

Chapter 991

The person who shakes half a bottle makes people hate and feel pity.

For example, those who like antiques say they don't understand. They give you a clear idea. It sounds like a special specialty. He said he understood. There were old microwave dishes and bowls on the antique shelf at home.

Moreover, this kind of person is the most difficult to persuade. He thinks you are afraid of him picking up the leak.

When the serious expert looked at him with pity, he thought others were envious of him.

But once the doctor is half a bottle, it's hateful. In the medical industry, being cautious and cautious will cause problems, but such people always feel that they can't.

For example, the female disciple of Master Zhang Fan's back door is such a person. Fortunately, she is still a student. If she works, it will be bad luck for those who teach her and those who are her patients.

Fortunately, she wants to go abroad.

Otherwise, when she really becomes a doctor, to tell the truth, who meets who is unlucky.

It's not that there are no such people. In the early years, the patient's left leg was broken and had to be put on a steel plate. As a result, the doctor was irresponsible and put a strip steel plate on his right leg! Is this to prevent future fractures?

A person's stomach is a little uncomfortable. As a result, the doctor said it was appendicitis. He took the stage and opened his stomach. Well, his appendix is good. As a result, he cut off his pink appendix.

In fact, it's all done by a half bottle doctor. If you listen to him, you can feel unreliable. Zhang Kou's family is a state-owned relative in Jinmao. Shut up. His relatives are leaders of the State Council.

He never discusses technology with others.

To tell the truth, Ouyang is a blessed man. In their early years, when they went to the countryside, they were doctors. The herdsmen in the pastoral area offered Ouyang, who was still a big girl, as a Bodhisattva.

If a sheep falls to death on the mountain, the patriarchs cut the meat for her to eat first.

Later, he went to the hospital. He was a serious college student. His superiors valued him, his subordinates respected him, and he was self-improvement. To tell the truth, it is estimated that people's character has not been suppressed.

Perhaps people today can't feel the preferential treatment of college students in those years, not to mention the past. When Zhang Fan graduated from quark, the sense of superiority of undergraduates was absolutely unimaginable in big cities.

To tell the truth, Ouyang's life is really wanton. It is estimated that there will never be such an opportunity for later people in the future.

When he saw Zhao Yanfang, Xia's disciple, Ouyang liked the woman from his heart.

It's generally long. There's no so-called demon flattery. In fact, it's the way that you always have Sichuan characters on your forehead and are always ready to be more serious with people.

People and people, sometimes, are very special. For example, as soon as two people meet, they don't talk, so they think each other is annoying.

And some people, as soon as they met, they were right about mung bean. It must be the relationship between gas field and magnetic field.

Ouyang felt that the as like as two peas in her youth.

Therefore, there is no unnecessary greeting. It is very direct.

"Our tea vegetable hospital needs a person at the helm in research. It's difficult to start. Although we have a lot of patients and rich funds, we don't have a constitution.

I'm worried. Zhang Yuan recommended you, so we asked you out to chat today. "

Zhao Yanfang frowned. This action really matched Ouyang's triangular eyes!

"Isn't Zhang Yuan very skilled? Can't he steer? "

"Dr. Zhao, Zhang hospital is clinical!" Chen Sheng said quickly.

Zhao Yanfang is not comparable to Dr. Li Guanghai of West Lake and Dr. Xu of master brother.

Although they didn't take the lead in setting up the laboratory, they can make decisions in Mr. Xia's scientific research team.

Moreover, not to mention all kinds of journals and papers. But who doesn't want to be the boss.

In fact, when she just graduated, with the support of her teachers, she also wanted to pull up a team in a university. As a result, the funds couldn't come down. Later, after a big quarrel with a section chief in charge of scientific research funds, he went to the teacher.

"I have a word to say!" Zhao Yanfang is not polite, and it is estimated that she will not be polite.

"I just like your one-to-one nature, you say." Ouyang looked at the man in front of him.

"Your city's financial estimate is that even the differential subsidy can't support a world leading laboratory! If you want to set up a general laboratory, you don't need to... "

I didn't say it thoroughly, but looking at her expression was more thorough than I said.

It means that you have no money in your small city. Why should I go to the small laboratory?

"Hehe, we don't rely on differential subsidy!"

Ouyang smiled.

"Full subsidy, not much anywhere."

"Hehe, don't worry. We don't rely on subsidies. Now there are hundreds of millions of hair lying on the book. "

"Oh!" Zhao Yanfang just nodded gently, without questioning or surprise.

Just like listening to others say that there are dozens of dollars, there is no superfluous response at all. It is estimated that in her eyes, money is not a thing, but she doesn't need funds. She is also a natural person to worry about!

When Chen Sheng wanted to add some oil and something, his mouth just opened.

Zhao Yanfang said, "I can go and have a look, but I can't guarantee that I will stay in tea!"

"Ha ha, OK. We'll take a trip. We'll cover all the expenses." Ouyang waved his hand.

"It doesn't matter!" Zhao Yanfang also said with great atmosphere.

Seeing Zhao Yanfang off, Ouyang was satisfied, really satisfied. As soon as the old lady is happy, she will hum a song, and then she doesn't dislike that coffee is expensive. Everything is pleasing to the eye.

"I'll give you a holiday today. Go and visit the magic capital. At least I came to the magic capital. How can I look at the ten mile foreign market?"

The two little officers' eyes are full of stars. This is the economic center of China. Although only one day is better than none.

"Dean, are you going too?"

"I won't go. I'll go back to the store and have a rest."

When the two little officers heard this, they didn't say much. After saying hello, they turned around and walked away with the wind like birds in the forest.

"All right, go around, too. It's hard to get out of the door and always guard me. What's the meaning of the old lady?"

Ouyang looked at Chen Sheng around him and said with a smile.

"Hey, I'm not a little girl. This place is actually similar to tea, just a little more buildings. Nothing else is strange. I'd better follow you to the hotel!"

You are different. Zhang Yuan said at the beginning that this person must come. You see, Zhang Yuan is really right! Zhang Yuan is also great! "

Lao Chen smiles more brightly.

"Ha ha!" Ouyang smiled. His eyes were all slit.

Zhang Fan's spirit is not light. Zhang Fan's master brother was almost foaming at his mouth.

Although Zhang Fan didn't say anything to elder martial brother Zhang Fan, after several masters and doctors went back, they told elder martial brother Zhang Fan the original of the matter.

When Zhang Fan's elder martial brother heard this, the white foam came out from the corners of his mouth. Of course, he won't call to scold the girl student, because it's unnecessary and the price is reduced!

But I still have to apologize to Zhang Fan.

"Don't take it to heart..."

"It's all right, elder martial brother. The forest is big and there are no birds. Don't be angry. "

"Her father is Huifeng's shareholder and your sister-in-law's direct boss. I couldn't refuse at the beginning. I didn't expect the tutor to be so bad. "

After chatting with elder martial brother, Zhang Fan also went back to the hotel.

Sometimes, people must not do too much. As the old saying goes, dogs are lax and people are split.

The female master felt that she had graduated and didn't have to ask her teacher. Her family had money and nothing was wrong.

As a result, something really came out.

The female master had just returned home. His father was like an electric rice cooker with a pot on. His head was white with anxiety.

"Please make an appointment with your teacher. When will he have time?"

"What's the matter, Dad! I've got my diploma. Why should I contact him? "

"Hey, I still have the ability. Please contact me quickly." For his daughter's tone, the old man didn't know whether he was used to it or spoiled it too much. He didn't criticize it anyway.

"I don't!" The female master turned her eyes and left. His father was stunned. He just wanted to open his mouth. After thinking about it, he didn't say anything.

"Mr. Wang, ha ha, I have something to trouble you, sir! When do you think it's convenient to ask your husband out for dinner? "

Chapter 992

Grow well and spoil twice as much. This kind of word is rarely encountered in ordinary families.

In normal families, children don't need to be sensible. When they are a little older and can understand words, parents will imperceptibly educate: the baby should learn to share and the baby should call people!

Are the parents noble? No, it's parents who understand! Because they know one thing. When you can't

educate your children, society will come out for education. When society can't educate, violent institutions will come out for education.

When there is no way to deal with the violence, God will come out to educate. In the early years, a small group drove a sports car with two cool Qiangtang beauties. God can't see it. What's the result?

But, surprisingly, he hung up! The consequences are beyond the imagination of ordinary melon eaters.

The female disciple of Master Zhang Fan's brother, how can I say that her family says she is a top local tyrant? That's bragging, but the degree of wealth should exceed 97.8% of Chinese people.

Her father was also a playboy and a flower celebrity in his early years. When her grandfather was about to retire, her father knew that he couldn't do this. If he went on like this, he might not be able to keep this comfortable life.

Then she entered the financial industry at ease. When all kinds of bankrupt enterprises were under the joint-stock system, her father made a profit by taking the last bus. Her father knows that he can't roar at this wealth.

He is also a smart man. With the last energy of the old man, he not only became a Sandao man, but also a shareholder of Huifeng.

We all feel that foreign enterprises seem to abide by business rules, are elites, and aim to promote human development.

This is all bullshit. In fact, it is all for the purpose of making money.

One wants to make money in China and wants to make money without cost. The other has some energy and contacts in China. The father of the female master's degree is not only a shareholder, but also one of the main principals in China, who is mainly responsible for blending with the energetic people in China.

After his old man retired, his family's life was quite moist, but there was no such exceptional treatment

as before. After all, the old man retired.

Therefore, he wants to curry favor with people who are richer and more powerful than him, such as serious Sandao people. Before, the three islanders licked him. Now it's his turn to lick the three Islanders.

He wants to lick deeper and more patterns, otherwise

Of course, celebrities in the flower world are not for nothing. After his father had enough, he got married in his thirties. When he was young, he didn't know how many births he had. As a result, after marriage, there was no movement and he couldn't have children.

The hundreds of millions of family wealth can't be lost. No, the old Chinese doctor's Liuwei Dihuang honey pill was also eaten, and the foreign Omega 3 fatty acids had a fishy smell.

It's no use. If you can't get pregnant, you can't get pregnant.

This makes the weak relationship between her parents even less bound. Her father is a celebrity in the flower world, and her mother is not a flesh man. Anyway, she plays each other.

As a result, when the couple played to their forties, one day they were both drunk. They didn't know whether it was a mine that caught the sky fire or whether they felt unwilling to each other.

I let you and others!

It is estimated that this is what the couple said at that time.

Everything needs competition. There may be competition. Originally, her father's tadpole, who didn't have much vitality, rose up, beat the Yellow Dragon, and then bear fruit!

Anyway, after having her, when DNA technology was not good in China, they made an identification in Jinmao country.

This is amazing. It's your own seed! The old lady fell into the blessing nest and never dared to give her hands to her feet.

Although the girl grew up with a big temper, his father was still proud. My girl didn't smoke powder. She didn't find a little white face like her mother. She didn't become a little sister.

She can still think of becoming a doctor, which makes her father proud. In the dead of night, his father probably knelt down to thank the gods and God.

