

Crazy Wife 1361

Chapter 1361: Cold frost pill (2)

“Hehe! Young miss, you’ve found the right person by handing that Yan Ling ‘er to me. Our White Tiger clan has many ways to deal with prisoners! I will definitely make her regret being born into this world!” Bai Xu promised with an evil smile.

“Since you’re so confident, I’ll wait and see.” Leng ruoxue nodded. She had heard that The White Tiger race had many ways to torture their enemies, which was why she had handed him over to Bai Xu.

“Mm, leave it to me. Don’t worry! That’s right, miss! Do you want her to die, live, or be half-dead?” Bai Xu could not help but ask.

“Of course, we’ll let her live first, then half-dead, and finally make her wish she was dead! When the punishment is enough, you can deal with it directly.” Leng ruoxue chuckled.

“Uh! Miss! Your requirements are so high!” Bai Xu’s forehead was full of black lines. He finally understood that he could offend anyone but women. No wonder people often said that women’s hearts were the most vicious! It seemed that the eyes of the masses were sharp.

“What’s wrong? Is there any difficulty? If you can’t do it, then I’ll let Xueying do it!” Leng ruoxue laughed evilly.

“Xue ‘er, leave it to me! I’ll definitely make that woman regret ever being born in this world.” Xue Ying immediately promised upon hearing Leng ruoxue’s words.

“Miss! I can do it well!” Bai Xu quickly said when he heard that someone was snatching his job.

“Then you can come at me together!” After Leng ruoxue finished speaking, she stood up and left the garden with the evildoer.

At the same time, after the Yan clan’s second master understood the situation from the guards by his eldest brother’s side, he immediately sent Yan Ling ‘er to the side courtyard and handed her over to Zi Yu and the others.

He was furious! A maidservant? Which part of her looked like a maidservant? He really doubted his big brother and niece’s judgment. Now, it was all good. Because of their arrogance, they had brought big trouble to the Yan family.

After handing over Yan Ling ‘er, he ran to the main courtyard to greet his father and repeated the situation reported by the guards to his father. After the Yan family head heard it, he did not say anything. He just sighed and closed his eyes to rest.

When second master Yan saw this, he immediately turned around and left his father’s room to avoid disturbing his father’s rest.

.....

In the next few days, Yan Ling 'er's painful cries would often be heard from the guest courtyard, scaring the other people of the Yan clan. Everyone was in a panic, afraid that they would be the next one.

Yin Xiao, Leng ruoxue, and the others sat in the garden and chatted. They drank tea while listening to the painful howls coming from the room. Yin Xiao's forehead was filled with black lines. He couldn't help but ask, "Xue 'er, why don't you borrow the Yan family's prison cell? don't you think her screams are too noisy?"

"There's nothing we can do about it if you find it noisy! We're dealing with the Yan family's young lady. If we borrow their prison cells, wouldn't that be a little too much?" Leng ruoxue said in an understanding manner.

"Uh! But, her voice is too loud!" Yi Xiao said speechlessly.

"Yue Qing, get Xue Ying and Bai Xian to block her mouth. Big brother Yin can't stand her voice." After Leng ruoxue heard Yin Xiao's words, she immediately instructed Yue Jing, who was beside her.

"Yes." Yue Qing held back her laughter, turned around, and left.

Leng ruoxue's words made Yin Xiao's expression darken even more. He couldn't help but think to himself, 'I can't stand hearing this, but you guys are used to it?'

As if she knew what Yin Xiao was thinking, Leng ruoxue looked at Yin Xiao's expression and smiled, "Big brother Yin, if you stay here for a few days, you'll get used to it like us."

"Uh! I'd better not get used to it. " Yin Xiao was helpless. It seemed like Xue 'er and the others enjoyed this kind of life, but he didn't! He couldn't stand a woman yelling all day long. It would affect his rest!

"Hahaha! I am very sincere in inviting older brother Yin to stay with us. " Leng ruoxue laughed evilly.

"Xue 'er, please spare me! I still want to live for a few more years!" Yin Xiao fearfully said.

"Older brother Yin, you are a man. How can you be so timid!" Leng ruoxue said, pretending to disagree.

"Xue 'er, please let me go! However, I want to know how long you want to torture her?" Yin Xiao asked curiously.

"It depends on Xueying and Bai Xu's mood! I've already handed that woman over to them. " Leng ruoxue said irresponsibly.

"When do you plan to get the Yan clan's compensation?" Yin Xiao asked again.

"I should be waiting for a few days! Big brother Yin, do you want to make a profit from the Hong family's matter this time?" Leng ruoxue asked with a smile.

"Uh! You want to Rob the Hong family too? I thought that you would want the head of the Hong family to die. After all, he has always wanted to take advantage of you. " Yin Xiao reminded.

"I don't care about the Hong clan at all. Besides, the head of the Hong clan is in the hands of the Yan clan now. The Yan clan will not be willing to hand him over to me, nor will they kill him. The Yan clan is also hoping to use the head of the Hong clan to get some benefits!" If she wanted Yan Ling 'er and compensation, the other party would definitely give it to her. However, if she wanted the head of the

Hong family, the Yan family would definitely not agree to it. Thus, she naturally would not ask for it. However, this did not prevent her from getting some compensation from the Hong family. After all, the father and daughter of the Hong family had schemed against her many times!

“That makes sense. But, how can we profit from the Hong family?” Yin Xiao’s face was puzzled.

“While the Yan clan wants the benefits, they should also bring out our share!” Leng ruoxue replied matter-of-factly.

“Uh! Will the Yan clan agree?” Yin Xiao’s face was filled with question marks.

“If he doesn’t agree, then just reveal your identity. If the Hong family head wants to kill us, the Yan family will be waiting to see the Hong family make a fool of themselves! Why would I not agree?” Leng ruoxue laughed evilly.

“This ... It’s not too good to reveal my identity, right? People will say that I’m taking advantage of my power to bully others. ” Yin Xiao was a little hesitant. He didn’t mind getting some compensation from the Hong family, but if he had to reveal his identity as the yin family’s young master to get the compensation, he was a little hesitant.

Leng ruoxue couldn’t help but laugh when she saw Yin Xiao’s serious expression.”Hahaha! Big brother Yin, I was just joking with you! You took it seriously!”

“Xue ‘er! You bad girl, you even played me!” When Yin Xiao heard Leng ruoxue’s words, he didn’t know whether to laugh or cry.

Chapter 1362: Cold frost pill (3)

“Big brother Yin, I’m not playing with you! I meant it when I said I would get some compensation from the Hong family, but! You naturally don’t need to reveal your identity!” Leng ruoxue said seriously.

“Will the Yan clan do as we say?” Yin Xiao asked curiously.

“They can’t wait to see the Hong family become a joke! Furthermore, the great elder of the Hong family is said to be very powerful. No one in the Yan family can deal with him. However, that great elder should not be difficult to deal with for brother Yin!” Leng ruoxue reminded.

“You mean, you want me to help the Yan clan deal with the Hong clan’s first elder?” Yin Xiao asked.

“Of course not. The Yan clan and the Hong clan have suffered heavy losses in this battle. Naturally, they wouldn’t wish for any conflict between the two clans in the short term. What I mean is that we should let them know our strength appropriately. Only then will the Yan clan be willing to seek justice from the Hong clan on our behalf.” Leng ruoxue explained.

“Mm, your idea is not bad. However, we have to find a suitable time to show off our strength. Otherwise, why would the Yan clan value us!” Yin Xiao said.

“Hehe! As long as brother Yin is mentally prepared for this, it’s fine. Furthermore, there’s no need to find an opportunity. The Yan clan will give us this opportunity. In a moment, I’ll send someone to inform

the Yan clan of this matter. At that time, we'll just act according to the Yan clan's reaction." Leng ruoxue chuckled.

"Good! I'll listen to your arrangements." Yin Xiao nodded.

"Big brother Yin, if the yin family heard what you said, would they come and scold me?" Leng ruoxue asked curiously.

