

Chapter 501

Jin Zhengting and Yang ziyue walked into the ward, his expression was very calm, and there was no sense of tension at all. It can be seen that his psychological quality was really good.

Yang ziyue's face is obviously anxious. Jin and Yang have always been family friends. He can also say that he watched Jin Ying grow up and treated her like his own sister. So it's inevitable to care about this. However, from his reaction, he is still worse than Jin Zhengting.

"Zhenyue, here you are."

Zhao Tongxin's eyes lit up. When she encountered such a difficult problem, although she tried to keep the team calm, she still had no bottom in her heart. When she met Jin Zhengting, she really had the backbone.

Jin Zhengting directly passed the crowd and came to her. He put his hand in her hair and gently stroked her. He was using the most commonly used gesture when they were warm to tell her that he was beside her.

Being stroked by Jin Zhengting's hair, Zhao Tong's heart was finally completely released. No matter what happened, as long as Jin Zhengting was there, there was nothing that could not be solved.

"This matter is limited to people here. Don't make it public. Grandma is old, so don't let her worry about it any more."

Jin Zhengting's tone is very flat, but it's also his order. Jin Ying's kidnapping can't be publicized, not to mention whether it will cause adverse effects in Jiangbin. If Mrs. Jin knows, she will be very worried. Her health is not as good as before, and she always loves Jin Ying. If she gets sick in a hurry, she won't be well.

Everyone was silent, indicating that he understood the boss's meaning and that he would abide by his orders.

"Zhenyue, we are studying how to save Xiaoyue. At present, our knowledge is too small, so it's not a good plan."

Zhao Tong takes a look at Xu Yanke and doesn't say in front of Jin Zhengting that she is eager to save Jin Ying regardless of everything. This also gives her face.

Jin Zhengting sat down and said faintly: "I've thought about it on the way over. The purpose of Huo Tingchen's doing this is to let Xu Yanke save Xiaoyue. I believe that even if the agreed result is not to save, she will act without authorization. This is Huo Tingchen's calculation."

He said, looking at Xu Yanke with deep eyes: "it's because Huo Tingchen knows your psychology so much that he deliberately reveals the news. If you are really stupid, you can be taken by him."

Xu Yanke lowered his head and said in some embarrassment, "brother, you know I'm sorry for Xiaoying, so I don't want her to be hurt."

"I understand, but if we don't do anything now, she won't be in danger."

Jin Zhengting firmly said that his excellent intelligence has been calculated. Huo Tingchen will use Jin Ying as a life-saving card, so although he uses Jin Ying as a bait, he will not move Jin Ying even if the plot is not successful. Huo Tingchen is good at leaving a way for himself. At this time, he will never deliberately annoy Jin Zhengting.

"Having said that, we can't do nothing, can we?"

It's Yang ziye. His mood is similar to that of Xu Yanke. Jin Ying is just like his sister. Now Huo Tingchen is in charge of her. He is also very worried about Jin Ying.

"Yes, we'd better not do anything now. We just need to wait. I believe Huo Tingchen has laid an ambush now. His purpose is to lead us to rescue him. He suffered a big loss here last night, so he wants to return it. Huo Tingchen is really a vengeful guy."

Jin Zhengting said calmly, with a little disdain in his tone. He always thought that a narrow-minded man would never make a big deal. Although Huo Tingchen's strength has greatly increased now, he is not his opponent because of his personality.

"Zhengting, do you mean we don't do anything, just wait for Huo Tingchen to put Xiaoying back, is that possible?"

Yang ziye doesn't think so. He thinks that as long as Jin Ying is still in Huo Tingchen's hands, there will be danger. After all, he has dealt with Huo Tingchen several times and knows that he is a cruel man.

"Ziye, he really won't let Xiaoying go, but since he can kidnap Xiaoying, we can also rob him and let him come to us to exchange."

There was a faint smile on Jin Zhengting's face, as if he had already had a solution.

"What are you taking? You don't know Huo Tingchen. Even if he kidnaps his mother, he won't give Xiaoying in exchange. As long as it's good for him, he can't let go. "

Yang ziye deeply understands Huo Tingchen's selfishness. As long as he can make a profit, he can sacrifice anyone without hesitation.

As for his opinion, Xu Yan agrees: "Yang ziye is right, brother. I know Huo Tingchen too well. With his

character, no matter who we kidnap, he can't exchange hostages with us."

Jin Zhengting waved his hand and motioned them not to worry: "you all know that Huo Tingchen is selfish, but the more selfish he is, the more he values his own things."

Yang ziye and Xu Yanke look at each other suspiciously. They don't understand what Jin Zhengting is referring to. Jin Zhengting explained faintly: "I just sent someone to check, Huo Tingchen started the arms business again, a batch of his goods will be on the dock tomorrow night, and the funds of his group will be exhausted. I think he needs the funds of the arms very much now. If he gets the arms, I think he is willing to exchange them with Xiaoying."

"Brother, I know what you mean. Let me go this time. I've been involved in Huo Tingchen's arms business before, and I know all his joint code words. I'm the most suitable candidate."

Xu Yanke volunteered. She really wanted to do something for Jin Ying, not necessarily because of her sisterhood. Maybe she just wanted to make her conscience better.

Jin Zhengting didn't agree to Xu Yanke's request, but looked at her with deep meaning and said, "no, you can't go tomorrow, because you don't have so much energy, because tonight you will become Tong Xin's double."

"Zhengting, didn't you kill all Huo Tingchen's most dangerous subordinates last night? It's reasonable that I should have no danger. How can I still need Xu Yan to be my substitute?"

Zhao Tong is puzzled. She doesn't quite understand Jin Zhengting's idea, but she still believes Jin Zhengting's judgment in her heart. She only knows that Xu Yan is not easy to ask, so she asks for Xu Yan.

Xu Yanke naturally knows her intentions. She looks at Zhao Tongxin for the first time with a little gratitude. She suddenly has a feeling that although they are not agreeable to each other, their tacit understanding is so good that even her best friend Shaoyuan can't compare.

"If Xu Yanke takes the bodyguard of the hospital tonight, there will be loopholes in the defense work here. Huo Tingchen will send someone to rob the necklace."

Jin Zhengting took Zhao Tongxin's hand, and his indifferent eyes became gentle in that moment: "he knew that Xu Yan couldn't obey your orders, and he expected that she would act without authorization. Even I couldn't restrain her, so he deliberately spread the news. As long as you know first, Xu Yanke made up his mind, his goal will be achieved. It's over. "

"So it is. No wonder we know the news before you. Huo Tingchen is really calculating, but fortunately you have a longer vision than him."

Zhao Tongxin looks at Jin Zhengting tenderly, and his face can't help showing a proud look. This person who is called the closest to God in Jiangbin is the one she loves most in her life.

"Brother, I know I'm wrong. If you didn't tell me the reason, I would really take someone to save Xiaoying tonight."

Xu Yanke, who realized that she had almost made a serious mistake, bowed her head to admit it. This was impossible before. She only admitted to Huo Tingchen. However, after spending a long time with the people in the team, she was also trying to learn how to deal with others in a normal way. In terms of the effect, the learning results were pretty good.

"Well."

Jin Zhengting faintly agreed and accepted her apology: "your task tonight is to be a good substitute for Tong Xin. I will give you the best batch of people. No matter how many people come, don't let them go back. Huo Tingchen didn't suffer enough yesterday. He must learn a lesson."

"No problem, brother. Don't worry. I'll do it beautifully."

Xu Yanke's eyes flashed a sharp light. After learning her life experience and returning to Jin Zhengting, she has not shown her strength for a long time. Tonight is a good opportunity. She doesn't want to let it go. She just wants to prove that her performance is absolutely not worse than Zhao Tong's when she encounters something.

Seeing Zhao Tongxin's leadership just now, Xu Yanke's heart was filled with a burst of jealousy. No matter when, she and Zhao Tongxin are natural enemies, which can't be changed.

"Zhengting, I originally planned to ask Xu Yanke to go to Cheng mobing group to do something, or we'd better carry out our plan tonight. Compared with Huo Tingchen's staff, there are not many people, so I don't need Xu Yan to be my stand in?"

Zhao Tongxin doesn't agree. She thinks that at this time, dealing with Huo Tingchen is as important as dealing with Cheng mobing, and what she cares most is to win time for the catering company to get on the right track.

Jin Zhengting raised his eyebrows: "what do you plan to do?"

Spoon garden quickly interface: "is such boss, you know recently the company's financial deficit, and last night Cheng mobing has set out against us, so Tong Xin and we discuss, decided to go to her group tonight to borrow some funds."

"Zhengting, this is my idea. Don't blame them for not telling you. It's Cheng mobing who bullies people too much. If we don't respond, she will think we are bullies."

Zhao Tongxin takes all the responsibility to herself. She knows Jin Zhengting's temper well, that is, she has absolute control over all the affairs of the group. Therefore, it is strictly forbidden to make decisions

without authorization, because no one can be above him.

"Well, if it's me, maybe the noise will only be bigger, pupil heart, you have to remember, if someone offends you, you can return it ten times a hundred times, no matter what happens, you still have me."

Jin Zhengting is not angry, but has a look of approval in his eyes. Everyone knows that Jin Zhengting only loves Zhao Tongxin, but few people know the degree of love. From Zhao Tongxin to the bottom line that Jin Zhengting dislikes to be touched by others without being blamed, on the contrary, he lets her do it at will. I'm afraid she is the only one in his heart."Zhengting, let's talk about how to rob people at night. I'm a good boy. If I don't participate in your affairs, I'll leave first. Tong Xin, I think you are more and more like Zhengting. Isn't this the legendary husband and wife? That's too bad. If I find my partner and she's more and more like me, what should I do? "

Although Yang ziye has a bitter face, his voice has a special kind of chuckling tone. What he is good at is active atmosphere, and then he runs away like smoke.

"The plan for tonight continues, but needs to be revised."

Jin Zhengting ignored Yang ziye and said with burning eyes.

Chapter 502

"Shaoyuan, Rongqi, you two take my bodyguards and continue to carry out the scheduled plan. Since Cheng mobing has joined hands with Huo Tingchen, I think she will give Huo Tingchen all the strength she has left, so now the group's guards will be more relaxed than usual."

Jin Zhengting thought a little and gave the order.

"Yes, boss."

Shaoyuan and Rongqi agree that their task is relatively easy tonight. Although they are not as easy as Xu Yanke, they have no difficulty. What's more, Jin Zhengting gives them his bodyguard to dispatch. These people are one in a hundred, and everyone can play a tough role alone.

"Yan Ke, you stay in the hospital and be the substitute of Tong Xin. All the bodyguards in the hospital are assigned by you. As long as they are Huo Tingchen's men, don't let go of any of them."

Jin Zhengting turns to Xu Yanke and says that the chill in his eyes has melted a little. Without Xu Yanke, Zhao Tongxin's safety is really a problem, but with her as a stand in, Zhao Tongxin will be much safer, and Xu Yanke is an expert himself, so he doesn't need to worry too much.

"Well, brother, Rong Lei's defense should also be strengthened."

Xu Yanke agrees and whispers a reminder that Rong Lei was hijacked last night, which fully shows that

there are still loopholes in the current defense system. Compared with Zhao Tongxin, she is more worried about Rong Lei's safety.

"It's OK. I've transferred a team of bodyguards from Jin's family. They are on their way to the hospital. I believe they will take over the protection of Rong Lei before long."

Jin Zhengting says faintly that he naturally knows that Rong Lei and Xu Yanke are in the initial stage of love. Like Zhao Tongxin, he also hopes that she can find a good home.

Rong Lei is his assistant. He is very optimistic about his character and ability. If Xu Yanke can really get together with Rong Lei, it's not a happy thing for everyone.

The most important thing is that he knows Rong Lei. He knows that Rong Lei is a calm and careful man, and he is very considerate. This is very important for Xu Yanke, who grew up in a cold environment. He thinks the two people get along very well, so he pays more attention to protecting Rong Lei. Last night, Rong Lei was hijacked, and Xu Yanke, regardless of his psychological shadow on Huo Tingchen, resolutely protects him. As Zhao Tongxin's substitute for Rong Lei, it proves that she is also sincere to Rong Lei.

