

Chapter 521

It's too easy to remove the uterus. This operation is much simpler than gastrectomy and hepatotomy. After all, the uterus is just a pocket. If Zhang Fan didn't choose surgery, he would choose gynecology.

In case of gastric perforation, he can't do it. Even if he had a bad liver, in just two years, Zhang Fan would never get a major surgery for general surgery.

Optional surgery, but also in various departments of the liver for a long time, and gynecology is also known as minor surgery. Therefore, cutting the uterus is really not a problem for Zhang Fan.

Separation, accurate separation, early ligation of blood vessels, to say a bad word, Zhang fanru was the same as dissecting the corpse, because there was no bleeding at all.

The uterus is connected to the Yin (a) tract. These two structures are very strange. The non pregnant uterus is like a flask, and the vaginal (a) tract is sleeved on the flask like a tube. Once pregnant, at this time, the uterus is like a big watermelon with a pedicle.

As early as ancient times, Chinese medicine believed that kidney was related to reproduction. The predecessors didn't have the current equipment, and they didn't know how to confirm it. Their ideas were really awesome.

According to modern embryology, testosterone (a) pill, Yin (a) essence, uterus and Yin (a) tract are actually formed by mesonephric duct, because the amount of androgen determines what it grows into.

Speaking of people, in fact, the body first gets the kidneys, and then the remaining materials get a wave of reproductive system. The strange thing is that both the * * and the uterus were originally one cell, but this thing changed when it grew.

The cells of the uterus become more retractable and shedding cells, while the cells of the vaginal (a) tract become wear-resistant squamous cells. It was twins, but it turned out to be nothing at all.

At the junction of the vaginal (a) tract and the uterus, the cervix is difficult to do. The squamous epithelium is close to the vaginal (a) tract, while the side close to the uterus is not squamous epithelium.

Most of the conventional cancers in the human body occur at the junction of the two tissues. And it is

particularly easy to get sick, so the annual free double gland one-piece census in China is really great. Once a woman is over 30, it is necessary to check once a year.

Ligation, ligament, this thing is opaque. Just like beef tendon, it is cream yellow or bright yellow. Although human ligament is not as tough as beef, it is also opaque. And the ligaments of the uterus cover the left and right of the uterus like a fan, and then the arteries and veins become thick into pipes.

The uterus is like a beautiful fish hanging up. The left and right hands are ovaries, the left and right arms are arteries and veins on both sides, the uterine body is the body of the mermaid, and the cervix and Yin (a) are the tail of the mermaid.

Really, think about it. It's very vivid.

Now, what Zhang Fan did was to break the mermaid's arm first, suture the two ends with thick thread, and click with scissors in the middle. His arm was broken“ Yes! ” The doctor wanted to remind Zhang Fan.

You can see that after Zhang Fan cut the artery very neatly, he didn't see the liquid coming out, so he didn't bite again. Because it is very dangerous here. 2cm below the artery is the ureter, which is the so-called water under the bridge!

After cutting off the artery, Zhang Fan gently pressed the uterus with his hand and asked the anesthesiologist, "how's it going, Lao Cheng?"

Of course, the anesthesiologist knew what Zhang Fan asked. "The blood pressure began to rise slowly. However, I just heard a large area of wet rales in my lungs. "

"Edema, ah!" Zhang Fan sighed helplessly.

"Yes, Zhang Yuan. If we hadn't cooperated smoothly today, we might have been on the stage. It depends on her life now. Maybe she can resist it. " Comforted Zhang Fan to the doctor.

This kind of thing is really helpless. It's terrible. Although Zhang Fan and others stopped the continuation of the disease early, they may have caused irreparable damage in a few minutes of hypoxia.

"Pliers!" Zhang Fan took the big curved forceps handed over by the nurse and directly clamped it under the free uterus (a). If the cervix is not bleeding, there is no need to cut the cervix. To tell the truth, cutting the cervix is too troublesome, but the patient is not old and can keep it. Wang Wang knows Mao!

If the uterus does not say the cell composition, it is a large bladder. The inner layer is mucous membrane, the middle is muscle, which is much thicker than bladder, and the outer layer is anti friction coat.

Anyone who has eaten a small stomach should know.

When the knife fell, the cold light flashed, and the uterine body fell off along the upper part of the big bend clamp.

Stitching, the stitching here should be paid attention to. It must be tightly stitched, or there will be trouble if there is a gap“ Absorbable line! ” Zhang Fan took the absorbable thread and began to sew it up.

Non absorbable lines are black, while absorbable lines are generally blue. The advantage of zigzag suture is that the suture is more precise.

What is eight character suture? It's very simple. For example, if someone talks a lot, sew his lips and sew them with eight character suture.

The curved needle first enters from the left side of the lower lip and then comes out from the left side of the upper lip. Then pull it across the lip, enter directly at the lower right of the lower lip, and then come out from the upper right. Then, pull it horizontally, tie a knot and cut it at the lower edge of the left side.

Then the lip surface was hit with an X. This is the so-called eight character suture.

Zhang Fan sewed, knotted and cut the thread from the doctor. They cooperated very quickly. I really want to thank Ouyang for his transfer rules. Otherwise, today, Zhang Fan's dry fingers are stained with pepper.

Sewing point by point, closing point by point. Finally, you can only see something like a meat channel alone in the pelvic cavity.

If you don't look carefully, you think the man's things are forced into your stomach!

Surgery, done. However, the woman was only half pulled out of the hands of the king of hell. The other half is still in the hands of the king of hell. Life and death do not fall!

As for whether he can live or not, really, Zhang Fan is not sure. Now he can only say that the patient will not die because of massive bleeding.

In ordinary surgery, doctors generally don't have much adrenaline surge, but this kind of obstetric bleeding and amniotic fluid embolism are almost exhausted.

When Zhang Fan finished the operation and sutured his abdominal cavity, a group of doctors sat on the ground of the operation car. They were too tired. Their bodies trembled slightly after the decline of adrenaline.

The head nurse looked at the doctors with envy. She couldn't rest yet. She has to change the fluid and adjust the monitor.

"How's it going? Does she have any hope?" Suddenly, the white doctor squatting in the horn asked. He was like an orphan without a mother.

Zhang Fan forgot him. With the interpreter's words, Zhang Fan and them looked at the white doctor. In these two hours, the doctor seemed to have spent more than ten years. Suddenly, he seemed to be much older.

"At present, the bleeding has been stopped and the uterus has been removed. However, it is not known whether amniotic fluid embolism has caused her irreparable symptoms."

"Hu Da! Thank you, thank you!" His lips trembled and tears circled in his eyes. Guilt, unspeakable guilt, although he can't speak, Zhang fan understands him.

Today, if he is a gynecologist and has amniotic fluid embolism, he won't feel guilty even if the patient hasn't been rescued. Because he tried his best, but he was not a gynecologist. He thought it was his factor that made the patient embolism.

Chapter 522

Amniotic fluid embolism, really want to find the reason, really can't find it. However, one of the complications of caesarean section is amniotic fluid embolism. This disease, to be honest, is not easy to prevent.

Some parturients have no problem with amniotic fluid entering the blood system, while others are fatal once they enter the blood system. Zhang Fan's rescue was just to stop the current massive bleeding.

As for embolism, we can only rely on the mother herself. Moreover, this embolism can not be dissolved, and the mechanism of amniotic fluid embolism is too complex. At present, it is given hormone shock, dehydration and anti-inflammatory. Rehydration, the rest depends on the mother.

The human body is sometimes a non scientific body.

The auxiliary materials for the incision were pasted and the liquid was hung. The patient was slowly pushed out of the operating vehicle by the nurse and doctor.

The crowd roared round "Give way, give way." Zhang Fan led the doctor, slowly pushing the unconscious parturient in the passage dodged by the crowd.

At this time, there was a blank in Zhang Fan's mind. When manpower was poor after all, he tried his best without regret, really without regret, but his heart seemed a little uncomfortable.

The wheels of the operating vehicle ran over the grassland and left deep ruts. The majestic man wrapped his newborn child in a leather robe when the operating vehicle was sent to the tribal tent hospital.

The man cried, lying on the woman's head, out of breath.

"Bri bri Khan, wake up, wake up, look at your child, look at her, look how much she looks like you.

Bree, wake up, my Bree! " The man sat on the ground with the child in his arms, and the water flowed along his eyes. "

Who says men don't cry, just before they are sad! Although Zhang Fan didn't understand them, how could they not understand when they watched the man grow up with his mouth and sob bitterly.

