

Crazy 1951

Chapter 1951: crisis on the platform

“An hour and a half later, a plane was flying at a low altitude over the vast sea. ”

“”I’m really impressed,”” Xiao hang said to Zhao Yu as he flew the helicopter.””I think I’m a madman in the Secret Service industry, and I’ve done a lot of crazy things.”” ”

“”But, compared to you, great detective Zhao, I’m nothing! ”

“”I’m just wondering,”” Xiao hang said at the top of his voice,””why is it that every time I touch you, something big happens?”” ”

“”Just now, he kidnapped a female Sergeant, and now he’s taken a helicopter from a hospital ... ”

“”AI! ”

“”Are you jinxing me? Or did I owe you something in my past life?”” ”

“”Cut the crap,”” Zhao Yu said, looking at the electronic map on his mobile phone.””We’re almost there. Just follow my instructions. Put me down and leave!”” ”

“”You really kept your word!”” Xiao hang grumbled,””can’t I pretend to be a pilot you hired? With me here, I can at least help you! ”

“”How long do you need to find such a large oil platform?”” ”

“”No!”” Zhao Yu said,””the enemy is well prepared. If they see you with me, Ding Lan will be in real danger. I can’t take that risk!”” ”

“”Alright, alright!”” Xiao hang looked at his watch and said,””at least we’re an hour ahead of the agreed time. I hope we can make it ...”” ”

“”Old Zhao,”” Xiao hang said.””You have to keep your word. After I put you down, I’ll start to prepare!”” ”

“”In 20 minutes, no matter if you have any progress or not, we have to force our way in. After all, this place is too far from land! We have to at least get the rescue boat here ...”” ”

“”Alright,”” Zhao Yu said as he saw the drilling platform that had been built on the sea. He waved at Xiao hang and said,””let’s stick to the original plan!”” ”

“”Whether it’s Li Zhenzhu or secret services, you can push all the blame on me. You can say that I controlled you and you had no choice!”” ”

“”Okay, that sounds nice, but ...”” Xiao hang said to Zhao Yu as he landed the plane.””Next time, if you have such an awesome mission, don’t ask me for it. I really can’t afford it!”” ”

“After Xiao hang finished speaking, he immediately saw Zhao Yu raise his middle finger at him. ”

“Five minutes later, the helicopter successfully landed on the landing field of the oil platform. ”

“The landing field was located at the highest point of the oil platform. There were no other helicopters on it, so it was unusually empty and easy to land. ”

“However, as there were very few helicopters here, the helicopter that Zhao Yu took still attracted the attention of the staff on the platform. ”

“When the plane landed, a few staff members in red vests ran over to the platform. ”

““Here,”” Xiao hang said as he handed Zhao Yu his pistol.””Bring another pistol!”” I’ll be waiting for you not far away. Don ‘t, don’t cut off the communication. I have to keep an eye on your situation at all times. ”

““If it breaks, I’ll immediately take emergency measures.”” ”

“As he spoke, Xiao hang gestured to the communication device in his ear, signaling for Zhao Yu to wear the communication device so that he could share information with him. ”

“Zhao Yu took the gun and nodded at Xiao hang, then jumped off the plane. ”

“Just as Zhao Yu left, Xiao hang took the plane off and left the oil platform. ”

““Mm ...”” Looking at the plane take off, a staff member on the platform quickly ran to Zhao Yu and asked,””excuse me...You are ...”” ”

“Zhao Yu took out his id and said,””“Bring me to your leader immediately!”” ”

.....

“A few minutes later, Zhao Yu was in an office on the platform, where he met the commander. ”

“This person was a middle-aged man who was as fat as a Panda. Because he was too fat, the overalls he was wearing seemed to be about to burst. ”

““Yes,”” the fat man looked at the photo on Zhao Yu’s mobile phone, nodded, and said,””Ms. Yu is the cooperation representative of China, my old friend and colleague. A few days ago, she had an accident and was hospitalized!”” ”

““It’s an emergency,”” Zhao Yu looked at his watch and urged,””take me to Yu mengtian’s office now. Also, Yu mengtian isn’t alone, right?”” Are there any Chinese people in charge here?”” ”

““Yes, I can take you there, but ...”” The corner of Fatty’s mouth raised, and he said alertly,””you may not know much about our place, right? ”

““We are not an ordinary workplace, so I need to verify your identity!”” ”

““I’m a National Intelligence agent,”” Zhao Yu said urgently.””I just received a report that someone is going to carry out a terrorist attack here. So, you must cooperate with me unconditionally!”” ”

““Oh? Is that so?”” The fat man raised his eyebrows and looked at Zhao Yu carefully, then said slowly,””since you have such a big background and the matter is so urgent, then now, let’s call our leader together to confirm this matter, okay?”” ”

““Sure, no problem!”” ”

“Zhao Yu nodded, then reached into his pocket. It looked like he was going to take out his phone, but in fact, he was taking out a pistol! ”

“”“Oh oh oh ...”“ ”

The people present were not prepared at all. They were so scared that their faces turned pale and they retreated.

“The fat commander was so scared that he staggered and crashed into a table, sending the documents on the table flying everywhere. ”

“”“I told you it’s an emergency,”“ Zhao Yu said.”“Now, can you take me there?”“ ”

“Zhao Yu wanted to hold the fat commander hostage, but seeing how heavy he was, he gave up the idea. ”

“He didn’t have much time to begin with, so he naturally couldn’t waste it on this fatty. ”

“So, he turned his gun and aimed it at a frightened employee next to him. The employee was wearing black-rimmed glasses. Judging from his dress, he should be a technician on the platform. ”

“”“Don’t ... Don ‘t, don’ t, don’t ...”“ Seeing the black muzzle, the employee covered his face in fear and quickly said,”“I know, I know, I’ll Take You There, take you ...”“ ”

Zhao Yu saw this and immediately pushed him out of the office.

“As soon as the two of them left, the office was in a mess. People picked up their phones, some contacted the security guards on the platform, and some called the police. ”

“However, Zhao Yu didn’t care if they called the police or not. ”

“Even if they called the police, it would take some time for the police to arrive. By then, the matter would have already been resolved and it would no longer affect the overall situation. ”

Zhao Yu knew that his investigation on the oil platform was a gamble.

“If the enemy’s instructions weren’t here, then all his efforts would be in vain. ”

“In addition, this time was different from the last time. At least, the last time, he was given the 25th floor and Room 11. ”

“But this time, Zhao Yu didn’t get any clear hints. It was impossible for him to search every corner of such a huge oil platform in such a short time. ”

“Moreover, he had a time limit, so the difficulty of the mission could be imagined. ”

“However, on the way to the oil platform, Zhao Yu had already thought of his own plan. ”

His plan was to find Yu mengtian’s office or anyone related to Yu mengtian after he got on the platform. He would find out what the project they were working on was.

“After figuring it out, he would go to the core of the project and naturally find the enemy who was trying to attack this place? ”

“In addition, Zhao Yu also had a powerful magic treasure, which was his invisible detector.”

“After spending 5000 points to strengthen it, he had already increased the detection range of the detector to an area with a diameter of 90 meters.”

“As long as he could find any weapons or explosives on the detector, he would be able to find the terrorists in the shortest time possible!”

“However, although Zhao Yu’s double insurance plan was good, now that it was actually being implemented, it was met with a slap in the face.”

“When he escorted the employee out of the office, a large number of alarm signals suddenly popped up in his mind.”

The detector’s display showed that a large group of people with weapons were rapidly approaching him!

Chapter 1952: The elevator

No way?

“Suddenly seeing so many weapons, Zhao Yu thought that there had been a large-scale terrorist attack.”

“However, when he looked in the direction of the signal, he suddenly realized that many uniformed security guards had rushed over from the deck of the platform. They were all holding conspicuous rifles in their hands.”

Terrible!

“Zhao Yu had miscalculated one thing. Since this was the base of an important research project, there would naturally be high-intensity armed guards.”

“Therefore, it would be reasonable for police officers or armed soldiers to appear on the platform, let alone armed security personnel.”

“In that case, Zhao Yu’s pistol didn’t seem to carry much weight.”

“At that moment, looking at the security guards surrounding the deck from all directions, Zhao Yu could only quickly formulate a new plan.”

Or ... Should I ask Li Zhen Zhu and her people for help?

As long as they could communicate with the platform and get the platform to cooperate with them?

“In that case, he didn’t seem to be breaking the rules, so Ding Lan shouldn’t be in danger.”

No!

“At this time, Li Zhenzhu’s lungs should have exploded with anger.”

“Furthermore, this was an important research base. Even secret services had no authority to investigate, so the Koreans probably had no authority as well ... ”

Forget it ...

“Looking at the security guards who were getting closer and closer to him, Zhao Yu made up his mind and thought to himself, I’ll have to rely on myself! ”

Buzz ... Buzz ...