As long as two people really want to be together, Jin Zhengting will give his full support. He has always been dismissive of the prejudice of the so-called "right family". He and Zhao Tongxin are the president of a rich family and a girl of civilian origin. Don't they love each other very much?

"Thank you, brother."

Xu Yanke sweetly thanks, her face even rarely showed a shy expression, looks very cute, it can be seen that love is the best beauty, this sentence is not bad.

"Family, you're welcome."

Jin Zhengting's speech has always been very flat, which makes it difficult to recognize his feelings. But from the literal meaning, we can know that he has completely accepted the fact that Xu Yan is a member of the Jin family.

"Zhengting, you let Xu Yan be my stand in. Where can I go?"

Seeing that other people have arranged it, Zhao Tong can't help asking. In fact, she doesn't want Xu Yan to be her stand in, because the company still has an advertising plan to hand over to her tonight. If Xu Yanke is here, she can't continue to work.

"Tong Xin, sometimes don't be too busy. When it's time to relax, you should relax. To manage a huge enterprise, the most taboo thing is to do everything by yourself. People's energy is always limited, so you should learn to trust your subordinates. You can not only use your limited energy in the place you need, but also enhance the relationship with your subordinates. Everyone hopes to get the trust of your boss."

Jin Zhengting took her by the hand and said to her earnestly that these are all valuable experiences summed up in his many years of CEO career. He can impart them to her without reservation, because he only loves her in his heart. The two people in love need to share everything with each other, no matter good or bad.

"I see, Zhengting."

Zhao Tong's heart gently smiles for a while. After carefully reviewing Jin Zhengting's words, she suddenly finds that it really makes sense. When she worked as his secretary, she found that although Jin Zhengting was busy every day, she never worked hard for the small things in the group, because naturally someone would do well, and Jin Zhengting never asked about these things, which shows what she needs to learn. There are too many west, in business, she is just starting.

"Well, I'll stay tonight and protect you myself."

Jin Zhengting held his hand more tightly. The temperature from his hand melted Zhao Tong's heart. He was so busy, but he never slept for himself. He didn't need to do this. The bodyguards were enough, but he didn't trust to give her to anyone except himself.

"Zhenqting, I want you to sleep with me."

Quietly close to his ear, with only two people can hear the voice whispered, her pretty face was a little red, although two people can be regarded as the old husband and wife, but she never said so numb words, this time can speak out, but also in front of the public, completely in her unconscious situation, or, is She subconsciously hoped that Jin Zhengting would know what she thought. Her idea is very simple, is to cuddle up with him, let her feel his temperature.

Jin Zhengting had a trace of warmth in his deep eyes. He took Zhao Tongxin into his arms and gently kissed her forehead with his cool lips.

This action is done in public, Zhao Tong heart suddenly blush, but he seems very natural, and think it is a matter of course, Zhao Tong heart is his wife, even if show a few love, who can say what?

Jin Zhengting has always been so overbearing.

Fortunately, several people present were acquaintances. When they saw the intimacy of the two people, they raised their heads to look at the ceiling. They didn't know what was on the ceiling. In short, they were very serious.

"You guys don't have to. We're legal husband and wife. What's the big deal about a kiss?"

Zhao Tong said, her face red like a ripe apple, a pair of beautiful eyes with a thin layer of fog, but still pretended to be calm to a few people.

"Tong Xin, the sun is so good tonight. Let's go out to see the sun."

Shaoyuan blinked a few round eyes, pointed to the darkness outside the window and said that Xu Yanke and Rong Qi's reaction was not slow at all, immediately echoed: "yes, we go to see the sun."

It's evening now. The night has covered Jiangbin city. Where is the sun? It's just an excuse they don't want to be a light bulb here. However, Zhao Tongxin is generous enough to let them out to see the so-called sun, because she has something to talk to Jin Zhengting alone.

When the three of them went out and the door of the ward was closed, the flush on Zhao Tongxin's face faded slightly.

"Come on, what's the matter?"

Jin Zhengting asked with a smile in his eyes. He had already seen that Zhao Tongxin had something to say to him, and he could guess what she wanted to say. After so many years of marriage, there is still a tacit understanding.

"Zhengting, I said you must not be angry."

Zhao Tongxin seems to be a little awkward. She knows that Jin Zhengting must know that he and Gu Chen met alone, so she wants to explain to him that there is really nothing between them, just a simple business relationship.

"If it is afternoon and Gu Chen meet alone of affair don't say, pupil heart."

Jin Zhengting waved his hand and said what Zhao Tong wanted to say.

For this, Zhao Tongxin is not surprised. Jin Zhengting is his husband, and he is very clear about his man's ability: "I think you already know about it, but you just feel it necessary to explain. There is really nothing between him and me."

"I believe you."

Jin Zhengting only said four words, and then held Zhao Tongxin more tightly. There was only one movement, which was enough to express what he wanted to say.

"Zhengting, when I was separated from him, I really had to. Even after I was with you for a period of time, I still couldn't help thinking of him. But later, I fell in love with you and found that I couldn't hold anyone else in my heart. When I met Gu Chen in the afternoon, I only remembered the past student days, but I felt a little excited about him No, I just want to tell you how I feel about him. "

Nestled in Jin Zhengting's arms, Zhao Tongxin said faintly that she put her side face close to his arms,

where she felt warm most.

Jin Zhengting stroked her hair and said with a smile, "I know that if it wasn't for your adoptive mother's serious illness and the need for money to pay for medical expenses, you would not have separated from him. These are things of the past. I don't think it's necessary, and I don't have the energy and time to be jealous."

"I will forget those memories as soon as possible. I promise that this appointment with him is really just business contact."

Zhao Tong said gently. She felt that she was willing to do anything for Jin Zhengting, and it was worth it.

"No, Tong Xin, not only don't you need to forget, but also I hope you keep those memories, because that is one of the best things in your life, and the past time needs to be remembered, everyone needs to miss it."

Jin Zhengting's eyes became dim. He patted her on the back gently, and his voice was full of light tenderness. He didn't want to see her suffer any injustice, even for himself.

Zhao Tongxin's eyes were moist, but his face was filled with the happiest expression in the world: "Zhengting, you are really good. I don't know what to say."

"So you don't want to say anything. It's better to listen to me. Although telling you is likely to hit you, for your safety's sake, I decided to tell you."

Jin Zhengting close to her ear, whispered: "I checked, Gu Chen is likely to work for Huo Tingchen, this afternoon he came to you, not only to discuss business so simple, he is likely to steal your diamond necklace password."

"What?"

Zhao Tong Xin is stunned, her face takes the inconceivable expression, she always feels that she is sorry for Gu Chen, but never thought that he would use this kind of means to revenge. This is her very natural association, in addition to because he is still hating himself, so he took refuge in Huo Tingchen, she can not think of any other reasons.

"Tong Xin, you think wrong, he is also for you, Huo Tingchen should take your safety to threaten him, so in order to protect you, Gu Chen has to cooperate with Huo Tingchen."

Jin Zhengting never slanders a person behind his back, because that's what a gossipy woman does. As an upright man, even in the face of other people's challenges, he has to defeat his opponent face to face.

"Zhengting, I love you."

Knowing Jin Zhengting's character, he didn't retaliate Gu Chen for his jealousy and frame him up. He just worried that he would be in danger. Zhao Tongxin's heart was warm. I love you always blurted out, but it was full of sincerity.

Chapter 503

It's very late at night. Because the assets of the building where Cheng mobing group is located can't be transferred to Jiangbin, she can only buy this commercial building as a temporary office.

The building originally belonged to the Xu family and belonged to the prime location of Jiangbin city. Originally, there was no plan to sell it. Xu Zheng came forward to let Cheng mobing buy it smoothly.

It's very quiet around. At this time, all the staff in the building are off work. Only the duty room in the front hall and several offices on the top floor are still on. The rest of the floors are dark and quiet.

In the distance, several off-road vehicles with license plates blocked quietly stopped in an open place under the cover of night. The door opened, and more than 20 strong men wearing black hoods and black tights got out of the car quickly and quickly divided into two groups. From their skills, we can see that they are all well-trained experts.

"The first group controls the security guards in the duty room, but we should remember that we can't let them send any signals, and at the same time, we should pay attention not to hurt them. I have checked, these security guards are temporarily hired by Cheng mobing, and have nothing to do with her group."

Shaoyuan didn't get out of the car, just opened the window and said in a small voice that everyone could hear.

"I understand."

The men in the first group answered in a low voice. At the same time, they put on gloves, took out their guns from their clothes and pushed the bullets into the guns. Their movements were neat and uniform, and people with clear eyes could naturally see that they had received regular military training.

These people are soldiers under Jin's father. After they retired, they naturally joined the bodyguard team of Jin's family. Their loyalty to Jin's family is trustworthy.

"Rong Qi, these people are led by you. I'll take the second group to the top floor of Cheng mobing's building, where her finance department is located. You must protect our retreat. After all, it's not a glorious thing. It's very troublesome to be found."

Shaoyuan saw that his men were ready soon, and his face looked satisfied. Then he turned to Rong Qi, who was wearing standard robber clothes.

Rong Qi nodded her head and made an OK gesture to her: "I can control the situation for at least half an hour. After all, this is downtown. It's hard to predict what will happen in half an hour, so you should move faster."

Shaoyuan micro frowned: "Cheng mobing's financial department is a place where cash is kept. There must be her loyal staff guarding it. If they want to do something, half an hour is too short?"

They have done a detailed investigation before the operation, and have studied the security distribution in the building, as well as the location of the target clearly. In the top financial department, there are at least a dozen of Cheng mobing's most effective subordinates stationed. It is certainly not very easy to deal with them.

"As soon as you can, I can only try my best to cover you."

Rongqi's words don't say, she simply answered a, hand already many a gun: "the first group, follow me."

Five strong men immediately form a triangle formation, follow Rongqi quietly close to the premise of the building, hiding in a place where the light can't reach. After waiting for the spoon garden to be ready, they control several security guards in the front hall.

Shaoyuan watched with his own eyes as Rong Qi took people to hide. Then he said to the people around him, "attention, others. After the first group controls the front hall, we will avoid the monitoring in the building and go directly to the top floor. As long as we meet resistance, we will kill them and reach the destination as soon as possible. Do you understand?"

"I understand!"

The remaining ten men have much stronger firepower. They have a mini submachine gun. They are ready for close combat.

Shaoyuan also put on gloves. She had been given a mini submachine gun by one of her subordinates. After all, she had to deal with a tough opponent. She did not dare to be big or careless.

"Act!"

Spoon garden low drink a, got out of the car, led his hands along the steps of Rongqi, quietly hidden.

Rong Qi saw that the spoon garden had already taken people to follow, and made a gesture to her men. They immediately lowered their waist, flickered in the dark, avoided all the light that might expose their whereabouts, and quietly approached the front hall of the building.

There are only three security guards on duty in the front hall. Now it's very late at night, so they are all sitting on the chairs at the door and drowsy. It's not that they are irresponsible, but that there are no unscrupulous thieves who dare to steal here.

A few days ago, there was one who sneaked up to the top floor while the security guard was dozing off. It is said that there was a large amount of cash from Mr. Cheng. The thief didn't know where to get the information, so he even touched it and stole it. As a result, the thief never came down again. It was only a few days later that he was picked up from the sea. It is said that he had been hit by a gun with a muffler. We've got a hornet's nest.

From then on, no one dares to make the idea that there will always be funds in the finance department on the top floor. Compared with money, life is naturally more important.

Therefore, the security of the building has become the most leisurely work here. Even if you take a nap occasionally, you can guarantee that no one dares to enter the building.

I didn't expect that something happened when I dozed off today, and it was a big thing. Just when a security guard stood up and wanted to go to the toilet, he suddenly found two people standing in front of him. He thought they were colleagues in the same class. He mumbled vaguely that he was going to push them away. As a result, he suddenly woke up. The man standing in front of him was not wearing a security uniform, but was dressed in black with his head on. I'm also wearing a headgear. I feel like the robber I saw on TV. As soon as he was about to shout to his companion to wake up, his head was blocked by the black bullet. The man in black was wrapped up in his clothes, and only his eyes were exposed, and his sharp eyes were flashing fierce light.

"Don't move, don't make any noise, and don't try to do anything else. As long as you dare to move, I promise the bullet will blow your head!"

