Chapter 1191: Linjiang City (4)

?

“Miss, today’s selection has ended. Let’s go back!” Lu Tao ignored Feng DA’s pitiful act and said to Leng ruoxue.

“Yes.” Leng ruoxue smiled and nodded. Following that, everyone returned to the inn.

Leng ruoxue and the rest did not go to watch the competition on the second day. After all, they had seen all the candidates and they were not very interested in who would win.

On the last day, Leng ruoxue and the rest left the inn and went to the selection venue.

After two days of selection, there were only twenty candidates left. These twenty people could be considered as one-in-ten-thousand elites. Whether it was their appearance or cultivation, they were the best among the applicants.

After two rounds of demonstration, only ten of these twenty people were left, and number three, who green peach had a better view of, was naturally among them.

Immediately after, the host of this selection invited the city Lord’s daughter out.

As it turned out, as the most outstanding candidates, the last obstacle that the ten of them had to pass was to gain the favor of the castellan’s daughter. To put it bluntly, it was up to the castellan’s daughter to decide who she fancied. Whoever she fancied would be the future governor of Linjiang City.

Lu Tao and the others who were sitting below the stage stretched their necks to see the true face of the city governor’s daughter. However, after waiting for a long time, they still did not see a woman walking up the stage.

“Miss, this city Lord’s daughter is so haughty!” Lu Tao said with a dissatisfied expression.

“Hehe, she’s a girl! Of course, I have to be more reserved.” Leng ruoxue laughed evilly.

As soon as she finished speaking, someone in the audience shouted that the castellan’s daughter had arrived. Instantly, everyone’s eyes were drawn to her.

Not long after, everyone saw a moving round ball rolling up the stage. The reason why she rolled was because the city Lord’s daughter accidentally fell down when she was walking up the stage. Coupled with her slightly fat figure, she rolled directly to the feet of the male candidates. When everyone saw this scene, they couldn’t help but laugh in their hearts.

“Uh! The appearance of the city Lord’s daughter is quite special.” Lu Tao was speechless. No wonder the governor of Linjiang City was in such a hurry to choose a husband for his daughter, and even used Linjiang City as a betrothal gift. Without Linjiang City, it would not be easy for the daughter of the governor to get married!

When the city governor’s daughter crawled up from the ground, everyone saw her appearance even more clearly, and instantly, the people present couldn’t help but retch ...

'F * ck, is he even human?' Not only was she fat, but she was also so ugly. What was even more unbearable was that she was drooling as she stared at the ten men on the stage with a dazed expression.

When the ten men saw the appearance of the city governor's daughter, four of them immediately expressed their intention to forfeit and withdraw from the competition. In the blink of an eye, there were only six candidates left on the stage, and they had been hesitating.

The city Lord's daughter was a little disappointed that four beautiful men had left, but when she remembered that she still had six choices, she immediately became elated.

However, before she could be happy, three more men who were hesitating announced that they had forfeited.

The city governor's daughter looked at the three remaining men on the stage and pointed her finger without hesitation, choosing her future husband. The man she chose was number three, whom green peach had a better opinion of.

When the other two men saw this, they seemed to be relieved and walked down the stage in high spirits. In fact, if they were not from Linjiang City, they would have forfeited as well. However, when they thought of the authority of the city Lord, they had no choice but to stand on the stage and let the city Lord's daughter choose.

Seeing that his daughter had made her choice, Jiang Fan happily walked up to the stage and announced the identity of the third man as the future city Lord. Then, he decided to hold a banquet in the city Lord's mansion to celebrate and invited all the citizens in the city to attend. However, Leng ruoxue and the others were not interested in this, so they went back to the inn.

The next morning.

Leng ruoxue and the others went to the restaurant to have breakfast. The moment they entered the restaurant, they heard some guests whispering. Although their voices were very soft, they still managed to make their way into their ears.

"What were you guys talking about?" Leng ruoxue pretended to be confused and asked.

Faced with such a beautiful woman's question, the two men who were talking immediately replied politely, "Young miss still doesn't know! Something happened in the city Lord's mansion yesterday, and many people died."

The person who spoke had a face full of regret, but at the same time, there was a trace of relief.

"Wasn't yesterday a good day for the city Lord's daughter to choose her husband?" Leng ruoxue probed.

"Yup! It was supposed to be a happy occasion, but in the end, it became a funeral. Sigh! It's really too pitiful. None of the people who went to the city Lord's mansion for the banquet yesterday were spared, and the city Lord's family was completely annihilated." The man said.

Chapter 1192: Yuan Xi (1)

“How could this be? Then wouldn’t Linjiang City be a group of Dragons without a leader?” Leng ruoxue asked worriedly.

“I don’t think so! The future city Lord is still alive, even though he’s heavily injured. ” The man said with an envious look.

“The future city Lord? Didn’t he not marry the city Lord’s daughter yet? Would the people of Linjiang City allow him to be the city Lord?” Leng ruoxue’s beautiful face was filled with confusion as she asked.

“I think so! After all, the future city Lord was personally appointed by the city Lord himself. There’s no one else in Linjiang City who’s suitable for this position. ” The man said after thinking for a moment.

“Oh!” After a simple chat and getting to the bottom of what they wanted to know, Leng ruoxue and the rest had a simple meal and returned to the living room.

After returning, everyone could not help but ask the question in their hearts.

“Miss, it’s only been one night, how did all the people in the city Lord’s mansion die out? It’s so strange. ” Feng Da said in surprise.

“It’s a good thing I didn’t go to the city Lord’s mansion yesterday. Otherwise, I would have been one of the people who died today. ” Yan kun said fearfully.

“Old Yan, you’ve saved your life! It seems like you can’t eat random things. ” Feng Da patted Yan kun’s shoulder and consoled him with a smile.

“Yup!” Yan kun wiped the cold sweat from his forehead. He was obviously shocked.

“Who said that all the people in the city Lord’s mansion are dead? isn’t the former city Lord’s new son-in-law still alive?” Leng ruoxue chuckled as she reminded him.

“Uh!” Everyone was speechless. They weren’t fools and could easily figure out the hidden trick in this matter.

“Feng Da, take some men with you to check the situation. Also, check if there are any other surviving members of the Jiang family.” Leng ruoxue thought for a moment and ordered.