So I dote on my daughter.

What parents are like, children are like. That's right. Parents' cognition directly affects children's understanding of the world. Although the family eats Chinese food, they never think that China is good.

Children learn from others and are born foreigners! Although it has yellow skin and black eyes.

People like his father used to rely on the old man at home. If the old man can't, he depends on his mouth.

I know who, who and I are iron. Jieliuzi said that I know which big brother. At his level, it's almost the same, because he has no other skills.

Anyway, I have a friend!

Without this skill, can he stand in Huifeng?

No, that day, he received a call. Sandao, a rich and powerful aristocrat, is quite powerful in Huifeng.

"I heard you know old Wu in China?"

"Ouch, my old man had a very good relationship with old Wu. Old Wu's disciples and I are brothers. If you have something to say!"

In fact, he is bragging, but he can't do it if he doesn't boast, because he can't provoke the person who calls him. If he doesn't boast, the skin protecting him may be picked up by the person who calls him.

Without this layer of skin, I don't know how many people can use his family property as a snack without losing the residue.

The caller told the truth that he was an old rich man. It is said that his ancestors slept with the queen for several generations. According to the nature of the three island aristocrats, it may really happen.

This kind of person seems to be the kind of work that kills people with a pile of money when they disagree. In fact, no, most of them don't rely on money.

Those who hit people with money are a few lines worse than them.

If you contact another expert, you can arrange it every minute.

But who is old Wu? I don't say anything else. People's hospitals are armed and guarded.

Moreover, China is not a country where anyone can hum a hundred years ago.

Although there were no warships like dumplings in the sea in 10 years, they already have confidence.

If he takes the official channel, he may not have time, and the price is not affordable. However, China has a leading Party. There will be no shortage of such people in any era.

A phone call, the female master's father's head was hot and his body was sweating. Pay attention to the telephone of foreign masters.

How can I contact Mr. Wu? To tell the truth at this level, if you want to contact old Wu, you can't say a bad word. It's not in the industry. Even if the boss of magic capital wants to see old Wu, you have to make an appointment in advance. It's no exaggeration at all.

Instead, it's an industry. For example, the bottom-level refresher doctor took out a special case to let Mr. Wu feel the pulse during Mr. Wu's ward rounds. There's no problem at all.

Therefore, the female master's father thought of Zhang Fan's master brother.

Master brother's wife thought about it and said to go back and ask her husband if he had time, and asked one more question, what's the matter.

People who can reach the top of the financial industry should not be too thief. They will not simply make a commitment.

Because they know that a relationship or a condition can't be exchanged for real gold and silver.

"Ouch, a friend of mine wants Mr. Wu to have an operation on him! Isn't your husband familiar with Mr. Wu? I just want your husband to help. "

The father of the female master pretended to be very relaxed.

"Oh, so it is! It's estimated that it's a little difficult. Don't be busy, Mr. Wu. He seems to have gone to the capital for a meeting recently. After all, my husband is not an old Wu's own student, so... "

Master brother's wife said easily. She didn't know where old Wu had gone.

But what she knows is that this relationship can't be moved easily.

Because this relationship is not only related to his old Wu's view of his husband, but also sometimes this relationship can save lives, so it can not move, it will never move.

"You can make an appointment with your husband first!"

This is a little unhappy, but there is nothing to do.

Without spending money, the flower celebrity began to look for various relationships.

However, there was no guarantee at that time. This is not a passer-by, cross the boundary, of course, it is difficult.

Mr. Wu couldn't contact, but he contacted several other experts.

There's no way. It's better to explain than not prepared.

"Mr. Wu has contacted, but he may not be able to ensure that others have time. I contacted several other Chinese experts. You can rest assured that they are top experts!"

"Stupid pig, I can't contact old Wu. Do I need other doctors in China? Is my doctor Mishima worse than you? "

On the phone, the celebrity who scolded him had a big head and was angry to death. He muttered in his heart, "if my father is still in power, you dare to say that about me, fuck you immortal!"

But it's just imagination in my heart. I don't dare to speak.

The other party relieved his anger and finally said, "if you can't contact old Wu, please contact Dr. Zhang Fan of catechin. I'll tell you that my child has a liver central tumor. Old Wu is the first in the world in this regard. Medical experts from Sandao recommended Dr. Zhang Fan, and he has further improved in this regard.

You contact old Wu and Zhang Fan at the same time. If you can't contact both, you won't appear in front of me in the future. "

He doesn't have much energy anyway.

Sweat. There was sweat in his shoes. It was like crossing a river. The other party's ultimatum almost made him tremble.

It's gonna kill you.

No one dares to be careless about the issue of children. If this can't be done well, I dare not think about it!

If Zhang Fan is in a big city, it is estimated that he will directly find Zhang Fan's phone.

But Zhang Fan is in the frontier, not the capital of the frontier, so there is too little information.

I can't rely on my men. What should I do?

The sweat on the brain ticked, just like the plum rain day in the magic capital, it was too late to wipe.

It's too difficult to find a relationship with old Wu. Zhang Fan should be easier to find. The celebrity went crazy and launched all the relationships to inquire.

The frontier is too far!

As a result, Kung Fu pays off. The man finally got to know Zhang Fan!

Chapter 993

In one's life, there are many ridges, some are earth slopes. At that time, I felt that the ridge was too high to climb over. As a result, when I climbed over, I turned around and saw that it was nothing!

For example, when I went to school, I felt too tired for all kinds of tutoring and examinations. My school life was like a dark day. As a result, I found that I was too happy to go to school when I entered the society.

And some of them, to tell you the truth, are so difficult that people doubt the world.

For example, Zhang Fan, if you get him to an African tribe and don't brag, it is estimated that he can say that he is the whitest one. But when the nurses talk about him in the tea plant and in the hospital, they often talk about technology at the beginning and then how to whiten the building.

Therefore, for them, Zhang Fan is also an occasional object of ridicule. The black face is a small barrier that Zhang fan can't get rid of. Sometimes Zhang Fan also thinks about why the stars look handsome out of the sky when they are black. I don't have to take photos. They are all black. Why will they be laughed at?

But just think about it, but Zhang Fan never mind the teasing of the nurses, and he is a little complacent, because it also shows that Zhang Fan has a good mass base from the other side. For example, no one in Ouyang is joking. The main reason is that the old lady is difficult to deal with and can't provoke.

However, some people also regard Zhang Fan as a barrier that cannot be crossed. Even eat mutton.

Lao Chang is, after Lao Chang arrived at the magic capital from the frontier, at the beginning, he never cared that others asked him about the frontier. Sometimes he would take the initiative to talk about the frontier, just like a medium to deal with each other.

But after falling off several phones, Lao Chang felt uncomfortable. He began to pay attention. He deliberately wanted to erase the border mark on his body.

For example, when eating mutton, at the beginning, people would say, come and often taste the mutton in the south. Is there any difference between the mutton in the South and that in the northwest.

He thought it would not work, and then decided not to eat mutton.

As a result, the question comes again, and many people will ask curiously: "God, you are a frontier man, and you don't eat mutton?"

Lao Chang is almost crying.

Therefore, Lao Chang changed his high-profile character in the frontier and kept a low profile in everything he did. He was afraid that others would ask him and know him.

As a result, someone called again this time!

"Doctor Chang? Hello, I'm the director of Huifeng. Your president told me, "are you from the frontier?"

His tone is very impolite. Whoever flatters will deceive him. Lao Zhou said this year.

When the celebrity father of a female master licks master Mishima, he politely wants to bow to each other. At this time, when he meets an ordinary doctor, his tone is serious, which makes others think he presides over the gastrointestinal expansion meeting.

Lao Chang has experience now. In the past, he was very excited when he received this call. He felt that he could finally integrate into the mainstream society or upper class society of the city.

This product is also a licking product. It cares about other people's tone at all. If I had been humble, I would have hung up the phone.

As a result, after smashing several phones, I often have experience. Anyone with a little social energy calls to ask if he came from the frontier. He knows that he absolutely wants to inquire about the black faced boy.

He wanted to shout on the phone, "where do you beg me to come from!"

But he dare not! Because someone mentioned the dean.

But not reconciled, Nuo Nuo said to the phone, "I'm from the bird market."

In fact, the meaning of the words is that I'm from the capital of the frontier. I don't know what bottles and cans and cats and dogs are in prefectures and counties. You'd better not ask me.

But I can't stop it. He can't stop it. He wants to plug his ears.

"Zhang Fan, do you know Dr. Zhang Fan of tea vegetable? Familiar or not! "

However, when I heard the name, it's been so long. Lao Chang's heart still hurts. Just like angina pectoris, eating quick acting rescue pills has no effect!

Not only painful, but also flustered, flustered, just as primary school students want to invite parents. A flustered old man often doesn't know his last name.

The hands holding the phone are blue and white.

Because he is afraid that others will know, he really knows Zhang Fan!

"No!" I don't have enough confidence to speak.

However, fortunately, the other party didn't care.

"Oh, you don't even know Zhang Fan. Your Dean said you were still a little famous in the frontier? It seems that you are not famous! "

She as like as two peas in her family.

Lao Chang's tears came down. You say that Zhang Fan, who doesn't care much, can be said to be angry, not to mention Lao Chang. Zhang fan can retort that Lao Chang really swallows bitterness in his stomach!

"Who did I provoke?"

.....

Master Zhang Fan's wife came home and told her husband about it. Master Zhang Fan's face was blue.

"Don't even think about it! Don't deal with him in the future. It's not a thing. "

In the hotel, Ouyang Le thought how much she had taken advantage of. Sitting on a single sofa is like sitting in a rocking chair. People can feel her joy when her small leather shoes are bumpy.

"Hey, hey, Dr. Zhao Yanfang promised to go and have a look at the tea vegetable. Man, I'll pull it for you. How to keep it depends on you."

"Dr. Zhao agreed? So happy? " Zhang Fan was surprised. To tell the truth, he thought Dr. Zhao should be very hard to talk. It's estimated that he should at least take a look at it.

As a result, Ouyang didn't think of the most difficult bone, and it ended with a mouthful.

"What do you think!"

Ouyang's mouth is extraordinarily enchanting, and he is much younger.

"Great, great, leadership is leadership!" Zhang Fan holds Ouyang with interest.

When I came out this time, I was very happy and felt that my hospital should be very awesome. Those doctors and masters don't rush to submit their resumes. At least they will be very interested.

As a result, pots of cold water poured from Sanchuan to the magic capital, and Ouyang probably began to doubt life. If Zhang Fan's brothers had not come here this time, the old lady felt that the recruitment would have ended badly.

In the female master's home, the female master's Lao Tzu's legs trembled like a motor.

Holding the phone in his hand, he was deeply afraid that the people of Sandao would call him.

In liver cancer, there is a saying in inquiry medicine that most of the liver tumors in developed countries are caused by alcoholism. Most of the liver tumors in China are caused by hepatitis B virus.

