

## Chapter 4045

“Nonsense, are you?”

“Also Chu Tianfan?”

“I know you Mahle Gobi!”

Even in the past few years, when they heard the name Chu Tianfan again, the people who guarded the gate of Chumen were still startled.

Although I know that the other party is talking nonsense.

But for the Trumen, the fear of being dominated by Chu Tianfan is almost deep in the bones.

“What, don’t you believe it?”

Ye Fan and the others were not angry with these little guys from Trumen.

On the contrary, Gaia and Owen and their group, after looking at each other, laughed out loud.

They are like immortals patrolling the world, and their eyes are full of teasing.

“I believe you are a ghost?!”

“Get out now!”

“Chu Tianfan was the number one title on the Heavenly Ranking list back then. How dare you call yourself Chu Tianfan, even a melon child?”

“What’s more, Chu Tianfan is already dead!”

“How could a dead person still appear here?”

“Could it be that he crawled out of the grave?”

At the foot of Chumen Mountain, those gatekeepers were immediately furious.

He yelled at Ye Fan and the others and told them to get out.

“Ha ha ha ha..”

Gaia they laughed.

In the hearty laughter, there is a comfortable and relaxed color.

Back then, when they went to Chumen, it was like walking on thin ice.

Who would have thought that, after a few years, when he came to Chumen again, he would walk in such a leisurely manner.

There is no way, whoever makes the current Truman, who can fight is not here.

The only great elder who sits in the center of Chumen has been beaten into a dead dog by Ye Fan.

“What are you laughing at?”

“Why don’t you go away?”

“Could it be that you want to die?”

“If you don’t leave again, don’t blame me... Big... Great Elder?”

These people, because of the laughter of Gaia and others, were surprisingly angry, and they were even ready to beat people.

However, who would have thought that just when they were about to teach this group of ignorant people, an old and comatose body was kicked by Gaia from behind.

Bang.

Hundreds of pounds of body fell to the ground.

After seeing who was coming, several Trumen people were dumbfounded.

A pair of beads almost popped out!

“This... how is this possible?”

“The Great Elder is the top ten titled powerhouses in the Heavenly Ranking.”

“In this world, who can hurt him?”

“Difficult...could it be...”

These gatekeepers seemed to realize something, and their horrified eyes immediately turned to the man who just called himself Chu Tianfan.

At this moment, a crazy thought swept through their hearts instantly.

“Difficult...could it be...”

“You... are you really Chu Tianfan?”

Several people were terrified and muttered to themselves.

Ye Fan and the others didn’t answer, just laughed loudly, then dragged Tang Xian’s body and walked directly into the gate of Chumen Mountain.

This time, none of these gatekeepers dared to stop them.

After all, even the Great Elder Tang Xian fell under their hands.

A few of them, even if they gave their lives here, I’m afraid they won’t be able to stop the other party in the slightest.

Looking at the backs of Ye Fan and the others walking away, the guards at the door finally couldn’t bear the fear in their hearts.

As soon as his legs softened, they fell directly to the ground.

“God...”

“Then...that devil, really...really came back?”

Although the name Chu Tianfan has only three characters, and although it has disappeared for three years, his legend has always been circulating on Chumen Mountain.

After all, in the nearly a thousand years since Chumen founded Zongmen, it has only been once in thousands of years that one person has been beaten from the bottom of the mountain to the top of the mountain, and one person has directly overturned it!

That is, Chu Tianfan.

Perhaps, not everyone in the Chumen has seen Ye Fan’s face.

However, everyone in Chumen has heard the name of Chu Tianfan.

Now, Chu Tianfan came to Chumen again.

For the people of Truman, there is no doubt that the devil has come to the world!

Just like that, Ye Fan and others swaggered into Chumen Mountain.

For this place, Ye Fan was already familiar with it.

He first went to the Tang family and threw Tang Xian into the Tang family.<