"They dare! If anyone dares to come and scold you! I'll ruthlessly take care of them!" Yin Xiao shouted.

"Hahaha! Big brother Yi is so bold!" Leng ruoxue smiled as she finished speaking. She then instructed Yue Qing to inform the Yan clan's great elder about this matter while she continued to chat with Yin Xiao.

Not long after, Yue Qing returned.

"Moon eye! What's wrong? Things aren't going well?" Leng ruoxue saw that Yue Qing's expression wasn't too good and couldn't help but ask curiously.

.....

"Miss! I found the Yan clan's first elder and told him about this matter, but who knew that he would actually say that he wanted to discuss it with the clan head and the other elders! This is really infuriating!" Yue Qing said unhappily.

"It's normal! This is within my expectations!" Leng ruoxue said disapprovingly.

"Miss! You're not angry?" Yue Qing asked in disbelief. Miss's reaction was so calm! One had to know that when she heard the Yan clan's first elder's reply, her lungs were about to explode from anger!

"If I'm angry because of this, I'd be dead already! Moon eye! Calm down! Our request is a little beyond their expectations, so it's normal for them to need to discuss it!" Leng ruoxue smiled as she consoled him.

"Miss! I suggest that we continue to increase the compensation to the Yan clan! Hmph! I don't believe that the Yan family won't be so heartbroken that they'll vomit blood!" Yue Qing said furiously.

"Moon eye! If that's the case, the Yan clan won't be treating us with courtesy anymore!" Leng ruoxue said with a smile. The Yan family had already expected them to demand an exorbitant price, so they were already prepared for it. Although the list she had given would cause the Yan family to feel some heartache, it wasn't to the extent that the Yan family couldn't bear it. However, if it was as Yue Qing had said and they continued to increase the compensation, the Yan family would definitely be unable to accept it and retaliate. If that happened, the harmonious scene that she had created would be completely destroyed!

This was not what she wanted. Basically, she was quite satisfied with the Yan family's current performance. At least the master, who had never shown his face before, still had some brains. Otherwise, she would not be able to stay here temporarily!

As for whether or not Yanbei city would continue to cooperate with the Yan clan, and how they would cooperate, it would depend on the Yan clan's performance.

At this moment, in the Yan residence's main hall, other than the family head who was bedridden, all the elders were gathered. Even the elders who were injured from the conflict with the Hong family were gathered. However, they were not sure what had happened.

Seeing that almost everyone had arrived, the Yan clan's first elder cleared his throat and slowly said, "I've called you here because I have something important to discuss with you,"

"Great elder, you must have something important to tell us, so you might as well just say it!" A certain elder with a fiery temper couldn't stand the great elder's slow temperament and shouted anxiously. He was only short of pointing at the great elder's nose and saying, "hurry up and say what you want!" Don't talk nonsense!

"You should know that the head of the Hong family and a few of their elders are in our hands!" The Yan clan's first elder sighed lightly. However, his words were also regarded as nonsense by the other elders, just that no one said it out loud.

"Yes." The elders nodded and continued to wait for the next part.

"There's been a little mishap." Yan clan's first elder said.

"What happened? Could the Hong family have run away? Or is the first elder of the Hong family already here?" An elder guessed.

"None of them! Someone is trying to get a share of the Hong family's profits!" Yan tribe's first elder finally revealed the reason why he had asked the elders to come.

"Great elder! What do you mean by that? Who wants a piece of the cake!" Some of the elders did not understand the Yan clan's first elder's words and asked with question marks on their faces.

"The ones who helped us deal with the Yan clan! Just now, they sent someone to say that they want the Hong family to compensate them as well." The Yan clan's first elder explained.

"Oh! I was wondering what it was! Since they also wanted the Hong family to compensate, then let the Hong family compensate as well! It's not like you want us to pay, so why did you gather all of us in such a hurry?" An elder said in dissatisfaction.

"What do you know? Originally, we only wanted the Hong family to compensate us for our losses and also cure the master's illness, but the Hong family might not even agree to it. Now, if we add their compensation, the Hong family will definitely not agree."

"We can ask for less compensation, but the master's illness can't be delayed any longer. Other than the first elder, no one else can help with this illness, so I gathered you all here to discuss how we should deal with this matter. If we refuse them, we have to find a good reason." The Yan clan's first elder said with a face full of headache. He didn't want to offend the people living in his Yan clan now. However, if the Hong clan asked for too much, the first elder would not agree at all. He might even tell them directly that the Hong clan members in their hands were not worth that much money! That eccentric old man would definitely do such a thing.

Chapter 1363: Cold frost pill (4)

After hearing the Yan clan's first elder's words, all the elders fell silent! After hearing the first elder's explanation, they also realized the seriousness of the matter! The first elder of the Hong family wasn't the patriarch of the Yan family! Not only was that old man powerful, but he was also very stingy! It wasn't easy to get compensation from him, and they might want more than one, which made it a bit difficult!

"First elder, it's not easy to deal with the Hong family. I'm afraid that those people are not easy to negotiate with. Moreover, the compensation we have to pay is still in their hands! Why don't you go and tell them what exactly they need to give a straightforward answer? If this drags on, the longer it drags on, the more uncertain I will be!" One of the elders said fearfully. He didn't know why, but compared to the head elder of the Hong family, he seemed to be more afraid of the people living in the guest house!

"You think I don't want to know? In the beginning, I sent people to ask every day, but they told me that they hadn't decided yet. What could I do?" The Yan clan's first elder said in a depressed manner.

"Uh! It's been a few days, why haven't you decided yet!" The elders were all puzzled.

"I don't know, but you'd better be prepared. This time, the Yan clan will definitely bleed a lot." Yan tribe's first elder was afraid that the other elders were not mentally prepared, so he cautiously reminded them again.

"Great elder! Does the head of the family know that the other party also wants the Hong family to compensate?" At this moment, another elder asked.

"I haven't mentioned this to the master yet. I don't want him to worry about this, so don't let him know about this." The Yan clan's first elder reminded the other elders.

"Mm! However, did the other party say what their reason for wanting compensation is?" After the elders nodded, they continued to ask.

"He said it! The other party said that the Hong family head also wanted to kill them and caused them to panic, so they asked for compensation from the Hong family." The Yan clan's first elder said speechlessly. He really did not know who was the one who caused panic. Why was it that when someone asked for compensation, they asked for it so naturally? On the other hand, they had to be overcautious. He also wanted to be like the other party! However, as soon as he thought of the devilish man's money-making methods, his heart began to beat faster!

"Great elder, since the other party's reason is so sufficient, then you should directly speak to the Hong family's great elder like this. As for whether the Hong family will compensate them or not, that's not something we can decide!" An elder suggested.

"I've thought about it, but I'm afraid that the great elder of the Hong family will fly into a rage out of humiliation. You all know that no one on the divine mainland can cure our patriarch's injuries. With our strength, it's impossible for us to go to the divine world to ask for elixirs. There has been no news from the main family until now, so I'm sure they haven't found any elixirs that can cure our patriarch. Therefore, we can only rely on the great elder of the Hong family. "I'm afraid our clan head ..." Yan clan's first elder only finished half of his sentence and did not continue, because he knew that all the elders present understood.

“First elder, this won’t do, that won’t do. What should we do about this?” The elders of the Yan family all frowned. This matter made them feel very conflicted.

After much discussion, the Yan clan’s elders were still unable to come to a conclusion. The Yan clan’s first elder was rather helpless. In the end, he could only go and see Leng ruoxue personally.

.....

In the guest courtyard.

Leng ruoxue sat on the main seat in the living room and looked at the Yan clan’s first elder and the rest. She could not help but laugh in her heart. It seemed like the Yan clan’s first elder and the rest could no longer keep their cool. Otherwise, they would not have come knocking on their door so quickly!

“Miss Leng, your maidservant came to tell me today that you also want the Hong family to compensate?” The Yan clan’s first elder said with a smile.

