

## Chapter 721: Rahl's Trap

After all, Karu was a popular person in the mining circle. Therefore, when Rahl arrived at the small town, he did not dare to directly barge into Karu's house. Instead, he politely knocked on the door.

However, when the servant in Karu's house said that the master had driven his friend to the airport, Rahl was so angry that he directly cursed at the gate of Karu's house.

"Go after him!" Rahl slammed the door and turned the car around, stepping on the accelerator as if he did not care about his life.

Meanwhile, Kalu, who was leisurely rushing to the airport, did not know that there was a group of people chasing after him with all their might. The three of them were still talking and laughing about Lu Xingzhi asking him to help blow up the mine.

As a person who went to and from the mine all day long, Kalu was the least noticed. Moreover, as a middleman, he would not be watched by the Zhu family when he went to and from the Zhu family's mine, so.., secretly planting a simple time bomb in the Zhu family's mine was a piece of cake for him.

"The Zhu family now has the mine in their own hands. I've already made a deal with that customer. I'm the Middleman of the mine. They believed me and decided to buy the mine they saw before." Karu smiled, "This time, you owe me a big favor again. I don't want the money. When I go to your place, you can be my guide."

"Sure." Lu Xingzhi replied quickly. As long as he was free, it was not difficult to entertain Karu.

After hearing Lu Xingzhi's answer, Karu was very happy. While he was calculating the flights that they might catch in the evening, suddenly, a few cars sped past Karu's off-road, the three people sitting in the cars were directly wrapped into a pie.

"Karu, I would like to invite your two guests to chat." Raha was still very polite to Karu. In the future, when he wanted to be the voice of the mine, he could not help but ask for Karu's help. Naturally, he did not dare to offend Karu too much.

Moreover, Karu was not a coward like Mr. Xiao Jin. Karu knew many people, and there might even be officials from the military government. Therefore, Raha did not want to offend Karu unless it was absolutely necessary.

"Rahl, he is Mr. Xiao Jin's creditor," Kalu, Lu Xingzhi, and Jiang Yao explained. "Later, Mr. Lu, just pretend that you don't understand what we're saying. I'll get out of the car first. Let me see the purpose of his chase."

After explaining, Kalu opened the car door and jumped out. He signaled Lu Xingzhi with his eyes that he didn't pull out the car keys. If necessary, Lu Xingzhi could drive his car out of the encirclement.

Others might not be able to do it, but Lu Xingzhi was a soldier. Karu felt that Lu Xingzhi could do it.

Jiang Yao was shocked by this scene. Lu Xingzhi got into the driver's seat, and she climbed into the passenger seat. She turned to Lu Xingzhi and whispered, "What are these people doing?"

“They came for the mine that we bought from Mr. Xiao Jin. This creditor should have targeted the mine in Mr. Xiao Jin’s hands from the beginning. The huge gambling debt that Mr. Xiao Jin owes should be a trap set by Rahl.”

Lu Xingzhi had guessed this guess when he learned from Karu that Mr. Xiao Jin owed a huge sum of money of 50 million. He then thought about how Mr. Xiao Jin, who was clearly a rich young master, was like a pitiful worm sitting in a mine, he even had to hide in the mine and gamble with the poor miners. After analyzing Mr. Xiao Jin’s abnormal behavior, Lu Xingzhi guessed it.

However, he did not expect that this creditor, who had lost Mr. Xiao Jin’s mine, would not be satisfied with getting Mr. Xiao Jin’s 50 million and still dare to chase after him.

### **Chapter 722: Wait and See**

“You guessed it from the beginning?” Jiang Yao stared at Lu Xingzhi with her eyes wide open. This person was really good. He didn’t show any emotion, but he had put everything in his heart and analyzed it thoroughly.

“Wait and see. This raha brought quite a number of people. Some of them have guns.” Lu Xingzhi reached out and held Jiang Yao’s hand, “The four people beside Rahl, including Rahl, all have guns. When they speak, one of their hands is always at their waist. Looking at the bulging shape of their shirts, it’s definitely a gun. The rest of them have other weapons in their hands. They should be like knives.”

