

Chapter 5244

When the car drove out of the community, Claudia asked a little timidly:

“Brother, will the enrollment matter cause you too much trouble?”

“No.” Charlie said with a smile: “At Aurous Hill University If you want to engage as int student you have certain tasks,”

“If the number of international students cannot reach a certain number each year,”

“The person in charge may have to bear performance pressure.”

“Besides, your grades in Canadian high school are also excellent in character and learning,”

“Although there are certain requirements. Even if you apply for Aurous Hill University by yourself,”

“You are basically guaranteed, but the process is a little more complicated,”

“And the reference I asked to find can help you simplify these processes.”

Only then did Claudia feel relieved. She was most afraid that coming to China by herself would cause too much trouble for Charlie.

After all, in her heart, Charlie had already done too much for her.

It is different from the state when she was working in Aunt Li’s convenience store.\

At that time, she lost her family and everything, and all she wanted was revenge.

But now, she has changed the environment and started again.

Having trustworthy new family members, the whole person has become a little cautious.

Charlie also felt this change in her, so he said seriously: “Claudia, in Aurous Hill,”

“Aunt Li, Xiaofen, and I are your family members. Aunt Li is your mother, and Xiaofen is your family.”

“My sister, I am your elder brother, you are the youngest sister in this family,”

“You should be taken care of by us, so you must not have any thoughts that will cause us trouble,”

“We will never feel that the family members who need our help, or you are causing us trouble.”

Claudia was naturally moved when she saw Charlie’s resolute words.

Although she believed in the character of Aunt Li and Xiaofen, they have not related by blood after all,

And she didn’t have any living relatives, so it was inevitable that she would feel like she was dependent on others.

When such children are young, they will understand this feeling in their hearts.

However, Charlie’s words made her realize that he really regarded her as a relative,

And regarded her as a younger sister who needed careful care.

This also made the feeling of not belonging like duckweed in her heart be diluted by most of it in an instant.

Charlie continued at this time: “In the next four years, you can work and live in Aurous Hill.”

“When you graduate from university, if you want to continue your studies, I will fully support you.”

“If you want to work, I will fully support you. If you Tell me, you have always been in Aurous Hill, and you can’t even find a sense of belonging in this country.”

“If you want to go back to Canada, I will personally send you back.”

“I just want you to know that from now on, as a brother, I will do my best.”

“As far as I can, you will have no worries no matter where you are.”

Claudia was moved by Charlie’s words, her eyes were red, and while she nodded repeatedly, and tears fell silently.

Charlie grew up in the orphanage. He understood Claudia’s mood at this moment too well.

Back then, he was completely ignorant of everything Leon had arranged.

He curled up in a corner of the dormitory of the Aurous Hill orphanage and cried until dawn.

Today, Claudia is going through almost the same process as he was then.

That’s why he pays special attention to Claudia, hoping to use his attitude,

And actions to untie all the knots in her heart and face her future life calmly and optimistically.

Therefore, Charlie told her about his experience in the orphanage, hoping that she could find resonance with him.

When Charlie described his mental state in detail back then,

Claudia really felt a strong resonance in her heart.

It was also at this moment that she suddenly realized that Charlie might be the one who understands her best in this world.

Even Xiaofen couldn't do this.

Because Xiaofen was abandoned and adopted since birth,

And then was taken into an orphanage, and she and Charlie were both the happiest children in the world who thought they had everything,

But in the end, they just watched helplessly, as all of this was brutally taken away.

Xiaofen had never experienced this kind of trauma, so she couldn't really understand Claudia's heart.

The two chatted all the way, not only did Claudia feel that she had found resonance with Charlie,

But Charlie also found the same feeling from this girl who was ten years younger than him.

Fortunately, neither of them is that kind of pessimist, so they talked a lot about common topics,

And soon they talked about a different kind of optimism that is indescribable and detailed from the same painful experience.

During the chat, the car had already arrived at the gate of Aurous Hill University.

At this time, Aurous Hill University was on vacation,

But what Charlie didn't expect was that there were many staff members at the gate of the school,

Busy preparing for something, and even blocked the way of the car.

Charlie briefly honked the horn, and a staff member hurried over and said to Charlie apologetically,

“Excuse me sir, we have to pull up a banner and pull up your car for a while.”

Charlie nodded in understanding, and said, “It’s okay, then I’ll wait for a while.”

“Thank you, we can finish it in a few minutes.”

The man thanked him, turned around, and went to work with other colleagues.

Soon, a red banner was pulled up from both sides of the school gate and hung high above the archway of the school gate.

Charlie looked up and saw the banner saying: “Warmly welcome Mr. and Mrs. Larry Qiu to our school.”

Charlie seemed to have heard of the name Larry Qiu, but for a while, he forgot where he heard it.

At this time, the staff member ran over and asked politely: “What are you going in for?”

Charlie said: “I have an appointment with Mr. Issac Chen.”

The man suddenly realized, and hurriedly said: “Mr. Chen has already gone in, please follow!”