“Yes, miss.” “Yes, master!” Feng Da replied. Then, he left the inn with Lin Yuan and the others.

After three days of secret investigation, Feng Da and the others confirmed that no one survived in the city Lord’s mansion. However, it was said that the dead Jiang Fan had a younger brother. However, that younger brother made a mistake decades ago and was exiled to the countryside of Linjiang City to fend for himself.

After that, Leng ruoxue sent Feng Da and the rest to look for her clan brother.

Two days later.

Jiang fan’s younger brother was brought back by Feng Da and the others.

In the living room, Leng ruoxue's beautiful eyes were observing her clan brother. She saw that he had a nervous expression and did not even dare to raise his head. Furthermore, his clothes were torn and tattered, and his strength was not high. He was only at the initial level of deity. From the looks of it, he did not have a good life.

The moment she saw him, Leng ruoxue knew that he couldn't have been the one behind the incident at the city Lord's residence. Firstly, he didn't have the ability to do so. Secondly, he didn't have such a powerful influence.

"You're Jiang nuo!" Leng ruoxue asked despite knowing the answer.

"Yes, I'm Jiang nuo." Jiang nuo whispered.

"You should know about Jiang fan's matter, right?" Leng ruoxue asked indifferently.

.

"Yes, Captain Feng has told me about it." Jiang nuo quickly replied.

"Do you know what I want you to do?" Leng ruoxue asked with a smile.

"Miss ... Are you planning to let me replace you?" Jiang nuo asked carefully, his heart pounding. Could there be such a good thing? He didn't dare to believe it.

"That's right. I need Linjiang City and someone to help me manage it. So, you must recognize me as your master and I will help you get Linjiang City." Leng ruoxue stated her conditions.

"Good! However, on my way to the city, I heard that there's a new city Lord in Linjiang City. I'm afraid ..." Jiang nuo was a little worried and did not finish his sentence.

"You're a member of the Jiang family, that person isn't." Leng ruoxue said with a smile.

"Then I'll listen to miss." Jiang nuo promised. He then issued the bloodline contract and officially recognized Leng ruoxue as his master.

"Alright, go and have a good rest now! I'll ask Feng Da to help you take back Linjiang City tomorrow." Leng ruoxue said indifferently.

"Yes, this subordinate will take his leave." Jiang nuo said as he turned around and left the living room.

"He's really lucky. This is a meat pie that fell from the sky!" Feng Da sighed.

"None of you like to eat pies, so I'll have to find someone else," Leng ruoxue rolled her eyes at Feng Da and said helplessly.

"Hehe!" Feng Da laughed awkwardly.

"Miss, Jiang Fan has forced Jiang nuo to the countryside to fend for himself for decades. Can he manage Linjiang City well?" Yan kun said worriedly.

"Don't worry! He'll be fine." Leng ruoxue said with certainty. If it wasn't for the fact that he had scruples about his clan brother's abilities, Jiang Fan wouldn't have found an excuse to dismiss him. She was very

clear that Jiang nuo was still holding a grudge in his heart. She had given Jiang nuo this good opportunity, and he would definitely seize it.

The next morning.

Accompanied by Feng Da and the others, Jiang nuo headed to the city Lord's mansion.

When they arrived at the city Lord's mansion, the crowd killed number three and his subordinates with lightning speed. Then, they announced to the public that Jiang nuo was the only member of the Jiang family and would be the next city Lord of Linjiang City. The people in the city were in an uproar. However, due to Feng Da and the others' ruthless methods, no one dared to raise any objections. At the same time, Feng Da showed evidence of number three killing Jiang Fan and the others, which aroused the public's anger. Jiang nuo's Ascension to the city Lord's position was even more successful.

"Miss, it's done." After taking care of everything, Feng Da rushed back to the inn alone.

"Well, there might be people walking into the trap in the next few days. You have to be more vigilant at night." Leng ruoxue nodded as she reminded.

"Don't worry, miss. We've already set up an inescapable net and are just waiting for the fish to take the bait!" Feng Da laughed evilly. For the next few days, they would stay with Jiang nuo in the city Lord's mansion and deal with those who had bad intentions.

However, after waiting for a few days, there was still no movement from the city Lord's mansion. On the other hand, Jiang nuo was getting more and more familiar with the affairs of Linjiang City.

In the room of the inn.

Leng ruoxue leaned against the window and looked at the pitch-black night sky. Lightning flashed and Thunder rumbled in the sky, and it looked like it was about to rain. She couldn't help but smile and turned to the demon, "Today is a good day to do bad things."

"Hehe! This kind of weather can indeed make people lower their guard, but I don't like to do bad things in the rain." The demon said with a look of disdain.

"Even if you don't like it, it doesn't mean that others don't like it. The city Lord's mansion is very lively now, let's go and take a look!" Leng ruoxue laughed evilly. She had just received Qing Jue's voice transmission and knew that there was a 'guest' at the city Lord's mansion.

Chapter 1193: Yuan Xi (2)

?

"Let's go!" The demon smiled helplessly and left the inn with Leng ruoxue. Naturally, those who wished for the world to be in chaos also left with them.

When they arrived at the city Lord's residence, Leng ruoxue saw Feng Da and his Men in Black fighting with a group of men in Black. The number of men in Black was more than twice that of Feng Da and his men.

“Isn’t this bullying the few with numbers? It’s so unfair.” When Leng ruoxue saw this scene, she said with slight dissatisfaction.

“Uh!” When Cheng Wu heard his lady’s words, the corner of his mouth twitched. He thought to himself, ‘why do I feel like this is bullying the many with the few?’ From the looks of Feng Da and the others, they were clearly having a great time killing. No, he had to join in the fun. When he thought of this, he took the initiative to help Leng ruoxue before she could say anything.

Seeing that Cheng Wu had joined the battle, Song di and the rest did not want to be outdone and rushed into the battlefield. In an instant, the situation turned into a one-sided battle. When Feng Da and the rest, who were having fun bullying the many with their numbers, saw this situation, they could not help but shout as if they were protecting their food, “Don’t fight with us, these people are ours.”

“Hehe! Whoever sees it gets a share!” Cheng Wu and the rest laughed evilly. As the blade in their hands fell, the Man in Black instantly fell to the ground and lost his life.

