

Crazy Wife 1911

[Chapter 1911 Master Recognition \(1\)](#)

Even though Leng ruoxue had no idea why the mechanical voice had changed its mind, she could sense that it bore no ill will towards them. It was just that the behavior of the mechanical voice before and after was too abnormal and contradictory. Leng ruoxue was very suspicious, but she knew that she probably wouldn't be able to find out anything now.

At this time, the mechanical voice spoke again, "now you can receive your reward." With that, countless lights flickered in the space. Then, an item appeared in the hands of each of the 100 participants. There were all sorts of items, such as rings, armors, and so on.

The crowd looked at the items in their hands and were slightly surprised. Immediately after, they were ecstatic because these items were all divine artifacts! Although most of them were only high-grade divine artifacts, the divine artifacts in their hands could grow. This was not something that could be bought with money. For many families, having a divine artifact that could grow could be regarded as a family heirloom. Therefore, after knowing this fact, there was nothing else but ecstasy in their hearts!

Many people were so excited that they could not even speak. Even the participants from the superpowers of the divine realm, such as the seven great divine regions, were indescribable with joy after seeing this growth-type divine weapon.

Leng ruoxue received a transparent bracelet that looked like a crystal. The sparkling and translucent light purple flower-shaped bracelet on her wrist made her skin look even more sparkling and translucent like jade. It was so flawless that it made people gasp in admiration.

After the blood contract, Leng ruoxue sent her divine perception into the bracelet and realized that it seemed to be a spatial-type equipment. The space inside was extremely large and could be described as boundless. The surroundings were filled with a white glow. Other than a thick fog, it was basically impossible to see what was inside.

However, this bracelet was not really important to her. After all, she already had the universal bracelet.

However, who knew that just as this thought surfaced in her mind, she would feel a voice of dissatisfaction coming from within her heart. Leng ruoxue was shocked. Could it be that this bracelet had already developed its own consciousness?

"Ai! Master is despising me. " Just as Leng ruoxue's thoughts settled, an unfamiliar man's voice sounded in her heart.

"Who is it?" Leng ruoxue couldn't help but ask. She wasn't too sure if it was the bracelet that had spoken.

"Didn't master already guess it? I'm the spirit of your bracelet. " The man sighed helplessly, as if he had been wronged. However, hidden in the thick fog, his face revealed a hint of slyness.

"You ..." Leng ruoxue was so shocked that she didn't know what to say. Wasn't she a little too lucky? The reward he obtained actually had a weapon spirit. It should be known that a divine weapon that could produce a weapon spirit was priceless.

"I know that master doesn't like me," The man said bitterly.

"Uh! It's not like that!" Leng ruoxue replied hurriedly. How could she be disgusted by a divine weapon that had produced a weapon spirit? She was just too surprised.

"Then master likes me!" The man continued, his voice seemingly revealing a trace of joy.

"Uh!" Cold sweat began to form on Leng ruoxue's forehead. Wasn't this weapon Spirit's thinking a little too simple?

"Master! Let me first introduce myself. I am Huan Chen!" The man took the initiative to introduce Leng ruoxue, ignoring the strange feeling in her heart.

"Oh! Wait a minute! What did you say your name was?" Leng ruoxue had just nodded her head, but she immediately felt that something was amiss and hurriedly asked.

"I'm called Dreamdust!" Huan Chen repeated with a faint smile.

"Dreamdust? Why do you have the same name as this space? Could it be a coincidence?" Leng ruoxue muttered to herself.

"It's not a coincidence. I'm the one who controls this space. " Huan Chen said seriously.

"Uh!" Hearing this, Leng ruoxue was speechless. Why did this fellow give her away as a reward? if she remembered correctly, this special space should belong to the Divine Master's residence, right? Then, could this be considered as snatching food from the Divine Master's residence? He wondered if the Divine Master would fly into a rage when he found out.

"Master, you don't have to worry. The reason I sent you here is to find a master for myself. As for the Divine Master's estate, they can't control me." Huan Chen, who had read Leng ruoxue's mind, quickly explained.

"You're not a divine artifact of the Divine Master's estate?" Leng ruoxue was confused.

"My previous master was the Divine Master. However, ever since the master of Dreamdust fell, I no longer have a master." Huan Chen suddenly said in a sad voice.

"That ... My condolences!" Leng ruoxue didn't know how to console the weapon spirit. However, this weapon spirit was obviously a mature and opinionated weapon spirit. Otherwise, it wouldn't have created such a huge commotion just to find a master for itself. Also, those God tools that he had given out must be extraordinary items as well.

"Mm! The previous master has been dead for a long time, and I've already adapted to it!" Huan Chen said indifferently. Then, he continued, "Master! You don't know this, but the current Divine Master has always been eyeing me covetously. If she knew that I had found a master, she would definitely be angry from embarrassment. Therefore, I had no choice but to let the final hundred winners all get the reward. Of course, this was more to deceive people's eyes and ears. In this way, master's safety would be greatly improved! I hope master can understand. " Huan Chen's tone was cautious as he was afraid that Leng ruoxue would be angry.

"I understand!" Leng ruoxue said helplessly. What else could she say? However, this weapon spirit seemed to be very powerful.

"Why did you choose me as your master?" Leng ruoxue couldn't figure it out and asked again. One must know that many of the people present were more powerful than her. However, Huan Chen didn't choose her and instead chose her.

"I like master more!" Huan Chen said arrogantly.

"Uh! You're too casual with your choice of master!" Leng ruoxue was speechless. The weapon Spirit's way of thinking was indeed different from the rest!

"Master! Artifact spirits have always been straightforward, and if they don't like someone, they won't acknowledge them as master. However, there's naturally another reason why I chose a master, and that is that I have a deep relationship with master!" Huan Chen said with a mysterious expression.

"What relationship?" Leng ruoxue's curiosity was piqued when she heard this.

"Hahaha! Master, I can't tell you for now. I'll tell you everything after we leave the territory of the God Lord's mansion. It's too dangerous here. The God Lord will know everything. So, I can't take the risk. " Huan Chen said with a serious expression.

"Then, does the Divine Master know that you have acknowledged me as your master?" Leng ruoxue asked worriedly. She could not deal with the God Lord now. Furthermore, the God Lord would not let her off easily for snatching something from the God lord's estate.

"Don't worry, master. She won't know for now, but she'll probably notice when I leave with you. We'll be out of the divine lord's estate's sphere of influence by then. She won't act rashly even if she hates us!" Huan Chen analyzed.

[Chapter 1912 Master Recognition \(2\)](#)

"Isn't the Divine Master the master of the divine realm? The entire divine realm is his. If he wants to deal with us, wouldn't it be as easy as turning his hand?" Leng ruoxue could not help but ask.

"Hahaha! The master God is indeed the master of the divine world and the entire divine world should be under his control. However, what if the master God is not in a legitimate position?" Huan Chen said with a mocking tone.

"You're not going to tell me that this master God's position was stolen, are you?" Leng ruoxue asked in a reserved manner.

"Hmph! It wasn't just stolen! It was simply taken by force!" Huan Chen said in disdain, but he did not continue.

"Uh!" Leng ruoxue silently wiped the cold sweat off her forehead. She didn't expect there to be an inside story behind the Divine Master's position. However, she had always had a bad impression of this Divine Master, so she didn't think that Huan Chen's words were inappropriate! After all, she wasn't born and raised in the divine world, so she didn't have much respect for the Divine Master!

"Master! You'd better be careful when dealing with our Divine Master!" Huan Chen suddenly warned. Although he did not know what kind of grudge his new master had with the Divine Master, he knew very well that the Divine Master had once sent people here to kill him. However, he had trapped them all. Otherwise, his master would not have been able to live so leisurely in the special space.

"En!" Leng ruoxue nodded and didn't say much. In reality, she knew why the Divine Master wanted her to help.

"Master! I suggest that you don't show off too much in this elite gathering. Otherwise, if the Divine Master has his eyes on you, I'm afraid it will be very difficult for us to leave this place." Huan Chen suggested.

"Alright!" Leng ruoxue agreed. In reality, she didn't want to be in the limelight either. As the saying goes, even if the tree wants to be quiet, the wind won't stop. Anyone who was in the limelight would easily become the first bird to stand out, and that wasn't what she wanted.

"Master! Then I'll send you out now!" Huan Chen said. Following that, Leng ruoxue saw a white light flash before her eyes. When she opened her eyes again, the hundred of them had already appeared on the competition grounds of the divine Lord Residence.

When they saw them come out, the representatives of the various families and the people of the God lord's estate finally let out a sigh of relief.

"Why are you the only ones who came out? Where are the others?" The judge asked in surprise after seeing the 100 players.

When Leng ruoxue and the rest heard the judge's words, they were stunned. They thought to themselves, "didn't those people come out?" However, this thought only lasted for a moment because they soon saw piles and piles of people stacked on top of each other on the stage. However, these people were either seriously injured or unconscious. When the judge saw this and looked at Leng ruoxue and the others who were in a good state of mind, he understood.

