

Chapter 463

This night is destined to be lively and extraordinary.

On the other side, Wu Qi subverted everyone's views. On the other side, Fredmen followed Barena Wei and hurried back to Wei's house without the three hundred-year-old purple ginseng.

Fredmen felt regretful and grateful for not being able to win the 300-year-old best purple ginseng at the auction. Unfortunately, the century-old purple ginseng is naturally not as good as the 300-year-old best purple ginseng. Fortunately, it is enough. Saved more than 90 million...

Barena Wei took him three hundred-year-old purple ginseng to a friend to buy them, and they spent three million in total, while Charlie spent 100 million on the three-hundred-year-old purple ginseng.

In comparison, he felt a lot more comfortable in an instant.

At this time, he only hoped that the Wei family's improved prescription would cure his stubborn disease.

Because this medicine placed the hope of the Wei family on the future, all the children of the Wei family were present. Even the head of the Wei family, Youngzheng Wei, came to the huge living room to supervise the scene, carrying his weak body.

Youngzheng Wei is in his sixties this year. Wearing a tunic suit with all white hair and pleats on his face, he swayed when he walked, and he couldn't even straighten his waist. At first glance, when he was young, women played too much, leading to blood loss.

Professor Ke, the chief pharmacist of the Wei family, instructed several assistants at this time. In the living room of the Wei family, micro-reactors, refining machines and centrifuges were placed in preparation for new prescriptions.

Although the three-hundred-year-old purple ginseng was not taken, Professor Ke decided to give it a try.

Because if this medicine really has to use 300-year-old purple ginseng, it will be difficult to mass produce it.

After all, this medicinal material is too expensive and too rare to find.

Therefore, if it can be proved that 100-year-old purple ginseng can be used, even lower purple ginseng can be used, then the production capacity can be greatly enhanced, and the cost can be greatly reduced.

The Wei family was extremely excited up and down.

Because if this medicine can be prepared smoothly and has the expected curative effect, it will be beyond the existence of Western medicine v!agra, and the Wei family may even become a world-class pharmaceutical company with this medicine!

v!agra, a chemical ingredient called sildenafil, has a very good effect on the treatment of weakened male functions. Its previous patent has been in the hands of the well-known American pharmaceutical company Ruihui.

With this drug, Ruihui has increased its market value by tens of billions!

In other words, this medicine has been sold globally, which has earned Ruihui hundreds of billions of dollars!

And if the Wei family's prescription is really done, it will not only improve the abilities of men, but more importantly, it can also regulate and improve the body of men. The effect will be better than that of v!agra!

At that time, once it is sold to the world, it will not make a profit?

Fredmen doesn't know how much profit this medicine will have in the future. What he thinks now is that if this medicine can cure him, he must find a few beautiful women and fight for three days and three nights nonstop!

During this period of time, it really made him want to die!

He looked at Professor Ke nervously. Professor Ke first weighed and distinguished the precious medicinal materials, and then put them into the centrifuge in order.

Professor Ke is a relatively powerful expert in integrated traditional Chinese and Western medicine in China. Traditional medicine uses a method of boiling. The effective ingredients are wasted and the purity is insufficient. Therefore, with the preparation of Western medicine reactors, centrifuges and other equipment, traditional medicine can be made with effective ingredients, the medicinal materials are well retained and purified.

Seeing Fredmen's nervous expression on the side, Youngzheng Wei smiled and said to Fredmen: "Fredmen, this is an improved new generation formula based on the top secret prescriptions of our Wei family. Professor Ke's calculations and speculations have completely eliminated them. All the toxic and side effects are genuine magical medicines at a reasonable price."

When Fredmen heard this, he couldn't help but looked excited, and said, "That's really great. I hope the efficacy of this medicine will not disappoint me."

Youngzheng Wei hurriedly patted his chest and said, "Don't worry, Fredmen, this medicine can definitely cure your stubborn illness. Before the formula was improved, I walked around the world and relied on this magic medicine. The ten women of the Japanese imperial family are not a problem."

Chapter 464

Fredmen was a little moved by the scene he described, and said: "Is it so magical?"

Youngzheng Wei said earnestly: "Fredmen, the magical medicine of our Wei family is three and four times as effective as v!agra. The improved formula is even more effective, even up to ten times!"

Fredmen suddenly felt ecstatic in his heart. There was such a miraculous effect. It seemed that his root disease could be completely cured in all likelihood.

At this time, Barena Wei asked curiously: "Father, if this medicine is mass-produced, wouldn't we be able to be sell it overseas and suppress all the foreign competitors?"

Youngzheng Wei waved his hand and said, "Of course, once mass production can be achieved, men all over the world will use my Wei family's magic drug. There is no such thing as the so-called competitors. There will only be one magic drug on the market. It is the magic medicine of my Wei family!"

Having said that, Youngzheng Wei said to Fredmen again: "I don't know if Fredmen has the intention to invest in Wei's pharmaceutical factory. If Fredmen is willing, he only needs to invest two or three billion, and can return 10 billion in income within a year!"

Fredmen was also very excited. The merchants valued profits, and he couldn't avoid them.

If the Wei family's magical medicine is really that powerful, it will definitely make money.

Therefore, Fredmen smiled and said: "If the effect of the medicine is real, it is only a billion investment, he can take it out at hand, but he has to see the effect of the medicine first."

Youngzheng Wei was waiting for his words. He immediately laughed and hurriedly said: "Fredmen, the first medicine will let you experience the effect first. If you feel good, let's talk about investment!"

However, Youngzheng Wei didn't know that Fredmen's illness could not be cured by ordinary drugs at all.

Moreover, although the so-called "magic medicine" of the Wei family has been improved, it is still unknown whether it is really effective or not without toxic side effects...

But at this time, Fredmen was thinking about reviving his vigor, and he could not even think about the consequences if the medicine failed.

At this time, he couldn't help but feel a little dry, and he couldn't wait to take Wei's magical medicine immediately.

At this time, Professor Ke has completed the preparation of the magic medicine.

Under the action of the centrifuge, all the medicinal ingredients were separated and finally purified into a bowl of deep purple soup.

"Mr. Youngzheng Wei, the new medicine has been deployed!"

Professor Ke took the medicinal soup and placed it in front of everyone.

A faint medicinal fragrance immediately appeared in the air, which made people feel feverish and dry mouth and tongue.

It seems that this medicine is really strong!

Youngzheng Wei looked at Fredmen and said with a smile: "Fredmen, please take this medicine."

Fredmen was already impatient, he looked at the soup with fiery eyes, and swallowed.

These days, it is too hard to endure the pain of living eunuchs.

Not only the physical pain, but also the psychological shock also made Fredmen tortured.

Fortunately, God pitied himself and let himself catch up with Wei's magical medicine!

It seems that today he can finally regain the power!
