

## Chapter 4034

The Dragon God Body is the supreme martial art of Chumen.

In today's world, the number of dragon gods that can be displayed is definitely not more than one palm.

And Ye Fan is one of them.

Therefore, after seeing the dragon god body used by Ye Fan, Tang Xian had to make sure that the person in front of him was Chu Tianfan.

However, he couldn't figure it out.

He couldn't figure it out anyway, why is he really still alive?

Could it be that this guy is really hard to beat?

Back then, the supreme powerhouses in the world were besieged and killed, and they could not take his life?

Ye Fan stood up, his indifferent gaze fell on Tang Xian.

"Am I a ghost? When you arrive under Jiuquan, you can ask the judge below."

Indifferent words, in this night, quietly sounded.

Tang Xian shivered with fright at that time.

I just felt that the blood in my body was cold.

"Big.. Great Elder, now.. what should I do now?"

"I... do we escape... escape?"

At this moment, the mentality of the strong Trumen has collapsed.

It was only because of the old sect master that they were able to defeat Ye Fan.

Now, the Tang Sect Master and Sect Master are not there, and the rest of them naturally do not have the courage to fight Ye Fan.

But after all, Tang Xian is also the top five adults in the Chumen, and now he is sitting in Chumen Mountain, and he is by no means a generalist.

In the brief panic, Tang Xian quickly calmed down.

"escape?"

"Where shall we escape?"

"Is it Chumen Mountain?"

“Do you think this Chu Tianfan will not chase after Chumen Mountain?”

“But the elder...” These black-clothed guardians were still drumming in their hearts, and their voices were trembling.

“What are you panicking about?”

“This son has disappeared for several years, and he only came out now. If I expected it well, he must be seriously injured.”

“The injury that happened back then was healed, and the strength was bound to be greatly reduced.”

“You guardians in black are all masters at the master level, and this elder has a titled cultivation base.”

“With our joint efforts, we may not be able to match this Chu Tianfan.”

“In a while, the eight of you will go first and use the technique of combined strikes to hold Chu Tianfan down.”

“I found the right time, took advantage of the emptiness, and performed a thunder strike.”

“At that time, even if you can’t kill this Chu Tianfan, it will definitely hurt him!”

“There is Chumen Mountain behind us, and we have no way to retreat.”

“You can only fight to the death.”

“You guys, do you understand?”

Tang Xian said in a low voice, a few words not only stabilized people’s hearts, but also gave them the faith to fight to the death.

When these black-clothed guardians heard the words, they also gritted their teeth and said, “Okay, let’s listen to the elders!”

“Life and death are destiny, wealth is in the sky.”

“Fight him!”

After making up their minds, the remaining eight black-clothed guardians quickly set up a battle formation and surrounded Ye Fan in a half-moon.

As for Tang Xian, he hid behind these eight people.

Like the wolf king among the wolves, his cold eyes stared at Ye Fan from a distance.

“Chu Tianfan, a few months ago, in the land of hot summer, I, the fifth elder of the Chumen, was the one you killed?” Tang Xian asked coldly.

Ye Fan nodded: “Well, he did kill an old Truman guy. It should be the fifth elder you said.”

“Damn, we should have thought it was yours.”

“However, it’s not too late.”

“New hatred and old hatred, let’s forget it tonight!”

“Guardians in black, form a formation!”

Tang Xian drank sharply.

Boom boom boom~

There are eight auras, almost bursting at the same time.

Afterwards, the breaths of the eight people in front of them converged, and they gathered together in power.

The eight people who were fighting each other in an instant, twisted into a chain and bound towards Ye Fan.

“Eight-song series, now!!!”

In the anger that was soaring to the sky, the formation formed by the eight people was like a long whip, and it was violently drawn towards Ye Fan’s body.

“Mr. Chu, be careful!”

The Jones family was shocked.

Chumen’s combined attack formation is extremely powerful, and the strength of these eight grandmasters is even stronger than that of ordinary titled powerhouses.

Moreover, the technique of combined strikes is strange and unpredictable.

If you meet for the first time, it is the top ten powerhouses in the sky, and I am afraid that they will be caught off guard.
