

Crazy Wife 1801

[Chapter 1801 Blood, Punishment \(1\)](#)

However, the second elder only dared to think about it in his heart. He did not dare to say it out loud. Feeling depressed, the second elder dutifully reported to the master what had happened in the ning family during their absence, and emphasized the matter of the third elder. After all, the third elder was not an ordinary elder of the ning family, so the master could not ask about the third elder.

"You said third brother went to the secret realm?" After hearing the second elder's words, master ning frowned, and his tone was even more indifferent, making it impossible to tell whether he was happy or angry.

"It should be," The second elder quickly said. In fact, he wasn't very sure either, because the third elder left without saying goodbye.

"But we didn't see him in the secret realm." The master of the ning family frowned, a faint anger in his heart. This third brother was really outrageous. As an elder of the ning family, how could he do such a willful thing?

"Family head, then ..." The second elder was speechless. He only finished half of his sentence when he saw that the family head's expression didn't look too good, so he didn't continue.

"Don't worry about him. He's a reverent-God after all. He can't possibly not have the ability to protect himself!" The master of the ning family waved his hand and said. In fact, the reason why he was so at ease was that there were no more black-clothed men and monsters in the secret realm. Therefore, even if third elder was still there, his life should not be in danger. More importantly, he also wanted to punish third elder, so he did not want to send anyone to find him.

"Yes, master, that secret realm ..." The second elder looked at his ancestor curiously. When the others heard the word "secret realm," they also stared at master ning with anticipation.

"Al! It's not a secret realm at all. We'll just be courting death if we go there. " The master of the ning family sighed, his handsome face full of anger.

Then, he briefly explained the situation of the secret realm to everyone, including how the Wen family's head had set up a trap to deceive them, how he had fled in a panic, and the matter of the black-clothed man and the monster. Second elder and the others were dumbfounded and tongue-tied after listening to it.

"Master, is this all part of master Wen's scheme?" The second elder asked in disbelief. He couldn't understand why the Wen family head would have the guts to do such a thing. Wasn't he afraid that the matter would be exposed and cause public anger? Oh! By now, he should have already incurred the wrath of the masses.

"En!" The master of the ning family nodded.

"He's so bold! How dare he make so many top forces his enemy!" The second elder was left speechless. This, this didn't seem like something a normal person would do?

"He didn't expect that the matter would be exposed. Moreover, he's just a small fry. The person behind him is very powerful. It's because he has someone to back him up that he dared to do this!" The master of the ning family said with a headache. Although he didn't want to connect the mastermind of the snow Mountain secret realm a few years ago with the owner of the secret realm this time, the reality was cruel. All the evidence pointed to the same person.

Even though he did not know why that person would do this, he had to be on guard. Fortunately, that person still didn't know that they were the ones who had destroyed the secret realm of the snow Mountain a few years ago. Otherwise, their ning family would probably not be able to live in peace. However, he didn't intend to tell the second elder and the others about this matter, so as not to cause panic among the clansmen.

The second elder and the others nodded in agreement after hearing the patriarch's analysis. Then, the second elder continued asking, "Master, what should we do with the Wen family?"

Since the Wen family's head had done such a thing, these forces that had been deceived would not let them off. As one of the eight great divine regions, the Wen family's territory and wealth would make people covet them. In the eyes of the other forces, the Wen family had probably become a piece of fat meat waiting for everyone to divide. No one would let go of this rare opportunity.

"Just send someone to keep an eye on the Wen family's every move. You don't have to interfere with the rest of the matters." The master of the ning family said after some thought.

"Uh! Yes. " The second elder was stunned for a moment, then nodded. Although he didn't understand the family head's intentions, they had to carry out the family head's orders unconditionally, so he tactfully didn't say much.

"Alright! The Wen family only needs to send people to keep an eye on the secret realm. As for the ning family, you must also restrain them recently. They are not allowed to cause trouble in the divine realm, otherwise, they will be punished by the family laws. I'm going back to rest, you guys can leave!" After making the arrangements, the master of the ning family left the hall.

After master ning had left, second elder efficiently arranged everything and went to find ning haolan to get more information. At this time, Leng ruoxue had already gone into closed-door cultivation.

At the same time.

A bloody punishment was being carried out in a certain luxurious and tall Palace in the divine realm.

In the magnificent Hall of the palace, a middle-aged man in Black clothes was tied to a pillar. His face was extremely pale, and his forehead was covered in cold sweat. His clothes had long since been drenched in sweat, but at this time, he did not even dare to frown. His body was covered with tiny tentacles, and the blood in his body was being sucked out of his body through these tentacles ...

The man gritted his teeth and endured the pain. He did not make a sound because he knew that if he dared to make a sound, his Lord would not let him go. If he could stand this punishment, his Lord would most likely give him a chance to make a contribution for his crime. This was his only chance of survival.

The middle-aged man was none other than black one, who had used the teleportation divine talisman to escape from the secret realm.

After black one escaped from the secret realm, he immediately returned here to beg for forgiveness from his Lord. His Lord was naturally furious and immediately ordered him to be locked up in the prison to await punishment. Just as he was worried about what kind of punishment he would receive, he heard that the clone that his Lord had left in the secret realm had been destroyed. At that time, he was immediately dumbfounded.

His Lord's strength was unfathomable, and even if the clone was not as strong as his Lord, it had at least thirty percent of his Lord's strength. How could it be destroyed so easily? One had to know that his strength was not even ten percent of his master's.

When he heard the news, his first reaction was that it was impossible. His second reaction was that he was dead because he knew how important that clone was to his Lord. Moreover, it was one of his Lord's three great clones. Now that one of them was destroyed, it would have a great impact on his Lord's strength. Thinking of this, his heart was like dead ashes.

The Lord's punishment also made him feel deep despair. He didn't know if he still had any hope of living, but he still didn't dare to show his timidity and fear. Otherwise, his Lord would make him die even faster.

Black one's consciousness began to fade as he looked at the tentacles that were stuck all over his body and the incense burning in the incense burner in the hall. It had been three days and three nights. If he was still alive after the incense had burned out, then his life would be saved. Although the incense was only a few centimeters long, he was not sure if he could survive the last bit of time because he wanted to sleep so badly.

[Chapter 1802 Bloody, Punishment \(2\)](#)

After a while, the incense finally burned out.

Although the process took less than half an hour, it felt like a hundred years to black one. The moment the incense finished burning, the freed black one immediately fainted.

"Master, black one has fainted." A man's deep voice rang out in the silent Hall. As the voice fell, a woman's figure appeared on the throne.

This woman was dressed in fiery red clothes. Her beauty was devastatingly beautiful. Her skin was as white as snow, tender and creamy. Her figure was enchanting, and she had a natural charm all over her body. However, there was no smile on her face at this time. Two flames of anger burned in her beautiful and bright eyes.

"Take him away," The woman coldly ordered.

"Yes." "Yes," the man replied. With a wave of his hand, two Men in Black appeared and dragged the unconscious black one away.

"Have you found black two's whereabouts?" The woman asked again.

"Not yet!" The man said honestly.

"A bunch of trash! Didn't I already tell you where he might be?" The woman was furious. Damn hei er. He didn't come back to apologize to her immediately after such a thing happened. He actually fled on his own. Hmph! She would not let that traitor off.

"Master, hei er is very cunning. We went to his hiding place as you ordered, but he ran away ..." The man said gloomily. Hei er was also a reverent-God, and he would be alerted every time they got close, so they had never been able to catch him.

"Don't tell me that I have to personally capture someone?" The woman frowned and said with a slight displeasure.

"Master, this black two is already disloyal, why not ..." The man made a cracking motion. If his master wanted to kill black two, black two would not be able to escape. But the key was that he was not clear about his master's intentions, so he could only try to suggest.

"If I just kill him, you guys will be able to save a lot of trouble, right? Then what's the use of having you?" The woman lifted her eyelids slightly and said in a cold tone, "yes!" She had already planted her mark on black two, so she could kill him with a thought. But black two was a reverent-God! How could she bear to let him die so easily? She had always been envious of the reverent-God's vitality. Otherwise, she wouldn't have taken the risk to let black two Trick Master ning and the others into the secret realm. Who knew that he was actually a guy who failed and ruined everything? Not only did she fail, but she also exposed herself. In this way, she could not let hei er continue to live in front of people.