After saying this, Lu Xingzhi looked at Jiang Yao. “Are You Afraid?”

This was a completely different matter from the previous kidnappings in Jingdou and Nanjiang City. This group of people had guns and knives. They were truly outlaws.

Outside, when Karu heard that Rahl wanted to buy back the mine that originally belonged to him from his customer, he immediately started arguing with Rahl.

“I’ve been in this circle for so many years, but I’ve never heard of a mine whose owner’s name is Rahl. The mine that my customer bought from Mr. Xiao Jin now belongs to my customer. Rahl, you said you wanted to buy back the mine that originally belonged to you. I can’t understand this sentence.”

Karu stood by the side of the car with his arms crossed over his chest. He looked around at the People Rahl had brought with him.

Rahl had a large casino outside the town, so he usually had a lot of underlings. Now, there were at least twenty people blocking the entrance. It was clear that Rahl had made preparations to rob them.

“Alright, then tell your customers that I will buy them with 55 million. In just a short period of time, it will be enough for them to earn five million!” Rahl said, “Tell your customers that if they are more tactful, they should agree! Karu, let me tell you. I have been planning this matter for more than a month. It is not that simple to take something that originally belonged to me from my hands.”

“Raha, when has my customer ever been short of 5 million?” Karu was not a person who was easy to get along with. From the fact that Mr. Xiao Jin had been taught a lesson by him this afternoon, it could be seen that he was definitely a person who would seek revenge.

And such a person was naturally not someone who could easily give in. In this circle, doing business, reputation, was very important.

If Rahl really threatened his customer like this, with this precedent, in the future, this kind of thing would probably have one learning one, two learning two, and a successor.

If the entire YN nation was like Rahl, waiting for foreign customers to buy the ore and then follow behind to snatch it, then this line of work would definitely suffer a great deal of damage.

This was the so-called "Rules of the trade" that could not be easily broken.

Seeing that Kalu was so stubborn, Rahl lost all his patience. He pulled out a pistol from his waist and pointed it at Kalu. "I'm sorry. When the matter is over, I will naturally give you a generous gift and apologize."

Two of Rahl's men quickly went forward and pulled Kalu to the back. They really did not dare to make a move on Kalu.

Seeing this, Lu Xingzhi quickly started the car and stepped on the accelerator. However, Rahl's men also reacted very quickly. The front of the car turned and quickly blocked Lu Xingzhi's path. A heavy truck and an off-road vehicle. If they really collided., no one could guess who would be at a disadvantage.

### **Chapter 723: I'll Go**

Lu Xingzhi braked at the last moment. He turned to Jiang Yao and said, "If it really doesn't work out, give him the contract first. After we return to the country, we can replan our revenge."

This was probably the biggest grudge that Lu Xingzhi had ever had aside from Jiang Yao's place. Therefore, when he spoke, his tone was so cold that it was practically emitting a chill.

He thought that he had everything under control and that he was smart enough to calculate everything, but he still ignored the greed of this person, Rahl!

Jiang Yao was here, and the people outside had guns, so he could not fight head-on.

If he was alone, it would not be difficult for him to leave safely.

But now, what was difficult was that he had to protect his little wife.

"Okay." Jiang Yao nodded. Then, she watched Lu Xingzhi Open the car door and get out. Then, she reached out her hand and pulled her down with him.

"Mr. Lu, right? Mr. Lu is still bringing his wife. I hope that Mr. Lu Won't take the risk for a small amount of money. I want the contract between you and Mr. Xiao Jin."

Raha was an insatiable person. Just now, he had told Karu to use 55 million to buy it. But now, seeing the two young couples being forced to get out of the car helplessly, he was not willing to pay the 55 million.

Money was money. Who would complain about too much?

"Rahl, you can't be too greedy." After hearing this, Karu cursed angrily from a few meters away.

Just now, he had said 55 million. Even if Mr. Lu sold it, he would still earn five million. At least he could have some explanation. But now, Rahl wanted to take the money for nothing.

Fortunately, he did not mention that Mr. Lu had bought another mine. Otherwise, Rahl would not only want a mine.