When doctors saw this sentence, they didn't understand it very much. To what extent can they drink alcohol and even drink it into liver cancer?

At that time, we were poor. Everyone didn't understand.

As a result, within a few years, liver tumors in China became the primary culprit of alcoholism.

To tell you the truth, drinking is harmful but not beneficial.

Some people say why some traditional Chinese medicines need to be drunk with wine.

It's because some drugs need the volatilization of alcohol. There was no good method before, so we can only rely on wine.

What promoting blood circulation and removing blood stasis is actually a gimmick made by the winery

to sell wine.

Wine, can not drink.

Zhang Fan heard such a sentence, but he didn't know whether it was true or false. He said that in western developed countries, there was no other drink at home, only wine. People used wine as a drink.

The child of the three island aristocracy actually drank liver cancer.

Many cancers, generally unable to find the cause, such as gastric cancer, from smoking and drinking to angry quarrels, from Helicobacter pylori to food hygiene, will be listed as inducements.

In fact, this is the main reason why I don't know.

For liver cancer, especially for heavy drinkers, the doctor can definitely tell you that the cause is caused by drinking.

Chapter 994

The world of the rich seems to show ordinary people pearly evening dresses, polite suits and leather shoes.

In fact, the swords and swords in it are more dirty than novels.

Zhang Fan is in this ordinary but not ordinary industry. To tell the truth, he has seen a lot. For example, the young wife of the mine owner would rather cut off the muscles under her arms and insert a fist sized silicone into her chest in order to keep her pet.

There is also an elderly rich lady. I heard that the placenta can smooth wrinkles and prolong life. It is said that after 2000 years, a placenta can sell for thousands in private.

This thing, to tell you the truth, tastes quite unacceptable. In order to retain the so-called original essence, it is directly steamed with green meconium, curled hair, black congestion, and milky white fat.

Really, people who eat all kinds of whips and eggs are brothers in front of this thing.

There are too many brothers who become enemies, father and son turn against each other, and husband and wife fight each other.

To tell the truth, sometimes, once money can't be controlled by the parties, it can control people by turning around.

The celebrity dad, a female master, finally found Zhang Fan. In fact, he wants to contact Mr. Wu more, which shows that he has the ability and that his energy in China can not be underestimated after his father's retirement.

However, this forced him to pretend. Mr. Wu is really out of touch.

In those years, a harbor tyrant went on a tea vegetable hike. As a result, he fell into the trap of local herdsmen. He was so immortal that he was chrysanthemum by sharp wooden piles.

At that time, the intestines flowed all over the ground, just like the uncooked miscellaneous soup. Thanks to Zhang Fan, like flower eyebrows, he sewed up the thin broken chrysanthemums for him.

Later, although he didn't get in touch with Zhang Fan, Zhang Fan's phone, like a VIP, was permanently kept in his phone book.

The celebrity father of the female master's degree has worked hard this time. Finally, Zhang Fan's phone was asked from the chrysanthemum man.

"Without you, butcher Wang, don't I eat mixed pigs?" After the celebrity father got Zhang Fan's phone, he was a little proud, and began to mutter that master Zhang Fan's wife.

But now is not the time to look for trouble. Call the frontier doctor quickly.

When he got the phone, he began to call.

"Dr. Zhang? Hello, I'm Huifeng's director! Well, I want you to have an operation! Director Li and I are also good friends! When do you have time to come to the magic city? "

The man inquired about Zhang Fan again. He knew that Zhang Fan and the president of foreign affairs were brothers and had a good relationship.

Although speaking is much more polite than usual, there is always a faint condescending.

If he hadn't mentioned master brother, Zhang Fan would have hung up long ago. If you let the devil come, you'd have come to the devil. If you let the operation, you'd have an operation. You have a big face!

"I'm in Mordor. I don't know for a few days. What disease needs surgery?" Master brother's face still needs to be given. Zhang Fan specially asked.

"Let's meet again. I'll come to you this afternoon!"

Then he hung up the phone. Zhang Fan looked at the phone inexplicably and wondered if he needed to call the master. He thought again, forget it, I don't know anything. It seems that calling at this time means asking for credit.

So Zhang Fan didn't call. And the master brother, in fact, also thought that in order not to make Zhang Fan angry again, he didn't tell Zhang Fan about her father.

In fact, this is a serious person who cares about each other. They are willing to consider and shelter each other.

Zhang Fan took Chen Sheng to the agreed place. Ouyang has no pressure now. Although there is no pressure, he didn't go out of the hotel because it's too hot.

The old lady claims that her hometown is in Suzhou and Hangzhou. She was also a water woman in the south of the Yangtze River in those years, but she grew up in the frontier. She can't stand this summer in the magic capital.

The two clerks have been busy buying air tickets for some people who want to go to tea vegetable.

Originally, according to the rules of the system, these people can only do hard seats, and they can't even reimburse the sleeper, but now who makes the tea vegetable city hospital rich.

Ouyang waved his big hand and took all the planes.

In the afternoon, Zhang Fan and Chen Sheng came to the cafe next to the hotel.

In the muggy Magic City, the pedestrians on the road are in a hurry. There is absolutely no leisurely pace in small and medium-sized cities. It seems that everyone is in a hurry. The elderly grandma is carrying a vegetable basket in her hand, and the young white-collar is walking on beautiful high heels.

In fact, Chen Sheng didn't envy Zhang Fan very much before. Respect belongs to respect, but he didn't envy Zhang Fan very much from the bottom of his heart. Because Lao Chen also came down from clinic.

He knows, he knows, how difficult it is for Zhang Fan to get his skills. It looks like he is writing one thing

in the operating room, but the sweat and time paid in private are definitely not what ordinary people can do.

Apart from others, it's just self-discipline. Zhang Fan's self-discipline is not what ordinary people can do.

What is self-discipline, in fact, is cruel, cruel to yourself.

Lao Chen himself knows that he can't do this kind of cruelty.

But he slowly followed Zhang Fan on a business trip from tea vegetable to fly a knife abroad. Lao Chen began to envy him.

At the time of tea vegetable, this feeling is not special. If you say something bad, Lao Chen can be half the master in the tea vegetable hospital when Zhang Fan is away.

Everyone respectfully calls President Chen, but he can leave the tea vegetable hospital, the tea vegetable hospital and the platform. He understands that he is no one, and Zhang Yuan is still Zhang Yuan when he leaves the platform.

This is ability, this is the glory that position can't bring.

"Zhang Yuan, what kind of patient is this?" Zhang Fan didn't tell Lao Chen in detail. After he got to the coffee shop, Lao Chen asked curiously.

"It's a friend of the master brother. It's estimated that the master brother was busy and didn't call me. Let him come and talk to me first."

Zhang Fan said a word, Lao Chen seemed to understand, and then he didn't say much.

He asked Zhang Fan, "Zhang Yuan, cappuccino or latte?"

"Hey, I drink a little sweeter. This coffee is really bitter!"

Zhang Fan doesn't particularly like the coffee in this coffee shop. He always thinks the coffee here is not as good as instant coffee.

In fact, Lao Chen didn't ask much because of the reason.

In this kind of matchmaking in medical treatment, introducers generally do not intervene too deeply.

Because there are so many things in it. For example, a patient needs a doctor to fly a knife.

If the patient needs a doctor's Throwing Knife alone, there are many things to discuss. Therefore, introducers generally do not get involved, so that both sides are embarrassed to talk.

Zhang Fan and Lao Chen are different.

Before long, the father of the female master came.

With the three island nobles flying from the harbor.

It seems that the stars in European and American TV and movies are particularly beautiful. But the real European and American people, especially the European and American people who claim to have pure blood, give Zhang Fan's first feeling that they are white and greasy.

Although others are not fat, it just makes Zhang Fan feel inexplicably greasy. Moreover, this guy's facial features are too three-dimensional, and his nose feels obvious, as if he had a hook.

"Are you Zhang Fan, Doctor Zhang of the tea vegetable city hospital?" The father of the female master looked at Zhang Fan.

"Yes!"

Like a fox, he looked more. Although he felt that Zhang Fan was so young, he did not question it, because his task was to find tea vegetable Zhang Fan. He would never talk much about other things.

It's much more polite for the man to turn to the people of Mishima.

Everyone took their seats.

Compared with the father of a female master, the three islanders are very polite.

Zhang Fan was praised all the time. Zhang Fan got goose bumps. I don't know whether it's a lack of language or something. Just a few words over and over, Zhang Fan feels he doesn't need to learn English.

"Whether you need surgery or not, you must have had an examination in China!"

Zhang Fan said softly.

"Our Sandao Royal Hospital has done an examination. They suggest coming to China to let old Wu and you operate on the child. God bless us, let's find you."

"The necessary examination still needs to be done. When will the patient arrive in magic city?"

"I'll arrange it now!" With that, the man from Mishima immediately got up and called.

At this time, the celebrity father of the female master spoke " This is an international friend and has a

good reputation in the world. Fees can be reduced a little. "

Before Zhang Fan said anything, Chen Sheng began to mutter, "why is this guy so unreliable? No wonder president Li doesn't want to say hello!"

"I've arranged the hospital, too. Let's go abroad! My daughter is a graduate student in foreign affairs. She is with you and is a student of President Li. "

Zhang Fan was not listening at all. When he heard it again, he felt vaguely how this girl looked at him like a woodlouse.

Before Zhang Fan spoke, he said, "ten thousand is OK for the operation cost. After all, people are international celebrities. At least we should reflect the hospitality of China!"

Zhang Fan ignored him, picked up the phone and called master brother.

Master brother was furious, "I'm afraid he'll disturb you and didn't give you ventilation. This thing is powerful enough. Don't pay attention to him!"

"OK, I see." Zhang Fan smiled and didn't say a word to the other party.

"Come on, go back to your room." Then Zhang Fan stood up and Chen Sheng followed him.

"Hey, hey, hey, what's the matter with you? Are you polite. If we don't have enough money, we can add it. Will 20000 be ok? "

"Your money is big!" Chen Sheng looked at Zhang Fan's face and turned his head.

Mishima came in after calling. As a result, the doctors left. He was worried.

"My God, what did you say?" The original white face of the three islanders is as red as an angry Turkey with a neck and ears at this time.

"I didn't say anything, I didn't say anything..." the celebrity looked innocent.

"You're done, you're done, you're done!"

It's not a fool. It's definitely the doctor who said something that let him go.

"Daughter, you must contact your teacher, or our family will be over!"

Celebrity dad is also worried. It's a lot of 20000. A little doctor, how can he be so awesome!

Chapter 995

The world is strange.

When you succeed, of course, most people can think that you have money or power.

When you surpass some people, you will feel that the world is very kind, loving, full of smiles, and full of harmony and politeness.

Some people, after success, give back to the society is a kind attitude and compassionate love.

However, some people think that I have managed to get ahead of others in my life. Why should I give you a face? Why can't I scold people who are inferior to me?

There are many such.

Especially if he has money and some power, darling, he can't be put in such a big place as China.

