

## Chapter 761: What did you say to him?

Chen Feibai's mother came back to her senses and said a few words of thanks.

Jiang Yao shook her head. "I saved him because he was a flood fighter, not because he was Chen Feibai."

"No matter what, you still saved him." Rong Ying sobbed, "Just now, he didn't care who was talking to him. If you opened your mouth, he would respond to you. You are different from us in his heart. I can see that he really doesn't want to live anymore. Jiang Yao, Auntie, please help me persuade Feibai, okay? "Our Chen family, including us as parents, have let him down. We know that he doesn't hate you. He hates us. He hates the entire Chen family."

As a mother, how could she not understand that Chen Feibai didn't hate Jiang Yao? It was clearly their closest family members.

As a mother, she had fought and been angry. But, what was the use? The old man had always been in charge of the Chen family.

The old man had used the same excuse to convince Chen Feibai himself, let alone them?

Jiang Yao wanted to say something, but she hesitated. She looked at Chen Feibai's parents, but in the end, she didn't say it out loud.

There was one sentence that Chen Feibai's mother said was wrong. Chen Feibai said that he hated her. Jiang Yao knew that he really hated her. This kind of emotion was indeed unreasonable, but Jiang Yao understood it very well.

If he didn't hate her, if he didn't hate her for saving him, the current Chen Feibai probably didn't know what he could do with his life.

Jiang Yao thought that Lu Xingzhi would talk for a while inside, but she didn't expect that he would come out in less than two minutes.

Chen Feibai had always regarded Lu Xingzhi as his biggest opponent, a strong opponent that he wanted to defeat. Therefore, when Lu Xingzhi said that he wanted to go in and persuade Chen Feibai, Chen Shan and his wife felt that it was most likely useless, so they just hit Lu Xingzhi and went in, perhaps it could stimulate Chen Feibai's life force, so the two of them retreated.

When Lu Xingzhi came out and told everyone that Chen Feibai had fallen asleep, Jiang Yao and Chen Feibai's parents were stunned.

"Company Commander Lu, thank you." Chen Feibai's mother thanked him with a sob.

Lu Xingzhi was not good at dealing with such a situation. He looked at Jiang Yao weakly, obviously asking for help.

If he met someone else, it would be fine if he did not answer. However, these were Chen Feibai's parents. If he did not answer, he would always appear to be a little unreasonable, even though he did not have much humanity.

“Aunty, you are too polite. Since Chen Feibai is resting, you can rest assured. Xingzhi still has to rush back. I will send him off first. He will come back to accompany you later.” Jiang Yao’s voice was very gentle with a hint of comfort, seeing that the two of them had calmed down, she held Lu Xingzhi’s hand and sent him off.

When they were walking down the stairs, Jiang Yao could not help but ask curiously, “What did you say to Chen Feibai in two minutes?”

“What else could I say?” “I told him that if he exhausted himself to death, Chen Feitang would only be even happier. Because, if he dies, this matter will forever be done by him, Chen Feibai. Moreover, there’s no possibility of overturning the case. If he’s still alive, I’ll help him deal with Chen Feitang. As long as he cooperates with the treatment, I’ll let Chen Feitang be eliminated from the special forces.”

Lu line stop long sigh, “Chen Feibai most hate is Chen Feitang, Chen Feitang desperately to enter the special forces, Chen Feibai, should want to see Chen Feitang eliminated.”

## **Chapter 762: Eliminated her**

“If you do this, Will Old Master Chen Be Unhappy?” Jiang Yao was a little worried. “Besides, what can you do?”

“I don’t care if Old Master Chen is happy or not. Chen Feibai is my subordinate. There’s nothing wrong with me protecting him. Besides, if Chen Feitang doesn’t have the ability to advance and is eliminated, who can she blame?” Lu Xingzhi sneered, “The content of the last test has been released.”

“What?”

“The first three people who didn’t participate in the second round are the key to the test. Those who kill any of US once will pass the test directly. As for the three of us, each of us will have five chances to resurrect. If we are killed five times, the three of us will be eliminated directly. Those who don’t Kill Us will pass the test with the highest number of badges and the last order.” Lu Xingzhi shrugged, “I told Jin Mingdong that he went to take Chen Feitang’s badge. I Won’t resist and let him kill me once to ensure that he passes. Jin Mingdong agreed.”

