

Chapter 441

The Free Fairy crouched down and searched up, quickly identifying a skin.

“The Heavenly Tribulation Chart!”

Ye Xing’s heart thudded when he saw it.

The Fairy of Prosperity’s expression suddenly sneered, “Your Excellency has been looking at it for so long, you should have come out too, right?”

Ye Xing was dumbfounded, he had been too careless, what kind of person is the Free and Easy Fairy, how could she not notice if he was peeking at such a close distance?

He was just about to turn his head and run away, when suddenly there was a strange coldness around him, only to see a layer of white frost on the ground, and when he reached out and touched it, it actually all broke apart.

At the same time, the Free Fairy had already arrived in front of him and laughed coldly, “So it’s you, this abominable fellow, who stole my disciple and caused me to make a big fool of myself at the Snow Mountain Ancient Formation, today I want you dead.”

Ye Xing instantly calmed down, facing this kind of big brother, it was useless to just be afraid, one had to be calm enough, the more calm one was, the more one could find a ray of life.

“Fairy this is not right, Murong Xue is my wife, Shangguan Lan took her by force and brought her to the Immortal Sect for cultivation, this is an act of woe to the Immortal Sect!”

Immortal Freeze’s eyes narrowed, “Murong Xue has good talent and is Shangguan Lan’s own daughter, bringing her to the Immortal Sect for training is a move to strengthen my Immortal Sect, what’s so bad about it?”

“Fairy, you and I are both immortal cultivators, we should know that immortal cultivation is about clearing your mind and desires, especially the fairy in the Immortal Sect, why are they all as beautiful as flowers and have an extraordinary temperament, isn’t that all because they have cut off their children’s love? This Shangguan Lan brought her own daughter to the Immortal Sect, this already belongs to the love between mother and daughter, in addition Murong Xue is married to me, is my wife, and is extremely affectionate with me, she has me as her husband, what else would she have in mind to cultivate, the end result is to make the other immortals of the Immortal Sect move their mortal hearts, only aspiring to the affairs of men and women, who would still go to cultivate hard?”

Ye Xing was full of sincere nonsense, anyway, it was just a bet on the mouth, success or failure is another story.

The Fairy of the Free and Easy laughed coldly, “You may talk a lot, but you can’t fool me, Shangguan Lan has been in the Immortal Sect for so many years, with merit and service, you want to sow discord, you’ve made a mistake.”

Ye Xing froze, then roared, “Shangguan Lan has said that Murong Xue’s is a dual system talent, second only to you, and can take his place in the future and become the head of the Immortal Sect.”

“Seek death!”

The Free Fairy lunged towards Ye Xing with a murderous aura, and Ye Xing hurriedly drove the Hardening Technique.

The other party’s brows furrowed, “A gold spell? It’s a pity that this spell of yours is actually defensive in nature, if it was a gold attack spell, it would really be indestructible.”

The Free Fairy threw out two ice ropes, Ye Xing quickly resisted, but was entangled by this extremely flexible ice rope of the opponent.

From this ice spell alone, one could tell that the Free and Easy Fairy was far more powerful than Qiao Baihe.

Qiao Baihe’s ice spells were just ice spears, ice thorns and blizzards, which were powerful but extremely rigid and inflexible, and could not be manipulated like a human hand like the Free and Easy Fairy, and were as strong as the real thing.

As Ye Xing was wrapped up in a deadlock, Immortal Freeze controlled the flying sword and stabbed at him.

With a stabbing sound, the golden air shield was pierced through, and Ye Xing’s blood churned in his belly.

The spell was broken and his body was uncomfortable!

Ye Xing lost his Yuan Power support and thought he was going to be killed by Immortal Free Spirit’s sword, but the other party withdrew his magic weapon and sneered, “It is really too cheap to kill you now, take me to Murong Xue first, and then take you back to the Immortal Sect for disposal.”

Ye Xing laughed bitterly, this was the difference in strength, although he had cultivated both immortal and martial arts, he was still unbearable in front of Fairy Prosperity.

Luckily, some nonsense just now made the other party not immediately move to kill, let’s take one step at a time.

“You are now damaged in Yuan Power, if you forcefully escape, you are bound to have all your tendons and veins broken, besides you won’t be able to slip away in my hands.”

The Free Fairy sneered proudly.

Ye Xing laughed bitterly, “Don’t worry Fairy, I definitely won’t run away, you are so pretty, I’m still full of eye candy to be able to follow you around.”

Immortal Freeze instantly turned gloomy, as soon as she choked Ye Xing, she coldly shouted, “If you dare to speak out of turn again, I will cut off your tongue first.”

Ye Xing was uncomfortably strangled, but fortunately, the Free and Easy Fairy quickly let go.

Ye Xing dared not speak nonsense again, after all, it was not necessary to gamble with his life.

The Fairy of Prosperity called on him and left the place, getting into the other’s car.

“You drive and take me to Murong Xue.”

The Free Fairy grunted up coldly.

Ye Xing frowned, his wife had barely made it home, if this was snatched back again by the Immortal Sect, wouldn't this be a wasted effort?

“Xue'er was sent out of the country by me, I had to buy a ticket to do so.”

Ye Xing babbled a sentence.

The Free Fairy suddenly threw out a handful of ice spikes, stabbing the back of Ye Xing's head in excruciating pain.

“You didn't lie to me?”

“Fairy, how dare I lie to you, the Immortal Sect and Jiang Family are both after me, so for Xue'er's safety, I sent her out of the country.”

Fairy Prosperity increased her force and Ye Xing felt like the back of his head was about to be pierced with ice spikes, but he had to hold back or he would be finished.

The ice spikes were incomparably cold and sticking into the flesh not only prevented blood from flowing out, but also had a numbing effect.

However, the pain of the skin and flesh tearing could not be alleviated, and the Free Fairy hesitated for a moment before finally withdrawing her spell.

Ye Xing instantly seemed to have his three souls and seven spirits taken away, and his entire body leaned back in the chair and gasped for air.

“Call her immediately, I want to make sure she is abroad, if you dare to lie to me, I will cut your hands and feet off, anyway, all you need to do to find someone is to leave your head and mouth.”

As soon as Ye Xing heard that his heart was cold, he took out his mobile phone and dialed out, “No one answered, by the way, she said that she was practicing some kind of gong method that was very special, she couldn't let anyone disturb her, and she had to stay away from me, and said she couldn't share a room with me, what kind of gong method is it? What kind of gongfu is that? It doesn't even allow two people to share a room.”

Immortal Prosperity instantly blushed and rolled, but she quickly suppressed the thought and shouted coldly, “Is the Immortal Sect gong method something you can ask about? Drive to the highway station.”

Ye Xing breathed a sigh of relief and drove to the provincial high speed railway station, and when he arrived at the place, his mobile phone rang.

“It's my friend calling, if I don't answer it, Dragon Shield will know about this.”

“You think I would care about any Dragon Shield, it's ridiculous.”

“What if it's a lead from Jiang's family? That old bastard Jiang Qin must be hiding, do you want to settle the score with him?”

“Your Dragon Shield can find old Jiang Qin?”

“Although they disappeared, there are many people in Jiang’s family, if we catch the younger ones, we can find out the older ones.”

“Good then, let your Dragon Shield give clues, I want to exterminate the Jiang family myself.”

Ye Xing picked up the phone, Zhao Qiangwei was calling, asking where he had run off to.

“I’m fine, be a good boy and go home, you don’t need to worry about anything else.”

“You’re really fine?”

“If you say it’s fine, it’s fine.”

Ye Xing hung up the phone and called Lin Wei again, asking about Jiang Qin.

Lin Wei said that she was already checking, but there was no definite news at the moment.

After hearing this, the Free Fairy was instantly furious and wanted to teach Ye Xing a lesson.

Ye Xing was really scared, the ice spikes just now stabbed the back of his head, that was unbearable.

“I know the whereabouts of a demon cultivator, should I take you there?”

Chapter 442

“Demon cultivator, where?”

“Inside a Taoist temple in Lingnan.”

The Free Fairy considered for a moment and said, “If you dare to lie to me, I will make your life worse than death.”

Ye Xing hurriedly said that he did not dare, and then the two of them entered the high-speed railway station and bought tickets to set off for the Taoist temple.

On the other hand, inside Dragon Shield’s stronghold in Guangnan Province, Lin Wei said to all the team members after hearing the conversation, “The chief has been held hostage by the Lord of the Immortal Gate, we have to find a way to get him out.”

The group began to deliberate and then came up with various ways.

Ye Xing also knew that Lin Wei must have already started monitoring the phone, nowadays, as long as the phone was left on, it completely turned into a monitor.

Of course to make the phone become a monitor, one had to break through layers of barriers, at least not for ordinary people to do.

Ye Xing should be clear about whatever Ye Xing said and did nowadays, but the Free Fairy was a BUG, no one was her opponent, and I’m afraid that even if Hua Junsheng made a move, he wouldn’t be able to beat her Kun Wu sword.

“What to do.”

Ye Xing was anxious in his heart, but he could only take one step at a time.

Early the next morning, Ye Xing had arrived outside the Five Finger Mountain scenic spot.

The Free Fairy narrowed her eyes and asked, “Are you sure that the demon cultivator is hiding in the Taoist temple?”