Having just given birth to a child, I didn't even look at the child's appearance. I slept so deeply. Maybe this sleep is forever, poor woman.

In the crowd, men are sad and women wipe tears. The tragedy of the world, but so.

The old chief of the tribe was deeply afraid of accidents and arranged for the doctors in Istanbul to leave early. Before leaving, the doctor in charge of surgery in Istanbul found Zhang Fan with a burden.

"My friend, perhaps only you can understand my mood now. This is the bonus given to us by the tribe. My team and I think it should be compensated to the poor child.

Can you help me hand over the money to the child's father. Other people, I... "The doctor, about forty years old, had very sharp eyes and became melancholy.

"Yes!" Zhang Fan didn't refuse. He opened his bag and looked. After confirming the amount, he nodded. There was nothing more to say.

"You scared me to death. Do you know? If I hadn't been a little more resourceful today, maybe now

we've all become ghosts under the gun. You'd have to be better." Zhang Fan looked at the white doctor who had left. When he was ready to return to the tent, President Wang quietly touched Zhang Fan's side.

"Yes! What, you mean, let me die?" Zhang Fan didn't give President Wang a good tone.

"Hey! I'm no one inside or outside. I'll tell you, when I came out, the superior leaders told me to be the team leader. " Mr. Wang chased Zhang Fan and talked.

"OK, you'll have an operation tomorrow." Zhang Fan is in a bad mood and inexplicably upset.

"Er!" President Wang's teeth are almost broken.

Zhang Fan walked into the tent and was just about to give the money to the wilted man. It is estimated that the child is hungry, little doll, half closed his eyes and weak! WOW! WOW!

From birth to now, it has been more than three hours. The little doll only drank a little sugar water. Really, the motherless doll is the most pitiful" Come on, do you have any milk powder? Feed the child a little. I think he's hungry. "

Zhang Fan walked forward and looked at the children. The finger touched the child's cheek. The baby was like a little bird, trying to hold Zhang Fan's finger in his mouth.

"Is milk OK without milk powder?" Translation on one side.

"No. As for the first pregnant woman, send the child and let her feed the child first. " Zhang Fan refused as soon as he heard it!

"Doctor, the substitute lamb is not big. Can the child take a sip of her mother's milk? Even if you smell your mother! " The chief of the tribe stood up and spoke to Zhang Fan for the first time. He can speak Chinese.

"All right! It is estimated that there will be no milk. The blood loss is too serious! " Zhang Fan said sadly.

The old chief gently hugged the child from the man's arms, shook it slowly, and then gently put it next to the sleeping mother. Head nurse, hurried forward to help open the maternity clothes.

"The temperature is not very high, alas!" The head nurse is talking to herself.

The child climbed in front of his mother's chest and was gently supported by the head nurse. When the nursing room (a) was placed on the child's mouth, she stopped crying, and her two small hands shook and climbed up her mother's chest.

Born children, not much strength, gently wordy, wordy. Nothing, the child began to cry again, wow!

WOW! WOW! It can really make the adults present feel that their hearts are torn by the cry.

"Take it away!" Zhang Fan couldn't help it. He was too upset.

When the head nurse picked up the child and wanted to cover the child's mother's clothes, she saw the milk (a) juice flowing out and the oily * * seeping out.

"Milk, milk!" The head nurse cried, and the plump woman burst into tears and hurriedly put the child on the mother's chest. The child began to suck.

At this time, the maternal eyes slowly shed tears.

It is estimated that there are about 1000 to 1500ml maternal blood loss, almost one-third of her blood. Now milk (a) water is seeping out. Maternal love is greater than heaven.

The baby ate his mother's milk (a) and water sweetly. Zhang Fan withdrew from the tent with the doctors.

"Ah! Take a break. " Zhang Fan is very tired, his body is tired, and his heart is more tired. It is in this case that the doctor's heart slowly hardens year after year and day after day.

At night, Zhang Fan slept. When he woke up, the sky was full of stars. On the uncontaminated grassland, the stars twinkled. Hungry, no matter how depressed you are, people will be hungry when they live.

Listening to the movement in Zhang Fan's tent, President Wang ran in the first time“ How's it going? Did you sleep well. Are you okay? "

"It's all right. It's much better. In the evening, you're upset. Don't mind."

"Hey, we are brothers when you go abroad. I don't mind if you can vent your anger and slap me. Hungry? I got you some noodles. Meat is not expensive on the grassland, but noodles are rare. "

With that, after a short time, President Wang came in with a bowl of egg noodles, "eat, everyone else has finished eating and gone to sleep. I said, brother, it's the first time I've seen a doctor like you. Really, brother, I finally know why you can stand out in the frontier. "

Zhang Fan ate noodles and didn't speak or need to speak“ Don't be too talkative. Can I ask you something? "

"Well, you said." Zhang Fan ate noodles, nodded and said vaguely.

"The old chief said, let's take a day off tomorrow and have the operation the day after tomorrow. At that time, can you slow down the operation?" President Wang said with embarrassment.

Zhang Fan looked at President Wang in wonder. Zhang Fan didn't understand his meaning.

"Look, you're doing the appendix and gallbladder too fast. As the saying goes, it takes seventy-seven or nineteen days for the Supreme Lord to refine pills. If he practices too fast, maybe the Jade Emperor thinks the old man has fooled him. "

"Huh?"

"I mean, now we are the only family left. When we operate on the chief, we have to make them feel that we have spent a lot of effort and effort."

"Ha ha!" Zhang Fan smiled and didn't speak.

"Well, just smile. Don't make yourself like anything. Have you seen few dead people?"

"I can't see children crying." After Zhang Fan finished the noodles, President Wang immediately handed a cigarette. Zhang Fan hesitated and took the cigarette.

"I can't see the child cry, but my heart is hard. If the child cries, I cry, but it's over after crying. I'll never think about it again!"

"Hehe, it seems that Wang always has the talent to be a doctor."

"Ha ha, who said no, I didn't study well in those years, eh!"

After dinner, Zhang Fan stood outside the tent and looked at the stars all over the sky. A meteor slowly flew over the horizon!

Chapter 523

The next day, I don't know what President Wang said. Anyway, the security of the oil system also entered the grassland. Although it didn't enter the tribal gathering area, it wasn't far away. You can still communicate with each other by shouting.

This is the advantage of monopoly. When the team in Istanbul was, Wang was always the weak side. Now, President Wang is beginning to be strong.

To rest for a day, Zhang Fan and his family adjusted their mood and didn't go far. They rode around on the grassland. The Mongolian grassland is different from the grassland in the tea valley.

There are many Gobi and deserts around the Mongolian grassland, but the tea vegetable Valley is different. It is surrounded by snow mountains and forests on three sides, and the gap is facing the warm

and humid air flow of the Indian Ocean.

It's really a treasure land, with snow mountains as a big air conditioner. It's really good weather all year round, and the minerals here are also very rich.

Unfortunately, most of them were taken away, so president Wang had to come here as a grandson.

The chief is an understanding person, and he also inquired. There are not many doctors who can do this kind of operation. According to his strength and environment, the doctors who can be invited are estimated to be Zhang Fan. If they want to live, they have to treat others politely.

Therefore, in order to let Zhang Fan have their operation at ease, he not only agreed that the security team should be stationed next to their tribe. Zhang Fan would like to invite them to dinner again, but Zhang Fan refused, and the labor cost of the operation was settled in cash.

Zhang Fan was not polite at all. He took it all directly. Originally, according to Zhang Fan's character, he might be polite, but this time Zhang Fan was not polite at all.

Because Xiao Wang Feng gave Zhang Fan a vivid description of the situation the next day.

"Zhang Yuan, you don't know. What look did they have at that time? Like a wolf, everyone has a gun. If it weren't for president Wang, I wouldn't have seen you."

"Did they move their guns?"

"I moved, but I didn't shoot. You were in surgery. I saw it with my own eyes. At that time, I was scared to death. My legs trembled. If it weren't for president Wang, I would have peed in my pants. "

"Are you okay?" Zhang Fan looked at Wang Feng. Wang Feng has a hot personality, a tall person and a very high EQ IQ.

"I'm fine. But we have to keep more snacks these days. "

"No, let's go straight after the operation tomorrow." President Wang leaned over from one side.

"Well, that's what I think. Is it safe to go to your base?" Zhang Fan said after looking at general manager Wang.

