

Crazy 1481

Chapter 1481: Can't you talk properly?

"We don't even need to look at the car!" Zhao Yu drew a simple sketch on the sand, then pointed to a corner and said, "the hot air balloon was confiscated. It's just in the corner! It's clear at a glance!"

"Waa! There's really a hot air balloon!" Hearing this, everyone was shocked. But the observant Gao Shang still saw the problem. She pointed to the cliff that Zhao Yu had just climbed up and asked, "how did you see the bottom of the wall from there? Don't tell me ..."

"You're right!" Zhao Yu nodded and admitted, "I have X-Ray Eyes!"

"....."

The crowd was speechless, and Gao ya covered her chest in embarrassment.

"Junior Sister, can't you let me finish my words first?" Tang Long didn't care about his x-ray vision. He asked anxiously, "detective Zhao, you said you knew what happened. What exactly happened?"

"Oil! If I'm not wrong, the reason why the exploration team went missing is because of the oil!" Zhao Yu rolled up his sleeves and pointed at the camp on the sketch. "There is a long row of sheds there, and under the sheds are several dark oil pits. That is most likely oil!"

"Wait ..." Gao ya suddenly raised her arm. "How do you see what's under the shed?"

"This ..." Zhao Yu was stunned.

"You're so silly!" Tang Long glanced at Gao ya and said seriously, "didn't he say so? Detective Zhao has myopia, oh no, x-ray vision!"

"....."

Tang Long's words made the atmosphere even more awkward.

"You mean ..." PU Jiayou pondered over Zhao Yu's words seriously, then guessed, "these people kidnapped the exploration team for oil? Isn't this ... A bit of a joke?"

"Yeah, what for?" Gao ya spread out her hands and retorted, "let the exploration team evaluate their oil storage?"

"Maybe ... Maybe it's oil refining?" Zhao Yu frowned and said, "I saw a lot of machines and equipment under another huge shed. Some of them were on fire. It looked like they were refining oil!"

"Crazy, crazy!" Gao ya waved her hand again. "That's a geological exploration team. They're looking for mineral deposits. How come they're involved in refining?"

"Also, how can you refine oil next to an oil pit? Detective Zhao, is there any side effect of your x-ray vision?"

"Hmm ... Alright!" Zhao Yu shook his head. "Did you know that I climbed very high just now? There's a gap in the roof of those wooden sheds, so I can still see the situation inside clearly!"

“Wait,” Gao ya interrupted Zhao Yu again, “why would you use a roof when there’s a gap? Isn’t it still leaking even if it’s raining?”

“There won’t even be a single rain in a year in this damn place!” Tang Long was anxious. He complained to Gao ya, “Junior Sister, can’t you just let me talk nicely?”

“They didn’t build the shed to keep the rain out,” Zhao Yu said. “They probably didn’t want people outside to see them!

“I don’t know much about the environment here, but I feel that I can’t think of anything else other than oil in that black stuff!”

“Well, it’s not surprising that there’s oil,” said Gao Shang, who was familiar with the local cultural environment. “There are indeed many oil wells near the upper reaches of the Nelia Valley, including the section in Kazakhstan!”

“Detective Zhao,” in the end, it was Captain PU Jiayou who got to the point. He immediately asked Zhao Yu, “since you can see under the shed, then... Did you see the person we’re looking for?”

Hearing this, the crowd finally stopped their discussion and turned to look at Zhao Yu.

Zhao Yu nodded seriously and said, “Yes, at least I can confirm that there are three East Asians next to the equipment!”

“Ah?” Everyone was shocked. Captain PU asked, “can you confirm that it’s the missing exploration team member?”

“Their faces were especially dark ...” Zhao Yu shook his head and said. “Their faces were too dirty, and they were covered in oil! I can’t be sure from that distance!”

“What’s there to be sure about?” At this time, Yang Feng, who had not spoken for a long time, said, “hot air balloon, oil, local armed forces, East Asian people, Captain, should we report to officer Li quickly?”

“Um ... But ...” PU Jiayou picked up the satellite phone and said awkwardly, “our information isn’t very comprehensive. Even if we report this, the higher-ups won’t take any action!

“At least ... We need to be sure that those Chinese are the missing exploration team members!”

“And ...” Gao ya bit her lips and said, “we need to know which faction they belong to so that the higher-ups can deal with them!”

“Mm ... What if ...” At this time, Zhao Yu suddenly said very seriously, “what if we just go in and talk to them?”

I’ll ...

Gao ya almost spat out her tongue, but she gave Zhao Yu a thumbs up. “Detective Zhao really lives up to his reputation. No one has the courage to do this, right?”

“No!” PU Jiayou felt that Zhao Yu wasn’t joking, so he immediately said, “since they dared to kidnap our country’s exploration team member, it means that they are well prepared! If we go in and negotiate, they will never admit it!”

“The captain is right!” Yang Feng nodded. “We can only negotiate if we have solid evidence! I think we should wait until night time and let Tang Long climb up to a higher place to confirm the information!”

“En!” PU Jiayou agreed. He picked up the satellite phone and said, “but no matter what, I have to report the situation to the higher-ups first and see if officer li has any ideas.”

With that, PU Jiayou dodged the rock and went to the side to make a call.

“Detective Zhao,” Tang Long asked Zhao Yu curiously, “your rock climbing skills are much better than mine! Can you teach me later?”

“I can ‘t!” Zhao Yu opened his palms and said seriously, “I know Gecko power, but you don ‘t!”

I’ll ...

All the team members instantly fell to the ground, having been rebuffed ...

In fact, Zhao Yu wasn’t lying. In order to climb up the cliff, he had indeed used invisible suction cups.

However, he only climbed up the cliff to put on an act for others to see. The secret weapon he really relied on was his Pi Xiu invisible drone!

He had no choice. The cliff was too far away from the village. Even if he could climb up, he couldn’t see the situation inside.

Although the invisible drone was a special device and was relatively precious, at this time, in order to get information as soon as possible, Zhao Yu could only bear to part with it.

Therefore, what he had just described to everyone was all from the video footage sent back by the drone.

Anyway, the invisible drone was invisible and no one could see it. He naturally did not have to worry about being discovered by the enemy. In order to get a better view, he even controlled the drone to fly directly into the tent.

The only flaw was that the few suspicious East Asians did have oil stains on their faces, making it impossible to see their original looks.

And because it was not face to face, Zhao Yu could not use devices such as a face recognition device to identify her. Therefore, he was unable to confirm that the East Asians were the missing exploration team members.

He could only feel that the East Asians were forced to work and not out of their own free will. Hence, from a certain perspective, the possibility of them being kidnapped exploration team members was very high.

Of course, Zhao Yu wasn’t worried about the confirmation of the information.

Because, even though his Super Tool was not very powerful in offensive battles, it was very useful in scouting.

Therefore, he had already planned what his next step would be.

Chapter 1482: not good

It was very late at night, but the security of the village full of fortifications still showed no signs of relaxing.

Behind the wooden city walls, lights shone in all directions, and there was a hubbub of voices. It was still as bright as day.

Zhao Yu had planned to use climbing ropes, spring devices, suction cups, and other tools to climb along the city wall. But now, it seemed impossible.

What was even more infuriating was that, although there was a city gate on the side facing the valley, the city gate was tightly shut. No vehicles or people were going in or out, which made Zhao Yu give up on the idea of sneaking in.

AI!

After walking around the city wall, Zhao Yu couldn't help but sigh. If only the system had a device that could allow him to pass through the wall.

As he couldn't think of any other way, Zhao Yu had to use his ultimate skill, the Super combination of an aircraft and an invisibility cloak.

When he used them, his heartache could be imagined. These two items were rare and in high demand, and he never used them easily.

However, the current situation of the exploration team was of utmost importance. In order to obtain the most accurate information, he could only bear the pain and part with it.

The Super duo never disappointed Zhao Yu. After he flew up, he flew into the village without anyone noticing.

When he flew into the village, he instantly felt the temperature rise a lot. He saw that there were many people in the village, and many places were burning with fire.

In front of the fire, there were soldiers drinking and chatting, and some people were even dancing around the fire.

Zhao Yu's mind was not on this, as he flew straight to the work shed in the distance. The sheds didn't look like much in the drone video, but at this moment, they looked huge and spectacular.