"Please forgive me, my Lord." When the man heard this, he quickly knelt down. Otherwise, with his Lord's fickle temper, he might also become fertilizer in a rage. Therefore, he did not dare to anger his Lord at all.

"Hmph! Remember, I'm your master, I don't need you to teach me how to do things!" The woman said coldly. Then, she slowly said, ""How are master ning and the others?"

"They've already returned to their respective homes. At present, I've sent people to closely monitor them!" The man quickly replied.

"Mm! Be careful not to alert the enemy! By the way, have you found out who destroyed my clone?" The woman asked again, her voice filled with anger.

She had a total of three bodies, one of which was the main body, and the other two were clones. The clones had thirty percent of her full strength, so what did thirty percent mean? That meant that she had at least ten thousand years of cultivation. However, it was destroyed in an instant. How could she not be angry? What was even more infuriating was that she did not know who had the ability to destroy her clone.

One had to know that her clone might not be as powerful as her main body, but its strength was not to be underestimated. However, it had been destroyed by a fire! This was an unbelievable thing. Although the clone looked weak, it was extremely hard. Ordinary flames could not destroy it at all. The only things that could harm her clone were the two legendary divine flames. However, in the entire divine realm, no one had ever heard of anyone possessing those flames.

The woman narrowed her beautiful eyes and appeared to be in deep thought.

"Your subordinate is still investigating!" The man lowered his head and said with some fear. He did not know if his Lord was about to get angry again because his Lord had been in a bad mood recently. Therefore, they had been living in an abyss of suffering.

"A bunch of trash! Hurry up and find out." When the woman heard this, she was indeed very angry. If she wasn't in urgent need of manpower, these trash would have long become her fertilizer.

She couldn't find her, and she couldn't find the person who destroyed her clone. She really didn't know what was the use of keeping them. The more the woman thought about it, the angrier she became. In the end, she simply disappeared. She didn't know what she would do if she stayed any longer.

After the woman disappeared, the man was so scared that he wiped the cold sweat off his forehead and let out a long breath. Fortunately, although his Lord was very angry, he did not take action against him.

After calming his pounding heart, the man disappeared.

Time passed.

Leng ruoxue had already been in the purple bamboo house for a week.

However, she didn't go into seclusion. Instead, after feeling that she could advance, she concentrated on researching a pill recipe that could restore life force.

Before this, they had been in the secret realm, so this matter had been put on hold.

After searching the entire alchemy room, she really did find a pill formula that could restore vitality among the pill formulas her master had left behind. However, when she saw the medicinal herbs required, she had a headache.

The elixir that could restore vitality was called the vitality elixir. It required five main ingredients, which included the fish scale flower and Dragon's beard grass, two extremely rare and precious herbs. As for the other three, although they were not nearly extinct like the other two, they were definitely hard to find. Hence, Leng ruoxue was in a dilemma, and even more so, her heart ached.

With the herbs she had on hand, she definitely couldn't refine a pill that could restore everyone's vitality. However, fortunately, she wasn't a Saint and wouldn't feel guilty because she couldn't help others. However, as a result, she had to think carefully about how to distribute the pills.

Following the pill formula, Leng ruoxue took out her personal pill furnace and placed the medicinal herbs in one by one. When she placed the main medicinal herb in, her brows furrowed together. Sob ... These medicinal herbs couldn't be bought even with money. Her heart really ached!

After making up her mind, Leng ruoxue threw all the medicinal herbs into the pot. Then, she closed her beautiful eyes and pretended that her heart wouldn't ache if she didn't see them.

The evildoer and green vessel, who were watching from the side, could not help but chuckle when they saw Leng ruoxue's pained expression.

Hehe! Why was Xue 'er so cute? His devilish bright eyes stared at Leng ruoxue as he thought to himself.

Green vessel immediately consoled her, ""Sister, don't worry. With little fish and Little Dragon, you can use as many fish scale flowers and Dragon beard grass as you want."

[Chapter 1803 Bloody, Punishment \(3\)](#)

However, he could not do it now! Qing Jue added in his heart. At this stage, the little fish and the little Dragon had already contributed their savings that they had accumulated for many years. They were also about to be refined into medicinal pills by their sister. Therefore, they could only wait. After all, they could not hurt the little fish and the little Dragon's main bodies just to save some insignificant people. It should be known that they had to side with the people on the inside.

"En!" Leng ruoxue nodded. When she felt that it was about time, she opened her beautiful eyes and stared at the pill furnace. At this moment, the medicinal ingredients had all melted. The next step was to purify and finally condense the pill.

After the pills were formed, Leng ruoxue opened the pill furnace and saw dozens of red and green pills lying in the furnace. She picked one up and sniffed it. A faint fragrance immediately entered her nose. Instantly, her spirit was lifted. It was indeed good stuff!

Then, she put the pills away in a Jade bottle and continued to refine two more furnaces. In the end, she counted and found a total of 100 Vitality Pills.

After refining the elixir, Leng ruoxue and the demon took out the bangle. Then, she directly advanced to god tier master in the courtyard. Because it wasn't the heaven-defying art that had advanced this time, her strength didn't increase by much. As for the heaven-defying art, the amount of divine power it required was beyond her imagination.

As for her beasts, not many of them had advanced in rank this time, but the divine power in their bodies had increased by a large amount. After their master had advanced in rank, they took the initiative to request to return to the bracelet to continue cultivating.

After Leng ruoxue had completed her advancement, she only saw two maidservants, grape and lotus seed. After asking around, she found out that Feng Da and the rest had also gone into seclusion.

She smiled helplessly and brought the evildoer to her Godfather's residence.

Walking into her Godfather's courtyard, Leng ruoxue saw uncle long sitting alone in the courtyard drinking tea. When he saw Leng ruoxue, he waved at her.

"Little girl, you've advanced? Come over and sit!" Uncle long said with a smile.

"Yes." Leng ruoxue pulled the evildoer over to sit opposite uncle long. She then smiled at uncle long, ""Uncle long, is Godfather not here?"

She had heard that uncle long had been with her Godfather the past few days she was in seclusion. Moreover, the two of them had a good conversation. But why was uncle long alone here now? This made her a little puzzled.

"They were, but master Yao and the others came just now, so master ning went to greet them." Uncle long explained.

"Oh! They must be here for the Wen family, right?" Leng ruoxue guessed.

"It must be. They won't let go of the fat piece of meat that is the Wen family. Do you think I should also send a message to the beasts of the endless sea and let them have a share?" Uncle long asked with an evil smile.

"I should!" Leng ruoxue nodded and passed a Jade bottle to uncle long.

"What is this?" Uncle long was confused.

"Vitality pill, it can recover one's vitality," Leng ruoxue said with a smile.

"Little girl, you really refined it? That's great!" Uncle long immediately said with joy.

"Uncle long! The price of this vitality pill is too high, just the main ingredients alone need five, and that also includes fish scale flower and Dragon's beard grass. So, I can only make a hundred pills, and I can't give all of them to you, only fifty pills. In addition, I can give thirty to Godfather, and I'll keep twenty for myself. As for how to distribute these Vitality Pills, you can do as you see fit!" Leng ruoxue explained.

"Little girl, thank you. By the way, how much are you planning to sell this vitality pill for?" Uncle long asked again. He didn't dare to take such a valuable elixir for free. Furthermore, he didn't want Leng ruoxue to suffer a loss. After all, refining these elixirs cost a lot of money, and the herbs in her hands didn't come from nowhere.

"It's up to you, uncle long. " Leng ruoxue became a hands-off shopkeeper. Actually, it wasn't that she didn't want to offer a price, but the beasts of the endless ocean were too poor. Hence, she didn't expect to earn much from giving uncle long these pills. It was basically a free gift. However, she couldn't say it too clearly, or uncle long would definitely feel bad.

"Little girl, uncle long would like to thank you on behalf of the beasts of the endless ocean. From now on, you will be a distinguished guest of the endless ocean." Uncle long sobbed. He understood what this girl meant. She was being so generous because she was giving him face. Otherwise, she wouldn't have to do this. After all, if these pills were put on the market, they would definitely be priceless. Even if you had money, you wouldn't be able to buy them.