Yan kun and Jiang nuo, who weren’t very clear about their fighting strength, couldn’t help but widen their eyes when they saw this scene. They secretly thought to themselves, “these people are so ruthless!” Ah! How did the unlucky Man in Black end up in their hands? At this moment, they felt a deep sense of sympathy for the group of men in Black who had unknown origins.

Not long after, most of the Men in Black were eliminated. However, Feng Da and the others still kept one alive and locked the remaining Man in Black in the prison of the city Lord’s mansion for a good interrogation.

With the ownership of Linjiang City, the five cities surrounding the nightmare forest were now in Leng ruoxue’s possession. After setting up a defensive formation for Linjiang City, Leng ruoxue and the rest headed towards the forest ...

Sitting on the little Peacock, Leng ruoxue’s beautiful eyes surveyed the three towering peaks. She chose a relatively flat mountain as the main peak for her group.

“Xue ‘er, the environment here is really good, hehe! I’m going to build a house here too. I’ll come over to stay when I’m free.” Master ning looked at the lush green scenery in front of him and was in a good mood.

“Godfather, you can come and live here anytime you want.” Leng ruoxue reminded him helplessly. She couldn’t help but Mutter to herself, “did this old man think that I wouldn’t let him stay here?”

“Hehe! Are you the master? Of course, I have to say hello to you.” Master ning said matter-of-factly. In fact, he was just being polite, because he knew that little Xue ‘er would not refuse him.

“Godfather, I can’t be considered the owner of this place yet!” Leng ruoxue reminded him. To own a territory, it wasn’t something that could be considered as one’s own. One had to obtain the acknowledgment of half of the factions on the godly mainland. Otherwise, the territory wouldn’t truly belong to one’s own.

“If I say it is, then it is. I’ll see who dares to object!” Master ning’s eyes widened, and he roared aggressively. He didn’t believe that anyone would dare to oppose his precious goddaughter’s decision to take a piece of land!

“Uh! Godfather, let’s just build the house first!” Leng ruoxue wiped away the cold sweat on her forehead and changed the topic.

“Alright, but Xue ‘er! I’m telling the truth.” Master ning reminded.

“Yes, yes.” Leng ruoxue agreed helplessly. However, with Godfather around, there wouldn’t be too many people who would object.

“Miss, the wood has been cut.” At this moment, Feng Da came back and said.

“Mm, let’s do it!” Leng ruoxue took out a few blueprints from her bracelet and passed them to Feng Da.

Back in Linjiang City, she had drawn up a few blueprints based on everyone’s opinions. The house they were going to build, the courtyard, and the interior of the house, was similar to the house in the water Margin continent. This request was naturally to satisfy her grandfather’s homesickness, but there were also new things added, so it was not exactly the same.

The location they chose as the main residence was located halfway up the mountain. It was an unusually large and flat area, and the main residence was surrounded by a River. The river was not very large, and from the outside, it looked like a silver ribbon, full of a faint chill. The river was so clear that fish could be seen swimming happily in it.

After more than half a month of hard work, the main residence was finally completed.

Everyone moved into their rooms happily and celebrated.

Shortly after, Leng ruoxue announced to the godly mainland that the nightmare forest was taken. Instantly, it caused a huge commotion on the mainland!

At the same time, Leng ruoxue set up a defensive formation around the mountain peak they were staying at. The defensive power of this formation was much stronger than the one she had set up before.

“Bang Bang Bang!” After a few loud sounds, the defensive formation did not move at all.

Master ning, who was testing the power of the defensive formation, said in surprise, “Xue ‘er, your array is so powerful. I can’t even break it.”

“Godfather, you can’t display your true power on the divine continent.” Leng ruoxue couldn’t help but remind him. Actually, this array didn’t seem that powerful to her. However, it was true that no one in the godly mainland could break through it.

“I’m still a reverent-God! Come, let’s try attacking together.” Unwilling to give up, master ning called his subordinates and planned to attack again.

“Yes!” “Yes, master ning!” Master ning’s subordinates replied. Then they attacked the defensive formation together ...

“Bang Bang Bang!” There were several more loud sounds, but the defensive formation was still operating as usual.

“Hehe! This formation is so sturdy, I can rest assured.” Master ning said with a little pride. This array was set by his goddaughter, and he, as her Godfather, was also honored!

In fact, he had spared no effort to test the defensive power of this array because he was afraid that someone would bully his precious goddaughter when he was not around. Now that he had tested it, he was relieved. If he could not break the array, then unless the Divine Master came personally, no one could break in.

“Little girls, to congratulate you on obtaining your own territory, this is my gift to you.” The first elder took out a small and exquisite house from his ring and passed it to Leng ruoxue.

“Why is it a high-grade divine artifact? stinky old man, you’re too stingy!” Old master ning looked at the palm-sized house and said with disdain.

“What do you know, you old thing! A high-grade divine weapon is just right for them to use. Furthermore, my house can grow. When the little girl’s strength is high, the level of this house will also increase.” The first elder said with a smug look. How could he possibly only gift a high grade divine weapon to that lass, Leng ruoxue? With his status, how could he take it out! He felt that this house was suitable for Leng ruoxue and the rest. To put it bluntly, he had prepared this house for Leng ruoxue when she entered the God World.

This house and the storage ring were both spatial artifacts, but there were still some differences. The storage ring could only store non-living objects, but this house could be used for living. It should be known that such a spatial artifact was absolutely priceless in the divine realm. It was a good item that could not be bought even with money. The main reason was that it could be carried around, and it was very convenient to carry it wherever you went.

However, it was also very difficult to refine such spatial equipment. Not only did it require a lot of materials, but it also depended on the artifact master’s proficiency in the refining technique. Moreover, the success rate was very low.

If Leng ruoxue didn’t have the universal bracelet, this house would be very useful to her. However, she was still very grateful for the first elder’s kind intentions. As a weapon craftsman, she was very clear how difficult it was to craft a spatial type equipment. Furthermore, the first elder had been hiding in his room for the past few days, so he must have been busy crafting this house.

“Really? Let me see.” Master ning took the house from Leng ruoxue’s hands and observed it carefully. It was fine with a glance, because he realized that this house was exactly the same as the main residence they were living in now. It seemed that this old thing was quite thoughtful.

“First elder, thank you. This is for you.” Leng ruoxue took out a milky-white object the size of a baby’s fist and looked soft, and handed it to first elder.

