

## Chapter 421

The technicians may not seem to be good at fighting, but in fact every one of them is a veteran who has been through the sands, they are extremely capable of fighting and are also good at using all kinds of technology, the most powerful being the fire control members.

They mastered large weapons with amazing killing power, which was one of the reasons why Ye Xing dared to come, otherwise he would have really pissed off Jiang Qin, the tomb guardian, and without something to deal with him, I was afraid that he would suffer a big loss.

A group of people quietly entered the valley at the northern foot of Fengqi Mountain, almost no one spoke on the way, and the quality was obvious.

When they arrived outside the valley, the first team entered to scout and soon found the secret sentry.

Although these sentries were all ancient martial artists, their combat quality was not high, and they were actually playing with their mobile phones.

The first team did not dare to make a rash move and replied for instructions.

Ye Xing nodded for the action to be taken, and the first team relied on accurate shooting to quickly solve the two ancient martial artists.

After the secret sentry was solved, the way was unhindered and soon came to the middle of the valley, by now there were already chaotic sounds coming from ahead.

Ye Xing told everyone to disperse and set up fire, and he himself took Du Jiuniang and Qiao Baihe, the two most powerful helpers in the battle, towards the front.

Ahead of them was a brightly lit area, and at that moment a huge pool of water in the distance was gurgling and bubbling, while at the edge of the pool a stake was stuck, and a woman was tied to the stake, who else could it be if not Su Furong?

After watching all this, Ye Xing found that there were several other tents by the water pool, and at this moment a large group of people were discussing inside the tents.

“Are they trying to sacrifice Su Furong here?”

“It looks like it should be right, the Immortal Sect fairy contains huge Yuan Power, it can be too attractive than ordinary people, it is comparable to the meat of the Tang Monk.”

Du Jiuniang agreed in a low voice.

Qiao Baihe narrowed her eyes, “I’m afraid that rushing to save someone will reveal our location.”

“The Yin Dragon should be hiding under this waterhole, Jiang’s family is planning to use Su Furong to be drawn out by this beast and kill it to get the elixir, if so, it’s really a bit tricky.”

“Why not just watch her die? Why bother with all this?”

Du Jiuniang had a lot of resentment towards the Immortal Sect, so naturally she hated to see all the disciples of the Immortal Sect die clean.

Ye Xing bristled, "If it wasn't for Guo Dongmei giving me the information, I wouldn't have known that Jiang's family was here trying to kill Yin Long to get the elixir, so this Su Furong's life must be preserved if she can."

"What will you take to save it?"

Du Jiuniang rose up in dissatisfaction.

Qiao Baihe advised, "Sister, the master has his own plans, so don't argue."

"I am afraid that if I reveal my location later, I will invite the Jiang family to retaliate, this is a family of the four great masters, it is not trivial, it is not something that ordinary ancient martial clans can compare with."

Ye Xing looked ahead and suddenly the bubbles in the pool of water stopped, followed by a huge whirlpool starting to appear on the surface of the water.

The Jiang family members inside the tent heard the commotion and came out, seeing this change, each of them showed smug smiles.

"Everyone get ready, the Yin Dragon should be coming out soon."

An old man from the Jiang Clan roared out at the surroundings.

The Jiang Family disciples began to prepare, they took out an iron chain from inside the tent, the head of which was a flying tiger's sharp claw, cold and sharp.

There were also various blast shields, all stuck into the ground, when suddenly a creature emerged from beneath the surface of the water.

There were horns on its head, its body was pitch black, its triangular head was flat and wide, and inside its mouth it kept spitting out scarlet letters.

Its body was three metres high, and it raised its body inside the pool of water, which was exceptionally terrifying.

The scales around this Yin Dragon were all diamond-shaped and oily, and the most crucial thing was that its scales could actually stand up, as if a sharp blade was inserted into its body.

"Yin dragon appears, make a move!"

The old man from Jiang's family shouted, and a young man next to him pressed the switch, only to see Su Furong let out a painful scream.

It turned out that she had wires tied to her body and the mechanism activated, causing her to scream in pain.

And this miserable scream attracted the attention of the Yin Dragon, which quickly approached towards her position.

The Yin Dragon's mouth was biting towards Su Furong, and Ye Xing was unable to rescue her.

The beast screamed in pain, and a nuisance sound of electricity emerged from its scaled armour.

A scorching smell spread through the area and the dragon roared and struggled wildly.

But the power grids landed on it and wrapped around it, and the rest of Jiang's family threw out their Flying Tiger Iron Claws.

The Yin Dragon's scaled armour stood up, rendering the Flying Tiger Iron Claws useless.

The Jiang family elder raised his hand and roared, "Burn this beast to death with oil."

The Jiang family disciples around him picked up their spray guns and sprayed them wildly at the Yin Dragon.

The spray gun was not water, what came out was pungent smelling diesel.

A handful of fire was thrown immediately afterwards, and the Yin Dragon let out a miserable scream as its entire body caught fire, the fire getting bigger and bigger, burning it as it continued to struggle.

"Even if this beast is powerful, it can't be fireproof, after it burns to death later, grab the dan and finish the job."

The old man of the Jiang family said smugly.

Suddenly, a change occurred, the fire around the Yin Dragon began to weaken and slowly went out, when the last bit of spark disappeared, this Yin Dragon's expression was blackened but it did not suffer any serious damage.

"Awesome."

Ye Xing giggled in his heart, he had to admire that this Yin Dragon was a little scary.

Everyone in the Jiang family was dumbfounded as the old man roared angrily with a stony expression, "Use the steel spikes."

The Jiang family disciples lifted the tarpaulin next to them and a piece of machinery with countless round holes was pushed out.

The machinery looked like a rocket launcher, but as someone activated it, an incredibly sharp spike emerged from within each round hole.

Whoosh whoosh whoosh .....

Countless steel spikes shot out and struck the Yin Dragon, actually literally shattering and knocking off its scale armour.

The Yin Dragon roared once more and quickly sank to the bottom of the water pool.

The old man sneered, "If you come out, you can't be let back in."

Only to see the bottom of the pool of water suddenly poof and explode as the Yin Dragon was forced up again.

The beast began to bleed, its scales and armour much less, and looked at the Jiang Clan disciples on the shore as they darted fiercely.

The Jiang Clan disciples raised their blast shields and as the Yin Dragon approached, it opened its mouth wide and ejected a cloud of white poisonous mist.

The poisonous mist landed on the shields and actually made a nuisance sound of corrosion.

One of the disciples was surrounded by the white mist and his exposed skin instantly bled and rotted, scratching his whole body on the ground in pain and screaming in agony.

The Yin Dragon scored a hit and again sprayed the poisonous mist at the crowded area.

The Jiang disciples fled, no longer daring to operate the steel spike launcher.

The old man had not reckoned that the poisonous mist would be so terrifying that he could not get close to it at all, and if he got it even if it was sucked into his body, he would have to be corrupted.

The dragon turned its head to look at Su Furong, who was tied to a wooden stake, and opened its bloody mouth to bite its prey.

As a result, Su Furong on the stake was suddenly carried away and the Yin Dragon bit down with a lonesome bite, directly breaking the stake into two pieces.

## Chapter 422

Su Furong was saved out of the expectation of all the Jiang family members, and the person who saved her was very young, in his early twenties, and it was none other than Ye Xing who was hiding on the side.

He had thought that he would not have the chance to save Su Furong, but to his surprise, the Jiang family had set up many tactics, mainly to deal with Yin Long, and had no time to care about Su Furong, which gave him the chance.

Ye Xing picked up Su Furong and flew away. The Yin Dragon exploded with anger, spewing out white mist and poisonous gas from its big mouth.

The Jiang family disciples around him suffered, some of them did not dodge in time and were directly attacked by the poisonous gas and fell to the ground.

Ye Xing ran out of the water pool in one breath and handed Su Furong over to the first team to be treated.

At this moment, inside the water pool, Jiang's family was not struck down by the slightest accident; for them, killing the Yin Dragon to get the pills was a task that had to be completed.

The old man shouted anxiously and greeted the Jiang family disciples to quickly deal with the Yin Dragon.

Although the Yin Dragon's poisonous gas was terrifying, the Jiang family had many people and had been setting up for a long time, and several heavy machinery had been pulled out in the distance.

The machinery looked like a launcher, except that instead of a cannonball, it was an extremely sharp iron spear.

The iron spear was covered with barbs at one end, hideous and terrifying. The Jiang family did not dare to use large firepower because they were afraid that the Yin Dragon's inner elixir would rupture, and once it did, it would be a wasted effort, so they could only use cold weapons to fight.

Several iron spears whistled and shot out, finally penetrating the Yin Dragon's scale armour. The beast roared, but scarlet blood continued to flow out.

The dragon was in pain and spraying poisonous mist, but unfortunately the Jiang family had taken cover near the waterhole and the mist could no longer hurt anyone.

After less than ten minutes of stalemate, the dragon finally lost its strength and fell heavily on the edge of the waterhole.

