## Chapter 451

## Chapter 451

The Italian man said, spreading his hands innocently, "Dear fellow, you can't blame me for this. It was Daniel who I wanted to kill. She came to my door by herself, killed all my people, captured Alice, and destroyed All my plans!"

Speaking of this, a gloomy cold light flashed in the Italian man's eyes, frightening those beauties who were still clinging to him just now, they didn't dare to approach him now.

The black-haired man seemed unaware, and said expressionlessly, "Mr. Augustine, you violated our covenant."

The Italian man stood up unsteadily, smiled nonchalantly, and was going to pat him on the shoulder, "Hey buddy, take it easy, satan hasn't done anything for a long time, I'm just helping him!"

The black-haired man quickly avoided Augustine before he touched his body, still with an expressionless face: "Mr. alliance, so far."

The Italian man was stunned for a moment when he heard the words, then his expression changed instantly, and he said in a gloomy tone, "Do you know what you are talking about? Whose order is this!"

"Satan."

The Italian man pushed away a beautiful woman next to him, with an extremely gloomy expression on his face, "Then let him talk to me in person! You're a fart!"

In the next second, the black-haired man turned the laptop on the coffee table to the direction of the Italian man.

What I saw on the computer screen was a dimly lit room. A man was sitting on a large seat. The figure of the man was shrouded in the darkness, and he could only vaguely see his head tilted and his slender legs...

"Satan, you want to tear up the covenant! Just for a woman?" The Italian man showed an angry expression at the computer screen, like an angry lion.

Compared to the furious Italian man, the voice of the man on the screen seemed to just wake up, and he said lazily and casually, "Just for a woman."

"You're kidding me!!!" The Italian man thought he was just making up an excuse, and kicked over the table next to him, his handsome face was extremely ferocious at the moment, "Tear up the covenant, you should think about the consequences!"

The man on the screen seemed to chuckle, "Consequences? Kevin, tell Augustine."

"Yes." The black-haired man nodded, and then looked at the Italian man with no human emotion in his cold eyes: "From now on, all transactions between us will also be terminated."

As soon as the words fell, the drunkenness on Augustine's face finally dissipated, his eyes were scarlet, and his handsome face was extremely distorted.

The termination of all transactions means that they have lost 90% of their sources of arms...

"Okay, since that's the case, I'll let you know now the consequences of betraying your allies!!!"

As Augustine's words fell, the music in the bar suddenly stopped, and seven or eight strong men with guns rose up, and the muzzles of the black holes were aimed directly at Kevin. Now only order from Augustine is needed, and Kevin will be killed. Strain into a sieve.

However, at this moment, Kevin suddenly slowly took off the cold-glowing gold-rimmed glasses, then stood up, adjusted his cuffs slightly, and when he raised his head to look at Augustine again, the original indifference in his eyes turned into a trace. It was almost abnormally weird and crazy, and even the tone was a bit sinister, "Mr. Augustine, I think you made a mistake."

## **NEXT CHAPTER**

### Chapter 452

"You stupid weak chicken! What did I do wrong!" Augustine said viciously.

At this time, an extremely pleasant low laugh suddenly came from the computer, "Hehe, what an interesting name...Kevin, I wish you a pleasant night."

After speaking, the computer went black.

Hearing what the man in the computer said just now, Augustine felt inexplicably uneasy...

Kevin, the black-haired man in front of him, is Satan's second-in-command. He is extremely sensitive to numbers. He is in charge of the most core accounts of the entire organization. He is surrounded by experts to protect him, but he is powerless.

This kind of weak chicken... is alone in his territory at this moment... what danger can it be...

However, although he has never seen Kevin make a move, it doesn't seem to mean that he has no skill at all?

Hmph, even if he has some ability, this place is full of his people, and with so many guns pointed at him, he can still turn the world upside down!

Augustine's expression became more and more fierce, and he ordered his men to attack him. However, at this moment, Kevin, who took off his glasses, suddenly changed into a black shadow, whose speed seemed to surpass that of ordinary humans. The limit, almost in the blink of an eye, has escaped from the muzzles of those black holes.

At that moment, Augustine felt chills all over his body, as if some kind of inexplicable evil had occupied his body.

In the next second, the aorta on the neck was pressed against by a bone-piercing dagger, and the pain made Augustine more awake.

"Generally speaking, if you want to kill me, you need at least a fully armed special team...Mr. Augustine, are you looking down on Mr. Tang, or...overestimating yourself!" No After being blocked by the glasses, Kevin's extremely deep eyes showed a morbid madness.

"You, you, you... Kevin, you have thought clearly! What will be the consequences of going against us!" Augustine trembled, and no matter what, he never thought that Kevin's skills had reached this level.

"Mr. Augustine, let me remind you, this is Las Vegas... Just now Tang said that the so-called consequences are something only you need to consider..."

After Kevin said, the dagger in his hand flashed coldly, and with Augustine's screams, one of his ears was cut off, and the blood splashed out dyed the ground bright red.

Kevin licked the corners of his mouth wantonly, eyes full of bloodthirsty pleasure, and said quietly, "You should thank God, my dear little junior sister is unscathed, and it will be your useless men who died, otherwise..."