"Don't worry, as long as it's not a regular army, no one can attack this area. Besides, we're on the border. We don't have to be afraid at all. If something really happens, the armed police will come directly. "

"Can the armed police come?"

"Hehe! Don't worry, anyway... "Mr. Wang whispered in Zhang Fan's ear.

"So fierce?"

"Of course, otherwise, do you think Mordor people can use natural gas! If it weren't for our armed police, it's estimated that the magic people are still using liquefied gas. "

President Wang proudly lit a Chinese cigarette. Little Wang Feng waved in front of his nose discontentedly. Lao Wang quickly took two breaths and embarrassed pressed out the cigarette end.

After listening to Wang Feng's words, the operation became a naked business. No matter how generous a person is, he may not be happy when he meets this kind of thing. If it weren't for the big face of US dollars, Zhang Fan would really take the team away.

Be reasonable, let's do it in a reasonable way. If not, let's do it in a unreasonable way. Anyway, this is a foreign country, and the health bureau can't manage it here.

On the grassland, Zhang Fan and his family wandered around all day and ate in the tent of the security team. Originally, Zhang Fan didn't want to go back to the tribe at night. As a result, he was advised by President Wang to go back.

If he takes his colleagues abroad, how can Zhang Fan explain to his family when he goes back. Zhang Fan is really angry.

In the evening, Zhang Fan drove away president Wang. President Wang left with reluctance like a child's daughter-in-law. There is only Zhang Fan's team in the tent.

There are one anesthesiologist, three nurses, and five surgeons, including Zhang Fan, that is, nine“ Wang Feng, go and see if President Wang has gone far. "

"Yes." Sitting in the tent, Wang Feng got up and looked outside the tent.

"Zhang Yuan, Mr. Wang is not here."

"OK, let's have a small meeting today." Zhang Fan's expression is serious. After Wang Feng takes his seat, Zhang Fan opens his mouth.

"First, emphasize discipline. We'll leave here as soon as we finish the operation tomorrow. During this period, try not to go out of the tent. Even if it is convenient to go out of the tent, don't go out alone.

Especially for the three girls, it's best for them to go together. "

"OK, Zhang Yuan, we know." The nurses nodded. Zhang Fan saw several male doctors again, and they all nodded.

"The second is about the bonus share. Originally, I wanted to get more for more work. But you also know what happened yesterday.

I proposed to come here. I didn't expect this to happen. Life and death, I think... "

"Zhang Yuan, don't put all the responsibility on you. In fact, we were prepared when we came here. Although we are all here for the first time, we have heard something about it. " Xiang is the oldest doctor in this team.

As soon as he spoke, the others nodded.

"Anyway, I hold my head. If something happens, I will feel guilty all my life. Therefore, we will share the bonus equally.

Now we have 400000. As for tomorrow's one million, whether he gives it to us or not, I think it should be divided equally. Do you have any comments? "

With that, Zhang Fan first saw several doctors. According to the conventional Throwing Knife distribution, the chief surgeon takes 60%, the assistant 30% and the nurse 10%.

"Zhang Yuan, to tell you the truth, you can pull others to do the operation. We can't do it without you. It's inappropriate to divide equally. You take half and we divide equally the rest. Even so, we all have shit. "

Shook his head to the doctor, "yes, Zhang Yuan, you take half, and we share the rest equally."

"Zhang Yuan..." the head nurse was about to speak.

"Needless to say, when I'm a leader, just listen to me. That's it. Let's talk about tomorrow's surgery.

To the doctor, I'll help you tomorrow... Wang Feng, instrument nurse tomorrow. " When they heard that Zhang Fan had arranged the operation, they straightened up and listened carefully.

"God, Zhang Yuan is so handsome. It's really handsome. With a big hand, it's like an iron blooded general. I like Zhang Yuan so much. " After the meeting, they went back to their tents. Three girls huddled in a quilt, muttering, fragrant and gorgeous.

"You little financial fan!"

"Aren't you a financial fan! Look, I don't pinch the secret of you little financial fan! " Two little nurses began to make trouble.

For \$150000, the head nurse was silent. The two little nurses were making trouble. When they found something wrong, they turned and hugged the head nurse's arm.

"Boss, what's the matter. Aren't you happy to have money? "

"Hey!"

Chapter 524

"You two silly girls, hey! If I were ten years younger, I would definitely go after Zhang Yuan. Your eyes are not small. How can you see this money in front of you!

We and Zhang Yuan have shared life and death. What a good opportunity. "

The head nurse sighed.

"Zhang Yuan doesn't like me. When he first came, Corey didn't have no one told him. I ate steamed stuffed buns at Zhang Yuan's treat at that time."

"Just know how to eat!" The head nurse said angrily.

"Hey, it's mainly because Zhang Yuan was too dark at the beginning. If it had been whiter, I guess I would have chased back, but when I began to ignore his black face, he probably began to ignore my appearance!"

"Ha ha! Alas, Zhang Yuan is growing too fast. Blink into assistant dean. You see, when the experiment of the liver and gallbladder center of the hospital and the experiment of skin transplantation are taken down, you don't know how developed it is.

We are all girls from ordinary families. We are spending the same age and have some capital. Once we pass this age, we will be bean curd residue.

I can see that he is a good man. If you want to compile in the future, you can walk around with Zhang Yuan. With this experience, you are close to Zhang Yuan. This is an opportunity. "

It was probably money or what Wang Feng said. The head nurse specially mentioned two little girls.

"Boss, I listen to you most." Wang Fengtong stuffed the nurse's plump secret.

"I also listen to the boss." Another nurse

"Two villains." The head nurse smiled slightly.

Suddenly, not only the three nurses didn't sleep well, but also the doctors. Ten years of money is still very valuable. One million. You can buy five big houses in tea and two in a 100 flat house in bird market.

Just followed Zhang Fan on a trip to the grassland. Although it was thrilling, it was not fatal. This was the idea of several people who didn't see the scene at that time.

Zhang Fan is really afraid to say bad words. People who live in a peaceful world simply can't imagine a world where they shoot.

Zhang Fan didn't think much, but others thought a lot. After thinking about it in the middle of the night, people change people's hearts. This is not out of date.

In the early morning, if there is no cattle tearing and horses ringing on the grassland, replace it with the evening drum and morning bell, and then look at the early morning fog on the grassland. It is really like a fairyland, with purple wild flowers floating slowly in the breeze.

Zhang Fan ate a poached egg and a piece of Nang cake in the morning. It's really not easy to eat pasta and rice on the grassland. Without electricity, nothing can be put for a long time. Even if milk is not made into milk tofu or yogurt, it can't be placed.

"Zhang Yuan, the cars are ready. The all-in-one datu Le has reached the foot of the mountain. Just give it a go. You can rest assured whether it's OK or not. It won't delay your return home at all. " Mr. Wang didn't know whether it was to appease Zhang Fan or whether he really did it.

"Hehe. Now that I've agreed to the operation, I won't be careless for other reasons. You don't have to worry about that. As for safety, I'll leave it to you. I hope how we got here and how we got back! "

"OK, don't worry. Everything, please. " Lao Wang hugged Zhang Fan and left. He wants to talk to little chief. He misunderstood Zhang Fan.

Zhang Fan meant to go back all the way. He thought Zhang Fan wanted to go back by private plane, so Lao Wang went directly to the young chief.

Zhang Fan is worried about safety. In fact, Lao Wang is not worried at all. He knows too well the power of the Chinese armed police on the border. There's a joke on the border road,

The eldest of the armed police, the second of the smugglers and the third of the Kazakh army. Therefore, Lao Wang was not worried at all. Besides, if something really happened, as far as his security team was concerned, he was confident to take Zhang Fan and them back.

China does things differently from Lao maozi. China can handle things with money. Generally, it will not be rough. Lao maozi happened to come in the opposite direction.

After the operation, Zhang Fan, Xiang doctor, Lu Ning and Ma Yichen went to the stage. There is also a doctor substitute. Because the third assistant is almost always pulling the hook, I don't know how Ma Yichen mixed up this operation. The senior doctor gave up his position to Ma Yichen.

Liver tumor surgery is not very difficult for Zhang Fan now. China suffered losses in its early years, but in recent years it seems to have been a little over corrected.

Emphasis on technology and light technology, how to say, without technology, the road ahead can not be seen clearly, but without technology, it is a castle in the air. Just like Professor Li Cunhou's skin transplantation.