"Uncle long, you don't have to be so polite." Leng ruoxue didn't think much of it. After all, she had always been friendly to Beastie.

"Yes, I am. Hehe! Girl, I'll go back to the endless ocean first. I'll come back immediately after I'm done with this. " Uncle long nodded. Then, he teleported away impatiently.

"He's really an impatient one!" The evildoer couldn't help but ask when he saw uncle long leave.

"Who's the impatient one?" At this moment, master ning's voice cut in. Leng ruoxue raised her head and saw her Godfather walking in.

"He's talking about uncle long. " Leng ruoxue chuckled.

"Uh! What happened to that old whale?" The master of the ning family asked curiously.

"I gave uncle long some Vitality Pills, so he was in a hurry to return to the endless ocean," Leng ruoxue gave a simple explanation.

"Vitality pill? What's the use of it?" Master ning asked shamelessly.

"It can restore vitality." Leng ruoxue's smile was extremely innocent.

"Xue 'er, is this true?" Hearing this, master ning was excited. It was to restore vitality! Then this medicinal pill was really too heaven-defying! It was no wonder that old whale left as he wished. He knew very well that the life force of many beasts in the endless sea had been sucked away by that blood cherry blossom.

"Mm! Godfather, this is for you." Leng ruoxue handed over a Jade bottle as well.

"Then I won't be polite." The master of the ning family quickly put the Jade bottle into his storage ring. This was a good thing!

"Godfather! No one's going to fight with you." Leng ruoxue was speechless when she saw how careful her Godfather was.

"How can there not be any! You don't know this, but the blood cherry blossoms have absorbed quite a bit of the Yao family's elders' life force, so they need this. If they know that we have Vitality Pills in our hands, they'll definitely go crazy." The master of the ning family reminded him cautiously.

"Then can't you sell them a few pills? The Yao family is rich!" Leng ruoxue reminded.

"Tsk! I don't want to sell it to them. I want to keep it for myself, in case I need it in the future!" The master of the ning family asked.

"Xue 'er girl, you've given me a vitality pill, so I can't let you suffer a loss. Go to our ning family's treasure vault and pick out some good things. Take whatever you like." The master of the ning family added generously.

"Thank you, Godfather. I won't stand on ceremony then." Leng ruoxue had a 'you better not regret it' look on her face.

"Hahaha! Little girl! You're welcome, Godfather's is Naturally Yours." The master of the ning family wasn't just ordinarily open-minded.

"Mm! I'll go pick some when I have time." Leng ruoxue chuckled. Following that, she asked, ""Godfather, I heard that the Yao family head and the others have arrived?"

"Yes, it's not just him. The forces that went to the mystic realm this time have also sent people." The master of the ning family said.

"You made an appointment?" Leng ruoxue understood.

"Yes, the Yao family made an appointment to discuss with us. However, to put it bluntly, they just wanted to inform us that the Yao family has no intention of letting go of this fat piece of meat, the Wen family." The master of the ning family said with a smile.

"What does Godfather plan to do?" Leng ruoxue asked curiously.

"Hahaha! Girl, do you have any objections?" The master of the ning family asked instead of answering.

"We haven't found the head of the Wen family yet. Besides, the person behind him is very troublesome. Hence, I don't suggest that Godfather make a move. If the Yao family and the rest insist on going, Godfather can just send some people to help them out. When it comes to the distribution of benefits, the Yao family can also get more. After all, this matter is still very risky." Leng ruoxue analyzed. That old man from the Wen family had always been a huge threat. However, he had managed to escape back in the mystic realm. At that time, the monsters and the Men in Black were eyeing them covetously. Hence, no one had the time to chase after the Wen family head. They would most likely not be able to catch up to him either. After all, he was the local tyrant!

"Yes, I think so too. The fat piece of meat in the Wen family is not delicious! If he really devours the Wen family, the old God of plagues will have nothing to worry about. At that time, if he really goes crazy, we will be the ones to suffer." The master of the ning family said worriedly.

"Godfather is right. Now is not the best time to swallow the Wen family. If we act too early, we will only alert the enemy." Leng ruoxue agreed.

"Al! How can I change the Yao family's old man's mind?" The master of the ning family sighed.

"I'm afraid it won't be easy. The Yao family has suffered heavy losses in the secret realm, so the Yao family head is in such a hurry to recover some losses. By the way, what are the opinions of the Cheng clan, the yin clan, and the other major guilds?" Leng ruoxue continued to ask.

"They said that the majority rules." The master of the ning family was somewhat helpless.

"If that's the case, shouldn't we discuss this with the beasts of the endless sea? After all, they are also victims of the secret plane." Leng ruoxue laughed evilly.

"That old thing from the Yao family will never agree. How could he let the beasts of the endless ocean have a share of the loot?" The master of the ning family shook his head. It was already beyond his expectations that the old man was willing to come and discuss with them.

"Isn't uncle Long's seniority very high? With uncle long around, he should at least give us some face, right?" Leng ruoxue laughed evilly. She had heard from the great elder about uncle Long's glorious deeds!

"Well, he wouldn't dare to not give face to uncle long. But, has uncle long returned to the endless ocean?" Master ning was a little embarrassed.

"Uncle long will be back in a few days. You guys can discuss it over the next few days." Leng ruoxue smiled like a cunning little fox, a sly look flashing across her beautiful eyes.

[Chapter 1804 Hatred \(1\)](#)

After hearing Leng ruoxue's words, master ning had an idea. Then, he revealed an unspoken evil smile. He understood what Xue 'er meant and would definitely entertain the representatives sent by the various forces. As for whether or not to Annex the Wen family now, it would naturally have to be discussed among everyone. This was not something that one family could make the decision on their own, unless they were not afraid of angering the public!

In the next few days, the master of the ning family declined to discuss with the Yao family and the others, saying that he had something important to do. The representative he sent, the second elder, always said in fear and trepidation that he would have a meeting with the family elders to discuss it. This dragged on, and nearly half a month passed.

Uncle Dragon had also returned from the endless sea, and with him were the most powerful tribes in the endless sea, including the dolphin tribe.

The dolphin race had sent an important old ancestor. He was also a direct senior of Leng ruoxue's little dolphin. Hence, Leng ruoxue was very enthusiastic about his arrival. This gave him a lot of face. The attention he received from Leng ruoxue also made him feel proud in front of the other sea beasts. His tail was almost raised up.

p In order to make arrangements for them, master ning had specially arranged an independent guest courtyard for them to stay in. Leng ruoxue had also taken the time to entertain them.

The beast representatives of the endless ocean were exceptionally enthusiastic when they saw Leng ruoxue. Each of them gave her a gift. Although the gifts they gave were all from the endless ocean, Leng ruoxue was shocked when she saw the gifts. The gifts they gave were all refining materials from the bottom of the ocean. Most of those materials might not be very precious, but they were in large quantities. Thus, when Leng ruoxue saw the small mountain of refining materials, she was at a loss for words.

These beasts were not only passionate, but also very cute. After using materials that were worthless in their eyes as gifts, they felt embarrassed and were afraid that she would dislike them. When they saw her smile, they heaved a sigh of relief.

In the living room.

When uncle long saw that they had heaved a sigh of relief, he laughed and teased, ""I told you that this girl likes these things, and you didn't believe me? You can rest assured now!"

"Hehe! Uncle long! No one would pick up those things in our endless ocean. We're just afraid of losing face for you, old man!" The old dolphin said awkwardly.

"No one picked it up because we don't have anyone who can refine weapons, and humans who can refine weapons can't go that deep into the sea, so no one took it. But in the eyes of human artifact Masters, those things are really good things!" Uncle long said emotionally. He was experienced and knowledgeable, so he naturally knew what was valuable. However, he didn't have any concept of money, and he didn't care about those worldly possessions.

After hearing uncle Long's words, Leng ruoxue's heart skipped a beat. She smiled faintly and said, ""Uncle long is right. I do need a large amount of blacksmithing materials. If you are willing to help me collect them, I will buy them at the market price. Of course, I can also exchange them with other items."

"Miss Leng, what you mean is that we can use these things to exchange for your medicinal pills?" When the old dolphin heard this, it immediately perked up. Medicinal pills! It was something all beasts dreamed of, but unfortunately, none of them knew how to refine it.