“If that’s the case, then you only have four chances!” Jiang Yao frowned. “What if four or five people join forces to capture you in order to advance?”

“Forget about four or five people, so what if the rest of the people come? Let’s see what they can do!” Lu Xingzhi was very proud. “Let’s see if they can find me first.”

He was good at hiding his tracks, and he was also good at sneak attacks. Lu Xingzhi was confident that if he wanted to hide his tracks, it would be very difficult for these people to find him in such a large forest. So, even if they formed a team, so what?

Jiang Yao had seen Lu Xingzhi’s ability before. His analysis of a person’s behavior and psychology was so accurate that it made people afraid. Therefore, he had this confidence that he would be able to laugh until the end.

“Actually, I think that it’s not right for those people in the Army to call you Hades Lu. You’re also cold-faced but warm-hearted. You’re actually very protective of your subordinates.” Jiang Yao leaned her head gently against his arm, “You’re a qualified officer.”

“PFFT, they’re just a bunch of little brats who always make people worry before they’re weaned.” Lu Xingzhi was obviously not in the mood to be praised by his wife. Instead, he had a look of disdain on his face, “After joining the special forces, I can finally get rid of the job of a nanny.”

Jiang Yao glanced at the man whose lips were slightly curled up. It seemed that he was really looking forward to joining the special forces.

When they arrived downstairs, the two of them realized that it had started to rain.

Lu Xingzhi looked up at the sky and frowned. “You can send them here. Don’t send them. It’s raining outside.”

Then, he looked back at the clothes Jiang Yao was wearing. He reached his hand into her palm and touched her face. “Are you cold? If you are, I’ll buy you a thick coat first.”

“No, no.” Jiang Yao shook her head. She was afraid that Lu Xingzhi would get her a scarf, hat, and gloves. In the current weather in the south, she didn’t need them at all.

“The last round of assessment will start tomorrow. The assessment time is three days. You stay in the hotel for three days. After the assessment is over, I’ll send you back to Nanjiang City. Then, I’ll return to the army from Nanjiang City to Jin city,” Lu Xingzhi said, the hand that was originally on top of her head moved down and touched her round earlobe. Then, he looked around to make sure there was no one around. He lowered his head and quickly kissed her.

“When I’m free, I’ll make a pair of earrings for you next time.” Lu Xingzhi rarely saw Jiang Yao wearing jewelry unless she was going to a banquet with him. In life, her earlobe was basically empty.

### **Chapter 763: As long as you’re happy**

“Will you still have time? If you join the Special Forces, you’ll definitely be very busy, right?” Jiang Yao said. “Will the special forces be set up in the capital in the future?”

“It hasn’t been confirmed yet, and the military regions are still discussing it. So after this is over, I’ll still have to return to the troops in Jin city. I’ll probably have to wait until after the new year to report to the new troops. “Remember, during the new year this year, you still have to accompany me in the troops in Jin city,” Lu Xingzhi said, “The first special forces team will most likely be arranged in the Southern Military Region.”

Jiang Yao blinked her eyes and thought to herself. She had originally planned to bring Wen Xuehui to Jingdu Medical University after the company in Nanjiang City was on the right track. It seemed that she had not mentioned it yet. Otherwise, when Lu Xingzhi came to the south and she went to the north.., that would be called not knowing whether to laugh or cry.

“If it’s in the south, then it’s closer to your place. If I can’t leave the Army, you can come to the army to accompany me on the weekend.” Lu Xingzhi was very overbearing. In any case, he hoped to be in the south. In that case, Jiang Yao could visit him once a week.

“Okay, okay, as long as you’re happy.” How could Jiang Yao Say No? If she dared to say no, this guy would definitely drag her to a corner to reason with her. He was sure to take her down. In her place, he had all kinds of methods. In any case, he was sure to win. Why did she have to put up a weak resistance?

Besides, to be able to see him every weekend, she was actually secretly happy in her heart.

After receiving Jiang Yao’s answer, young master Lu was very satisfied. There was a faint smile in his eyes. He looked at the Rain Curtain and pushed Jiang Yao in. “It’s raining heavily. Don’t come out. Go back quickly. Chen Feibai is fine here. You Go back to the hotel and wait for me for three days.”