Disinfect and wear surgical clothes. After entering the operation state, Zhang Fan completely changed. Outside the operation, Zhang Fan was polite and smiled at everyone. Even now he has become the assistant to the president of the hospital, he still smiles most of the time.

Someone once said that I struggled for decades just to laugh when I no longer see people. Although it's a little extreme, the little man suddenly reached a certain position, but his habit can't be changed for a time. Maybe it's just that he can't become an aristocrat without taking off three layers of skin. It's ridiculous to say.

However, when entering the operating room, Zhang Fan is really different. Both temperament and personality are different. It's really like a skill is a person's heel. Zhang Fan stands steadily in the operating room.

"Zhang Yuan, everything is ready!" Report to the anesthesiologist.

"OK, the operation begins."

Knife, murder weapon. Even doctors should be cautious when they draw the knife. If they draw the wrong picture, they can start again. If they write the wrong big characters, they can rewrite it. But after they open the knife, they don't look back.

Zhang Fan wanted to get through the operation and carried out it quickly under his hand. President Wang's so-called alchemy of the supreme old gentleman is pure nonsense. We must not listen to him in surgery.

Zhang Fan carries out the operation step by step. Compared with hysterectomy, this operation is much more difficult, but Zhang fan does it more easily without him.

If the operator does it smoothly, the cooperating people will be easy. Even the head nurse on the tour feels much lighter.

One hour, the operation is over“ How are the patient's vital signs? "

"Everything is normal."

"Dressing with accessories, ready for surgery."

As the door of the operating car slowly opened, little chief and President Wang smoked not far from the door.

When they saw the door of the operating car opened, they threw away their cigarette butts and ran to the operating car. They had no quality at all. They threw cigarette butts and despised them!

"Well, how's my father?" The young chief unconsciously grabbed Lao Wang's arm, and his veins burst out. And Mr. Wang, his mouth is dry and can't speak.

It's none of your business. Once you ask for something, really, few people can be calm. President Wang is not young. If you want to go further, it depends on this hammer.

Not nervous? Not nervous is false.

Chapter 525

"At present, all vital signs of the patient are normal. When the anesthesia is awake, you can communicate briefly. For later treatment, you can find a rehabilitation doctor or contact me through

Wang Zong. " After talking to the little chief, Zhang Fan turned to the head nurse and said, "give the cut tumor to the family members and let them see if there is a way to have a medical examination."

With that, the head nurse handed the tissue bag to the little chief. Tissue bags are plastic bags, but thicker than ordinary plastic bags. When the tissue bag is handed to the little chief.

Chief Shao and Mr. Wang unconsciously nausea. After the tumor is completely cut off, it is like a large sheep egg or sheep brain. It is white and greasy, with blood flowing in the middle.

"Er!" The little chief covered his mouth in one hand and carried the tissue bag in the other hand. Oh, my God! They eat fried sheep eggs in the morning. It is said that eating sheep eggs in the morning is the most aphrodisiac!

Their patience was good. Little chief handed the tissue bag to the grassland doctor who came here for the first time. After a long day of gas.

After reluctantly swallowing the disgusting sheep eggs, he said to Zhang Fan, "my dear friend, you have worked hard. Please move to the tent, drink a bowl of milk tea and eat a mouthful of cheese."

Zhang Fan nodded. Just about to get off, Lu Ning came out " I'll go with you. I happen to be thirsty. " Zhang Fan turns to look at Lu Ning.

On the fleshy face, the muscles are shaking unconsciously. On the fat face, there are gold wire glasses, but the eyes behind the lenses are very firm.

People are really social animals. Lu Ning and Zhang Fan haven't known each other for a long time, but since she decided to be a martial brother, Lu Ning has an obligation that seems to want to take care of Zhang Fan.

There was no way to take care of the operation, but since hearing the dangerous situation here, Lu Ning had an obligation to be a senior brother. He was unwilling to let Zhang Fan act alone.

"I'll go too. I want to drink too!" Ma Yichen came out, and Lao Xiang also stood out. The head nurse put her arms around Zhang Fan directly.

"Oh, I didn't expect that they are greedy people. It's okay. I'll let you drink enough later. Don't worry." Mr. Wang finally swallowed the fat from his nausea into his mouth.

The face should be given. President Wang still has to do business with others. After appeasing the people, Zhang Fan and President Wang went to the largest tent with the young chief.

A group of doctors and nurses stood at the door of the operating car and looked out. No one spoke. Vaguely, Zhang Fan was really accepted by them as a leader, a real leader.

The big tent hasn't changed, but there are many fewer people now. The beautiful veil girl gently put the milk tea in front of Zhang Fan.

"My dear brother, on behalf of my father and the people in the tribe, I thank you. You are the most skilled doctor in the world. Your feelings are like snow lotus on snow, white and sacred. " Nonsense, continuous nonsense, nagging, nagging, Zhang Fan is about to hear and spit.

I want to interrupt, but people say it quickly and solemnly. Zhang Fan knows for the first time that flattery can also make people vomit. For more than half an hour, Shao chieftain's Kung Fu was really powerful. He kept praising Zhang Fan without repetition.

What eagle, what snow lotus“ Ah! " Zhang Fan endured and endured. He was waiting for the little chief to pay. No matter how beautiful the other party said, Zhang Fan still didn't want to give up.

Just when Zhang Fan could not help it, the private doctor of their tribe came in quietly and said a few words in the little chief's ear.

The young chief, who used to be serious and nonsense, finally showed a smile on his face. After the private doctor left, the young chief stopped talking and rubbed his face. Looks like the masticatory muscles are sore.

"Dr. Zhang, my father said he felt good. This is a million dollars. We grassland people said and did what we agreed. Thank you. " As he spoke, he came out with a bag behind him.

"Oh! I was waiting for his father to wake up! " At this time, Zhang Fan suddenly realized that he was a chicken thief.

"Oh, yes, yes." Zhang Fan also smiled from his heart at this time.

Zhang Fan stretched out his hand to take it, but how did he find that Shao chieftain took it steadily. Zhang fan used a little more strength, but he was still stable“ MMP, you don't want to give it! " The idea came out the first time in Zhang Fan's mind.

"Dr. Zhang, I have a proposal!" The young chief smiled. Zhang Fan couldn't laugh. He thought in his heart, "I won't promise anything you say about the problem of talking with a gun."

"Hehe, what's the matter?"

"Can you stay in our tribe for a while until my father is fully recovered... As for the reward, I think I can give you another million alone."

If you have a life to make money, you have to have a life to spend money. Zhang Fan shakes his head like a rattle, "no, really not. I've done the surgery. I have to ask a rehabilitation doctor for the rest. I can only do the surgery."

Zhang Fan refused directly. President Wang also said, "what Dr. Zhang is good at is surgery and the recovery of the chief. I think we can invite the rehabilitation doctor of Kazakhstan."

Anyone can hear that what Zhang Fan said is an excuse, but the situation is stronger than others. The little chief really didn't dare to force Zhang Fan. Apart from others, the oil security team not far from the tribe could drink a pot if they turned their face, not to mention the frontier boss!

The young chief showed a hard smile on his face, "well, thank you." Then he let go of the money in his hand. He really doesn't care much about this money.

When Zhang Fan got the money, he was not polite and peed directly. There is no friendship here, and there is no friendship as clean as snow lotus and more expensive than gold. All TN's are fooling people.

Take the money and leave, pee and escape thousands of miles. Zhang Fan really has the style of an ancient assassin.

President Wang comforted the little chief in the tent. He still had to do business. He couldn't be as free and easy as Zhang Fan.

"Are you ready?" After Zhang Fan entered the tent where they were stationed these days, he asked the first sentence.

"Zhang Yuan, tidy up. Everyone is waiting for you. "

"OK, I have the money. Ha ha, let's go. We can go home!"

"Go home!"

"Go home!" They didn't come out for a few days, but they seemed to be wanderers who had traveled for many years. They were very excited when they came home.

President Wang didn't deceive Zhang Fan. Datu Le really came to the first team. The security guards in all black uniforms drive, and there are two members with guns in each car!

This is the muscle, this is the sense of security!

On the bus, Zhang Fan took the doctors and nurses on the bus at the first time. Little chief didn't come to send Zhang Fan. Zhang Fan doesn't mind at all. Love will come or not!