Then, the judge waved his hand, and the guards of the Divine Master's estate ran to the arena and carried the people down.

After the arena was cleaned up, the judge smiled kindly at Leng ruoxue and the rest, "You are the final hundred victors. According to the rules of our competition, you will be re-divided into groups for the competition. However, for you to be able to reach this rank, your clans will definitely be proud of you. As for the next competition, it will officially begin tomorrow. You can go back and have a good rest now!"

After hearing the judge's words, everyone nodded and returned to their respective families' seats. The preliminaries that had lasted for nearly a month were officially over.

Although the competition this time was slightly different from the past and there were more accidents, it was still considered smooth overall. Therefore, the judge eagerly let them go back to rest as soon as they came out of the special space. However, the audience still gave some of them a rather enthusiastic look.

Under this almost fanatical gaze, the person in question ran back to his residence as if he was running for his life.

Before the next day's competition had even started, there was already news that some participants had fallen ill.

After hearing this, the hearts of the people in the Divine Master's estate couldn't help but twitch. She had never heard of gods falling sick so easily. It was not just one or two of them who fell sick, but nearly a third of the people fell sick at the same time. Some of the more serious ones even fell into a coma.

After the alchemists from The Alchemist Guild's headquarters went to see the sick competitors, they came to a conclusion that made the God lord's estate extremely depressed!

These people were really sick, and it was a mental illness caused by excessive fatigue and mental pressure. In addition, these illnesses could not be cured by taking one or two medicinal pills. They had to rest for a while. As for this time's elite competition, they were afraid that they would not have the chance to continue participating. After all, the elite competition could not possibly wait endlessly for these participants who did not know when they would recover from their illness.

Leng ruoxue and the others were among those who had fallen ill.

With the diagnosis of the highly respected alchemists from The Alchemist Guild headquarters, Leng ruoxue and the others stayed at their own residence with a peace of mind. The Grand meeting of the elites naturally continued as scheduled.

However, these people's illness was only a small interlude to the major families. When the final competition began, more people's attention was focused on the competition, and they were quickly forgotten.

The competition in the Divine Master's residence was in full swing. The residence of Leng ruoxue and the others was also bustling with noise and excitement. Those who looked sick to outsiders had gathered in the garden of Leng ruoxue's residence. They were feasting and drinking without a care for their image.

"Ruoxue, quickly return my honey roasted meat. I roasted it according to the method you mentioned." In the garden, Ji Yun took out a piece of roasted meat that was still dripping with oil. With a face full of anticipation, he placed it in front of Leng ruoxue as he tried to please her.

"Go away!" Before Leng ruoxue could even react, the evildoer beside her had already shooed her away with a dark expression.

"I didn't roast it for you." Ji Yun said calmly. Although this evildoer was very fierce, he wasn't afraid of him! Furthermore, he believed that with ruoxue around, this man would not go too far with him!

"No way it's for my woman!" The evildoer said in a possessive manner. The more he looked at Ji Yun, the more he disliked him. This damned fellow was actually learning from them. They were sick, and this fellow was sick as well. Moreover, if he was sick, so be it! She even came over to them. It really made them angry no matter how they looked at it!

"I will provide ruoxue with food in the future. So, you should get used to it as soon as possible." Ji Yun remained calm, but the demon was not.

"Adapt my ass? Who agreed to this?" The demon squinted his eyes and said in a slightly displeased tone.

Ji Yun didn't say anything. He only peeked at Leng ruoxue with an aggrieved expression. This subtle hint of his reaction made the demon furious!

"Xue 'er, did you agree to it?" The demon asked Leng ruoxue directly.

Upon hearing this, Ji Yun looked at Leng ruoxue expectantly. His limpid eyes seemed to be filled with tears. It was as if he would immediately start a storm if Leng ruoxue denied him.

[Chapter 1913 Master Recognition \(3\)](#)

"Uh!" Leng ruoxue's head started to hurt when she saw their expressions. In the end, she hardened her heart and decided to value her lover over her friends.

"I didn't agree to his request." Leng ruoxue whispered.

After he finished speaking, the evildoer was pleased. On the other hand, Ji Yun's face darkened as tears welled up in his eyes. He bit his lower lip and stared at Leng ruoxue with a bitter expression. Then, he turned around and ran away.

"Al!" Looking at Ji Yun's back, Leng ruoxue sighed helplessly.

"Xue 'er, don't worry about him, he's fine!" The demon said. That guy was too similar to him in the past, so he didn't want such a person to appear in front of Xue 'er all day long. However, he believed that with that guy's thick skin, he wouldn't be dismissed so easily.

Sure enough, not long after the demon had this thought, everyone in the garden saw Ji Yun rushing back.

"Ruoxue, I forgot to give this to you." After Ji Yun finished speaking, he stuffed the honey roasted meat into Leng ruoxue's hands. Without giving her a chance to refuse, he turned around and ran away.

Leng ruoxue looked at the roasted meat in her hands, then at the demon's darkened face. She suddenly felt the roasted meat in her hands burning. What should she do?

Just then, Feng Da walked to her side. Leng ruoxue stuffed the roasted meat into Feng DA's hands. When the demon saw this, he immediately broke into a smile.

"Miss ..." Feng Da looked at the roasted meat in his hand and felt a little embarrassed. He had already eaten a lot and really couldn't eat anymore.

"Eat it! Otherwise, you'll have to undergo special training for a month!" Leng ruoxue threatened.

"Wuwu ... Young miss is bullying me!" Feng Da wanted to cry but had no tears. He could only bite the bullet and eat the unloved roast meat. After eating, he immediately ran out of the garden.

For the next few days, Ji Yun acted as if nothing had happened and reported to the school every day. The same thing happened almost every day. Ji Yun's battle with the demon, Leng ruoxue's emphasis on her lover over her friends, naturally, Feng Da and the rest suffered.

After a certain day, Feng Da and the others finally couldn't take it anymore.

They trapped Ji Yun in a corner, each of them looking at him with a serious expression.

"You ... What do you want? I would rather die than submit!" Ji Yun clutched his clothes tightly as he looked at Feng Da and the others "murderous gazes, his face filled with fear.

"What are you thinking? We just want to have a good talk with you!" When Feng Da heard Ji Yun's words, he angrily patted Ji Yun's head and growled.

"Oh! We're just talking, why do you have to put on such a fierce look? I'm so scared!" Ji Yun was still a bit afraid.

"That ... You've been eating too much roasted meat recently, so you're a little heaty!" Feng Da said with a smile.

"Then don't eat the meat I roast. Just eat more light food." Ji Yun said in a slightly aggrieved tone. Of course, he knew that all the meat he had cooked had gone into the stomachs of these people. However, he would not be discouraged. Sooner or later, the food he made would be able to fill ruoxue's stomach! He was very confident in this!

"You think we don't want to?" Feng Da said with a bitter face.

"Uh! Since you want to, then it's even easier. " Ji Yun said softly. After he finished speaking, he looked at Feng Da and the others very carefully.

"I need your cooperation!" Feng Da said.

"You just need to roast less meat." Feng Da was afraid that he didn't understand, so he added.

"You mean, you want me to do something else? But I'm best at barbecuing meat. " Ji Yun was in a difficult position. Although he knew how to cook other dishes, he wasn't as good at it as he was at roasting meat.

"In that case, don't do anything, okay?" Feng Da discussed.

"Of course not. If I don't do anything, ruoxue won't know how much I care about her!" Ji Yun shook his head without the slightest hesitation.

"To be honest, my young miss really doesn't need your concern. Commander ye is a jealous person. If you care about her like this, won't we be the ones in trouble?" Feng Da was on the verge of tears. Why was this guy so stubborn? It was really a headache.

"I heard that any man who wants to stay by ruoxue's side will have to be cut by a knife, right?" Ji Yun suddenly thought of this matter and tried to verify it. His pair of clear eyes would occasionally size up the important parts of the people in front of him, his face filled with curiosity.

"Uh!" Feng Da and the others were stunned when they heard this. Who said that? This was a rumor! However, since Ji Yun had asked, someone must have told him something. Should they deny it or admit it?

For a moment, Feng Da and the others were in a dilemma.

If they were to deny it and Ji Yun really stuck to their young lady's side, commander ye would definitely go crazy and the unlucky ones would naturally be them. However, if they were to admit it and this matter spread out, wouldn't they become the laughing stock of the divine realm? What should he do? how should he answer to have the best of both worlds?

Seeing that Feng Da and the others didn't respond for a long time, and their faces were faintly conflicted, Ji Yun's heart kept sinking. Could this matter be true? Although he had always been skeptical about it, he could not tell whether it was true or not when he saw Feng Da and the others 'conflicted expressions.

Just like that, everyone fell silent.

After a long while, Feng Da sighed and slowly said, ""Al! Some things are really hard to say, so you'd better not ask too much. However, I want to remind you that you'd better not come to our place in the future. Otherwise, if the people of the God lord's estate find out that we're pretending to be sick, we'll definitely suffer!" This was the excuse he came up with after thinking about it for a long time.