The voice of the man in black was hoarse, obviously not in the original voice. He said in a low voice with a threatening tone, and the gun on the head of the security guard pressed down.

The security guard was so scared that he fell to the ground. The salary of security guard was not high. Those salaries were not worth their efforts. What's more, these people were bandits with guns in their hands. The security guard would not lose his life because of a job.

So the security guard covers his mouth and doesn't let himself make any noise. He is afraid that if he makes any noise, he will be rewarded with a fatal bullet if he annoys the robber.

The other two security guards also enjoy the same treatment. Their performance is similar to that of this security guard. They are both very obedient and obedient. It seems that no matter when they are, the bullet's face is very big.

Rong Qi didn't directly participate in the action of controlling the security guards. These unworthy security guards are not worth her doing. Seeing that her subordinates easily subdued the security guards, and that some of them successfully destroyed the closed-circuit surveillance system, she waved to the darkness in the distance.

When Shaoyuan saw that Rong Qi had already got hold of it, he immediately took his men through the front hall and went directly to the elevator. After destroying the camera on the elevator, he took the elevator to the top floor.

She won't make the mistake long Jiu made. She doesn't take the elevator to climb the stairs. Although she has good physical strength, if she meets an opponent with similar strength, the one with good physical strength will definitely be dominant.

In the process of the elevator rising, she and her men are carefully checking the guns. They will face much more powerful than dealing with a few unarmed security guards. They can't help being careless. Of course, they are also the ones who take advantage of unexpected attacks.

When the elevator stops at the penultimate floor, it's Shaoyuan's intention to avoid the guard's suspicion when the elevator suddenly reaches the top floor. Shaoyuan has already thought of every detail in the operation and strives to be safe.

She took her men up the stairs to the top floor. The area of the building was very large. If they didn't prepare, it would take more than half an hour to find the Finance Department of Cheng mobing group. Fortunately, they had already prepared and kept the floor plan of the building in mind, so it didn't take them long to find the finance department.

It's dark in the corridor. Only the place near the elevator is still on. There are two Cheng mobing's men with guns and bullets on guard. If they choose to take the elevator directly to the top floor, they will be found before they get off the elevator, and they will lose the effect of sending a surprise attack.

Huo Tingchen should also benefit from his calculation. He thinks that he knows Xu Yanke very well and that she must take the guards in the hospital to Tianhong Group to rescue Jin Ying, so he transfers most of Cheng mobing's men.

This time, he also chose to divide his troops into two routes: one was to set an ambush in Tianhong Group and patiently wait for Xu Yanke to fall into the trap; the other was to go to Jiangbin hospital. He was also gambling because he was ambushed by Jin Zhengting in the hospital last night, but he didn't believe that Jin Zhengting would ambush for two consecutive nights. According to common sense, he just won an almost decisive victory. After that, there will be a certain relaxation, which is also the opportunity he needs to seize.

Huo Tingchen believed in his luck, just as he chose to take control of Tianhong Group when he was desperate, and finally took the Cheng family's assets as his own.

So he did not hesitate to gather all the remaining strength together, ready to make a final gamble, the result is naturally conceivable.

The financial department of the building is Cheng mobing's important place. She concentrates all her working capital and deposits it here. She is afraid to deposit the money in the bank because she knows

that Jin Zhengting has only one hand to cover the sky in Jiangbin. She can even use the strength of the society to let the bank freeze her assets. This is absolutely unacceptable, so she prefers to deposit all her capital in Jinbin Curry, it's safer.

She has always regarded Zhao Tongxin as her biggest enemy. As for Jin Zhengting, it may be because she is a woman, so his attack on her is not so strong. Moreover, she knows that Zhao Tongxin is a kind person and never does anything illegal, because in this way, she is very relieved to deposit the funds here.

But what she didn't expect is that Zhao Tong Xin, who is kind and gentle in nature, will agree with Xu Yanke's plan and prepare to have a so-called free meal.

Of course, there's nothing wrong with that. Most of Cheng mobing's assets are not on the right track, almost all of them are taken by her through various means.

This time, in order to support Huo Tingchen's action, she selected eight of the original 20 guards here and gave them to Huo Tingchen, so that he could be divided into two groups with enough strength to make a good ambush and attack plan at the same time.

However, what she never thought was that Huo Tingchen's ambush plan could not be realized, and the consequence was that the guard of the finance department was seriously insufficient, and the attack plan he made had not yet started, and Zhao Tongxin's attack plan came first. These guards are divided into two groups, patrolling up and down the night. Now it's the second half of the night. Another group has entered the dream, and now this group is almost exhausted. This is the opportunity for Shaoyuan to wait. She approaches quietly. When she reaches the range of the mini submachine gun, her finger suddenly pulls on the trigger, a string of sparks splashes, and the submachine gun with muffler hardly makes any sound. Sound, the two guards were beaten into a sieve.

Spoon garden does not stop, she waved behind her, hands quietly broke the door lock, rushed in.

Chapter 504

Because the operation was a surprise attack, and Cheng mobing transferred the guards of the finance department to ambush Xu Yanke, the Shaoyuan group soon calmed down the resistance of several guards.

This is what makes Cheng mobing most wrong. Like Huo Tingchen, when analyzing Zhao Tongxin's character, she uses the earliest materials, and ignores that people will grow and change in different environments. What's more, the people who are often around her are Jin Zhengting, who is known as the son of heaven.

"Miss Shaoyuan, it's done."

After checking the finance department and confirming that several guards were killed on the spot, one

of his subordinates put away his gun and said to Shaoyuan without giving any warning.

It took less than ten minutes from Rong Qi's control of the front hall security to the end of the operation. It can be said that the operation was completed smoothly.

"Leave two people on guard, and the rest start cleaning up the cash here."

She decisively gave the order, as the main person in charge of this operation, the performance of spoon garden is also commendable.

"Yes."

The men agreed to disperse, each with a black backpack in his hand, which was prepared to transfer cash.

Cheng mobing's cash is stored in several huge safes, which Shaoyuan had expected before the operation, so among the people he brought, there were experts who specialized in unlocking, so it took only five minutes to open all the safes. A group of more than ten people, except Shaoyuan, packed their backs with cash.

Shaoyuan looked at the empty safe. There were only a few odd bills left in it. Then he nodded with satisfaction and told his men, "time is almost up, withdraw."

This group of people immediately returned according to the original road, and made a rough estimation on the road. This time, the results were quite fruitful. From the appearance that more than a dozen well-trained men were struggling with backpacks, each of them carried at least ten million yuan of cash.

This time, it's equivalent to empty Cheng mobing's reserve fund. When Shaoyuan thinks of it, the smile of the winner appears in her round eyes.

She brings people together with Rong Qi. It's late at night now, so even in the downtown area, there are few people coming from outside the building, and Rong Qi is also very professional and well hidden, so no one finds anything strange in the building.

"It's done."

Shaoyuan smiles at Rongqi and makes a snap of fingers.

Rongqi's face did not have a special happy expression, but the smile in her eyes also showed: "OK, withdraw."

Shaoyuan nodded his head and waved his hand behind him. The two groups merged and retreated quietly and orderly.

She came to several security guards who were scared and trembling, and said faintly, "after we leave, you immediately tell Cheng mobing, and say thank you for the money she sent."

Then with Rongqi together, they got on the car under the cover, and finally counted the number of people. This operation was very successful, no one was injured, and everyone came back intact.

"Come on, I want to go back to take a hot bath now and have a good sleep."

Shaoyuan takes off the black hood, flicks her hair, yawns lazily, and says to Rong Qi that she is also very nervous, and it takes a lot of physical strength to lead the raid, so she shows a trace of fatigue.

"Well, I'll take care of the hospital tonight."

Rong Qi didn't do anything in this operation. She was still very energetic. She took the initiative to undertake the work in the evening.

"I think we can all have a good sleep tonight. By this time, the boss may have wiped out all the remaining forces under Huo Tingchen. I don't know if Huo Tingchen and Cheng mobing can still sleep when they receive the news that the old nest has been ransacked and all the people under them have been wiped out. They have been busy all night but no one has come to see him."

Shaoyuan is very worried about the two of them. It's bad for their health if they are too angry.

Rong Qi light smile for a while, did not say anything, started the car, the team quickly disappeared in the dark.

Jiangbin hospital.

Zhao Tongxin's ward is very quiet outside. There are only two bodyguards at the door. The rest of them seem to have been transferred away. In fact, Jin Zhengting specially arranged this to create the illusion that almost all his subordinates have been transferred to rescue Jin Ying.

Huo Tingchen has long sent people to go undercover in the hospital and report every move of the guards here to Huo Tingchen in a timely manner, but he doesn't know that sometimes the intelligence is too timely, which is not necessarily a good thing.

When he received the transfer of a large part of the guards in the hospital, he was more convinced that Xu Yanke had taken the bait. He was still hesitating about Jin Zhengting's attitude. He was worried that the opponent he had never defeated would see through his own strategy.

However, he sent people to stare at Jin Zhengting's reaction. From now on, Jin Zhengting should acquiesce in Xu Yanke's idea of rescuing Jin Ying, otherwise he can't transfer the guards away. Huo Tingchen thinks that Jin Zhengting may have sent all his most effective men to Zhao Tongxin, so he doesn't have many capable people around him, so he is behind the scenes It can also be said that the

opponent he faces directly now should be Zhao Tongxin, as long as he can hide from Zhao Tongxin. The news from his subordinates made him very sure that Zhao Tongxin had been cheated, so he specially selected a group of the most elite subordinates to attack the hospital again in the dark. The purpose of this time was very clear, and it was to get the necklace.

These men are his last strength. The rest of them are not in the class. They are useless. So tonight, he is taking out all his belongings to gamble. He thinks that Jin Zhengting will not expect that he will attack Jin Zhengting for the second time in a row after he lost in the hospital last night. He is also trying to surprise Jin Zhengting.

But this time he didn't send long Jiu and others to lead the team, because he needed these people to stay with him. In addition to the hospital, Tianhong Group building will also experience a fierce battle tonight. He must put long Jiu and other assistants here. After all, this is his main purpose.

The men he sent out showed up near the hospital at 3 a.m. on time. This time is a person's most physically tired time, so launching a surprise attack at this time will always have unexpected effects.

The team that attacked the hospital was about 30 people, all of whom were elite of Huo Tingchen's killer organization. They had rich experience in doing this kind of thing, so they didn't need to be led. They spontaneously formed several groups and sneaked into the building of the inpatient department under the cover of night.

According to the boss's information, the guards here are very empty, and they move forward cautiously. As expected, they don't find any extra guards, which makes them gradually relax. It seems that the boss's information is very accurate, so they gradually speed up. They have done their homework for a long time and know the location of Zhao Tongxin's ward like the palm of their hand. Several groups cover each other in batches I got on the elevator.

Zhao Tongxin's ward is on the top floor, so they have to take the elevator to go up. The first group to go up is five people, who are also the pioneers of exploring the way. They look a little nervous. After all, this is Jin Zhengting's territory, so it's inevitable that they have some weakness in their actions here.

The elevator stopped at the top floor, they quickly pulled out their weapons, several people covered each other and rushed out of the elevator, only to find that the corridor was empty, even the bodyguards who had been patrolling in the corridor were not available.

They exchanged a look, the situation here once again proved the accuracy of the boss, it seems that now the hospital is the weakest place to defend.

Several people are very good at using the cover of the dark environment, they alternate slowly close to Zhao Tongxin's ward, where there are only two bodyguards at the door.

They approached very carefully without making a sound. Two of them took out daggers in their hands. When this situation is unknown, it's better not to make a sound.

The two bodyguards didn't know the danger was approaching. It might be because it was late at night. Their spirits were not very good and their eyes were a little lax. It was normal that they didn't concentrate at this time.

The killers suddenly act and rush to the bodyguards at a very fast speed. The two bodyguards are stunned. They quickly reach into their clothes to get weapons, but they are facing well-trained killers and will not give them this opportunity.

The sword light flashed, and the two bodyguards had fallen into the pool of blood before they could make any sound.

After a successful attack, the two killers quickly dragged the body to a hidden place and hid it. One of the killers took out a thin wire from his pocket and began to stir it up on the door lock. After a while, only a very slight sound was heard and the door lock was opened.