For example, the female master's dad is like this. He despises the Chinese people from his bones. In particular, he heard that Zhang Fan came from a small place and came from Bian Guan mountain. He felt that Zhang Fan had never seen the world.

The operation is better. I guess I haven't eaten any bigger tea eggs.

Just like the fat translator who ate watermelon in those years, it's good to give money. In recent years, the market is not very good. If the old man is still strong, you have to give me money.

Moreover, in recent years, he has been flattered by some people who ask him to work and ask him for financing.

This kind of person, to tell the truth, has a dirty heart that ordinary people can't imagine.

Internally, you don't accept the oppression of male subordinates and unspoken rules of female subordinates. Well, I'll make it difficult for you to live in this unit. I'll let everyone isolate you. It won't take long, either bite your teeth and be x by a dog, or leave.

In the financial industry, and it is also an old foreign-funded enterprise, it is too simple for a director to clean up several subordinates. If you don't say anything else, just look at the head office of each bank.

Externally, people from three islands are more interested in him than his father.

As a result, unexpectedly, I got into trouble today.

While calling the girl, he roared in his heart, "you don't want to refinance in the future. You don't want to develop in magic capital in the future!"

Generally speaking, he still looks down on people.

Zhang Fan left. He is talkative, but it doesn't mean he has no temper or he is stupid.

This time, the people of the three islands are crazy.

Now he has no time to take up the father of a female master of science. Surgery on his child is the right way.

He can make money in China. He is also half a China expert. He knew that only people in the system could speak now.

Who are you looking for?

Mordor Health Bureau!

The three islanders who thought they should have no problem were almost crying at the door of Mordor Health Bureau.

Because he had some investments in Mordor, he went to the health bureau after being introduced by the leaders of China Merchants Group. It is said that he is a rich man in three islands, and introduced by the leaders of China Merchants Group.

The leaders of the health bureau were very polite, but when they heard that they wanted to talk to Zhang Fan through the Health Bureau, the original smiling leaders of the health bureau began to use diplomatic language.

Although these people have nothing to do with diplomacy, after all, they are leaders of big cities. They don't speak with two faces.

In fact, the leaders of the health bureau know too much, Zhang Fan? Can we command Zhang Fan? Last time, half of the magic medical circle was paying attention.

Although he was from the frontier and didn't register with the Mordou Health Bureau, no one said Zhang Fan wasn't.

The three islanders who had no choice left the hospital and looked at the sky of magic capital. He began to doubt life. This country has changed and will bully people!

.....

"Twenty thousand, what about sending beggars? Such people should be entertained according to the top price of foreign affairs in the municipal hospital.

Everyone! You too. Why didn't you slap him in the face!

Let a foreign devil and a two dog son be bullied at the door of their own house. You're too face! "

Ouyang listened to Chen Sheng in the hotel and the old lady quit!

Ouyang actually has the confidence to say so.

If Zhang Fan meets a Chinese today and they go directly to tea vegetable for medical treatment and call 120, you have no way. Not only can you, but you have to pinch your nose to operate on others.

But today, this is a foreigner. Even if he has hundreds of billions of assets, he won't do it if he doesn't have an operation. What can you do.

Although Chinese doctors and nurses have all kinds of bad temper and bad attitude, Chinese public hospitals have a clear sign at the gate, non-profit!

You have money. You have money. You want to enjoy this non-profit. I'm sorry!

If you really want to give money, you can. At this time, the price is not what you can decide.

.....

In the evening, master brother and his wife hosted the tea vegetable party. They didn't put today's business on the dinner table. After all, other tea vegetable people are not familiar with master brother.

Master brother entertained Zhang Fan, and they also used their heart.

Jiangnan cuisine is better than a delicacy.

After dinner, I sent Ouyang away.

The master brother said to Zhang Fan, "I'm a person who eats ancestral food. At the beginning, your sister-in-law was a minority shareholder. I think it's necessary to help him in the future. I didn't expect that his children are like this, and so is he!"

"Hey! In fact, it doesn't matter. You can't pay off with such a person!" Zhang Fan smiled and said to the master.

"Is it his family who needs surgery?" Master brother's daughter-in-law asked curiously.

"No, I brought a foreigner. It is said that he is a three island aristocrat!"

Zhang Fan recalled and said.

"Foreigner?" Master brother's daughter-in-law thought for a moment, then took out the phone and called in front of Zhang Fan.

"What about the president? Hello, I'm Wang Yan! Is there a director of the three islands coming to Mordor recently? "

"Hello, Mr. Wang, director John. He arrived this afternoon, but he didn't come to the company. It seems to be a private affair. We have sent entourage and vehicles. "

"OK, thank you. I see."

Hung up.

Sister Wang suddenly realized on her face, "no wonder he was so interested. It turned out that the major shareholder came."

"What?" Master brother is a little unhappy. He knows his wife too well.

"It's nothing. Younger martial brother is angry. Forget it!" With that, sister Wang looked at Zhang Fan and her husband.

"Hehe, elder martial brother, look at you. You won't take me as your own person. Sister-in-law, you can tell me what's wrong. Don't look at my elder martial brother."

Zhang Fan immediately said with a smile.

"This director has a voice in the group. Usually..."

"No! Don't embarrass Zhang Fan. " Master brother interrupted his wife.

Zhang Fan looked at the master's expression and knew that the master was really angry.

But my sister-in-law has said it, and it's a little inappropriate to interrupt.

Zhang Fan said: "elder martial brother, why are you angry? I'm not so delicate. At best, it's an operation. He is a shareholder and a foreigner. He happens to be rich.

If we don't do it in vain, we can still accept the money, can't we? "

"Isn't that hard for you! Hey, tell me, what's this called? "

"Ouch, you've been a leader for a long time. The doctor is not angry. But we can't be angry in vain this time. Who makes the middleman he's looking for unreliable! Well, leave it alone. You're not even as good as me in this regard. You'd better listen to your sister-in-law. "

Zhang Fan doesn't let the elder martial brother speak directly, and he can see that the elder martial brother can be the Dean completely depends on technology, not to mention that he can't compare with Ouyang, even the picture.

"You see, younger martial brother, you are better than others, and their skills are better than you. Even their intelligence quotient is higher than you, hum!" Master brother's wife glanced at her husband angrily.

Then he said to Zhang Fan, "don't worry, younger martial brother. It's absolutely not difficult for you this time. At least we have to get you a suite in modu! Just look at mine! "

Then he pulled his husband, "wood, smile, don't face up, lean over and sit with Zhang Fan. You both smile."

Master brother didn't understand, but he still forced out a smile and sat with Zhang Fan, and then clicked, and took some photos with the mobile camera.

Master brother's wife looked at her mobile phone, "Hey, what catches up is not business. You wait for him to come to the door. I'll say more. Is there anything to replace his operation in the world?"

Zhang Fan and master brother looked at each other.

"Shibo was the first one to do this kind of operation successfully. Later, although other countries have also published successful cases of this kind of operation, the failure rate is still too high. The lancet also takes this kind of operation as an example.

Later, the younger martial brother improved the success rate of the operation, but the younger martial

brother did not follow up and did not organize people to follow up.

That is, Professor Zhao Jingjin of bird market has published several papers, but the case data are too few to be recognized as a mature surgical method. Moreover, he is only a co-author. In his paper, he clearly states that the operator is a little younger martial brother.

So at present, there are doctors who can do this kind of operation, but only the younger martial brother is the one who proposes to improve the martial uncle's operation, and only the younger martial brother is successful. "

"Wow! Zhang Fan, I'm going to worship you. You're much better than your elder martial brother. "

Master brother explained, sister-in-law directly boasted that Zhang Fan couldn't sit still.

Without waiting for Zhang Fan to say anything, I heard my sister-in-law say directly, "OK, I see. Don't worry about anything. Just wait for me to arrange it. After you left this afternoon, did someone say hello to you again? "

"No!"

"That's good. From now on, no matter who contacts you, don't promise. Anyway, you are also a person in the financial circle. They have nothing to do with you. "

With that, my sister-in-law began to send QQ space with her mobile phone.

With food, photos of master brother and Zhang Fan, and a sentence.

"Martial brothers and Demons meet. Little martial brother is so handsome!"

Then gently click the send, "Hey, OK! It's not business that catches up. We'll just wait. "

"Don't..." before the master finished his words, he was pushed back by his daughter-in-law. "Drink some tea quickly. I'll worry about you. I'm trying to get some extra money for younger martial brother."

Before long, my sister-in-law's phone vibrated.

"Hey, hey, I'll read it to you. You have dinner and tea with Zhang Fan? This is a celebrity asking in the circle of friends. He never left a message in my space before. He's worried this time. "

"Sister Wang, my brother-in-law's younger martial brother is so dark!"

After reading this, the master's wife didn't read it, but when she looked at her husband, she was still very sweet.

"Sister Wang, I also want to find a husband who is a doctor. Can you introduce my brother-in-law's younger martial brother to me?"

Sister Wang teased and read this one.

Zhang Fan and master brother can't sit still.

At this time, the phone came in. Wang Yan looked at Zhang Fan and her husband and said, "John of Mishima!"

Chapter 996

Ms. Wang, let me be frank. What's the relationship between you and Dr. Zhang Fan? I want to ask him for an operation, but I don't know why in the morning. We all met and talked very well. As a result, I don't know why Dr. Zhang was angry. "

"Oh, so you're going to ask my husband and younger martial brother for surgery! We just said that a foreign introducer made Dr. Zhang angry.

You too. Who did you hire as a middleman? It's so unreliable. I'm angry to directly put pressure on Dr. Zhang to have a free operation. Who's such a powerful official. Is it a government official.

It doesn't matter whether you have money or not. Dr. Zhang's annual income is tens of millions, and he doesn't care about one or two operations, but the people you invite despise Dr. Zhang too much.

It's not done well! "

"Well!" William Khan of Mishima came down and was about to chop celebrities into meat.

"Ms. Wang, you must help. Give me a chance to apologize to Dr. Zhang. You can rest assured that Dr. Zhang is absolutely satisfied."

Holding a white handkerchief and wiping the sweat on his forehead, the air conditioner doesn't work well.

"It's not a big problem. Don't worry. My husband and Dr. Zhang have a very good relationship. Doctor Zhang Fan is busy looking at the house these days. As you know, there are many houses in the magic capital, but it's really difficult to choose a satisfactory one. "

"House? What other house do you choose? I happen to have one. Bring Doctor Zhang to see the house tomorrow! Although it's not very big, it's better in the environment. "

Hang up the phone, Zhang Fan and master brother are stupid.

In particular, the master looked at his wife like a stranger.

"Come on, you're stupid. You don't understand anything. You can be a doctor! "

The proud Wang Yan looked at them like a fool.

"No, sister-in-law, just ask for money. Don't make trouble for you. After all, you are the leader, not me. "

"Hey, hey, if he doesn't ask you for surgery, I really don't dare, but as long as he asks you for surgery, in the future, he can't only ask me for trouble, but also protect me. You two technical men can't understand the rich man's world!"