This, along with the five-metre long tail, as thick as a buffalo, finally collapsed with a loud whistling sound.

The Jiang family were all overjoyed, but they did not dare to come forward.

Ye Xing saw that the time was ripe, plus Jiang Qin was not there, so what was the point of hesitating and greeted the Dragon Shield crew to start moving.

The area around the waterhole was already set up with weapons by the fire control crew, and immediately afterwards the first squad started to move.

The Jiang family's sons below noticed something was wrong, after all, they were all ancient martial artists and their hearing was far too powerful than normal people.

The old man of the Jiang family frowned with a gloomy face, at this moment the Yin Dragon was not yet dead, no one dared to go up to fetch the dan, but there was an invasion of foreign enemies, it was really troublesome.

"I don't know which friend is it? My name is Jiang Ci, if your Excellency makes it easy for me, our Jiang family will naturally treat you with courtesy in the future."

Ye Xing laughed coldly, "There are plenty of people who have eyes for the Yin Dragon Inner Pill, don't think that by raising the Jiang family, we can make you."

Jiang Ci was the same old man who had been commanding, counting that he was also Jiang Qin's nephew, at this moment he drank, "I don't know if your Excellency has heard of Jiang Qin, the Tombkeeper, that is my clan uncle and the core bone of the Jiang family, this Yin Dragon Inner Pill is the one he needs, whoever dares to take it away is going to offend one of the Four Great Patriarchs."

Ye Xing walked out and with a wave of his hand, the first squad had surrounded all the remaining dozen people of the Jiang family.

These were all ancient martial artists, so if they really fought, they might not be able to win even though they had fire control ringing the side.

Jiang Ci swept a glance at the equipment of the Dragon Shield members and sneered, "I thought it was which way they were, but I didn't expect it to be the Dragon Shield that had only recently emerged... Don't you even ask around, who dares to take care of the Jiang family's affairs?"

"We naturally have to take care of the lawlessness."

Ye Xing pointed at the Yin Dragon in the distance and laughed, "That thing is considered a protected animal, you guys actually poached it privately, why don't you come with us?"

"Go away you granny." Jiang Ci roared in anger, his eyes gesturing.

The Jiang family disciples pounced towards the first squad around them, once the two sides exchanged blows, although the first squad was experienced in fighting, they were also extremely beaten by this group of ancient martial artists.

There were a few thumps and finally shots were fired, but these ancient martial artists were actually able to deftly dodge the sub-disciples' attacks and casually threw a stone, which was able to knock the members of the first squad to the ground.

This was the difference in strength, there was no use having more people and weapons, the other side were ancient martial artists, their reaction speed and fighting skills were all far superior to those of the first squad.

Ye Xing took one look at Du Jiuniang and said, "Go and help."

Du Jiuniang took out her flying dagger and quickly joined the fight.

Jiang Ci narrowed his eyes in surprise and said, "So it's the remnants of the Flying Daggers Sect, I thought they were much more capable."

"Humph, the Flying Daggers Sect is not something you can insult."

Qiao Baihe was furious and retorted.

Jiang Ci sneered in triumph, "To say you are the remnants of the Flying Daggers is an exaggeration, at most you are a bunch of stinkers, how dare you provoke our Jiang family, you are really tired of living."

Ye Xing laughed; "Why are you still polite to him when others are cursing you, kill this old thing."

Jiang Ci instantly blushed furiously, he was proud of his noble status, but he didn't expect the other party to open his mouth and ask for a beating or killing, it was really abominable.

Qiao Baihe got Ye Xing's order and flew out with a gloomy face.

Jiang Ci was a fifth-ranked clan master, and he was the highest commander in this operation, commanding twenty of the Jiang family's core disciples, and with half a year's planning, he was sure of taking down Yin Long, but he didn't expect to kill them halfway.

Jiang Ci squeezed his fists tightly, his internal energy bulging up, his clothes bulging up high.

He looked at Qiao Baihe, who was at most in her twenties, pretty and soft, but such a girl, even if she had been cultivating since birth within the Flying Daggers, had at most only stepped into the Zong Shi realm, and was far too inferior to him.

Jiang Ci had even thought of the image of sending Qiao Baihe flying and seriously injuring her in a moment.

But to his surprise, Qiao Baihe ran to a place less than five meters away from him and suddenly made a strange gesture with both hands, and then the surrounding area seemed to become cold.

“Not good, it’s demonic magic.”

Jiang Ci cackled in fear and was just about to bolt when suddenly an ice spear shot towards him from afar.

Jiang Ci struck forward with both hands, and although he shattered the ice spear, the piercing and strange cold still made him feel bad.

Unexpectedly, countless ice spikes suddenly appeared beneath his feet, frightening him and causing him to dodge, roaring, “Demoness, let’s see what else you have up your sleeve.”

Qiao Baihe missed with two moves and could only hit the snowstorm.

Jiang Ci was worthy of being an expert of the fifth grade of the clan, his internal energy was already very terrifying, and he had a high drum of internal energy, although the countless ice flakes pierced his clothes, they still failed to seriously injure him.

Ye Xing saw that it was no longer possible not to fight, so he had to deal with Jiang Ci first before he could clean up the other Jiang family members.

Ye Xing threw a flying knife and Jiang Ci was shocked.

He quickly dodged, but the flying daggers continued to stab at him, in a pattern, exactly as if a person was controlling them.

This was very different from the ice spells, the kind that had one offensive path, relying on speed to kill the enemy, hitting and succeeding, and not knowing the variation if they didn’t.

But Ye Xing’s flying daggers were completely manipulated by his spiritual power, and he was able to fight Jiang Ci across the air.

#### Chapter 423

The more Jiang Ci fought, the more frightened he became. When Ye Xing saw that it was about time, he quickly pounced on him, with a golden qi shield covering his body, while his body was also running the second layer of Tidal Wave Power.

When Jiang Ci saw him coming, his fists were filled with hatred, but unfortunately, as soon as he exchanged blows with Ye Xing, it was as if he was hitting a speeding train.

His opponent's immense power sent him flying and he fell heavily onto the muddy ground a few metres away.

Jiang Ci tried to get up, but a wave of blood rolled through his body and he finally spat out a mouthful of blood.

As Jiang Ci lost his strength, Ye Xing and Qiao Baihe joined the fight, and soon the dozen or so Jiang's children had no choice but to be captured.

After the exchange of blows on this side, the Yin Dragon Snake on the other side also finally died completely.

Ye Xing moved closer and found that a large white mist had appeared inside the Yin Dragon.

Ye Xing grabbed the chain on the ground and smashed it towards the corpse of the Yin Dragon, and soon a white mist emerged and swept around the corpse.

Only when the white mist dispersed did Ye Xing walk over to the dragon and control his flying knife, cut open the dragon's stomach and found the inner elixir, which was still glowing white.

The inner pellet was the size of an adult's fist, warm to the touch and still glowing with white light, extremely mysterious.

Ye Xing asked someone to bring the box and put the inner elixir inside, and then asked the Dragon Shield men to escort all the Jiang family members away.

Du Jiuniang panted and came to Ye Xing's side and asked, "Most of the places where this Yin Dragon is located have spirit medicine appearing, but there doesn't seem to be any medicinal herbs near this water pool."

Qiao Baihe frowned and answered, "Could it be below the water pool?"

Ye Xing laughed, "We'll find out if we go down and take a look."

The three of them changed into their diving suits and put on their diving devices, then jumped into the bottom of the water pool and searched.

There were hardly any big fish within the water pool, this Yin dragon had a huge appetite, and all the beasts in this area nearby had been eaten up by it.

Fortunately, this beast has the habit of hibernating, and once autumn sets in, it will sink to the bottom of the water and never surface again.

The water was deep and wide underneath. Ye Xing turned on the diving light above his head and soon the situation below the water pool came into view.

The three of them continued to sink under the water, but because of the previous underwater explosion, there were rocks towering everywhere below.

The three of them went around and around for 20 minutes but found nothing. Just as they were about to surface and leave, suddenly Qiao Lily pointed to the bottom of a pile of rocks.

Ye Xing swam over and quickly pushed away the hundred pounds of rocks, and soon found a skeleton underneath.

The clothes on the surface of the skeleton were torn and tattered, and it had been soaking in the water for so long that it had turned the same colour as the silt at the bottom.

Ye Xing put the skeleton into a bag and took it out of the lake, then the three of them swam to the shore.

The bag was opened and the skeleton appeared in the sky, but unexpectedly the skeleton quickly blackened and then spontaneously combusted.

This change stunned everyone, and Ye Xing hurried to put out the fire, but unfortunately, even if he covered it with mud, the skeleton still burned extremely fast, and eventually turned into white ash, which disappeared when the breeze blew.

Ye Xing was depressed, he had sunk into the puddle for half a day, but he had done it for nothing.

Du Jiuniang found something in the ashes and reached over to look for it, eventually taking out a crystal the size of a yellow bean.

“Is this some kind of gemstone?”

Du Jiuniang asked curiously as she cupped the crystal.

