

## Chapter 808

The president and the president's wife reconciled, and in a small day, my heart became excited: I didn't expect that a person with such a mighty and incomprehensible president would have such a weakness one day. The president's wife is really amazing, no matter how to make the president angry, she can coax her back.

Fortunately, now that the rain has passed and the weather has cleared, the two of them have reconciled as before. The smiling president is coming back, and he can return to the company to work.

That's great, the president's wife is really more powerful and powerful than the president. When the president is unhappy in the future, he will turn to the president's wife, and the president's wife will treat all kinds of incurable diseases of the president.

What? I am so happy? This little innocent became more bold. When they met for the first time, he was just like a little girl. He didn't dare to say a few words to him. But Yi Yan still chose him because he was clever, and most importantly, kind and stupid.

Not only is he not so diligent now, but sometimes he dared to say a word or two to him, and then he even dared to lie to him, which really gave him ten courage. Although he knew that Xiaotian's deception was based on himself and Luo Luohao as the starting point, it was precisely for this reason that he would forgive him so simply.

No, no, no. Xiaotian quickly replied. With the help of the president's wife, Xiaotian started to make progress. "The president, I haven't been to work for two days, so the salary..."

Ever since Xiaotian knew about falling behind, he has become more able to make progress. It was the first time he lied to him, and then he wanted to get a salary when he didn't go to work. Although he is not bad for the money, this little boy really can't get used to it. If he doesn't beat him for three days, he kicks his nose on his face.

He still wants to take advantage of Yin Luo now, which is really promising.

Yi Yan replied indifferently, "You also know that you haven't been to work for two days, so do you want to try the taste of going to work for a month or two? Or maybe you want something more exciting. I can do anything that is blocked in the industry. Come out."

No, no need, Xiaotian said quickly. He believed that the president could do anything, but he also believed that the president would not bear the heart to treat him this way. But I feel that I can be frightened by speaking to the president. He is so indifferent that even Xiaotian has to worry about the president about how to coax his wife in the future.

Why are you so scary? Yin Luo felt very upset for Xiaotian when he heard Yi Yan's words. Unexpectedly, Yi Yan is still such a president, harsh subordinates, caress about everything. Besides, Xiaotian was fined to go home because of her, so what happened to him as a vacation?

Also, Xiaotian is to maintain our feelings. Should we be punished? You have to think carefully. Yin Luo had to move their feelings out, who knows whether they have feelings? Anyway, Xiaotian is in charge of this matter, and she must strive for the best for Xiaotian in all matters.

Anyway, Yi Yan's economic strength is very clear to her, she is not short of the money, so why bother Xiaotian.

Xiaotian is also doing it for himself.

Seeing that his daughter-in-law was dissatisfied, Yi Yan hurriedly changed his words, "Then...these two days will be taken as a vacation for you. This month's salary will be doubled."

Xiaotian was almost stunned. He really suspected that he had misheard, or that he was dreaming. But this feels so real, it should be true. Just now, the president was very stingy about his two-day wages. Now he has become so refreshing. Not only does he not deduct his wages, but also doubles, doubles. why is that?

This...the president... Xiaotian was a little flattered. Is this the president he knows? How could I change my mind in an instant and still double the salary. Is it because of the president's wife? So he asked cautiously, "President, excuse me, is the wife of the president by your side? Did she tell you something that made you change your mind."

You mean, I was so bad before? Yi Yan's tone was threatening.

You can't talk nonsense about this. The president is so uncertain and incomprehensible, if he says something wrong, he will die. Although he may still be supported by the president's wife, he can try not to die as much as possible. This is his principle of life. Anyway, Xiaotian confirmed it, and it must be because of the president's wife that the president was willing to change his words easily.

But when answering the president, you still have to know how to be flexible, otherwise he would have been killed by the president's eyes long ago, and it is still a spike, which can't replenish blood. Will not have the current position in the heart of the president.

The young grandma is really a good person. It's good to stand aside with the young grandmother, and drink spicy food. He can be regarded as bitter before sweet. Double wages are really sweet to death.

If this were in the past, the CEO would have to deduct his salary at every turn, sometimes although it was only verbal, but sometimes it was really deducted, and a month's salary was gone, let alone a double salary. In the past, no matter how well he did things, there were only bonuses.

