

Chapter 909

"But I can also guarantee that when that time comes, it will never be a time for you to be happy, because our today is your tomorrow."

"Without us standing in the way, you, the Dragon Group, the Jin Family, the Lu Family, including the rest of the families in China, will follow in our footsteps and be swallowed up by them all step by step."

"At that point, none of us will be winners, and everything we've gone to the trouble of doing is just a graft for someone else, so do you think it's worth it?"

Gu Siqian remained silent.

Just staring at him, the coldness in his eyes was receding.

Naturally, Xu Changbai would not let go of this slight change.

He continued to strike while the iron was hot, "I know what you want. You're doing all of this for profit, but it's just to get Bella Qiao's whereabouts."

"I can tell you very clearly now that Bella Qiao is not in our possession, and the reason why we would betray Rokugan, the one who helped the others move the people away, has been silenced."

"So even if you take down the Chinese Society, you still won't be able to find her, and I now have a wild guess."

Gu Si Qian said in a deep voice, "Speak!"

Xu Chang sad said, "That mysterious force is now about to annex the Chinese Society, if the Chinese Society is gone, his next target must be you, but as we all know, there are barriers between Europe and Asia, although the Dragon Corps is not as powerful as the Chinese Society, but because of the geographical location, it's not that simple for them to annex."

"And that's when the Dragon Corps becomes the hardest piece of bone standing between Asia and Europe, and they're going to have a hard time gnawing it, if not gnawing it at all, and that's when they should do what?"

In the meantime, Gu Si Qian's brows were tight.

Xu Changbei said, "Soft attack! Find your soft threat, attack it, surprise it, and when the time comes, there's no fear that you won't get caught, after all, everyone has a soft threat, and some soft threats are the kind that you'd willingly jump into if you knew it was a fire pit, like, for example, the woman you love, Bella Qiao."

Gu Si Qian shook fiercely.

The pupils tightened.

He said in a deep voice, "You mean, they have Bella Qiao?"

Xu Chang grief spread his hands, "This is just a conjecture of mine, there is no definite evidence to prove it, you can believe it, or you can take it as nonsense that I'm trying to get you to agree to a settlement for now, it's up to you how you decide."

Gu Si Qian's eyebrows sank.

He didn't say anything, as if he was thinking carefully about something, and Xu Chang sadly wasn't in a hurry, so he sat there and waited quietly.

Time passed through my fingers bit by bit.

It took a long time to hear him suddenly say, "Okay, I get it!"

I said, standing up.

Xu Chang sadly looked at him with an expectant face, "Then the peace talks..."

"Peace talks?"

Gu Si Qian raised his eyebrows and looked at him with a bit of sarcasm.

"In another life!"

As he finished his sentence, he just heard the entire house suddenly drip from an unknown angle.

Xu Chang sad and the others were shocked and were about to get up, but the chair he was sitting on suddenly stretched out an iron ring for some unknown reason, immobilizing him, along with the two men behind him, whose feet were also fastened by the iron ring that suddenly appeared out of nowhere.

It was then that he realized that he had fallen for a big trick.

Not to be outdone by anger, "Gu Si Qian, you're counting on me?"

Gu Si Qian smiled coldly, "Granted, it's called a soldier's deception!"

After saying that, his body had swept out like a swallow.

Just after their group left the teahouse.

"Boom-!"

A huge explosion sounded, and an entire teahouse was plunged into a cloud of smoke.

And by this time, Gu Siqian's group had already reached the car.

In the car, Qin Yue was already sitting there, and the reason why he didn't follow Gu Si Qian this time was because he went to prepare the explosives and organs in advance.

At this time, seeing him return safely, he said in a row, "Boss, everything was done as you said, what should we do next?"

Gu Siqian said coldly, "Soldiers will be stopped, and water will be improvised."

"Yes."

It was just before noon when they returned to the castle.

Today is an eventful autumn, the security of the castle is naturally very strict, from inside to outside, just the hidden stakes are buried no less than ten layers, all kinds of infrared ultraviolet scan detection equipment is innumerable.

The car eased into the black carved gate, and Ober saw from a distance that it was him returning, and greeted him with a smile.

"Young Master, you're finally back."

Kuskan got out of the car and asked, "How are things at home?"

Ober said, "Everything is fine, Mr. and Mrs. Land are waiting for you in the living room, saying they have business to discuss."

Gu Si Qian nodded and stepped towards the living room.

In the living room, Jenny Jing and Biden Lu sat there.

Seeing him come in, Jenny's face quirked up into a smile and he stood up, extending his hand towards him.