That mine represented money and status. For people like Rahl, the temptation was too great.

“Greed is a natural instinct of people.” Rahl smiled unmoved. Then, he slowly raised his gun and pointed it at Lu Xingzhi. “Woman, obediently give me your contract!”

“I’ll Go!” Lu Xingzhi held Jiang Yao’s hand and did not let her go.

“Mr. Lu, don’t discuss with me. I know that you and Ruan Yongjun are friends, and Ruan Yongjun is a veteran. Then, you’re most likely a soldier, so I won’t let you get close to me.” Rahl could shoot, but don’t expect him to be good at shooting, and with his figure, don’t expect him to have any kung fu.

This was why Rahl chose to point the gun at Lu Xingzhi and let the woman send the contract over.

The woman looked delicate and weak, as if she could be blown away by the wind. If such a woman approached him, he would not be in danger.

“It’s okay, I’ll go.” Jiang Yao pulled her palm out from Lu Xingzhi’s hand and made a reassuring gesture to Lu Xingzhi. However, when she turned around, she used her lips to speak to Lu Xingzhi, waiting for an opportunity to move.

Jiang Yao knew that Lu Xingzhi could read lips.

Jiang Yao was not afraid. As a woman, it was impossible for her not to be afraid when faced with a few black muzzles and a fat man who had an ugly smile on his face.

However, although she was afraid, she would not cry in such an occasion because she knew that if she revealed even the slightest bit of fear and panic, it would definitely affect Lu Xingzhi’s judgment and mood.

With a thought, Jiang Yao took out a medicine from the medical system laboratory. No one noticed that just a few steps away, something had appeared in the palm of her hand that was holding the contract.

“Here.” Jiang Yao stood in front of Rahl and handed the contract over. When Rahl reached out to take it, her fingertips moved.

#### **Chapter 724: Continue Being Arrogant**

“Why is there water?” Raha’s fingertips felt the ice-cold Touch and became nervous for a moment. He quickly asked.

“Maybe it’s because I’m afraid, so my palms are sweating. It’s also possible that when I was drinking water in the car just now, I accidentally fell on the contract,” Jiang Yao explained with a blank expression.

Raha turned the bag of documents upside down. When he saw that there was really a water stain, he stretched out his hand and touched Buddha's hand. After seeing that the water on the bag had touched his hand, he didn't care much. He turned around and handed the bag of documents to his subordinate.

The person beside him took it and almost subconsciously did the same thing. He reached out his hand to touch the water stain on the bag of documents.

Jiang Yao's smile slowly spread out. Then, she retreated step by step to Lu Xingzhi's side.

She was not sure if Lu Xingzhi had seen what she did just now. However, even if he had not seen it, Lu Xingzhi knew that the water stain on the bag was caused by her. That was because such an important bag of documents could not have been splashed by water.

When Jiang Yao returned to his side, Lu Xingzhi immediately went to hold her hand. He didn't ask her anything, but asked Raha, "Can we leave now?"

"Of course." Raha had gotten what he wanted. He was so happy that he didn't even look at Lu Xingzhi and Jiang Yao. He just turned around and was about to leave.

Jiang Yao watched him turn around and started counting down in her heart.

Three Seconds!

Two seconds!

One second!

Bang!

Rahl's heavy body fell to the ground. The sound of him hitting the ground was like a sky-shaking cannon.

In the next second, the subordinate with the document in his hand also fell to the ground like a zombie.

Lu Xingzhi's reaction was very fast. Before Rahl's subordinate could react, he ran toward the man like a wild wolf. In the blink of an eye, he grabbed the pistols of the two men who were lying on the ground. In the next second.., one in each hand, he fired at the other two men who had guns hidden on their bodies in two different directions.

After the two men were shot, he shouted at Jiang Yao, "Wife, Catch!" Then he threw one of the pistols in his hand to Jiang Yao.

Like a carefully calculated parabola, the gun flew toward Jiang Yao accurately. She raised her hand and took the gun accurately.