However, he doesn't care so much about this little money. I have been with the CEO for many years, and the money saved on hand is not small, and I don't care about the salary of one or two months. However, it is really rare to see the president, who has been stingy, bleed without hesitation.

The president has always been very good. This time is the most suitable for flattering, but flattering is his strong point. And now the president cares so much about the president's wife, so it might be better to praise the president's wife, and because the president's wife helped him, he really wants to praise the president's wife.

Moreover, the president now has a beautiful, brilliant, brave, independent and strong, super kind, unmatched president wife. It is even better. You two have complementary advantages, and you are a perfect match. I wish you always happy and happy. , Enen Ai Ai, Consummation, and early birth of a precious son.

After listening to Xiaotian's words, Yi Yan felt that he could be improvised not to pursue him, as he was acquainted.

However, when will he and Yin Luo love each other, and when will they have a child?

This was mainly because Yin Luo was not willing for the time being. She used to take contraceptives before, and she would not let him touch it at all these days. As for the child, it seems that there will be no way in a short time.

He used to be alone, hoping to do what his mother wanted to do as much as possible, and nothing else. But after he found Yin Luo, he had more.

He wanted to marry her and be his own woman, and later he also planned to marry her as he wished. Later, he wanted her to like himself, wanted to stay with her for life, wanted a child of them, whether it was a boy or a girl, he would like it very much. He wanted to wait for him to finish his work, and then he She coaxes the children every day, raises animals, grows grass, watches the sunrise and sunset, and the setting sun...

Once a person has, the whole life will change. He is willing to change her life for her, and he will like everything about her and do his best to love her. She can love him less than he loves her, so he can protect her more.

In short, he hopes to have her for the rest of his life.

Thinking of the happy life of himself and Yin Luo Sun, Yi Yan slowly raised his lips and said, "Accept your good words."

Xiaotian thinks that it is night now. The reason why the president is so annoying at such a night and calling him to tell him the good news, it must be a good thing for the young lady.

At midnight, when the night is dark and the wind is high, the president and his wife are still husband and wife. Shouldn't they do something?

\*\*A moment is worth a lot of money, he still shouldn't be a villain and disturb the president and his wife. He is a good boy with a wink, president, no thanks.

Then President, thank you, take a good rest. Xiaotian said goodbye to the President. It is estimated that if it were not for the President's wife, the President would never want to talk to him.

In fact, it is true that Yi Yan has always been an unpleasant person, but this time for Yin Luo, in order to show that he is a kind president and treat his subordinates preferentially, he had been talking to Xiaotian for so long. Now Xiaotian is finally willing to stop talking, he seems to be all liberated, a lot easier.

good.

As soon as Yi Yan's voice fell, Yin Luo immediately stopped saying "Wait."

As a result, Yi Yan put his hand on the phone screen to end the call and stayed on the screen abruptly. Let go, Yin Luo stopped him just now, and he looked down again...Don't let go, and don't know what Yin Luo is going to do.

Anyway, you can't think of Yin Luo in the way of normal people. God knows what else she wants to do. After some thought, Yi Yan still didn't end the call, but attached the phone to his ear, and said to Xiaotian first, "Wait a minute, don't hang up."

Then he looked at Yin Luo and asked, "What's the matter?"

Yin Luo reached out to Yi Yan and asked, "Give me the phone."

What are you going to do? Yi Yan asked vigilantly, feeling that Yin Luo would do something sorry for him every minute.

I want to talk to Xiaotian, oh, hurry up. Yin Luo shook his hand and motioned to Yi Yan to quickly take out his mobile phone.

Seeing Yi Yan's reluctance, Yin Luo said directly, "If you don't want to, I just used my mobile phone to call Xiang Xiaotian. It's the same anyway. I just wanted to use your mobile phone just for convenience. That's it."

Yin Luo was about to find the phone, so Yi Yan handed the phone to Yin Luo. She was right. He might be able to control her for a while, but he couldn't control her forever. Whoever wants to call is her freedom.

And if he fights now, he can still supervise her, and she won't say much when she hangs on.

Yin Luo got the phone and said hello to Xiaotian, "Hey, Xiaotian."

Oh, it's Mrs. President, Mrs. President is good. Xiaotian also responded happily. He just didn't know why the waiting process was so long. Shouldn't it be a phone call? They should be in the same room! What happened to the president and his wife?

Well, good... Yin Luogang wanted to say something, but saw Yi Yan staring at her seriously.