"Oh!" "The competition is about to end. Our illnesses should be cured by now, right?" Ji Yun nodded and continued. As for Feng DA's words about him coming here less often, he ignored them.

"No! Miss said that we have to keep pretending until all the competitions in the elite competition are over. " Feng Da said with a serious face.

The competition of the elite competition was divided into three parts. The first part was the competition between the human families, followed by the competition between the special professions, and the last part was the competition between the representatives of the beast clans. However, because the competition between the beast clans was arranged later, not many beast clans had come yet. However, the competition between the human families would be over tomorrow, and before the alchemy and weapon refining competitions began, the representatives of the beast clans would probably arrive one after another. After all, the beasts were also very interested in pills and equipment.

"Uh! Doesn't that mean we won't have the chance to watch the pill refining and artifact refining competitions?" Ji Yun could not help but ask.

"En!" Feng Da nodded.

"The alchemy and artifact refining competitions are very important. There might be amazing alchemists and artifact refiners in the competition. Wouldn't it be a pity if we don't go and watch?" Ji Yun warned.

"What's there to pity!" Feng Da didn't think much of it. His young lady was an Alchemist and a blacksmith. No matter how monstrous those people were, how could they be better than his young lady? He didn't believe it.

"All the families will pay close attention to this." Ji Yun continued.

"Then we'll be fine." Feng Da remained unmoved.

Hearing Feng DA's words, Ji Yun was speechless. He didn't know how to continue, and he felt even more depressed in his heart. Wu...Why were the people around ruoxue so difficult to deal with?

Seeing that Ji Yun was somewhat depressed, Feng Da patted Ji Yun's shoulder and said in a serious tone,"Child, there are many women in the world, you should get over it! My family's young miss really isn't suitable for you. So, if you don't have important matters in the future, it's best if you don't come to us! Otherwise, if one day you anger leader ye, he might just directly kill you!"

When Ji Yun heard this, his face paled and his eyes became misty. However, he did not nod in agreement, nor did he refuse. He only turned and left in loneliness.

Looking at Ji Yun's desolate back, Lin Yuan asked with uncertainty,"Will he listen to our words?"

"It's hard to say!" Feng Da wasn't sure either. Ji Yun's thoughts couldn't be judged by common sense. The next day, when he saw the happy Ji Yun again, he knew that all his words had been in vain. This guy was simply a repeat offender who did things his own way.

However, the competition of the human families in the elite competition had finally ended officially. Some people were happy, while others were sad!

The Yao family obtained the noble crown in this year's elite competition as they wished. The ning family was ranked second with a slight advantage. As for the empty spot in the eight divine domains, it was taken by the Yu family, who had the best result in this competition. The Yu family had also leaped from being a top family to a super power in the divine realm. The Yu family's outstanding performance had caused many families to be envious, jealous, and hateful, with the sun family being the most among them!

After the competition ended, the sun family would always make sarcastic remarks, but when these words reached the ears of the Yu family, they were automatically ignored by the Yu family.

As a new noble in the eight divine regions, the Yu family chose to befriend the ning family first. This fact also angered the Yao family. After all, they were the final winners of this elite competition.

Unfortunately, they were not as dazzling as the ning family! This also made many of the Yao family members hold a grudge in their hearts. After meeting the ning family, they naturally didn't have a good expression!

After a few days of rest in the elite assembly, the alchemy master and Weapon Master competition officially began ...

[Chapter 1914 Timely Assistance \(1\)](#)

The start of The Alchemist and Weapon Master competition had excited many families. After all, there were many participants from their families. However, to Leng ruoxue and the rest, this competition was not essential. On the contrary, Leng ruoxue was more interested in watching the magical beasts 'competition.

However, what did these people in front of her mean?

In the garden.

Leng ruoxue looked helplessly at the few handsome men sitting opposite her-Liu Feng, Liu Yue, Shen nuo, and the others. She did not know what to say.

Wasn't today an important match between their two guilds? These few guys who held important positions in the Guild actually had the leisure to come here and stare at her?

Other than disbelief, Leng ruoxue was still in disbelief!

Wasn't the behavior of these few people too much of a joke? If the alchemists and artifact Masters in the competition knew that their competition was so neglected, what would they think?

After a long while.

Leng ruoxue finally couldn't hold it in anymore when she saw that the few of them were still not speaking.

"What are you guys here for? Don't tell me you're just here to look at me in the eye?" Leng ruoxue could not help but ask.

"We heard that you were sick, so we came here to show our concern." Liu Feng smiled faintly. He was as elegant as a noble young master, and no one could find any fault with him. However, it would be strange if Leng ruoxue believed his words!

"Today's the competition for the weapon and pill refiners, right? Did you guys pick today to visit me?" Leng ruoxue raised her eyebrows.

"Hehe! This is the only way we can escape! Otherwise, we won't be able to leave at all with those little guys pestering us all day!" Liu Feng said with a smile. He was speaking the truth!

"By the way, is there anything good to eat? I've been hungry for a few days." Liu Feng then asked shamelessly. Although the others did not say anything, their eyes were the same. They all had the same hungry look in their eyes.

Hearing this, Leng ruoxue couldn't help but wipe away the cold sweat on her forehead. She knew that these people were here for the food! Ai! This group of foodies!

Leng ruoxue helplessly gave Feng Da a look. Feng Da understood and turned to leave.

Not long after, he, Lin Yuan, and the others brought over a few plates of steaming roasted meat and placed them in front of flowing maple and the others.

Liu Feng gulped as he looked at the plates of delicious-looking roast meat. Then, he started to eat without holding back. The others saw this and fought to be the first to eat. When Feng Da saw how they ate, he laughed in his heart. Eat it! Eat more, there's still a lot more! If they ate it for him, he could eat less!

As it turned out, the roast meat had been roasted by Ji Yun. They didn't know what had gotten into that fellow's head, but he had actually made such bold statements, saying that he would roast the meat to the extreme, so that their young miss would not be able to live without it. As a result, he had been hiding in the kitchen every day, thinking of all sorts of ways to roast the meat. As a result, they had been very unlucky. They had already gotten tired of eating roast meat, but when their young miss had

said, "don't waste food," They could only bite the bullet and eat the roasted meat that they already hated.

When commander ye saw that Ji Yun had temporarily placed all his attention on the roast meat and did not disturb Xue 'er, he warned them that they must finish the meat that Ji Yun had roasted and not let it fall in front of Xue' er. He also warned them to think of a way to make it difficult for Ji Yun. Otherwise, they would bear the consequences!

Under ye Chen's abuse of power, Feng Da and the others 'days were even more difficult than before!

However, it was all good now. With these gluttons, Liu Feng, he could help them digest some of the roasted meat. He was very pleased! The way they looked at flowing maple and the others also became gentler and more passionate! If he wasn't afraid of scaring them, he would have fed them personally, in case they couldn't finish it and had to finish it in the end.

However, his worries were unnecessary.

Liu Feng and the others thought that the roasted meat was specially prepared for them by Leng ruoxue and the others, so they would naturally give them face and finish it all.

However, when they finished the meat in front of them and thought that there would be other dishes, Feng Da and the others actually served a few more plates of meat. When Liu Feng and the others saw this, they were dumbfounded.

"That Feng Da! Don't you have any other food to serve us?" Flowing maple could not help but ask.

"No more!" Feng DA's answer was so matter-of-fact, and Liu Feng's mouth couldn't help but Twitch when he heard it. What the hell is this? They didn't want to just eat barbecue! Eating too much of that thing will make you heaty!

"Some vegetables will do too! This roast meat is a little greasy!" Flowing maple lowered his request. Right now, even if he had some lettuce leaves, he would still be quite satisfied.

"No, I didn 't!" Feng Da said. They hadn't eaten any food for a long time. As the saying went, "we share good fortune and misfortune together," so, Liu Feng and the others naturally didn't want to eat it.

"....."

Feng DA's direct answer left Liu Feng and the rest at a loss for words. Could it be that Leng ruoxue and the rest were so poor that they could not even eat vegetables? Oh! The vegetables in the divine realm were indeed more expensive than meat.

"If there are no vegetables, then there should be fruits, right? Give me some fruit!" After a while, Liu Feng spoke again. He knew that Leng ruoxue had quite a few good fruits in her hands.

"Also not! They've all been eaten!" Feng Da said without changing his expression. He did not feel guilty at all for his lies!

"Uh!" Liu Feng was speechless. His mouth was half open, but he could not say a word. On the other hand, Leng ruoxue was laughing in her heart when she heard the conversation between Feng Da and Liu Feng. She knew that Feng Da had done it on purpose, but she was happy to see it happen. After all, she

knew that Feng Da and the others had been wronged during this period of time. Unfortunately, she could not do anything about it!

Looking at Liu Feng's reaction, Feng Da also kept quiet with a wronged expression.

"Little girl, we're here to see you. You're not just going to treat us with roast meat, are you?" After being stunned for a long time, Liu Feng spoke again.