“Suddenly, the communication device in Zhao Yu’s ear rang. ”

“Without a doubt, this was a call from Xiao hang, who was worried. ”

“Zhao Yu didn’t want to pick it up, but if he didn’t, Xiao hang would definitely bring the helicopter back. ”

“Thus, he could only bite the bullet and answer the call. ”

““Please, boss, can you not turn it off? Didn’t we agree on this?” “It’s been five minutes,” Xiao hang grumbled. “How’s the investigation going?” ”

““Cough! “It’s fine, it’s fine ...” Zhao Yu looked at the security guards surrounding him, still calm and composed. “Don’t you know my ability? ”

““I’m doing well. I’m on my way to Yu mengtian’s office! ”

““I’m also begging you, please stop wasting my time, okay?” ”

““Alright, alright ...” ”

“Before Xiao hang could finish, Zhao Yu turned off his communication device again. ”

““Ah?” “You ... Are you Chinese?” the employee asked Zhao Yu in Chinese. ”

““Oh?” Zhao Yu looked at him and asked in surprise, “you’re Chinese too?” ”

““Y-yes,” the employee said nervously. “You ... Dr. Yu is my teacher. Why are you looking for her office?” ”

““I’ll cut!” ”

“Zhao Yu’s eyes lit up, and he suddenly had an idea. He looked left and right, then quickly pulled the employee to the side. ”

“There was a very small platform here, and the sea was just outside the railing. ”

““I’m really not lying,” Zhao Yu said, pressing on the employee’s shoulder. “There might be a terrorist attack here. We have received information that a group of robbers wanted to steal your research results. You have to tell me immediately what you are working on. ”

““Also ... You have to bring me to the most important place here. The enemy might already be there!” ”

“““This ... I ... Sigh ...”” The small employee had never experienced such a big scene before. He was already scared out of his wits and was going crazy. ”

“““I’m Zhao Yu. Take a good look at this ...”” Zhao Yu had no choice but to boast about himself. He pointed to his face and said,““I’m the unsolved case master, a famous detective, and I solved the headless female corpses and the devil case ...”” ”

“““Take a good look, I’ve been on TV before!”” ”

“““Zhao ... Zhao Yu?”” The employee took a closer look and actually nodded.““I think ... I do have some impression of him ... No wonder he looked so familiar just now!”” A great detective ...”” ”

“““Do you understand now? I’ve been investigating the case until now, it’s too late to report it now! ””Hurry up,”” Zhao Yu urged.““Tell me, what are they studying here?”” ”

“““Research ...”” The employee stuttered.““Research the synthesis of organic rare earth metals! We found a mineral similar to Monazite at the bottom of the sea. This mineral contains elements similar to rare earth minerals such as CE + and Lac. If we can combine it with weak acids and the most advanced neutron integration device ...”” ”

“““Wait, wait, wait ...”” Zhao Yu quickly stopped him and asked,““do you mean that this research is very valuable?”” ”

“““Of course ...”” The employee nodded.““If we can artificially synthesize rare earth metals and mass produce them, it will push the technological leap of the entire human race. This is an epoch-making research!”” ”

“““Then ...”” Zhao Yu asked again,““has the research been successful?”” ”

“““Mm ...”” ”

“In the end, before the employee could answer, there was a rush of footsteps, and several security guards with rifles had rushed to the two. ”

“““Don’t move! Don’t move!”” They aimed their guns at Zhao Yu and shouted in Korean,““raise your hands!”” ”

“Seeing that the security guard had arrived, Zhao Yu had no choice but to pull the employee into his arms and put a gun to his head, using him as a hostage. At the same time, he shouted in Korean, ““Don’t come over, retreat! Otherwise, I’ll beat him to death!”” ”

“As a result, the security guards naturally didn’t dare to act recklessly and could only stop at the edge of the small platform, not daring to go forward. ”

“““Don’t worry, I’m just scaring them,”” Zhao Yu whispered to the employee in Chinese.““You have to tell me now, what is the most important part of this research?”” ”

“““We ... We have to go to the elevator!”” The employee’s face turned pale, and he trembled as he replied,““the oil platform is just a cover. The real research base ... Is ... Is underwater!”” ”

“““What?”” Zhao Yu was shocked.““Underwater? Is there still an underwater base here?”” ”

“““Yes,”” the employee replied, trembling.”“The extract is 120 meters deep under the sea, and it needs to be excavated and screened. So, building the base underwater will save resources and time ...”” ”

“““One hundred and twenty meters ...”” Zhao Yu pouted.”“Elevator? Where’s the elevator?”” ”

“““Here,”” the employee turned his head and said,”“at the bottom of the platform, there is a spherical building. That is the only passage to the underwater base!”” ”

“Zhao Yu turned his head to take a look, and sure enough, he could see the spherical building from here.”

“““Don’t move, don’t move!”” At this moment, the platform was filled with thumping sounds as the fat commander came up to them. He twisted his fat body and said to the security guards,”“everyone, pay attention. I just verified that this man is an extremely dangerous person! ”

“““The higher-ups have given the order that if he continues to arrest us, we can kill him on the spot!!!”” ”

“As soon as he said that, the security guards immediately raised the rifles in their hands, then stepped forward to surround Zhao Yu and his wife. ”

“The platform was not big, and after being surrounded, Zhao Yu had no way out. ”

“““Zhao ... Zhao Yu, detective Zhao ...”” The employee begged.”“Why don’t you put down your gun first?”” If you are really a good person, you can explain it clearly! ”

“““If there really was an intruder, we would have immediately gone over to investigate!”” ”

“““No, you don’t even know what happened!”” ”

“Then, Zhao Yu pulled the employee and took a step back. His back was against the railing, and he quickly glanced behind him. Behind the railing was the sea, which was at least 50 meters away. ”

“““Hey, do you know how to swim?”” Zhao Yu leaned close to the employee’s ear and asked. ”

“““You ...”” The employee seemed to have realized something and shouted in horror,”“what are you doing? I ... I can’t swim ...”” ”

“““It’s okay, you’ll learn it soon!”” Zhao Yu smiled, then hugged the employee and fell backward. The two of them jumped over the railing! ”

“In the next second, everyone could only hear the employee’s wailing, ”“““Ah!”” ”

Chapter 1953: Shocked underwater (1)

“““Ah Xi, ah Xi ...”” Seeing Zhao Yu and the employee jump into the sea, the fat commander cursed in frustration,”“did we run into an evil spirit today? ”

“““Where did the helicopter come from? Where did this lunatic come from? Why? Why did he jump down? Was he heartbroken? Ah Xi ...”” ”

Thump thump thump ...

“He dragged his heavy feet and ran to the railing like crazy to look down, but the waves on the vast sea had long disappeared. ”

“““General manager, general manager ...”” At this time, a security guard with a rifle aimed at the sea and asked the fat commander,““are we still shooting?”” ”

“““Ah Xi ... Start your head!”” The fat commander was about to go crazy. He quickly waved to everyone and said,““hurry up and go save them! The few of you, throw two lifebuoys down first ... ”

“““Oh my ... God bless, God bless, please don’t let anyone die ...”” ”

“Upon hearing the fat commander’s words, someone immediately took off a Lifebuoy from the railing and threw it into the sea ... ”

.....

“Two minutes later, Zhao Yu and the employee climbed out of the sea, followed the railing under the platform, and climbed all the way to the spherical elevator entrance. ”

The employee was still in a state of shock and was trembling all over. He was so scared that he had no pulse.

“Just now, Zhao Yu had not only used invisible breathing devices on the two of them, but he had also used parachutes. ”

“In this way, they would not be in any danger when they jumped into the water. ”

“Although the employee had said that he could not swim, when he had come out of the water, he had been faster than Zhao Yu. ”

It seemed that the human’s survival instinct was indeed immeasurable.

The two of them arrived at the entrance of the spherical building.

“As the security guards had all gone up to save the people, no one was guarding the elevator at the moment. ”

The two of them opened the door easily and came to the elevator.

“There were two elevators in total, and they looked just like any other elevator. ”

“When the two arrived, the elevator on the right opened and a few staff in white uniforms came out. They were pushing a small cart full of goods. ”

“““Hi!”” ”

“After seeing the staff, one of the staff members greeted Xiao Li warmly, then looked at Zhao Yu. ”

“““Hi!”” Xiao Li quickly waved his hand. ”

“However, when he waved his hand, the seawater on his body flowed down, and he was already drenched. ”

“““It can’t be?”” The staff member could not hide his curiosity.”“You guys ... Went to take a bath in the sea?”” ”

“Unexpectedly, this staff member also spoke Chinese, so they should be fellow countrymen. ”

“““I ... Um ...”” The employee didn’t know what to say, so she could only awkwardly say,”“yes! I washed one, hehe ...”” ”

“Although they were curious, these people didn’t seem to be familiar with the employee, so they didn’t continue to ask. Instead, they pushed the small cart out of the door. ”

“Although they were all from the same race, Zhao Yu still used the detector to check these people carefully. He even used the invisible x-ray vision device to scan the things they were pushing. ”

They were pushing things that looked like engineering parts and didn’t seem to be important.