Ye Xing grabbed it and took a look, the soybean sized crystal actually contained a huge and incomparable Yuan Power within it.

This at least indicated that the owner of the skeleton was an immortal cultivator with a high level of cultivation, and this crystal was not known to be something.

Qiao Baihe spoke up, “I heard Shangguan Lan say within the Immortal Sect that there were people among immortal cultivators who could form Yuan Dan, possessing extremely surging Yuan Power that was terrifying.”

“Yuan Dan?”

Ye Xing thought about it this must be a Yuan Dan without a doubt, otherwise it was the size of a soybean and not a gemstone, why did it have such a terrifying Yuan Power inside?

Whatever it was, it must be something good anyway, so Ye Xing put it away and called everyone to leave the place.

The group returned to Guangnan Province immediately.

As soon as they arrived in the provincial city, a phone call from Beiye called, revealing that this time the Jiang family was furious and was bound to settle the score with Long Dun.

“It must be very frightening for a Ninth Grade Patriarch to take on Long Dong.”

Ye Xing deliberately showed weakness up.

“Kid, you are bold, don’t scream bitterness in front of me, the military soul side said that they will definitely give you full support, although Jiang Qin is very strong, the military soul is not a vegetarian either.”

Ye Xing smiled up, “It’s good to have a big brother to cover you.”

“What are you going to do with those people from Jiang’s family?”

“Illegal hunting, and suspected kidnapping, a felony.”

“You don’t really want to lock them all up, do you?”

“Of course not, we just have to get the momentum out, the angrier the Jiang family is, the more cards we have to negotiate terms.”

“Okay, you take care of yourself, although Jiang Qin is a Patriarch and won’t make a move against a junior like you, there’s no guarantee that he’ll be furious and come after you.”

Beino hung up the phone after admonishing.

Ye Xing was bragging when he said he wasn’t afraid, but there were three caves for a cunning rabbit, and he made every effort to hide his whereabouts, so Jiang Qin would have to struggle even if he

wanted to find him, and besides, with the presence of Dragon Shield, every move of Jiang's family had to be closely monitored.

All of Dragon Shield's technicians were on alert to guard the air, land and sea, and the entire city of Guangnan Province was set up like an iron barrel, impermeable to the elements.

On one side, all the Jiang family members were being held incommunicado, and it was too easy to list any charges against them.

Ye Xing knew that he would not be locked up for long, and that he would just take these people to negotiate with the Jiang family.

But as soon as he was done on one side, on the other, Su Furong was clamouring to leave.

Ye Xing had arranged for them to stay in a villa and immediately rushed over when he received a call from Qiao Baihe.

Su Furong and Guo Dongmei were both disciples of the Immortal Sect, so if they wanted to inquire about the Immortal Sect, they naturally had to look for them.

When Ye Xing arrived at the villa, he saw Du Jiuniang sitting on the lawn.

Speaking of the Immortal Sect, Du Jiuniang was the most angry, she got up and approached Ye Xing and muttered, "How are you going to blackmail the Immortal Sect after capturing the two fairies?"

"Blackmail the Immortal Sect?"

Ye Xing laughed lightly, "It's not like you don't know what kind of person Shangguan Lan is, cold and heartless, it doesn't matter who she sacrifices, are you too naive to think that two Immortal Sect disciples can blackmail her?"

"Then kill them and give me an outlet for my anger."

Du Jiuniang huffed with a face full of murderous anger.

Ye Xing frowned and advised, "You're killing so heavily all day long, no wonder you're getting old fast."

"Don't you think I'm old?"

"No, just feel more and more attractive, and these two can't be killed, it's more useful to keep them than to kill them."

"I think you're just lusting after them and want to take them too."

"Don't be ridiculous, I have the heart but not the strength, having you is enough."

Ye Xing laughed, and then went inside.

To deal with women, a few sweet words would do the trick, this would be the Du Jiu Niang who smiled and no longer had any desire to kill.

#### Chapter 424

Ye Xing entered the house and went upstairs, Qiao Baihe was guarding the stairway, when she saw it was him coming up she said, "Su Furong and Guo Dongmei can't be trusted casually, after all they were both raised by Shangguan Lan."

"Even the ones raised can betray, besides the Immortal Sect is heartless, the two of them came to the red and mundane world to dye a bit, they have long been unwilling to go back."

Ye Xing approached the room and pushed open the door to see that Su Furong on the bed was pale and still recuperating, Guo Dongmei looked much better and the two were in intense communication.

Qiao Baihe was reluctant to see the two of them, although they were both disciples under Shangguan Lan, in fact Qiao Baihe had always considered herself as the eldest sister and was so arrogant that she did not have any affection for the other four sisters.

Of course this was also because Qiao Baihe had always had a blood feud, and naturally she usually acted in front of Shangguan Lan, but did not see eye to eye with the other senior sisters.

The door to the room closed, and Ye Xing made himself comfortable and sat down towards the bed.

Su Furong blushed a little shyly and frowned in displeasure, "Who told you to sit?"

"Miss, this is my home, this bed is also mine, what's wrong with me sitting down?"

"Hmph, men and women are different don't you know?"

Su Furong actually said it deliberately for Guo Dongmei's ears.

"Men and women are different, that's finished, you've been touched by me, so are you planning to marry me?"

Ye Xing laughed and cheered up, pointing out the previous interaction between the two in one breath.

Guo Dongmei's eyes widened after hearing this, then she got up and laughed, "I knew you two were up to something, after Furong returned to the mountain, she didn't cultivate either, all she did was inquire about what was going on down the mountain all day long, before she even asked me to remind you so that you wouldn't go looking for trouble."

Su Furong's face turned red and she shyly denied it incomparably, "Senior sister, don't listen to his nonsense, this guy is just a lustful maniac who loves to tease little girls."

"Is that so? How do I see you both as a young couple, flirting."

Guo Dongmei covered her mouth and laughed.

Ye Xing twisted his head to look at her and smiled wickedly, "It seems like I've had skin-to-skin contact with you too, before you were poisoned, it was me who gave you the cure."

"What?"

Su Furong suddenly let out a question.

Guo Dongmei also blushed and explained shyly, "Are you going to die? You gave me the antidote to the poison, and there's no way we can have anything."

"You are unconscious, of course you don't know, in fact the antidote was fed to you mouth to mouth by me."

Ye Xing crossed his legs when he finished speaking.

Sure enough, Su Furong started to look at Guo Dongmei and the two good sisters who had nothing to say to each other started to explain shyly.

Ye Xing was happy, how big a deal, really not the little fairy under the mountain, do not know how open society is nowadays, not to mention kissing down the mouth, is really to go to a room, seems to be nothing.

Finally, the two people stopped talking about this matter, Su Furong looked at Ye Xing and said in a huff: "I want to go, you plan to leave me behind?"

“Of course I have to leave you behind, you two can stay and be my thugs, little brothers and little wives.”

“Go to hell, don’t you go too far, big deal, we’ll die in front of you.”

Ye Xing got up and laughed, “Don’t be so rigid, this is not the first time we are dealing with each other, there is no need to make it seem like you are father killers, both of you have been saved by me and helped me, we are friends, very good and good friends, this time you were almost bitten to death by the Yin Dragon, I was also the first one to rush out to save you.”

Su Furong’s face was torn, she really didn’t know what to say.

Guo Dongmei frowned and asked, “So did you want to deal with the Immortal Sect by leaving us behind?”

“Sort of, to get some information from you guys, after all, that old woman, that old rotten bastard of the Immortal Sect, Shangguan Lan and I hate each other a lot, either she dies or I die!”

Ye Xing cursed in a murderous manner.

Su Furong was amused, although Shangguan Lan was her master, she was in fact a strict disciplinarian, and to her there was absolutely no half-heartedness between master and disciple, at most she was just a pawn in her master’s hand.

Guo Dongmei frowned and continued, “We are disciples of the Immortal Sect, if we reveal information about the Immortal Sect, it is the same as committing a sect rule, so we cannot say a word to you.”

“We’ve been talking for half a day, it seems like more than one word, besides you two came to this flowery world, are you indifferent?”

“We were ordered to come out, we didn’t come to enjoy these material things.”

Ye Xing shook his head and said, “No matter what you say, you both are now my captives, there is no need to weasel out of this, is there?”

Guo Dongmei drank, “We can kill ourselves.”

“Fine, go ahead and kill yourselves, but let’s be clear, the Dragon Shield has its own set of rules, after you die, your bodies are not disposed of hastily, someone has to examine your bodies, and then there will be an autopsy or something .....

“What? And we have to take off our clothes?”

“Yes, naked and photographed, plus your organs will be taken.”

“It doesn’t matter, we’re all dead, just a pair of skins.” Guo Dongmei said stiffly.

Ye Xing laughed badly, “Because you are fairies of the Immortal Sect, your status is not ordinary, your corpses will definitely have to be made into specimens and sent to the major medical schools for the students to see when the time comes, you have to make such a contribution even after you die, enough to give you an award.”

“Don’t be so shameless!”