"Congratulations on your safe return."

This time the peace talks are said to have been started by Kuskan, as if he had counted someone else out.

But before he went, no one knew who had a plan, so he took a risk this time over.

After all, this time it was Xu Changsha who didn't think like that, and if he really had the intention to make a scene as well, then it wasn't certain who the person in trouble was today.

Gu Si Qian looked at the slender white hand in front of him and his eyes darkened, but he reached out to shake her hand.

Jenny Jing smiled slightly, sat down, and said, "There's good news and bad news, which one do you want to hear first?"

Gu Si Qian also sat down across from them, took a cup of tea from the maid, took a sip, and said, "Good news."

Jenny raised an eyebrow and smiled, "I thought you'd hear the bad first."

Gu Si Qian sneered.

"Life is short and timely, so why would I hear the bad news first when I know it's bad news?"

Jenny couldn't hold back and puffed out a laugh.

"Okay, I'll be the first to say yes."

She sat up straighter and said, "I received news an hour ago that a wave of mysterious forces are also attacking the Chinese Society, I checked, and this wave is not any of the ones we're working with this time, no matter what the other side's purpose is, in short, it's in our favor for the time being."

With his eyebrows and eyes unmoving, Gu Si Qian looked at her and asked, "Where's the bad news?"

Jenny Jing said, "The bad news is that I've discovered that this wave of forces is extremely well hidden, and it's just not something we can shake at the moment, and according to my speculation and Biden's, the other party's appetite is by no means limited to just one Chinese Club, meaning that if the Chinese Club falls, the next target should be you and me."

Chapter 910

After her words, I thought Gu Siqian would be surprised.

And yet, there was no surprise at all on his face.

Jenny was surprised.

Gu Si Qian said in a soft voice, "I already know this news."

Amidst the appalled gazes of the two, he said in a deep voice, "It was Xu Changsheng who told me this before he died, and he tried to use it to beg me for peace talks, which I refused."

Jenny Jing and Biden Lu were both silent for a moment, not knowing what to say.

Kusken looked a little colder and rubbed his weary brow.

"If you're worried, you can quit now and I won't blame you."

He understood Jenny Jing and Biden Lu's difficulties, after all, the kidnapped people had nothing to do with them now, they didn't have to risk it with him.

However, Jenny Jing and Biden Lu looked at each other, but they both shook their heads in unison.

"Gu Si Qian, you don't really think that at this point, there's still room for us to turn back, do you!"

Kusken looked up at her.

Only Jenny sighed and said, "Things have come to this, even if we go back, we won't be able to completely get rid of this matter, you also know that there is still a mysterious force watching us besides the Chinese Association, at this time, we can't retreat, the only way to resist the attack is to twist into a rope, don't you think so?"

Gu Si Qian picked up the corners of his lips and smiled faintly.

He said, "Okay, I get it."

A few more deliberations and discussions took place before each returned to their rooms.

After returning to the room, Gu Siqian sat there in silence for a long time, then dialed a phone number.

The phone rang twice and then answered, a voluptuous female voice coming from across the room.

"Hey, Skeen."

"Where's the news I want? Got it yet?"

The man across the room paused and suddenly chuckled softly.

"Well, I did get some information, but you said you call me every time just to get information, I'm just trying to give it to you and not wanting to give it to you, what a dilemma."

Gu Si Qian's eyebrows and eyes were cold and indifferent, "What do you want? Money? Say a number and I'll have someone call you right back."

Unexpectedly, the person on the other side tsked twice and sighed, "Gu Si Qian, do you really think that at this point today, I'm still short of money?"

Kuskan was silent.

The other party continued: "At first you didn't like me, countless times wanted to sweep me out of the house, I admit, at that time I was indeed short of money, but now I'm already a high and mighty young lady Nan, you think I will be short of your money? Heh. What a joke."

Gu Siqian's coldly curled lips and his smile was somewhat sarcastic.

"Young Lady Nan? Are you sure?"

Opposite one stalls.

Only to hear Gu Siqian continue sarcastically, "It seems like this identity wasn't notarized, right? How can you take something you've said in private seriously? Yusra Lin, why are you still so stupid after all this time?"

Yusra Lin's tone chilled, "What do you mean? We've even pulled the card, is that still a lie?"

Gu Si Qian sneered, "Don't you know? For a family with a heritage of thousands of years like the Southern Family, a certificate is no different than a piece of scrap paper as long as it's not made public! You don't really think that if one day Nan Mu Rong wants to sweep you away, you'll get half of the family fortune from him?"