Zhang Fan is embarrassed. Although he has been working for more than two years, his face is not much thicker than that in school. On the contrary, his face is a little degraded because of his rich life.

"Don't be embarrassed. Such people don't take their money for nothing!"

.....

Back to the hotel, Ouyang took his notebook and looked through the itinerary.

"Zhang Yuan, if you can't buy a ticket tomorrow, go to Qingniao first. Mr. Wu goes to the headquarters for a meeting and doesn't know when to come back. We've been out for almost a week. In front of the tea vegetable government office, they called me and asked when we would be back. "

"That's OK. I called old Wu yesterday. Old Wu said that if he couldn't come tomorrow, it would take another two or three days. Let's wait another day tomorrow and see how old Wu is! "

"Well, that's OK."

After that, Zhang Fan reported to ouyanghui: "Dean, the people of Sandao contacted the master's lover

and still want me to operate on his child."

"Oh, it's the way of Li Yuan's lover. You can't lose face. In this way, we'll wait one day tomorrow and leave immediately the day after tomorrow. We say that the time is too hasty. We'll have another operation next time! "

Zhang Fan knew what Ouyang meant as soon as he heard it. "Hehe, it's OK!"

"It's said that it's a banker. Where did they get their money? Didn't they rob us from the Eight Power Allied forces earlier? We're not ashamed to earn such people's money. Moreover, he saved people, great kindness! "

What's the matter? Let Ouyang explain. It seems that he is a little tall immediately. Zhang Fan was a little embarrassed and disappeared at once.

The next day, Ouyang went shopping with two young officers. Originally, the two young officers wanted to buy air tickets, but Ouyang wanted to go shopping. It was not a thing for Lao Chen to accompany him, so Lao Chen asked the two little girls to accompany Ouyang out. He bought air tickets in the hotel.

Zhang Fan, after breakfast, let master brother and sister-in-law pick him up.

"Don't say anything today. Just listen to me." In the car, Wang Yan kept explaining.

"Sister-in-law, we're leaving tomorrow. Do you think so?"

"Why not? Just listen to me!"

Before long, brother master took Zhang Fan to a community. How to say, if the community in the south looks at greening, it is estimated that it can't see good or bad. Anyway, it is full of green trees.

John of Mishima waited at the door of the community early. This time, he didn't bring celebrities, but he brought two men and a woman. At a glance, he knew that he was the elite of the society.

On a hot day, the clothes fit perfectly, and the posture of standing next to John seemed to be specially trained.

"Mr. Zhang, we met again. I'm sorry last time. Please don't mind. It's said that you have the idea of buying a house. I happen to have a set that doesn't live here all the year round. Take a look today. Do you agree? "

Zhang Fan obeyed Wang Yan's words and shook hands with John. He didn't say much, but simply smiled.

The three elites around John looked at Zhang Fan's eyes at this time.

Because John didn't introduce it, it made the three people think, "second generation? No, it should be three or four generations. You see, although the facial features have been improved, they can be regarded as visible, but the skin color has not changed yet. They are still like farmers. "

The exchange of three people's eyes is like a flower, but this exchange does not affect the pure smile on the three people's faces at all.

"Please introduce this community to Mr. Zhang!" John said to the three without expression. Although it seemed nothing, his heart was dripping blood.

The original thing that didn't cost money turned out to be meat cutting. The original thing that didn't cost much has become the current situation.

I don't have time now. I can't draw my hand. Otherwise, celebrities may not see it at this time.

"Hello, Mr. Zhang, good morning, ladies and gentlemen. I'm the manager of the property company. You can call me Xiao Liang. These two are responsible for handling owner transactions

Our community, facing the river and backed by CDB, has scenery and gold. Because of our housekeeper management, it can be said that it is quiet in the midst of trouble, which is absolutely satisfactory to you.

Although the suite we are looking at today is a small one, its location is definitely the king of the building in this community. Please move. "

How expensive the house price of magic capital is. Zhang Fan was a little nervous at first, but when he heard that it was a small house type, he put down a lot of anxiety in his heart. Even if he didn't want John's house, he is now a multimillionaire. It's still simple to buy a house.

"On our side, the elevator is one elevator and one household..."

After entering the room, Zhang Fan couldn't close his mouth because it was too big. Although it was inaccurate, it was estimated that Zhang Fan also knew that the house was at least about 300 square meters.

French windows, the living room is like a small conference room. Moreover, standing in front of the French window is the surging river. With a slight squint, you can see a big ball against the antenna like a rocket.

"Sister-in-law, how can the house price be fifty or sixty thousand per square meter!" Zhang Fan whispered to Wang Yan that he was sincere. The price was high, but if he really bought this kind of house, Zhang Fan was really reluctant to give up.

How much money is good. Why do you buy things? It's just a concrete pier!

"Fifty or sixty thousand? Hehe, this house is at least 150000 or 60000! "

"How much?"

Zhang Fan's hand, which had never shaken before, shook for a while. I thought I was rich before I came in. As a result, taking all the money out was not enough for this house.

"Mr. Zhang, are you satisfied with the house?"

"A little..."

Zhang Fangang said it was a little too big. As a result, Wang Yan answered.

"Younger martial brother! Well, there are only a few people in your family. No matter how old you are, it's a little empty to live in. That's right. You can't be any older if you listen to your sister-in-law. "

Wang Yan interrupted Zhang Fan's words like persuasion, and then said to John, "I'll decide the house for him. This set is OK. However, younger martial brother, the time is a little tight. He will leave the magic capital tomorrow! "

As soon as he said this, John was directly worried.

"And, and, and big! Really! "

The hearts of parents all over the world, really, are their own children!

"Mr. John, listen to me." With that, Wang Yan took John to the next door.

The three elites have always maintained the most standard smile.

"Mr. John, you don't think there is only one operation. You know, the best assistant is tea vegetarian. Tomorrow, I will arrange for you to let the child go to the tea vegetable hospital first. When the time comes, president Zhang will operate on the child at the first time.

Don't worry about anything else. After all, you don't know much about China.

And what about the price of this house? "

John thought about it, as if that was right“ I gave it to Mr. Zhang. "

"That's not good. How much did you pay for Yiping?"

"This community was invested by our bank. It was bought by more than 30000 Ping at that time!"

"OK, sell it to Zhang Yuan at the original price, and then give it a decoration. After all, he doesn't think the house is small!"

"Good! OK! OK! Ouch, Ms. Wang, I didn't find you before. It's my fault. Your working ability and professionalism are the best.

After I decide to go back, I suggest you take charge of the business in East China. We can't let the capable people show their talents, but let the incompetent people live in a vegetarian diet!

For example, celebrities, it is said that he has bad actions towards some female employees. This matter must be investigated to the end. "

"Younger martial brother, Mr. John asks his men to prepare the contract now. Do you have enough money?"

Zhang Fan's face is green. Where can he find such a large amount.

Besides, I haven't discussed it with my family yet.

Wang Yan knew at a glance that Zhang Fan probably had no money.

"All right, I'll lend it to you first." Then he turned to look at John.

John cried, "no, I don't want a house. Do I have to pay for it myself? It's shameless. "

"I'll get the money. I'll just ask Mr. John to give me a witness. If the younger martial brother doesn't pay back the money at that time, you'll have to testify to me!"

In a trance, as soon as the little woman in Jiangnan changed her hand, she got Zhang Fan a house worth tens of millions on the surface.

Chapter 997

"I bought a suite in Mordor..."

Zhang Fan told Shaohua on the phone that before he had made it clear, he heard:

"Ah! Ah! Ah! "

Shaohua's sharp voice almost broke Zhang Fan's eardrum.

"My husband finally has an investment mind. How big the house is, where is the magic capital? Wait first, wait first, I'll find the map of the magic capital!"

Shaohua shouted and was busy looking for a map.

Shaohua did not think that Zhang Fan bought a house without consulting himself in advance, which was disrespect to her. Girl, based on her understanding of Zhang Fan, as the leader said, as long as it meets the three benefits.

Most importantly, she knows that Zhang Fan has no money in her hand, because her salary card and other income are in her hand.

Have they ever blushed since they married Zhang Fan? No, there are no big things at home. Zhang Fan doesn't worry about small things. The only thing that makes Shaohua a little worried is the emergency in the middle of the night.

But what can this say? It's work! Then Zhang Fan doesn't smoke, can't drink, and doesn't even have a hobby. Sometimes, Shaohua has to help make an appointment with some people and take Zhang Fan out to eat and chat.

She never said to Zhang Fan: you should do this, you should do that. Even if the living habits are imperceptible, such as Zhang Fan's haircut, it used to be the master who shaved the patient's head in the hospital. It's all done by shaving casually.

But since he was with Shaohua, Shaohua took Zhang Fan to have his hair cut, and then kept boasting that he was a star.

Although Zhang Fan thought Shaohua was exaggerating, he was still very proud. Don't say that men don't pay attention to appearance, even the richest man cares very much.

Slowly, Zhang Fan was cultivated into a habit by Shaohua. Sometimes he went to have a haircut without Shaohua shouting. This is a woman's cultivation of a man.

In fact, most men are smooth haired donkeys. They roll men against their hair. There was nothing big at home. Every day is like Afghanistan. Women with high EQ are like obedient little donkeys.

Really, it's no exaggeration.

"How big is the house?" Shaohua asked on the phone while turning over the map.

"Three hundred ping!" Zhang Fan said slowly.

"Oh, it's so big. It seems that in the suburbs, you won't be the place to buy new development. Although the appreciation space is relatively slow, it's the house of magic capital after all. Don't worry about it!

Husband, you're great now. You know how to invest, hee hee! "

If you are surprised at the concept of life, the biggest difference is Zhang Fan's and Shao Hua's understanding of money.

Zhang Fan felt that after making enough money to eat and drink, he put it in the bank to earn interest. Not only did he have no risk, but he didn't have much trouble.

Shao Hua is obsessed with self-confidence and believes that if the money is devalued in the bank, we should find a way to make its value not devalue, and we can't be sorry for our efforts.

Therefore, this is a professional, an unprofessional comparison.

"Well! Not in the suburbs, it's the master..." Zhang Fan told me the whole story from beginning to end.

"God, there's not enough money. Even if the house price is 30000, we're almost there. The car I bought for my parents and the investment in the farm are not enough! "

"Do you think this house is suitable?"

Zhang Fan didn't care about these things. He asked whether the house was suitable to buy.

"Yes, why not? The other party is a foreigner and not from the medical industry. Such a good thing can't come in a dream. But husband, if you really buy it, even if you decorate it, it will be given away.

But what we bear is not only the house price, but also the deed tax, ah, various fees, as well as the property management fee. It is estimated that we will have to spend more in a year, young and old.

We are under greater pressure. Now the essential oil on the farm has not made any money this year. It is estimated that it will be subsidized. The family depends on you to make money.

Husband, I don't want you to have too much pressure, or forget it. "

Shaohua's heart probably calmed down as soon as he calculated.