These killers didn't wait for their companions. At this time, they were still taking the elevator in batches. They adjusted their breath, took out their guns, opened the insurance with a very slight movement, and installed silencers on the guns. One of the killers saw that his companions were ready and suddenly kicked the door open.

After countless times of identification, everyone remembered the appearance of Zhao Tongxin, so they rushed into the ward and began to look for Zhao Tongxin everywhere.

Zhao Tongxin is not in the ward naturally, but there is a real person in the ward. It's just that her appearance is very similar to Zhao Tongxin. Of course, this person is Xu Yanke.

Xu Yanke sits at the table, gently shaking a glass of red wine in her hand. Her face is calm without any expression. The light in the room is very bright, and a string of diamond necklaces are hanging around her neck.

"Isn't it impolite of you to break in without knocking on the door?"

Xu Yanke put down his wine glass and looked at several intruded killers with bland eyes. He didn't have any fear in the face of several guns.

Several killers don't know Xu Yanke, so naturally they regard Xu Yanke as Zhao Tongxin, because even if people who are familiar with them don't identify them carefully, it's hard to distinguish them clearly, let alone the killers who haven't seen them.

"Miss Zhao Tongxin, we don't want to hurt you this time. We just want to take something away, so please cooperate with us."

This is Huo Tingchen's strict order to them. Now is not the time to stimulate Jin Zhengting too much, so

he ordered these killers to just get the necklace and never do anything to hurt Zhao Tongxin.

If Zhao Tong's heart has any damage, with Jin Zhengting's temper, if he wants to be angry for crown, then Huo Tingchen will feel afraid. These killers naturally faithfully carry out Huo Tingchen's orders. They have doubts about Xu Yanke's attitude. According to the information, Zhao Tongxin is just a weak girl. However, they always feel that Zhao Tongxin is too calm in front of them. On second thought, she is Jin Zhengting's woman. She may be used to her majesty, so they don't think much about it, so they just put her away. They want to face the muzzle of the gun. In Zhao Tongxin's character, they will give in.

Sure enough, Xu Yanke gave a faint smile: "I knew Huo Tingchen always wanted this necklace. It seems that I don't have the right to refuse?"

"Theoretically, there are, but Miss Zhao had better not try. We really don't mean to hurt you. As long as we get the necklace, we will leave immediately."

"But I mean to hurt you. What can I do?"

Xu Yanke's smile flashed through his eyes.

Chapter 505

Several killers are also experienced people. After seeing Xu Yanke's eyes, they instinctively feel the danger and raise their guns one after another. If Huo Tingchen had not strictly ordered them not to hurt Zhao Tongxin, someone would have been unable to help shooting.

"What? Is this the courage of Huo Tingchen's men? They are scared to look like this just by looking at you? "

Xu Yanke said faintly, her face showed a trace of ironic smile, several killers' faces showed an embarrassed look, the other party is just a girl, from her thin clothes can see that there is no hidden weapon, just a look on the nervous almost go off, this is a shame for several big men.

"Miss Zhao, the time we have to talk is limited. You'd better hand over the necklace obediently, otherwise we'll do it ourselves, so if it hurts you, don't blame us."

The killers know that they can't stay here long, so they hastily said that they just want to finish the task as soon as possible.

Xu Yanke smiles again: "well, since you want this necklace so much, I'll give it to you."

She said she was about to take off the necklace, but the killers were very cautious: "wait a minute, Miss Zhao, you'd better slow down, don't play any tricks."

Xu Yanke's eyes with a mocking smile: "you can say whatever you like."

She really obediently slowed down her movements. Several killers held their breath and stared at her movements without blinking, for fear that she would make other moves. However, the fact proved that their worries were superfluous. Xu Yanke was obedient from beginning to end, neither shouting nor other superfluous actions, but slowly took the necklace off her neck To her nearest killer.

The killer quickly reached for it, and the necklace fell into his hands. His face didn't show a happy expression, because the necklace hasn't been confirmed.

Another killer immediately took out a picture and carefully compared it with the necklace. Others didn't dare to relax and stared at Xu Yanke.

Xu Yan can pour is a pair of indifferent expression, she sat quietly, picked up the glass, with delicate red lips gently sipped a cup of red wine.

"Yes, it's true. There's no difference in the details." As like as two peas in the picture, the necklace of is sure to nod his head, but he has never seen anything in the picture, but from the photo, the necklace in his hand is exactly the same as the one on the photo.

The head of the killer just showed a relieved expression, he carefully put the necklace away, then said with a smile: "thank you for Miss Zhao's cooperation, I advise you, before we leave, it's better not to shout for help, because your bodyguard has been done by us."

"Don't worry. Even if you leave, I won't call you."

Xu Yanke said lightly and waved his hand casually: "it's very late. You'd better go back as soon as you finish your own work. I'm going to have a rest soon. Don't you know that a woman needs enough sleep most?"

"Well, we won't disturb Miss Zhao's rest."

The killers quickly quit the ward, and even closed the door for her. The purpose of their coming to the hospital this time is to get the necklace. Now that this goal has been achieved, no one is willing to make a fuss.

When they all left, Xu Yanke said, "what a bunch of idiots. I haven't taken diamonds in my life. I don't know that diamonds of the same size are much lighter than those on that necklace."

, as like as two peas master, the killer was too nervous to ignore the details. The necklace was made overnight. It was exactly the same as Zhao Tongxin's. Jin Ting Group has been in the jewelry business for so many years, and there are too many such copycat masters.

Moreover, at the request of Xu Yanke, the technician in charge of imitation necklaces specially added

something special to each man-made diamond, that is, highly concentrated explosives. The Jin family has a deep military background, and there are many channels to get such highly concentrated explosives.

When Xu Yanke put down her wine glass again, she had a small remote control in her hand. As long as she pressed it with her finger, the necklace would explode. The power of the explosion was enough to send those killers to the West.

But instead of pressing the button immediately, she waited patiently. At this time, she estimated in her heart the time when these killers would meet with other companions.

She is too familiar with Huo Tingchen's killer organization. If these killers have an action, they will never rush up like a swarm. Instead, they will be divided into several groups, so that when one group fails, other forces can continue to carry out the task. Xu Yanke can see at a glance that those killers just now are just the vanguards in this action, and they will certainly take over later. Jin Zhengting's order is to keep them all.

Several killers forced to suppress the excitement, left the ward in a hurry, and met another group of killers in the corridor.

"How's it going?"

The second group of killers saw that they had withdrawn so quickly and asked in a low voice. "Everything is going well. We have got what the boss wants to use. Inform the team behind us that we don't need to take care of it. We need to retreat as soon as possible."

The killers of the first group are proud to say that as long as they can take the necklace back this time, there will be no lack of glory and wealth.

The killers in the second group showed their envious expression one after another. As soon as they were about to tell the other attendants that they were going to retreat, they heard the sound of guns coming from the walkie talkie.

The faces of these killers have changed. It is reasonable to say that there are not many Jin Zhengting's men in the hospital. How can there be gunshots? Maybe there are several bodyguards in the hospital, and their companions are cleaning up.

One of the smarter killers suddenly had a flash of inspiration: "Oh, that woman just now is not Zhao Tongxin!"

"How can it be? We've seen her picture at least thousands of times. We can't admit it wrong."

Other killers don't believe what he said at all. They only believe in their own eyes. The woman in front of them just now is Zhao Tongxin.

"Zhao Tong Xin is pregnant a few months, how can still drink?"

The killer said his judgment just saw is not the basis of Zhao Tongxin.

The faces of several killers immediately changed. He was right. If that woman was Zhao Tongxin, it was impossible for a pregnant woman to drink. Moreover, in terms of temperament, it didn't seem very like her.

"It doesn't matter. Maybe Jin Zhengting is afraid of Zhao Tongxin's danger, so he has prepared a stand in for her. These are not the key points. We can just get the necklace. Hey, can't the necklace be wrong?"

Those killers comforted themselves and asked the killer who had just identified the necklace.

"There's absolutely no mistake. I've checked carefully just now. Every detail is right with the sample in the photo. No matter how good the counterfeiting technology is, it's impossible to imitate so similar."

The killer is very sure that he obviously ignored the powerful Shanzhai technology.

"That's good, so let's stop worrying about these problems and get out of here."

Just as a few people were about to move their feet, they heard the sound of hasty footsteps everywhere, and the sound of loading weapons.

"I told them not to come up together. Why are those guys so anxious?"

A killer complained angrily. Jin Zhengting transferred all the guards out of the hospital, leaving only a few bodyguards. So the people who came here were not under Jin Zhengting's hands, so they must have just solved the rest of the bodyguards and come to the top floor to join them.

"No, it's not our people. We only have more than 30 people, but there are at least 50 people in the footsteps. We are ambushed!"

another killer carefully recognized that the footsteps and the number of them were not right. He immediately took out his weapon and prepared to fight back. Other people's reaction was not slow. Hearing his analysis, he made a quick defense The preparation of the emperor.

Soon, a figure surrounded them. There were at least 50 or 60 people in the battle. What was more terrible was that they all had weapons. The two sides faced each other like this, and they did not choose to shoot first.

The heart of these killers sank down, and the presence of these people here proves one thing, that is, the companions downstairs have been solved. Now they are completely surrounded, and now they can only struggle to death.

But they were wrong. Before they had time to shoot, they saw Jin Zhengting's men withdraw one after another. When they didn't know why, a loud bang and a huge blast wave drowned all these killers.

Smoke, Xu Yan can casually hand the remote control to a hand, light asked: "how?"

"Miss Yan Ke, Huo Tingchen sent 32 killers this time. After identification, they are all the best in his organization, and no one has missed the net."

A bodyguard leader respectfully replied that these people all have this attitude towards Xu Yanke. There are three reasons. First, she is the boss's sister. Second, she is Rong Lei's girlfriend. Rong Lei is their direct superior. Second, Xu Yanke's force value is too high, and as long as she is not happy, she will use force without warning. There are few people under her command I haven't tasted the taste of her pink fist, which is the fundamental reason why everyone is very obedient when they see Xu Yanke.

"Well, the task is well completed. Immediately send someone to clean up the scene, and then send someone to inform the police that there is no need for them to intervene in the affairs here. In addition, let someone send a message to Huo Tingchen, and let him go to the morgue to collect the corpses of his men. We are only responsible for killing them, but not for helping them with the aftercare."

Xu Yanke said that there was a twinkling of pleasure after revenge in her eyes, because over the years, she had been living in the shadow of Huo Tingchen, and today she finally had a long suppressed evil spirit in her heart.

"Yes, Miss Yanke."

Her subordinates agreed and immediately went out to be busy. Everything she told her was unfolding in an orderly way. Although the news of this incident was a little big and the location was still in the hospital, thanks to the background of Jin family, the police did not care about it. They just announced that a fire broke out in a ward of the hospital due to the explosion of an oxygen bottle, and they kept the media away It's over."Huo Tingchen, you are still waiting for me. I'm sorry, I won't go, so you'd better go to bed. Of course, only if you can sleep."

Xu Yan can look at the night outside the window, mouth slightly Yang, light self talk.

Tianhong Group building.

On the surface, everything seems calm, and there is no difference in peacetime. But behind the scenes, long Jiu and Xu Ting take a group of people to ambush, waiting for the people who come to rescue Jin Ying.

Huo Tingchen, Cheng mobing and Xu Zheng are sitting in the president's office drinking red wine. There is a big screen in front of them. Through the closed-circuit monitoring system, they can see every corner of the building clearly.

"It's 3:30 in the morning, which is Xu Yanke's favorite time. I think she will come soon."

Huo Tingchen raised his wrist and looked at the time. A pair of Phoenix eyes showed a cunning expression. He was looking forward to the action tonight. This is the best comfort for his failure last time. It can be seen that he is really a man with strong revenge.

Chapter 506

"Mr. Huo, there seems to be something wrong."

The thoughtful Xu Zheng suddenly opened his mouth, his brow locked, obviously thinking about the problem.

Huo Tingchen disapproved of a smile: "what's the matter, although Xu Yanke has not come yet, but I believe she will appear."

He is full of confidence in his own judgment, because he knows Xu Yanke's personality very well, and knows that Jin Zhengting doesn't care much about Jin Ying, so he's not afraid of his interference in this matter. Since the enemy he fears most doesn't act, then everything should be under his control.

