

Complete Martial Arts Attributes

Chapter 25: Hunting Ground

“Oh, so it’s the fifth young master of the Wang family,” Zhou Baiyun smiled as she said.

3

Her emotions a moment ago disappeared in an instant.

Before coming here, she had done her homework on all the big and small prominent families in Donghai City. Thus, after Sun Gaoyan introduced these people to her, their identities immediately flashed through her mind.

After a simple conversation, she excused herself and went to find other people.

When she was a distance away, Xu Jie lowered his voice and whispered, “Our families are probably not up to Zhou Baiyun’s standard.”

Although Zhou Baiyun didn’t portray her emotions, they could feel the difference in her attitude. She wasn’t as hospitable to them as she was to the others.

Sun Gaoyan was a little unhappy. He was the one who invited Xu Jie and his friends, so Zhou Baiyun’s attitude made him feel humiliated.

Wang Teng patted his shoulder. “Don’t mind her. We came here today purely to have fun and enjoy some good food. Making friends is secondary.”

“Gaoyan, don’t think too much. It feels good to eat and play for free the entire day.” Xu Jie chuckled.

The other three people instantly felt better after his consolation.

“Hey, how did Li Rongcheng manage to get to know Zhou Baiyun? By right, the Li family isn’t strong enough to befriend the Zhou family,” Bai Wei suddenly asked.

1

“I heard that Zhou Baiyun is looking for martial disciples, especially advanced stage martial disciples with the hope of becoming martial warriors,” Sun Gaoyan said.

"That makes sense. When Li Rongcheng became an advanced stage martial disciple, the Li family had announced it to everyone. They probably wanted everyone to know that there was a genius in their Li family who would become a martial warrior in the future." Yu Hao joined the discussion.

"Hmph, it isn't easy to become a martial warrior. Advanced stage martial disciples aren't rare, but only a small percentage of them can become martial warriors. Within a thousand advanced stage martial disciples, there might not be even one who can take that step. The Li family might not be able to help Li Rongcheng become a martial warrior even if they throw all their resources at him," Xu Jie said with contempt. He was incredibly irritated.

3

"But, this doesn't prevent Zhou Baiyun from drawing him to her side," Bai Wei mocked.

"Throw the net and you will get more fishes! Li Rongcheng is probably only one of the fishes. However, if Zhou Baiyun knows Brother Wang Teng's ability... haha!" Xu Jie gave an evil smile.

"This has nothing to do with me. No matter how well she treats me, I won't interfere in her affairs," Wang Teng shook his head and replied.

A thought shot through Sun Gaoyan's mind as he listened to their conversation and recalled Li Rongcheng's expression a moment ago...

After some wild guesses, he realized something, and a glint appeared in his eyes.

But, he didn't express his emotions. He maintained the same attitude and slowly integrated himself into Wang Teng's circle.

Yu Hao and Bai Wei liked Sun Gaoyan's personality. Though Wang Teng knew his intentions, he didn't say anything.

Besides, he was Xu Jie's cousin. This additional relationship naturally made it easier for them to accept him.

Hence, they had a fun time chatting with one another.

...

Afternoon. It was lunchtime.

Plates of exquisite dishes were placed on the table. The fragrance of the food wafted into everyone's nose and made them salivate.

“This is... star beast dishes!”

Yu Hao said in a soft voice. He had seen these dishes before.

“Zhou Baiyun must have spent a fortune on this gathering. These star beast dishes are quite expensive,” Xu Jie commented.

While everyone sat around the table, some guests inched towards Zhou Baiyun’s side. Within a few seconds, the front part of the table was fully occupied.

The entire dining table was long and rectangular.

In the end, Wang Teng and his friends could only sit at the end of the table. They seemed a little asocial.

Very soon, everyone started eating.

Wang Teng took a piece of meat and placed it in his mouth. Once his tongue touched the meat, he immediately noticed that the energy contained inside wasn’t thick.

“These are probably wild beasts on the earth that underwent small mutations.” He formed his conclusion.

It made sense. Most of the people here were just normal human beings. How could they handle the energy contained in the meat of real star beasts?

Wang Teng scanned through the guests briefly and saw that many rich second generations and children of officials had pale complexions. They looked so weak that it felt as though they could drop dead at any moment.

To these people, eating a small amount of star beast meat could benefit their health. However, if they overate, it was as good as poison. They could lose their lives.

Zhou Baiyun understood this, so she had prepared these ingredients.

Of course, most people didn’t know this. Wild beasts that underwent minor mutations were equivalent to the rare game meat wealthy people ate in Wang Teng’s past life. Usually, there was little chance of tasting them.

Also, these ingredients were cooked by advanced stage chefs. They were outstanding in color, flavor, and taste. At the same time, they were nourishing to the body. Everyone had a happy time eating.

They all felt that Zhou Baiyun was very considerate!

This meal lasted for more than an hour. After filling up their stomachs, Zhou Baiyun stood up and said, "There are many entertainment spots on Mount Bao'an. In the afternoon, everyone can get some rest. We will go out to have some fun at 2.30 pm. Since we have already come here, we should have a good time."