“This is a tip-off received by our Dragon Shield, this Lingnan Daoist Family has a copy of the Heavenly Tribulation Diagram, those devil cultivators gave it to the robbers, and in addition they also bloodied the Daoist Temple, there is a high possibility that this devil cultivator is hiding inside the Daoist Temple.”

“You also know about the Heavenly Tribulation Map?”

“It’s an object of the Lingnan Daoist Clan, there are many evil arts recorded in it, the demonic cultivators grabbed it and practiced the evil arts on it, but in fact there is another Daoist temple of the Lingnan Daoist Clan, which is inside the Heavenly Tribulation Map.”

“You know quite a lot, I am hunting down the demon cultivator to find that one dao field to open the second ancient formation, you stopped us from opening the first one before, this second one I am afraid you are already in trouble yourself.”

“The immortal’s methods are heavenly, where would I dare to mantle my arms.”

“That’s good to know, go into the mountain.”

Fairy Free was instantly in a good mood, and the two of them quickly entered the mountain.

Ye Xing kept leading the detour until a toll text message came from his phone.

He took one look at the text message and understood that it was ready, although he didn’t know what kind of tricks Lin Wei and the girls were up to, but he had to gamble on it.

Ye Xing took the Free Fairy to the foot of the mountain, looking up at the cave halfway up the mountain, the Free Fairy sneered, “Where is the demon cultivator hiding in the mountain wall cave?”

“This should be the right place, before the Daoist master here had to go down the mountain every now and then, but recently he has not gone out for a long time, and there are many people who come here and disappear, which makes us suspect this place.”

“Let’s go and have a look then, if it’s a demonic cultivator, kill it and be done with it.”

The two men headed towards the cave in the middle of the mountain wall, one after the other.

Suddenly, the mountain wall exploded with a bang.

Ye Xing was frightened enough to jump down and dodge, the Easy Fairy was miserable, the explosion happened right above her side and the whole shockwave wrapped her whole body.

After she landed, not only was she covered in blood, she also had scorched hair and was in a terrible state of disarray.

Ye Xing quickly saw the Dragon Shield members around her and immediately smiled.

The Fairy of Prosperity got up and swallowed a pill, followed by driving the magic weapon Kun Wu Sword.

The Dragon Shield members around them hid as the Kun Wu Sword flew and stabbed out, actually not knowing whose trouble they were looking for.

The Free Fairy turned her head to look at Ye Xing, her face full of anger, and drove the Kun Wu Sword towards him to kill him.

The flying sword was extremely fast, but as a result, she did not expect the surrounding fire to blast towards her.

The Free Fairy was forced to retrieve her Kunwu Sword, directly deflecting the fire rushing towards her from all around.

Ye Xing hurriedly ran to Lin Wei's side and saw quite a few familiar faces, Ma Han Yang was actually there.

He smiled cheerfully and said, "Chief Ye, this is a big move on your part, actually taking action against the leader of the Immortal Sect, I'm giving up my life this time."

"Old man, think of something, although the sneak attack was successful, the magic weapon in the hands of the Free Fairy is really terrifying, if she gets ruthless in a moment, we won't be able to withstand it here."

"Don't worry, she's in big trouble."

As Ye Xing wondered, a rough laugh rang out from all around, "Demoness of the Immortal Sect, I heard that you are looking for me everywhere, there is no end to it, you really want to fight me, Jiang Qin, to the end, right?"

Ye Xing was happy to hear this, it was good that they had gathered all these enemies together, today it looked like they would have to fight to the death.

Jiang Qin arrived with a large number of his disciples and once he took a look at the situation, it was clear that he was being taken advantage of.

But it didn't matter to him, the Free Fairy was clearly a greater threat to him than Ye Xing.

"Why don't the scum of the Dragon Shield get lost, do you still want to join this demon girl and fight with our Jiang family to the end?"

Jiang Qin roared in anger and gave in.

Ye Xing signaled everyone to withdraw, and the Free Fairy exploded with anger, her eyes filled with resentment as she looked at Ye Xing, her heart itching with hatred.

Ye Xing and the others hurriedly withdrew, and the people of Jiang's family began to take turns to attack the Free and Easy Fairy, for them, they had been hiding in the east before, and today was the best opportunity.

Although magic weapons and spells were the biggest killers of the Prosperous Fairy, she was more or less posthumously wounded at this point by the blast, so it was worth it to take her down, no matter how much it cost.

At the back of Five Finger Mountain, Ye Xing asked in wonder, "Who informed Jiang Qin?"

Lin Wei pointed to Ma Han Yang, and the old man laughed, "Granddaughter-in-law, you don't need to thank me, being a grandfather won't see death without help."

"Senior, what are you shouting at me for, is there a misunderstanding?"

"No misunderstanding, I know all about you and my Ling Ling, it is an honour for our Ma family to have such a granddaughter-in-law like you."

"Grandpa, when did I ever say I would marry him?"

"Silly girl, if you don't marry him, won't you be at a disadvantage?"

At these words, the surrounding Dragon Shield members all burst out laughing.

Lin Wei huffed and read in a low voice, "Beast!"

Ye Xing was speechless, since when did Laozi become a beast again?

He hurriedly walked over to explain, only to have this strange old man, Ma Han Yang, drink discontentedly, "Chief Ye, although your Dragon Shield is very powerful, but our Exorcist Ma family is not a vegetarian, my granddaughter is also innocent, if you want to wipe your mouth and leave, see it's not that easy."

"Old man, I haven't even touched her, you're mistaken."

"Haven't touched her? Do you think the old man is stupid? I won't say any more, but today you have to say yes or no."

"Old man, I haven't done it, what do I have to promise?"

"Fine, you wait and see."

Ma Han Yang huffed and dragged Ma Ling Ling away.

Ye Xing was dumbfounded, what was this all about?

Lin Wei came closer and whispered, "You've offended the Exorcist Ma family, why don't you go and persuade them?"

Ye Xing hesitated for a moment, still not wanting to make an enemy, he hurriedly chased after him.

Ma Han Yang sneered, "Why are you still here?"

"Old man, take it easy, I'll go and explain to you clearly some other day."

"Explain bullshit, you marry or not, just one word."

"I'll marry!"

Ma Lingling was dumbfounded after hearing this, and then her face turned red.

Chapter 443

Ye Xing also agreed casually, anyway, whether the verbal promise counts or not depends on whether he has integrity.

But if he didn't say yes at this point, I'm afraid he would have to find something for himself if old man Ma turned his back on him.

Ye Xing understood very well not to make enemies everywhere, and there was no need to be so stubborn about things that could often be settled with a single word.

Ma Han Yang frowned and asked, "You kid didn't lie to me, did you?"

"Old man, I promise you don't believe me, I don't promise you, you have to be angry too, what do you want me to do?"

Ye Xing frowned and cried out.

Ma Han Yang considered for a moment and said, "Fine, count me in, when will you propose marriage to our Ma family?"

"I'll have to ask your granddaughter about that, after all, she's not that old, what if she wants to play around for a few more years?"

"She's eighteen, she should get married too."

"Grandpa, I don't want to get married." Ma Lingling said in a blushing voice.

"I can't let you fool around with this, go back and count the days properly for you, and wait for him to come to the door to propose marriage." Ma Han Yang said, called on Ma Ling Ling and left.

As soon as Ye Xing saw that he had solved the matter perfectly, he was still resourceful.

But when he came to Lin Wei and the others, he was counted badly.

"I can't help it, I'm too good, this old man saw me and wanted me to be his son-in-law."

"Cut it out, maybe you've wrecked someone's little girl and they have no choice but to let you marry her." Lin Wei squeezed.

Ye Xing laughed in a low voice, "Then I also wrecked you before, why didn't you let me marry you?"

"Don't mention that, it makes me sick to mention it."

"Disgusting? Could it be that I look at you and you have one? Do you like spicy or sour, they say sour children are hot, why don't we go and find out."

"You're at least a chief, don't talk nonsense all day long."

"You made fun of me first, I said a few words about you and you can't stand it?"

"Hmph, you're no good anyway."

“It’s not polite to talk like that, just the way that little girl looks, I wouldn’t even marry her if I married you.”

Lin Wei blushed slightly and left with a stomp of her foot, because if the argument continued, I was afraid that in a moment, Ye Xing would even think of what to call the child.

Ye Xing took the dragon shield and set up under the Five Finger Mountain, they say that the mantis catches the cicada and the yellow bird is behind it, although they can’t do either side, but they also want to see if they can pick up equipment or something.

The Five Finger Mountain scenic area was almost deserted late at night. The cold wind howled at night and both Jiang’s family and the Free Fairy seemed to have disappeared.

The company’s main business is to provide a wide range of products and services to the public.

Ye Xing did not dare to make a rash move because he did not see that old thing Jiang Qin, in case he made a move to lure him out, he would have to fight a Ninth Grade Zong Master head on, which was extremely unpleasant.

Although Ye Xing was currently a Seventh Grade Patriarch, he could barely resist for a minute when he fought with a Ninth Grade.

Dragon Shield also began to withdraw, although they did not know what the outcome would be, but in the end, they were letting both sides dogfight.

Ye Xing returned to Guangnan Provincial City and went back to the villa at the first opportunity, only to find that something was wrong when he reached the front yard.

He hurried into the house to check, only to find that on the first floor, a group of women in white drew their long swords when they saw him.