"No, Mr. Huo, I don't doubt you. I just think that something bad will happen. It's too calm tonight. If I'm Jin Zhengting, even if I don't care about that sister, I have to exert some pressure at least. But he hasn't made any action up to now. Isn't it a bit abnormal?"

Xu Zheng pondered that, with his understanding of Jin Zhengting, he was bullied to the end. He had absolutely no reason to compromise. He would certainly make a strong counterattack in some aspects.

"You worry too much. Now his situation is almost the same as ours. It's hard to get away from him. And I've got the news that the guards of the hospital have indeed been transferred. All the signs show that he must have acquiesced in Xu Yanke's action tonight. So don't worry about it. And I've thought about the problems you're considering. It's all related to the life of the group I've made corresponding arrangements for all the places in the pulse, so I won't let him take advantage of it. In addition, the enemy opposite us is not Jin Zhengting. He's too busy with our economic invasion. The person we need to deal with most now is Zhao Tongxin. "

Huo Tingchen confidently said that he took all possible situations into consideration this time and tried to be as safe as possible. Moreover, compared with Jin Zhengting, Zhao Tongxin is much better to deal with, so he is not worried about the problems mentioned by Xu Zheng at all.

After all, Zhao Tongxin is just a girl of civilian origin. She doesn't know anything about the fighting between the aristocratic families. Huo Tingchen doesn't believe that she can play any tricks in front of her.

When a person is too confident, then the distance to failure is not far, this is the eternal truth.

After thinking about it, Xu Zheng finally nodded his head: "Mr. Huo is right. Maybe I'm really worried about it. I don't know whether the team of people sent to the hospital has completed the task."

"Don't worry, I've sent out all the elite this time. I believe they should finish the task soon."

Huo Tingchen has the same self-confidence in his subordinates, because this is a group of people he personally trained, as well as the elites under long Jiu. Although the number is small, it is also all the elites he hides in the dark.

"Mr. Huo, you can rest assured about the situation here. My staff are all experts trained all the year round. There will be no problem with Xu Yanke and her staff."

Cheng mobing is also very confident in her subordinates. They are all trained by her with a lot of money. She doesn't always have to borrow the strength of these people. After all, she is a woman, as long as she can get along well in business, but she still has this group of subordinates who can do anything for her for a rainy day.

Huo Tingchen's Phoenix eyes with a smile: "this time I really want to thank you two, this cooperation is more successful than last time."

"Yes, as long as we all show our sincerity, it's no problem to deal with Jin Zhengting, not to mention Zhao Tongxin who can't be on the stage."

Cheng moping responded with a smile that the cooperation between the two sides can be said to be a very successful union. Under the strong pressure brought by Jin Zhengting, only by trusting each other can they survive the most difficult time.

"Mr. Huo, we have a situation."

Xu Zheng pointed to the big screen, with a little surprise in his voice. Huo Tingchen and Cheng mobing turned to look at it almost at the same time, and saw a red Ferrari sports car parked where the CCTV system would be able to see it.

"It's Jin Zhengting's car. Did he come in person this time?"

Huo Tingchen's eyes lit up. Originally, he wanted to design Xu Yanke, but he didn't expect to lead Jin Zhengting out directly. As long as he can do Jin Zhengting here, things will be much easier in the future.

"No, Mr. Huo, it seems that he didn't take his men. There are only him and Zhao Tongxin in the car."

Xu Zheng's eyes did not leave the large screen for a moment. After careful observation, he found that there were only two people sitting in the car, Jin Zhengting in the driving position and Zhao Tongxin in

the co driver's seat, and they were the only ones in the car.

"Jin Zhengting is not so conceited that he just wants to rescue Jin Ying?"

Huo Tingchen's pupils are shrinking. With Jin Zhengting's personality, it is entirely possible for him to do such a thing. If he really thinks so, it is undoubtedly a great contempt for Huo Tingchen.

Huo Tingchen's eyes became colder and colder. His face was uncertain, and his eyes flashed with murderous light. It was obvious that he was angry.

The door opened, Jin Zhengting calmly got out of the car, but did not take the next step. Instead, he turned his head and said something to Zhao Tongxin in the car.

"What does he mean by that?"Huo Tingchen didn't quite understand Jin Zhengting's practice. He asked Xu Zheng next to him. In his group, Xu Zheng is playing the role of an adviser, because he has a super high IQ, which makes Huo Tingchen feel inferior to himself.

"Jin Zhengting has found out our intention. The purpose of his coming here is very simple. He is demonstrating to us."

Xu Zheng pondered for a moment, and then said with hatred in his voice that his reaction was very fast. When Jin Zhengting appeared, he had already realized the disclosure of the plan, and only he kept calm in the whole group. He knew that this little trick was hard to hide from Jin Zhengting.

"How can it be? Does he want Jin Ying to die in my hands? Isn't she Jin Zhengting's own sister?"

Huo Tingchen can't help roaring, but at the same time, he doesn't understand what Jin Zhengting's intention is.

"Mr. Huo, he has nothing to fear. It seems that he has caught one of our weaknesses, otherwise it won't be like this. There's another thing. I'm afraid the people you sent to the hospital are very lucky."

Xu Zheng closed his eyes, and his face showed a look of pain. This time, they failed again, and they were still defeated by Jin Zhengting, which made him very unwilling, but helpless.

"Impossible, how can we have weakness to be caught by him, absolutely impossible!"

Huo Tingchen's eyes are congested, and his reason is gradually engulfed by anger. He and Xu Zheng have the same idea. Jin Zhengting has defeated him several times, which has dealt a blow to his self-esteem and confidence.

"I think Mo Bing's finance department should no longer exist. If I were Jin Zhengting, I would use you to mobilize all my strength to Tianhong Group building. When the building where the finance department is located does not have any defense force, it suddenly launches an attack. If the well-trained staff, it will

only take about 20 minutes, and then they can succeed Safe retreat. "

Xu Zheng's face didn't change obviously, but the muscles in the corner of his eyes kept shaking. He knew very well that all the funds that Cheng mobing could flow were there. If he was robbed by Jin Zhengting, many projects couldn't be launched immediately, which was tantamount to winning a lot of time for Jin Zhengting to calmly respond to their planned capital injection.

Cheng mobing's face immediately turns pale. If Xu Zheng's analysis finally happens, her group will face an unprecedented crisis.

"Xu Zheng, don't scare me. Can Jin Zhengting really be so accurate, and he's not worried about his sister's safety?"

Cheng Mo Bing holds a glimmer of hope, his eyes flicker heartbreaking expression, weak ask Xu Zheng.

Xu Zheng shook his head helplessly: "as long as he can succeed, Jin Ying's safety will be guaranteed. I think he will use the money as a threat. If we don't release people, he won't return the money."

He regarded Jin Zhengting as the biggest enemy in his life from a long time ago, so he studied Jin Zhengting's acting style secretly, so he immediately thought that Jin Zhengting would do it.

Cheng mobing's face is even paler. She sits back on the sofa powerlessly, her lips are murmuring. She knows very well that the funds stored in the financial department building are all her available working capital. If there is any problem with the funds, it will be extremely fatal to her.

"Don't worry, if Jin Zhengting does, I will let Jin Ying go."

Huo Tingchen looks at Cheng mobing's expression and says with a smile. His smile looks very sincere.

Cheng mobing and Xu Zheng look at Huo Tingchen at the same time with surprise in their expressions. This is what they did not expect, because in their impression, Huo Tingchen is a very selfish person. For his interests, they do not hesitate to sacrifice anyone's personality. This time, they say that for their sake, they are willing to give up control of Jin Ying, which makes them feel incredible.

In fact, Huo Tingchen's plan did not succeed this time, and he was also very upset. But when he thought of the verbal agreement with Jin Ying, he suddenly thought that putting Jin Ying back would play a great role. It's just that he had no reason to let Jin Ying go, but he didn't think that Jin Zhengting would rob Cheng mobing of all his working capital. This is a good excuse.

So when he saw the two people's expressions of surprise, Huo Tingchen gave a smile, and immediately put on a sincere expression in his eyes: "we are now in a cooperative relationship, but I hope to take a step closer. Last time, it has been proved that if we only think about our own interests, we will be defeated by Jin Zhengting, so we must unite and sacrifice for the United Group Well, if you are very concerned about this fund, I can use Jin Ying to exchange it with Jin Zhengting. This is my sincerity for

this cooperation. "

Huo Tingchen finished and looked at them with a smile. This is the best chance to influence them. In the long run, he may really turn them into his subordinates. He thinks that his ability to adapt to circumstances is really good. Even bad things may turn into good things.

Sure enough, Cheng Mo Bing's face was moved. She was too worried about her money, so she didn't think too much. Xu Zheng's eyes were not easy to detect, but her face was still. She just nodded to Huo Tingchen. Huo Tingchen felt that Xu Zheng had been moved by his selflessness, but he was not very good at it. It's just expression. "Well, that's the decision. Besides, he may not really move your money. Maybe we are just worrying about nothing."

Huo Tingchen comforts Cheng mobing at the right time. In fact, he also needs comfort at this time. The destruction of his subordinates is certain, which is almost his last strength. After this incident, he can no longer use force to fight Jin Zhengting.

When he thought of this, he felt a twinge of heartache, but it didn't matter. Since he was suppressed by Jin Zhengting in military force, he had to make up for it in business. After he joined hands with Cheng mobing, his capital strength soared. Now he has the potential to compete with Jin Zhengting. As long as he has a firm foothold in Jiangbin's business, he can rely on his own strength. The powerful assets slowly lost Jin Zhengting.

Therefore, what he needs to do at this time is to be patient. It was absolutely impossible for Huo Tingchen to do it before, but after many failures, he also learned to change.

Chapter 507

Jin Zhengting stood right in front of the monitor and clearly reflected his handsome face. His eyes were deep and dark, and his face was always cold and proud.

The cool night wind, blowing his hair, a stiff suit, set off his slender and strong body, making his figure appear very tall.

Zhao Tongxin also got out of the car. Naturally, she stretched out her hand and put it together with Jin Zhengting's hand to greet him.

This is Huo Tingchen's sphere of influence, and it can be regarded as the core area, but Zhao Tongxin does not feel any tension and fear, because he is beside him.

"I can come alone. Why do I have to come together?"

Jin Zhengting asked faintly, he is very familiar with the environment here, and the intelligence work is done so well that he can clearly know where there is a camera.

He knows that he and Zhao Tongxin have entered the monitoring range. Now Huo Tingchen must be in a room on the building not far away, and they are looking at each other without meeting each other.

This is his plan. In the face of Huo Tingchen's aggressive actions one after another, he must respond, because Jin Zhengting is not a man who is bullied by others and keeps silent.

However, Zhao Tongxin must come here with him. Originally, Jin Zhengting did not agree with her for her safety. However, her attitude was very firm. Because of his dotting on her, it was impossible for her to refuse the second time.

However, even before he came, he arranged for the best doctor to check Zhao Tongxin, and drove here with her after determining the impact on her health.

He is only worried about her body. As for Huo Tingchen's men who lie in ambush in the building, Jin Zhengting doesn't pay attention to them at all, because they don't hurt themselves and Zhao Tongxin's capital.

This is the confidence a man should show.

Zhao Tong smiles: "Zhengting, Huo Tingchen's plot is not aimed at you. He thinks that you are entangled by the group's affairs and will not care about it. He thinks that I am the one in charge of the overall situation, so naturally he will meet with him. Although I can't see him, he must be looking at us now."

"So do you have to respond accordingly?"

Jin Zhengting has a smile in his eyes. Now he is more and more appreciative of Zhao Tongxin's tough temperament, which is the quality that a manager of a large enterprise must have.

If he prefers Zhao Tongxin's unique kind and gentle temperament when he is at home, he prefers Zhao Tongxin now when the business community supports each other.

Zhao Tong nodded his head faintly: "after tonight, I think Huo Tingchen will be more honest. In the future, we will fight with him more in business. I just want to tell him that no matter where he is, I will not be afraid of him."

"Of course, you don't need to be afraid of him, because he doesn't have the qualification to make you afraid."

Jin Zhengting said calmly, and naturally took her delicate body into his arms. Then he looked up at the camera, and his mouth rose, showing a slightly ironic and disdainful smile, because he was the winner of the game.