They all agreed with her.

There were many rooms in the villa, so the guests went to look for their rooms. Those wanting to rest excused themselves, while the remaining gathered together and chatted with one another.

Xu Jie, Bai Wei, and Yu Hao didn't have Wang Teng's energy. They decided to rest for some time.

Ever since Wang Teng started practicing martial arts, he would consciously ensure that his body was in its best state all the time. Since there was nothing for him to do now, he decided to get a short nap.

2.30 pm.

Everyone left their rooms and gathered in the hall. Under Zhou Baiyun's lead, they went into the mountain.

There were indeed many entertainment spots in the mountain, like open-air swimming pools where one could play with water guns under the hot sun. They could also enjoy the sight of pretty ladies in bikinis along the way.

Mind you, there were many beautiful ladies among the wealthy young generations.

Not only that, there was a special area cordoned off as a hunting ground on Mount Bao'an. Visitors to the mountain could form teams and hunt there. It was an exciting experience.

Men loved guns, so this kind of hunting game would satisfy their desires to a large extent.

So, there were indeed many entertainment venues, and it would be unwise to go through them one by one.

The group soon reached their destination and looked at the open-air swimming pool in front of them. It was situated below a small waterfall. There were also many entertainments built around the swimming pool. Many people felt like taking off their clothes and jumping into the cool water.

"Woah!"

Apparently, some people were already doing this. A man howled like a wolf and jumped into the swimming pool without even taking off his clothes.

Water splashed everywhere!

“Lin Hao, are you crazy!”

His friends started laughing and teasing him.

Lin Hao popped his head out of the pool and wiped the water off his face. He laughed heartily and said, “This feels so good. Hurry up and come down if you want to play. Why are you dilly-dallying?”

“You are indeed bold and unrestrained, just like your name (in Chinese, ‘Hao’ means bold and unstrained),” Zhou Baiyun praised him.

Lin Hao laughed loudly again.

“What an idiot,” Xu Jie scolded him softly with a smile. He was speechless.

“The hunting ground is at the side. You can go there if you want. All you have to do is to register with the staff.

“You can hunt some game for us to barbecue at night!

“I have prepared a secret gift for the person who catches the most prey.”

Zhou Baiyun pointed at an entrance-looking spot on the left and did some explanation. At the end, she warned everyone.

“However, I have to remind you that there are some aggressive wild beasts inside. Please ensure your own safety. It will be better to form a group. You can take care of each other that way. If you act alone, it will be very dangerous.”

Speed: 1033

Battle Techniques: Basic Fist Skill (mastery), Basic Footwork (mastery), Basic Sword Skill (mastery), Basic Blade Skill (mastery), Gun Skill (small achievement)

1

Over the past few days, his attribute points had been steadily increasing, and he had also added ‘gun skill’ to his arsenal.

It was already at the small achievement stage too.

There were a lot of things related to gun knowledge in Wang Teng's mind. He felt that his aim had gotten accurate, and his gaze had become slightly sharp.

He had picked up the gun skill two days ago when he killed the five robbers.

1

These robbers were all martial disciples, and they only had the very basic fist skill and footwork, so the attributes they could provide were limited. However, they had guns to make up for their lack of skills. They had dropped quite a lot of gun skill attributes.

The attributes from the five robbers pushed Wang Teng's gun skill to the small achievement stage.

Undoubtedly, killing someone would make them drop the most attributes!

It was frightening just thinking about it!

Besides attributes, Wang Teng also had another gain that day—rune gun!

Each of the five robbers had one rune gun. However, the leader of the robbers had another one hidden on his body. After the hostages ran out of the office building, based on the principle of not wasting any chances, Wang Teng... searched the corpses!

This is just a good habit I picked up from playing games. o(∩_∩)o

7

Fortunately, the surveillance cameras were broken by professional robbers, so it provided the most convenient opportunity for Wang Teng.

This was why Wang Teng had a weapon hidden on his body!

2

After he picked up the gun skill attributes, he hadn't had the chance to test it out. Thus, when he heard that guns could be used in the hunting ground, excitement crept up in his heart.

"Brother Wang Teng, shall we have some fun?" Xu Jie asked with glistening eyes.

Yu Hao and Sun Gaoyan seemed excited too.

Wang Teng smiled in his heart. It looked like everyone had the same thought.

"Little Wei, are you going?" Wang Teng looked at Bai Wei and asked.

“No. You guys play with the real guns, and I will play with my small water guns.” Bai Wei waved the water gun that had suddenly appeared in her hand.

“Erm... sure. As long as you are happy.” The corners of Wang Teng’s eyes jumped a little. He said to Xu Jie and the other two young men, “Let’s go.”

Bai Wei joined the water gun battle team with a few other young ladies.

Wang Teng and his friends came to the entrance of the hunting ground. After finishing their registration at the staff counter and collecting their guns, they entered the hunting ground.

The guns provided by the staff were also rune guns. However, their power couldn’t be compared to the guns the robbers used.