Now life is very good. There is no need to make your little stone pressure huge for a house.

"Hehe, it's OK. A man should be cruel to himself. I saw the house. His back was against the financial circle. In front of him was the river. In the evening, he stood in the oversized French window and looked outside. It was really a bit like a blue wave blowing in the evening wind and the setting sun sleeping in the clouds. "

"But..." at this time, Shaohua began to hesitate.

"It's all right. My mother-in-law often talks about her experience in the south when she was a child. Although my father-in-law didn't say it, she would say what happened to the Yangtze River when she ate fish.

My parents are also getting older. They didn't say anything before without conditions. Now they have this ability to let the elderly enjoy it when they should. You don't have to think about money. There's not much pressure!

As for your farm, I don't expect to make money.

In this way, you hurry to make a plane. I'm going to Qingniao tomorrow. Let my sister-in-law help with the transfer of ownership. I won't worry if I get it under your name.

How much money can you give now? "

Since I like it, Zhang Fan has decided to divide three into five and buy it!

Zhang Fan is really stingy when he is stingy, but he is not vague when he should be generous. He definitely has a man's spirit.

"There are almost eight million now! If not, I'll borrow some from my aunt. " Shao Hua was moved by Zhang Fan, and he spoke with a little sob.

She knew that, in fact, her parents wanted to come to the south to have a look. They had no conditions before and could only press in their hearts. She knew, but there was nothing she could do. Unexpectedly, Zhang Fan noticed.

"No! Just take seven million and leave a little. If it's not enough, borrow it from your sister-in-law. Remember to write an IOU. It's estimated that the master brother and sister-in-law won't want the interest. Let's not mention it, or we'll have a share. "

"Well, I'll fly over tomorrow, but is the house suitable under my name, parents..."

"Silly woman, this is our business. The old man doesn't care. All right, get ready. "

After hanging up, Shaohua's eyes were full of water.

"What's the matter? You were surprised. What happened to Zhang Fan? " Although Jia SuYue was around Shaohua, he just heard about the money. For a while, he would make millions and buy nothing.

Jia SuYue was so curious.

Shao Hua secretly turned his head to wipe the tears from the corners of his eyes, turned his head and looked at Jia SuYue.

She hesitated to say it or not.

"You say, I'm so curious. What earth shaking things did Zhang Fan of your family do again, frightening you like this. I'm not going to Macao! "

Jia SuYue's big eyes flickered with a small ice cream spoon in his mouth.

"Go, he doesn't gamble!" Shao Hua glanced at Jia SuYue with a little annoyance.

He bit his lips and said, "Zhang Fan bought a house in magic."

She is not afraid that Jia SuYue knows she is buying a house, nor is she afraid that others know she is buying a house. Zhang Fan earned the money. She is not afraid of the shadow, but she is afraid that Jia SuYue thinks she is showing off.

But Jia SuYue had to listen. Shaohua couldn't help but say it.

"Well!" The ice cream in Jia SuYue's mouth is not sweet.

"God, are you going to transfer the ownership when you go to the devil tomorrow? You must write your name on the real estate certificate!"

If you don't buy a house, you're afraid that Jia Su will feel more and more uncomfortable, but this thing must be made clear, because it is related to his man's reputation.

"Zhang Fan is busy. He will go to Qingniao tomorrow. The house is for me to transfer ownership."

"Well! What's your name? "

In 2010, although the house price has not been like eating dynamite, the house price in modu has already made mainland people sigh.

As soon as Jia SuYue listened, his heart was sour and astringent. The original sweet ice cream turned into an acid reflux gastric secretion at this time.

"Huazi, I envy you, big house!"

"You envy the house. All right, when the decoration comes out, you can go if you want."

Shaohua hurried home. After a few words with Jia SuYue, Shaohua hurried home.

Jia SuYue walked down the street of tea vegetable with ice cream turned into water. Looking at the blue sky in the distance, she felt as if she was dreaming.

.....

"What, Zhang Fan bought a house in magic? Oh, this dead boy, I won't discuss it with you!

Hua, don't worry. When he comes back, our mother and I will clean him up and let him know that we still have us at home. "

Zhang Fan's mother heard for the first time that her son had bought a house in modu. Subconsciously, she didn't ask how big and how much the house was, but wanted to appease her daughter-in-law.

"Hey, mom is so kind to me! With you, he'll have to be obedient! "

Shaohua took Zhang Fan's mother's arm and played coquettish.

"However, Zhang Fan asked me to transfer my ownership tomorrow!"

As soon as this was said, everyone knew that the couple probably discussed it.

Zhang Fan's mother said, "go, go, there's nothing to be busy here. Pay attention to safety on your way."

Zhang Fan's father said on one side, "that's, go shopping and accompany us on the farm one day. The young man can live. Zhang Fan is lucky!"

"Where, I think Zhang Fan is quite good. He doesn't smoke, drink or even socialize!"

This time, the two parents entered the mutual praise mode.

When Shaohua entered the bedroom and began to pack up, Shaohua's mother came in quietly.

"Why did you suddenly buy a house? How old are you? Do you have money? Your father and I still have some money. You don't work now... "

"Oh, my mother, don't make trouble. Don't you always talk about the south? Zhang Fan paid attention, so he bought a house in magic this time.

Take your money by yourself. Don't worry about our affairs. Help me clean up quickly. I'm going to magic capital tomorrow. "

Shao Hua didn't say much about the money.

.....

Mordor and Zhang fan are leaving. The two masters of the master brother are willing to hang out with the little martial uncle, but the doctor's disciples haven't thought about it yet. It's estimated that it's over.

"Your sister-in-law will come to the magic capital tomorrow and ask her to buy you some clothes..." Zhang Fan explained to Jing Shu.

Chapter 998

Rich people, I don't know if other things are more agile. It's estimated that they are very agile, otherwise sildenafil won't sell so expensive.

William has contacted the local government through the CBRC and the banking association and talked about investment first. William wants to build a hotel, a five-star hotel!

The tea vegetable government was shocked. God, what happened this year? People sat at home and money fell from the sky. Is this William a distant relative of the tea vegetable people who have not contacted for many years?

The leaders in charge of investment promotion are laughing to death. In the past, the leaders in charge of this area failed to complete the task every year, but I didn't expect that since last year, investment promotion has become a pastry.

William's request is not much, so he will build a five-star hotel opposite the tea vegetable city hospital.

The tone is as big as a liar. If it were not for the lead of the CBRC and the banking association, the government would never believe it. Five star hotels! It's not a small restaurant.

At the beginning, in order to build a high-grade hotel, the tea vegetable government begged grandpa and grandma to sell the land cheaply. I don't know how many mu of land, so Huaqing got a quasi five-star hotel.

Now people's international tyrants have come. They don't put forward many requirements and have no advantages to make the government difficult. What's this? This is the naked international patriotism. This is the modern Zorro.

What should I do? Raise the welcome standard. The boss of tea vegetable privately asked his men, "this old foreigner, do you say I need to learn a few words of English, such as what to eat and drink, what feelings are deep and stuffy!"

Anyway, in this hot summer day, we are full of enthusiasm and waiting for William of the three islands.

After contacting Zhang Fan from Mishima, the more he inquired, the more he felt that he wanted to make deep friends. Now he is on the line. If he wants to continue to go deep, he needs to use some technology.

I'm not sure if I've been dealing with this kind of identity that seems to be the first level. However, he knows China too well and the west of China too well.

What can become a little equal with Zhang Fan in identity? You can't rely on your own country. Now you can't scare by driving a small gunboat. You can only rely on investment.

That's why he did it.

Shao Hua originally wanted to come to the magic capital alone, but after discussing with Zhang Fan, he brought his mother-in-law and his mother to the magic capital. As for the two old men, they continued to steam essential oil on the farm.

Zhang fan can't wait. It's too long to leave the unit. And they are the two people who can make decisions in the unit, so we must end this recruitment trip as soon as possible.

Not only Zhang Fan and Ouyang were worried, but even the leaders of the tea vegetable government called. That is, their passports are centrally managed by the government, otherwise they all think whether these two people have gone abroad.

At the airport in Mordor, Chen Sheng was sweating and took two young officers to take boarding passes and check their luggage.

"I don't know what happened this time. Old Wu and old Lu went to a meeting and didn't listen to the special meeting of the Central Committee?"

Ouyang was a little sorry that he didn't see old Wu.

"I don't know. Master and martial uncle simply said that they had a meeting at the headquarters and didn't say anything else."

"Hey, the level is still not enough!"

What the old lady always envies is not that you are rich or beautiful. What she envies is that you sit in a large conference room and hold all kinds of meetings seriously.

Zhang Fan tilted his mouth. Although it was a small move, Ouyang saw it.

"What expression? If you don't actively get close to the organization, you still don't think so. You should have a good party lesson when you go back."

The sweat is coming down.

Just said master and martial uncle, at this time, Zhang Fan's phone rang.

"Fortunately, I'm afraid you've taken off now. where are you. Is it Mordor airport? "

Master's phone, and the tone seems a little hasty.

"Yes, master, Ouyang and I are in the magic capital." Ouyang's ears stood up like a police dog. Zhang Fan added one more sentence, which made the old lady very happy.

"Don't go to Qingniao. Come to the capital right now!"

"OK, I'll buy a ticket for the nearest time now." Zhang Fan didn't ask what to do.

"No, you keep the phone unblocked, stay where you are, and there are staff in charge."

Then the old man hung up.

"What's the matter?" Ouyang asked.

"It is estimated that there are special cases in the capital. Shifu let me go."

"Oh, well, I'll go with you! This time I'll carry your bag and let Chen Sheng enroll in Qingniao. "

Ouyang said immediately.

"Well!"

Zhang Fangang wants to say something.

"Why, you don't want me to carry your bag!"

"Yes, yes, no, how can you carry your bag? I'll carry your bag!"

"Ha ha!" Ouyang smiled.

In the past, when I went to the capital, the highest level of the old lady held a meeting in the friendship hotel, and they were all new knowledge learning meetings. Therefore, I must follow Zhang Fan to have a look this time.

Before long, Zhang Fan's phone rang.

"Are you Dr. Zhang Fan, the tea vegetable? I'm Gao Chen, the Secretary of the airport. Where are you now? I'll ask the staff to pick you up. Now a non-stop plane to the capital is about to take off."

"We are at gate 3 of hall 2. We are two people."

Zhang Fan quickly said.

"I see. Please stay where you are." Then he hung up the phone.

Old lady Ouyang was tortured by the bad weather in Mordor. She was a little depressed. When she listened to the phone, she was full of energy and her eyes shone like an old cat about to hunt.

Zhang Fan always doesn't understand why she is so energetic.

"Stand up straight so that others can see you better. It can save a little time. It is estimated that this is the call of the country. Do you understand it? Stand up straight!"

The old lady stood like a model herself. Zhang Fan really shouted again: "you go to recruit students and let Lao Chen follow me!"

