

Chapter 981: Good Development

It was a win-win for the company and Xia Xibei.

Although people didn't know that Xia Xibei was also a shareholder of the company, she was the spokesperson of Hongyan Youth!

Her popularity had skyrocketed since this incident.

Now, after people bought Hongyan Youth and learned about its effects, they quickly became loyal fans of the brand.

It was a bit expensive, but it worked!

For those who spent money elsewhere but had no results, Hongyan Youth was a good value for their money!

Many people had previously ridiculed Xia Xibei for being black-listed by the beauty industry. Now, she'd just given them a slap in the face!

It was too good!

Xia Xibei's fans were very excited these days.

She was their Sister Bei! She was awesome!

"By the way, a friend asked me earlier if I wanted to open up counters abroad," Huo Zijun said.

"Abroad?"

"Yes!" Huo Zijun nodded. "Our Hongyan Youth is not only famous at home, but also abroad! A friend of mine abroad even asked me if I could open the company over there, since she wants to buy it too."

Huo Zijun's smile was very bright.

"She wants to buy Hongyan Youth abroad, and she has to find someone to buy it for her, which is not easy."

Generally, the people of Hua looked for friends in a foreign country to buy international products for them. The reverse was rare.

Although he could send her a set, in a few months, it would be used up. Would he have to send her another set?

"They were just ordinary friends, there was no need to struggle like this.

Besides, if other people wanted to buy the products, Huo Zijun couldn't manage to get that many sets for everyone.

"I think we can go abroad." Liu Manhong nodded. "But... We have to wait a little first."

They could expand immediately, but it was easy to have problems with a rushed expansion.

Although they were confident in Hongyan Youth, who could guarantee that there would not be problems later on?

That was why it was better to grow in a steady way.

Xia Xibei nodded, "There is no rush. Let's open counters in other cities in Hua first."

As they all said so, Huo Zijun slowly calmed down.

"Okay, then. We won't rush."

After the three of them talked about the company, Xia Xibei and Liu Manhong left.

The company was now in Huo Zijun's hands, and Xia Xibei and Liu Manhong had their own work.

The work was divided between them and they were happy to work together.

When they left, Huo Zijun came out of his office and walked to the main office, his smile deepening as he watched the employees working enthusiastically.

Their factory was elsewhere, and they were now expanding their production line.

Hongyan Youth sales had skyrocketed and the previous production line was about to be untenable.

So, for the time being, they could not go abroad.

Back in the office, Huo Zijun was in a great mood.

He had worked so hard for so many years, and it was the first time he had such a great sense of accomplishment.

He was a member of the Huo family. However, he was not the heir of the Huo family and could only make it on his own.

If it developed well now, it would definitely be even better afterward.

He looked at the numbers on the computer and showed a big smile.

Just when he was happy, the phone rang.

Looking at the name on it, his smile disappeared.

He waited for the phone to ring for a while before he picked it up.

"Hello."

"I'm your eldest uncle. Come home, I have something to tell you."

An authoritative voice came from the other end.

"Alright..."

Huo Zijun's expression was not very good, but he still agreed.

To his surprise, after going back, he encountered something that left him angry and speechless!

Chapter 982: Transferring the Company

"Let Huo Zifeng run the company?"

Huo Zijun looked at the two people in front of him with disbelief and anger.

Huo Zijun originally thought that there was something important going on at home, which was why he had to come back.

As soon as he came back, however, he heard such ridiculous words!

Let Huo Zifeng take over the Hongyan Company?

How ridiculous!

Huo Zijun's anger and shock also displeased the other party.

Aman in his fifties slapped the table, "This is the family's decision!"

The implication was that Huo Zijun could not fight the decision.

Huo Zijun looked at them incredulously, "Who made this decision? Grandpa? Or yourselves?"

"Of course it is Grandpa's decision!" a man around thirty years old, who resembled Huo Zijun in some ways, said with a frown. "This is grandpa's decision, and also everyone's decision after our discussion. Don't worry, I won't treat you badly."

Wouldn't treat him badly?

Huo Zijun felt even more incredulous.

They called him back to take over the company and then said they would not treat him badly.

Where did they get the nerve to do that?

He hadn't been in the imperial capital for so long, and only now did he realize that they had become so brazen!

"I want to see grandpa!" He took a few deep breaths and suppressed the rage in his heart. "I want to talk to grandpa!"

