

Super Rich Dad Chapter 604-606

Chapter 604

Dean Jiao and the others watched Jiang Hao in silence and concentration, only to see that he was dropping needles like lightning, starting with a light touch!

In a matter of moments, Jiang Hao had already placed more than thirty needles!

President Jiao watched Jiang Hao's movements and still did not stop. The dean's eyes shone brightly as he said, 'This is the life-sustaining needle that was known as the King of Hell's hardest to hook back then?'

Dr. Xu and the others were also dumbfounded, they had never seen such fast movements of needles!

Dr. Xu clasped his hands to his chest, and despite the shock in his eyes, he still said disdainfully, 'What life-renewing needle, maybe it's just a trick!'

He didn't believe Jiang Hao knew the legendary Life Renewing Needle. That was a technique that had been lost for nearly 300 years!

If we were to talk about flying needles walking away from Qi, then he still understood a little. It had only been extinct for less than a hundred years.

But this Life Renewing Needle had been extinct for over three hundred years, and it had really reappeared like that?

No matter how much others talked about it, Jiang Hao looked calm and unmoved!

There was even a trace of sweat on his forehead.

The main reason why the Life Renewing Needle was so miraculous was that it was applied through acupuncture points, using true qi to block the patient's lifeblood!

The patient is then put into a state of fake death, and then the lifeblood is unlocked after the injury is cured!

That's why the name Life Extension Needle was given to it, and it's not just empty words!

Many things are easy to say, but only when you actually do them will you know how difficult they really are!

Although Jiang Hao had a huge amount of true qi in his body, he had to control it to the smallest detail.

It was also required that the true qi should not be too much or too little, but only just enough to seal the lifeblood without causing damage.

Ordinary people could not even imagine. How can one control a true qi as fine as a hair!

And the renewal needle requires that the acupuncture points be sealed in the shortest possible time so that the vital energy can be preserved as much as possible!

Jiang Hao was feeling the pressure even at this moment, as he had to ensure the stability of his true qi while at the same time, he had to quickly place the needles!

Looking at Jiang Hao, who was sweating in a short time, Dean Jiao knew that he was having a hard time too!

So he pondered for a moment and then walked out of the ward, casually pulling a nurse over, 'Go and see if the medicine for Ward 302 is ready.'

The nurse looked up and saw that it was the dean, so she nodded and hurriedly retreated.

Only after Dean Jiao instructed him to go down did he enter the ward. But he saw that Jiang Hao had already stopped.

He was taking Lin Bei Bei's pulse while panting!

Several doctors around him looked at Jiang Hao with admiration in their eyes!

Although Dr Xu's eyes were cold at this moment, he did not speak out against Jiang Hao.

Dr. Xu's eyes were cold, but he did not say anything to Jiang Hao. After Dean Jiao walked in, he asked Jiang Hao in a deep voice, 'How is the patient's condition now?'

Jiang Hao nodded and said, 'The situation has improved, but the lifeblood is only temporarily sealed.'

Hearing these words, the people around looked at Jiang Hao in shock!

'What? It's really possible to seal the lifeblood!'

'It's amazing! This is really a life-renewal needle!'

Doctor Xu couldn't help but look at Jiang Hao in shock at this moment and muttered, 'You're, you're really renewing the lifeblood needle?!'

Jiang Hao glanced coldly at Dr. Xu and shook his head, not wanting to pay any attention.

Performing this life-renewal needle was extremely energy intensive. Besides, he still had to use the over-the-hill fire to dispel the evil cold for Lin Beibei later on.

At the moment, he really could not afford to be interested in exchanging pleasantries with these people in front of him.

Just as Dr Xu's face was choked. There was a sudden knock at the door.

Dean Jiao hurriedly went to the door and opened it, and a nurse with medicine in her hand spoke, 'This is the medicine that was delivered!'

Dean Jiao took the medicine in the nurse's hand and nodded in satisfaction after feeling the temperature a little.

'Well, well done. You go down first!'

After saying that, Dean Jiao personally carried the medicine and walked over to Jiang Hao: 'It's just been decocted and sent here, try to see if the temperature is okay.'

Jiang Hao took the medicine bowl and nodded slightly and smiled, 'Just right.'

He then slowly sucked it up with a small syringe and then fed it to Lin Bebe a little.

I don't know if it was an illusion, but as Jiang Hao slowly fed the medicine at the same time.