However, in the few seconds that she took the gun, Lu Xingzhi had already taken care of the two injured people. He pressed them on the ground like a pyramid and took away all the guns on their bodies.

In just a few seconds, the situation changed drastically.

"Wife, one more!" Lu Xingzhi threw another gun at Jiang Yao.

Jiang Yao raised her hand and took it. She really wanted to shout to Lu Xingzhi that it was useless for her to take two guns. She could only shoot with her right hand, but her left hand was not accurate. Unlike him, regardless of whether it was his left or right hand, he could almost hit every shot.

In less than ten seconds, the situation had been turned around. The people on the side were dumbfounded.

“Go!” The people who were stepped on by Lu Xingzhi shouted at the people who were standing on the side with knives in their hands and did not dare to go forward.

“Go! Go ahead!” Lu Xingzhi’s shot directly hit the instep of the first man who went forward. The man who was shot immediately hugged his leg and cried out in pain.

“These foreign businessmen don’t dare to shoot and kill people in our country! We have more people, go ahead!” Raha lay there and cursed. His body was as stiff as a wooden board, unable to move.

“Raha, continue to be arrogant.” Jiang Yao leaned towards Lu Xingzhi and kicked at Raha.

### **Chapter 725: Zombie No. 1**

“My newly developed neurotoxin tastes pretty good, doesn’t it? Congratulations, it’s my honor to be the first test subject. By the way, I haven’t given this finished product a name yet. What do you think of the name zombie toxin? Isn’t it great?”

Lu Xingzhi glanced at his evil-smiling wife and directly translated it for Raha. After listening to it, Raha’s face was full of fear. “What is it? Neurotoxin, what is that?”

After listening to Lu Xingzhi’s translation, Jiang Yao smiled lightly and continued, “Neurotoxin, as the name implies, is a newly developed virus. This virus is a colorless, tasteless liquid, like water. As soon as human skin comes into contact with this virus, it will be rapidly infected. After the virus enters the human body, the first thing it destroys is the human nervous system. Then, it will devour the active red blood cells in the body at the fastest speed. If the antidote is not saved within a certain time, then this person will end up like a stiff corpse that has been sucked dry of blood by a zombie. Therefore, I call this virus zombie No. 1!”

Even though Lu Xingzhi was shocked by what Jiang Yao said, he still translated it word for word to Raha.

“You can send your men up. You can try to see if someone like me dares to kill people in your territory. Anyway, there is no one around. If we kill one person, we will kill them all. No one will see us. Then, we will find a place to dig a hole and bury you. Unknowingly, who will know if you are dead or where you have gone to have fun and make a Fortune?”

Jiang Yao purposely made her smile especially evil and rampant. Her laughter carried a trace of viciousness, making the people around her to listen. For some reason, they just stood there, not daring to take a step forward.

They didn’t understand what Jiang Yao was saying, but they could understand Lu Xingzhi’s translation. That thing called zombie number one really scared them so much that they didn’t know what to do.

They were afraid that their boss would be angry, but they were also afraid that they would fall into that Zombie No. 1, and they were even more afraid of the guns in their hands!

“There’s no such thing in this world!” Rahl couldn’t believe it.

“If there’s no such thing, then you should move a little for everyone to see!” Karu added, “Stand Up!”

Rahl started to be afraid because he really couldn’t feel anything. His hands and feet couldn’t move, and his body couldn’t feel anything. The only thing he could move was his mouth, which could still speak, and his eyes, which could still move.

“Give me the antidote! I’ll return it to you.” Rahl started to feel afraid. He did not want to turn into a zombie and die miserably. “Get out of the way! Let Them Go!”

Only then did Jiang Yao unhurriedly bend down and pick up the document from the ground. She avoided the puddle of water and threw it back into the backpack in the car. She climbed into the car first and signaled Lu Xingzhi to get into the car.

“Kalu, let’s go.” Lu Xingzhi called Kalu and kicked Rahl before getting into the car.

Kalu had already driven away. Rahl was still shouting loudly for the antidote. Jiang Yao listened to Kalu’s translation before shouting out an English sentence out of the car window.

After Kalu heard it, he asked, “What is the antidote?”