“It can’t be helped, how famous and rare is the Fairy of the Immortal Gate, I can’t even keep you guys if I want to.”

Ye Xing happily walked out of the room, the two girls wanted to fight with themselves, they were still a bit young.

Qiao Lily came closer and asked, “Master, are they willing to talk now?”

“More than willing to talk, they have to do whatever they are told to do.”

Ye Xing turned his head and left with a smile, Qiao Lily smiled, no one could resist Ye Xing’s methods, neither could these two senior sisters.

In the evening, Ye Xing took Su Furong and Guo Dongmei with him and went out.

First, they went to hit the most famous netflix street in the provincial city. Although the two of them were usually cold and had a dignified status, they completely abandoned their status at this moment and turned into girls watching the fun.

Along the way, Ye Xing bought this and that, making the two Xianmen women fall deep into material enjoyment and unable to extricate themselves.

The three of them sat inside a luxuriously decorated milk tea shop and drank something.

“This is Yang Zhi Gan Lu, it tastes good, right? Many beautiful women love this stuff, sour and sweet, pure natural juice.”

Ye Xing smiled as he introduced it.

Su Furong did find the juice tasty, frowned and said, “Don’t you try to buy us off with this, we won’t say anything.”

“Shit, you are too underestimating me, if I want to make you guys talk, it is something that can be done in a minute.”

Ye Xing laughed confidently.

Su Furong sneered, “Thinking pretty well.”

“Try it if you don’t believe me.”

Ye Xing called the two of them to go to a nearby hotel, and specifically picked the intensely affectionate hotel with hints.

This kind of place was for couples to come and pursue excitement, and Ye Xing took the two of them inside in a big way.

When they came inside the room, it was actually two rooms of two sizes divided in two, but because the sound insulation was so poor, they could almost hear the movement in the room next to them, and they could even open the curtains and see all the movement in the bed opposite.

Ye Xing let Guo Dongmei follow him into one of the rooms and said with a low laugh, "Actually, Furong told me everything, but it was because of your face, so I didn't have the heart to say anything."

Chapter 425

"No way, Furong couldn't have done that." Guo Dongmei looked unconvinced.

Ye Xing smiled then said, "Why is it impossible, a woman who is madly in love with a man, what is there that she cannot do, she has given herself to that man, let her die even."

"You don't want to deceive me."

Guo Dongmei sat on the edge of the bed, not even bothering to listen.

"Then let's make a bet, if she does follow me, will she let you say whatever you want?"

"Hmph, Furong is not as light as you think."

"How about you just bet or not?"

"Fine, I trust her character, I'll bet with you, after I lose, I can answer anything you ask, anyway, if Furong really follows you, everything can't be hidden."

"That's what you said, listen up."

Ye Xing smilingly walked to the opposite room.

Su Furong looked at him and asked, "Are you thinking of something bad again, don't provoke the feelings between me and my sister, you can't fool her, nor can you fool me."

"That's not always the case, sometimes what you hear with your own ears isn't always true."

Ye Xing laughed and suddenly struck out, strangling Su Furong as soon as he took out the anesthetic towel and then knocked her out.

Although immortal cultivators possessed extremely strong spells, they were no longer a match for ancient martial artists in close combat.

After Su Furong fainted, Ye Xing took out his mobile phone and directly turned up the volume, broadcasting an amorous conversation accompanied by the playful laughter of a man and a woman.

"Darling, I've told you everything, you mustn't make things difficult for me and my senior sister in the future."

"Don't worry, you're my baby, I'll treat you well for the rest of your life."

"....."

A series of love words were spoken, and Guo Dongmei, who had her ears pricked up and eavesdropping from across the room, was dumbfounded.

This was indeed Su Furong's voice, she was too familiar with it to be fake, instantly her expression was surprised and her mouth opened wide, she didn't expect that her fifth senior sister actually really betrayed the Immortal Sect and threw herself into Ye Xing's arms.

If it was said that Ye Xing and Su Furong had just met, Guo Dongmei might have had a little doubt, but they had clearly met a long time ago, and Su Furong often talked about Ye Xing, and had even advised him not to go to his death on the snowy mountain before, all signs indicated that the two were really hooked up.

“I’m really stupid too, Furong’s face was full of joy when she talked about Ye Xing, I actually believed that she wouldn’t betray the Immortal Sect, it’s ridiculous.”

Ye Xing waited for a while and came to Guo Dongmei’s room and sneered, “Do you want me to call Furong to confront you?”

“Hmph, you call it.”

“She is thin-skinned and is afraid that you will be in a difficult situation left and right, in fact, she is also trying to take care of you, afraid that I will get angry and kill you.”

Ye Xing sat on the edge of the bed and spoke up.

He said, “Jiang Qin is looking for trouble with the Immortal Sect, does Shangguan Lan have any new countermeasures, don’t get me wrong, it’s best if she dies, I am worried that Furong will encounter other dangers after she goes back with you, after all, your Immortal Sect and Jiang Qin are in such a mess, and he is a Four Great Masters, it’s really quite dangerous to encounter.”

The seemingly caring words were in fact a trap at every turn, a rather deep trap.

Although Guo Dongmei had a good talent for immortal cultivation, she had not learned the dangers of the human heart, and was quickly taken in by Ye Xing’s design using conversation techniques.

“Of course I will take precautions, it’s not like the Immortal Sect is a soft persimmon that can be taken by Jiang Qin.”

“That’s not right, earlier within the Ancient Formation Cave, Jiang Qin had made your Immortal Sect’s Pig Easy Fairy suffer a big loss and even drove her away, your Immortal Sect’s boss couldn’t even beat the other side, what else could he do?”

Guo Dongmei rolled her eyes, such insulting words like the Immortal Sect’s Pig could be uttered, if the people of the Immortal Sect really heard it, they would have to cut off the speaker’s tongue.

“Don’t worry, the Sect Master was careless and gullible before, after invoking the magic weapon, whatever Tomb Guardian Jiang Qin is, he is beyond a blow.”

“A magic weapon?”

Ye Xing smiled, “Is there really such a magical thing?”

“Of course there are, there are not only magic weapons within the Immortal Sect, there are all immortal weapons, forget it, you don’t know even if I tell you.”

Ye Xing continued to set up the conversation, and after a full hour, what should be asked was almost done.

At that moment, suddenly Su Furong across the room pushed open the door, rubbed her head, pointed at Ye Xing and yelled: "You bastard, you actually dazed me."

Guo Dongmei got up and asked, "Furong, didn't you go with him?"

"What with him, you were cheated by this bastard."

Ye Xing smiled, "That's right, I did it, drugged and stunned, and you became mine, although I'm a bit despicable, I'm willing to do whatever it takes to get you."

"Bastard, I'll fight with you."

Su Furong cried out in anger and shot out her hand to deal with Ye Xing.

Guo Dongmei held her down and advised, "Furong, don't get excited, you haven't recovered from your injuries, if you get angry now, it will only aggravate your injuries."

"Sister, this rascal has ruined me, I don't want to live anymore."

Guo Dongmei looked at Ye Xing and saw him smiling, instantly relieved, "Don't worry, he didn't touch you."

"Senior sister, he's got me dazed, who knows if he's bullied me?"

"Senior sister, don't worry about it, I was listening outside just now, he couldn't have bullied you that quickly."

"Are you sure?"

Guo Dongmei moved to Su Furong's ear and muttered a few words in a whisper, both of them blushed.

Ye Xing got the news, called up the two and went out.

When they arrived downstairs, a fat man saw Su Furong and Guo Dongmei and was instantly amazed. He came closer to look at them and smiled: "Brother, you are great, you actually found two such beautiful girls at once."

Ye Xing's eyes widened after hearing this, "Fat brother, I'm afraid you'll have to gain a few pounds in a while."

"What do you mean?" Fatty was stunned.

Su Furong had been knocked unconscious by Ye Xing, and then she had been cheated, so she had a lot of anger in her stomach.

Ye Xing took the two men with him and ran away, or else the other side would have called the police and it would have been a big shame.

When they returned to the Dragon Shield stronghold in Guangnan Province, Ye Xing looked at the two women and smiled, "I'll let you stay for a few more days."

"You've asked everything you need to ask, why don't you let us go?"

"If we let you go now, you will die the quickest. Do you know that Jiang Qin has already brought people to Guangnan Provincial City and is planning to find trouble with Dragon Shield."

"If we go quietly, no one will find out."

"If they find out, you will all be dead, this is all willing to bet, I am afraid that you really don't have a life to go back to the Overseas Immortal Island."

Su Furong was shocked and turned her head to look at Guo Dongmei and yelled, "Sister, did you even tell him about this?"

Guo Dongmei looked embarrassed, "He's a monkey spirit, I have to be wary of talking to him."

"Didn't Master say so? A man's mouth, a deceitful ghost, you're just too stupid."

"Speaking as if you're quite smart, you don't even know if you've been bullied, I doubt if you're a woman or not."

## Chapter 426

"Damn it, it's not you, the rascal who cheats."