Lin Beibei's originally pale complexion also gradually improved. But it was like that sickly flush!

Seeing this, Jiang Hao hurriedly stopped the movement of his hands and then put the medicine down!

'It's over the hill from now on, Doctor Xu, lend me your share of the needle pack!'

Doctor Xu faintly froze when he heard this, 'Don't you have one!'

Jiang Hao snickered and ignored him, looking at him with a sneer!

Anyone who knows anything about acupuncture knows that different needles are used for different points, there are rules for this!

In just a moment, Dr Xu took out his needle bag and handed it to Jiang Hao with a grimace.

Jiang Hao opened it and looked at it: 'Yo. No wonder he's so reluctant, they're all fine needles!'

He said as he picked up a gold needle and slightly measured it: 'You have these needles specially calibrated, right?'

Seeing Jiang Hao look so surprised. Dr. Xu said quite proudly, 'What do you know, this thing can be completely said to be my second life!'

Jiang Hao laughed. Then he didn't hesitate anymore!

Casually, he took out three golden needles and stabbed them into Lin Beibei's three acupuncture points, then stimulated the medicinal power in her body!

The Over Mountain Fire Needle Technique. As the name implies, it uses needles to channel true qi into the body.

Then little by little, from top to bottom, the patient's body expels the evil cold and other things!

The evil cold in Lin Bei Bei's body had not been there for a day or two, otherwise he would not have needed to go to such trouble at all.

With only a slight preheating of his true qi, he could have used his powerful true qi to expel the evil cold for Bebe!

Unfortunately, Lin Bei Bei had already missed the best time to treat her, which was why Jiang Hao had to combine it with medicine to administer the Over Mountain Fire!

For fear that if he didn't control it well, the consequences would be even more serious if he didn't get rid of it cleanly!

And he added things like personal wormwood to the medicine, in order to be able to use these great tonic substances when he accidentally injured his tendons and veins.

He also added in the medicine such as human wormwood, in order to gradually repair Lin Bei Bei's meridians when he accidentally injured them.

The way of the ruler and the minister is not only in the medicine, but for the means of treatment is also a vivid description!

As Dean Jiao watched Jiang Hao do it down little by little, there was nothing but extreme shock in his eyes!

More than anything else, there was the surprise of having found a treasure!

Which dean wouldn't want such a man?

After a long time, when Jiang Hao had finally finished, he sat down on his chair with a long breath.

'It's done, if there are no accidents, the patient should slowly get better.'

Hearing this, no one in the entire ward was shocked!

Including the dean who looked on dumbfounded as Lin Beibei's physique, gradually became normal!

The nurse also rushed to inform Lin Yan upon hearing this news!

By the time Lin Yan arrived, Dr Xu was leading a group of people to whisper about something.

She hurried up the hill to look at Lin Beibei, and when she saw that she was getting better, her heart dropped a sigh of relief!

But just as she was about to say thank you to Jiang Hao, there was a sudden change!

Lin Beibei got up and spat out a mouthful of blood!

Lin Yan hurriedly helped Lin Beibei and then slapped Jiang Hao across the face with her hand!

‘What kind of hospital is this? Is this a straw man or is this saving people’s lives and healing them!’

Chapter 605

Not only Lin Yan, but also Jiang Hao, Dean Jiao and the others were shocked by the situation!

Dr. Xu’s eyes were all rounded: ‘What are you still doing? Hurry up and check!’

Dean Jiao looked at Lin Bebe in shock and anger, and then looked at Jiang Hao who was sitting in a chair in a daze!

‘What the hell is going on here! Why did it turn out like this?’

Jiang Hao was also confused! This was also the first time he had ever performed the Over Mountain Fire and the Life Renewing Needle!

There must be something wrong with the medicine! Could it be that he had given the wrong needle?

Jiang Hao was shocked when he thought of this!

The places where he had placed the needles were all major points. If something really happened, Jiang Hao would not be able to live with himself!

Tonight after watching Lin Beibei vomit blood one hand held Lin Beibei’s face while looking viciously at Jiang Hao!

‘I don’t care what kind of person you are! This matter today, our Lin family is definitely not finished with you!’

Dean Jiao hurriedly said, ‘That’s not right! There must be a misunderstanding here! Miss Lin. Wait!’