“Yup! However, the people of the Hong clan are now in the hands of your Yan clan, so we can only leave our matter to great elder Yan.” Leng ruoxue chuckled.

“Young lady Leng, I’m afraid this matter is a bit difficult to handle!” Yan tribe’s first elder said with a bitter face.

“What’s so difficult about it? The patriarch of the Hong family and so many elders are in your hands. Can’t the first elder of the Yan family even handle such a small matter? Or is it that the Yan clan’s first elder is not giving us face and is deliberately trying to avoid it?” Leng ruoxue laughed coldly.

“Miss Leng, we really don’t have a choice, because the first elder of the Hong family won’t agree at all, and that old man is holding it! Based on my understanding of him, if the compensation we ask for is too much, he would rather give up the Hong family members in our hands than give us even a little bit of compensation. So, do you think your compensation can be excluded from our Yan family ‘s?” The Yan clan’s first elder had come to an agreement, and his attitude was extremely good. The reason why he was like this was because he hoped that Leng ruoxue would give up on her own idea. It would be best if they could settle the score with the Hong clan themselves and not involve the Yan clan. However, how could Leng ruoxue let him have his wish!

“The matter between the Hong clan and I can choose not to involve your Yan clan. As long as you hand over the Hong clan head and the elders to me, I will go and discuss the compensation with the Hong clan myself.” Leng ruoxue chuckled.

“Uh!” The Yan clan’s first elder was depressed because he would never agree to Leng ruoxue’s condition. If they didn’t have any important figures in the Hong clan, what bargaining chips would they have to negotiate with the Hong clan’s first elder?

“If great elder Yan doesn’t agree, then help us get the compensation from the Hong family!” Leng ruoxue said with a light smile.

“That’s impossible. If you want to get any benefits from the Hong family, go and ask them for it yourself. Don’t drag us into it!” At this time, an elder with a bad temper from the Yan clan couldn’t bear it anymore and spoke.

“Great elder Yan, you have two choices. One is to hand over the people of the Hong family to me, and the other is to ask for compensation from the Hong family for us. Choose one! You guys decide for yourselves! Zi Yu! Send the guest away!” Leng ruoxue glanced at the elder who spoke and said coldly. With that, she turned around and left the living room.

“Elders, please return! By the way, if you anger my master, you’ll end up in a miserable state.” Zi Yu said with a smile. After she finished speaking, she even deliberately released her pressure and invited the Yan clan elders out of the guest courtyard.

Chapter 1364: Cold frost pill (5)

The elders of the Yan clan left the guest hall in a sorry state and returned to the meeting hall drenched in sweat. At this time, their faces still carried a trace of shock and disbelief, and the back of their clothes was completely drenched in their own sweat.

Never in their wildest dreams would they have thought that the man with the looks of an early stage true God was actually hiding his true strength. What was even more unexpected was that they were unable to withstand a mere pressure from him and almost made a fool of themselves on the spot. If it wasn’t for the man who had left them some face, they might not have the face to see anyone in the future! It was too terrifying. At this point, they had a new understanding of Leng ruoxue and the others’ abilities.

Not long after they returned to the main hall, the elders who had gone to find Yin Xiao also returned with ugly expressions.

After sitting down, the elders were silent for a long time.

After a long time.

“First elder, why don’t we help them ask for compensation from the Hong family!” Someone said. Sob...Those people were too scary! They couldn’t afford to offend him!

“Yup! Great elder, although the patriarch’s illness is very important, if we anger them, I’m afraid the entire Yan family will have to answer.” An elder agreed.

“Yup! The great elder! We can’t afford to offend these people!” All the elders agreed. Right now, they were extremely resentful of the trouble that the Yan clan’s eldest master had caused. If it wasn’t for the fact that the Yan clan’s eldest master was no longer in this world, they would definitely have given him a good beating first before handing him over to Leng ruoxue and the others to deal with.

“Since that’s the case, then let’s settle the score with the Hong family together!” Yan tribe’s first elder said tearlessly, Clan Lord! I’ve let you down! It was such a good opportunity, but we didn’t grasp it. He couldn’t help but feel sad in his heart.

After making his decision, he went to the clan head’s room in the main courtyard and reported the matter to him. At the same time, he also told him that there were people who seemed to be from the God Realm by Leng ruoxue’s side.

After the Yan family head heard this, he didn't say much and just nodded his head, letting the first elder handle it.

Following that, the Yan clan's first elder paid a visit to the guest courtyard where Leng ruoxue and the others were staying.

As he sat in the living room waiting to be received, the Yan clan's first elder was extremely depressed. This was clearly his home, but why did he seem like a guest, so uneasy? Especially Zi Yu, who was sitting with him not far away, made his heart thump even more! It jumped wildly without stopping!

.....

"Great elder Yan, you've decided so quickly?" At this moment, Leng ruoxue walked in from outside and said with a smile.

"Yes! Miss Leng, we've decided to help you get compensation from the Hong family." Yan tribe's first elder quickly said.

"That's more like it! There's strength in numbers. Even if that first elder of the Hong clan is trying to knock on the door, he would have to consider the situation. Otherwise, he will only bring the Hong clan to a dead end!" Even though Leng ruoxue's words were directed at the Hong clan, she was also trying to warn the Yan clan's first elder.

"Miss Leng's words make sense." Yan tribe's first elder echoed, but he was somewhat absent-minded.

"Is great elder Yan worried about your clan head's illness?" Leng ruoxue glanced at the Yan clan's first elder and said.

"Uh! How did miss Leng know?" The Yan clan's first elder was deeply shocked by Leng ruoxue's ability to read people's expressions. Although it was no secret that the clan head was currently bedridden, he thought he had concealed it very well. He didn't expect that the other party would actually see through it. From this, it could be seen how meticulous the other party's thoughts were.

"It's all written on your face." Leng ruoxue said helplessly.

"Uh! That's right! Our patriarch was injured by the Grand Elder of the Hong family, and the divine skill used by the Grand Elder is a family heirloom of the Hong family. In the entire Hong family, only the Grand Elder is able to use it, and our patriarch's injuries can only be healed by the person who injured him." The Yan clan's first elder lightly sighed, a helpless look on his face.

"Other than the first elder of the Hong family who can cure your master's injuries, can't any other healing pills do the same?" Leng ruoxue asked curiously. It seemed like she would have to meet the first elder of the Hong family and see what kind of godly skill he had used to cause such an injury that only he could heal.

"Medicinal pills are fine too, but they're extremely difficult to find and can't be concocted by ordinary alchemists." The great elder of the Yan clan said with a worried look. There had been no news from the main clan for a long time, so they had given up on the pills. The great elder of the Hong clan was their greatest hope, but under the pressure of Leng ruoxue and the others, they had no choice but to give up one hundred percent of their hope. Now, they could only pray that the great elder of the Hong clan

would not give up on the clansmen of the Hong clan who were currently locked up in the Yan clan's prison. Otherwise, they would really have no more hope.

"May I know what kind of medicinal pill you need?" Leng ruoxue asked again. She had quite a number of pills with her, but she didn't know if there were any that they needed. Furthermore, if it wasn't for the Yan clan's wise decision, she wouldn't have returned the favor!

"If we want to cure the master's injury, we need the frost pill. The herbs required to refine that pill are very rare. Furthermore, the frost pill is very difficult to refine. That's why we have been unable to find it." The Yan clan's first elder explained.

"Frost pill? I just happen to have one in my hands." Leng ruoxue's words immediately caused the first elder to fall into a daze.

Seeing first elder's reaction, Leng ruoxue didn't say anything else. She waited for him to digest this information.

In fact, other than the rare ingredients required to refine the frost pill, it was not considered a very good healing pill. Moreover, the frost pill could only treat injuries caused by the cold attribute. Therefore, it was a very unpopular pill. Very few alchemists would refine this kind of pill that almost no one wanted.