As soon as this was said, Yusra Lin's voice changed.

"What do you mean by that? It's no use even pulling the evidence? What would it take to make that work?"

"Of course it's a wedding, to show the world that the Nan family also wants to save face, if you guys really have a wedding, everyone will know that you're the rightful Mrs. Nan, and then he naturally won't dare to treat you badly.

But in other words it's different, you've got a license, but in the end, in the rich and powerful Nan's family, the law can't restrain them from anything, and if one day he really wants to kick you out, naturally there are a hundred ways to make you disappear from this world, and no one knows you're Mrs. Nan anyway except for the people on your acre of land, right?"

Yusra Lin's face changed at once.

But soon, she regained her looks.

"No way, Mr. South is being very nice to me now, he wouldn't want me."

Gu Si Qian sneered.

"Yeah? And do you know how his ex-wife died?"

Yusra Lin's voice was tight, "How did you die?"

"He shot him dead."

The words were clearly heard across the room with a breath of cold air.

Gu Si Qian continued coldly, "If you don't want to follow in her footsteps, remember to be smart and help me find out what I want, and I will naturally be able to help you get what you want, otherwise... how I sent you there in the first place, I will naturally be able to get you back how I want you, and then you will really be theThere's nothing left in the bamboo basket."

The man's obviously threatening tone made Yusra Lin's voice tremble a little.

She gritted her teeth and said, "Gu Si Qianren, do you have a heart or not?How could you do this to me?Do you know that I..."

But having said that, she didn't say anything more.

Gu Siqian's face remained unruffled, not even the slightest hint of emotion.

It took half a moment before I heard the other side take a deep breath, seemingly barely able to keep the excitement down.

She said quietly, "There is a bit of information, the address you told me about before, the last time I eavesdropped on him speaking to a few of his subordinates, it seems like he sent someone to that place, but I'm not very clear on the specifics, you'll have to look into those on your own."

Gu Si Qian's eyes were cold.

Just those few words had already created huge waves in his heart.

He said quietly, "Where's the information on those guys?What's the name, tell me."

There was a pause across the room, and it took a moment for Luna Lin to whisper a few names.

After saying that, he also gave a whispered explanation, "Gu Si Qian, I am risking my life to help you, and you must also help me get what I want, otherwise..."

Gu Si Qian sneered, "Or else what?"

No words were spoken across the street.

In the end, however, he didn't bother to talk to her any further, only saying quietly, "Don't worry, you'll get what you want."

When you finished, you just hung up the phone.

After hanging up the phone, he called Qin Yue over again.

"Come to the study at once."

Soon, Qin Yue came over and walked up to him and respectfully said, "Boss, you called me."

Gu Si Qian wrote down a few names on a piece of paper, handed it to him, and said, "Go check on these people, and tell me immediately when you find out their whereabouts."

Qin Yue was stunned and took the piece of paper to look at it, only to see that it was a few strange names that he had never seen before.

Chapter 911

Although he didn't know what Gu Siqian asked him to check this for, but in the end, he nodded obediently, said yes, and then turned around and went out.

Under Qin Yue's hand, there was a team dedicated to spying on information.

So, once the task was handed over, it didn't take long to find out what was going on.

It was just dinner time, and Gu Siqian, Biden Lu and Jenny were sitting in the dining room eating.

Qin Yue quickly walked in from outside and saw all three of them there, stunned for a moment, seemingly at once unsure if he should say something or not.

Gu Si Qian knew why he had come, and didn't shy away from it, directly commanding, "Go ahead."

It was only then that Qin Yue said, "There's already news about the matter you entrusted to me today at noon."

I said, taking a file out and handing it to him with both hands.

"Those men were from the Nan Clan, and it was found that they did appear in the town where Miss Qiao last disappeared, but we couldn't find out their movements later, as if someone had helped them hide it on purpose."

Gu Si Qian's eyebrows were dark, and he nodded at the minutes of information.

He waved his hand and said, "Go down."

Only then did Qin Yue turn to leave.

After he left, Gu Si Qian threw those documents directly in front of Jenny and Biden Lu and said, "I suspect that this matter is related to the Nan Clan."

They were both in shock.

The Nan Clan, they had naturally heard of it before.

It was a family that had been around for thousands of years according to the history of today, and was even larger and deeper than the Zijin family.

If the only family in this world where people couldn't figure out how deep its power was, it was this one Nan Clan.

Thinking of this, Jenny Jing suddenly thought of the mysterious force that had inexplicably attacked the Chinese Society.