“After confirming that there was no problem with these people, Zhao Yu and the employee entered the elevator together. ”

He didn’t expect the space inside the elevator to be so wide that it could even fit a car.

“After the elevator door closed, the elevator did not move. ”

“The employee first scanned his face in the scanner in the elevator, and then read his ID card from the card slot. The elevator finally started successfully and began to descend slowly. ”

“““Wow ... It’s so complicated ...”” Zhao Yu suddenly thought of something and asked in a hurry,”“Yu mengwan, do you have the highest authority here?”” ”

“““Of course,”” the employee replied.”“Dr. Yu is the person in charge of this project. Of course, he has the highest authority!”” ”

“““Then ...”” Zhao Yu asked again,”“what is the most important place in the research base?”” ”

“““Hmm ... Laboratory ... Or data room ... Or computer room,”” the employee replied.”“They should be quite important, right?”” ”

“““There’s one more question you haven’t answered.”” Zhao Yu thought of something and asked,”“is this research a success?”” ”

“““I can only say that it’s almost the same,”” the employee replied.”“There are no problems with the basic experiments. Next is the problem of mass production! ”

“““We’re still experimenting. If we can’t mass produce it, this technology has no value!”” ”

“Zhao Yu raised his eyebrows and asked,”“if there were really terrorists who wanted to use this technology, what do you think they would do?”” ”

“““Well ...”” The employee shook his head and said,”“I don’t know! ”

“““The principle of rare earth synthesis seems simple, but in practice, it is a very complicated project that requires cooperation from multiple fields. Even if ... Even if they stole the information, they can’t implement it without a certain amount of strength! ”

“““Moreover,”” the employee continued,””this project is jointly developed by many countries, and we also have a division of labor and cooperation with each other. The data is stored separately. I feel that it won’t be easy to steal the complete data, right? ”

“““Unless ... ”” ”

“““Unless what?”” Zhao Yu asked. ”

“““Unless ... They’re also researching this project for a long time,”” the employee replied.””They’re only missing a few core technologies!”” ”

“““Core technology ... ”” Zhao Yu urged,””hurry up and tell me, where is the core technology? How can I get it?”” ”

“““The blueprint ... ”” The employee hesitated for a moment, but still answered the question.””It should be in the professor’s safe!”” ”

“““A safe?”” ““Where’s the safe?”” Zhao Yu asked. ”

“““In her office,”” the employee said.””Not only does the safe require a password and key, but it also requires an eye and fingerprint scan!”” ”

“Suddenly, Zhao Yu recalled the accident that Yu mengtian had encountered. She had been pushed down from upstairs, which made it look like the devil case. ”

“Then ... Could it be ... That the enemy’s true goal was to get her identity information, password, and key? ”

“If that was the case, it meant that the current situation was the same as the previous room 11. Everything was carefully planned by the enemy. ”

“In other words, their target should be here! ”

It was very likely that this place had already been invaded by terrorists!

“““Alright!”” Zhao Yu patted the employee’s shoulder and said,””let’s go to professor Yu’s office first!”” ”

“““Well ... ”” The employee quickly said,””I’ll say this in advance, I can’t open her office. Dr. Yu is not here, so only the person in charge of the Korean side can open it, and you’ve already seen the Korean side’s responsibility!”” ”

“““Mm ... ”” Zhao Yu understood that hanfang’s responsibility was naturally the big fat man. However, Zhao Yu had the universal lock picker with him, so he was not worried. He waved his hand and said,””you just need to take me there!”” ”

“The speed of the elevator gradually increased, and it did not take long for them to arrive at the underwater base. ”

“However, another accident happened. As soon as the elevator door opened, Zhao Yu was surprised to see two security guards with guns in their hands!”

Chapter 1954: Frightened underwater (2)

“Crack, bang ...”

“After the chaos, the two security guards’ rifles were broken by Zhao Yu, and they were also knocked to the ground by Zhao Yu.”

“After so much training, Zhao Yu’s skills and experience had made a qualitative leap, and he could be considered half a master.”

“In addition, he had an invisible bullet proof suit on him, so he was fearless. Thus, he easily took care of the two security guards.”

“.....”

“The employee was dumbfounded. He had thought that this famous detective only knew how to solve cases, but he did not expect him to be a fighting expert.”

““What are you doing?”” Zhao Yu patted him, “hurry up and take me to professor Yu’s office. If we get there early, we might be able to stop them!””

““Oh ... Over there, follow me ...”” Unexpectedly, despite Zhao Yu’s violent behavior, the employee was very cooperative and did not suspect anything.”

“The undersea base in front of him was not as high-tech as Zhao Yu had imagined. There was a lot of industrial waste scattered on the concrete floor, and the air was filled with the smell of burning metal, as well as some indescribable stench.”

“However, from the evacuation plan pasted on the wall, Zhao Yu could still see that the scale of the undersea base was not small. It was no smaller than an underwater factory.”

“As he walked, Zhao Yu saw a lot of staff, all of whom were wearing white overalls, and some even wore gas masks.”

““The experimental area will produce some poisonous gas,”” the employee explained to Zhao Yu. “Don’t worry, the base’s ventilation equipment will automatically filter out the poisonous gas. As long as the concentration doesn’t reach a certain level, it will be fine!””

““Here ...”” Zhao Yu asked, “there should be more than the two security guards, right?””

““Right!”” The employee nodded and finally understood what Zhao Yu was thinking. “Why? Don’t tell me you’re thinking of wearing a gas mask?””

“Zhao Yu was thinking the same thing. Since the security guards here had already received the news, the higher-ups would soon come to arrest him.”

“Therefore, it was a good idea to wear a mask. However, the clothes he was wearing ... ”

Wait ...

“Just as Zhao Yu was thinking quickly, the detector in his brain suddenly flashed a red light! ”

Alarm?

“Zhao Yu knew that even if the detector detected a gun or other weapons, it would not give out a Red Alert. ”

“Since there was an alarm, it meant that something more dangerous had been detected. ”

“He quickly checked the detection screen and saw that the red light flashed, and the words “explosive object” indeed appeared. ”

Terrible!

“What he was afraid of happened. When Zhao Yu looked at the screen, he couldn’t help but see the three big characters in the middle of the system interface, “universe, universe!” ”

“This was an underwater base, and now there was an explosive object. This big event was really ... ”

“Zhao Yu didn’t have time to exclaim anything, but immediately gave up the idea of changing his gas mask, and quickly pulled the employee to run to the place where the explosives were. ”

““Hey, hey, hey?”” The employee was surprised. “The direction is wrong. It’s not that way ...” ”

Wait ...

“Hearing the employee’s words, Zhao Yu suddenly thought of something and stopped in his tracks. He asked the employee, “Let me ask you, do you have explosives in your base?” ”

““Explosives?”” The employee thought for a moment, then nodded and said, “yes, of course! Seabed mining is still mining, of course we need explosives!” ”

““Oh ...”” Zhao Yu heaved a sigh of relief. It turned out that the explosives detected by the detector might just be ordinary items in the base. ”

““But ...”” The employee said, “the last mine explosion has been completed, so the base now will not store such dangerous things. ”

““When there’s a need, they’re all transported from above ...” ”

““F * ck!”” Zhao Yu was depressed. He had just relaxed, but now he was tense again. He quickly pulled the staff and continued running, while complaining, “next time, can you say it in one breath?” ”

““What ... What’s wrong?”” The employee could not understand Zhao Yu’s behavior at all, but still insisted on his own opinion, “professor Yu’s office is on the east side! He’s not over there ... Hey ...” ”

Zhao Yu ignored him and quickly dragged him to the West.

“According to the detector, the place where the explosives were found was about 50 meters away from him. It didn’t take long for them to run into a relatively narrow and remote corridor. ”

“““This is the decompression chamber,”” the employee said.”“What are you doing here?”” Do you want to take the submarine?”” ”

“Zhao Yu ignored him, but continued to look for his target. ”

“Finally, he came to a heavy metal door and stopped. ”

“The metal door was locked, and there was a particularly thick round glass window in the upper position. Through the round window, Zhao Yu saw a small submarine. ”

“This submarine was different from the ones he had seen before. It had excavating arms on both sides and tall wheels under it. From this, it could be seen that the submarine was used for underwater mining. ”

“However, when Zhao Yu turned to look at the tail of the submarine, he suddenly felt a buzz in his head. ”

“On the wall behind the submarine, a person had actually appeared! ”

“This person was probably tied up by something and was shaking his body, but he couldn’t break free! ”

“Although half of the man’s face was blocked by the propeller of the submarine, Zhao Yu could still recognize him at a glance. This man was his father-in-law, Miao kun! ”

No way!