“Glucose,” Lu Xingzhi kindly translated.

Karu was silent for a long time. He didn’t know if Lu Xingzhi and his wife were joking with him, but the speed this time was much faster than before.

## **Chapter 726: Could Not Be Found**

More than an hour later, Karu sent the two to the airport. When Lu Xingzhi bought the tickets, Jiang Yao was watching from the side. When she found out that the nearest flight to Nanjiang International Airport would take two and a half hours., before Lu Xingzhi could speak, Jiang Yao asked, “Where is the fastest flight to leave YN for Country Z, and when?”

“In half an hour, it will fly to the capital.” Lalu pointed at the flight schedule on the wall.

“Two tickets for this flight,” Jiang Yao and Lu Xingzhi said, “Tell the ticket seller.”

Lu Xingzhi guessed that Jiang Yao’s Zombie No. 1 was probably fake, so she was in a hurry to leave.

After the two of them booked the tickets, Kalu left. From the looks of it, he was ready to deal with Lalu.

After Karu left, Lu Xingzhi asked Jiang Yao, “What is that Zombie No. 1 of yours? How long will it last?”

“It is indeed a neurotoxin, but it has no lethality. It is a useless drug that can only be used as a prank,” Jiang Yao explained helplessly, “This neurotoxin can only survive in the air for less than five minutes. Once it enters the human body, it will paralyze the various nervous systems of the human body within ten seconds. However, the effect will only last for half an hour. After half an hour, the virus will automatically be swallowed by the cells of the human body. There will be no side effects, and it will not cause any harm to the human body.”

There were a lot of such things in the medical system. They were useful at critical moments, but they did not harm people's lives.

The system Butler had told Jiang Yao about the research of these drugs. After her authority was upgraded, she could also consult the formulas of these drugs. The system Butler had told her that when she was free, she would hide in the laboratory and make these seemingly useless things, however, sometimes, at critical moments, they could really be used to protect herself.

Jiang Yao was bored and felt that these things were particularly interesting, so she made some and put them in the laboratory. She didn't expect that they would really come in handy today.

A small neurotoxin was enough to turn today's situation around. Otherwise, she would have lost fifty million today.

Because they had bought the fastest flight ticket, they could check in while they were talking.

Five minutes before the plane took off, Lu Xingzhi was about to turn off his phone and swipe the phone card when Karu's call came in.

"Mr. Lu, you should be on the plane now, right? Fortunately, you bought early tickets!" Karu spoke very quickly, "Half an hour after we left, Rahl and his subordinate who was infected with Zombie No. 1 virus recovered. The two of them had a check-up at the hospital. After confirming that there was no problem, they went to the police station and accused your wife of illegally bringing the virus into YN. The police have just left for the airport. It will take at least 20 minutes to get there from here. As long as the plane takes off on time, you will be safe."

When Lu Xingzhi heard that, he frowned and asked Jiang Yao, "After that thing loses its effectiveness, can it be detected? The police here have intervened."

"It can't be detected." At least, with the current medical conditions, they could not detect such a high-level virus that she had developed from the system. Moreover, it was after it had lost its effectiveness that they could not detect it. Jiang Yao was very certain about this.

## **Chapter 727**

She was stunned. She probably did not expect that someone like Rahl would go to the police for help. If this matter had anything to do with the police, it would become a troublesome matter.

"Give me your phone. I'll talk to Carl." Jiang Yao took Lu Xingzhi's phone and placed it by her ear, she said, "Carl, it's me. The virus that I mentioned before doesn't exist. If the police find you and ask you questions, just say that you have never seen me use it and have never heard of it. Rahl runs a casino. There's something wrong with his character. His words and yours will naturally be regarded as more trustworthy by the police. Then, you insisted that I left alone. If they don't believe you, they can check my entry record. I came with a businessman from our country."

"There's no need to say more. I know what to say." Carl was a smart man. He immediately understood Jiang Yao's words. He was also impressed by Mr. Lu's wife's steadfastness, "You can rest assured on my side. It's just that the virus is too scary. It might even alert the government. I'll give you a suggestion. Contact your people early and prepare to retreat."