“This, this is ...” The first elder looked at the soft white object and couldn’t help but widen his eyes, his face full of disbelief.

The item that Leng ruoxue gave him was called essence Qi. It was a type of natural treasure that was born from the heavens and earth. It was mainly produced in the glaciers of the deep sea. Not only was it rare, but it was also difficult to pick. Hence, the price of essence Qi was only higher than the house that he had given Leng ruoxue.

Moreover, only with the primary breath could one refine space-type equipment that could accommodate people, because the primary breath's greatest effect was to create air that was suitable for human breathing.

However, the vital breath he had used to refine this house was only the size of a fingernail, while the one Leng ruoxue had given him was the size of a baby's fist. He could not help but feel embarrassed to take it. Even though it was not easy to obtain his own vital breath, such a large piece of it could be used to refine a few spatial-type equipment! He did not deserve it!

"Girl, this is too expensive. I can't take it." Although the first elder was envious, he did not take the piece of origin breath.

"Compared to the great elder's kind intentions, this is nothing." Leng ruoxue replied nonchalantly. This elemental breath was one of the many ingredients that her master had left for her. Furthermore, she had chosen the smallest piece for the Grand Elder. Otherwise, the Grand Elder would have fainted from shock!

"Mo Yan and Liu Feng probably don't have such equipment either! This should be enough for you." Leng ruoxue added. In other words, she was saying that this item was not for you alone.

"Uh! They just happen to be lacking this elemental breath." The first elder was a little speechless. This little girl had already seen through their thoughts, so how could he still refuse? He took the piece of primordial breath and was about to put it into his ring, but master ning snatched it away.

"This is elemental breath? Let me take a look." Master ning's face was full of curiosity. Although he had lived for a long time, he had never seen this thing before. Who asked him to not be interested in refining weapons!

Holding the vital breath in his hand, master ning looked at it carefully, and then kept poking the soft vital breath with his fingers, playing with it.

"Old man, this is not for you to play with." Seeing this, the head elder snatched back the vital breath and looked at master ning like he was guarding against wolves.

"Stinky old man, don't be so stingy! It's such a big piece of primordial Qi, and it's a gift from my goddaughter. When you make another spatial equipment, you have to give me one." Master ning took advantage of the situation.

"This is a gift from my God-granddaughter. It's none of your business." The first elder rolled his eyes and said in an extremely calm manner.

"Stinky old man, how can you do this? After all, we've been friends for so many years. You can't even bear to give me a house? Oh! Just make it according to my house in the divine realm." Master ning continued, obviously wanting a share of the loot.

“It’s not impossible if you want the house, but you have to prepare the materials yourself.” The great elder said without any room for discussion. In his heart, he kept thinking, if this Bandit had the materials, he would have made one for himself long ago. Would he still need to live in a tent?

“I can provide the materials myself, but you have to provide the essence energy.” Master ning wasn’t stupid. The most important material for making inhabitable spatial equipment was this vital breath, and vital breath was something that was hard to find and couldn’t be bought on the market at all. Therefore, he could only be lazy to deal with this stingy stinky old man.

“Elemental breath? Master ning, if you want this old man to provide the breath, why don’t you arrange people to search in the glacier yourself?” At this time, Liu Feng’s voice interrupted.

“Stinky brat, it’s easy for you to say, but do you think primary breath is like cabbages? If it was so easy to find, I would have sent people to look for it.” It wasn’t easy to go to the glacier to find the breath of vitality, because the breath of vitality was produced in the depths of the glacier. Unless one had the strength of a reverent-God, they couldn’t resist the cold of the glacier at all, let alone go down into the extremely cold water.

“Then why did you still let this stinky old man provide you with essence breath?” He knew that his grandfather did have a small piece of vital breath in his hands. It was a precious treasure. If it wasn’t for the fact that his grandfather didn’t have enough materials, he would have refined it into a piece of equipment long ago. How could it be coveted by others?

“Little Xue ‘er gave him a piece the size of a baby’s fist. It’s enough to share with me.” Master ning said matter-of-factly.

“What?” Liu Feng’s eyes widened as he looked at master ning. A piece the size of a baby’s fist, was that even possible?

Chapter 1195: Yuan Xi (4)

Not only him! Even Mo Yan and Liuyue! Who had come with him, were stunned. They all looked at master ning in disbelief. They were suspicious of the truth of master ning’s words.

“Why are you all looking at me? I don’t have any elemental breath in my hands. The elemental breath has been kept by this stinky old man. You guys can go and ask him for it.” Master ning said with an evil smile.

“Grandpa?” Liu Feng called out softly.

“Master!” Mo Yan also called out.

Although Liuyue did not shout, she looked at first elder with anticipation.

“Mm, the girl did give me a piece of primordial breath.” The first elder didn’t deny it, but he still glared at master ning in secret.

“The girl said that she’s going to help us refine some living equipment.” The great elder added.

“For us?” Liu Feng was pleasantly surprised. This little fox still had some conscience! However, since it was for them, they couldn’t let master ning keep an eye on it.

Thinking of this, Liu Feng smiled and said to master ning, ""Uncle ning, looks like you don't have a share of the essence breath, I'm really sorry!"

"Who said I didn't? my goddaughter gave it to you." Master ning reminded them, unwilling to give up. They couldn't even think about getting rid of him!

"Uh! Grandfather, is that essence Qi really the size of a baby's fist?" Liu Feng asked helplessly. It seemed that old man ning was too lazy to give it to them, and he was the little fox's Godfather, so he really couldn't refuse.

"Yes." The great elder nodded, then stared at master ning and said, ""Old man ning, I've said it before, you have to prepare the materials yourself. I can provide the origin Energy."

"No problem!" Seeing that his goal had been achieved, master ning also laughed happily. However, the first elder, who had been robbed, was not in a good mood.

Leng ruoxue looked at the two adorable old men fighting and could not help but smile helplessly at the demon. She then took the room back to her room to study it.

In the bracelet.

The demon watched as Xue 'er took the small house and looked it up and down, then dripped her blood on it to recognize it as her master, and placed the room on an empty space in the space.

In an instant, the house grew from small to large, exactly the same as the main residence they had built.

As Leng ruoxue and the demon walked into the house, the beasts that were attracted followed them closely out of curiosity.

They looked around the rooms one by one and then sat down in the garden.