Huo Zifeng frowned at him, "It's not like you don't know that grandpa is not feeling well! This is a small matter, there is no need to alarm him!"

The Huo family was a medical family and had produced many doctors, for both Chinese and Western medicine.

However, over the years, Chinese medicine has declined, and people paid more attention to Western medicine.

Still, no matter what kind of doctor someone was, they could not cure all diseases.

The Huo family's patriarch was more than 80 years old this year, and he was gradually declining. The family generally did not alarm him about minor events, so as not to disturb him.

His health wasn't great, and no amount of medicine could help him recover.

So, the family's affairs were slowly handed over to the next generation.

The Huo family had three sons.

Huo Zijun was the son of Huo Zhen, the third son. Huo Zifeng's father, Huo Zhan, was the oldest son and would eventually be the head of the family. The second oldest son had twin daughters and had moved abroad.

Although the patriarch was still around and was consulted on many things, everyone knew that the Huo family would belong to Huo Zifeng and his father, Huo Zhan, in the future.

However, Huo Zhan and Huo Zifeng were not very good-natured people. On the contrary, they were very domineering.

Therefore, Huo Zijun did not want to stay at home and suffer from their attitude. He chose to go to G city to take care of the branch company and stay away from them.

He just didn't expect that the company would be snatched away by them when he was doing his own thing peacefully!

Huo Zhan looked at Huo Zijun and said in a soft voice, "We all know how hard you work, so we won't treat you badly. We will still give you five percent of the shares."

Five percent of the shares?

Huo Zijun almost laughed out loud.

He had thirty percent of the shares, and now they were giving him five percent, like some favor. They looked smug about it too. How dare they?!

Huo Zifeng nodded his head, "Hongyan is developing quite well. If you want to continue to grow, there will be a shortage of funds. We will take care of it from our side."

Huo Zijun quirked the corner of his mouth.

Sorry, there was no such thing as a shortage of funds for Hongyan.

Unlike other companies, the Hongyan company didn't invest much in R&D because Xia Xibei was handling that.

What their research lab mainly did was test the safety of the remedies she came up with..

Chapter 983: Nothing to Do With You

If companies wanted to develop a good product, there was no telling how many trials they had to do.

Therefore, a lot of investment in this area was always needed.

'Why were some brands so expensive?

In addition to the brand value, the price helped to recover the cost of research.

Without sufficient R&D costs, who could create a good product?

After people experienced the unbelievable effect of Hongyan Youth, they stopped laughing at its pricing, thinking that it was justified.

'The company must have invested a lot of money in research and development to sell it at such a high price!

However, it was worth it!

'This was the reason why the Hongyan company was able to make a quick profit.

Research and development was the biggest cost component of a product, and the company naturally made so much money with very little investment in this area.

Still, no one else knew this. After all, they didn't go around bragging about their no-cost R&D.

To Huo Zifeng and Huo Zhan, the company could not have earned too much if they invested a lot of money in research and development. To grow, they would have to invest more, and there might be a shortage of funds.

However, Hongyan Youth was doing very well, and as long as they maintained the momentum, it would definitely make money back afterward.

It was a golden goose!

'That was why they called Huo Zijun back and tried to get him to hand over the company.

"No need, I'll handle it myself," Huo Zijun said with a fake smile.

"Zijun." Huo Zhan looked at him with an imposing expression. "This is the family's decision! Whether you want to or not, you can't change it!"

Huo Zifeng also joined the argument, “Moreover, this is a family property, so naturally it should be left to the family to handle.”

Huo Zijun almost laughed out loud, “Who told you that this is the family’s property?”

“Does it still need to be said?” Huo Zifeng asked unhappily. “It must be a company that grandpa helped you set up.”

Otherwise, how did Huo Zijun have the ability to set up such a company and make so much money? One with such a profitable future at that?

Huo Zijun finally understood why they would ask him to hand over the company right away. They thought it was a property given to him by grandpa!

In the opinion of the arrogant and domineering father and son, what was the family’s was theirs. No wonder they were so righteous!

Huo Zijun took a deep breath, “I’m sorry, but this company has nothing to do with grandpa at all!”

Huo Zhan and Huo Zifeng, the father and son, immediately stared at each other with wide eyes.

“Impossible!”

“Why is that impossible?” Huo Zijun laughed. “What proof do you have that this is a company grandpa gave me? And...” He glanced at them sarcastically. “If the Huo family had such a company, why didn’t grandpa give it to you guys?”