The motorcade galloped on the grassland and watched the car run fast. In fact, the speed was not high. However, the grassland and forest retreated rapidly, and there were bags of dollars in their arms.

Cozy! It's nice.

Chapter 526

On the way here, I took Iveco. Although the chassis is quite good, for the unpaved roads in the mountainous areas of Kazakhstan, it is still the world of Tule.

And the drivers probably used to drive tanks. The experts were bold and rushed forward. Cross the river and slow down? It's impossible to go through the waves directly like a charging boat.

It may also be that the doctors and nurses who have returned to their own people and are usually very stable are very happy at this time. Not only don't stop, but also keep encouraging. Come on, come on, we're going to take a flying car!

Dust and dirt all the way. Grazing herdsmen and farmers, looking at the fleets going away, kept he and Tui, "die! Qiao, Xi, GA (pig). "

Leave the grassland, climb over the mountains and follow the way back. I feel that I will soon reach the oil base. Although the sun is still hanging on the top of the mountain, it's very late. According to the capital time of China, it's already 22 o'clock.

Although the blue tin room is simple, you don't have to worry when you sleep. The cooking team at the base cooked delicious food for Zhang Fan and them early.

Meat, braised meat, large pots of braised meat, noodles, rice and fried vegetables. A group of doctors and nurses, like people who have never seen big meat, hold rice and extend chopsticks to braised meat like raindrops.

The three nurses who never craved braised meat ate a lot“ It's still big meat. Lao Wang, is there a place

to take a bath at night? " Wang Feng asked President Wang while eating. They experienced life and death together and became brothers.

"Yes, I'll inform you later. Today, the workers in the base will take a bath later. You go to the big bathhouse first and have a comfortable bath. Then have a good sleep and drive away fatigue. "

"Then, Lao Wang again took the Baijiu and tea cellar." Come on, brothers and sisters, do it. This time, Lao Wang, I thank all the experts. " When he left, he visited the old chief, who had promised to hand over the detected oil to CNPC.

Lao Wang has made great contributions this time.

"Come and do it!"

Zhang Fan doesn't drink. He likes the doctor and anesthesiologist Dr. Cheng. The three keep touching glasses. Food is not exquisite and wine is not pure wine, but what people eat is fragrant and what they drink is beautiful.

Eat and drink well, and take a hot bath. Zhang Fan called the crowd, "the money is in hand. It's time to pay now. Ha ha, come to the doctor. This is yours, elder martial brother. This is yours, head nurse..."

The banknotes printed with the old rich's head were distributed out one after another“ Zhang Yuan, this is not appropriate. " Lao Xiang wanted to say something, but Zhang Fan interrupted him.

"All right, life and death. You deserve it. " Zhang Fan waved. Nurse Li Qianqian liked Zhang Fan's posture. It's so imposing!

"Zhang Yuan, this..." the head nurse said with a pinch.

Zhang Fan knew her too well. "Why, don't you want it? Bring it back to me! "

"No, No." The head nurse quickly put the money behind her, and then felt embarrassed. As soon as her face came down, a white and red skin that had just taken a bath was called tender!

"If you have anything to say. You've taken all the money. Now the money has been distributed. Keep it separately. Don't make up for it if it's lost! "

"Hey, hey!" This is Wang Feng's voice. The girl will be as happy as a little mouse in a rice jar.

"Zhang Yuan, what do you say when you go back to the hospital? Do you need to hand it in? We were discharged to give patients catheterization before. The disposal fee was 100 yuan. The hospital only gave us 10 yuan. Will this money... "

"Oh! So you're worried about it. Go back to the hospital and turn in 90 percent. "

"What?"

"I won't!"

"God, can I resign now, Zhang Yuan, you are also the leader!"

"Ha ha, hey, look at you financial fans. Don't worry, this is your own income. You don't have to turn in any points. " Zhang Fan smiled.

"Really?" Wang Feng, a little financial fan, looked at Zhang Fan suspiciously.

"Of course, Mr. Wang has paid for the hospital. Two buses and three surgical vehicles. Otherwise, do you think we can come out so conveniently!"

"Oh! Thank you, Zhang Yuan! " I don't know whether to thank Zhang Fan for solving his doubts or something. The little girl bowed to Zhang Fan.

"Don't, I can't stand you like this." Zhang Fan quickly dodged. But before she could say anything, the little girl ran to their house with the money in her arms.

In fact, practicing medicine in different places is stipulated in the practice law. It should be reported by the local medical management organization and approved by the local medical management organization before practicing medicine in different areas, and the practice must reach the level of deputy director or above.

In fact, this article is mainly to restrict and protect ordinary doctors. The real magnates don't care about this at all. Moreover, throwing knives and private behavior account for 90%. As for public-to-public dispatch, there are few, because public-to-public, doctors' income accounts for 20%.

Moreover, when medical technology reaches the peak of a certain field, the constraints between countries are actually nothing. For example, the European and American medical systems do not recognize western medicine education in China. They would rather admit three Chinese medical schools than a mediocre Diploma in western medicine.

But when health care reaches its peak, this clause will be ignored. Li Jiapo's medical system is the European and American line. They don't recognize China's medical system.

When one of their bosses got sick, he specially invited doctors from the capital military hospital for treatment. If it was illegal to practice medicine according to laws and regulations, it would be sentenced.

But in a forced word: in order to meet the growing medical needs of the public, this throwing knife does not support or deny. Directly, open one eye and close one eye. As long as nothing happens, nobody cares.

At night, Zhang Fan sits outside the tin room to cool off. It's too hot inside the tin room. When the temperature outside is high, the inside of the house can be four or five degrees higher than the outside. When the temperature drops, its temperature can be two or three degrees lower than the outside, that is, it can cover the wind and avoid rain.

"Doctor Zhang, can I bother you?" A young man lingered outside Zhang Fan's room for a long time. When President Wang went to his convenience, the young man hurried to come.

"Yes, what's the matter?" Zhang Fan sat up from the recliner.

"Please help me. I have a lot of beans. They itch badly." The young man is a little embarrassed.

"OK, let me see your clothes."

When he saw the young man's upper body, Zhang Fan was so sad that he really couldn't say it.

These Chinese workers who go abroad to drill and mine say they earn dollars abroad. In fact, their living conditions are really average. They live in simple houses and eat materials brought from China. Sometimes when materials are pressed at the customs, they can only eat compressed biscuits and cans.

Because it is far away from the city, you can only entertain yourself after work. You can only move in a palm sized base and can't go out. It's like a prison.

The money earned is really hard.

Because they are all young people, the base has only one accompanying doctor who is good at treating colds, but it's hard to say in case of other diseases.

"It seems that you don't have it alone. Do others have it?"

"Yes, many people have it. Sometimes it's too itchy. I can't help but find a rough stone, heat it in the sun, and then rub it in the itchy place. It can also be used."

"OK, you can bear it all night. I'll open a clinic for you tomorrow."

"Thank you! Thank you! " The young man kept thanking and bowing. Zhang Fan stood up and didn't speak. The young man looked at President Wang and immediately ran away like a rabbit!

Chapter 527

Wang Zong and Zhang Fan became familiar and got up casually. Originally, Mr. Wang's EQ was high, but now he is asking for warmth from Zhang Fan's cold deficiency.

"What's the matter? I just saw a figure in front of you. Why did it disappear in a blink of an eye." President Wang came over with his pants.

"Hi! At least he is also a department level cadre. You can pay attention to it. " Zhang Fan despised it.

"My department level is a department level in front of others. Can I still be a cadre in front of you?"

"Ha ha!" Zhang fanpi came with a smile, and then said, "President Wang, you are at least a central enterprise and a top ranked enterprise in the world. Can you worry about the employees under your opponents?"

"What's the matter? Our welfare is still good. But when I went abroad, the conditions were a little harder. " President Wang lies on the recliner beside Zhang Fan.

"You can't save money on medicine! A worker just came to see me. I took a look. Darling, my skin is sick and scratched. What time shall we start tomorrow.

If we can't, we'll arrange to open a one-day clinic for the workers here. If we can't see it, we'll deal with it. After all, they are all compatriots. "

"Hey, you don't know. Our three barrels of oil cost a lot of medical expenses for workers going out in a year, but... Hey! No, I thank you for the workers.

Zhang Yuan, I have to apologize to you! "

"What's the matter? What have you done to me? " Zhang Fan smiled. He thought there was something wrong with the money. However, he has distributed the money, and he has nothing to worry about.