"I didn't want to, but I only have roasted meat now!" Leng ruoxue said helplessly. In order to avoid the barbeque, she had stayed in her room for a few days. If not for Liu Feng and the others, she would not have come out!

"Why don't I get you guys some grilled fish?" Leng ruoxue said after some thought.

"Grilled fish? Is that any different from roasting meat?" Flowing maple rolled his eyes.

"There is! Fish swam in the water, while meat ran on the ground! It's different. " Leng ruoxue explained with a smile.

"Alright! They're different. " After hearing Leng ruoxue's explanation, Liu Feng and the others were completely speechless. At the same time, they understood that they would not be able to eat anything good at Leng ruoxue's place today. Sob ... They had decided to come again tomorrow!

Thinking of this, flowing maple and the others exchanged a few glances before standing up and taking their leave.

However, when they came to visit again the next day, the food they had was still roasted meat.

[Chapter 1915 Timely Assistance \(2\)](#)

They didn't want to give up, so they came for a few more days. But every day, Feng Da and the others treated them with barbecue, which made them gnash their teeth in hatred when they saw barbecue. After a few days, they put barbecue on their blacklist and decided not to eat barbecue again!

The alchemy master and Weapon master's competition was also nearing its end in a raging fire.

In reality, the duration of The Alchemist and armament master competition was very short. From the preliminary round, the semi-final round to the final round, there was only a total of six days. However, for the first five days, Leng ruoxue and the rest stayed at their own residence. On the final day, Leng ruoxue brought Feng Da and the rest to the audience seats.

Ji Yun knew that they would be coming to watch the battle today, so he had followed the Ji clansmen to the competition grounds early on. When he saw Leng ruoxue, he was so excited that he abandoned his clansmen and ran over to Leng ruoxue's side.

The elder leading the Ji family's team could only sigh helplessly.

However, the master of the Ji family was happy to see this. Ji Yun was his favorite grandson. He was naturally happy that Ji Yun had a few good friends. Furthermore, he could tell that Leng ruoxue and the others were not ordinary people. If Ji Yun could become friends with them before they became famous, it would be a great advantage for Ji Yun to inherit the Ji clan in the future!

Unfortunately, some people in the Ji family didn't think so.

Following closely behind Ji Yun, a young man was also walking towards Leng ruoxue and the rest.

When he saw Leng ruoxue and the rest, the young man immediately scowled and reprimanded, "Young master, this woman has caused our Ji family's eldest miss to suffer a fate worse than death. How can you ask a Tiger for its skin without distinguishing right from wrong? How can you face the young miss who loves you so much like this? She's your sister!"

"You shut up! The old ancestor said that injuries are inevitable in the competition and told us not to be calculative. You actually dare to disobey the old ancestor's words?" When Ji Yun heard the young man's words, he was so angry that he wanted to stuff a stinky sock into his mouth. "Damn it, why is there always such a self-righteous person?" Even though he had not spent much time with Leng ruoxue, he knew very well that she would not hurt her sister for no reason. He also knew what Ji minbao was up to. Hence, he naturally did not wish for his clansmen to misunderstand Leng ruoxue.

p However, he had obviously underestimated the lofty position Ji min held in the hearts of this group of young men in the Ji family. Ji min was a god-like figure in their hearts, but now she was seriously injured. Therefore, these brainless fans naturally had to stand up for their idol.

"Don't care? Young miss is so injured, how can we not be calculative?" The young man said with a face full of grief and indignation. The current Ji min was like a vegetable, half-paralyzed on the bed. Their hearts ached when they saw her. One had to know that Ji min used to be so high-spirited, but now she had become like this. How could they not be heartbroken?

"Then what do you want to do?" After hearing the young man's words, Leng ruoxue did not give Ji Yun a chance to speak and only asked indifferently.

"Ruoxue! "Don't listen to his nonsense. Our Ji clan has already come to a conclusion on this matter, so there's no need to pay attention to him ..." Ji Yun hurriedly said.

"You don't have to say anything. I want to hear what he has to say!" Leng ruoxue waved her hand, stopping Ji Yun from continuing. Seeing this, Ji Yun could only shut his mouth.

"Hmph! You hurt our family's young miss to that extent, you must pay for it with your life!" The young man said fiercely.

"Pay with my life? She didn't die, did she? What right do you have to make me pay for her life?" Leng ruoxue laughed coldly and thought to herself, 'this guy really has the guts to say that!' It looked like he really had nothing to fear! I really don't know who gave him the guts!

"Just because she's the young miss of the Ji family. You hurt her, so you have to be prepared to die!" The young man boasted shamelessly.

"Is that so?" Leng ruoxue smiled and continued, "If you don't know how Ji min got injured, I can forgive your rudeness. If you know, then don't think I'll let you go!"

"Hmph! What a big tone! I don't believe you can do anything to me!" The young man clearly didn't believe Leng ruoxue's words. After all, their Ji family had a certain status in the firmament and wasn't some nameless and insignificant family.

"You can try!" Leng ruoxue smiled nonchalantly. Then, her beautiful eyes turned towards Ji Yun, "Ji Yun, have you investigated Ji min's injuries?"

"It's clear. " Ji Yun nodded. In front of Leng ruoxue, he could not say anything that went against his heart.

"Do they know?" Leng ruoxue pointed at the young man in front of her.

"I know!" Ji Yun nodded. If he didn't know, Ji min's fans would have already made a fuss.

"If that's the case, then don't blame me for not showing mercy!" Leng ruoxue said emotionlessly. She knew the truth, yet she still came to make a scene in front of her. This kind of person could not be forgiven. Otherwise, she would make others think that she was easy to bully!

Following that, Leng ruoxue gave Feng Da a look. Feng Da understood and immediately grabbed the young man's collar and carried him out of the competition ground like he was carrying a little chick. In an instant, the competition ground was filled with the young man's cries of surprise!

"What are you guys doing? Quickly release me! Otherwise, the Ji family will never let you off!" The sound went from near to far, quickly disappearing from everyone's ears.

The crowd watched the show and observed the Ji family's reaction. However, seeing that the Ji family didn't make any moves because of this small matter, many people's mood to watch a good show slowly faded.

In fact, the young members of the Ji family still had some reactions. At least, they were quite angry, but they were all suppressed by the head of the Ji family. With the control of the head of the Ji family, even if they had any thoughts, they didn't dare to express them easily. Otherwise, the head of the Ji family would not let them off.

This little episode did not affect Leng ruoxue's mood to watch the competition. After they found their seats, they focused on watching the competition. As for Ji Yun, because of the accident just now, he felt embarrassed in front of Leng ruoxue and the others. However, seeing that no one had any intention of venting their anger on him, he gradually relaxed.

Today's first event was The Alchemist competition. There were a total of five alchemists participating in the final round. Three of them belonged to The Alchemist Guild headquarters, and the other two came from two small, unknown clans. However, after this battle, the status of those two small clans would also rise. Who asked their clans to produce an alchemy genius?

Seeing Leng ruoxue's focus on the competition, Liu Yue, who was sitting in front of her, turned around and asked, ""Little girl ruoxue, who do you think will be the champion of this elite gathering?"

"Is this a test?" Leng ruoxue retracted her gaze and asked with a faint smile.

"Hahaha! I just want to hear your opinion!" Liuyue said with a smile.

"I'm more optimistic about the one called jungle. " Leng ruoxue laughed.

[Chapter 1916 Timely Assistance \(3\)](#)

"Why?" Liuyue was a little surprised. Lin Lin was the one with the least experience in alchemy among the five, and his aptitude wasn't top-notch. To be honest, he was a little surprised that he could advance to the finals. After all, the alchemists who dared to participate in the competition all had a certain level of strength, and there wasn't much of a difference in their strength.

"His talent may not be the best, but he wins in hard work. As the saying goes, hard work makes up for it. That's why he's quite skilled in pill concoction. Because he knows what he's lacking, he can see his strengths and weaknesses. This is the so-called "well-prepared!" Leng ruoxue gave a simple analysis.

However, alchemy was a profession that burned money. Before becoming famous, it was not easy for an ordinary Alchemist to refine good pills. After all, no one would be stupid enough to hand over their precious herbs to an unknown Alchemist to refine pills. The loss would be immeasurable. And from the clothes of this Alchemist named Lin Lin, his alchemy career had not been smooth sailing. His days were even more tight. The resources that could be provided for him were pitifully few. Otherwise, he would not be so sloppy. The medicinal pills that he refined were so ordinary that they could not be more ordinary.

If Leng ruoxue's guess was correct, Lin Jian was definitely trying to get a high score in the first two rounds. This way, he would have a higher chance of competing with the other four alchemists.

The finals between alchemists and blacksmiths were divided into three rounds. The first two rounds tested ordinary pills and equipment. It wasn't difficult to gather the materials, but the simpler something was, the more it tested a person's basic skills. Therefore, if Lin Jun wanted to get a good result in the competition, he naturally had to show his full strength. As for the last round, it was the refinement of pills of his own choice.