This caused both of their faces to turn bitter.

‘Was he being sarcastic?’

“If you guys want to know about the company, you can go to grandpa and ask for clarification.” Huo Zijun looked at them and sneered, “But I guarantee that this company has nothing to do with you!”

‘The two men finally paled.’

“Wanton!”

Huo Zijun almost laughed out loud.

Wanton?! Did they think they were the emperor, shouting “wanton” all-day long?!

Huo Zijun mocked them in his heart, then looked at them.

“Sorry, I have things to do at the company, I have to go back.”

After saying that, without waiting for the two people’s reaction, he turned around and walked away.

The father and son looked at each other, and couldn’t help but frown.

‘The company was not owned by the Huo family?’

It couldn’t be!

Huo Zijun had thought that after they asked about the company, things would pass, but unexpectedly, that night, he received another phone call.

This time, it was his father calling.

“Hurry up and give the company to your brother!”

Chapter 984: Hindered by Father

His father’s words made Huo Zijun bite his lips and take a deep breath, suppressing his anger before he spoke.

“This is my own company, it has nothing to do with the family! No one is qualified to make me give the company away!”

“Nonsense!” Huo Zhen was furious. “Who taught you to talk to your elders like that?!”

Huo Zijun was so angry that his eyes turned red, “Elders? Are you sure you’re my father? I thought you were Huo Zifeng’s father!”

From his childhood to adulthood, anything good ended up in Huo Zifeng’s hands.

The Huo Zhan and Huo Zifeng father and son duo were both bullish and domineering.

Huo Zhen was a wimp who simply did not dare to rebel against Huo Zhan, his older brother.

Worse, he also pressured Huo Zijun to concede!

‘What was even more ridiculous was that he acted with prestige in front of Huo Zijun!

He had experienced so much growing up that he didn’t respect his father at all. It couldn’t be helped, as Huo Zhen had let him down too much.

‘There were four children in Huo Zijun’s generation, two sons and two daughters.

‘The two girls were already married, and he and Huo Zifeng were the only boys.

In fact, Huo Zijun had good strength. If anything, he was much stronger than Huo Zifeng.

However, he couldn’t help having parents who were dragging him down!

Every time he showed that he wanted to fight for what was his, his parents started to panic and immediately pulled him back, telling him not to fight with his brother.

Even in front of his grandfather, he couldn’t act better than Huo Zifeng, or he would get a good beating.

By the time he could resist, the situation was bad enough.

So, after he graduated, he simply did not want to stay in the imperial capital, and he ran off to the far away G City.

Out of sight, out of mind.

Usually, his parents didn't even care to call him, but today, for the sake of the company, they actually called!

How rare!

Huo Zijun was tempted to ask if he was their real son or not.

Was there such an odd parent in this world?

Huo Zhen's reaction managed to show Huo Zijun the amazingness of the world.

"What are you talking about!" Huo Zhen was furious, "If I'm not your father, who is your father?"

"Hah!"

Huo Zijun's answer was one word.

Huo Zhen was angry again, but remembering the reason for his call today, he held back his anger and said, "We are a family after all, and your big brother is much more capable than you. He can manage the company and you can relax a little."

These words made Huo Zijun laugh.

See, this was his father!

To Huo Zhen, Huo Zhan and Huo Zifeng were the best people in the Huo family. Everyone else was scum!

Well, Huo Zhen could think however he liked. He didn't want to change his father's deeply-ingrained beliefs.

As long as he didn't nag him, it didn't matter, but things were not as they should be.

"No, I can handle it myself," Huo Zijun barked.

"You!"

Huo Zhen was angry. How could this kid say no?

"You can come back after you give the company to your elder brother.

Your elder uncle has said that he can give the Changya Company for you to manage. A big company in exchange for a small company... This is a bargain for you!"

Huo Zijun no longer had the energy to be angry.

The Changya Company was losing money and on the verge of collapse.

What a deal!

“No need to do me a favor, I like to work hard. Well, it’s late. I’m going to bed. Good night.”

Without waiting for the other side to speak, he hung up the phone..

Chapter 985: Cutting Off Supply

After hanging up the phone, Huo Zijun took a deep breath and closed his eyes in a stoic manner.

‘When he opened his eyes again, his eyes had regained their clarity and his expression was firm.

