

Chapter 814

Yin Luo sat next to Yi Yan's sleep and guarded him. Xiaotian only stood guarding outside the door of the ward. The president and his wife were harmonious and peaceful inside. He didn't want to break this beauty. Please search on Baidu (web)

After a while, Xiaotian's phone rang. Without thinking about it, he hurriedly pressed the answer button, and then walked to a far corner, for fear that he might accidentally interrupt the president's rest.

What's the matter? Xiaotian asked seriously without the inattentive state of the past.

The person on the other end of the phone also replied seriously, "The murderer of the president has been found, but you still need to review the details."

Okay. Xiaotian nodded, then hung up the phone. This matter is no trivial matter. Someone must have premeditated and wanted to harm the president. But now the president is still in a coma, so this matter is still handed over to him.

Xiaotian returned to the door of the ward. He looked at the president's wife in the room and looked at the president on the bed intently, just like a crying wife caring about her husband. He wanted to go in and explain the situation to the president's wife, but he couldn't bear to disturb them.

So he decided to go first, maybe when the president woke up, he would come back.

When he walked to the corner and gave a few words to Xiao Huo, Xiao Tian left first.

Yin's.

Because the president hasn't come back since he went to the construction site, and the employees in the company heard a little gossip from everywhere and talked about it.

Some said that the president was accidentally injured on the construction site and was severely undergoing surgery. Some said that the president's husband arrived in time to become the president and they were all in peace. Others said that the president's husband Yi Chief Hero saved the United States for the sake of the president. Seriously injured.

The correct message Lin Lin received was that the president was rescued by President Yi, nothing happened. On the contrary, Mr. Yi is now lying in the hospital, not knowing what is going on.

An employee who thought he played well with Lin Lin quietly asked Lin Lin what was going on. She was a very gossip and very curious person, and couldn't hide anything in her heart.

And she is not an ordinary employee. She is the daughter of the president of Yifeng Company. Although Yifeng is a small company, her birth is much better than Lin Lin. So she expected that even if she did something extraordinary, Lin Lin would not dare to do anything to her because of her father.

Lin Lin is an assistant to the president and a celebrity next to the president, so naturally she knows more and more truthfully, so it would be better to ask her.

The daughter of Yifeng president quietly walked to Lin Lin. She shook Lin Lin's arm and asked with a smile, "Sister Lin Lin, you also accompanied the president to patrol the construction site. What happened? Why didn't she come, the president?"

Lin Lin was in her anger. Someone touched her just now, and she wanted to make a fire at that person and make her scolded bloody. But when she looked up, Lin Lin suppressed the anger in her heart, shook her head, and smiled at her.

"I'm not very clear about this. I was not with the president at the time, and I blamed me for not protecting the president properly. Now during working hours, you should stop gossiping and be careful in case the president comes back. Your salary."

You really don't know? Yifeng president daughter asked Lin Lin questioningly. She didn't believe Lin Lin didn't know, she obviously didn't want to tell herself. Fortunately, she still regarded her as a good sister, and shared any delicious and fun things with her first, but she was good, and she couldn't help her with a little question. Lin Lin clearly knew it.

Really. Lin Lin nodded helplessly. She really didn't want to say anything to Yifeng daughter in secret, but considering her identity was not good enough to offend her here.

Oh, Sister Lin Lin. Yifeng President Qianjin grabbed Lin Lin's arm and shook her coquettishly. "I know Sister Lin Lin must know it. What's the relationship between us? Don't worry, I won't disclose it. Just tell me. Well, otherwise, I'm just thinking about it all day, and I won't be able to work at ease. Moreover, my father is the president of Yifeng, so your benefits are indispensable."

Lin Lin glanced at Yifeng's daughter. She really didn't know how a person like her did a good job. She only went to the Yin family, who was strictly selected by layers of gossip every day. If she hadn't been helping her all the time, wiping her butt behind her, she would have been driven away by the president, and would she still be arrogant here?

She was right. She only knows all her thoughts all day long. Is there any day she can work with peace of mind?

I don't want to talk to Yifeng daughter anymore, she really doesn't bother to perfuse her, but she doesn't want to offend her. Lin Lin had no choice but to find an excuse, "That...no, I ate the wrong thing this morning, I have a diarrhea, and my stomach hurts. I have to go one step first, I really don't know about this. Let's go first, let's go first."

Lin Lin clutched her stomach and walked into the bathroom pretending to be very painful, and she was relieved when she saw that the daughter of the president of Yifeng didn't chase him. Who does she think she is? If it weren't for the little background of her family, would she please her all day long? Really regard myself as a treasure.