The so-called free choice of pills, in addition to the pill that one was best at, one also had to test the grade, quality, and so on. These were all important criteria for scoring. After all, although the profession of an Alchemist was respected, the personal ability and connections of an Alchemist were also very important. If an Alchemist could not even support himself, then he could only be regarded as a failed Alchemist!

However, Leng ruoxue was very curious. What kind of pill would be refined in the last round?

Looking at the bright and beautiful clothes of the other four, and the confident smiles on their faces, it was not difficult to see that they had good resources on hand, but the jungle ...

"Ruoxue, your taste is indeed different! Even though Forest made it to the finals, did you know? Many people were not optimistic about him and even thought that he would stop at the top five. It would be difficult for him to go any further. Although his Foundation is not bad and his score in the first few rounds of pill refining is very high, his score in choosing his own pill is not very ideal. This also pulled down his ranking. Otherwise, with his foundation strength, he could definitely enter the top three." Liuyue said with a look of regret.

"Why? No good herbs?" Leng ruoxue guessed. To an Alchemist, the quality of the medicinal ingredients would determine the grade and quality of the pill. This was especially so in such an important competition. If he could concoct a Supreme grade pill that no one else could, then the champion would definitely be him.

"That's only one aspect. According to our guess, he probably hasn't refined any high-grade pills. After all, his family can only provide him with very few resources. They're just a small family in decline, and his aptitude isn't the best. Naturally, it's impossible for them to fully support him in alchemy." Liuyue said indifferently.

In fact, there was another fact that he didn't say. Lin Lin's family clan had not only sent one Alchemist to participate in this competition, and the treatment of another Alchemist was obviously better than his. It was obvious that he wasn't The Alchemist that the family clan had nurtured with all their might. Unfortunately, The Alchemist that the family had nurtured with all their might had very average results, while the unknown and ordinary-looking Lin Lin had amazed everyone with a single brilliant feat! I wonder if this is a big irony? The families in the forest must be regretting their decisions now.

In fact, Liuyue had guessed correctly. The head of the Cong family, who was where Lin en was, looked at Lin en, who was dressed shabbily on the stage, and was filled with regret. Although their family had sent Lin en to participate in The Alchemist competition, they had not thought highly of Lin en at all. Naturally, they had not spent much effort to prepare any good medicinal herbs for him. After all, in their eyes, Lin en was only there to make up the numbers, and it was precisely because of this that the Cong family had become famous!

However, when he saw the strange looks from the other families, the master of the Cong family felt his face burn. Unfortunately, it was too late to prepare the medicinal herbs for the forest. After all, time waited for no one!

Al! The master of the Cong family sighed. He had a chance to get a better result, but he was satisfied to get fifth place! After all, the Cong family had never achieved such a good result before. Because of the jungle, the Cong family could finally hold their heads high. However, the jungle ... He was a little conflicted when he thought about it.

However, Lin Jian, who was focused on refining pills on the arena, had no time to understand the depressed mood of the Cong family's head. The only thing he was thinking about was to try his best to complete the competition perfectly.

The first two rounds of The Alchemist competition quickly came to an end under everyone's anticipation. Lin Yun was ranked second among the five alchemists with a one point difference. This result was already quite satisfying for Lin Yun and had exceeded his expectations. After all, the three alchemists of The Alchemist Guild headquarters were not to be underestimated!

After the first two rounds of the competition, the five alchemists would be given time to rest. Therefore, the last round was scheduled for the afternoon.

What followed after was the competition of the blacksmiths.

The five participants of the blacksmith's competition were of equal strength and all of them belonged to the blacksmith's Association, so there wasn't much suspense. Everyone's anticipation turned to the alchemist's competition that would take place in the afternoon.

After the first two rounds of The Alchemist competition, Leng ruoxue whispered a few words to Feng Da. Feng Da nodded and left his seat.

Liuyue and the others could not help but ask curiously, ""Ruoxue, what did you ask Feng Da to do?"

"Hahaha! The secrets of heaven must not be divulged!" Leng ruoxue said with a mysterious look.

Liuyue and the others were helpless when Leng ruoxue kept them in suspense.

Time passed in the anticipation of the crowd.

In the afternoon.

The last round of the blacksmith's competition was the first to take place.

However, there wasn't much suspense in the blacksmith's competition, so the spectators were a little dispirited. The final winner of the blacksmith's competition was also within their expectations, so more people set their eyes on The Alchemist competition that was about to take place.

Because the five participants of The Alchemist competition had similar results, no one could predict who would win the championship. However, they knew that whoever could refine a Supreme grade pill that no one else could refine in the last round would win!

"Ruoxue, are you still optimistic about the forest?" In the audience, Liuyue asked with a smile.

"Of course! I believe in my own judgment!" Leng ruoxue said with a confident smile. Then, she turned her beautiful eyes to the five alchemists who were making their preparations on the stage in the middle of the competition ground.

At this time, the five alchemists were already seated in their respective positions and carefully checking their pill furnaces. Then, other than Lin Lin, the other four took out the medicinal ingredients they had prepared earlier from their storage rings, confidently waiting for the final round to begin.

The last round of the competition was extremely important to The Alchemist Guild headquarters. Hence, Shen nuo personally took on the role of the judge. When Shen nuo saw that the other four had already prepared the medicinal ingredients, and among them were quite a few precious medicinal ingredients, but when he saw that there was nothing in front of the forest, his heart felt a little conflicted.

In fact, he quite admired Lin Yun. This Alchemist's aptitude was not very outstanding, but his understanding of alchemy and his care for medicinal herbs far exceeded other alchemists. The only pity was that their Alchemist Guild headquarters had discovered this talent too late. Otherwise, they would have accepted him into The Alchemist Guild headquarters earlier. With Lin Yun's diligence, he was bound to have a different kind of achievement. Perhaps he could have become an honorable master of alchemy by now.

What a pity! Without good medicinal materials, it was naturally impossible to refine higher grade medicinal pills, and it was difficult to make great progress in the achievement of alchemy master. Therefore, the alchemy master level of the jungle could only barely maintain the strength of an alchemy Grandmaster. This was also because his basic skills were solid, and he could use ordinary medicinal materials to refine pills that were suitable for the level of an alchemy Grandmaster. Otherwise, he would not even be able to reach the level of an alchemy Grandmaster.

Al! Shen nuo sighed softly, feeling extremely regretful in her heart. However, what made him even more conflicted was that Lin Lin was actually unwilling to become The Alchemist Guild's exclusive Alchemist, just because the Guild had once rejected him. Although he did not understand the course of this matter, from this, he could see that Lin Lin was an Alchemist with a very strong sense of self-esteem. And for such a proud person, unless there was a true Bo Le who appreciated him, otherwise, it would be very difficult for him to survive in this world.

Immediately after, Shen nuo's eyes widened.

Not only him, but the judges and the other four alchemists on the stage also widened their eyes in unison, as if they had seen a ghost!

What did they just see?

They actually saw the jungle taking out medicinal herbs from the storage ring. In fact, this shouldn't have surprised them. Unfortunately, the medicinal herbs taken out from the jungle were better than the ones they had prepared. There were also a few more that they didn't even dare to think about!

Look at that fire ginseng, even though it's only a small piece, the spiritual energy is so dense that it's unbelievable!

And the petals of the fire Lotus were also as dazzling as fire, crystal clear like jade, beautiful beyond words!

And ...

[Chapter 1917 A Fountain Of Return \(1\)](#)

The four participants stared at the medicinal herbs taken out by the forest with envy, jealousy, and hatred on their faces. The sour bubbles in their hearts kept rolling. Among those medicinal herbs, there were several kinds that were hard to find even with thousands of gold. Not to mention that they couldn't get them, even if their families had the money, they might not be able to buy them. More importantly, even if their families had them, they wouldn't easily take them out and let them use them to participate in the competition. After all, no one could afford the failure rate of the medicinal pills. It was also not something that alchemists of their level could afford to use.

To put it bluntly, he was afraid of wasting it.

Was this person really the forest that his grandmother didn't love and his uncle didn't love? Seeing those Supreme-grade herbs, the few of them were uncertain. After all, they had never regarded the forest as their biggest opponent before. But now, they didn't dare to take the forest lightly.

After Lin Jie took out the medicinal herbs he needed, he obviously felt many strange gazes. However, he didn't care, and could understand their feelings! After all, when he first saw these medicinal herbs, he probably lost his composure even more than them. He never thought that these medicinal herbs could be used for the competition.

Although he also felt that this was a bit extravagant, that person was right. Medicinal materials were used to refine pills. If one was afraid of failure, what kind of Alchemist was he? He even told him that

alchemists were built on piles of medicinal herbs, and that an Alchemist who had never used Supreme-grade medicinal herbs would never become the best Alchemist.

After hearing these words, he was moved. At the same time, he felt that he owed her too much. It was easy to add flowers to a brocade, but not just anyone could give charcoal in the snow. The charcoal was too valuable, which made him panic. What made him even more uneasy was that the other party didn't ask him for anything, which made him even more at a loss. However, for the sake of this competition, he was willing to give it his all. No matter what the other party wanted him to do after the event, as long as it didn't go against his conscience. He would do it all!