"Xue 'er, the spiritual Qi here is not dense enough, but it's enough for living." The demon said with some regret.

"Demon, your requirements are too high. Actually, this house is not bad. If you want more spirit Qi, you can set up a spirit gathering array inside." Leng ruoxue said helplessly.

"Yes, that's a good idea. With this room, we won't need to live in tents when we travel around the continent. Moreover, we can also live in this room when there are outsiders." The demon smiled. Although this house couldn't be compared to Xue 'er's interspace, it wasn't as convenient for them to enter the interspace when there were outsiders around. Therefore, this house was a good choice.

"Sister, Feng Da is looking for you." Just as the two of them were chatting, Qing Jue suddenly appeared.

"Oh!" Leng ruoxue had an idea and left the bracelet with the evildoer. Feng Da was waiting for her in the room.

"What's the matter?" Leng ruoxue asked in confusion. The area of the nightmare forest was rather large, so she had sent Feng Da and the rest out for the past few days. Other than investigating the situation inside the forest, she had also done so to confirm their private territory. After all, if they were to completely occupy a place where they could train, it would only lead to a collective attack from all the

major factions. She did not want to be in the limelight now, so she decided to open up a piece of land. It was open to the public, but it had to be under her control.

The reason why she had such an idea was also based on the rules of the Green Dragon Mountain.

“Miss, I’ve received news from city Lord Yan. The number of people entering the city has increased several times over the past few days. I’m guessing they’re from the major forces.” Feng Da reported that no one knew that the five cities, including Yan Bei, belonged to them. That was why they could easily grasp the movements of those forces.

“That’s normal. It would be strange if they didn’t come!” Leng ruoxue laughed evilly. These factions had arrived at the right time. She was just about to kill the chicken to warn the monkeys! Otherwise, she would not have asked her Godfather to disclose their relationship. Otherwise, if master ning had said that his goddaughter had taken a fancy to the nightmare forest, who would dare to object?

Chapter 1196: Gifts for the major factions (1)

“Hehe! This time, we’ll let them know how powerful we are.” Feng Da said with a smirk.

“Yes, Feng Da. Go and prepare yourself. We’re going to welcome our guests.” Leng ruoxue chuckled.

“Alright! Miss, I’m going out.” After Feng Da finished speaking, he turned around and left.

Two days later.

All the major forces in the nightmare forest had gathered. Not only that, but the Wen family, Fan family, Yao family, Cheng family, ning family, and Chi family from the eight God domains had all sent people here. The other forces also seemed to see them as the leaders.

The various forces gathered in groups of three to five. There were also those who hated each other and opposed each other at first sight, such as the Wen family and the fan family. The arrival of the ascender Alliance seemed to have raised this disharmonious atmosphere to a new height.

After they set up their tents in the encampment chosen by the various forces, the familiar forces began to chat with each other.

The purpose of their conversation was nothing more than how to deal with this matter. After all, the nightmare forest originally had no owner, and anyone could come as they pleased. Now that it was occupied, how could they accept it? It was like something that didn’t cost any money suddenly belonged to someone else. Even if one didn’t want it, one would feel extremely unbalanced. It was because of this imbalance that they came here together.

Chi Rui was the head of the Chi family’s representative in the nightmare forest. However, he was not here to condemn anyone, but to congratulate them. Naturally, the ning family had the same intention as him.

Ning Fei came in person. Except for the first elder who stayed in the main house, almost all the other elders of the ning family came. They came here to congratulate and also to meet the ancestor of the ning family.

However, they didn't head straight for Leng ruoxue and the others' residence. Instead, like the other major factions, they set up a simple camp in the forest.

The Chi family and the ning family's bases were next to each other, so the people of the two families were now gathered together and chatting.

"Why did master ning come in person?" Chi Rui looked at ning Fei in confusion. He more or less knew about the ning family's situation, and he was also clear that Leng ruoxue had something to do with the blood Reformation of the ning family. Could it be that ning Fei came here personally because of this?

"My family's old ancestor is here, of course I'm here." Ning Fei said nervously. He was afraid of his serious ancestor, but he wanted to be treated differently by his ancestor. Therefore, he was very conflicted.

"Master ning hasn't left the godly mainland yet?" Chi Rui said in surprise. When master ning had sent people to take ning Rong'er and the others away, the Chi family had thought that master ning had already returned to the divine world!

"No, he's always been with miss Leng! I'm afraid that miss Leng's decision to make the 'nightmare forest' her territory has caused public anger." Ning Fei said worriedly. However, with the great ancestor's support, those forces would not dare to make things difficult for Leng ruoxue.

"Leng ruoxue wouldn't be afraid!" Although he had not spent much time with Leng ruoxue and the others, he was well aware of their fearless nature. Some of the forces that came today would probably not be able to return.

"Yup! There's nothing to be afraid of about miss Leng. Old Grand Madame will definitely support her." Ning Fei said. He thought that Chi Rui said that Leng ruoxue wouldn't be afraid because of their ancestor, so he couldn't help but agree.

"Uh! Master ning, you've misunderstood. Even without your ning family's old ancestor, Leng ruoxue and the others won't be afraid." Chi Rui explained.

"That's true. If miss Leng was a timid person, my family's old ancestor would not have accepted her as his goddaughter." Ning Fei sighed. How good would it be if he could make the old ancestor see him in a different light! Unfortunately, the thought of meeting the ancestor made him extremely nervous.

"Goddaughter? When did this happen?" Chi Rui's eyes widened in disbelief. The ning family's elder, who was not easy to get along with, had actually taken Leng ruoxue in as his goddaughter. They had not heard of this at all back in Chi city!

"I don't know," Ning Fei was also confused. He didn't dare to inquire about this matter. Otherwise, the old ancestor would definitely eat him.

As the two of them were chatting, they suddenly heard a few loud sounds. They looked up at the same time and saw a few people fighting not far away.

From the clothes of the people in the chaotic battle, they should be from the Wen and fan families.

Seeing this, Chi Rui and ning Fei didn't think much of it, because they knew very well that these two families had never liked each other. Sometimes, they might maintain a friendly relationship on the surface, but in private, they often fought.

But this time, they actually started fighting in front of so many forces. It must be a big deal, Chi Rui and ning Fei secretly guessed at the same time.

Very quickly, the people who were in conflict were pulled apart by the people from their respective families. However, those people still glared at each other.