He can also imagine how hysterical and crazy Huo Tingchen should be now. It's not something he should care about, and he won't care. The purpose of coming here is just to tell Huo Tingchen that no matter

what plot there is, he doesn't care at all, and he won't be fooled.

Zhao Tongxin is holding a red invitation card in his hand. Although it is late at night, the lighting facilities nearby are perfect and the light is very good. Huo Tingchen should be able to see the words on the invitation card clearly.

That's the invitation for the opening ceremony of her restaurant chain. She shakes it in front of the camera a few times, and then puts it on the ground. She also tells Huo Tingchen that even in business, she won't be afraid of him, let alone lose to him.

Jin Zhengting looked at his watch: "it's getting late. Let's go back."

"Nothing, Huo Tingchen dare not come out, he is afraid of you."

Zhao Tongxin said with a smile that Jin Zhengting would always give her a sense of security. As long as he was by her side, no matter what environment he was in, there would be no danger in the world.

"Well, it's a good night. We can watch it a little bit more."

Jin Zhengting took her hand, helped her back to the car, and then started the car.

This is the two of them jointly declare war on Huo Tingchen. Jin Zhengting really regards him as an opponent, and Zhao Tongxin has grown up to compete with him.

Huo Tingchen's future is doomed to be difficult.

In the car, Jin Zhengting drives the car and looks at Zhao Tongxin, who is sitting quietly beside her. She has always been so quiet. She has a natural freshness on her face. Her beautiful face always shows a gentle temperament. Her beautiful eyes are full of beautiful feelings.

"Zhengting, what are you looking at?"

Noticing his hot eyes, Zhao Tongxin bowed her head and said in a low voice. Although two people have been together for so long, she still can't adapt to his hot eyes, because he seldom shows such true feelings. Jin Zhengting is not a person who is good at expressing feelings with words, but at this time, one look explains a lot of problems. "I'm looking at you, of course."

As the sports car drove into the fast lane, Jin Zhengting put one hand on the steering wheel and one hand gently stroked her hair. This action was full of love and compassion, and could make her feel it clearly.

"I've been watching it for so many years, don't I feel bored?"

Zhao Tong Xin with a slightly mischievous eyes staring at him asked, her eyes bright as stars.

"Of course some men will, so people around me change one by one. Most of the time, they find that they have missed the best woman in the end, so I won't make the same mistake."

Jin Zhengting said it seriously, but he said it in a rare joking tone. It can be seen that he is in a good mood now, because when he is with her, he always has a happy feeling in his heart.

"I don't think you're talking about Yang ziye. Don't his girlfriends change frequently?"

Zhao Tongxin also makes a joke, but he doesn't consider the feelings of Yang ziye, who is lying on the gun innocently.

Jin Zhengting light smile: "it's just his appearance, in fact, he is still very eager to get a long-term relationship, but he always find the wrong person."

"Zhengting, you really know ziye well."

Zhao Tong smiles heartily. She also knows that Yang ziye is a very capable person, but his light is often covered by the prosperity of the family, so she can only indulge in and have fun.

"Growing up, I have only a few friends, so I know more than others."

Jin Zhengting said in a flat tone that he would only make a few jokes occasionally. Most of the time, he had no mood. He was not a man who exposed his inner emotions, which was one of his most attractive places.

For a man like him, few women know what he is thinking. All women have a curious heart, so they have to guess what he is thinking every day, so there will be a lot of fun in life.

Zhao Tongxin likes this kind of fun very much. She smiles: "Zhengting, are you thinking about the company's opening ceremony in five days?"

Jin Zhengting nodded his head: "yes, we declare war on Huo Tingchen like this. With his character of being aggressive, he will find some trouble on the day of the ceremony."

"If he wants trouble, let him come. I won't be afraid of him."

There was a trace of firmness in Zhao Tongxin's eyes. Her appearance always gives people the impression of tenderness. In fact, tenderness is the pronoun of weakness at some times. But in fact, she is very gentle, but she has never been weak. This is what Jin Zhengting appreciates about her.

"Yes, you don't have to be afraid of him, because you and your team, Shaoyuan and Rongqi used to be my assistants. I know their ability very well, they can do a lot of work, and they can be independent when facing problems. Now Huo Tingchen's strength is seriously damaged, so there's nothing to be

afraid of."

Jin Zhengting treats Zhao Tongxin with a more encouraging attitude. Because she has just set foot in the business world, she will inevitably have some lack of confidence. At this time, his encouragement is particularly important.

At the beginning, he didn't agree with Zhao Tongxin to enter the business, but he found that she really had this ability, and her attitude was also very firm, and it was all to help him. He couldn't refuse her feelings. Since he agreed to let her enter the business, he would spare no effort to cultivate her, because for this is also a way of expressing his feelings for her.

"Most of all, I have you."

When Zhao Tongxin said this sentence, there was no shyness in her eyes. She looked at Jin Zhengting squarely and said it naturally, because it was a fact that he was her pillar. Without Jin Zhengting's full support, she felt that she could not do anything well, just as she chose to enter the business world to help him, as long as this belief was there, she could let it go on.

"You'll always have me, because I've always been and never left."

Jin Zhengting said faintly that there was no difference between the lingering love words and the normal words in his tone, but Zhao Tongxin felt his determination.

Because he is a man who never promises easily, as long as he promises, he will do it.

"Zhengting, I don't allow you to leave me. I'm so selfish."

Zhao Tongxin gently leaned his head on his shoulder, blinked a pair of bright eyes and said, this is her most real idea, because she wants to have him completely, don't share with anyone, don't want him to turn away, just want him to accompany her like now, for a lifetime.

Jin Zhengting's eyes become gentle. The happiest thing in the world is that the woman she loves deeply loves herself as much as she loves her.

There is nothing more romantic than the present atmosphere. Although he never expresses himself or she never takes the initiative, the hearts of the two people are together. It is enough that they can feel each other's feelings.

"By the way, Zhengting, what should Xiaoying do? She is still in Huo Tingchen's hands. Huo Tingchen is angry now. Will it be bad for Xiaoying?" Zhao Tongxin's eyebrows are deeply locked. She is worried about Jin Ying's safety again. She knows what kind of person Huo Tingchen is. That is a madman. Once he becomes crazy, no one can predict what kind of crazy action he will make.

Jin Zhengting shook his head: "don't worry, he won't do anything to Xiaoying. Huo Tingchen has been

making progress all the time. He can control his emotions well now. Otherwise, he would have called out his men who are ambushing in the building to chase us. It can be seen that he already knows that it's better not to stimulate us at this time, otherwise he will get into big trouble. For me, that's what worries me.

"Zhengting, let's leave Huo Tingchen alone. Xiaoying's business needs to be paid close attention to, otherwise there will be a gap in her heart."

Knowing Jin Ying's eccentric and eccentric character, Zhao Tongxin is more worried.

"Soon, if Huo Tingchen wants to get back the money and the ammunition he will lose tomorrow night, he will have to trade Xiaoying for it."

Jin Zhengting said faintly, a sharp light flashed in his eyes. In fact, he was still very concerned about his sister's safety.

Chapter 508

Office of the president of Tianhong company.

The red invitation is on the desk. Huo Tingchen's face is gloomy. All the actions of Jin Zhengting and Zhao Tongxin are reflected in his pupils through the screen. It can be said that this is a loud slap in the face.

He wants to order Long Jiu, who is ambushed in the group building, to rush out to kill Jin Zhengting and Zhao Tongxin, but he doesn't have the courage. After his most elite killers are almost sure to be destroyed in the hospital, the men led by Long Jiu and Xu Ting are his only strength.

If Jin Zhengting dares to bring Zhao Tongxin here, it means that he must have been prepared. He may have ambushed his men in places invisible to the surveillance system, waiting for him to bring people out.

Huo Tingchen, who has been contacted twice, really does not dare to gamble the last bit of strength, so he can only watch them get on the car and go away.

When Jin Zhengting's car disappeared in the night for a long time, he asked his staff to take back the invitation that Zhao Tongxin had put on the ground. It was her invitation to open a catering company. Zhao Tongxin knew that with Huo Tingchen's courage, he would never dare to go, so he specially sent this invitation to him, which was also a secret taunt to him.

So now Huo Tingchen's mood is not beautiful. He wants to kill people, but Jin Ying's words suddenly come to mind. What's worse than Jin Zhengting's is that Jin Zhengting can always keep calm enough in controlling his own emotions, but he is often carried away by negative emotions.

Huo Tingchen forced himself to calm down. In order to defeat Jin Zhengting, he could make any

changes. After a long time, his mood stabilized, and his face once again showed that charming and strange smile: "you see, this is Jin Zhengting's and Zhao Tongxin's letter of war to us."

At this time, Cheng mobing is also in a very low mood. She has already called to confirm that the building where the financial department of the group is located has been looted by a group of unidentified masked people, and the cash in several safes has also been swept away by the robbers.

Needless to say, Jin Zhengting must have done it, or Zhao Tongxin must have participated in the operation. Xu Zheng's brows are tightly knit. He is calmer than Huo Tingchen and Cheng mobing. After all, he has no loss tonight.

This is also his most brilliant place. He makes full use of the power of Huo Tingchen and Cheng mobing, but he has never invested any money. It can be seen that he is really a man who can do business.

"Mr. Huo, since things have happened, it's no use to get angry again. Let's think about the next step first."

He lit a cigarette and said faintly that his brain was also in rapid operation at the moment. Jin Zhengting's sudden action tonight was obviously a strong counterattack against Zhao Tong's heart several times, and as in previous times, as long as he had some action, these people here didn't have any ability to fight back.

"Xu Zheng, all the working capital of my group has been robbed. Now it's very difficult to maintain the basic operation. What do you think I should do?"

Cheng mobing knows that Xu Zheng has always been a man with strong opinions and ideas. When she is hit hard, she can only place her hope on him.

As for Huo Tingchen, she doesn't need to think about it. Looking at his iron blue face, she should know that his loss is not small this time. Whether she can look after herself is unknown.

Xu Zheng gave her a slightly calm look and said to Huo Tingchen, "Mr. Huo, how much did you lose this time?"

"All the elites in my organization are now the only ones left under my command, led by long Jiu and Xu Ting. In a short time, they can't be replenished at all."

Huo Tingchen feels that his teeth are itching, but now he must be calm. After all, he is the leader in name. If he is flustered, it will cause the alliance which is not very strong to shake again.

"It seems that Jin Zhengting's action tonight is also to delay time. Now he should want Zhao Tongxin's company to go on the right track quickly, so he will start with the group's capital and underground forces. Once we lose these, Zhao Tongxin's company can make a smooth transition."

Xu Zheng pondered that he was very good at figuring out Jin Zhengting's thoughts, because he always regarded Jin Zhengting as his biggest enemy, so over the years, he had been secretly understanding Jin Zhengting.

"You're right. I think he's also for this purpose. From this, we can see that he doesn't have the ability to swallow us at once. That's why he uses this strategy of delaying our troops."

Huo Tingchen's eyes brightened for a moment, and he got a few good news from these bad news, which can be regarded as a blessing in misfortune. It seems that Jin Zhengting is almost at the end of a crossbow. Otherwise, with his ability to seize the opportunity, he will surely launch a thunderbolt and uproot him and Cheng mobing.

"Mr. Huo, another good news is that although our staff have been lost, the funds can still come back."

Xu Zheng smiles and takes a deep look at Cheng Mo Bing, then says faintly.

Cheng mobing suddenly looks up. Now she only cares about the group's capital. If she loses this capital, the most likely thing for her group is to be completely annexed by Huo Tingchen. Although the two sides are now in the honeymoon period of cooperation, she knows that Huo Tingchen is a ruthless person who can do anything for the benefit of others. Moreover, he is completely familiar with this kind of thing and has no psychological burden at all.

When she heard Xu Zheng say that the fund could still be kept, her heart finally dropped a little. But when she saw that Xu Zheng was looking at Huo Tingchen, she guessed that Jin Zhengting wanted to use the fund as a chip to exchange Jin Ying who fell into Huo Tingchen's hands.

"I know what you mean. I have promised you before. If Jin Zhengting wants to exchange money for Jin Ying, I will agree to his request. After all, compared with a poor rich lady, that start-up fund is more important to our united group."

