

Chapter: 1843

After saying this, Lin Fan left here without looking back!

At this time, Xu Yourong was completely frozen in place!

What does Lin Fan mean?

Planning to completely break with yourself?

Don't interact with each other in the future?

Hearing Lin Fan's unfeeling words, Xu Yourong suddenly felt heartbroken. At this time, she hated Wang Yanli.

It's all because of her, that's why Lin Fan hates her, right?

It's no wonder, who made her stand on such a mom?

Being involved with her is equivalent to being involved with her mother. Who can bear such a mad woman?

Xu Yourong can fully understand Lin Fan's mood!

Puff!

Xu Yourong sat slumped on the ground, his face completely pale, with deep despair and bitterness.

At this time, she was completely desperate!

To her home, to her mother!

And this time!

Wang Yanli, Wang Zhijun and others have successfully cashed 500 million in Global Bank. Looking at the series of numbers in their respective mobile phones, they only feel that happiness has come too suddenly!

"You idiot, why don't you only need five hundred million, that boy promised so simply, he must have more than five hundred million!"

Wang Youcai scolded angrily, he had to ask Lin Fan for at least one billion!

In that case, each of the three of them can get more than 300 million!

"That's something that doesn't open up! Who made your mouth so quick, how much money did it cost us in vain?"

Wang Yanli also complained on the sidelines.

These three people are typically not greedy enough to swallow the elephant, and now they have earned 500 million, but they don't even know how to be grateful, let alone give it up!

"How do I know he is so rich?"

Wang Zhijun also said innocently, and then turned around and smirked:

"What are you panicking about, there will be a long flow of water in the future, there are opportunities!"

What?

Both Wang Youcai and Wang Yanli were stunned, and they didn't expect Wang Zhijun to be so black-hearted!

"Are you going to blackmail him another sum?"

Wang Yanli asked in astonishment.

Wang Zhijun smirked, his face full of greed:

"Of course, this is a fat cow, can I let him go so easily?"

"His secret, I will eat him for a lifetime!"

Wang Zhijun's meaning is obvious, that is to completely squeeze Lin Fan dry!

If Lin Fan doesn't want to get a divorce, he can only keep giving him money until he is satisfied!

"It's still bad enough for you kid! You want that trash to have a life of restlessness!"

Wang Yanli laughed and said, greed in her heart too, if energy is constantly pitted from that waste, it would be great!

"Hahaha, then it's settled! When we squander all the money, then we will pit that kid again!"

Wang Youcai also laughed, so that they would have inexhaustible money, and the money in their hands could be squandered at will without worrying about running out.

Because after running out, Lin Fan, the God of Wealth, will still give them money to spend!

just!

They didn't know, they underestimated Lin Fan, but overestimated themselves.

It is because of their greed that leads them to the abyss of despair step by step!

The time of death is approaching!

.....

It was not long before Lin Fan left the hotel when he received an unexpected call.

"Aunt Rowling, what's the matter?"

"Xiao Fan, the Lin family just asked the Global Bank for a loan of 500 billion yuan. It seems that they are really poor and there is no way to do it!"

Oh?

The corner of Lin Fan's mouth suddenly raised a strange arc, and asked:

"Then did you lend them?"

Hahaha!

Hearing that, Rowling's hearty laughter came from the other end:

"Of course, and it is an unlimited liability loan, which means we can ask them to repay the principal whenever we want!"