“People from the Immortal Sect!”

Ye Xing’s heart went cold when a laugh came out, followed by the sight of Shangguan Lan walking out of the bedroom.

Shangguan Lan had bright eyes and white teeth, long boots, tight trousers, short-sleeved shirt with flower petals shaped on her chest, she was a showgirl just by looking at her clothes.

“Where’s my wife?”

Ye Xing looked at Shangguan Lan, that was seeing an enemy.

“I want to ask you too, hand over Murong Xue.”

Shangguan Lan waved her hand, and the other fairies surrounded them.

Ye Xing was relieved to hear this, since Murong Xue was not caught by Shangguan Lan, then at least she should be safe.

“With just this number of people you plan to fight me, you are afraid you are dreaming.”

Ye Xing drove his Yuan Power and intended to clean up Shangguan Lan.

Shangguan Lan sneered and clapped his hands, and soon Luo Xiaoyun was brought out.

Ye Xing really wanted to curse his mother, it was this girl who was causing trouble again.

“If you do it, I’ll kill her.”

Ye Xing gloomily drank, “Don’t try to threaten me, I’m a person who doesn’t eat this.”

“Then let’s waste her first.” Shangguan Lan greeted his disciple and was about to do it.

Ye Xing hurriedly shouted, “I don’t know if you have gotten the news about the Prosperous Fairy being besieged by the Jiang family.”

Shangguan Lan frowned and smiled coldly, “The Sect Master has the Kun Wu Sword, the Jiang family’s people going to besiege her would be looking for death.”

“People have been ambushed in advance, even if the Kun Wu Sword in the hands of the Free Fairy is powerful, it is still difficult to defeat four hands with two fists, you don’t really think that with a mouthful of magic weapon, you can do whatever you want, do you?”

Shangguan Lan was indeed a little moved, “You lied to me?”

“What’s the point of me lying to you? I’ve seen the Kun Wu Sword, it’s really powerful, but Jiang Qin is a Ninth Grade Patriarch, one of the Four Great Patriarchs of China, he laid a trap, the Free Fairy will be seriously injured even if she doesn’t die, you let go, I’ll tell you the location, maybe you can pick up the body if you go.”

Shangguan Lan was full of hesitation, thinking about it, with Ye Xing’s affection for Murong Xue, it was impossible to hand over Murong Xue, he could only retreat to the second best.

“Okay, I’ll let them go, you tell me the location.”

Ye Xing did not say a word and Shangguan Lan waved his hand before the Immortal Sect’s people released Luo Xiaoyun.

Luo Xiaoyun came to Ye Xing’s side with an apologetic face, Ye Xing sneered, “Five Finger Mountain, grab the corpses, if you go late, they might all be eaten up by the beasts.”

Shangguan Lan was indignant and turned his head and led the other disciples to jump down from the first floor window and leave quickly.

Luo Xiaoyun said embarrassedly, “It’s all my fault, or else you could have caught them.”

“Blame it on my bad luck, I wanted to teach Shangguan Lan a lesson, who knew you would fall into her hands again, by the way, where is my wife?”

Luo Xiaoyun muttered, “Xue’er suddenly said she had to go out yesterday, I asked her and she wouldn’t say where she was going, she just asked me to stay at home to let you know.”

“What’s all this secrecy?”

“I really didn’t lie to you.”

Ye Xing sighed, ever since Murong Xue started cultivating, the whole person had become secretive and did not tell him even if she had something on her mind.

Although he could still feel Murong Xue's love for him, it was as if there was a layer of glass between the two, and he could not still open his heart the same as before.

"It's all because of that demon woman Shangguan Lan, sooner or later she falls into my hands, see if I don't torture you to death with the 18 kinds of torture."

After venting, Ye Xing called Luo Xiaoyun and went to the Dragon Shield stronghold.

A video soon appeared, and it was indeed Murong Xue leaving the villa alone.

She didn't drive, but took a taxi at the door, the car quickly entered the city, and then she disappeared.

This is a deliberate attempt to avoid the Eye of Heaven!

Ye Xing was a bit hard to bear, his wife was deliberately avoiding the Heaven's Eye, so maybe she really had something to hide from him.

Ye Xing finished his investigation and sat on a chair, suddenly Luo Xiaoyun brought a cup of clear tea and apologized, "I'm sorry, yesterday was all because of me."

"I don't blame you, don't take it towards yourself, I just feel stranger and stranger to Xue'er."

Luo Xiaoyun looked uncomfortable, thought about it and said, "By the way, before Xue'er left, she seemed to have recited a poem."

"What poem?"

"The sky is pale, the wild is vast, the wind blows the grass and the cows and sheep are seen, I can't remember the back."

Chapter 444

Ye Xing hurriedly searched, and then summoned the technical staff of Dragon Shield to analyse it.

They were all great gods, and their analysis was simply head-on, and in the end they actually identified a few suspected locations near the provincial capital.

The first was the Ethnic Style Village, a heavily built tourist village outside the provincial capital, and there was also a high mountain grassland next to the village, which best matched the sight of cattle and sheep grazing.

The second is the Tibetan Land Hotel, also outside the provincial capital, all built with houses made of cow and sheep fur, very characteristic of the grassland.

The third is the Qinglong Lake, where there are not only cattle and sheep pastures, but also specialties.

Ye Xing didn't care, he went to find them one by one, and when Luo Xiaoyun had to go, he took her with him.

After a day or so of searching for the three locations, nothing was found.

Ye Xing also gave up, it was better to go home and keep watch, maybe his wife had gone out to play enough and went home again.

Inside the villa, Ye Xing looked at Luo Xiaoyun and smiled: "My wife is lost, you are more upset than me."

"That's my bestie, I can't be upset, right?"

"Yes, your bestie is lost, my wife is lost, why don't we both make up for it?"

"Go to hell, nonsense."

Ye Xing suddenly frowned as he noticed a powerful aura coming from around the villa.

Maybe it was his wife who had returned.

Ye Xing hurriedly ran out, but instead of seeing Murong Xue, he found an old man appearing outside the villa.

The old man was wearing a hat and hunched over, and was dumbfounded to see him.

But the old man dropped a box, turned his head and ran.

Ye Xing hurriedly chased after him, and the old man turned his head and shouted, "Don't chase me, I've changed my ways and will never practice evil from now on, just spare my life."

Ye Xing still held the old man down, at first glance his face was full of hideousness, his head was bare, it looked as if a ball of flesh had eyes and a mouth growing on it.

"Demon cultivator?"

Ye Xing shot to his feet.

The old man said with a sobbing face, "I'm not a demon cultivator, I've only cultivated the evil arts on the Heavenly Tribulation Chart to become this ghostly appearance, I don't even have many years left to live, you guys just let me take good care of my family."

"Hmph, you are quite good at making up nonsense all day long, there are no good people in demon cultivation."

Ye Xing sneered and wanted to strike.

The old man cried and begged, "If I were a bad person, I wouldn't have taken the initiative to hand over the Heavenly Tribulation Map."

Ye Xing grabbed the man and dragged him back to the villa, and there was indeed a box on the ground at the entrance of the villa.

Ye Xing opened it and saw that the fishy smell inside the box was very strong, a piece of fur was rolled up, and when he lifted it, he found that inside was indeed a map of the Heavenly Tribulation written in small letters in ancient seal script.

Ye Xing could not read those words either, so he put away the heavenly tribulation diagram and asked, "Who instructed you to come?"

"No one else, I received this Heavenly Tribulation Diagram from someone else a year ago, thinking that the things on it could prolong my life, so I started to learn to practice it, but I never thought that the more I practiced, the more evil it became, and I turned into this ghostly appearance."

The old man cried out in distress.

"Who are you fooling? You can receive such a valuable thing from someone else?"

Luo Xiaoyun immediately took out a suspicious look.

The old man frowned and explained, "I really bought it from the auction, I still have the photos from that time."

The old man took out his mobile phone, and Luo Xiaoyun immediately asked him to open it and log in, and after some searching, the photo from a year ago indeed had the old man's spirited appearance, and it was this wooden box that he was holding in his hand.

Ye Xing thought about it, could it be that the demon cultivator had really hung up and was picked up by someone who picked up this skin and sold it as an antique?

Ye Xing, of course, would not feel at ease and called the technical staff of Dragon Shield to ask them to check the situation of an auction in the provincial city a year ago.

There was indeed this box at this auction, and it was marked at the time as one rosewood box from over a hundred years ago, containing a fox skin, which was very collectible.

But no information was revealed about the auctioneer.

Ye Xing was all happy to hear that such an important thing actually appeared at the auction, it looked like the demon cultivator who owned it was hanging.

Anyway, no matter what, the stuff was real and the old man was real.

"In the past year or so, you have been cultivating according to what is written on it, it looks like you also belong to those with spiritual roots, but how did you know about my place?"

"To be honest, that nephew of mine is from your Dragon Shield, he has been advising me not to cultivate and give up this thing, I never dared to decide."

"Holy shit, a mole."

"It has nothing to do with him, he just wants to help me, and this address of your house was only known to him yesterday."

Ye Xing glanced at Luo Xiaoyun, who immediately went inside and made a phone call, asking the Dragon Shield side to look into the problem immediately.