"Who allowed you to fight without permission?" The sixth elder of the Wen family who was leading the group glared at his own junior with a face full of anger. Damn it, they actually fought in public. The Wen family had lost all face.

"Sixth elder, the fan family has gone too far. They've actually stolen our prey." A young man from the Wen family said indignantly.

"Who stole your prey? we were the ones who got it first." The man from the Wen family had just finished speaking when someone from the fan family immediately retorted.

"We saw it first," The man from the Wen family shouted.

"Who can you blame if you didn't see it! Don't you know the rules? Of course, it belongs to whoever hits it." A member of the fan family said with a proud expression.

"Sixth elder, the fan family has gone too far. Don't stop us. We must teach them a good lesson!" The Wen family was enraged by the fan family's provocation.

"Have you all forgotten why we came to the forest? I didn't bring you here to cause trouble, so you'd better behave." The sixth elder roared in anger. In the face of his might, the Wen family did not dare to speak.

At this time, the elder leading the fan family team also said with a smile,"Hehe, as one of the eight great divine regions, we should help each other and fight against a common enemy. How can we fight among ourselves first?"

Chapter 1197: Gifts for the major factions (2)

?

"Yup! We can't use internal coaxing!" Someone immediately echoed.

Their purpose for coming here was naturally to discuss Leng ruoxue's matter of marking the 'nightmare forest' as her territory. There was a tacit understanding between the various factions. This time, they had to use pressure to chase Leng ruoxue and her group out of the forest.

This forest belonged to everyone on the godly mainland. How could it become a private territory? It must be known that their respective families would send people here almost every year to gain experience and obtain a lot of resources from the forest. Therefore, none of them were willing to let this natural treasure house become the territory of any one force. This was a serious violation of the interests between them, and it was not allowed by the major forces.

With the help of the elder of Fan family and the agreement of the others, the people who were in conflict with the two families had to calm down. Although they were all unwilling, no one dared to doubt the words of their elder.

However, what they did not know was that their every move in the forest was within Leng ruoxue's grasp.

In the living room of the Leng family's main residence.

Leng ruoxue sat on a chair and chuckled as she explained what had happened in the forest to the crowd. Instantly, the crowd burst into laughter.

"Miss, they're clearly here to cause trouble for us. However, they're coaxing us before they even see us. It's really too funny." Feng Da said with a smirk. He had prepared some gifts for those forces in the forest, but he didn't know if they could take it. He didn't want to die before he even saw them! He would be very disappointed.

"Those forces are all gathered together because they have a common interest. Of course, their hearts are not United. However, this is more beneficial to us." Leng ruoxue laughed evilly.

This time, she intended to kill the chicken to warn the monkeys. However, she had to choose the chicken carefully. It couldn't be someone from the eight great divine regions. After all, she didn't want to have too big of a conflict with the eight great divine regions yet. Moreover, the other party's power couldn't be too small. Otherwise, it wouldn't be enough to serve as a warning to the monkeys. Who should she choose? Leng ruoxue was conflicted.

Leng ruoxue was in a dilemma. However, the various factions in the forest had also received their first gift from Feng Da.

The various forces 'forest encampments.

It was time to prepare dinner, and some forces had already started to eat.

Suddenly, a buzzing sound entered everyone's ears.

"What's that sound?" Everyone raised their heads in unison and couldn't help but ask each other. However, no one could give them an answer.

"Master ning, do you recognize this voice?" Chi Rui asked ning Fei in a low voice. There were naturally many poisonous insects in the forest, but the sound was like that of bees, so he was not sure.

"It should be a bee type!" Master ning said hesitantly. In fact, it was normal for bees to appear in the forest, but the sound was still far away. However, the 'buzzing' sound reached their ears, so it could be imagined how many bees there were.

"I think we should make early preparations!" Chi Rui reminded.

"Yes." Ning Fei nodded, and then he gave the elders a look, and they immediately became alert.

Not long after, the buzzing sound got closer and closer, and everyone's hearts were on tenterhooks.

In the blink of an eye, everyone saw a dark cloud in the sky flying towards them ...

“Heavens! They’re poisonous bees, and there are so many of them!” All the major powers were dumbfounded when they saw the tens of thousands of poisonous black bees.

Although they had a lot of people, no one was confident that they would not be hurt by these poisonous bees. Moreover, there was more than one type of poisonous bee, and even the most powerful black Queen Bee was among them. The timid ones were already trembling in fear.

“Quickly eat the antidote pill!” At this time, someone shouted.

When everyone heard this, they quickly took out an antidote pill from their storage rings and quickly stuffed it into their mouths. Although they didn’t know if this antidote pill would be effective against the poisonous bees, it was better than nothing.

As for the poisonous bees nearby, after seeing their actions, they didn’t immediately attack, and even gave them enough time to eat the detoxification pills. However, everyone was a little too nervous, so no one noticed the abnormal behavior of the bees.

After they finished eating the antidote, the swarm of bees officially began their attack ...

In an instant, everyone present was surrounded by the swarm of bees. There were at least a thousand poisonous bees around each person, and those who had never seen such a scene before immediately fainted from fear. Even so, the swarm of bees did not let them go. After the thousands of poisonous bees stung them, they flapped their wings and flew away with a look of disgust.

The Chi clan and ning clan members were treated differently by the swarm of bees. Although they were surrounded by many poisonous bees, these bees did not take the initiative to attack them, but instead stared at each other. Even so, the Chi clan and ning clan members were extremely nervous and looked at the swarm of bees surrounding them with vigilance.

“Master ning, did the bees attack you?” Chi Rui, who felt that something was wrong, couldn’t help but transmit his voice.

“No, they didn’t attack you?” Ning Fei couldn’t help but ask. He couldn’t help but wonder, “what the hell do these bees mean?” They surrounded him but didn’t attack him. Could it be that they wanted to have a mental battle? However, the situation in front of him was indeed quite frightening. Since the bees were not attacking, he did not dare to act rashly. He did not want to anger the bees and the consequences would be more serious.

At the same time, ning Fei sent a message to his elders to ask about their current situation. The answer he got was that the bees didn’t attack, which made him confused. But he didn’t forget to remind the elders that if the bees didn’t attack, they shouldn’t attack first, or it would be bad if more bees were attracted.

