

Cruel Heart Lover Novel

Chapter 226

After returning home at night, Selena continued to use the excuse of losing weight, didn't eat dinner, and got into the house immediately.

I'm really grateful for her soaring weight with Rick these days, giving her such a good reason!

After a while, there was a knock on the door. Fortunately, the footsteps were not from Daniel.

Selena had just finished taking a shower, she walked over to open the door while wiping her hair.

I saw Wanwan standing at the door, holding a tray with food in his hand, and seeing Selena's appearance just after taking a shower, he was obviously stunned for a moment.

The girl in front of me is so beautiful, and her white and rosy skin just after taking a bath is even more attractive. Even a woman can't help but be moved by seeing her. It's no wonder that the young master...

Wan Wan quickly shook his head to regain his senses, and said, "Miss Selena, the young master asked me to bring some food up. Although it is important to keep fit, you can't starve to death. These are low-fat and low-calorie foods. It's okay to eat a little!"

"Okay, thank you, Wanwan!" Looking at the cute little maid, Selena's nervousness eased a lot, "Wanwan, you changed your hairstyle, it's so cute, it suits you very well!"

"Thank you, Miss Selena!" Wanwan stroked her hair happily, then said hesitantly, "Miss Selena, you are really nice, in fact, I think you are very suitable for the young master, if you can be our young mistress That's fine! Otherwise, if other scheming women enter the door, we must be miserable!"

Selena: "Uh..."

Why did even the little maid start assisting?

Please let it go!

Then Wanwan knocked on the door again and brought her a glass of milk.

When the knock on the door rang for the third time, Selena was lying on the balcony railing and blowing the air, thinking it was another bend, so she just said please come in.

As a result, it was not until the footsteps got closer that something was wrong.

Turning around, he saw Daniel's face close at hand...

"Daniel..." Selena subconsciously squeezed the railing tightly, "Is there something wrong?"

Daniel didn't speak, but just stood quietly in front of her and looked at her.

The girl in front of her was wearing ankle-length court-style pajamas, which covered everything that should be covered. Her hair, which was just blown dry and still slightly wet, fluttered gently in the night wind, and there was still moisture on her cheeks. Flushed after transpiration, a trace of fright and defense flickered in her nimble eyes...

Just when Selena's scalp was going numb from being stared at, Daniel finally spoke up, "Selena..."

Selena: "Hmm...?"

Daniel: "I miss you very much."

Selena's eyes widened immediately, and she almost had auditory hallucinations later, "Ahem... what... what..."

Daniel stretched out his hand, gently picked up a strand of hair from her ear, and said in an ethereal tone like the chill rising from a pool of ice, "It seems like I haven't seen you for a long, long time..."

It's only two days, okay?

Phew, that's not the point!

The point is that Daniel just said he missed her.

He directly said that he missed her.

This development is wrong!

She must be hallucinating, right? definitely is!

However, when Selena kept making excuses for Daniel's behavior, Daniel took a step forward, put one hand around her waist, and gently walked in his direction, just like that, hugging her into his arms ...

At the same time, his other hand also circled up, leaned over, and gently buried his head in the hollow of her neck in an extremely tired and nostalgic gesture.

Selena: "!!!"

Chapter 227

Ahhh! Dmn!

What's the situation?

Selena's brain was full of garbled characters as if it had been invaded by a virus, and her first reaction after finally waking up from the confusion was to quickly push him away.

In the end, Daniel tightened his arms, and the voice in her ear sounded a little pitiful, "Don't move, please? Let me hug you for a while..."

Selena: "..."

How would she respond to this request?

Dmn it, what happened to Daniel?

Although she was avoiding him on purpose these two days, she has always been careful and would never startle the snake. Why did he suddenly...

Ten seconds passed...

Thirty seconds have passed...

a minute passed...

Three minutes passed...

After a while, it fell! It's too unbelievable!

The moment Selena could bear it no longer, Daniel let go of her, "Sorry, I lost my composure."