Zhao Yu knew that the middle part of the shed was filled with black oil pits. The work shed in the North was the target he wanted to survey.

When he flew close to the target's shed, a pungent smell, like burnt tires, came to his face. Zhao Yu almost choked on his invisible breathing device.

Just like the video sent by the drone, in this huge and towering work shed, there were many large equipment, many of which were smoking and burning ...

Zhao Yu realized that the few suspected Chinese people he had seen during the day were still there. However, they were not working around the machines like they had been during the day, but were instead being controlled by a group of soldiers with AKS in the middle of the open space.

Just as Zhao Yu was about to find an empty corner to land, he suddenly heard one of the people who looked like they were from China start to curse,

“You ... You bunch of animals! Beast!”

Eh?

Zhao Yu heard it clearly. The man was speaking fluent Chinese, so ...

Ah?

Zhao Yu looked into the crowd from mid-air and suddenly saw a woman lying on the ground. Her clothes were disheveled, and her hair was in a mess. The woman was not moving, so she was probably dead!

F * ck ...

Zhao Yu took a deep breath and suddenly felt that something was wrong. He quickly observed the environment and found a corner behind a machine on the side of the shed where the light could not reach, so he quickly went in.

As the invisibility cloak’s duration was about to end, Zhao Yu couldn’t help but increase his speed and fly very fast.

* Whoosh ... *

When he rushed down like a gust of wind, one of the soldiers seemed to have sensed something and subconsciously turned to look.

However, Zhao Yu’s speed was very fast, and in the blink of an eye, he was already in a corner. The soldier looked left and right, but did not see anything, so he turned his head back.

As soon as Zhao Yu landed, the invisibility cloak’s effect ended. He quickly hid in a dark corner and looked at the center of the field through the gaps between the machines.

“You are the butchers, the executioners! You will not have a good ending for killing innocents!”

The person who spoke was wearing a greasy overalls and a face mask. His face was covered in oil, and his appearance was almost unrecognizable.

Zhao Yu had already saved the photos of the exploration team members into his facial recognition device, so he finally had the chance to compare them.

In the end, when he turned on the facial recognition device and aimed it at the person, the red light of the recognition success immediately lit up.

Waa ...

Suddenly, Zhao Yu heaved a sigh of relief. He saw that the person who was yelling at the enemy was Division Chief Jiao’s husband, kun Peng!

Kun Peng was the captain of the missing exploration team!

Since the kun Peng was here, there was no doubt that the other members of the exploration team had been captured and brought here.

However, Zhao Yu's joy only lasted for less than two seconds, when the situation suddenly changed.

As the crowd parted, a tall, bearded local in a long robe slowly walked to the kun Peng.

Judging from the man's temperament and the reactions of the others, he should be the leader of the fortress in the village.

The big-bearded man waved his hand, and his men immediately appeared with two other women.

Damn it!

Zhao Yu recognized them at a glance. The two women were the missing female members of the exploration team, and they were still wearing the exploration team's uniform.

As soon as he saw the two female team members, kun Peng's expression changed drastically. He trembled with anger, but his eyes revealed great fear.

The next second, the big bearded man said a lot of things, and someone immediately translated it in Chinese,"

"If there's no oil, the two women will end up like her!" The translator pointed at the dead woman on the ground."My brothers love women the most!"

"I've said it a hundred times!" "We're a geological exploration team, not an oil exploration team," Kunpeng shouted dejectedly."Moreover, exploration and oil refining are two different things. You got the wrong person!" We can't do your work!"

After the translator translated, the bearded man stared at him with his scary eyes and said a lot of things.

In order to hear more accurately, Zhao Yu immediately used the invisible translator to understand what he meant.

"Don't you think that it's too late to say all this now?" The bearded man said fiercely,"in the past ten days, you have successfully run our equipment without an explosion like the last time, and you still say you don't know how to refine oil?

"You think I don't know? "All of you, who have been appointed by the country, are capable people," said the bearded man."I don't have time to give you anymore. If you can't produce qualified diesel before dawn, I'll kill all your male team members and make your female team members wish they were dead!"

"Why do you still not understand?" Kun Peng roared angrily,"I can manipulate your equipment because I only know some principles, but I don't have any practical experience. You are ... You are forcing me!

"Also, refining technology is a complicated process, and your decompression equipment is not qualified at all. If you want me to help you, you will need more professional materials, and you have to give me at least two months! It's going to take at least two months!"

“Oh? Two months, is it?” The bearded man waved his hand again after hearing kun Peng’s words.

Soon, as the soldiers split into two lines, kun Peng and Zhao Yu, who was in the corner, were shocked to see that there were more than ten people in ragged clothes kneeling on the ground next to the fire nearest to the work shed!

Behind each of them, there was a soldier holding a rifle. The barrel of the rifle was pressed against their backs. It looked like they were about to execute him!

Damn it!

Zhao Yu took a deep breath and suddenly realized that the situation was not good.

Chapter 1483: true colors of a madman

Zhao Yu saw that there were more than ten people, men and women, young and old, kneeling by the fire. They were all in tattered clothes and were shivering. Upon closer inspection, they all looked like locals.

“Two months is too long for me!” The bearded man said coldly, “my soldiers also need to eat. Without oil, I don’t have extra food to feed them!”

With that, the big-bearded man raised his arm and was about to give an order.

If his arm were to fall, these dozen or so innocent people would be shot to death on the spot.

“No! Don’t! Please don’t!” Kun Peng was anxious and shouted at the big-bearded man like a madman, “they ... They are all innocent villagers. Isn’t it too inhumane for you to do this?”

“One month! How about a month?” Kun Peng begged, “give me a month. I will refine the diesel and gasoline that you can use. Please ... Please, stop killing innocent people!”

Oh ...

Zhao Yu then realized that the people who were kneeling on the ground, including the woman who had died a tragic death, were probably the original residents of the village.

And these soldiers were all invaders!

Perhaps, this was what happened: The invaders saw oil appearing near the village, so they occupied the village and built fortifications.

But for some reason, they were still not satisfied with the oil and wanted to build local refineries to refine the oil.

Because of the lack of technology, they took the risk of kidnapping the exploration team, thinking that the exploration team could help them refine ...

“Tsk, tsk, tsk ... It’s changed to a month?” At this time, the bearded man shook his head and said, “no wonder you guys are so good at doing business!”

“That’s good. Since the time is shortened by half, I’ll also kill half of them first!” The bearded man pointed at the two female prospectors and said, “I’ll play with one of these two women first! Let me see ... Which one is more beautiful?”

As he said that, he turned his head to look at the two female prospectors. The two women were so frightened that they trembled and fell to the ground, crying “no!”...

Seeing the two girls’ fear, the soldiers laughed out loud, feeling very pleased with themselves.

“You ...” Kun Peng was furious. “You are not human!” I’m telling you, if you dare to hurt our China citizens, you won’t have a good end!”

“Don’t scare me! “Yes, I admit that we can’t afford to mess with the Chinese,” big beardy said with a smile. “But you should know how we got you here. Someone has to know where you are!” Hahaha ...”

The bearded man was happy, and the others followed suit and laughed.

“Did you know?” The bearded man continued, “you disappeared into thin air in the camp. Now, everyone is targeting tartein and the terrorists of vachery!

“Who would have thought ... That you would be guests in a small village in the Bonia Valley?”

“Ah ...” After the interpreter finished the bearded man’s words, kun Peng and the China exploration team members present all let out a cry of despair.

If that was the case, it meant that they had no hope of being saved.

“Good! “We’re going to die anyway,” kun Peng said righteously. “Then you might as well kill us all!”

“No, no, no...” The bearded man laughed coldly. “We, the people of sacrosanct, appreciate talented people. I will not kill you! However, when I said I would kill half of them, it was true!”

As soon as the bearded man finished speaking, his men immediately pulled one of the female prospectors out. The man was extremely ruthless. He grabbed the female prospecting member’s hair and dragged her hard.

“Ah ... Ah ... Help, help ...” The female team member was frightened and wailed.

However, at this moment, another soldier came from the side and pounced on the female exploration team member, reaching out to tear her clothes ...

At the same time, the bearded man gestured to the fire in the distance, and half of the soldiers beside the fire immediately put away their guns.

