Then Chu Tianfan is dead!"

"He died so early!"

"How come the dead still come?"

"Is it possible that there are really ghosts in the world?"

The second elder got up from the ground and laughed.

Use a smile to hide the fear and fear in your heart.

But what the first elder said next made the second elder horrified.

"Remember what the fifth elder said before he fell?"

"If you think about it now, you can make the fifth elder so frightened, yet have the ability to kill the fifth elder, and have a great grudge against me, Chumen. Besides Chu Tianfan, who else is there?"

The second elder was dumbfounded. With a dull face, he looked at the first elder tremblingly: "Great elder, you...don't scare me. Back then, we watched Chu Tianfan die, how could he still be alive? alive?"

"But his body has not been found until now, has it?" The elder said again.

Silence, dead silence.

When a certain thought begins to appear, you will find that all the doubts in the past will prove that the thought is right.

The death of the fifth elder, the fall of King Yintian, and the bizarre disappearance of the envoys from various countries some time ago.

All of this seems to indicate that a powerful and mysterious person has appeared.

And this person is very likely to be the Dragon God Temple Master who was forced to death by the whole world at the beginning, with the unparalleled title – Chu Tianfan!

"hiss..."

The second elder was breathing heavily.

He already felt that his brain was useless.

Although what the first elder said is very reasonable, but it shouldn't be, how could he still be alive?

Back then, when Wan Jian walked through, Ye Fan's body was made of iron, so he wouldn't be able to survive.

"Of course, all of this is my guess, or it may be that I am unfounded."

"However, just in case, some things must be done."

The Great Elder looked gloomy and his eyes were very solemn.

He has a feeling that if this time, the great cause of Chumen fails, then there is only one reason, and it must be because of this Chu Tianfan.