“Okay.” Jiang Yao took two steps back and tiptoed on his lips. Then, she pushed him out. “Go back quickly before the rain gets too heavy.”

Lu Xingzhi was ready to leave, but he didn’t expect Jiang Yao to take the initiative to kiss him. He pulled back his leg that had already stepped out. He stood there and looked at the person who pushed him and asked him to leave. He was thinking.., should he hug and kiss her for a while before leaving.

However, he glanced behind him and gave up. He raised his hand to rub Jiang Yao’s head, turned around, and quickly entered the rain.

Lu Xingzhi ran very fast. Jiang Yao watched him for a few seconds before he disappeared. She stood where she was and smiled gently. Then, she went back upstairs happily.

He had already left, but the breath of the two of them still seemed to linger there for a long time.

On the long corridor behind them, a nurse stuck her head out to take a look, then retracted her head. She turned around and said to the girl in the wheelchair and the Madam who was pushing the wheelchair.., “They’ve left. That Girl is the one I told you about the other day who looks very similar to miss sun. That day, I even mistook her for Miss Sun.”

The girl in the wheelchair touched her face and nodded lightly, “They really look alike. If I hadn’t seen it with my own eyes, I wouldn’t have believed that there was someone in this world who looked so similar to me, right, Mom? So much so that I almost thought that I had an older sister or a younger sister.”

After the young girl finished speaking, she turned to look at her mother, who had been silent the whole time. Seeing that her expression was abnormal, the girl reached out to pull on her mother’s sleeve and asked, “Mom, What’s Wrong? Are you not feeling well?”

#### **Chapter 764: Flirting**

“It’s okay.” The woman on the side came back to her senses and shook her head. She turned around and asked the nurse beside her, “Do you know who she is? How Old is she?”

“I don’t know how old she is. She looks about the same age as Miss Sun. She looks very young. As for who she is, I don’t know either. However, I heard from other nurses that she was together with the burn victim in Jingdou. The burn victim was someone from Jingdou. The girl and her family landed in a helicopter in the open space of the hospital. Therefore, she is most likely someone from the Jingdou Military Circle. I heard that the family of the burn victim has a particularly high status. To be more exaggerated, if she sneezes, Jingdou will be shaken three times.”

When the nurse said this, she paused, then she continued, "When this girl came in the morning, there were two extremely scary looking bodyguards by her side. Therefore, that girl's family background must also be very scary. It's better for ordinary people like us not to approach them."

The nurse spoke very seriously. She lowered her head and looked at Miss Sun, who looked very similar to the girl with an extraordinary status. Then, she said, "I heard that people like them who are high and mighty are not very good-tempered. In the future, Miss Sun should avoid her when she is in the hospital. After all, the two of you look very similar. If she is not happy that you look like her and comes back to find trouble with you later, that would be bad."

"It can't be? That girl looks gentle and gentle." Although the girl in the wheelchair did not believe it, she was still shocked by the nurse's words.

"Some women rely on their faces to deceive others. Look at her, she's already flirting with men in broad daylight at such a young age. How could she not? You'd better keep a distance from her." The woman's voice suddenly changed. She pushed the girl and turned around to walk back.

"Mrs. Sun misunderstood. That girl seems to be married. The soldier just now should be her husband." The nurse on the side explained, "That's what I heard from other nurses."

"Mom, look, that's her husband, so it's not a big deal for the couple to have a good relationship and be closer." The girl in the wheelchair smiled gently. "A young and promising warrior with a gentle wife is very enviable, isn't it?"

"What are you envying? Even if they are husband and wife, they can't cuddle like this in a crowded hospital in broad daylight. It's immoral!" The woman sneered. "You're not allowed to do this in the future!"

"Mom, what era is it now? Why are you still so old-fashioned? In foreign countries, let alone those who are already married, even if a man and woman are in love, Kissing and hugging on the street is nothing. That's called romance," the girl retorted unhappily, then, she laughed self-deprecatingly. "With my body, I live day by day. It's like waiting for death. Most likely, I'll never be able to wait for that day."