The other half had their guns loaded and were ready!

“No! No, no, no! “Please, please ...” Kun Peng begged crazily, “as long as you don’t kill them, I’ll do whatever you want. I’ll do my best to refine the oil. I’ll do my best ... I’m begging you ... Please, please don’t ...”

“Hmph!” The bearded man sneered, and a trace of cruelty flashed in his eyes. He was about to put down his arm and order the soldiers to shoot.

In the end, at such a critical moment, a wild laugh came from the shed.

“Wahaha...Wahahahaha ...”

His wild laughter was as loud as a Bell, reverberating through the shed and scaring many soldiers.

The next moment, when they realized that the laughter came from a dark corner behind a machine, they immediately aimed their guns at it.

Then, the whole world seemed to have suddenly quieted down, and even the bonfire in the distance was no longer crackling.

The soldiers stared at the corner nervously. Gradually, they finally saw a figure slowly walking out of the darkness.

“Wahaha ...”

The one who laughed wildly was, of course, Zhao Yu. He raised his hands and slowly walked out of the darkness. He laughed wildly and evilly.

“.....”

In an instant, the bearded man and his soldiers saw Zhao Yu’s face clearly. They realized something, and their expressions turned extremely ugly.

“Hahahaha ...” Zhao Yu raised his hands, came up to the bearded man, and said, “you think too simply of us Chinese people. Do you think you can hide from our heavenly eyes and fool everyone with a stupid hot air balloon?”

Hearing Zhao Yu’s words, the interpreter officer was shocked and quickly translated his words to the bearded man.

After the bearded man heard this, he was not feeling good.

At the same time, the two soldiers who were about to molest the female exploration team member quickly let go.

The exploration team members, on the other hand, were all beaming with hope.

Crack, crack ...

However, the situation on the battlefield was still extremely dangerous and not optimistic. As the soldiers pulled the bolts, Zhao Yu could be shot at any time.

However, the reason why Zhao Yu dared to stand out was not because he was hot-blooded or because he wanted to save her, but because he knew what he was doing!

“Hey! Can’t you see? You bunch of self-deceiving and self-deceiving bastards!” Zhao Yu raised the corner of his mouth and scolded fiercely, “since I can appear here, you can guess what kind of situation you are in now, right?”

“You ...” The bearded man’s eyes darted around as he asked in a trembling voice, “Who are you?”

“Who am I? “Hahaha ...” Zhao Yu didn’t even need an interpreter to translate. He immediately sneered and shook his head, then said with a straight face, “I’m from the China Special Forces! Can’t you tell? You have been surrounded by our Army!

“There are now two drones equipped with ground-to-ground missiles on standby at high altitude. They can blow this place up at any time!

“I’m here today to F * cking give you guys some benefits!” Zhao Yu said arrogantly, “if you listen to me, I can let you Live! But if you don’t listen, then not a single one of you will survive today!”

Chapter 1484: some movement

Zhao Yu’s words were arrogant!

One must know that he had said those words while being aimed at by dozens of guns and surrounded by countless enemies.

Such courage was rare in this world!

After the interpreter finished translating the words, the soldiers, led by big bearded, all looked surprised. Some of them even looked up at the sky nervously.

“You ...”

The bearded man was in an indescribable predicament. Zhao Yu’s sudden appearance not only disrupted his rhythm, but also scared him!

Even though this place was not impregnable, how could he not be shocked that a China Special Forces soldier could sneak in without a sound and hide in a dark corner not far from him?

He had walked out of his own free will. What if he didn’t?

What if he shot him in the dark?

As the leader, the bearded man must have his own special abilities. He knew very well what Zhao Yu’s appearance meant. Since he dared to come out alone, then there must be a strong support behind him.

That’s right, the bearded man was not afraid of Zhao Yu, but he was afraid of the powerful forces behind Zhao Yu!

Although he knew that it might not be as exaggerated as Zhao Yu had made it out to be, he knew very well what the consequences would be if he were to anger the powerful China.

Now that the matter had been exposed, then ... He had to quickly think about how to deal with this crisis.

So, after thinking for a while, the bearded man asked Zhao Yu, “What do you want?”

“What do you think?” Zhao Yu put down his arm and said with a cold expression, “I didn’t come all the way here to chat with you, right?”

“Mm ...”

The translator didn't know how to translate the words "chatting and bullsh * t," so he could only stammer and pass by.

"No matter what ..." Big beardy's eyes widened and he said slyly, "this is vakaria's territory. It is illegal for you China soldiers to attack me here!"

"If we bring your actions to the International Court of Justice, you will also have to pay the price ..."

"Wow, that's great!" Zhao Yu grinned and said with an evil look in his eyes, "you're talking about international law when you're about to die!"

"Let me tell you, strictly speaking, half of the Nelia Valley belongs to tartain! "That is to say," Zhao Yu pointed at the shed, "you are entering the country illegally and are not protected by any international law!"

"And, according to Chapter 15, Article 20 of the International Criminal act," Zhao Yu said quickly, "crossing the border to kidnap a hostage from another country is a serious illegal act. The country involved has the right to recover responsibility through diplomatic means and extradite the murderer!"

"In other words, not only do we have the right to attack you, but we also have the right to bring you back to our country for trial! Just like the Mekong River case, understand?"

Zhao Yu spoke too fast, and the translator obviously couldn't keep up with the rhythm. He stammered for a long time before he could finish translating the original words.

The bearded man didn't expect Zhao Yu to not only have a sharp tongue, but also to be able to use classic examples.

In fact, the International act, Chapter 15, Article 20, and so on, were all made up by Zhao Yu.

He knew that in such an environment, he had to slap this vicious person into submission and not let him recover.

So, while the other party was still in a daze, Zhao Yu immediately gave him a strong dose of medicine. He actually turned on the walkie-talkie on his waist and called the Secret Service team outside ...

It turned out that there was a simple video communication device on the walkie-talkie of the Secret Service, which could transmit video signals from both sides through Bluetooth within a certain range.

Zhao Yu's infiltration of the village this time was completely behind the back of Secret Service.

Originally, he just wanted to get the information as soon as possible to confirm the identity of the hostage, and then think of a solution with the special task force.

However, he did not expect the situation to take a sudden turn for the worse. The other party wanted to kill more than a dozen innocent villagers and humiliate the female members of the exploration team.

Zhao Yu had no choice but to step forward. Due to the urgency of the situation, he didn't have time to report this to PU Jiayou and the others.

However, he knew that secret services had to find out the truth after such a big incident.

He then thought of the walkie-talkie's video function. When he rushed out of the corner, he quietly turned on the video call and got in touch with the Secret Service team.

The walkie-talkie was attached to Zhao Yu's waist, and the camera was facing out.

In other words, the special task force already knew what had happened here.

Suddenly seeing Zhao Yu not only break into the enemy camp, but also negotiate with the enemy, PU Jiayou's shock and madness were unimaginable.

Just as he was panicking, something even more incredible happened. Zhao Yu contacted him through the walkie-talkie in front of all the enemies.

"Hey, hey ..." Zhao Yu spoke to him in a nonchalant tone, "hey, division commander PU, division commander PU! The target has been confirmed. I'm negotiating with them!

"In order to show your sincerity, can you guys make some noise?"

I'll cut!

PU Jiayou clenched his fists and his entire body trembled. It was hard to tell if it was out of anger, agitation, or some other reason.

"What's going on ..." Turning off the walkie-talkie, PU Jiayou anxiously scratched his ears and cheeks. He gritted his teeth and said, "what's going on ... What division commander PU?" It's not like we're fighting a war! Division commander my ass! This ... This is too reckless ... If we can't suppress them, we'll all be in trouble ...

"Movement ... What kind of movement?"

"I got it, I got it! "Captain ..." Gao ya was smart and quickly reminded him, "signal flare, fire the signal flare!"

"Hmm ... Alright!" PU Jiayou slapped his thigh in anger and instructed, "don't hit one. Let Tang Long hit one on the top of the mountain as well. It'll build up momentum for our pretentious genius detective! What the hell is this!"

Under Captain PU's command, Tang Long immediately shot a signal flare into the sky from the cliff. At the same time, Yang Feng fired a signal from the main entrance of the village.

The soldiers in the shed couldn't help but become restless when they saw the two signal flares rise into the sky, one of which was shot so high.

