

Crazy 1351

Chapter 1351: wishes come true

Whoosh whoosh whoosh ...

With the sound of a spinning propeller, half of the broken propeller flew over Zhao Yu's head and almost cut his head. He was so scared that he quickly fell to the ground with his head in his hands.

In the end, the propeller slanted into the grass as if it was floating on water, stirring up a few flowers before it finally stopped.

Boom ... Boom ...

It was not until then that the crashed helicopter finally exploded into a ball of flames, which shone on the burning stable next to it.

Looking at the soldiers who had attacked Zhao Yu earlier ... Well ... Naturally, not a single one could be seen ...

Hu ...

Zhao Yu took a few deep breaths, then felt his body become heavy. The energy booster had reached its limit and disappeared.

Hmph!

'Damn it ...

Even though Zhao Yu had won all the rounds, he still felt a little upset because he had lost a top grade emergency evacuation ball.

Al!

If he had thought of these extreme methods earlier, he would not have ended up in such a sorry state ...

Just now, when Zhao Yu had almost been shot by a heavy machine gun and was saved by the emergency evacuation ball, he suddenly remembered that he had some powerful devices.

For example, the wonderful combination of invisible aircraft and invisible invisibility cloak. Because there were only a few of them, he had always been reluctant to use them.

But now that he was on the verge of life and death, what was the point of being stingy?

Originally, when he was able to fly invisibly, he had wanted to escape from the scene and save his father-in-law, Miao kun. He had not thought of doing anything to these enemies!

However, what really infuriated him was that the enemy on the plane had clearly seen him being shot by the machine gun and falling into the cowshed. Logically speaking, they should have naturally thought that he was dead.

However, the other party didn't hesitate to waste bullets and fired another burst of machine gun bullets at him. This time, Zhao Yu was not going to let it go!

This was because killing and whipping the corpse was an extremely humiliating act in the martial world.

Zhao Yu couldn't stand this kind of provocation and humiliation, so he made up his mind to kill!

In fact, he was very clear in his heart that in this situation, it was either you die or I die!

If Zhao Yu didn't take care of them now, he would be in trouble. They were on an isolated island in the ocean, and Zhao Yu had so many companions to take care of. It was impossible to hide and run all the time.

Since that was the case, he might as well make a desperate counterattack. Perhaps he could rely on his own items to have a chance of survival.

Hence, Zhao Yu immediately changed direction and flew towards the helicopter, which was why the ghostly scene had happened.

However, he had not practiced flying for a long time. As soon as he rushed into the cabin, he was hit by the fixed horizontal bar of the machine gun and almost vomited blood ...

Oh ...

Thinking of the impact just now, Zhao Yu clutched his stomach and remembered the pain. As the energy booster had lost its effect, the pain was amplified by several times, making it more and more unbearable.

At this time, the invisible bullet proof suit, night vision, aircraft, invisibility cloak, and other devices 'usage time also ended one by one.

However, Zhao Yu knew that, at this moment, although he had defeated the enemies of an airplane and two electric cars, the battle that belonged to him had only just begun!

There were even greater difficulties waiting for him ...

So, Zhao Yu endured the severe pain, staggered to his feet, and tried his best to observe his surroundings. It took him a long time before he could determine his direction.

The stables were made of some unknown material. The fire caused by the missiles did not burn fiercely. Instead, it became smaller and smaller. The wreckage of the helicopter was the same. It didn't take long for it to dim, causing the surroundings to fall into darkness again.

Hu ...

Zhao Yu was panting heavily, and he was getting more and more anxious. Although he had identified the direction, he didn't know how far he was from the dock where Miao kun was.

Of course, he did not know if Miao kun was still at the dock. Or, did Xi Wei and the rest find the diamond?

All in all, the longer they waited, the greater the danger Miao kun would be in. Zhao Yu's top priority was to find his father-in-law as soon as possible.

Then ... How could he get there?

Zhao Yu opened the system device and glanced at the invisible aircraft in the device bar. Recently, he had not driven a single flying device out, and now he only had four left.

He began to worry that the flying device would be like the tracker in the past and he would never be able to drive it again.

Wouldn't it be a waste to fly over now? After all, he didn't know what would happen after he saved Miao kun, so he had to leave a way out.

Hesitating, Zhao Yu looked at the electric car that his enemies had been riding on just now. He wanted to use the electric car as his own means of transportation.

However, one of the electric cars had been blown away by the missile, and the other one was on fire with its head facing up, giving off a strong burnt smell.

Tsk tsk ...

Zhao Yu smacked his lips. It seemed that the electric car was definitely not going to work!

Forget it!

For the sake of his father-in-law, he could only go all out ...

Thinking of this, Zhao Yu was about to open the aircraft and fly over.

However, at that moment, something ran out from behind the ruined stable!

No way?

Zhao Yu squinted his eyes. It was unbelievable. He saw that it was a tall horse that was running towards him!

This ...

Zhao Yu was slightly stunned. At first, he felt that it was a little ridiculous, but then he thought about it. This was a racing field, and the stable had collapsed. It wouldn't be strange for one or two horses to run out, right?

However, something even more incredible happened. Zhao Yu only subconsciously stretched out his hand and made a gesture to call for a taxi. However, the tall horse suddenly stopped in front of him, as if it had a mind of its own and was extremely tamed.

This ...

Is he asking me to ride him?

Oh my God, this is really a horse race falling from the sky!

Zhao Yu saw that there was a saddle on the back of the horse, and a black bag hanging on the saddle. The front of the horse was tied with a reins, as if it was tailor-made for him.

Zhao Yu dusted himself off out of habit, then tried to get on the horse.

However, after patting him, he was surprised to find that he was actually a naked man without any clothes on!

'F * ck ...'

He finally understood why the pilot and machine gunner on the plane had looked at him like that.

The clothes ...

He looked around and wondered, where were the clothes?

In the end, the black bag on the saddle fell off, revealing a rider's racing suit.

F * ck!

Zhao Yu was shocked by himself. What was this? How could he get whatever he wanted? If he's really that awesome, I'm still lacking a weapon!

As Zhao Yu was thinking about this, the electric car next to him fell down with a bang, as the front of the car was burned off. A heavy metal object fell to the ground and made a rumbling sound.

Zhao Yu lowered his head and took a closer look, only to see that the rumbling thing was none other than a bazooka!

Chapter 1352: blood man

In the ruins of the ancient castle of Grimm on the island of wonders, several soldiers with rifles were searching for something ...

As there were flames everywhere in the ruins, the soldiers could see the situation in front of them without any light.

"Stop!" At this time, just as they found a place in the ruins, the leading soldier suddenly made a stop gesture and then aimed his muzzle at a body on the ground!

"There's one here!" As the soldier called out to his companions, he stared at the corpse with all his attention, as if he was worried about something.

Very quickly, the soldiers behind caught up. Someone asked, "How is it? Can you confirm that it's our target?"

"Hmm ... This ... I'm not sure, right?"

The crowd gathered to take a look and finally understood what he meant. It turned out that the corpse had been shot in the face and was unrecognizable!

"We can't just look at the face. Let's look at the clothes. At least it's not one of our people ..." Someone pulled at the clothes of the corpse with a gun, but because the clothes were covered in dust, they couldn't see clearly.

Thus, the man squatted down and wanted to take a closer look.

However, just as he squatted down, he found that the soldier who was the first to arrive was still nervously aiming at the body with his rifle. The rifle blocked his view.

“Hey!” He looked up at the soldier and shouted, “are you okay? Can’t you see that his face has exploded into rice flowers? are you afraid that he’ll come back to life and beat you?”

The moment this person said that, it immediately caused the others to roar with laughter.

“No... No... I can’t ...” Unexpectedly, the soldier with the gun stammered. He immediately said with great effort, “after searching for so long, I only found one ... One body. Something ... Something is wrong!”

“What’s wrong?” The soldier who checked the body pushed his rifle away and said, “didn’t you see the explosion? Maybe we won’t even be able to find a corpse!”

“Don’t ... Don’t let your guard down ...” The stammering soldier said. “Just ... Just now, a motorcycle ran away! I ... I ...”

“What about me?” the soldier who was checking the body interrupted him impatiently. “Didn’t the plane go after them?” Are you afraid that the plane will crash? Look at how cowardly you are ...”