After saying that, the girl's expression changed.

"Shanshan, don't be like this. You're digging your mother's heart out." The woman lowered her head to look at her daughter in the wheelchair. Seeing her pale face and slim body, which looked like a bamboo pole, her heart ached.

Recalling the girl who looked so similar to her daughter, the woman felt a burst of jealousy. They clearly looked so similar. Why did her daughter have to struggle against her illness while that girl had a healthy body, with such a high family background, how could she have such a good husband?

### **Chapter 765: The master is so naive**

The woman once again lamented the injustice of fate. Why did fate have to be so cruel to her?

Jiang Yao had just returned to Chen Feibai's ward when she was persuaded back by Chen Shan and his wife. Chen Feibai had already fallen asleep. It was enough for the two of them to stay here. They could not let Jiang Yao suffer any more.

Jiang Yao thought about it and agreed. After the rain stopped, she returned to the hotel with Ah Lu.

The first thing Jiang Yao did when she returned to the hotel was to enter the medical system to check on the simulated patient that the system had scanned. Then, she called the system Butler out.

In the ward, Chen Feibai's body was covered with bandages. Jiang Yao could not directly check on the condition of the patient. Fortunately, the system had the function of simulating the condition of the patient. When she asked the system to scan Chen Feibai's body., at the same time, she asked the system to simulate a patient.

"Master, this patient's condition is very serious."The system Butler looked at the patient in the laboratory seriously, which was rare. "Burns are one of the most difficult diseases in the world."

"I know."Jiang Yao carefully looked at the most complete result of the system's scan, and her eyebrows were knitted into a ball of numbness. "The medicine I tried last time probably has no effect on such serious burns."

"Yes, judging from the severity of this patient's burns, the medicine master made can only help the patient recover. It's impossible not to leave a scar on the patient. However, everyone's metabolism is different. Some patients will recover better if they absorb it well. The scar that will be left in the end may be slightly lighter,"said the system butler.

"But I remember that in the area of traditional Chinese medicine, I roughly flipped through it the last time. There is a set of acupuncture that is useful for this. It can stimulate the function of the joints. If you persevere for a long time, it should be able to help the patient get rid of the outcome of being disabled,"Jiang Yao said. However., looking at that set of acupuncture methods, even Jiang Yao herself felt pain when she looked at the acupuncture points, including the drugs that were needed to stimulate some parts of the body.

It was the same as saying that after the patient had endured the pain of his skin self-repairing, what followed was an even greater pain on the acupuncture side. Jiang Yao did not dare to think about who would be able to endure it when she could no longer carry out any anesthesia?

Just like in the early days, when someone's bones were broken and not connected properly, there was no anesthesia at that time. It was hard to imagine how terrible the pain was.

The pain was only instantaneous. However, acupuncture was done twice a day for 40 minutes. The first stage of treatment was a week. After a week, the patient received professional rehabilitation training before undergoing the next stage of treatment.

There was another difficult thing to do. Chen Feibai's skin was completely intact. There were only a few spots that were as big as a palm. Even if he had to perform skin grafts in the future, it would be difficult for him to do it.

Jiang Yao sighed. "I thought that the medical system was omnipotent, so there was no disease that the system could not cure."

Hearing Jiang Yao's sigh, the system Butler looked at Jiang Yao in shock. "Master is so naive."

Jiang Yao could tell that the system Butler's naivety was not a compliment. However, she also knew that she was indeed naive. In the future, when science was developed and medical conditions were good, artificial organs could be made. Could it be that artificial skin could also be made?

It was not a mask, nor was it a robot. Human skin was not something that could be changed at will.

### **Chapter 766: The best outcome**

"Master, it's best that you move the patient into the system as soon as possible. This place can ensure that there are no bacteria growing here. Otherwise, with the current condition of the patient, if he were to be easily infected by any bacteria, the consequences would be unimaginable. The patient is now equivalent to a person without any resistance, and he is even more delicate than a newborn baby. Moreover, applying the medicine as soon as possible will help shorten his recovery period. This will also be of great help in building the patient's confidence in treatment."

Jiang Yao knew all this. The key was that she didn't know if she could convince Chen Feibai's parents to trust her and let her treat Chen Feibai.