Huo Tingchen is also a very smart person. He immediately understood what Xu Zheng meant. On the one hand, he is not interested in Cheng mobing's group. After a direct confrontation with Jin Zhengting in business, her group capital has shrunk in a large area, and is deeply mired in the jewelry industry. What he wants to do more is to put Jin Ying back. Only by staying in Jin's family can she make the most of her value.

Cheng mobing, who is still worried about whether Huo Tingchen is really willing to exchange Jin Ying for his capital, is overjoyed when he gives a positive answer. He did say that just now, but it's hard to say whether it can be realized. Huo Tingchen's reputation is not very good at all, so when he emphasizes that he will do it again, Cheng mobing is very happy don't worry.

"Thank you for your understanding. I will remember your kindness."

Cheng mobing is very happy to thank Huo Tingchen, while secretly throwing a charming look, this is her

habitual action, as long as it is a man who can use, she does not mind giving him a little advantage with her own hue.

But Huo Tingchen didn't seem to see it at all. He seemed indifferent. He just smile: "it's nothing. Since we have been united, our interests are common."

"Mr. Huo, let's not be polite. I suddenly thought of a terrible thing."

Xu Zheng deeply doubts Huo Tingchen's forthright style, but now he has no time to think about it, because he thinks of a neglected thing.

"What's the matter, Xu Zheng? Is there anything worse than the current situation?"

Huo Tingchen asked, pretending to be relaxed. Now he must show his outstanding leadership momentum to have absolute say in the United Group.

"You said that there will be a batch of arms on shore tomorrow. I think Jin Zhengting already knew the news. Our underground forces have suffered heavy losses, and I'm afraid they can't guard that batch of arms. If I were Jin Zhengting, I would send the most elite men tomorrow night. I just need to wait quietly at the wharf, and then take it at one stroke. At that time, Mr. Huo's start-up funds will also be needed. It's gone. "

Xu Zheng took a deep breath of his cigarette, then frowned and said that he was definitely not alarmist. Jin Zhengting, a man who is good at seizing opportunities, will certainly do so.

Huo Tingchen was suddenly surprised: "this is indeed a problem. Your prediction is likely to happen. No, with my understanding of Jin Zhengting, he will definitely do so!"

"Mr. Huo, what are you going to do?"

Xu Zheng looked up at Huo Tingchen. He would not miss any chance to get to know him. Although they had a lot in common before and had cooperated several times, Xu Zheng didn't know Huo Tingchen as well as Jin Zhengting, because he never regarded Huo Tingchen as his opponent. However, he had a strong premonition that Jin Zhengting would be defeated under the attack of both sides. Zhengting is likely to fail. When the Jin family is defeated, Huo Tingchen is the only family left in Jiangbin. At that time, Huo Tingchen becomes the biggest obstacle to his ambition.

Xu Zheng is a man with a long-term vision. He is also good at forbearance, but it doesn't mean that he won't prepare for a rainy day. Only when he knows himself and his opponent can he win a hundred battles. This truth has been known for a long time.

"There is no need to postpone the day when the ammunition will come ashore. As long as we send people to watch in the dark, if Jin Zhengting does it, the people hiding in the dark only need to detonate that batch of ammunition."

Huo Tingchen's eyes flashed a trace of ruthlessness. He thought that if Jin Zhengting had the idea of this batch of arms, he would naturally send a large number of hands down to the wharf. As long as he detonated that batch of powerful arms, Jin Zhengting's men would be hard to escape. Even without the participation of Jin Zhengting's main members, he could bear huge losses.

In this way, it is enough to offset their two losses of manpower. Both sides may be on the same starting line. As for the lives of the men who took over the arms, they are nothing in his eyes. As long as they can die together with a large number of Jin Zhengting's men, they will die properly.

This is a vicious trick. Xu Zheng and Cheng mobing look at each other and see a trace of fear in each other's eyes. They all deeply understand how crazy Huo Tingchen is.

Both Xu Zheng and Cheng mobing are good at playing tricks, but when it comes to being vicious, they are not as good as Huo Tingchen.

In Huo Tingchen's eyes, the lives of dozens of his subordinates are just props that he must use to revenge Jin Zhengting. From this point, we can see how cruel he is. "Although this method is good, the risk is too great. If such a big event is created, I'm afraid there will be high-level intervention."

Xu Zheng is not soft hearted. He just thinks that it is not appropriate to make a big deal at this time. The fight between Jin and Cheng has long attracted the attention of the senior management. This is not a secret in the upper society with some backgrounds. However, the two sides have not yet made a big deal, so the senior management also takes a one eye attitude .

"It doesn't matter. No matter how big the incident is, the Jin family will be the first one those senior managers will look for. At that time, I have completed the capital transfer, and even if I want to get into trouble, it will not be so easy."

Huo Tingchen said with a sneer that his pupils were constantly contracting, emitting two cold lights.

Chapter 509

Jiangbin hospital.

When Jin Zhengting and Zhao Tongxin returned to the ward, they had cleaned it up, showing high efficiency.

"Brother, all the killers sent by Huo Tingchen have been solved. I have identified them as the most elite group in his organization. This time Huo Tingchen has become a bare commander."

As soon as she entered the ward, Xu Yanke asked Jin Zhengting for credit with a smile she had not seen for a long time. She was suppressed by Huo Tingchen for so many years. This time, she can finally be proud. Through tonight's action, it can be said that Huo Tingchen's underground power has been

reduced almost. When he recovers again, I don't know it's a matter of monkey years.

"Well done."

Jin Zhengting said faintly, it seems that it is very common, but it is a good evaluation to be able to say it from his mouth.

Shaoyuan and Rongqi also come back with their men. Their men are busy. After all, they bring back a lot of cash this time. It takes some time to count the amount.

"Boss, we took Cheng mobing's home and got all the money she had there. It's just not clear how much, but it should be enough for the company to operate for a period of time."

Shaoyuan is overjoyed to say that the operation is quite beautiful, and there is no clue left. Even if Cheng mobing knows that they did it, there is no evidence.

"Well, hard work."

Jin Zhengting's face was always calm and calm. He said a light word, and then looked at Zhao Tongxin: "stay up all night, go to rest quickly."

She is pregnant now and needs more rest. Even if he agrees to her request that she can manage the company, she will not be overworked.

Zhao Tong Xin shook his head: "I'm not tired, Zhengting. Let's hurry up and study the next step."

It's not that she's not tired, but that there are more things to do in the future. When all the backbones of the group are present, she will discuss them together, so she still insists on her spirit.

Jin Zhengting looked at her haggard face, and a twinkle of sadness flashed through his eyes. However, he also knew Zhao Tongxin's personality. If he didn't let her participate, even if he ordered her to have a rest, she would not sleep well.

"Well, let's pause our work and discuss it together."

Jin Zhengting fondled Zhao Tongxin's hair, then pulled her to sit beside the bed.

Xu Yanke immediately put down their work and gave it to their hands to take care of. A few strong bodyguards guarded the corridor outside and closed the door of the ward. This is a meeting of the group's senior management, and no one will disturb it.

"It's hard work today."

Zhao Tongxin is the first to open her mouth. The two actions tonight were completed by her company's

staff, so she can naturally express her sympathy on behalf of Jin Zhengting.

"Tong Xin, we didn't work hard at all. We didn't meet any decent resistance at all. We didn't even warm me up enough."

Spoon garden slightly exaggerated twist shoulder said, this action really no difficulty.

"Zhengting, how do you think the money you got from Cheng mobing should be used?"

Zhao Tongxin smiled at the garden first, then asked Jin Zhengting, after all, he was the president of the group. And no one here knew how to make use of the funds, so the money has the final say.

"This money is used to exchange Jin Ying with Huo Tingchen."

Jin Zhengting has a plan for a long time. Although he doesn't seem to care much about Jin Ying, Zhao Tongxin's relationship has dropped to freezing point again, Jin Ying is Jin Zhengting's own sister, so he is still worried about her.

"I'm right. Don't forget that Xiaoying is still in the hands of Huo Tingchen. I know Huo Tingchen. He should pay more attention to the fund. If he can get the money, I think he will be willing to exchange it with us."

Xu Yanke made a statement first. She is Jin Ying's sister. She has never been close to her family. She cares about her sister very much and feels guilty for Jin Ying who has hurt her. So she will save Jin Ying at all costs. If Jin Zhengting doesn't tear down Huo Tingchen's plan in time, no matter who opposes, she will insist on taking people to find Huo Tingchen.

"Boss, we can wait until tomorrow night to move Huo Tingchen's arms. According to the news, those arms are worth more than ten billion. Now his strength is seriously damaged. If we want to take arms, he can't do anything about it. It's better for us to trade arms for Miss Jin Ying at that time. Anyway, we don't do much arms business and let it be in our hands It's also a waste of money. "

Shaoyuan thinks more about it. Now the company is in urgent need of start-up funds. The money she ransacked with others can just fill the financial gap. She knows that Jin Zhengting has not been engaged in arms business for a long time, so even if she robbed Huo Tingchen's arms, it's not very useful. It's better to exchange these arms for Jin Ying.

"Shao yuan's method is better."

Rong Qi doesn't talk much, but she thinks that the spoon garden method is better. Xu Yanke is really too anxious to save Jin Ying."I'm not sure about tomorrow night. How do you know you can get the weapons?"

Xu Yanke glared at them angrily: "you don't know Huo Tingchen at all. Let me tell you, now Huo

Tingchen really has no ability to guard the weapons ashore, but I know his style of work very well. I think he is ready for us to move those weapons now."

"Xu Yanke, tell me, his most capable men are almost lost in these two days. What else can he do to stop us?"

Spoon garden not to be outdone to stare back at Xu Yanke, she is also a role not to lose.

Xu Yanke gave a cold smile: "who told you that he would stop us? Now he wants us to move the arms. "

"How is that possible, Xu Yanke? Is there any basis for you to say so?"

Zhao Tongxin doesn't know anything about these things, so when it comes to this discussion, she usually listens quietly and never expresses any opinions. But she also thinks that Xu Yanke's words are too mysterious. What Huo Tingchen needs most now is funds. She knows that the purpose of arms is to make money, so how can Huo Tingchen watch his arms Robbed?

"Zhao Tongxin, I admit that you are very smart and a genius in business."

If put in the past, but Xu Yan will not praise Zhao Tongxin, but these several decisions, Zhao Tongxin showed extraordinary business ability, let her also admire from the heart, and now although the two people still have estrangement, but after all, it can also be said that they are a family, so the hostility to her is much less, the most important thing is in Rong Lei and her things, Zhao Tongxin Yu Li helped her, which made Xu Yanke's attitude towards Zhao Tongxin fundamentally changed.

But her words immediately changed: "but you don't know Huo Tingchen's way to solve these problems. I think he is ready now. What should he do to us? He will deliberately withdraw most of the guards from the wharf, and then send a team hidden in the dark. When we move the weapons, he will order that team to detonate the weapons immediately."

Except Jin Zhengting, all the people present could not help taking a breath of air. If Huo Tingchen did what Yan Ke said, the consequences would be terrible. The whole ship of ammunition exploded with terrible power. If he was sent to move the men of that batch of ammunition, the chance of survival would be infinitely close to zero.

"Hey, Xu Yanke, no matter how crazy Huo Tingchen is, he won't do such a thing. Come on, don't forget, if that ship of ammunition explodes, the riverside wharf will be razed to the ground. Dare he make such a big noise?"

Shaoyuan doubts the authenticity of Xu Yanke's conjecture. If Huo Tingchen really has the courage to do such earth shaking things, it will not do him any good. After all, no matter how the two sides fight, they are all within the acceptable range of the high-level. Once they exceed the bottom line of the high-level, then naturally someone will come forward to deal with him.

"He will. Tonight I received the news from Jiangdong that Huo Tingchen cashed out all the assets of the Cheng family two days ago. That is to say, there is only one empty shell left in the Cheng family. So even if the senior management interferes in our affairs with him, we can't do anything about the Cheng family. On the contrary, we will be closely watched by the senior management, which is very unfavorable for us."

Jin Zhengting frowned slightly. He pondered that Huo Tingchen's public identity is still Cheng Mohan, the owner of the Cheng family, so no matter how big the incident, the senior management will only find trouble for the Cheng family, and the Cheng family is just a tool for Huo Tingchen to use, which can be kicked away at any time.