“I ... I just feel that ...” The stammering soldier said worriedly, “we have made too much of a commotion. In ... In the past ... When we were doing missions, we had never been so high-profile!” It’s ... It’s not a good thing to offend the M15 ...”

“Then you don’t have to worry about it!” One of the soldiers behind them looked around and said absent-mindedly, “you’ll never understand the BOSS ‘thoughts! Don’t you see that our weapons and equipment are carefully selected? I’m guessing ... He already found a target to frame!”

“Yup! “It’s not the first time I’m working for the boss,” another soldier lit a cigarette on the burning flame and said, “can’t you tell?” Every time, the boss would make arrangements for the scapegoat before taking action!”

“Then ... With such a high profile this time ...” The stammering soldier was even more worried. “After the mission is completed, will ... Will ... Will the entire Island be blown up?”

“Hmph!” The soldier who checked the body laughed and said, “that’s hard to say ... I hope to see a Grand fireworks show ... Hmm ...”

While he was talking, the soldier suddenly found something strange. He quickly pointed to the legs of the dead body and said, “That’s not right ... This person is wearing a military uniform on top ... Why is he wearing ...” He lifted a piece of cloth and asked with a frown, “is this ... Pajamas?”

What?

Everyone was surprised and gathered around to watch.

In the end, something unexpected happened. A muffled gunshot suddenly came from the abdomen of the dead body. The soldier who had just found the pajamas was shot in the head and died on the spot!

It happened so suddenly that no one at the scene could react. Only the stuttering soldier was slightly more focused. He quickly pointed his gun at the dead body.

However, two more shots were fired at the corpse's abdomen, and a bloody hole burst out of the stammering soldier's neck, causing blood to flow out!

The soldier who had just lit a cigarette was also hit in the shoulder!

"Ah!?"

Everyone was shocked and hurriedly took out their guns to counterattack, but a man in gold silk pajamas rolled out from under the body. This person was covered in blood, especially his face, which was completely covered in blood, as if he was a man of blood.

The man had a pistol in his hand. As soon as he rolled out, he immediately fired at the soldiers!

Bang ...

Bang ...

This person's shooting was extremely accurate, almost without missing a bullet. In the blink of an eye, he had knocked down the other three soldiers, and in the blink of an eye, only one was left.

The last soldier had been peeing at the time of the incident and had been a little further away, so he had managed to escape. When he suddenly saw his companions fall to the ground, he didn't even bother to lift his pants and quickly reached for the rifle.

At that moment, the bloody man had already discovered him and fired a shot at him.

Unexpectedly, the experienced soldier immediately fell to the ground and dodged the bullet shot by the bloody man as soon as he saw that he couldn't get his gun in time ...

At this moment, he realized that the bloody man had run out of bullets. The bloody man fired a few shots at him, but the pistol did not respond.

The soldier suddenly saw hope and quickly rushed back, trying to pick up his rifle again.

However, the bloody man obviously didn't want to give him the chance. In a moment of desperation, he actually threw the pistol at him as a hidden weapon.

The bloody man was powerful, and the pistol was fast and accurate. If he was hit by it, he would not feel good.

However, the soldier was also an expert with extraordinary strength. He was also shocked by the bloody man at first, but now he understood that the bloody man had just hidden his body in a corpse.

In other words, the bloody man was also a human, not a ghost!

As such, the soldier was bold and courageous. He immediately gave up on his plan to retrieve his rifle. He rolled to the side, dodged the pistol that was thrown at him, and pounced on the bloody man ...

This person was experienced and very scheming. As he pounced on the bloody man, he had already thought of all the attack patterns. While rolling, he had already taken out a sharp dagger hidden on his ankle!

Seeing that he was getting closer and closer to the bloody man, the corners of his mouth curled up into a smug smile. He thought that the next strike would be foolproof.

However, just as he was in mid-air, his vision turned black. The Golden pajamas thrown by the bloody man had covered his head!

“Ah!”

In his shock, he quickly waved his dagger and stabbed randomly in the air. However, in his hurry, the dagger did not stab anything at all.

Next, he found that his neck was strangled by a strong arm. Then, with a desperate look in his eyes, he heard a cracking sound from his neck. His cervical spine was broken by someone, and he died!

He didn't even close his eyes before he died, and they were still filled with fear and disbelief ...

Buzzzzzz!

The one who strangled him was naturally the bloody man!

At this moment, the bloody man did not stop. After throwing the soldier's body on the ground, he dodged the dagger and then threw it in a certain direction in a cool manner ...

It turned out that the soldier who had been shot in the shoulder was not dead. He was struggling to pick up the rifle and was about to shoot.

As a result, it was as if the bloody man had eyes on the back of his head. As soon as the dagger was thrown, it accurately hit the man's throat, and the dead body immediately fell to the ground ...

At this time, the bloody man wiped the blood off his face. As the flames rose, he finally revealed his true face. It was the Korea Special Agent, Qian Qian, Lee Bencheng!

Crack ...

Just as Lee Bencheng wiped the blood off his face, the other soldier who was shot by him did not die. He also quietly picked up his rifle and wanted to shoot Lee Bencheng.

However, before the soldier could pull the trigger, a huge rock suddenly fell from the sky and smashed the man's head!

Boom ...

As the corpse fell to the ground, the tall and big Jecca walked out from the shadows behind and complained to Lee Bencheng, “Old Li, you're too damn independent! We agreed to split it in half! He only left me one ...”

Chapter 1353: Shooting fire arrows on a horse

At the pier on the north side of Miracle Island.

The tidal generators were built in the Ocean 1 km away from the wharf. At this moment, Xi Wei, Scott, and the others had already taken a boat to the generator to look for diamonds. They only arranged four soldiers to guard the north side of the pier.

One of the soldiers was lying in a speedboat on the dock. He had his hat lowered and was resting with his eyes closed.

The other three soldiers were standing by the sea, patrolling while discussing something ...

“How is it? Let’s keep in touch?” The first person said, “I haven’t received a reply for half a day on the plane. What’s the situation now? Didn’t they say there were motorcycles? Can’t you stop them?”

“Stop joking!” The other man looked at the walkie-talkie in his hand and said, “it’s just a motorcycle. Can’t an airplane take it down? You can even drive it here? Besides, didn’t we just send two more cars of people to pick them up?”

“Yes, yes ...” The first person nodded. “It should be foolproof!”

“But ...” At this time, a third person said, “we can’t let our guard down! I’ve heard that the people we’re going to deal with are not easy to deal with! There are mercenaries like us, and even spies and special agents. All of them have people behind them that can’t be offended.

“Right now, the boss isn’t afraid that they’ll pose a threat to us. He’s just afraid that if they run away, they’ll leave behind future trouble!”

“I don’t think so!” The second person glanced at the walkie-talkie again and said, “this is an Island, and we’ve cut off the communication. Where are you going?”

“Don’t say such big words!” The third person shook his head and retorted, “this Island isn’t small. If we find a place to hide, it won’t be that easy to find!”

“Tsk tsk ...” The first person began to scan the surroundings with a Night Vision Telescope. At the same time, he said anxiously, “why hasn’t there been any news from the plane and the castle?” If this goes on, the boss is going to go crazy!”

“Yup!” The second person looked at the walkie-talkie for the third time. “If we can’t even do such a small thing, the boss will definitely kill us!”

“Why don’t ...” A third person suggested, “you ask him now?”

“How can we do that?” The second person quickly held onto the walkie-talkie and said, “you know the rules! We’re just following orders, how can we go check on them?”

“Eh? “Hey, hey, hey ...” Just as he said this, the soldier holding the telescope suddenly paused and hurriedly waved to the other two. “You ... You guys look ... What is that?”

Eh?

The three of them were shocked and quickly looked in the direction of the sound, their faces full of doubt.

“That ...” The man with the telescope said, “it should be a horse! And ... Horse racing? He has a number on him!”

“Ah? What’s the situation?” The person holding the walkie-talkie frowned and could not help but ask, “where did the horse come from?”

“Isn’t there a race track on the island? Did you come from there?” The third person replied with a lack of confidence, “could it be ... That something happened at the horse track?”

“Someone’s coming!” The telescope shouted, “there’s a number on the person too. He should be a rider, right?”

“F * ck!” The second man quickly grabbed the telescope and raised his rifle after seeing that there was indeed someone on the horse.