Ye Xing laughed happily after hearing this, Guo Dongmei knew that fighting, Su Furong was no match for Ye Xing, and advised her to stop arguing, then the two of them went to the room inside the stronghold to recuperate from their injuries and rest.

Lin Wei approached Ye Xing and said with dissatisfaction, "Everyone is busy guarding against the Jiang Family and the Immortal Sect's retaliation, and you still have the leisure to go out to pick up girls."

"You're not right, I used my own flesh to seduce before I got these two Immortal Sect little beauties to spill some things, I made a big sacrifice."

"Yes, you should be given a martyr's commendation."

"Holy shit, your whole family are martyrs."

Lin Wei rolled her eyes, then said, "The Jiang family is pouring out this time, and the Immortal Sect is also stupid, how exactly do we deal with this, do we let the military spirits sort it out?"

"If we were to send out military spirits for this matter, there would be no need for Dragon Shield to exist."

Ye Xing said in one word.

Lin Wei frowned, "But if the Military Soul doesn't make a move, we won't be able to get a head start on either side, Jiang Qin is a ninth-ranked sect master, and the Immortal Sect's Free Fairy is also skilled in magic, without someone who can suppress them, I'm afraid the city of Guangnan Province would have to be razed to the ground."

"Don't worry, they dare to mess around, we are not vegetarians either."

.....

The Lingnan Hall in Guangnan Provincial City, which is a gathering place for people from Lingnan, usually deals with business gatherings, friends' banquets, and the presence of gourmets.

But today, a private room here was turned into a secret meeting.

Jiang Qin sat in his chair, with all those around him standing, none of them daring to speak up.

There were quite a few Jiang family members who had come to the city of Guangnan Province, but the Dragon Shield had laid all kinds of surveillance and had also mastered the Skynet system, so it was difficult for the Jiang family members to gather, and in the end, only these fifty or so people participated in the gathering.

Jiang Qin drank in dissatisfaction, "All of them are trash, the Yin Dragon's inner elixir was not obtained for me, but actually the other party even ended up in one pot, what a disgrace to our Jiang family."

"Family head, this time the third master was captured, we still have to hurry up and get the people out first, I heard that it seems that they will be given a sentence."

There stood a tall man with a thick black beard, looking in his early forties, his face red and glowing, looking as if he was drunk.

"Sixth Uncle, the Third Master was captured by Dragon Shield, since we have scouted out the other party's location, why don't we just move in tonight, kill and rescue the Third Master, and casually teach Dragon Shield a little lesson."

A young man, with a grim face and an inch of hair, roared up in murderous rage.

Everyone else agreed with this, after all, the Jiang family was not to be offended, and anyone who did was looking for death.

Jiang Qin sneered as he sipped his tea, "If you are so powerful, then go and try, remember, if you really disgrace yourselves, you will have to be punished by the family law then."

"Family master don't worry, we are sure that the third master will be rescued."

The young man said with a confident fist.

Soon the house was clean and the tall man frowned and advised, "House Master, if we let Jiang Yong go haphazardly like this, we might get caught in a trap."

"In front of absolute strength, all calculations are futile, how much strength the Dragon Shield has must be found out, it is good for this point of people to go and take a look, but you take a few people to meet them on the side, remember to let the people of the Dragon Shield know that offending our Jiang family, even the face of the Chinese Army Soul will not be given."

Jiang Qin issued a cold to the bone order.

The tall man nodded down and led the others to leave as well.

At three in the morning, near the Dragon Shield stronghold in Guangnan Province, several black SUVs drove up to the roadside parking space.

The doors pulled open and a group of Jiang Family's ancient martial disciples got out of the cars, each of them with weapons in their hands.

However, they were all mainly cold weapons, and there were no guns or other murderous weapons.

With any kind of weapon, it all depends on who is using it. If a child uses a cannon, the weapon is powerful, and it is useless if the person cannot.

But if it was a butcher using a big knife, it would be impossible for a dozen people to stop it.

Jiang Yong led the way with a cigarette in his mouth and a fierce, bandit look on his face as he proudly bellowed, "Block the front and back doors, don't let a single person escape."

"Brother Yong, the other side has guns and a lot of heavy weapons."

A disciple next to him frowned and worried.

Jiang Yong cursed, "Damn, you have such little guts? We are from the Jiang family, the family head is one of the four great masters, who dares to really touch us, that is looking for death, later on all of you get me towards death, these rubbish, what bullshit dragon shield, fuck one of them."

The other Jiang family disciples were all infected and each one showed a fierce expression.

Soon all of them pounced over the fence into the compound, and all of a sudden the blinding lights lit up around them.

It was as if these dozens of people were surrounded, and they were all covered by the blinding lights.

"Staying awake in the middle of the night and going over the wall into the compound with a murder weapon, what do you want?"

Suddenly, an angry roar came out.

Jiang Yong cursed angrily, "Fuck your whole family."

As soon as the words were finished, the axe in Jiang Yong's hand was already thrown out.

The person who shouted was a member of the Dragon Shield First Squad, and originally wanted to subdue the other party, but unfortunately he did not expect Jiang Yong to be so fierce at all.

With the full force of the blow, the axe shot out and struck the squad member in the chest.

The shouting man fell to the ground, dead and lifeless.

The others were dumbfounded at the sight and raised their guns to aim, but Jiang Yong had already gone mad with killing and, sensing that his opponent was unable to deal a single blow, roared, "Kill all these Dragon Shield scum for me."

The Jiang family men flew out and the first squad quickly pulled the trigger, but unfortunately the group were the best of Jiang's disciples, each one a master of ancient martial arts, quickly dodging the bullet attacks and then approaching the Dragon Shield squad and starting to fight in close combat.

The Dragon Shield members fell to the ground one after another, hardly leaving a single survivor.

This scene was transmitted into the video and directly made Ye Xing vomit blood in anger, the lives of a dozen Dragon Shield squad members were lost like this, these Jiang Family's ancient martial artists were really bloodthirsty enough.

"Counterattack, give me all your strength to counterattack."

Ye Xing roared up at Lin Wei.

Lin Wei's eyes were also red with anger and she immediately commanded all the men to counter-attack, and in a moment, within the compound, gunshots rang out continuously, accompanied by the sound of explosions.

In the end, Dragon Shield relied on a tight set-up to subdue Jiang Yong and the others in one fell swoop.

Ye Xing looked at the twenty or so dead members of the team and felt unbearable pain in his heart.

These were all fresh lives, but paid the price of their lives for the safety and security of China.

Three of Jiang's family died and a dozen were seriously injured, led by Jiang Yong and five others who were only lightly injured.

After they were surrounded by the Dragon Shield weapons, they knew that they could not escape and simply surrendered their weapons.

Ye Xing swept a glance at Jiang Yong and the others and roared, "Kneel down all of you, kneel down to my dead team members."

Jiang Yong smiled, "You're not mistaken, are you? These dead dogs can still make us kneel down, our surname is Jiang!"

"I don't care what your surname is, kill to pay for your life!"

"Hey, what a big mouth, you try to touch me? Just you rubbish, you have to kowtow and admit your mistakes when you see our family head, the family of the Four Great Grandmasters Jiang Qin, is it something you can just offend?"

Chapter 427

Ye Xing's teeth itched with hatred, and the group of Dragon Shield members next to him were also filled with righteous indignation, eager to clean up all these arrogant Jiang's children.

Suddenly, there was a commotion from outside and Lin Wei hurriedly asked with her walkie-talkie.

"A few more people from the Jiang family are coming outside."

Lin Wei looked at Ye Xing and said.

Ye Xing drank: "Tie them all up, handcuffs and shackles plus electric vests, anyone who dares to move, give me hard electricity."

"You guys are fucking crazy, we are Jiang's family, if you dare to deal with us like this, just wait and regret."

Jiang Yong roared in discontent.

The Dragon Shield members swarmed up and directly put all kinds of handcuffs and shackles on the group of Jiang family disciples, especially the kind of electric vests, once they were put on, they were subjected to the high-voltage electric current stimulating the whole body, which could instantly torture the ancient martial artists to death and even electrocute them to fainting.

The physical quality of ancient martial artists was different from normal people, but they still could not withstand under the attack of high-voltage current.

Ye Xing walked out and at the entrance of the courtyard, the tall man was standing there with three people.

"Are you also from the Jiang family?"

Ye Xing inquired coldly.

The tall man sneered, "That's right, quickly let Jiang Yong and the others go."

"What a big mouth, they went over the fence to kill and set fire, committing a capital crime, and you say let them go?"

Ye Xing's eyes were sharp and he confronted the other party.

The tall man sneered, "So what if they killed and set fire, they are from the Jiang family, even if they did something big, it's not something you can control."

"It's sad that there are people like you in the ancient martial world."

"What are you talking about? What are you that you dare to be so rude to me?"

The tall man's eyes were wide and he wanted to kill Ye Xing.

Ye Xing walked over and sneered, "A bunch of beasts worse than dogs and pigs dare to send me to your door, so naturally I am not polite to you."