In the previous twenty years, he had been too weak and was held back by his parents.

Now, there was no way he could continue to let this happen again.

This was his own thing, and it had nothing to do with the Huo family!

They couldn’t possibly snatch the company away from his hands!

Of course, they couldn’t take it away, because he only had thirty percent of the shares. The one who had the lion’s share was Xia Xibei, with fifty-one percent of the shares, and she was exerting absolute control.

In other words, the company was Xia Xibei’s. He was just a worker.

‘The most important thing was that Hongyan Youth had such a boom because of Xia Xibei.

Without the formulas provided by Xia Xibei, Hongyan Youth would not have been able to have such great success.

The prescription belonged to Xia Xibei, Even if the company was snatched over, it was useless!

So, it was just the Huo family’s wishful thinking!

Thinking of this, Huo Zijun turned up the corners of his mouth, feeling sarcastic.

However, he also knew that the other side would definitely not give up so easily.

He just couldn’t imagine that things would come to head so quickly!

The next day, he received news that the Huo family had cut off the herbs they were supplied with!

Hongyan Youth’s main focus was on pure, plant-derived formulas with no chemicals added, so the quality of the herbs was important.

Before this, the company bought all the ingredients from the Huo family.

Huo Zijun previously had a herbal company that was a subsidiary of the Huo family herbal company. Huo Zijun bought the herbs from the family's herb company at market price.

It was a win-win situation for both sides.

Now, Huo Zhan had cut off the supply to the subsidiary company.

The subsidiary company had no source of goods, so naturally it could not continue to supply Hongyan Youth.

Huo Zijun knew that this was the Huo family's way of controlling him.

They didn't believe what he said, so they used this method to bully him.

Luckily, Huo Zijun was not a fool. Although he did not expect his family to go so far, he was prepared for this scenario.

In the past few years, while staying in G City, he had built up his own network.

Due to his work, he had met a lot of his industry peers.

Previously, he wanted to make money for his own family, which was why he chose the subsidiary company.

Now that the Huo family had canceled the supply, he had other channels to choose from.

After contacting other supply channels, Huo Zijun breathed a sigh of relief, but his heart got even colder.

The entire Huo family, except for grandpa, was not worth his time anymore.

If grandpa was healthy, he could still ask him for help.

With grandpa's presence, they wouldn't dare to act in such a way.

However, grandpa was not in good health now, and he was afraid that these things would disturb his health.

He just hoped that Huo Zhan and the others would not go too far.

In the evening, his father called again. He was all about persuading Huo Zijun to be compliant and hand over the company.

Of course, Huo Zijun still refused.

Huo Zhen was so angry that he said, "You'd better behave yourself!"

The next day, Huo Zijun received calls from some herbal suppliers.

When he heard their words, Huo Zijun's face suddenly sank.

After hanging up the phone, he called more suppliers.

Unexpectedly, even after several calls, although the other side was polite, their attitude was the same!

They refused to supply Huo Zijian!

Now the matter could no longer be hidden, and Xia Xibei and Liu Manhong both found out about it..

Chapter 986: I Don't Blame You

"I'm sorry."

Huo Zijun stood in front of the two, bent deeply, and bowed in apology.

"There's nothing to be sorry for."

Xia Xibei, who understood the situation, waved her hand and did not blame him for this matter.

She had heard Qiao Yanjue mention Huo Zijun's family before, so she understood that Huo Zijun had a hard time growing up in such a strange family.

This time, it was not Huo Zijun's fault.

She guessed that money really motivated people.

If Hongyan Youth wasn't so amazing and worth so much, it wouldn't attract such jackals.

Xia Xibei had thought before that someone would definitely want to make a move on the company, but she hadn't expected that it would come so quickly, and from Huo Zijun's family!

Huo Zijun still looked apologetic, "They are my family after all..."

"Then do you want to hand over the company to them?"

"Of course not!" Huo Zijun blurted out.

"That's fine, then." Xia Xibei looked at him. "It's not like you're in cahoots with them. Family... Well."

She had a lot of feelings about this kind of thing.

'Whether it was the former Xia Shahai, or the current Xia Jun, they were not good fathers to her.

When faced with such fathers, except for the time when she was still naive in her first life, when she still treated them as family, by now she could easily treat them as strangers.

Xia Jun was furious because she was so indifferent.

Before, Xia Jun gave the position to Xia Qingxun because he had lost a large amount of money.