Soon the mole among the technicians was found out, and Ye Xing released the person after investigation, after all, it didn't cause any harm, but it was impossible for that person to enter the Dragon Shield again.

Ye Xing left Lin Wei to deal with the old man, whether to catch or kill him, or keep him under surveillance, just let her worry about it anyway.

Looking at the Heavenly Calamity diagram, Ye Xing said happily, "With this, the second spell will never be found by the Immortal Sect, of course it's best if the Free Fairy hangs up, then no one will think about the aura recovery."

"Xue'er doesn't have a clue yet." Luo Xiaoyun reminded.

Ye Xing got depressed, "You can't make it easy for me, can you? My wife is lost and I'm having a hard time with it."

Murong Xue still had no clue, but on the other side, near the Five Finger Mountain, Shangguan Lan chased her to the bottom of the Daoist temple mountain and found that there were indeed signs of a fight, plus the damage caused by the Kun Wu sword was too vivid to be concealed.

She sent people everywhere to search for the whereabouts of the Free Fairy, but unfortunately found nothing.

Ye Xing got the news and wondered if Jiang Qin had really slaughtered the Free Fairy.

But many people from Jiang's family were also missing, which was a problem.

In a small farmhouse under the Five Finger Mountain, many people are preoccupied because a few days ago, the family's children went into the mountain and had an accident.

When he returned home he had been asleep, but without any external injuries, the family made the decision to have to go to the hospital, only to have the car found and the child woke up again.

"Mum, I'm fine."

Inside the bedroom, the long-haired girl sitting on the bed in her pyjamas smiled and moved her arms and legs a little.

The older woman cried and nodded, then told her to get some rest, that she must have met something unclean when she went into the mountains and that was why she had committed the crime.

When all her relatives had left, the young girl wore an expression full of anger.

She was only eighteen years old, but her expression was as if she was bitter and angry. In the end she didn't have any strength and had to lie in bed to recover properly.

A few days later, the young girl was finally able to move and said goodbye to her family and went out to work.

Her first stop was the provincial capital of Guangnan, and as she walked around the city with her suitcase, she was a bit overwhelmed.

But in the end she found a place to settle first and took up residence in a hotel as a waitress.

Although the Dragon Shield increased its search, all the Jiang family members seemed to have disappeared, and even Shangguan Lan and other members of the Immortal Sect who had entered the Five Finger Mountain had lost their whereabouts.

Chapter 445

Ye Xing was still worried about Murong Xue's whereabouts, but was called to the Dragon Shield a few days later because of a recent bloodbath that had rocked the city.

The murder of a teenage girl with a knife.

The most crucial aspect of this case is whether it was self-defence or not. At the moment there is only a bit of CCTV footage from the corridor and nothing is known about what was found in the private room.

The friends of the deceased are also adamant that it was the teenage girl who committed the murder with a knife.

But the case soon took a sharp turn for the worse when new evidence emerged that one of the deceased's friends had posted a friend who said it was the deceased who had molested the teenage girl that had led to the killing.

Eventually the police took the man back to investigate, which led to the truth being revealed.

A murder case that rocked the city had nothing to do with Dragon Shield, but it was not expected that the young girl was actually someone with spiritual roots.

Recently, Dragon Shield has been stepping up its efforts to recruit people with spiritual roots, so the young girl naturally came to their attention.

The tester they bought from abroad and took to the test was simply frightening, a double talent.

Snow white and shiny, like daylight.

Blood red like dates, thick and dense.

Ye Xing was amazed after reading the report, it was actually the same as Murong Xue, this young girl was a dual system gifted spirit rooter.

Ice and fire, these were both extremely powerful means of combat ah.

"Take it down, it must be taken down."

Ye Xing personally led his men to the hotel, and when he found the young girl, both sides froze when he opened the door.

The young girl froze and looked very scared, like a wounded deer that trembled at the sight of a stranger.

Ye Xing was scared because of the beauty of the young girl, who could be said to have charmed the crowd without applying any powder.

She had a melon face, a cherry mouth, a complexion like gelatin, without a single flaw, and a pair of big watery eyes that simply seduced the soul, making it impossible for people to look at her.

“This is a charming little demon!”

Ye Xing hurriedly shook his head down, then laughed, “You’re Zhu Xiaohong, right?”

The young girl nodded her head down and said fearfully, “I don’t know you guys, don’t come and disturb me.”

“Don’t worry, we are not bad people, and if we can get the address where you live, we must all be people who have connections with the police.”

Ye Xing said and entered towards the house, not caring if the person wanted to or not.

The young girl backed away in fear, Ye Xing smiled: “We have checked your information, you came to the provincial city to work as a waiter, but you have been infected with a lawsuit for killing someone in self-defense, the lawsuit has currently found you not guilty, but the financial compensation is also a large sum of money, have you thought of what to do?”

“I don’t have any money, I’m afraid my family will worry.” The young girl suddenly cried with difficulty.

Ye Xing advised, “Don’t be anxious, I’m here to solve your problem, look at this, how about this, you come with me, join our department, all your compensation problems, our department will help you solve them, plus a formal job.”

“I don’t even know who you are, I don’t want to go.”

“Little girl, I look like a decent person at first glance.”

“A decent person can’t tell.”

“I know you have worries in your heart because of what happened before, but don’t worry, I’m really a decent person, the compensation is just a hundred thousand or so, there is no way you can afford it, come with me, join our department, you can also get a job that many people want.”

Ye Xing persuaded for half a day, the young girl was finally willing.

He took a sip of water and left the hotel with the men and headed back to the Dragon Shield stronghold.

Since he had taken Zhang Yue’er in before, it was just right for the two of them to be paired up.

But this Zhu Xiaohong was obviously a bit resistant, and Zhang Yue’er patiently took her through the situation of the Dragon Shield.

In the afternoon, Ye Xing remembered Zhu Xiaohong, went to her and took out a Peiyuan Pill.

When Zhang Yue’er saw the Peiyuan Dan, she was envious because she could feel the Yuan Power in her body when she took this pill. Nowadays, although her Yuan Power was thin, she had already discovered her ability to be different from ordinary people, and if she continued to take this pill, she was afraid that she would progress even faster.

Ye Xing smiled and took out another one and threw it to Zhang Yue'er, admonishing, "Divide it into several portions to take, the medicine is very powerful, if you take one bite, be careful of exploding your body."

"Thank you, Master." Zhang Yue'er was full of smiles.

Zhu Xiaohong looked at the Peiyuan Dan, confused, and Ye Xing told her to cut it into several pieces to take a bite.

As a result, without expecting it, Zhu Xiaohong gave a bite and stuffed it inside her mouth.

"It's finished."

Ye Xing hurriedly called her into the room and Zhu Xiaohong got shy, but her face was flushed and soon her forehead was sweating.

"I'll teach you a set of gong techniques and you can practise them yourself."

"I'm so uncomfortable."

Ye Xing was dumbfounded, the medicine was kicking in so quickly that teaching her to practice was out of the question.

"I'm sorry."

Ye Xing finished and put Zhu Xiaohong on the bed, then lifted her blouse.

Zhu Xiaohong's entire body was dumbfounded, but could only endure it as Ye Xing touched her stomach with both hands, and then ran his Yuan Power to guide her body to quickly digest the medicinal power of the Peiyuan Dan.

If the digestion was not done in time, the medicinal power would be too fierce and all her internal organs would have to be washed away for her, which was to explode her body.

Ye Xing found that Zhu Xiaohong's body was really powerful, absorbing the medicinal power especially fast, this might be a gift.

After an hour, Ye Xing had also had enough of rubbing and got up and got out of bed.

Zhu Xiaohong's face was hot, she had been touched by a man like this in her life, it was strange that she could not be shy.

"You should be fine, take a rest and go out again later."

Ye Xing said and left the room, Zhu Xiaohong sat on the bed and clenched her fists, she hated to kill the other party, but unfortunately it was useless at all, she had the heart but not the strength.

When Ye Xing came outside the room, Zhang Yue'er asked, "Master, is she alright?"

"Yes, go and take care of her later, from now on you are master and sister, you have to take care of each other."

Ye Xing explained and left.

Murong Xue still did not have any news, which made Ye Xing extremely frustrated, and even doubted if she had left on purpose.

After all, Murong Xue's temperament had changed greatly after her cultivation, so it was hard to say that she had any thoughts of her own.

Luo Xiaoyun's eyes were darkened, and when Ye Xing saw this, he told her to go back and rest.

"I'm not tired, I'm sure I can find where Xue'er went."

Luo Xiaoyun stubbornly looked at the surveillance, still trying to trace a little trace.

Ye Xing impatiently dragged her out of her seat, then went out to the car and headed for the villa.

"What are you doing? I'm fine, just get some sleep."

"What have you become, you stink all over, haven't bathed for a few days?"

Luo Xiaoyun blushed, "Why do you care about that? You should find out where Xue'er is, I'm afraid something has happened to her."

"Nine times out of ten she left on her own, otherwise there wouldn't be any clues at all, it's true that I have so many enemies, but not many dare to mess with her, the Jiang family was fighting with the Free Fairy at the time, Shangguan Lan didn't find her either, as for the other clans in the ancient martial world, they were all cleaned up by me, who would dare to mess with her?"

"You suspect that she left on her own?"

"That's right, her personality has changed drastically since she came back, I suspect that she must have left on her own and will appear on her own when she has to."