Jiang Yao thanked him, she turned around and continued talking to Lu Xingzhi. "Call Big Brother and ask him to arrange for someone to pick you up at the airport. The people here can't find any record of you entering the country, so they don't have the right to look for you. If YN really contacted our country to investigate me, I'll definitely make a trip. But don't worry, they can't find anything on me."

Jiang Yao smiled. "Even if you want to investigate my background, my background is still clean."

Jiang Yao was very certain about this, so she was not afraid of an investigation. However, she could not let this matter spread to Lu Xingzhi.

After saying that, her face revealed an extremely vexed expression, "If I had known earlier, I wouldn't have said so much to threaten that Rahl. If I hadn't said anything about the virus, everything would have been fine. My Stupid Brain! I really didn't think too much back then. I didn't think that someone like Rahl would go to the police."

Back then, Jiang Yao had told Rahl about the neurovirus in order to scare him. If she had known that there would be a follow-up, she wouldn't have said anything at all.

Fortunately, she had asked Lu Xingzhi to book the current plane ticket.

Lu Xingzhi reached out to hold Jiang Yao's hand and smiled. "When we reach the capital, that will be our territory. Don't worry."

When he had called Liang Yueze, he had held her hand the entire time and silently comforted her. Lu Xingzhi could feel it. At this moment, Jiang Yao was starting to worry. She was worried that it would affect him.

In fact, Lu Xingzhi and Jiang Yao were indeed very lucky. After Lu Xingzhi called Liang Yueze, he turned off his phone and the plane took off on time.

Therefore, when the police arrived at the airport and checked the records, they could not find any customer surnamed Lu from country Z. when they came back to their senses, there was no news from the man, and the police from Yn made a move on his wife, Rahl did not know the name of Mr. Lu's wife, so the police directly went to ask Carl. Carl naturally could not avoid it, so he could only say Jiang Yao's name.

However, Carl also felt that since she was already on the plane, the people here could not do anything to her. They could not let the plane fly back after twenty minutes, right?

"Do you know about the neurovirus?" YN Police's attention was on this.

"What virus? I've never heard of it." Carl had a blank look on his face, "Are you guys going to blow this matter up because of Rahl's lie? Rahl brought people to commit a robbery midway and even carried a gun. This is Rahl's own fault. He didn't rob a little girl before, yet he still spouted nonsense about the virus. It's really a disgrace to our country."

## **Chapter 728: There Would Come a Day**

Lu Xingzhi and Jiang Yao, who were on the plane, didn't know about Yn's movements. The plane was flying high in the sky. Looking out of the window, they could see that it was completely dark. For a moment, Jiang Yao's mood was somewhat depressed.

“Don’t think too much.” Lu Xingzhi pulled her into his arms. “Trust me. When we get to the capital, no matter how big the problem is, it will be solved.”

“If I get off the plane and there really are people surrounding me, you and Big Brother’s people should leave first. Don’t stay here because of me.” Jiang Yao had a faint premonition that this matter would not end here. The takeoff of the plane was just another beginning.

“I just went through it in my heart.” Jiang Yao’s voice was very low, “If they ask me about Rahl’s stiff body, I also have an excuse. So, just in case, when we get off the plane later, regardless of whether or not you see anyone, it’s safer for you to go with Big Brother’s people. I’ll leave the airport alone.”

Seeing that Lu Xingzhi pressed his lips and didn’t say anything, it was obvious that he didn’t agree, so Jiang Yao continued to persuade him, “Xingzhi, you have to let me try to face these things on my own. You Can’t Stand by my side forever and cover for me. One day, I have to stand alone too.”

The More Jiang Yao showed her courage and wanted to go up against them, the more Lu Xingzhi blamed himself.

“It’s all my fault that I’m not strong enough! If I’m strong enough, so what if you really used the virus overseas? I can still protect you!”

If he was already a big shot in the military, then he didn’t have these worries now. Therefore, Lu Xingzhi was eager to become stronger! He was eager to climb up!

This incident gave him a stronger belief!