Before Dean Jiao could finish his sentence, he had already picked up Lin Bei Bei and rushed out of the ward tonight!

As she walked. Inwardly, she kept regretting!

If she hadn’t listened to those people, she wouldn’t have brought Bebe to see a Chinese doctor!

President Jiao hurriedly followed behind Lin Yan: ‘Miss Lin! You wait, maybe something is wrong somewhere, give us another chance!’

Jiang Hao also finally came to his senses and rushed out as soon as he got up: ‘If you carry her like this, maybe her condition will get worse!’

Lin Yan’s body froze slightly at these words, then slowly turned to look at Jiang Hao.

In her arms, Lin Beibei suddenly whispered, ‘Sister, I feel so bad...’

Hearing these words, Lin Yan looked at Jiang Hao as if he was an enemy for an instant!

‘Today, if anything happens to my sister! I, Lin Yan, want you to be buried with me!’

The words just fell. Lin Yan picked up Lin Beibei and rushed out of the hospital door and left!

President Jiao looked sadly at the direction Lin Yan was going, and kept sighing.

When he turned around, he saw that Jiang Hao was still standing dumbfounded in the same place.

So he said in a low voice, ‘What are you doing standing there? Get your ass in here!’

Jiang Hao had the heart to be angry, but when he thought of Lin Bebe’s shocking change, he couldn’t help but hesitate for a moment.

Was it a problem with the needle he had placed, or was the potency of the over-the-hill fire just that?

Pondering this question in his mind, he followed Dean Jiao back to the ward.

Just as he went in and closed the door behind him he heard Dr Xu sneeringly say, ‘I really thought you were somewhat capable, but I didn’t think you were such a waste!’

The group of people next to him also said, ‘Yes, the Lin family is a person who can’t afford to be offended, you’ve really caused trouble this time!’

‘If you can save yourself, then save yourself. If you can’t, why do you have to go up there?’

As he listened to these people, Dr. Xu’s face looked even more smug!

‘I really thought you knew how to do life sustaining needles and over the mountain fire, but I didn’t think it was all fake, huh?’

Here, he paused slightly: ‘That day in the emergency room, it couldn’t have been your blind cat that ran into a dead rat, could it?’

Jiang Hao stood in place and lowered his head, deaf to the words of Dr Xu and the others.

His eyes only swept over the blood that Lin Beibei had spat out intentionally or unintentionally, as if he was thinking about something!

Dean Jiao’s face could not help but turn black to the bottom of a pot, Jiang Hao was the one he had promoted up!

That was enough. He was the one who had agreed to treat Lin Bei Bei!

I thought I had found a treasure, but I didn't think it would turn out to be my own disaster!

Dr Xu looked at Dean Jiao's face. His heart surged again!

Then he coughed lightly and looked at the dean, 'Cough, dean, I think Jiang Hao is no longer suitable to stay in this position!'

After saying this, he looked at Jiang Hao with a grim smile and said, 'His ability is not in line with his position. If he continues to stay in this position, I worry that he will ruin the reputation of our hospital!'

And Jiang Hao pressed on, ignoring them, his mind flooded with ways to exclude the evil cold from the over-the-hill fire!

In his heart, he thought secretly that it must be because the evil cold had existed in Lin Beibei's body for too long. That's why she was behaving like that!

As long as the evil cold was eliminated, her body would definitely get better!

But the medicine must not be missing either, it had to be delivered to her!

Jiang Hao had just thought of this, and then he came back to his senses.

But suddenly, he heard the dean say, 'Well, from today onwards, Shen Yan is no longer suitable for the head of the second department, so put him in the pharmacy!'

Jiang Hao couldn't help but be dumbfounded, from being the head of the first section to a maid?

'Wait! Dean! This isn't right. I cured Lin Bebe's!'

Dean Jiao looked at Jiang Hao viciously: 'You cured her? You cured her and she vomited blood? You cured her and she got sick? I've already given you face by transferring you to the pharmacy, what more do you want from me!'

Jiang Hao looked at Dean Jiao's angry expression. He turned his head again to look at Dr. Xu's grimacing face.

'Heh, fine. Fine, since you all said so. I'll accept the arrangement!'

Just after these words, Jiang Hao looked at the crowd present and spoke, 'You will know later!'

After saying this, Jiang Hao left the emergency room, he didn't want to argue with those people!

Some things would only get darker and darker, so Jiang Hao chose not to explain and let time tell!