"You seek death."

The tall man couldn't help himself and quickly struck out, slashing at Ye Xing's head with his palm.

This guy's palm was dark, and he had practiced palm techniques for a long time, and was already on the verge of breaking a hundred catties of stubborn stone with one palm.

To slash at a person's head, this was a clear attempt to kill Ye Xing.

Unfortunately, when his palm came down, Ye Xing had already quickly dodged away.

The tall man froze and narrowed his eyes, "So you are also an ancient martial artist, no wonder you speak with such a big mouth."

"Blatantly attacking me, you won't be able to leave."

Ye Xing struck out, his tidal wave fist rushing forward, simple and straightforward.

The tall man was just about to dodge when he found a huge pain in his abdomen, having been struck by his opponent's punch, followed by his entire body flying up and falling heavily onto the concrete five or six metres away.

The tall man felt a huge pain in his abdomen and his internal organs seemed to be chewed up, trying to open his mouth to say something when his throat became sweet and he died a horrible death on the spot.

"Uncle Kun."

The other three were dumbfounded and shouted out.

With a wave of Ye Xing's hand, the Dragon Shield members swarmed up and directly took these three down as well.

Inside the courtyard late at night, the corpses of the Dragon Shield members were covered with white cloths, each of them was a man in his late twenties and early thirties, some were married and had children, some had just gotten engaged, others had parents and brothers although they did not have girlfriends, but at this moment none of them could wake up and be a good husband as a son and a father.

Ye Xing was sad, although it was said that the battlefield killed and the horses were wrapped in leather, but after all, each one was a living human being.

"This revenge must be avenged!"

"How to revenge?"

"Hold a trial assembly, I want these people to pay the price."

"A trial assembly?"

Lin Wei was all dumbfounded, but soon Ye Xing kicked into action.

The matter of the trial assembly instantly spread throughout the ancient martial world, including the Hidden Sect, the Hong Sect, the Buddhist Sect and other great ancient martial sects all received the news.

As soon as they heard that they were going to judge the Jiang family, all the major sects thought that Ye Xing was crazy, this was a blatant provocation to Jiang Qin ah.

Inside a cave on the Kunlun Mountain, Deer Yiming, the head of the Hidden Sect, was preoccupied.

All the elders of the Hidden Sect around him, including a few highly respected supreme elders, were all pale with embarrassment.

The two supreme elders had the formidable strength of an eighth-grade sect master, but compared to Jiang Qin, one of the four great sect masters, the difference was not a star and a half.

“This kid Ye Xing is crazy, he actually wants to judge those people from the Jiang family, isn’t this a clear attempt to go against Jiang Qin?”

“He’s just relying on the backing of the Chinese Army Spirit behind him, otherwise how would he dare to act so recklessly?”

“But he’s already sent a letter, are we going or not?”

“If we go, we’ll be backing him up and openly facing Jiang Qin, but if we don’t, we’ve only just entered the world and we’re making good progress on all fronts, so if we anger him, the boy will flip out at any time.”

“Flip-flop, just flip-flop, if we really offend Jiang Qin, we won’t have a good time either.”

The elders bickered and split into two factions.

Lu Yiming drank impatiently, “All right, you guys can’t get any results from arguing, for now, helping this kid is our only way out.”

“Patriarch, you have to think carefully, offending Jiang Qin is no joke?”

A slightly chubby elder in a linen tunic stepped out and drank.

Lu Yiming laughed, “Elder Qi, you were told to go down before, but you didn’t, you had to stay in Kunlun to cultivate, but all the disciples of our Hidden Sect, except for a few of you, including the two supreme elders, have already gone down into the world, it is impossible for everyone to return to the mountains to cultivate hard, the power held by Long Dun is just too great, if we don’t help Ye Xing, that kid will definitely drive us back to Kunlun, and then we Hidden Sect disciples won’t even need Jiang Qin to retaliate, they themselves will be scattered first.”

“What? I didn’t expect it to turn out this way.” Elder Qi’s heart ached.

“Alright, all of you go down the mountain, we can only help that kid tough it out this time.” Deer Yiming could only be helplessly ridiculous after thinking thoroughly.

At the same time, the headquarters of the Hong Clan overseas was the same, a large number of elders converged, including several of the supreme elders, but they also had to come, after all, Ye Xing’s methods, they had experienced, it was not impossible to really drive the Hong Clan away, without such a large chain of interests, the Hong Clan would no longer have the influence it had before.

Inside the Buddhist temple on Tianxing Mountain, Master Wudao really did not expect Ye Xing to dare to do this, provoking Jiang Qin, one of the Four Great Patriarchs, which was no joke.

In the city of Guangnan Province, the wind was rising, on the top floor of the Kai Yue Hotel, Ye Xing looked down on the countless buildings below, instantly inwardly enthused.

Dozens of people from the Dragon Shield stood behind him and all felt the domineering aura.

Dragon’s Shield, what is there to fear?

After a long silence, Ye Xing opened his mouth and bellowed, “Three days after the Judgement Assembly, I will seal the city!”

Dozens of people did not look a bit different, Ye Xing’s Dragon Shield chief, every word was an order and they all had to obey, soon an order was issued and the Dragon Shield coordinated all the departments to make the decision to seal the city for the trial.

This was also the best way to give an account for those dead teammates of Dragon Shield!

## Chapter 428

Three days later, the authorities of the provincial city of Guangnan announced a one-day closure of the city, all traffic was stopped, air, land and sea were banned from passing through, countless teams maintained order in the streets, and everyone was allowed to stay at home or go to the Civic Square to watch a trial meeting.

The Civic Square was surrounded by crowds, hundreds of thousands of people gathered, and countless processions maintained order so that no accidents were allowed to occur.

The nearby buildings and parks were packed with people, hundreds of cameras were placed in the middle of the square, and everywhere nearby were huge display screens, constantly broadcasting in real time the trial assembly that was to take place.

Ye Xing did not mess around, giving the Jiang family their due according to the Chinese system.

Lawyers and the chief prosecutor, plus the famous judges of the provincial city of Guangnan.

The scene was solemn, but to Jiang Yong and the others, it was an insult. Every member of Jiang’s family had an angry expression on their faces, and some of them kept swearing, but they were all gagged.

If anyone acted too aggressively, the Dragon Shield team members wouldn’t mind giving them a high-voltage electric package.

The trial meeting began promptly at 10am, and as the chief prosecutor read out the charges, the people of the provincial capital realised what a big mistake this group of Jiang’s people had made, actually causing dozens of casualties in one night, which was simply an unforgivable crime.

A picture of the corpses was shown, and the people realised how vicious these people were.

At this point, hundreds of thousands of people were chanting for the murderers to pay for their lives. The huge wave of voices, the people’s anger, had made this group of Jiang’s people like rats in the street.

Each of them was a high and mighty ancient martial artist, a member of Jiang Qin’s family, with a distinguished status and huge backing, but under the roar of hundreds of thousands of people, they became trembling.

At the moment they were all afraid inside, the people would not be deterred by them, ancient martial artists who were beyond the ordinary.

Justice would come at last!

After more than an hour, the accusations about the group finally came to an end, so to speak, allowing everyone to see the faces of the Jiang family.

The chief prosecutor had a valid point to make, and many people's blood boiled as he spoke.

At the same time, the people involved in the ancient martial arts community around the square were one by one infected, and they understood very well that they were afraid that they would have to fight directly with the Jiang family today.

The Dragon Shield members under Ye Xing kept staring at the crowd of onlookers, as there would definitely be people from the Jiang family among these people.

Sure enough, as the judge pronounced the verdict and dropped the hammer, the crowd cheered.

"Jiang Yong and the others have acted in a lawless manner and have killed so many people that there is no record of them.

After Jiang Yong and the others heard the sentence, they all instantly went limp, under the cheers of hundreds of thousands of people, they regretted all to no avail, the most crucial thing was that they were all as limp as mud.

"Haha ....."

Suddenly, a high laughter came, followed by only seeing a group of people coming out of the crowd, led by none other than Jiang Qin, the tomb guardian.

When Jiang's family appeared, all the team members who went up to block them were knocked to the ground.

Fortunately, the Dragon Shield members had been prepared for this and the team with loaded guns swarmed around them, surrounding them all.

Jiang Qin swept up and sneered, "Does Dragon Shield want to add more lives to the list?"

Ye Xing led the way and the two sides faced each other head on, obviously Jiang Qin brought more pressure.

But Ye Xing had the support of so many people, and was not afraid of the other side's provocation.

"Let the people go, and we will leave, and the matter will be settled!"

Jiang Qin gave Ye Xing a cold look and stated his conditions.

"I promise, and neither can the hundreds of thousands of people present!"

Ye Xing roared up in categorical fury.

Jiang Qin sneered, "I should have killed you when I was on the mountain."

"You can kill whoever you want, but this is China, not a slaughterhouse where you can do whatever you want."

“Is that so?” Jiang Qin said in a low voice, “Do you believe I can take your life right away?”