Once they are targeted by the senior management, any disturbance may lead to a lot of unnecessary troubles. There are few really clean families like Jin family, and the senior management is just unwilling to intervene. However, if the senior management really wants to intervene, not only the group will suffer a serious blow, but also Jin's father's future in the military may be affected. Therefore, these interests are very important. When the relationship is figured out, he can't help being careless.

"Zhengting, is it really so serious?"

Zhao Tongxin knew this information for the first time. She grew up among the common people and knew nothing about what Jin Zhengting said. She thought that Jin Zhengting could cover the sky with only one hand in Jiangbin. She didn't expect that there were more powerful classes above.

"Of course, in this world, no matter what we do, there is a code of conduct. What we mean by the high level is the people who make the rules of the rich and powerful families. Within the scope of the rules, the high level will not intervene in the fight between the two sides. But if someone breaks the rules, it will be killed by the high level."

When Jin Zhengting looked at Zhao Tongxin, his eyes immediately became gentle and patiently explained to her.

"What kind of people are the high-level people? You can't do it without asking why?"

Zhao Tongxin asked with a wink. She was even more puzzled. When it comes to the so-called high-level, even Jin Zhengting seemed to be afraid. It was the first time she saw such a situation.

Spoon garden quietly pulled the corner of Zhao Tongxin's heart, whispered: "Tongxin, high-level refers to the above."

She said, pointed to the ceiling, round eyes showed a deep expression, Zhao Tongxin immediately understood what she said above specifically refers to. Strictly speaking, Jin Fu's rank of lieutenant general is the younger brother of the so-called high-level, so the high-level is self-evident. No wonder Jin Zhengting is so cautious towards the high-level.

"Zhengting, I think it's better not to move Huo Tingchen's arms, so as not to make things out of control."

Zhao Tong thought to the powerful power of that high-level, and he could not help but feel a little Bing ran in his heart. Holding Jin Zhengting's hand, he looked at him with worried eyes and advised him.

Huo Tingchen can be crazy to any extent, because he has nothing to worry about except revenge. Jin Zhengting can't do this, and Zhao Tongxin can't, so she doesn't want to give Huo Tingchen this chance to die together.

Jin Zhengting light smile: "rest assured, I will not be so stupid, I will consider for you, for the Jin family, rest assured."

After hearing his promise, Zhao Tongxin was relieved. She only wanted him to be safe.

Chapter 510

"Zhengting, although the company's capital is a little tight now, the capital should not be used. It's important to save Xiaoying."

Zhao Tongxin decided almost without thinking. In her opinion, this money as a start-up fund can effectively alleviate the financial tension, but Jin Ying is more important, because she can't buy family affection with much money. As Jin Zhengting's wife, she has long regarded his family as her own. Even Xu Yanke, who is paying right or not, has chosen to accept it, let alone accept it Jin Ying, who said she didn't have much grudge with her.

"Well, that's it."

Jin Zhengting understood her mood and nodded faintly. From the beginning of making the plan, he had calculated that Huo Tingchen valued the money more. Although he got the money, it would cause great trouble to his group, but it was still important to save people.

No matter how smart he is, Jin Ying has chosen to cooperate with Huo Tingchen. Her silent character and unfair treatment she has felt for a long time distort her psychology to the extreme, so that all her anger and dissatisfaction are vented to the whole Jin family.

"Boss, what should we do with the arms going ashore tomorrow? If Huo Tingchen gets these two funds, it will pose too great a threat to the group and the company."

Shaoyuan expressed her concern. She knows very well the financial situation of the group and the company, and Huo Tingchen's group is in a relatively balanced situation, but she has no spare power to take care of other things. Once this balance is broken by the new capital injection, it will be difficult to reverse it in a short time.

Jin Zhengting looked indifferent: "nothing, Huo Tingchen can't turn over any storm."

His self-confidence is inborn, because he has such ability. Even if Huo Tingchen and Cheng mobing join hands, he doesn't have any worries. Instead, he always believes that the final winner must be himself. Men need such confidence to overcome everything.

"Then I'll tell the brothers to give up tomorrow night's plan."

Shaoyuan said nothing more. Like all Jin Zhengting's subordinates, she would not have any objection to all the decisions he made, because the boss has made countless decisions in his life, and the facts have proved that the boss has never missed them.

"Send someone to inform Huo Tingchen that if he wants to get back the money, he will make an appointment to meet tomorrow evening and let him remember to bring Jin Ying."

Jin Zhengting said, looking at Zhao Tongxin with gentle eyes: "the doctor said that you can be discharged the day after tomorrow. I know you will be bored here, but for the sake of your health, bear with it."

This may be the first time that he talks with others in the tone of discussion, and he only talks to Zhao Tongxin in this way.

"Good."

Zhao Tongxin nodded her head cleverly. The reason why she felt bored in the hospital was that she couldn't let go of the company's business. The company's advertising will start shooting tomorrow. She wanted to participate in it in person, but for the safety of her children, she could only stay in the hospital. Fortunately, she could leave the hospital the day after tomorrow and catch up with the opening ceremony of the restaurant chain.

She knew that Jin Zhengting didn't let her leave the hospital for her consideration, so she wisely agreed.

"Well, it's late. Let's have a rest early."

Jin Zhengting stroked her long hair and helped her lie down. When Xu Yanke saw the scene, they left the room consciously and closed the door gently.

"Zhengting, can you accompany me for a while? I can't sleep alone."

After this night, Zhao Tongxin also felt a little tired, but maybe it was because he had been in the hospital these days and had not been with Jin Zhengting, so he missed the feeling that he was holding himself to sleep.

"Well, I'm not going back tonight."

Jin Zhengting turned off the light in the room and only turned on a desk lamp at the head of the bed.

The light, which was slightly dim, was full of tenderness.

He sat beside her, gently covered the quilt for her, reached out to touch her head, his action is so gentle.

I don't know if it's my own illusion. As long as he is around, Zhao Tongxin will always feel a kind of light warmth. With his actions, this feeling soon spread to the whole body, making her feel very comfortable and at ease.

Gradually, with his rhythmic caress, a sense of sleepiness hit without warning, her beautiful eyes gradually closed, and soon entered the dream, it must be a very sweet dream.

Jin Zhengting looked at her pretty face when she was sleeping peacefully. Her eyes became gentle gradually. Her hand movement did not stop. She continued to caress her hair. Although she was in a dream, he knew that she would be able to feel it.

Zhao Tong Xin turns over languidly. Unconsciously, he hugs Jin Zhengting's arm. It's so tight, just like a little girl who is coquettish. This kind of feeling is only in a dream.

Jin Zhengting raised his mouth and showed a warm smile. When he was with Zhao Tongxin, he always felt more relaxed than ever before. Even the cold layer that covered his heart seemed to melt.

Gently leaning on the head of the bed, looking at Zhao Tongxin's face gradually smile, know that she is doing a very sweet dream. Turn off the lamp, the moonlight from the crack in the soft sprinkle down, give them a little bit of silver gauze.

Gently embracing her in his arms, Jin Zhengting can also feel the warmth she brings. The feeling of love is mutual, so that the two people gradually integrate and can no longer distinguish each other.

In such a comfortable environment, Jin Zhengting rarely put everything down, completely relaxed his mood, and gradually fell asleep with his favorite person in his arms.

It's destined to be a warm night.

But for Gu Chen, this night is not happy, he has been busy for a long time, more than three in the morning is still working overtime in the company.

In the evening, the Publicity Department of Zhao Tongxin company worked out the advertising plan. After several revisions, it was finally confirmed and sent to him.

This time, Gu Chen is responsible for all the advertising shooting. This is Zhao Tongxin's trust in him, and he will never fail to live up to it.

He chose to work for Huo Tingchen, but he was also afraid that Zhao Tongxin would be hurt, which was also a kind of behavior against his will. Even if his guilt was relieved due to Jin Zhengting's relationship,

he was still a little uncomfortable. He could only use his excellent work to compensate his guilt for Zhao Tongxin.

After a busy night, he finally came up with a final book. Tomorrow, he could shoot according to the script. When he finished cleaning up the papers on his desk, he suddenly found something strange in the office.

This is him working overtime alone. He should be the only one in the office. But he clearly saw the Figure shaking in the corner of his eye.

He suddenly raised his head and saw Huo Tingchen really looking at him with a smile. Behind him stood a charming dragon nine.

Their sudden appearance startled Gu Chen, which also proved that all his whereabouts were under Huo Tingchen's surveillance.

"Mr. Huo, why are you here?"

Gu Chen soon regained his composure. He had got what Huo Tingchen wanted. Huo Tingchen didn't have to threaten him with Zhao Tongxin's safety. Although Gu Chen had no influence, he was still arrogant in his heart.

"I'm sorry, it's very impolite to visit late at night without knocking at the door, but you should know that I'm in a hurry to wait for what I want, so I can't care much."

Huo Tingchen's face with a gentleman's smile, there is no appearance of things, now his emotional control has really improved a lot, at least on the surface.

"I've got it. It's what you want. I'll only help you this time. If there's anything to do in the future, I hope Mr. Huo will ask someone else."

Gu Chen will be a U disk handed in the past, this is the result of his afternoon, when no one saw, secretly burn good.

Huo Tingchen smiles and reaches for the USB flash drive. There is a glimmer of joy in his eyes. The eyes of long Jiu behind him also shine with excitement. They finally get the password and get closer to the treasure.

"You did a good job. I don't know how to thank you."

Huo Tingchen carefully put the U disk away, from his action can see the degree of concern about this matter, he is not worried about Gu Chen will cheat him, because he has let Gu Chen see his ruthlessness, Gu Chen even if again famous is just an entertainment star, in Jiangbin there is no too big influence, as long as he moves a little thumb, can let him Gu Chen is broken to pieces.

"No need to thank you. You'd better leave. I'm very tired. Mr. Huo had better rest early."

Gu Chen has no interest in talking with Huo Tingchen, he said lightly, made a please gesture, which is very obvious to see off.

Huo Tingchen didn't go, but came to his opposite and sat down. He looked at Gu Chen with a pair of Phoenix eyes, as if he could see through his thoughts at once.

Gu Chen was embarrassed by him: "Mr. Huo, what are you looking at?"

"I'm looking at you. I see that you have a strong reluctance in your heart. If I guess correctly, you still get Zhao Tongxin for Jin Zhengting, not that you feel very unhappy, right?"

Huo Tingchen asked with a smile, he is very clear about Gu Chen's idea, because he has thoroughly investigated the past of Gu Chen and Zhao Tongxin, and knows their past very well, and he knows that Gu Chen still has a special preference for Zhao Tong's mood.

This time when he comes to Gu Chen, Huo Tingchen not only gets the password he wants to get, but also uses Gu Chen's jealousy towards Jin Zhengting to win over Gu Chen. He thinks that Gu Chen and Zhao Tongxin can do a lot for him.

Gu Chen's pupils contracted for a while. Huo Tingchen was right. He really didn't give up on Zhao Tongxin. He was dissatisfied with Zhao Tongxin's safety because he was with Jin Zhengting. He even had the idea of replacing Jin Zhengting. But this is the most secret activity in his heart, so he won't say it.

"Mr. Huo, do you think too much? Tong Xin and I are just good friends, not what you think."

"Don't deny it. I know what you want. It's not as good as us. If we cooperate, you can get Zhao Tongxin, but only if you help me deal with Jin Zhengting." Huo Tingchen directly out of the conditions, and then smilingly looking at Gu Chen, he is sure that his price is Gu Chen can not resist.

Sure enough, Gu Chen's face changed, but soon recovered calm: "Mr. Huo, if I don't choose to cooperate with you?"

Huo Tingchen ha ha a smile: "I think you won't refuse."

Long Jiu has already taken out a gun behind him. The black muzzle of the gun is facing his forehead. Huo Tingchen's eyes flashed a trace of coldness: "Gu Chen, if I were you, I would choose to cooperate with you. You can not only save your life, but also get the woman you love. Do you want to see Zhao Tongxin lying on Jin Zhengting's bed all your life ?"

This sentence is the most important, Huo Tingchen said, Gu Chen's heart immediately a burst of sour feeling, Zhao Tong heart is the love of his life, any man will not accept his beloved woman lying in other

people's arms.

"OK, I promise to cooperate with you!"