Although they were both rune guns, there was a difference in their power. More powerful rune guns were able to kill martial warriors, while weaker ones could only be used to kill the lowest level mutated wild beasts.

Based on the power of the guns, rune guns could be classified from one-star to nine-star.

The hunting guns they had weren’t even considered one-star guns.

But, when Xu Jie and his friends touched the guns, they felt they were caressing some precious treasure.

3

Amid mixed feelings, the group walked into the hunting ground.

The entire hunting ground was surrounded by metal barbed wires, which were enhanced by runes. Hence, its defense ability was better than regular metal wires.

The light in the hunting ground was a little dim. Trees shot up from the ground, and their dense crowns blocked the sunlight.

The ground was filled with decomposed leaves and branches piled up over the years. When you stepped on them, they kept cracking.

“Isn’t there any special staff assigned to clean the hunting ground normally?” Xu Jie complained.

“Cleaning is unnecessary. Many people are attracted by the atmosphere here. If there are too many signs of human intervention, it won’t have this feeling anymore,” Sun Gaoyan explained.

“Hmm...” Xu Jie thought for a moment and nodded. “Makes sense.”

Yu Hao rolled his eyes. He had to admit that Xu Jie was a little idiotic and stupid sometimes.

Bang!

As they were chatting casually, a gunshot exploded beside their ears without any warning. They almost jumped on the spot in fright.

“F**k, Brother Wang Teng, why did you fire?” Xu Jie patted his chest and asked.

Wang Teng raised his chin. Xu Jie and the other three people looked in the direction he was pointing at.

There was a huge grey rabbit!

It was lying in the bushes, dead.

“We’re off to a flying start!” Xu Jie laughed loudly.

Yu Hao and Sun Gaoyan looked at Wang Teng in shock. They hadn’t noticed when this rabbit appeared at all.

Also, his firing was really accurate. One shot, one kill!

After Xu Jie picked up the rabbit, the group of young people continued walking into the depth of the hunting ground. The deeper parts were the real playground for wild animals.

An hour passed in a blink of an eye.

Xu Jie and his friends were all carrying wild animals in their hands. The harvest seemed good.

“There’s movement in front.”

The second Wang Teng spoke, the other three people stopped in their tracks and raised their guns.

They listened carefully and noticed a faint sound coming from the distance. They were already used to Wang Teng’s keen senses, so they appeared nonchalant now.

Each of them found a tree and hid behind it.

“Hurry up and chase it! Don’t let it run away!” someone shouted in front.

Xu Jie exchanged glances with his companions. It looked like they had encountered another group of hunters.

Just as they were preparing to give up, the bushes in front of them started shaking. Wang Teng and others stopped midway and saw an agile black shadow dashing out of the bushes.

The person who shouted earlier had run over too.

“It’s them!”

Xu Jie and his friends took a glance and exclaimed. It was Zhou Baiyun, Li Rongcheng, and their friends.

Li Rongcheng was eager to perform in front of Zhou Baiyun, so he raised his gun and fired at his prey while sprinting.

Bang, bang, bang!

All three shots hit nothing. The black shadow dodged right and left. It was unimaginably agile.

“Li Rongcheng, if you can’t hit it, stop firing. You are wasting the bullets. More importantly, what if you hit us?” Xu Jie shouted in a mocking tone.

“F**k, why are you here?” Li Rongcheng cursed, as if meeting them was unlucky.

“Haha, this hunting ground doesn’t belong to your family. If you can come, why can’t we?” Xu Jie rebutted.

“You…”

“Hurry up and stop it. It’s going to escape!”

Before Li Rongcheng could say anything, Zhou Baiyun shouted from behind.

“F**k, Brother Wang Teng, it’s a white wolf. It’s running towards you,” Xu Jie glanced at the animal and yelled in a strange tone.

Wang Teng didn’t want to fire. This wolf was Zhou Baiyun’s prey. If he interfered with their tram hunting, grudges would naturally take root in their hearts.

However, Li Rongcheng fired a few more shots and still couldn’t hit it.

“If anyone hits that wolf, I will fulfill one wish for him!” Zhou Baiyun shouted when she saw that the white wolf was about to escape.

Wang Teng looked at the white wolf dashing towards him and felt helpless.

Why do you have to run towards me?

You are forcing me to act.

Bang!

One shot!

Wang Teng predicted the wolf's movement for dodging the bullet. He aimed his shot in its path and hit its abdomen with a single shot.

The white wolf howled in agony and fell from the branches, landing on the ground with a thud.

"Haha, you hit it!"

Xu Jie was happier than Wang Teng. He walked out from behind the tree and laughed at Li Rongcheng until Li Rongcheng's face turned green.

"What good luck!" Li Rongcheng scolded.

Yu Hao and Sun Gaoyan also walked over. They gathered around the wolf and examined it, clicking their tongues in amazement at the same time.

"This wolf's fur is so beautiful!"

Zhou Baiyun walked over and bent down to stroke the wolf's fur. She said delightfully, "Very good. This fur is perfect for making a scarf."