Lin Lin became more angry the more she thought about it, not only with the arrogant daughter of Yifeng, but also with Yin Luo.

Obviously, the plan was so thorough, Yin Luo should have been seriously injured if she didn't die, but what happened for her turned out to be Mr. Yi.

The more Lin Lin thought about it, the stranger she became, and the more she thought about it, the more things went wrong. Why would Yi always rush to the construction site and rescue Yin Luo? Unless he had long been informed that Yin Luo would be injured, so he rushed away. Are there any insiders among those who did the whole thing? But if there is a rape, why doesn't the rape tell them her true identity?

Why did the gangster inform Yi Yan to rescue Yin Luo at that dangerous moment? This matter must not be that simple. That person must not be to save Yin Luo, but to take this opportunity to get rid of Yi Yan.

However, there should be few people who can betray them under her husband's nose. Even if there are, things will not be so detailed. Therefore, the first thing Lin Lin thought of was her husband herself.

She believes in her husband so much. If there is any information about Yin Luo, she has to tell him the first time, hoping that he can get rid of Yin Luo for her. She had seen Yin Luo displeased a long time ago. But the husband said clearly that he would help her, but then he was making his own calculations.

Of course, she is still not sure about this matter, so she can only call to confirm it first, and believe that if this matter is really done by the husband, then he will definitely admit it. Because he is so noble, I am afraid he would not even bother to deceive her.

After thinking about it, Lin Lin walked out of the bathroom to an empty corner and called her husband.

After the husband answered the phone, Lin Lin hurriedly asked, "Sir, are you all this..."

Before Lin Lin finished speaking, her husband interrupted her and responded with a quick response "Yes."

Lin Lin was right, she was just a chess piece to him, it didn't matter if there was one more or one less. So he naturally doesn't care what she thinks, as long as he achieves his goal.

Why are you lying to me? Why don't you tell me your real plan, do you think I will betray you? Lin Lin frowned and asked. She didn't understand. She was so heartfelt to him and did so many things for him. Isn't it enough to prove her? Does he even doubt her?

There are some things you don't need to know. Knowing too much will make you sad earlier. Don't think I don't know that you want to get rid of Yin Luo. The husband said disdainfully. Women who are jealous of others are the most terrifying, they don't know it will. What a crazy move.

Lin Lin lowered her head and said guiltily, "I'm sorry, Mr. I do have my own selfishness, but I will definitely not ruin your plan. But you didn't even intend to tell me, it turns out that you have to deal with Yi Yan all the time."

So you are blaming me? Mr. jeered a little while curling up the corner of his mouth.

No, I dare not. Lin Lin shook her head quickly. She knew her husband's means and abilities, and she would never dare to show anything in front of her husband. She was afraid that her husband would not want her, then she really didn't know where to go. It seems that she has lived for her husband all her life.

If there is nothing else, just hang up first, don't expose yourself. The husband said impatiently. If it weren't for her to be useful, he would not pay attention to her at all, let alone hear her slightly dissatisfied in her tone.

He would rather give up than use anyone with a little suspicion, but a wicked smile evoked from the corner of the husband's mouth. He understood Lin Lin's thoughts about him, so he confirmed that she would always listen to him. And he needs such obedient people around him. As long as a little bit of sweetness can make her follow you desperately, woman, really stupid.

You... are you worried about me? Lin Lin plucked up the courage to ask him. At this moment, her heart was beating, as if she was about to knock out. She is very worried, very scared, very scared. I don't know how an unsmiling person like her husband, who has always been very cold, will answer and will blame her.

Whatever you think. The husband hung up after speaking lightly. Women need to coax, although he doesn't want to spend more time on these things. But it's just a sentence or two for him. Others, it's up to the woman with a big brain to think about it.

Whatever she thinks? Lin Lin looked at the screen of the mobile phone that hadn't turned off, curled up the corners of her mouth and smiled. The husband has always been indifferent, does not like the noise, does not talk about feelings, and just wants to do the company well. But this time... Is he interesting to her?

...

After two hours, Yi Yan finally woke up. He opened his heavy eyes, and at first glance he saw the petite Yin Luo, who was sitting on the side of the bed, sleeping on the hospital bed. This day, maybe because it was too boring to guard him, so I fell asleep.

Yi Yan looked at her sound asleep, her messy hair, frowning brows, and between her eyebrows, Yi Yan could see her anxiety. Is she worried about him? Did he appear in her dream?
