

# Chapter 529

Siu: "Nephew..."

"I think you are older than you. I will call my sister-in-law! If I don't want to call you, you are nothing in my heart! You said that the reporter and the man were both provoked by Suzi himself. What about Linda? What is Linda? The situation! You asked Linda to hit Suzi in the face with the soles of the shoes! You asked Linda to say that Suzi blackmailed her! Ask Linda yourself whether Suzi helped her or blackmailed her!

Linda, tell me clearly by yourself! "

After speaking, Lenny turned around and came to Linda, grabbing Linda's hair and pulling Linda in the middle. He looked at Linda viciously: "Woman! Listen to me, I'm not Shao Shu. Lao Tzu does not have such a good education! Lao Tzu beating women is also commonplace! You are now here to tell Lao Tzu honestly that your design has stabbed such a big basket, is it the remedy that Suzi helped you think of, so that you can avoid much loss!

You say! "

Linda: "Ohhh..."

She was scared and cried.

"Young Master, let me come!" Daniel, who had not spoken next to him, suddenly came to Linda, raising his hand to give a black tiger's heart.

"Oh..." Linda was on the ground in pain, unable to breathe for a long time.

"You woman, you are too vicious! You framed my mentor like this! I can't spare you today!" Daniel raised his iron fist and wanted to fight again, but Lenny stopped him: "Daniel, Don't kill people here!"

Daniel is an assistant.

Lenny turned his head and looked at Darius and Joan again: "Lao Shu, Mr. Ling! It's not the time to fight this group of ladies here, we have to quickly take Suzi away. As for Fourth Master Fu, If he wants to blame, I will ask my brother-in-law to intercede. Siye Fu and my brother-in-law have the best relationship. The two of them are like brothers. I think my brother-in-law will intercede for us. Let's take Suzi away first. ."

After finishing speaking, Lenny looked at all the women present, and said in an extremely disgusting tone: "You ugly women! When I have settled Suzi, I will come to you one by one to settle the account! Wait for me. !"

A group of ugly women.

May I ask, among all the ladies, which one is not beautiful and beautiful, which one is not extremely decent, and which one is not jeweled?

Which one doesn't need Suzi to be decent?

But Lenny was called an ugly woman.

The ugly women were bleeding in their hearts.

It's not just that Lenny scolded them to make their hearts bleed. What's more, these women saw that Suzi, who had never spoken, with a plain face and a gray face, was able to get so many men's love and care for her. Chongqing, such a notorious man simply captured the hearts of all men, which made them jealous, and everyone wanted Suzi to be broken into pieces!

At this time, Ivy, who was standing at the end, said to Jun Liuye very quietly, "I especially hope that Arron can come."

Jun Liuye sneered: "Hmph, if Arron can come now, it will not only kill Suzi, but also kill all this group of b!tch men who are in heat! I am especially looking forward to Arron coming now!

Tell them to do it here! "

A lady snorted coldly: "If Arron can come, these cheap men will help you!"

For a time, the group of noble ladies who were put down by Joan, Lenny, Darius and Daniel, all hoped that Arron could come at this moment.

It was their sincerity that moved God.

Arron really came.

When the hall was in a stalemate, the reporter at the door suddenly and spontaneously gave up a way.

Someone yelled very quietly: "Fu...Fu Siye."

## Chapter 530

Fourth Lord?

Everyone looked at the door.

The reporter had automatically consciously conceded that the entire door space had been opened.

At this time, Arron, in a navy blue fit suit, walked towards the banquet hall unhurriedly. His expression was calm, neither smiling nor angry, and his eyes were not focused on any place. He only put his hand in his pocket, showing a little leisure and coldness. Walked in.

There was no sound in the banquet hall.

If you drop a needle at this time, you can hear the sound of the needle dropping.

However, with the exception of Suzi, everyone's hearts were beating wildly.

Especially the ladies who had just been crushed by Suzi's four guards, they all hoped that Arron could come and chop this extremely dirty human demon in half on the spot!

Arron actually came!

They all waited to see how Arron handled Suzi.

People in Nancheng knew that Arron was not angry.

He has never been furious and kicking people like Joan.

Arron said that he wanted to die alone: "Buy it alive."

This is Arron.

No one is not afraid of him in Nancheng or even in Kyoto.

At this moment, let alone those noble ladies, even Joan, Darius, Lenny, and Daniel were so jealous of Arron that they didn't dare to speak easily.

They watched Arron walk in. It is strange that not only Christopher but also a woman followed Arron.

The woman's expression was only nonsense, and it was hard to conceal the surprise.

The woman wore exactly the same outfit as Suzi used to go to the banquet of the kindergarten mother group two days ago. They were all white tight-fitting turtleneck shirts and orange long leather skirts.

What's more interesting is that the clutch bag in the woman's hand was also placed on the spot by Suzi that day.

Many people don't know this woman.

But Suzi recognized her as Luo Cuicui's mother Tan Yanqun at a glance.

At this moment, Tan Yanqun followed Arron and Christopher, but Wei Nuonuo couldn't hide the surprise, making Tan Yanqun look like a concubine who had just been favored by a man and finally made it to his early days.

No one knows how Tan Yanqun followed Arron.

At this moment, Tan Yanqun's heart was already happily about to leap into the sky.

When sending Luo Cicui to the kindergarten this morning, Suzi was blocked at the entrance of the kindergarten. Originally, he wanted to humiliate Suzi, but let Suzi run away by bus. Luo Cuicui's mother was upset and was called in again by the school manager. Criticize.

"Mother Luo Cuicui, you took your child to transfer!" the school manager said straightforwardly.

"Why! I paid the sponsorship fee to the kindergarten!" Tan Yanqun asked sharply.

The school manager said in a calm and cold tone: "Yes, your Luo family grants hundreds of thousands of sponsorships to the kindergarten every year, but your behavior is too bad, which has seriously affected the reputation of the kindergarten. In order to keep our kindergarten, your children must Leave this kindergarten! There is no discussion about this!"

Luo Cuicui's mother was driven out by the school board without warning.

She returned home with a sigh of anger. Tan Yanqun, who had no job and no income, had no status in her husband's house, was criticized by her mother-in-law and her husband. In the end, her husband had already said ruthlessly that he wanted to divorce her. Let her roll the bed and fuck off.

Tan Yanqun was very sad and scared because of this.

At this time, Siu called her and asked her to come to the banquet.