Zhao Yu was shocked. He never expected to see his father-in-law in such a place!

“However, what was even more surprising was that the detector found that the explosive object happened to be on him. ”

This meant that he had a bomb tied to his body!

This?

“““Miao ... Miao kun!”” ”

“In a moment of desperation, Zhao Yu hit the glass, but the glass was so thick that the sound couldn’t get in. ”

“Then, Zhao Yu tried to open the door, but the heavy iron door didn’t budge at all. ”

“““What ... What’s wrong?”” The employee was surprised.”“Are you really going to take the submarine?”” ”

“““Quick,”” Zhao Yu urged,”” open the door for me, quick!”” ”

“““Ah?”” The employee stood on his tiptoes and looked through the porthole. He finally saw Miao kun tied to the cabin wall. He was shocked and looked at Zhao Yu in surprise.”“How did you know there was someone here?”” ”

“““Hurry up! Don’t talk nonsense, open the door!”” Zhao Yu roared. ”

“The employee shook his head.” “I’m not the pilot. I don’t have the authority to open the pressurized cabin. We need ... We need to find the manager here to open it.” ”

“”Then hurry up and find it!”” Zhao Yu roared, but he suddenly remembered something and quickly used the universal lock opener from his device bar. ”

“”Oh ...”” The employee turned around and was about to leave, but was stopped by Zhao Yu. ”

“In the end, something unexpected happened. The system showed that the universal lock picker could not open the door. He needed to spend more than 10000 points to strengthen it. ”

F * ck!

“10,000 points? ”

Was he that wicked?

The system also knows how to extort?

“However, Zhao Yu still pressed on the strengthen button. In such a life-and-death situation, he could only give up the 10000 points! ”

“Just as Zhao Yu was about to strengthen the universal lock picker, he saw a string of English letters flash on the password screen next to the metal door. ”

“”Ah? “”This ...”” When the employee saw it, he was shocked. He quickly came forward and looked at the string of numbers carefully. ”

“At the same time, the system’s feedback came into Zhao Yu’s mind, telling him that if he wanted to open the lock, he would need to spend 76000 points! ”

I’ll cut!

“Zhao Yu was about to go crazy, and he cursed the system in his heart. ”

“I only have 70000 points left, it’s not enough! ”

‘What ... What’s going on?

“Then, Zhao Yu grabbed the employee’s collar. ”

“”It’s locked ...”” The employee was even more shocked than Zhao Yu.””The system must have been hacked. All the security doors in the base are locked. We can’t get out!”” ”

Chapter 1955: Frightened underwater (3)

“As the saying goes,””when there’s a leak, there’s a downpour.”” Zhao Yu missed the chance to open the cabin door in a flash. ”

“““What’s the situation?”” Zhao Yu shouted at the employee anxiously,“““what do you mean by system intrusion?”” ”

“““Someone ... Someone did something to the main control room,”” the employee said in horror.“““Oh no, it seems that there are really terrorists!”” ”

“““Where’s the main control room?”” “““Is there any other way?”” Zhao Yu asked urgently. ”

“““Yes, as long as we can get in, there should be a way,”” the employee said hurriedly.“““I’m a programmer, I work in the main control room!”” ”

“““This is bad,”” the employee said, lost.“““If the system is controlled by someone, he can turn off the ventilation system. That ... That’s going to be troublesome ...”” ”

“““Alright then ...”” Zhao Yu urged,“““you go over now! Be quick ...”” ”

“Zhao Yu wanted to tell her about the bomb, but he held back. After all, the explosives were detected by the detector and there was no way to explain it to others. ”

“““Alright!”” The employee was about to turn around and leave, but he suddenly thought of something. He quickly pressed a button on the password device on the metal door and said,“““you can ask the person inside to see if he can break free of the rope. There is an emergency manual gate inside that can be opened from the inside!”” ”

“After pressing the button, the image of a loudspeaker appeared on the password screen, which should be connected to the voice call with the decompression chamber. ”

“““Hey, there’s someone outside, is there?”” Miao kun, who was inside, seemed to have heard the noise and quickly shouted,“““is anyone there? Someone, I have a bomb on me!”” ”

“Originally, the employee had turned around and was ready to leave, but when he heard the word “““bomb,”” he stopped in his tracks and almost fell to the ground. ”

“““Oh my God! B...Bomb?”” The employee trembled and his face turned pale.“““What’s the situation? If it were to explode, it would blow up the cabin wall! Hai Shui, hai Shui ... Mm ...”” ”

“However, after he took a closer look at the cabin door, he said something that was asking for a beating,“““““Fortunately, the cabin door is closed. Even if the seawater comes in, we won’t be afraid ...”” ”

“Zhao Yu’s forehead was covered in a dark cloud. He immediately grabbed the employee’s collar again and said,“““It seems like you don’t think it’s a problem to blow someone up, right?”” ”

“““No... No... That’s not what I meant. Okay ... Okay ...”” The employee realized that he had misspoken and quickly corrected himself.“““I’ll go and reset the system now. As long as the system is restored, the hatch can be opened! ”

“““But ... The bomb ...”” ”

“““Don’t worry about the bombs,”” Zhao Yu roared.“““As long as we can save her, I have a way to solve it!”” ”

“““Ah? Zhao Yu? Zhao Yu?”” Miao kun recognized Zhao Yu’s voice and shouted excitedly, “““Zhao Yu? Did you come to save me?””

“““Hahaha, it really is you!””

“““That’s great!””

“““I knew you would come and save me. You understood the code I left you on the phone, right?”” ”

“At that very moment, Zhao Yu’s thoughts were in a mess. Emergency after emergency happened one after another, and he was overwhelmed and at a loss.”

“““Yes, it’s me!”” Zhao Yu spoke into the communication device on the door, “““why are you here?”” ”

“““Hey, don’t talk so much,”” Miao kun said anxiously. “““Open the door and remove the bomb on me!”” It’s about to explode!”” ”

“““Ah?”” The employee was so scared that he almost went into shock. He panted heavily and was covered in sweat ... ”

“““How much more time?”” Zhao Yu asked. ”

“““The bomb is on me, damn it ...”” Miao kun said anxiously. “““How can I see it?”” But, I think there should be around ten minutes left. Hurry up, Zhao Yu, aren’t you an expert in bomb disposal? Hurry up and save me ...”” ”

“““The ... The door can’t be opened!”” Zhao Yu said gloomily, “““someone hacked into the base’s system and closed the cabin door!”” ”

“““It can’t be?”” Miao kun was dumbfounded. “““So ... I’m ... Finished?”” ”

“““We ... We’re trying to figure something out,”” Zhao Yu said, patting the employee’s shoulder and consoling Miao kun. “““Just be patient. I’ll save you as soon as possible. I’ll be back soon!”” ”

“““Don’t, don’t, don’t, don’t go ...”” Miao kun hurriedly stopped Zhao Yu and shouted, “““you, let me finish first. There are some things I have to tell you, even if you can’t save me in time!”” ”

“““Mm ...”” Zhao Yu was obviously in a difficult position. ”

“By right, he should have gone to the main control room to reset the system with the staff, so that he could save Miao kun.”

“If he let the employee go alone, he was worried that the employee would not follow his instructions in order to prevent the entire base from getting flooded.”

“Secondly, since the system had been hacked, it meant that there were still enemies in the base. It would be very dangerous for a small employee to go alone.”

“However, the bomb could explode at any time. If he left now, he would probably never see Miao kun again!”

“““Okay.”” The employee suddenly realized something and immediately nodded.”“Don’t worry, let me go!”” I’ll definitely fix the system. I remember now, you’re the Super detective Zhao Yu. I believe you, you’re not a bad person!”” ”

“““Mm ...”” ”

“Looking at the employee’s determined eyes, Zhao Yu made a difficult decision and let go of his hand. ”

“The employee gave Zhao Yu a trustable look, then turned around and left. ”

“““What the hell are you doing?”” Miao kun roared from inside,““what do you mean by good or bad? Could it be that you’ve gotten into trouble again?”” ”

“““Father-in-law, don’t be so anxious ...”” ”

“Zhao Yu comforted Miao kun as he opened the bomb disposal device in the device bar. He then aimed at Miao kun through the porthole, trying to defuse the bomb on him from a distance. ”

“However, the instruction manual clearly stated that the bomb disposal could only be used when it touched the bomb. Otherwise, no matter how many points were used to strengthen it, it would be useless. ”

“““Okay, okay ... I’m not in a hurry ...”” Miao kun suddenly calmed down and said to Zhao Yu,““in fact, when no one was talking to me just now, I had already thought it through! ”

“““I’ve enjoyed everything I can in this life. My only regret is that I didn’t get to hold a grandson ...”” ”

“““That’s enough, father-in-law.”” Zhao Yu slapped the porthole hard.”“If you’re just going to say this, you’re really wasting time!”” ”