Lin Jian decided in his heart. However, if he knew that the person who gave him the medicinal herbs had no request for him, he would probably not think this way and would instead feel depressed.

The people on the stage were shocked by the herbs taken out by the forest, and those in the audience who had a certain understanding of herbs were also shocked.

Especially the master of the Cong family, who felt deeply uneasy when he saw the medicinal herbs taken out by the forest.

It wasn't easy for the clan to produce an Alchemist with a bright future, and he was still hoping that the jungle could do more for the clan! Could it be that the forest was going to be dug away by other forces before it could benefit the family? This fact made him feel particularly uncomfortable.

However, he knew very well that the power that could produce these herbs was definitely not an ordinary small power. Lin Jian didn't have much sense of belonging to the family. More importantly, the family had helped Lin Jian very little. So, he wasn't confident in convincing Lin Jian with the family's righteousness.

Al! The master of the Cong family sighed again and again, his brows furrowed together. In the face of those families who came to congratulate him, he also forced a smile and dealt with them. In fact, he knew the pain in his heart!

At this moment, Liuyue, who was sitting in front of Leng ruoxue, also turned his head and stared deeply at Leng ruoxue. He did not say anything, but his thoughtful gaze made Leng ruoxue's hair stand on end.

"Sir Liuyue, why are you looking at me like that? I'm scared." Leng ruoxue asked carefully.

"Xue 'er, the herbs we took out from the forest were provided by you, right?" Liuyue said indifferently. His tone was absolutely certain and not a question.

"En!" Leng ruoxue nodded, not denying it.

"You're really generous!" Liuyue's tone was a little sour. In fact, he was really jealous. Every herb that this little girl took out was of the highest quality. Whether it was the fire ginseng or the snow Lotus petal, they were at least a thousand years old. Such priceless herbs had actually appeared in an alchemy competition. If the refinement was successful, it would be fine, but if it failed, wouldn't it be a waste of God's gifts?

"Uh!" Hearing Liuyue's tone, Leng ruoxue didn't know how to continue. Could she say that this was already the most common medicinal herb she could offer? Of course not. Otherwise, it would be too infuriating. Hence, she could only remain silent.

"Hand it over!" After a long while, Liuyue, who was glaring at Leng ruoxue, spoke again. She extended her hand in front of Leng ruoxue and said without any trace of politeness.

"What do you want?" Leng ruoxue blinked her eyes and pretended to be confused.

"Fire ginseng! I have a pill that I need!" Liuyue did not hold back at all.

"Oh!" Leng ruoxue acknowledged and took out a fiery-red jade box from her bangle. She handed it to Liuyue, who put it away without even looking at it to avoid attracting too much attention. However, the dense fire-attribute spiritual Qi still made the people around them feel invigorated. However, when they wanted to search for it, the faint fire attribute spiritual Qi had already disappeared.

"Little girl, what other good things do you have? shouldn't you share some with me?" Seeing the flowing flames ginseng in his hands, Flowing maple laughed, unwilling to be left out.

However, Leng ruoxue rolled her eyes at him!

"Little girl, you're clearly being treated differently! Wu...You can't bully people like this!" Liu Feng's Starry Eyes were filled with tears as he spoke with a wronged expression. Unfortunately, his pitiful act was ignored by the crowd. Feng Da even covered his mouth and indicated that the competition on stage had already begun.

Flowing maple immediately quieted down and shifted his gaze to the stage. After all, he still had to abide by basic professional ethics.

At this moment, the entire arena was completely silent. The only sounds that could be heard were the sounds of the furnace's fire burning and the slight sounds of the medicinal ingredients melting. Everyone's eyes were all focused on the stage, and the five people on the stage had all their attention focused on the medicinal ingredients. They watched the medicinal ingredients slowly melt one by one, then purify and finally form pills. The movements of the five people were as smooth as floating clouds and flowing water.

An hour and a half later.

Other than the four alchemists outside the forest, all of them had completed the refining process. Only the forest was still waiting according to the refining steps in an orderly manner.

The Alchemist competition also had a time limit. The first two rounds were one hour each, and the third round was two hours. In other words, within two hours, no matter how high the grade of your pill was, you had to complete your refinement. Otherwise, it would be considered a failure!

Such a rule was also to remind alchemists to know their own limits, and not to blindly pursue high-grade medicinal pills and ignore their own true strength. This could also be considered as tempering their will! After all, as an Alchemist, being neither arrogant nor impatient was a basic quality that they had to have.

There was still half an hour left until the end of the competition. Many people on and off the stage couldn't help but feel worried for Lin Lin. They knew that the higher the grade of the herb, the longer it

would take to produce the pill. Therefore, they were very worried that Lin Lin wouldn't be able to complete the pill refinement in the stipulated time. If that was the case, it would be a pity.

[Chapter 1918 A Fountain Of Return \(2\)](#)

At this moment, Shen nuo, who was on the stage, was also carefully observing Lin Jian's reaction. Seeing that he was still as calm as before, she could not help but nod her head slightly. It looked like this young man was very clear about what he was doing, and did not become anxious just because the others had completed their refinements. However, he was a little worried that Lin Jian's medicinal pill would not be successfully refined.

Looking at the herbs Lin Jian had taken out, he knew clearly that Lin Jian wanted to make the fire property dual polarity pill. The dual polarity pill was a pill that could increase the divine power of fire property. It was very beneficial to cultivation and could even be taken by a divine man. However, good fire ginseng and fire Lotus were hard to find. Therefore, a good dual polarity pill was hard to find. The dual polarity pill was also one of the best Pills that a respected Alchemist could make. If one was lucky, the dual polarity pill might even reach the level of a divine pill, This was also the main reason why the dual polarity pill was so popular.

However, with his current level, he could barely be considered an alchemy Grandmaster. If he could refine the dual polarity pill, then didn't that mean that he could become an alchemy Grandmaster?

Thinking of this, he was even more excited about whether the forest could refine a Supreme-grade dual polarity pill. After all, the herbs taken out by the forest were all of the highest quality.

As time slowly passed, half an hour's time slowly passed. The time for the competition was getting closer and closer, and everyone's hearts were in their throats.

"There's only one minute left in the game!" The judge announced.

At the same time, Lin Jian took a deep breath and opened the pill furnace with great sincerity. A refreshing fragrance instantly entered everyone's nose. Everyone on and off the stage couldn't help but take a deep breath. Instantly, they felt refreshed!

Looking at the fiery red elixir lying quietly in the furnace, Lin Jian's heart was filled with joy. He immediately took out the Jade bottle he had prepared in advance and quickly put the fiery red dual polarity pill into the bottle. Although he had only refined five elixirs, he had succeeded on his first try. The joy in his heart could not be described with words!

In fact, it was very risky to refine an elixir that he had never refined before in the competition. However, when he saw the medicinal herbs that the man gave him, he only thought of the dual polarity pill. If he refined the Supreme grade fire ginseng and fire Lotus into other elixir, he always felt that he would be unworthy of the value of these two rare medicinal herbs. Therefore, he decided to take the risk. Fortunately, he did not let these two medicinal herbs down.

After handing over the refined pills to the judge, the five alchemists retreated to the side and waited for the results.

The judges on the judging panel took the pills refined by the five Alchemist Masters and compared them in order. In the end, they were stuck between the forest and another Alchemist from The Alchemist Guild headquarters.

Lin Lin and that Alchemist were both alchemy grandmasters, but both of them had refined pills that were higher than their current Alchemist level. Moreover, the grade and quality of the pills they refined were not much different. Therefore, it was difficult for them to make a choice when it came to judging.

But what made them even more conflicted was that both of them had the strength to win the championship, but if they chose that Alchemist from The Alchemist Guild headquarters, people would probably say that their Alchemist Guild headquarters was selfish. But if they chose the forest, they would feel a bit ... In short, it wasn't very easy to do!

For third to fifth place, they had long since agreed on the answer, and there was no suspense. However, they were stuck in the top two. This was also a problem that rarely appeared in any Alchemist competition, but now it had really appeared.

The audience couldn't help but whisper to each other as they watched the judges whisper to each other, but the final result still hadn't been announced.

"What's going on? Are the results not out yet?"

"Who knows! The judges seem to be in a difficult position!"

The crowd was in a heated discussion. They could all see the judges' dilemma.

"Xue'er, you've really given the judges a lot of trouble." Hearing the crowd's soft discussion, flux bead turned around and smiled.

"Really?" Leng ruoxue said with a smile that was not a smile. Everyone had their own selfish motives, and the judges on stage were no exception. In fact, from her point of view, this was not a troublesome matter. Furthermore, she did not think that this was something that was difficult to judge.

The value of the pills concocted by the two alchemists might be the same, but in terms of usage, the forest's dual polarity pill had a wider range of uses. After all, the forest's dual polarity pill could be consumed by either a divine man or a Hierarch. However, the pill concocted by The Alchemist had to be at least a divine Emperor to be consumed. However, as a divine Emperor, how could he be interested in a sacred level pill that was not even a divine pill?