Due to the large amount of money provided by Xia Xibei, Xia Qingxun grew the company very well.

Seeing that the company was back to normal, Xia Jun was anxious again.

Unfortunately, the company was now tightly controlled by Xia Qingxun and there was nothing Xia Jun could do about it.

‘This made Xia Jun scold Xia Qingxun at home for being ungrateful.

Before this, Xia Qingxun might have been convinced. However, after so many things had happened, he woke up and knew that he could not continue to indulge his father.

Otherwise, who knew who else Xia Jun wanted to sell?

Not everyone was qualified to be a parent. It was not like you needed to take a test to be a parent, so anyone could be a parent. In the end, it was the children who got screwed, wasn’t it?

Huo Zijun was also one of those offspring who suffered.

He had been held back by his parents since he was a child, without any resistance.

If his parents had rebelled against these injustices, it wouldn’t have developed into this now.

Huo Zhan and his son dared to be so brazen because they thought Huo Zijun would definitely succumb.

It was not Huo Zijun’s fault, it was his parents’ fault!

“Beibei is right, no need to make it your fault. Let’s think about how to solve this matter,” Liu Manhong nodded her head.

Although Liu Manhong had never been a mother, that didn’t mean she didn’t know how parents should act.

Huo Zijun was a classic example of being hurt by his parents; he was a victim, not a victimizer.

Seeing how the two women didn’t mind at all, Huo Zijun’s eyes were misty and his heart was warm.

He originally thought that the two would blame him, but unexpectedly, they were so forgiving!

This was really too ironic!

His own family forced him into this position, while people who were not related to him were so gentle and forgiving of him!

‘The two of them pretended not to see his wet eyes as Xia Xibei’s fingers tapped on the table, “Are you saying that those herb suppliers have refused to supply us?”

“Yes.”

Speaking of business, Huo Zijun bowed his head and wiped away his tears, then explained, “Those big herb suppliers have all refused.”

Speaking of which, he was curious, “When did this father-son duo become so capable?”

Chapter 987: Don’t Mind Destroying It

Huo Zijun also wondered when Huo Zhan and Huo Zifeng, father and son, became so capable that they could make so many suppliers refuse to cooperate with Hongyan?

Although they were very domineering, they were not too strong when it came to their abilities.

Huo Zijun would have been the heir to the Huo family if it weren't for Huo Zhen dragging him down.

Huo Zijun was really confused about how, with their strength, Huo Zhan and his son could have so much power.

Xia Xibei looked down slightly, fingers flicking on the table, her expression a bit gloomy.

"No matter who they work with, we have to think of other ways if we want to continue."

Huo Zijun nodded, "In fact, if my grandfather was well, they wouldn't be so reckless."

Huo Zijun was a bit helpless.

If grandpa was still healthy, he could tell them that this company had nothing to do with the Huo family.

Moreover, they wouldn't dare to continue to act recklessly.

It was just a pity that grandpa's health was not good.

Xia Xibei looked up at Huo Zijun, then lowered her head.

"The problem now is that we have to find a supplier of goods first."

Although the company still had some inventory and could sustain for a while, without enough supplies to make up for it, they would easily have problems later on.

However, those companies were refusing to cooperate with Hongyan. The supply was a big problem.

The three of them were still discussing the solution when Huo Zijun's phone rang again.

'When they saw Huo Zijun's face, Xia Xibei and Liu Manhong understood.

"Is that them calling?"

"Yes," Huo Zijun nodded his head, his expression hard.

"Answer it, and see what they have to say."

Huo Zijun gritted his teeth, picked up the phone, and put it on the speaker.

A young, smug voice came from the other side.

"Huo Zijun, you'd better be good and hand over the company to us. Don't worry, we won't treat you badly!"

"If [hand over the company to you, what can you give me?" Huo Zijun asked through clenched teeth.

“Give you what?” Huo Zifeng froze for a moment before continuing, “Didn’t we say before that we would give you five percent of the shares. That’s enough, right?”

Now, Xia Xibei and Liu Manhong both laughed.

If they felt five percent of the shares was enough, that meant that Hongyan represented more interests.

In this case, who would be willing to give the company away? It was not like they were fools!

Obviously, Huo Zifeng didn’t take this matter seriously.

In their view, it was good enough to give Huo Zijun this many shares.