“““Okay, okay, okay, I’ll hurry up and tell you ...”” Miao kun remembered what he had to do and said in a hurry,““I was controlled by two people. I had a bomb tied to me. Don’t panic, I’ll start from the beginning ...”” ”

“““I lied to you on the phone last time. I was caught by them in New Zealand! This group of people had unknown origins, but they were definitely not ordinary people ... ”

“““The leader is a white man with a scar on his face. He has a European accent and speaks in a strange way. He’s missing a middle finger on his left hand ... ”

“““They told me to call you. Some of the things they said were made up. In fact, it’s not that I haven’t contacted Jecka and the others, it’s just that I haven’t had the time to contact them ... ”

“““However, Lee Bencheng is really missing. This is the internal information of Korea, it’s absolutely true ... ”” ”

“““Father-in-law,”” Zhao Yu quickly asked,““did you know that Xi Mengna escaped from prison? The people who kidnapped you, were they Xi menna’s people?”” ”

“““No, no... ”” Miao kun said with certainty.”“Xi menna wasn’t saved, but kidnapped. They were the same people who kidnapped me!”” ”

Chapter 1956: Frightened underwater (4)

“““The same group of people?”” Zhao Yu took a deep breath.”“So, that means that both Xi Mengna and we have a grudge against this person? Is there such a person?”” ”

“““I didn’t!”” ““Our only common enemy is Xi Wei’s family. Who else could it be?”” Miao kun said gloomily. ”

Oh?

“Just as Miao kun mentioned the words ““common enemy,”” Zhao Yu’s heart was moved, as if he had thought of something, but it was gone in a flash. ”

“““Zhao Yu, Xi Mengna was under the most strict surveillance in United Kingdom, but she was still kidnapped. This means that the enemy this time is not small! ”

“““Maybe it’s a government’s action. It’s beyond an individual organization!”” Miao kun then said,”“Zhao Yu, if I die Here, you must be careful!”” ”

“““No, Xi Mengna was kidnapped during the handover,”” Zhao Yu said.”“The US and the British had an agreement. London wanted to extradite Xi Mengna back to the United States, but during the handover, something happened ...”” ”

“““Oh ... I see!”” ““Then, someone must have leaked the news ...”” Miao kun said, trying to recall. ”

“““Where have you been locked up these days?”” ““Did you see Ding Lan?”” Zhao Yu asked. ”

“““After I was kidnapped, I was kept in a small dark room,”” Miao kun said.”“I have never been to United Kingdom, but the scar-faced man gave me a phone number and asked me to call you ...”” ”

“““However, I suspect that I might be locked up on a large ship because I often feel the shaking ... ”

“““As for Ding Lan ...”” Miao kun shook his head and said,”“I didn’t see her, but Scarface showed me a video of her. She ...”” ”

“““She’s unconscious and is lying on the operating table?”” Zhao Yu asked. ”

“““Right!”” Miao kun nodded.”“They threatened me with that. I was locked up for a few days, then brought here with a bomb tied to me!”” ”

“At the mention of the bomb, Miao kun hurriedly said, “““Zhao Yu, I saw a lot of Chinese people here. I suspect that this is a research base that we’re working with the Koreans on. These people must have other motives, not just to lure you here ... ”

“““If I explode,”” Miao kun said,”“the wall behind me will be blown up, and the seawater will flow in, putting the underwater base in danger ... ”

“““It doesn’t matter if I die, but you must not let the enemy’s plot succeed!”” ”

“““I know, I know ...”” ”

“Zhao Yu’s thoughts were like lightning, quickly thinking about the ins and outs of the whole matter. ”

“““I’ve thought it through,”” Miao kun said.””It’s like this in TV shows. When a senior dies, he asks the protagonist to inherit his will. I’m the senior, and you’re the protagonist. In the future, you’ll inherit my will. Do your best!”” ”

Zhao Yu was speechless.

“““And ...”” Miao kun said bitterly.””I was worried about Ding Lan, so they kept threatening me. After I died, they would definitely continue to use Ding Lan to threaten you!”” ”

“““Promise me, no matter what, the country is the most important. Don’t let Ding Lan tie your legs up. Ding Lan is already prepared to sacrifice himself. We’re here to make a living, yes, we’re here to complete our mission. We knew this day would come ...”” ”

“““Zhao Yu,”” Miao kun said with determination.””That’s all I have to say. Go and catch those two guys. Interrogate them about the BOSS behind them and avenge me!”” Go ... Don’t let them have their way. In the future, you have to live well ...”” ”

“““Good ... Good!”” Zhao Yu patted the door glass and said,””I promise you! I’ll go now ...”” ”

“Then, Zhao Yu turned around to leave ... ”

“““Hey, hey, hey ...”” Miao kun almost cried as he wailed,””you heartless little thing, are you really going to leave? can’t you say something to comfort me?”” ”

“““You ... Can’t you think of something else? there should be a turning point in so many TV dramas ...”” ”

“““Hey ... Zhao Yu, Zhao Yu ... Zhao Yu ...”” When Miao kun realized that Zhao Yu had really left, he suddenly became depressed and cursed,””F * ck, are you really going to leave? you’re such a wicked and heartless Wolf Cub. Did I give my daughter to you?”” ”

“““You’ve given the daughter and forgotten the Father ...”” ”

.....

“At that time, Zhao Yu had indeed turned around and left. Just now, he had tried to use the hacker’s command to force open the metal door, but the system had told him that the device was ineffective. ”

“Although there was glass on the door, Zhao Yu gave up the idea of shooting with bullets. After all, the door could withstand the pressure of the water at a depth of 120 meters. It was not something that could be blown up by a bullet! ”

“Hence, Zhao Yu thought that, since he was certain that he couldn’t open the door to save Miao kun, he might as well go up and see how the staff was doing with the system restoration. ”

Would he be in danger?

“Or perhaps, he could look for other methods ... ”

“Just as Zhao Yu was leaving, the gears in his head were spinning rapidly. ”

“Miao kun was tied up on a large ship. The other party had revealed their true identity, allowing him to see Xi Mengna, but not Ding Lan. ”

Could it be that Ding Lan wasn't imprisoned on the ship?

“Could it be that Xi Mengna was just putting on an act as if she was being controlled, but in reality, she was the one controlling everything behind the scenes? ”

No...

“Zhao Yu knew Xi menena well. With her personality, she shouldn't be that shrewd! ”

“Not to mention, her sister Tina had already become a headless female corpse ... ”

A common enemy ...

“I, Miao kun, Xi Mengna, li Bencheng ... Do we have any common enemy? ”

“The enemy wanted to destroy the 11th laboratory and destroy the research results there ... Now, they had invaded the underwater base and wanted to take over this place. What the hell were they trying to do? ”

Stealing the core technology of rare earth synthesis or destroying the base?

Miao kun said that there were two other criminals with him ...

“Strange, since they had already locked the system and the elevator could not be used, then ... How were they going to get out? ”

How to get out?

Wait a minute ...

“As Zhao Yu was thinking, he suddenly thought of something. He stopped and looked back. Then, he thought about what he would do next if he were one of the two criminals. ”

“If they wanted to destroy the base, they could only let Miao kun blow up the cabin wall. It would be useless! ”

“That was because ... The hatch was closed. Even if the seawater gushed in, it would only drown a small part of the pressurized cabin ... ”

Then ...

Would they have to find a way to open the door and bring in the seawater before or after the explosion?

But then ... Wouldn't the two criminals die?

A suicide attack?

Or ...

“As Zhao Yu thought about this, he couldn't help but continue to walk forward. He turned a corner and turned into another corridor. ”

“In the end, he had just turned around and walked a few steps when two staff members wearing gas masks came up to him.”

“As soon as he saw the two staff members, Zhao Yu instinctively became more alert.”

“The two of them, one tall and one short, were walking side by side. The shorter one was even holding a tablet in his hand.”

Zhao Yu took a quick glance and realized that the tablet was much thicker than the average one.

“Obviously, when Zhao Yu walked past the two, he could feel that they were looking at him strangely!”

“Very quickly, Zhao Yu passed by them ...”

“However, Zhao Yu had already slowed down his pace and almost stopped there. His hand subconsciously reached into his pocket to hold his gun.”

This was because Zhao Yu had confirmed something with the detector in his brain.

“At the same time, the two men also stopped in their tracks. The shorter man patted the taller man’s shoulder, then pointed his thumb at Zhao Yu.”

It was as if he had recognized something ...

“In an instant, the atmosphere in the corridor became oppressive and frozen, as if a storm was about to happen ...”

“““Don’t move!”” However, at this moment, several security guards suddenly appeared in the corridor in front of him. They aimed their rifles at Zhao Yu and shouted,““don’t move! If you move again, we’ll shoot!”” ”

Chapter 1957: Frightened underwater (5)

“At that very moment, the detection screen in Zhao Yu’s brain had many weapon signals.”

“In addition to the rifles in the hands of the three security guards in the distance, he also saw that the two men wearing gas masks also had a pistol each.”