After all, Chen Feibai wasn't the child of an ordinary family. They could do whatever they wanted, but Chen Feibai was a precious treasure in the Chen family.

Moreover, after Chen Feibai was brought into the medical system, the family members of the Chen family couldn't see Chen Feibai for a whole week.

"I will try my best." Jiang Yao could only say that she would give it a try. Old Master Chen believed in her medical skills, or else he would not have said that to her before he left. With Old Master Chen, this matter should not be too difficult to handle.

At the moment, the difficult thing was an excuse.

She had to find an excuse to get Chen Feibai into the system so that everyone would not look for Chen Feibai. Otherwise, Chen Feibai would be gone for no reason. Who would not look for him? Who Wouldn't find it strange?

After thinking about it, it seemed like the excuse of Holy Flag Hospital could still be used.

After transferring Chen Feibai to Holy Flag Hospital, she then transferred Chen Feibai into the system from Holy Flag Hospital. Holy Flag Hospital was her territory. If she didn't allow anyone to enter, no one would be able to find out about it.

After coming out of the medical system, Jiang Yao called Lu Xingzhi. However, the call was cut off in the next second. A few seconds later, a text message came in. Lu Xingzhi replied to her that he was in a meeting to ask her to send a text message.

After Jiang Yao read it, she smiled directly. This guy was not serious in a meeting. He could still send a text message to her without calling her. When she thought about how he was sitting in his seat with a straight face, but the hand under the table was holding his phone and sending a text message to her..., he still had to put on a serious face in a meeting. That scene, when she thought about it, was inexplicably pleasant.

"Call me after you're done." Jiang Yao replied with a text message and threw her phone aside.

She thought that Lu Xingzhi might have time to come over after the meeting, but two hours later, Lu Xingzhi called her and told her that he was going to the assessment site with the participants of the third round of assessment, it would officially start tomorrow.

In other words, he didn't have time to come over.

Jiang Yao held her phone. She couldn't hide the disappointment on her face, but Lu Xingzhi couldn't tell from her tone.

"Alright, then tell grandfather Chen that I want to take over Chen Feibai's treatment when you have the time. However, let me say this first. With Chen Feibai's condition, I can't let him recover to the state he was before he was injured. If Chen Feibai can endure all the pain during the treatment, I can guarantee that his body will not become disabled after he recovers. However, the scars on his body will still be left behind. "However, this is already the best outcome."

Jiang Yao paused for a moment. She thought that the doctor probably did not explain too much to the Chen family members. Perhaps, when Chen Feibai's condition stabilized, the hospital would suggest that Chen Feibai be transferred to a bigger hospital. Therefore, Jiang Yao explained it in more detail, "With Chen Feibai's condition, if I don't take over his treatment, even if he tries his best to participate in rehabilitation, the possibility of him falling into paralysis is still very high. Even if he doesn't become paralyzed, he won't be able to walk like a normal person."

#### **Chapter 767: What Is there to Initiate?**

Reality was cruel, but the Chen family had to know these results.

"If the Chen family doesn't believe it, they can go to the doctor and ask the Doctor directly. If the family insists on asking, the doctor will tell the family that the final situation they may face is the same as what I said," Jiang Yao said, "So, I want to take over Chen Feibai's treatment as soon as possible. However, there will be a closed treatment period of about a week in the middle that the family members are not allowed to visit. After that, Chen Feibai will need to be transferred to Holy Flag Hospital."

Lu Xingzhi didn't ask Jiang Yao how she was going to treat him. After hearing Jiang Yao's words, he directly agreed and said, "I will go and tell the old man. If the old man doesn't agree, you can go and tell Chen Feibai directly. As long as Chen Feibai agrees, it's useless even if the old man doesn't agree. The Chen family won't help with the transfer. You can contact big brother and Uncle Liang to help. Uncle Liang will arrange a helicopter to send you to Nanjiang city as soon as possible."

After a pause, Lu Xingzhi said, "It's good to go back to South River City as soon as possible. I can rest assured. After I'm done here, I'll go straight to South River City to look for you. be good and take care of yourself."