“Killing me is fine, but hundreds of thousands of people will not spare you.”

The reason why Ye Xing made such a big commotion was to make Jiang Qin a target, killing someone in front of so many people was an atrocity and would commit public anger.

Jiang Qin also understood this and whispered viciously, “Call out Hua Junsheng, you are not qualified to talk to me.”

“I am the Dragon Shield Chief, I am definitely qualified to talk to you.”

Ye Xing waved his hand and Lin Wei’s side immediately called for preparations, Jiang Yong and the others were put into black hoods and one by one they were secured to the execution chair.

Seeing this scene, Jiang Qin roared, “Don’t give shame, even if I let you off today, I won’t let you have a good time next.”

“Don’t scare me, I’m too timid to take it.”

Ye Xing bristled and laughed.

Jiang Qin was furious, and the Jiang family disciples poured up, numbering over a hundred, more than a hundred people.

“Don’t look at the number of you, one of these disciples of our Jiang Clan is worth a dozen of you.”

Jiang Qin smiled proudly.

Ye Xing swept a glance and then sneered, “Isn’t it just a group of Ancient Martial Disciples? It just so happens that I know all the major sects in the Ancient Martial World, so let’s call some friends to get to know you.”

Those in charge of the major sects around them saw that they couldn’t hide anymore, and each of them cursed in their hearts, but considering the seriousness of the matter, they still got up and stood out one by one.

“The Hidden Sect?”

“The Hong Clan?”

“And a bunch of monks!”

The disciples of the Jiang Clan all surveyed the major clans of the ancient martial world that had come around.

Master Wudao came to the front and smiled, “Patriarch Jiang, after parting a decade ago, you are still in your prime.”

Jiang Qin recognised Wudao at a glance and instantly curbed his contempt, “I didn’t expect the Buddhist Sect to get involved with the Dragon Shield as well.”

“Sovereign Jiang, it’s better to settle grievances than to make knots, it’s better not to continue with this matter.”

“If he lets people go, we will naturally write it off.”

“Let people go?” Ye Xing sneered, “The judge has just pronounced the sentence, all of them are dead, we can’t let one go.”

“How dare you!”

Jiang Qin was furious, and instantly an invisible air pressure swept around him.

Ye Xing ran the hardening technique before he could stabilise his body, the others around him could not stand up to it.

“Everyone give us a hand, it’s been very windy lately.”

Ye Xing said to help Master Wudao who was beside him, and in a moment the others followed suit, one by one, they all helped each other up, sort of blocking Jiang Qin’s killing aura.

Jiang Qin clenched his fist, very much wanting to make a move immediately, but if he really made a move in public, I’m afraid he didn’t know how many Jiang’s disciples would have to lose.

“Good, this feud is settled today, from now on, we will not stop until we die.”

Jiang Qin hesitated for a moment, led his men and turned his head to leave.

Ye Xing was relieved, and Master Wudao and the others knew that from now on Jiang Qin was afraid that he would be watching Ye Xing to death.

This kid’s good days were over!

Ye Xing turned back and shouted, “Execute!”

“Family Master, save us!”

“I don’t want to die, I was wrong, I’m willing to sit in jail for the rest of my life.”

“It’s all because Jiang Yong instructed us to do it, we don’t deserve to die!”

Inside the square, the guys from the Jiang family sentenced to death cried out in pain, but no one could save them, the venom was injected into their bodies and soon these guys got the punishment they deserved!

## Chapter 429

The Jiang family disciples wearing black hoods lost their breath one after another and their bodies were pulled away, a scene that sent a chill through the hearts of all the disciples of the ancient martial arts world’s clans.

There was a time when ancient martial artists were an existence beyond ordinary people, doing things in a dashing and casual manner, and could ignore the laws of the earth, but the previous impunity had all passed, and the next step was to become law-abiding.

Ye Xing looked around at all the ancient martial artists present and asked with a smile, "All of you are part of the ancient martial world, these people from Jiang's family have killed people and sentenced them to death, do you think it is heavy or light?"

This was even more like a knock, the Hong Clan was the most outspoken, an elder in fancy clothes smiled and balked, "Chief Ye is right to punish, although they are ancient martial artists, but they can't take human lives, killing people to pay for their lives, a rule that has been in place since ancient times, sentencing them to death deserves it."

"Yes, the Hidden Sect also does things absolutely in accordance with the law, and definitely does not cause trouble to the Dragon Shield and the people."

Lu Yiming gave a bitter smile and could only follow suit with a bashful remark.

Master Wudao, as a monk, was still unable to let go of the killing and shook his head gently, not saying that he was doing the right thing or the wrong thing, staying out of it anyway.

Ye Xing put his hands behind his back and drank: "After you all go back, control the disciples of the sect, do business and make money, what is wrong with enjoying this world of flowers, you have to seek your own death, that is to make an enemy of the entire Chinese people, today you have seen, hundreds of thousands of people together with ambition, is not a small group of Jiang family disciples can resist."

Lu Yiming nodded his head, after all, the trial in the square earlier was too shocking.

Even Jiang Qin, one of the Four Great Patriarchs, had no effect at all amidst the shouts of hundreds of thousands of people.

No matter what Patriarch Immortal Sect you were, it was really unbearable in front of so many people.

"This kid Ye Xing is taking advantage of the great righteousness, really no one can do anything to him, this is perhaps justice in the world!"

Lu Yi Ming sighed in his heart.

Soon everyone withdrew, the ancient martial sects left in droves, one by one the first thing they did when they returned was naturally to set the rules, they could no longer let their disciples act recklessly, if they really caused a big mess, when the time came, Dragon Shield was not a vegetarian.

Although Ye Xing had laid out in advance and put Jiang Qin in his place, the other party was a sect master, so naturally he would not give up in peace.

Retaliation, backstabbing, should all be on the other side's agenda of plans.

Before, Ye Xing was still a bit afraid when he was on his own, but now that he had set up Dragon Shield and had enough information, he naturally had a way to circumvent it.

Ye Xing told the technical staff of Dragon Shield to be on their toes and beware of Jiang's people messing up.

As a result, unexpectedly, a Dragon Shield team member came to report that Guo Dongmei and Su Furong were missing.

Ye Xing considered for a moment and said, "No need to check, just go away, it's useless to continue staying anyway."

Guo Dongmei and Su Furong were dressed up as fashionable women, sitting in their car seats and looking around warily.

Su Furong said as soon as she sat down, "OK, no one is checking, it looks like that guy is desperate for us to leave."

"Aren't you a bit disappointed?"

Guo Dongmei joked and laughed.

Su Furong blushed and said, "I'm not disappointed at all, next time I meet him, I'll have to kill him."

"So much anger, can you spare it?"

"Don't mention it, it makes me angry just thinking about it. I'm afraid I'll have to be taught a lesson by Master when I get back."

"I'm afraid I'll have to be lectured by my master when I get back." "I don't care if I'm lectured, we almost died, what do we care about being punished?"

The two of them didn't get too far in the car before they got off at another big city in Guangnan Province.

Pearl River is an economic development zone and one of the top three large cities in Guangnan Province.

The two got off the bus and went into the bathroom, quickly changing into their university student outfits and leaving the high speed train station.

Not long after they stepped out of the high-speed railway station, they received a message from the Immortal Gate and rushed to a certain old street in Zhuhe.

The two entered a Chinese medicine shop and soon met Shangguan Lan and a few other Immortal Sect disciples sitting inside.

"Greetings to Master!"

Although Guo Dongmei and Su Furong were surprised, they quickly knelt down on one knee.

Shangguan Lan's expression was cold, and although she had an extremely beautiful face, it had a coldness that rejected people.

"You two have really died nine times, should I punish you, or should I reward you?"

Shangguan Lan laughed coldly.

Guo Dongmei bowed her head and admitted her mistake, "Master, the two of us are willing to accept the punishment."

Shangguan Lan was tempted to do it, but with a hesitant sigh he said, "Get up, this time we have something very important to do, you two strive to redeem yourselves."

"Yes!"

Guo Dongmei sighed in relief and then stood up with Su Furong.

Shangguan Lan's eyes were sharp as he questioned, "You both have injuries?"

Guo Dongmei nodded her head and then explained how she had been injured and the condition of her injuries.

Shangguan Lan frowned and drank, "Jiang Qin wants to go against our Immortal Sect, then let the Jiang family pay a heavy price."

"Master, is there some kind of plan?"

"You don't need to know, stay well and heal your wounds."

Shangguan Lan finished speaking and took the other disciples, put on their masks and left in droves.

Guo Dongmei laughed when she looked at Su Furong the same: "Luckily you dodged it, if you were punishing the two of us, I'm afraid your injuries would be difficult to heal again."

"Sister, Master has come down from the mountain, is there any plan to target Dragon Shield?"

"Still thinking about Ye Xing, don't you hate him to death?"

"Who says I miss him, if there was a plan to deal with Dragon Shield, I'd be the first to want to go stab that bastard to death."

"Che, I don't believe you'd give up, get well."

.....