"Of course! Other than medicinal pills, I still have quite a few spirit fruits in my hands. I can exchange them for anything." Leng ruoxue laughed.

"Miss Leng, is there a time limit for this?" The old dolphin asked anxiously. There were many good things at the bottom of the endless sea, but unfortunately, they could only look at them. If they could really use those things to exchange for some medicinal pills, they would not be afraid even if they met enemies in the future. However, it would take time to collect the minerals, so he wanted to ask.

"There's no deadline. As long as you have it, you can come to me. You can also save it up and Exchange it with me." Leng ruoxue smiled. The more she thought about it, the more she felt that this was a good idea. One should know that the sea was famous for being a natural treasure trove. There were all kinds of good things in it. Unfortunately, it was fine for her to go there occasionally, but she could not go down to the bottom of the sea to search for treasures often. However, if she had the help of these local tyrants of the endless sea, the situation would be different. Furthermore, this would be a win-win situation for them!

"Miss Leng, it's settled then. I'll pass on the good news later. I believe that the group of juniors in the endless ocean will be very happy." The old dolphin said excitedly. He didn't expect that this trip to the ning family would bring such great news to the sea beasts in the endless sea. This was really beyond his expectations.

Originally, he had come with the intention of befriending Leng ruoxue. After all, Leng ruoxue was not only the master of his descendants, but also their Savior. Furthermore, he was very optimistic about Leng ruoxue's future potential. In addition, uncle long admired Leng ruoxue very much. She was also the goddaughter of the ning family's master. With so many identities and such a strong backing, the shrewd old dolphin naturally hoped to be able to get closer to Leng ruoxue. Or was it more beneficial than harmful to the beasts of the endless sea?

However, if they were to rely on the little dolphin and uncle Long's relationship, the beasts of the endless ocean would not be able to catch the little Dolphin's eye. Now, they had become partners and had used the vast resources of the endless ocean to get closer to Leng ruoxue. In the future, their relationship would only get closer and closer. This kind of cooperation would bring many benefits to the beasts of the endless ocean. With this thought, the smile on the old Dolphin's face grew wider.

One had to know that he had come to the endless ocean with the important task of getting closer to Leng ruoxue. The others also followed his lead. Now that he had done it without much effort, his status in the endless ocean would definitely be higher when he returned. The status of the dolphin race in the endless ocean would probably be unparalleled, haha! I'm happy just thinking about it!

Leng ruoxue smiled in satisfaction when she saw the old dolphin and the other beasts' happy faces. She then changed the topic back to the Wen family.

"Uncle long! I'm sure you're clear about the Yao family's intentions! I'd like to hear your opinions." Leng ruoxue asked. These past few days, Godfather and the rest had been trying to drag things out, neither agreeing nor rejecting. However, the dissatisfaction of the Yao family was growing.

"Girl, I'm afraid the Yao family won't want us to have a share of the loot!" Uncle long understood. For so many years, the humans and magical beasts had seemed to live in peace, but in reality, their

relationship was not good. Now that such a huge benefit was involved, the humans would probably not allow the magical beasts to interfere.

"That's for sure. However, we can't let this matter go their way. Moreover, I have a reason for wanting you to interfere in this matter." Leng ruoxue replied nonchalantly. She then continued, "Actually, Godfather and I don't agree to take action against the Wen family now. After all, the Wen family's master is still out there. If we were to take action now, I'm afraid that the old man will go crazy. By then, we'll be in the open while the enemy is in the dark and we'll be in a passive position. Now that the Wen family is holding us back, the Wen family's master won't dare to appear in front of us easily unless he doesn't care about the Wen family's life anymore. In this case, it'll give us some time to recuperate and build up our strength."

[Chapter 1805 Hatred \(2\)](#)

"Yup! The trip to the secret realm has greatly damaged our vitality. If we attack the Wen family now, it will be a problem for us when the old man of the Wen family goes crazy." Uncle long nodded.

"Then what should we do?" The old dolphin asked worriedly. He wasn't worried about himself. After all, they lived in the sea. No matter how powerful the Wen family head was, he wouldn't dare to go down to the endless sea to deal with them. However, he was worried about Leng ruoxue and the others. Their strength was too low. If the Wen family head wanted to make a move, he would definitely find trouble with them first. Being targeted by a reverent-God was a very troublesome matter.

"It's best if we can dispel the Yao family's thoughts. If it really doesn't work, we should try not to get involved. Otherwise, there will be endless trouble." Uncle long frowned and thought for a while.

"Actually, if the Yao family really wants to swallow up the Wen family now, it's not impossible to let them take the lead. It's a pity that they've now set their sights on Godfather. They want Godfather to be the leader. This is not something I can tolerate." Leng ruoxue said angrily. She had finally managed to save her Godfather, so how could she allow him to be used by others? Moreover, that was the Yao family.

"Hahaha! Whatever the girl wants us to do, we'll just cooperate." After hearing Leng ruoxue's words, uncle long laughed out loud. He believed that this little girl definitely had an idea.

"Uncle long! I want you all to join in and pester endlessly. In short, you must get a share of this, and when the time comes, you can give master Yao a headache!" Leng ruoxue revealed her plan with an evil smile.

"Alright! Wasn't he just pestering endlessly! I'm the best at this, and I don't think he would dare to not give me face." Uncle long said confidently.

"Then I'll just wait to watch a good show." Leng ruoxue chuckled.

"Yes, I am. But, girl! You have to make more delicious food for me. If I don't eat enough, it will affect my performance." Uncle long said with a thick face.

"No problem. Uncle long, just tell me what you want to eat." Leng ruoxue said generously. Her words made uncle long beam with joy.

The next day.

The master of the ning family, who had disappeared for many days, finally reappeared in front of the Yao family. However, he was not alone. Leng ruoxue, the demon, uncle long, and the Beast representatives from the endless ocean had all appeared.

In the ning family's Hall.

The master of the ning family sat on the main seat, while the elders of the ning family sat below him. Leng ruoxue and the others also found their own seats. However, no one spoke first, and the atmosphere was still gloomy.

After an unknown amount of time, the head of the Yao family finally couldn't help but speak.

"Master ning, we've been discussing for so many days. We should have a conclusion, right?" The Yao family's master said, holding back his anger. The reason he had come to the ning family in person was that he was afraid that others couldn't handle this old thing of the ning family. But who knew that this old thing wouldn't even give him face. It was really infuriating.

"Yup! It just so happens that the representative of the endless ocean is also here, so let's try to reach a conclusion today." The master of the ning family said with a smile.

"Master ning, we've been discussing this for so many days, and you still want to discuss it today?" Upon hearing this, the head of the Yao family was so angry that he almost passed out.

"Of course we have to discuss it. Didn't the endless sea send someone here? We should also listen to their opinions!" Master ning said matter-of-factly.

"This is a matter between us humans. Why should we listen to their opinions?" The head of the Yao family said through gritted teeth. If he could, he really wanted to step forward and bite the old man of the ning family. Initially, he had felt the pain in his heart when he divided the Wen family with so many people. Now, those beasts of the endless ocean actually wanted to get involved. This was really intolerable!

"Master Yao, you're wrong. The beasts of the endless ocean are also victims of the secret realm. Besides, they've fought with us before, they're our comrades. Since the secret realm was created by the old God of plagues, the beasts of the endless ocean naturally have the right to take revenge on the Wen family. This is immoral." The ning family's master said earnestly, his expression as if he was very disappointed with the Yao family's master, causing the Yao family's master to turn red with anger.

"Master ning is right. Yao family junior, I want to ask you, what do you mean by your human affairs? Although this old man isn't a human, shouldn't a human like you still call me senior? Moreover, I've only learned today that revenge can be divided into human matters and non-human matters, Hmph! This is racial discrimination! If I remember correctly, our great master Yu once said that all races, regardless of their status, are the children of heaven and earth, and everyone should be treated equally!" Uncle long said indifferently as he raised his eyes.

"Uncle long! I didn't mean it that way." The head of the Yao family said fearfully after hearing what uncle long had to say. Although he was gnashing his teeth in hatred, he didn't dare to act rashly in front

of an old beast like uncle long who had lived for who knew how many years. After all, uncle Long's reputation was too frightening.