The big-bearded leader's heart turned cold, and he was extremely afraid.

From the looks of it, the other party was not bluffing and had already prepared a response. This ... What should he do?

"Mm ..." The bearded man frowned, gritted his teeth, and said to Zhao Yu, "Okay, so what if you have backup? I have a hostage in my hands, and even you are my hostage!

"I don't believe that you guys would dare to bomb all the hostages!"

The bearded man's words immediately had the effect of stabilizing the morale of the soldiers, and all the soldiers instantly straightened their backs.

"That's why I said I'm here to give you some benefits!" Zhao Yu said, "now, you just need to release our people and those innocent villagers. I can guarantee that my people will leave immediately and will not pursue the past mistakes you have made!"

"Hmph Hmph! What kind of person do you think I am?" The bearded man narrowed his eyes and sneered. "Do you think I'm stupid enough to believe you?"

"We've always kept our word. I've already shown you what I'm capable of," Zhao Yu shouted. "You have to believe me even if you don't!"

"That won't do." Big bearded's eyes flashed as if he thought of something. He said, "in that case, let's have a good talk ..."

With a wave of the bearded man's hand, the soldiers swarmed forward and surrounded Zhao Yu.

Chapter 1485: The chaos in the valley

Seeing the bearded man suddenly turn hostile, Zhao Yu did not panic at all. He stared at the bearded man and asked, "What, are you going to take us down with you?"

"If anything happens to us, this place will be razed to the ground!"

"No, no, no... Hehehe ..." After listening to the translation, the big-bearded man laughed sinisterly. "I said, we need to have a good talk!"

Just as the bearded man said that, his soldiers suddenly brought a few people over.

Zhao Yu took a look and saw that they were all the missing exploration team members. Including Kun Peng and the two female team members, nine out of the twelve exploration team members had gathered.

"Hehehe ..." The bearded man laughed. "You see, I'm very sincere in releasing the hostages!" As he spoke, he pointed at the crowd and then at the oil pit in the distance. "We've spent so much effort just to ask for money!"

"Now, since you want us to release him, you have to pay a small price!" The big-bearded man's eyes were filled with greed. "So, it's not too much for us to ask for a little reward, right?"

Oh ... So he wanted money ...

"Hmph!" Zhao Yu snorted coldly and taunted, "you learned it from Somalia pirates, right? Are you trying to loot a burning house?"

"Hehe ..." The bearded man smiled and said, "I'm doing this for the sake of my soldiers! Only money can allow us to gain a foothold in the war-torn valleys."

"Besides, we're not like Somalia pirates," big beard said. "Don't worry, I'll definitely give a reasonable price that will satisfy both of us!"

“Let’s exchange the money and goods at the same time, what do you think?”

After that, the bearded man waited patiently for Zhao Yu’s response. He knew that as soon as Zhao Yu asked for a price, it meant that his plan was about to succeed.

However, what was Zhao Yu’s background?

The moment the other party opened his mouth, he had already known in his heart.

Logically speaking, money was just a worldly possession. If he could really use money to resolve this crisis, it might be a good way. However, Zhao Yu could never agree to such an unfair deal!

Because there were no drones or troops behind him. Everything he was doing now was just a Bluff!

If he were to strike a deal with the other party, he would definitely be delayed. If he delayed any longer, he might be exposed!

Thus, if he wanted to resolve the crisis quickly, he had to end the battle quickly and not wrangle with the other party.

Moreover, Zhao Yu couldn’t stand this kind of vexation. A foreign force has kidnapped our hostage and wants us to pay a ransom for her. This is simply bullying us too much!

It’s already good enough that I didn’t ask you for compensation, and you still dare to ask me for money?

“Haha, this small amount of money might not mean much to you, but it means a lot to us!” The bearded man was still trying to persuade Zhao Yu, “how is it? As long as you’re willing to pay, we’ll definitely let them go! Or else ...

“Without the refiners, we can’t survive. We can only die together!”

“Alright!” Zhao Yu didn’t wait for the interpreter to speak, but nodded and said, “then let’s die together!”

After saying that, he switched on his walkie-talkie and shouted at Captain PU Jiayou, “Division commander PU, the negotiations have failed. Let’s drop the bomb!”

“Gulp ...” Through the walkie-talkie, Zhao Yu could hear PU Jiayou’s voice.

Whoosh ...

Zhao Yu’s words caused an uproar, and the soldiers “faces changed.

“Don’t ... Don’t let him use the walkie-talkie!” At this moment, a man who looked like an officer shouted at the bearded man, “quick, grab it!”

“Snatch your radish!” Zhao Yu held the walkie-talkie and roared fiercely, “if the military loses contact with me, immediately launch the missiles and you’re all dead!

“Division commander PU,” Zhao Yu shouted into the walkie-talkie again, “let the drone blow up the West shed and let them see if I’m joking with them!”

“This ... But ...” PU Jiayou’s voice sounded messy and smoky over the walkie-talkie ...

"It's fine. Don't worry about my safety. Drop the bomb!" Zhao Yu shouted, "I'm the commander, did you hear me? I told you to drop the bomb!"

"Don't! Don't, don't, don't ..." The translator was the first to understand what Zhao Yu meant. He hurriedly stopped Zhao Yu, then translated Zhao Yu's words to the bearded man. He was so anxious that his saliva was flying ...

"Ah?" After big beardy heard this, he was so scared that his face turned pale. There were oil pits under the West shed. If it was blown up, it would be equivalent to cutting off their lifeline. He hurriedly waved his hand and shouted to the interpreter, "wait, wait, wait ... Let's talk this out, let's talk this out!"

"What else is there to say?" Zhao Yu roared angrily, "I've already given you a chance, but you didn't accept it! Then why should I be polite to you?"

Then, he took a deep breath, put the walkie-talkie to his ear, and pretended to shout.

This time, the bearded man and the soldiers were really frightened. Although they had the advantage in numbers, they were still completely crushed by Zhao Yu's imposing manner.

"O-Okay, okay, okay ... I ... I ..."

The bearded man trembled as he stretched out his arm. It looked like he was about to compromise, but at such a critical moment, an unexpected and shocking change suddenly occurred!

Following the sharp sound of something breaking through the air from the mountain to the South, a deafening explosion suddenly occurred on the southern wall of the village!

Boom ... Boom ...

As a huge fireball rose up, a huge hole was blown open in the wooden city wall. The soldiers patrolling on the city wall were instantly blown away, and fire debris flew everywhere.

Even though they were in the shed far away, Zhao Yu and the others could still feel the strong blast from the explosion. Suddenly, the ground shook, the shed shook, and it was a mess!

Oh, oh ...

Zhao Yu swallowed his saliva, gritted his teeth, and said into the walkie-talkie, "Captain PU, isn't this a bit too much? I'm talking about the work shed in the West! You guys are bombarding ... Eh?"

Suddenly, Zhao Yu realized that something was wrong. He knew that the Secret Service team was all on the east side, so it was impossible for the bomb to blow up the south side of the village!

This ...

"What ... What's the situation?" PU Jiayou's messy voice immediately came from the walkie-talkie. "What exactly happened? It wasn't me ..."

Seeing that the village was under attack, the soldiers at the scene once again aimed their guns at Zhao Yu.

“You ...” The bearded man was so angry that he was trembling. He thought that the explosion was caused by Zhao Yu, so he pointed at Zhao Yu angrily and shouted, “you ... Do you really want to die?”

“Mm ... This ... This ...” This time, it was finally Zhao Yu’s turn to be confused. He didn’t know where the explosion came from.

Whoosh ...

However, while everyone was still in a daze, a sharp air-piercing sound came from the southern mountain again.

A Cannonball fell from the mountain and hit a house at the South Gate of the village.

BOOM!

The house exploded into pieces, and the soldiers near the house were all covered by the debris.

Whoosh ...

Zhao Yu quickly covered his face when he saw the blast of air.

The air wave blew the shed to the side and kept shaking. A few soldiers who lost their balance were all washed to the ground ...

“Ah ... I want ... I want ...” The bearded man pointed at Zhao Yu and roared, “I want to kill Qianqian and all of you!”

Chapter 1486: at a dead end

With the big bearded man’s roar, the soldiers raised their rifles and were about to shoot at Zhao Yu and the exploration team.