Before Augustine could speak, dozens of men dressed in black poured out from outside the bar like a wave. Without saying a word, those men took out dozens of guns and fired at Augustine's men indiscriminately.

At most, within a few breaths, Augustine's subordinates died before they even had time to resist.

At this moment, Augustine was ashamed.

Sure enough, people around Satan should never be taken lightly. This time, he made a fatal mistake...

Kevin put on his glasses, took a white square handkerchief from a man in black, wiped his hands, and resumed his gentle demeanor, "Mr. Augustine, today is a lesson for you, I hope you will remember it."

Hearing the sound, Augustine nodded repeatedly while covering his bloody ears, his eyes were terrified to the extreme, "I...I understand, I will leave Las Vegas immediately and never come back!"

## Chapter 453

"Thank you for your cooperation." After Kevin said, he led the men in black and walked straight out of the bar.

Augustine's face was full of fear, and at the same time, his heart was filled with anger to the limit. He will settle this account clearly and get back even the capital with interest!

"A group of inferior and lowly yellow people! One day, I will send you all to hell!"

The moment Augustine's voice fell, Kevin's figure moved slightly, and the dagger in his hand shot out like an arrow...

"Ah!" Augustine didn't know what happened, but his left ear was cut off by the dagger.

"Mr. Augustine, it seems that ears are just superfluous decorations for you." Kevin said, and finally walked away with satisfaction. In the bar, only Augustine, who kept crying miserably, and corpses all over the floor were left.

...

Philadelphia, inside the hotel.

After sending the text message, Selena threw the phone away angrily.

After the other party replied the sentence "Of course this is the point", there was no reply.

This feeling of being manipulated by someone at any time like a marionette, and always in fear, is really too bad!

This time she was lucky, what if she meets a more difficult opponent next time?

Selena stared blankly at Daniel who looked cold behind the opposite glass window, a faint light flashed in her eyes, no...she can't continue to sit and wait for death...

Daniel, who was lost in thought and listening to his subordinate's report, suddenly raised his head and looked in Selena's direction.

Selena immediately sat up straight with an expression of an obedient baby. After thinking about it, she found a piece of white paper and a pen, and wrote a line roughly...Master Boss, can I go to the bathroom? Take a pen

After burying his head in writing, he lifted it up and waved it in front of Daniel's eyes.

Daniel noticed the white paper in the girl's hand, and after reading clearly the words on it, the corners of his mouth, which had been cold and tense, slightly curled up.

The subordinate who was talking paused when he saw this, a little silly.

Daniel calmly picked up the pen on the table, changed his posture, and reminded his subordinates, "Continue."

After getting an affirmative answer, Selena ran away in a hurry, feeling like she was back in the days of elementary school students, and she had to raise her hand to ask the teacher for instructions when going to the toilet...

As night fell, the meeting finally came to an end.

Shi Xiao talked to Cheng Feng while walking, and he still couldn't come to his senses, "So, the boss knew that Hong Zhenhao had a problem, and he deliberately indulged him. This time, he went deep into Philadelphia on purpose. Who is the person..."

Cheng Feng nodded, "Yes. It's just that the final result deviated a bit from our expectations. Although the opponent appeared in Philadelphia as we expected, it was not the person we expected, but another wave of people. , our plan was also disrupted... This time, if it wasn't for Miss Selena's unexpected appearance, you wouldn't be able to delay our arrival, maybe you really have to explain where it is..."

Shi Xiao's face turned red when he heard the words, and he said in a muffled voice, "Even if I really confess, it's my fault that I'm not as good as others... This time, it was indeed that woman who saved me. I have nothing to say, and I am convinced!"

Although this incident was planned by the boss, he was even more frustrated.

The boss repeatedly told him not to act recklessly and to think twice before acting, but he still believed Hong Zhenhao easily in a flash of his head.

## Chapter 454

It's fine that Xiong Zhi doesn't have a heart, this kind of thing happened to him, it was simply a huge mistake.

However, even his mistakes were expected by the boss. It seems that he is not fully trusted in the heart of the boss...

Shi Xiao, who has always been confident, tasted defeat for the first time, and said dejectedly, "Assistant Cheng, I heard that we are just the boss's power on the surface, but in fact, there are still a group of bosses underground that are too powerful for us to imagine." followers, those are the real confidantes of the boss...Is that so..."

The strength of even a small weak woman beside the boss has reached his unbelievable level, not to mention the power behind him...

Heh, he actually questioned the boss's perception of people, and insulted him again and again, but the final facts proved that he was the ignorant, stupid, arrogant and arrogant person!

"Don't think about it, you all have the same meaning to the boss, and you are still young, there is still more room for growth, so don't worry." Cheng Feng patted Shi Xiao's shoulder to comfort him, and sighed helplessly. tone.

Shi Xiao is actually very talented, but his biggest shortcoming is that his temperament is too impetuous, which has caused him to stagnate all the time. After this lesson, if he can really get rid of this bad habit, it would be a great achievement. good thing.