“At this time, Zhao Yu was very clear that these two people, one tall and one short, should be the two criminals that Miao kun had mentioned!”

“This was because not only did the two of them carry pistols, but they also had far more electronic equipment than the others.”

“The atmosphere suddenly became extremely tense. Behind Zhao Yu were the ferocious criminals, in front of him were the security guards who did not know what was going on, and in the pressure chamber, there was his father-in-law waiting for rescue. The situation was really tricky.”

“““Don’t move! “““You can’t escape ...””” The security guard holding a rifle warned Zhao Yu in Korean as he slowly surrounded him. ”

“Just as they warned Zhao Yu, the two people behind Zhao Yu seemed to have calmed down. They exchanged a look, then turned around and wanted to escape. ”

“No, it’s too late ... ”

“Zhao Yu knew that if the two of them were really criminals, they were most likely carrying important information from the research base. He couldn’t let them escape! ”

“Then, Zhao Yu made up his mind and immediately used the commonly used device bar to put an invisible bullet proof suit on himself. ”

“At the same time, he raised the arm that was holding the pistol and turned around to aim at the two people behind him. ”

“Unexpectedly, the two of them reacted surprisingly quickly. Zhao Yu had just raised his arm, and they had already pulled out their guns at the same time. ”

Kachaa!

“The tall man’s pistol and Zhao Yu’s pistol collided, and after a clacking sound, both of the pistols fell to the ground. ”

“The short man was quick and pulled the trigger at Zhao Yu, but Zhao Yu subconsciously blocked it. As a result, the bullets whizzed towards the security guards in the distance, scaring them so much that they quickly fell to the ground. ”

“““Ah!?”” ”

“The three of them were shocked at the same time, and then they started fighting. ”

“Zhao Yu swung his fist at the short man’s face, but the tall man grabbed his arm in the air. The short man took advantage of the situation and aimed at the security guards in the distance. The bullet hit one of the security guards. ”

Damn it!

“Seeing this, Zhao Yu tried to grab the man’s gun again, but the tall man was not to be trifled with. He was extremely strong. After breaking Zhao Yu’s arm, he threw a punch at Zhao Yu’s face. ”

“Zhao Yu dodged to the side, and at the same time, kicked the short man, who was about to shoot. ”

Bang! Bang!

“Another bullet was fired, but under Zhao Yu’s interference, it was fired at the anti-aircraft gun! ”

Boom ... Boom ...

“Who knew that the two remaining security guards in the distance could not tell who was the good person and who was the bad person, and they actually fired at the three of them! ”

“They were using rifles that were loaded with grapeshot, and all they fired were marbles. Although the range was short, the power was amazing. There was no way to avoid the countless marbles.”

“Pa, pa, pa ... ”

“The tall man’s shoulder was hit by a marble, and blood spurted out, while the short man managed to lie on the ground in time and avoid the disaster.”

“Of course, as Zhao Yu was standing in the middle, most of the marbles hit him. However, because he was wearing a bullet proof suit, it didn’t affect him at all.”

Bang ...

“Although the short man fell to the ground, he still fired two shots. This person’s marksmanship was extremely accurate, and his two shots actually hit the two security guards in the distance.”

The two security guards fell to the ground and screamed in pain ...

“At this time, a lot of people appeared behind the security guards, but these people were all staff without weapons. When they saw the gun fight, they were all scared and quickly hid ... ”

“GO.....”

“Looking at Zhao Yu’s side, following the short man’s command, the tall man immediately covered his shoulder and retreated to pick up the pistol that had fallen earlier.”

“At the same time, the short man turned the gun and aimed at Zhao Yu’s thigh, then fired two shots.”

“However, after he opened the door, not only did he not see Zhao Yu cry out in pain, but he saw Zhao Yu’s Big Foot kicking towards his face! ”

“”” Ah!?”” ”

The short man screamed in shock and quickly used his other hand to block the attack. But Zhao Yu’s kick was so powerful that he flew backward and hit the wall. His gun also fell to the ground.

“With that, there were three pistols on the ground. Zhao Yu could tell that the two men had extraordinary abilities. If they wanted to defeat the enemy quickly, they would need weapons.”

He quickly bent down to pick up the gun.

“However, the short man’s reaction was not slow. He immediately swept his leg across the ground, aiming for Zhao Yu’s calf from behind.”

“Zhao Yu subconsciously jumped up and dodged the man’s leg sweep. However, the leg sweep did not hit anyone, but it did hit the pistol, which was kicked far away.”

“At this time, the tall man picked up a gun and pointed it at Zhao Yu.”

Damn it!

Zhao Yu wasn’t afraid. He shouted and welcomed the bullets with a fierce thunderclap tornado kick!

Whoosh ...

The kick was as fast as lightning and powerful. It hit the tall man's shoulder and sent him flying in the air. He spun like a top and then hit the wall!

"Not only did his gun fly out of his hand again, but the bolt was also broken ... "

Only Zhao Yu's gun was left on the ground.

"However, the pistol was obviously closer to the short man. The short man pounced and reached out to grab the pistol. "

"Zhao Yu didn't even think about it, but subconsciously kicked the short man's hand. "

"The pistol flew out, and the short man covered his hand and shouted, """"Damn it!"""" "

Oh?

Zhao Yu could tell that the short man was a foreigner.

"However, Zhao Yu regretted his actions. Now that all three pistols had flown away, he was afraid that he could only fight hand-to-hand with the two of them! "

"Whenever there was a fight, Zhao Yu always paid attention to making the first move, and this was no exception. He kicked the tall man on the ground, meaning that he had to take care of one of them in a short time! "

"However, although the tall man had hit the wall and fell to the ground, he was still an expert. Seeing Zhao Yu's kick, he suddenly jumped up from the ground, grabbed Zhao Yu's thigh, and pushed Zhao Yu back. "

"At that moment, they were already at the corner from before. The tall man pushed Zhao Yu to the corridor where the pressurized room was. "

Ah ...

"Zhao Yu was pushed by the tall man, but his arms grabbed the man's armpits and exerted force. He lifted the man up flat, then threw his body against the wall. "

Thump ...

"The tall man hit the wall again, and blood came out from the corner of his mouth. He had no choice but to let go of Zhao Yu's thigh. "

"However, the short man didn't come for the painting. Just as Zhao Yu shook off the tall man, the short man came from behind again. "

Shua shua shua ...

"Zhao Yu didn't know what kind of boxing technique the short man was practicing, but after he punched, there was a loud clattering sound, and every punch was aimed at Zhao Yu's face. "

"Zhao Yu had practiced this before, so he immediately raised his arms to block and counterattack. "

"The two of them exchanged a round in the blink of an eye, and they were evenly matched. "

Waya!

“At the same time, the tall man regained his strength, roared, and pounced at Zhao Yu again.”

“Zhao Yu saw an opportunity and threw a flying kick, wanting to meet her face to face.”

“The short man had been waiting for this opportunity. Zhao Yu had just jumped up, and the short man kicked Zhao Yu’s supporting leg.”

Zhao Yu fell hard on the ground with one hand on the ground.

“With Zhao Yu’s fall, the corridor suddenly fell into a short silence, and only the sound of three people’s breathing could be heard.”

“The three of them stood facing each other, but the two criminals were already standing on the side closer to the inside.”

“The two criminals stood side by side, stretched out their hands, and made a provocative gesture at Zhao Yu!”

Chapter 1958: Frightened underwater (6)

“Hu Chi, Hu Chi ...”

“Although they had only covered their faces just now, all three of them had used their true Qi. Now, they couldn’t help but pant and sweat.”

“However, the two criminals looked at Zhao Yu with disdain, obviously not taking him seriously.”

“Zhao Yu was also calculating in his heart. Although these two people were not as powerful as li Bencheng, their Kung Fu was obviously not weaker than his. If the two of them were to attack him together, he didn’t know if he would be able to gain an advantage.”

“Unfortunately, when Zhao Yu took the time to look at the device bar in his mind, he realized that the invisible itchy device had all been used up.”

Whoosh ...

“Zhao Yu had just taken a look at his device bar when the short man rushed over. His palms were like a venomous snake’s tongue, pecking at Zhao Yu’s face!”

“Zhao Yu responded with a straight punch, trying to use his strength to his advantage and force the other party to retreat.”

“However, the tall man made his move at the same time. He kicked with his long legs and went straight for Zhao Yu’s next move.”

Tsk tsk ...

“Zhao Yu saw that he couldn’t take advantage of her, so he turned around and dodged the woman with the long legs, then went in front of the tall man.”

“Just as he was about to slap him, he heard a swish. The Shorty’s palm came from the side and brushed past his cheek. Zhao Yu felt a chill under his ear. He must have been cut by the Shorty’s palm!”

F * ck!

What was this move?

Was it the Eagle Claw technique or something?