The reason why she had this kind of pill in her hands was because her ice-attribute beasts liked to eat pills as snacks. In order to satisfy their appetite, she had refined all kinds of pills in case they needed it. In addition to the pills that Zheng en and his disciples used to practice, she had a lot of these less popular pills.

"Young lady Leng, do you really have the frost pill?" After a long time, the Yan clan's first elder regained his senses and asked in disbelief.

"Of course." After speaking, Leng ruoxue took out a cold Jade bottle from her bracelet. Inside the bottle was the cold frost pill that the Yan clan's first elder had mentioned.

Looking at the small Jade bottle that was emitting waves of cold air, the Yan clan's first elder felt waves of excitement in his heart. He couldn't believe that he would be so lucky. Initially, he had wanted to use the Hong clan's members to threaten the first elder so that he would cure the family head's injuries. He had also been prepared for the first elder to take the opportunity to lower his conditions. However, he didn't expect Leng ruoxue to give him such a big surprise. With this, why would he have to accommodate the first elder of the Hong clan? After using Leng ruoxue's cold frost pill to heal the clan head's injuries, he would be able to take control of the situation.

Thinking of this, he suddenly became excited.

"Young lady Leng, this cold frost pill is exactly what our clan head is in urgent need of. If you have any conditions, please state them. I am willing to pay a high price for this pill." The Yan clan's first elder said, suppressing the excitement in his heart. With this frost pill, he would no longer have to worry about the clan head's injuries. Furthermore, he would be able to hold the initiative when negotiating with the Hong clan.

"I can give you the frost pill, but I only have one request. That is, when great elder Yan is negotiating with the great elder of the Hong clan, do not go easy on him! We'll do our best to obtain as many benefits as possible." Leng ruoxue said with a smile.

"Don't worry, miss Leng! I've been thinking too much because of the master's injury, but now that I have the frost pill, I don't have to worry about it anymore. This time, I'll settle all the Old and New scores with the Hong family. However, the great elder of the Hong family is a cold person. I'm afraid he'd rather not take the members of the Hong family than spend so much money!" The Yan clan's first elder said worriedly.

Chapter 1365: The Furious first elder of the Hong family (1)

"That will depend on great elder Yan's ability. The master of the Hong family and so many elders are in your hands. I think that even if the great elder of the Hong family is heartless, he can't possibly ignore the life and death of so many clansmen! If he really didn't care, wouldn't you be able to do whatever you want to those Hong family members? I don't believe that he won't feel heartache, but there's a high chance that he'll use master Yan's injuries to threaten you, so you have to be mentally prepared." Leng ruoxue chuckled as she reminded him.

"Miss Leng's words are reasonable. I will take precautions in advance. No matter how cunning that old fox is, I will not let him escape easily this time!" Yan clan's first elder guaranteed.

"Yes. Also, this is the list of compensation we want." After Leng ruoxue finished speaking, she nodded towards Zi Yu. Zi Yu understood her meaning and took out a thin piece of paper from her storage ring, handing it to the Yan clan's first elder.

After the Yan clan's great elder received it, he swept a glance over it. Immediately, his heart began to twitch and he couldn't help but feel disgusted. Wu ... These people were really too ruthless. Although he had long prepared in his heart that the other party would demand an exorbitant price, the compensation they wanted had still exceeded his expectations. This time, his Yan clan would probably have to pay until they went bankrupt. However, he didn't dare to have the slightest thought of renegeing on the debt, because as long as he thought of Zi Yu's shocking strength, his heart would tremble.

"Don't be afraid, great elder. This is all the compensation you and the Hong family have to offer. I've written it all down. Do you understand what I mean, great elder?" Leng ruoxue looked at the Yan clan's first elder's face, which flickered between light and dark, white for a moment, then black for a moment. She almost laughed out loud in her heart. This Yan clan's first elder was so scared that he didn't even bother to hide his thoughts.

"Uh! "Miss Leng, you mean ..." When the Yan clan's first elder heard Leng ruoxue's words, he was bewildered, afraid that he had guessed the other party's thoughts wrong.

"The compensation on this list is what I want. As for whether the Yan family or the Hong family will compensate me, I don't care! As long as great elder Yan is able to gather everything according to the list I've written, it'll be fine. Great elder Yan should understand now!" Leng ruoxue looked at the Yan clan's first elder, who was like a bird startled by the mere twang of a bow. He was so frightened that he didn't

even believe her own judgment. She couldn't help but laugh in her heart, and could only explain it in a clearer manner.

"I understand! I understand!" After listening to Leng ruoxue's words, the Yan clan's first elder finally heaved a sigh of relief. He no longer felt so stifled in his heart. Sob ... He was really scared to death. With so many things, the Yan clan would be emptied out. Luckily, the Hong clan was still there to support them.

"If there's nothing else, great elder Yan, please leave!" Leng ruoxue chuckled and asked her to leave. She then instructed Zi Yu to pass the frost pill to the Yan clan's first elder.

"Good! Miss Leng, I'll take my leave first!" The Yan clan's first elder carefully took the frost pill, and after he finished speaking, he stood up and left the guest courtyard.

After the Yan clan's first elder left, he felt depressed as he walked. Wu ... This was clearly his home, okay? Why was he the one who was invited out? He had lived for so long, but he had never seen a guest who ignored the host like Leng ruoxue! However, he ... Had the right to be proud!

After the Yan clan's first elder left the guest courtyard where Leng ruoxue and the others were staying, the first thing he did was to go to the main courtyard to meet the clan head.

"Grand Elder, is there anything important for you to return?" The patriarch of the Yan clan looked at the first elder in confusion.

.....

"Master, I just came back from miss Leng's place." Yan tribe's first elder said.

"Oh! Do they have any other requests?" The Yan clan master understood. If not for this, the great elder would not have come to discuss with him in such a hurry.

"They gave me the list of compensation, and this!" The Yan clan's first elder was in a good mood as he kept them in suspense before taking out the small cold Jade bottle.

"Oh! Great elder, what's in that bottle?" The Yan clan head looked at the small white bottle that was emitting a cold air that made one's heart palpitate. He was extremely puzzled. What medicine was the great elder selling in his gourd?

"Master! This was the frost pill! A frost pill that can cure your injuries!" The Yan clan's first elder said with an excited expression.

"Frost pill? How did you get the frost pill? Could it be that the main family sent it over?" The head of the Yan clan was extremely excited. He had been injured for quite some time, and he had thought that the hope of recovery was getting slimmer and slimmer. He didn't expect that such a big surprise would suddenly land in front of him. He was really, really excited to the point that he didn't know what to say.

"It's not the master, it's miss Leng. She happened to have the frost pill and knew that the master's injuries were in urgent need of this frost pill, so she gave it to me. Master, please take it quickly!" After the Yan clan's first elder gave a simple explanation, he urged the clan leader to take the frost pill.

However, the Yan clan head did not consume it immediately. Instead, he looked at his clan's great elder with a serious expression and said, "Grand Elder, what price did you pay to obtain this cold frost pill?"

"Uh! Clan head, these frost pills were given to me by young lady Leng, and she didn't pay any price for it." Yan clan's first elder was startled for a moment before saying.

"Don't hide it from me! I won't believe it. We're not related to him in any way, and we even have some enmity between us. How could he be so kind as to give me the frost pill? did you agree to some conditions?" The patriarch of the Yan clan asked in disbelief.

"Family head, if there are any conditions, I've agreed to make the Hong family bleed. Other than that, I have no other conditions." The Yan clan's first elder carefully recalled, and then said with absolute certainty, "Ah! After hearing the family head's words, he started to doubt himself. Hence, he recalled his conversation with Leng ruoxue from the beginning to the end.

"You really didn't? Great elder, don't try to deceive me just so I can eat this frost pill!" The patriarch of the Yan clan reminded him worriedly.

"Master! Why Would I Lie to You? I really don't have any more." The Yan clan's first elder said with a depressed look. Wu ... Could it be that his credibility was so bad? Why didn't the master believe him?