Only by becoming stronger, only by becoming strong enough, could Jiang Yao’s life truly be stable, and only then could she truly do whatever she wanted!

“Yaoyao, one day, I will make your wanton promise come true!” Lu Xingzhi said in a low voice. Then, he tightly hugged her in his arms, wishing that he could rub her into his bones and blood.

The plane landed at the airport in Jingdou at midnight. The plane had just stopped when Liang Yueze arranged for someone to secretly pick Lu Xingzhi up.

When they separated, Lu Xingzhi’s eyes were fixed on Jiang Yao. Looking at her calm face, he knew that she was actually afraid.

At this moment, the guilt in Lu Xingzhi’s heart and the anger in his heart grew bit by bit.

Raha! Raha! If he didn’t let him know how the Word ‘death’ was written, his name would not be Lu Xingzhi!

Jiang Yao stood there and only heaved a sigh of relief after seeing Lu Xingzhi’s figure disappear. Her palms were full of sweat and she was nervous.

She looked at her phone and turned it on.

As soon as she turned it on, Jiang Yao received a text message from Liang Yueze, informing him that the YN government had transferred the neurovirus incident to the capital. Right now, the relevant departments were already waiting for her at the airport exit.

Liang Yueze assured her that she only needed to deal with these people there. The Liang family had arranged for people to not let her be taken away by these people.

Liang Yueze's words immediately made Jiang Yao feel at ease.

That's right, she did not tell Lu Xingzhi just now. In fact, she was afraid that these people from the government would take her away and torture her for the so-called virus, just so that she could get an answer.

Virus, or neurovirus? At any time, this was something that would make people fear and cower in fear.

### **Chapter 729: What Else Could It Be**

To the countries that owned it, it was a good thing, but to other countries, it was a terrifying biological weapon.

Jiang Yao did not say anything, but she could read Lu Xingzhi's eyes when he looked at her. He had thought of it, so he was even more worried about her. When he left, his eyes were terrifyingly vicious.

At that time, Lu Xingzhi probably thought that regardless of whether she would be taken away or not, only if he was safe would he have a way to save him.

Jiang Yao smiled lightly in her heart. Her man. She admired his rationality and his boldness. This was her man.

At the airport in the capital, the passengers were in a hurry and the crowd was flowing. Jiang Yao dragged her suitcase and walked casually. Her eyes were looking around and her ears were also absorbing the movements of the entire airport.

The people waiting for her were indeed at the exit of the airport. The atmosphere of the people on both sides didn't seem to be very harmonious. They were just waiting for her this little bit of time and didn't have the slightest bit of conversation the entire time.

As soon as Jiang Yao appeared in their line of sight, they immediately surrounded her. However, the ones who were faster were the people from the capital.

"Miss Jiang Yao, right? You brought a prohibited virus into YN territory. Now, we want to..." as this person said this, he pushed away the people in front of him. As he said this, he extended one hand towards Jiang Yao and the other hand took out handcuffs to handcuff her.

"That's not what you said. Previously, you told our leader that you were just suspicious. Why Are You So Sure Now?" Captain Chen, who was leading the team, unceremoniously pushed away officer YN, who was about to use his hand to pull the delicate little girl away, looking at the handcuffs in the other party's hand, he said coldly, "Please respect the citizens of our country! She is only suspected by you, not a confirmed criminal."

Although she did not know the person who was protecting her, Jiang Yao was still a little surprised by the protection.

She pretended to be frightened and stood there with a confused face. Then, she hid behind the person who was protecting her. She looked at the group of people with a pale face, and her voice trembled slightly. "What is this? What virus? What are you talking about?"

Lu Xingzhi had once said that she was like Gu Haoyu. This face was very deceiving. As long as she showed even the slightest bit of weakness, people who did not know her would subconsciously treat her as a weak little girl. This kind of weakness.., would arouse the desire of men to protect her.

Lu Xingzhi was right. Captain Chen, who was in charge of this mission, turned his head and saw Jiang Yao's face with fear written on it. Captain Chen felt that it was laughable. She was just a nineteen-year-old girl, and a girl who was only in her first year of university.., and she was the wife of a soldier. How could she possibly carry contraband?