The other two also raised their guns nervously.

“Strange, it’s really strange!” The third person said gloomily, “you can’t shoot randomly. What if it’s one of our own?”

“Impossible!” The second person shook his head. “We should have already greeted our own people!”

“Then don’t waste time,” the third person urged. “Use the walkie-talkie to contact him immediately!”

“Eh?” The first person suddenly pointed at the approaching horse and said, “look, isn’t that greeting us?”

Under the faint moonlight, everyone could see that the rider on the horse had indeed raised his arm towards them, as if he was greeting them.

“Let me see!” The second person took the binoculars again and was scared out of his wits when he saw what was inside. He cursed at the other two, “what the hell is with the greeting! Fire ... Fire ... Fire ... That’s a rocket launcher!”

At that moment, even without the man’s reminder, the other two also saw the rider wave his arm and put a scary rocket launcher on his shoulder. The bullet in the rocket launcher was aimed at the three of them!

Ah ...

The three of them were so scared that they didn’t dare to fire back. They quickly laid down on the beach ...

That’s right!

The fake rider on the horse was, of course, Zhao Yu himself.

When he had a means of transportation, clothes, and weapons, he naturally chose to go straight to the root and charge handsomely towards the dock!

Riding on the tall horse and stroking the rocket launcher in his hand, Zhao Yu suddenly felt a sense of superiority like a superhero, and even his chin was raised high ...

The sound of the horse's hooves seemed to be accompanied by an exciting piece of music, which made Zhao Yu even more confident and motivated.

When he saw that there were indeed soldiers standing guard by the dock, he raised his head high and revealed a contemptuous look in his eyes. Then, he gently carried the rocket launcher on his shoulder.

Although he had used the energy booster before, which had already caused some side effects to his body, he had no problem carrying the rocket launcher after using the energy recovery potion.

Of course, Zhao Yu had always been meticulous. He had seen many failed rocket launchers in movies, and there were even people who launched the rocket in the opposite direction, making a mess!

Hmph Hmph!

What a joke! As the crazy detective Zhao Yu, how could he make such a low-level mistake?

Hence, on the way, Zhao Yu had already used the invisible browser to memorize the launch of the rocket launcher.

He only had one rocket at the moment, so he had to make sure he could win.

Hence, when the rocket was within shooting range, Zhao Yu immediately put the rocket launcher on his shoulder, ready to fire the rocket at once!

Hmph Hmph!

Seeing that the three enemies were scared out of their wits, Zhao Yu couldn't help but sneer and think to himself, "go to hell, everyone!" If you want to blame someone, blame your bad luck for meeting me, the crazy detective Zhao Yu. Wahaha ...

In order to prevent the enemy from firing first, Zhao Yu aimed and decisively pulled the trigger of the rocket launcher. With a swish, the rocket was successfully fired, leaving a trail of smoke behind it as it flew towards the enemy.

* Whoosh ... *

The rocket flew quickly and steadily, reaching the enemy in the blink of an eye and about to explode.

However, to Zhao Yu's surprise, the big explosion that he was expecting did not happen. Just as the rocket arrived, the three enemies fell on the beach at the same time.

In the end ... The rocket flew over the three people's heads and then flew into the vast sea without looking back!

Whoosh ...

As soon as the fire arrow entered the sea, it flew close to the surface of the sea and disappeared in the blink of an eye ...

Chapter 1354: An elegant jump

As a result, the atmosphere was quite awkward!

At first, when the rocket just hit the water, the three soldiers were still scared to death! The three of them lay on the ground, their hands covering their heads, afraid that they would be hurt by the explosion.

However, after waiting for a long time, they felt that something was amiss. There was no movement at all. When they turned around, they were shocked. No one had expected that the rocket had actually flown away close to the water surface ...

On the Black Sea, the sound of the waves was still there, but nothing unexpected happened. It didn't even wake up the companion lying on the speedboat in the distance!

This ...

The three of them looked at each other and couldn't recover from the shock. They felt that their hearts were still a little chaotic and stopped for a full 0.5 seconds. Only then did the three of them remember to counterattack with their guns.

Of course, Zhao Yu was the most embarrassed one among them. He thought he had done his homework, but he never expected that the rocket would just fly away without a trace.

However, ma ke wouldn't feel awkward.

Just as Zhao Yu was feeling depressed about the rocket launcher's mistake, the horse he was riding on was still running at full speed. In the blink of an eye, it was in front of the enemy.

At this time, the three enemies had already recovered and were pulling the bolt of their guns, ready to shoot.

Damn it!

Zhao Yu had no choice but to grab the rocket launcher with his right hand, then threw it forward and hit one of the soldiers!

The rocket launcher was heavy, and the speed of the horse race was fast. The impact was powerful, and the soldier was sent flying into the air before he fell unconscious.

As the impact was too strong, Zhao Yu's hand wasn't firm enough to hold onto the rocket launcher. The rocket launcher was knocked out of his hand and fell heavily onto the beach.

"Ah!?"

The other two soldiers were shocked and quickly raised their rifles, ready to shoot at Zhao Yu.

Terrible!

Seeing that he didn't even have a rocket launcher left, Zhao Yu suddenly had a bad feeling. In the current situation, it seemed impossible for him to defeat the two soldiers with rifles.

Hence, the quick-witted Zhao Yu immediately changed his strategy. He looked at the horse that was about to rush into the sea and immediately thought of an idea.

His purpose was to save his father-in-law, Miao kun, so he didn't need to waste time with these people. So, he might as well dive into the sea, and then swim to the tidal generator with his invisible breathing device!

Or perhaps ... He had already seen the speedboat parked in the distance and was starting to think about the possibility of snatching the speedboat?

However, as the old saying goes, plans can never keep up with changes.

Just as the horse was about to reach the beach and Zhao Yu was about to jump into the sea, the other horse suddenly came to a sudden stop. With a loud neigh, the horse's hooves rose into the air, and it stood up just before it hit the sea!

F * ck ...

This shook Zhao Yu quite a bit. As he didn't enter the sea, if he were to dive head first, his head would end up in the sand!

Fortunately, Zhao Yu reacted quickly, shrinking his body and holding onto the reins tightly, so that he didn't fall off the horse's back due to the strong inertia.

However, although Zhao Yu didn't fall off the horse, the two soldiers were ready to shoot and aimed their muzzles at him!

At such a close distance, even if Zhao Yu had an invisible bullet proof suit, he wouldn't be able to resist for long.

What to do?

Zhao Yu had already prepared for the worst. He was prepared to waste an invisible bullet proof suit under the enemy's crazy shooting, then take the opportunity to get off the horse and run into the sea to escape.

However, at such a critical moment, another accident happened. Zhao Yu was about to get off the horse again, when two gunshots suddenly came from outside the beach!

Bang! Bang! Bang! Bang!

The sound of the gunshot was clear. Before Zhao Yu could understand what had happened, he saw that the two soldiers had already been shot in the head and died on the spot!

"Ah!?"

This time, Zhao Yu was hit hard again. He had already flown out, but he grabbed the reins tightly again. His body was stuck to the horse's neck, so he managed to stabilize himself and didn't fall.

Wu Lu Lu ...

The horse snorted again before it finally stabilized its hooves and stopped by the sea.

Hu ...

Zhao Yu panted heavily, then looked over with the night vision device. He was shocked to see that the person who had just shot him was none other than the France sister tougun, Jiejie Juliet!

He didn't expect Juliet to reach the dock so quickly.

That's great!

Seeing that he had backup, Zhao Yu was suddenly in high spirits.

"Ah?"

At this moment, a cry of surprise came from the floating bridge in the distance. It turned out to be from the soldier who had been resting on the speedboat.

As Zhao Yu was fighting so intensely, there was no reason for him not to see. When he saw the enemy, he quickly grabbed his rifle and prepared to join the battle along the pontoon bridge.

However, he had only run halfway when he suddenly saw that his two companions had been shot in the head. He immediately shrank his neck in fear and fled back, quickly untying the rope tied to the speedboat.

Not good!

Zhao Yu looked around. On the long dock, there was only one speedboat at the far end of the pontoon bridge. If the man drove the speedboat away, it would be a big waste of time. After all, there was still a long way to go before they reached the tidal generator.