Selena swallowed, "Uh heh, it's all right..."

Nima scared her to the point of having a heart attack, and it ended with a gaffe?

What's even more tragic is that she can't even say "no"!

Daniel looked at the girl's aggrieved expression, and a gleam of light flashed imperceptibly from the bottom of her smiling eyes, "Go to bed early, good night."

"Hehe, good night, good night, and you too..."

Dmn her, she doesn't need to sleep tonight!

...

The next morning, as expected, Selena, who had suffered from insomnia all night, hid in bed and dared not get up.

Finally, she secretly made a phone call to Wan Wan.

"Wanwan, has your young master gone to work yet?"

"No! But I think the young master is very busy. The phone has not been disconnected since he got up and went downstairs. Assistant Cheng also came over in a hurry, as if to ask the young master when to leave..."

"And then?"

"Then the young master still didn't leave! He's been downstairs all the time! I don't know what I'm waiting for..."

Selena: "..."

It seems that there is no way to hide!

Selena took several deep breaths, adjusted her mentality, put on an indestructible mask, and went downstairs with a calm and natural expression.

I saw Daniel sitting on the sofa on the ground, and the special assistant Cheng Feng was holding a lot of documents in his hand, with an anxious face but he didn't dare to rush.

Selena stretched while going down the stairs. When she looked at Daniel downstairs, she purposely made a surprised expression, "Hey, Daniel, it's already this time, why haven't you gone to work yet?"

Hearing the girl's voice, Daniel raised his eyes and glanced at her lightly. His eyes wrapped around her gently like woolen yarn...

"I'm waiting for you," Daniel said.

Selena was dumbfounded: "..."

Why did she suddenly realize that she couldn't talk to Daniel properly?

Just when Selena was dazed, Daniel got up and walked towards her.

Selena reflexively wanted to hide back, but the man's gaze firmly fixed her in place as if with an invisible force, unable to move.

In a while, Daniel had already walked in front of her, stroking her hair with his broad palm, "If I don't wait for you now, I won't see you for a whole day."

Selena continued to be dazed: "..."

"I'm going to work," Daniel said, leaning over to press a kiss on her forehead.

Selena: She was completely dead.

Behind him, Cheng Feng had a stunned expression of being blinded by a dog's eyes, and then blushed and avoided his eyes with a look of no evil.

It's too miserable, I almost went crazy early in the morning, and I was abused by a dog once!

Chapter 228

It wasn't until Daniel had left for a long time, Selena still stood there in a daze, her fingers unconsciously touching the forehead that was k!ssed just now, the hot feeling continued...

Although the k!ss was only on the forehead, even though she had even secretly k!ssed him before, this was the first k!ss when both parties were awake.

At this moment, Selena finally understood...

Daniel must have discovered her strategy long ago, so he also changed his strategy!

It would be fine if he continued to pretend as before, but if he simply turned the darkness into the light without concealing it, what would she do?

Depend on! Ruined!

Sure enough, he can't play him!

If they were really forced to that point and made everything clear, then there would be only one result, they would break up unhappy, or even worse...

Selena was flustered when she suddenly felt her trousers being pulled. When she lowered her head, she saw Rick looking up at her.

"Little Treasure..." Selena was surprised when she saw that Little Treasure was holding a pair of watercolors, "Did you finish it so soon?"

Rick nodded shyly, then looked at her expectantly.

Selena's plans for the future are all to accompany Rick. Yesterday, today's itinerary was arranged, and she took Rick to fly a kite, and she had to do it herself.

After seeing Rick's painting clearly, Selena was a little surprised, "This is what you drew..."

Except for her and Rick himself, Rick rarely painted portraits, and he never painted people in his landscapes, but this time, Selena discovered that there were three people in his paintings.

There are white clouds floating in the vast sky, and there are three people sitting on the clouds, a man and a woman, and there is a little boy in the middle.

It was still an abstract painting, but in terms of characteristics, Selena could still recognize the people in the painting as her, Daniel, and Rick at a glance.