"You're angry?"

"I'm not angry that my wife ran off on her own, am I happy?"

"Cher likes you, she wouldn't betray you."

"Don't worry, I don't feel like I'm being cuckolded."

"That's a bit of a spiteful attitude you have."

Chapter 446

Overseas island, in the Immortal Sect cave.

Shangguan Lan had a furious face. He had gone to the Five Finger Mountain and although he found traces left by the Sect Master, he just couldn't find anyone, and the most crucial thing was that the Life Lamp left by the Sect Master had actually gone out.

The lamp is a candle flame left behind by every member of the Immortal Sect, once it is extinguished, it means death.

Shangguan Lan thought about it and finally clapped his hands, "Go to the Empty Mountain and invite out the Supreme Ancestor."

The two middle-aged beautiful women standing on either side immediately frowned.

"Elder Shangguan, the sect master has ordered that it is absolutely impossible to go to the Empty Mountain and disturb the Supreme Ancestor." One beautiful woman had a slightly chubby body, but was circumspect in appearance, with a snow-white complexion, and looked gentle and atmospheric.

Shangguan Lan's brow was heavy with hostility as she sneered, "Elder Bai, the sect master's life-light has gone out, so if we don't invite the Supreme Ancestor, will we pick a new sect master among us to take over?"

"Although the sect master's life-light has gone out, neither the corpse nor the Kun Wu sword has appeared, so it doesn't necessarily mean that he has fallen." Another beautiful woman also said.

Shangguan Lan continued to sneer, "You guys don't try to press me, I'm not interested in the position of Sect Master because I know very well that I don't have the strength to complete the great plan of aura recovery, but Elder Tai Shang is strong enough to take the position of Sect Master, both in terms of seniority and strength."

"But" The beautiful woman still wanted to say something.

Shangguan Lan sternly shouted, "You two don't have to say anything, this time the Sect Master can die at Jiang Qin's hands, so can we, so can the rest of the Immortal Sect, if we don't bring in the Great Supreme Ancestor to sit in the town, not to mention the Aura recovery, even our Immortal Sect will be in danger of being destroyed, are you two really willing to see the Immortal Sect destroyed?"

These words were too heavy, and although the two beautiful women were full of tangled faces, they were ultimately unable to refute them.

The group set off for Hollow Mountain, which was the Immortal Sect's holy place and where the prisoners of past generations were held.

The Immortal Sect's trip still attracted the attention of the Dragon Shield, which after all was now placing drones everywhere to constantly monitor the movements of the Immortal Sect and the Jiang family.

This time the Immortal Sect was almost out in force, so it would be strange if the Dragon Shield did not find out.

But they soon lost track of everyone, and it looked like the Immortal Sect was deliberately hiding.

But with the nest out, the direction is almost clear, it just takes time to find the exact location.

Also this was one before and one after, so maybe by the time Dragon Shield found out where the other side had gone, the Immortal Sect would have long since left.

Three days later, after analysing a place based on the data, Ye Xing went to the Dragon Shield stronghold to start a discussion.

This time, he called both Zhang Yue'er and Zhu Xiaohong, so that the two of them could feel the atmosphere of the Dragon Shield.

What he didn't expect was Zhu Xiaohong's face changing drastically, saying that she was very uncomfortable.

Ye Xing asked Zhang Yue'er to accompany her down to rest, after the discussion meeting, as the master naturally had to go to check the situation.

When he came to Zhu Xiaohong's house, the person was sitting by the bed and fuming.

"Aunt came?"

Zhu Xiaohong blushed and shook her head down.

Ye Xing approached over, and without any nonsense, grabbed her wrist and looked at her pulse, and found that there was no problem with her good health ah.

"Is it because of the murder before that you are not in good spirits?"

"I have nightmares at night, so I'm just not feeling too well."

"It's like that the first time you killed someone, but you have to open your heart, the person you killed was a bad person, you belonged to self-defence, don't have a psychological burden, I'll ask Zhang Yue'er to accompany you at night."

"Master, no need to go to that trouble, I'm just homesick and want to make a trip back."

"You should also go home to see your parents, I'll arrange for someone to send you there."

"Master, I can do it by myself, don't worry about it."

Ye Xing nodded his head down, then left the house.

Zhu Xiaohong's face was gloomy, then she packed her luggage and left, only for Zhang Yue'er to follow her not long after she walked out.

Zhang Yue'er was planning to carry some things to Zhu Xiaohong, the senior sister's home, but ended up following Zhu Xiaohong to the high speed train station and found that she wasn't even going in the direction of Wuzhishan.

"What is this Xiaohong doing if she's not going home?" Zhang Yue'er wondered up, but curiosity kept her following.

Zhu Xiaohong was desperate and if she didn't stop it, it was bound to send the Immortal Sect into chaos; the matter was too significant for her to risk.

The mountainous region where the Empty Mountain is located is also known by the name of Qinling.

It is a region that spans the north and south of China, with great differences in climate between the two sides, and the mountains stretch for thousands of miles, all reaching hundreds of miles in width.

There are countless mountains within the Qinling Mountains, each with a fancy name and many ancient legends.

This Empty Mountain is situated near an unassuming valley within the mountain range.

It is off the beaten track all year round, with only nearby medicine farmers entering the area.

Zhu Xiaohong was after all an ordinary person, and although she possessed a little Yuan Power, it could not be of much use.

When she reached the foot of the Qinling Mountains, her whole body felt dizzy beyond belief, and her seemingly good body was a bit overwhelmed after half an hour of mountain walking.

But this was still a full two days' hike away from the Hollow Mountains, and entering like this, I feared there was really no going back.

Suddenly, there were gasps of air coming from all around. Zhu Xiaohong looked around warily and soon she spotted where the gasps were coming from and immediately went after them.

Upon seeing Zhang Yue'er, Zhu Xiaohong was stunned, "How come it's you?"

"Senior sister, what are you doing here in the mountains instead of going home? I was afraid something would happen to you, I chased you for half a day and shouted for half a day, but you didn't answer."

Zhang Yue'er had been initiated earlier and had more Yuan Power in her body, which allowed her to adapt to the long trek.

Zhu Xiaohong's face changed, then she began to make up a story, and when she learned that Zhang Yue'er had come after her alone, a murderous aura suddenly appeared in her eyes.

"Sister, you can sit down for a while, I'll go and fetch some water."

Zhu Xiaohong twisted her head when she finished speaking and took a look at the ground, finding the stone and then quietly grabbing it in her hand.

Zhang Yue'er sat on the stone next to her to catch her breath, completely unaware that Zhu Xiaohong had approached behind her with the intention of making a move.

Zhu Xiaohong raised the stone and was about to drop it when suddenly a shout came from afar: "Zhu Xiaohong, Zhang Yue'er!"

Zhu Xiaohong heard that it was Ye Xing's voice and hurriedly dropped the stone in fear.

Ye Xing was indeed quick to spot this side, and led the men directly after him.

"Master."

Zhang Yue'er shouted with a smile on her face.

Ye Xing drank with a grim face, "Who told you to come here?"

"Master, I wanted to come to see if I could help, after all, I am familiar with the Great Mountain."

Zhu Xiaohong frowned and made up an excuse.

Naturally, Ye Xing wouldn't believe it, but this Zhu Xiaohong had a clean background, so it didn't seem like there should be a problem.

"You two have this down for you first."

Ye Xing asked the technicians behind him when he finished.

The Immortal Sect had already been traced within the Qinling Mountains, and the valley they were currently in, was the Hollow Mountain.

Zhu Xiaohong was inwardly anxious, but it seemed to have become a foregone conclusion and there was no way to change it.

Ye Xing led the men towards the mountain, and Zhu Xiaohong and Zhang Yue'er went along with him.

When they arrived outside the valley, they found a thick fog inside, which looked very strange.

But soon, the sound of a rumbling helicopter came from the sky, only to see several beautiful women in field combat uniforms descending from the sky.

Those who came were none other than Qiao Lily, Du Jiuniang, Lin Wei and Luo Xiaoyun.

Dragon Shield was currently the main combatant, or this group of ladies, making Ye Xing sigh a little bit of yin and yang.

Chapter 447

After the four of them landed, instantly the Yin Qi became heavier.

Ye Xing frowned and asked, "What's the situation inside the valley?"

Lin Wei replied, "We have just circled around, the valley is shrouded in white mist, it is difficult to see the exact situation clearly, but according to our instrument analysis, the temperature and environment inside the valley is a bit different from the outside."

"Let's go in and take a look, people from the Immortal Sect have gathered here, there might be some kind of conspiracy."

With a wave of Ye Xing's hand, everyone headed inside the valley.

Zhu Xiaohong kept her head down and did not say a word, staying next to Zhang Yue'er.

As the group entered the deepest part of the valley, their vision suddenly opened up.

There was a small stream below, while the banks were lined with flowers and greenery, but at the end of the stream was a huge cave, with countless vines dropping down from above it, forming a green curtain.

Ye Xing let the drone go in first to check the situation. Inside the cave, the lights were bright at this time, and with the countless light cast down from the cave roof, the whole cave was not gloomy.

But over the cave's rock walls on both sides, there were actually countless cell-like existences.

Each cell was a dozen metres above the ground, and the outside was blocked off with iron.

Inside the largest cell, there was no blockade, but a clattering sound came from inside.