The bee colony glared at them for a while before flapping its wings and flying away.

“Uh! Master, what’s going on?” The ning family’s elder was so puzzled that he was about to frown.

“I don’t know,” Ning Fei was also confused. Could it be said that they had good character?

“Master ning, let’s not think about this for now. Let’s think about how we’ll explain it when others ask!” Chi Rui reminded. So many people had been stung by the poisonous bees, and they were the only ones safe and sound. It would definitely arouse suspicion.

Chapter 1198: Gifts for the major factions (3)

“What’s there to explain? we have a good character. Others can’t be envious of us.” Ning Fei said disapprovingly, Humph! He wanted to see who would dare to question him!

“Master is right, we have a good character.” As soon as ning Fei finished his words, some elders immediately agreed, and the other elders also nodded in agreement.

“Uh!” Looking at the proud faces of the ning family, Chi Rui couldn’t help but feel a few black lines slide down his forehead, and couldn’t help sighing. This ning family, from master to elder, was a little too narcissistic! This has nothing to do with character, okay? However, since the ning family felt that it was because of his good character, then they would use this reason for the time being! As for whether others believed it or not, it was none of their business.

After the bees finished their sting, they flew away as if they had completed their mission ...

Apart from the ning clan and Chi clan, the rest of the people present were all covered in wounds and were in a terrible state. Their faces were covered in countless red spots of different sizes, and many of them had even fainted because their cultivation was low, unable to resist the corrosion of the poison.

“Why are you all fine?” The elder of the Yao family couldn’t help but roar in anger when he saw ning Fei, Chi Rui, and the others were perfectly fine. This was really infuriating. They had all been stung beyond recognition, but the people of the ning family and Chi family were fine. How could he not be envious and jealous?

Ning Fei and Chi Rui looked at each other, sharing the same thought. The troublemaker had indeed come!

However, the two of them were prepared and said in unison, “We have good character. You can’t be envious of our character.”

As soon as the two finished speaking, not only was the Yao family elder angry, but almost all the major forces were angry. In an instant, the people who had been stung less by the poisonous bees all gathered in front of the ning family and Chi family’s encampment and stared at them with unfriendly expressions.

“Hmph! Do you think we will believe your nonsense? Those poisonous bees must be related to you. Otherwise,? er, no matter what their reactions were, the swarm of bees did not intend to let them go. After stinging them again, the swarm of bees swaggered away.

“The bees are definitely with you.” The Yao family’s fifth elder, who had been stung all over his head and body, hatefully said.

“Elder Yao Wu, even though we sympathize with you, you can’t wrong us like this!” Chi Rui said with an aggrieved expression. This time, the bees left and returned, and the one who was stung the most was the fifth elder of the Yao family. However, he did not sympathize with him at all. Instead, he was gloating. It would be good if the sting was more vicious.

“That’s right! Elder Yao Wu, are you sure you want to blame your misfortune on us?” Ning Fei asked with a smile.

Chapter 1199: Gifts for the major factions (4)

“I ...” The Yao family’s fifth elder was taken aback by their question. In truth, he didn’t really want to blame it on them. It was just that he felt unbalanced when he saw that the people from both families were unscathed.

“Everyone, I hope that all of you can make your own judgments and not be affected by others. Also, don’t forget that we have always been with you. How can we collude with the bees? besides, have you ever heard of anyone who can control bees?” Chi Rui rolled his eyes at the fifth elder and said to the others.

“Yup! This is simply impossible. The fifth elder of the Yao family must have gone mad with anxiety.” Someone heard Chi Rui’s words and quickly tried to smooth things over.

“Your injuries are not light, and it’s already night time, when the poisonous insects in the forest are the most active. So, everyone, quickly heal your injuries!” Chi Rui kindly reminded again. As for whether or not people would not appreciate it, that was not within his scope of consideration.

After hearing Chi Rui’s words, everyone became anxious. They couldn’t be bothered to watch the show anymore and quickly took out their best antidotes and ate them.

However, their antidotes couldn’t completely remove the poison from the wasps. Everyone’s face was still red and swollen, but it wasn’t a big deal.

After spending the night in fear, the swarm of bees that they were so afraid of did not bother them anymore.

The next day.

The various major forces could not wait any longer and began to search for Leng ruoxue and the others.

They had come here with the intention of launching a surprise attack to catch Leng ruoxue and the others off guard. However, they did not know the exact location of Leng ruoxue and the others. Hence, they could only wander around the forest like headless flies.

However, after searching for a day, they did not find anything. Hence, they could only return to the encampment.

After dinner, everyone went to bed early.

Midnight.

.....

The people who were not sleeping well were woken up by the rustling sound.

However, when they opened their eyes, they almost fainted from fear because they were surrounded by giant spiders. Each of them was the size of a millstone, and their lantern-like eyes were staring at them. They clearly saw them as prey.

“Ah!” The screeches reverberated in the forest. These spiders were more disgusting than the poisonous bees, and they were more terrifying.

When the Chi family and the ning family heard the scream, they quickly came out of their tents. The people from the two families looked at each other, curious about what those people had encountered.

“What happened?” Chi Rui quickly asked when he saw someone running out of the tent.

“Spider! A giant spider! Help me!” When that person saw the Chi family and ning family, he ran towards them, and there were several large spiders chasing after him.

Chi Rui, ning Fei, and the others were a little unhappy when they saw that the man had actually led the spiders to their side. However, they were still prepared to fight. Who knew that those big spiders actually ignored their existence and only chased after their target. They didn’t even look at Chi Rui and the others. Seeing this, Chi Rui and the others had no choice but to let down their guard.

It wasn’t that they didn’t want to save him! It was the spiders that ignored them, Chi Rui and the others couldn’t help but think.

However, the things that had happened in the past two days had been too strange. Whether it was the poisonous bees or the poisonous spiders, they had all turned a blind eye to them, which made them suspicious.

However, at this moment, they did not link the strange incident that they had encountered to Leng ruoxue. This was indeed not Leng ruoxue’s fault.

In the bracelet.

Leng ruoxue and the others, who had a panoramic view of everything through the light screen, all laughed out loud.

“Hahaha! What an unlucky fellow! Let’s see if they still dare to be smug now!” Feng Da said with a gloating expression. He was extremely satisfied with the gifts he had prepared for them.

