

Super Rich Dad Chapter 599-600

Chapter 599

With those words, the group all relaxed and walked out of the emergency room, and Dr. Xu wiped his hands as he walked over to Jiang Hao and sat down beside him.

‘Young man, doctors are not so good at what they do. You have to know that it’s a human life that’s in your hands! Not a prop for your performance!’

As soon as Dr. Xu’s words left his mouth, Dr. Ren followed up with the sheet in his hand recording his condition, ‘I know young people have a desire to perform, but the hospital isn’t your stage.’

Dean Jiao looked at the two of them. There was a slight hesitation, after all, Jiang Hao was the one he had called in for the interview.

There was a desire to say a few words for Jiang Hao. For example, young people don’t know much about things and so on.

But then he was worried about offending Dr Xu, who was the top man under him, if he offended him.

If he was not happy to take a long leave of absence, he would have to ask him to give him a ladder if he wanted to step down.

The company’s main business is to provide a wide range of products and services to the public.

Jiang Hao sat in his chair and didn’t bother to listen to the snide remarks of the two, after reaching out and pulling out his ears.

Jiang Hao then opened his eyes and smiled, ‘Stabilized so quickly, it looks like Dr. Xu is really tough with the medicine, huh?’

Dr Xu glanced at Jiang Hao with a smug expression, not wanting to talk to him at all.

Jiang Hao lifted his hand to look at his watch and said, ‘If my calculations are correct. If there is no accident, the patient will start vomiting blood in ten minutes, do you believe me?’

Dr. Xu snorted, ‘Young man, I’ve never seen how good you are, but I’ve never seen anyone better than you in my life at talking big!’

Dr. Ren also sneered and said, ‘What can you tell, if it’s really like you say, how about I give you my seat?’

At this point, Dean Jiao couldn’t listen anymore, no matter what, Jiang Hao was the one he called!

‘Ahem, that’s pretty much all that’s needed, Xiao Shen ah, why don’t you pack up and go find a place to rest first.’

After saying this. He took out his wallet and pulled out two hundred dollars and handed it to Jiang Hao: 'We'll talk tomorrow if there's anything.'

Jiang Hao looked at the money Dean Jiao handed over and shook his head, smiling bitterly, 'Dean Jiao, if you believe me just wait ten minutes, ten minutes is enough!'

Dean Jiao glanced helplessly at Dr. Xu and Dr. Ren, then sighed, 'Why is this kid so stubborn?'

Dr Xu snorted and waved his hand, 'Forget it, we're seniors anyway, just think of it as taking care of the younger generation.'

After saying this he looked at his watch and said, 'Just wait ten minutes, I'd like to see what kind of tricks you can pull!'

He then closed his eyes and faked sleep just like Jiang Hao. Only his hand twitched gently from time to time.

Dr. Ren shook his head somewhat helplessly, 'Brother Xu, why do you have to fight with a child.'

Doctor Xu laughed at these words. He waved his hand and said, 'It's no big deal, just think of it as teaching him a lesson.'

Since Dr. Xu had said so, Dr. Ren couldn't leave for a while, after all, this patient was his responsibility!

Dean Jiao gave a slight sigh after looking at the two. He had no choice but to sit down in his chair.

The three of them waited in silence for the time to pass slowly.

When it was almost ten minutes, nurse Xiao Li suddenly ran out of the emergency room and looked at Dr. Xu and said urgently, 'No, Dr. Xu, the patient is vomiting blood!'

'What?! Impossible!'

'How could this happen! Didn't it just stabilize?!'

Dr. Xu and Dr. Ren's voices rang out at the same time, and the two of them looked at each other and rushed into the emergency room!

Dean Jiao stared at the backs of the two in a daze. Then he turned his head to look at Jiang Hao who looked so calm that he couldn't speak for a while!

At this moment, in the emergency room, Dr Xu hurriedly set up his needle bag and started to administer needles!

Dr. Ren also hurriedly inserted the instruments to monitor the patient's health condition!

But before Dr. Xu could insert the needle, the patient vomited a mouthful of black blood all over Dr. Xu!

‘Quickly, quickly, go get me medicine! Make sure it’s stabilised!’

‘It’s not good! The patient’s vital signs are dropping!’

Dr. Ren said urgently, ‘Prepare a cardiac stimulant!’

Dr. Xu gritted his teeth as he administered the needle, checking the patient’s pulse from time to time! Cold sweat was pouring out of his forehead!

Dr. Ren, in particular, looked at Dr. Xu with a sobbing face. Inwardly, he kept praying that the patient must be saved!

Dean Jiao couldn’t care less at the moment, so he rushed into the ward to take a look and then hurriedly came out to stand in front of Jiang Hao!