Before, Rick always hated to see Daniel. Even when he was painting, he only painted her, or only the two of them, and never brought Daniel with him.

This was the first time Rick brought Daniel with him...

Selena was slightly taken aback, but soon returned to normal, and took Rick's hand, "Let's go, let's use it to make a kite! The butler grandpa should have prepared the bamboo sticks for us to make the skeleton!"

Rick nodded, but his expression seemed a little disappointed.

...

Selena accompanied Rick to fly the kite for a day, and even cooked the meal herself in the evening.

For the first two days, she took Rick out to eat, and then came back very late, and got into the room as soon as she came back. Now it seems that this trick has obviously failed, and there is no need to continue.

She had just finished cooking when Saul, like a dog's nose, ran over wagging his tail following the smell.

"Wow... It's all my favorite food... Sister-in-law... Bah, cough, cough, Selena, I can wait until you cook again!"

Selena cast a sideways glance at Saul in a slightly speechless manner. Didn't this guy call her "sister-in-law" just now?

"Go ask your brother to come down for dinner."

"Oh, okay!" Saul ran away in a hurry, and at the same time, he was full of suspicion. He accidentally called out just now, and he broke out in a cold sweat. Selena didn't respond? Did you not hear clearly?

At the dinner table, with his keen intuition, Saul felt that there was something wrong with these two...

"It's not right, it's not right..." Saul bit his chopsticks, leaned closer to his brother's ear, and whispered, "Brother, did you do something to Selena? Why does she look so afraid of you? You can't even look at him." I dare not even look at you!"

Chapter 229

"Nothing," Daniel replied. There was nothing strange on his expressionless face.

"Is there something wrong with my sixth sense? It's impossible..." Saul scratched his head in confusion.

Finally, the meal is finally over.

Selena felt that eating this meal was more tiring than fighting, and she must always be on guard against enemy attacks.

After the meal, Selena immediately stood up to clean up the dishes, "I'm going to wash the dishes!"

Saul swept away the last piece of sweet and sour pork ribs on the plate, puffed his cheeks, and said, "Let me do it!"

"It's okay, I'll wash it, I'll wash it!" Selena hurried to get to work, and if she didn't find something else to do, she would go crazy.

Saul looked at Daniel who was next to him with some scruples, and hurriedly said, "You have worked so hard to cook, how can I let you wash the dishes? I eat the most, so of course I do the washing!"

After Saul finished speaking, he gave his brother a look of asking for credit.

In the end, Daniel glanced at him casually, and said, "Let Selena wash it."

"Ah..." Saul was shocked when he heard this.

Is the sun rising in the west today?

The wife-protecting madman actually asked Selena to wash the dishes.

This is not scientific!

When Saul was puzzled, Daniel looked at him and said quietly, "After all, you are a guest."

Saul was stunned and pointed to his face, "what??? I'm a guest???"

The implication is that Selena and he are family, right?

He just became a guest?

Selena's cheeks were flushed, she held her forehead with an expression of lovelessness, and finally fled upstairs...

Rick looked at Aunt Selena who suddenly ran away with a confused face. Although she didn't know what happened to Aunt Selena, she could see that it was Papa who bullied her, so she gave Daniel an unhappy look, and then walked forward. The short legs followed.

Saul, who was so caught off guard by being sprinkled with dog food, stared blankly at Selena's fleeing back, and said speechlessly, "Brother, this is what you said you didn't do? Even a girl as tough as Selena was raped." You were so teased that you covered your face and ran away, okay!

I knew my sixth sense couldn't be wrong! I said what the hell are you doing! I am careful every day for fear of revealing my secrets to you, but why did your painting style suddenly become so unrestrained, at least give me some inspiration, so that I can know what to do and how to cooperate with you in the future..."

Saul mumbled like a Tang monk for a long time, and Daniel replied with three words: "Go wash the dishes."

After finishing speaking, he turned nobly and coldly and went upstairs.