On the other hand, there was nothing wrong with transferring to the infirmary, he could pick up medicines all day and help people with their illnesses.

He was worried about where he was going to get medicine for Lin Bebe, and this was a convenient way for him to get it.

Thinking of this, Jiang Hao laughed lightly and went back to his second department.

Dr. Ren was sitting on a chair and saw Jiang Hao coming, so he quickly went up and fawned over him, 'How's it going upstairs, our divine doctor must have taken care of it, right?'

Jiang Hao looked at him and snorted, 'You'd better stay away from me now, I've been transferred to the pharmacy, watch out for bad luck if I get too close.'

Doctor Ren looked slightly choked after hearing this, and the look he gave Jiang Hao became a little strange.

'What's going on, why have you suddenly been transferred to that cold bench in the pharmacy?'

Jiang Hao shook his head helplessly and said while packing his things, 'What can I do? I cured Miss Lin of vomiting blood!'

Hearing this, Dr. Ren got up with an embarrassed expression and said, 'Ahem, I just remembered that I have some things to do, so I have to go first!'

As soon as the words left his mouth, Dr. Ren hurriedly ran out of the second department, as if he was afraid of getting involved with Jiang Hao!

Jiang Hao had seen people's feelings, but this was the first time he had seen someone who was so quick to turn his head like him!

So looking at Dr. Ren's back, Jiang Hao couldn't help but laugh and curse, and then picked up his case and went to the pharmacy to report.

Just as he reached the entrance of the pharmacy, an old man with a cigarette in his mouth looked playfully at Jiang Hao.

'Kid, what did you do to get here?'

These words made Jiang Hao's tiger torso shake and he looked up at the door sign with some embarrassment.

Chapter 606

'If it wasn't for the door sign that said Pharmacy Office, I would have thought I had entered somewhere!'

With these words, Jiang Hao carried the things in his hands into the office and put them down.

Only then did he leisurely walk out, then took a cigarette and lit it up and took a deep puff.

'Hiss, you are really big-hearted, there are so many things in the pharmacy. You still dare to smoke!'

The old man looked at Jiang Hao and couldn't help but give a thumbs up: 'I thought I was the most shameless before you came here, but now it looks like I'm the one who's arrogant!'

Jiang Hao couldn't help but laugh at those words, then opened his mouth and asked, 'How do you know I've come here for a crime?'

The old man snorted, 'Just this hellhole, there's no oil and water, how come you're so young not to come here?'

After saying this. The old man even took a glance at Jiang Hao, quite a bit disdainful!

Jiang Hao looked at the other party and laughed bitterly: 'Then how did you come here, did you offend someone too?'

The old man heard this as if his tail had been stepped on. He hurriedly said sharply, 'What do you know, old man, this is called avoiding the world!'

'Old Bi, grab the medicine, it's for Dr. Li's urgent use, hurry!'

Hearing this, the old man who had just been bouncing around with Jiang Hao hurriedly answered, 'Coming!'

He then went to get the prescription and then concentrated on dispensing the medicine, not caring about Jiang Hao.

Jiang Hao sat in his chair and smoked a cigarette, looking at the busy old man.

In his heart, he could not help but think, avoiding the world, surnamed Bi, hahaha, quite interesting!

When old man Bi finished grabbing the medicine, he then wandered over.

Then he looked at Jiang Hao and asked curiously, 'Kid, how on earth did you get in here?'

Jiang Hao had nothing to hide about this matter. So he told them all.

At the end, he added, 'It's probably because the way I used on the sick person was too aggressive, that's why there was such a big reaction!'

As soon as the words left his mouth, old man Bi looked at Jiang Hao with a dumbfounded expression, 'You have two hands, there's nothing unusual about renewing life needles, but you know how to do all that?'

This was the first time Jiang Hao had heard someone say that the Life Renewing Needle wasn't that unusual, so he couldn't help but look at Old Man Bi with some confusion.

'Do you know what a Life Renewing Needle is?'

Old man Bi snorted disdainfully at his words, 'That thing is just a chicken feed to put it bluntly, it's just a way to seal a person's life points.'

After saying this, he slightly lowered his head and pondered for a moment: 'But if it's really as you say, that girl was born with a Yin vein and has a deep evil cold in her body, she must be treated like this.'