Zhao Yu didn't have time to say hello to Juliet. He squeezed his legs in the stirrups and immediately rode up the pontoon bridge, heading for the speedboat.

"Ah!?"

Seeing that Zhao Yu was chasing after him on a horse, the soldier was shocked again. He quickly threw his rifle into the cabin, then jumped to the bow and started the speedboat.

Tu tu tu tu ...

The speedboat's motor immediately made a harsh sound, and the water at the end of the boat rolled violently. The speedboat was about to speed away ...

F * ck!

Go all out!

At this time, Zhao Yu had arrived at the end of the pontoon bridge. He saw that the speedboat was not far away, so he made up his mind and used the inertia of the horse to jump towards the speedboat!

Although in Zhao Yu's entire life, this jump was not the furthest, nor was it the most classic, it was definitely the most elegant one!

After jumping off the horse's back, he made a beautiful parabola in the air and even made a difficult twist that even professional athletes could not do ...

And then ... And then ...

Then, the speedboat drove away, and he fell into the water with a splash. From jumping, he perfectly turned into a diving action ...

Holy shit!

“F * ck!” Feeling the cold sea water, Zhao Yu cursed in his heart. He had never thought that it would be like this.

However, at this moment, Zhao Yu couldn't curse to his heart's content. He didn't know if it was God's will or if he had used too much force when he turned into the water, but the cable of the speedboat was tied to his ankle!

Eh?

Hey, hey, hey ...

Zhao Yu was shocked, and he felt his body become light as he flew backward with the speedboat.

Tut, tut, tut ...

The speedboat sped along the surface of the sea, and Zhao Yu's pig-like screams came from behind.

“M-grandma ... Wu...Wuwuwu ...”

A gush of seawater rushed over, and he could no longer shout. Just like that, he was taken away by the speedboat ...

Chapter 1355: flying against the sky

The speedboat was fast, braving the wind and waves on the sea, going straight into the depths of the sea.

Zhao Yu was dragged along by the speedboat, and he was as fast as the speedboat was going!

His entire body was sprawled on the surface of the water, as if he was sliding upside down. The waves that kept churning up hit his chest and head, making him dizzy and unable to breathe.

Although Zhao Yu was in the water, being pulled at such a high speed, his life was in danger. Not to mention accidentally touching a reef, just the beating of the waves could kill him after a long time!

At that time, Zhao Yu was already unable to breathe from the waves. He waved his arms wildly, but it was of no use. If the speedboat didn't stop, there was no way he could escape.

Ah ...

Wuwuwu ...

After being forced to drink a few mouthfuls of bitter seawater, Zhao Yu finally activated the device in his head and used the invisible breathing device.

Whoosh ... Whoosh ...

With the intake of fresh oxygen, Zhao Yu felt a little better. He raised his head hard to avoid any impact on his head. Then, he tried to reach out to grab the rope around his ankle, but he couldn't touch it at all.

Moreover, as soon as he stretched out his arm, he was immediately washed back by the turbulent sea water.

What to do?

If he couldn't untie the rope, he would be finished. What prop could solve this urgent situation? Aircraft ... Or ... An accelerator?

Eh?

Just as Zhao Yu was quickly scrolling through the device bar, a device suddenly appeared that made his eyes light up.

That's right!

This item seems pretty good. I can try it out, right?

Then, Zhao Yu immediately activated the device, which was the simple invisible parachute.

As soon as the parachute opened, the effect was immediate.

Zhao Yu felt a strong gust of wind, and his whole body left the water in an instant, flying into the air.

"Oh oh oh ..."

Zhao Yu flew higher and higher. Soon, he was about ten meters above the water, but his body was facing backward.

Eh?

At first, the soldier driving the speedboat had already noticed Zhao Yu, but seeing that Zhao Yu's foot was tied to a rope, he didn't deal with him immediately, but only wanted to drag him further away from the shore!

He didn't know if Zhao Yu had any weapons on him, so he was worried that he would be shot if he slowed down.

Therefore, for such a long time, he only focused on sailing the boat. It was only when they were far away from the dock that he finally had time to turn around and take a look.

However, at first glance, he was stunned, because he found that there was nothing in the water.

Sigh ...

Could it be ... That the rope had been untied? That person fell into the water?

Thinking of this, he quickly turned his body and took a closer look.

Then, he was shocked to see the rope of the speedboat hanging in the air and shaking. When he looked up, he was even more shocked to see a curly-bearded man flying in the sky!

Not only was there a person flying, but he was also flying backwards ...

Not only did he fly backward, but he also made a backstroke posture, which was both exaggerated and funny ...

However, no matter how ridiculous it was, there was only fear in the soldiers' eyes! He shivered in fear and almost fell off the speedboat.

Even in his dreams, he had never dreamed of such a bizarre thing.

Since the parachute was invisible, he could only see a person flying in the sky. It was really scary!

Oh God!

The soldier's eyes widened, and his heart beat rapidly. He had seen people use speedboats to ski, but this was the first time he had seen someone glide to the sky!

What ... What was that thing?

However, after a few seconds of shock, the soldier remembered something important. No matter how incredible it was, the one flying in the sky was an enemy!

So, he quickly bent down and picked up the rifle from the cabin. He felt that no matter what, he had to give this strange person a shot first.

However, the speedboat also needed to step on the accelerator. As he left the driver's seat, the speed of the speedboat suddenly dropped.

Although Zhao Yu was flying in the sky, his mind was not idle. He knew that the pilot would not let him go, and he was quickly thinking of an idea.

At first, he tried to use an aircraft, but there was a rope tied to his feet. If he didn't fly properly, he would be in danger of being dismembered!

Then ... What other items could he use?

Just as Zhao Yu was thinking hard, he saw that the enemy on the speedboat was holding a rifle!

Moreover, because the speedboat suddenly slowed down, the invisible parachute suddenly moved forward and moved closer to the speedboat. At such a close distance, it was more convenient for the enemy to shoot!

This ...

Eh?

There was!

Zhao Yu was quick-witted, so when he saw that he was approaching the speedboat, he immediately put away his invisible parachute.

Without the parachute, he accelerated and fell towards the speedboat like a cannonball!

"Ah!?"

The speedboat driver had just picked up his rifle, but when he looked up, Zhao Yu fell from the sky and hit him!

Thump!

The two of them crashed into each other and immediately began to fight in the cabin.

Zhao Yu grabbed the man's rifle with one hand and punched the driver's face with the other.

The driver was not to be trifled with. Seeing that the situation was not good, he immediately threw the rifle into the water, then rolled around with Zhao Yu in his arms and gave Zhao Yu a few punches.

Just like that, the two of them engaged in a melee fight in the small space of the speedboat.

In terms of strength, the soldier driving the ship was naturally more powerful than Zhao Yu.

However, this place was not on land. Due to the narrow space, he couldn't use his Kung Fu, so Zhao Yu, who was better at close combat, had the upper hand.

Although Zhao Yu didn't use an energy booster, after a dozen rounds, he managed to tie the rope around his ankle around the man's neck, making it impossible for him to breathe.

Then, he punched the other party, making him dizzy and unable to take care of himself.

Then, Zhao Yu untied the rope around the man's ankle, then threw him into the water.

Huchi ... Huchi ...

After his victory, Zhao Yu was panting heavily, feeling as if his entire body was about to be emptied. However, he knew that the battle was far from over.

Thus, he seized the time to adjust while looking at the surrounding sea.

He saw that the sea was extremely calm, and he could not see anything. So, he quickly activated the invisible telescope and increased it to the maximum. Finally, he saw a glimmer of light from the North.

It was very likely that the tidal generator was located there.

At this point, he didn't allow Zhao Yu to think much, so he immediately started the speedboat and headed towards the bright light.

The speed of the speedboat was not slow, and it didn't take long for Zhao Yu to get near the light. Using his binoculars, he saw that there was a small yacht parked there!

What made Zhao Yu even more relieved was that he saw Scott's figure on the deck of the yacht. Scott was pacing back and forth, looking very anxious.

Since Scott was still there, it meant that the diamond should not have been found yet. Miao kun, his father-in-law, should still be safe.

Coincidentally, when Zhao Yu was observing Scott with his telescope, the soldiers on the yacht also noticed him. Someone immediately pointed to Zhao Yu's location and reported to Scott.

Alright!

Hmph Hmph ...