"I'll give you the same words. be good and take care of yourself. You only have five chances to resurrect. Use It slowly. Don't get eliminated later and come crying to me to complain." A meek coax made Jiang Yao laugh. She was probably in Lu Xingzhi's heart, she was really a little girl who would never grow up.

"PFFT, if I pass, how will you reward me?" Lu Xingzhi felt that his little wife had underestimated him. "If I pass, when I go to Nanjiang City, you take the initiative. How about it?"

"Take the initiative to what?" Jiang Yao asked back, not understanding.

Lu Xingzhi was silent for a few seconds. Seeing that Jiang Yao really didn't understand, he changed his words. "It's nothing. If I pass, on the day I go to Nanjiang City, you'll listen to everything I say, Okay?"

The last sentence was okay. Lu Xingzhi's tone sounded a little meaningful.

"If I agree with you with such confidence, I will be a fool!" Jiang Yao snorted. "I'm hanging up. Hurry up and call Old Master Chen. I will wait for the news."

After saying that, Jiang Yao put away the phone first. She stood there and carefully recalled Lu Xingzhi's "Okay" tone. She had a feeling that this guy was setting her up. If she had agreed just now, she would have fallen into a trap!

She had thought that the Chen family would not be easy to convince, but unexpectedly, half an hour later, grandfather Chen personally called her.

"I have already negotiated with the hospital. We will transfer the hospital overnight. Have you made the arrangements for the Holy Flag Hospital in Nanjiang City?" Once Jiang Yao picked up the phone, grandfather Chen directly said such a straightforward sentence to Jiang Yao.

"I can make the arrangements immediately with just a phone call. I'll bring my people to the hospital now." Grandpa Chen made a quick decision. Jiang Yao would be more efficient than Grandpa Chen.

After ending the phone call with Grandpa Chen, Jiang Yao immediately called the director of the Sacred Flag Hospital and asked the director to arrange the operating theater where Wu Zhong performed the surgery last time. She would arrive at the latest in two hours, to use that operating theater, she needed the director to evacuate all the unrelated people from that floor in advance. The helicopter would land directly on the roof.

Jiang Yao brought Ah Lu and Da Ke to the hospital. In the hospital, besides grandfather Chen and Chen Feibai's parents, Chen Feitang's parents were also there.

### **Chapter 768: Follow Chief Jiang**

Seeing that Jiang Yao had brought two tall bodyguards with her, Chen Feitang's father, Chen Shanjin, was in a difficult position, "In addition to Feibai, just in case, we still need to bring four accompanying doctors to take care of Feibai on the road. We also need to bring these instruments on the plane. With our people, your two bodyguards might not be able to follow us on the helicopter."

"We have to follow Chief Jiang!" Ah Lu did not take half a step back and said, "We are chief Jiang's bodyguards. We have to ensure that we follow chief Jiang at all times."

"Leave the helicopter pilot behind. Ah Lu and I will drive." Dake made a prompt decision. After saying that, seeing that someone had a doubtful expression, he added another sentence, "Don't worry. Ah Lu and I's driving skills are not inferior to any of the people in your military."

"It's decided then." Jiang Yao made the decision. Although she initially wanted Chen Feitang's parents to go to the airport and take a plane to Nanjiang city, since Ah Lu and Da Ke knew how to fly a helicopter.., leaving the pilot behind was the best choice.

Jiang Yao had heard from Lu Xingzhi that Ah Lu and Da Ke were both veterans who later went abroad and joined the mercenary group to seek a way out.

She had reason to believe that da Ke's words were very confident. She had reason to believe that Ah Lu and Da Ke's driving skills were better than the driver's.

Jiang Yao's direct decision made Chen Shanjin's expression not look too good for a few seconds. However, he was not a young teenager after all. Chen Shanjin immediately restrained his expression and turned to look at his father. He wanted to wait and see what Old Master Chen would say.

Unexpectedly, old master Chen only sized up Ah Lu and da ke up and down the mountain for a while before suddenly asking, "Which military region did you guys come from?"

Ah Lu and DA ke stood behind Jiang Yao without saying a word. Obviously, they were not prepared to answer. They did not even tell Jiang Yao and Lu Xing zhi their full names, so naturally, they were not prepared to get someone to investigate the matter of them being in the army previously.