“Zhao Yu was so angry that he hit the short man’s head with his fist, but the tall man punched Zhao Yu in the chest with both his fists.”

Pa ...

Thump ...

“The short man was hit by Zhao Yu and fell to the ground, while Zhao Yu was also hit by the tall man and kept retreating. He felt a sweet sensation in his chest and blood flowed out from the corner of his mouth.”

Spit!

Zhao Yu wiped away the blood foam and rushed into the battle circle again to fight with the two men.

“Zhao Yu’s fists were fierce, and his movements were Swift and fierce, while the two criminals, one tall and one short, attacked with their fists and feet, and their power was strong.”

“In just over 20 seconds, the two sides had fought more than 30 rounds. Only crackling sounds could be heard, and the battle was abnormally intense.”

“However, after all, Zhao Yu was fighting one against two. After more than thirty rounds, he was obviously at a disadvantage. He was slightly distracted, and the short man grabbed his arm.”

“”Ah!”” ”

“Zhao Yu threw a punch at him, trying to break free, but the tall man held his head and slammed him against the wall.”

Thump!

“Fortunately, just as he was about to hit the wall, Zhao Yu used his right arm to cushion his fall. Even so, he was still hit with a dizzy spell, and his head kept jumping ...”

“Taking advantage of this opportunity, the short man kicked Zhao Yu under his armpit, sending Zhao Yu flying and sitting on the ground.”

Ah ...

“Zhao Yu didn’t feel any pain. Instead, he clenched his fists and rushed over again.”

“Looking at Zhao Yu’s tenacity, the short man seemed to be a little impatient. He looked at his watch and said a long string of words to the tall man in a foreign language as he dodged Zhao Yu’s attacks.”

“The conversation sounded like it was in some Eastern European language, which ordinary people would not be able to understand.”

“However, Zhao Yu had a translation device with him, so he could easily understand what he meant.”

““Pay attention to the time. Leave this to me. You go and settle your business first!””

“Seeing this, the tall man immediately punched Zhao Yu, then took the tablet from the short man.”

“After the short man handed the computer over, he immediately kicked Zhao Yu, hitting him.”

“The tall one took the opportunity to turn around and run to the door of the pressurized cabin. Then, he knelt on one knee and faced the hatch with the tablet computer, as if he was typing something.”

What the hell?

This ... What did it mean?

Could it be that he was trying to open the door?

“But ... Miao kun, who had a bomb tied to him, was still inside!”

Could it be that he wanted to use the remote control to detonate the bomb on Miao kun in advance?

Please don’t ...

“Although Zhao Yu didn’t understand what the guy was trying to do, his intuition told him that it was definitely not a good thing. He had to stop him as soon as possible!”

“However, just as Zhao Yu moved, the short man once again rushed over.”

“F * ck you, motherf * cker!”

Zhao Yu could also see that the situation was so urgent that it was not the time for him to be competitive. He had to end the battle as soon as possible!

“Then, Zhao Yu activated his energy booster and threw a punch at the short man’s Eagle Claw!”

Pa ...

“The fist and palm collided, and a violent force instantly took effect. Zhao Yu’s fist pressed down on the short man’s palm, then suddenly slapped the short man’s own face!”

It looked as if he had just given himself a slap.

Ah?

“The short man retreated hurriedly, covering his red and swollen face, thinking that it was an illusion.”

“Zhao Yu had been waiting for this opportunity. He rushed forward, easily passing the short man, and rushed towards the tall man who was using the computer.”

The short man was shocked and quickly ran over to grab Zhao Yu.

Zhao Yu's eyes flashed coldly as he turned around and gave the short man a spin kick. The short man could only block it with his arms.

"The result was as expected. The short man didn't understand what was going on before he flew out and hit the wall that was more than a meter high. Then, he fell to the ground and vomited blood!"

"However, at this moment, as the tall man pressed a few buttons, the door of the pressurized cabin opened! Then, the tall man ignored everything else and immediately entered the low-pressure cabin ..."

I'll cut!

"This time, Zhao Yu was even more confused. Weren't these two bad guys? Did they not know that Miao kun had a bomb with him?"

"No... That's impossible, right?"

I was just about to open the door!

"Without further ado, Zhao Yu saw that the cabin door was already open and immediately rushed over."
"

"He had thought that the tall man would close the hatch door after entering the decompression chamber, but to his surprise, when Zhao Yu rushed into the decompression chamber, the hatch showed no signs of closing at all."

This ...

"When Zhao Yu entered the decompression chamber, he saw that the tall man was not walking toward Miao kun. Instead, he was climbing up the ladder and onto the submarine!"

Oh ...

"Suddenly, Zhao Yu seemed to understand the other party's intention."

It seemed that their target was most likely the submarine. Their original intention was to open the door to the pressurized cabin.

"Later, once the bomb on Miao kun's body exploded, the cabin wall would be blown open, and seawater would pour into the decompression chamber. At that time, if the hatch could not be closed, the seawater would flood the entire base, flooding the entire base!"

"In this way, the base would be instantly flooded by the sea, and no one would survive!"

"As for the criminal himself, he could leave safely on the submarine ..."

"This strategy was exactly the same as the 11th laboratory in the technology Building. Not only did they want to steal the technological achievements of other companies, but they also wanted to kill all the scientists who had the technology!"

"Damn it, this group of people is really too vicious!"

“Not only was it a robbery, but he also didn’t leave any survivors. This was really ... ”

Zhao Yu suddenly realized that the only thing he had to do now was to remove the bomb on Miao kun’s body!

“He also had an invisible bomb disposal device with him. As long as he could touch the bomb on Miao kun’s body, he would be able to dispose of it in time. ”

“As long as the bomb did not go off, no matter how Savage the robbers were, they would never succeed! ”

“Thinking of this, Zhao Yu rushed toward Miao kun. ”

Chapter 1959: Frightened underwater (7)

“In fact, when Zhao Yu had found Miao kun, he had turned on the communication device in his ear and tried to get in touch with Xiao hang. ”

“However, they were 120 meters under the sea, so the signal could not be sent out. Even though Zhao Yu tried to use the signal booster, it was still ineffective. ”

“Now, even if the signal could be sent out, it would be useless. ”

This was because the communication device had been broken in the previous fight.

“However, Zhao Yu knew that he and Xiao hang had already reached the agreed time of twenty minutes. Xiao hang should be leading his men to the oil platform now. ”

“Of course, Zhao Yu also knew that even if Xiao hang brought his men here, it would be useless. ”

“Because the elevator of the underwater base had been locked on, not only could they not enter, but they would also never expect that the enemy would escape through the waterway ... ”

“In fact, Zhao Yu had another question. Since the two criminals had already taken control of the underwater base’s control system, wouldn’t they be able to flood the entire underwater base just by opening the door of the pressurized cabin and then opening the water valve? ”

Why did they take such a huge risk to tie Miao kun up and make him a human bomb?

“Did they have any other purpose, or ... Was it because the decompression chamber of the submarine base did not allow the water valve to be opened at the same time as the hatch door was opened, so they could only use the blasting method? ”

“However, time was of the essence, and Zhao Yu didn’t have much time to think. The two criminals had most likely arrived on time, which meant that the bomb on Miao kun would explode soon! ”

“At that moment, the tall criminal had already climbed into the submarine. Zhao Yu ran straight to Miao kun without any obstacles. ”

“““Little Zhao, don’t worry about me!”” Miao kun pointed his chin at the submarine and said,““stop that son of a B * tch. He must be up to no good. He went into the submarine ... Ah!”” ”

“Miao kun had just finished speaking when he saw the short criminal rush in from the cabin door. Miao kun panicked and quickly reminded Zhao Yu,““““Little Zhao, another one, another one ... Quick, don’t let him escape!”” ”

“““Hu...Huhu ...”” ”

“Zhao Yu ran in front of Miao kun and touched him lightly with his fingers. The invisible bomb disposal popped out instantly and took effect on the bomb, detonating it in seconds! ”

“““Oh ...”” Miao kun was so scared that he started crowing.““Don’t touch it! It might explode!”” ”

“““Mm ...”” ”

“Zhao Yu wanted to tell Miao kun that the bomb had been defused, but it would seem a little too unreasonable. So, he pulled open Miao kun’s clothes and revealed the bomb. ”

“““Argh! ““ Do you want to take me down with you? Eh? Why didn’t it explode?”” ”

“““Please, stop talking!”” Zhao Yu touched the bomb symbolically, then patted his father-in-law on the shoulder.““Alright, it’s been removed! Hurry up and take off the bomb!”” ”

“““Damn!”” Miao kun cursed.““You can’t fool me like this!”” Do you know what kind of bomb this is? Even a bomb disposal expert can’t be so perfunctory, right? You’re still asking me to take it off?”” ”

Whoosh ...