Zhao Yu squinted his eyes, and an innate ruthlessness rose in his heart. He said in his heart, "since you've already found out, don't blame your Grandpa Zhao for being ruthless. Today, I'm going to play a fierce game with you!"

After making up his mind, Zhao Yu immediately stepped on the gas pedal to the maximum and rushed towards the yacht in the distance.

Chapter 1356: The tidal generator

Zhao Yu's meaning was clear, which was to use the speedboat as a weapon to RAM into the yacht!

After all, he was fighting alone. If he wanted to counterattack successfully, he had to take extreme measures. Only by causing chaos on the other side would he have an opportunity to take advantage of.

So, he immediately accelerated the yacht to its maximum speed, and at the same time, he reached out to pick up a paddle and smashed it on the side of the boat. He smashed the head of the paddle, pushed one end of the handle against the accelerator, and pushed the other end against the seat.

This way, the speedboat would be able to achieve autopilot.

Then, Zhao Yu focused on aiming at the yacht in the distance and carefully adjusted the angle. He was ready to jump off the boat after he was sure that the speedboat could hit the yacht.

The people on the yacht were not fools. As soon as they saw the speedboat rushing over, they had already felt that something was wrong. They were mobilizing people to the deck and preparing to shoot!

Hmph!

Zhao Yu sneered contemptuously and thought to himself, "it'll be too late by the time you open fire ..."

Unexpectedly, just as Zhao Yu was sneering, he suddenly felt the ship shake violently.

Eh?

He hurriedly turned his head to look, but just as he turned his head halfway, his neck was immediately strangled by a certain someone's arm. He was strangled to the ground and dragged to the stern!

Wuwuwu ...

Zhao Yu couldn't catch his breath, so he waved his hands around, but he couldn't catch anything. In his panic, he finally saw clearly that the one who had strangled him was no one else but the driver who had been pushed into the water by him!

Unexpectedly, not only was the driver not dead, but he was also holding onto the side of the speedboat. He climbed back up and strangled Zhao Yu from behind.

Wuwuwu ...

Zhao Yu held his breath, so he had to use the invisible breathing device in advance, so that he could finally breathe.

At this moment, as the speedboat was getting closer and closer to the yacht, the driver, who was restraining Zhao Yu, could not help but look frightened. He naturally could not let Zhao Yu have his way, so he hurriedly punched Zhao Yu in the face, then rushed to the front to slow down the speedboat.

Damn it!

It wasn't easy for Zhao Yu to carry out such a plan. Of course, he couldn't let the other party ruin it so easily. He ignored the pain on his face and immediately kicked the driver's calf, causing the driver to fall back to the ground. The two of them were entangled again.

However, this time was different from before. The driver was already mentally prepared. As soon as the fight started, he showed his Special Forces characteristics. After a few punches, Zhao Yu had no way to fight back.

Bang Bang Bang ...

The driver's fist was sharp and heavy, so Zhao Yu could only use his arm to protect his face.

However, the pilot was eager to win. Once he saw that he had the upper hand, he took out a dagger and prepared to kill!

At the same time, Zhao Yu suddenly realized that his purpose was to crash the boat, so why would he waste his energy on this guy?

Thinking of this, Zhao Yu shivered and tried to break free. He rolled off the speedboat and fell into the water.

Eh?

The driver had just pulled out the knife when he realized that Zhao Yu had jumped off the boat. He was stunned. However, seeing that the speedboat was about to hit the yacht, he couldn't care less. He quickly ran to the bow and removed the oar that Zhao Yu had set up!

In the end, something unbelievable happened. Even though the accelerator was back to normal, the speedboat still showed no signs of slowing down and continued to crash into the yacht ...

No way?

The driver was dumbfounded. He quickly sat in the driver's seat and turned off the key of the speedboat. However, the strange things continued. The speedboat had already turned off the engine, but the speed did not slow down at all.

To hell with it!

The driver panicked. The speedboat did not brake, so he could only choose to anchor! But ... To break down at such a fast speed ... It seemed ...

In the blink of an eye, while the driver was still hesitating, the speedboat was like an arrow leaving the bow, crashing into the huge yacht.

The people on the yacht had already seen everything. The driver had already started the yacht to turn around, wanting to avoid the speedboat. However, due to the size and clumsiness of the yacht, it was obviously too late!

“Shoot! What was there to hesitate about? Hurry up!” At this time, with Scott’s order on the deck, the soldiers on the yacht did not care who was on the speedboat and directly fired at the speedboat ...

Tap tap tap tap ...

A burst of bullets flew over. The pilot couldn’t Dodge at all and was shot by his own people.

“No...”

After he was shot, it was too late for him to jump off the boat. The next second, with a loud bang, the high-speed speedboat hit the bow of the yacht!

But ...

They did crash into each other, but there was no explosion as Zhao Yu had expected. Maybe it was because of the angle, but when the two boats collided, the small speedboat suddenly flew up into the sky, spun in the air, and then fell hard on the sea, breaking apart.

In an instant, the yacht had a great shock. Some of the soldiers who were not stable were thrown to the ground. Scott was also almost thrown off the boat. Fortunately, he held the railing with both hands.

However, when the speedboat capsized and the yacht stabilized, people realized that the bow of the yacht was only dented. It was not seriously injured at all!

‘Oh my God, my grandmother!’

Seeing that the yacht did not explode, Zhao Yu, who was floating on the sea, could not help but feel depressed. It turned out that the scenes of the boat crashing in the movie were just a lie!

This ...

What the ...

Just as Zhao Yu was complaining, he was suddenly scanned by the searchlight on the yacht. He had been discovered by the enemy.

A shout immediately came from the yacht, and the huge yacht immediately buzzed and drove towards Zhao Yu.

Damn it!

Zhao Yu knew that something was wrong, so he quickly dove into the water and swam deeper. He had already used the invisible breathing device, so he naturally did not have to worry about breathing.

However, as the sea was dark, he had to use invisible night vision again to explore the way.

Knock ... Knock ...

Not long after Zhao Yu dived into the water, he heard the sound of bullets hitting the surface of the water. The bullets left sharp trajectories and were shot at Zhao Yu.

He had no choice but to use an invisible bullet proof suit ...

But luckily, it didn't take long for Zhao Yu to swim out of the shooting range and stay away from danger.

Just as he was thinking about what to do next, he suddenly realized that there was a glimmer of light coming from somewhere at the bottom of the sea.

As the telescope from before had not disappeared, he immediately used it.

Unexpectedly, the telescope worked just as well in the water. Zhao Yu quickly saw that there were rows of flashing red lights in the water. Under the weak illumination of the red lights, rows of huge machines appeared.

Oh ...

Needless to say, those were the tidal power generators on wondrous Island!

Seeing that the generator was right in front of him, Zhao Yu couldn't help but feel excited. He immediately swam towards it with all his might, and very quickly, he was in front of it.

This time, Zhao Yu did not expect the generator set to be so huge! It stood under the sea, looking extremely magnificent.

The structure of this old-fashioned tidal generator was very complicated. In addition to many conch-shaped generators, there were also many strange power operating equipment and wires and cables ...

In the end, just as Zhao Yu swam in front of it, he suddenly saw a bright white light coming from one of the generators!

When he swam past a few sets of generators to take a closer look, he finally saw clearly that someone was using electric welding equipment to cut one of the generators' chassis!

To Zhao Yu's surprise, the person cutting the computer case was none other than his father-in-law, Miao kun!

Chapter 1357: shocked underwater

The tropical waters of the Pacific Ocean were not as warm as Zhao Yu had imagined. He shivered as he was submerged in the water.

At this moment, he could clearly see that his father-in-law, Miao kun, was wearing a suit of scuba diving equipment and cutting an electric generator with a hot cutter in his hand.

There were two other divers next to him. One of them was a black man. He was swimming behind Miao kun, holding a unique pistol in his hand. He was probably forcing Miao kun to work.

The other person was a woman with an amazing figure. Just from her perfect curves, Zhao Yu could tell that this woman was Xi Wei's daughter, Xi menna.

At that moment, Xi menna was not afraid of any traps in the generator. She swam next to Miao kun and focused on the cutting process.

What the ...

Zhao Yu could not help but frown. Looking at Xi Mengna's excited expression, could it be that the diamond was really hidden there?