"If that's the case, then let the beasts of the endless ocean join in!" Uncle long seized the opportunity and said impolitely.

"I don't have any objections," Without waiting for master Yao to speak, master ning quickly said. Looking at master Yao's Red face, with no place to vent his anger, he really felt that he had been hiding too much, hehe! Uncle long is the best! In front of him, the old man of the Yao clan had no temper at all.

"Uncle long! What do you guys think?" After a long time, the head of the Yao family took a few deep breaths and asked while pretending to be calm. In fact, he was so angry that he was about to vomit blood.

"We don't have much of an opinion. If you want to destroy the Wen family, then go! However, we have to study the distribution of benefits carefully. We, the beasts of the endless sea, can't be at a disadvantage!" Uncle long was very protective.

"I don't want much from you, how about this! You humans and US beastmen will split it 50 - 50, after each family gets half, you can split it again, Oh! It's decided then. " Uncle long added.

The moment he finished speaking, everyone from the Yao family was dumbfounded and tongue-tied as they stared at him in disbelief. Leng ruoxue, master ning, and the evildoer could not help but laugh in their hearts.

Hahaha! Uncle long was really too evil. He wanted to take half of the profits all of a sudden. The Yao family and the others would be heartbroken to death!

"Uncle long! Isn't a 50 - 50 split a little unfair?" After a long while, the head of the Yao family, who had regained his senses, carefully opened his mouth and asked. He couldn't help but curse in his heart. This old whale was really too ruthless. He didn't even dare to ask for half of the benefits, so how could this old whale open his mouth?!

"How is it unfair? I'm distributing it according to race. You're humans, so you're a team, and the beasts of the endless sea are a team. All the benefits are split equally between humans and beasts, and then you can decide how you want to split it. How fair is this!" Uncle long explained, feeling wronged.

"But, but we can't split it like this!" The head of the Yao family suddenly raised his voice, his face red as he growled.

[Chapter 1806 Hatred \(3\)](#)

"Why can't we split it like this? You're humans, and we're beasts, so there'll be conflicts if we mix them together. So, it's best to split them up. It's decided, you don't have any objections, right?" Uncle Long's eyes were wide open as he stared at the people in the hall. His eyes flashed with hostility and threat from time to time, making no one dare to object easily. At the same time, many people turned their eyes to the heads of the Yao and ning families.

"I have no objections," the master of the ning family said, smiling.

When everyone heard this, they didn't dare to make a sound.

"I have an opinion!" The head of the Yao family couldn't take it anymore and stood up from his seat with a 'whoosh'. He roared, 'F * ck!' He was already being bullied. If he didn't fight back, he wouldn't be able to get anything in the end.

"Do you have any objections?" Uncle long narrowed his eyes and asked in an unfriendly tone.

"I, I object to this distribution method. Your endless sea can't take half of the benefits." Under the pressure of uncle long, the head of the Yao family gathered his courage and said.

"Why not? Our endless ocean is also a victim. Moreover, if we really go to the Wen family, we will also have to contribute. In that case, why can't we take half? Haven't you always been able to distinguish between humans and beasts? Then we'll naturally have to go our separate ways. " Uncle long said matter-of-factly.

"I don't mind giving you some of the benefits, but you can't take half. I can only give you two levels at most!" The head of the Yao family made up his mind. To be honest, he was distressed to give the endless ocean's beasts two levels of benefits. After all, he didn't intend to count them in, but uncle long was too terrifying. He was afraid! Therefore, he could only bear the pain and split two parts of the benefits, but it was impossible to get more. He would not agree even if he died.

"We'll do the same. Why can we only get two floors?" The old dolphin asked with a straight face, and the other beasts of the endless sea all glared at the Yao family head with dissatisfaction, wishing they could stare a few big holes in his body.

"I also want to know why the beasts of the endless sea can only take two layers? Yao family brat, do you really think that we Beastie are easy to bully? Since that's the case, I don't mind gathering all the beasts in the endless sea to fight you one on one! Do you dare to accept the challenge?" Uncle Long's face darkened and he said coldly.

"Yao family head, we'll fight you one-on-one right now, do you dare to accept?" When the old dolphin heard uncle Long's words, it immediately perked up and asked with an evil smile.

"Since it's a challenge, why don't we set a wager?" At this moment, Leng ruoxue said with a faint smile.

"Good! I have no objections. What do you think, Yao family head?" The old Dolphin's eyes flashed as he asked the Yao family head with a smile.

"You want to fight me?" The head of the Yao family raised an eyebrow and asked indifferently.

"Of course! Do you dare to accept the challenge? Let's set a wager, it'll be more interesting this way. " The old dolphin said with a smile.

"What if you lose?" The head of the Yao family couldn't help but ask. As long as the one fighting wasn't uncle long, he really didn't fear the beasts of the endless ocean.

"If I lose, the endless ocean will not follow you and get involved in the Wen family's Affairs." The old dolphin promised.

"Alright," he said. The head of the Yao family nodded. Hmph! Initially, he did not want these sea beasts to get involved in the Wen family's Affairs. However, he could not reject them too obviously because of uncle long. Since they had suggested it, he would naturally go with the flow.

"Master Yao, if we win, will you be able to withdraw from the Wen family's matter?" The old dolphin continued to ask.

Sure. If you win, I won't get involved in the Wen family's Affairs." The head of the Yao family also promised. He answered very quickly because he was too confident in his own strength. As long as the beasts from the endless sea were not uncle long, no one could defeat him.

"Hahaha! Yao family head is indeed a straightforward person!" The old dolphin said with a smile. Then, he turned to master ning and said, ""Master ning, we want to fight with master Yao. Please lend us your venue."

"Mm! Come with me!" The master of the ning family nodded. Then, he took them to the training ground of the ning family.

When they arrived at the training ground, the old dolphin specially picked a spacious area and waved at master Yao as if he was greeting a puppy. ""Yao family head, quickly come! Let's finish this quickly!"

"Let's start!" The head of the Yao family suppressed his anger as he walked to the center of the arena and took up a battle formation.

"En!" The old dolphin nodded, then gave the other sea beasts a look. In an instant, nine more people jumped up.

These nine people were all divine emperors. However, when the head of the Yao family saw them, he frowned as an ominous feeling rose in his heart. "What's the meaning of this?" Why did he smell a conspiracy?

"I'm fighting you!" The old dolphin blinked its eyes and looked at the Yao family head as if he was looking at an idiot.

"Didn't you say you wanted to fight me one-on-one?" The head of the Yao family gritted his teeth in anger, and his face darkened.

"When did I say I'll fight you one-on-one? I'm a deity Emperor challenging a reverent-God one-on-one, am I out of my mind?" The old dolphin said with a look of disdain.

"You, you clearly said you wanted to fight me one-on-one." The head of the Yao family was so angry that his entire body was trembling. He pointed at the old dolphin and stuttered.

"I didn't say that. I said we'll fight you one-on-one. What I mean is, we'll fight together, and you'll fight us alone!" The old dolphin explained.

"You, you're clearly denying it!" The head of the Yao family was really angry this time. Looking at the old Dolphin's smug look, he really wanted to rush up and bite the old dolphin a few times. One had to know that he had lived for so long and had never been fooled like this before. This old dolphin sure had guts!

"Did I go back on my word?" The old dolphin turned around and asked its companion with an aggrieved expression.

"No, I didn't! Absolutely not! We're all deity emperors, how could we possibly fight a Hierarch one on one? if we really wanted to fight him, the one to do so would be uncle long. We wouldn't even have a chance." A certain beast immediately echoed.

"Yao family head, if you want a one-on-one fight, then we'll fight. Otherwise, you'll have to fight them alone!" Uncle long interrupted with a smile.

At this moment, the head of the Wen family knew that he had been tricked. His face was red, but his mind was racing. If it was a one-on-one fight, he was not sure if he could defeat uncle long. However, if it was a one-on-ten fight, he was not absolutely sure if he could win.

Although the sea beasts would be weaker on land, they were all divine emperors. Even if they were weaker, they were not easy to deal with, especially in their original form. Therefore, he would rather fight ten human divine emperors than be attacked by a group of them. Besides, he was afraid that these divine emperors would do something bad, so he hesitated.