“Wait a moment!” In a moment of desperation, Zhao Yu shouted, “our people are all on the east side! We didn’t do this!

“Besides, our drones are loaded with ground missiles. One of them can blow up half of this place! Can’t you tell? We didn’t do it!”

Just as Zhao Yu finished speaking, a soldier suddenly ran over from the South and reported to the bearded man in a panic, “General, General! There’s a team outside the South Gate, and ... There’s armored vehicles!”

“Ah? The South?” The bearded man’s eyes turned, and he seemed to have sensed something. He hurriedly asked, “can you see their flag?”

“I can’t see clearly, but ... But ... In the entire northern mountain area, the only one with an armored vehicle is ... Is ...”

“The banner organization!” The bearded man shouted a familiar term, and his expression changed. “How is that possible? Why did they come to the Nelia Valley?”

“They ... Went ... Went around our line of defense?”

“General,” someone who looked like an advisor said, “they’re obviously here for the oil mine. We have to ask for help from the headquarters!”

“Request for help, request for help! That’s right!” The bearded man quickly ordered, “hurry up and ask for help!”

“Tsk, tsk ... That doesn’t make sense.” The big-bearded man furrowed his brows and said, “this is the territory of us, the people of zacherou. Even if they take the oil mine, how can we defend it?”

“I don’t know!” The staff officer sighed worriedly. “We’ve all been attacked, but we haven’t received any news. Could it be ... Something happened to our hometown?”

Just as the staff officer was speaking, loud gunshots and explosions were heard from the South Gate. It was clear that both sides had already started fighting.

“There’s no time!” The bearded man immediately gave an order to the soldiers, “hurry up and organize a defense. Let’s fight them! Um ... Wait ...”

Before he could finish his sentence, he suddenly saw Zhao Yu. He suddenly remembered something and quickly asked the translator to tell Zhao Yu, “Chinese man, you’ve come at the right time!”

“Don’t you have drones? Now ... As long as you can help us defeat the enemy, I will immediately release your people! I promise!”

“Mm ... This ...” This time, Zhao Yu felt like he was shooting himself in the foot. He could only hold the walkie-talkie and pretend to hesitate.

“Please,” big bearded said. “The banner organization is a terrorist! They were the ones who launched the terrorist attack in yelmaz a few days ago! Hurry, hurry up and help me kill them!”

“Hmm ... No!” Zhao Yu could only shake his head helplessly. “No matter what kind of terrorist they are, they didn’t provoke us, so we have no right to attack them!”

“The missiles are too destructive and too many people have died. I can’t make this decision ...”

“It can’t be!” After he understood, the bearded man’s expression immediately changed. “What kind of logic is this? “The banner organization is numb to killing. If they attack, you will all die!”

“Since you have the missiles, what are you waiting for? Hurry up and bomb them!”

“Hmm ...” Zhao Yu was slightly stunned, then said, “I don’t think so. We have to act in accordance with international law. We can only fight back when they really want to hurt us!”

“Maybe ... Um ...” Zhao Yu stammered. “Once the flag organization sees that we are Chinese, they might not dare to touch us?”

“Oh ...” After seeing Zhao Yu’s unnatural expression, the bearded general had already guessed something and said, “Chinese man, you ... Were you bluffing just now?”

“You don’t even have an Army! There are no drones or missiles at all ... You dare to lie to me! Ah ...”

The bearded general punched the air in anger and shouted to his subordinates, "Hurry up! Kill them all!" He pointed at Zhao Yu and the other members of the exploration team. "The banner organization came just in time. Let's put all the blame on them for these people's deaths!"

Ah ...

The situation took a sharp turn for the worse, and the exploration team members were so frightened that they curled up into a ball and cried out in alarm.

However, at this moment, with another sharp sound, a Cannonball landed in the fire outside the shed and exploded.

The soldiers around the fire and the villagers from before were all blown away by the explosion ...

In an instant, the fire soared to the sky and the earth trembled. The simple work shed could no longer withstand the huge impact, and a lot of debris fell from the top, hitting many people and causing chaos below the shed.

When the soldiers recovered, they were all dumbfounded. They saw that Zhao Yu had already rushed behind the bearded general. His left hand was around the general's neck, and his right hand was holding a pistol to the general's temple!

"Don't move! Don't move! If you move again, I'll kill him!" Zhao Yu shouted, and the soldiers were so scared that they didn't dare to get close.

Although the translator had forgotten to translate, even a fool could tell what Zhao Yu was saying.

"Don't ... Don't shoot!" The bearded general was so scared that his face turned pale. He quickly waved at the soldiers to stop them from acting recklessly.

"Put down the gun, put down the gun!!!" Zhao Yu pushed the general's head hard and roared fiercely, "quick!!!"

"Put down the gun, put down the gun!" The translator finally played his role and quickly translated the words for everyone to hear.

However, the soldiers all looked hesitant, clearly unwilling to hand over their guns.

Zhao Yu knew that it was a risky move, and that speed was the most important. He definitely couldn't let them recover. Hence, he quickly retreated with the bearded general. When they were a certain distance away, he quickly pointed the muzzle down and shot the general in the thigh!

Pfft!

The pistol with a silencer made a muffled sound and immediately burst a bloody hole in the leg of the bearded general!

"Ah ..." The bearded man screamed like a pig being slaughtered and shouted madly at his soldiers, "put it down! Put it down!" Put them down!"

Seeing that their general was injured, the soldiers had no choice but to put down their AK rifles.

“Captain zou,” Zhao Yu shouted at kun Peng, “I don’t need to tell you what to do, do I?”

“Oh ...”

As if he had just woken up from a dream, kun Peng quickly picked up a rifle from the ground. The other exploration team members immediately followed and grabbed all the soldiers’ weapons. Some of them even took three weapons!

Hence, the situation in the shed had a huge reversal, and Zhao Yu took the initiative in the blink of an eye.

“Hello...Hello ...” He pointed his gun at the general and used his walkie-talkie to contact Pu Jiayou. “Captain PU, I’m with the exploration team members. You’ll meet us at the East Gate. We’ll rush out now!”

“No, no!” Just as Zhao Yu finished speaking, PU Jiayou’s urgent shout came through the walkie-talkie, “there’s another army coming from the east! We ... We’re already surrounded!”

Chapter 1487: Inferno assault

In fact, when Zhao Yu was hiding in a corner and was about to take action, he had already come up with two plans.

The great hoodwinking plan was, of course, the first choice. He would make use of the other party’s psychological weakness to crush them and force them to release the hostage.

When the other party learned that the matter had been exposed, they would definitely panic. Out of their fear of our military, there was a high chance that they would compromise.

The facts proved that this great hoodwinking plan was very successful. The bearded general was about to give the order to release the prisoners, but he never expected that a team would suddenly come to disrupt the situation!

Not only did he mess up his rhythm, but he also completely exposed himself.

Zhao Yu had no choice but to use his backup plan.

The so-called backup plan was that if the negotiation failed, he would have to take the risk.

In his original plan, he would use the power jamming device and invisible night vision device to launch a surprise attack on the enemy leader. After taking control of him, he would use it to blackmail the enemy and save the hostage.

Of course, this backup plan was obviously very dangerous. With Zhao Yu’s skills and devices, it might not be difficult to control the bearded general.

However, he couldn’t guarantee that his soldiers wouldn’t be forced to give up resisting after he controlled them.

If there was a smart person at the scene who immediately pointed a gun at the exploration team members in exchange for Zhao Yu, then the situation would be very difficult to control.

Once the situation got out of control, it would be easy for Zhao Yu to escape, but it would be impossible to save so many exploration team members who had no combat experience.

Hence, when Zhao Yu saw that the other party was forced to hand over his gun, he secretly heaved a sigh of relief. It seemed that the local soldiers were not as smart as he had thought!

However, even so, Zhao Yu and the exploration team members were still in an extremely dangerous situation. In such a chaotic battle, they had to evacuate immediately.

At this time, their only hope was to be received by the special task force.

However, another unexpected thing was that there was also a problem with the special task force. An unknown team had come from the valley in the East and blocked them outside the East Gate of the village. The situation was precarious.

In this way, even if Zhao Yu took everyone out of the village, they would have nowhere to escape to.