"You can go back as you said yesterday. But people won't charter us a plane. I won't count if I say it alone. If I really charter a plane back, I can't put out the fire on my head. "

Lao Wang said with a smile.

"Oh, no problem. As long as I can go back safely, what should I do. I'll write you a medicine list later. You'll send someone to Alma tomorrow to buy some insect repellent and disinfectant. I'll use it. "

"OK!"

One side of the soil and water, one side of the people. Many people leave their hometown and work in a foreign land. First of all, the parasites in this place are very enthusiastic.

If northerners go to the south, first of all, mosquitoes and scabies are a big problem to overcome. Local people's bodies have been struggling with local diseases and pests for many years and have produced antibodies.

And the newcomers can't. After being bitten by a mosquito, an egg bag came out. I didn't know that it was a big sword. I was beaten by someone who watched the show.

As for the defensive nature of human organs, in fact, the skin is the most powerful. In terms of defense time, area and length, wrong and breadth, they all crush other organs.

From the first week of human embryo's life, that is, a few days after the sperm (a) and egg popping, the human skin came out at the beginning of evolution, just like the film in the middle of egg shell and egg white.

At this time, it began to act as a guard to prevent the embryo from being killed by other sperm (a). Human evolution, in fact, has been fighting all the time.

Even between different individuals and the sperm (a) of the same individual, there are extremely fierce battles. Sperm (a) not only has energy in its body, but also has DNA for generations. It also has proteins that can kill other sperm (a).

Therefore, human skin is very awesome. However, no matter how awesome it is, it must be given time to adapt to different changes in the outside world. This group of workers gathered by plane from all over the country have just entered the grassland, which is also the grassland in summer. It is certain that they do not adapt.

Early in the morning, Zhang Fan explained to the doctors and nurses. The rest had no objection to what Zhang Fan explained. The world is vast, and banknotes have the greatest face.

Mr. Wang's executive ability is no joke. Before they finished their breakfast, the person he arranged to buy medicine had returned from alamu.

Exposed to the world, the oil workers set up a simple clinic with linoleum every minute. They are all a group of rough men. Most of the people who go abroad to make money are men. They take off their coats, pants and boxers one by one, and let the doctors check one by one.

Dermatology is a wonderful subject. Doctors know when they know, but they don't know when they don't know. Often, there is no need for differential diagnosis most of the time.

And the principle of treatment for most skin diseases is also very simple. Antibacterial antibacterial, when you can't help it, take hormones.

A group of men who take off their clothes can't see them. Not only are there all kinds of red blisters on the body, but also the scars left by hand grasping, just like a group of piglets who have just entered the market.

"Scabies?" The head nurse is old and has experienced many things. After looking at it, she asked Zhang Fan.

"Yes."

"Oh, we don't have enough hands!" The head nurse rolled her eyes helplessly. There are too many workers. There are thousands of people in a long line.

"We'll do it all later. Of course you three are not enough."

Scabies, all kinds of scabies, there are small spots in pieces, on the hands, on the body and on the feet, almost all over the body, red, in pieces, plus the scars scratched by the workers themselves, it seems that it can directly make people who are not used to goose bumps and shiver in dog days.

This disease is an itch. It is extremely itchy. If it is scratched, it will flow yellow water. Moreover, the workers are all collective dormitories, one infects two, two infects four, a few days, and the people in the base are full of this disease.

Scabies can be transmitted without close contact. Close contact, Wang Wang won't understand. Close contact, what is it, such as shaking hands, hugging and public baths, is close contact.

It is not difficult to treat this disease with a single human body, but it is difficult to treat thousands of people. Why, because you have to prepare the skin.

Generally speaking, scabies is caused by scabies. This kind of insect is hidden in the cuticle of the human body. The cuticle is the outermost tissue of the skin. When viewed with a magnifying glass, it is like fish scales layer by layer, like the tiles of an old brick house.

Scabies hide under these tiles. And the hair is actually similar to the surface of the skin.

"Come on, boy, come and lie down and take off your pants!" Although Zhang Fan was young, he was one year older when he put on his white coat, mask and hat and picked up the scalpel.

"Doctor, there are women!" Probably a single Wang, sorry! She secretly looked at the plump head nurse with shy eyebrows and drooping eyes.

"Take off your. I haven't seen anything. Hurry up and don't dally. Thousands of people lined up behind. " The head nurse kicked her eyes and took out the prestige of the operating room.

Young man, blushing as if forced, slowly lowered his head and shyly took off his pants. The most important thing is that his little brother saluted in the wind!

If Zhang Fan said this in a harsh voice, it is estimated that the hairy boy can fight with Zhang Fan, but as soon as the head nurse said it, the effect would be different and obedient.

Lick! This word has great power.

Knife! The scalpel gleamed in the sun. Zhang Fan picked up the young man's brother and was ready to start.

"No, doctor! I just have a bag on my body. It's not! I haven't talked about the object yet! " Because he was the first patient to be treated, the young man was frightened directly, and those who were still saluting were scared soft.

I'm really scared. My eyes are splitting. His hands covered his baby, and his legs were like a tail.

Chapter 528

Eating and drinking, you still have to be with ordinary people. The jokes don't stop and the speed doesn't drop. Big bowls of wine, big mouthfuls of meat, no affectation at all. If you eat with the unfamiliar presidents, it's really a meal. They sit in position one by one and look solemn. Delicacies are delicious. They don't taste good without an atmosphere.

***Make trouble. From time to time, bald chickens come to propose a toast to Zhang Fan. Far away from home, we are particularly intimate.

In the early morning, amid the noise, Zhang Fan and them boarded the way home. The workers of the oil base stood at the gate of the base and waved goodbye.

"That's human! Even if you work for nothing, you feel your heart is hot. " The head nurse looked at the young boys behind him and said with emotion.

Six tatulas headed east. On the narrow road, the motorcade even opened up a momentum of thousands of troops and horses. Through alamu, Wang always wanted to stop for dinner, but Zhang Fan refused.

"No, when we got on the bus, the chef of the base filled us with a lot of eggs, goose eggs and Nang cakes. We ate two mouthfuls of pickles and ate them on our own territory."

Zhang Fan directly rejected president Wang's proposal. Unlike president Wang, he is familiar with this side. He is afraid of accidents. Now he is not only alone, but with eight millionaires.

If Zhang Fan disagrees, President Wang has no choice. Although he is the team leader, the team leader has no weight in front of Zhang Fan. In more than three hours, Zhang Fan and his team only walked more than 200 kilometers.

The road is narrow and the speed can't be raised.

Six hours later, they finally got through the rotten road of Kazakhstan, and the team saw the gate of the country. When I see five stars at ordinary times, to tell the truth, I really don't feel much. At this time, a group of introverted doctors felt a little tearful.

When he saw the frontier boss and the Chinese armed police, Zhang Fan's heart hanging in mid air was put into his chest“ Come on, let me drive. You have a rest. "

"Can you?" President Wang specially asked, what about a car of people? If Zhang Fan had two knives, he really didn't dare to give him the steering wheel.

"Look down on people! I guess I'm more familiar with this road than you. " Zhang Fan doesn't brag. Zhang Fan is really more familiar with the road here than President Wang.

Because this is already Zhang Fan's sphere of influence. Zhang Fan's ruts have been left in the counties and towns here. Recently, Zhang Fan has run less here. In the past almost three days, there was an operation for Zhang Fan to fly a knife.

"Hehe, isn't it. Well, I'll ask Zhang Yuan to be my driver!" President Wang stopped the car with a smile and changed positions with Zhang Fan. This guy was as arrogant as a rooster at the beginning. After he was really familiar with Zhang Fan, he was also a good contact person.

Zhang Fan gets in the car and starts. Looking at the trees and villages in his own country, even the sound of being cursed after overtaking, Zhang Fan felt intimate.

The national gate is less than 100 kilometers away from the urban area of Chasu, that is, Chasu is a city guarding the national gate. The highway here is very good, two-way eight lane, speeding all the way.

Zhang Fan drove the car and saw Wang Feng and President Wang winking through the rearview mirror, "cough! Cough! Cough!" Zhang Fan coughed a few times.

They are all adults. Zhang Fan has no obligation to guide others' lives. However, he hasn't arrived at the hospital yet. Zhang Fan himself is still carrying a task. Of course, he can't let them play gongs and drums openly.

"Zhang Yuan, ah, I still envy your young people now. Our marriage was really blind marriage and deaf marriage. They didn't know anything about their character and temper, so they formed a family.