Driven by his curiosity, Zhao Yu swam slowly towards the three of them. When he got close to the generator, he saw the words "tytallgd WP 2056" on the case, which was exactly the same as the diamond password left by Grimm!

Waa ...

Suddenly, Zhao Yu's heart beat faster, and he was even more excited than Xi Mengna.

Since the letters and numbers on the system unit were exactly the same, there was no doubt that this was the place that green had pointed out to everyone.

But ... Would the diamond ... Really be here?

What would that batch of legendary diamonds look like?

滋滋.....

The heat Cutter in Miao kun's hand made a buzzing sound, which was particularly dazzling in the dark sea. It was because of this that none of the three people noticed Zhao Yu's arrival.

At that moment, Miao kun had already made a large incision on the generator. He was using the light from the cutter to examine the incision.

Seeing this situation, the three of them watched even more seriously and all gathered around.

This ...

Zhao Yu looked at the generator again and found that the case was very big. At the end of the case, a big piece had been cut open.

At that moment, Miao kun had cut the front part of the computer case, where a blue square icon was printed. Zhao Yu guessed that the symbol was the trademark of the generator's manufacturer.

Oh ...

Zhao Yu understood now. It seemed that Miao kun and his team had cut the tail part open, but they didn't find the diamond, so they started to cut the front part.

He wondered if the diamond was hidden here.

At that moment, as the incision had been made, Xi menna immediately made a gesture at Miao kun, indicating for him to put his hand in to see if there was anything inside.

However, Miao kun shook his head repeatedly, indicating that he was worried that there might be traps inside. He was not willing to do so.

“Miao kun?” Xi menna frowned and gestured at the soldier, telling him to use his gun to force Miao kun. However, when the beauty turned her head, she suddenly saw that there was someone behind them!

“Ah!?”

Xi menna was shocked. She did not bite the breathing device in her mouth tightly, and immediately vomited a lot of air bubbles.

Seeing Xi menna’s shocked expression, Miao kun and the soldier turned around at the same time. They were so frightened by Zhao Yu that they spat out a large number of air bubbles.

Indeed, Zhao Yu’s appearance was a little strange. It was at least ten meters deep, and Zhao Yu wasn’t even wearing a diving suit. His face was pale, and he looked no different from a water ghost. It was no wonder that he was afraid.

However, Xi menna was well-trained, after all. In just 0.5 seconds, she recognized that the man who did not wear any diving equipment and appeared out of nowhere was none other than the Super detective, Qianqian Zhao Yu!

Although, she couldn’t figure out where Zhao Yu had come from. How could he dive so deep without a breathing device? However, she still pounced on Zhao Yu out of instinct and wrestled with him.

At the same time, the African soldiers also reacted by raising their pistols and pointing them at Zhao Yu.

However, Miao kun was not to be trifled with. Seeing that Zhao Yu was in danger, he went all out and immediately used the heated cutter on the soldier’s arm.

The soldier’s arm started to smoke ...

Wulululu ...

The black soldier was burned to the point of wailing in pain. He spat out air bubbles and his pistol fell out of his hand.

However, the soldier was also an expert. When he was attacked by Miao kun, he kicked Miao kun in the lower abdomen, causing Miao kun to crash into the generator, and the cutter in his hand was destroyed!

The moment the cutter was put out, the water suddenly darkened, blocking everyone’s vision.

However, Zhao Yu had night vision goggles with him, so he was not affected at all. He took the opportunity to strangle Xi menna from behind and bring her deeper into the water ...

The resistance in the water was very strong, completely different from the fight on land. No matter how Xi Mengna twisted her body and tried her best, she could not break free from Zhao Yu’s iron-like arm.

Seeing that Xi Mengna was being held by Zhao Yu, the soldier panicked. He immediately gave up on Miao kun and chased after Zhao Yu.

At the same time, Xi Mengna pulled out a dagger from nowhere and stabbed Zhao Yu in the face!

What the ...

Zhao Yu wasn't afraid of bullets, but he was afraid of knives. However, in the water, where everything seemed to be in slow motion, he was bold because of his skills. As he saw the cold light approaching, he grabbed Xi menna's wrist and stopped the knife!

Oh ...

Xi menna used all her strength, but she could not do anything. She was very embarrassed.

At this time, the black soldier also took out a knife and was about to give Zhao Yu a knife.

Hmph Hmph!

Zhao Yu was prepared for this. He snorted coldly and pulled out the gas tube with his left hand, making it impossible for Xi menena to breathe in the oxygen from the oxygen tank.

Wuwuwu ...

Xi menna's face paled in shock, and she exhaled a series of large air bubbles. The dagger in her hand also relaxed a little because of the panic.

Zhao Yu's eyes were sharp and his hands were quick. He seized the opportunity to grab Xi menna's dagger, then raised his arm and threw it in the black man's direction.

However, the resistance was the same!

In the water, Zhao Yu couldn't throw the dagger very quickly. Although the soldier was very close, he lowered his head and easily dodged the attack!

Just as the African soldier lowered his head, Zhao Yu was shocked to see a huge and fast black shadow rush out from behind the African soldier!

Ah ...

The next second, Zhao Yu was so scared that his soul almost left his body! The huge black shadow was none other than a Suan ni shark!

It was a twin-headed shark with a long head. Although it was not too big, it was imaginable how terrifying it would be if it suddenly appeared in the deep and dark sea!

What was even more unfortunate was that the dagger that Zhao Yu had thrown hit the shark!

In an instant, the entire water seemed to be a vacuum, and not a single sound could be heard ...

Chapter 1358: mouth for mouth

The shark that had suddenly appeared swam over the soldier's head, swaying its huge body.

Although the dagger that Zhao Yu had thrown hit the shark, because the dagger was weak in the water and the shark's skin was thick, the dagger bounced off the shark and fell into the deep water. The shark didn't react at all, and continued swimming forward.

Feeling the waves, as well as Zhao Yu's frightened look, the black man looked up curiously. As a result, he was even more shocked than Zhao Yu. He was so scared that he didn't dare to move!

Gulp ...

The giant shark swam in an S-shape, and after a few seconds, it swam far away and disappeared.

Hu ...

Zhao Yu and the African soldiers heaved a sigh of relief at the same time.

After taking a few deep breaths, the soldier finally remembered that he was Zhao Yu's enemy. He quickly picked up his dagger and tried to stab Zhao Yu again.

However, just as he raised his arm, Zhao Yu suddenly spat out a few air bubbles and made an even more frightened expression. He looked behind the soldier.

Ah?

The soldier was shocked and quickly looked back. However, there was nothing behind him except for the dark and deep sea.

Not good!

Only then did he realize that he had been tricked. But when he turned around again, Zhao Yu had already swum in front of him and pulled out his oxygen pipe!

Wu lu lu lu lu ...

The soldier suddenly could not breathe and was in a panic. Zhao Yu took the opportunity to kick him into the deeper water ...

At that time, even though she also saw the Sharks, Xi Mengna was too busy to take care of herself. She tried to reconnect the oxygen tube a few times, but after a few tries, she realized that the oxygen tube had been broken by Zhao Yu.

In a moment of desperation, she could only try her best to swim upwards, wanting to quickly surface.

However, just as she swam to the water where the generator was located, she suddenly felt the ground under her feet. Her ankle was caught by Zhao Yu, who was swimming quickly towards her.

Wuwuwu ...

Xi Mengna was shocked and anxious. She kicked and kicked in panic, but she could not get rid of the difficult Zhao Yu. The more she couldn't get rid of it, the more anxious she became. She drank a few mouthfuls of seawater in a row and looked like she couldn't hold on any longer.

Just then, the soldier swam up tenaciously and grabbed Zhao Yu's feet.

Zhao Yu's body slanted, and he let go of his hand. Xi Mengna finally broke free and swam towards the surface with all her might.

Just as Xi Mengna was trying her best, she suddenly saw two surprising scenes. The first scene was that Miao Kun had put his entire arm into the hole of the generator. From the expression on his face, he seemed to be holding something inside ...

In the other scene, a few more sharks swam over to the generator!

In addition to the double-headed shark, there were also a few unknown sharks swimming among the generators. The scene was terrifying!

This ...

Xi menna looked at the Sharks in horror and felt that something was wrong. The scene was not only terrifying, but also a little strange!