At this moment, the master of the ning family stood up and looked at the crowd with a serious face. "There's no need to compete. I just received news that something has happened to the Wen family."

[Chapter 1807 Hatred \(4\)](#)

"What?" Everyone was shocked!

"Master ning, what did you say?" The head of the Yao family asked in disbelief.

"Yao family head, the Wen family has been destroyed." The master of the ning family repeated. This was great. They didn't need to do anything. The Wen family no longer existed.

"Who did this?" The head of the Yao clan said angrily.

"A group of men in Black. If I'm not wrong, the owner of the secret realm must have sent people to do this." The master of the ning family guessed.

With this matter out, the head of the Yao family was no longer in the mood to fight with the old dolphin and the others. Everyone quickly returned to the hall to discuss this matter. At the same time, they had also received news from various families that confirmed this matter.

"The Wen family has really been destroyed!" After the head of the Yao family received the confirmation from his trusted aide, he sat in his chair with a face of disappointment and muttered to himself. He had originally hoped to get a share of the profits from the Wen family to make up for the losses that his family had suffered! Who knew that those Men in Black would make a move first? now, they wouldn't get any benefits at all. He was so regretful! If they had known, they would have taken action earlier!

"Yup!" The master of the ning family replied in a soft voice. Although he didn't like the Wen family very much, they were still one of the eight great divine domains. For many years, they had been the talk of the divine world. Now, the Wen family had disappeared from the divine world and the eight great divine domains had become seven great divine domains. This made him somewhat unable to adapt and he couldn't help sighing at the fickleness of things.

If the old God of plagues had not become the Man in Black's hidden chess piece and had not set them up, the Wen family would not have ended up like this. Hence, one should not do things against one's conscience. Otherwise, there would be retribution sooner or later-the Wen family's retribution had come.

The victims had yet to take revenge on the Wen family! The Wen family had been destroyed by the old God of plagues 'master. If the old God of plagues knew about this, would he regret it?

As far as he knew, other than the old God of plagues, no one in the Wen family was spared. Even the main city where the Wen family was located was slaughtered, and blood flowed like a river. If it were not for the vigilance of the ning family's spies, they would have been caught in the crossfire this time. Now that such a thing had happened, the divine realm would not be at peace.

The ning family's master was like a god. As soon as the Wen family's matter came out, it spread throughout the entire divine world in just a few days. For a time, the people of the divine world were in a state of panic and unrest.

Ice city was a very unremarkable small city in the northernmost part of the divine realm. This city was finally covered in snow. The weather was cold, and the ground was frozen. It was famous for its cold in the divine realm.

Although a Sparrow was small, it had all the essentials.

Although the ice city wasn't big and was owned by a small family, there were many shops in the city. However, there were very few people in the city, so the business wasn't very good.

There was only one Inn in the ice city.

In a guest room on the second floor of the inn, there was an old man. This old man had an ordinary appearance, white hair, and a face full of vicissitudes. His strength was not high either, only at the God Realm.

At this moment, his body was emitting a cold aura, and his ordinary face was full of pain!

"The Wen family! The Wen family that I've worked so hard to build is gone just like that! I hate it!" The old man muttered to himself in pain, his eyes glistening with tears. His face was ruthless and dark. This person was none other than the Wen family head who had escaped from the secret realm.

After leaving the secret realm, master Wen had been hiding from the Men in Black. At the same time, he had to guard against master ning and the others 'pursuit of him. However, to his surprise, master ning and the others did not make any moves. On the contrary, it was his Lord's men who kept chasing him.

As a hidden chess piece of his Lord, he was very clear about his Lord's ruthlessness. Since he had failed this mission, his Lord would definitely not let him off. Therefore, he could only hide everywhere like a stray dog.

He didn't dare to contact the Wen family, not even through telepathy, because the mark left on him by his Lord would expose his every move. At that time, his Lord would definitely use the Wen family to threaten him, so pretending that he didn't care was the best way.

However, he didn't expect that his Lord would still make a move on the Wen family.

Originally, he had thought that his Lord would not act rashly as the Wen family was one of the eight great divine regions. Based on his understanding of master ning and the others, they would not casually touch the Wen family's people before killing him. He had thought that he had considered everything very thoroughly, but things were still out of his control.

His Lord had only acted against the Wen family because of a single mistake on his part.

He was afraid that his Lord would find out where he was, so he endured the pain and removed the mark. This way, he would anger his Lord and bring a fatal disaster to the Wen family.

However, if he could do it all over again, he would still do the same!

The Wen family was important, but without him, where would the Wen family have come from?

Although master Wen's heart ached for the Wen family's destruction, he cared more about his own life. However, he had to avenge the Wen family's destruction. Furthermore, he had placed this grudge on Leng ruoxue and the others.

If it wasn't for that wretched girl, how could he have been discovered as a hidden chess piece?

If it wasn't for that wretched girl, why would he be hiding like a stray dog?

If it wasn't for that wretched girl, he wouldn't have been treated as a traitor by his Lord and the Wen family wouldn't have been destroyed.

All of these things were related to that wretched girl. At this moment, his hatred for Leng ruoxue was overflowing. If he had the chance, he would definitely eat her flesh, gnaw her bones, and suck her blood. He wanted to make that wretched girl regret being alive in this world ...

[Chapter 1808 The Advanced Elite Gathering \(1\)](#)

The Wen family's head, who was hiding in the ice city, hated Leng ruoxue to the core. The mysterious woman in a certain Palace also hated Leng ruoxue.

"Is your information accurate?" The red-robed lady on the throne raised her beautiful eyes slightly as she released a frighteningly cold aura and coldly asked the black-robed man in front of her.

"My Lord! The information is absolutely accurate. I've also confirmed from black one that the monsters in our secret realm were also exterminated by a woman surnamed Leng. Her life flame seems to be very extraordinary. " The black-robed man's heart trembled as he reported. Recently, his Lord had been Moody. Every subordinate who came to report to his Lord was frightened. They were afraid that they would say something wrong and offend his Lord. Therefore, they had been very careful.

"Leng? Which family does she belong to?" The woman in red frowned and asked indifferently after hearing what the Man in Black had said.

"According to what I know, that woman's name is Leng ruoxue, and she has a close relationship with master ning. This time, she was the one who entered the secret realm and ruined our plan. Master's clone was also destroyed by her Natal flame." The Man in Black didn't dare to hide anything and answered truthfully.

"Leng ruoxue?" When the woman in red heard this name, her beautiful face darkened and she stood up from the throne. At the same time, she heard a loud bang and the throne behind her shattered into dust.

Seeing this, the Man in Black quickly lowered his head even more and didn't even dare to breathe loudly, for fear that his Lord would vent his anger on him.

"Give me a detailed report on her." The red-robed woman gritted her teeth.

"Master, I only found out that Leng ruoxue ascended from the lower realm. She's a deity and has been staying in the godly mainland. She only came to the godly realm in the past year. However, I don't know what she did to make the master of the ning family admire her. She even has a good relationship with the Cheng family and the yin family. The chief elder of the blacksmith's Association also takes good care of her." The Man in Black said timidly.

"Only this much information?" When the red-clothed woman heard the black-clothed man's report, she was clearly not satisfied. Her beautiful face immediately sank, causing the black-clothed man's face to instantly turn pale. His body trembled slightly like a Fallen Leaf in the autumn wind.

"Master, Leng ruoxue hasn't been in the firmament for long. Furthermore, she keeps a low profile and rarely appears in public. Hence, it won't be easy to find out more about her." The Man in Black explained in a low voice.

"A bunch of trash!" The red-robed woman's beautiful eyes flashed with a ruthless killing intent, but she quickly hid it. Hmph! If it wasn't for the lack of manpower, she would've turned all these waste into fertilizer.

"Master, please calm your anger!" The Man in Black felt the woman's displeasure. His face turned pale, and fear flashed in his eyes. He quickly knelt down and begged for mercy.

"Useless thing. Immediately bring some men to monitor that Leng ruoxue. Report to me every single move she makes." The red-robed woman pondered for a moment before instructing.

"Yes! My Lord, are you going to let Leng ruoxue live freely?" The Man in Black asked.