As a result, the week after marriage is endless war!" Wang always seemed to be telling his misfortune.

Zhang Fan didn't get into his head at all. What he thought now was to send people to the hospital early and then go home to find Shaohua! As for the greasy uncle around him, he filtered it directly like the starting point shielding keywords.

Seeing that Zhang Fan didn't respond, but the three nurses behind him were fascinated by it, he continued: "later, when the child was old, we couldn't quarrel or fight, so we broke up peacefully. Ah, I really envy you for being able to fall in love freely."

With that, he quietly looked at Wang Feng behind him. At this time, Wang Feng was already ashamed.

Regardless of status, regardless of age, President Wang, a guy with irregular facial features and a figure like a top, really doesn't deserve Wang Feng. Wang Feng wants to have a figure and a face. He has a high EQ and a lot of IQ.

And she is really an excellent girl who can excel in the operating room of a third-class hospital. However, there is a saying that a man has 41 flowers. His experience, his wealth and his status are too fatal to the little girl.

Young women rely on charm and uncles on value. Didn't you say that the rich are uncles and the poor are uncles!

When he arrived at the hospital, the hospital was off duty, but Ouyang knew that Zhang Fan and his wife

had been in the office today.

"Dean, Zhang Yuan, they have entered the city. Why don't we meet them?"

"Well, let the people who are not busy in the Department pick it up. The two buses and three operating vehicles in the hospital were put together with their lives. I heard that they almost had a fire fight when they had an operation."

"OK, I'll organize it now." Then the director of the medical office hurried to organize the welcome crowd.

When Zhang Fan's motorcade entered the hospital, the first thing was a long red banner. Ouyang was good. Of course, the director of the medical office liked it. And beautiful nurses, familiar faces. Everyone was smiling and enthusiastic.

Ouyang stood on the window of the office. Although he knew that Zhang Fan was fine, he looked at them one by one and counted them one by one.

Um! The whole beard and the whole tail were no less. Then he turned and poured a cup of hot water on the table. After putting down the cup, he sat quietly in the boss's chair.

Sure enough, it was not long before she heard Zhang Fan's footsteps. The old lady suddenly took her reading glasses, hurriedly found a document and looked down to read it.

"Dean! I'm back. " Zhang Fan knocked on the door. The door was half closed, so he pushed the door in directly.

"Oh, I'm back. How's it going? It's safe all the way."

"It went well." With that, Zhang Fan is ready to find a cup to pour some water. His heart is like an arrow. He eats pickles and Nang. His throat is almost smoking.

"There's warm water here. Drink it." Speaking, Ouyang put down his pen and took off his reading glasses " I heard you had a fire fight. You didn't have anything to do. "

"It's all right. We were having surgery. We really didn't see it. Who told you. "

"Don't worry, just come back safely, hey! You don't know. I can't sleep these nights. The hospital sent doctors and nurses of this scale out for the first time. If something really happens, I don't say my responsibility first. How can I explain to your families.

I'm afraid to think of it now. "

Chapter 529

Zhang Fan looked at the rare old lady and was a little emotional. He hurriedly said, "haven't you all returned safely! Besides, we are doctors in the frontier, and we don't see a lot of things like wiping guns and getting angry. How can you... "

"Which one?" Ouyang, who was originally a little emotional, lost his mood directly. After glancing at Zhang Fan, he said: "in China, if he is injured on duty, he will be given preferential treatment by the state. Even if there is an accident, he will be a martyr.

However, when you went abroad this time, I was also dizzy. At that time, I shouldn't ask Mr. Wang of the oil system for a car. I should wait until you come back. Hey! When I asked for a car, it became an equivalent exchange. If I didn't want a car, I would contribute to my country!

Hey, as soon as you left on your first day, I began to regret it as soon as they delivered the car to the door. Fortunately, there was no accident. If you really want to be buried in Kazakhstan, it's nothing. Hey! Even fame... "

Listening to Ouyang's more mysterious words, Zhang Fan hurriedly interrupted. After all, he was young and brave " Dean, there's another thing I have to report to you. "

"Well! Go ahead. " Zhang Fan interrupted her long speech, and Ouyang was a little down and up, "son of a bitch, I haven't said I'm happy yet!" After Ouyang promoted Zhang Fan and Ren Li, he became less and less involved in the management of internal surgery.

The hospital is originally a medical unit. It doesn't worry about medical treatment. In fact, there are not many things left.

At ordinary times, Ouyang looks at the construction of the new hospital, cries and cries with his superiors, and talks with doctors and nurses.

In other words, she robbed not only the job of the hospital secretary, but also the job of the trade union chairman.

And her own work, she let go to two of her confidants, is so overbearing, is so unreasonable. The east wind beats the west wind, which is estimated to be the most slippery for their generation.

"We went to Kazakhstan for surgery, and they gave us a lot of labor fees. Probably... "

"Hehe, as for the labor fee, it doesn't belong to the management of the hospital, so I don't care. However, after you go down, you must make it clear to the people who make money. Since you accept it, don't make a statement. Do not suffer from poverty, but fear inequality. "

As soon as Zhang Fan saw Ouyang's expression, he knew that Ouyang had already known.

"Well, OK, I'll tell them." Zhang Fan nodded, but his words to Ouyang really didn't go to his heart. He ate with his ability and was afraid of what he didn't steal or rob.

"When you come back, have a good rest for a few days, and then take the time to go to the bird market. You don't know. The dean of the bird market annoys me these days. Call me on time every day to ask if you have returned!"

She said she was bored to death, but her upturned lips had long betrayed her heart. Can she not be proud when the president of a provincial top hospital calls the president of a lower level hospital!

"OK, Dean, I'll go back first. You also leave work early. We're all here. Don't work overtime. " Zhang Fan smiled.

"Hurry, who's waiting for you? I still have documents without instructions!" Ouyang impatiently drove away Zhang Fan. After listening to the footsteps disappear, Ouyang hurriedly cleaned up from work, "Hey, today's TV series can't be connected again."

The old lady hurried home after cleaning up the sharp rope. The hospital is now thriving, and her deputy and secretary are suppressed by her. Everything is so comfortable, and she doesn't have many things to worry about.

Zhang Fan went downstairs and directly launched his cool Luze in the leader's parking space. Since becoming a leader, the section chief of the Logistics Department of the hospital specially drew an exclusive parking space for Zhang Fan.

Zhang Fan has already informed Shaohua. Of course, he adheres to the fine tradition of reporting good news without reporting bad news. Shaohua doesn't know what happened to Zhang Fan. As you know, Zhang Fan's trip abroad is a big day. He has eaten delicious food he hasn't eaten and seen the world he hasn't seen.

Shaohua's family had already prepared a lot of food for Zhang Fan. Shaohua knew that Zhang Fan loved seafood and bought some shrimp and crabs. Of course, the seafood in the northwest really can't compare with those on the beach. Just like beef and mutton on by the sea can't compare with the

frontier.

"I'm back!" Zhang Fan went home with his bag.

"Ah! Ah! Ah! " Shao Hua trotted and jumped on Zhang Fan with a smile on his face. Isn't there a saying? A little farewell is better than a new marriage. Although he wasn't married, Shao Hua really missed Zhang Fan these days when Zhang Fan left.

"Let me see. Let me see. Ouch, it feels a little dark again." Shao Hua, lying on Zhang Fan's back, pulled Zhang Fan's face and couldn't help kissing.

"The sun on the grassland is too strong. I'm good. Elder martial brother Lu is peeling."

Zhang Fan gently patted Shaohua's ass

In the kitchen, the old man is dealing with the seafood bought by Shaohua. Shaohua's mother has nearly started a fire and is ready to cook.

"Why are you going? Hurry up and pack your seafood. You want to be lazy when you punch a hole. " Shaohua's mother looked at Shaohua's father and stopped him directly.

"Zhang Fan is here. I'll go and see him." The old man doesn't like it.

"I don't know your thoughts yet. Hurry up. When Zhang Fan returns, he will come in and say hello. "

"Long hair, see what you know!" The old man muttered reluctantly. To tell the truth, the old man wanted to see Zhang Fan and really wanted to be lazy. As he retired, his so-called rule that men don't go to the kitchen slowly lost its effect.

"Well, come down. I'll wash my hands and say hello to my uncle and aunt. "

"No! I want you to carry me. " Shao Hua is coquettish and lies on Zhang Fan's back.