However, as she could not hold her breath any longer, Xi menna could not care less about Miao kun and the shark. She swam up desperately, trying to get out of the water as soon as possible to regain oxygen.

However, the tide was very high at the moment, and the generator was more than ten meters from the surface of the sea. Simone could not hold it in any longer. After swimming a few meters, she could no longer hold it in. She spat out a string of bubbles from her mouth and looked like she was about to die ...

In the end, just as she was about to drown, Zhao Yu suddenly emerged from the water. After he swam in front of Xi menna, he opened his mouth and placed it directly on Xi menna's mouth, then blew a few breaths of air at her.

Wuwuwu ...

At first, Xi Mengna did not know what Zhao Yu was trying to do and struggled with all her might. But when she suddenly realized that she had miraculously obtained oxygen again, she hugged Zhao Yu's head and pressed his mouth against hers, not letting go!

In fact, this method of providing oxygen through mouth to mouth was not scientific at all.

However, Zhao Yu couldn't bear to see such a beautiful woman drown in the water, so he finally felt compassion and secretly put an invisible breathing device on her body to help her get oxygen.

As for kissing, it was just a way for him to show off underwater. He felt that since he had been insulted by Simone's mouth when they parted at the castle, he had to return the favor in the same way. This was called a mouth for a mouth.

Of course, apart from compassion, there was another reason why Zhao Yu didn't want Xi menna to die.

After all, Xi menna was the murderer of Miss Jasmine and an important witness of the entire incident on the island of wonder. Keeping her alive would be of great help in proving her innocence in the future ...

Zhao Yu's ability to act cool underwater was unprecedented. Xi menna thought that all the oxygen she got was from Zhao Yu's mouth, so she immediately hugged Zhao Yu tightly and kissed him like crazy!

Even a fanatic like Zhao Yu couldn't take it anymore.

Just as the two of them were trying to catch their breath, Zhao Yu suddenly felt someone pat him on the shoulder. He shivered in fear and quickly pushed the mixed-blood beauty away.

He turned around and saw that the person who patted his shoulder was none other than his father-in-law, Miao kun.

Hmm ...

This scene was inevitably a little awkward ...

Fortunately, Miao kun did not care about his feelings for Zhao Yu. He immediately took off his breathing device and put it to Zhao Yu's mouth.

His father-in-law wanted Zhao Yu to catch his breath and not suffocate to death.

Oh ...

Zhao Yu then remembered that Miao kun didn't know that he had the device. In order to not expose himself, he took a few symbolic puffs.

Seeing that Zhao Yu had gotten oxygen, Miao kun was relieved.

At that moment, Zhao Yu suddenly noticed that there was something in Miao kun's hand.

When he took a closer look with his night vision, he was shocked to see that it was a rectangular glass box.

Since the glass box was transparent, he could see some white crystals shining inside ...

I'll cut!

No way?

Zhao Yu was dumbfounded. Could it be that ... Those white crystals are ... The legendary Kasaya diamonds? "Miao kun found the diamond?" The diamond was really hidden in the generator?

This ...

Swoosh ...

Just as Zhao Yu was still in shock, Xi menna suddenly took out a light stick. The light stick was made of a chemical, and as soon as it was used, it immediately lit up the water they were in.

"Ah!?"

After the water turned bright, Xi menna saw the glass box in Miao kun's hand. In her surprise, she almost subconsciously reached out to grab it!

However, just as she stretched out her arm, she was hit by something. She turned around and saw that it was another extremely terrifying Suan ni shark!

Ah ...

In fact, Zhao Yu had been on guard against Xi menena for a long time, and he would not let her succeed. However, he had never expected that a shark would actually charge over and hit Simone.

This ...

As more and more sharks gathered around, Zhao Yu realized that their underwater nightmare had just begun!

Chapter 1359: -want money or life?

Boom ...

From the water in front of Zhao Yu and the other two, two soldiers suddenly jumped out. They were dressed in professional diving equipment and were holding shark-shooting guns!

It turned out that the reason Xi menna had lit the light stick was to point out the direction for her companions so that Xi Wei could quickly send people to rescue her.

However, the two soldiers who came to rescue, even though they had shark guns in their hands, when they suddenly saw the terrifying scene underwater, they quickly swam back without any hesitation ...

The two of them swam extremely fast, jumping out of the water with a whoosh and disappearing in the blink of an eye, as if they had never been here.

Oh, oh ...

Seeing the enemy run away so quickly, Zhao Yu felt a chill in his heart. At this moment, the three of them were surrounded by a large school of sharks, and they were in a dangerous situation.

These sharks were of different sizes and species. All of them had dense and sharp teeth, and they looked extremely ferocious and terrifying.

Zhao Yu knew that, although he had many devices in his system, none of them were effective against sharks. Once these brutal sharks pounced on them, the three of them would be doomed eternally!

At that moment, Miao kun was also scared out of his wits. Xi menna, who had forgotten about the diamond, was trembling in fear ...

Wu Lu Lu ...

They could not talk in the water, so Miao kun gestured to the surface and then swam up.

However, as soon as Miao kun moved, the Sharks swam even more fiercely and closed in on Zhao Yu. One of them even brushed past Zhao Yu's butt!

'F * ck ...'

Zhao Yu was so scared that his hair stood on end. The fear he felt could not be described with words.

嗷.....

At the crucial moment, Simone lit up another light stick. The light from the light stick instantly shocked the Sharks, and they retreated a little.

Eh?

Zhao Yu lifted his head and realized something was wrong. He quickly pulled Miao kun aside, signaling him not to move.

Miao kun frowned, then gestured at Zhao Yu, asking why.

Zhao Yu grabbed the glass box from Miao kun's hands and pointed at the bottom of the box, making hand gestures. Miao kun turned the box over and suddenly realized what the problem was!

Unexpectedly, there were a few circular openings at the bottom of the glass box, and some unknown red liquid was seeping out from those openings ...

Although they didn't know what the unknown liquid was, they could guess that the sudden gathering of so many sharks must be related to the liquid. It was likely some kind of powerful shark lure!

Damn it!

Miao kun clenched his fists in anger. From his expression, he was probably cursing Green's ancestors!

There was no doubt that this was another insidious trick set up by Grimm. No matter who got a glass box with diamonds from the generator, the shark lure agent in the glass box would automatically start and attract sharks ...

Miao kun immediately rummaged through the box. He wanted to open the glass box, take out the diamonds, and then throw the box away.

However, when he turned the box over carefully, he realized that the entire glass box was actually a single piece. There wasn't even a lid!

Wu Lu Lu ...

Miao kun exhaled angrily, obviously cursing again.

However, although his father-in-law was angry, he was very concerned about Zhao Yu. He felt that Zhao Yu had not breathed in oxygen for a long time, so he immediately ignored the shark's threat and quickly gave the breathing device to Zhao Yu.

Hmm ...

After Zhao Yu pretended to take a few puffs, he hooked his finger at Xi Mengna. Xi Mengna obediently came over and kissed Zhao Yu again.

At that moment, Miao kun could not care less about his son-in-law being intimate with another woman. He turned the box over again, trying to find a switch that could turn off the shark lure.

However, the entire glass box was exquisite and smooth, and there was no switch at all.

Immediately after, he tried to hit it again, but the diamond Box was not made of ordinary glass at all, and he could not break it at all.

Seeing this, Zhao Yu had no choice but to push the beautiful woman away and start to tear off his own clothes, planning to use them to block those openings ...

Just as Zhao Yu tore open a strip of cloth, more and more of the red liquid seeped out, and gradually, it turned from a leak to a spray!

With the spraying of the liquid, the Sharks couldn't hold back and were ready to pounce and tear the three people into pieces!

No...

No!

Suddenly, Zhao Yu seemed to have understood something. He quickly gave up on tearing his clothes, grabbed the glass box, and was about to throw it into the sea!

Wu Lu Lu ...

Seeing that Zhao Yu was about to throw the diamond away, Miao kun quickly reached out to stop him and blew a big bubble, which meant, "Zhao Yu, this is a priceless diamond. How can you just throw it away?"

I'll cut!

Zhao Yu also exhaled a bubble and replied, "Father-in-law, what time is it now? We can't risk our lives for money, right?"

Whoosh ...

A strong shark suddenly rushed over, passing in front of Zhao Yu and Miao Ying. It hit them hard, causing them to stagger.

