

Cruel Heart Lover Novel

Chapter 39

"Dmn it! Everyone thinks who they are!" Selena suddenly waved her fist excitedly. If Daniel hadn't reacted quickly, with the force of this punch, his jaw would probably be dislocated.

"Girls shouldn't swear." Daniel frowned.

Although she is also cute when she swears.

Selena was very drunk, but she probably had a subconscious mind. She felt that the person holding her was harmless and very gentle, so she gradually relaxed and sat on the man's legs, leaning against his arms. No longer struggling, drunkenly talking, "I just disdain...otherwise...otherwise just rely on my face...to find someone with big...big thick legs to hug...you think you can hold me...I Go find it now... go now..."

Daniel raised his brows slightly when he heard this, and gently grabbed the woman's hand with his slightly rough palm, and placed it on his lap, "Here are the thickest legs in the capital, where else do you want to find them?"

Selena carelessly touched that muscular thigh, and then flew into a rage, "It's not thick! It's not thick at all!"

Daniel: "..."

It's not rough enough to be disliked.

This is undoubtedly unacceptable to every man.

What's worse, her hand flicked on his leg and touched where it shouldn't be, and even slapped it there, "Well, what is this... hate... it hit me..."

Very distasteful tone.

Daniel's face turned green.

Let her go on like this, he might do something against the principle.

The person outside should have gone far away, so Daniel quickly opened the door, hugged Selena and walked out.

To the underground garage.

It was Saul who ran away to open the door for him.

"Why are you?" Daniel frowned.

"I went to your place to look for you, but you and Rick were not there, so I came here to look for you! Brother, you are too unloyal. When did you buy this car? It is worse than the one you gave me. Wind, I don't even know!" Saul looked sad.

Daniel ignored him, and carried Selena into the back seat.

Saul's co-pilot in front poked his head out and stared at Daniel and Selena's disheveled appearance with shining eyes, gossiping, "Where did you pick her up? Why has it been so long? Look at our little treasure." I'm almost waiting to become a Wangfushi!"

Little Treasure's small face, which was originally pressed against the car window, immediately stuck to Selena when he saw Selena.

Daniel was worried that Selena would go berserk, but when Rick approached, she didn't react violently. Instead, she fumbled and hugged the little guy in her arms, hugging him comfortably like a pillow.

Naturally, Daniel would not satisfy someone's desire to gossip, so he slowly took off his tie and his sweaty coat, "What happened today?"

As soon as he mentioned his specialty in intelligence searching, Saul immediately excitedly said, "According to my information, everything went well. You even summoned Arthur. naturally managed to amaze the audience, and the media gave her good reviews!"

"Who did she meet tonight?" Daniel asked again.

Saul recalled, "Apart from the crew, there is only Ning Yaohua, other than that..."

Saul glanced at his brother's expression, and thought about his words before he said, "Roman... I guess she's so drunk because she sees her old lover as the man who is the deadly rival Susie, so she feels uncomfortable... .."

Although Saul had carefully considered his words, Daniel's expression darkened instantly.

It's really scary.