‘Shen Yan. What the hell is going on here, why did it turn out like this?’

Jiang Hao stretched his back. Opening his eyes sleepily, he said, ‘I warned him before, did he blame me for not listening himself?’

After saying this, Jiang Hao walked to the door of the emergency room. Through the transparent glass, he looked at Dr. Xu who was administering needles to the patient inside and smiled.

‘Only now do you think of detoxifying a patient by administering needles? It’s too late, you wouldn’t believe me if I told you earlier.’

Dean Jiao looked at Jiang Hao with such a calm demeanour, and then looked at the two people inside the emergency room who were already anxious!

He hurriedly walked up to Jiang Hao and said, ‘You must know exactly what’s going on, right?’

Jiang Hao nodded and looked at Dean Jiao with a smile and said, ‘Yes, but I’m a brat, so wouldn’t I be slapping Dr. Xu’s face if I went in at this time?’

Hearing this, Dean Jiao was inconsolable, and after gritting his teeth with hatred, he took Jiang Hao’s hand and headed inside!

‘It’s alright, if his face hurts, it’s on me! People’s lives are at stake!’

When Dr. Xu heard the sound of the door opening, he couldn’t help but slow the movement of his hands, then looked up at Dean Jiao’s dark face.

‘Dean, you can trust me, I’ll be able to bring him back!’

Dr. Ren looked at the patient with a pale face, having already received two injections of a cardiac stimulant!

Dean Jiao sighed and spoke, 'Forget it, just move aside and let Xiao Shen come!'

Dr. Xu looked slightly choked at his words, 'Let him? You trust him and not me?'

Dr. Ren also looked at Dean Jiao incredulously when he heard this, 'Dean, you have to think clearly!'

Jiang Hao laughed somewhat helplessly, then broke away from Dean Jiao's hand and walked up to take a look.

'You use acupuncture, huh? What a coincidence, I know a bit of this stuff too, why don't I give you a look?'

As he said this, Jiang Hao couldn't help but have a hint of playfulness flashing in his eyes!

Doctor Xu fell slightly silent, this patient was beyond his help now!

Even he couldn't save him, he didn't believe this brat could save him!

He was not a member of the hospital, so if the patient really died, he would be the one to get the pot!

Thinking of this, he reached out to stop Dr. Ren who wanted to speak, then sneered, 'Fine, then let me see your needle technique!'

Dean Jiao had wanted to open his mouth to persuade Dr Xu, but seeing that he had actually taken the initiative to move out of the way himself, he also shut his mouth.

Chapter 600

When Dr. Ren saw that Dr. Xu had taken the initiative to move aside, he looked at him in surprise!

As he was about to say something, he heard Dr Xu speak calmly, 'Young man, saving people is not that easy. You be careful.'

Jiang Hao was still young in the end, and although he wanted to treat him as a backstabber, he couldn't help but give a word of caution.

Jiang Hao faintly froze when he heard this, and the look he gave Dr Xu was gradually not so cold.

After shaking his head with a bitter smile. He picked up Dr. Xu's golden needle and started to place it.

However, the way he placed the needles was very different from Dr. Xu's, as his needling technique.

None of them were the most important acupuncture points in the human body. The slightest carelessness could lead to problems!

But if these points are used properly, even dead points can be turned into living points!

But not only did he not have such a technique, even the General Hospital did not have anyone who knew it!

So after seeing Jiang Hao's technique in front of him, Dr Xu couldn't help but say in shock, 'You, where did you learn this technique from?!'

After all, it was a Chinese hospital, and after hearing his words, Dean Jiao and Dr. Ren couldn't help but go from listening to the sky at the beginning.

To a gradual curiosity, which eventually turned straight into surprise!

'No, it can't be! This is impossible! How can you possibly know something that no one in the General Hospital knows how to do?!'

Jiang Hao just rolled his eyes after hearing his words. Then with a shake of his head he spoke, 'Shut the hell up! Don't distract me!'

Acupuncture is all about concentration and meditation, only then can you grasp the right amount of needle each time!

Different acupuncture points required different sizes of needles, and different strengths and depths.

Moreover, Jiang Hao's needles were used in major acupuncture points, so the slightest mistake could kill the patient!

Noticing this, Dr Xu slowly walked up to Dean Jiao and whispered, 'Where did you find this man?'

Dean Jiao gave a bitter laugh, 'I don't know what he's capable of either, when I called him in before, I never thought he knew these things at all!'

Dr. Ren looked at the way Jiang Hao walked the needles for a while in silence, then suddenly spoke in surprise, 'Is this, is this the lost flying needle walking qi?'