Recalling that when he followed the boss to the warehouse, he only saw the scene where Miss Selena shot and killed the group of people and subdued the foreign woman. What happened before is not very clear, but just from the fact that she can make Shi Xiao so crazy The proud character also said the words "convinced", and one could see that this woman was probably even more terrifying than he had imagined...

Xiong Zhi scratched his head on the side, "Assistant Cheng, what is that Miss Selena's background? It's definitely not as simple as an actress! The boss asked me to protect her, isn't this a joke? She doesn't look like The appearance of needing someone to protect... I really can't figure it out!"

Cheng Feng pondered, "I don't know much about Miss Selena, and even after seeing that scene today, I was no less shocked than you. As for this matter, just pretend you don't know, don't worry about it." Ask around in front of the boss. As for the boss's order, I still say the same thing, just obey."

Shi Xiao and Xiong Zhi both responded when they heard the words, and had no objection to Cheng Feng's words.

Seeing that Daniel finally finished the meeting, Selena, who was dozing off on the sofa, got up abruptly, "Master Boss, are you done?"

Daniel pinched the center of his brows in exhaustion, "Well, play by yourself for a while, and I'll take a shower."

"Oh..." Selena rolled her eyes, then blinked innocently, and said, "Master Boss, do you need me to be within your line of sight?"

Hearing this, Daniel staggered for a moment, then turned around, his black eyes were dark, "If you want to continue to cooperate, I have no objection."

Selena: Humph! hateful! Sure enough, he couldn't beat the Great Demon King!

And the appearance of the Great Demon King taking a bath can't help appearing in his mind... Stop it!

Seeing the girl's aggrieved expression, Daniel couldn't help but walked over, ruffled her hair with his palms, and said in a slightly hoarse voice, "Don't say such things casually, my self-control is weaker than you think."

Selena: Here we go again!

And what happened to her words, her words are obviously very pure, okay? Obviously, he is too dirty...

## Chapter 455

After Daniel entered the bathroom, Selena's mind inexplicably resurfaced the expression on Daniel's face when he scolded her earlier. He was obviously angry like that, but he still held it back because he didn't want to scare her.

And... At that time, there was a great possibility that Daniel saw the scene of her murder, but he didn't say anything, didn't ask anything, and still comforted her gently as always...

Selena hugged her knees, a warmth could not help appearing on her face, then cleared her throat, and began to sing slowly, "When I fell in love with you, I didn't understand feelings, but I found out that meeting you is the best thing in life. Who has been silently guarding the place in the wind and rain, so you are the luck I want to keep the most, and it turns out that we and love were so close..."

Even though he can't be in his line of sight, he can feel at ease if he can hear the voice, right?

In the bathroom, Daniel's ear suddenly heard a girl's sweet and sweet voice. A heart from the North Pole suddenly warmed up like the warm sun on the equator...

Three days later, Huaguo, Imperial Capital Airport.

Finally, after dealing with some follow-up matters, I returned to China.

After getting off the plane, Daniel was about to send Selena home first, but Selena was the first to say, "Boss, I'll take you home!"

Daniel raised his brows slightly when he heard this, "Are you sending me? It seems like a man giving a woman this kind of thing?"

"That's different. Apart from the relationship between a man and a woman, you are still my boss, and I am your most loyal employee. Of course, I should be the one who takes you home!" She can only feel at ease when she sees him safely home .

Seeing the girl talking nonsense in a serious manner, the corners of Daniel's lips curled up slightly, "It seems to make sense."

Selena nodded repeatedly, "Of course! So I must be the one to see you off!"

"Okay, send me off." He would naturally be happy to be able to stay with her for a while, no matter in which way.

After getting into the car, Daniel took out his phone casually, tapped it a few times with his slender fingers, and sent a text message to his son.

After one hour, open the windows of your room.

The other end of the phone was silent and there was no response.

However, Daniel was not in a hurry.

About three minutes later, the phone rang, and the little guy sent three exclamation points over.

!

The corner of Daniel's mouth curled up slightly, knowing that his son had already guessed what he meant.

An hour later, the car drove to the gate of the courtyard.

Daniel raised his eyes and took a look, and sure enough, he saw a small head at the window, which was eager to see through. Soon, the small head disappeared, and a moment later, a small figure flew towards them...

After that, the little guy jumped over Papa, whom he hadn't seen for a long time, without stopping, and rushed towards the direction behind him...

Daniel who was completely ignored: Well, I'm used to it...

Seeing the little bun, Selena was overwhelmed with surprise, bent down to catch him, and hugged him dearly, "Little baby, Belle..."

The moment she hugged Rick, she had the feeling of returning to the world instantly from the bloody hell, so warm and soft that she didn't want to let go...

The little bun stuck to Aunt Selena's arms, and entered the harbor with the boat, and the little bird entered the woods, his whole body was filled with satisfaction and peace of mind.

Selena was getting bored with Rick when suddenly she caught a glimpse of Daniel who was alone in front of her out of the corner of her eye, so she supported Rick's shoulder and said softly, "Rick, you haven't seen Dad for so many days, don't you miss him??"

The little bun looked at Daniel with a thoughtful expression on his face...