"Then I'm at ease, great elder! It's not that I don't believe you, but I can't believe those people! I'm afraid that you'll be willing to pay any price for my illness." The Yan clan leader sighed softly and said slowly. He had grown up with the great elder, so the two of them had an extremely good relationship. They could also trust each other, and this was one of the main reasons why the Yan clan could be so harmonious.

Chapter 1366: The Furious first elder of the Hong family (2)

"Patriarch, don't worry! This frost pill was given to me by them without any additional conditions. Quickly take the pill! This way, we'll be able to have more initiative in the negotiations with the Hong family." Yan tribe's first elder urged.

"Alright," he said. The Yan clan master nodded and took the pill from the first elder's hand, swallowing it.

After a while.

The patriarch's face, which had been extremely pale, slowly returned to normal. The cold energy in his body was gradually expelled, and it didn't take long for his injuries to recover.

Feeling the warmth on his body, patriarch Yan stretched his arms and legs in disbelief. Then, he lifted the blanket and got off the bed.

"How do you feel, patriarch?" The Yan clan's first elder stared at his clan master, afraid that he would not be used to it.

"Good! Very good! After taking this cold frost pill, not only was the cold Qi in my body completely expelled, I even faintly showed signs of breaking through. This is truly too incredible." The Yan clan

head's face was filled with shock and disbelief. What was going on? One had to know that he had been stuck at the mid level of the high level deity stage for a long time. He had never been able to break through. However, after healing his injuries, he actually felt like he was about to break through. This was too strange.

"Congratulations, master!" After the Yan clan's first elder heard the clan head's words, he was also very happy. If the clan head could break through to the advanced divine realm, then the Hong clan's first elder wouldn't be a problem.

"Hehe! Grand Elder, for the time being, it's best not to spread the news that I've recovered." The patriarch of the Yan clan said after some thought.

"Yes, if the news of family head's recovery reaches the ears of that old fox of the Hong family, he will definitely take precautions. We will not be able to catch him by surprise." The Yan clan's first elder agreed.

"Great elder, it's all thanks to miss Leng that my injuries can be healed. Please take me to the guest house to thank her!" The Yan clan leader said impatiently. He had always wanted to meet the celestial-like figures that the elders and his second son had been talking about. However, he had been bedridden for a long time and had not been able to meet them. Therefore, the first thing he wanted to do after recovering was to meet them and thank them personally. After all, they had saved his life despite their past grudges.

"Master, I'm afraid it's not appropriate for you to see them now!" Yan clan's first elder said after some thought.

"Why do you say so?" The patriarch of the Yan clan was puzzled.

.....

"Master, didn't you just say that you wanted to hide your recovery? If you go to the guest courtyard and are seen by the clansmen, and someone accidentally tells them, then wouldn't our efforts be in vain? I think you'd better be patient for a few days. It won't be too late to thank him after the Hong family's matter has been satisfactorily resolved." Yan tribe's first elder suggested.

"What you said isn't without reason. However, he gave me the medicinal pill to cure my injuries. If I don't go and thank him, wouldn't he be overthinking it?" The head of the Yan clan asked worriedly. After all, they weren't friends with the other party, and there was also enmity between them. So, if the other party knew that his injuries had recovered, but didn't come to thank him, wouldn't all their efforts be in vain if the enmity between them and the Yan clan worsened? He was a little worried.

"Clan head, I don't think miss Leng and the others are petty people. Otherwise, she wouldn't have given me the frost pill." Yan clan's first elder pondered for a moment before saying.

"These are two different things. After all, our Yan clan had some disputes with them in the past. Now that they have shown us kindness, I should go and thank them personally." The patriarch of the Yan clan said stubbornly.

“Family head, don’t be anxious. Why don’t I go and sound out miss Leng’s opinion tomorrow and see what she means? it’s too late today, so don’t go.” Yan tribe’s first elder saw that he could not persuade the patriarch, so he could only use a roundabout method.

“That’s good.” The patriarch of the Yan clan looked at the sky outside the window. It was indeed getting late, so he had no choice but to dispel this thought.

The next morning.

Yan clan’s first elder left for the guest courtyard.

When he saw Leng ruoxue, he first expressed his gratitude on behalf of the family head. He then said that the family head wanted to express his gratitude personally, but Leng ruoxue declined his offer.

“Let your master rest well! You’ve just recovered, so don’t run around.” Leng ruoxue, who was sitting on the main seat, said with a faint smile.

“Uh! I understand! I’ll let the patriarch know.” The Yan clan’s first elder tactfully said. It seemed that the other party was thinking the same thing as him! They didn’t want the family head to appear in front of their clansmen now.

“Great elder Yan, that great elder from the Hong clan should be arriving soon, right? It’s been so many days, but he’s still able to keep his cool.” Leng ruoxue laughed.

“Yes, I’ve received news that first elder Hong has left Hong city and is heading towards our Yan city. He should be here in less than two days.” The Yan clan’s first elder nodded.

“Before that old man arrives, I think great elder Yan should have a lot of things to prepare. I won’t keep you any longer.” Leng ruoxue started to chase him away again.

“Uh!” Hearing Leng ruoxue’s words, the Yan clan’s first elder was deeply depressed. Why was he always being chased out? Was his relationship with others that bad? Every time he was chased out, he felt like crying to death.

However, since the other party had already spoken, it would not be good for him to stay here and not move. After bidding Leng ruoxue farewell, he left the guest courtyard with an extremely depressed heart.

Two days later.

The first elder of the Hong family had finally arrived in Yan city.

Although the Yan and Hong clan had many conflicts now, in order to show his clan’s magnanimity, the Yan clan’s first elder still very politely invited the Hong clan’s first elder and his party into the Yan clan’s main residence.

However, the accommodation they had arranged for the Hong family was not the best guest house. Hence, it caused some dissatisfaction in the Hong family.

“Great elder Yan, you’re just letting us stay here?” A certain elder of the Hong family said with a dissatisfied expression.

“What happened here?” The Yan clan’s first elder had a puzzled look on his face. In his opinion, he was already giving the Hong clan a lot of face by allowing them to stay here. Although this was not the best guest courtyard in the Yan clan, it was not too bad.

“We used to stay at liuxiang residence.” The elder said.

“Elder Shan, as you said, that was in the past. In the past, people from your Hong family could let you stay in the liuxiang residence, but do you think that with the relationship between our families, you can stay there now? Moreover, there’s someone living there now!” The liuxiang residence that elder Shan mentioned was actually the guest courtyard that Leng ruoxue and the rest were staying in. It was also the best guest courtyard in the entire Hong clan.

Chapter 1367: The Furious first elder of the Hong family (3)

However, even if there was no one living there, he couldn’t possibly arrange for the Hong clan to stay there. After all, the Hong clan was here to negotiate with them, and many of the Hong clan’s clansmen were in his hands. Therefore, it could be said that the Yan clan had the upper hand now. Since that was the case, how could he be considerate of the Hong clan and act according to their wishes? If that happened, where would the Yan clan’s face be? Moreover, in the hearts of many members of the Yan family, the Hong family was equivalent to a prisoner. He had already given them a lot of face by being willing to invite them into the main residence. How could the Hong family have the right to be picky?

“You’re clearly looking down on our Hong family.” That elder Shan roared out in a somewhat annoyed manner.

“Elder Shan, if you really want to think that way, I won’t object. However, please correct your position and don’t forget the current situation of your Hong family.” The Yan clan’s first elder reminded him with a straight face. This elder Shan was really brainless. No wonder he was able to escape death. It was because the Hong clan head looked down on him. Therefore, he did not intend to bring him to the Yan clan because he was afraid that he would ruin things. Otherwise, this elder Shan would probably be in their Yan clan’s prison by now. How could he still be able to show off in front of him?

“You ...” Elder Shan was so angry that he couldn’t speak. He gave the Hong family members a look, but none of them were willing to help. This made him even angrier.