“I wonder how many of their forces will dare to wander around in this forest after tonight. I’ll wait and see!” Lin Yuan also said.

“You little guys are really too bad. You can’t even play with people like this!” Although Leng Qingtian’s mouth was filled with disapproval, his expression was one of joy. In truth, he wished that these people would stay in the forest forever. However, he could not say this out loud. Otherwise, Feng Da and the others would be too proud.

“We were wrong. We should have just let them die.” Feng Da and Lin Yuan immediately admitted their mistakes.

Chapter 1200: Tragic forces (1)

“It’s not a bad idea to just let them die.” Leng ruoxue nodded.

“Uh! I’ll make the arrangements immediately.” Feng Da was very anxious.

Leng ruoxue nodded and immediately placed Feng Da into the bracelet.

In fact, Feng Da and Lin Yuan’s words had reminded her. She had wanted to kill the chicken to warn the monkeys, but she had not chosen a suitable organization as a target to warn the monkeys. If the various large organizations suffered countless deaths and injuries before meeting them, it would attract even more people and make them understand the danger of nightmare forest. Hence, Leng ruoxue had decided to change her strategy.

At this time, the various major forces in the forest were still unaware of the kind of danger they were facing. If the previous fight was just a small fight to scare them, then what they were about to face was the threat of death.

The appearance of the giant spider made the people of the various forces who were already on tenterhooks even more frightened. Some people even thought of leaving the forest because this place was simply too terrifying.

Actually, it wasn’t like they had never been here before. It was just that they had never felt so dangerous before, and they hadn’t been able to sleep well for the past two nights.

After the giant spider retreated, everyone sat on the ground dejectedly. Some people’s faces were still pale, while others were still trembling. They all looked listless and their clothes were in tatters.

“What do you two have to say now?” The fifth elder’s face was livid. He looked at Chi Rui and Ning Fei, who were safe and sound, and shouted angrily.

“Elder Yao Wu, are you trying to say that we are in cahoots with those giant spiders?” Chi Rui joked in a good mood.

“Isn’t it? Everyone can clearly see why those spiders are only chasing us and not you. Isn’t that enough to explain the problem?” The fifth elder of the Yao family roared loudly. His words were meant for everyone to hear clearly that this matter was not as simple as it seemed.

“Elder Yao Wu, I’m sorry! You’ll have to ask those giant spiders about this. We really don’t know them.” Chi Rui said with a smile. However, his smiling face was an eyesore to the fifth elder of the Yao family!

“Did you guys hear that? He’s clearly trying to shirk his responsibility.” The fifth elder of the Yao family had learned his lesson this time and directly asked the people behind him. However, everyone was currently in a very low mood. No one was interested in accompanying him to cause trouble for the Ning and Chi families, so his words did not receive any response.

.....

“I’m asking you a question. Are you all deaf?” Seeing this, the fifth elder couldn’t help but roar. F * ck, these cowards are really driving him to his grave. Can’t someone echo his words? Thinking of this, he couldn’t help but glare at his own clansmen. However, the people of the Yao family all lowered their heads, no one dared to look at him. Seeing this situation, the fifth elder was even angrier.

“Fifth elder of the Yao family, now is not the time to talk about this. Let’s think about what we should do! If this continues, I’m afraid we’ll be dead before we can even find Leng ruoxue and the rest.” At this

moment, the elder leading the Cheng family's group spoke up. His face even had a trace of dissatisfaction towards the fifth elder of the Yao family. This old thing actually said that they were all deaf, which was preposterous. In fact, they just didn't want to cooperate. After all, they didn't want to offend the Ning and Chi families. More importantly, the Yao family's relationship with people had never been good, so they naturally didn't need to be on the same side as the fifth elder.

"The Cheng clan's first elder is right. Now isn't the time for internal strife. We should think about how to face the upcoming crisis! I have a feeling that things won't be so simple, so we must take early precautions." Ning Fei agreed with the first elder of the Cheng family and chuckled. He said that because he wanted everyone to understand that they were on the same side and had the same goal.

"Hmph! Those poisonous bees and spiders won't bite you, so what are you afraid of?" The fifth elder of the Yao family said unhappily after hearing what Ning Fei said.

"Elder Yao Wu, you really don't know what's good for you! Of course I'm not afraid, I'm thinking for you guys! It's fine if you don't appreciate it, but don't influence other people's thoughts!" Ning Fei warned, and his words were clearly meant for the others.

Sure enough, after hearing Ning Fei's words, everyone present glared at the fifth elder of the Yao family with a bit of hostility. He was so angry that he almost vomited blood. He said that those poisonous bees and spiders were with the Nings and the Chis, and no one was cooperating with him. Now, with just a few words from Ning Fei, they all changed sides. What the hell was this?

And the reason why he believed that everyone had switched sides was because he had never thought that they were not related to him in any way, nor did they have any deep friendship with the Yao clan, so why would they cooperate with him?

"Everyone, let's first discuss our countermeasures! Otherwise, if there are more poisonous bees or giant poisonous spiders, I don't think anyone can stand it!" Ning Fei was very satisfied with the effect he had caused and smiled.

"Um ... Can we back out now? Whoever wants to occupy this forest can do so! We don't want to stay here any longer." The leader of a small force was the first to speak. His face was unusually careful, afraid of offending the others.

However, at this moment, there was more than one family that had the same idea as him. Although they were all small forces, they were still a significant force when added together. However, other than one family, the other forces were all watching.

"What did you just say? I dare you to say that again!" The Yao family's fifth elder glared at the person who spoke and fiercely said.

"Elder Yao Wu, be gentler! Don't scare her." Ning Fei said with a smile.

"We ... We want to withdraw. We won't participate in this matter anymore." That person repeated in a low voice. They were only a small force and their strength was low. Therefore, even if this forest was not occupied by others, the benefits they could obtain from it would be limited. Thus, he felt that there was no need for them to lose their lives here. Woo ... This place was really too dangerous.

“No! If any of you dare to back out, I’ll kill you right now!” The fifth elder of the Yao family refused, and the veins on his aged face bulged.

“Elder Yao Wu, since they want to withdraw, why force them? This is a matter of mutual consent, so don’t think that just because you’re a member of the Yao family, you can look down on those small forces!” Chi Rui fanned the flames at the side, and his words resonated with some forces that wanted to withdraw.