Thus, the difference in power was obvious. Leng ruoxue deeply felt that there was no need for the judges to be so conflicted. However, it was obvious that they would not be as fair as Leng ruoxue.

After an unknown amount of time, the judges' results were finally out.

In the end, Lin Lin obtained the crown of The Alchemist competition with a slight advantage. Leng ruoxue was very clear that this result was due to Shen nuo's firm decision. Otherwise, the judges would probably continue to be at a loss.

The Cong family's head was all smiles when Lin Jian won the championship. The congratulatory words from many families made the members of the Cong family feel proud ...

The moment the results of the competition were out, Leng ruoxue brought her men back to her residence.

After The Alchemist and weapon refiner's competition ended, only the beast race's competition remained.

However, according to the Divine Master's estate's arrangements, the beast race's competition would begin in three days.

On the other hand, many clans were not interested in the competition between the magical beasts. As a result, they left the divine lord's estate the next day as soon as the alchemists and blacksmiths' competition ended.

Initially, Huan Chen had hoped that Leng ruoxue would leave with the other clans. However, Leng ruoxue was very interested in the beast race's competition and her beasts wanted to watch the competition as well. Hence, Leng ruoxue had ignored Huan Chen's suggestion and chose to stay.

However, there were not many human families who chose to stay and continue to watch the battle.

For a moment, the Imperial City was much quieter.

Before the start of the beast race's competition, Leng ruoxue received a few more uninvited guests.

One of them was the forest.

As she looked at Lin Qiao, who was standing in front of her with a cautious expression and a little at a loss, Leng ruoxue tried her best to appear friendly. She smiled and asked, "Is there something you need from me, Sir jungle?" The forest was no longer the same as it was in the past. Moreover, after Shen nuo's personal examination yesterday, he had become an honorable Alchemist teacher.

"I ... I'm here to thank miss Leng." Lin Lin stammered as he looked at the devastatingly beautiful Leng ruoxue. He had never dreamed that his benefactor would be a woman, and such a young one at that. Lin Lin, who had never interacted with a woman before, was so nervous that his hands and feet were stiff and he did not know where to put them.

"There's no need to thank me. I didn't give you the medicinal herbs for you to thank me." Leng ruoxue replied nonchalantly. The medicinal herbs that were sent to the forest were merely a drop in the ocean to her. They were not even worth mentioning.

[Chapter 1919 A Fountain Of Return \(3\)](#)

"Then I wonder if miss Leng has any requirements for me?" Lin Lin thought for a moment and asked hesitantly. He wasn't really insensible. Leng ruoxue had helped him so much, and he didn't believe that she wouldn't want anything in return. However, if he asked so directly, he felt that she was being very realistic. He felt that he had let Leng ruoxue down, which was why he was hesitant. However, he was a straightforward person and wouldn't beat around the bush.

"No, I didn't!" Leng ruoxue said indifferently.

"Uh!" When Lin Lin heard Leng ruoxue's words, he could not help but widen his eyes. Did he dare to believe this? He had given him such precious medicinal herbs, how could he not have any requests at all? Even a three-year-old child would be suspicious of this, right?

"To me, giving you some medicinal herbs is as easy as lifting a finger. Just treat me as a person who appreciates talent! I also don't want a pill master talent to be buried. You have the strength to win the championship, if you're stuck on medicinal ingredients, I'll feel sorry for you." Leng ruoxue said sincerely. When she delivered the herbs from the forest, she had never thought of asking him for anything in return. After all, she had always done things according to her mood and according to her heart's desire. If she wanted to do it, she would do it. If she didn't want to do it, no one could force her to do it. Therefore, whenever she decided to do something, she would do it willingly and naturally would not ask for anything in return.

However, Lin MU's heart was moved by Leng ruoxue's words.

He didn't know what to say. An outsider treated him like this, but his own clansmen ... Now that he had won the championship, his clansmen began to think of ways to flatter him, but who knew that this wasn't what he wanted?

All along, he had only wanted the acknowledgment of his clan and his family. However, when he won the championship, these feelings that he had been longing for came late. Now, he realized that these were not what he wanted. It could also be said that these feelings came too late. They were so late that he no longer needed them.

Because he was very clear that what he wanted was coal in the snow, not flowers on top of a brocade.

If a Clansman was willing to lend him a helping hand when he was at his lowest, then he would definitely treat that person as a family member. However, when he faced those clansmen now, he did not have such a feeling. He felt more like he was experiencing the fickleness of human nature.

After lowering his head in deep thought for a long time, Lin Jian raised his head and looked at Leng ruoxue with a determined expression, "Miss Leng, I'm indebted to you. Although I'm not good at anything and only know how to refine pills, I have a firm heart. I'm willing to follow you from now on and be loyal to you forever. Please accept me!"

After he finished speaking, Lin Lin knelt down on one knee and looked at Leng ruoxue with anticipation.

After winning the championship, there were countless forces that wanted to recruit him, but he didn't accept any of them. Now that he had chosen Leng ruoxue, it was mostly to repay her kindness.

A drop of water knows kindness as a fountain to repay! That was the only thought he had at the moment!

Leng ruoxue was a little surprised when she heard Lin Jian's words.

Then, she smiled and said softly, "I'm just a small family, I'm afraid I can't accommodate a Big Buddha like you!"

"Miss Leng, do you despise me?" Lin Lin said with an aggrieved expression. Wu ... He could tell that miss Leng didn't fancy him. This made him feel very upset.

"I'm telling the truth. As far as I know, there are a few families in the eight divine domains that have extended an olive branch to you. The treatment they've given you is something that I can't give you. You're also an Alchemist with a great future. I don't want to bury you." Leng ruoxue was very sincere, but there was also a hint of probing in her words.

"But, I'm not indebted to them." Lin Lin said stubbornly as he looked at Leng ruoxue with a face full of hidden bitterness. He had not expected that the decision he had made with great difficulty would be rejected.

"The kindness of knowing someone is only temporary. You should look further." Leng ruoxue reminded him. In other words, he should be able to see his own future development. That was the most important thing.

"It's very important to me. If it weren't for your timely help, I wouldn't be who I am today. Those super forces wouldn't even consider me. That's why I don't want them. I ... Just want to follow you. It's fine even if you can't provide me with any good resources. Now that I'm a little famous, I believe that there will be many people who want to ask me to refine medicinal pills. So, you don't have to worry about this! I'll find a way for the herbs myself." Lin Cong hurriedly said.

At this moment, he was only thinking about how to get Leng ruoxue to take him in. He had completely forgotten that since Leng ruoxue could give him such good medicinal herbs, how could she be someone who lacked medicinal herbs? However, it was also his sincere words that moved Leng ruoxue and allowed her to pass the test she gave him.

"Since you've said so, I'll take you in." Leng ruoxue said calmly.

"Thank you, miss!" Lin Lin said hurriedly. He knew that Feng Da always addressed Leng ruoxue as miss.

Following that, he immediately swore a loyalty oath to show that he truly wanted to follow Leng ruoxue and never betray her.

Seeing him like this, Leng ruoxue didn't stop him. However, by doing this, Leng ruoxue had really treated him as one of her own.

However, when the family in the jungle found out that the jungle had found a master who didn't have much power for them, their reaction was unusually intense! The few elders of the Cong family were especially furious. They wanted to settle scores with Leng ruoxue immediately, but the Lin family did not give them the chance to do so. They only warned them that if they dared to cause trouble for Leng ruoxue, he would immediately announce his departure from the family. The members of the Cong family were afraid.

Although Lin Yun didn't have much of a sense of belonging to the clan, as long as he was still a member of the Cong family, no clan would dare to look down on them. Moreover, Lin Yun was so popular now. They naturally couldn't bear to give up on this Alchemist who could lay golden eggs. Thus, they could only reluctantly agree to Lin Yun's decision. In fact, they had no choice but to agree!

Leng ruoxue found out about this very quickly. However, she did not tell anyone about it. She was even more satisfied with the forest.

Although that guy didn't talk much, he was a very decisive person, and he wasn't pedantic. This was what she was most satisfied with.

After settling the matters in the forest, Leng ruoxue welcomed another important figure from the Ji family, the master of the Ji family.

In the living room.

The master of the Ji family sat on a chair and sipped his tea. At the same time, he would lift his eyelids from time to time to size up Leng ruoxue. He could not help but exclaim in admiration.

Although this little girl was young, her mental fortitude was not something that ordinary people could compare to. He had been here for a while, and other than the initial greeting, he had not said anything. However, this little girl had actually held her breath and did not take the initiative to ask him why he had come. This could not help but make him look at her in a new light, but at the same time, he was a little depressed.

"Miss Leng, I often hear Yun 'er mention you." After a long while, the master of the Ji family couldn't help but try to find a topic.

"Oh!" Leng ruoxue only replied with an indifferent 'Oh' and did not have any other reaction. This fact made the master of the Ji family even more frustrated.