“Great elder Yan, we are very satisfied with this place.” At this moment, the first elder of the Hong family, who had not spoken all this while, glared at elder Shan before he spoke.

“It’s good that first elder Hong is satisfied. You must be tired from the long journey, have a good rest today! We’ll talk business tomorrow. I’ll take my leave first.” After the Yan clan’s first elder finished speaking, he left with the Yan clan’s people without looking back.

After Yan tribe’s first elder left with his men, elder Shan said with a dissatisfied expression, “Great elder, why do you indulge them? They really don’t have any respect for our Hong family.”

“You shut up! Don’t blame me for being impolite if you continue to speak nonsense.” The Hong family’s first elder said with a cold face, as if he had a headache. The clan head and the others were in the hands

of the Yan clan, and now he couldn't even find anyone to discuss things with. He was really depressed to death with only a group of trash who only knew how to eat.

"Great elder!" Elder Shan's face was filled with disbelief. Although the great elder was usually cold and heartless, he still looked down on him even at this point. Thinking of this, he felt extremely depressed.

"All of you better use your brains. Our Hong clan is no longer the same as before, and the Yan clan is no longer the same as before. The clan head and the elders are all in the hands of the Yan clan, so you should all think carefully about what you should say and what you shouldn't say! Don't always make me follow behind you and clean up your mess." The Hong family's first elder said with a face full of disappointment.

"Yes! Great elder!" The members of the Hong family in the room didn't dare to say anything after hearing the first elder's reprimand. They could only nod.

"Go back to your rooms and rest! We still have a tough battle to fight. Even if you can't be of much help, don't add to my troubles. Don't blame me for being merciless!" The first elder of the Hong family warned.

"Yes." "Yes, master!" Everyone from the Hong family replied and then carefully returned to their rooms.

.....

The next day.

After a sleepless night, the first elder of the Hong clan went to find the first elder of the Yan clan to prepare for negotiations.

The Yan clan's first elder, who had not fully woken up, looked at the uninvited guest in his room and felt extremely depressed. It seemed that first elder Hong, who had always been calm, was a little impatient because of this matter. However, he could understand. After all, if their positions were to be reversed, he was afraid that he would be even more anxious than the first elder of the Hong family.

"Great elder Yan, I'm sorry! I've come to disturb you so early because our Hong family's Affairs are really very busy. The family head isn't around, and there are many things that I have to deal with. So, I really don't have much time. Let's quickly discuss the conditions so that I can return to the Hong family earlier." The first elder of the Hong family said apologetically.

"First elder Hong, I know you're in a hurry to return to the Hong family, but you have to give me some time to put on my clothes!" The Yan clan's first elder helplessly reminded him. This Hong clan's first elder had just happened to block him under the blanket. It was really ... Too embarrassing!

"Hehe! I'm sorry, we've known each other for so many years, but I didn't expect great elder Yan to be shy." The Hong family's first elder said with a smile. However, he couldn't help but think to himself, 'old thing, you can't be the only one who's laughing at our Hong family. I have to look at you too. Otherwise, I'll feel unbalanced.'

Shy, my ass! Upon hearing the Hong clan's first elder's words, the Yan clan's first elder could not help but curse in his heart. However, he still had to put on a helpless expression and said, "First elder Hong, you still like to joke so much!"

“Hehe! This is called unexpected!” The Hong clan’s first elder said proudly. Then, he urged the Yan clan’s first elder, “Great elder Yan, quickly put on your clothes! After you’re done, we’ll talk.”

Al! The Yan clan’s first elder sighed softly and felt extremely helpless. He could see that this old thing was planning to watch him change his clothes. Wu ... In his entire life, other than the clan head and his already-deceased wife, no one had ever stared at him with such big eyes and watched him change his clothes!

The Yan clan’s first elder was clear that this old thing from the Hong clan could not be driven away. Therefore, he could only brace himself and endure the discomfort in his heart as he picked up the clothes that were thrown on the chair by the bed and quickly put them on ...

After a while.

The first elder of the Hong family saw that he was fully dressed, so he pulled his hand and prepared to find a place to negotiate.

“First elder Hong, don’t be anxious! Let’s have some breakfast first before we talk.” The Yan clan’s first elder, who was being held tightly by the Hong clan’s first elder, said in a speechless manner.

“I’m not hungry. Let’s talk while you eat!” The Hong clan’s first elder thought for a moment, and then pulled the Yan clan’s first elder towards the dining room.

He had been to the Yan residence many times, so he was very familiar with the layout of the Yan residence. Finding the dining room was not a difficult task.

At this moment, there was no one else in the dining room other than the elders from the Yan family. However, when they saw the two of them walking in hand in hand, the elders’ faces revealed a puzzled expression. Since when did their elder and the first elder of the Hong family have such a good relationship? the two of them were actually holding hands. This scene was really too strange, and they couldn’t help but let their thoughts run wild. Could it be that there was an affair between them that they shouldn’t have?

Chapter 1368: The Furious first elder of the Hong family (4)

Seeing the expressions of the elders, the Yan clan’s first elder, who had guessed what they were thinking, had an extremely ugly expression on his face. However, the Hong clan’s first elder did not care at all. After pulling the Yan clan’s first elder to sit down, he very attentively filled his bowl with porridge and all kinds of side dishes. Seeing this scene, the Yan clan’s elders’ jaws almost dropped. Their eyes were wide and round, and their faces were all filled with an expression of disbelief.

“What are you looking at? Hurry up and eat your food!” The Yan clan’s first elder roared in a depressed manner. He hated the Hong clan’s first elder’s actions to death! Damn it, this old thing must be doing this on purpose to make things difficult for him.

“I’m done.” Seeing that their first elder was angry, the elders of the Yan family quickly said. Then, they put down their bowls and chopsticks and left the dining room as if they were running for their lives. However, they didn’t go far, but eavesdropped at the door of the dining room.

“First elder Hong, what the hell are you doing?” Seeing that there were only the two of them left in the dining hall, the Yan clan’s first elder couldn’t help but ask through gritted teeth.

“How can you say that about me? Can’t you see that I’m trying to please you?” The first elder of the Hong clan said in an extremely aggrieved manner. His current appearance was completely different from when he faced the people of the Hong clan yesterday. If the people of the Hong clan were to see this, they would also be shocked.

“Don’t try to please me! I’m afraid you’ll be like this.” Yan tribe’s first elder spoke the truth, his little heart trembling from the stimulation.

“Ling! We’ve known each other for quite a few years! Although we’ve never had a deep friendship, we’ve never really become enemies!” The first elder of the Hong family said softly, playing the emotional card.

“Don’t call me that! I’m getting goosebumps.” When the Yan clan’s first elder heard the Hong clan’s first elder call out his name, his heart turned cold. Oh my God! It was really too disgusting. Although his name was Yan Ling, he really couldn’t accept being called the first elder of the Hong family.

“Then how do you want me to call you? Lingling?” The Hong clan’s first elder whispered into the Yan clan’s first elder’s ear.

“You, you can just call me great elder Yan.” The Yan clan’s first elder said, feeling a little nauseated in his heart. Just now in his room, this old thing was still quite normal. Why did it seem like he was a completely different person the moment he left his room? He really couldn’t get used to it.

“That’s too polite. I think Ling or Lingling sounds more intimate. After all, we’ve known each other for so many years.” The first elder of the Hong clan laughed.

“We’re not friends, so there’s no need to be so friendly, really!” The Yan clan’s first elder hurriedly said in fear, F * ck! What was this old thing up to?! Why did he feel that his brain couldn’t keep up with the flow?

“I’m so sad to hear you say that.” The first elder of the Hong family said, pretending to be sad. His eyes were sparkling as if he was about to cry.

.....

“First elder Hong, I don’t care what your purpose is. I’ll tell you directly now that our Yan clan and the Hong clan can no longer be the same as before. In fact, the relationship between our two clans has already been broken since you injured our clan head. You should know this.” Yan tribe’s first elder warned.