They originally did not want to give shares at all, at most sending him off with a few million.

However, if they didn’t, Huo Zijun would definitely not agree.

So, they offered him the shares with great reluctance.

“What if I don’t give you the company?” Huo Zijun asked.

“No?” Huo Zifeng didn’t get angry, smiling instead. “There should be no company willing to work with you now, right?”

Large domestic suppliers of medicinal herbs were afraid to cooperate with Hongyan, so how could the company develop?

Listening to his smug voice, Huo Zijun took deep breath after deep breath, so as to not break into a cursing fit.

“Does grandpa know you’re doing this?”

“Why should grandpa know? Besides, even if grandpa knew, what would change?” Huo Zifeng was smug. “Anyway, if you know what’s good for you, then do as we say, or else I can’t guarantee that I’ll be able to give you this much afterwards!”

He finally threatened, “If you don’t want to... Hongyan is just a small company, we don’t mind destroying it!”

Such a blunt and clear threat made Huo Zijun gnash his teeth in hatred..

Chapter 988: Dementia

After Huo Zifeng made his threats, he hung up the phone.

“Damn it!”

Huo Zijun broke into curses, so angry that he almost threw the phone.

He looked up at Xia Xibei and Liu Manhong with an apologetic face, "I'm sorry, it's all because of me! I dragged the company down!"

Liu Manhong was also annoyed, "What kind of person is that?! How can he say those things?!"

Although Hongyan's development was much smoother than other companies, they had worked hard!

Of course, it was Huo Zijun who put in the most effort.

Xia Xibei provided the formulas, while Huo Zijun was responsible for the operation and production, and Liu Manhong dealt with the sales.

In this production chain, Huo Zijun was the one who had paid the most.

Moreover, this was the first business that was his own, so his feelings were different.

Liu Manhong and Xia Xibei both had other businesses and put in a lot less effort in comparison, so they were not as excited as Huo Zijun.

"If he was in front of me now, I'd kill him!"

Liu Manhong slapped hard on the table, looking fierce.

Xia Xibei did not say anything. She thought for a while before looking at Huo Zijun, "What kind of condition does your grandfather suffer from?"

Huo Zijun smiled bitterly, "Alzheimer's, also known as senile dementia."

This kind of elderly disease could not be cured, even by the Huo family. They could only alleviate the symptoms a little.

The family patriarch was now "senile and confused," and many business matters had been handed off.

The business he gave up was snatched by Huo Zhan and his son, who now led the Huo family.

"Alzheimers..." Xia Xibei was silent for a while. "If your grandfather was healthy, your eldest uncle and cousin would not be able to make trouble, right?"

"Of course not!" Huo Zijun immediately nodded. "In fact, my grandfather is very powerful. If he hadn't had health problems in the past few years, the Huo family wouldn't have been..."

"In fact, in the beginning, he advised me that if I was willing, he could train me to be the heir."

speaking of this matter, Huo Zijun was full of regret.

"At that time, Huo Zhan and Huo Zifeng were particularly domineering, and coupled with my parents' tears, I refused the offer."

In fact, the old man had a particularly good eye for people.

He knew that Huo Zijun was even stronger than Huo Zifeng and Huo Zhan.

However, Huo Zijun had a problem- he was too soft-hearted!

To hold up a large family, one could not be soft-hearted at all.

Meanwhile, Huo Zijun, once his parents cried to him, had backed off. He could not lead a family.

The old man, after his disappointment, could only train Huo Zifeng. At least he was enterprising!

Huo Zijun also felt ashamed, so he ran to G City.

After coming here for a few years, his parents' influence on him slowly faded.

He wanted to start his own business, so when Xia Xibei offered to cooperate, he quickly agreed to do so.

He just didn't expect that something like this would happen now.

If he had been tougher and held up against the pressure to turn down the baton from his grandfather, he wouldn't be in such a difficult position now.

Listening to his explanation, Xia Xibei and Liu Manhong looked at each other.

"In other words, if your grandfather was well, he could control them?" Xia Xibei asked.

"Yes!" Huo Zijun nodded. "Grandpa is very powerful!"

If not for the old man's health problems, could Huo Zhan and his son be so arrogant?

"Good." Xia Xibei tapped the table, "I'll go check on your grandfather!"

Huo Zijun first froze, then stared.

"What?!"

Chapter 989: I'll Try

Huo Zijun was stunned!

What did Xia Xibei just say?