Old Master Chen was not angry. After thinking for a few seconds, he agreed.

He trusted the bodyguards that Lu Xingzhi had personally found for Jiang Yao. With Lu Xingzhi's importance to his wife, Jiang Yao, the bodyguards that he had found would probably even know how to fire tanks and cannons. It was not surprising that it was just a helicopter.

The helicopter was on standby at all times. After the hospital had made arrangements, everyone boarded the helicopter. The helicopter took off steadily and headed in the direction of Nanjiang City. Perhaps it was because Chen Feibai had held on for too long and had been moved.., he had been in a state of coma the entire time and had never woken up.

The helicopter left Provincial Hospital A. For an ordinary boss, seeing a helicopter several times in a few days was somewhat new.

In a certain ward, a young girl was sitting in a wheelchair. As she watched the helicopter take off, her eyes were filled with envy.

A nurse was beside her, chattering about the helicopter, "That's a military helicopter. It's the one I told you about today. It's the third generation of the military in the capital. They're transferring the hospital overnight. It seems that they've contacted a particularly powerful doctor."

Seeing that the girl in the wheelchair didn't say anything, the nurse also quieted down. She had actually wanted to say just now that it was good to have power and money. A person who had been privately judged by a doctor to be permanently disabled could actually find another doctor to take care of her.

Later, the nurse also felt that it was fortunate that she did not say it out loud. She was afraid that the person who said it did not mean it, but the person who heard it meant it.

### **Chapter 769: Be careful of what you say**

The plane landed on the roof of the sacred flag hospital one and a half hours later. After getting off the plane, Jiang Yao turned around and said to Grandpa Chen, "All of you go and settle down in your own places. The doctors from province a don't have to follow you down. The sacred flag side is already prepared."

After saying that, Jiang Yao called Ah Lu and Da ke over. "Follow me and push them to the operating theater downstairs."

“Don’t you need a doctor from province a?” Chen Shan Jin called out to Jiang Yao.

“No need.” Ignoring the doubt on Chen Shan Jin’s face, Jiang Yao and Old Master Chen said, “Xing Zhi should have told you that Chen Feibai’s place is closed for a week and family members are not allowed to visit him. Old Master, during this period of time, there is actually no need for you to stay in Nanjiang City. You all have other things to do, so you can go and do what you need to do. If I have any progress here, I will contact you at any time.”

After giving her instructions, Jiang Yao signaled Ah Lu and da ke with her eyes. The two of them followed her down the stairs and pushed Chen Feibai all the way to the operating theater.

After Ah Lu and Da Ke entered the operating theater, even though they were suspicious that there were no nurses or doctors in the operating theater, they did not ask much. After Jiang Yao asked the two of them to leave, the two of them stood guard outside the operating theater, they assumed that the doctors would enter the operating theater through other channels to work.

After Ah Lu and dake left, Jiang Yao quickly transferred Chen Feibai into the system. With the help of the system butler, she first removed all the medical white gauze from Chen Feibai’s body. The system Butler then cleaned Chen Feibai’s wounds, she then quickly entered the laboratory to prepare a large amount of medicine that she needed.

On the roof, Old Master Chen waited for Jiang Yao to leave before he waved his hand and told everyone to board the plane and return to Province A.

Chen Shan Jin was stunned. “Dad, do you really trust that little girl so much?”

After he said that, he looked at Chen Shan he, who had not said a single word throughout the entire process, and asked, “Shan he, how much do you know about Lu Xing Zhi’s wife? Are you so confident that you can hand fei bai over to her?”

“In the future, be careful what you say in front of that little girl,” Old Master Chen reprimanded his eldest son, “Have you not heard of the legend of the Medical God in Jingdou? “Many people say that Lu Xingzhi’s brothers know that medical god, but in my opinion, that medical god is Jiang Yao herself! “You all know this very well. If you dare to say anything to anyone, if the Liang family turns hostile, don’t blame me, your father, for not protecting you!”

When Old Master Chen spoke, he avoided the doctors from province A. “Why else do you think the trainer of the Jin City Army is Jiang Yao? Do you really think that Lu Xingzhi and your Uncle Liang are using their power for personal gain?”