"If you don't let her live, do you still want to go to the ning family's divine realm to kill?" The red-robed lady growled in a low voice. She had heard from her subordinates that Leng ruoxue was staying at the ning family's main residence. She knew that now was not the best time to deal with Leng ruoxue. After all, she had just ordered her men to destroy the Wen family, which had caused quite a commotion in the divinity. If she were to make a move on the ning family now, the divinity would be in chaos.

She really wanted to kill Leng ruoxue to take revenge for the destruction of her clone. However, the peace of the God World was equally important to her. Hence, she could only suppress the hatred in her heart and allow Leng ruoxue to live a few more days. Hmph! Destroying Leng ruoxue's clone was equivalent to destroying one-third of her cultivation base. Furthermore, that cultivation base could not be recovered in just a few years' time. So, how could she not hate Leng ruoxue? Unfortunately, now was not the time for her to do as she pleased.

She had planned for so long and finally had today's status with great difficulty. Therefore, she absolutely would not allow her hard work to be destroyed in one day. As for the cultivation that she had lost, she

would get it back double on those people! There was also that Leng ruoxue. When she had the chance to take revenge, she would definitely make that woman who dared to go against her suffer a fate worse than death!

"As long as master orders it, this subordinate is willing to go through fire and water for master!" The Man in Black said loyally.

"Alright! I know you're loyal, but the God World can't be in chaos now, and the ning family can't be touched. As for Leng ruoxue, as long as she doesn't leave the ning family's God territory, you have to keep a close eye on her and report to me her every move. " The woman in red warned.

"This subordinate will do as you command!" The Man in Black replied.

At this moment, Leng ruoxue still didn't know that she had been targeted by two vicious wolves. She continued to live her life in her own way.

Ever since the Wen family's incident and master Yao's departure, the ning family had temporarily regained their peace. Furthermore, no one from the ning family dared to cause Leng ruoxue any trouble. Leng ruoxue would spend every day drinking tea, playing chess with her Godfather, uncle long, or refining pills in the purple bamboo house. Her days were very carefree.

However, these relaxed days did not last long. Leng ruoxue and the others received a piece of news.

In the various great clans of the divine world, there were people whose whereabouts were unknown one after another. Furthermore, after those people disappeared for a few days, none of them were spared!

Following that, more and more rumors started to spread in the immortal realm. However, most of them were about who had offended who. When such rumors spread together, the main characters of the rumors would mysteriously disappear after a few days. Even if they were strictly guarded, they could not avoid their disappearance.

However, most of the missing people were branch family members or sons of concubines, so they didn't attract much attention from the family. Many people even thought that this must be revenge from an enemy.

In the divine realm, the strong were respected. Thus, this kind of revenge was nothing at all. Basically, all the great clans would encounter it. Thus, many clans did not take it seriously.

If one's strength was not enough, and he had caused trouble and provoked an enemy, even if he was killed, he could only blame himself and not others. This was basically the consensus of all the major families. However, this consensus only applied to collateral relatives or sons of concubines. If the main family encountered such a situation, the family was bound to step in. After all, this was related to the face of the family.

Originally, Leng ruoxue didn't pay much attention to this kind of news. After all, those who died had nothing to do with her. Moreover, the divine realm wasn't peaceful to begin with, so it didn't matter if a few people died. However, what piqued her interest was that people from the seven great divine domains, including the ning, Yin, Cheng, and Yao families, had actually died. This couldn't help but pique her interest.

In the bracelet.

Leng ruoxue laid on the deck chair, deep in thought.

[Chapter 1809 The Advanced Elite Gathering \(2\)](#)

The demon peeled a grape and brought it to Leng ruoxue's lips. He smiled and said, "Xue 'er, what are you thinking about?"

"I'm just thinking why the divine realm is so chaotic. Every day, someone gets into an accident." Leng ruoxue said softly as she ate the grape that the demon brought to her mouth.

"Hahaha! If it was safe and sound, it wouldn't be called the divine realm." The demon's lips curled into a charming smile as he spoke indifferently.

"But don't you think that this is too sudden? Although it's said that there'll be conflicts where there are people, almost all the great clans in the divine realm are not spared. This can't help but raise suspicions." Leng ruoxue said with a frown. She had heard from the second elder yesterday that one of the ning family's collateral relatives had also died.

"Xue 'er! Since we're already here, we'll take things as they come, this is what you always say. We're living in the ning family's main residence right now, and we don't know what's going on outside, so don't let your thoughts run wild." The demon smiled and comforted her. A ray of light flashed across his dark eyes, but it quickly disappeared.

"I do want to take a look outside, but my Godfather won't allow it." Leng ruoxue said gloomily.

"That old man did it for your own good. He was afraid that someone would leak your information. You'll be relatively safe in the ning family's divine realm." The evildoer said honestly. Although master Yao and the others had sworn not to reveal anything about Xue 'er before they left the secret realm, there was no such thing as an absolute secret. If Xue 'er's news was found out by the master of the group of men in Black, she would be in danger, so he stood on master ning's side this time.

"I know," Leng ruoxue was listless. Actually, how could she not understand her Godfather's worries? however, since she had already provoked the Wen family head and those Men in Black, she naturally did not want to be a coward. Besides, she could not always hide like this, right?

"Hahaha! Then you can stay here obediently! We'll leave after the storm has passed." The demon suggested. In fact, he didn't want to live under someone else's roof, but it was the safest place to live for the time being. At least those who wanted to take advantage of Xue 'er wouldn't dare to come to their door.

"That's the only way," Leng ruoxue nodded. Life here was still very carefree, but she preferred to go out and experience life outside. Most importantly, she wasn't very familiar with the God World. If it wasn't for her Godfather's worry about her safety, she would have gone to travel around the God World long ago.

After staying in the bracelet for long enough, Leng ruoxue brought the evildoer away from the place.

Now, she was extremely familiar with the ning family's main residence. After strolling around the main residence, she and the evildoer went to report to her Godfather.

When they arrived at master ning's residence, Leng ruoxue saw her Godfather drinking with uncle long. She pulled the evildoer to sit beside them and pouted her pink lips. "Godfather, your relationship with uncle long is getting better and better. Every time I come, I see you two whispering sweet nothings to each other."

"D * MN girl, what's with the lovey-dovey talk? Don't you dare ruin my reputation. " The master of the ning family lightly rapped Leng ruoxue's head and pretended to be displeased.

"Yup! Girl, you can't slander us! There's nothing between us. " Uncle long quickly said. He knew that this girl had been a little free recently. Feng Da and the others had been in seclusion, so she was bored.

"I didn't say anything. Why are you guys so nervous?" Leng ruoxue's lips curled into an alluring smile as she spoke with an innocent look.

"You're a bad girl. I just didn't let you go out recently! Do you have to make fun of us every time you see us!" The master of the ning family said, his handsome face full of grievances.

In reality, he had grounded Leng ruoxue mainly to guard against that old pestilence of the Wen family. Now that the Wen family had been destroyed, based on his understanding of the old pestilence, he would definitely not let the matter rest. If he blamed Xue 'er for the destruction of the Wen family, then his precious Xue' er would be in danger. That was why he had forced Leng ruoxue to stay under his watch. The ning family had eight reverent-god level cultivators and uncle long. Not to mention the old God of plagues, even the Men in Black would have to consider whether they could escape unscathed. Therefore, the ning family was the safest.

"Godfather, I'm bored!" Leng ruoxue said with a bitter face. Her beautiful little face was full of grievances.

"Uh! Didn't I say that you can play with anyone from the ning family? But you can't leave the ning family's main residence. " The master of the ning family wiped the cold sweat from his forehead. He thought that he had given Xue 'er enough freedom, and with them accompanying her, how could this girl still be bored!

"They don't dare to mess with me." Leng ruoxue complained.

"If they didn't come to provoke you, why didn't you provoke them? How about I let Ning Shan 'er out and let her play with you?" The master of the ning family suggested.

His words made Leng ruoxue's face darken. She couldn't help but Mutter, "is Godfather still the old ancestor of the ning family?" He actually gave her this kind of idea. If those ning family people knew, wouldn't they be angry and vomit blood?!

"Ning family's boy, your elbow has already turned to the endless ocean, right?" Uncle long laughed and joked.