What to do?

Just as Zhao Yu was feeling depressed about this, the battle at the South Gate had entered a white-hot stage. The soldiers of sacreu in the village were engaged in a fierce battle with the invading enemies.

Due to the enemy's ferocious attack, as well as the armored vehicles and cannons, the city gate of the village, which was not very strong, completely collapsed after the continuous impact and explosions.

In an instant, the village's gates were wide open, and the enemies came like a tide.

The armored vehicle was at the forefront, and there were gunmen in the vehicle. They fired wildly into the village, and soon the soldiers on the defense were knocked down, wailing everywhere.

However, the defending side was not entirely weak. Just as the enemy was about to launch a large-scale attack, a rocket was fired from somewhere and hit the armored vehicle in the front.

BOOM!

With a loud explosion, the armored vehicle instantly turned into a huge fireball, and the roaring machine gun was suddenly out of fire ...

Next, a new force rushed in from the west side of the village. After rushing in front of the enemy, the two sides once again engaged in an intense battle.

In an instant, the entire village was filled with gunshots and shouts of killing. It was a mess ...

Just as the two sides were engaged in a fierce battle, a group of enemies had already rushed along the eastern wall to the bonfire outside the work shed and started a fire with the guards there.

Among the many guards, there were also the local villagers who had survived the previous bombing. The villagers helplessly held their heads and ran for their lives, but many of them were still shot by the flying bullets ...

Among them, an old man was protecting a little boy in his teens as they fled. The enemy suddenly attacked from the side. Although they could tell that the old man and the child were not soldiers, they still turned their guns on them!

After a round of bullets, the old man instantly fell into a pool of blood.

Before he died, he pushed the boy hard. The boy barely dodged the bullets, but because of his unstable center of gravity, he still fell to the ground!

The child was so scared that he couldn't even cry. He got up from the ground in a panic, only to stumble and fall to the ground again ...

Soon, the enemies rushed over. When they saw the little boy, they raised their guns again without any humanity!

In the end, just as the little boy was about to be shot to death, the eastern wall of the village exploded, and a large hole was blasted open in the wooden wall.

The next second, two Jeeps rushed in from the blasted city wall and into the enemy camp!

As soon as the car arrived, the people in the back of the car immediately opened fire at the enemies. These people were extremely accurate marksmen. The car was still moving at high speed, but they could almost take down an enemy with one shot!

Zhao Yu could see clearly from the work shed that the two Jeeps were from the Secret Service team, and the people in the Jeeps were the Secret Service team led by PU Jiayou!

He did not expect that in a moment of desperation, they would actually blow up the city wall and rush in from the outside ...

Creak ...

The first Jeep made a beautiful drift and slammed into an enemy. The driver, Wu diqiu, raised his arm and fired two shots, both of which accurately hit the enemy who was about to fight back.

However, just as the enemies on this side were cleared, two more enemies came from the other side. One of them was aiming with an AK, while the other reached out and took out a grenade, ready to drop it!

“Ah ...”

Suddenly, a person jumped out from the back of another car. It was the heroine, Gao Shang!

Gao Shang was like an arrow released from a bow. As soon as he landed, his left hand pressed down on the arm of the spear-wielding enemy, pushing him to the ground.

Then, the tomboy raised her fist and knocked the man out.

As she knocked the man unconscious, she flicked her left hand, and the AK47 fell into her hand as if it was obedient.

Tap tap tap tap ...

The bullet was shot out sharply, killing the enemy who was about to drop the bomb.

After that, Gao ya rolled on the ground again and passed under a burning wooden shelf. After a series of accurate shots, she killed a few more enemies in the distance!

“Child, this way ...”

Then, she hugged the little boy and protected him in her arms ...

“Zhao Yu, Zhao Yu ...” At the same time, PU Jiayou’s voice came from Zhao Yu’s walkie-talkie. “Where are you?” Quickly reply, we’ve already rushed in!”

As the East Gate was not far from the shed, Zhao Yu had already seen them. After hearing the call, Zhao Yu quickly pressed the call button, wanting to remind PU Jiayou to take note.

In the end, the enemies outside the East Gate had already arrived. With a terrifying sound of breaking the air, a Cannonball landed on the East Gate, blasting it into pieces!

Several flaming wooden splinters sprayed down and instantly enveloped the two Jeeps of the Secret Service team ...

Chapter 1488: emergency evacuation

“So ... You only have this many people!” The bearded general, who was restrained by Zhao Yu, said angrily, “you guys are really bold!”

“Cut the F * cking crap!”

Zhao Yu had been paying attention to his colleagues in the special task force, and had no time to pay attention to the general’s exclamation.

“Captain PU ... Captain PU ...” Seeing that the two Jeeps were covered in fire, Zhao Yu anxiously called for them through the walkie-talkie, but there was no response.

At this moment, as the East Gate was blown up, another group of enemies rushed in from there. Just from their attire, it could be seen that the group that had barged in from the East was the same group as the enemy from the South!

They had definitely come prepared and had planned to attack the village from both sides.

At this moment, the two teams of men and horses joined forces and once again launched an attack on the soldiers defending the village.

Although there were many soldiers defending the village, they were caught off guard and had no one to command them. They were forced to retreat and were on the verge of collapse.

Whoosh ...

At this time, the two Jeeps of the special task force finally rushed out from the sky full of fire debris. Perhaps they had already determined Zhao Yu’s location, so after they rushed out, they went straight to the shed where Zhao Yu was.

However, they were surrounded by enemies. As soon as they saw the Jeep, many of the enemies fired at it.

The explosive bullets were so powerful that they left the Jeep with a 'ding ding' sound as the body of the Jeep was filled with bullet holes!

Bang ...

The tires were broken, and the bulletproof glass was broken. The Secret Service team members had no way to fight back.

However, despite the rain of bullets, the two Jeeps still drove into the shed and came in front of Zhao Yu and the others.

Boom ... Boom ... Boom ...

As the door opened, the Secret Service team members quickly got out of the car.

Zhao Yu saw that PU Jiayou, Gao ya, Wu diqiu, Guan Ying, Yang Feng, Kong Shuo, and even the captured arms dealer, Yuri, were all there, but Tang Long was missing.

However, Yang Feng was helped out of the car by Guan Ying. His shoulder was red, and he was obviously injured.

"Zhao Yu! Zhao Yu!" When the Secret Service team member saw Zhao Yu pointing a gun at the bearded general, he quickly raised his rifle and aimed at the bearded General's soldiers.

"Zhao Yu, what's going on?" PU Jiayou asked Zhao Yu loudly, "where did this enemy come from? Why do you always act on your own? How did you ... Get in? Hmm ... This is ..."

While he was questioning, he saw the kidnapped exploration team members.

At this moment, although the exploration team members were holding onto their guns, they were all at a loss.

On one hand, they felt gratified to see the people from their homeland coming to save them; But on the other hand, they were terrified to see new enemies attacking them.

"This is ..." PU Jiayou finally recognized them. "They're all here?"

"This is team leader kun Peng ..." Zhao Yu pointed at kun Peng and introduced him to the others.

"Captain Yan, are your men here?" PU Jiayou asked hurriedly.

"They're all here, Oh ... All the living ones are here!" Kun Peng added, "a colleague died of a serious illness, and the two colleagues of tartein have been beaten to death by them!"

As he spoke, the kun Peng glared at the bearded general. It was obvious that he was the one who killed tartein's colleague!

"Captain!" Gao Shang hurriedly said to PU Jiayou, "this isn't the place to talk. We have to leave quickly!" From the looks of it, they're about to attack!"

“But ...” Wu diqiu looked at the approaching enemies and asked, “the south and east gates have been taken down. Where do we go?”

As soon as Wu diqiu’s voice fell, several enemies had already rushed to the shed. The Secret Service team members immediately retaliated with their guns, forcing those people to retreat.

“Hurry up! Find cover!” At PU Jiayou’s command, everyone present, including the bearded General’s subordinates, all went into hiding.

Bang ...

Guan Ying was holding a sniper rifle. He put it on the rack of a machine and fired at the enemy outside.

Guan Ying’s shooting was so accurate that he hit an enemy who was trying to break into the shed with every shot!