Two people stand straight in place. Others will take a look when they pass by like fools, but this effect really makes the staff come over at the first time.

"Excuse me, are you Dr. Zhang Fan? Tea vegetable, Dr. Zhang Fan. "

"Yes!"

Zhang Fan nodded.

"OK, please follow us."

A woman who was not wearing an army hat but obviously in uniform came with two secret agents.

Zhang Fan and Ouyang gang were about to bend down to take their luggage. The two secret agents immediately picked it up.

"Hey, this is a surgical instrument. I'll take it myself!" When leaving the West Lake, the elder martial brother of the sanatorium sent Zhang Fan a set of equipment, which was waiting for Lao Chen to check in.

"Don't worry, I'll hold it!" Without saying a word, the secret service took the equipment directly.

The female officer in flat leather shoes walked faster and faster, almost trotting.

"A little faster, the plane will take off soon."

"OK." Zhang Fan and Ouyang quickly catch up.

They didn't expect that the other party wouldn't even give them time to talk. Ouyang called while running.

"I went to the capital with you Zhang Yuan. You go to Qingniao. We'll contact you when we get there."

"What's the matter?" Chen Sheng is stupid.

"We have a task. Can you inquire about it? Listen to the order!"

Chen Sheng was hung up by Ouyang without even saying anything good.

"Chen Yuan, Dean and Zhang Yuan, where have they gone? Have they gone to the restaurant at the airport?"

"Just know to eat. When we go, there are only three of us left to go to Qingniao."

After the simplest inspection, Zhang Fan and Ouyang entered the boarding counter, while the luggage didn't come in.

"Where's my surgical instrument?" This set of instruments sent by elder martial brother is very good, and it is special for orthopedics, so Zhang Fan likes it very much.

"Don't worry, I've checked it for you. Don't worry! "

The female officer wiped the sweat on her forehead.

Ouyang despised Zhang Fan. I wanted to say something. It seemed that this time it was to carry Zhang Fan's bag, so I endured no ridicule.

Finally, I got on the direct flight to the capital, and the people in the cabin began to chirp and make noise.

"Hey, what's the matter? We're all on the runway and turn back. Men are in a hurry. What's the situation?"

A man who looked like a man in the capital stood and asked the stewardess.

"Sorry, air traffic control is temporarily. Please take it easy. " The stewardess politely explained this. They didn't know why the plane that was supposed to take off turned back.

"Allah has encountered such things several times. Hey, should you compensate us?"

A middle-aged woman who looks like a devil. She has pigeon eggs around her neck, pearls as big as eggs, and diamond rings all over her hands. She doesn't have to worry about these three melons and two dates. It looks a little funny.

Looking at the rich woman with a pearl necklace hanging around her neck, the stewardess smiled and said, "I'm sorry, I'm sorry."

At this time, while everyone was chattering, Zhang Fan and Ouyang boarded the plane.

The captain himself waited for them at the door.

"Hard work!" Looking at the sweat on Zhang Fan's head, the captain said softly.

"Yes!" Ouyang said solemnly.

Although they didn't say anything, they saw each other's extraordinary in their eyes. It is estimated that the captain used to be a soldier.

And Zhang fan can't feel it.

Zhang Fan and his crew were arranged in first class. This time, they were full. The captain personally

came forward to negotiate with the two first-class guests and gave up two seats.

"You have more rest here. It's estimated that the capital is in a hurry. The people who pick up the plane have been on standby at the capital airport."

As soon as Zhang Fan heard this, his heart clicked.

"Is it?" Zhang Fan turned to look at Ouyang. Ouyang patted Zhang Fan on the arm. "Have a good rest. Don't think about it. Now your task is to have a rest."

The plane roared off to the north.

Shao Hua and his two mothers also took off from the tea plant, and the flying demons were all gone.

The passengers on the plane whispered.

"Are these two from the capital?"

"It must be. Otherwise, how can we make the plane wait? And did you see that? The captain personally received it."

"Shit, they certainly didn't buy tickets! First class without a ticket. "

Some are curious and some are not curious.

Chapter 999

The capital was originally holding an expanded session of the National People's Congress or the Chinese people's Political Consultative Conference. Old Wu and they all attended. Zhang Fan doesn't know, and Ouyang doesn't know.

It seems that the meeting is still relatively confidential. It is said that it is related to medical treatment. All the leading leaders were invited to make a report. Therefore, it's not good to tell Zhang Fan in detail.

In fact, it's also noisy. It's an expanded meeting. What else can be kept secret. But the older generation is like this. If they don't let them say it, they don't say it.

Just like Ouyang, when others ask, she says, are you high enough? Asking about something.

As a result, on the last day of the conference, a vice president will attend the meeting in the future.

Moreover, the vice president is quite not simple, but think about it. Can it be simple for such a large country to participate in such a high-level meeting or vice president.

Moreover, especially this person is from Hong Kong.

People came to attend the meeting, or to attend a meeting related to medical treatment, but they fell into the meeting place.

Now, it's a direct flight to heaven.

Originally, the patient was to be sent to the military hospital. It was enough in terms of level, but the family members far away in the harbor heard that the old man they added fell in the meeting.

The doctor of harbor Maria hospital came here at the first time.

It was not appropriate to go to the military hospital, so the patient was sent to the golden mean hospital.

The patient is not a simple person, although his fame is not as famous as a city in China, nor is he treated as high as Lao Huo. Not as handsome as the gambling king.

However, when China was the most low-key and introverted in the 1970s and 1980s, he was also a big man who gave Chinese people a long spirit.

In the early years, when small meatballs were clamoring all over the world and claimed to buy out the golden Mao country, China dared not look at it at that time because it was poor and could not eat enough.

It was also a time when a large number of Chinese cultural relics were lost. In fact, to tell the truth, there was no market for Chinese cultural relics in the early years of the western world.

Because the Chinese people are poor, the Chinese cultural relics are not worth money. Unlike later when the Chinese people became rich, the Chinese cultural relics also made the golden hairs start to live in rare goods.

In the early years, only people from Marubeni and Gangwan would buy Chinese cultural relics in the cultural relics market.

This thing, to tell you the truth, can't eat or drink in the small, but in the big, it's culture and inheritance.

It is said that at that time, a poem manuscript written by Su Shi was still a painting. Anyway, the cultural relics that can make Marubeni a national treasure appeared in the cultural relics market.

Chinese people are most familiar with Lao su. It is estimated that it is not a poem. It is definitely Dongpo's elbow, but it is different in Marubeni. Lao Li and Lao Du have no market in Marubeni.

At that time, thousands of horses were silent inside China! There are few rich people.

The businessman of Marubeni is determined to win. It is said that the big man broke the pot and sold iron and shouted out the highest price of the year, tens of millions of dollars, and directly asked the people of Marubeni to give up the auction. Since then, many high-end people have called him: Anti Japanese hero!

The big man was later called the world's top five collectors.

As a result, on the last day of the meeting, the old man was absent! Then the waiter went to the room and saw that the old man was ill.

"Cerebral hemorrhage!" Take it to the hospital. It's a big thing to check.

Human brain, to be honest, this guy is very domineering. In all organs, it's really overbearing.

If you describe it in an anthropomorphic tone, it's just that people are small and there are a lot of things.

The brain, which accounts for only 2% of the body weight, not only consumes 20% of the oxygen in the whole body, but also the blood flow of the brain is about 15%.

How much is 15% blood? According to capacity and weight, most people have no concept at all.

If you estimate roughly, an adult has about 700ml to 800ml of blood in his head.

In other words, there are no less than two bottles of 350 Coke bottles. It can also be said that the amount of urine you get up in the morning is definitely not as much as the blood in the brain. Most people have less than two bottles of coke when they take a bubble of urine.

If you can fill it up, don't be proud. If it's a man, you have to check the prostate.

Imagine that an adult's head is directly a blood gourd.

The brain is afraid of falling and touching, so it has a hard armor and skull. Once the blood vessels of the brain break, it's good to touch them or hold them under too much pressure.

Once bleeding, the body will continuously transfer blood from the body to the brain, and then form a huge pressure.

This pressure will directly cause brain hernia.

What do you mean, blood presses the brain directly from the brain into the spinal cord.

This is fatal.

In case of brain hernia, the chance of survival is too small. Generally, the hospital does not rescue and directly asks the family members to carry it home.

Therefore, some old people have high blood pressure, but there is nothing abnormal, and they are not uncomfortable, so they don't take medicine. Yes, you don't take medicine. You think it's okay. Once you crush the cerebral blood vessel, it's a fatal thing.

Others touched their heads or were hit in the head with a blunt instrument.

I was a little dizzy and disgusting, so I slept in bed. It's not the same thing. I think it's good to wake up. At this time, I go to sleep as soon as I sleep, which is often permanent sleep.

After the big man entered the hospital, the big men outside the brain in major hospitals in Beijing began to consult. They agreed and had to operate immediately.

But there was a problem with the candidates for surgery.

This kind of operation, if detailed, is too troublesome. The terms in the brain can confuse the doctor, let alone outsiders.

But if it's simple, it's quite simple.

Because of the special structure of the brain, this kind of bleeding is actually draining first to lead out the congestion in the brain. Don't let this stuff squeeze the brain into the spinal cord.

This is the first step. The second step is to stop bleeding and close the damaged blood vessels. It's so simple.

So simple that even experts in major hospitals in China are a little scared?

If it is a craniocerebral hemorrhage in a general position, there is no need to consult the major experts in the capital. It can be done directly by others' golden mean. It can be said that the golden mean is the

high law in Chinese medicine. If you can live or not, you can make a judgment here.

But the old man's identity is special, even bleeding.

Because he's bleeding in the brainstem!

What is the brain stem? Generally speaking, it is the place where the brain is connected with the spinal cord.

It's called the back of the head.

What's special about this place?

It has a nickname: forbidden area of operation!

Because it manages vital functions, from heartbeat, respiration, digestion, body temperature, to sleep and other important physiological functions, are related to the function of the brain stem.

Therefore, this is also why some parents thought their children were naughty and wanted to punish them. As a result, they slapped the child on the back of the head and killed the child.

Some people have sore necks. Go to the blind master to set the bones for their necks. Really, they are lucky if they don't die.

"Now we must open the skull for drainage and decompression, but the bleeding is in the brain stem. Once the bleeding breaks into the ventricle inadvertently, the operation will become meaningless. Now the difficulty is here. CT shows that the hematoma and ventricle are between a few millimeters. A little bigger action will even kill the patient on the spot. "

The head of the consultation expert group explained to the head of the competent government.

Experts have explained it in the most popular language, but the head still didn't understand. At first he said he would have an operation, and then he said that the operation would kill people.

Whether to do it or not.

The chief doesn't look good either. Are you sure.

"Can I have an operation?"

"Surgery is necessary, but the risk of surgery is very high, and the chance of rescue is very small."

"Who can do it? Who can improve the rescue probability! " See the leader of the expert group thinking.