She- She was going to go treat grandpa?

"You..."

Xia Xibei nodded, "I'll go and see how your grandfather is doing."

The corner of Huo Zijun's mouth twitched. "You... Did you really say that?"

"Of course." Xia Xibei looked at him, "I am also very busy, okay?"

She just accepted a new show and would have to join the cast in a few days. How would she have time to joke with him?

If she didn't want to settle this matter so that she could enter the cast without worrying, she wouldn't have thought of treating Huo Zijun's grandfather.

Alzheimer's was a tricky disease, something current medical skills could not solve.

However, the medical knowledge she had learned was different from what was in this world, so she would give it a try.

Huo Zijun was still flabbergasted.

"You... You can heal him?"

Even the Huo family, where many people were doctors and who knew many powerful doctors, did not dare to guarantee that they could treat it.

Otherwise, the patriarch would not be like this now.

"It should be possible," Xia Xibei shrugged. "I won't know until I can go over there and see him."

Even Liu Manhong was stunned.

This was Alzheimer's disease, and Xia Xibei could treat it?

However, after her initial surprise, she quickly calmed down.

These days, Xia Xibei went to the beauty clubs less often, but word of her medical skills had spread.

Her medical skills were so good that guests were bringing their loved ones over for medical attention.

A previous customer could not conceive a child. She had seen a variety of doctors and taken a lot of medicines, but there was no effect.

She became a guest of the club when it first opened, then Xia Xibei saw her once and prescribed her some medicine.

She probably just wanted to try it, but to her surprise, two months later, she was really pregnant!

'When she found out she was pregnant, she and her husband were stunned!

They had been disappointed so many times and thought they were mistaken!

After going to the hospital for a checkup, the doctor told them that their baby was very healthy and didn't look like it was conceived with difficulty at all.

Even the doctor was surprised, as IVF had been recommended to them before, but it hadn't worked out too well.

Now she was pregnant! It was a miracle!

After thinking about it, the customer was sure it was thanks to Xia Xibei and sent a banner of appreciation to the club!

The Hongyan Beauty Club was a beauty club, but the customer made it look like a clinic, which made everyone laugh.

It was because of this incident and the various diseases that Xia Xibei had cured that everyone knew Dr. Xia was particularly good!

It could be said that Xia Xibei's medical skills were crucial for Hongyan Beauty Club to develop so smoothly.

If they didn't trust Dr. Xia, those customers wouldn't be so willing to spend money.

Having seen Xia Xibei's strength, Liu Manhong had great confidence in her.

"Let Beibei try it. If it doesn't work, we can think of other ways."

Liu Manhong understood what Xia Xibei wanted to do.

Catch the leader of the thieves first.

Although this was not a very apt expression, there was nothing wrong with using it.

'Once the patriarch was cured, he could regain control of the Huo family.

Huo Zhan and his son would have no way to continue to target them.

This was also a good way to quickly put out the fire.

If Huo Zijun performed well, the old man may even hand over the Huo family to him.

At that time, things would be even easier.

"Alright then. I'll take you there."

Huo Zijun hesitated for a moment but finally nodded.

Due to the urgency of the situation, the two booked an afternoon flight and immediately flew to the imperial capital..

Chapter 990: The Huo Family Patriarch

The patriarch was now living in a nursing home with a beautiful environment. Away from the hustle and bustle, it was a good place to convalesce.

Although it cost a lot, for the Huo family, it was nothing at all.

The patriarch was the anchor of the Huo family, so of course he must be well served.

However, after the patriarch's condition became increasingly serious, Huo Zhan did not come over much.

There was no use coming here, as the patriarch may not recognize him.

Huo Zhan did not stop others from coming to visit the patriarch. After all, this was the family patriarch, and people were free to come and see him.

Even if they wanted to please the patriarch, it was useless. The patriarch was not of sound mind and could not make decisions!

Since there were no perks to being by the patriarch's side, Huo Zhan did not need to stop others from visiting.

So, Huo Zijun didn't encounter any obstruction at all when he brought Xia Xibei over.

Despite this, Huo Zijun was still very nervous.

This was the first time he had done something like this, and he was even more nervous about whether Xia Xibei could really cure the patriarch!

Although Xia Xibei was highly skilled in medicine, could it really work?

"Grandpa, it's me." Huo Zijun stepped forward and took the patriarch's hand, a little excited.