She frowned slightly and said, "Could it be that the mysterious force mentioned earlier is..."

"Quite possibly."

Biden Lu said in a deep voice, "After all, there are only so many underground forces in the world, statistically speaking, and eliminating all the impossible ones, the one remaining, no matter how unbelievable, is still the correct answer."

As soon as he said that, everyone at the table quieted down.

The mood is all a little heavy.

It had to be said that if it was this Nan's family, a few people weren't really sure they would be able to gnaw down this hard bone at the moment.

After all, the other side had been developing not for hundreds and hundreds of years, but for a whole thousand years.

And, until now, they have not been able to figure out what the other side is involved in this struggle for.

Jenny Jing frowned and said, "It's only logical that they shouldn't, they've been developing for so many years, if they were really that interested in our few territories, they should have done it a long time ago, why would they wait until today?"

"And I always had the feeling that this shot was not like their style."

After all, the Nan Clan, despite its deep roots, had always been very low-key, so low-key that its presence was sometimes undetectable.

Why would such a low-profile family come into this mess at a time like this.

Gu Si Qian said in a deep voice, "No matter why, as long as Joe is in their hands, I'm going to meet this side."

They both froze, looking up at him with frowns.

Jenny said, "You're going to find them?How so?You want someone directly?They're stupid to give it to you."

Gu Si Qian sneered.

"I have my own way of doing things."

When he said that, Jenny Jing and Biden Lu couldn't say anything else.

So, several people began to eat their meals in silence.

After dinner, we went to our respective rooms to rest.

Jenny didn't want to return to her room so quickly, so she let Biden Lu walk with her in the backyard.

It happened to be at this time that Ann called her over on her video call, and she sat under a trellis in the garden, cooling off while she was on a video call with Ann.

The two kids were babbling over there that they missed her and told her to go back.

Jenny smiled and reassured them for a while, and Biden Lu sat back and leaned in, wrapping his arms around her waist, jealous, "Why didn't they say they missed me?"

Jenny smiled, "Ask them yourself."

Biden Lu lightly snorted, high and cold as President Lu, naturally will not go to ask such sour questions, so silently sat to the side.

After Jenny spoke to the kids on the phone for a while and calmed the two little ones down, that's when the video cut off.

Turning around, he saw Biden Lu sitting there with a depressed face, smiling and leaning over.

"Geez, how grown-up and still jealous of that."

Biden Lu looked up at her and suddenly reached out, fishing her into his arms.

He hugged her, tickled her, and said, "Who's jealous?Who's jealous?"

Jenny was giggling so hard that she couldn't breathe and kept laughing, "I was wrong I was wrong."

Only then did Biden Lu stop.

Hugging her, feigning anger, he asked, "What's wrong?"

Jenny held back a laugh and said, "Shouldn't laugh at you."

Biden Lu snorted softly, "That's more like it."

After the two of them had been messing around for a while, Jenny sat up panting and said, "To get down to business, what do you think of that news Gu Siqian got today?"

Lu Jing said with a deep face, "If it's really the Nan Clan that's involved, maybe this matter will be more complicated than we think, which may not be entirely for territory and profit, there should be something else."

Jenny nodded, "I feel the same, you said the Nan Clan has been developing for so many years, what kind of good things have you never seen? No matter what, it's impossible to make such a big move for the sake of profit, after all, their style has always been to keep a low profile and be steady, but this time, they suddenly made such a big commotion, it doesn't feel right no matter how you think about it."

Biden Lu didn't know what came to mind, and suddenly asked, "Do you know who the patriarch of this Nan Clan is?"

Jenny Jing was stunned and said, "Wasn't it someone named Nangong Yu?"

Biden Lu shook his head.

Jenny raised his eyebrows in surprise at the sight.

"What do you mean? Are there other people within the Nan Clan who are also clan leaders?"

Biden Lu shook his head and said in a deep voice, "No, there is only one clan head, but although Nangong Yu is the current clan head, I always feel that the true helmsman within the Nan Clan is not him."

Jenny frowned, "Why do you feel this way?"

"I don't know."

Biden Lu paused for a moment and said, "An intuition, I guess! I was fortunate enough to have met with this Nan Gong Yu once before, and I always felt that... with his abilities, he shouldn't be able to develop the Nan Clan steadily to this point, and he's a great person, and it's not the style of doing things that the Nan Clan has always done."

Jenny Jing laughed, "No, isn't it a sign of good fortune that they're going out of their way to deal with the Chinese Society now?"
