

Crack!

Jiang Yi, whipped the air once, making a sharp sound enter the ears of the people inside the room. There was a sadistic smile on her lips, making her beauty get some extra devilish points.

"Ji-Jiang Yi, wha-what are you planning to do with that?"

Jiang Yi turned towards Young Master Chen, the one trembling in fear and said: "What am I planning to do? Something like this..."

Crack!

Her whip flew towards Young Master Chen, striking him on his belly and ripping part of his clothes off.

"Ahhh!"

He felt a sharp pain on that area, but there was no blood coming out of it. Jiang Yi had mastered a technique to make the strike be very painful, but without even opening a wound on the target.

This young lady had a very playful nature; however, this playfulness had leaned towards the sadistic side. However, she didn't want to badly injure any of them, just to make them wail in despair from receiving a little bit of pain. Her father and family would lose too much reputation if anything serious happened with nobles like them.

Crack!

She whipped at him again, ripping his whole shirt off and making that pitiful Young Master feel even more pain.

"AAHHH!"

Suddenly her whip changed direction, striking the unprepared Young Master Huang.

Crack!

"Argh!"

"Do you think I would forget about you? You're going to pay for blocking this Young Lady's path this morning."

She kept whipping them, making pieces of their clothes fall off, leaving extensive red marks on the surface of their skins; however, her precision was so superb, that she didn't spill a single drop of blood.

Instead of panicking, Seth was actually admiring her skills, not expressing even a little bit of fear.

Jiang Yi didn't attack him, since she had other plans for Seth, but she was paying attention on his expressions all this while. However, it was a bit inconceivable for her, the fact that he wasn't showing a reaction.

'Is he fearless? Or he does not understand the situation?'

Young Master Chen and Young Master Huang were rolling on the floor already, while being whipped back and forth. Their Qi was not able to protect them, or even create some resistance. They were only Qi Gathering middle-stage Realm practitioners and were not able to resist her moves.

"Please, Miss Jiang, please stop beating us. Ouch! It hurts..."

"Miss Jiang, we can do anything you want, but please spare us... We are sorry, we are very sorry."

Suddenly, Jiang Yi stopped whipping them. Their clothes were all torn and they were feeling pain all over their bodies, but they got elated that Jiang Yi really stopped.

Suddenly, she said for them: "I'll give you a chance, a single last chance... Go and restrain that person for me. He is just a mortal, so don't forget to control your power properly."

The Young Masters looked at Seth like they were hungry wolves hunting down a poor lamb. He was their way out of this messy situation.

They advanced towards him without a second thought, blocking his path of escape. Young Master Chen approached him from the left, while Young Master Huang approached from his right side.

Seth didn't do anything, not even moving a centimeter away from the place he was standing.

Those two Young Master's mistook his lack of actions, taking it as if he was frozen in fear, charging towards Seth and grabbing him in a single move.

They held both his arms as they looked towards Jiang Yi.

"We did it, Miss Jiang."

Seth almost lost his cool when he was suddenly grabbed by two almost naked men. Their clothes were torn by the whips they received, making both of them keep only their underwear and some parts of their pants.

There were many swollen spots on their bodies as well, but none of them were enough to cause a bleeding injury. All in all, Jiang Yi really didn't want to kill them, but satisfy her sadistic nature.

Jiang Yi had left Seth for the end, since he would be her new favorite toy. She licked her lips at the thought of getting him naked, making him kneel on the floor and beg for forgiveness. She would then turn him into her personal servant.

She suddenly started to wave her whip, making it slither its way towards Seth. There was a frantic expression on her face, as if she was almost climaxing by this level of play.

Truth be told, because of her father, she didn't dare to do these things at all, making her desires get suppressed for many years already. When she saw Seth's handsome face and manly presence, she wasn't able to suppress it any longer, creating this little show Seth was in right now.

'What the fuck?! How did I end up in this kind of situation?' Seth looked at everything that was happening and could not describe it in another word than ridiculous.

As the whip made its way towards him, almost connecting with his torso, Seth suddenly moved his right arm, tossing Young Master Huang towards Jiang Yi's whip as if he was tossing a ball.

Young Master Huang wasn't even able to understand how his situation changed entirely in a single second, before getting whipped again.

Pah!

Almost as if he was slapped away, the whip slapped him to a remote corner of the room. He lost his consciousness instantly, while his body was stretched out on the floor, like he was a real living carpet.

Young Master Chen was just as confused as Young Master Huang, he was about to release Seth and move away from him, when suddenly his body was tossed like a rag ball, crashing against the wall and sliding all the way down to the floor.

Thud!

His body ended up resting on top of Young Master Huang's body, creating a very strange scene. Even though they had suffered a bit, they were fortunate

enough to be alive and totally outside any fatal danger.. However, their reputations had already been long murdered by the pose they were in.