“We can’t continue like this!” Zhao Yu strangled the bearded General’s neck and shouted to his teammates, “they have cannons and armored vehicles. We can’t defend them at all!

“Hey!” He roared at the bearded man and asked fiercely, “hurry up and tell me, is there any other way out?”

“Oh ...” The bearded man was suffocated by the strangulation and immediately said a lot of nonsense.

Zhao Yu then realized that he could understand what the man was saying, but the man could not understand what he was saying.

In a flash, he remembered the translator and quickly asked the translator, “Hey, tell me, is there any other way? Otherwise, you’ll all die Here!”

“Mm ... Yes ... There is!” “There’s a cave over there!” The translator was scared out of his wits. When he heard Zhao Yu’s question, he quickly pointed to the West and said, “there’s ... There’s a cave over there, we can go out!”

“Alright!” Zhao Yu quickly said, “you lead the way! Let’s retreat!”

Hearing Zhao Yu’s words, the Secret Service team immediately prepared to evacuate. As one of the cars had a burst tire, Wu diqiu and the others quickly ran to the back of the car to take out their weapons.

Gao ya, on the other hand, ran to the other Jeep and prepared to drive.

“No... No...” The interpreter officer said in a hurry, “there are oil pits there, the car can’t pass!” I can only walk ...”

“Damn it!” Gao ya had no choice but to give up on the Jeep and only took out some emergency equipment.

“Let’s go ...” Seeing that his team members had already taken their equipment, PU Jiayou quickly waved his hands behind him, indicating for everyone to retreat quickly.

However, at this moment, Guan Ying, who was using a sniper rifle, suddenly shouted, “Not good! There’s a bazooka, lie down! Hurry up! Lie down!”

After that, Guan Ying crouched behind the machine. As a result, as soon as he laid down, a rocket flew over his head and directly into the shed!

Everyone was shocked, and they all fell to the ground.

The rocket hit one of the machines in the shed, making a loud bang and exploding in the shed!

Boom ... Boom ...

The huge explosion blew the shed into pieces, and the roof, which was not very strong to begin with, collapsed, causing dust to fly everywhere.

Taking advantage of the explosion in the shed, a group of enemies quickly rushed in and wanted to shoot and kill everyone in the shed.

However, just as they reached the entrance, PU Jiayou and Kong Shuo stood up abruptly and used the submachine guns they brought with them to sweep the enemy to the ground ...

Tu tu tu tu ...

The two of them fired fiercely and immediately used their firepower to force them back.

However, after a round of shooting, they attracted all the enemy's attention and were soon attacked by more.

Bang Bang Bang ...

Tap tap tap tap ...

More than a dozen enemies gathered from the outside and fired at the two of them.

PU Jiayou and Kong Shuo couldn't withstand it, so they had to retreat behind the machine to hide.

"Let's ... Let's go!" In the dust, Zhao Yu shouted loudly and tried to drag the general with the big beard away.

However, after he pulled a few times, he found that the big-bearded man actually stopped moving. It turned out that he had been hit by a falling piece of wood and had already fainted ...

Chapter 1489: breaking out of the siege

Please don't!

Zhao Yu knew that the bearded general was an important person, and might be of great use at critical moments. If he chose to escape, it would be better to take him with him.

However, even though Zhao Yu tried to pull it a few times, the guy weighed more than 200 pounds, and he couldn't move it at all. Furthermore, this person's thigh had been shot. Even if he brought him along, he would only be a burden!

Zhao Yu had no choice but to let go.

The translator was the closest to Zhao Yu. When he saw the bearded general unconscious, he thought he was dead. He was stunned and didn't know what to do.

Zhao Yu reacted quickly and went forward to stuff his mouth with his hand. At the same time, he pointed the gun at his head and threatened, "Don't talk nonsense. Take us out of here immediately!"

"Um ... Okay ..." The translator was also afraid of death. He took another look at the bearded general, whose life and death were unknown, and then took Zhao Yu to the work shed in the West.

"Quick ... Everyone, keep up! Let's go!" Zhao Yu controlled the interpreter officer, while he waved at the exploration team and the Special Forces.

At this moment, under the collapse of the shed, several exploration team members were also hit by the wood and suffered varying degrees of damage. At Zhao Yu's call, Kun Peng quickly organized his men. Everyone supported each other and walked to the west side of the shed.

The Secret Service team followed them in an orderly manner. PU Jiayou and Kong Shuo covered them, the injured Yang Feng watched over the arms dealer, and Gao Shang, Wu Diqiu, and Guan Ying protected the group as they retreated.

Bang Bang Bang ...

Captain PU was also a sharpshooter. He managed to hit a few of the enemies who tried to attack before retreating with Kong Shuo.

However, just as they passed by a large refining equipment, PU Jiayou suddenly thought of something. He immediately took out a time bomb from his backpack and placed it on the machine ...

There were oil pits under the work shed in the West. After the battle, the power of the entire village was cut off, causing the vicinity of the oil pit to fall into darkness. Everyone could only move forward with the help of the faint fire in the distance.

The village was filled with gunshots and explosions, but the main battlefield was still in the center between the two city gates. There were no enemies invading the oil pit.

However, even though there were no attacking enemies, there were many defensive soldiers here. These people had either just been defeated from the front line or had been hiding here all along, waiting to ambush the enemy.

At that moment, when they suddenly saw Zhao Yu and the others running towards them, they couldn't tell if they were friends or enemies. Suddenly, more than ten people pointed their guns at them and were about to shoot.

Fortunately, Zhao Yu turned on his invisible night vision in time. After seeing so many soldiers, he pinched the interpreter officer's arm and made him scream in pain.

"Ah ... % ¥ ¥ #..." The interpreter officer shouted in the local language. The soldiers suddenly heard it and could not help but be stunned.

As the saying goes, the enemy of my enemy is my friend. Zhao Yu's first thought was to make use of the translator to work with the soldiers to get out of this predicament.

However, for some reason, the interpreter officer shouted in their local language after he finished shouting, "Hurry up! Quickly kill them, the general is already dead! They've killed her! Shoot!"

F * ck!

Zhao Yu had the invisible translation device with him, so he heard everything clearly. When he saw that the situation was not good, he immediately placed the translation officer in front of him and fired at the enemies!

Zhao Yu's reaction wasn't slow, and so were Gao ya and the others. A few Secret Service agents pulled their triggers at the same time and shot at the many enemies. The scene suddenly burst into screams and howls, and in the blink of an eye, a large number of people fell to the ground!

However, because the distance was too close and the number of enemies was too large, during the exchange of fire, some of the enemies still fired back. A bullet hit Gao Shang, and the powerful inertia knocked the female Secret Service agent down on her back.

Wu diqiu held a fully-automatic rifle and fired wildly. While shooting down several enemies, he was also shot and fell to the ground ...

"Ah ..." Zhao Yu roared. As he took off his invisible bullet proof suit, he pulled the interpreter officer and rushed into the enemy camp.

Zhao Yu was holding a pistol. With the support of night vision, he could see the enemy's position very clearly. Coupled with the close distance, he quickly took down a few enemies without missing a shot.

Bang ...

Bang ...

Crack, crack ...

In the end, just as Zhao Yu was about to shoot, he suddenly ran out of bullets. He immediately pushed the translator away, grabbed an AK, and charged at the soldiers hiding in the oil pit.

There were at least six or seven soldiers hiding in the oil pit. They were all hiding in the dark and shooting secretly, causing a lot of trouble for the special task force.

As soon as Zhao Yu rushed in, he caught them off guard. It didn't take long for him to clear out a few soldiers.

Bang ...

Just as Zhao Yu was done cleaning up, he was suddenly shot in the back.

He turned around and saw that the person who had shot him was none other than that despicable translator! It turned out that the translator had a gun on him, and he had shot Zhao Yu.

Luckily, Zhao Yu had a bullet proof suit on, otherwise, he would have really fallen for the trap.

Ah ...

With a shout, Gao ya on the other side suddenly jumped up from the ground, pressed the translator to the ground, and punched him in the face.

Then, Gao ya raised her fist and was ready to beat him to death.

“Don’t ... Don’t ...” Zhao Yu rushed over and grabbed the interpreter’s gun, then stopped Gao ya and said, “this guy is still useful!” Don’t kill him yet!”