Shangguan Lan and the others were standing below, they had all been waiting for a long time, but the Supreme Ancestor still did not come out.

Finally the clattering sounded and a woman with long, stooped hair came out of the cell.

She was dressed in long grey linen clothes, her hair fell to her waist and her hands and feet were bound with thick iron chains.

Coming outside into the open space, she tilted her head and smiled fiercely, "I didn't expect you guys to remember me, did that bitch Prosperity ask you to come and kill me?"

Shangguan Lan stepped out and drank, "Elder Tai Shang, the Sect Master has fallen, we are here to welcome you back to the Immortal Sect and preside over the big picture!"

The long-haired woman froze, then burst out laughing, "That bitch Prosperous is finally dead, I predicted that she would be doomed, I never thought it would come true in less than five years, hahaha, good death."

The others in the Immortal Sect were extremely uncomfortable, because in their hearts, Immortal Ziyou was like a goddess, and no one wanted to have her abused.

Shangguan Lan advised, "Old Ancestor, come back to the Immortal Sect with us, so many disciples are waiting for you to lead the revival of the Immortal Sect."

"Prosperity's plan, is it to open the ancient formation and bring back the aura?" The long-haired woman laughed coldly.

"That's right, when the ancient formation is opened and the aura revives, the Immortal Sect will definitely benefit and become the number one power of the human race by then." Shangguan Lan excitedly and incomparably stated the grand wish.

The long-haired woman sneered, "With the revival of spiritual energy, not only will the Immortal Sect benefit, but other cultivators will also have to benefit, and the effect will be slow, then even if the spiritual energy revives to the ancient times, we will still have to keep cultivating hard to make progress, it is not as fast as practicing the forbidden method."

"Forbidden method?" Shangguan Lan froze.

The long-haired woman dragged the chain a few steps and said proudly, "Back then, I studied the spells handed down by the Immortal Sect, and two of the forbidden arts were extremely powerful, but also dangerous, I spent my life studying and finally perfected these two forbidden arts. You all want to raise your cultivation level quickly, don't you? If you cultivate this forbidden method, you will be able to raise a realm in three years at most."

"What? That fast?" Shangguan Lan was astonished.

The two beautiful women next to her frowned, they both knew exactly what the old ancestor was talking about, these things had actually been mentioned to them by the Free and Easy Fairy, practising

the forbidden technique was tantamount to exterminating humanity, from now on becoming devils who would do anything just for the sake of cultivation, no different from those devilish cultivators.

“Elder Shangguan, this matter cannot be done, the sect master has mentioned that although the forbidden arts are extremely fast in cultivation progress, they have the disadvantage of confusing the mind, and once you make a mistake, you will definitely suffer from it and also kill the innocent by any means.” A beautiful woman said as soon as she stepped out.

Another nodded in agreement, “We’d better leave quickly, since the Supreme Elder isn’t interested in taking over the Immortal Sect, it’s better to continue to abide by the sect master’s wishes.”

“Haha, what do you two juniors know, my forbidden art has been perfected, there would be no possibility of it affecting my mind, otherwise why else would I be fine?” The long-haired woman laughed in triumph.

Shangguan Lan was also at a loss for words when suddenly, there was a commotion from outside, only to see a group of oddly shaped faceless people appear.

They were thin and small, and their bodies seemed to be covered in a layer of dark red skin, with only their eyes, mouths and noses showing.

They all looked terrifying, as if they were from hell.

As soon as the Faceless Men arrived, they instantly surrounded the dozens of people from the Immortal Sect.

There were hundreds of Immortal Sect disciples, but in order to divert attention, Shangguan Lan divided his troops into several directions, so that only their group could enter Hollow Mountain.

“Haha, since they are all here, don’t even think about leaving, these are my minions, they have long been eager to feed on the blood of the fairy.” The long-haired woman suddenly lifted her long hair, revealing a face just like the Faceless Man’s.

“Not good, they’re all demon cultivators!” The beautiful woman shouted and drew her sharp sword straight away.

The other disciples of the Immortal Sect were not willing to be outdone and drew their weapons. Shangguan Lan was stunned to see this scene, he had expected to come to seek rescue, but he had actually been ambushed.

The devil cultivators and the Tai Shang Ancestor were in cahoots, and it looked like this Tai Shang Ancestor was really evil beyond compare.

“Kill them out.” Shangguan Lan roared.

The fairies quickly moved towards the faceless people, but unfortunately, these faceless people were extremely fast, and when a sword was stabbed, they actually did not know the pain, and no blood came out even when the sword was stuck into their bodies, as if they were all rubber people.

“Don’t let one go, suck the blood and marrow of these fairies properly, so that all of your Phaseless Demon Technique can break through quickly, hahaha

The long-haired woman raised her hands high, and all of a sudden a stream of blue qi mist emerged from the ground around her.

These blue gas mist looks beautiful, but contains toxicity, that even the fairy of the Immortal Sect inhaled a mouthful, also hurried dizziness, hallucinations in front of the eyes.

The faceless man, on the other hand, was not affected at all and quickly lunged forward.

The two sides went back and forth, killing each other, but unfortunately, although there were only a dozen of the Faceless Men, they just couldn't get killed.

Ye Xing was also delighted to see the images coming back from the drone, the Immortal Sect and the Demon Cultivator were dog-eat-dog, wasn't this the best ending?

"Should we do it?" Qiao Baihe asked.

Ye Xing shook his head and smiled, "Wait until they have a good fight for a while, seal off the vicinity and set up firepower at all the exits."

Lin Wei ordered down and the technicians began to inform the other squads to surround them.

A helicopter appeared in the sky with a large number of armed men and began to blockade the vicinity. As Dragon Shield made more and more contributions, Kitano's side also gave a lot of support, and the previous first squad not only expanded, but also developed into a third squad, each squad member was a king among soldiers with amazing combat power.

Chapter 448

Just as this side was being set up, Zhu Xiaohong suddenly disappeared.

Zhang Yue'er was the first to notice and turned her head to run and said, "Master, junior sister is missing."

Ye Xing asked everyone to look to see if they had been discovered by the other side and had started to enter the encirclement.

But there was no whereabouts at all, Ye Xing frowned and said, "Let's split up and go look for them, remember not to alert the snake, if you find an accident, evacuate immediately."

The others nodded, and Ye Xing walked alone towards the valley below.

The valley was filled with fog, and apart from the small stream which was clearly visible, the visibility was basically less than three metres.

Ye Xing did not dare to shout either, and could only advance cautiously towards the inside.

When he finally arrived near the cave, he did not dare to rush in, and climbed up the side slope to the top of the cave to have a look before saying anything.

As a result, after walking a little way up the mountain above the cave, he suddenly heard a faint gasp.

Ye Xing hurriedly followed the sound and found Zhu Xiaohong on the ground, with a black python wrapped around her neck.

Her face was blue and her hands were choking the python by its neck.

One person and one snake were constantly battling to see who would conquer the other first.

But judging from the size and strength of the python, it was definitely the last to win.

When Ye Xing arrived, Zhu Xiaohong was all but breathing.

He hurriedly pierced the python's head through, and then let go of its body.

Zhu Xiaohong had already turned purple and was having difficulty breathing. Ye Xing hurriedly gave her a full body massage to revitalise the blood.

Zhu Xiaohong finally woke up, but her face was still purple.

Ye Xing felt that something was wrong, and on closer inspection, there were still tooth marks on her thighs.

This kind of python is usually non-poisonous, so why would it make Zhu Xiaohong look like she had been poisoned?

Ye Xing looked around, and only then did he find that there was actually a colourful poisonous snake on the big tree next to him.

When the snake found that Ye Xing was looking at it, it slithered away smartly.

When Ye Xing saw that it was snake poison, he immediately tore Zhu Xiaohong's trousers and put his mouth to the already blackened wound and sucked it up.

After finally washing the snake poison away, Ye Xing fed Zhu Xiaohong another quarter of Peiyuan Dan.

The medicinal power of the Peiyuan Dan spread out, and together with the Yuan Power in Zhu Xiaohong's body, the remaining poison in her body was quickly dispelled.

Zhu Xiaohong's face rolled and her body continued to sweat as the residual poison was expelled with the sweat.

However, she soon lost her spiritual wisdom and actually hugged Ye Xing and kissed him madly.

Ye Xing was dumbfounded, this snake poison still had this effect, it was too terrible.

Ye Xing managed to break free, but he also made a mess of himself, so he picked up Zhu Xiaohong and went down.

When he came to the edge of the stream, Ye Xing shoved the person into the cold stream water to calm down.

The cold water wrapped around Zhu Xiaohong's whole body, and she finally regained her wisdom, and her whole body quickly cooled down.

Zhu Xiaohong came to her senses, looked at Ye Xing, then looked at herself, let out a scream of aghast, and then the whole person slapped out in anger.

Ye Xing blocked it with one hand and explained with a frown, "I was also helping you with the poison, who knew that the snake poison you had was so evil that it had actually made you confused."

When Zhu Xiaohong thought back, it was really like that, the whole person was ashamed and angry, the most crucial thing was that her clothes were not in order and her body was seen naked by the other party, it really ruined so many years of Taoism.

Ye Xing walked up to the shore and looked around, there was nothing suitable clothes, so he could only build a fire for her to dry her clothes first.

