

# Chapter: 4004

“I’m going down.”

“I’ll keep watching you from below.”

Noya smiled at Ye Fan.

Then he turned around and retreated into the crowd.

However, what Noah did not expect was that.

She just turned around when Xue Baihao only felt a palm stretched out on Xue Baihao’s wrist and grabbed her hard.

In Nuoya’s terrified eyes, she only felt a huge force, and her jade-like body was pulled to Ye Fan’s side again.

Ye Fan looked down at her, and there seemed to be thousands of stars reflected in his deep eyes.

“Noah, why belittle yourself?”

“Remember in the future, as long as I am Chu Tianfan, there will be your place.”

In front of countless guests, Ye Fan smiled faintly.

After finishing speaking, he did not wait for Noah to answer.

He took Nuoya’s hand, faced countless respectful eyes, and together with Nuoya, ascended to the sky!

In one fell swoop, he stood on the top of India.

……

“Mr. Chu is majestic and unparalleled in the world. He can be said to be the number one hero in the world!”

“In the martial arts of India, we have respected the strong and heroes since ancient times.”

“Mr. Chu entered our country in India and ran rampant in our country for many days, which made my generation of Chinese people feel full of brilliance.”

“Today, the lord of the country of India has the cheek to represent the country of India and give Mr. Chu a kingship.”

“Please don’t shirk, Mr. Chu, don’t dislike it.”

“I don’t know, Mr. Chu, what do you think?”

The lord of India had a flattering smile on his face, and said to Ye Fan very politely.

The guests below looked and listened, dumbfounded.

They had a feeling as if their king was begging Ye Fan to accept this title.

Mad!

Really more popular than dead people ah.

In ancient and modern times, at home and abroad, how many people were wrapped in horses and leather and died in battle just to seek the title of a marquis.

But now, the lord licked his face and took the initiative to send it, and he had to ask others if they would like it or not.

This human thing is so ironic.

Some things are not available to those who are lacking. There is no shortage of people, but they are rushing to send.

Faced with the question from the lord of India, Ye Fan just replied indifferently: “Yes!”

The Indian lord was immediately overjoyed.

Immediately, people were presented with the golden seal of the king and the crown suit.

Public announcement at the same time!

Seal Chu Tianfan, the king of Nanda. Tens of thousands of hectares of fiefs, millions of food towns, hereditary is irreplaceable!

After hearing this, everyone was terrified.

King Nanda?

Ten thousand hectares of land?

Food city million?

Such treatment can be described as a country within a country!

This treatment is too high, isn’t it?

You must know that in modern times, the so-called title is more of an honorary title, a false name, and has no real benefits.

But this time, Ye Fan was given land and population.

This is what really made Ye Fan the king of the fief.

Many people just think that Ye Fan has taken a big advantage.

However, the Indian lords do not think so.

Like King Foluo and the others, they still feel that their country has dipped a lot.

King Foro said this when he advised the lord of India.

Chu Tianfan is a great talent in the world!

One person can destroy all nations!

If our country of India can acquire such great talents, it can protect the country’s martial arts and have no worries for five hundred years.

The Yanxia Martial God Temple did not understand this, which led to the danger of destruction.

We have learned from the past, and our country must learn from it.

Draw Ye Fan into the ranks of my country in India!

Even if you can’t be a friend, you can never be an enemy!

……

“I learned that Mr. Chu will be leaving soon.”

“I hereby set up a state banquet to practice for Mr. Chu!”

“Come!”

“Everyone toast with me, I wish Mr. Chu, Mrs. Chu, a smooth journey!”

The banquet is coming to an end.

The lord of India brought a kind of royal aristocracy and toasted Ye Fan.

Those few words, if translated, were to tell Ye Fan to leave immediately after eating.

Although Ye Fan is very arrogant.

During the war, Ye Fan can stabilize the situation and is the pinnacle of the sea.

But now that India is in a time of peace, the existence of Ye Fan is the biggest factor of instability.

At this time, King Foluo and the others naturally hoped that Ye Fan would leave quickly.