"Hehe! That's right!" The master of the ning family was not ashamed of it. On the contrary, he was proud of it. Leng ruoxue couldn't bear to see the arrogance on his face.

"Godfather, let's keep a low profile." Leng ruoxue was a little embarrassed. Her Godfather was indeed biased.

"Why do you need to keep a low profile? it's not like it's something shameful." The master of the ning family said with dissatisfaction.

"Uh!" Leng ruoxue wiped away the cold sweat on her forehead, feeling a little speechless. Sometimes, when her Godfather was willful, even she was helpless.

"Master, uncle long, I have something to report." Suddenly, the second elder rushed in from outside the courtyard and said straightforwardly.

"Speak," he said. The master of the ning family nodded.

"Family head, the elite gathering has been brought forward." The second elder said with a dark expression.

"In advance?" Master ning was stunned, and his shrewd eyes were full of question marks.

"Yes! According to the people sent by the God lord's estate, the God Lord felt that people from the great clans of the divine world had been in trouble one after another recently. He was afraid that the People's hearts would waver, so he brought forward the elite competition to divert everyone's attention and prevent them from panicking." The second elder said honestly.

After hearing the second elder's words, master ning's face became serious, and no one knew what he was thinking.

When Leng ruoxue heard the words 'elite gathering', she asked second elder with interest, ""Second elder, what elite gathering?"

"Little Xue 'er, the elite assembly is a grand event that plays an important role in the divine realm. It's held once every ten thousand years and has been going on for hundreds of thousands of years. At the same time, it's also a grand event to test the true strength of the various great clans. At that time, all the great clans will send out their clan's elites to participate in the assembly. Our eight families are the most powerful families in the divine realm. However, with the Wen family's misfortune this year, there should be new faces appearing in the eight great divine regions." The second elder explained.

"Other than that, the magical beasts will also be participating in the elite competition. They will also choose a new king for the magical beasts. However, for many years, the Kings of the magical beasts have always been occupied by the Dragon race, Phoenix race, White Tiger race and Qilin race. I reckon that there will not be any changes this year. After all, the strength of these four great magical beast Kings among the magical beasts is unquestionable." The second elder continued.

"Oh! Did you just say that the elite gathering was brought forward?" Leng ruoxue asked out of curiosity.

"Yes. Normally, the actual date of the elite gathering should be ten years later. However, the master God has moved the elite gathering to three months later. In other words, we still have three months to prepare. By then, we will have to send people to the Imperial City." The second elder asked.

"Little girl, the Imperial City is the main city where the Divine Master lived. The Imperial City was named after the first Divine Master of the divine realm." Uncle long suddenly interjected. An unknown glint flashed across his dark eyes as he looked at Leng ruoxue with a meaningful gaze.

"The first Divine Master?" Leng ruoxue was a little surprised. Reverent-god level beings were eternal, but why did it sound like there was more than one divine Master?

"Mm! In my heart, master Yu will forever be the Divine Master, and no one can replace him. " Uncle long said sadly, his eyes glistening with tears.

"Little girl, the current Divine Master of the divine world is Lord Yu's younger sister. It's said that after Lord Yu handed the divine world over to Lord Wu Cheng, he left the divine world and his whereabouts are unknown. As for where Lord Yu went, no one knows." The master of the ning family added after coming back to his senses.

"Why did that master Yu disappear as well?" Leng ruoxue was speechless.

"He said he went to travel, but how can we know the truth?" The master of the ning family said helplessly. Speaking of which, he was still grateful for master Yu's help, but unfortunately, before he could repay the favor, master Yu had disappeared.

Godfather's words made Leng ruoxue suspicious. From Godfather's words, could it be that he suspected that something had happened to the Lord Yu? However, looking at Godfather and uncle Long's expressions, they seemed to admire that master Yu a lot. Therefore, she couldn't ask the suspicion in her heart.

"Godfather, will the ning family send people to participate in the elite competition?" Leng ruoxue felt that the atmosphere was a little sad, so she changed the topic.

"Of course we have to participate. Otherwise, the ning family's position as one of the eight great divine regions won't be able to be maintained." The second elder rushed to say. The elite competition was of utmost importance to every clan and magical beast. After all, this was related to the status of the various great clans and magical beasts in the divine realm. Thus, all the great clans and magical beasts would definitely do their best.

Looking at Leng ruoxue's confused expression, second elder explained once more, ""Didn't I say before that the Eight Families in the eight great divine domains were determined during the elites meeting? If we don't participate in the elite competition that happens once every ten thousand years, it means that our ning family has given up our position as one of the eight great divine domains. Thus, not only must we participate in this elite competition, we must also obtain the first place. This is also a great opportunity to prove the strength of our ning family, so we can't miss it. "

"Second elder, haven't you heard of the saying" the gun hits the bird that takes the lead "? The ning family's limelight is too great, and it will make people jealous. So I think that it's okay to participate in this elite gathering, but it doesn't necessarily have to be first, right? Wouldn't it be fine as long as they could maintain their position as one of the eight great divine regions? As for the first place, let whoever wants to fight for it go! It's better for the ning family to keep a low profile. " Leng ruoxue suggested.

"How can we do that? if we can't win first place in the elite competition, the Yao family will definitely ride over our heads." The second elder said disapprovingly.

"I told you to hide your strength, not to let you be bullied. If the Yao family really dares to show off in front of the ning family, you can just ruthlessly teach them a lesson, and what I mean is that I want you

to be the uncrowned king! In this way, even if the Yao family wins first place, they won't live up to their name, and the public won't agree with them. At that time, that old man from the Yao family will definitely be depressed to death." Leng ruoxue laughed evilly.

"Girl, the Yao old man is famous for taking revenge for every flaw, and he's even more of a villain. If our ning family gives up this first place, I'm afraid that after old man Yao realizes this, he'll find endless trouble with us." After hearing Leng ruoxue's words, master ning said worriedly. Although he felt that Xue 'er's words were quite reasonable, and the ning family had been number one for too long, the pressure on the family members was great. However, if they gave the position of the top of the eight great divine regions to the Yao family, he was afraid that the family members would be pestered by the Yao family. That would be troublesome.

"Godfather, if you continue to be the leader of the eight great divine domains, won't the Yao family find trouble with you?" Leng ruoxue asked with a smile.

"Alright! I'll listen to you." Leng ruoxue's words made master ning smile. He was really old, and he still couldn't see through a little girl's thoughts. The Yao family had been jealous of the ning family's status for a long time. For so many years, although the two families had occasionally cooperated, most of them were hostile. In that case, why should he care about this trouble?

"Master ..." The second elder was stunned by his patriarch's decision. He didn't know what to say. The master was too obedient to the little girl. Although he was a little afraid of the girl, this was a big matter for the entire ning family! How could the master be so childish? He felt a little indignant, but even more so, he was jealous.

"Second elder, it's a time of trouble. We have to keep a low profile. We can't reveal our strength easily, or we'll be in even more trouble." Looking at second elder's expression, Leng ruoxue knew that he did not want the ning family to hide their strength and act in a low-profile manner. However, this was the only way to confuse the enemy, so she had no choice but to use this plan.

"Xue 'er is right, second brother! You have to learn more from that little girl Xue 'er. Keeping a low profile and pretending to be a pig to eat the Tiger is the right way to go!" The master of the ning family said happily.

She called him second again!

The second elder wanted to cry but had no tears. Wasn't playing the pig to eat the Tiger what that girl was best at? Now, he had dragged the ning family into the water, alright! He would have a taste of playing the pig to eat the Tiger. After all, he had never done such a Black-bellied thing! Now that he thought about it, compared to that girl, he was really too naive!

After persuading the second elder, master ning ordered the second elder to pass on his intentions and to appease the dissatisfied elders in the clan. Moreover, he had to put in more effort in choosing the members to participate in the elite meeting. He had to preserve his strength, but he could not show weakness. Master ning's request made the second elder's hair turn white.

There was no age limit in the elite competition, and there were five groups in terms of cultivation base. Those below reverent-god level had to compete, and each family could send five representatives from

each group. There was a new requirement this year, which was that the team must be led by the family head.

As for the ning family's selection of participants, they used the method of self-registration and unified selection. When the final list of participants came out, the ning family was a little dumbfounded.