Zhu Xiaohong was shy and had no other choice. After all, the clothes she was wearing were thin, and after the stream water had wet them, they were so close to her body that it was impossible to keep them from being seen.

One by one, the clothes were thrown ashore from the river, and Ye Xing slowly roasted them over the fire.

Twenty minutes later, it was also almost roasted, and Zhu Xiaohong didn't even dare to look at Ye Xing in her crumpled clothes.

"Come on, let's go back and see what's happening inside the cave?" Ye Xing said and left, but Zhu Xiaohong didn't move a muscle.

Only then did she remember why she had run out alone, just to go into the cave to stop it, but it turned out that so much time had passed that she was afraid it was all too late.

Zhu Xiaohong had a hard time and looked at Ye Xing with mixed emotions. She hated to kill the other party, but she didn't have the ability to do so, but the blood feud was all because of him, and this debt had nothing to do with him.

When Ye Xing saw that Zhu Xiaohong was not moving, he thought that she had not yet recovered and her body was not convenient for walking, so he approached her, picked her up and ran away.

"You put me down."

"Alright, stay honestly, remember that you only entered the Dragon Shield, I won't blame you this time, but there is a next time, see how I will clean you up."

Zhu Xiaohong's face was red and she was as helpless as a helpless little girl in Ye Xing's arms.

Only when he arrived at the lurking place did Ye Xing put the people down and went over close enough to ask, then he learned that the people from the Immortal Sect had still broken out, but at the cost of four people.

And those four fairies had by now been dragged into the dungeon by those faceless people, their lives and deaths unknown.

"No good, that woman has broken the chains."

Everyone looked over, and within the surveillance screen, the long-haired faceless woman had broken the chains, and the whole person walked out of the dungeon where she had been imprisoned for years with great triumph.

She let out a fierce laugh from the sky, and then led the faceless man to leave quickly from within a tunnel.

Ye Xing and the others quickly entered the cave and took a lot of time to get to that one dungeon location.

Finally four corpses were found, looking extremely miserable.

Firstly, their entire bodies had been drained of blood, then their chests had been cut open and many of their internal organs were missing, and their heads had been smashed and their brains had been removed.

Such a miserable state was simply vomit-inducing to watch.

Ye Xing still had to gather clues and all of them launched an investigation to turn this dungeon upside down.

There were so many skeletons buried here, and so much information left behind, that it was almost certain that this was the dungeon where the Immortal Sect kept its prisoners.

And this faceless woman was an Elder of the Immortal Sect, but because of her practice of forbidden arts, the Free Fairy had imprisoned her.

Not knowing the situation, the others of the Immortal Sect ran to the dungeon to look for her, but ended up getting four killed instead. With the Yuan Qi of these fairies adding to her, this evil eunuch broke free of the chains to escape.

Ye Xing looked at the iron chain and became interested, actually able to trap an immortal sect expert, this chain might be some kind of magic weapon.

The iron chain was taken away, the valuable things and the corpse were taken away, and Ye Xing and the others left the empty mountain.

And although Shangguan Lan and the others broke out, they were always under the surveillance of the drones.

Ye Xing suddenly wanted to kill them all in one go, after all, it was a once and for all thing.

But after taking stock of the strength of both sides, it seemed like he really wasn't sure he could eat the other side all together.

If this remaining group of fairies set fire on themselves alone, it would be dangerous!

"Forget it, don't alarm them."

Ye Xing and the others returned to Guangnan Province City, and the first thing they did when they arrived at the stronghold was to start settling scores after the fall.

Zhu Xiaohong had already violated the rules by acting without permission, even if she possessed a spiritual root, she still had to be punished.

Chapter 449

Ye Xing punished her with a month's confinement, effective immediately.

Zhu Xiaohong stayed in the confined room and was unable to get in or out.

If it was before, she could easily leave the room, but now she can't do it at all, and she can't even break open the iron door.

In the evening, Zhang Yue'er came to see her, bringing with her a lot of goodies.

Zhu Xiaohong saw Zhang Yue'er being so kind to herself and constantly comforting herself, and felt guilty, after all, she had killed Zhang Yue'er before, such a simple little girl, and had done nothing wrong, but she wanted her life instead, I really don't know what she thought at that time, fortunately she didn't make a big mistake.

"Xiaohong, in fact, Master is quite concerned about you, he asked me to bring you these things, saying that you are injured by poisoning, it is not easy to recover without eating." Zhang Yue'er said.

When Zhu Xiaohong thought of Ye Xing, her expression instantly changed drastically, inwardly she hated to strangle that bastard.

"Senior sister, when will you let me out, you won't really have to lock me up for a month, will you?" Zhu Xiaohong asked fearfully.

Zhang Yue'er laughed, "A month definitely won't, but ten or so days will have to be locked up."

"No, ten days or so is too long." Zhu Xiaohong had things on her mind and had to deal with them personally right away, or else thousands of years of hard work would have to be ruined.

Only then did she realise that although Shangguan Lan was a desperate officer, she was really stupid in terms of planning and planning, and had actually presumed to go to Mo Qianyun to lead the Immortal Sect to recover its spiritual energy.

If Mo Qianyun was really capable of doing that, why would she have imprisoned her back then?

"The Immortal Sect's top priority is to cultivate their bodies and nourish themselves, and all disciples should close down and cultivate, slowly looking for a way out."

Zhu Xiaohong was helpless after saying that, after all, she could not get out herself.

Ye Xing returned to the villa, Luo Xiaoyun was already asleep on the living room sofa, when she heard the movement, the first thing she did was to get up and found that it was Ye Xing, her face was full of disappointment.

"You go back, I'll wait for my wife at home." Ye Xing was actually looking at Luo Xiaoyun's low spirits and told her to go back and get some rest.

"No, Xue'er was lost in my hands, I must wait for her to return."

“You say that as if my wife is a dog.”

“You are not allowed to insult Cher.”

“Okay, I’m going upstairs to rest, do you want to join me?”

“Go to hell, Cher must have left home knowing you’re a bastard who doesn’t do good things.”

“Maybe she knew her bestie was hooking up with her husband and got pissed off and ran away from home?”

“Bastard.”

Ye Xing smiled and went upstairs to meditate.

Although it was hard in his heart, he still had to live his life, and Ye Xing continued to cultivate Tidal Wave Power.

Currently, Tidal Wave Power had come to the second layer, and the internal energy that he could exert could reach as much as ten heavies, and if he broke through to the third layer, I was afraid that it would be doubled.

With a twenty-fold power of internal energy, even an eighth-grade sect master would have to drink it.

Ye Xing had to strengthen his cultivation, now not only was the Immortal Sect undecided, but there was also a demon cultivator who seemed to be more powerful than the Free Fairy, if he didn’t strengthen himself, I was afraid that in the future he would really become a dish and fall into the hands of others, then there would be no way to survive.

After three days in the villa, news suddenly came that Zhu Xiaohong had health problems and was sent to the hospital.

At least it was his own disciple, so Ye Xing left the villa to visit the hospital.

As a result, when he arrived at the hospital bed, the person was gone and Zhang Yue’er had a self-conscious look on her face.

“What’s going on?” Ye Xing asked when he looked at her.

“Master, I just went to buy fruit for Xiao Hong, who knew that as soon as I came back, the person was gone.” Zhang Yue’er cried with difficulty and said, “Could Xiaohong have been taken away by the bad guys?”

“It’s alright, I’ll have someone check.” Ye Xing called back to Dragon Shield.

The technical staff quickly found Zhu Xiaohong’s location, the person was at the airport.

Ye Xing was a bit puzzled, and kept thinking back to this mysterious Zhu Xiaohong along the way, a rural chick who not only did odd things, but was also a ghost.

It is reasonable to say that she is eighteen years old, has never lived in a big city, it is difficult to take a car, why would she be so skilled, one moment to take the high speed train to Qinling, and the next to the airport?

Ye Xing became increasingly suspicious and hurried to the airport, where he soon found her in the waiting room.

Previously, in order to prevent the mysterious disappearance of his men, Dragon Shield had installed a subcutaneous location system on each of them.

Ye Xing looked at the anxious Zhu Xiaohong, who was actually sitting on a chair with her eyes closed, completely unlike an eighteen-year-old.

Ye Xing started to look up the information and found that Zhu Xiaohong came from Five Finger Mountain.

He wondered if there was something to do with Five Finger Mountain?

The Immortal Fairy of Prosperity and Jiang's family had a big battle at Five Finger Mountain, then both sides disappeared, the Immortal Sect had not even found the whereabouts of the Immortal Fairy of Prosperity, and suddenly a mysterious Zhu Xiaohong appeared, could it be that they had some connection?

Ye Xing had seen the Fairy of Easy, so he naturally thought that Zhu Xiaohong could not be the Fairy of Easy, after all, a person's face can be disguised, but there is no way the body can be exactly the same.

The radio started to notify the ticket check, Ye Xing hesitated for half a day, but still let Zhu Xiaohong leave.

He wanted to see whether this little girl was a human or a ghost, and how much she was hiding.

Ye Xing got the flight information and immediately went to Yalong City.

Yalong City was the hottest tourist destination in the country, hot all year round, with the mainland at its back, at the very tip of the island.