What neurotoxin? It sounded laughable. This was something that even the national secret research institute could not research. Where could a little girl get it?

When Captain Chen thought of this, he felt that the people of YN government wanted to cause trouble, so he found such a lame excuse.

"This is someone from the YN government. Someone called Rahl accused you of bringing a prohibited virus into YN. Now we're looking for you to talk about these things," captain Chen explained. "Do you know Rahl?"

"You're going to start the interrogation here?" Someone beside Captain Chen asked.

Captain Chen didn't even turn his head. Instead, he asked, "What else? We're not sure if the little girl really committed this crime. Could it be that, regardless of the consequences, we'll capture her and beat her up before we extract a confession?"

### **Chapter 730: Made Up To Scare People**

"Let me tell you, that little girl is only 19 years old and only in her first year of college. She is also the wife of an outstanding soldier in our country. If she were to be scared out of her wits, I want to see how you are going to answer to her!"

Hearing this, Jiang Yao understood that this captain Chen should be one of Liang Yueze's men. Captain Chen would not let her be taken away by anyone.

After seeing clearly the position of this group of people, Jiang Yao was relieved.

"Raha, I know him! It's fine if you don't say raha, but when it comes to raha, I'm going to sue him!" Jiang Yao's expression was originally very scared, in an instant, it turned into anger, "I bought the mine in YN, but raha brought more than 20 people, guns, and knives to stop me. He forced me to hand over the contract I just signed to him. He's blatantly robbing me!"

"Did you guys just say that Rahl accused me of carrying the virus? Don't tell me he is laughable enough to tell you what the neurovirus called Zombie No. 1 is?" Jiang Yao's face was full of disdain. "A greedy fool like Rahl really makes me laugh to death!"

"You admit it!" When the people from YN heard the translator mention Zombie No. 1's neurovirus, they were all excited. "Yes, it's this virus!"

Captain Chen never thought that Jiang Yao would casually mention Zombie No. 1.

“What virus? are the people of YN side’s government as stupid as idiots like Rahl?” Jiang Yao’s tone was full of mockery, “The silver needles that were dipped in anesthetic were called Zombie No. 1 by me, and he actually believed it! I’m just an ordinary college student with a little money, where am I going to get the neurovirus for you? To steal it from the heavens for you?”

After saying that, Jiang Yao laid the suitcase flat on the ground and opened it directly. Then, she took out a set of silver needles and handed it to Captain Chen, “Zombie No. 1 was made up by me to scare raha. I even told him that when the Zombie No. 1 virus enters the human body, it will rapidly destroy the human nervous system. It will also devour red blood cells, turning people into stiff dead people who have been sucked blood by zombies. I said it to scare people, but Raha believed it. I didn’t expect that the people of YN government would also believe it. This is so funny. If that virus was really that powerful, would raha still be alive now?”

Captain Chen didn’t know much about Zombie No. 1, but he had received orders from his superior to bring people from the YN government to talk to Jiang Yao. He had another mission in private, which was to protect Jiang Yao from being taken away by anyone.

Now, after hearing Jiang Yao tell him everything about Zombie No. 1, he also felt that it was unbelievable. He even felt that the YN government that believed her words was a retard.

“Miss Jiang Yao means that there is no zombie No. 1? Is Rahl lying? However, Rahl and his men can prove that he once fell to the ground without moving,” the YN side people questioned.

“First of all, Rahl is a criminal. He tried to kidnap and rob me with guns and knives. This is an indisputable fact. May I ask, why would you believe the words of a kidnapper and his men, who have no credibility at all? “Are you investigating this matter for your people, or do you really hope to get the so-called Zombie No. 1 from me?” Jiang Yao’s doubt was louder than anyone else’s.

“I just said that the so-called zombie No. 1 was just a silver needle dipped in anesthetic. When Rahl threatened me to bring the document to him, I took the opportunity to stab the acupuncture point on his palm with the silver needle dipped in anesthetic. This is the reason why he fell unconscious after a few seconds.”