"Sigh ..."

At this time, Miao kun seemed to understand what Zhao Yu meant. Although diamonds were expensive, compared to his life, it was not enough to make him lose his mind!

Thinking of this, Miao kun reluctantly let go of his hand!

In fact, Zhao Yu was also reluctant, but in such a critical situation, he still resolutely lifted the diamond Box and threw it into the abyss.

However, this time, another accident happened. Zhao Yu had just thrown the box away when Xi Mengna suddenly jumped into the deep sea, chasing after the diamond Box.

No!

No, no, no!

Zhao Yu quickly reached out and pulled. He finally managed to grab Xi Mengna's leg, but she seemed to have gone crazy. She kicked Zhao Yu away and chased after the box without looking back.

At this time, as the box fell rapidly, the Sharks were all enraged. Each and every one of them flicked their tails and opened their terrifying bloody mouths, charging straight into the abyss!

In the blink of an eye, the Sharks had drowned her out, and she could no longer be seen.

No...

No...

How ... How could this be ...

Zhao Yu's arm was still pointing in the direction of the abyss. He couldn't understand why Xi menna would do that. Could it be that ... Just because diamonds are known as fate stones, they are more important than life?

What ... What kind of logic was this?

Hu ...

Seeing this scene, Miao kun was quite emotional. He patted Zhao Yu's back to comfort him. Then, he quickly put the breathing device in front of Zhao Yu's face again, letting him catch his breath.

However, just as Zhao Yu raised his head and was about to symbolically take a deep breath, he suddenly saw an oval-shaped object suddenly fly over the two of them!

F * ck!

Zhao Yu was shocked and quickly pulled Miao kun away. Unexpectedly, the Oval object exploded and turned into a large net after flying above them!

The net opened and closed quickly. In the blink of an eye, Zhao Yu and Miao kun were caught in the net, unable to break free!

Then, as the net began to move upward, Zhao Yu and Su Yu were quickly pulled up to the surface of the sea.

Chapter 1360: A blessed crow's mouth

Wu Lu Lu ...

Because the breathing device was not properly installed, Miao kun choked on his water. He and Zhao Yu were tied up tightly by the fishing net, and they couldn't move or break free.

The net rose very quickly. In just a few seconds, the two of them broke out of the water and were dragged to the deck by the people on the yacht!

Hualalalala ...

As the net was unfurled, Zhao Yu and Su Yu slid onto the deck like big fish caught.

Crack, crack, crack ...

The soldiers on the deck were either holding rifles or harpoons, all aiming at the two and surrounding them.

"No! "No, no, no..." On the deck in the distance, an old and anxious voice suddenly sounded,"my daughter ... Where is my daughter? Where is he?"

* Cough cough cough *

Miao kun choked and spat out water. Zhao Yu raised his head and saw clearly that the old voice was from Xi Wei.

“Hurry up! Hurry up and find it!” Xi Wei turned to the two soldiers in diving suits and shouted, “menna is still in the water!”

“No...” The two divers shook their heads and pointed to the sea. “There are sharks down there!” I can’t go down!”

“How is that possible?” Scott said, “this is a shallow bay. Where are the Sharks?”

“It’s true!” The diver tried his best to explain. “If you don’t believe me, you can go down and take a look!”

“Hmph!” “Miao kun!” Xi Wei slammed his metal walking stick on the ground and rushed towards Zhao Yu and Miao kun. He shouted at Miao kun, “Miao kun, tell me, where’s my daughter?”

“Cough ... Cough ...” Miao kun deliberately coughed more than ten times, then pretended to be confused and asked, “your daughter ... Isn’t she already on the ship?” Didn’t you guys see it?”

“Ah ...” Xi Wei panicked. He immediately pulled out a silver-white pistol and pointed it at Miao kun’s head. “Tell me!” Otherwise, I’ll make you go see Grimm right now!”

“Okay, okay ... Calm down, calm down ...” Miao kun quickly raised his hands and said slowly, “I’ll tell you, I’ll tell you!” The diamond should be in the generator. I guess your daughter has taken it away. You should contact her quickly!”

“You! “Ah ...” Xi Wei’s chest heaved up and down as his hand that was holding the gun trembled. “If you dare to lie to me, I guarantee that you’ll die a horrible death!”

He immediately turned around and ordered the two divers, “Hurry up! Hurry up and get my daughter back, and the diamond! Hurry up!”

“But ... But boss ...” One of the divers said, “the shark ... The shark ...”

Bang ...

Before the diver could finish his sentence, Xi Wei suddenly raised his arm and fired a shot at his feet, giving everyone a shock.

“I don’t want to say it a second time!” Xi Wei roared at them, “the Sharks may not eat you, but I will definitely kill you! This probability question shouldn’t be too difficult, right? Hurry up! Hurry up!”

Under Xi Wei’s irrational roar, the two divers were forced to put on their diving equipment, pick up their shark guns, and jump back into the sea ...

“Mm ...” Xi Wei’s body was still trembling violently. He closed his eyes and took a deep breath, then suddenly turned around and pointed the gun at Zhao Yu’s head. “Speak!!!” Who ... Who are you?”

“Hey, hey, hey ...” Seeing that Zhao Yu was in danger, Miao kun quickly explained, “he’s a super detective China. Don’t you know that?”

“China’s super detective, he...Hehe ...” Xi Wei laughed maniacally and glared murderously at him. “He...He almost killed half of my team! It included an armed helicopter, a speedboat, two electric vehicles, a heavy machine gun, and two rocket cannons!

“And you’re telling me that he’s just a detective?” He pointed at Zhao Yu’s head again and shouted, “you ... You ... Who are you? How did you do it?”

“Hahaha ...” Hearing Xi Wei’s angry roar, Miao kun suddenly laughed and said to Xi Wei, “is there something wrong with your head? Did he really have such an awesome ability? Even Stallone couldn’t do it, right? Old Xi, can you stop joking around at a time like this?”

“Mm ...” Facing the gun, Zhao Yu tried to recall seriously and corrected Xi Wei, “you’re not being too careful. I only saw one rocket launcher. If there were two, things wouldn’t have ended up like this!”

“What?” It was Miao kun’s turn to be shocked. He looked at Zhao Yu in disbelief. “You ... You ... You ... Did you really do it?” he asked.

“Those people ... They are rich enough to deal with an entire Army! But why ... Why did this happen? “Ah ...” Xi Wei slammed his walking stick on the ground. “I just want the diamond. Do you have to do this to me?” For so many years, I’ve always been a foolproof person, but ... But you ... You’ve destroyed my reputation in a day ... You ...”

Gelin pointed the gun at Zhao Yu’s head, as if he was about to shoot.

“Yup! “You solved Molly’s murder case, dodged the missile attack, killed so many of our people, and now you’re even able to chase us all the way here ...” Scott stood in the distance and said a classic advertising phrase, “your power is really beyond my imagination!”

“No, no, no...” Miao kun saw Xi Wei’s murderous intent and quickly tried to persuade him, “that’s not the case at all!” “There must be some misunderstanding. He ...” He pointed at Zhao Yu, then at himself. “He came here to save me!

“As for your team ... Maybe ... Maybe it was all done by Lee Bencheng and the others? Or ... Is there internal strife?”

“Hurry up and tell me!” Xi Wei ignored Miao kun’s words and pointed the gun at Zhao Yu’s head again. “You ... Who are you?” he asked. I promise, this is your last chance!”

After saying that, Xi Wei brought the gun closer and was about to shoot.

“Don ‘t, don’ t, don’t ...” Miao kun tried to calm him down. “Elder Xi, listen to me. Calm down, calm down. You’re losing your mind. I promise you’re not!” I know his abilities the best. The reason you’re like this ... Is probably because of your daughter!

“Don’t worry, your daughter will be fine, really! I think she might have already found the diamond and will be back soon!”

As soon as Miao kun finished speaking, there was a rumbling sound on the deck of the yacht. Then, a rectangular glass box appeared in front of everyone.

What happened next made Miao kun and Zhao Yu almost break down. Two snow-white hands grabbed the railing of the ship, and a tall woman in a diving suit appeared on the deck!

In that instant, Zhao Yu and Miao kun’s hair stood on end, as if they had seen a ghost. The woman who had suddenly appeared was none other than his wife, Xi menna!