Saul: "..."

He was abused so badly that he almost vomited blood, but in the end, he was the one who washed the dishes.

Use him to show off his love and throw it away? What about human nature? What about heaven? Is there a little brotherly love?

In the quiet night, Selena lay on the bed with her eyes wide open.

Several hours have passed, and the heart is still beating at an abnormal speed.

What the hell!

After all, she has seen so many turbulent waves, and she panicked like this because of a man's words, and she was like a teenage girl with no experience in love...

She can hardly imagine what the future will be like...

No, no, no, I can't continue to sit and wait like this!

At this time, with a "click", the wall clock on the wall pointed to twelve o'clock in the morning.

Selena got up abruptly, and began to rummage through boxes...

Chapter 230

After searching for a while, Selena changed into a silver sequined camisole, black tight leather pants, and 12cm high heels, and then painted herself a smoky makeup that her own mother couldn't recognize who she was.

Cinderella puts on a gorgeous dress at midnight and drives a pumpkin carriage to the palace to meet the prince. As for her, in the middle of the night, she dresses up as a goblin and goes to a nightclub to get the disgust of the big devil...

Hey...

Daniel has been very busy these two days, so he shouldn't be asleep at this time, right?

Selena ran to the balcony and looked in the direction of the study, and sure enough, she saw that the light in Daniel's study was still on.

So she ran to knock on the door decisively.

Well, try to blind him later!

"Dong dong dong" knocked on the door three times. After a while, there was a sound of steady footsteps inside the door, and then the door opened.

After seeing the people outside the door, Daniel was really startled, "You..."

"I asked a friend out for a drink, so I'll come over and talk to you!" Selena finished speaking, looking at Daniel's reaction expectantly.

Daniel's surprise was only fleeting, and he nodded knowingly as if he hadn't noticed her exaggerated attire, "Okay, have fun."

After finishing speaking, he asked, "Do you need me to ask the driver to take you?"

Selena's face darkened, "Hey, no need, I'll go by bike..."

She took a deep breath, and just as she pulled herself together and was about to leave, Daniel who was at the desk suddenly walked towards her.

What does he want to do?

Selena took a step back subconsciously, but she still didn't avoid Daniel's touching hand...

His fingers touched her earlobe and gently squeezed it. Selena's hair all over her body was fluffed up. She covered her ears and looked at Daniel with a strange expression.

The corner of Daniel's mouth curled imperceptibly, and he pointed to the place he touched just now, "You have a black mole here."

"So?" Why are you talking about her mole in a polite way? Selena's mind was already in a mess, and now she couldn't understand his logic.

"Although most people will not recognize you with your outfit and makeup, but this mole is very iconic and completely exposed. It's best to cover it up." Daniel said.

Selena stood two steps away, "It's just a mole, no one will notice it, right?"

"Be careful."

"Okay, you're right, I'll wear bigger earrings later to cover it up!"

"Ok."

After a short confrontation, Selena finally left the gate on her bicycle.

Why did she have the illusion that she would lose miserably when this round had just started?

No, no, no, no, sober up, we must break the superstition of the Great Demon King!

...

bar.

It was rare for Selena to indulge herself once, ordering a bottle of wine and sitting at the bar to drink for herself.

The demons danced wildly on the dance floor, but she didn't have the slightest interest, she was absent-mindedly holding a glass of wine in a daze.

In places like nightclubs and bars, she has long since lost any sense of novelty in those years abroad. No matter how hot the scene is, it seems to her to be a funny and ridiculous mime without sound...

After finishing one bottle of wine, Selena ordered a second bottle.

Instead of relaxing her, the alcohol made her more upset.

At this time, a man walked towards her with a glass of wine in his hand, "Miss, alone?"

The man is in his thirties, well-dressed, looks like an elite, and looks good about himself.

In the time it takes for a bottle of wine, many men in the bar have already noticed her, but Selena, who looks like a veteran of the rivers and lakes, most people dare not make a move easily.