“Ah? “You ...” Gao ya thought that Zhao Yu had been shot. She looked at Zhao Yu in surprise, then pointed at her clothes and said, “I almost forgot that you were wearing a bulletproof vest!” I thought you were dead ...”

F * ck ...

Hearing Gao ya’s reminder, Zhao Yu’s heart ached. I was wearing a bulletproof vest! Why would he waste a precious prop?

“Hurry up!” However, Zhao Yu didn’t have time to feel sorry for them, as Captain PU Jiayou and the other team members had already rushed over, shouting at them, “run! Hurry up and leave this place ... Hurry!”

While shouting, the Secret Service team members protected kun Peng and the others and quickly rushed into the work shed where the oil pit was located, running all the way to the West.

Just as they were running, many enemies outside heard the noise and rushed over. They all entered the collapsed shed.

In the end, the bomb that PU Jiayou had set up exploded!

He didn’t know how the refining equipment worked, but when the bomb exploded, the equipment also exploded!

In an instant, a huge fireball exploded in the shed. The fireball soared into the sky and even formed a small mushroom cloud, instantly swallowing the enemies ...

Ah ...

Many of the enemies who were not directly blown up were also sent flying by the powerful shock wave. They immediately cried out in pain, which was a spectacular sight ...

Chapter 1490: Blue flames

The sound of the violent explosion shook the sky and the earth. The flames ignited by the explosion were like spectacular meteors. Wherever they landed, a mass of fire would immediately be ignited!

Among them, many soldiers from unknown camps were shot by the flames, and their bodies were instantly set on fire! In an instant, the scene in front of him turned into a living hell, with tragic wails everywhere ...

PU Jiayou’s original goal was to kill the enemies who were chasing after him, but he did not expect that the refining equipment would produce such a powerful explosion!

Not only did the shockwave collapse the shed they were in, but several Balls of Fire also shot over and set the oil pit on fire!

He didn't know what the oil in the oil pit was made of, but after it was ignited by the flame, a layer of strange blue flames appeared on the surface!

The flames flickered, not only emitting black smoke, but also crackling, looking very frightening.

“Ah ... Ah ... Ah ...”

In the previous second, Zhao Yu had been lying on the ground, trying to avoid the wooden boards that were falling from the sky. In order to ensure that he was safe, he even sneakily put the translator on his back.

Fortunately, the wooden boards on the roof of the shed were not heavy, so even if they hit, they would not be fatal.

Just as Zhao Yu got up from the ground, he suddenly saw that one of the exploration team members was on fire. The man was screaming in pain as he rolled around on the ground.

Beside him, Kun Peng and the others also tried to extinguish the fire with their clothes. However, the fire could be stained with highly flammable oil, and they could not extinguish it!

Zhao Yu immediately ran over and snatched the clothes from Kun Peng's hands. He pretended to pounce on her while quickly using an invisible fire extinguisher.

The system's tools were all more powerful than those in the real world. As soon as they were used, the flames on the person who caught fire were immediately extinguished, and a cloud of white smoke rose.

“Ah ...”

After the flames were extinguished, they saw that the man's back had been burned into a terrifying black.

“Hurry, hurry and take off his clothes!” Kun Peng said as he undressed the man with his team members.

Zhao Yu looked around and finally saw the tragic situation at the scene.

The entire village had been engulfed in a sea of fire. In the fire, wailing soldiers could be seen everywhere. It was a ghastly sight.

He didn't know if it was a psychological effect or some kind of stimulation, but Zhao Yu, who had been fine a moment ago, suddenly had a ringing in his ears. Then, he couldn't hear anything, as if he had suddenly entered a silent world!

However, as far as he could see, this silent world seemed more real. He could clearly see the despairing expressions on the faces of the soldiers who were on fire.

One could also see the extremely vicious and brutal expressions on the faces of the enemies rushing over from afar, as well as the contempt they had for life ...

Soon, as more and more enemies swarmed in, the village was filled with gunshots again, and the battle continued.

Although Zhao Yu could hear the gunshots, they were muffled like cotton, and he couldn't hear them clearly.

"How is it? How is it?" At this time, Captain PU Jiayou quickly ran to Zhao Yu and asked, "are you okay? Detective Zhao, Hey!"

"Oh ... I ..." Zhao Yu shook his head, rubbed his ears, and said, "I'm fine. Let's go!"

As he spoke, he pulled the translator up and asked him to lead the way.

PU Jiayou quickly reorganized his team members, and then everyone escorted the exploration team members to continue heading west.

As many of the oil pits were burning with blue flames, the group no longer had to worry about the problem of vision. They passed through the narrow path between the oil pits and headed towards the mountain in the southwest.

However, now that the defensive side was being completely routed, the soldiers of Zachery all knew about this path. Therefore, when the group arrived at the small path, they saw many soldiers fleeing in defeat.

In an instant, the atmosphere became extremely tense. Most of these soldiers were defeated and injured. When they saw Zhao Yu and the others walking with them, they couldn't help but raise their guns nervously.

However, the special task force was well-equipped and all of them were experts. Of course, they were not afraid of them. However, looking at the other party's defeated and pitiful appearance, no one chose to shoot.

"Hurry up and tell them!" Zhao Yu immediately pointed his AK at the translator's back and ordered, "we're all on the same side, tell them not to shoot! I'm warning you, I can understand your language. If you dare to do the same thing again, I'll cut your tongue off!"

"Yes, yes, yes...I don't dare, I don't dare ..." With the last lesson, the interpreter officer didn't dare to shout anymore. He immediately used their language to stop the fleeing soldiers.

The soldiers had long lost the will to fight. As soon as they heard the interpreter's words, they quickly put down their rifles and continued to run away ...

Not long after, they finally found the cave that the translator had mentioned. At this moment, the soldiers who had fled back all entered the cave without hesitation.

"Wait a minute ... Wait a minute ..." Just as everyone was about to enter the cave, PU Jiayou suddenly signaled for everyone to stop, then told Zhao Yu, "Zhao Yu, this cave goes South! If we go through ... Then ... Then it would be equivalent to entering the heart of vakria and getting further and further away from tartein!"

"....."

Zhao Yu, of course, understood what this meant. If they went deep into vakreya, there would undoubtedly be more unknown dangers.

“Captain PU,” Zhao Yu asked, “we’ve found the missing exploration team member. What did Li Jing say? Can she find a helicopter to pick us up?”

“I’ve already reported to her as soon as I could, but ...” PU Jiayou said with difficulty, “the rescue needs time. And ... And she didn’t know that the village was under attack. Now, if we enter the heart of waklia, it will definitely increase the difficulty of the rescue!”

“But ...” Zhao Yu looked at the village at the foot of the mountain, where gunshots were still ringing out. “If we don’t leave, I’m afraid it will be even more dangerous! Why don’t you ... Quickly contact the headquarters!”

“En ...” PU Jiayou quickly took the satellite phone in his hand, wanting to contact the headquarters immediately.

However, when he picked up the phone, PU Jiayou was stunned. He saw that the satellite phone had been shot at some point in time, and the base of the phone had exploded!

“Damn it!” PU Jiayou turned pale with fright and hurriedly turned on his phone to check. As one could imagine, he couldn’t even turn it on.

“Hey,” Zhao Yu was dumbfounded, “don’t tell me that you only have a satellite phone with you!”

“The other one is with Tang Long!” “But Tang Long ... He ...” Gao ya said gloomily.

“What’s wrong with Tang Long?” Zhao Yu had already noticed that Tang Long was missing, so he quickly asked.

“We’ve lost contact!” Gao ya answered worriedly, “at that time, the enemy came too fast and he didn’t have time to retreat from the cliff. So, we don’t know what happened to him now!”

“It ... It should be fine, right?” Wu diqiu looked around vigilantly as he said, “he’s so high up, the enemy won’t find him easily!”

“Besides, he has a satellite phone with him. As long as he can keep in touch with the headquarters, he will definitely get help before we do!”

Even though Wu diqiu’s words were good, the crowd still felt worried for Tang Long.

At this moment, a gunshot was heard from the foot of the mountain, and a bullet whizzed past everyone’s head!

It was obvious that the enemy had already caught up to them.

At that crucial moment, Zhao Yu and PU Jiayou exchanged a look, and the two of them immediately came to a tacit agreement. The cave!