Jiang Hao also nodded slightly and smiled bitterly, 'No way, none of them understand... no, why do you know so well?!'

Looking at Jiang Hao's startled look, Old Man Bi laughed.

'Kid, I've been in this hospital for forty to fifty years. What book haven't I read!'

After saying this he pondered slightly for a moment: 'Well, that little girl has vomited out her cold Yin blood, so she should be properly nourished.'

Jiang Hao was thinking the same thing, if she couldn't be tonicized with warm herbs in time.

To strengthen the effect of the treatment, was it likely that all the work would be lost before!

Thinking of this Jiang Hao shook his head in some distress: 'How about you give a recipe to listen to?'

Old man Bi smiled and said, 'Your previous prescription is good, but replace the ginseng with a five-year portion, and halve the amount of other medicines.'

Jiang Hao nodded after listening to it and pondered, 'Well, that's fine, you can help me get the medicine, I'll go to the Lin family after work.'

Old man Bi rolled his eyes, then held out his hand and spread it out, 'Pay up, these things are all the hospital's. It's not like it's my own!'

Jiang Hao rubbed his nose, looking at the old man's somewhat scruffy appearance, but his eyes glowed gold when he talked about money!

As he took out his own card and swiped it. While taking out his own card and swiping it, he couldn't help but sigh, 'You're really in a bad mood, the heart is not ancient!'

Old man Bi laughed as he watched the money arrive, and got up to take medicine for Jiang Hao.

He said proudly, 'Don't be the sister of Miss Lin, after curing her, you still care about this small amount of money?'

Jiang Hao had never thought about money, but the main reason was that the slap was really a bit unfair!

At first, Jiang Hao felt some anger. But when he looked at Lin Yan's pretty face, he couldn't be ruthless!

Thinking of this, Jiang Hao couldn't help but reach out and slap himself lightly on the face, cursing himself for being a loser.

But little did he know that old man Bi had caught his eye for this little gesture.

After Jiang Hao had taken the medicine, Old Man Bi smiled at Jiang Hao as he wrapped it up.

‘It’s not necessarily a good thing to leave you here. It’s relatively easier here.’

After saying this, he placed the three wrapped packs of medicine in front of Jiang Hao.

‘And you, take this time to sink your teeth into it as well.’

Jiang Hao took the medicine and measured it slightly: ‘Is this enough medicine, I’m worried it might be a bit low.’

Old man Bi rolled his eyes when he heard this, ‘Save your breath, those who come to me for medicine are all done at once!’

Speaking here, Old Man Bi smiled smugly, ‘These forty years are not for nothing!’

Jiang Hao laughed at his words and put the medicine away after shaking his head slightly.

On the other hand, after Lin Yan carried Lin Bei Bei home, the family doctor hurriedly began to diagnose Lin Bei Bei!

‘It’s all my fault, I shouldn’t have listened to what other people said about trying Chinese medicine, and as a result, Bebe vomited blood today.’

After saying this, Lin Yan looked at the doctor with some nervousness and said, ‘How is it. There’s nothing seriously wrong with Bebe’s body, right?’

After examining the doctor carefully, he said with some surprise, ‘That’s not right, I clearly checked it when I left home this morning!’

Seeing this, Lin Yan hurriedly asked, ‘What’s wrong. Is there something wrong? It’s all my fault, it’s all my fault!’

The doctor turned his head to look at Lin Yan, then shook his head and laughed, ‘It’s not that. It’s that Bebe’s condition has improved a lot!’

After saying this he couldn’t help but fall silent again, ‘But this isn’t right, how could it be possible to get so much better in such a short period of time.’

Hearing this, Lin Yan faintly froze: ‘What? It’s not worse. Bebe is even vomiting blood!’

The doctor laughed and shook his head, ‘There are times when it doesn’t mean that vomiting blood is necessarily bad, we have to do the math on that.’

After saying this, he began to check Bebe’s body while speaking, ‘Well, it’s definitely getting better, congratulations Miss Lin.’

Lin Yan looked at the doctor with slight consternation, 'You mean, Bebe's illness, it's gotten a lot better?'

The doctor smiled and nodded: 'Although I don't know what's going on, Bebe's body has indeed gotten a lot better, I wonder which high level person did it!'

Lin Yan's whole body was dumbfounded when she heard this, thinking that she had even slapped Jiang Hao in the hospital, she couldn't help but blush!