Shangguan Lan left the pharmacy and led his disciples to an upscale flat within the Pearl River.

In a room inside the flat, countless white mist was dense on the floor and a stunningly beautiful woman was sitting in it.

Shangguan Lan did not dare to disturb her and waited for half an hour before the beautiful woman opened her eyes.

A pair of eyes were so dark and slender that one dared not look directly at them, for she was simply too beautiful.

The Free Fairy asked indifferently, "How is the investigation going?"

"The Blood Demon had appeared in the city of Guangnan Province before, but never showed up again due to an encounter with the Dragon Shield, and based on all the cases we have checked, it is almost certain that the Blood Demon is within Zhuhe City."

Shangguan Lan replied affirmatively.

“The Blood Demon should have the Heavenly Calamity Diagram on him, this diagram is the most likely to find the location of the second ancient formation, so he must be taken down.”

“Sect Master, the Jiang family has been constantly provoking and injuring many of our disciples, shouldn’t we settle this?”

“You guys go find the diagram, I will personally take care of the Jiang family.”

Shangguan Lan asked with a big happy face, “Has the Sect Master already repaired the magic weapon?”

“It should be almost done, once the Kun Wu Sword is out, Jiang Qin, the Gravekeeper, will have to go and build himself a tomb.”

The Free Fairy laughed coldly.

Shangguan Lan clasped his fist and drank, “The Sect Master will surely win a great victory on this trip, and properly let the ancient martial artists know that the Immortal Sect is the rightful discipline of cultivation!”

“Pursuing the immortal path requires spiritual roots, how can those mortals know themselves, the four great masters are all stumbling blocks, as well as that Ye Xing, none of them can be spared, the Kun Wu Sword will require the lives of all of them to be sacrificed in blood this time!”

## Chapter 430

A hot pot restaurant somewhere in the city of Guangnan Province, Ye Xing came here not to eat, but to solve the case.

The case was taken over by Luo Xiaoyun’s former leader, but there has been no way to solve it, and the victim’s family is somewhat powerful and has been going to the authorities to make trouble.

The victim’s family is a bit powerful and has been going to the authorities to make trouble. As Long Shield has been in the limelight in Guangnan Province recently, Luo Xiaoyun’s former leader approached her and pleaded for this troublesome case to be solved.

Ye Tian wasn’t interested in solving the case, he was an immortal-martial practitioner himself and not some detective managing criminal cases, if it wasn’t for Luo Xiaoyun pestering Murong Xue, this really wouldn’t be something he would have been asked to do.

“I can tell you, I’ll take a look at it at best, how to solve the case, you think about it yourself.”

Ye Xing explained as he walked to the freezer of the hot pot restaurant.

Luo Xiaoyun asked, “Let me solve it alone, I don’t know anything about those evil ways either.”

“If you don’t know, you dare to pick it up, even though it’s your ex-leader, but haven’t you already found someone else? You can’t have to say yes even if your ex-husband asks you to have a baby, right?”

Luo Xiaoyun blushed red and spat, “What are you talking about? How can this even be related to having a baby?”

“I’m just using an analogy.”

“Can’t you make a different analogy?”

Ye Xing went to the freezer door, where a uniformed duty officer was actually guarding it.

“Open it, what kind of fuss has he never seen before?”

As soon as the duty officer pulled open the door to the entrance of the freezer, Ye Xing saw the light and the cold fog, when the fog lifted, the miserable look inside still gave him a shock.

“Holy shit, a corpse fair, huh?”

Luo Xiaoyun also shivered as he watched, although he had handled many cases, it was the first time he had experienced such a horrible frozen corpse scene.

The officers on duty didn’t dare to look and hid to the side shivering.

Ye Xing gathered his mood and walked in, it was bloody, the blood on the ground was frozen into a thick layer of ice, overhead was waxy yellow energy-saving lamps, the freezer in the major air vents constantly bubbling with cold air.

And on the tables and cabinets and walls, there were corpses hanging, dead in the most gruesome manner, and by a rough count, my goodness, at least a hundred of them.

“Such a big case and no clues after months of investigation?”

Ye Xing turned his head in disbelief.

Luo Xiaoyun growled in disbelief, “Most of the bodies here are missing from the hospital morgue, the ones who were really killed were the hot pot restaurant owner’s family of three.”

“Where are the bodies?”

Luo Xiaoyun pointed fearfully at a large blue vat in the corner against the wall.

Ye Xing moved closer over, the vat had no lid, and when he looked inside, holy shit, three human faces staring at you with wide eyes and bleeding eyes, nose and mouth.

Ye Xing was all scared and took a step back, they say people are scared to death, it’s really no lie.

He looked at the bucket, because it was kept in the freezer for a long time, the blood inside had almost all frozen into ice, and the other limbs of the three bodies were inside the bucket.

But because no other clues had been found, neither the stolen bodies nor the vat had been touched here for fear of losing important clues.

Ye Xing turned his head and yelled, “Tell the men to carry the barrels out to thaw, I want to see the three mutilated corpses.”

“What? The taste is so heavy.”

“Big sister, you’re the one who took the case, don’t you want to solve it?”

Ye Xing walked to the door to have a cup of tea to pressurize his mind, Luo Xiaoyun was miserable, calling up the uniformed man on duty, the other party was too dead to go do this.

In the end, Luo Xiaoyun went to call the forensic pathologist, and a group of people spent more than an hour working on it, all of them threw up, before they emptied out the contents of a large bucket.

Ye Xing was shocked when he walked in, there were broken limbs on the ground and they were all frozen into a block of ice.

When Luo Xiaoyun finished throwing up, she said, "It's not going to melt today, it'll be almost ready after one night."

Ye Xing picked up the ice bricks and although they were frozen into ice, he could still make out the frozen limbs inside.

Ye Xing looked at it for half a day and finally found a little something, a human skin.

"To be able to avoid so many surveillance, the murderer's skill must be very good, it can be proved that at least an ancient martial artist, but an ancient martial artist to kill someone, no need to make so many names, especially to make such a neat human skin, only a demon cultivator can do it, the case can be closed, the demon cultivator did it, want to catch someone, unless the other party send it to the door."

Ye Xing said throwing the ice cube and left.

Luo Xiaoyun and the others listened to the clouds, but after looking at the broken limbs all over the ground, one had to endure the nausea again and give it all a good deal tomorrow.

When Ye Xing returned to the villa, Luo Xiaoyun was busy until most of the night and ended up falling asleep on the sofa.

Ye Xing was just about to get up and go upstairs when Luo Xiaoyun was trembling with fear and talking in his sleep inside his mouth: "There is no blame, I will help you find the murderer, you don't leave ah looking for me."

Ye Xing heard actually talking in his sleep, this girl is scared to death, if the case can not be solved, I'm afraid a lifetime will have to have a shadow.

"Hey, who let me so unlucky?"

Ye Xing got depressed, asking Luo Xiaoyun to catch a devil cultivator, catching it for a hundred years was not even an option, he could only unleash the full power of the Dragon Shield.

Devil Cultivators were even harder to find their whereabouts than the Immortal Sect, these guys were like sewer rats, don't expect to see any sign of them in broad daylight, you had to wander inside the sewers to get a bit of a clue.

The case was discovered in the city of Guangnan Province, and there had been previous attacks on Murong Xue by demonic cultivators.

Ye Xing hadn't been looking for trouble with them, and this time it looked like there was no way to avoid it.

Ye Xing drove to Du Jiuniang and Qiao Baihe's residence and gave a talk about it as soon as he entered the house.

Du Jiuniang drank with murderous fury, "These bastards killed our Flying Daggers Sect, there is no way I will let them go."

"Bars are a favourite place for demon cultivators to stay, they also had to attack the fairies of the Immortal Sect, they have not appeared since they suffered a defeat at our place before, did they go to sneak in to attack the Immortal Sect?"

Ye Xing ventured a guess up.

Qiao Baihe shook her head and then said, "Impossible, the Immortal Sect has conducted several eradications for the Demon Cultivators, before I was still on the mountain, I heard Shangguan Lan mention that the assessment mission decades ago was completed by killing the Demon Cultivators, so the Demon Cultivators have an extremely strong hatred for the Immortal Sect, but definitely don't have the guts to attack the Immortal Sect."

"They don't dare to attack the Immortal Sect, and they can't do anything to us, so they attack ordinary people."

"Not necessarily, you forgot that there were some people with immortal cultivation talent among the ordinary people?"

Qiao Baihe suddenly thought of a key.

Ye Xing smiled as soon as he tapped his head, "Right, spiritual roots!"

With one pass, Ye Xing quickly thought of why the devil cultivator would go and get hundreds of corpses, all these corpses were feared to be people with spiritual roots.

The devil cultivators tested them one by one and then looked for the family members of the spirit root possessors.

Ye Xing hurriedly returned to the hot pot restaurant and entered the freezer again to slowly check, finally he found that each corpse had been given a small hole in the sky.

This confirmed the evidence that the devil cultivators wanted to find the spirit root possessors!