It would take Ye Xing more than three hours to fly there by helicopter, but fortunately there was a chip to track him, plus a little delay in leaving the airport, enough for him to follow Zhu Xiaohong within Yalong City.

Three hours later, on a beach in Yalong, Zhu Xiaohong was negotiating a price for a speedboat, and the owner of the speedboat, seeing that she was young and pretty, naturally agreed.

Not long after the speedboat set off, Ye Xing's speedboat followed the other side.

He soon found that the speedboat had left the offshore waters and was heading more and more towards the open sea.

Ye Xing took a look with his binoculars and saw that Zhu Xiaohong was the only one left on the speedboat, the boss was nowhere to be found.

Ye Xing followed from afar and found that Zhu Xiaohong was actually targeting an isolated island.

It was said to be an isolated island, but it was actually quite large, only that it was far away from the mainland, and the island was no longer inhabited, and now it had become a landing place to go out to sea.

The suspicion in Ye Xing's heart was getting heavier and heavier, this chick was definitely not Zhu Xiaohong.

A rural girl who had just dropped out of high school, how could she know so many things.

But to say that someone was counterfeiting, it didn't look like that either. After all, Ye Xing could have touched many parts of Zhu Xiaohong's body, and they were definitely the features of a young girl.

When Ye Xing was puzzled, Zhu Xiaohong's speedboat was already on the isolated island.

Ye Xing brought the speedboat closer and found that there was a young man lying inside the speedboat, the owner of the speedboat.

He was not dead, but he had fainted.

Ye Xing got off the boat and followed Zhu Xiaohong for half an hour to a dense jungle.

When Zhu Xiaohong suddenly lost her whereabouts, Ye Xing went after her and found a secret passage in the grass.

She entered the secret passage and gingerly approached the front.

Zhu Xiaohong had difficulty walking in the secret passage, after all, her body was too weak nowadays, and she couldn't bear it after half an hour of non-stop hoofing, panting heavily.

Chapter 450

Ye Xing quickly chased her to her location and did not approach for fear of alerting the snake.

Zhu Xiaohong finally arrived at the place where she was going and opened the moss-covered mechanism, the stone door opened and she entered the door with difficulty.

Ye Xing came there and also went in, and instantly found that inside the stone door was a room made of blocks of rock.

Following the room towards the inside was an ancient canal.

The tunnel was all made of rocks, smooth but very rough and simple. For a secret passage to exist for so many years, it was evident that it was built by the ancients.

Ye Xing continued to follow Zhu Xiaohong, this girl was very familiar with this place, and soon came to a room with a skylight, she opened a camphor wood box, took out clothes from inside and started to change.

Ye Xing took a glance at it and did not dare to look at it.

But when Zhu Xiaohong finished dressing up, she found that the clothes she was wearing and the way she was dressed were not any different from the Easy Fairy.

Ye Xing already suspected that this chick was the Easy Fairy, but why was her body all different?

Although he didn't know what was going on, Ye Xing felt that it was time to make a move.

Zhu Xiaohong was satisfied after dressing up and even took out a small wooden box from inside the camphor wood box, opened it and swallowed a pill.

She closed her eyes and began to run her body's Yuan Power, but unfortunately, wow, she spat out a mouthful of blood straight away.

Zhu Xiaohong almost sat limply on the wooden bed, she couldn't believe it and muttered open-mouthed, "This body is too weak, actually it can't even digest a Punch Cloud Pill."

Ye Xing didn't get excited after looking at it, Zhu Xiaohong still had the medicinal power of the Peiyuan Dan in her body, so if she went to take another pill at this time, the medicinal power would clash with each other and something would definitely happen.

This girl is afraid that she is also anxious, forcing herself to improve their strength, but unfortunately things are not what they want, this is good, again suffer internal injuries, see what else she can play.

There was movement outside the house, a rustling of strange sounds.

Ye Xing also smelled a smell of blood and instantly thought if it was a demonic cultivator.

Sure enough a faceless man was walking with his back hunched over and his hands on the ground at all times, the whole thing turning into a humanoid monster with limbs on the ground.

These faceless people have well-developed eyesight and hearing, and immediately came to check out the situation in this room.

Ye Xing hid and closed his breath, the Faceless Men did not notice him and quickly burrowed into the house.

The faceless man stuck out its thin, blood-red tongue with a greedy face.

These monsters cared extremely much about immortal cultivators who possessed Yuan Power, and absorbing the blood and marrow of a cultivator was extremely beneficial to their cultivation advancement.

At this moment, although Zhu Xiaohong did not have much Yuan Power, she was also someone with spiritual roots, and in the eyes of the faceless man, this was the perfect food.

Zhu Xiaohong was stunned, her indiscriminate use of medicine had caused her to suffer internal injuries and she was unable to move at all, the most crucial thing was why a demonic cultivator monster like the Faceless Man had appeared within the Immortal Sect's island cave.

"Mo Qian Yun, you actually bloodied the Immortal Sect, in my lifetime, I will definitely bruise you to death." Zhu Xiaohong let out a spiteful curse, her eyes flowing with blood tears.

This scene startled the faceless man, and then the naked eye could see Zhu Xiaohong's full black hair turning a faint red.

The white head overnight had only been seen in legends, but this instant blood hair was indeed seen with my own eyes.

Ye Xing was all stunned, it was really the Fairy of Prosperity, this resentment was really scary enough, but it seemed like she was in for a ride now.

The Faceless Man pounced over, grabbed Zhu Xiaohong's shoulders with both hands, his mouth split wide open, revealing a mouth full of sharp teeth, about to bite her throat through.

Suddenly, the Faceless Man's head was cut off by a sharp blade, and Zhu Xiaohong pushed the headless corpse away as soon as she looked up and saw Ye Xing.

Ye Xing retrieved his dagger and looked at her and smiled coldly, "Come with me or die here."

"I would rather die here than go with you." Zhu Xiaohong said viciously.

"Please don't kill us, we are willing to be slaves and maidservants to you!"

"Old ancestor spare our lives, we are willing to become devil cultivators, we are willing to submit to you."

"Haha, it's too late, what use do I have for you wastes? I might as well feed you to those minions of mine, when they are strong, no one in this world can stop me, all the Yuan Qi within the four ancient formations will allow me to break through my cultivation and ascend to the immortal path!"

A sardonic laughing voice came from outside the room, followed by the cries of misery stopping as those begging Immortal Sect disciples died tragically.

Zhu Xiaohong was dripping blood with hatred, but unfortunately she no longer had the strength to run out.

Ye Xing dragged her up and ran out of the room, facing an existence of the level of the long-haired woman, he was not sure that he could survive either.

Ye Xing carried Zhu Xiaohong and fled through the secret passage, but unfortunately, the roar of the faceless man was already heard behind him.

By the time Ye Xing ran out of the secret passage and ran from the deserted mountain to the edge of the beach, the speedboat was actually gone.

At that moment, a long, strange whistling sound came from behind him, only to see the long-haired woman chasing out with a group of Faceless Men.

"So there are still fish in the net, unfortunately there is no way up here, no way down, be good and become food."

The long-haired woman, Mo Qian Yun, pointed her big hand and the faceless people frantically flew out, like a darting hunting dog, to tear Ye Xing and Zhu Xiaohong into pieces.

Ye Xing hugged Zhu Xiaohong and jumped into the seawater, swimming quickly towards the front.

A strange thing happened, those faceless people jumped into the water and actually returned to the shore with difficulty.

Their bodies were corroded by the seawater and they were all screaming in pain.

Ye Xing was happy when he saw it, so these guys were afraid of seawater.

Mo Qian Yun coldly shouted, "You think you can run away?"

This terrifying woman flew out and actually stepped on the water, rushing towards Ye Xing.

Ye Xing was desperate and threw out her flying dagger, Mo Qian Yun turned around to dodge the flying dagger.

"Is that all you've got?" With a big wave of Mo Qian Yun's hand, the flying dagger was frozen and soon turned into a big ice block that fell into the water.

Immediately afterwards, Mo Qian Yun waved her hand towards the sea, and instantly the seawater turned into a whirlpool, rolling Ye Xing and Zhu Xiaohong out of their sense of direction.

"She is practicing the Phaseless Demon Technique, we have to break her evil technique."

"How can I break it?" Ye Xing had no choice but to hug Zhu Xiaohong and stay close to her, so the two of them were almost talking close to each other's ears.

"Use the Seven Star Technique!"

"I don't know how!"

"The secret art of the Immortal Sect, of course you don't know it, I want you to excuse your Qi to me."

"How can I borrow it?"

"Don't say anything, just bring up your Yuan Power."

Ye Xing hurriedly ran the Yuan Power in his body, but as a result, Zhu Xiaohong actually came up with a mouthful, and the two of them came together mouth to mouth this time.

Zhu Xiaohong was blushing, and Ye Xing felt that the woman's mouth actually seemed to have a suction force, sucking his own Yuan Power.

Zhu Xiaohong's hands kept gesturing behind Ye Xing, faster and faster, and tears of blood were flowing from inside her eyes.

Suddenly, with a poof sound, seven balls of light shot out and killed towards Mo Qian Yun.

Mo Qianyun was extremely afraid of these seven balls of light and quickly dodged away, dodging and dodging on the surface of the sea, but eventually she was still hit by one of the balls of light.

Her whole body hurriedly returned to the shore, never daring to go down into the water again.