“As soon as Miao kun finished speaking, the short man who had just entered the room rushed up to Zhao Yu and kicked him in the back. ”

“Zhao Yu’s reaction was quick, and he dodged the attack easily. ”

“However, Zhao Yu had overlooked one thing. He had managed to Dodge the kick, but the short man’s kick had landed on Miao kun’s body! ”

Thump ...

“Miao kun was already leaning against the wall, so the kick made him hit the wall with a loud thud. ”

Ah?

“The short man knew that Miao kun had a bomb on him, so he thought that the bomb would explode with his kick. He was so scared that he quickly jumped away and rolled on the ground ... ”

F * ck your mother ...

“Zhao Yu’s eyes were sharp and his feet were fast. He used a low-altitude thunderclap tornado kick, which swept out close to the ground, and kicked the short man directly. ”

The short one rolled away like a ball and hit a thick diving suit.

“In the end, the diving suit was knocked down and fell right on the short man’s body. ”

““““Ouch ...”” At this time, Miao kun leaned against the wall, groaning in pain.”“F * ck your mother, I almost exploded!”” ”

““““Zhao Yu, you too ... Why are you hiding?”” ”

Zhao Yu was speechless. He quickly bent down to untie Miao kun.

“Not only was Miao kun tied to the bomb, but he was also tied to the cabin wall by a rope. The enemy’s intention was obvious. Only by letting him stay close to the cabin wall would the explosion blow the cabin wall apart and let the seawater pour in ... ”

“However, just as Zhao Yu untied Miao kun’s rope, Miao kun looked behind Zhao Yu in horror and exclaimed,”“““Zhao Yu, hurry, run ... Hurry ...”” ”

Zhao Yu turned around and was shocked to see a mechanical arm from the submarine coming straight at him.

F * ck!

“Zhao Yu quickly stood up from the ground, stretched out his arms, and hugged the huge mechanical arm! ”

“Zhao Yu could have dodged the attack, but he couldn’t make the same mistake twice. If he dodged the attack, Miao kun would be disabled by the mechanical arm! ”

This kind of fully metal mechanical arm was used by submarines for underwater excavation and collection work. Its power was naturally unimaginable.

“Even if Zhao Yu had an energy booster, he wouldn’t be able to fight against it. ”

““““Ah ...”” Zhao Yu hugged the mechanical arm tightly and shouted at Miao kun,”“““untie the rope! I can’t hold on any longer!”” ”

““““F * ck!”” Miao kun’s eyes widened in shock. ”

““““Hurry up!”” ”

““““No!”” Zhao Yu roared again, and Miao kun finally came to his senses. He quickly broke free from Zhao Yu’s arms and tried to untie himself. ”

““““Ah ...”” ”

“The strength of the mechanical arm was too great, and Zhao Yu could no longer hold on. He kicked Miao kun away, then let go of his hand! ”

Thump ...

“The mechanical arm slammed into the wall of the cabin, making a loud clang. Miao kun’s head was almost crushed by the arm. ”

Waa?

Miao kun broke out in a cold sweat and quickly broke free from the rope ...

“Then, the mechanical arm retracted and charged at Zhao Yu again.”

Buzz ... Buzz ...

The mechanical arm brought with it a roaring cold wind as it came straight for Zhao Yu.

“However, a machine was a machine, after all, and not as agile as a human. Zhao Yu took a few steps back, confident that he could easily avoid the attack.”

“However, at that moment, the short man who had been kicked suddenly jumped out from behind and hugged Zhao Yu!”

“”Ah!”” ”

“Zhao Yu was a little absent-minded, and the huge mechanical arm suddenly hit Zhao Yu’s body. Although Zhao Yu blocked it with his arms, he was still hit and flew out, then fell to the ground on his back ...”

“Of course, such a huge inertia threw the short criminal far away. However, since he wasn’t hit directly, he was obviously not in any serious danger.”

Oh ...

“Zhao Yu felt his arms go numb, and his chest was in extreme pain. He wanted to vomit blood, but he couldn’t.”

Buzz ... Buzz ...

“However, with another terrifying mechanical sound, the huge mechanical arm once again smashed towards his chest ...”

Chapter 1960: Frightened underwater (8)

Bang! Bang!

“With a heavy, muffled sound, the mechanical arm smashed into the ground, shattering the tiles!”

“Fortunately, Zhao Yu reacted quickly and rolled away in time, avoiding the attack of the mechanical arm.”

“”Ah ...”” ”

“However, just as he dodged the mechanical arm, the short criminal came from the side again.”

The guy was a little angry and started kicking Zhao Yu.

“Although Zhao Yu was severely injured, the energy booster’s effect had not ended yet, so the attack was not a big deal. After he got up from the ground, he raised his fist and punched the short man.”

“While he was hesitating, he saw the short man trying to climb into the submarine. So, he took the rope and wrapped it around the man’s neck, and strangled the short man!”

“However, the short man did not resist after falling to the ground. Instead, he looked at his watch and then closed his eyes resolutely ...”

“He knew that it was time for the bomb to go off. Since he was so close to Miao kun, he was definitely going to die!”

“However, after he closed his eyes for a while, he suddenly realized that something was wrong.”

“The bomb explosion that he had imagined did not happen. When he opened his eyes, he was shocked to see Miao kun’s fist coming for his face!”

Ah?

“Out of instinct, the short criminal turned his head.”

Thump!

Miao kun’s fist hit the floor heavily!

“”“Oh oh oh ...”” ”

Miao kun let out another unpleasant cry. The short man took the opportunity to kick Miao kun away ...

“At this time, Zhao Yu was already in front of him. The short man quickly did a backflip and fought with Zhao Yu again.”

“Of course, the tall man did not stay idle. He once again controlled the huge mechanical arm and roared behind Zhao Yu, trying to sneak an attack on him.”

“However, Zhao Yu was well prepared this time. He took advantage of the opportunity and used an invisible spring launcher. He jumped up one and a half meters into the air, did a beautiful backflip, and dodged the arms. Then, he landed perfectly ...”

Waa ...

“The short man was stunned by Zhao Yu’s perfect movement for 0.1 seconds, then he saw the huge mechanical arm hit him directly!”

Ah ...

The short man was sent flying backward and crashed heavily into the cabin wall. He then fell to the ground and vomited blood ...

“”“Oh? Oh oh oh ...”” ”

“”“Ah!”” Miao kun, who was next to the short thug, exclaimed in surprise, as if he had stepped on his tail.”

“Zhao Yu looked up and saw that after Miao kun was kicked by the short man, half of the bombs on him had fallen off, and the other half was hanging on his body, shaking. It was a terrifying sight, no wonder Miao kun was screaming in fear ... ”

“”It exploded ... Ah ... It exploded ... It exploded ...”” Miao kun scurried back and forth at the tail of the submarine, as if his butt was on fire. ”

“”Hey ... Hey Hey ...”” Zhao Yu shouted at Miao kun,“”stop shouting! Didn’t I tell you? I’ve already defused the bomb, it won’t explode! Just ... Just untie it!”” ”

“Hearing Zhao Yu’s words, Miao kun had no choice but to reach out to untie the rope around the bomb. However, he felt as if his hands were burning, which was a funny and funny sight. ”

“”Ai!”” Zhao Yu sighed, then rushed over to untie him. ”

“”Hey, slow down, slow down ... It’s going to explode ...”” Miao kun was so scared that his lips were not moving ... ”

“But at that moment, with a buzzing sound, the mechanical arm controlled by the tall thug came crashing toward the two of them again! ”

I’ll cut!

“At that moment, Zhao Yu had just untied the rope. He threw the bomb on the ground, then pulled Miao kun to the side of the submarine. ”

Wuuu ...

“The mechanical arm swept past and knocked on the cabin wall again, making a loud noise that shook the ground ... ”

“Due to inertia, Zhao Yu and Miao kun were unable to control their center of gravity, and both of them fell at the tail of the submarine. ”

“When the two of them got up from the ground and were about to continue dodging the mechanical arm, they suddenly realized that the short thug had picked up the bag of explosives and was holding it in his arms! ”

“Suddenly, Zhao Yu saw that there was something wrong with the short criminal’s eyes and expression, and he had a bad feeling about it. ”

“Sure enough, when the short criminal held the explosive package in his arms, he first pulled out a red handle from the inside of the explosive package. Then, he looked up to the sky and let out a long howl, shouting a few foreign words ... ”

It’s broken!

“Zhao Yu finally understood. Although he had removed the explosive packages with a bomb disposal, it didn’t mean that the bomb wouldn’t explode again. ”

“Just as Zhao Yu was trying to figure it out, the short criminal had also pressed down on the red handle!
”

“In the end, the explosive package exploded in an instant. Zhao Yu only saw a blinding flash of fire, then saw his father-in-law, Miao kun, fall in front of him, blocking him from the explosion. ”

“However, could such a violent explosion be blocked by the physical body? ”

“In an instant, the decompression chamber exploded with a loud bang, and flames burst out. In the blink of an eye, it was a mess ... ”
