

# Chapter: 1124

She didn't expect that Chen Feng's request would be this. It didn't seem to be a difficult thing, and it would be no harm to her to supervise her to work hard. She even thought it would help her.

"It's just that?" Lu Xin asked.

"You think it's easy?"

"Isn't it? And all this is what I want to do, I don't think it is difficult."

Chen Feng smiled and said, "It seems that you still don't know the difficulty of working hard. Ideas are always just ideas. He is only the first step to success. Persistence is to take the remaining ninety-nine steps. This is the difficulty. , I think even if I say this now, you can't understand it. When you really do it, think about it again."

Lu Xin knew what Chen Feng meant, but she still said firmly: "I know you think I will give up. I think I am just an ignorant woman who has never experienced any pain, but I know I will never give up. It's my pursuit."

Chen Feng was a little moved. Although he felt that such a woman who had never suffered from the beginning of a sensible age would not understand the pain of hard work, but now looking at Lu Xin, he still feels that he can give her such a chance.

"Let's take a look, I didn't mean to veto you directly, but if you can't do this, then I will take everything back, and you don't have to mention this kind of thing in front of me from now on. I'm referring to this kind of same thing."

Lu Xin looked at Chen Feng calmly. This was like a definition for her. If she can't do it, then she has to admit it honestly. She is just a good-looking woman, just one thing used to Appreciation of the vase only.

But Lu Xin had made enough vases. Before, she couldn't choose. She just followed Xu Fu and used her appearance to attract the attention of a man. But now, she didn't expect that after mentioning it with Chen Feng, Chen Summit agreed.

And this was like an opportunity for her to prove herself, and how could this not make Lu Xin excited, she bared her teeth and smiled relaxedly.

Lu Xin's beauty has some classical beauty. If he wears an ancient costume, he will definitely fascinate the scholars and scholars. Chen Feng subconsciously tilted his head. He didn't want Lu Xin to see him watching her.

After drinking the red wine in the glass, the glass was placed on the table, and Chen Feng said, "Seeing that everything is fine with you, then I will go back. I will contact you again for the teacher."

Because of what Chen Feng promised, Lu Xin was in a good mood, and wanted to let Chen Feng accompany him to talk more, but he resisted staying here and hurried to leave. She felt a bit resentful, but she didn't show it on her face. She just said: "Then you send me to the supermarket, I was going by just now, but you came suddenly."

Chen Feng did not think that Lu Xin was deliberately looking for a reason to approach him. He had no choice but to nod.

After leaving the door, waiting for the elevator, slowly descending from upstairs, waiting for the elevator door to open, Chen Feng unexpectedly discovered that the young mother who had just come up with him was actually inside, and she was alone at this time, without the child.

Seeing the two of Chen Feng, the other party was also slightly surprised, but only smiled.

However, Chen Feng still noticed that when the other party looked at Lu Xin, there was a trace of disgust on his face, as if he didn't really want to see Lu Xin.

Not knowing why, after Chen Feng entered, he asked directly: "You don't seem to like her very much."

He pointed to Lu Xin.

When I asked this question, the two women in the elevator were surprised. Lu Xin seemed to know the disgusting look in the other's eyes, but she didn't even ask. Then Chen Feng said it in person. Isn't this embarrassing?

And the young mother was even more embarrassed: "I don't know, what are you talking about."

Chen Feng said, "I saw you look at her disgustingly. Did she do something? It makes you hate her?"

Lu Xin pulled Chen Feng's arm and said, "Okay, don't talk about this kind of thing anymore."

Chen Feng looked at Lu Xin doubtfully, and said, "Do you know the reason?"

Lu Xin didn't know how to answer Chen Feng at all, she naturally knew.

People in the community knew that such a woman had moved in, and it spread quickly. Men often stared at Lu Xin because of Lu Xin's appearance. This naturally caused dissatisfaction among the women. Some people with broken mouths might be dissatisfied. I was jealous of Lu Xin's appearance, and said some ugly things, so the community described Lu Xin as an image of a person doing his best.

But Lu Xin also knew her identity. Although she didn't have that kind of relationship with Chen Feng now, she was also a third party before. She just assumed that she hadn't heard these gossips that she heard occasionally.

But now Chen Feng asks, is she going to tell her own shame?

She glanced at Chen Feng with a bit of resentment, and then ignored it.

Chen Feng had no choice but to look at the young mother just now.

"Can you tell me? Why do you hate her? I don't have any bad intentions. I just think it's weird. And she lives here. I don't want her to be bullied that day?"

Lu Xin was also taken aback. She didn't expect Chen Feng's goal to be like this. The grievances just now dissipated for the most part, and she was even touched.

But the other was dumb. She saw that the relationship between Chen Feng and Lu Xin was naturally a close relationship, and she couldn't tell Chen Feng what was discussed in the community.

"Really not, I didn't look at her disgustingly." The young woman said helplessly.

Chen Feng wanted to continue to ask questions clearly. He clearly saw it, and his expression at that moment would not be fake.

But Lu Xin stopped him and said, "Okay, don't be embarrassing others. I'll talk to you later."

Chen Feng apologized to the young woman: "I'm sorry, I scared you."

If the young woman is more temperamental, she may argue with Chen Feng. After all, this is too unreasonable to make trouble, but at the end, she didn't say a word out loud, even with a lingering fear.

Soon after arriving on the first floor, the young woman hurriedly fled out, fearing that she would detour next time she saw Chen Feng.

"You see you scared people." Lu Xin rolled her eyes at Chen Feng.

Chen Feng said helplessly: "But I really didn't read it wrong. That's how I looked in my eyes. Naturally, I want to ask clearly. Should I wait until you are bullied here and then I will come and look for them?"

Lu Xin also knew that Chen Feng was kind, and she didn't really blame him, so she softened her tone and said, "Okay, I know, you don't need to do this. This is my own business and I can handle it myself. "

Chen Feng shook his head.