Although Old Master Chen did not directly ask Old Master Liang if Jiang Yao was the medical god, he could vaguely guess from his old friend’s attitude towards Jiang Yao. Therefore, when he appointed Jiang Yao as the trainer of the Jin City Army at that time., he had supported his old friend with all his might.

Now, it seemed that he had not supported wrongly at the beginning. This wife of Lu Xingzhi was really not simple.

“Let’s go. Send a few doctors back to province a first. All of you will return to the capital with me. Come back to Nanjiang city in a week.” As Old Master Chen spoke, he took the lead and boarded the

helicopter. However, he only remembered after he got on the helicopter, at this moment, the pilot had already left with Jiang Yao. There was no pilot in the helicopter.

### **Chapter 770: Nothing to do with us**

Therefore, Old Master Chen smiled awkwardly and quietly got off the plane. He said, "Let the pilot take the plane to Nanjiang City. A few doctors from provincial hospital will arrange for them to take the plane back to provincial A. We will stay in Nanjiang City for the night."

Jiang Yao could not immediately perform acupuncture on Chen Feibai, so for the next few days, she would first change the dressing on Chen Feibai. She would first clean all the original medicine that was applied on his body, then change the medicine that she had made. She would also need to coordinate it with the infusion.., to prevent the inflammation and infection from causing complications, and so on.

With the help of the system Butler, Jiang Yao had a much easier time with these matters. Chen Feibai still did not wake up after applying the medicine, so Jiang Yao came out of the system and left the operating theater. When she saw Ah Lu and da ke standing at the door waiting, she was stunned and asked, "Since you're all here, who's going to drive the helicopter?"

Ah Lu and da ke shook their heads in tacit understanding. "This has nothing to do with us."

Jiang Yao thought about it and agreed. After all, these two were her bodyguards, not the bodyguards of the helicopter.

After this was over, Jiang Yao brought Ah Lu and Da ke downstairs. The hospital director knew that Jiang Yao was here, so he had been waiting for news from Jiang Yao. When he saw that Jiang Yao had come out, he immediately came to look for Jiang Yao.

He was talking about the matter of Rong County's support doctors withdrawing and talking about the bonus.

"The bonus will be distributed according to what I said before. The doctors and nurses who are going to participate in the support this time are all on standby 24 hours a day. It's very tiring. After they come back, get someone to arrange everyone's leave for them. Don't tire them out," Jiang Yao said, she thought of something else and asked, "By the way, didn't you say that you were recruiting more doctors and nurses last time? How is it going?"

"The first batch of doctors have already joined. Judging from their resumes, they are all very good doctors." The director was a little happy and proud when he mentioned this matter.

Jiang Yao nodded. Just as she was about to say that it was good, she looked up and suddenly saw a very familiar person.

The person who walked out of the ward also clearly recognized Jiang Yao. However, he put his hands in his white coat and greeted the hospital director with a cold face. He turned a blind eye to Jiang Yao and left immediately.

That person was the military doctor Lin Shunhe, who had been humiliated by Jiang Yao in the Army of Jin City. Looking at the work certificate on his white coat, Jiang Yao was stunned. Obviously, Lin Shunhe

had now entered Holy Flag Hospital, he was probably the first batch of doctors who had joined the hospital according to the director.

They really didn't meet each other in life.

"How is Lin Shunhe's work situation?" Since she knew that Lin Shunhe was working in her hospital, Jiang Yao couldn't help but ask a few more questions.

"This doctor Lin came from the army. I heard that he had a bad temper and offended someone. He couldn't stay in the army anymore and quit. He was introduced by an old friend of mine. His medical skills are not bad and his work attitude is not bad. I can't find any problems with him for the time being," the director answered honestly, "I've seen his resume. It's pretty."

After saying that, the director remembered that Jiang Yao had actually mentioned Doctor Lin's name. He was surprised. "Director Jiang, do you know Doctor Lin?"

"I've seen him before, but I'm not familiar with him," Jiang Yao replied casually. In fact, she was indeed not familiar with Lin Shunhe.

According to the director, Lin Shunhe had offended someone and was forced to leave the army because he could not stay in the army anymore. Jiang Yao felt that Lu Xingzhi might have done something behind her back to force Lin Shunhe to leave the army.