Jiang Hao heard this and paused in his hand movements. Then he looked up at Dr. Ren helplessly and said, 'Can you shut up? Can't you see I'm busy here!'

As soon as the words left his mouth, Jiang Hao continued to move his hands!

What he was doing now was helping to detoxify the patient, on the one hand, the toxins that were already in the patient's body.

On the other hand, it was the medicine that he had just drunk, which was also poison!

If you drink the right medicine, it's medicine, but if you don't drink the right medicine, it becomes poison!

But Dean Jiao was different, he didn't just sit in the position of Dean!

When he heard what Dr. Ren said about flying needles, he immediately looked at Dr. Xu with surprise!

‘Flying. Flying needles? Isn’t this a secret technique that was lost over a hundred years ago due to the war?’

Doctor Xu pondered for a moment before looking at Jiang Hao and shaking his head, ‘I’m not really sure what exactly, but this kid has this skill. It’s not simple.’

Dr. Ren had been hollering at Jiang Hao before, but after being told twice in a row to shut up by Jiang Hao, he didn’t even dare to get angry!

He came up to Dean Jiao and said solicitously, ‘Dean, this little brother is so good at what he does. Why didn’t you say so earlier?’

Dean Jiao looked at him and rolled his eyes, ‘If I had known, would he still be interviewing for a job?’

After saying this, Dean Jiao faintly froze, thinking of the bet that Dr. Ren had just made with Jiang Hao.

He then turned his head and said with a light smile, ‘Doctor Ren. You just made a remarkable bet with Xiao Shen, didn’t you?’

Hearing this, Dr. Ren’s face turned white: ‘Ah? Yeah, that, hahaha.’

Doctor Xu looked at his stammering face and shook his head, then continued to stare at Jiang Hao’s needle application technique!

To him, what position or money was secondary, this was the most valuable thing!

When Jiang Hao finished placing the needles after a few moments, he couldn’t help but wipe the hot sweat on his forehead with his sleeve.

Then he looked at the nurse standing at the door and said, ‘Bring me a knife.’

The nurse hurriedly searched through the emergency room. Then she took out a scalpel and handed it to Jiang Hao.

He first took the knife and looked at it, then used iodine to disinfect it and gently cut a small slit in the patient’s toe!

As soon as the cut was made. A fishy black liquid flowed out along the small cut!

Dr. Xu frowned and looked at Jiang Hao: ‘What kind of technique is this?’

Jiang Hao squatted at the patient’s feet and spoke without looking back: ‘It’s not for nothing that the ancients used to slit open wounds to get rid of poison, do you think I’m willing to use this method?’

Although Dr. Ren was not a good person. But his professionalism was still quite strong, and he didn’t care about the fishy liquid.

Instead, he walked up to Chien and looked at the stuff flowing out of the wound and said in surprise, 'This. What are these?'

Jiang Hao smiled, shook his head and didn't want to say, because if he told them that this was the medicine they had fed him before, the two of them would only be more embarrassed!

As the black fishy liquid was slowly eliminated, the patient's breathing gradually began to settle down.

The nurse looked at the equipment and said with surprise, 'There! That's it! The patient's vital signs are starting to stabilise!'

Even the eyes of the group of young nurses looking at Jiang Hao became a little hot!

Jiang Hao smiled, then stood up somewhat wearily, 'You guys keep watching, when he flows normal blood, he'll basically be fine.'

After saying this, Jiang Hao intended to leave, since Dean Jiao had believed in himself in the end.

Since Dean Jiao had believed in him in the end, he was returning the favour by doing so!

But just as he walked out of the emergency room door, Dean Jiao hurriedly came out and said, 'What are you doing there?'

Jiang Hao turned around and lifted his luggage and smiled, 'Of course I'm going to find a place to stay, I'm a bit tired.'

Hearing this, President Jiao hurriedly said, 'What else are you looking for? Come, come, we have a special rest room for the staff at the back of the hospital!'

After saying this, he turned to Nurse Xiao Li who was standing at the door and called out, 'Go and get that induction procedure for our hospital, do it while you can, and then take Dr Jiang to rest!'

Nurse Xiaoli looked at Jiang Hao dumbfounded, then turned her head to look at the dean again!

Only when she saw the dean scowling at her did she understand, and hurriedly and enthusiastically gave Jiang Hao the induction formalities!

Jiang Hao stood there a little confused and looked at the dean and said hesitantly, 'Uh, this, what does this mean?'

Dean Jiao walked up and took Jiang Hao's luggage, reached out and patted him on the shoulder and laughed cheerfully, 'What else could it mean, you've won Dr. Ren's position!'

Dr. Ren cried and rushed out, 'Hey hey hey, Dean, Dean you can't do this!'