"It's all thanks to you for taking care of Yun 'er in the special space. " The patriarch of the Ji family continued helplessly.

"Yes." Leng ruoxue nodded.

"I say, little girl, can't you just say a few more words?" Finally, the master of the Ji family went crazy!

"I want to say more, but you're always talking nonsense. I really don't know how to respond to you except for 'Oh,'" This time, Leng ruoxue was more talkative. However, family head Ji seemed to be even more depressed because Leng ruoxue had actually said that everything he said was nonsense!

"Little girl, I'm the head of the Ji family. Can't you leave me some face?" After a long while, master Ji said to Leng ruoxue with an aggrieved expression. He could tell that this little girl was difficult to deal with, and Yun 'er could not compare to her.

"I'm already giving you face by letting you in. If it were someone else, I wouldn't even let him in." Leng ruoxue spoke the truth. In reality, many families had come to visit her. However, she had used all sorts of reasons to block them at the door. Furthermore, she couldn't figure out why those families had come to see her. She didn't seem to have any outstanding points in this competition, right? Although she was inextricably linked to the ning family, this was not enough to be a real reason for them to visit her, right?

That was what Leng ruoxue thought, but she had underestimated the determination of those families to form a relationship with the ning family. Furthermore, she had never thought that she had any influence on the ning family, so naturally, she could not understand the thoughts of those families.

"Uh! Alright! Consider my face big. " Hearing Leng ruoxue's words and seeing her unusually serious expression, the Ji family's head said helplessly.

"Then, can you directly state your purpose of visit now?" Leng ruoxue asked with a smile.

"Hehe! I just came to see you. " Clan master Ji laughed awkwardly, but when he saw Leng ruoxue's half-smile, he quickly added,"I also want to ask you for a pill."

"Are you really just here to ask for pills?" Leng ruoxue asked indifferently.

"Uh! I'm mainly here for medicinal pills, this should be fine, right?" The patriarch of the Ji family changed his words, but he couldn't help sighing in his heart. He was a famous figure in the immortal realm, but now he felt so much pressure in front of a little girl! What the hell is this! The more he thought about it, the more depressed he became!

[Chapter 1920 Search And Rescue \(1\)](#)

Leng ruoxue smiled faintly when she saw the bitter expression on patriarch Ji's face, ""Patriarch Ji should have been so direct, but shouldn't you go to an Alchemist if you want pills? Why are you looking for me?" As she said this, Leng ruoxue's face was filled with astonishment.

"Uh! "This ..." The patriarch of the Ji clan had a headache. Could he say that it was the people from The Alchemist Guild headquarters who sent him here? He didn't know how Leng ruoxue had such a good relationship with The Alchemist Guild headquarters. When they heard that he needed healing pills for Ji min, they didn't even dare to sell it to him. Even if he provided the medicinal ingredients and a huge sum of money, they wouldn't sell it to him, let alone help him refine it. This fact made him feel rather helpless. At the same time, he also realized the important position Leng ruoxue held in The Alchemist Guild headquarters. In the firmament, one could offend anyone but an Alchemist. Hence, he could only come to Leng ruoxue personally. He just didn't know if Leng ruoxue would be willing to give him face. He didn't have any confidence in this.

"What's this? Is it so hard for patriarch Ji to say?" Leng ruoxue's beautiful face had a carefree smile on it as she replied indifferently.

"Uh! Yes, I am!" The master of the Ji family nodded. It was indeed difficult to say this.

"In that case, I suggest you don't say it." Leng ruoxue suggested with good intentions. Actually, from the moment this old man said that he wanted to ask for the pills, she already knew his intentions. However, she would not take the initiative to say this!

"Uh!" When master Ji heard Leng ruoxue's words, he was a little dumbfounded. Even though he didn't dare to call the wind and summon the rain in the divinity, he at least had some face. However, he never dreamed that he would meet such a difficult girl like Leng ruoxue one day. She knew that he had a favor to ask of her, but she still advised him not to say anything. If she didn't say anything, why would he come here?

"What's wrong? It's you who said it's hard to say. Since it's so hard for you to say, it's definitely something that'll put me in a difficult position. So, for the good of all of us, it's better not to say it!" Leng ruoxue blinked her beautiful eyes as she replied matter-of-factly.

The patriarch of the Ji family was speechless.

Alright! He admitted that what Leng ruoxue said was true. This matter would indeed put Leng ruoxue in a difficult position. However, he had to say it!

"Miss Leng, I wonder if you can give Yun 'er face and have The Alchemist Guild's Alchemist sell us a healing medicinal pill?" After making up his mind, the master of the Ji family made up his mind and said straightforwardly.

"Patriarch Ji, how could an Alchemist from The Alchemist Guild headquarters listen to me? have you found the wrong person?" Leng ruoxue looked at patriarch Ji in confusion.

"I didn't find the wrong one! Without your permission, the alchemists of The Alchemist Guild headquarters won't sell me healing pills at all. Even if I provide the medicinal ingredients and pay them a high price to refine them, they won't be willing. " When patriarch Ji said this, his face was full of hidden bitterness.

"How is that possible? The Alchemist Guild headquarters probably wouldn't push away their business, so patriarch Ji must have misunderstood. " Leng ruoxue still didn't quite believe the words of this old man from the Ji family. In the entire Alchemist Guild headquarters, she only knew two people. One was Liuyue, and the other was Shen nuo. Moreover, these two people didn't seem like people who would be selfish, so old man Ji's words were still worth suspecting.

"I didn't misunderstand. An Alchemist I'm close to personally told me, so I can only come and beg you." The patriarch of the Ji family said honestly.

"Oh! So you're here to ask me for healing pills? Don't tell me the Ji family doesn't even have a single healing pill?" Leng ruoxue said with a look of disbelief. The thing that these clans in the God World didn't lack the least was healing medicinal pills. This was an essential item. After all, injuries were inevitable. Therefore, these medicinal pills were usually prepared in advance.

"I do, but I need a Supreme-grade healing pill." The Ji family member said with some heartache. Supreme-grade healing pills cost a lot of money, and just thinking about it made his heart ache.

"Is there anyone in the Ji family who is seriously injured?" Leng ruoxue said in realization.

"It's Ji min!" The head of the Ji family said in a low voice.

"Ji min!" Leng ruoxue deliberately dragged out her words. Then, she took out a contract from her bangle and passed it to patriarch Ji. Patriarch Ji was confused, but after opening it and taking a look, his expression turned extremely ugly.

That damned girl, she actually signed such a contract. Wasn't she courting death? Even though he had no idea why Ji min had fought with Leng ruoxue and was even so heavily injured, there was no doubt that Ji min had been injured by his divine skill. Hence, it was not appropriate for him to cause trouble for Leng ruoxue because of this. He even had to warn his clansmen to be more well-behaved and not to provoke Leng ruoxue. However, when he saw this contract, he was truly enraged!

"The young lady of the Ji family had designs on my man and even wanted to kill me to replace him. Do you think I should be a Saint and save her? I might as well tell you the truth. The reason I spared her life back then was because of Ji Yun, so I think it's better for her to be in her current state. At least she's a lot more obedient. " Leng ruoxue said with a half-smile.

Hearing Leng ruoxue's words, clan head Ji knew that begging Leng ruoxue would not work. Actually, he couldn't blame her for not willing to save him. If it were him, he probably wouldn't want to save someone who had ulterior motives. After understanding this fact, clan head Ji sat for a while longer before he stood up and left.

After patriarch Ji left, Leng ruoxue immediately went to look for Liuyue, wanting to ask him what was going on. However, Liuyue's answer made her feel even more speechless.

"This matter! It's Liufeng's doing. " Liuyue said with a faint smile in the room.

"Uh! How did his hand reach into The Alchemist Guild headquarters? Don't you have anyone to do something about it?" Leng ruoxue was sweating. This Liu Feng was the Vice Guild Master of the armament Guild headquarters, but he actually took charge of The Alchemist Guild headquarters 'matters. Wasn't this a little like a dog taking a mouse?

"What's there to care about? he just wants to get back at you! Moreover, we've also acquiesced to it. " Liuyue said with a smirk.

"No wonder!" Leng ruoxue sighed softly.

"Little girl, old man Ji is looking for you?" Liuyue said.

"Yes, but I rejected him." Leng ruoxue said honestly.

"Good rejection, that Ji min must be taught a lesson, Hmph! To dare to bully our family's girl, you must be tired of living. " Liuyue's face was cold, and she was very displeased.

Our girl? She was his! Leng ruoxue secretly complained to herself. However, she felt warm in her heart when she heard Liuyue's words because she knew very well that Liuyue and Liufeng wanted to back her up. The feeling of being hugged by someone's thigh was really good!

"Girl, when do you plan to leave this place?" Liuyue asked again.

"I want to watch the beast race's competition. I'll leave after that." Leng ruoxue said.

"Oh! At that time, we will go with you and take a look at your territory and recognize the door!" Liuyue said with a smile.

"Little girl, don't tell me you don't welcome us?" Liuyue asked on purpose when she saw Leng ruoxue's shocked expression.