Shaohua also said that she knew that Zhang Fan must be tired after a long journey. She was bored and came down after a while.

After washing his hands, Zhang Fan came to the kitchen and said hello to the old man. Shaohua's mother fried a dish, immediately turned off the work, and kept wiping her hands on her apron.

"Ouch, ouch, my God, I've finally come back. I'm worried every day these days. I'm deeply afraid of another political (a) change in the next country.

I can't eat well or sleep well when I go there. You've lost weight. Today, my aunt makes crabs and boiled prawns for you. "

"Hehe, I like to eat the dishes fried by my aunt. I'm used to everything when I go out. It's my aunt who gives me this appetite. I'm not used to eating anything! Almost starved to death on the road." Zhang Fan said with a smile.

"The food outside is not delicious, it's not clean..." Shaohua's mother smiled and narrowed her eyes when Zhang Fan said so.

"Stir fry quickly. Zhang Fan estimated that he didn't eat on the way. Come on! Come on! Come on! Let's have a good chat. Is everything all right on either side?" It's very natural. The old man pulled Zhang Fan out of the kitchen very naturally. He can't see any suspicion of evading work. This is an expert!

"How's it going over there! The older he is, the thicker his face is, as if he were King ha (a) nu (a) ke pro (a) " However, because Zhang Fan came, Shaohua's mother didn't say anything, so the old man took Zhang Fan to chat.

After dinner, Zhang Fan hurried on his way this day. He was really hungry. What you eat is called a wolf. Zhang Fan's eating appearance, Shaohua's mother is more happy and distressed.

"Slow down, slow down. There's more in the pot! "

Zhang Fan had a home-made meal. After eating, Shaohua helped her mother clean up the kitchen. The two old people went for a walk.

Zhang Fan looked at the old man and immediately pulled Shaohua into the bedroom.

"What are you doing! My parents just left. I hate it! " Shao Hua's white and tender face slowly blushed.

"Come and show you something good." Zhang Fan hurriedly pulled Shaohua into the bedroom.

Chapter 530

There is always a need to be recognized in a man's bones, always show off in front of his beloved woman, and always have a heroic dream. He really doesn't need much. In fact, he just wants to hear the affirmation of his beloved woman.

Sometimes, whether running or climbing, in the wind and rain, as long as there is a woman's word of affirmation and a compliment, these are not a thing.

Of course, those who are not weaned are not men! For example, now the so-called little milk Wang, what they want is not praise, but mother like comfort.

But often, because of the consumption of life, women don't want to say, and men don't want to show off. At this time, the day really becomes a day.

Zhang Fan took Shaohua into the bedroom, then took out his bag and opened it. The colorful Franklin appeared in front of Shaohua.

To tell the truth, the shock of the green old rich to the Chinese is really not as fierce as the red old Mao, but Shaohua is from the banking system. Of course, she is more sensitive to money than ordinary people.

Shao Hua, who had thought he was going to do something, was directly surprised. He covered his mouth with his hands and looked at the money with big eyes. He didn't look at it any more, but looked at Zhang Fan.

"Why is there so much money? In exchange, there must be at least one million RMB. You must not do anything illegal. " Shao Hua still knows Zhang Fan's ability to make money, but this time there are too many. It's false not to be shocked.

"Hehe, that would be. Can I use it to do illegal things! Hehe, how's it going? " Zhang Fan proudly shows off.

"You're great."

"Come and kiss!"

.....

"Does this money have to be changed to spend?" Zhang Fan lies in bed chatting with Shaohua in his arms.

"Of course, this is not legal tender. What's the matter? Do you want to buy anything big? "

"No, I'll ask."

"I have an idea." Shaohua sat up and said to Zhang Fan.

"Well, what do you think." Uncle Zhang Fan is lying in bed. The bed at home is still comfortable!

"Now the house price is not high, I think the house still needs to rise. And at the end of the year, my uncle and aunt will come to tea from Lanshi. I mean, why don't we buy an existing house. It can not only appreciate, but also let the elderly live in their own new house. "

"OK, you can do it. I don't think house prices will rise again. There are so many people. Who will buy it again. "

"Chasing up and selling low, you know what."

"Hey, hey, look what I don't know."

"Don't make trouble."

"Just make trouble!"

.....

In the evening, Zhang Fan took a hot bath, lay comfortably in bed and fell asleep next to the pillow. It's really enjoyable to sleep in peace of mind and steadfastly.

But Shaohua couldn't sleep over and over. Zhang Fan is carrying a bag of dollars. Is Shaohua happy? Happy, her man can make money and earn clean money. How can she be unhappy.

But then comes the pressure. In the past, although Zhang Fan could also make money, there was no pressure for Shaohua. Her salary, including her own usual buying some funds, pouring some stocks and lending some high interest money to familiar businessmen, generally speaking, Zhang Fan's income really didn't put much pressure on her.

It's different this time. It's more than one million in 10 years. It's no joke. Shao Hua is in the bank. She knows very well how many bosses who are known as tens of millions of dollars can easily come up with one million cash.

But Zhang Fan went out for a turn and came with millions on his back. She doesn't know that Zhang Fan has divided the money equally. If she is divided according to work, it is estimated that the girl will have dark circles under her eyes.

"Is it so easy to enjoy? No, I can't be a burden, I can't be a parasite! " The girl suddenly sat up, turned on the lamp on the desk, picked up her pen and began to list.

"Stock! No, it's OK to play around and earn money for clothes! " The soliloquizer crossed out these two

words again.

"Investment! No, where can I find resources that can be invested?" Crossed it out again.

.....

Zhang Fan didn't know that the US dollars he brought put so much pressure on Shaohua. People are different from each other. They are confused and lose themselves. But there is another kind of person.

Early in the morning, Zhang Fan was dressed in Shaohua's clothes and ready to go to work. He is different from Shaohua. He seldom sends Shaohua, and Shaohua won't let him.

But in the morning, Shaohua asked Zhang Fan to take her to work. On the way, "Zhang Fan, I want to learn to drive."

"OK!" In the morning rush hour, Zhang Fan has to pay attention to the road. It's not good to scratch.

"I want to resign!"

"OK!" Zhang Fan didn't respond at all. Qian Zhuang was brave. Zhang Fan had no objection to Shaohua's resignation.

"It seems that I really resigned." Shaohua looks at Zhang Fan indifferent and grits his teeth angrily, but the situation is stronger than people. Zhang Fan makes too much. Her work is really dispensable in Zhang Fan's eyes.

Shao Hua, I can't say she's angry, but she's a little upset. She has a sense of crisis.

Zhang Fan looked at Shaohua and found that Shaohua seemed a little unhappy, so he asked, "what's the matter, isn't it comfortable to go to work?"

"No, I'm not comfortable with sister Wang!" Shaohua glanced at Zhang Fan.

"What's the matter? Why do you want to resign?" Zhang Fan finally found that he didn't seem to pay attention to others in front. They would be angry, angry!

"Well, do you think my job is dispensable, or that you can make a lot of money. I can be a housewife at home!"

Shaohua stared at Zhang Fan.

Zhang Fan immediately felt murderous "Where can I find it? Are you kidding? Are you a housewife?" Zhang Fan's brain, like an electric fan, turned to the highest gear, rotating rapidly, looking left and right, conceiving words.

"When you become a housewife, isn't it the loss of the state? You are a customer manager of the Credit Department of the tea vegetable bank and a big accountant in the future. When you become a housewife, the state can't shoot me."

Hearing Zhang Fan's exaggerated appearance, Shaohua immediately lost more than half of his discomfort, "Pooh! You're killing me. " Shao Hua smiled.

Zhang Fan's cold sweat came down. It's only a few people around him in the world. If they are unhappy, it's not interesting to get thousands of miles of rivers and mountains! This is probably the difference between a little man and a big husband.

"Where the meat is numb, it's all practical. If you don't believe it, I'll go to your unit and ask your colleagues later!"

"Hehe, I've decided! I want to resign. I want to make money hard. When I become a rich woman, I'll wrap you up. " Shao Hua held up his small fist and looked hard.

"OK, I support president Shao! When you become a rich woman, I will eat soft rice. Who makes me have a bad stomach? People with a bad stomach should eat soft rice. " Zhang Fan didn't take Shaohua's words seriously. He thought she was in her physiological period.

Physiological women need to be humble, after all, innocent thick... Very uncomfortable!
