

Chapter 469

Fredmen left the People's Hospital with great anger and rushed towards Wei's house with his two bodyguards.

As soon as he arrived at the door of Wei's house, a member of the Wei family hurriedly greeted him and asked flatly, "Fredmen, why are you here so late..."

However, Fredmen looked at him gloomily, slapped him over, and roared, "Get out of here!"

The anger and humiliation in his heart at the moment, like a boiling active volcano, may erupt at any time!

Immediately, Fredmen took two bodyguards and walked into the gate of Wei's house. As soon as he entered the yard, he said viciously: "Youngzheng Wei, get out of here! One step later, I will kill you!"

With Fredmen's roar, the entire Wei family suddenly jumped.

Not long after, Youngzheng Wei didn't wear his clothes properly, and he walked out hurriedly, supported by Barena Wei.

When he came out to look at Fredmen, who was full of anger, he also looked surprised and quickly asked: "Mr. Willson, what are you doing? You just took medicine and restored your former glory. Isn't it right that you should be upset at home??"

"Turn the dragon to the phoenix? I turn your mother!"

Fredmen observed at Youngzheng Wei and pointed at Youngzheng Wei and said, "You immortal, dare you to use me as a guinea pig and try your Wei family's broken medicine! Now my roots are rotten, if you don't give me Solve it, I will f*cking destroyed your Wei family!"

Youngzheng Wei's brain buzzed, and he immediately understood Fredmen's words. The co-author had a problem with taking medicine.

So he hurriedly calmed and said: "Mr. Willson, this must be a misunderstanding, a misunderstanding! Listen to my explanation, our Wei family is also very kind, and never think of you as a guinea pig, but you happen to have this need. Thinking that the medicine will be produced and let you take it first is entirely out of concern for you."

Shaking with anger, Fredmen took off his trousers in public, his eyes were cold and scary, and he pointed to the place where he had festered, and said: "It's f*cking so bad that it's going to be amputated. You tell me this is a misunderstanding?"

Youngzheng Wei's eyes didn't work well, so he rubbed his eyes carefully. Under this look, he immediately clamped his legs subconsciously!

His eldest son Barena Wei and illegitimate son Liang Wei were watching them, and their faces were equally scared.

d*mn it!

It really sucks!

How could this be?

He doesn't blame Fredmen for delivering the goods. What will be the replacement?

Barena Wei hurriedly said, "Brother Willson, don't be angry...maybe the effect of the medicine has not been fully developed, you can wait two days to see..."

Wait two more days? I don't need to go to the f*cking hospital anymore, it just sucks!

Fredmen lifted his pants and yelled at Barena Wei furiously: "Wait for your mother, I will blame you as a fool. If you hadn't lied to me, saying that your Wei family medicine could cure me, I wouldn't end up like this! "

After he finished speaking, he said to the two bodyguards around him: "Give me one of his hands first!"

These two bodyguards are both good players.

At first he brought six bodyguards to Aurous Hill, but Charlie abolished four of them, and now only these two remain.

However, even if there are only two bodyguards left, the Wei family dare not fight against him!

After all, Fredmen is the chairman of Future Company Group, and his strength is much stronger than that of the Wei family.

Chapter 470

The Wei family originally hoped that the new medicine would allow them to rise, but now it seems that the new medicine is not as good as the old one!

At least the old medicine will not make people rot, at most, it is a little liver and kidney toxicity for many years.

Therefore, if Fredmen really wants to fight the Wei family, the strength of the Wei family is indeed not enough.

At this time, Fredmen's two bodyguards came forward and directly grabbed Barena Wei. It was useless to let him cry for mercy. He snapped his right hand with a click, and folded it into a strange angle. , People can't help but straighten their hair.

"My hand hurts so much..."

Youngzheng Wei was angry and frightened in his heart. Barena Wei was his eldest son and his most beloved son. However, seeing his son's hand being broken, he dared not speak.

At this time, the pharmacist Professor Ke also rushed over and said: "Mr. Youngzheng Wei, Fredmen, what's the situation?"

Fredmen looked back and couldn't help but sneered: "You b@stard, you just came here, calling me!!"

Professor Ke was dumbfounded and said, "Fredmen, misunderstanding, I cured your illness, didn't you say you want to gift me the villa?"

Fredmen sneered and said, "I will send you to live in a villa in the Hell Temple!"

The bodyguard pushed Professor Ke to the ground, and it crackled like a hammer. One of them hit his temple with a punch. Professor Ke rolled his eyes and passed out.

At this time, the entire Wei family was frightened, and Fredmen was really cruel!

In fact, Fredmen is not to blame. From losing his ability to now beginning to fester, his whole body and mind have suffered a huge blow that ordinary people can't imagine.

If he really needs to be amputated, he will be completely crazy.

Fredmen was still puzzled at this moment. He stepped forward, grabbed Youngzheng Wei by the collar, and threatened: "I will give you two ways now. One, I will destroy your Wei family now, and two, immediately take my illness and cure it, which one do you choose?"

Youngzheng Wei's face was extremely pale, and he begged: "Mr. Willson spared me, I will choose the second one. We, the Wei family, must find a way to cure your illness!"

Fredmen asked in a cold voice: "How long will it take to get it done? If my roots are really not preserved, I will let people kill you! I want you to be buried with the Wei family!"

Youngzheng Wei nodded as if pounding garlic and blurted out: "We also have many very powerful doctors in the Wei family. I will let them come over and give you anti-bacterial and anti-inflammatory treatment first. It should be able to persist for a while!"

Fredmen sat down on the main seat of the sofa in the living room and said coldly, "Hurry up and find the doctor!"

Youngzheng Wei did not dare to delay, and quickly asked Barena Wei to contact the team of doctors from Wei's Pharmaceuticals to come over.

After the doctor came over, they immediately infused Fredmen with antibiotics, and then treated the ulceration part. However, the doctors of the Wei family agreed with the doctors of the People's Hospital that simply antibacterial and anti-inflammatory cannot solve the problem, but can only delay the speed of the ulceration, but, The end result is amputation.

Fortunately, through processing, it can be delayed for a few days.

In a few days, if the Wei family could not find a cure for Fredmen, Fredmen still had to undergo amputation.

After Fredmen infused the liquid, he said to the Wei family: "I will give you one day. If it can't be solved by tomorrow night, the Wei family will not need to exist in the future!"

Youngzheng Wei complied with a full mouth and respectfully said: "Chairman Willson rest assured, we will definitely go all out!"

The eldest son Barena Wei pulled him aside and whispered nervously, "Dad, the doctor said, there is basically no good way to treat it, what should we do?"

Youngzheng Wei gritted his teeth and said: "Then I have to find a way too! Otherwise, would it be possible to watch the Wei family's death?!"