“I know, but I have my own difficulties. I did it to save our family head. Besides, I didn’t hit him hard at that time. Besides, I was also injured by your family head, so we’re even now. Let’s not hold it against each other!” The first elder of the Hong family said with a wronged expression.

“Even, my ass! Your injuries can be healed with just a few healing pills, but our family head can’t. Do you think the cold poison in your Hong family is so easy to remove? If you really want this matter to be even and want our two families to restore our past relationship, you should take the initiative to come

and treat our family head's injuries. But, did you come? Not only that, but your Hong family's head even brought people to try and swallow up our Yan family. If it wasn't for our good luck, we would have long since disappeared from the divine mainland. Hmph! Is this what you mean by even?" The Yan clan's first elder angrily roared. As long as he thought of this, he would not be able to suppress the anger in his heart.

"Uh! That's because the children are insensible. You adults should be magnanimous and not bicker with children. Moreover, my injuries have only just recovered, and even if I wanted to save your family head, I'm afraid I'm powerless!" The first elder of the Hong family said shamelessly. The child he was referring to was naturally the head of the Hong family. After all, in terms of seniority, the head of the Hong family was one generation lower than them.

"You're talking nonsense! If it was someone from the Yan clan who tried to Annex your Hong clan and was caught by your Hong clan, would you say this? I'm afraid their end will be even worse!" The Yan clan's first elder understood. These people from the Hong clan were really too full of themselves. Moreover, their standards for people and things were also different. If someone provoked the Hong clan, then that person deserved to die a thousand deaths. But if the Hong clan provoked someone else, then they would become a child who didn't know any better. How could there be such a cheap thing in the world! Moreover, who would believe that the first elder of the Hong family had just recovered from his injuries! He clearly didn't plan to save them and was waiting for the Yan clan to take the initiative to come and threaten them. Did he really think that they were all fools and couldn't see through the Hong clan's intentions?

"Uh!" With the Yan clan's first elder's rebuttal, the touching words that the Hong clan's first elder had long prepared could no longer be said. Sigh! Did he misjudge? He clearly remembered that this Yan clan's first elder was quite easy to talk to? He had originally thought that as long as he played the emotional card, the other party would give him some face and let the Hong family off. Then, he would take the opportunity to say that he wanted to cure the Yan family's master's injury. In this way, wouldn't everyone be happy?

Unfortunately, the Yan clan's first elder didn't act according to his script, and didn't plan on giving him any face at all, which couldn't help but put him on the spot.

However, he would not be easily discouraged. After clearing his throat, he spoke again, "Great elder Yan, I know that our Hong family has let you down in many ways. I apologize to you on behalf of the Hong family. In addition, one of the main purposes of my visit this time is to cure your family head and repair the relationship between our two families. I believe that you must be thinking the same in your heart. Otherwise, you wouldn't just lock up the members of our Hong family, right?"

"First elder Hong, I have long given up on the relationship between our two families. The reason why we have locked up the people from your Hong family instead of directly killing them is only so that the Hong family can redeem them. It's our fault for being short on money to treat our master!" The Yan clan's first elder directly stated his purpose without even blushing or panting. He was very clear that if he didn't make things clear, this old fox from the Hong clan would definitely continue to play Tai Chi with him. Hmph! I can't play dumb!

Chapter 1369: The Furious first elder of the Hong family (5)

“Al!” After listening to the Yan clan’s first elder’s words, the Hong clan’s first elder was truly depressed. The other party had already made it so clear, so it would be a little redundant for him to play dumb. Thus, he could only correct his thoughts and look at the Yan clan’s first elder with a sincere expression, saying, “Great elder Yan, may I know what conditions your Yan clan has? As long as it’s within our Hong family’s means, we’ll try our best to satisfy you.”

Try to satisfy her? When the Yan clan’s first elder heard the Hong clan’s first elder’s words, he sneered in his heart. Did he mean that he would not be able to satisfy all of them? It seemed like the first elder of the Hong family was afraid that they would demand an exorbitant price, so he didn’t dare to be too confident! An old fox was indeed an old fox. However, he had guessed it right. They would definitely make the Hong family bleed this time.

“First elder Hong, this time, your Hong family has more than fifty people in our hands, including the patriarch, elders, and ordinary clansmen. How much do you think they’re worth? If I’m not wrong, they’re all the elites of your Hong family! That’s right, there’s also your family head’s two daughters. Although they caused your Hong family to lose all face, they’re still young ladies of your Hong family. You wouldn’t ignore them, right?” The Yan clan’s first elder said with a smile.

“Lian ‘er and xiner? What’s wrong with them?” The more the first elder of the Hong clan listened to the first elder of the Yan clan, the more he felt that something was amiss. Especially when the other party had mentioned Hong Lian and Hong Xin, this made him even more suspicious. What did the first elder of the Yan clan mean by being disgraced?

“What’s wrong? Didn’t first elder Hong know? I thought that this matter had already reached first elder Hong’s ears!” The Yan clan’s first elder said in surprise.

“What is it? You might as well just say it.” The first elder of the Hong family was a little impatient. He had almost not left the house recently, so he really did not know what the two girls had done, and no one had mentioned it to him.

“Hong Lian fell in love with a beggar and even forced himself on him. As for Hong Xin! In order to frame others, you actually betrayed your Hong family and revealed your family’s Secret to us.” The Yan clan’s first elder said proudly. Seeing the Hong clan’s first elder’s face change like a palette, he felt very happy!

“This is impossible! How could they have done such a thing? Don’t use this kind of thing to slander them.” After a long while, the first elder of the Hong clan spoke with a face full of disbelief. Previously, the Yan clan’s first elder’s words had caused him to fall into a daze and anger. However, after calming down a little, he finally reacted. Moreover, he did not believe the Yan clan’s first elder’s words at all. After all, the relationship between their two clans was no longer like before. It was normal for the other party to slander the young lady of their Hong clan. He knew very well the other party’s purpose for doing so. It was just to see their Hong clan become a joke.

“First elder Hong, of course you won’t believe my words. However, you can’t possibly not believe the words of the Hong family, right? I’ll bring you to the prison and let you ask your Hong family members personally to see if what I said is true. How about it? Do you dare to go?” The Yan clan first elder said provocatively.

“Hmph! Why wouldn’t I dare to go?” The Hong clan’s first elder said angrily. Even if the Yan clan’s first elder didn’t take the initiative to invite him to the prison, he would still want to go and take a look.

“Since that’s the case, first elder Hong, please come with me to the prison!” With that, the Yan clan’s first elder stood up and walked out of the dining room. The Hong clan’s first elder naturally followed closely behind.

Seeing them walk out one after the other, the elders of the Yan clan who were hiding in the corner couldn’t help but whisper: “Hey! Did you guys see that? They didn’t hold hands, most likely because the negotiations between our two families fell apart, sigh! It’s such a pity. Actually, they look quite compatible.”

The fire of gossip was burning in their hearts, and all kinds of thoughts began to float in their minds. Compared to the depression of the Yan clan some time ago, they were absolutely relaxed now.

.....

However, the first elder of the Hong clan, who had followed the Yan clan’s first elder all the way to the prison cell, was not happy at all.

Not only had he not used any of the strategies he had thought of, he had even found out about the family’s dirty laundry from the Yan clan’s first elder. Although he didn’t completely believe it, the Yan clan’s first elder wouldn’t make irresponsible remarks and casually joke about such a matter, right? Therefore, although he said that he didn’t believe it, he couldn’t convince himself in his heart.

At the entrance of the prison, the Yan clan’s first elder smiled and said to the Hong clan’s first elder, “First elder Hong, you can go in by yourself! I won’t disturb you from reminiscing with the Hong family.”

“Alright!” The first elder of the Hong family nodded and strode into the cell.

Seeing the Hong family’s first elder enter the cell alone, the guard guarding the cell was a little worried and said to his first elder, “First elder, should we go in and take a look? what if the first elder of the Hong family saves the clansmen of the Hong family?”