The head is deeply afraid that the doctor has concerns, or that he himself will leave a bad impact on the leaders.

Immediately added: "after all, people have their own strengths. I think there should be one or two people who are good at this kind of surgery in such a large country."

In fact, the leader of the expert group didn't think much about it. His current status was not inherited by my mother, but came up only after technology pressed a few heroes, so he didn't worry at all.

He was filtering in his mind at this time, "who is good at this?"

The leader's words sound correct. In fact, he is a layman, because there are too few people who can do it.

This kind of operation is often not worth the loss, so the general doctor will not work hard in this area.

Moreover, the surgery outside the brain should be accurate, and the brain stem should be more accurate. It is not only accurate, but also quite experienced. We can predict by experience.

So, it's too hard.

He sifted in his mind again and again, "the golden mean has not been done by several directors outside his brain, nor has the army heard of it, neither does Xihua Lao Wang, and Yaxiang Lao Chen..."

The expectation of the chief slowly disappeared. He also saw that the head of the expert group was sweating on his forehead.

At this time, the director of the second brain department, director Li, who has been to tea, said, "I have seen a doctor do brain stem surgery. And it worked. Although there are too few cases, he has succeeded after all? "

"Who?"

"Who is it?"

The head of the expert group asked with one voice.

"Dr. Zhang Fan of tea vegetable city hospital. When the Xue family boy was shot, I went to tea vegetable, and I worked as an assistant to Dr. Zhang Fan myself. I witnessed the whole operation with my own eyes.

In terms of accuracy, he is the most accurate one I have ever seen. "

"Contact, contact!" It's really a heavy mountain and a heavy river. There's no way to doubt. There's

another village with willows and flowers. The head hurriedly said.

"Tea element, frontier tea element? It's probably too late. We can drain first, but we must stop bleeding within three hours, otherwise the operation will have little effect. It takes three hours from the bird market to the capital. "

The head of the expert group said with regret.

"Prepare with both hands. You drain first. Dr. Zhang, I'll contact you. Please!"

"You're welcome. It's our responsibility."

After that, the chief will leave without asking the phone.

Lao Li quickly said, "Lu, the green bird, is always Doctor Zhang Fan's master."

Then they went into the operating room.

The chief went to contact Zhang Fan.

Chapter 1000

Rules, rules, to tell you the truth, Zhang Fan was most annoyed with these two words before graduation.

He felt that all these words were invented by the teacher for fear that the students would not obey.

Later, after he went to work and began to enter the operating room for surgery, he really understood the weight of these two words.

Let alone others, what rules are politics and what rules are the protective line.

Let's talk about the human body.

For example, bacteria in the mouth are beneficial bacteria when they are in the mouth. It can assist saliva, that is, amylase to decompose starch. For example, if you eat big steamed bread and chew it until the end, you can eat a sweet taste, which is due to the fixed bacteria in your mouth.

But when this thing goes to other organs, it's a big trouble. For example, if it enters the female reproductive system, it can cause female reproductive system infection and even premature delivery.

Really, it's not scary at all.

Therefore, the cat has a cat road and the mouse has a mouse road. What they say is wrong at all.

After the plane took off, the stewardess had to distribute meals.

So the curtain of the first-class door hasn't been pulled. Zhang Fan has never been a first-class cabin. He is not a low-key class. In fact, the most important thing is that he is reluctant to give up.

If someone reimburses him, he will definitely take first class, but there are too few such people. Don't even think about it. The old lady is simpler than Zhang Fan in eating, drinking and pleasure.

It's cheaper than the country today. Otherwise, if you want to take first class, there's no door.

Zhang Fan lay on the chair, touched the armrest and muttered, "it's really bigger!"

Just when Zhang Fan sighed.

I only heard an aunt talking to the people around me in the back seat.

"In what era, there are still people occupying public resources. Can't they come early by plane? Their time is time, isn't our time? "

The aunt looks like a teaching director, because she looks like she wants to cut your hair short.

"Yes! First class can wait, but we business class can't! "

This is a capital accent.

"People in the capital are great! Can let the plane take off fall down and turn around to pick up people! "

A man with an obvious accent in the south of the coast casually said that he looked like a slightly successful businessman who paid more attention to his clothes.

They are all in business class, not far from Zhang Fan and them. Economy class guests may feel uncomfortable, but they didn't hear what they said. It's estimated that they are far away.

"Brother, not all of us in the capital are like this!"

Said the capital man who had just spoken.

Zhang Fan had to rest because he knew that he must enter the operating room after getting off the plane, otherwise master wouldn't be so anxious to contact him.

Listening to the passengers behind, Zhang Fan was embarrassed and had to buckle his toes to the ground.

Although his skills have been improved and he is now the president, he has actually been treated by ordinary people. If he meets someone who delays the plane, he will feel uncomfortable.

"How do you explain that? Say we're on business?" Zhang Fan is really embarrassed.

It's probably not bad. If you say it, you can definitely quarrel.

The old lady was also embarrassed. She didn't expect that one day she would stand against the masses. But the expression on his face didn't change at all, as if he hadn't heard it.

Ouyang turned to look at Zhang Fan. Seeing Zhang Fan's uneasy face, he whispered, "why can't you stand it without a little concentration? When you transferred to another department, you were criticized by the patient's family! "

"Dean, I really didn't get directly from my family. Have you ever?"

Ouyang glanced at it. The timing was wrong at this time, otherwise Ouyang would definitely give Zhang Fan a class again.

They whispered a few words, and the aunt behind was ready to stand up and say two words.

It is estimated that Zhang Fan is also a militant. Seeing that they ignore themselves, they feel as if they are angry and want to stand up and compete.

In fact, this kind of person is not stupid. If Zhang Fan is wearing a suit like fan Zhesi, and Ouyang is carrying a limited edition donkey bag in his hand, then he will bring a more exquisite decoration.

She will never ask for trouble.

Unfortunately, Zhang Fan and Ouyang wear clothes of third tier brands, and Ouyang's bags are nothing strange. Therefore, the aunt thought that the two people were probably family members of the airline flying welfare planes.

Moreover, she took first class, which made her uncomfortable.

The stewardess came and advised me, and my aunt worked harder.

It's like a dog in the water.

"Now anyone can put on airs!"

Ouyang couldn't sit still. When did he get bullied like this.

The old lady stared with a triangular eye. She thought it was a little unreasonable and didn't speak, but now she sits and is scolded. Is this Ouyang's style.

No, Ouyang has to stand up when he puts down his bag.

In fact, when Zhang Fan spoke to his aunt in the back, he always paid attention to Ouyang.

Because he knows that Ouyang is not easy.

Therefore, when seeing Ouyang put down his bag to stand up, Zhang Fan quickly pressed the old lady down.

"Leader, you can be called a bureau seat now. You must not quarrel with people like the aunt of the neighborhood committee. Lose your share! Forbearance, forbearance, we'll be in the capital in a minute. "

Ouyang gave Zhang Fan face and didn't get up.

At this time, the loudspeaker on the plane, that is, the small horn, sounded.

"Hello, passengers. I'm the captain of this flight. Because of the delay just now, I'm here to sincerely apologize to all passengers and say I'm sorry. "

"It's useful to apologize. What compensation do you want!" Aunt muttered, but her voice was much lower.

The captain then said through a small horn:

"Because there is a critically ill patient in the capital who needs a doctor's operation, we received the information from the capital when we were about to fly, and the two doctors who can perform the operation happen to be in Mordor, so we delayed everyone's time in order to save people.

Here, I would like to apologize to all passengers once again. And your boarding information has been recorded by XX Airlines. In order to show our sincerity, we will have a free upgrade service when we

take our flights in the future. Thank you! "

The captain didn't say anything else. If he made it clear which department received the information, it was estimated that the plane would be busy.

In this way, I didn't make it clear. As soon as I said this, people who were not curious were curious, especially some old men and women came to see Zhang Fan and Ouyang.

Zhang Fan has never let everyone like visiting. Everyone Zhang Fan smiled at him embarrassed.

Ouyang has a proud expression. Although he wears ordinary clothes, his posture is still very sufficient. Zhang Fan is her little attendant at a glance.

At this time, the ridicule of business class was embarrassing for Ouyang and Zhang Fan.

The passengers behind are curious at most, because everyone is not stupid. They are really curious. Is it an ordinary doctor who can go to the capital for surgery and make the plane wait like waving to stop?

This legendary doctor has never been seen in reality.

After seeing Ouyang and Zhang Fan, several old men and women were persuaded back by the stewardess.

"Hey, a famous doctor is a famous doctor, and his bearing is extraordinary. He sits there motionless, just like a clay sculpture!"

"How can you speak? You old man can't even speak. It's called solemnity!"

Everyone will laugh and have fun. It's like bragging in the future.

Business class is different from first class.

Some of the passengers who didn't mock Zhang Fan smiled politely at Zhang Fan and Ouyang.

One even handed his business card to Ouyang. Of course, Ouyang didn't dare to hand it to Ouyang with a posture of no strangers.

However, looking at the little attendant, although he had black spots, he was still very kind, so he handed over his business card.

Zhang fanlue awkwardly took it over and explained, "sorry, I don't have a business card!" Then I looked at Ouyang, which means we should leave the phone number of the hospital office to others?

Ouyang glanced at Zhang Fan, which meant you were stupid!

Although there were no words, Zhang Fan still understood Ouyang's meaning and smiled awkwardly.

The person who handed the business card looked like he understood the meaning, and then made a phone gesture, "please call me when you get off the plane. Meeting is fate."

This kind of opportunity, this kind of opportunity to know famous doctors, not everyone has. Maybe if you seize the opportunity, you will be friends in the future!

When several people around looked, there was a door, and everyone began to hand over business cards.

Even a few people who had just mocked, especially the aborigines in the capital, quickly handed over their business cards.

"When you arrive in the capital, you must call me and apologize. I owe this mouth. In fact, I'm still good. I have a small restaurant in the capital, which tastes good! "

The aunt who took the lead in ridicule seemed to suffer a little, but she didn't have a business card. She quickly took out a paper and pen, wrote the phone and handed it to Zhang Fan.

"I am the teaching director of XX school. If the child wants to go to school in the capital, I can contact you. Your child should also go to school!"

Zhang Fan thought, is he so old? But he smiled and just wanted to pick up the paper.

Ouyang said, "do you want everything from anyone? Aren't you tired? What are we doing? Don't you know? With this Kung Fu, can't you close your eyes and sleep for a while? "

"Good! OK! Good! " Zhang Fan smiled, took the opportunity to close his eyes and lay on the chair.

At this time, my aunt's face went from red to green and then turned white.

Not to mention, several people who just mocked with him took the business card Zhang Fan, so they seemed to become a camp and looked at aunt with a disdainful look.

Aunt is almost foaming with anger.

.....

At the capital airport, the mediocre 120 listens directly to Zhang Fan on the apron.

The traffic police have also received orders. There are traffic police on standby at all intersections on the road to the golden mean, and there are more traffic police patrols on the road.