“As a member of the Yan family, you should have confidence in the facilities of your own cell. If he can rescue the people, then there is no need to set up this cell.” The Yan clan’s first elder said in an unusually serious manner.

“Great elder is right!” The guard tactfully said.

“All you need to do is guard the cell door. If first elder Hong comes out from inside, just pretend you didn’t see him.” The Yan clan’s great elder thought for a moment and said. He was well aware that when that old fox from the Hong clan found out that he was telling the truth in the prison, his expression would definitely not look good. Therefore, he wanted to avoid it for now so that the old thing would not blame the Yan clan for the debt. It should be known that the old fellow was very vengeful! However, before he could leave, he saw the first elder of the Hong family walking out of the cell in a rage with a dark face. He ignored him and strode away.

“Uh! He came out so quickly!” As he watched the back view of the Hong clan’s first elder, the Yan clan’s first elder could not help but Mutter to himself. It seemed like this old thing was quite angry! Hehe! Seeing this situation, he felt great!

After he finished speaking, he turned around and returned to his room. He reckoned that the first elder of the Hong family would not bother him again today.

After the Hong clan’s head elder angrily returned to the guest courtyard where he and the others were staying, he called all of the Hong clan’s clansmen into his room. After a round of reprimanding, he glared at them and roared, “Why didn’t anyone tell me about such a big thing?”

The first elder of the Hong family was furious. However, he was even angrier that he had found out about this from an outsider first. This made him rather passive!

The Hong family’s members, who had been scolded for no reason, were all confused when they heard the first elder’s words. They asked softly, “Great elder! What happened? What did we not tell you?”

The members of the Hong family were all somewhat baffled. The great elder had scolded them the moment he came back, saying that they had something to hide from him. However, he did not tell them what it was. This made them feel a little wronged. Could it be that the great elder had been bullied by the great elder of the Yan family, so he was treating them as a punching bag? They could not help but let their thoughts run wild ...

Chapter 1370: Scandal (1)

“Did I not say what it was?” The first elder of the Hong family said angrily.

“Great elder! You didn’t tell me!” The members of the Hong family all shook their heads and whispered in unison.

“I just found out about some of the Hong family’s scandals from the Yan family’s first elder, so I personally went to the prison to verify it. Hmph! Why didn’t you guys tell me?” As long as the first elder of the Hong family thought about how he had been kept in the dark, the anger in his heart would surge.

“What scandal?” Everyone from the Hong family looked at each other and looked at their first elder in confusion.

“Lian ‘er and Xin’ er, didn’t you hear?” The great elder of the Hong family had a look of disbelief on his face because the great elder of the Yan family had secretly told him that this matter had already spread throughout Hong city. Since that was the case, how could the Hong family not know about it? This was really too strange.

“Great elder! Did something happen to them?” Elder Shan’s face was full of question marks.

“Yes.” The first elder of the Hong family nodded and told them what had happened. After hearing it, the Hong family fell silent.

After a moment, elder Shan, who had just reacted, said angrily, "Family head, those two wretched girls actually did such a thing and caused our Hong family to lose face. The two of them must be severely punished! I suggest that they be expelled from the Hong family."

Elder Shan's furious words immediately received a response from the people present. Although they were all a little surprised that the two daughters of the family head would actually do such a thing, since it had already been confirmed, the two of them naturally could not remain in the family. Otherwise, what face would the Hong family have left?

"We definitely have to expel them, but they're in the hands of the Yan clan now. I'm thinking, should we let them be in the hands of the Yan clan, or should we get them out with the other clansmen and then make a decision?" The first elder of the Hong family frowned and said in a somewhat conflicted manner.

"Great elder! Why should we care about them after what they did? Just let them live and die on their own." Someone suggested.

"Yup! The great elder! Of the two of them, one has committed a shameful act and the other has betrayed the family. If they continue to stay in the family, many of the family members will not accept it." Someone immediately agreed.

"Great elder! We'll just leave them at the Yan residence. As for how the Yan family wants to deal with them, we don't care. We'll just pretend that we never knew these two." Elder Shan said.

.....

It wasn't that first elder Hong didn't have the thought of leaving the Yan clan behind. However, he thought about it again. If he left Hong Lian and Hong Xin behind in the Yan clan and didn't care about them, then they would probably be a level lower in front of the Yan clan in the future. Therefore, he was in a difficult position.

"Grand Elder, we'll listen to your decision." Elder Shan couldn't help but ask anxiously when he saw that first elder didn't respond for a long time.

"Let me think about it. All of you can leave!" The first elder of the Hong family waved his hand, stood up, and went into the inner room. When the people of the Hong family who were left in the hall saw this, they could only turn around and leave.

The next day.

For some reason, gossip about the first elders of the Yan and Hong family had started to spread in the Yan family's main residence.

After the Yan clan's great elder left his room early in the morning, he saw the Yan clan's clansmen whispering to each other along the way. When they saw him, they all scattered like birds and beasts. Seeing this, the Yan clan's great elder was extremely puzzled and couldn't help but secretly think to himself, "when did he become so terrifying? when the clansmen saw him, they were actually like mice seeing a cat. This is really too strange."

Even though he was surprised, he did not think too much about it. Instead, he went straight to liuxiang residence where Leng ruoxue and the others were staying.

When he entered liuxiang residence, the Yan clan's great elder was sitting in the living room, waiting for Leng ruoxue's arrival. However, he noticed that Zi Yu and the rest were also looking at him in surprise. This made him even more suspicious. This, what exactly had happened?

"First elder, why are you here so early in the morning?" Leng ruoxue walked into the living room and looked at the first elder of the Yan clan, who was sitting uncomfortably on the chair. She chuckled and teased him.

"I'm preparing to go to first elder Hong to discuss the compensation, so I came here to see if miss Leng has any other requests." Yan tribe's first elder said honestly.

"Oh! Didn't you guys talk about it yesterday?" Leng ruoxue asked out of curiosity.

"No, I didn't! That old man was in a bad mood yesterday. He didn't show up for the whole day after he came to see me this morning." Yan tribe's first elder said.

"Not in a good mood? "Could it be that you guys ..." Leng ruoxue smiled faintly, but she stopped mid-sentence.

"Uh! What's wrong with us?" Yan clan's first elder looked at Leng ruoxue's expression, and his face was filled with question marks.

"Did you guys quarrel?" Leng ruoxue asked nosily.

"No, I didn't! It's not my fault that he's in a bad mood." The Yan clan's first elder instinctively explained. He didn't know why, but he had a bad feeling in his heart, as if something was going to happen. Wu ... Why did he have such a feeling? It was too strange.

"How can it not be related to you? Aren't you two very close? He's in a bad mood and you didn't comfort him? Although there's a conflict between your two families, Isn't It a Pity to lose the person you like for the sake of the family?" Leng ruoxue reminded. Her words were like a sudden clap of thunder, blasting the Yan clan's first elder out of his wits and almost causing his soul to fly out of his body.

"Miss Leng, you, what do you mean by this?" The Yan clan's first elder asked in disbelief. He didn't hear wrong, did he? The meaning behind Leng ruoxue's words shouldn't be what he was thinking, right? He could not help but console himself.

"Great elder Yan, you can't control your emotions. I won't laugh at you. On the contrary, I admire your courage. After all, it's not easy to find someone you like." Leng ruoxue said with a face full of envy.

"What do you mean by someone you like?" Yan clan's first elder was somewhat dumbfounded. Could he be dreaming? Why did he hear that she had someone she liked? Who was it? Why didn't he know about it?

"There's no need to be shy, great elder Yan. Everyone in the Yan clan knows about you and the great elder of the Hong clan. Even we have heard about it." Leng ruoxue consoled. Even though she didn't believe in any rumors, she couldn't help but doubt the authenticity of the matter when she saw the Yan clan's first elder's shock and his unwillingness to let others know.
